ON THE COVER

2022 Drag Specialties OldBook Bike—

Drag Specialties is excited to feature a 1967 Harley-Davidson FL customized by Mark Shadley of Shadley Bros. Motorcycles, as the 2022-23 OldBook cover bike. The Shadleys, lifelong enthusiasts and full-time custom bike builders, are well-known for their many high quality, strong running custom bike builds.

"I had this bike on hand when the conversation started with Drag Specialties about a cover bike build," Shadley said. "The bike is a generator-model Shovelhead motor, these were only available in a four-year period: 1966 thru 1969, so it is a somewhat rare bike to start with, it was a very good candidate for the build."

The stock displacement was 74". "This one has been punched out to 93"," said Shadley, "to give it a little more wind." It is modified with S&S Super Stock™ cylinder heads and an S&S flywheel to give it the added cubic inches and power output.

The transmission gears are a close-ratio 4-speed set from Andrews. "I got the transmission kit right out of the Drag Specialties catalog," Shadley said. A stronger clutch setup and transmission sprockets also went into the improved, rebuilt drivetrain.

Shadley added an electronic ignition system and a later-model style starter. He also upgraded the charging system, the wiring and used LED lights for the signals and brake lights.

"When you build a bike for Drag Specialties, you focus on what is available in the catalog," Shadley said. "There is a lot in there! The idea is to make the build accessible, not stray too far. I wanted to add some modern touches, but still keep the build looking correct for the time period."

The rear end features a "juice brake" setup. "It is a drum brake, but it is hydraulic powered," Shadley said. "And it is all on the left side. The front rotor is also on the left side. So when you park the bike on the side stand, you get a really

Builder & Painter: Mark Shadley, (Shadley Bros. Motorcycles)

clean, uncluttered look."

Being a builder, he did customize or modify some parts to fit his ideas. "The exhaust system I built," Shadley said. "I started with a Paughco exhaust pipe and modified to be a 'crush pipe' (a system that has a header run inside the frame) and added a bit of a kick-up at the end. I did some work to shape the oil tank – extensions and length to the sides." He also made the center tank panel that runs the length of the tank and houses the gauges. The chain guard brackets and ignition coil cover also got some custom touches.

"I am really, really happy with the look of that front end," Shadley said. "I really wanted that cleaned up, to get away from the style of a bike that has that heavy front headlight nacelle cover with the fork tins." A different set of triple trees and a custom headlight to clean up and give the front end a more open, narrower appearance.

"I also changed the angle of the brake pedal a bit, so it sat with a better line. And I made modifications so I could install a set of later-model floorboards on the bike and get more interesting look and style," he said.

The paint scheme was inspired by the Drag Specialties blue. "I chose colors that would complement that blue, the classic Drag Specialties color," Shadley said. "The silver is real silver leaf inlay to give it some added pop. And the logo on the tank was inspired by the Drag Specialties logo I saw on an old original business card."

The best part? "I get to keep it, it's mine!" Shadley laughed. "I built it like all my custom bikes – to be a bike you can ride. Once it is returned from being shown by Drag Specialties, I look forward to being able to put some miles on it."

Memphis SHADES
MOTORCYCLE FAIRINGS & WINDSHIELDS

SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact – Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade – a neutral tint with 85% light transmission barely noticeable, with just enough tint to make the edges disappear
- Fit Road King, Fat Boy, Heritage and Memphis Fats windshield using injection-molded glass-filled nylon clamps in place of the billet aluminum clamps (can be mounted along with Hot Wing)

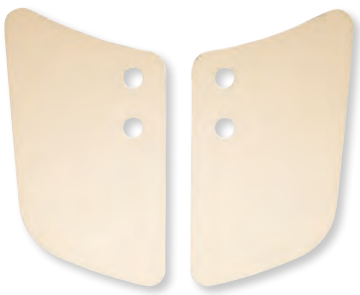
PART #	DESCRIPTION
2350-0200	Side Wings

HOT WING

- Boost airstream upward – Venturi action speeds up the airstream while smoothing the flow – without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Uses lightweight, economical injection-molded glass-filled nylon clamps
- Fits Memphis Fats windshields or similar windshields that measure 3 mm or 4,5 mm thick (includes inserts for both sizes)

PART #	DESCRIPTION
2350-0199	Memphis Hot Wing

Clear



Solar

CUSTOM LOWERS

- Provide additional protection by extending your coverage downward
- Shield rider from rain, wind and noise coming up from the road
- Made of the same high-quality materials as Memphis Shades windshields with matching tints
- Available in black, clear and solar (a light tint with 72% visible light transmission)
- Must purchase Lowers mounting kits; see pages 12-13
- May require turn signal relocation
- Measure 20,5 cm H x 14 cm W (8" H x 5 – 5½" W)
- Sold in pairs

RIO GRANDE

- The most coverage of any windshield in the Sportshield family
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Measures approximately 53,5 cm W x 48,5 cm H (21" W x 19" H) above headlight
- Fits most round headlights
- Optional Lowers available for additional windshield coverage; see pages 12-13
- Features No-Tool detachable Trigger-Lock hardware so you can swap or remove your windshield in a flash
- Must order mounting kit separately; see page 10

PART #	DESCRIPTION
MEP5319	Solar

MEP5219

EL PASO

- Smooth design complements the lines of your machine
- Tapered windshield lower is ideal for handlebar-mounted turn signals
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Measures approximately 51 cm (20" W); available in 33 cm (13"), 38 cm (15"), 43 cm (17") or 48,5 cm (19") H above headlight
- Fits most round headlights
- Optional Lowers available for additional windshield coverage; see pages 12-13
- Features No-Tool detachable Trigger-Lock hardware so you can swap or remove your windshield in a flash

MEM9884

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES FATS/SLIM AND SPORTSHIELDS

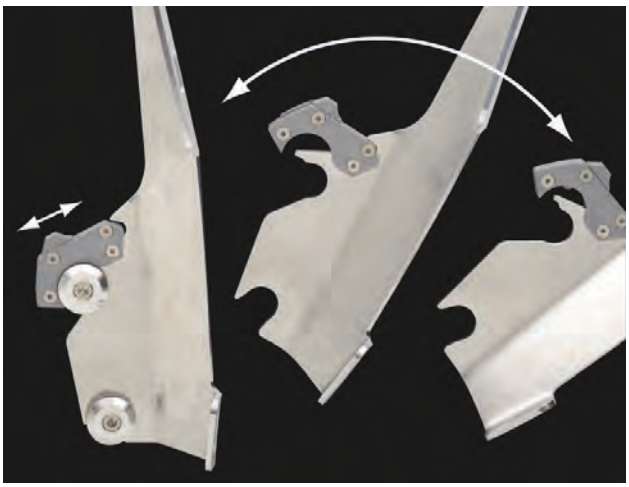
- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately



Whether your bike has conventional forks (tins) or a Springer front end, once installed, Trigger-Lock mounts let you remove or change Memphis Shades Fats/Slims/Sportshield windshields in a moment's time.

All part numbers in BLUE are new for the OldBook.

CLASSIC DEUCE

- Smooth shape surrounds headlight to become part of the motorcycle
- Measures approximately 48,5 cm W x 47 cm H ($19^{1}/_{2}$" W x $18^{1}/_{2}$" H) above headlight
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Solid two-point handlebar mounting hardware fits many custom and stock applications
- Includes two-point mounting hardware consisting of polished billet aluminum handlebar clamps that fit 25 mm (1") and 22 mm ($^{7}/_{8}$") handlebars (with sizing band) and CNC-machined aluminum rake plates, fittings and stainless steel socket head screws
- Optional 32 mm ($1^{1}/_{4}$") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

PART #	DESCRIPTION
MEM2129	Solar

32 MM ($1^{1}/_{4}$") HANDLEBAR CLAMPS

- Allow you to mount a Memphis Shades Classic Deuce, Hell Cat, Demon or The Shooter to a bike with 32 mm ($1^{1}/_{4}$") handlebars
- Sold in pairs

PART #	DESCRIPTION
MEM9950	32 mm ($1^{1}/_{4}$") handlebar clamps (pr.)

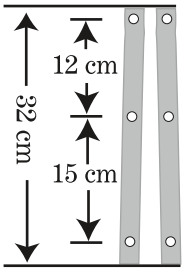
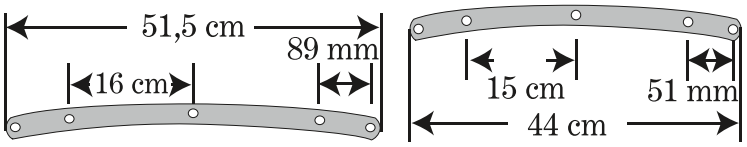
REPLACEMENT PLASTIC FOR HARLEY-DAVIDSON® WINDSHIELDS

- Now riders can replace their OEM windshield with the size and color of their choice
- Available in clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for six models in up to four different heights – pick a size that's right for you
- Perfect fit with OEM hardware
- Holes are not drilled but rather machined to accept snap-in nylon inserts that prevent stress fractures and star cracks commonly seen around holes – an exclusive feature of Memphis Shades replacement plastic



VERTICAL STRAPS

There is a right and left strap, although they measure the same.



HORIZONTAL STRAPS

The windshield should have one of the two straps illustrated.

Straps shown for reference only.

NOTE: Measurements are approximate and measured center to center of holes on the outside of windshield.

- Constructed of 600-denier "tool bag" material and lined with faux Sherpa to ensure a mar-free surface
- Safe way to carry or store Memphis Shades windshields or small fairings
- Convenient handle to carry windshield/fairing or hang out of harm's way
- Will hold one Memphis Fats/Slim, Sportshield or fairing (Bullet, Gauntlet, Cafe) with or without mounting plates installed
- Also fits most OEM HD windshields, including Road King windshield

PART #	DESCRIPTION
3508-0042	Windshield bag

All part numbers in BLUE are new for the OldBook.

KLOCK Werks FLARE™ WINDSHIELD

TÜV APPROVED ABE See chart for details

FLARE™ WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce while the flip at the tip directs air over the rider to help eliminate the swirl of air found in front of the rider on standard windshields
- Lexan® polycarbonate with FMR hard coating is used to create these custom-molded designs with unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

2310-0389

FLARE™ BILLBOARD WINDSHIELDS

- Modeled after the original Flare™ windshield for Baggers, now almost every rider can get all of the same performance and style with bolt-on ease
- With patented Klock Werks "hips" on the side and a flip at the top, shields have been wind tunnel designed and tested to produce the same amount of additional down force as original
- Real world testing and computer simulation also produced multiple heights that will work for most riders; heights listed are measured from headlight opening to top of shield
- All are predrilled for easy mounting using stock windshield mounting kits
- For the following applications "Detachable" refers to the old-style H-D grommet/hinge style mechanism

NOTE: All measurements given are approximate.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

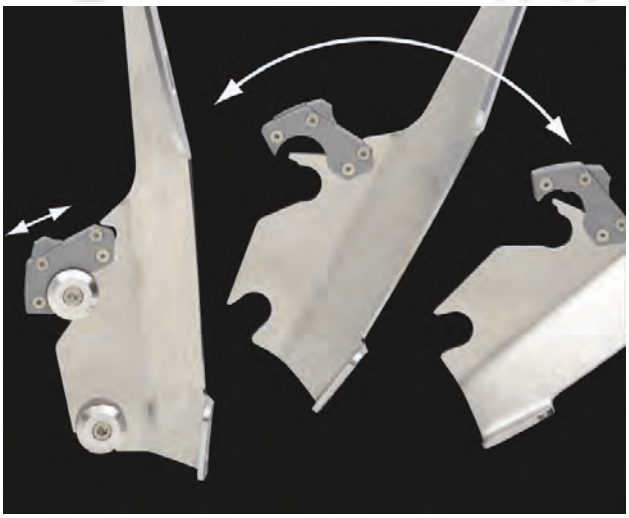
MEMPHIS SHADES BATWING FAIRING

- The clean aerodynamic shape and innovative mounting system easily enhances the style and comfort of your ride
- The fairing body of PART #2330-0017 measures 93 cm (36 1/2") wide and 43 cm (17") tall; fairing body of PART #2330-0075 measures 85 cm (33 1/2") wide and 43 cm (17") tall (excluding windshield and wind deflectors)
- Inner fairing structure is black textured ABS
- Fairing outer shell is opaque black Lucite® with a class A finish that looks great as is or can easily be painted
- No-Tool Trigger-Lock mount kits are CNC-machined and are available with E-coated polished or black aluminum and stainless steel hardware for a clean appearance that's built to last
- Trigger-Lock kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairing is predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four heights and two translucent colors and clear and solar (a light tint with 72% visible light transmission); see page 27
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trims for style are also available; see page 28
- Optional sound system can be added to the Batwing Fairing with Hogtunes' speaker systems



Trigger-lock mounts let you remove your Batwing Fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike

NOTE: Batwing Fairing is not compatible with any other fairing windshields, wind deflectors or accessories.

NOTE: Softail models listed that already have a Memphis Fats or Slims windshield installed can use their existing Trigger-Lock mount kit to install a Batwing Fairing, or purchase a plate-only kit (black or polished aluminum) and switch back-and-forth from Fats, Slim or Sportshield windshield to Batwing Fairing.

WHAT TO ORDER

1. BATWING FAIRING
2. TRIGGER-LOCK MOUNT KIT SPECIFIC TO BIKE MODEL; SOME SOFTAIL MODELS MAY REQUIRE A TURN SIGNAL RELOCATION KIT
3. WINDSHIELD OF YOUR PREFERENCE; HEIGHT AND COLOR OPTIONS ARE SHOWN ON NEXT PAGE

Trigger-Lock mounts let you remove your bullet fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike.

MEMPHIS SHADES BULLET FAIRINGS

- Bold aerodynamic shape adds custom style and increases rider comfort
- Looks like a two-piece but is actually a strong, one-piece fairing constructed of high-impact aircraft-grade Lucite®
- Provides full torso coverage to virtually eliminate wind fatigue, while allowing an unobstructed view of the countryside

- "Factory" finish looks great as is or can easily be painted to really achieve the next level of custom
- Custom fit, model-specific mounting kits feature Memphis Shades exclusive Trigger-Lock mounting system – on and off without tools

BULLET BOOSTER WING

- Virtually eliminates buffeting, generating "clean" air, a boon for passengers as well as the driver
- "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Santoprene pads grip the windshield but do not mar the surface
- Bullet Booster Wing attaches to the Bullet Fairing using glass-filled nylon biplane clamps

PART #	DESCRIPTION
2350-0201	Bullet Booster Wing, lite

Ciro

BAT BLADES FAIRING TRIM

- These innovative strips feature ultrabright white LEDs to work as daytime running lights and also amber turn signals on each side
- Easy installation using included 3M™ tape with included wiring adapter that plugs into OEM harness
- Requires no drilling, cutting or splicing
- Low-profile black circuit board blends in seamlessly when the lights are off
- White lights fade when turn signals are activated so the amber really stands out
- Sold as a pair

Memphis SHADES
MOTORCYCLE FAIRINGS & WINDSHIELDS

SIDE DEFLECTORS

- Additional wind protection provided by the change in low-level airflow around the rider's upper body and elbows
- Turbulence is less noticeable due to the neutralized draft behind the fairing
- Available in black as well as Ghost (a light tint with 85% visible light transmission)
- Easy installation
- Include hardware
- Sold in pairs

PART #	DESCRIPTION
FOR 96-98 FLHT	
2350-0189	Ghost

TOUR-PAK® LID ORGANIZER

- Trim, functional organizer fits snugly to the inner lid of a classic 93-98 Harley-Davidson Tour-Pak
- Organize your trip packing and maximize your cargo space using the organizer's nine separate storage pockets
- A variety of elastic bands keep your flashlight, tire gauge and other gear in place, but easily accessible
- Easily installs to the lid by attaching to the rack fasteners or with the included self-adhesive hook-and-loop fastener tape strips
- Installation can be completed in minutes with no modification to your motorcycle
- Removes in seconds so you can use the convenient carrying handle to take your belongings into the hotel or your home at the ride's end
- Rugged construction will last a lifetime with its 600D and 150D polyester materials
- Measures 51,5 cm x 35,5 cm x 25 mm (20 1/4" x 14" x 1")

PART #	DESCRIPTION
3516-0123	For 93-98 FLHT/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

TOUR-PAK® LUGGAGE BAG

- Handsome and rugged luggage bag is designed to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's other bagger accessories
- Multiple storage and organizer sections with a full-side main compartment opening so you have easy access to your stuff even when the luggage bag is in the Tour-Pak
- Special shape accommodates Tour-Pak with molded liners, light housings and radio antennas
- Sturdy grip handle for convenient carrying – included shoulder strap allows you to carry with ease
- Fully lined with full-circumference, sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift your luggage bag out of the Tour-Pak to move your cargo easily into the hotel, campground or to unload fast once you're home
- Measures 57 cm x 19 cm x 38 cm (22 1/2" x 7 1/2" x 15")

PART #	DESCRIPTION
3516-0121	For 93-98 FLHT/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

TOUR-PAK® SOFT LINER BAG

- Standard soft tour pack liner bag is contoured to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's Saddlebag Packing Cube Liner Sets
- Unique design stores flat when empty and features a full side lid opening so you have easy access to your stuff even when the bag is in the Tour-Pak
- Special shape and construction accommodates Tour-Paks with molded liners, light housings and radio antennas
- Made from durable 150D logo-stamped fabric with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift the liner bag out of the Tour-Pak to move cargo easily into the hotel, campground or to unload fast once you're home
- Measures 57 cm x 19 cm x 38 cm (22 1/2" x 7 1/2" x 15")

PERFORMANCE OUTFITTER

SADDLEBAG PACKING CUBE LINER SET

- Four-piece liner set includes one full-size liner bag matched perfectly to the shape of FLD-style hard saddlebag plus one vertically oriented half-size liner used in conjunction with two quarter-sized horizontally oriented liner bags that stack neatly together in your other saddlebag
- Unique design permits efficient organization of your belongings – separate your laundry or keep rider and passenger gear divided while maximizing the capacity of your saddlebags
- Top sections of the quarter-sized liner bags are transparent with double-pull zippers so you can see the contents and get to them quickly – perfect for items you need to grab when you're on the road
- Made from light, but durable PVC-lined 150D polyester with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters, organizing your tools or cleaning supplies; simply lift your liners out of the saddlebags to move your cargo easily into the hotel, campground or to unload fast once home
- Complete set measurements: large liner measures 40,5 cm x 13,5 cm x 24 cm (16" x $5^1/_4$" x $9^1/_2$"), medium liner measures 19 cm x 14 cm x 26,5 cm ($7^1/_2$" x $5^1/_2$" x $10^1/_2$"), smaller liner measures 19 cm x 14 cm x 11,5 cm ($7^1/_2$" x $5^1/_2$" x $4^1/_2$")

DRAG Specialties seats

SADDLEBAG LINERS

- No need for saddlebag organizers; liners feature three storage compartments on top with zipper closures
- Constructed of heavyweight polyester fabric with a PVC internal coating
- Center compartment is made of a see-through mesh for locating items quickly
- Zippers on the outer compartments wrap around two sides for easy access
- The zipper on the main liners wraps around three sides; the lid will "flip up" creating an open access for EZ loading and locating items
- Each liner has two handles that can be joined together with hook-and-loop material for easy carrying
- Sold in pairs

FTB2500/FTB3600 SPORT SISSY BAR AND COMBO BAGS

- A sharp collection of motorcycle luggage from Saddlemen; the FTB line features a bold, yet sporty look with an array of vital features bundled with superb construction and class-leading value pricing
- Sissy bar bag mounting is simple and quick, using Saddlemen's adjustable backrest sleeve that conforms to the width of your sissy bar or pad, and its shape or taper
- The four hold-down straps included with each bag ensure secure mounting
- FTB2500 and FTB3600 have the same knife-sharp styling and organizing features as the smaller bags, but with more capacity
- Mid-size side compartments easily hold extra cargo
- Each bag includes a specialized top storage bag that clips on and off in seconds
- Equipped with the same highly functional gull-wing style access flaps as our Sport Trunk and Rack Bag, these top bags expand your cargo capacity by a huge margin
- If the weather gets wet, use the supplied high-visibility, light-reflective rain cover to protect the bag and its contents
- FTB2500 dimensions: Main bag measures 35,5 cm W x 28 cm H x 24 cm D (14" x 11" x 9½") excluding pockets; 47 cm W x 28 cm H x 24 cm D (18½" x 11" x 9½") including pockets; top bag measures 45,5 cm W x 20,5 cm H x 20,5 cm D (18" x 8" x 8"); capacity 9,1 kg (20 lb)

Internal Quarter Turn Locking Fastener Disconnected

S4 RIGID-MOUNT QUICK-DETACH SLANT SADDLEBAGS

- A truly portable luggage system, handles included; available in Drifter and Desperado styles
- Designed for heavier loads and maximum durability
- Specially built to fit bike perfectly; molded plastic frame slips over posts directly mounted to the fender struts
- Remove saddlebags easily by releasing two QTL (Quarter Turn Locking) pins found inside each bag
- Lockable, quick-release hidden buckles under each strap are easy to use; protect contents and prevent unauthorized removal of bags from bike
- Include a chromed metal support that fits behind each bag for extra strength and security (also easily removed when bags are not to be used for an extended period)
- Inner stiffeners and rigid back maintain bag shape, even when empty
- Drifter bags feature smooth, clean and uncluttered styling with three leather straps and buckles
- Desperado bags feature chrome studs and three leather straps with buckles
- All necessary hardware, including turn signal relocators if needed, and instructions are included
- Made of water-resistant materials; clean easily with a damp cloth, or for best results use Saddlemen's saddlebag cleaner and conditioner, available separately
- Custom-designed to fit exact models; bolt directly to motorcycle using saddlebag quick-disconnect mounting system

NOTE: Turn signal relocation required on some Harley applications; universal relocation kit included as required.

NOTE: Matching seats available; see SEATS & SISSY BARS section.

PERFORMANCE OUTFITTER

SADDLEMEN EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle. The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets are strongly recommended (sold separately).

Custom fit

Throw-over

Zip-off yoke

Shock Cutaway

CRUIS'N™ SADDLEBAGS WITH SHOCK CUTAWAY

- Contoured backside allows fitment directly over most shock absorbers, allowing saddlebag options on bikes that were previously limited due to shock and turn signal placement
- Smooth, clean-styled saddlebags feature easy-open lid with supplemental hook-and-loop and rigid construction
- Install using zippered yoke for over-the-fender mounting, or hard-mount bags using saddlebag supports (sold separately)
- Zip-off yoke mounting allows bag to be disconnected without removing the yoke
- S4 saddlebag support brackets recommended (sold separately, see page 120)
- Measure 49 cm L x 17 cm W x 30,5 cm H (19 1/4" x 6 3/4" x 12")

PART #	DESCRIPTION
3501-0575	Cruis'n saddlebags w/ shock cutaway

3501-0718

CRUIS'N™ DELUXE SADDLEBAGS

- Distinctively-styled saddlebags look great on any style motorcycle, with a layered lid and spacious zippered side pouches that flow together to create truly handsome luggage
- Rugged SaddleHyde™ construction bags with strong internal reinforcement to hold their shape, with lids that pivot forward when opening to provide excellent cargo access
- Contents stay clean and dry with zippered openings covered by weather flaps fitted with 1/4-turn hasps that accept mini padlocks for security
- Detachable and fully adjustable yoke system allows easy installation and combines perfectly with Saddlemen's saddlebag supports
- You can add a Saddlemen quick-release kit with supports to change from a throw-over saddlebag set to a rigidly mounted set that can be removed from your bike in seconds
- Include installation instructions plus all yoke attachment and adjustment hardware
- Throw-Over style fits most motorcycles
- Also available with a pair of chrome universal saddlebag supports
- Measure 51,5 cm L x 23 cm W x 32,5 cm H (20 1/4" x 9" x 12 3/4")

PERFORMANCE OUTFITTER

S4 QUICK-DISCONNECT SADDLEBAG MOUNTING KITS

- Designed to attach/detach all Saddlemen saddlebags and any rigid-back aftermarket and OEM saddlebags with a twist of the QTL (Quarter Turn Locking) fasteners
- Complete kit includes docking posts and fasteners, turn signal relocator and support bracket
- For specific applications, components are also sold individually; see descriptions below
- Docking posts and fasteners replace fender strut bolts and allow you to put on or take off saddlebags with a quick twist of the QTL (Quarter Turn Locking) fasteners; includes four docking posts with fasteners, spacers, saddlebag grommets, support clips, nuts/bolts/fasteners needed and instructions
- Docking post kit should be used in conjunction with Saddlemen saddlebag support bracket; can be used to mount OEM Harley-Davidson® and Harley-Davidson accessory saddlebags without purchase of additional bracket
- Support bracket kit includes two chrome-plated steel saddlebag supports and comes with an assortment of $^{5}/_{16}$" and $^{3}/_{8}$" fasteners in lengths to fit the most popular Harley-Davidson models and aftermarket accessories
- Two types of turn signal relocation kits available: universal kit moves rear turn signals to the license plate mount and specific-fit kits relocate stock turn signals further back by extending the chrome fender rail

EZ-ON Mount System

EZ-ON MOUNT LOW-PROFILE SOLO SEATS WITH FORWARD POSITIONING

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides; patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- Molded polyurethane foam for maximum comfort and styling
- 5 mm ($^3/_{16}$") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- EZ-ON mount system (included) requires no tools for taking seat on and off
- Seat geometry moves rider forward 76 mm (3") compared to standard Low-Profile Solo; moves rider forward 25 mm (1") compared to a stock Street Glide or Road Glide seat
- Lowers rider up to 25 mm (1") than stock seat depending on model
- Lower position creates better rider position with improved styling
- Seat covers the two seat fender studs for a low, clean look
- Rear solo seats sold separately
- Includes all mounting hardware

NOTE: 97-98 FLHR will also fit 97-98 FLT/FLHT/FLTR models when used with lower dash extension PART #2202-0070; see DASHES & GAUGES section.

FOR 97-98 FLHR MODELS

RENEGADE SOLO SEATS WITH BACKREST OPTION

- Comfortable touring-style solo seats are wide and low for superior style and comfort
- Supple leather-grade SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks
- This stitch-top cover provides initial plushiness and a custom appearance while the progressive density foam and GelCore™ foundation offers supportive comfort for hours on end
- Some available with a row of chrome studs that follow the seat's contour for an added splash of style
- The nose area of the seat was sculpted so it works well with the varied dash styles used on Touring models
- The seat interacts properly with the fuel tank, regardless of the length or width Harley-Davidson® dash mounted to the tank
- Matching optional driver's backrest to complete custom look (available as noted) mounts in seconds, no tools necessary
- The driver's backrest can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance

NOTE: See pages 216-217 for matching Saddlemen Renegade sissy bar pads.

- Slammed two-up seat features narrow styling, a thin profile and low riding height
- Designed to drop the rider down into the bike for the lowest riding position possible, while still maintaining a high level of comfort and seat support
- Unique blend of variable-density seat foam and GelCore™ technology is the largest advancement in motorcycle seating since the creation of suspension
- Authentic true tuck-n'-roll construction, not a quick cross-stitch; seat is covered in genuine leather for a bold look
- Available in black

SADDLEMEN PERFORMANCE OUTFITTER

HOG KILLERS SEAT

- Slim design follows the contour of the motorcycle's frame
- Vintage inspired pleated seat with piping accents and SaddleHyde™ construction
- Combines a GelCore™ interior and Ultra-Foam that creates a foam that is a perfect balance of rigidity and user compliance
- Ultra-Foam's unique molding process creates an element-resistant self-skinning process that seals the foam from water and enhances the seat's durability and comfort

PART #	DESCRIPTION

0803-0669	Knuckle 2-up seat

KNUCKLE SOLO SEAT

- Audacious new custom seat family from Saddlemen, with a brash refinement that instantly transforms your bike
- Deep, aggressive ribs are carefully stitched into the brushed SaddleHyde™ weather-resistant cover while hand-crafted progressive density foam and GelCore™ foundations serve up comfort not normally present in a low-profile seat
- Strong fiberglass pans with plated hardware ensure a perfect fit for a trouble-free install

NOTE: See page 22 for matching Saddlemen Knuckle detachable pillion pads.

PART #	DESCRIPTION
FOR 96-98 FXD (EXCEPT FXDWG)	
0803-0523	Knuckle solo seat

DOMINATOR SOLO SEAT

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and modern style
- Saddlemen's Gel Channel (GC) technology has a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle longer
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, this GC-style seat offers the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install

- Slammed two-up seat features narrow styling, a thin profile and low riding height
- Seat design drops the rider down into the bike for the lowest riding position possible, while maintaining our high standard of comfort and support
- Driver's portion features a unique blend of variable-density foam and GelCore™ technology that is the largest comfort advancement in motorcycle seating since the creation of suspension
- Contrasting-grain basket-weave SaddleHyde™ cover
- Basket-weave pattern on driver's seat provides more breathability and extra grip if needed
- Basket-weave is sewn into the slender tail section to accent the low seat styling and profile
- Available in black

EZ GLIDE II™ BACKRESTS

- Features solar-reflective leather on contact area (unless noted); pouch and pad sides are high-quality automotive-grade vinyl
- Driver and passenger backrest capabilities
- Fits in seats' internal EZ Glide II system that features no metal-to-metal contact with the backrest detent bars; bars are securely suspended in place using synthetic composites that virtually eliminate corrosion and wear
- Features a detent bar with multiple detents on lower portion for adjustability up and down within the seat
- Chrome-plated hardware that allows up to 2" of forward-rearward adjustment

THE CONVERTIBLE EZ GLIDE II™ BACKREST WITH BUILT-IN RAIN COVER

- Features solar-reflective leather on contact area; pouch and pad sides are high-quality automotive-grade vinyl
- "The Convertible" EZ Glide II backrest includes a built-in rain cover that pulls out of the pouch on the backside of the pad and covers the entire seat

- Rain cover is secured in the pouch by two snaps and can be removed for cleaning or to use the oversized pouch for additional storage
- Rain-resistant black cover is 600 x 600 denier polyester fabric with a urethane coating and WRMR (water-resistant, mildew-resistant) finish
- All exposed hardware is polished with a chrome finish; internal base is 14 gauge steel
- Pad pivots to the angle of your back and adjusts fore and aft up to 2"

PART #	DESCRIPTION
EZ GLIDE II™ WITHOUT RAIN COVER	
0822-0133	Small, smooth backrest (w/o pouch, w/o rain cover) (23 cm W x 12,5 cm H) (9" W x 5" H)
0822-0154	Large, smooth backrest (w/ pouch, w/o rain cover) (25,5 cm W x 19 cm H) (10" W x 7½" H)
0822-0189[1, 2]	Large, pillow-style backrest (w/ pouch, w/o rain cover) (25,5 cm W x 19 cm H) (10" W x 7½" H)
CONVERTIBLE EZ GLIDE II™ WITH RAIN COVER	
0822-0460	Large, smooth backrest (w/ pouch and rain cover) (25,5 cm W x 19 cm H) (10" x 7½")

[1] Not solar-reflective leather.
[2] Has 1" lighter density foam for added comfort.

DRIVER BACKREST KIT FOR OEM DRESSER/TOURING SEATS

- Specially designed to work with 88-98 Dresser/Touring models with OEM slotted one-piece seat
- EZ Glide receiver mechanism allows you to easily mount your choice of pad assembly (receiver mechanism and pads sold separately)
- Pad assembly includes high-quality polished and chrome-plated 184 mm (short) or 248 mm (tall) (7,25" or 9,75") detent bar with a design that provides 51 mm (2") of fore and aft adjustment
- All pads fold forward for ease of getting on and off bike
- Pad assembly options include a vinyl pillow-style to match tall pillow-style seats and solar-reflective leather styles that match both lower-profile and tall seats; solar-reflective reduces surface temperature by as much as 14 °C (25 °F) for a cooler contact, higher durability and longer life over conventional leather or vinyl

- All large pad assemblies also include a pouch
- Includes all mounting hardware

NOTE: Short bar is Road King and Road Glide-style low-profile OEM seats. Tall bar is for H-D Ultra-style tall-profile seats and Drag Specialties large touring seats.

SADDLEMEN
PERFORMANCE OUTFITTER

GELCORE TECHNOLOGY

TECH MEMORY FOAM GEL PADS

- Visco-elastic GelCore™ pads for the ultimate in strap-on seat pad comfort
- 3D-molded process conforms quickly and comfortably to rider's anatomy, while the GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Includes exclusive air canals for increased cooling and breathability
- Center ergo channel eliminates pressure to prevent numbness and discomfort
- Comfort foam breathable top layer maximizes GelCore efficiency
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom

PART #	DESCRIPTION
0810-0522	Medium; 24 cm L x 20,5 cm rear width x 15 cm front width (9,5" x 8" x 6")
0810-0521	Large; 26,5 cm L x 35,5 cm rear width x 20,5 cm front width (10,5" x 14" x 8")
0810-0520	Extra large; 32 cm L x 39,5 cm rear width x 21,5 cm front width (12,5" x 15,5" x 8,5")

GELCORE TECHNOLOGY

PILLOW GEL PADS

- Button-tufted, comfortable, strap-on gel seat pads look perfect on top of most cruisers
- Features an extra-soft layer of pillow foam on top of Saddlemen's famous GelCore™
- Visco-elastic GelCore pads add riding comfort to any seat on any model
- GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom
- Three sizes available to fit most seats

PART #	DESCRIPTION
0810-0525	Medium; 24 cm L x 20,5 cm rear width x 15 cm front width (9,5" x 8" x 6")
0810-0524	Large; 26,5 cm L x 35,5 cm rear width x 20,5 cm front width (10,5" x 14" x 8")
0810-0523	Extra large; 32 cm L x 39,5 cm rear width x 21,5 cm front width (12,5" x 15,5" x 8,5")

GELCORE TECHNOLOGY

3D-MOLDED GEL PAD

- 3D-molded surface for additional comfort and air channel cooling
- GelCore™ evenly distributes weight to absorb and relieve hip and tailbone pressure
- Features Gel Channel™ technology that increases blood flow and keeps the rider in the saddle longer
- Fits many larger cruisers and most touring bikes, including Harley-Davidson® Baggers, as well as larger adventure bikes

PART #	DESCRIPTION
0810-2072	3D-molded gel pad

AIRHAWK 2 COMFORT SEATING SYSTEM

AIRHAWK 2 SEAT PADS

- Unique inflatable, multiple-cell design for the ultimate in comfortable seating and vibration absorption
- Made from polyurethane and features a breathable, stretchable outer cover and a nonskid urethane base to protect your seat
- Feature open-mesh side panel to allow air circulation through individual air cells, creating extra ventilation to reduce heat buildup
- Shape Fitting Technology eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride
- Automatically adjusts to the shape of the rider

PART #	DESCRIPTION
0807-0095	Medium; 35,5 cm L x 35,5 cm W (14" x 14")
0807-0096	Small; 45,5 cm L x 30,5 cm W (18" x 12")

- Raises ride-height only slightly
- Securely fastens via double strap system running under seat or pillion
- Will not scratch or disfigure existing seat or pillion
- Valve for inflation, adjustment and deflation

PART #	DESCRIPTION
0807-0097	Small pillion; 28 cm L x 23 cm W (11" x 9")

AIRHAWK COMFORT SEATING SYSTEM

AIRHAWK R SEAT PADS

- Center cut-out area runs from the front to the back of the cushion, creating strategic points of no contact
- Back cutaway allows for tailbone and prostate relief and has a tapered transition for increased comfort
- Re-designed cell geometry improves airflow under the rider to keep pad and rider cool
- Include a nonskid cover and straps for securing it to the bike's seat
- Cover is constructed from a breathable space mesh with red vinyl accents
- Automatically adjusts to the shape of the rider

GEL CORE TECHNOLOGY

DETACHABLE PILLIONS

- One of the most comfortable, lowest profile and best looking pillions on the market
- The unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- The rugged but compliant cover works to keep riders and passengers comfortable for long stretches of highway time
- Each pad attaches easily and securely with its limited-lifetime warranted, unique dry-installation, dual-cavity suction cup and can be removed just as easily using the built-in quick-release pull tab
- Non-abrasive liner ensures your expensive rear fender paint job is protected during attachment or removal
- 15 cm (6") pads measure 44 mm H x 15 cm W x 25,5 cm L (1 3/4" x 6" x 10")
- 18 cm (7") pads measure 44 mm H x 18 cm W x 25,5 cm L (1 3/4" x 7" x 10")
- 23 cm (9") Contoured pads measure 44 mm H x 23 cm W x 25,5 cm L (1 3/4" x 9" x 10")
- Dominator combines leading-edge styling with comfort enhancing Gel Channel™ technology for a truly unique seat that looks and feels great

0807-0176

0807-0204

- Knuckle is engineered to brashly transform your bike with its deep, aggressive ribs that are carefully stitched into element-resistant distressed SaddleHyde cover
- Lariat is covered in genuine distressed brown leather; it's as close to having a true western horse saddle as you can get
- Renegade LS is the finest, most comfortable low profile removable passenger pad in the world; available in black, brown or black with studs
- The S3's fit and finish matches its street-smart looks with two cover options to choose from: standard SaddleHyde and element-resistant distressed SaddleHyde cover

NOTE: Not for passenger use; for cosmetic use only.

NOTE: Pads should be installed dry; do not wet either fender or suction cups during installation.

NOTE: Not for use in hot, wet or rough conditions.

KURYAKYN

MULTI-PURPOSE DRIVER AND PASSENGER BACKREST

- Truly multi-purpose backrest and luggage rack system provides a driver or passenger backrest along with a luggage system, which can be used in either position
- Sturdy aluminum main frame, steel folding luggage rack with rubber inserts and a comfortable, padded backrest
- Fully adjustable and extremely versatile; the back rest converts from driver to passenger without tools
- Backrest pad is adjustable via stainless sliding rods with push-button locks and knurled threaded knobs

PART #	DESCRIPTION
0822-0257	For 97-98 FLHT/FLHR/FLTR models

1504-0008

1501-0403

0822-0162

KURYAKYN

PLUG-N-PLAY UNIVERSAL SISSY BAR MOUNT

- Bolts to the fender underneath the passenger seat
- Accepts Kuryakyn's Low sissy bar (available separately)
- Assembly comes pre-drilled to fit stock H-D fenders
- Does not include hardware

PART #	DESCRIPTION
1504-0008	Plug-N-Play mount for Softail, Dyna, XL or FXR w/ 140 mm or 150 mm rear tire
1501-0403	Low sissy bar for Plug-N-Play mount (17 cm W x 24 cm H from fender ($6^{3}/_{4}$" x $9^{1}/_{2}$"))
0822-0162	Sissy bar pad (approx. 17 cm W x 11,5 cm H ($6^{3}/_{4}$" x $4^{1}/_{2}$"))

DRAG Specialties

ROUND SISSY BAR FOR HARDTAIL MODELS

- Chrome-plated 13 mm ($^{1}/_{2}$") diameter cold-rolled steel
- Fits rigid frames with axle plates approximately 25,5 cm (10") apart
- Measures approximately 38 cm (15") above fender

PART #	DESCRIPTION
DS-264116	For flat fenders

GASBOX

UNIVERSAL RIGID FRAME SISSY BAR KITS

- Kits include pre-bent 66 cm (26") tall sissy bar loop, two universal mounting tabs, two pre-bent axle plate mounts, two pre-drilled axle plate mounts and two $^{5}/_{16}$" -18 mounting bungs
- Cut the loop to length and weld

PART #	DESCRIPTION
1501-0492	The Chopper (angled pointy top)

All part numbers in BLUE are new for the OldBook.

ATTITUDE-STYLE SISSY BAR STICKS

- Attitude-style sissy bar sticks are made from 14,3 mm (9/16") round cold-rolled steel
- Daggertude and Squaretude styles are made from 14,3 mm (9/16") square steel bar
- Available in two sizes: approximately 45,5 cm (18") or 76 cm (30") tall
- Side plates must be purchased separately

NOTE: For show use only, not designed for passenger support.

NOTE: Fits all side plates except for Plug-N-Play.

FOR DRESSER/TOURING
TRUE-DUALS

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES

- True-Dual crossover header pipes perform as good as they look
- Feature proper port angle and matched-length rear headpipe design that produces even performance from each cylinder
- Offer improved low-end torque and appearance
- Fabricated from 16-gauge steel, finished in chrome and supplied with three custom-fit heat shields
- Can be used with Bassani mufflers or most 96-16 OEM-style aftermarket mufflers (mufflers sold separately)

PART #	DESCRIPTION
1802-0125	For 95-98 FLT/FLHT/FLHR/FLTR

BAGGER TRUE DUAL HEADER PIPES

- Made of 16-gauge steel and finished with show-quality chrome
- Supplied with three custom-fit heat shields
- Right-side pipe follows same clean lines as frame
- Can be used with Bassani mufflers or most 95-16 OEM-style aftermarket mufflers (sold separately)
- O_2 sensor port plugs included
- Mounting instructions and hardware included

PART #	DESCRIPTION
1802-0132	For 95-98 FLT/FLHT/FLHR/FLTR

POWER TUNE DUAL HEADER SYSTEM

- Independent dual-look with "under the bike" cross-over
- Hidden crossover passage between front and rear pipes for maximum performance
- Updated styling to give the motorcycle a more modern look
- Stainless steel construction for superior corrosion reisistance
- High-temperature Guardian Black finish full heat shields with 220° coverage
- Has 18 mm sensor ports and plugs
- Compatible with 95-16 style slip-on Dresser mufflers

PART #	DESCRIPTION
1802-0389	For 95-98 FLT/FLHT/FLHR/FLTR models

1802-0252

KHROME WERKS

2-INTO-2 DUAL HEADER SYSTEMS

- Reduces heat transmission to the rider and passenger by routing the exhaust under the frame instead of under the seat
- Lighter system that offers more flow and makes more top-end power than the factory system
- Feature 1 3/4" 16-gauge mandrel bent, interconnected headers and 220° full-coverage heat shields
- Front pipe crosses over to the left side and is securely mounted to the transmission oil pan
- Crossover pipe is formed from the 1 7/8" tubing for increased ground clearance and no cross-sectional area loss
- Hidden interconnect for maximum top-end horsepower, improved low-end torque and sound dampening
- Headers systems are available in a high-gloss chrome finish and full-coverage heat shields are finished in black Jet-Hot® high-performance coating with chrome-plated headers
- PART #s 1802-0121 and 1802-0252 include two 18 mm O_2 sensor ports, plugs and all mounting hardware
- Header systems accept any 95-16 OEM-style Dresser mufflers (sold separately)
- O_2 sensor ports and plugs, gaskets and all mounting hardware included
- Use any Khrome Werks™ or other bagger muffler set

1801-1027

1801-0745

TRI-FLO SLIP-ON MUFFLERS

- Tri-oval-shaped muffler rear seamlessly transforms into 4" round front
- 5" wide, 4" tall thin-line aluminum tip
- 3" core for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Feature proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid-frequencies, which helps to enhance the low-frequency tones
- Raven black is slightly darker than the standard black finish
- Sold in pairs

FOR DRESSER/TOURING MUFFLERS

VANCE & HINES

4" MONSTER ROUNDS SLIP-ON MUFFLERS

- Twice the internal volume of other slip-on mufflers for better flow and more power
- Stereo-friendly with a deep rich tone that is perfect for cross-country tours
- Chrome full-coverage, one-piece formed heat shields with machined end caps
- Sold in pairs

PART #	DESCRIPTION
1801-0395	For 95-98 FLT/FLHT/FLHR/FLTR models

1801-0898

1801-0899

1801-0900

4" ELIMINATOR 400 SLIP-ON MUFFLERS

- Large 4" round mufflers are finished with race-inspired CNC-machined billet end caps
- Tuned to give Baggers a deep and aggressive roar
- Sold in pairs

PART #	DESCRIPTION
FOR 95-98 FLT/FLHT/FLTR/FLHR MODELS	
1801-0898	Chrome
1801-0899	Chrome w/ black end caps
1801-0900	Matte black

1861-1172

PART #	DESCRIPTION
OPTIONAL COMPONENT	
1861-1172	Quiet baffle (ea.)

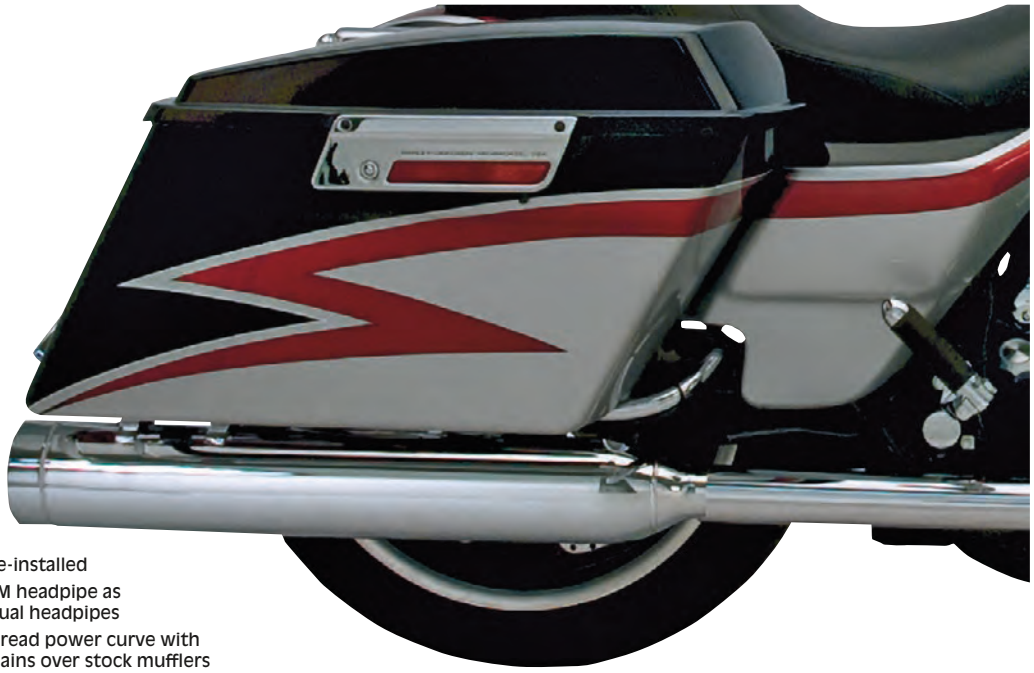
SUPERTRAPP®

FOR DRESSER/TOURING MUFFLERS

4" MEGAPHONE MUFFLERS

- The epitome of style and performance in a tunable system that lets you determine tone and torque
- Available in chrome slash-cut style
- Include 12 x 4" discs per muffler
- Sold in pairs

PART #	DESCRIPTION
FOR 95-98 FLT/FLHT/FLHR/FLTR	
728-78054	Slash-cut Megaphone mufflers



4" STOUT SLIP-ON MUFFLERS

- Massive non-tunable chrome body
- Streamlined, internal tapered, billet aluminum end caps with recessed fasteners are pre-installed
- Inlets flow better into OEM headpipe as well as SuperTrapp True Dual headpipes
- Provide a heavy, broad-spread power curve with horsepower and torque gains over stock mufflers
- Minimally (2 dB) louder than stock (based on US models)
- Sold in pairs

PART #	DESCRIPTION
1801-0519	For 95-98 FLT/FLHT/FLHR/FLTR

4" FATSHOTS SLIP-ON MUFFLERS

- 4" diameter adds a massive look
- SuperTrapp tunable-disc technology allows you to adjust sound levels and powerband by adding or removing 4" external discs (24 included)
- Chrome-plated
- Sold in pairs

PART #	DESCRIPTION
1801-0341	For 95-98 FLT/FLHT/FLHR/FLTR

FISHTAIL EXTENSION

- 1 7/8" chrome straight-thru Fishtail tail pipe extension
- Does not require additional brackets to install
- Measures 29" L
- Sold each

PART #	DESCRIPTION
1801-0294	For 80-E85 FLT/FLHT models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

FOR SOFTAIL
TRUE-DUALS

TRUE DUALS WITH FISHTAIL MUFFLERS

- Give your bike a unique performance and sound
- Features $1^{3}/_{4}$" headpipes that flow into 39" L, $1^{7}/_{8}$" fishtail mufflers (no baffles)
- Chrome heat shields cover headers

PART #	DESCRIPTION
1800-2333	For 89-98 Softail

1800-0638
w/ 1801-0453 mufflers

1800-0638
w/ 1801-0452 mufflers

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES AND MUFFLERS

- True-Dual crossover header systems perform as good as they look
- Offer improved low-end torque, appearance and an unmistakable exhaust tone
- Fabricated from 16-gauge steel, finished in show-quality chrome and supplied with custom-fit heat shields
- Crossover system will only accept Bassani's Softail slip-on mufflers (sold separately), featuring 16-gauge steel construction, removable flow-through baffles and show-chrome finish
- All hardware and mounting brackets included with headpipes

NOTE: Header pipes and mufflers listed will not interchange with OEM components.

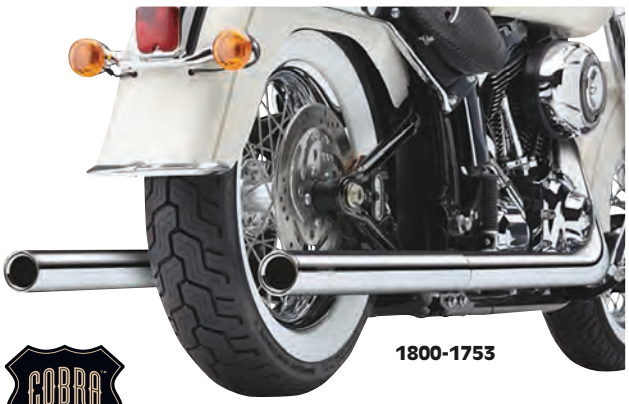
PART #	DESCRIPTION
CROSSOVER HEADER PIPE ONLY	
1800-0638	For 89-99 FXST/FLST (except 95 FLSTC)

PART #	DESCRIPTION
SLIP-ON MUFFLERS (PR.)	
1801-0452	3" slash-cut w/ standard 2" baffles
1801-0453	3" slant-cut w/ standard 2" baffles

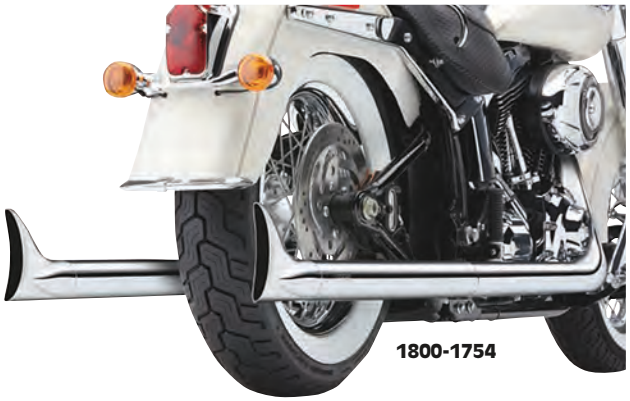
DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

FOR SOFTAIL TRUE-DUALS



1800-1753



1800-1754

SOFTAIL DUAL EXHAUST SYSTEMS

- Provide a classic dual-exit look while increasing performance
- 1 3/4" exhaust tubing provides improved exhaust flow; rear headpipe is not flattened to clear the coil bracket
- Removable louvered baffles increase back pressure and torque
- New coil-mounting bracket increases clearance for the tightly-curved rear headpipe on 07-newer models
- 2 1/2" heat shield gives the classic straight pipe look
- Available with 2 1/2" billet tips or a classic chromed steel fishtail-style tip
- Billet-tip style lines up with the rear fender
- Fishtail-style tip sticks out 6" further than the standard billet tip for a more custom look

PART #	DESCRIPTION
FOR 97-99 FLST/FXST MODELS	
1800-1753[1]	W/ billet tips
FOR 97-99 FLST/FXST MODELS (CONT)	
1800-1754[1]	W/ fishtail tips

[1] Will fit 86-96 FXST/FLST models with minor modifications.

SOFTAIL DUALS 2-INTO-2 EXHAUST SYSTEMS

- Give your Softail the nostalgic look of true duals
- 2 1/8" 220° full-coverage headpipe heat shields and 2 1/2" slip-on heat shields make the system virtually blue-proof
- The slip-ons give the performance and sound you would expect with standard louver core baffles
- Enhance the nostalgic look of a Springer Softail or any other Softail model
- Feature matched straight-cut billet tips
- Available in chrome

NOTE: Will require O_2 sensor port plug kit PART #1861-0464.

PART #	DESCRIPTION
1800-1304	For 97-99 FXST/FLST models

SPEEDSTER LONG EXHAUST

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
1800-1826	For all 86-99 FXST/FLST models

SPEEDSTER SLASHDOWN EXHAUST SYSTEM

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
1800-0087	For all 86-99 FXST/FLST models

FOR SOFTAIL
2-INTO-2

1861-0534

1800-1378

SPEEDSTER SHORT SWEPT EXHAUST SYSTEM

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Swept system is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

FOR 86-99 FXST/FLST MODELS

PART #	DESCRIPTION
1800-1378	Exhaust system w/ chrome heat shields

PART #	DESCRIPTION
1861-0534	Optional passenger peg relocation kit

DRAGSTERS

- Perfect update to traditional drag pipes; maintains clean, pure drag-pipe appearance
- Full-length, 2,5" heat shields with a 222° wraparound for a non-blueing appearance
- Capped with machined and chromed billet tips
- Removable performance cores
- Feature power with social responsibility

PART #	DESCRIPTION
1800-1821	For all 86-99 FXST/FLST models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

2-INTO-1

COBRA USA RIDE LOUD

POWERPRO HP 2-INTO-1 EXHAUST

- Design features a sleek, cylindrical 3,5" muffler body in addition to the megaphone style of the original PowerPro
- Delicately machined chromed billet tip
- Chrome finish with full-length collector heat shields
- Internal cooling technology for non-blueing muffler body
- Double-insulated body
- Removable baffle

PART #	DESCRIPTION
1800-0204	For all 86-99 FXST/FLST models

VANCE & HINES

PRO PIPE EXHAUST SYSTEM

- Includes tuned length stepped headers with a highly efficient merge collector that feeds into the stepped 4 1/2" megaphone design
- Complete with header and collector heat shields, as well as a shield over the first step of the megaphone
- Available in chrome with CNC-machined chrome-plated billet end cap

NOTE: Not for Softail models with Heritage-style saddlebags.

NOTE: Will require O_2 sensor port plug kit PART #1861-0464 (sold separately).

PART #	DESCRIPTION
1800-1206	For 86-99 FXST/FLST models

VANCE & HINES

HI-OUTPUT 2-INTO-1 SHORT EXHAUST SYSTEM

- Engineered to be a compact version of the Vance & Hines signature stepped megaphone
- 1 3/4" to 2" tapered headpipes with 2 1/2" inlet to megaphone and 4" to 4 1/2" stepped muffler body
- Deep, throaty note
- CNC-machined billet end cap
- Available in black

PART #	DESCRIPTION
1800-2062	For 86-99 FXST/FLST models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

SUPERTRAPP®

FOR SOFTAIL
2-INTO-1

FAT SHOT 2-INTO-1 EXHAUST SYSTEM

- Provides substantial performance gains
- 1 3/4" primary pipes flow into a 2 1/2" collector
- Heat shields provide full coverage
- A tunable 4" external disc-based muffler with a 2 1/2" core that is also completely rebuildable
- Comes with a polished trim ring, a closed end cap and discs
- Includes O_2 sensor plugs for non-sensor applications

PART #	DESCRIPTION
1800-2059	For 84-99 FXST/FLST

1800-0078

2-INTO-1 SUPERMEG SYSTEMS

- Increases horsepower while delivering a glorious, throaty exhaust note
- Straight-through core design provides free-flowing exhaust for crisp throttle response
- Integrated three-piece heat shield that provides full coverage
- Includes 20 x 4" discs, mounting bracket and hardware

1800-0551

NOTE: Not recommended for use on FXST/FLST models with Springer-style saddlebags.

SPEEDSTER SLASHDOWN EXHAUST SYSTEM

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
1800-0088	For all 91-98 Dyna models

DRAGSTERS

- Perfect update to traditional drag pipes; maintains clean, pure drag-pipe appearance
- Full-length, 2,5" heat shields with a 222° wraparound for a non-blueing appearance
- Capped with machined and chromed billet tips
- Removable performance cores
- Feature power with social responsibility

PART #	DESCRIPTION
1800-1823	For all 91-98 Dyna models

1861-0400

1861-0770

TORQUE CONES

- High-temperature stainless steel cones have fully radiused edges for improved engine response, especially low-end torque
- Generate correct levels of backpressure for increased horsepower
- Fit most stock and aftermarket exhaust systems; fit 1 3/4"-2" ID exhaust pipes
- New Vortex design increases backpressure, improving torque and horsepower
- Smooths out the power curve for more consistent performance
- Sold in pairs

PART #	DESCRIPTION
1861-0400	Torque cones

PART #	DESCRIPTION
1861-0770	Vortex torque cones

EXHAUST SPIGOT

- Designed and machined from 6061-T6 aluminum extruded tubing
- Allows you to rebuild the exhaust attachment point on your classic Panhead engine
- Welding required
- Sold each

PART #	DESCRIPTION
0930-0059	For 48-65 Panhead

KHROME WERKS

SOUND REDUCTION KIT

- Easy, bolt-in sound reduction for 3" HP-Plus® mufflers
- Takes off 4dB at idle and improves low-end torque – minimal loss of top-end horsepower
- The machined discs with tapered bosses fit into each end of the resonator near the exit end of the mufflers and are retained by the supplied bolts and nuts
- This kit is designed to use with three-ball style resonators that are 6,50" long
- Will also fit most other mufflers (four-ball style resonators) if 1/4"-20 x 11,00" threaded rods are substituted for the supplied bolts
- Installation requires removal of the mufflers
- Kit includes machined discs and two 7,50" 1/4"-20 bolts and two prevailing torque nuts

PART #	DESCRIPTION
1861-0806	Sound reduction kit

1861-0739

MINI FLEX-BLANKET™

- The Mini Flex-Blanket™ is a radiant and conductive heat shield
- Measures 12" x 40" and constructed woven fiberglass laminated to an aluminum reflective surface
- Ideal for use on areas that require reflective shielding
- Reflects 95% of infrared heat, and offers an efficient high-temperature barrier material with superior durability

PART #	DESCRIPTION
0710-0236	Mini Flex-Blanket™ w/ adhesive

BLACK HEAT GUARD MAT

- Ideally suited for use on firewalls, under vehicles and exhaust paths
- Temperature resistance: 426 °C (800°F) with ½" air gap
- 10" x 10"

PART #	DESCRIPTION
1861-1412	10" x 10"

MATRIX HEAT SHIELD™ MAT

- The Matrix Heat Shield Mat is a unique self-adhesive heat shield with a carbon-fiber finish
- Made from crushed volcanic rock; 25% stronger than a typical fiberglass mat
- Weather and chemical resistant
- Measures 30,5 cm x 61 cm (12" x 24")

PART #	DESCRIPTION
1861-0816	Mat, 30,5 cm (12") x 61 cm (24")

MUFFLER PACKING

- Heavy-duty 649 °C (1200 °F) muffler packing
- Can be split in half to allow for double use

PART #	DESCRIPTION
1861-0696	28 cm x 40,5 cm x 25 mm (11" x 16" x 1") thick

1860-0198

UNIVERSAL CORE REPACK KITS

- High-grade fiberglass matting
- Kit PART #1860-0198 includes 9" x 16" fiberglass matting; enough material to repack two baffle cores
- Kit PART #1860-0510 includes two 14½" x 12½" x ½" thick fiberglass mats and two 14" x 8½" woven thin mats

PART #	DESCRIPTION
1860-0198	Repack kit (9" x 16")
1860-0510	Repack kit (14½" x 12½" and 14" x 8½")

V16106

FIBERGLASS REPACKING KITS

- Available in two sizes

PART #	DESCRIPTION
V16106	20" x 12½" x ⅜"
V16108	13" x 9½" x ⅜"

COMPETITION MUFFLER PACKING

- Made from crushed volcanic fiber
- Temperature resistance: 982 °C (1800°F)

PART #	DESCRIPTION
1860-1822	11" x 16" x 1" thick

BAFFLE PACK

- Silencer repacking material
- Material is labeled and conforms to BSAU 193T2
- Pack contains 250 g of silencer wool

PART #	DESCRIPTION
1860-0436	Baffle pack

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

VANCE & HINES

HEADER WRAP KIT

- Features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape helps lock in the heat and reduces the radiant heat by 50%
- Kit will wrap two motorcycle headers thoroughly
- Includes 2" x 25' roll of black wrap tape, two Vance & Hines Wrap Clamps and six locking stainless steel ties

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this Kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the headpipe, thereby raising the headpipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the headpipe material, and may ultimately lead to cracks in the headpipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

PART #	DESCRIPTION
1861-0622	Black exhaust wrap kit

DRAG Specialties

WOVEN BASALT EXHAUST WRAP KITS

- Made of basalt lava rock material for extreme heat applications
- Temperature rating of 982 °C (1800 °F) continuous/ 1371 °C (2500 °F) intermittent
- Includes four 35,5 cm (14") ball bearing and barb-locking stainless steel ties; replacement ties also available (PART #1861-0670)
- Glossy bronze color

DRAG Specialties

STAINLESS STEEL WORM CLAMPS

- Feature a narrow design with a low-profile head
- Secure exhaust heat wraps or can be used any place extra clamping is needed in extreme temps or conditions
- Sold in 4-pack

PART #	DESCRIPTION
1861-0672	71,75 mm - 57,1 mm (1,25" - 2,25") diameter
1861-0673	57,1 mm - 82,5 mm (2,25" - 3,25") diameter

DRAG Specialties

STAINLESS STEEL CABLE TIES

- Great for high-temperature areas
- Ball bearing and barb-fastening assembly
- Lock tightly and will not slip
- Secure any place an extra-strength tie is needed
- Sold in 5-pack

PART #	LENGTH
1861-0671	20,5 cm (8")
1861-0670	35,5 cm (14")

MAXIMUS TUNER VCM

- Tune and modify ECU tables
- Back-up and restore the original map
- Auto mapping
- Fast data acquisitions and display
- Provides power from motorcycle for wideband O_2
- Record/monitor wideband O_2 sensors
- Single Use

NOTE: Must order 4-pin Maximus cable connector PART #1022-0213 (sold separately).

NOTE: Maximus Tuner VCM will be paired to the bike. Cannot be used with another bike.

PART #	DESCRIPTION
1020-2840	Maximus Tuner VCM for all Harley-Davidson® w/ Marelli EFI
1022-0213	4-pin Maximus cable connector for all w/ Marelli EFI (J1850)

WIDEBAND O_2 SENSOR SYSTEM TRO_2

- No calibration required
- Soft start technology
- Two analog outputs, one digital input and one digital output
- Bosch LSU 4.2 sensor
- Compatible with multiple fuels
- Sensor is hand tested
- Digital precision
- Includes 12V power input, 4-prong analog clip, termination jumper, serial RX plug (In), serial TX plug (Out) and sensor input clip

PART #	DESCRIPTION
1022-0215	Wideband O_2 sensor system TRO_2

3807-0378

3807-0398

COMPLETE O_2 BUNG INSTALLATION KITS

- Kits to add 18 mm x 1,5" threaded bungs for O_2 sensors and O_2 tuning samplers
- Remove heat shields, install bung and tune; when completed, use included screw and copper washer to seal bung and then replace heat shield for unaltered finish
- No pump or sampling tube required and allows both cylinders to easily be monitored at the same time
- No welding
- Complete bung installation kit includes one hydraulic insertion tool, one drill bit, two O_2 sampler blocks, tubing, 25 Rivnuts, 25 screws and 25 copper washers, all contained in plastic case
- Refill kit PART #3807-0398 includes 25 each of bungs, plugs and copper washers, sold separately

PART #	DESCRIPTION
3807-0378	Complete O_2 bung installation kit

PART #	DESCRIPTION
3807-0398	Refill kit

CENTURION SUPER PRO PLUS DIAGNOSTICS USB LICENSE KEY

- The Centurion Diagnostics USB license key is needed to run the Centurion Super Pro Plus (HD, Victory and Indian) diagnostic software
- It permits communication with 1995-2020 Harley-Davidson and Buell models using the proprietary VCM-TR4 Communication Module and cables

NOTE: Annual new model year updates available for download and purchase for minimal fee; see licensing for details.

PART #	DESCRIPTION
3807-0498	Centurion Super Pro Plus diagnostics USB license key

Fi2000 POWERED BY COBRA

Fi2000 POWRPRO BLACK

- Requires no dyno tuning – plug it in and ride
- PowrPro Black analyzes, tunes and adjusts your air/fuel ratio for peak performance instantaneously
- Tunes acceleration fuel delivery in every gear for peak performance
- Works with stock or modified engines, air cleaners and exhaust systems
- Can fine-tune the non-acceleration air/fuel curves using the Bluetooth® app
- Can tune engine fuel delivery in specific ranges, check rpm, read fuel injector pulse width and duty cycle, and add or remove fuel in low-or mid-range rpm

PART #	DESCRIPTION
1020-2779	For 95-98 FLHT/FLHR/FLTR

Fi2000R PLUG-IN FUEL PROCESSOR

- Proven Fi2000R comes with leads that snap directly into the bike's injector bodies
- Standard open-loop design for 06 Dyna and all 07-08 models can use exhaust systems that do or do not have O_2 sensor bungs
- More advanced tuning for modified bikes
- Think of third tuning pot as an electronic main jet while thinking of the entire Fi2000R as a digital jet kit
- Full range of fuel adjustment (0-10 setting) across all rpm ranges
- Three easily identifiable lights: green – Fi2000R is adding more fuel to the air/fuel ration approx. 14:1; green and yellow lights – these lights will be on in unison when throttle is open more quickly and air/fuel mixture is approx. 12,5:1; red – light comes on and stays on as long as the Fi2000R follows the fuel curve while adjusting to approx. 12,8:1 air/fuel ratio, which is where the engine will produce its best full-throttle power
- Step-by-step instructions
- Improves rideability by smoothing out the powerband and giving the bike more throttle response
- Corrects lean air/fuel mixture problems; eliminates overheating, hesitation on acceleration or an uneven cruising rpm
- Waterproof circuit board
- No fuel map adjustments or computer downloads required

PART #	DESCRIPTION
1020-0093	For 95-98 FLHT/FLHR/FLTR

SUPER E AND G CARBURETOR KITS

- Carb kit includes a natural finish S&S Super E or Super G gas carburetor (unless noted) with updated fuel delivery ports and idle screw, S&S teardrop air cleaner assembly, manifold (unless noted), mounting hardware, fuel line, clamps, overflow line, one extra intermediate jet and two main jets, VOES tubing (when applicable), installation and jetting instructions
- Super E has a 1,875" throat at the butterfly and a 1,5625" venturi and is recommended for use on Big Twin or Sportster engines up to 100-cubic-inch
- Super G has a 2,0625" throat at the butterfly and a 1,75" venturi and is recommended for use on 90-cubic-inch and larger high-performance and modified engines
- Super G is not recommended for smaller, lower compression engines
- If there is a doubt as to which carburetor to use, we suggest the 1,875" Super E

NOTE: S&S Super E & G carburetors require the use of a two-cable, pull open/pull close throttle assembly; S&S kits are compatible with stock cables, except as noted.

DESCRIPTION	SUPER E CARB KIT	SUPER G CARB KIT
KITS WITH MANIFOLD		
For 93-99 Evolution Big Twin	**DS-0419**	-
For 84-92 Evolution Big Twin	**DS-0407**	-
For 79-84 Shovelhead (band style intake)	**DS-0411**	**DS-0431**

[1] Air cleaner notched for clearance.

SUPER E AND G CARBURETORS

1002-0025

1001-0044

- Four fuel delivery ports for better fuel flow
- O-ring sealed idle mixture screw
- Increased airflow for more horsepower
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the OEM dual-cable throttle system for smooth, reliable operation
- Variable position enrichment starting system
- High-quality fit and finish
- Super E carburetors have $1^{7}/_{8}$" throat at the butterfly and a 1,5625" venturi; recommended for use on Big Twin or XL engines up to 100 cubic inches in displacement
- Super G carburetors have a $2^{1}/_{16}$" throat at the butterfly and a 1,75" venturi; recommended for use on high-performance and modified engines 90 cubic inches or larger in displacement
- Super G carburetors are not recommended for smaller-displacement, low-compression engines
- Big bore carburetors also available (see chart); feature a larger venturi for more airflow
- Sold each

FOR 55-99 BIG TWIN AND 57-85 XL

42-18

45-2X

HSR42 AND HSR45 SMOOTHBORE CARBURETOR KITS

- Kits include the 42 mm/45 mm smoothbore carb in a natural finish
- Easier, faster installation using stock CV throttle cables
- Excellent throttle response and control; with more power, improved acceleration and better gas mileage
- Order fewer part numbers to cover more applications
- Well made for years of dependable service
- See pages 300-301 for additional main and pilot jets
- Installation instructions and hardware included

NOTE: Kits are not for use on models with cruise controls.

42 MM/45 MM EASY KIT

- Accepts the original H-D intake manifold, choke cable, air cleaner and throttle cables
- Keeps the stock look of your bike
- Recommend the use of a high-flow air filter designed for the stock CV carb

42 MM/45 MM TOTAL KIT

- Includes performance intake manifold, rubber flange, 42 mm or 45 mm carb, high-flow K&N filter, air cleaner cover, breather kit and hardware
- 84-89 models require the use of 90-95 Big Twin-style cables

EASY KITS	
PART #	**DESCRIPTION**
42 MM	
42-18	For 90-99 Evolution Big Twin (not for use with stock air cleaner; requires a hi-perf air cleaner; use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)
42-7	For 90-99 Evolution Big Twin (includes chrome air cleaner cover)
45 MM	
1002-0030	For 90-99 Evolution Big Twin; requires use of Screamin' Eagle manifold (use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit

TOTAL KITS

PART #	DESCRIPTION
42 MM CARB KITS	
42-8[1]	For 84-99 Evolution Big Twin (except 84-88 FLT)

PART #	DESCRIPTION
45 MM CARB KITS	
45-2X[1]	For 84-99 Evolution Big Twin (except 84-88 FLT)

[1] 84-89 models will require 90-95 Big Twin intake manifold flanges and seals (sold separately).

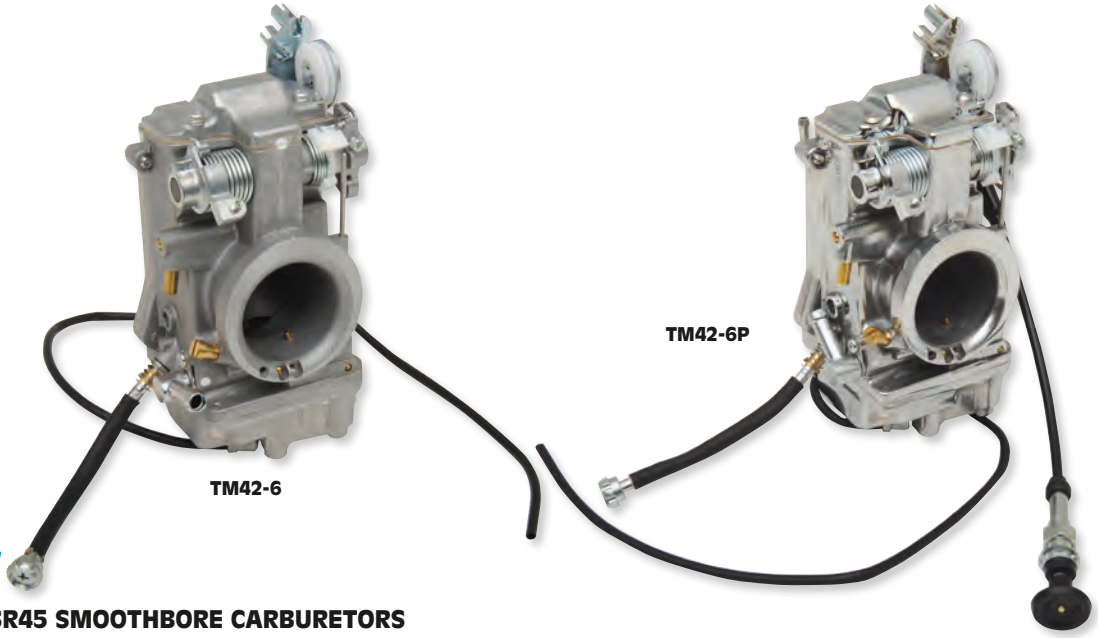
HSR48 SMOOTHBORE CARBURETOR

- High-performance carb is ideal for realizing the maximum potential from custom and race engines
- Recommended for engines over 1200ci or larger
- Includes rubber mounting flange with 78 mm bolt hole centers, choke cable and four different main jets
- Uses stock H-D throttle cables
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 300-301 for additional main and pilot jets
- For race and custom applications only

PART #	DESCRIPTION
482X	48 mm carb, standard finish

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.



TM42-6

TM42-6P

HSR42 AND HSR45 SMOOTHBORE CARBURETORS

- For the high-performance engine builder who needs a carb for specific custom applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well made for years of dependable service
- See pages 300-301 for additional main and pilot jets

NOTE: Choke cable included, except for the TM42-6, which uses stock choke cable from CV-type carb.

NOTE: Airbox adapter HS42/001-K must be ordered separately.

NOTE: Kits are not for use on models with cruise controls.

PART #	DESCRIPTION
TM42-6	42 mm carb, standard finish
TM42-6P	42 mm carb, polished finish

PART #	DESCRIPTION
TM45-2	45 mm carb, standard finish
TM45-2P	45 mm carb, polished finish

REPLACEMENT FILTER ELEMENTS

- Replacement 2½" or 3" filter elements for HSR42/45/48 carburetor

PART #	DESCRIPTION
HS42012-250	2½" filter element

PART #	DESCRIPTION
HS42/012-300	3" filter element

DS-289078

DS-289079

BENDIX CARBURETORS

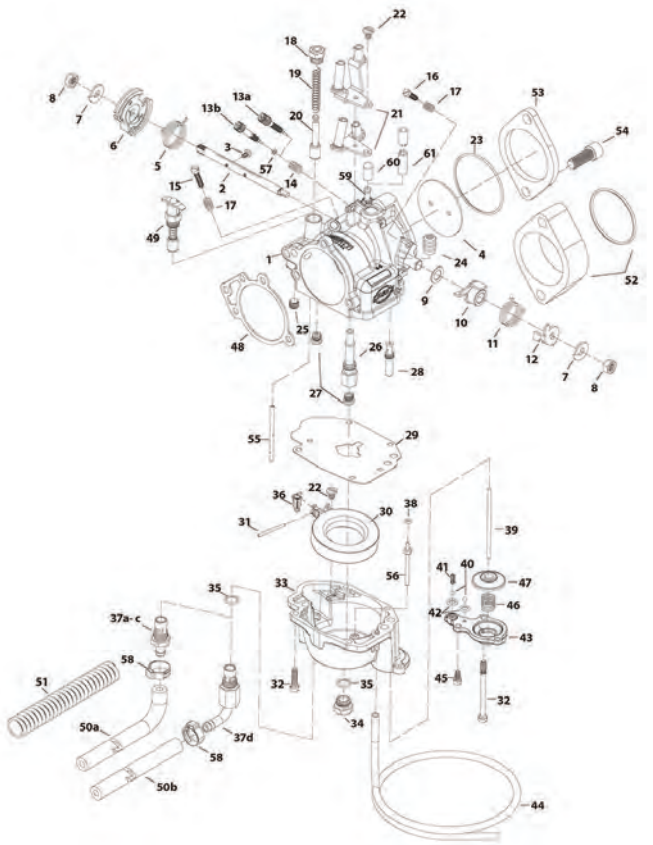
- High-performance Bendix carburetors are easy bolt-on replacements that need no extra fitting or linkage connections
- Most offer adjustable high-speed jets; all provide improved acceleration and easier, quicker starts

NOTE: All Bendix carbs may be used for other applications, provided correct cables are used.

PART #	DESCRIPTION
DS-289078	40 mm high-performance carb w/ adjustable main jet, standard finish, for all L81-89 Big Twin w/ dual-throttle cable linkage
DS-289081	38 mm high-performance carb w/ adjustable main jet, std. finish, for 69-75 Shovelhead and 57-75 XL (except models w/ magnetos)
DS-289080	38 mm standard repl. Bendix carb w/ fixed main jet, std. finish, for 69-75 Shovelhead 57-75 XL (except models w/ magnetos)
DS-289079	Choke cable accessory kit (required for installation of 40 mm carb on 84-89 Big Twin)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.



S&S CARBURETOR REBUILD KITS AND REPLACEMENT COMPONENTS

- Rebuild kits are available in master kits, body-only kits and accelerator pump kits
- Replacement gaskets, O-rings and components are made from the highest quality materials available

REPLACEMENT COMPONENTS

PART #	DESCRIPTION
112923	Master rebuild kit Super E (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
112924	Master rebuild kit Super G (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
1003-0453	Master rebuild kit Super A, B (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
DS-289111	Rebuild kit for Super E (body rebuild kit)
DS-289112	Rebuild kit for Super G (body rebuild kit)
1003-0312	Rebuild kit for Super E & G basic
112903	Rebuild kit for Super B (body rebuild kit)
1003-0056	Breather conversion kit for E, G carburetor
1003-0085	(13a) Idle mixture screw (5-pk.)
1003-0040	(14) Idle mixture screw spring (10-pk.)
1003-0047	(20) Fast idle plunger/enrichener (ea.)
1003-0459	Enrichener lever, Super E or G carburetor
1003-0196	(21) Throttle cable guide/bracket for use w/ butterfly cables (ea.)
1003-0195	(21) Throttle cable guide/bracket for use w/ CV (constant velocity) cables (ea.)
DS289935	(23) Manifold to carburetor O-ring, Super E (10-pk.)
DS289934	(23) Manifold to carburetor O-ring, Super G (10-pk.)
112091	Bowl gasket, Super B and D (10-pk.)
1003-0455	(24) Seal, bellows, Super E/G, 2T, Nitrile
1003-0043	(24) Bellows seal, accelerator pump (5-pk.)
-	Main Jets, see page 305
-	Intermediate Jets, see page 305
0934-5028	(29) Bowl gasket, Super E & G (ea.)
DS289933	(29) Bowl gasket, Super E & G (10-pk.)
1003-0460	(32) Screw, S&S float bowl (10-24 x 3/4") (10-pk.)
1003-0966	(32) Screw, S&S float bowl, long (ea.)
1003-0452	(33) Float bowl for Super E & G
1003-0041	(34) Float bowl plug (5-pk.)
0935-0864	(35) O-ring, 0,390" ID x 0,510" OD, Silicone (50-8009) (ea.)
0935-0870	(35) O-ring, 0,390" ID x 0,510" OD, Silicone (50-8095) (ea.)
1003-0042	(36) Needle for S&S E & G carb (1,875" E & 2,0625" G) (ea.)
1004-0017	Needle for S&S B and D carb (fits forked-type float) (ea.)
1003-0052	(37) Fuel inlet/seat for S&S E & G carb (1,875" E & 2,625" G) (uses needle 1003-0042) (ea.)
1007-0410	Fuel inlet/seat for S&S Super B and D carb (wire or forked-type float) (uses needle 1004-0017) (ea.)
1003-0237	(37d) Inlet carb fuel swivel, 90°
0935-0865	(38) O-Ring, (-006), 0,125" ID x 0,250" OD, Silicone (50-8011) (ea.)
1003-0192	(38) O-ring, accelerator pump tube E & G carburetor (10-pk.)
1003-0194	(40) Accelerator pump check ball only (10-pk.)

PART #	DESCRIPTION
1003-0050	(41) Check ball spring (5-pk.)
0935-0866	(42) O-ring, (-009), 7/32" ID x 1/32" OD x 1/16" CS, Silicone (50-8012) (ea.)
0935-0867	O-ring, (-136), 2" ID x 2,187" OD, Nitrile (50-8013)
1003-0193	(42) Accelerator pump cap O-ring (two required) (10-pk.)
1003-0188	(44) Fuel bowl overflow hose; 24" long (5-pk.)
1003-0058	(45) Pump cap screw 8-32 (10-pk.)
1003-0044	(46) Diaphragm spring, accelerator pump (10-pk.)
1003-0045	(47) Accelerator pump diaphragm (ea.)
112084	(49) Enrichment device for B series carb (will work on Super E & G carbs when changing air cleaners) (ea.)
0706-0203	(50b) Straight gas hose for use with the new S&S carbs with 90° fuel inlet
DS-289183	Gas line insulator
160057	(52) 1" Spacer block Super E
160357	(52) 1" Spacer block Super G
160491	(53) 0,25" Insulator block w/ O-ring Super E
1050-0360	(53) 1 7/8" x 3/8" Super E and G manifold insulator blocks w/ O-ring
160492	(53) 0,25" Insulator block w/ O-ring Super G
1050-0361	(53) 2 1/16" x 3/8" Super E and G manifold insulator blocks w/ O-ring
1003-0454	(56) Tube, ejector nozzle, Super E/G, flared, brass
1050-0359	(60) Hose VOES/oil (19-0395) (ea.)
DS-289113	Accelerator pump rebuild kit for E & G (diaphragm, spring, check balls and springs, pushrod and required hardware)
2402-0256	Bowl screw 10-24 x 3/4" (three required) (ea.)
1050-0440	Idle speed/pump adjuster spring for Super E or G carburetor
1050-0445	Plunger nut (ea.)
1050-0441	Idle mixture screw spring (ea.)
1050-0438	(57) Idle mixture needle O-ring (ea.)
1003-0353	(30) Float for Super E or G carburetor (ea.)
1050-0442	Throttle return spring for Super E or G carburetor (ea.)
1006-0327	Main Jet for B series carburetor (ea.)
1050-0439	(40) Check ball (two required) (ea.)
1050-0302	Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1050-0302	Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
2402-0257	(45) Pump cap screw 8-32 (ea.)
1003-1874	Enrichment plunger spring for Super E and G carburetors (ea.)
0935-0862	O-ring (-160), 5,250" ID x 5.437" OD, Viton®
0935-0863	O-ring (-013) 0,437" ID x .565 OD, Viton®
0935-0869	O-ring (-233), 1,625" ID x 1.875" OD, Viton®

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

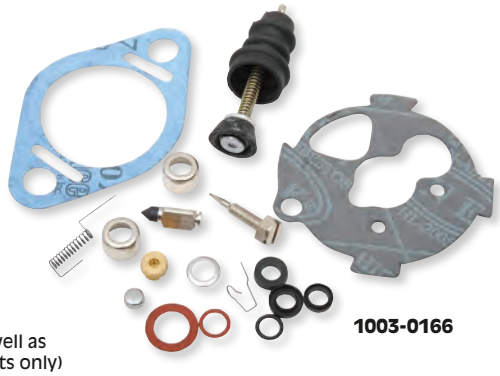
ZENITH FUEL SYSTEMS, INC.

GENUINE BENDIX CARB REBUILD KITS

- Rebuild kit includes all necessary gaskets, seals, idle screw and accelerator pump

PART #	DESCRIPTION
DS-289084	40 mm Bendix rebuild kit for L81-89 Big Twin
DS-289090	Bendix carb rebuild kit for 72-E76 XL; repl. OEM #27132-71



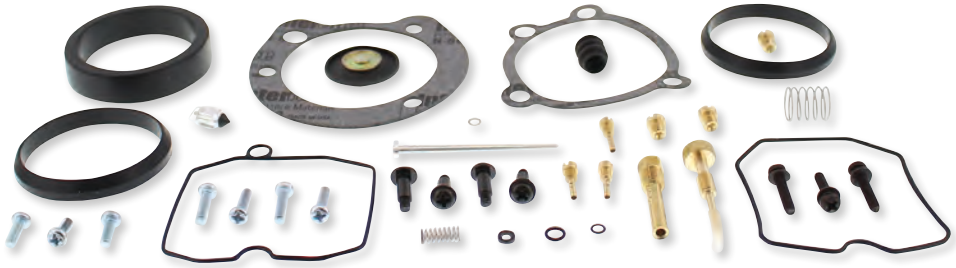
DRAG Specialties — Genuine JAMES GASKETS

REPAIR KITS FOR BENDIX CARBS

- Come complete with all the necessary gaskets and seals, as well as an accelerator pump (except PART #DS-173528 includes gaskets only)

PART #	DESCRIPTION
1003-0166	Bendix carb repair kit for 71-75 FX, FL and 72-E76 XL (import)
DS-289097	Accelerator pump only for 72-E76 FX, FL and 71-75 XL (import)

PART #	DESCRIPTION
DS-173528	Bendix gasket kit for 71-75 FX/FL and 72-E76 XL (Genuine James)



ALL BALLS Racing

CV CARBURETOR REBUILD KIT

- NBR rubber material is used on all O-rings and rubber gaskets; NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kit are based off of U.S. models and discretion must be used when attempting to install the kit on a non-U.S. model
- All gaskets and O-rings, including intake gaskets before and after the carburetor
- Kit includes float bowl, carburetor cap and accelerator pump screws
- Extended fuel mixture screw with spring, washer and O-ring
- Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- Three main jets and three pilot jets that can be used to tune a stock machine or a modified one
- Kit is intended for closed-course racing only

PART #	DESCRIPTION
1003-1273	For 90-99 Evolution Big Twin w/ CV carb (includes: 42, 45, 48 pilot jets; 175, 180, 185 main jets; N0KG needle)

Genuine JAMES GASKETS

CARBURETOR INSULATOR BLOCK KITS

- Kit includes 3/8" fiber insulator block and gaskets
- Designed to reduce the risk of boiling fuel in the carb

PART #	DESCRIPTION
DS-289104	For 76-80 FX and 79-84 FL models; will also fit any Bendix or Keihin carb when longer studs/bolts are used (1 3/4" ID)
0935-0100	For 44-65, carb to intake (Linkert); repl. OEM #29250-55
2011-1214	For custom applications; 1,86" ID w/ 2" center-to-center mounting holes

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

Genuine JAMES GASKETS

CARBURETOR AND INTAKE MANIFOLD SEAL KITS

- Kits contain carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
DS-174381	40 mm seal kit for 90-99 80" Evolution w/ Original Equipment carbs
DS173537	44 mm seal kit for 90-99 80" Evolution w/ Screamin' Eagle carbs

DS-174445	For 76-89 w/ OEM Keihin carb; repl. OEM #27361-76

COMETIC GASKET

INTAKE MANIFOLD AND CARB SEAL KIT

- Kit contains one carburetor-to-intake seal (27002-89) and two intake-to-cylinder head seals (26995-86B)

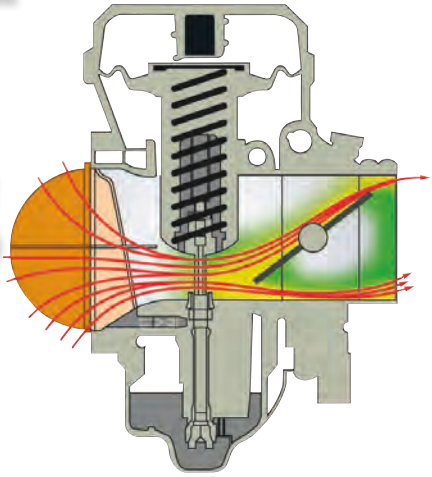
PART #	DESCRIPTION
0935-0172	40 mm seal kit for 90-99 Evolution Big Twin w/ OEM carb

Colony Where Excellence Is a Standard

CARBURETOR BOWL LOCK NUT KIT

- Includes copper gasket, nut and lock washer
- Cad-plated

PART #	DESCRIPTION
2401-0505	For 36-65 Big Twin and 57-65 XL; repl. OEM #27375-29, 27376-28, 7045, 7793



Boyesen

POWER X-WING

- Patented air vane requires no modifications to install
- Acceleration gains from idle to wide-open throttle
- Dyno tests show 2-5 horsepower gains and 4-6 ft./lbs. max torque increases on OEM H-D engines
- Complements popular air filter system upgrades

PART #	DESCRIPTION
1050-0180	For 88-99 models w/ OEM CV carb

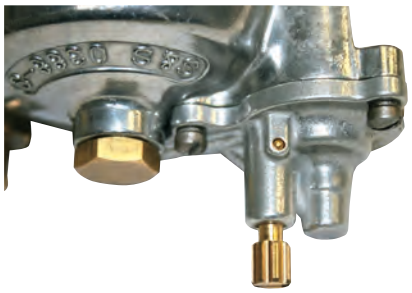
DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

Boyesen

QUICKSHOT

- Cost-effective, bolt-on upgrade that allows accelerator pump fuel spray to be adjusted simply with the turn of a screw
- Accelerator pump check valve stops bogging and coughing
- Adjustable fuel jet to control accelerator pump spray
- Precision single-hole sprayer tip directs and injects the fuel more efficiently than stock
- A fine high-speed stream of fuel atomizes faster to improve roll-on acceleration



- Instant throttle response
- Improves low-end performance and fuel economy
- Easy bolt-on; no modifications necessary

PART #	DESCRIPTION
1050-0241	Quickshot for S&S Super E & G carburetors

DS-290352

DS-290350

Dynojet

STAGE 7 THUNDERSLIDE WITH JET KITS

- Stage 7 kits are for 80 plus horsepower engines and include a taller carburetor top for more slide movement
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kits include jets, needles, clips, carburetor top and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290352	For 90-99 Evolution Big Twin

PART #	DESCRIPTION
DS-290350	For Screamin' Eagle 44 mm Keihin CV Evolution

Dynojet

THUNDERSLIDE JET KIT

- Designed for engines with stock or aftermarket air filter and exhaust system
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit also includes jets, needles, clips and other necessary parts for CV carbs

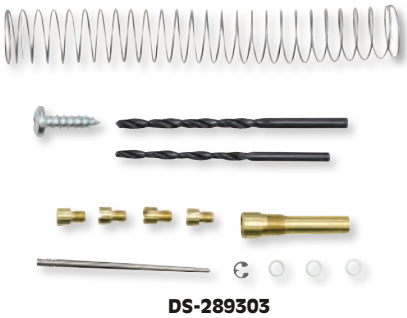
PART #	DESCRIPTION
DS-289307	For 90-99 Evolution Big Twin

Dynojet

RECALIBRATION KITS

- Recalibrate your stock Keihin CV carb to make full use of the performance potential
- Include the jets, needles, instructions, etc., necessary to recalibrate stock engines with CV carbs
- Kits provide broad-range performance gains and maintain stock driveability

DS-289306



DS-289303

PART #	DESCRIPTION
DS-289306	For 96-99 80" Evolution Big Twin

PART #	DESCRIPTION
DS-289303	For 90-95 Big Twin

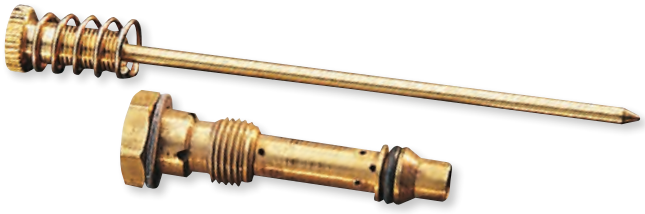
ZENITH FUEL SYSTEMS, INC.

ADJUSTABLE MAIN JET FOR BENDIX OR ZENITH CARBS



- Kit is easily installed by drilling and tapping a $^{9}/_{32}$"-32 thread in the carb's body
- Main jet is completely adjustable and eliminates time-consuming jet changes when fine tuning, changing fuels or climates
- $^{9}/_{32}$"-32 spiral tap is necessary when installing adjustable main jet on Bendix or Zenith carbs

PART #	DESCRIPTION
DS-289093	For Bendix or Zenith carbs

1050-0356

MANIFOLDS

- Natural finish

PART #	BORE SIZE	CYLINDER LENGTH	SIZE NUMBER	DESCRIPTION
FOR 84-99 111" S&S EVO-STYLE ENGINES				
1050-0356[2]	-	4,763"	398	For Super G carb
FOR 84-06 124" S&S EVO-STYLE ENGINES				
1050-0357[1]	-	5,013"	417	For Super G carb

[1] With MAP sensor port, requires MAP sensor machining, for S&S IST ignition.
[2] For S&S engines w/ Super Stock ignition.

MANIFOLD CONVERSION KIT FOR 80" EVOLUTION

- Kit converts stock 80" Evolution manifold to a more rigid-mount system
- Eliminates cracking and leaking problems associated with the stock rubber compliance fittings
- Includes an S&S Performance manifold, mounting flanges, two specially molded O-rings and two 0,350" spacers for spacing out the stock air cleaner or carb mount bracket
- Fits 84-99 80" models if flange-type carburetor or adapter is used
- Replacement flange seals also available

NOTE: Not for use with an S&S G series carb.

PART #	DESCRIPTION
1050-0296	Manifold conversion kit

1050-0046

FLANGE MOUNT INTAKE MANIFOLDS

- For mounting an S&S E and G series carburetor or flange mount carburetor on any model that requires a manifold with a MAP sensor port
- Comes with a MAP sensor port and match OEM intake ports

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
1050-0291	For S&S E-series carbs
1050-0046	For S&S G-series carbs

FLANGE MOUNT INTAKE MANIFOLDS

- Can be used to replace stock "compliance fitting" manifold on 84-89 and stock rigid-mount manifold from 90-99
- Use with stock or S&S cylinder heads
- For use with stock 5,5550" length cylinders
- Requires the use of S&S intake seals and flanges (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION-STYLE BIG TWIN	
1050-0110	For Super G carbs (no MAP sensor port)
1050-0293	For Super E carbs (no MAP sensor port)

1050-0295

SPIGOT-MOUNT INTAKE MANIFOLD FOR S&S HEADS

- Used to install a stock CV carburetor on S&S 3,625", 4" and 4,125" bore motors
- Will also fit S&S Hot Setup and Super Stock™ head kits

NOTE: Not for use with OEM-style O-rings, requires the use of S&S manifold O-rings and U-rings, sold separately.

PART #	DESCRIPTION
1050-0294	For 80"/89"/96" S&S Big Twin Evolution style motors and head kits (5,550" cylinder length)
1050-0292	For 88"/95"/96" S&S Twin Cam style motors and head kits (4,9365" cylinder length)
1050-0295	For 88"/95"/96" S&S Twin Cam style motors and head kits (4,9365" cylinder length)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

STANDARD INTAKE MANIFOLDS

- Available for stock length cylinders
- Compatible with S&S Super E, B and G carbs
- L78-84 Shovelheads use rubber-band-type intake seals
- 66-E78 Shovelheads use O-ring-type intake seals

AIR HORN VELOCITY STACK KIT

- Fully machined from lightweight alloy aluminum castings
- Kit includes: air horn velocity stack, three mounting screws, carb support bracket (bracket connects the center crankcase bolt to the bottom manifold carburetor mounting bolt), two longer bottom carb-to-manifold mounting bolts and an enrichment device

1011-3843

- Replacement air horns available in short 6,25 cm (2 1/2") or long 10 cm (4") lengths; include mounting screws
- Air horn cover sold separately
- Fits Super E & G carbs

PART #	DESCRIPTION
1011-3843	For S&S Super E & G carburetors
1010-2702	Air horn 6,5 cm (2,5") L

PART #	DESCRIPTION
1010-2703	Air horn cover
1010-2704	Air horn 10 cm (4,0") L

RUBBER FLANGE ADAPTERS FOR SPIGOT-TYPE CARBURETORS

M-VM-40-200

- Adapters fit 38 mm and 40 mm spigot-type carburetors
- Includes clamp
- PART # M-VM-36-200 has mounting holes that are 70 mm on center; ID of 39,5 mm
- PART # M-VM-38-200 has mounting holes that are 74,6 mm on center; ID of 38 mm
- PART # M-VM-40-200 has mounting holes that are 74,6 mm on center; ID of 47 mm
- Sold individually

PART #	DESCRIPTION
M-VM-36-200	36 mm-38 mm rubber flange adapter
M-VM-38-200	40 mm rubber flange adapter – 43 mm carb spigot OD (fits RS40, RS42)
M-VM-40-200	40 mm rubber flange adapter – 52 mm carb spigot OD

BLACK FLANGE ADAPTERS

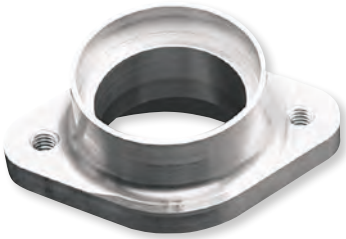
HS42/062-48

- Rubber flange adapters fit 42 mm, 45 mm and 48 mm spigot-type carburetors
- PART #HS42/018-42 has mounting holes that are 70 mm on center; ID of 45 mm
- PART #HS42/018-45 has mounting holes that are 70 mm on center; ID of 48 mm
- PART #HS42/062-48 has mounting holes that are 70 mm on center; ID of 71 mm
- Includes clamp
- Original straight-through design
- Sold individually

PART #	DESCRIPTION
HS42/018-42	42 mm
HS42/018-45	45 mm

PART #	DESCRIPTION
HS42/062-48	48 mm

BILLET FLANGE ADAPTER FOR SPIGOT-TYPE CARBS



- Allows you to mount OEM late-model CV or Mikuni HSR42 carbs on Evolution, Shovelhead, Panhead or Sportster models with two-bolt flange manifolds
- CNC-machined from 6061 billet aluminum
- Mounting holes are 2,75" on center
- Carb-to-manifold seal also available; see GASKETS & SEALS section
- Sold each

PART #	DESCRIPTION
DS-289219	Billet flange adapter

CHROME INTAKE MANIFOLD FLANGES

- Chrome flanges replace the stock flanges
- Sold in pairs
- Replacement intake manifold seals also available; see GASKETS & SEALS section

PART #	DESCRIPTION
DS-289212	For 90-99 Evolution Big Twin models

INTAKE MANIFOLD FLANGES

1050-0232

- Flanges sold in pairs (one front and one rear) or each (one front or one rear)
- Replace H-D #s 27009-86B and #27010-86B
- Replacement seals sold separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN W/ S&S INTAKE MANIFOLD	
1050-0232	Front and rear flange (set)
1050-0394	Front flange only
1050-0395	Rear flange only

INTAKE MANIFOLD CLAMPS

1013-0043

- Clamp is 3/4" wide and constructed of 0,020" thick stainless steel and use a curved 10-24 threaded "T"-bolt with plated steel aircraft-style hex locknut
- Sold each

PART #	DESCRIPTION
1013-0044	For 79-84 Shovelhead and L78-85 XL with rubber band-style cylinder heads; repl. OEM #27063-80
1013-0043	For 55-78 Big Twin and 55-E78 XL with O-ring-style cylinder heads; repl. OEM #27063-57

MANIFOLD TO CYLINDER HEAD O-RING KIT

- Meets or exceeds OEM quality

PART #	DESCRIPTION
0934-4705	For 55-78 Big Twin and 57-E78 XL models with O-ring style cylinder heads; repl. OEM # 27060-55

INTAKE PIPE NUT, SEAL AND NIPPLE

2401-0430 2401-0431 2401-0432

- Precision machined duplicates of original intake manifold seal, nut and nipple
- Sold each

PART #	DESCRIPTION
FOR 40-54 BIG TWIN	
2401-0430	Cad-plated intake manifold nut for O.H.V. 61"/74" engines; repl. OEM #27052-40
2401-0431	Brass intake manifold seal for O.H.V. 61"/74" engines; repl. OEM #27059-40
2401-0432	Intake manifold nipple for O.H.V. 74" engines; repl. OEM #27039-48

MIKUNI

HSR CARBURETOR HEAD-BREATHER KIT

- For use with Mikuni air filter PART #HS42012250 and HS42012300
- For the installation of HSR carburetor kits using the K&N high-flow filter on Evo Big Twins

PART #	DESCRIPTION
KHS-020	For HSR42/45 carb on Evolution Big Twin

KURYAKYN

BLUEGRASS BREATHER KITS

- Kit routes the vented gases upward so gravity can keep any expelled oil droplets back into the engine instead of down the sides of the bike
- Vent line can be run up or out, into an optional catch tank (available separately, PART #1012-0217)
- Includes vent hose and fittings

PART #	DESCRIPTION
1012-0218	Short leg breather kit for 93-99 Evolution Big Twin (most carbs except Mikuni HSR)
1012-0216	Long leg breather kit for 93-99 Evolution Big Twin with Mikuni HSR series carb
1012-0217	Optional catch tank for breather kits

DRAG Specialties

CRANKCASE BREATHER KIT

- One-piece chrome tube design
- Includes breather bolts, washers and hardware
- Works with most aftermarket air cleaners

PART #	DESCRIPTION
DS-289620	For 93-99 Evolution Big Twin

DRAG Specialties

CRANKCASE BREATHER/SUPPORT BRACKET KITS

- Allows the installation of aftermarket air cleaner assemblies on late model bikes equipped with OEM CV carb
- Includes bracket, filter, hose and all mounting hardware necessary for installation except where noted

DS-289082

PART #	DESCRIPTION
DS-289082	For all 93-99 Evolution Big Twin models
DS-289060	For 93-99 Evolution Big Twin models (no hose or filter)
DS-289073	Repl. filter

DRAG Specialties

BRAIDED HOSE CRANKCASE BREATHER KIT

- This kit provides the best looking alternative to black rubber hoses when mounting a crankcase breather system
- Features a 3/8" ID stainless steel braided hose crimped onto chrome banjo fittings
- Outlet side of assembly is long enough to custom-route the hose and mount the breather filter in an inconspicuous location
- Includes breather filter (with mounting stud), hardware and instructions
- Air cleaner and carb support bracket must be purchased separately

NOTE: Not recommended for stock applications. Make sure the braided line does not contact anything (i.e.; the gas tank, carb or wiring) as damage may result.

PART #	DESCRIPTION
DS289118	For 93-99 Evolution Big Twin custom applications only

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

AIR CLEANER BREATHER KIT

- Enables the mounting of most aftermarket air cleaners to late-style engines that breathe through the cylinder heads
- Fittings can be rotated 360° so that hoses can be routed as necessary
- Hose sold separately

PART #	DESCRIPTION
DS-289055	For 93-99 Evolution Big Twin

Eastern M C Parts

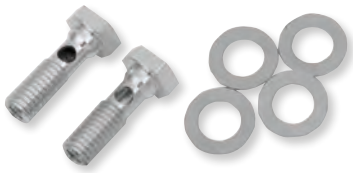
BREATHER TUBES

- For use with OEM backing plates and air filters
- Sold in pairs

PART #	DESCRIPTION
1010-2029	For 93-99 Evolution Big Twin; repl. OEM #24922-93

DRAG Specialties

EVOLUTION BREATHER BOLT KIT



- Chrome-plated hex-head breather bolts
- Fits most supports and breather brackets
- Includes sealing washers

PART #	DESCRIPTION
1012-0162	For 93-99 Evolution Big Twin (1/2"-13)

DRAG Specialties

BREATHER BOLT WASHER KIT

- Features four 1/2" and four 5/16" aluminum centering washers
- Also includes four 1/2" nylon sealing washers

PART #	DESCRIPTION
1012-0005	For 91-99 breather systems

THREAD REDUCER

PROVEN S&S PERFORMANCE

- Used on 93-99 H-D cylinder heads when installing a carburetor support bracket that requires 5/16"-18 mounting bolts
- Reduces a 1/2"-13 threaded hole to 5/16"-18
- Sold each; two required per motor

PART #	DESCRIPTION
7806-2940	1/2"-13 to 5/16"-18 thread reducer

DRAG Specialties

SUPPORT BRACKETS

- Chrome air cleaner braces provide additional support for the Dragtron™ II air cleaners or any flat-backed air cleaners
- Mount to the cylinder heads
- Can be used in conjunction with most breather kits (where applicable)
- Breather kits/bolts sold separately
- All gaskets and mounting hardware included
- For replacement gaskets, see Gaskets & Seals section

PART #	DESCRIPTION
DS289190	For 90-99 Evolution Big Twin (CV carb)

PART #	DESCRIPTION
DS-289053	For 84-89 Evolution Big Twin (butterfly carb)

DRAG Specialties

CARB SUPPORT BRACKET WITH CHOKE CABLE MOUNT

- Chrome-plated stamped steel
- Provides support for carb and air cleaner
- Offers mounting of choke control under the carb for easy access

PART #	DESCRIPTION
2110-1212	For 92-99 Evolution Big Twin w/ Mikuni HSR 42/45 carb

CARB SUPPORT BRACKET

GASBOX

- Provides additional support for the carb and air cleaner
- Black powdercoated steel

NOTE: Breather kits/bolts sold separately.

PART #	DESCRIPTION
1013-0105	For 93-99 Evolution Big Twin models w/ CV carb

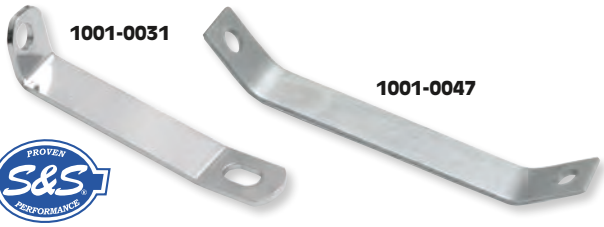
DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

CARB SUPPORT

- Simple carb support bolts directly to lower the intake bolt and the center case stud; also allows for fuel line to pass through keeping it off the cylinders
- Made from stainless steel with a tumbled finish

PART #	DESCRIPTION
1050-0363	For 66-84 Big Twin



FIXED-LENGTH CARBURETOR/AIR CLEANER SUPPORT BRACKETS

- All-steel construction with chrome plating
- Include hardware

PART #	DESCRIPTION
1001-0031	For 66-82 Shovelhead w/ Super E/G carb
1001-0047	For 66-84 Shovelhead w/ Super A/B/D carb

ADJUSTABLE CARBURETOR SUPPORT BRACKET

- Adjusts from 5,25" to 6,375"
- Mounts from the center-case bolt between cylinders to the lower flange mount of the manifold

PART #	DESCRIPTION
160471	Support bracket

CARBURETOR SUPPORT BRACKETS

- Exact reproduction of the original H-D support brackets
- Used to support the Linkert carburetor

PART #	DESCRIPTION	OEM #
2401-0501	For 54-65 O.H.V. Big Twin	27431-41B
2401-0500	For 41-53 O.H.V. Big Twin	27431-41
2401-0503	For 39-48 Big Twin	1110-39
2401-0504	For 36-52 45 Solo	27432-36

AIR CLEANER BRACE

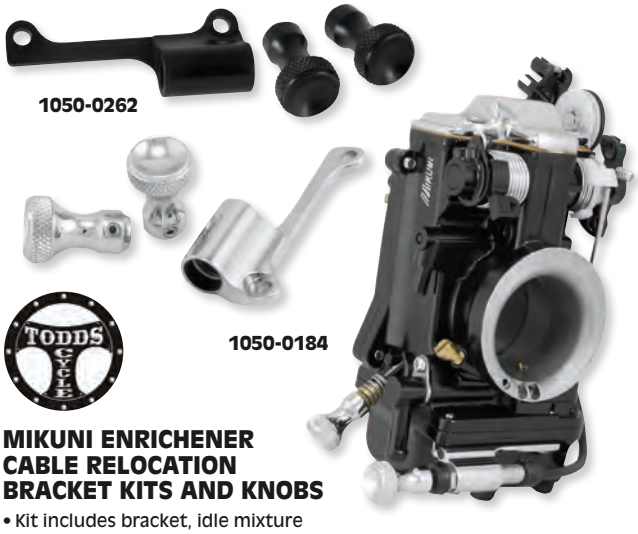
- Use with our Dragtron™ air cleaners to eliminate carb vibration, which can lead to air leaks
- Includes hardware and template
- Must use either PART #DS-289104 block or OEM insulator
- Chromed steel support brace fits models equipped with Bendix or Keihin carbs

PART #	DESCRIPTION
DS-289094	For 57-85 XL models

ECON ENRICHENER CABLE RELOCATION BRACKETS

- Relocates enrichener cable and knob out of the way
- For use with stock enrichener cables and knobs
- Made from stainless steel with ball-burnished finish

PART #	DESCRIPTION
1050-0226	For all Mikuni HSR carbs
1050-0227	For all Keihin CV carbs



MIKUNI ENRICHENER CABLE RELOCATION BRACKET KITS AND KNOBS

- Kit includes bracket, idle mixture screw knob and enrichener cable knob
- CNC-machined billet aluminum components
- Available in chrome, black or raw finish

NOTE: Must be used with Mikuni enrichener cable, Drag Specialties PART #990-662-002.

PART #	DESCRIPTION
1050-0183	Bracket kit w/ enrichener and idle knobs, chrome
1050-0262	Bracket kit w/ enrichener and idle knobs, black
1050-0184	Bracket kit w/ enrichener and idle knobs, raw
990-662-002	Choke cable

1010-1762

BIG SUCKER™ STAGE I AIR FILTER KITS

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is o-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in natural, black powdercoat, or chrome finish
- Filters are available in standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four-layers of surgical grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water resistant and never needs to be oiled; just wash and re-use
- Accepts OEM outer cover or custom Ness outer cover
- All necessary hardware and instructions are included with each kit

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN MODELS W/ CV CARB	
DS-288880	Kit w/ standard filter (natural)

BIG SUCKER™ STAGE II AIR FILTER KIT WITH COVER

- Features a one-piece aluminum backing plate/carb support bracket with patented hidden breather technology and radius air inlet
- Eliminates the need for banjo fittings, hoses and filter
- Breather passages exit at the mouth of the carburetor/throttle body, creating a virtually closed-loop system
- Kit includes a 20% larger high-performance filter and steel outer cover
- Includes Standard pre-oiled filters
- All necessary hardware and instructions are included

PART #	DESCRIPTION
1010-0430	For 93-99 Evolution Big Twin models w/ CV carb (chrome)

SUPER STOCK™ STEALTH AIR CLEANER KITS

- For stock and S&S fuel system applications
- Kits include backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Optional high-flow (1" taller) filter and pre-filter/rain sock also available

NOTE: Kits that do not include a cover must use a stock Twin Cam 88, 96, or 103 "football-style" air cleaner cover, or a S&S Stealth air cleaner cover (sold separately).

AIR CLEANERS AND COMPONENTS

- Original S&S teardrop air cleaner assemblies
- Include an S&S cover, backing plate and high-quality filter element and hardware kit
- Increase horsepower with no other changes
- Available for most OEM carburetors and S&S performance intake systems

NOTE: Installation of an S&S air cleaner may require re-jetting or engine re-tuning, however tuning within the OEM emissions standards is required to maintain E.O. validity.

NOTE: Covers may need to be notched when used with custom or 5-gallon or larger fuel tanks.

PART #	DESCRIPTION
AIR CLEANERS WITH CHROME COVER	
1010-1879	For 95-98 Evolution Big Twin w/ stock HD cylinder heads or S&S heads w/ stock breathing system
1010-0325	For 93-99 Evolution Big Twin w/ stock CV carb
DS289211	For 93-99 Evolution Big Twin models w/ E & G series carbs
1010-1878	For 84-99 Evolution Big Twin w/ 4 1/8" bore and single-bore EFI throttle body
DS-289129	For 84-92 Big Twin and 86-90 XL models w/ E & G series carbs
1010-1901	For E & G series carbs on S&S 4 1/8" bore engines on 84-99 Evolution Big Twin frames
DS-289130	For E & G series carbs on 48-84 Shovelhead/Panhead, 57-85 XL
AIR CLEANER WITH BLACK COVER

NOSTALGIC AIR CLEANER COVER

- Teardrop air cleaner kits for stock carbs

PART #	DESCRIPTION
1014-0230	For Super E & G carbs

HIGH-FLOW AIR FILTER AND ADAPTER KIT

- High-flow filter designed especially for Super E and G carburetors
- Filter is 1" taller than standard filter and features a low-restriction, pre-oiled filter element
- Allows for a 37% increase in airflow
- Filter and adapters extend the teardrop housing out 1" for better exposure and a high-performance street racer look
- Kit installs in minutes; no permanent modifications required

NOTE: Not for use with S&S Super B or Super D carburetors, or Super E and G Kits for Buells.

PART #	DESCRIPTION
1011-0323	For S&S Super E and G carbs
1011-2286	Repl. high-flow filter for S&S Super E and G carbs (also fits S&S air cleaners for stock carbs and EFI throttle bodies)

1011-0323

SUPER GAS AIR CLEANERS AND UNIVERSAL FACEPLATES

- Versatile design accepts interchangeable faceplates that are designed to match Performance Machine wheels
- Air cleaner includes a K&N filter behind a stainless steel wire mesh screen to allow high-volume air flow, resulting in increased horsepower
- Air cleaners and universal faceplates are sold separately and are available in chrome, Contrast Cut™ and Platinum Cut finishes
- Contrast Cut™ finish starts with a polished faceplate that has been black anodized, then recut to open up the design
- Platinum Cut uses the same process as the Contrast Cut™, only the recut areas are then hand polished to a brilliant finish
- Screamin' Eagle/Ness upgrade kit adapts a Performance Machine designed faceplate to fit the Screamin' Eagle/Arlen Ness air cleaners
- Screamin' Eagle/Ness upgrade kit includes mesh insert, spacer, hardware and PM Logo badge

HEX AIR CLEANERS

- Made from strong, stamped steel
- Slotted faceplate design
- Uses a K&N Filter for maximum filtration and performance
- Air filter features oil breather bolts that route heat and oil through chemical-resistant, flexible tubing through the unit and back to the intake manifold for minimum oil seep
- Hex design complements the H-D V-Twin lines and its thin profile provides plenty of knee clearance without sacrificing airflow
- In chrome or black finish
- Optional faceplates sold separately

AIR CLEANER SCRUB BAG

- Stretches over complete air cleaner to prevent water from entering engine while washing bike
- Helps to keep water or other debris from entering when bike is parked
- Made from waterproof denier material with an elastic enclosure

NOTE: Cannot be used while engine is running. For washing and storage purposes only.

PART #	DESCRIPTION
1011-2051	For all RSD Venturi and Turbine air cleaners

ROLAND SANDS DESIGN

RAIN SOCK

- Stretches over complete air cleaner for quick and easy roadside installation (no tools required)
- Helps to prevent water from entering your engine when riding in wet conditions
- Compatible with all RSD Venturi and Turbine air cleaner assemblies
- Hydrophobic manufacturing process repels water
- Filters out larger particles of debris down to 0,005"
- Uniform micron openings allow air in while keeping debris and water out

PART #	DESCRIPTION
1011-2050	For all RSD Venturi and Turbine air cleaners

[1] ECE approved.

UNIVERSAL CLAMP-ON AIR FILTER

- Round tapered universal air filter
- Rubber end cap
- Pleated design increases surface area air flow
- Match the outer diameter (OD) of your carb throat with the inner diameter (ID) of the filter (given in inches and millimeters)
- Filter length: 133 mm (5,219")
- Base OD: 113 mm (4,483")
- Top OD: 89 mm (3 1/2")
- Flange ID: 76 mm (3")
- Flange length: 18 mm (0,719")
- Flange type: centered

PART #	DESCRIPTION

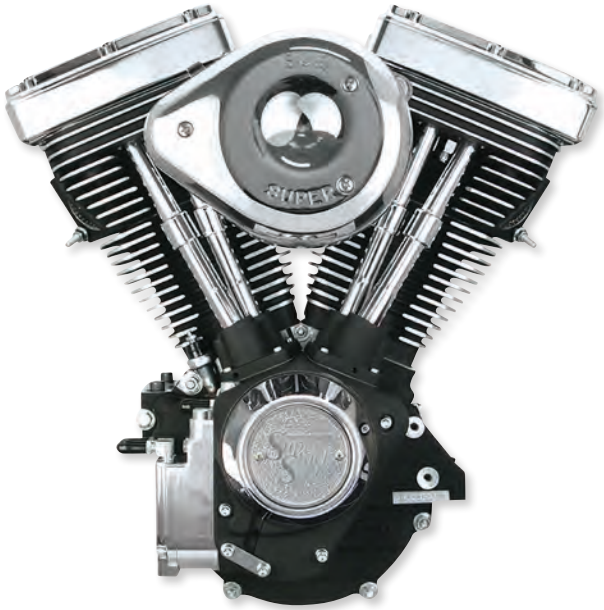
0901-0188

V80 LONG BLOCK ENGINES

- Stock-height basic engine is direct bolt-in replacement for aging 80" H-D Evolution engines
- Compatible with EFI
- Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- 508 cam
- Forged rocker arms
- 585 valve springs
- Flat top cast pistons
- S&S standard oil pump
- S&S performance replacement heads
- $3\frac{1}{2}$" x $4\frac{1}{4}$" bore and stroke
- 8,4:1 compression ratio

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN OR 70-99 CUSTOM CHASSIS W/ ALTERNATOR-STYLE PRIMARY	
0901-0187	Wrinkle black

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN OR 70-99 CUSTOM CHASSIS W/ ALTERNATOR-STYLE PRIMARY (CONT)	
0901-0188	Natural



V80 COMPLETE ENGINE

- Same displacement and dimensions as the 84-99 H-D Evolution engine
- Wrinkle black finish
- S&S Super E carburetor
- S&S 508 cams
- High-flow S&S cylinder heads
- S&S Super Stock™ single-fire ignition

PART #	DESCRIPTION
0901-0230	For 84-99 Evolution Big Twin or 70-99 custom frame w/ alternator-style primary

V111 LONG BLOCK ENGINE

- +30% increase in HP and torque over stock
- Gloss black finish
- Compatible with EFI
- Short stroke for less vibration and longer engine life
- Shorter than stock engine height for easy installation
- Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- High-volume, high-pressure (HVHP) oil pump
- Durable S&S three-piece flywheels
- Performance 585 cam and valve springs
- $4\frac{1}{8}$" x $4\frac{1}{8}$" bore and stroke
- 9,8:1 compression ratio

PART #	DESCRIPTION
0901-0208	For 70-99 custom chassis w/ alternator-style primary

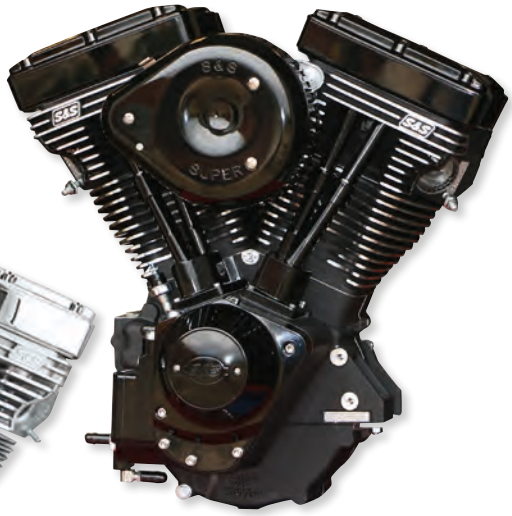
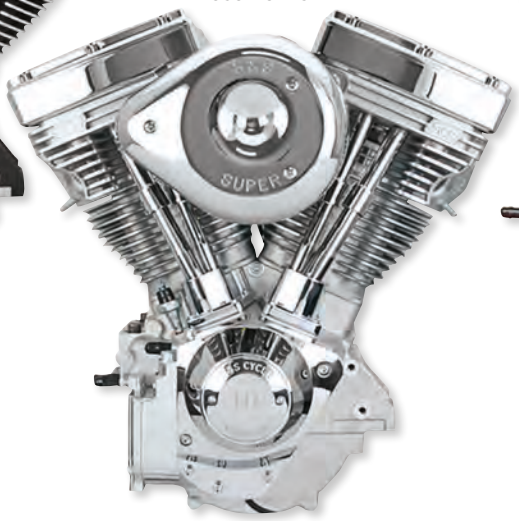
0901-0183

0901-0229



0901-0228



V111 COMPLETE ENGINES

- Short stroke produces less vibration and longer engine life
- Includes piston cooling jets and large cooling fins to increase cooling efficiency
- HVHP (High Volume High Pressure) oil pump
- S&S 585 cam and lightweight single coil valve springs minimize valve train noise
- S&S forged rocker arms
- Shorter than stock height engine makes installation easy
- Natural finish engine includes chrome-plated rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes
- Gloss black finish engine includes gloss black rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes
- Wrinkle black finish engine includes chrome rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes

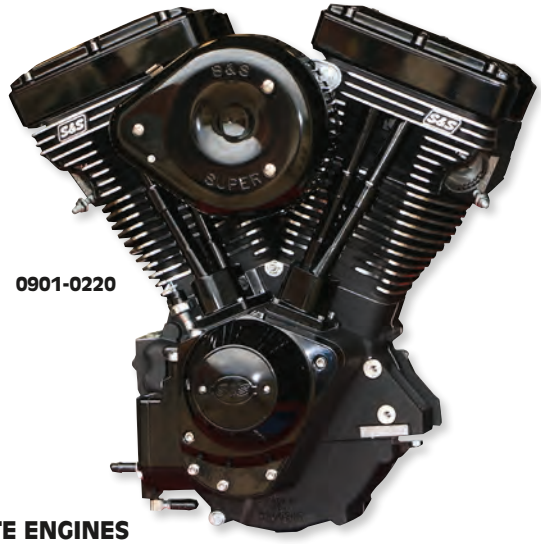
0901-0228	Natural
0901-0229	Gloss black

0901-0220



0901-0221

V124 COMPLETE ENGINES

- 124 cubic inch displacement
- $4^{1}/_{8}$" bore, $4^{5}/_{8}$" stroke
- 640 cam
- Three-piece flywheel assembly
- 1,671" diameter crankpin
- 0,927" wristpins
- Piston cooling jets
- 10,8:1 compression forged pistons
- HVHP oil pump
- Electric compression releases
- S&S Super G carburetor with Slasher air cleaner
- S&S Super Stock™ ignition
- Gloss black finish engine includes gloss black rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes
- Wrinkle black finish engine includes chrome rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes

NOTE: Will require high-performance clutch.

SH-SERIES COMPLETE ENGINES

- Natural crankcases and black powdercoated cylinders
- S&S hydraulic valve train and roller rocker arms
- S&S Super Stock™ single fire ignition system protects engine with a three-step break-in rev-limiter for first 24 hours of operation
- Alternator and alternator/generator models have correct sprocket length sprocket shaft for 1970-up primary and transmission
- Alternator/generator engines include oil filter mounting bracket for generator location

PART #	DESCRIPTION	CARBURETOR	STYLE	COMPRESSION	STROKE	BORE

P-93 SERIES COMPLETE ENGINE

- Natural crankcases and stock-looking silver powdercoated cylinders
- S&S hydraulic valve train with roller rocker arms
- S&S billet timer and S&S Super Stock single-fire ignition system protects engine with a three-step break-in rev-limiter for first 24-hours of operation
- Has correct length sprocket shaft for 1970-up primary and transmission
- Includes oil filter mount at generator location
- 66-84 exhaust systems
- 66-84 intake ports with O-ring inlets
- 93" displacement, 8,5:1 compression, 4 1/2" stroke, 3 5/8" bore

PART #	DESCRIPTION
0901-0180	For 70-84 custom chassis w/ alternator-style primary

KN-93 SERIES COMPLETE ENGINE

- Natural crankcases and black powdercoated cylinders and heads
- S&S Super Stock™ single fire ignition system and polished billet timer protects engine with a three-step break-in rev-limiter for first 24-hours of operation
- S&S Super E carburetor
- Correct length sprocket shaft for 1970-up primary and transmission
- Allows the use of modern primary, transmission, clutch components and electrical system
- Includes oil filter mount at generator location
- 93" displacement, 8.2:1 compression ratio, 4 1/2" stroke, 3 5/8" bore

PART #	DESCRIPTION
0901-0255	For 70-99 custom chassis, with alternator-style primary

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

0903-1269

74" AND 80" TOP END KITS

- Includes a set of S&S Shovelhead-style cylinder heads, a pair of S&S stock bore cylinders (3 7/16" for 74" engines or 3 1/2" for 80"), forged 8:1 compression pistons complete with rings and wrist pins, manifold clamps, manifold seals, all required hardware, and gaskets
- Pistons are pre-fit to the cylinders, so there is no machine work to be done and very little downtime

PART #	DESCRIPTION
0903-1269	For 66-78 Big Twin (74")

PART #	DESCRIPTION
0903-1270	For 79-84 Big Twin (80")

93" HOT SET-UP KIT

- Kits come with 4,500" stroker flywheels assembled with mainshafts and rods, 3,625" bore cylinders, pistons, rings, pins and clips, S&S 514 cam, S&S Super E carb kit, valve springs, adjustable chromoly pushrods, top pushrod tube clips, top motor mount and installation instructions
- Use stock heads, cases, tappets and pinion gears
- Bearings and seals are not included; must be purchased separately
- For replacement pistons and rings, see page 352

NOTE: Require motor cases to be bored to accept 3,625" cylinders.

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

PART #	DESCRIPTION
0903-0070	For 73-77 Shovelhead (approximate compression ratio of 8,5:1)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

0903-1299

SIDEWINDER® BIG BORE STROKER KITS

- Contains nearly everything needed to take a stock 74" or 80" H-D® Shovelhead engine up to 93" or 96" displacement
- Includes 3.625" bore high-tensile, cast iron Sidewinder® cylinders and forged pistons with wristpin and rings, a 4.5" or 4.625" stroke, dynamically balanced S&S flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts, S&S stainless steel head bolts, base nut, S&S adjustable chromoly steel pushrods, head gaskets, base gaskets, exhaust gaskets, and an S&S heavy-duty top motor mount

PART #	DESCRIPTION
FOR 70-84 SHOVELHEAD	
0903-1299	96", approximate compression ratio of 9.1:1
0904-0004	93", approximate compression ratio of 8.5:1
0904-0005	93" high compression, approximate compression ratio of 9.1:1

0903-1258

96" SIDEWINDER KITS

- Kits include standard flywheel assembly, $3^5/_8$" bore cylinders, 9.75:1 pistons, rings and gaskets
- Available in natural or wrinkle black powdercoat cylinder finishes

NOTE: Cases must be bored to accept $3^5/_8$" bore cylinders, and a minor crankcase clearancing operation for the crankpin nut must be performed.

NOTE: 77-89 style pinion gear and oil pump drive gears must be used when installing S&S flywheels in 90-99 engines.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWINS W/STOCK HEADS	
0903-1257	Natural
0903-1258	Black

FOR 84-99 EVOLUTION BIG TWIN MODELS W/ STOCK OR S&S HEADS (CONT)	
0931-0738	Wrinkle black

STOCK BORE 80" CYLINDER AND STANDARD COMPRESSION PISTON KIT

- Intended to replace the cylinders and pistons of a 80" Shovelhead engine and maintain the stock compression ratio of 8:1
- Compatible with stock or S&S cylinder heads
- Includes S&S 3,5" bore high tensile-cast iron cylinders, 3,5" bore forged standard compression pistons for 80" (4,25" stroke) engines with rings and wristpins, head gaskets, S&S stainless steel bolts with washers, base nuts and base gaskets

PART #	DESCRIPTION
0931-0688	For 79-84 Shovelhead

STOCK BORE CYLINDER AND STROKER PISTON KIT

- Cylinder and piston kit can be used to build 84", 86" or 88" stroker engines, or to replace the cylinders and piston in an engine with an existing S&S® stock bore kit
- Includes 3,4375" bore high tensile cast iron cylinders, 8,4:1 forged pistons with rings and wristpins, head gaskets, stainless steel head bolts with washers, base nuts and base gaskets
- Can be used in engines with 4 1/2", 4 5/8" or 4 3/4" flywheels

PART #	DESCRIPTION
0931-0689	For 66-84 Shovelhead

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

3 5/8" BIG BORE CYLINDER AND BIG BORE PISTON KIT

- Cylinder and piston kit can be used to build an 88" engine, or to replace the cylinders and piston in an engine with an existing S&S® stock bore stroker kit
- Includes 3 5/8" bore high-tensile cast iron cylinders, forged pistons with rings and wristpins, head gaskets, stainless steel head bolts with washers, base nuts and base gaskets
- 88", 10,8:1 compression
- Can be used in engines with 4 1/4" flywheels

PART #	DESCRIPTION
0931-0690	For 66-84 Shovelhead

EVOLUTION-STYLE ALUMINUM CYLINDERS

- Cylinder sets without pistons are bored slightly under normal size and are not honed
- Finishes match OEM components
- Includes dowel pins
- Sold in pairs

NOTE: Stock crankcases must be machined to accommodate the large spigot diameter of 3 5/8" bore cylinders.

REPLACEMENT CYLINDERS FOR EVOLUTION-STYLE MOTORS

- Replacement cylinders feature ductile cast-iron sleeves in aluminum castings
- Sleeve has external ribs that "lock" the sleeve to the aluminum casting so it cannot move
- Excellent for stock replacement
- Cylinders are finished slightly undersized so they may be finish-honed to fit your pistons
- Sold each

CYLINDERS

- Cast-iron cylinders meet or exceed OEM tolerance specifications
- Withstand greater pressure and heat than stock
- Available in front and rear versions
- Sold each

NOTE: All Shovelhead cylinders require the use of 12-point head bolts DS-190796.

NOTE: Panhead cylinders are limited to 0,040" overbore.

NOTE: Due to the many different brands of pistons that are available, all cylinders listed below will need to be sized and clearanced to the type of piston being used.

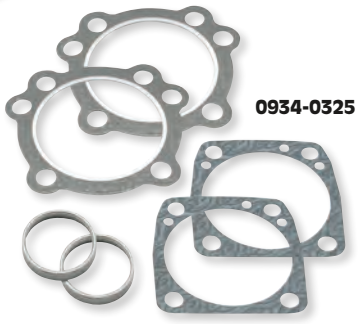
0930-0061

PERFORMANCE REPLACEMENT HEADS

- Now S&S heads are available to be used with stock-style flat-top pistons
- Kits are fully assembled, and include stainless steel valves and high-lift (0,585") springs
- Intake manifold and gasket kits are sold separately; gasket kits contain head gaskets, base gaskets and exhaust pipe gaskets (rocker box gaskets are not included due to the variety of available rocker box styles)
- Optimized for smaller displacement engines
- High compression is 76cc, low compression is 82cc in chamber
- Port design increases flow, while maintaining velocity
- Set up for 0,585" maximum lift
- EFI compatible
- Sold in pairs



0934-0325

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0930-0060	Low compression (82 cc), natural
0930-0061	Low compression (82 cc), black powdercoat
0930-0154	High compression (76 cc), natural

PART #	DESCRIPTION
HEAD INSTALLATION GASKET SETS	
0934-0325	3,5" bore
0934-0326	3,625" bore

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

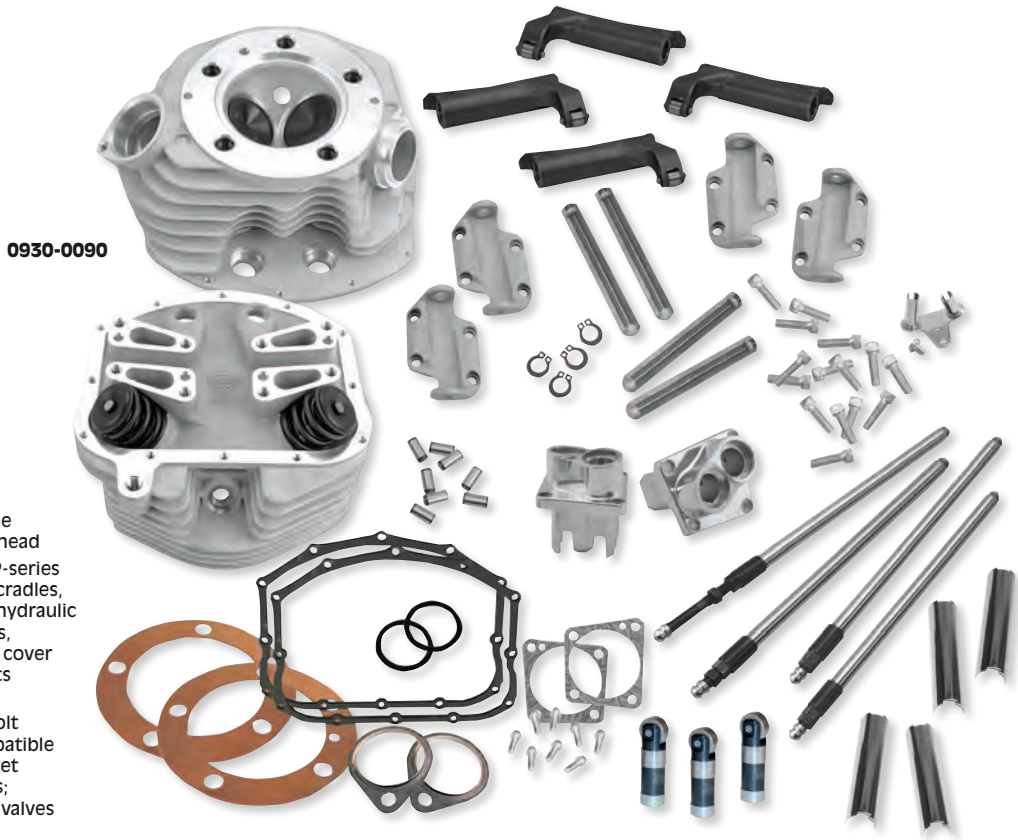
0930-0017

SUPER STOCK™ CYLINDER HEAD KITS

- Heads come completely assembled with valve seats, valves, guides, seals, 0,590" lift valve springs, collars and valve keepers
- Complete kits also include rocker cover gaskets, head gaskets and miscellaneous hardware with instructions
- Use OEM manifolds and exhaust
- 79-84 design uses band-style intake (not included)
- PART #0930-0013 comes machined for dual plugs and internal oil drains
- Sold in pairs

PART #	DESCRIPTION
FOR 3⅝" BORE CYLINDERS	
0930-0133	79-84 style heads, dual spark plugs (rubber band intake)
0930-0134	79-84 style heads, single spark plug (rubber band intake)
0930-0017	66-78 style heads, (O-ring intake)
0930-0013	66-78 high-compression style heads, (O-ring intake), dual plugs/internal oil drains

PART #	DESCRIPTION
FOR STOCK BORE CYLINDERS	
0930-0015	66-78 style heads, O-ring intake
0930-0009	79-84 style heads, rubber band intake



0930-0090

RETRO TOP-END CONVERSION KITS

- Give your Shovelhead engine that nostalgic look of a Panhead
- Kit consists of a set of S&S P-series cylinder heads with rocker cradles, S&S roller rocker arms, S&S hydraulic tappets, billet tappet guides, Quickee pushrods, pushrod cover clips and all required gaskets and hardware for assembly
- Heads have a Shovelhead bolt pattern, making them compatible with any stock or aftermarket cylinders for 66-84 Big Twins; heads come complete with valves and 0,590" lift valve springs
- Accept stock or S&S O-ring-style manifolds for Shovelheads and any exhaust system made to fit a Shovelhead engine

NOTE: Kits do not include pan covers.

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD	
0930-0089	For stock bore cylinders
0930-0090	For 3,625" bore cylinders

SUPER STOCK™ ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Cases are available for 3,5" stock and 3,625" big bore motors for any stroke up to and including 5" and most stock length connecting rods
- Machined to accept an oil filter assembly that mounts on the front of stock motor cases
- All races are line-honed and breather cavity is precision-machined to optimize breather timing for maximum oil scavenging
- Additional parts include; crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, oil pressure switch, oil screen, spring and plug, sprocket shaft Timken® bearing assembly and oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump drive shaft bushing and installation instructions
- Machined for EFI fitment

PART #	DESCRIPTION
STANDARD BORE CASES	
0920-0063	For 92-99 Evolution Big Twin, black powdercoat finish
DS-194301	For 92-99 Evolution Big Twin, natural finish
DS-194303	For 84-91 Evolution Big Twin, natural finish
0920-0132	For 84-91 Evolution Big Twin, black powdercoat finish
DS-194305	For 70-84 Big Twin

PART #	DESCRIPTION
BIG BORE (3,625" CYLINDER BORE) CASES	
0920-0064	For 92-99 Evolution Big Twin, black powdercoat finish
DS-194306	For 70-84 Big Twin
REPLACEMENT PARTS	
0920-0202	Crankcase oil screen for 48-99 Big Twin (except Twin Cam) (ea.); repl. OEM #24981-66, 24981-70
0920-0203	Crankcase oil screen for 48-99 Big Twin (except Twin Cam) (5-pk.); repl. OEM #24981-66, 24981-70

31-0010

33-4226

SUPER STOCK GENERATOR ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Includes crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, top end oil screen spring and plug, sprocket shaft Timken® bearing assembly, oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump shaft bushings and installation instructions
- Uses Timken style sprocket shaft bearings and 1958 and later pinion bearings (will not accept 1957 and earlier flywheels)
- Bearing races are all line honed and breather cavity is precision machined to optimize breather timing for maximum oil scavenging
- Machined for 3,4375" cylinders and tapped 1/4"-20 for gear covers, oil pump, tappet guides, timer and timer advance
- 65 models use 65 alloy inner primary
- 63-65 models with outside oil lines must use oil port to the rear of the tappet block or oil port in gear cover and use custom oil lines
- 66-69 models use 66-69 alloy inner primary
- Drilled for 5/16" generator mounting bolts
- Generator crankcase gear kit (includes circuit breaker drive gear, idler gear, circuit breaker gear and shims) and shafts must be purchased separately
- 70-84 models are for a 3 5/8" bore and machined for 70-84 alloy primary

PART #	DESCRIPTION
31-0010	65-69 Big Twin generator engine cases
0920-0124	48-64 Big Twin generator engine cases
33-4226	Generator crankcase gear kit

PART #	DESCRIPTION
31-2037	Circuit breaker drive gear shaft; repl. OEM #25856-36
31-2039	Idler gear shaft; repl. OEM #25791-36

SPECIAL APPLICATION CRANKCASE

- Cam chest is moved outward 0,250" to allow crankcases to handle large cylinder bore sizes
- Relocated cam chest oil pickup increases gear case scavenging and virtually eliminates oil carryover at sustained high rpm
- Machined to accept the stock oil filter assembly used on 92-99 Big Twins
- A ported breather passageway and a machined breather window allow the air/oil mist to flow from the flywheel cavity to the cam chest of the engine with the least possible restriction
- Crankcase venting can be achieved via two crankcase breathers, the cylinder heads, or both; S&S recommends using both crankcase breathers in engines larger than 95"
- Clearanced for strokes as long as 5"
- Machined for installation of a crank position sensor which allows the cases to be used in EFI applications and also allows easy installation of S&S IST Ignition and VFI Fuel Injection; a plug kit is included for applications that do not use a crank position sensor

PART #	DESCRIPTION
0920-0158	For 84-99 Evolution Big Twin (4" and over bore), S&S 4", 4,125" V-Series engines

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

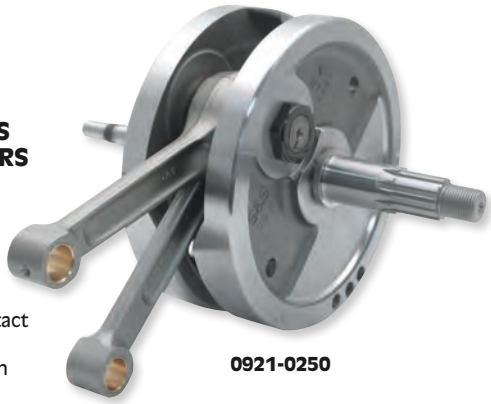
All part numbers in **BLUE** are new for the OldBook.

84" STOCK BORE STROKER FLYWHEEL KIT

- Upgrades 74" and 80" Shovelhead engines to 84" displacement at approximately 8,4:1 or 7,3:1 compression (depending on pistons used)
- Includes a dynamically balanced 4 1/2" stroke flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts
- Reuse the stock cylinders, saving cost and retaining stock appearance of the engine
- Minor crankcase and cylinder modifications are required that can easily be done with hand tools
- Kit requires special pistons, which must be ordered separately (contact S&S for required pistons)

PART #	DESCRIPTION
0922-0161	For 70-84 Shovelhead

FLYWHEEL ASSEMBLIES FOR EVOLUTION MOTORS



0921-0250

- Made of high-strength forged steel and designed for stock and high-performance custom applications
- Special keyed 6° large diameter tapered sprocket shaft that provides more contact area for increased strength
- Standard S&S tapered crankpin and pinion shaft are used for ease-of-service
- 8 1/2" diameter with 4 1/4" or 4 5/8" stroke
- Kits come fully assembled, trued and balanced to stock H-D 80" or 96" pistons
- Include flywheel, crankpin and connecting rods

NOTE: 90-99 applications will require pinion shaft conversion kit PART #33-4148.

PART #	DESCRIPTION
FOR 95-98 EVOLUTION BIG TWIN (W/ EFI)	
0922-0146	4 1/4" stroke

PART #	DESCRIPTION
FOR 84-98 EVOLUTION BIG TWIN (W/ CARB)	
0921-0250	4 1/4" stroke
0922-0147	4 5/8" stroke

FLYWHEEL ASSEMBLY

- The exact same assembly used in S&S production engines
- Can be used to overhaul an S&S engine or to build a custom engine using similar crankcases and pistons
- Features 4,25" stroke and an 8,5" diameter

PART #	DESCRIPTION
0922-0148	For 70-84 Big Twin

HEAVY-DUTY CONNECTING ROD SETS

DS194027

- High-quality, heavy-duty rod sets come complete and ready-to-install
- Set includes front and rear rods, crankpin and nuts, steel cages and roller bearings
- Rods are deep-forged and heat-treated, 0,120" wider than stock in the I-beam section and feature rod-to-rod clearance to accommodate strokes up to and including 5"
- Crankpin has two oil holes and rod has four slots ground on each side of the throw ends to help maintain the oil film on thrust faces

NOTE: Installation of rod sets may require additional clearancing of flywheels and cases.

PART #	DESCRIPTION
DS194027	For 84-99 Evolution Big Twin (0,792" wrist pin)
DS-194653	For L81-84 Big Twin (0,791" wrist pin)

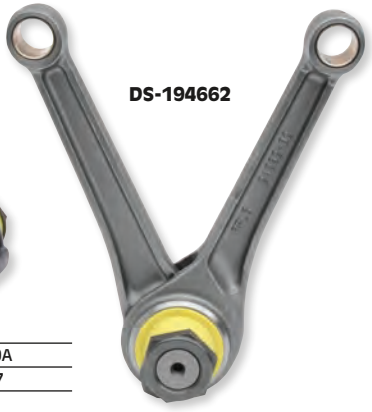
PART #	DESCRIPTION
DS-194652	For 41-E81 Big Twin
DS194028	For 57-E81 XL (0,791" wrist pin)

DRAG Specialties

ROD SETS

DS-194660

DS-194662



- Heavy-duty replacements, perfect for stock motors
- Meet or exceed OEM specifications
- Come completely fitted and ready to install
- Complete set includes a two-hole crankpin, aluminum retainers, bearings, nuts and forged heat-treated steel rods

PART #	DESCRIPTION
DS-194662	For L83-99 Big Twin; repl. OEM #24281-83
DS-194661	For 74-E81 Big Twin; repl. OEM #24281-74A
DS-194660	For 41-73 Big Twin; repl. OEM #24281-41A

PART #	DESCRIPTION
DS-194663	For L81-85 XL; repl. OEM #24275-80A
DS-194665	For 57-E81 XL; repl. OEM #24275-57

CRANKPIN ASSEMBLIES

- For use in stock and S&S flywheels
- Include crankpin, nuts and key

PART #	DESCRIPTION
0921-0161	For L81-99 Big Twin (except 99 Twin Cam)
0921-0162	For L81-99 Big Twin (except 99 Twin Cam) (+0,001")
0922-0162	For L81-99 Big Twin (except 99 Twin Cam) (+0,002")
0921-0159	For 41-E81 Big Twin
0921-0160	For 41-E81 Big Twin (+0,001")
0921-0158	For 36-47 Knucklehead (61") (stepped crankpin for engine w/ stock flywheels)
0921-0164	For L81-85 XL
0921-0163	For 57-E81 XL
0920-0128	Pinion shaft key for L81-85 XL

CRANKPINS

- Quality replacements that equal or exceed OEM specifications
- Sold individually

PART #	DESCRIPTION
DS-194005	For L81-99 Big Twin (three-hole); repl. OEM #23961-80A
DS-194004	For 41-E81 74" Big Twin; repl. OEM #23961-41
DS-194006	For L81-85 XL (three-hole); repl. OEM #23960-81
DS-194002	For 54-E81 XL; repl. OEM #23960-54

CRANKPIN NUT FOR S&S FLYWHEELS

- Sold each

PART #	DESCRIPTION
0920-0148	For L81-99 S&S flywheels

ROD RACE SET

- Made from 52100 aerospace-quality Timken® bearing stock
- Sold as a set

PART #	DESCRIPTION
DS-194014	For 41-99 Big Twin; repl. OEM #s 24345-36A/24356-36A

WRIST PIN BUSHINGS

- Machined from solid bronze bar stock
- Hold concentricity to less than 0,0002"
- Sold in pairs

PART #	DESCRIPTION
FOR 36-99 BIG TWIN	
DS-197065	Std.; repl. OEM #24334-36
DS-197066	+0,005"
FOR 54-85 XL	
DS-198825	Repl. OEM #24331-36

CRANKPIN NUT/ LOCK KIT

- Includes nuts, locks and screws, OEM #s 23966-54A, 23971-78, 2660

PART #	DESCRIPTION
DS-194010	For 41-E81 Big Twin; repl. OEM #23966-78

ROD RACE AND BUSHING SETS

- Used to rebuild S&S and stock connecting rods
- Includes hardened steel rod bearing races and bronze wrist pin bushings
- Requires finish sizing after installation
- Front and rear rod races available separately

PART #	DESCRIPTION
0923-0207	For 84-99 Big Twin (except Twin Cam)
0924-0613	Front rod race for 41-84 Big Twin and all S&S flywheels; repl. OEM #24356-36A
0924-0614	Rear rod race for 41-84 Big Twin and all S&S flywheels; repl. OEM #24345-36A

WRIST PIN BUSHINGS

- Meets or exceeds fitment and wearability of OEM bushings
- Sold each

PART #	DESCRIPTION
0923-0378	For 41-99 Big Twin and S&S V96, V107 and V113 engines (0,767" x 0,895" x 1,077"); repl. OEM #24334-36
0913-0304	For 54-85 XL (0,767" x 0,895" x 0,950"); repl. OEM #24331-36

WRIST PIN BUSHINGS

- All are constructed of SAE660 bearing bronze (except PART #0923-0468)
- Made to exact tolerances and will meet or exceed fitment and wearability of all other OE style replacement bushings available
- Sold each

NOTE: Does not include oil holes. These must be drilled after installation.

PART #	DESCRIPTION
FOR 36-99 BIG TWIN	
0922-0104	Std.; repl. OEM #24334-36
0923-0468	Std. (nickel bronze alloy)
0922-0105	+0,002"
FOR 57-85 XL	
0923-0367	Std.
0923-0368	+0,002"

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

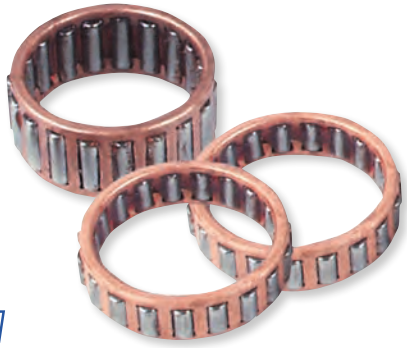
ROD BEARING RETAINERS

- Replacement roller-type for Harley connecting rods
- Quality equal to OEM
- Sold in sets of three

PART #	DESCRIPTION
DS-194018	For 41-86 Big Twin; repl. OEM #s 24366-71, 24367-71
DS-194017	For 57-85 XL; repl. OEM #s 24362-54A, 24364-54A



LOWER ROD BEARINGS WITH CAGES

- High-quality OE replacement components

PART #	DESCRIPTION
0924-0390	For 84-99 Evolution Big Twin

0923-0271

CONNECTING ROD RACES

- Set of three

PART #	DESCRIPTION
0923-0271	For 41-84 Big Twin (except Evo); repl. OEM #24345-36A, 24356-36A
0923-0270	For 57-85 XL; repl. OEM #243452-52A, 24341-52A

ROD ROLLER BEARING KIT WITH RETAINERS

- Includes bearings and bearing retainers

PART #	DESCRIPTION
0924-0170	For 87-99 Evolution Big Twin; repl. OEM #24346-87A

0924-0474

0924-0193

CONNECTING ROD ROLLER SETS

- Quality roller bearing sets meet or exceed OEM specs

WISECO Performance Products

HIGH-PERFORMANCE PISTONS

- Forged from a high-silicon aluminum alloy to deliver long life and consistent dimensions
- Wiseco's high-tech manufacturing ensures greater operating strength and lower expansion at high temperatures
- Sold in kits that include two pistons, rings, piston pins and circlips
- Include forged pistons with coated skirts, rings, retainer clips and chrome piston pins
- Piston kits are available with Hastings-style X-Ring package (0,062 top ring, 0,062 compression ring and 0,158 oil ring)
- X- and XC-rings are identified by PART # in the application chart; X-Ring PART #s end with an "X" and XC-Ring PART #s end with an "XC"

NOTE: Replacement rings include rings for one piston only.

TRACKER™ SERIES 106" PISTON KITS

- Forged piston crown with generous valve pockets for big valves and cams
- Precision-fit rings selected for each application for ultimate sealing
- Force-fed pin oiling provides enhanced lubrication of the piston pin
- Pressure seal groove reduces ring lifting and power loss
- ArmorGlide® skirt coating reduces friction, providing quieter operation and improving scuff resistance
- Value-packaged with two pistons, rings, piston pins and circlips

DS-751248

KB PERFORMANCE HYPEREUTECTIC PISTON KITS

- Manufactured from high-strength, T-5, heat-treated, 390 hypereutectic aluminum alloy
- Allows a tighter fit and longer piston and ring life
- Diamond-machined pistons are held to plus or minus one gram weight and less than one-half-thousandth-inch (0,0005") tolerances from piston to piston
- Each kit contains two pistons, pins, spiral-lock pin clips and Hastings moly rings
- Replacement piston rings and piston lock rings available separately

NOTE: KB pistons can be installed tighter than other pistons. This results in less piston rock and better ring seal. Please read instructions included with piston for correct piston clearance.

NOTE: Due to the thermal conductivity and design of KB pistons, special attention is required to the top ring end gap. Please read instructions furnished with piston for correct ring installation.

NOTE: Each replacement ring PART # denotes rings for two pistons, except 48-84 Big Bore kits, which require two sets.

0910-1992

PISTON KITS

- Replacement pistons available for stock and big-bore applications
- All piston kits come with two pistons, rings, wrist pins, and wrist pin keepers
- Compression ratios listed are approximate and are calculated using the correct length cylinders as specified by S&S
- Require the use of connecting rods with a rod length of 7,440" (standard length OEM #24281-74A connecting rods); use of earlier connecting rods with a rod length of 7,470" (OEM #24281-41A) will result in a slight increase in the compression ratio of about one-half point, and may also result in clearance problems (check all piston to cylinder head clearances carefully when using the early style rods)

FOR 41-84 BIG TWIN

HASTINGS®

REPLACEMENT PISTON RINGS

- Available in standard and oversize versions
- Features a cast or moly top ring
- Reverse torsional taper face second ring and easy "spiral on" three-piece oil rings

NOTE: Each PART # includes enough rings for two pistons, except where noted.

All part numbers in **BLUE** are new for the OldBook.

COMPRESSION RELEASE KIT

- Available in electric style for S&S heads that accept compression releases
- Electric compression releases open when you press the start button and close when the button is released
- Kit includes the required parts for installation
- For ease of installation and removal, a special socket can be purchased separately
- Not for use on OEM heads

PART #	DESCRIPTION
2009-9080	Electric compression release kit
0930-0135	Repl. electronic compression release unit for 84-99 Evolution Big Twin

PART #	DESCRIPTION
2009-9082	Compression release hole plugs (ea.)
0930-0041	Repl. silicone solenoid caps (pr.)
0930-0137	Repl. silicone solenoid caps (ea.)

COMPRESSION RELEASE VALVES

- State-of-the-art design to help reduce hot start issues and starter/battery loads
- Have 5-7 Newtons of closing force resistance
- Custom molded knobs ensure they stay cool to the touch and are easy to operate
- Require an M10 x 1,00 threaded hole for installation
- Sold in pairs

PART #	DESCRIPTION
0950-0887	M10 x 1,00 threads, 1,400" overall length

MANUAL COMPRESSION RELEASE VALVES

- Give your starter a hand by installing these in your high-compression, big-inch motor
- Simply drill and tap (10 mm x 1,0 mm) each cylinder head and thread in the self-sealing release valves (thread tap PART #DS-196409 available separately)
- Sold in pairs

PART #	DESCRIPTION
DS-196400	Compression release valves for all Big Twin

COMPRESSION RELEASE CAPS

- Chrome cap covers the plain plastic end on many aftermarket compression releases
- Billet aluminum construction
- Install with silicone adhesive (not included)
- Sold in pairs

PART #	DESCRIPTION
0950-0101	Compression release caps

COMPRESSION RELEASE ADAPTERS

- Designed to be used in twin plug heads
- Accept 0,650"/10 mm x 1,0 compression release valves
- Sold each

PART #	DESCRIPTION
0950-0082	12 mm x 3/4" reach
0950-0081	14 mm x 3/8" reach
0950-0080	14 mm x 3/4" reach

All part numbers in **BLUE** are new for the OldBook.

MANGANESE BRONZE VALVE GUIDES

- Precision-machined guides
- Excellent heat conductivity which promotes long valve life
- Guides can be easily reamed with a battery-operated or electric drill and finished with a high-quality ball hone
- Eliminates the need for expensive honing equipment that would be required for nickel bronze valve guides
- Machined to accept OEM and aftermarket seals

NOTE: L79-84 guides will require machining for seal installation. Use seal PART #s 0926-0794 OR 0926-0795.

NOTE: 48-E79 guides accept special seals, no machining required. Use seal PART #s 0926-0792 or 0926-0793.

C630 NICKEL-ALUMINUM BRONZE VALVE GUIDES

- 5% nickel content provides superior resistance to wear and the 80% copper content delivers outstanding heat conductivity
- Designed to have minimal effect on air stream while maintaining critical cross sectional thickness in high-temperature areas
- Precision-machined from C630 nickel-aluminum bronze
- Compatible with no-lead fuel and accept any type of valve-stem material

EVOLUTION OEM-STYLE GUIDES

- Overall length is 2,40"
- OEM style
- Machined for standard 0,420" seal
- Can be used as an intake or exhaust valve guide

XL OEM-STYLE GUIDES

- Overall length is 1,77"

SPECIAL SHOULDERED CAST IRON VALVE GUIDES

0926-0716

0926-0746

- Precision-machined from cast iron
- Compatible with no-lead fuel and accept any type of valve-stem material
- Overall length of both intake and exhaust is 2,100" for 84-99 models; machined for 0,420" OEM-style valve seals, acccept 0,600" lift cams
- Overall length of both intake and exhaust is 1,855" for L79-84 models
- Overall length of both intake and exhaust is 1,880" for 48-E79 models
- Accept special valve guide seals (sold separately)
- Sold each

NOTE: L79-84 guides accept OE seal PART #s 0926-2053 or 0926-2054 for 0,625" diameter guides. Machining required for 0,565" diameter seal PART #s 0926-0792 or 0926-0793.

NOTE: 48-E79 guides accept OE seal PART #0926-2050 for 0,565" diameter guides and special seals PART #s 0926-0792 or 0926-0793. No machining required for installation.

FEULING

VALVE SEALS

- High-quality Viton® valve seals
- Designed to handle high engine temperatures with a built-in spring-loaded wiper to clean excess oil from valve stem with minimal friction
- Include four seals and seal installer tool

0926-1166

0926-1168

PART #	DESCRIPTION
0926-1166	For 84-99 Evolution Big Twin; repl. OEM #18061-83B
0926-1168	For 0,530" guide, 5/16" valve for most Screamin' Eagle heads
0926-1169	For 0,500" guide, 5/16" valve

PROVEN S&S PERFORMANCE

VALVE GUIDE SEALS

- High-quality replacement valve guide seals

PART #	DESCRIPTION
0935-1009	For 84-99 Evolution Big Twin (8-pk.); repl. OEM #18001-83B

Genuine JAMES GASKETS

VITON® VALVE GUIDE SEAL KIT

- Kit includes four valve guide seals

PART #	DESCRIPTION
DS-199107	For 84-99 Evolution Big Twin; repl. OEM #18001-83B

Kibblewhite Precision Machining

PREMIUM VALVE SEALS

- Solid Viton® and solid PTFE seals utilize choker spring and lower tension spring to maintain optimal seal under high heat/stress conditions
- For use with stock intake and exhaust valve guides, except where noted
- Sold in packages of four

0926-3204

BLACK DIAMOND™ ENGINE VALVE KITS

- Kits include KPMI® or equivalent valve spring kit, a full set of Black Diamond™ stainless steel standard size valves, H.T. Steel valve keepers and valve stem seals (where applicable) for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kit for one engine

PART #	DESCRIPTION
0926-3210	For 84-99 Evolution Big Twin
0926-3316	For 78-84 Shovelhead (80")
0926-3314	For 66-77 Shovelhead (74")

PART #	DESCRIPTION
0926-3310	For 48-65 Panhead
0926-3308	For 36-47 Knucklehead
0926-3208	For 70-83 XL
0926-3312	For 57-69 XL

0926-3315

0926-3209

BLACK DIAMOND™ VALVE KITS

- Full set of Black Diamond™ stainless steel standard size valves for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kits for one engine

PART #	DESCRIPTION
0926-3209	For 84-99 Evolution Big Twin
0926-3315	For 78-84 Shovelhead (80")
0926-3313	For 66-77 Shovelhead (74")
0926-3309	For 48-65 Panhead
0926-3307	For 36-47 Knucklehead
0926-3207	For 70-83 Sportster
0926-3311	For 57-69 XL

NITRIDED VALVES

- One-piece stainless-steel, stellite-tipped valves impregnated by a special nitrided process with 0,002" depth and 0,0002" surface buildup to improve wear properties and reduce friction
- This process provides resistance to corrosion; wears superior to hard chromium and electrolysis nickel-plating
- Lightweight with profiles that provide excellent flow characteristics
- Compatible with leaded and unleaded fuels and can be run in cast iron- and bronze-type guides at close tolerances for maximum oil control and heat dissipation
- Sold each

REPLACEMENT STAINLESS STEEL VALVES FOR S&S HEADS

- Available for 89cc/91cc cylinder heads
- 89cc/91cc heads are found on S&S Evolution-style motors and use 2,000" intake valves and 1,605" exhaust valves

PART #	DESCRIPTION
FOR 89 CC/91 CC HEADS	
2008-2910	Intake valve 2,000"
2008-2911	Exhaust valve 1,605"

REPLACEMENT VALVES

- Intake valve has the stock 1,950" head dia.
- Exhaust valve has 1,720" head, 0,030" smaller than stock; the smaller exhaust valve head allows higher TDC lifts without valve-to-valve interference as well as improved flow
- Sold each

PART #	DESCRIPTION
FOR 66-84 BIG TWIN	
0926-0128	1,950" intake valve; repl OEM #s 18075-80/81 and 18078-80/81
0926-0129	1,720" exhaust valve; repl OEM #s 18086-80/81 and 18089-80/81

HYDRAULIC VALVE TRAIN CONVERSION KIT FOR SHOVELHEAD ENGINES

- Quiet, dependable hydraulic valve train
- Easy pushrod installation and removal
- Wide selection of late style cams to choose from (sold separately)
- For use with stock style rocker arms for oiling through external oil line
- Polished billet tappet guides
- Includes four 84-99 style tappets w/ HL2T kit, set of Quickee Adjustable pushrods, pushrod cover keepers, required hardware and gaskets

PART #	DESCRIPTION
0929-0060	For 66-84 Big Twin models

HIGH-PERFORMANCE VALVE SPRING KIT

- Includes four steel top collars, four bottom collars, four each outer, middle, and inner springs, shims, and eight keepers
- Use with stock valve guides, stock valves with $^{3}/_{8}$" stem, and stock keepers
- Compatible with thin-stem valves if thicker keepers (that maintain correct valve stem-top collar engagement) are used
- Lift, 0,590"; Installed height,1,480"; seat force, 157 lb.; force @ max lift 356 lb.

PART #	DESCRIPTION
0926-2802	For L81-84 Big Twin and all S&S cylinder heads

HIGH-LIFT VALVE SPRING KIT

- To be used with cams with up to 0,550" lift
- Includes springs and aluminum top retainers
- 140 lb. seat pressure

PART #	DESCRIPTION
DS-199729	For 48-84 Big Twin

SIDEWINDER® 0,650" VALVE SPRING KIT

- Includes springs, upper and lower collars and keys
- For valve lift to 0,650" with 1,860"/178 lbs. installed height, 376 lbs. at max lift
- Max 6500 rpm

PART #	DESCRIPTION
0926-2056	For 84-99 Evolution Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

0926-2929

0926-2927

0926-2926

0926-1443

COMPLETE VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- All PART #s except those listed below include new design HT steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall drive train mass
- PART #s 0926-0800, 0926-2929 includes 7057 T6 aluminum retainers

PART #	DESCRIPTION
FOR L79-84 SHOVELHEAD	
0926-2929[1]	0,600" lift (seat pressure 155-165 lb.)
0926-2930[1]	0,600" lift (seat pressure 155-165 lb.)
0926-2927[1]	0,415" lift (seat pressure 125-135 lb.) (OEM style)
FOR 66-E79 SHOVELHEAD	
0926-0800[2]	0,600" lift (seat pressure 155-165 lb.)
0926-2926[2]	0,600" lift (seat pressure 155-165 lb.)
0926-1443[2]	0,415" lift (seat pressure 125-135 lb.) (OEM style)

NOTE: XL applications may require machining of valve guides for special seals. May require "R"-style valves to achieve correct install height.

PART #	DESCRIPTION
FOR 48-65 PANHEAD	
0926-1442	0,415" lift (seat pressure 125-135 lb. (OEM style)
FOR 36-47 KNUCKLEHEAD	
0926-1441	0,415" lift (seat pressure 127 lb.)
FOR 70-83 XL	
0926-0799	0,480" lift (seat pressure 155-165 lb.)
FOR 57-69 XL	
0926-1444	0,400" lift (seat pressure 90-100 lb.)

[1] Spring base: fits 0,625" guide.
[2] Spring base: fits 0,565" guide.

0926-2999

HIGH-PERFORMANCE OVATE WIRE BEEHIVE VALVE SPRING KITS

- Progressively wound springs using Kobe super-clean, chrome silicon-based wire that is heat treated and shot peened
- Tight-tolerance, FEA-designed hardened steel Posi-Loc™ style upper retainers to ensure correct assembly height and resist keeper "pull through"
- Hardened steel basewashers control lateral movement
- Kits use OEM-style valve keys (sold separately)
- Accept 84-99 Evolution Big Twin style valve guide seals (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-2999	0,610" lift (seat pressure 175 lb.)
0926-3001	0,660" lift (seat pressure 178 lb.)

0926-0802

RACING VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- Include new design H.T. steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall valve train mass
- PART #0926-2935 includes titanium springs

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0802	0,600" lift (seat pressure 170-180 lb.)
0926-3167	0,650" lift (seat pressure 185 lb.)
0926-2935	0,655" lift (seat pressure 190 lb.) (titanium springs)
0926-2936	0,655" lift (seat pressure 185 lb.)
0926-3168	0,675" lift (seat pressure 185 lb.)

VALVE SPRING KIT

- Dual super-clean, chrome silicon OEM-style stock replacement springs
- Accepts OEM-style spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0807	For 57-83 XL

VALVE SPRING KIT

- Dual super clean chrome silicon springs; 0,600" lift with a 155-165 lb. seat pressure
- Accepts stock and aftermarket spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0806	For 48-84 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

COMP CAMS

DUAL VALVE SPRING KIT

- Springs are made from super-clean, stress-relieved chrome silicon wire
- Provides excellent durability and resistance to load loss when using aggressive camshaft profiles
- Includes unique 10° super keys and retainers
- Wider key angle ensures a stronger assembly vs. the OEM 7° keeper angle
- High-strength chromoly retainers
- 0,685" lift capable spring assembly
- Kit fits $^{5}/_{16}$" valve stems
- 184 lb @ 1,850", 443 lb @ 1,230", 1,510" OD, 0,745" ID

PART #	DESCRIPTION
0926-2901	For 84-99 Evolution Big Twin

BEEHIVE™ VALVE SPRING KIT

- Beehive™ Valve Spring Kit designed as a drop-in performance valve train upgrade
- Beehive valve springs deliver a host of well-documented benefits over conventional cylindrical valve springs
- Increased rpm capability with no rocker box clearance problems
- Designed to work with the limited valve spring installed height of the Harley V-Twin engine, small spring pocket and high-lift cams

PART #	DESCRIPTION
0926-0691	For 84-99 Evolution Big Twin; 0,650" lift, for $^{5}/_{16}$" dia. valve stem

VALVE SPRING KIT

- Chromoly retainers
- Features interference-wound double springs with a damper
- Includes 10° super keys and lower seats
- For use with cam lifts up to 0,600"
- Seat pressure 160 lb.

PART #	DESCRIPTION
DS-199501	For 84-99 Evolution Big Twin

JIMS Performance Parts for Harley-Davidson Motorcycles

VALVE SPRING KITS

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring kits are 1,460" OD and have a pressure of 160 lb. when closed and 440 lb at 0,500" lift; installed height should be 1,850"; coil bind is at 1,200"
- 0,675" spring kits are 1,510" OD and have a pressure of 184 lb. when closed and 422 lb at 0,600" lift; installed height should be 1,850"; coil bind occurs at 1,080"
- Kits include locks, retainers and spring seats

DS-199523

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-199523	0,600" spring kit w/ chromoly retainers

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
DS-199525	0,675" spring kit w/ chromoly retainers

JIMS Performance Parts for Harley-Davidson Motorcycles

VALVE SPRING SET

- Incorporates an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring sets are 1,460" OD and have a pressure of 125 lb. when closed and 275 lb at 0,500" lift; installed height should be 1,800"; coil bind occurs at 1,150"
- Sold in a set of four springs (enough for one engine)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-199547	0,600" spring set

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

FEULING

FEULING BEEHIVE VALVE SPRINGS

ENDURANCE BEEHIVE® VALVE SPRING KIT WITH TITANIUM RETAINERS

- Machined from premium-grade high-tensile chrome silicon single-conical ovate wire
- Shot-peened with specially processed thermal heat treat and super NexTex® finish for fatigue life needed to exceed high demands of V-Twin engines
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Direct bolt-in replacement up to 0,650" cam lift; no machining or rocker box clearancing required
- Available for $^{5}/_{16}$" valves
- 7°, standard $^{5}/_{16}$" valve stem and keeper groove
- Kit includes: Endurance BeeHive® valve springs, lightweight 7° super Titanium heat-treated retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 198 lb. at 1,685" (0,535" lift), 194 lb. at 1,703" (0,553" lift), 190 lb. at 1,724" (0,574" lift), 187 lb. at 1,754" (0,604" lift), 185 lb. at 1,780" (0,630" lift), 160 lb. at 1,800" (0,650" lift), 375 lb. at 1,150" (open height) coil bind at 1,100"
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
0926-0851	For 84-99 Evolution Big Twin

HIGH-LOAD BEEHIVE® VALVE SPRING KIT WITH TITANIUM RETAINERS

- Made from premium stress-relieved conical ovate wire with nitrided surface heat treatment, shot-peened surface enhancements and Nano Peen™ polish
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the highest demands of performance engines with high-lift, steep-ramped camshafts
- Allow up to 0,750" lift cams; no rocker box clearancing required
- Available for $^{5}/_{16}$" valves
- 10°, standard $^{5}/_{16}$" valve stem and keeper groove
- Kit includes: High-Load BeeHive® valve springs, lightweight 10° Titanium retainers manufactured from Ti-17 alloy and micropolished for enhanced fatigue life, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 217 lb. at 1,789" (0,574" lift), 215 lb. at 1,800" (0,585" lift), 208 lb. at 1,819" (0,604" lift), 200 lb. at 1,845" (0,630" lift), 185 lb. at 1,900" (0,685" lift), 170 lb. at 1,935" (0,720" lift), 415 lb. at 1,215" (open height) coil bind at 1,125"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 84-99 Evolution Big Twin. Larger camshafts require valve guide machining for seal-to-retainer clearance.

PART #	DESCRIPTION
0926-0853	For 84-99 Evolution Big Twin

ECONO BEEHIVE® VALVE SPRING KITS

- Made from premium stress-relieved conical ovate wire
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the demands of performance engines with 0,585" and smaller lift camshafts
- Available for $^{5}/_{16}$" valves
- PART #0926-1467 includes Econo BeeHive® valve springs, lightweight 7° steel retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- PART #0926-3322 includes Econo BeeHive® valve springs, lightweight 7° Ti retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 183 lb. at 1,760" (0,510" lift), 175 lb. at 1,785" (0,535" lift), 172 lb. at 1,803" (0,553" lift), 165 lb. at 1,825" (0,574" lift), 163 lb. at 1,835" (0,585" lift), 380 lb. at 1,250" OPEN HEIGHT coil bind at 1,180"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Econo BeeHive® kit is direct replacement with no machining or rocker box clearance required for cams up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-1467	7°, $^{5}/_{16}$" valve stem w/ stock keeper groove (includes steel retainers)
0926-3322	7°, $^{5}/_{16}$" valve stem w/ stock keeper groove (includes titanium retainers)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

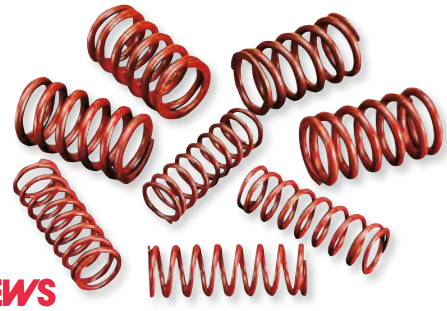
All part numbers in BLUE are new for the OldBook.

ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Provide correct spring force for any of our performance cams when used in 74" and 80" motors
- Max lift; installation does not require complicated machining but does require proper valvetrain setup

PART #	DESCRIPTION
DS-199736	For 66-84 Shovelhead



ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Accommodates cam lifts of 0,550"+
- Installation does not require machining of heads
- Kit includes four inner and four outer springs
- For use with titanium upper spring collars
- Collars sold separately

PART #	DESCRIPTION
DS-199739	For 84-99 Evolution Big Twin

Eastern M C Parts

VALVE SPRING KIT

- High-quality components meet or exceed OEM specifications
- Kit includes four inner and outer springs, four steel lower collars, four steel upper collars and eight valve stem keys
- 0,415" max. lift

PART #	DESCRIPTION
0926-1819	For 36-47 Knucklehead

ANDREWS

LOW-PROFILE SPRING COLLAR SETS

- Similar to stock 80-style parts, but lower profile for easier installation of higher lift cams
- Required parts if you use 80-style valve guides that utilize "K" line stem seals
- Heat-treated steel
- Sold as a set of four

PART #	DESCRIPTION
DS-199738	For 66-84 Shovelhead (lower)
0926-1439	For 84-99 Evolution Big Twin (upper)

ANDREWS

HIGH-LIFT UPPER SPRING COLLARS

- Cams with 0,600" lift can easily be accommodated when used with high-lift springs
- Made from T6 aluminum, collars are lightweight, hard-coated and very strong
- Sold as a set of four

PART #	DESCRIPTION
DS-199735	For 66-84 Shovelhead

ANDREWS

MEDIUM-LIFT UPPER SPRING COLLAR SET

- Intended to work with stock springs and add approximately 0,060" spring travel with no other modifications on 66-84 74" and 80" motors
- The easy way to install B or #2 cams in stock heads
- Sold as a set of four

PART #	DESCRIPTION
DS-199737	For 66-84 Shovelhead

ANDREWS

LOW-PROFILE LOWER SPRING COLLARS

- Similar to the late H-D collars
- Will provide 0,060" more spring travel than stock collars
- Sold as a set of four

PART #	DESCRIPTION
DS-199727	For 57-85 XL

Kibblewhite Precision Machining

LOWER COLLARS

- Made of heat-treated steel
- PART # 0926-1445 is machined to fit 0,725" OD seal and 0,565" valve guide
- PART # 0926-2928 is machined to fit 0,725" OD seal and 0,625" valve guide
- Lower collar is counter-bored to allow for greater retainer-to-seal clearance
- Sold in a set of four

PART #	DESCRIPTION
0926-2928	For L79-84 Shovelhead; work with 0,625" valve guides (OE style)
0926-1445	For 66-E79 Shovelhead; work with 0,565" valve guides (OE style)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

FEULING

TITANIUM VALVE SPRING RETAINER KIT

- Can be used to upgrade Screamin' Eagle performance Beehive® valve springs to titanium retainers
- Can also be used on Feuling® Econo Beehive® valve springs kits to update steel retainers to titanium
- Includes retainers, standard height steel keepers, machined steel spring seats and Viton® valve seals for factory guides

PART #	DESCRIPTION
0926-2265	For 84-99 Evolution Big Twin

S&S PROVEN PERFORMANCE

VALVE SPRING SHIM

- 0,574" x 1,450" x 0,030"
- Black, steel construction
- Sold each

PART #	DESCRIPTION
0930-0138	0,030" valve spring shim

S&S PROVEN PERFORMANCE

VALVE SPRING KEEPERS

- Steel construction

0926-3328

PART #	DESCRIPTION
0926-3329	For 36-84 Big Twin (8-pack); repl., OEM #18228-36
0926-3328	For 0,650" lift Sidewinder® valve springs (ea.)

FEULING

VALVE LOCK KEYS

- A selection of high-quality machined valve locks
- Locks are offset 10°
- Offset locks raise retainer to gain 0,050" installed height
- Offset 10° for $^{5}/_{16}$" valve stems; raise valve spring retainer to gain 0,050" of valve spring installed height (also fits Feuling High Load Beehive valve springs)
- Sold in 8-pack

PART #	DESCRIPTION
0926-1170	For 84-99 Evolution Big Twin ($^{5}/_{16}$" valve stems)

S&S PROVEN PERFORMANCE

TOP VALVE SPRING COVERS (TINS)

- Improved design for better oil scavenging and less leaking
- Relatively stock appearance
- Contains four top covers and gaskets
- Use with S&S oil return line kit PART #s 0711-0228, 0711-0229 (sold separately)

PART #	DESCRIPTION
0940-1421	For 36-47 Big Twin (KN series)

JIMS A DIVISION OF PRECISION PRODUCTS, INC. Performance Parts for Harley-Davidson® Motorcycles

VALVE LOCK KEYS

- Made from the highest-grade materials and heat-treated to JIMS strict standards
- Feature a 10° lock angle
- Work well with JIMS titanium valve spring retainers
- Sold in 8-pack

PART #	DESCRIPTION
DS-199555	For all 84-99 Evolution Big Twin that use a 10° lock angle and $^{5}/_{16}$" valve stems

0926-0776

Kibblewhite Precision Machining Manufacturer of Valvetrain Components

VALVE KEYS

- Made of H.T. steel
- Sold in 8-pack

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0777	7° standard; repl. OEM #18229-83
0926-0776	15° replacements for KPMI dual spring kits
FOR 48-65 PANHEAD	
0926-0774	15° replacement
FOR 57-85 XL	
0926-0775	15° replacement (OE style)

ROCKER ARM AND SHAFT KIT

- Compatible with S&S or stock tins
- Rocker arms are not compatible with stock rocker shafts
- High quality CNC machined
- 1:1 stock knuckle rocker arm ratio
- Improved oil control
- Kit includes four rocker arms (FE, FI, RI, and RE) four rocker shafts, washers and spacers

PART #	DESCRIPTION
0927-0026	For 36-47 Big Twin models

FORGED ROLLER ROCKER ARMS

- Machined from 4140 forged steel and heat treated for maximum strength
- Feature the exclusive 0,750" long S&S rocker arm bushing, which provides 50% more load bearing surface than stock 0,500" bushings
- Can be oiled through pushrods when used with S&S Shovelhead-style tappet guides and pushrods
- Nominal rocker ratio of 1,5:1
- Compatible with stock and S&S billet Shovelhead-style rocker boxes
- Some clearancing may be required when using stock rocker boxes
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0016	For 66-84 Shovelhead

ROLLER ROCKER ARMS

- The lightest rocker arm available, but still has superior strength characteristics due to its design
- The strength of 660 bronze bushings and bearing-grade steel for the roller tip
- Extensively tested under extreme conditions to ensure durability in your engine
- Will accept cams with up to 0,700" lift at a ratio of 1,625 (stock)
- Sold as a set of four

NOTE: Twin Cam rocker boxes may need to be clearanced.

PART #	DESCRIPTION
DS-193850	For 84-99 Evolution Big Twin; repl. OEM #s 17360-83/17375-83

0927-0001

0927-0015

FORGED ROLLER ROCKER ARMS

- Forged from 8620 steel, heat-treated then shot-peened for additional strength and durability
- Rocker arms have 0,75" long bushings instead of the 0,50" long bushings found on most other rocker arms
- Feature a modified lubrication system with unrestricted roller oiling
- 1,625:1 ratio
- Must be used with adjustable pushrods; sold separately
- Recommended that new rocker shafts be used when installing roller rocker arms; available separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0015	Roller rocker arms (set of 4)
0927-0001	Roller rocker rebuild kit

0927-0014

FORGED STANDARD ROCKER ARMS

- An economical solution for stock rebuilds, and mild performance upgrades
- Forged from 8620 steel for greater strength than stock or cast steel
- Feature the same 0,750" long rocker shaft bushings as S&S Roller Rockers: longer bushing provides 50% more load bearing area; eliminates the risk of engine damage associated with failed needle bearings
- Valve contact tips are induction hardened for extended durability
- Recommended for cams of 0,585" lift or less
- Sold in set containing two each of front and rear arms or individually

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0014	Set of 4
0927-0032	Front exhaust/rear intake (ea.)
0927-0033	Rear exhaust/front intake (ea.)

ROLLER ROCKER ARMS

- Cast from 4340 heat-treated chromoly steel
- Reduce friction in the valve train, providing more horsepower and less heat in the top end
- Include 660 bronze bushing fit to 0,0007" - 0,0012" for the best wear resistance and oil control
- Roller tip made from bearing-grade material to reduce valve guide wear and valve tip galling
- Segmented parabolic pushrod cup reduces friction at pushrod ends, while putting the load on the outer perimeter of pushrod ends, with full oil pressure at pushrod tip
- Designed to work in conjunction with other JIMS valve train components; use JIMS Rocker Arm Shafts PART #DS-193819
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0021	For 66-84 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

ROCKER ARM SHAFT

- Sold each

PART #	DESCRIPTION
0927-0023	For 66-84 Shovelhead; repl. OEM #17611-66B

ROCKER ARM SHAFT

- Sold each

PART #	DESCRIPTION
0950-0355	For 57-85 XL; repl. OEM #17435-57B

ROCKER ARM SHAFT SPRINGS

- Sold in 10-pack

PART #	DESCRIPTION
0927-0012	For 57-85 XL; repl. OEM #17483-57

ROCKER ARM HOUSINGS

- Reproduction of the stock "knuckles" for 36-47 OHV Big Twins
- Great for stock replacement/restoration
- Do not include hardware and fittings
- Natural finish
- Sold in sets

PART #	DESCRIPTION
0940-1427	For 36-47 OHV Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

ROCKER ARM BUSHING

- Replacement bushing for S&S roller rocker arms
- Sold each

PART #	DESCRIPTION
0927-0030	For S&S standard and roller rocker arms

ROCKER ARM BUSHINGS

- Manufactured from solid billet bearing bronze bar stock
- ID 0.547"
- Sold in packs of eight
- Ream to fit

PART #	DESCRIPTION
DS-193821	For 66-84 Big Twin, 57-85 Sportster models; repl. OEM #17428-57

0927-0004

ROCKER SHAFT ADJUSTER KIT

- Contains shims, spacers and seals to rebuild all four rocker arm shafts found in 66-84 Shovelhead engines
- Rocker arm will not come out of adjustment or need re-shimming
- Only needs to be replaced with each valve job
- Replacement seals sold in 4-pack

PART #	DESCRIPTION
0927-0004	For 66-84 Shovelhead
0927-0005	Repl. seals (4-pk.)

DS-190773

CHROME REPLACEMENT ROCKER SHAFT END PLUGS AND NUTS

- Complete sets of beautifully chrome-plated stock-style replacement rocker shaft end plugs, nuts and washers

PART #	DESCRIPTION
DS-190773	For 71-84 Shovelhead, 71-85 XL
DS-190774	For 66-70 Shovelhead, 57-70 XL

CUSTOM ROCKER ARM BUSHINGS

- For repairing roller rockers that use Torrington roller bearings
- Press fit and line ream to H-D specifications
- Work in Crane roller rocker arms
- Must be used with rocker shafts PART #DS-193820 (sold separately)
- Sold in sets of eight

PART #	DESCRIPTION
DS-197054	For 84-99 Evolution Big Twin

ROCKER ARM BUSHINGS

- Constructed of SAE660 bearing bronze
- Sold as a set of eight

PART #	DESCRIPTION
0927-0024	For 66-84 Shovelhead, 57-E84 XL

DS-190779

DS-190777

SOCKET-HEAD ROCKER ARM SHAFT END PLUGS

- Available in chrome
- Sold in a set of four

PART #	DESCRIPTION
DS-190779	For 71-85 XL (1/2"-20); repl. OEM 17448-71A
DS-190777	For 57-70 XL (5/16"-24); repl. OEM 17448-57

DS-189931

CHROME-PLATED ROCKER SHAFT END PLUGS

- Hex-head design makes installation or removal easier than stock slotted style
- Sold in a set of four

PART #	DESCRIPTION
DS-189930	For 66-70 Shovelhead, 57-70 XL; 5/16"-24
DS-189931	For 71-84 Shovelhead, 71-85 XL; 1/2"-20

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

ROCKER SHAFT NUTS

- 7/16"-20 nuts are available with red or black seals
- PART #0950-0340 has a zinc finish
- PART #0927-0031 has a chrome finish
- Sold in 10-pack unless noted

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD, 57-85 XL	
0950-0340	Nuts w/ black seals (10-pk.); repl. OEM #7872
0927-0031	Chrome nuts w/ red seals (4-pk.); repl. OEM #7825/7275
0950-0972	Cad-plated nuts w/ black ends and black seals (10-pk.); repl. OEM #7872B

ROCKER ARM BLOCK NUTS

- 5/16"-24 x 1/2" hex style
- Sold in 10-pack

PART #	DESCRIPTION
0927-0020	For 48-65 Big Twin; repl OEM #7727

ROCKER ARM SHAFT SPACERS

- Sold in a 4-pack

PART #	DESCRIPTION
0927-0009	For 66-84 Shovelhead; repl. OEM #17452-66

ROCKER ARM WASHERS

- Replace the washers found under the rocker shaft nuts
- Steel construction with a zinc finish
- Sold in 25-pk.

PART #	DESCRIPTION
0927-0025	For 66-84 Shovelhead, 54-85 XL; repl. OEM #6466W

ROCKER ARM SHAFT WASHERS

- Sold in 10-pack

PART #	DESCRIPTION
0927-0013	For 73-81 Big Twin; repl. OEM #17450-73
0927-0011	For 57-85 XL; repl. OEM #17451-57

ROCKER ARM SHIMS

- Sold in 10-pack

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD, 57-85 XL	
0927-0007	0,005" thick
0927-0006	0,007" thick
0927-0008	0,015" thick

SOLID LIFTER CONVERSION KIT

- Converts stock hydraulic lifters to adjustable solids
- Kit includes four nonadjustable steel pushrods, four adjustable inserts and instructions

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD	
0928-0062	Adjustable
2008-5003	Non-adjustable

SOLID LIFTER CONVERSION KIT

- Hardened steel adapters
- Fit in place of the stock hydraulic units
- Use with stock adjustable pushrods
- Sold as a set of four

PART #	DESCRIPTION
0929-0059	For 53-84 Big Twin (except Evolution Big Twin)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

HYDRAULIC LIFTER/TAPPET BLOCK KIT

- Fully engineered to utilize Evolution lifters and cams in Shovelhead engines
- Includes polished billet lifter blocks, 84-99 style lifter set, gaskets, pushrod clips, mounting hardware and a set of Quickee pushrods
- Evolution cams are sold separately
- Allows for top end oiling through the pushrods when used with S&S billet Shovelhead rocker covers (sold separately)

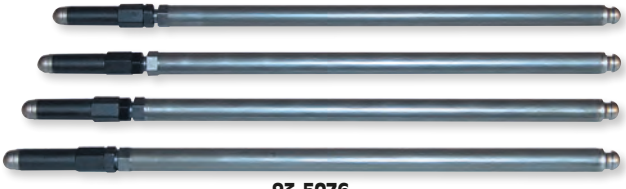
NOTE: Kit requires the use of S&S roller rocker arms (sold separately).

PART #	DESCRIPTION
0929-0002	For 66-84 Shovelhead

SOLID LIFTER ALUMINUM PUSHROD KIT

- Fits 36-47, 61", 74" and 93" Knucklehead Engine
- Requires stock-style adjustable tappets
- Includes four aluminum non-adjustable pushrods
- Increased expansion of aluminum provides a quieter valve train

PART #	DESCRIPTION
0928-0056	For 36-47 Knucklehead



93-5076

ADJUSTABLE PUSHRODS

- 0,4375" diameter chromoly steel for maximum strength
- Rocker boxes must be removed for installation or removal
- Sold in sets of four

PART #	DESCRIPTION
93-5076	For 84-99 Evolution Big Twin

PUSHROD SOLID LIFTER CONVERSION KIT

- Converts valve train to solid lifter operation
- Includes all parts needed for conversion
- Also includes adapters for converting 53-84 style hydraulic lifters to adjustable solids
- 5,330" cylinder length (stock 74")

PART #	DESCRIPTION
0928-0061	For 48-65 Big Twin models

"TIME SAVER" CHROMOLY ADJUSTABLE PUSHRODS

- Pushrods adjust from 9,500" to 11,500"
- 9 mm diameter provides superior strength and durability
- Speed up the installation of performance cams, rockers or other maintenance
- Removal of rocker boxes is not required for installation
- Adjusting end is a huge 0,354" – 40% larger than 0,250" ends
- Chromoly construction
- Sold in sets of four

NOTE: Not for use on 66-84 Shovelhead with OEM style tappets.

PART #	DESCRIPTION
0928-0050	For 84-99 Evolution Big Twin and 66-84 Shovelhead models

0928-0049

PART #	DESCRIPTION
0928-0049	For 66-84 Shovelhead; repl. OEM #17904-66

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0928-0003

QUICKEE PUSHRODS

- Feature revolutionary design – allows quicker, easier installation without the removal of the rocker covers
- 0,4375" diameter Chromoly steel
- Threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod, making installation or removal a snap
- Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving
- The ball ends of the pushrods are drilled so that oil can flow through the pushrod

PART #	DESCRIPTION
0928-0003	For 84-99 Evolution Big Twin
0928-0004	For 66-84 Shovelhead (S&S rocker arms)
0928-0066	For 66-84 Shovelhead (stock rocker arms)

NON-ADJUSTABLE PUSHRODS

- Replace stock pushrods perfectly
- $^{7}/_{16}$" high strength Chromoly steel tubing for increased strength
- Pushrods are marked with stock color code and valve position for easy installation
- Sold as a set of 4

PART #	DESCRIPTION
0928-0074	For 84-99 Evolution Big Twin models

0928-0063

PUSHROD ONLY SERVICE KITS FOR HYDRAULIC LIFTERS

- Include four adjustable steel pushrods
- Stock adjusting screws (not included) must be used

PART #	DESCRIPTION
0928-0063	For 66-84 74" and 80" Shovelhead engines
0928-0065	For 53-65 Big Twin (5,330" cylinder length)

PUSHROD COVER KIT

- Stock height
- Includes top and bottom covers, cover cap, cover spring and spring washers
- Keepers sold separately
- Chrome finish

PART #	DESCRIPTION
0928-0076	For 84-99 Evolution Big Twin

0928-0094

PUSHROD COVER KEEPER SETS

- Chromed steel finish
- Multiple lengths available
- Sold in sets of four

PART #	DESCRIPTION
FOR 36-99 BIG TWIN (EXCEPT TWIN CAM)	
0928-0094	2,400" long; repl. OEM #17950-48
0928-0078	2,800" long; repl. OEM #17950-86
0928-0058	3,330" long; repl. OEM #17949-40, 17950-66

FAST TIMES™ PUSHROD KITS

- Special adjustment system allows installation without removing the rocker boxes
- Made from 4130 chromoly steel tubing with a 0,049" wall thickness
- The adjuster portion of the pushrod features 4140 high-strength steel with an induction-hardened tip
- Available in stock length
- Sold in a set of four

PART #	DESCRIPTION
DS-193803	For 84-99 80" Evolution Big Twin
DS-193808	For 66-84 Shovelhead
DS-193815	For 48-65 Panhead

0928-0103

HP+ PLUS FEULING HORSEPOWER PLUS — FEULING

HP+® SERIES AND RACE SERIES® ADJUSTABLE PUSHRODS

- Maintain maximum valve lift
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- Tapered 3/8" 4130 chromoly adjustable pushrods, use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods
- Individual length intake and exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear
- HP+ Series® pushrods have 24 threads per inch adjustment, super strength single jam nut lock system, wall thickness 0,120"
- Race Series® pushrods have 24 threads per inch with 0,145" wall thickness - recommended when extreme valve-spring pressures are used
- Designed for use with hydraulic or solid lifters and street or race engines
- Can be used with the factory pushrod tubes

NOTE: Pushrods can be adjusted 0,225" longer than stock to accommodate longer cylinder and smaller base circle camshafts.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0928-0012	HP+ series®

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
0928-0103	Race Series®

FEULING FAST INSTALL PUSHRODS — FEULING

FAST INSTALL® ADJUSTABLE PUSHRODS

- Made from 7/16" diameter 4130 Chromoly steel with the same great design as the regular install Feuling® adjustable pushrods, but feature a slightly shorter tapered tube
- Come disassembled, allowing the engine builder to install the pushrods without removing the top rocker box
- Feature a dual-jam nut locking system and include Pushrod Tube Holder tool PART #3801-0159 to hold the pushrod tubes up and out of the way while adjusting

- Can be used with the factory pushrod tubes and are the longest fast-install pushrods available
- Use separate lengths for intake and exhaust which keeps the adjustment area to a minimum, creating a fast-install pushrod with maximum rigidity promoting maximum valve lift
- Standard 0,095" wall thickness

PART #	DESCRIPTION
0928-0025	For 84-99 Evolution Big Twin

JIMS Performance Parts For Harley-Davidson® Motorcycles

TOP-END OILING KIT

- Meticulously engineered valve train kit enables Evolution-style oiling of your Shovelhead top-end
- Allows removal of stock Shovelhead top-end oiling system
- Top-end is oiled through JIMS proven Powerglide™ tappets, then up through Worksaver® pushrods into JIMS roller rocker arms
- Tappets maintain oil pressure better and improve lubrication because oil is pressurized through the points of contact
- Kit includes special Powerglide tappets with Evolution-style pushrod seat, special Worksaver pushrods, chrome tappet blocks with gaskets and roller rocker arms
- Easy-to-follow instructions

PART #	DESCRIPTION
DS194068	For 66-84 Shovelhead

BIG AXLE™ POWERGLIDE™ TAPPET

- Micro-finish bore allows a running fit of 0,0002"
- Big Axle™ rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotate around the axle instead of an inner race, eliminating all possible movement in and around the axle
- Std. (0,8425") size
- Sold each

PART #	SIZE
DS-194107	For 84-99 80" Evolution Big Twin; repl. OEM# 18523-86

DS-194271

DS-194369

DS-194272

POWERGLIDE™ TAPPETS

- These tappets will run in cast iron or aluminum tappet blocks
- Recommend fitting the tappets to the blocks with a clearance of 0,0007" to 0,0012"
- Produced from billet bearing steel
- A true center-line for roller life and exact cam timing
- State of the art pushrod seat, machined with the same segmented parabolic cup as the JIMS roller rockers
- Hand fit hydraulic unit to a running fit of 0,0002", with ultra-precision air-gauging system

SIZE	POWERGLIDE HYDRAULICS	STANDARD HYDRAULIC	STANDARD SOLID
FOR 66-84 SHOVELHEAD; REPL. OEM #S 18498-48/18522-53A			
Std. (0,731")	DS-194271	DS-194369[1]	DS-194272[2]

+0,005"	DS-194275	DS-194371[1]	DS-194273[2]

[1] Hydraulic lifter not included.
[2] Adjuster screws and nut sold separately.

POWERGLIDE™ STEADY ROLL TAPPET

- The same Powerglide™ advantage (oil-fed axle, billet steel body, precision fit hydraulics), but now incorporates a Steady Roll bronze bushing in place of the needle bearing roller
- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%

- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
0929-0043	For 84-99 Evolution Big Twin; standard

HYDROSOLID TAPPET

- Performs like a hydraulic tappet up to 5500 rpm, then turn into a solid tappet
- When it turns into a solid tappet, it adds approximately three to six more usable horsepower
- Prevents hydraulic pump at high rpms
- Sold each

NOTE: Requires the use of adjustable pushrods.

PART #	DESCRIPTION
DS-194342	For 84-99 Evolution Big Twin (0,8425" OD); repl. OEM #18523-86

TAPPETS

DS-194276

- Standard solid rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotates around the axle instead of an inner race, eliminating all possible movement in and around the axle
- Sold each

INTAKE TAPPET FOR KNUCKLEHEAD

- Includes lifter body wrench flat
- Includes adjusting screw and nut
- Sold each

PART #	DESCRIPTION
0929-0086	Intake tappet assembly for 36-47 Knucklehead and S&S KN-series engines; repl. OEM #18491-36

0929-0004

HYDRAULIC TAPPETS

- Rollers have a larger-than-stock inner bearing race that reduces stress and increases axle life
- Each lifter body and plunger assembly is hand-fit and pressure-tested to ensure correct operation
- Redesigned plunger assembly withstands forces associated with heavy-duty valve springs and pushrods typically used in high-performance applications
- Revised metering device precisely controls oil delivery to top end, ensuring rapid lifter pump-up and reducing possibility of oil starvation to bottom end
- Tappets that include the HL2T Limited Travel Kit improve cold starts and high rpm valve timing accuracy
- Sold in sets of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0061	W/ HL²T kit
0929-0004	W/o HL²T kit

0929-0051

HYDRAULIC TAPPET ASSEMBLIES

- Precision-machined and heat-treated bodies
- Premium-quality anti-pump-up hydraulic inserts
- Eliminate noise from the mechanical valve train

PART #	DESCRIPTION
FOR 53-84 BIG TWIN	
0929-0051	Standard-hydraulic tappet assembly (4-pk.); repl. OEM #18522-53A
0929-0065	Standard-hydraulic tappet assembly (ea.); repl. OEM #18522-53A
0929-0052	+0,003" hydraulic tappet assembly (4-pk.)
0929-0064	+0,003" hydraulic tappet assembly (ea.)

TAPPET KITS

- Include lifter body wrench flat
- Include adjusting screw and nut

PART #	DESCRIPTION
0928-0052	For 36-47 Knucklehead and S&S KN-series engines (stock)

HP+® HYDRAULIC LIFTERS

- Performance hydraulic roller lifters dyno developed and track tested
- CNC-machined and precision ground
- When used with Feuling® oil pump, they will increase critical oil flow to valves, springs, rockers, shafts and valve guides
- Extend life of top end valve gear
- Can also be used for OEM replacements
- Sold in a set of four

PART #	DESCRIPTION
0929-0018	For 84-99 Evolution Big Twin

RACE SERIES® FULL-TRAVEL HYDRAULIC LIFTERS

- Full-travel hydraulic lifters made from machined steel designed with 0,200" of travel
- Exceed the needs of large-lift camshafts and higher spring pressures with a slower bleed-down rate
- Maintain proper and critical oil flow to valves, springs, rockers, shafts and valve guides
- Increase engine rpm and valvetrain stability; decreases valve float for maximum valve lift
- Recommended for both strip and performance street engines
- Sold in a set of four

NOTE: High-volume oil pump recommended.

NOTE: Recommended for engines running higher than 185 lb. valve spring seat pressure.

PART #	DESCRIPTION
0929-0022	For 84-99 Evolution Big Twin

V-THUNDER™ RACE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Race/slow bleed upgrade design for high-performance use
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0078	Race forged tappet (ea.)
0929-0079	Race forged tappets (set of 4)

V-THUNDER™ PERFORMANCE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Performance replacement for the stock hydraulic roller lifter
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0076	Performance forged tappet (ea.)
0929-0077	Performance forged tappets (set of 4)

HIGH-QUALITY TAPPET ROLLER KITS

0929-0053

- Made from 52100 bearing material
- Include 4340 chromoly axles
- Sold in a 4-pack

PART #	DESCRIPTION
0929-0053	For 84-99 80" Evolution Big Twin
0929-0049	For 29-84 Big Twin, 57-85 XL; repl. OEM #18534-29A

TAPPET ROLLER KIT

- Made from 52100 bearing material
- Includes 4340 chromoly axle
- Sold each

PART #	DESCRIPTION
DS-197020	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A

TAPPET ROLLERS

Eastern M C Parts

- 4-pack of tappet rollers

PART #	DESCRIPTION
DS-194029	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A

HYDRAULIC LIFTER UNIT

- Quality hydraulic lifter unit
- Sold each

PART #	DESCRIPTION
0929-0050	For 53-84 Big Twin; repl. OEM #17920-53A

HYDRAULIC LIFTER UNIT

- Sold individually

PART #	DESCRIPTION
DS-194051	For 53-84 Big Twin

HYDRAULIC LIFTER LIMITED-TRAVEL SPACERS

- Spacers are designed to limit the range of travel of the hydraulic tappet plunger
- Help with starting and high-speed operation by not letting the hydraulic lifter bleed down or collapse
- Sold in sets of four

NOTE: Require the use of adjustable pushrods, see page 37.

PART #	DESCRIPTION
0929-0006	For 84-85 Evolution Big Twin and S&S Evo-style lifters w/ 0,612" ID tappets

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

DS-193767	For 84-99 Evolution Big Twin; lower cover kit; (repl. OEM #17938-83)

PART #	DESCRIPTION
DS-193768	For 79-84 Big Twin models; inner cover kit; (repl. OEM #17935-79)

PUSHROD COVER SPRINGS

- OEM-quality replacements
- Sold in a 10-pack to dealers and sold individually to the customer

PART #	DESCRIPTION
0928-0115	For 36-99 Big Twin and 57-85 XL (10-pk); repl. OEM #17947-36

PUSHROD TUBE WASHERS

- Sold in 10-packs

PART #	DESCRIPTION
0950-0369	For 36-99 Big Twin, 57-85 XL; repl. OEM #6762B

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

REAPER® CAMS

FEULING

- Produce more power and torque in the riding rpm range increasing throttle response, acceleration and fuel mileage
- Wide lobe separations produce wide power bands
- Smooth camshaft lobe ramps are easier on valve-train components and eliminate excessive valve-train noise and wear
- Dyno proven and track tested

518 CAM

- Direct bolt-in replacement for EVO engines
- Can be used with stock valve springs, pushrods and lifters
- Will respond well with performance exhaust and air cleaner
- Will also respond well with increased compression and cylinder head work
- 1650 - 5500 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1037	518 cam

543 CAM

- Requires performance valve springs
- Performance lifters recommended but not required
- Will work with factory pushrods on engines with factory stack up; if deck height, cylinders or rocker boxes have been modified from stock then adjustable pushrods are required
- Increased compression, cylinder head work and performance exhaust recommended but not required; increased compression is required for bottom end performance
- 2200 - 5950 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1038	543 cam

594 CAM

- Requires performance valve springs, performance lifters, adjustable pushrods, increased compression and cylinder head work
- Performance exhaust and intake/air cleaner upgrades also required
- 2500 - 6400 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1039	594 cam

S&S H-GRIND CAMSHAFTS

0925-0739

- OEM specification replacement hydraulic cam with unique front and rear timing specifications
- Dead-on reproduction of the stock cams used in 1966 to 1984 Big Twins
- Perfect for repair and restoration of 74" and 80" engines
- Available for generator engines with inner cam bushings or inner cam bearings

PART #	DESCRIPTION
0925-0741	For 78-84 Big Twin engines w/ alternator-style crankcases
0925-0740	For 70-77 Big Twin engines w/ alternator-style crankcases

PART #	DESCRIPTION
0925-0739	For 58-69 Big Twin engines w/ generator-style crankcases
0925-0738	For 48-57 Big Twin engines w/ generator-style crankcases

S&S CAMS

- S&S Cams are tested on the dyno, street and track before being offered to the public
- With hundreds of hours of testing on each cam, you know you are getting the best cam S&S can produce

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

0925-0076

450S CAM

- For lower compression motors up to 88" with compression up to 8,5:1
- Good low and mid-range torque
- Recommend hydraulic lifters

450S CAM

PART #	DESCRIPTION	PART #	DESCRIPTION
0925-0418	For L77-84 Big Twin	0925-0416	For 48-69 Big Twin
0925-0417	For 70-E77 Big Twin		

508 CAM

- S&S' best bolt-in cam
- Works well in all size motors up to 10:1 compression
- Quiet valve train
- Provides best power in low to mid-range

508 CAM

PART #	DESCRIPTION
0925-1017	For 84-99 Evolution Big Twin

510 CAM

- S&S' best bolt-in cam
- Ideal for engines to 96" up to 10:1 compression
- No spring spacing required
- Works with stock pushrods, springs and hydraulic tappets

510 CAM

PART #	DESCRIPTION
0925-0076	For 84-99 Evolution Big Twin

514 CAM

- For lower compression 84" to 93" motors, not more than 9:1
- Best response from 2500 to 5000 rpm
- Recommend solid or performance aftermarket hydraulic lifters

514 CAM

PART #	DESCRIPTION	PART #	DESCRIPTION
DS199188	For L77-84 Big Twin	DS199186	For 48-69 Big Twin
DS199187	For 70-E77 Big Twin		

520 CAM

- Works well in all size motors up to 10:1 compression
- Provides best power in low to mid-range
- Works with hydraulic tappets
- Requires high-lift springs

PART #	DESCRIPTION
DS199224	For 84-99 Evolution Big Twin

560S CAM

- For 9:1 to 10:1 compression motors
- Great response across the rpm range
- Recommend solid or performance aftermarket hydraulic lifters

560S CAM

PART #	DESCRIPTION	PART #	DESCRIPTION
DS199191	For L77-84 Big Twin	DS199190	For 70-E77 Big Twin

585V CAM

- Versatile for 80" to 96" engines with 10:1 to 10,5:1 compression, also works well in larger engines with 9,5:1 to 10:1 compression ratios
- 3500 to 6000 rpm

585V CAM

PART #	DESCRIPTION
0925-0937	For 84-99 Evolution Big Twin

600 CAM

- Works well in large-displacement engines 9,5 to 10,5:1 compression
- Makes best power in mid-range
- Works with hydraulic or solid tappets
- Requires high-lift springs

PART #	DESCRIPTION
DS199228	For 84-99 Evolution Big Twin

640 CAM

- For large displacement engines (110"+) with 10,5:1 to 11,5:1 compression and smaller engines (96-107") with 11:1 to 12:1 compression
- Less overlap and fast ramps build higher cylinder pressure
- Lower TDC lift makes installation easier
- Designed for use with hydraulic tappets
- Requires high-lift springs

640 CAM

PART #	DESCRIPTION
0925-0044	For 84-99 Evolution Big Twin

ANDREWS

ANDREWS CAMS BIG TWIN

Andrews Products grinds its cams with the help of a computer with cam design capabilities. This superior technology gives the utmost in both performance and reliability. Only the best alloy steel billets and heat-treating processes are utilized. Furthermore, the power in Harley's Evolution engines can be made even more convincing when a superior Andrews computer-designed high-performance cam is installed. These hydraulic lifter cams are capable of 6000-plus rpm with stock springs and no valve float.

NOTE: Must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and the breather valve gear was changed. These components are not interchangeable with earlier-style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

EV3 GRIND CAM

- Bolt-in cam for light bikes (FXRS, etc.) adds significant mid-range power without affecting idle
- A 6000+ rpm cam for stock heads and springs with hydraulic lifters

PART #	DESCRIPTION
DS-199320	For 84-99 Evolution Big Twin

EV5 GRIND CAM

- Designed for mildly stroked motors or motors with head work done
- Works with stock hydraulics, with stock spring travel set to 0,560" minimum
- Excellent power in the 2500-6500 rpm range

PART #	DESCRIPTION
DS-199443	For 84-99 Evolution Big Twin

EV7 GRIND CAM

- Designed for big-inch stroker motors with head work
- Works with stock hydraulics, with stock spring travel set to 0,560" minimum
- Excellent in the 2800-6500 rpm range
- Uses stock springs

PART #	DESCRIPTION
DS-199445	For 84-99 Evolution Big Twin

EV13 GRIND CAM

- Bolt-in cam for street or touring use with more mid-range and upper-end power than the stock 88 EV cams
- Especially effective in reducing oil temperature
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199323	For 84-99 Evolution Big Twin

EV23 GRIND CAM

- Bolt-in cam for heavier touring bikes and high-geared bikes with 65-tooth rear pulleys
- Crisp throttle response and strong pulling power from 1500 to 6000 rpm
- Works well in higher altitudes
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199097	For 84-99 Evolution Big Twin

EV27 GRIND CAM

- Bolt-in street cam with fast open and close ramps
- Similar timing to EV3, but designed to produce a very broad torque band
- Pulls from 1500 to 6000 rpm
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199344	For 84-99 Evolution Big Twin

EV31 GRIND CAM

- Super power for supercharged engines
- Basically an EV27 cam with timing set for superchargers or big-inch motors with 10,5+ compression ratio

PART #	DESCRIPTION
0925-0071	For 84-99 Evolution Big Twin

EV38 GRIND CAM

- Lower lift exhaust for easy installation
- Bolt-in for lighter bikes (FXLR, etc.)
- Great mid-range and high-end power
- Longer exhaust cam lowers oil temperature

PART #	DESCRIPTION
DS-199446	For 84-99 Evolution Big Twin

EV46 GRIND CAM

- Bolt-in performance cam with fast open and close ramps
- Similar to "EV3" but higher static compression pressure for 4000+ rpm with stock heads and hydraulic lifters

PART #	DESCRIPTION
DS-199327	For 84-99 Evolution Big Twin

EV51 GRIND CAM

- Long duration for modified street motors
- Works with stock hydraulics
- Easy installation
- Power range from 3000-6500 rpm

PART #	DESCRIPTION
DS-199447	For 84-99 Evolution Big Twin

EV59 GRIND CAM

- Designed for modified 80" to 88" motors
- For use with high lift springs and collars
- Very broad powerband to 6000 rpm

PART #	DESCRIPTION
DS-199444	For 84-99 Evolution Big Twin

EV72 GRIND CAM

- Upgraded EV7, for 92" or larger street motors
- For use with Andrews springs and titanium collars
- Very broad powerband, 2800-6000 rpm
- OK for use with hydraulic lifters

ANDREWS CAMS BIG TWIN (CONT)

"AB" GRIND CAMS

- Bolt-in street cams have an "A" intake and a long duration exhaust for cooler running and high-end power
- Suitable for hydraulic lifters

PART #	DESCRIPTION
DS-199328	For L77-84 Shovelhead (except for 80-81)
DS-199347	For 70-E77 Shovelhead
DS-199317	For 48-69 Big Twin

"B2" GRIND CAMS

- More mid-range and high-end power for street/strip with smooth idle; best cam for 74/80 inches and small strokers
- Spring spacing required, and clearance at main bearing boss must be checked

PART #	DESCRIPTION
0925-0296	For L77-84 Shovelhead
0925-0295	For 70-E77 Shovelhead
0925-0294	For 48-69 Big Twin

"C" GRIND CAMS

- Best production cam made for big street engines
- Strokers from 84 to 96 inches will really turn on this cam
- Broad torque range from 2000 to 7000+ rpm

PART #	DESCRIPTION
DS-199314	For L77-84 Shovelhead
DS-199313	For 70-E77 Shovelhead
0925-0583	For 48-69 Big Twin

"N" GRIND CAM

- Stock Knuckle replacement cam
- For stock motors and restoring an older classic engine, this is the cam to use

PART #	DESCRIPTION
0925-0584	For 37-47 Knucklehead

"7" GRIND CAMS

- Upgraded version of the original #6 grind
- Great street cam, especially for 84/88-inch strokers with maximum torque from 2200 to 6500 rpm

PART #	DESCRIPTION
0925-0299	For L77-84 Shovelhead

Exhaust	61"	37"	278°	0,525"

#1 AND #2 CAMS FOR LOW-COMPRESSION 66-84 BIG TWIN

- Designed with a combination of shorter durations and higher lifts to offer the advantages of a broad torque output through the entire rpm range
- Designed for hydraulics, but could be run with solids
- Grind #1 is the low-compression version of an "A" grind cam for 74" and 80" models

PART #	DESCRIPTION
#1 GRIND CAMS FOR LOW-COMPRESSION	
DS-199324	For L77-84 Shovelhead
DS-199282	For 70-E77 Shovelhead
DS-199283	For 48-69 Big Twin

"A2" GRIND CAMS

- Cams bolt into 66-84 (except 80-81) Big Twin engines with no head work; on 80-81 engines the height of the stock H-D valve guides restricts spring travel (and cam lift) to 0,430" or less
- More mid-range and high-end power; idle unaffected
- Spring travel and clearance, plus clearance at main bearing boss must be checked on 80 and later models

PART #	DESCRIPTION
0925-0293	For L77-84 Shovelhead (except 80-81 models)
0925-0292	For 70-E77 Shovelhead
0925-0291	For 48-69 Big Twin

"BH" GRIND CAMS

- A hydraulic version of Andrews "B" grind cams, for 48-84 Big Twin models
- Most are bolt-in, but spring spacing may be required

PART #	DESCRIPTION
DS-199299	For L77-84 Shovelhead
DS-199298	For 70-E77 Shovelhead
DS-199297	For 48-69 Big Twin

"J" GRIND CAMS

- For mild street applications
- Add more power throughout rpm range and maintain a smooth idle
- Bolt-in with no head work

PART #	DESCRIPTION
DS-199303	For L77-84 Shovelhead
DS-199302	For 70-E77 Shovelhead
DS-199301	For 48-69 Big Twin

"S" GRIND CAM

- Bolt-in performance cam
- Smooth idle, strong pull to 6000 rpm
- This cam is the Knuckle equivalent of a "B" cam in a Pan/Shovel motor

PART #	DESCRIPTION
0925-0585	For 37-47 Knucklehead

PART #	DESCRIPTION
0925-0298	For 70-E77 Shovelhead

GRIND	OPEN	CLOSE	DURATION @ 0,053"	VALVE LIFT
N

Exhaust	36"	16"	232°	0,427"
ANDREWS "#2"				
Intake	15"	35"	230°	0,490"
Exhaust	35"	15"	230°	0,490"

- Grind #2 offers more power through the rpm range for engines with low-compression pistons; the low-compression sister to a "B" grind cam

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and breather valve gear was changed. These components are not interchangeable with earlier style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

PART #	DESCRIPTION
#2 GRIND CAMS FOR LOW-COMPRESSION	
DS-199326	For L77-84 Shovelhead
DS-199325	For 70-E77 Shovelhead

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

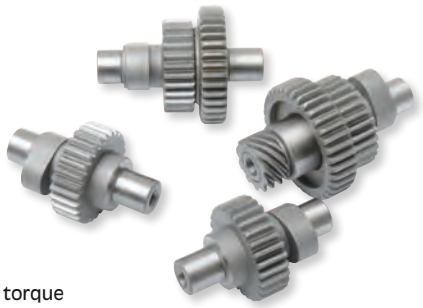
All part numbers in BLUE are new for the OldBook.

ANDREWS

"Y" CAMS SPORTSTER

- Biggest available four-cam set that does not require head work; however, some 82 engines may require spring spacing
- Use stock springs and provide great mid-range and upper-end power
- Use with 9,0:1 to 10,0:1 compression ratios for best power gain

PART #	DESCRIPTION
DS-199356	For 71-80 XL



"PB+" CAMS

- Bolt-in four-cam set
- More horsepower and torque
- Stock springs OK to 7000 rpm, require no headwork

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

PART #	DESCRIPTION	PART #	DESCRIPTION
0925-0593	For L84-85 XL	0925-0591	For 71-80 XL
0925-0592	For 81-E84 XL	0925-0590	For 57-70 XL

"PB+" EXHAUST CAMS SPORTSTER

- "PB+" exhaust cams only (#s 1 and 4)
- Use with stock P intake cams for bolt-in power with stock 1000 cc engines; stock springs are okay and no head work is required

NOTE: 81-E84 cam gear kits (with generators) do not have tachometer drive gears.

PART #	DESCRIPTION
DS-199345	For 71-80 XL

GRIND	OPEN	CLOSE	DURATION @ 0,053"	DURATION @ 0,020"	VALVE LIFT	LIFT @ TDC

"R5" CAMS SPORTSTER

- A complete four-cam set of intake and exhaust cams designed for modified 1000 cc engines and mild strokers for the street or the strip
- A big boost in torque over stock P cams through entire rpm range, up to 7500
- Can use stock springs, but spacing is required

NOTE: Cam lobe clearance must be checked on 77 and later models; tach drive gear must be removed from #4 cam on 81-E84 models.

PART #	DESCRIPTION
DS-199355	For 71-E84 XL

CAM SET SPORTSTER

- Cam set is similar to original stock cams but the lobes have been redesigned using modern computer cam design and smoothing techniques
- Designed for use when rebuilding a motor with pitted cams
- 0,375" valve lift, 1-to-1 rocker ratio and 212° duration @ 0,053 tappet lift

PART #	DESCRIPTION
0925-1136	For 37-48 U, UL, ULH

CAM DRIVE GEARS

- High-quality heat-treated gears
- Available in undersized, standard and oversize

NOTE: Measured using 0,105 gauge pins. Measuring the same gear with 0,108 pins will show a 0,012 larger measurement.

COMP CAMS

XTREME ENERGY™ CAMS FOR 84-99 EVOLUTION BIG TWIN

- Cam lobe designs allow maximum performance for Evolution engines
- Give great throttle response and mid-range with excellent high-rpm power
- Fast opening and closing gives better airflow with the lift and duration used
- Xtreme Energy cams require valve springs designed for high-lift cams
- All cams made from SAE 6150 bearing-quality steel for durability and include the cam gear

NOTE: Always check valve spring coil bind, valve guide-to-collar, valve-to-valve and valve-to-piston clearance when installing a new cam.

EVL-5005 CAM

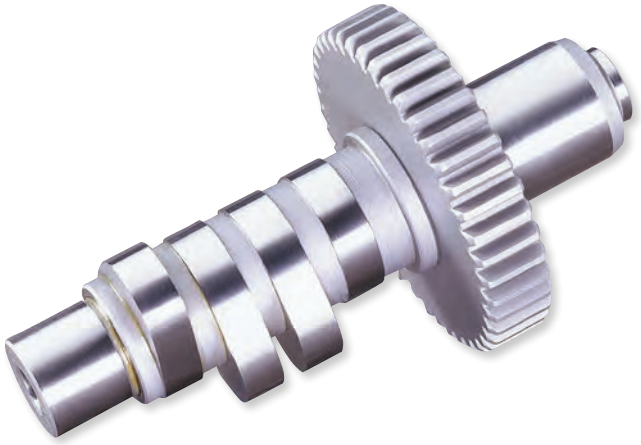
- Low-end and mid-range power for heavy bikes; 1500-5500 rpm

PART #	DESCRIPTION
0925-0038	EVL-5005 cam

EVL-5015 CAM

- Mid-range to top-end for modified 80- to 88-cu.-in. engines, 9,5:1+ compression and low-restriction pipes and intake

PART #	DESCRIPTION
0925-0040	EVL-5015 cam



V-THUNDER™ CAMS FOR 84-99 EVOLUTION BIG TWIN

- Provide the ultimate in arm-stretching power on the street or in competition
- Power proven and backed by hundreds of exhaustive hours on V-Thunder's dyno and in on-bike testing, these cams provide added punch at all levels of performance for Evolution motors while maintaining the longevity and integrity of valvetrain parts
- V-Thunder cams are made with SAE6150 bearing-quality steel and induction-hardened for optimum surface longevity
- Tolerances are extremely precise with the aid of computer-controlled machining centers

NOTE: Always check valve spring coil bind, valve guide-to-collar, valve-to-valve and valve-to-piston clearance when installing a new cam.

EVL-3030 CAM

- Requires head work, free-flowing pipes and carb work
- Good roll-on in high gear
- Strong mid-range
- Power from 2000 to 6300 rpm

PART #	DESCRIPTION
DS-199155	For 84-99 Evolution Big Twin

EVL-3010 CAM

- Stock motor
- Good low-end and mid-range power
- Power from 1500 to 5600 rpm

PART #	DESCRIPTION
DS-199153	For 84-99 Evolution Big Twin

EVL-3020 CAM

- Works best with free-flowing pipes and carb work
- Strong mid-range
- Power from 2000 to 6000 rpm

PART #	DESCRIPTION
DS-199154	For 84-99 Evolution Big Twin

0925-1332

- Available as listed

PART #	DESCRIPTION
0950-0922	Complete gear drive assembly 36-69 Big Twin (standard/ clockwise rotation, shims not included); repl. OEM #25850-36A
0925-1332	Roll pin for 36-69 Big Twin gears ($^{7}/_{64}$" dia.) (ea.); repl. OEM #255

CIRCUIT BREAKER SHAFT KIT

- Circuit breaker shaft kit consists of a shaft and two replacement bushings

PART #	DESCRIPTION
DS-194234	For 36-69 Big Twin; repl. OEM #s 25856-36/25785-30A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

IDLER GEAR ASSEMBLY

- Does not include shims

PART #	DESCRIPTION
0932-0264	For 36-69 Big Twin; repl. OEM #25776-36

IDLER GEAR SHAFT AND BUSHING KIT

- Includes shaft and bushing

PART #	DESCRIPTION
0925-1202	For 36-69 Big Twin; repl. OEM #s 25791-36, 25785-30A

DS-194192

DS-195007

DS-188049

IDLER GEAR AND CIRCUIT BREAKER BUSHINGS/STUDS

- Idler gear bushings/studs
- Also work for circuit breakers as noted below

PART #	DESCRIPTION
DS-194192	Idler gear bushings for 32-73 45"; 36-69 Big Twin; circuit breaker bushings for 36-69 Big Twin (pr.); repl. OEM #25785-30A
DS-195007	Idler gear stud kit with bushing kit for 36-69 Big Twin OHV; repl. OEM #s 25791-36, 25785-30A
DS-195008	Idler gear stud and bushing kit for 57-85 XL; repl. OEM #s 25787-57, 25597-57
DS-188049	Idler and circuit breaker stud snap rings for 36-69 Big Twin (10-pk.); repl. OEM #25810-15

0925-0933

CIRCUIT BREAKER/ IDLER GEAR SHIMS

- Sold each

PART #	DESCRIPTION
0925-0933	0,054"
0925-0934	0,058"

CAM GEAR THRUST PLATES

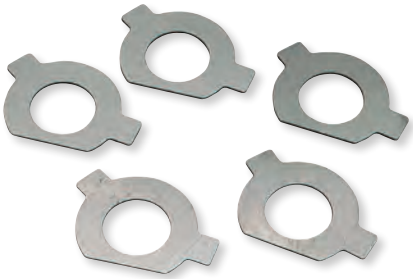
- Sold in pairs

PART #	DESCRIPTION
0925-0290	For 58-85 XL; repl. OEM #25551-58

CAM LOCK WASHER

- For Big Twin engines with 4", $4\frac{1}{8}$" or $4\frac{3}{8}$" cylinder bore
- Sold each

PART #	DESCRIPTION
0925-1333	Cam lock washer; repl. OEM #25550-57A



CAM LOCK WASHERS

- Sold in 5-packs

PART #	DESCRIPTION
DS-193144	For 58-99 Big Twin models; repl. OEM #25550-57

DS-194162

CAM SHIMS

- Available in a set of 10, or in individual sizes in 5-pack

PART #	DESCRIPTION	OEM #
FOR 36-99 BIG TWIN

CRANKCASE BREATHER REED VALVES

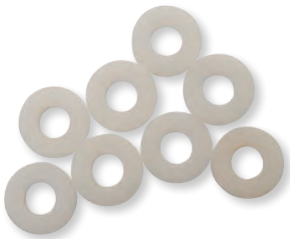
- New-style breather is not dependent on the rotation of the crankshaft to make it open and close; instead, reeds open when pressure in the crankcase becomes greater than pressure in the cam chest, and close when pressure in the cam chest is equal to or greater than pressure in the crankcase
- By opening and closing "on demand," the reed valves automatically compensate for lag time associated with accelerating the mass of air as it is forced out of the crankcase, increasing performance and stopping high-rpm oil carryover in engines with marginal piston ring seal
- Installation is fast and simple; no aligning timing marks, and no rotating parts

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN STYLE ENGINE	
0920-0008	Standard
0920-0009	+0,030" oversize

BREATHER SEPARATOR PLATE AND SCREEN

- Exact OEM replicas
- Screen and plates are sold separately

PART #	DESCRIPTION
FOR 36-69 BIG TWIN	
0950-0343	Separator plate (5-pk.); repl. OEM #25279-36
0950-0352	Breather screen (5-pk.); repl. OEM #25275-36



PLASTIC BREATHER VALVE WASHER SET

- Sold in set of eight in sizes: 0,130"; 0,135"; 0,140"; 0,145"; 0,150"; 0,155"; 0,160" and 0,165"

NOTE: Use only plastic washers with plastic breather valves. Do not intermix plastic and steel parts.

PART #	DESCRIPTION
DS-194160	For 82-99 Big Twin; repl. OEM #25320-82

STEEL BREATHER VALVE WASHER KIT

- PART #DS-194159 includes one each of the following size washers: 0,110"; 0,115"; 0,120"; 0,125"; 0,130"; 0,135"; 0,140" and 0,145" (0,313" ID hole)
- PART #0950-0364 includes one each of the following size washers: 0,110"; 0,115"; 0,120" and 0,125" (0,195" ID hole)

NOTE: Use only steel washers with steel breather valves. Do not intermix steel and plastic parts.

PART #	DESCRIPTION
DS-194159	For L79-82 Big Twin

PART #	DESCRIPTION
0950-0364	For 50-E79 Big Twin

STEEL ROTARY BREATHER GEARS AND KITS

- All-steel construction
- Welded-in screen
- Higher flow than stock
- Elongated breather pocket scavenge hole for increased suction
- Available in standard or +0,030" diameter
- Kits include gear and spacer

PART #	DESCRIPTION
STANDARD KITS	
DS-194242	For L77-99 Big Twin; repl. OEM #25313-88B
DS-194243	For 48-E77 Big Twin; repl. OEM #25313-73
+0,030" OVERSIZE KITS	
DS194471	For L77-99 Big Twin
DS194469	For 48-E77 Big Twin
BREATHER GEAR ONLY	
0932-0124	For 84-99 Evolution Big Twin (std.)
0932-0125	For 84-99 Evolution Big Twin (+0,030")
0932-0126	For 48-77 Big Twin (std.)
0932-0127	For 48-77 Big Twin (+0,030")
0932-0115	For 36-E47 Big Twin (std.)
0932-0117	For 36-E47 Big Twin (+0,030")

BREATHER GEAR SPACING SHIM KIT

- Shim kit includes one of each thickness: 0,100", 0,110", 0,120", 0,130", 0,140", 0,150", 0,160" and 0,170"
- Individual breather gear spacing shims available separately

NOTE: These shims must be used with steel breather gears only.

KRANK VENT PLUS

Hayden ENTERPRISES

- Installs on your crankcase breather hose
- Controls the air under the pistons by maintaining the proper amount of vacuum in the crankcase at any rpm
- Better seal is achieved due to an increased pressure differential across the compression ring
- Designed to give a 2-7 horsepower increase, with a deeper motor sound
- Comes apart for easy cleaning

PART #	DESCRIPTION
DS-289525	Krank Vent Plus

K&N

0920-0159 1011-1523

CRANKCASE VENT FILTERS

- Feature a steel base, one-piece design with chrome or black rubber top
- Measure 2" in diameter, and 1 1/2" H; come with or without a mounting stud

DESCRIPTION	STEEL BASE	RUBBER BASE
3/8" vent filter, chrome w/ stud	-	1011-1521
3/8" vent filter, chrome w/o stud (black rubber top)	62-1000	-

EMGO

CRANKCASE VENT FILTERS

- High-quality crankcase breathers and filters from Emgo
- Crankcase breather filter kit PART #14-20900 features one-piece, chrome-top filter, hose clamp and die-cast mounting base; accepts 3/8" ID hose
- Replacement filter with chrome die-cast cap PART #14-20905 is for use only with PART #14-20900 (crankcase breather filter kit)
- Black rubber-top crankcase breather PART #14-20910 can be clamped directly to 3/8" ID hose

PART #	DESCRIPTION
14-20900	Chrome crankcase vent filter assembly
14-20905	Repl. chrome-top filter for use w/ PART #14-20900 only
14-20910	Rubber-top crankcase vent filter

DRAG Specialties

DS-289515

CRANKCASE VENT FILTERS

- One-piece crankcase filter assembly comes complete with filter clamp and a chrome, die-cast mounting base and accepts a 3/8" ID hose
- Replacement filters available
- Sold each

PART #	DESCRIPTION
DS-289515	Chrome crankcase vent filter assembly
DS-289516	Repl. filter w/ chrome top

JIMS Performance Parts For Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP COMPLETE ASSEMBLIES

- CNC-machined feed and return gears increase pump flow and return volume
- Pumps include cover, gears, drive shaft, seals, gaskets, woodruff keys, snap-rings and mounting bolts
- Oil pumps do not have provisions for primary chain or drive chain oiling

NOTE: Must check the thread size in the motor cases before mounting oil pump.

NOTE: 73-80 models may require drilling; use drilling jig PART #DS-179009 (sold separately).

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG TWIN (OEM-STYLE FITTINGS)	
DS-197093	Polished w/ bottom feed/return oil lines
0932-0009	Black w/ bottom feed/return oil lines

PART #	DESCRIPTION
FOR 73-91 BIG TWIN (1/8" NPT FITTINGS)	
DS-197094	Polished w/ top feed/return oil lines

0932-0007

JIMS Performance Parts For Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP BODIES

- Oil pump increases horsepower by decreasing drag on the flywheels and other rotating parts
- CNC-machined to exact tolerances for the most durable, strong and wear-resistant performance
- Feed and return gears are individually matched to each body
- Increases oil return volume over stock pumps
- OEM-type black wrinkle finish
- Cover not included

PART #	DESCRIPTION
0932-0007	For 92-99 Evolution Big Twin w/ 80" -140" motors
0932-0006	For 73-91 Evolution Big Twin w/ 74" -140" motors

31-6209

31-6208

HIGH VOLUME/HIGH PRESSURE (HVHP) POLISHED BILLET OIL PUMPS

- HVHP oil pumps have a new gear tooth profile with fewer but larger teeth that provides an increased oil volume for both supply and return-side of the pump
- Supply-side gears are 9% wider than stock
- Return gears are 28% wider than stock to ensure that the additional volume of oil supplied to the engine is scavenged and returned to the oil tank, reducing the amount of oil in the crankcase breather
- Pumps are available in universal and standard styles; universal style has a number of oil feed and return options allowing maximum flexibility for custom installations, while standard has 92-99 style oil line hookups
- Available as a kit or oil pump only
- Kits include supply gears, return gears, drive shaft, drive shaft keys, drive shaft snap rings, check ball, check ball spring, pressure valve spring, cover screws with O-rings, miscellaneous hose fittings, plugs, screws, gaskets, mounting hardware, oil pump drive shaft gear, oil pump pinion shaft gear, S&S breather gear and shim kit and instructions
- Oil pumps only include supply gears, return gears, drive shaft keys, drive shaft snap rings, check ball, check ball spring, pressure valve spring, cover screws with O-rings, miscellaneous hose fittings, plugs, screws, gaskets, mounting hardware and instructions

- Sold each

PART #	DESCRIPTION
0932-0075	For L82-99 Big Twin (except Twin Cam); repl. OEM #26400-82

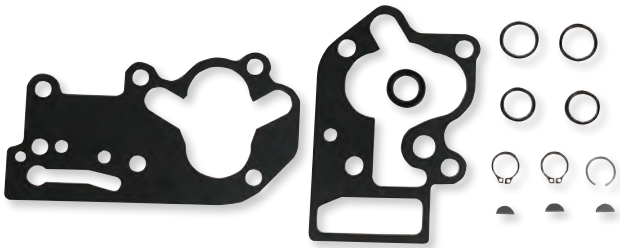
OIL PUMP RELIEF VALVE SPRING

- This premium-quality, steel-alloy oil pump pressure relief spring increases engine oil pressure by 2-3 psi, and does not interfere with critical bearing lubrication needs

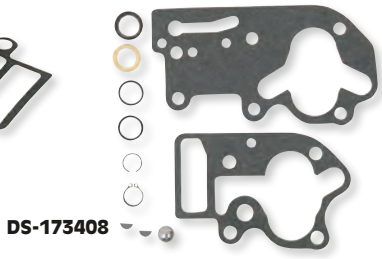
PART #	DESCRIPTION
0932-0104	For 36-99 Big Twin (except Twin Cam); repl. OEM #26207-83

OIL PUMP REBUILD KIT

- Includes correct amount of gaskets, seal, O-rings, retaining rings and keys for one application
- Meets or exceeds OEM quality
- Premium vulcanized rubber impregnated fiber for long, leak-free usage



PART #	DESCRIPTION
0934-1218	For 92-99 Evolution Big Twin



OIL PUMP REPAIR KITS

- Comes with new components that allow you to totally rebuild/rebush most Big Twin and XL oil pumps
- Gasket/seal kits are available to complete the job

PART #	DESCRIPTION	FITS MODEL	MFG.
DS-194205	Shaft/bushing kit	For 84-99 Evolution Big Twin, 70-84 Shovelhead	Eastern MC Parts
DS173382	Gasket/seal kit w/ metal gaskets	For 92-99 Evolution Big Twin	James Gasket
DS-173375	Gasket/seal kit w/ paper gaskets	For 92-99 Evolution Big Twin	James Gasket
0934-1552	Gasket/seal kit w/ metal beaded gaskets	For 92-99 Evolution Big Twin w/ HVHP oil pump	James Gasket
DS-173374	Gasket/seal kit w/ Mylar® gaskets	For 84-91 Evolution Big Twin, 81-84 Shovelhead	James Gasket
DS-173408	Gasket/seal kit	For 84-91 Evolution Big Twin, 81-84 Shovelhead	James Gasket
DS-173409	Gasket/seal kit w/ Mylar® gaskets	For 68-80 Shovelhead	James Gasket
DS-173373	Gasket/seal kit w/ paper gaskets	For 68-80 Shovelhead	James Gasket
DS-173410	Gasket kit	For 66-67 Shovelhead, 48-65 Panhead	James Gasket
DS-173524	Gasket kit	For 36-47 Knucklehead	James Gasket
DS-194202	Gasket/bushing kit; repl. OEM #s 12036A, 26431-76, 26434-76A, 26489-75, 26495-75, 26797-75	For 83-85 XL	Eastern MC Parts
DS-194201	Gasket/bushing kit; repl. OEM #s 12036, 26431-76, 26434-76A, 46489-75, 26497-75	For 77-82 XL	Eastern MC Parts
DS-173406	Gasket/seal kit	For 77-85 XL	James Gasket
DS-173407	Gasket/seal kit	For 54-76 XL	James Gasket

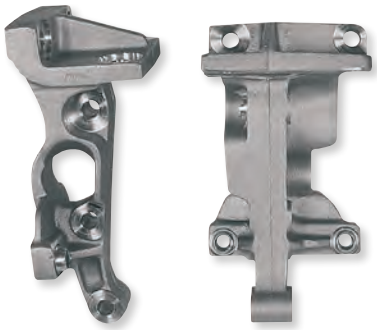
PINGEL Since 1967

XL REAR MOTOR MOUNT

- Heavy-duty – made of super-high-tensile alloy that is virtually indestructible
- Heavily reinforced in all areas that tend to crack
- Replaces two-bolt and four-bolt top case OEM mounts
- Slips over studs and starter shaft on completely assembled motors
- Gusseted on top rather than bottom as on stock mount



PART #	DESCRIPTION
DS-243617	For 52-81 XL

DYNA MOTOR MOUNTS

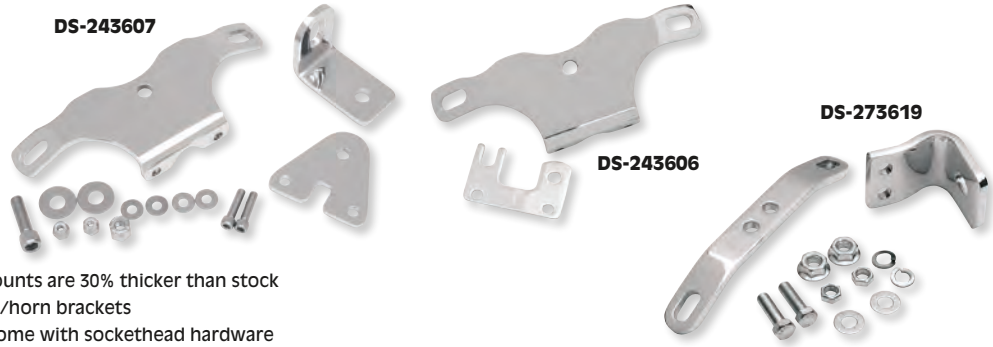
- Motor mount system replaces the inadequate stock mounts
- Front mount utilizes an adjustable stabilizing link that attaches to the frame
- Rear mount has two separate aligned damper bushings that are clamped in an aluminum housing to increase control of the lateral and torsional movement of the swingarm

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG MODELS	
0933-0123	Front
0933-0125	Rear

ISOLATOR MOTOR MOUNTS

- High-quality replacement motor mounts
- Meet or exceed OEM specifications
- Install using OEM hardware
- Sold each

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG	
0933-0101	Front; repl OEM #47583-90/B
0933-0102	Rear; repl. OEM #47564-90



HEAVY-DUTY TOP MOTOR MOUNTS

- Chrome-plated heavy-duty mounts are 30% thicker than stock
- Mounts include chrome choke/horn brackets
- PART #s DS-243607, DS273619 come with sockethead hardware

PART #	DESCRIPTION
DS-243607	For 84-99 Softail models

PART #	DESCRIPTION
DS-243606	For 84-94 FXR models

PART #	DESCRIPTION
DS-273619	For 48-84 FL/FX models

TOP MOTOR MOUNTS

- High-quality, chrome motor mounts
- Bolts not included

PART #	DESCRIPTION
DS-243602	For 91-98 FLT, FXDB and 91-99 Softail models; repl. OEM #s 16247-91/16242-90

PART #	DESCRIPTION
DS-243615	For 77-84 FXB/FXS/FXSB models; repl. OEM #69013-77A

XL ENGINE MOUNT PLATES

- Steel mount plates with a polished chrome finish
- Sold in pairs

PART #	DESCRIPTION
DS-243516	For L84-85 XL; repl. OEM #s 16210-84A and 16212-84A

FRONT MOTOR MOUNT PLATE

- Made of heavy-duty chromed steel to OEM specifications

PART #	DESCRIPTION
DS-243601	For 82-94, 99-00 FXR and 80-98 FLT 5-speed models; repl. OEM #47159-79T

TOP STABILIZER LINK

- Reduces engine vibration and aligns power train
- Adjustable rubber-isolated design
- Greatly reduces vibration especially at high speeds
- Replaces stock link which is metal-to-metal from top motor mount
- Made in the U.S.A.

PART #	DESCRIPTION
0933-0112	For 91-98 Dyna Glide

FRONT UPPER AND LOWER MOTOR MOUNT HARDWARE

- Chrome-plated
- Two $^{3}/_{8}$"-24 x $6^{13}/_{16}$" bolts, OEM #16237-57
- One $^{3}/_{8}$"-24 x $5^{7}/_{16}$" bolt, OEM #16236-52
- One $^{3}/_{8}$"-24 x $5^{3}/_{16}$" bolt, OEM #16235-52
- Three $^{3}/_{8}$"-24 nylock nuts, OEM #7775
- Four $^{3}/_{8}$" serrated washers
- Seven $^{23}/_{32}$" OD x $^{3}/_{8}$" ID thick flat washers, OEM #6388HB
- Two $^{7}/_{16}$"-20 x $^{7}/_{8}$" bolts, OEM #4618W
- Two $^{5}/_{16}$" OD x $^{1}/_{7}$" thick flat washers

PART #	DESCRIPTION
2401-0631	For 57-85 XL

UPPER AND LOWER MOTOR MOUNT HARDWARE

- Cadmium-plated
- One $^{7}/_{16}$"-20 x $1^{1}/_{2}$" bolt
- One $^{7}/_{16}$"-20 nylock nut
- Three $^{5}/_{16}$" OD x $^{7}/_{16}$" ID x $^{1}/_{8}$" thick flat washers
- Two $^{3}/_{8}$"-24 x $3^{1}/_{2}$" bolts
- Two $^{3}/_{8}$"-24 x $2^{3}/_{8}$" bolts
- Four $^{3}/_{16}$" OD x $^{3}/_{8}$" ID flat washers and $^{3}/_{8}$"-24 nylock nuts

PART #	DESCRIPTION
2401-0630	For 70-84 Shovelhead

UPPER MOTOR MOUNT BOLT KITS

2401-0628

- Kit includes top motor mount bolt, OEM #16865-52; locknut, OEM #7825; three flat washers, OEM #6400HB; two castle nuts, OEM #7809; cotter key, OEM #534; one $^{29}/_{64}$" washer, OEM #6521W; one $^{7}/_{16}$" washer, OEM #6516HW and one $^{7}/_{16}$" washer, OEM #6495HW
- Available in a cadmium or parkerized finish

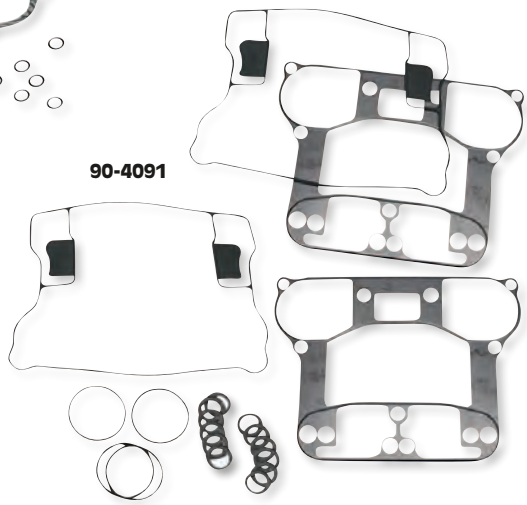
DIE-CAST CHROME ROCKER BOXES

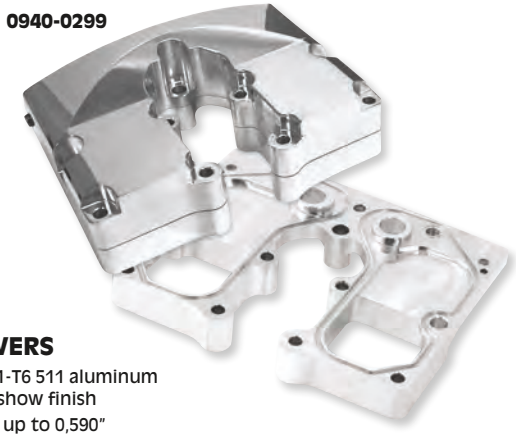
- Positive O-ring seal ensures leak-free operation
- Can be installed with the stock engine in the frame in most applications
- Include rocker boxes, gaskets and mounting bolts
- Assembler must supply rocker shafts and rocker arms for all rocker boxes
- Rocker arm supports included

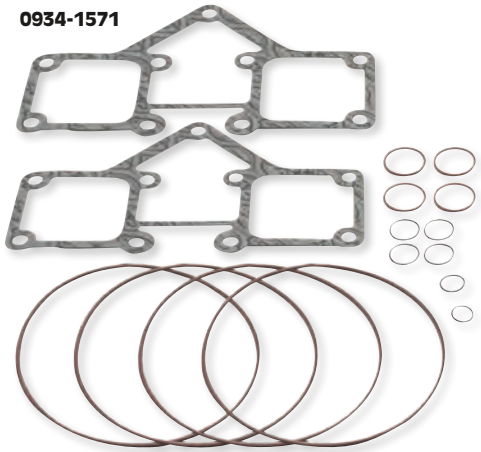
NOTE: It is the engine builder's responsibility to confirm all operating clearances.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
90-4095	Die-cast chrome rocker boxes



PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
90-4091	Repl. gasket kit for rocker boxes PART #90-4095





BILLET ROCKER COVERS

- CNC-machined from 6061-T6 511 aluminum billets and polished to a show finish
- Clearanced for valve lifts up to 0,590"
- Accept stock-style or S&S roller rocker arms
- Top end oiling supplied through stock oil fittings or through pushrods when used with S&S tappet guides and pushrods
- Two-piece design allows removal and installation in some frames
- Top and bottom are sealed with O-ring-type seal for leak-free operation
- Include front and rear rocker boxes and rocker shafts
- Replacement hardware, gaskets, O-rings and rocker shaft plugs available separately

EVO FINNED ROCKER COVERS

- Original Randy Smith design
- Top covers only
- Feature a guaranteed fit and are compatible with the very latest breather system (early breathers too)
- Include adequate clearance for all factory frames
- Domestic aircraft-grade billet aluminum alloy, fully machined and polished
- Are not subject to the warpage and oil seepage that die-cast imported copies are
- The undersides of the covers have been machined for additional clearance which will accommodate virtually any high-lift cam
- Polished stainless button-head Allen screws and washers are also included
- Sold in pairs

JIMS Performance Parts For Harley-Davidson Motorcycles

DS-325854

1101-0030

6-SPEED OVERDRIVE TRANSMISSIONS

- Comes with close-ratio 1st gear, stock 2nd through 5th gears and 0,86:1 "overdrive" 6th gear
- Made of 8620 steel
- Gears are CNC-machined; shifter dogs are machined with lead-in ramps for better and quicker shifting
- For use with 91-99 Evolution motors, but will fit earlier years if used with 91-or-later starter motor, clutch and inner- and outer-primary drive systems
- Requires a clutch-release rod and bearing, final drive sprocket and transmission lube (JIMS recommends Bel-Ray 85-140 gear lube); all sold separately

JIMS Performance Parts For Harley-Davidson Motorcycles

6-SPEED OVERDRIVE SUPER KIT

- Designed to turn stock 5-speed transmission into a 6-speed
- Reduces vibration that creates wear
- Creates a more relaxing cruising speed
- All gear sets use 2,94:1 close-ratio 1st gear that widens bike's speed range in 1st gear and lessens the rpm drop when shifting into second
- Overdrive 6th gear (0,86:1 ratio) lowers engine rpm by almost 475 at 75 mph

NOTE: Requires speedometer sensor block-off plate kit (PART #2404-0114; see ELECTRICAL section); if speedometer is not driven from transmission then two block-off plates kits are required.

NOTE: Requires speedometer be recalibrated.

NOTE: Trap door extends 3/8" farther to the right than stock part. Alteration to some parts that attach to or around the trap door may be required.

PART #	DESCRIPTION
1103-0008	For 99 FXST/FLST/FXR, 91-98 FXD/FXDWG

SINCE 1998 BAKER DRIVETRAIN Delivering American power to the pavement

DD6 DIRECT DRIVE 6-SPEED

DIRECT DRIVE 6-SPEED GEAR SET KITS

- Fits into existing 5-speed cases; lower the rpm at cruising speeds
- Includes a 6-speed gear set (3,24:1 1st gear/0,86:1 6th gear), 28-tooth motor sprocket, longer primary chain, fixed spindle-shift drum and anti-overshift ratchet shift pawl assembly
- All gears are full-width Baker ground gears; 4th, 5th and 6th gears are helical for silent operation
- Includes easy-to-follow instructions
- Replacement primary shoe available separately; designed for use with tensioner bracket OEM #39990-01

PART #	DESCRIPTION

DS194526

6-SPEED GEAR SETS FOR EVOLUTION BIG TWIN MODELS

- Kits turn stock 5-speed transmissions into 6-speeds
- Gear sets fit directly into your existing 5-speed case
- Ratio of 2,94 or 3,24 1st gear and 0,86 or 0,80 6th gear; 0,80 6th gear is recommended for 113" or larger motors
- Significantly smoother shifting than stock due to a roller detent shift drum with reduced inertia and gear dogteeth with lead-in ramps
- Kits include chrome-plated, billet-aluminum trap doors with the gears assembled to them as cartridge-style units, forks, shifter drum, pillow blocks with roller detent, fasteners, gaskets and instructions

PART #	DESCRIPTION
FOR 90-97 FXST/FLST, 90-92 FLT, 91-97 FXD/FXDWG, 90-94 FXR	
DS194526	2,94 first/0,86 sixth

PART #	DESCRIPTION
FOR 90-97 FXST/FLST, 90-92 FLT, 91-97 FXD/FXDWG, 90-94 FXR (CONT)	
DS194527	3,24 first/0,86 sixth

Fat 5™ gears

Standard gears

FAT 5™ 5-SPEED OVERDRIVE SUPER KITS

- Gear cluster is installed into a unique chrome trap door
- Designed to slip into stock transmission case
- 0,886:1 "overdrive" 5th gear
- Compact shifter technology increases width and strength of every gear
- Width increase varies from 18% to 53% depending upon the loads each gear set must carry

NOTE: Modifications to exhaust bracket may be necessary.

PART #	DESCRIPTION
1103-0010	For 91-98 FLT/FLHT/FLHR/FLTR, 90-99 FXST/FLST/FXR, 91-98 FXD/FXDWG

5-SPEED CLOSE-RATIO GEAR SET

- Gears and shafts are made from steel that exceeds 8620 specifications
- Sets include all the gears and shafts required to rebuild one transmission
- Gear ratios: 2,84 first gear; 2,21 second gear; 1,60 third gear; 1,23 fourth gear; 1,00 fifth gear

PART #	DESCRIPTION
DS-325787	For 90-99 Evolution Big Twin

All part numbers in **BLUE** are new for the OldBook.

ANDREWS

5-SPEED GEAR SETS

- Gears are made from high-nickel alloy steel that is heat-treated and shot-peened for maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear
- Set includes gears, mainshaft and countershaft
- For ease of installation use transmission rebuild kits PART #s DS-325781, DS-325780 and DS-325779
- Available in stock and close ratio

1106-0058

PART #	DESCRIPTION
CLOSE RATIO SETS (2,94:1 FIRST RATIO)	
DS-194507	For 91-99 Evolution Big Twin
1106-0058	For 81-E84 FLT/FLHT, 82-E84 FXR models
DS-194515	For 85-89 Big Twins

PART #	DESCRIPTION
STOCK RATIO SET (3,24:1 FIRST RATIO)	
DS-194508	For 91-99 Evolution Big Twin

ANDREWS

4-SPEED GEAR SETS

- Gears are made from high-nickel alloy steel, heat-treated and shot-peened to give maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear
- Sets include gears, shifter dogs and shifter forks
- Mainshaft, countershaft, bushings, bearings, snap rings, gaskets and lock washers must be ordered separately
- Available in stock or close ratio

DS-194499

PART #	DESCRIPTION
CLOSE RATIO SETS (2,44:1 FIRST GEAR/ 1,35:1 THIRD GEAR RATIO)	
DS-194498	For 77-E84 Big Twin
DS-194499	For 36-76 Big Twin
STOCK RATIO SETS (2,60:1 FIRST GEAR/ 1,23:1 THIRD GEAR RATIO)	
DS-194497	For 77-E84 Big Twin
DS-194500	For 36-76 Big Twin

PART #	DESCRIPTION
STOCK RATIO SETS (2,60:1 FIRST GEAR/ 1,23:1 THIRD GEAR RATIO), NO SHAFTS	
DS-194511	For 79-84 XL
DS-194512	For 73-78 XL

MOTOR TRIKE INCORPORATED

MECHANICAL REVERSE KIT WITH ELECTRONIC CUT-OFF SWITCH

- Makes parking anywhere possible
- Constructed from lightweight aluminum, chromed and zinc-plated
- Equipped with an electronic cut-off switch to protect transmission from operator error
- No exhaust modification needed when used with OEM exhaust
- Does not affect forward gear operations
- Clutch-operated, eliminating any strain on the electrical system
- Plug-and-play harness, all installation tools and instructions included

PART #	DESCRIPTION
1103-0026	For 91-98 FLT/FLHT (standard clutch)

All part numbers in BLUE are new for the OldBook.

DS-325779

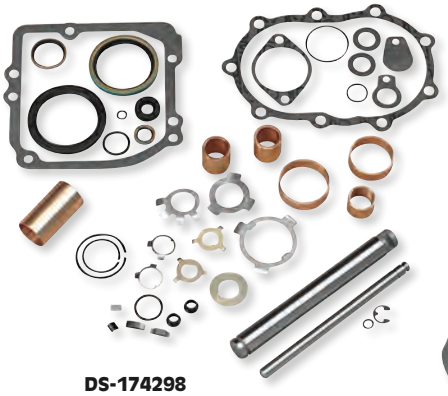
TRANSMISSION REBUILD KITS

- Includes all the necessary gaskets, seals, locks and bearings needed to completely rebuild a 5- or 6-speed transmission

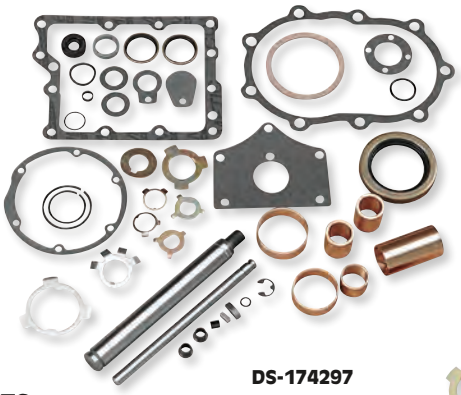
PART #	DESCRIPTION
FOR 6-SPEED SCREAMIN' EAGLE TRANSMISSIONS	
1104-0008	For 90-98 FLHT/FLHR/FLTR
1104-0010	For 91-99 FXST/FLST
1104-0009	For 91-98 FXD/FXDWG

PART #	DESCRIPTION
FOR 5-SPEED TRANSMISSIONS	
1104-0004	For 99 Evolution Big Twin
DS-325781	For 91-98 Big Twin
DS-325780	For L84-90 Big Twin

PART #	DESCRIPTION
FOR 5-SPEED TRANSMISSIONS (CONT)	
DS-325779	For 80-E84 FXR, FLT, FLHT

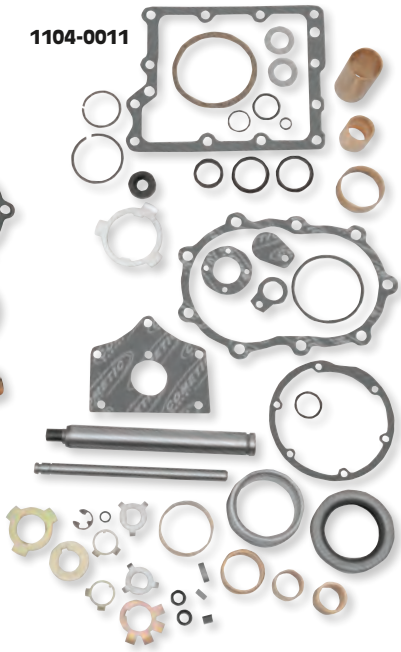


DS-174298



DS-174297

1104-0011



4-SPEED TRANSMISSION REBUILD KITS

- Feature JIMS transmission parts and gasket set
- Include standard size race, snap rings, clips, shift shaft, countershaft, seals and bushings; everything except bearings

PART #	DESCRIPTION
DS-174298	For L79-84 Big Twin
DS-174297	For L77-E79 Big Twin

PART #	DESCRIPTION
DS-174296	For L76-E77 Big Twin
1104-0011	For 36-E76 Big Twin

TRANSMISSION OUTPUT SHAFT BEARING

- Sold each

PART #	DESCRIPTION
1106-0206	For 80-99 Big Twin 5-speed (except Twin Cam); repl. OEM #8996A

TRANSMISSION BEARINGS

1106-0034

0924-0594

PART #	DESCRIPTION
1106-0034	Clutch side mainshaft bearing for 80-83 Shovelhead 5-speed; repl. OEM #8978
0924-0594	Countershaft needle bearing L76-84 Shovelhead 4-speed; repl OEM #33961-52

BEARING GUIDE

- Sold each

PART #	DESCRIPTION
1132-0699	For L84-85 XL; repl. OEM #36730-84

RIGHT SIDE TRANSMISSION MAIN SHAFT THRUST WASHER KIT

- Includes one each of the following thrust washers: 0,0965", 0,0905", 0,0845", 0,0795", 0,0725", 0,0675"

PART #	DESCRIPTION
1106-0056	For 84-85 XL

All part numbers in **BLUE** are new for the OldBook.

TRANSMISSION REBUILD KITS

- All-inclusive kit to allow a full transmission rebuild
- Includes seals, gaskets and all necessary hardware

PART #	DESCRIPTION
1104-0001	For 94-98 FLHR/FLHT/FLTR, 94-99 FXST/FLST, 91-99 FXR and Baker Drivetrain OD6/DD6/DD5
1104-0002	For 91-98 FXD/FXDWG and Baker Drivetrain OD6/DD6/DD5

ANTI-OVERSHIFT RATCHET SHIFT PAWL ASSEMBLY

- Features a rectangular cross-section shifter-shaft spring
- Shift-shaft lever splines are hobbed on gear cutter just like Baker gears
- With this setup, there will be smoother shifts and no more broken shifter-shaft springs

PART #	DESCRIPTION
1110-0015	For 80-99 Evolution Big Twin 5-speed transmissions

5-SPEED SHIFTING ASSEMBLY

- Reduces shifter free play
- Assembly includes plate (replaces OEM #35068-79), spring (#34087-79), pawl plate (#34086-79), shifter shaft (#34084-86), spring (#34083-79), pin (#34082-79), washer (#6016) and retaining ring (#11016)

PART #	DESCRIPTION
DS194066	For 84-99 Evolution Big Twin 5-speed

SHIFTER LEVER SHAFT

- Meets or exceeds OEM standards
- Includes the ball
- Sold each

PART #	DESCRIPTION
1106-0087	For 77-85 XL; repl. OEM #34628-75

PART #	DESCRIPTION
1106-0086	For 54-74 XL; repl. OEM #34628-54A

SHIFTER SHAFT ASSEMBLY SPRINGS/PINS

- Top-quality OEM replacement parts
- Sold in 5-packs or 10-packs to dealers, as noted

PART #	DESCRIPTION
1106-0048	Shifter shaft spring (5-pk.) for 80-99 Big Twin 5-speed (except Twin Cam); repl. OEM #34087-79A
1106-0049	Pawl spring (10-pk.) for 80-99 Big Twin 5-speed (except Twin Cam); repl. OEM #34083-79

5-SPEED SHIFTER UPGRADE KIT

- Upgrades early-model 5-speed Big Twin with the latest technology
- Includes newly designed shift drum and lever assembly with built-in anti-overshift, late-model pillow blocks, case shifter shaft sleeve bushing, hardware and instructions
- To install shifter sleeve, use PART #3802-0008

PART #	DESCRIPTION
1110-0043	For 86-99 FXST, 91-98 Dyna, 84-98 FLT/FLHT/FLHR/FLTR

All part numbers in BLUE are new for the OldBook.

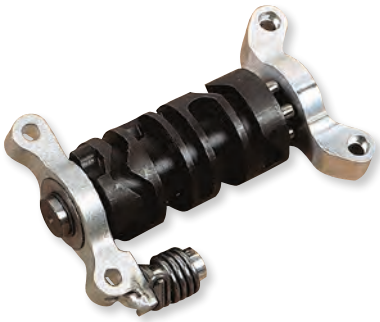
N1 SHIFTER DRUM

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions

PART #	DESCRIPTION
1110-0041	Double pole for 80-99 Big Twin

SHIFTER DRUM KIT

- Shifter drum grooves have been designed for smoother shifting and unneeded material has been removed from the barrel of the drum (less inertia translates to lower shift effort)
- Pillow blocks are machined from 6061-T6 extrusion stock for superior strength



PART #	DESCRIPTION
SHIFTER DRUM KIT	
DS194401	For all 98-00 Evolution Big Twin models (except 00 FXST, FLST)

5-SPEED SHIFTER FORKS

- Machined from billet steel and then hard chromed
- Cross section is three times thicker than stock forks
- Sold as a set (three shifter forks)

PART #	DESCRIPTION
DS-194173	For 80-99 Big Twin; repl. OEM #s 34191-79E, 34193-79E and 34195-79E

DS-194200

SHIFTER FORKS

- Sold each

PART #	DESCRIPTION
FOR 36-86 BIG TWIN 4-SPEED	
DS-194200	Mainshaft shifter fork; repl. OEM #34158-36
DS-194210	Countershaft shifter fork; repl. OEM #34159-36

XL SHIFT FORKS

- Available in standard and offset dimensions
- Sold individually

SHIFTER FINGER

- Sold each

PART #	DESCRIPTION
DS-193147	For 41-E76 Big Twin; repl. OEM #34165-36

SHIFTER ROLLER FINGERS FOR 4-SPEED TRANSMISSIONS

- Manufactured from high-quality steel material for durability and strength
- Sold in 10-packs

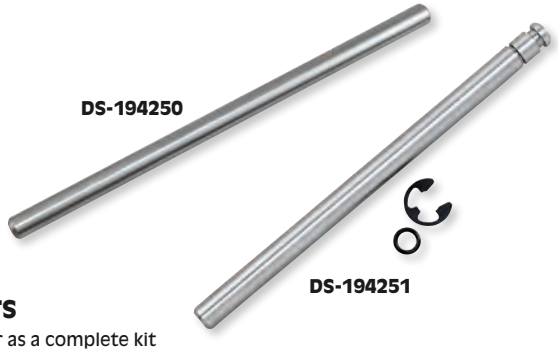
PART #	DESCRIPTION
DS-193145	For L79-86 Big Twin, 54-85 XL; repl. OEM #34168-52
DS-193146	For 41-E79 Big Twin; repl. OEM #34168-39

All part numbers in BLUE are new for the OldBook.

SHIFTER FORK SHAFT

- Replacing this component makes shifting faster and more accurate

PART #	DESCRIPTION
DS-194214	For 36-79 Big Twin; repl. OEM #34140-36



SHIFT FORK SHAFTS

- Available as shaft only or as a complete kit
- Kit contains shift shaft, O-ring (repl. OEM #34036-80) and retaining ring (repl. OEM #34062-52) for a complete repair

PART #	DESCRIPTION
DS-194250	Shaft for 87-99 Evolution Big Twin 5-speed; repl. OEM #34088-87
DS-194251	Shaft kit for 36-86 Big Twin 4-speed; repl. OEM #34186-76

SHIFTER FORK SHIMS

- Sold in 10-pack

PART #	DESCRIPTION
FOR 36-86 BIG TWIN 4-SPEED MODELS	
1106-0021	0,007"; repl. OEM #6750
1106-0022	0,015"; repl. OEM #6752

SHIFTER CAM THRUST WASHER SET FOR 5-SPEED

- Set includes one of each of these eight sizes:
- 0,017" thick; repl. OEM #33205-80
- 0,020" thick; repl. OEM #33206-80
- 0,022" thick; repl. OEM #33207-80
- 0,025" thick; repl. OEM #33208-80
- 0,028" thick; repl. OEM #33209-80
- 0,031" thick; repl. OEM #33210-80
- 0,035" thick; repl. OEM #33211-80
- 0,040" thick; repl. OEM #33212-80

PART #	DESCRIPTION
1106-0035	For 80-99 Big Twin

SHIFTER FORK THRUST WASHERS

- $^{3}/_{32}$" thick
- Sold in 10-pack

PART #	DESCRIPTION
1106-0026	For 36-E79 Big Twin; repl. OEM #6754

SHIFTER CAM FOLLOWER

- Quality steel, stronger than the aluminum OEM follower

PART #	DESCRIPTION
DS-194225	For L84-85 XL models; repl. OEM #34063-84B

SHIFTER SHAFT BUSHINGS

- High-quality replacement bushings
- Sold in packs of two

PART #	DESCRIPTION
DS-194253	For 77-85 XL (inner only); repl. OEM #40520-63

SHIFT LEVER ADJUSTMENT SCREW

- OE or better quality

PART #	DESCRIPTION
2404-0817	For 80-99 Big Twin 5-speed; repl. OEM #33119-79B

SHIFTER ARM ADJUSTING SCREW

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
DS194067	For 80-99 Big Twin 5-speeds; repl. OEM #33119-79A/B

SHIFTER ARM ADJUSTING SCREW

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1110-0044	For 80-99 Big Twin 5-speed; repl. OEM #33119-79A/B (OB)

All part numbers in BLUE are new for the OldBook.

1105-0229	For 86-99 Softail 5-speed models

JIMS Performance Parts For Harley-Davidson Motorcycles

TRANSMISSION DOOR BEARINGS

- Sold in pairs

PART #	DESCRIPTION
DS-197063	For 80-98 Big Twin 5-speeds; repl. OEM #8998

Eastern M C Parts

TRANSMISSION DOOR BEARING

- High-quality replacement OEM component
- Sold each

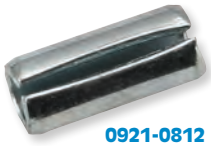
PART #	DESCRIPTION
1106-0070	For 99 Softail; repl. OEM #8992A

All part numbers in BLUE are new for the OldBook.

5-SPEED TRANSMISSION CASE

- Updates 4-speed bikes to 5-speed transmission
- CNC-machined from 356-T6 aluminum castings
- Accepts most OEM and aftermarket parts designed for 85-99 Big Twin 5-speed transmissions
- Shift linkage required for 4-speed FX and FL models
- Footpeg adapter kit required for FX
- Includes transmission case assembly, required hardware and instructions

PART #	DESCRIPTION
1105-0158	For 65-85 4-speed Big Twin models



0921-0812

1106-0236

TRANSMISSION CASE PARTS

- Available as listed

PART #	DESCRIPTION
FOR 86-99 EVOLUTION SOFTAIL	
0921-0812	Pin, roll (5/16" x 3/4") (ea.); repl. OEM #634
1106-0236	Pin roll (3/8" x 0,300") (ea.); repl. OEM #609

1105-0018

TRANSMISSION TOP COVERS

- Beautifully complement your other chrome or flat black engine and transmission pieces

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR, 98-99 SOFTAIL MODELS; REPL. OEM #S 34468-98, 34464-98, 34541-00 OR 34549-01	
1105-0241	Black
1105-0018	Chrome
FOR MOST 87-99 EVOLUTION BIG TWIN MODELS WITH 5-SPEED TRANSMISSION (EXCEPT DYNA GLIDE); REPL. OEM #S 34468-86A OR 34464-86A	
DS-325530	Chrome

1105-0198

1105-0203

1105-0205

SNATCH RIBBED CLUTCH COVERS

- The real alternative to the cold and common "billet" world
- Manufactured in die-cast aluminum with milled gasket surfaces for a perfect fit
- Dimensions and tolerance identical to OEM parts; reuse OEM hardware
- Gaskets and seals not included
- Sold each

NOTE: For cable actuated clutches only.

PART #	DESCRIPTION
FOR 84-99 BIG TWIN W/ FIVE SPEED TRANSMISSION	
1105-0197	Black
1105-0198	Black cut
1105-0199	Raw

PART #	DESCRIPTION
FOR 84-94 FXR MODELS (5-SPEED)	
1105-0203	Black
1105-0204	Black cut
1105-0205	Raw

DS-325519

1107-0355

TRANSMISSION SIDE COVERS

- Made from die-cast zinc
- Mount with existing hardware

NOTE: Not for use with hydraulic clutch.

PART #	DESCRIPTION
FOR 87-98 FLT/FXD/FXDWG, 87-99 FXST/FLST	
DS-325519	Chrome; repl. OEM #37105-87A
1107-0355	Satin black

OIL FILLER SPOUT COVER

- Adds a chrome highlight to the area around the oil filler neck
- Die-cast construction
- Compatible with H-D transmission interface covers

PART #	DESCRIPTION
0940-0592	For 93-98 Dresser and Road King models

All part numbers in BLUE are new for the OldBook.

TRANSMISSION OIL DIPSTICK

- One-piece construction with a chrome finish
- Indicates the fill level of the transmission fluid
- Sold each

PART #	DESCRIPTION
1105-0146	For 87-99 Evolution Big Twin models; repl. OEM #s 37071-87, 37075-87

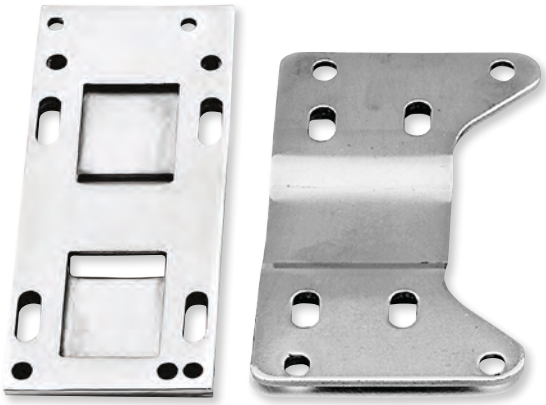
TRANSMISSION OIL FILL PLUG/DIPSTICK FOR 5-SPEED BIG TWIN

- Show-chromed Allen-head plug includes oil level dipstick and O-ring

PART #	DESCRIPTION
DS-193860	For all 87-99 Evolution Big Twin models; repl. OEM #s 37071-87 and 37075-87

CHROME TRANSMISSION MOUNTING PLATE

PART #	DESCRIPTION
DS-243621	For 86-99 5-speed Softail models; repl. OEM #47698-86B



1105-0011 1105-0013

TRANSMISSION MOUNTING PLATES

- Heavy-duty construction
- Easy bolt-in application
- Steel construction; chrome finish

PART #	DESCRIPTION
1105-0011	For Paughco rigid and swingarm 4-speed frames; repl. OEM # 47968-36/47698-65
1105-0012	For Paughco Easyride or stock Softail when using 4-speed transmission
1105-0013	For Paughco 4-speed rigid frame when using Softail 5-speed transmission

2401-0625

2" OPEN BELT DRIVE KITS WITH 1-PIECE MOTOR PLATE

- Features a one-piece motor plate design and 2" primary belt
- 52/69 pulley combination for a 1.327:1 final drive ratio
- Belt profiles are unique to each kit, requiring matched pulleys for each belt; pulleys may not be interchanged
- Front pulley face and spring collar have a matching pattern to the rear pulley
- Front pulley cover is counterbored for a super-clean appearance
- Diaphragm clutch is a 6-bolt configuration for a more firm feel and improved appearance
- Kits include side and top guard for an aggressive, open dome look
- Springs and spring collar are enhanced for more positive lock-up engagement, great for big-inch/high-horsepower motors
- Ball bearing pressure plate

SS-2 2" BELT DRIVE KIT

- Beautiful styling and awesome performance
- 2" drive features a one-piece billet motor plate
- Clutch design eliminates clutch dogs and features an internal mill-cut basket to drive the clutch
- Ball-bearing lockup clutch (patent pending) offers 30% more contact surface than our 3" drives

PART #	DESCRIPTION
1120-0082	For 90-99 FXST/FLST

2" "SHORTY" BELT DRIVE

- Designed for electric start applications (use 90-06 style starter)
- Kit includes starter housing, BDL ball-bearing lockup clutch assembly with ring gear, starter gear cover, rear pulley cover, front pulley and belt

PART #	DESCRIPTION
1120-0213	For 70-78 Big Twin

All part numbers in **BLUE** are new for the OldBook.

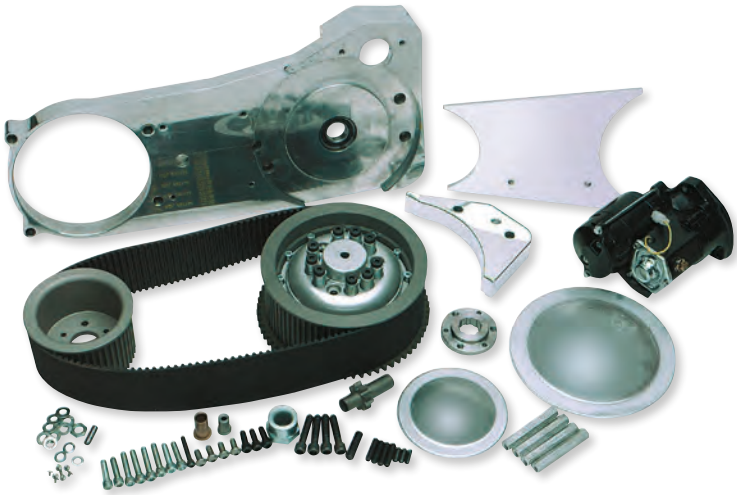
8 MM BELT DRIVE KIT WITH OUTBOARD SUPPORT PLATE

- 3" belt drive kit includes outboard bearing support for rear shaft
- Similar design to BDL's "Top Fuel"-style belt kits
- Includes clutch assembly
- Includes ball-bearing lockup design clutch pressure plate
- Outer support plate is polished 6061 aluminum
- Accepts any 90-06 Big Twin-style starter
- Replacement components available separately; see pages 447-449

NOTE: System is not designed for use with floorboards.

PART #	DESCRIPTION
1120-0255	For 90-99 FXST/FLST models

1120-0248



1120-0254

8 MM BELT DRIVES WITH QUIET CLUTCH SYSTEM

- $1^1/_2$" and $1^5/_8$" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kit includes front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems now come with the Quiet Clutch system
- Precision-machined, polished aluminum pressure plate uses nine springs and shoulder bolts to ensure even spring pressure (included in kit)
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch

NOTE: 3" system is not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
$1^5/_8$" SYSTEMS	
1120-0250	For 79-E84 Big Twin w/ rear belt drive (4-speed)
1120-0253	For 79-83 Big Twin w/ rear chain drive (5-speed)
$1^1/_2$" SYSTEM	
1120-0248	For 70-83 Big Twin w/ rear chain drive (4-speed)

PART #	DESCRIPTION
3" ELECTRIC START SYSTEM WITH NEW-STYLE STARTER MOTOR	
1120-0254	For 70-78 Big Twin w/ ratchet transmission lid
3" KICK START SYSTEM	
2302-1263	For 55-E84 custom Big Twin

8 MM AND 11 MM BELT DRIVES

- All 8 mm and 11 mm kits come with belt, clutch basket, front pulley, nut and washer
- 3" kit comes with a 52-piece roller bearing kit
- Pulley and clutch basket are hard anodized aluminum; front pulley is drilled and tapped for easy removal
- Inner clutch hub and plates are not included; must be purchased separately

NOTE: Not for use with offset primaries.

All part numbers in BLUE are new for the OldBook.

DS360190

1120-0173

14 MM x 85 MM (3 3/8") MONSTER TOP FUEL BELT DRIVE KITS WITH CLUTCH

- Kits include front and rear pulley, 3 3/8" belt, nine friction plates and 11 steel clutch plates; use up to nine springs for varying pressure to accommodate any motor size
- Include oil filter mount between the pulleys
- Polished outboard bearing support; outboard support is reversible and the back side is channeled for another distinct look, but only the flat side is polished
- Replacement components available separately; see pages 447-449

NOTE: Systems are not designed for use with floorboards.

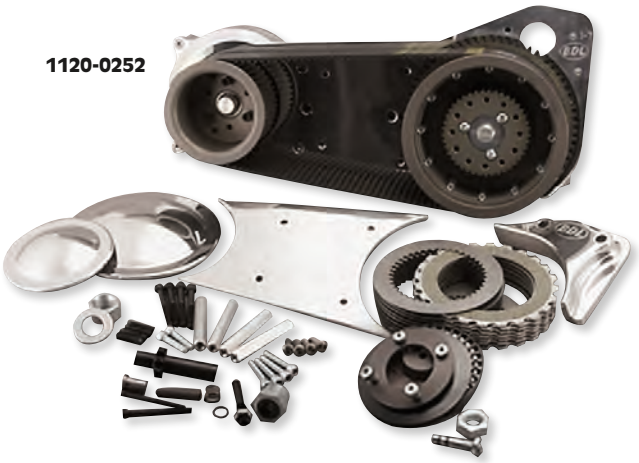
1120-0247

1120-0252



8 MM BELT DRIVES WITH LOCKUP CLUTCH

- 1 5/8" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kits include front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems come with the Quiet Clutch and ball-bearing lockup design pressure plate
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch
- Replacement components available separately; see page 447-449

NOTE: 3" systems are not designed for use with floorboards.

NOTE: Not for use with offset primaries.

1120-0245	For 91-98 Dyna Glide models
1120-0265	For 90-93 FXR models

[1] Requires the use of a 90-06 style starter (sold separately).

All part numbers in BLUE are new for the OldBook.

OUTBOARD BEARING RETROFIT KIT

- This kit has been updated to eliminate the front pulley and engine shaft supports
- The reason for this change is that many aftermarket components used on special-construction motorcycles do not allow proper alignment of the front engine and rear transmission shaft
- Kit now supports only the rear shaft (which is all that is really required) to eliminate any problems of misalignment of the front and rear transmission shafts
- Works with existing BDL 3" open belt drive kits for Softails and Dyna Glide models not incorporating an outboard bearing support (kits not enclosed within the OEM inner/outer primary covers)
- Includes outboard support plate, pulley covers and all necessary hardware

PART #	DESCRIPTION
1120-0171	Retrofit kit

REPLACEMENT BDL PULLEYS, CLUTCH BASKETS/HUBS

- Precision machined out of aluminum and then hard anodized
- Motor shaft pulleys come with nut and washer (unless noted)

Motor shaft pulley

Clutch basket

Clutch hub

[1] Does not include nut and washer.

All part numbers in **BLUE** are new for the OldBook.

REPLACEMENT 1 1/2" FRONT PULLEYS FOR BDL BELT DRIVE KITS

- Tough, high-quality billet construction
- Pulley features bolt-in splined or tapered insert
- Includes belt guides and mounting hardware
- Hard anodized finish

PART #	DESCRIPTION
FOR 55-E84 BIG TWIN (SPLINED INSERT)	
1120-0432	8 mm, 39-tooth pulley
1120-0425	8 mm, 40-tooth pulley
1120-0429	8 mm, 41-tooth pulley
1120-0433	11 mm, 31-tooth pulley

PART #	DESCRIPTION
FOR 41-54 BIG TWIN (TAPERED INSERT)	
1120-0426	8 mm, 40-tooth pulley
1120-0427	8 mm, 39-tooth pulley
FOR 36-54 BIG TWIN (TAPERED INSERT)	
1120-0428	11 mm, 31-tooth pulley

BDL REPLACEMENT COMPONENTS

- For use on BDL Belt Drive clutches

PART #	BDL #	DESCRIPTION
DS-191021	CDSB-100	Shoulder bolts, 3/8" x 1 1/4" (9-pk.)
DS-360154	ESB-100	Shoulder bolts, 3/8" x 1 1/2" (6-pk.)
1120-0101	SS-SB	Shoulder bolts, 3/8" x 3/4", 2" belt drive (4-pk.)
DS-360156	ECS-100	1,365" clutch springs, Top Fuel/Quiet Drive clutch belt drives (6-pk.)
DS-360157	SG-1	66T starter ring gear 65-84 Big Twin w/ quiet clutch (7 3/8" ID)
DS-360158	SG-2	66T starter ring gear 70-93 Big Twin (6 7/8" ID)
DS-360159	SG-2PG	66T starter ring gear w/ 9T pinion gear 94-06 Big Twin
2110-0518	SG-4	Ring gear for 69T basket
2110-0067	PG-100	9T starter pinion gear, 90-06 Big Twin (3 1/4" L)
1120-0057	PG-100A	+1" 9T starter pinion gear for 90-06 Big Twin
1120-0047	TFSH-100	Starter housing, 3 3/8" Top Fuel belt drives
DS-360173	EHB-100	40 mm double-row hub bearing (ea.)
1132-0172	EPP-100	Pressure plate, 3" belt drive
1131-2471	TFCPS-100	Complete repl. clutch pack
1131-2455	ERCPS-100	Complete clutch kit (fibers and steels) for EV, EVO, EVB belt drives

PART #	BDL #	DESCRIPTION
DS-360174	ECP-100	Friction clutch plate one-sided, inner splined (ea.)
DS-360175	ECP-200	Friction clutch plate two-sided, inner splined (ea.)
DS-360177	EDP-200	Steel backing plate inner splined (ea.)
DS-360035	ERDS-100	Steel drive plate, round dogs (ea.)
DS360400	EVRD-1	Round clutch dogs for Evolution 5-speed (12-pk.)
DS360401	ESRD-1	Round clutch dogs for Shovelhead 4-speed (12-pk.)
DS360407	CC-244	C-clip for hub bearing (ea.)
DS360409	CC-158	C-clip for back side of clutch hub (ea.)
1120-0034	TFBSB-100	Outboard bearings
1120-0033	TFBC-100	Outboard bearing covers
1120-0044	TFRPC-2000	Rear pulley cover for PART #DS-360191/1120-0173 (5-hole)
DS-360170	IBK-1	Repl. idler assembly for 11 mm, 1 1/2" kits
1120-0322	MPB-9	Motor plate bearing
1120-0321	CDAS-100A	Clutch adjusting screw w/ jam nut (ea.)

All part numbers in BLUE are new for the OldBook.

DS360424

OFFSET FRONT PULLEYS AND SPACER INSERTS

- Used to offset motor pulley for belt alignment
- Spacer inserts are available in eight widths from 1/4" to 2" and include a motor sprocket nut and mounting screws
- Pulleys are for 3" systems and accept any of the spacer inserts listed
- Pulleys and spacer inserts sold separately

PART #	DESCRIPTION
PULLEYS FOR 3" SYSTEMS	
DS360422	For 84-99 FXST and FXR
OFFSET SPACER INSERTS	
1132-0173	Std. insert
DS360424	1/4" insert

PART #	DESCRIPTION
OFFSET SPACER INSERTS (CONT)	
DS360425	1/2" insert
DS360426	3/4" insert
DS360427	1" insert
DS360428	1 1/4" insert

PART #	DESCRIPTION
OFFSET SPACER INSERTS (CONT)	
2017-5002	1 1/2" insert
7806-1250	1 3/4" insert
7806-1251	2" insert

MOTOR PULLEY LOCKING PLATE

- For use with BDL's standard, 3/4", 1", 1 1/4" or 1 1/2" offset insert kits
- Kit contains three 5/16"-18 x 1 1/2" sockethead cap screws, three 5/16" lock washers, three 5/8" OD spacers and locking plate

PART #	DESCRIPTION
1120-0235	Motor pulley locking plate

All part numbers in **BLUE** are new for the OldBook.

PRIMARY BELT COVER

- Billet aluminum construction with a chrome-plated finish
- Styled to match Belt Drives' popular Top Fuel belt drive cover
- Fits 3" open BDL belt drive systems with $3^1/_2$" x 4" motor plate bolt pattern

PART #	DESCRIPTION
1120-0049	Cover for BDL 3" primary

DS-191026

POLISHED DOMED PULLEY COVER KITS

- Include clutch basket cover, motor pulley cover, special tape and button-head bolts with template for permanent installation

PART #	DESCRIPTION
DS-191026	For 47-tooth motor shaft pulley and 72-tooth clutch basket (Evolution)
DS360420	For 47-tooth motor shaft pulley and 76-tooth clutch basket (Shovelhead)

PRIMARY CHAIN DRIVE KIT WITH BALL-BEARING LOCKUP CLUTCH

- Complete chain drive kit featuring BDL's ball-bearing lockup clutch for riders who want a lighter, easier to operate clutch
- Provides approximately 60% more surface contact area than stock clutch for smooth, sure power transfer to the rear wheel
- Complete kit includes rear basket with BDL ball-bearing clutch, front 25-tooth sprocket, Diamond primary chain, adjuster assembly and BDL's patented compensator

PART #	DESCRIPTION
1120-0179	For 90-99 FXST/FLST and 91-98 FXD/FXDWG

PRIMARY CHAIN DRIVE SYSTEMS WITH CLUTCH

- Kits include primary chain, front sprocket and nut, chain adjuster, clutch basket and clutch assembly with clutch plates
- Feature new-style clutch that eliminates grabbing and dragging

NOTE: PART #DS-191014 will not work with rear belt drive.

NOTE: PART #DS-191018 comes with a new starter pinion gear that must be used on the 94-98 applications.

DS-191018

1120-0321

PART #	DESCRIPTION
DS-191018	For 90-98 Softail, 91-98 Dyna models
DS-191014	For 70-83 FX models w/ electric start (rear chain drive)
REPLACEMENT PARTS	
DS-191019	Repl. friction clutch plates (7-pk.)

PART #	DESCRIPTION
REPLACEMENT PARTS (CONT)	
DS-191020	Steel clutch plates (8-pk.)
DS-191021	Shoulder bolts (9-pk.)
1120-0321	Clutch adjusting screw w/ jam nut (ea.)

DRAG Specialties

PRIMARY DRIVE KITS

- Kits include compensating sprocket assembly, chain adjuster assembly and complete clutch assembly with aramid friction plates
- Primary chains sold separately

PART #	DESCRIPTION
1120-0076	For 98-99 Evolution Big Twin, 25/26T
1120-0077	For 94-97 Evolution Big Twin, 25/36T

1120-0078

PART #	DESCRIPTION
1120-0078	For 90-93 Evolution Big Twin, 24/37T

All part numbers in BLUE are new for the OldBook.

COMPENSATOR SPROCKET KITS

- Three-piece patented design with no spring
- Weigh less than the stock sprocket

U.S. Patent #6,234,909B1.

1101-5002

PART #	DESCRIPTION
FOR 70-89 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR)	
1101-5002	24-tooth compensator sprocket

PART #	DESCRIPTION
FOR 90-99 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR, 99 FXD/FXDWG)	
1101-5001	25-tooth compensator sprocket

SOLID PRIMARY SPROCKET KIT

- Eliminates the need for a complete compensator assembly
- Includes 25-tooth sprocket, flat washer and front pulley/sprocket nut

PART #	DESCRIPTION
1120-0412	For 94-98 Big Twin w splined shaft

COMPENSATING SPROCKET KITS

- Complete kits contain a high-quality sprocket, sprocket shaft extension, sliding cam, sprocket nut and cover with spring plate

DS195196

PART #	DESCRIPTION
DS195196	For 94-99 Evolution Big Twin (25-tooth); repl. OEM #40308-94
DS195197	For 91-93 Big Twin (24-tooth); repl. OEM #40269-85

PART #	DESCRIPTION
DS195198	For 84-90 Big Twin (24-tooth); repl. OEM #40275-83

COMPENSATING SPROCKET

- Replacement steel compensating sprockets
- Available 24-tooth style; both fit variable primary gear ratios

PART #	DESCRIPTION
DS-191011	For 70-86 Big Twin models with primary chain drive (24-tooth); repl. OEM #40275-70

1120-0270

SPROCKET SHAFT EXTENSIONS

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1120-0270	For 85-95 Big Twin 5-Speed; repl. OEM #40266-85
1120-0269	For L70-85 Big Twin 4-Speed; repl. OEM #40375-70

COMPENSATING SPROCKET SHAFT EXTENSIONS

- Hardened alloy steel extensions have been precision ground
- For use with OEM or most aftermarket compensating sprockets
- Used when offsetting transmission in wide tire applications

1120-0001

PART #	DESCRIPTION
FOR 91-99 BIG TWIN	
1120-0001	+1" extension ($1^3/_8$" overall)

PART #	DESCRIPTION
FOR 91-99 BIG TWIN (CONT)	
1120-0002	+$1^3/_8$" extension ($1^3/_4$" overall)

COMPENSATING SPROCKET NUTS

- For use on L70-99 Big Twin models
- Sold each

2017-3461

2017-3462

PART #	DESCRIPTION
2017-3461	For 91-99 Big Twin; repl. OEM #40392-91

PART #	DESCRIPTION
2017-3462	For L70-90 Big Twin; repl. OEM #40392-70

All part numbers in **BLUE** are new for the OldBook.

1120-0283

1120-0286

DRAG Specialties

PRIMARY CHAINS

- Improved fatigue resistance
- Pre-loaded to reduce initial elongation
- Endless construction using high-quality raw materials for long life

PART #	SIZE	DESCRIPTION
1120-0282	428-2 x 76	For 80-98 FLT/FXR/FXRS/FXRT (5-speed); repl. OEM #40037-79A
1120-0283	428-2 x 82	For 84-99 FXST/FLST, 91-98 Dyna and 36-86 Big Twin (4-speed); repl. OEM #40007-36A/B
1120-0286	35-3 x 94	For 57-85 XL; repl. OEM #40005-57A/B

Hayden ENTERPRISES

M6 CHAIN TENSIONERS

- Automatically adjusts the tension of the primary chain
- Provides constant and even tension, which improves gear shifting
- Reduces shifting noise; make for a smoother ride
- Extends primary chain life

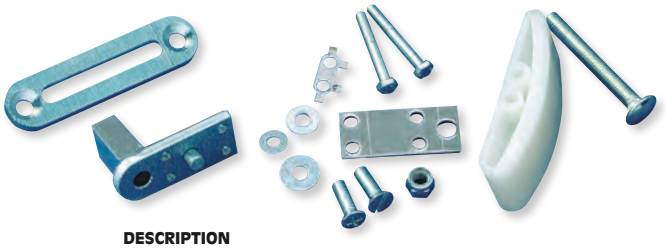
PART #	DESCRIPTION
CHAIN TENSIONERS	
1120-0416	For 94-99 Evolution Big Twin
DS-192006	For 65-93 Big Twin
DS-192007	For 77-85 XL

PART #	DESCRIPTION
REPLACEMENT SHOES	
DS-192009	For DS-192006
DS-192010	For DS-192007

DRAG Specialties

PRIMARY CHAIN ADJUSTER KIT

- Used for updating an old adjuster system or when building a new bike from the ground up
- Complete kit includes washers, adjuster plate, bolts, shoe, adjuster and nut



PART #	DESCRIPTION
DS-181201	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39998-65, 39996-65, 39993-65, 39990-65, 39976-65B, 7778, 6703, 6400BH, 5444, 2614 and 1783

DS-192003

DS-192001

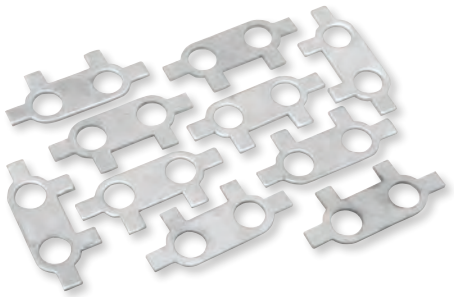
DRAG Specialties

PRIMARY CHAIN ADJUSTING SHOES

- Replaces stock nylon shoe

PART #	DESCRIPTION
DS-192002	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39976-65 and 39976-65B
DS-192003	For L80-85 XL; repl. OEM #39966-80
DS-192001	For L58-E80 XL; repl. OEM #39978-58
DS-192004	For 54-76 K, XL (ea.); repl. OEM #39975-52B

Eastern MC Parts



PRIMARY CHAIN ADJUSTER PLATE LOCK TAB

- Sold in 10-pack

PART #	DESCRIPTION
1120-0189	For 65-99 Big Twin; repl. OEM #39996-65

All part numbers in BLUE are new for the OldBook.

SCORPION BILLET CLUTCHES

- CNC-machined billet aluminum design features over twice the friction area of the stock clutch
- Provides positive engagement and release
- Incorporates six heavy-duty coil springs instead of the diaphragm spring; includes an extra heavy-duty set of springs for higher horsepower applications
- Friction plates are compatible with most primary oil (48-E84 Big Twin and 71-E84 XL can run wet or dry)
- Simple bolt-on installation; requires the original clutch shell; no machining is necessary
- Kit includes clutch hub, drive plates, driven plates, (two) sets of clutch springs, pressure plate and necessary hardware
- Replacement fiber and steel clutch plates available separately

PART #	DESCRIPTION

[1] Order Scorpion pressure plate PART #1131-0278 for use with hydraulic system OEM #s 45380-02, 45992-03.

SCORPION LOW-PROFILE LOCK-UP CLUTCHES

- Features an all-new, redesigned billet aluminum lock-up pressure plate designed to fit under the stock primary cover
- No need to change or modify your cover
- Surface area is greatly increased and lever effort is kept to a minimum
- Three different coil spring sets included to provide a wide variety of spring pressure options allowing you to tune the clutch for stock to 200+ HP applications
- A steel inner hub is also included to complete the unit
- Designed to fit into the stock-type basket
- Billet aluminum pressure plate
- Adjustable pressure arms increase spring pressure as rpm increase
- Can be run wet or dry
- Smooth, precise shifting
- Sets of replacement fiber and steel clutch plates available separately

DESCRIPTION	SCORPION CLUTCH	REPL. CLUTCH PLATE SET
For 98-99 Evolution Big Twin w/ mechanical clutch	**1130-0208**	**1131-2446**

DESCRIPTION	SCORPION CLUTCH	REPL. CLUTCH PLATE SET
For 98-99 Evolution Big Twin w/ hydraulic clutch	**1130-0212**	**1131-2446**
For 90-97 Big Twin	**1130-0231**	**1131-2446**

SCORPION LOCK-UP CLUTCH

- 100% increase in clutch capacity
- Billet aluminum pressure plate
- Steel inner hub
- For stock to high-performance motors
- Coil spring sets provide maximum tuning capability
- Adjustable pressure arms increase spring pressure as rpm increase
- Lighter lever pull
- Can be run wet or dry
- Smooth, precise shifting

PART #	DESCRIPTION
FOR 90-97 BIG TWIN	
1131-0159	Repl. clutch plate set

- Designed to fit in stock-type basket
- For use with open primary or Barnett Scorpion primary cover

COMPETITOR CLUTCHES

- Feature nine springs and shoulder bolts for simple clutch spring adjustment
- Eliminate the outdated three-stud clutch hub along with shifting problems
- Large, 40 mm double-row hub bearing provides maximum strength and performance
- Polished pressure plate adds a custom touch when using an open belt drive
- Race-proven clutch pack included
- Replacement plates available
- PART #1130-0176 features a standard pressure plate and clutch springs

PART #	DESCRIPTION
COMPETITOR CLUTCHES	
1130-0112	For 98-99 Evolution Big Twin w/ stock clutch basket

BALL-BEARING LOCKUP CLUTCH KIT

- Complete 36T clutch basket assembly with BDL's ball-bearing lockup clutch
- Provides approximately 60% more surface contact area than stock clutch for smooth, sure power transfer
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Includes 66T ring gear and 9T starter pinion gear

NOTE: Use of a 25T compensating sprocket recommended.

1130-0101

BALL-BEARING LOCKUP CLUTCH CONVERSION KITS

- Standard equipment with all of BDL's 2" SS series primary drives
- Convert existing clutches to a ball-bearing lockup design
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Kits include all necessary components for a complete retrofit

1130-0081

1130-0297

PART #	DESCRIPTION
1130-0080	For 90-99 Evolution Big Twin Primo Pro-Clutch belt drives
1130-0081	For 98-99 Evolution Big Twin w/ stock H-D mechanical clutch

PART #	DESCRIPTION
1130-0297	For all 3" BDL belt drives

HIGH PERFORMANCE BALL-BEARING LOCKUP CLUTCH UPGRADE KITS

- Kit includes one heavy-duty diaphragm spring and set of carbide ball bearings
- Harder and heavier ball bearings lift spring quicker and actuate faster to create more pressure at an advanced rate
- Pressure plates with 32-bearing pockets should use the $^{3}/_{8}$" ball bearings
- Pressure plates with 42-bearing pockets should use the $^{5}/_{16}$" ball bearings
- Instructions included

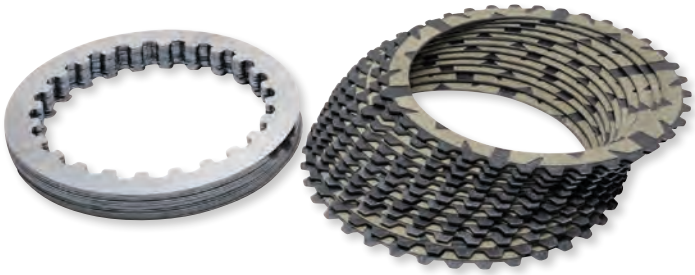
REKLUSE clutch rEvolution

TORQDRIVE® CLUTCH KIT

- TorqDrive provides more disks in less space, allowing us to add up to six additional friction disks to the clutch pack over stock
- More frictions = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device
- TorqDrive provides smoother shifting and improved lever feel
- Rekluse basket sleeves eliminate basket wear and notching

NOTE: Designed for use with OEM or Rekluse clutch baskets/shells only.



PART #	DESCRIPTION
1130-0579	For 90-97 Big Twin models

DP CLUTCHES

HIGH-PERFORMANCE CLUTCH KITS

- Specifically designed to provide extended clutch life, fade- and slip-free operation and superior shifting
- Friction plates have our exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel clutch plates won't expand; do not fade or promote clutch swell
- Long lasting – up to 300% more life than stock plates
- Will not muddy or contaminate oil

HEAVY-DUTY CLUTCH KITS

DP CLUTCHES

- Designed to outperform any OEM or aftermarket clutch
- HD clutch kit comes in a foam-lined hard plastic case that protects clutch components from being damaged prior to installation
- Case can be used to store and transport parts, tools or other items after clutch is installed
- HD kit includes friction plates and steel drive plates; does not include springs
- Friction plates come ready to race – no need to presoak plates in oil
- Exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel drive plates won't expand and do not fade or promote clutch swell like stock aluminum plates
- Long lasting – up to 300% more life than stock plates
- Increased weight over stock plates adds flywheel effect for aiding starting and traction
- Will not muddy or contaminate oil

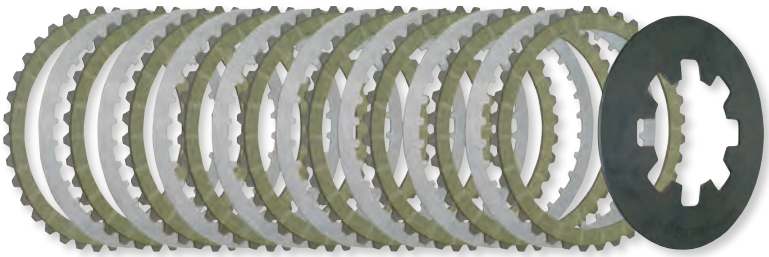
HIGH-PERFORMANCE CLUTCH KIT WITH EXTRA PLATE

- Includes 10 friction plates on 6061-T6 aluminum cores, nine tempered steel drive plates and a 10% stronger than stock diaphragm spring
- Plates have 11% more surface area for more positive clutch engagement – ideal for big-bore models
- Pre-measured stack height for easy installation

PART #	DESCRIPTION
1131-1806	For 98-99 Evolution Big Twin models

HIGH-PERFORMANCE EXTRA CLUTCH PLATE KIT

- Kit includes nine friction plates on tempered steel cores and eight tempered steel drive plates
- Plates feature a starburst groove pattern for maximum heat dissipation and oil circulation
- 15% larger than stock surface area for stronger, more positive clutch engagement – ideal for high-performance stroker motors
- Includes 15% stronger diaphragm spring
- Pre-set stack height for easy installation



PART #	DESCRIPTION
1131-1804	For 90-97 Evolution Big Twin

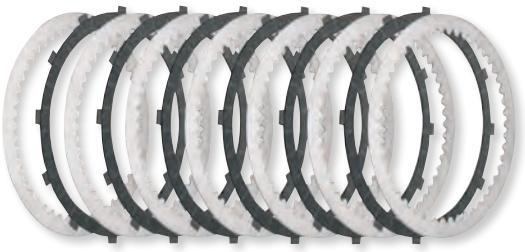
CLUTCH PLATE KIT

- Includes nine friction plates on 6061-T6 aluminum cores and eight tempered steel drive plates
- Stack height is pre-set for easy installation

PART #	DESCRIPTION
1131-1805	For 98-99 Evolution Big Twin models

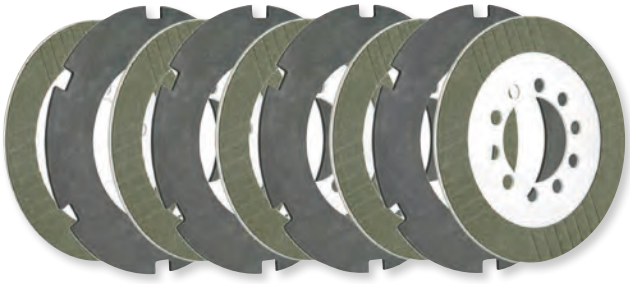
CLUTCH PLATE KIT

- Includes six friction plates with tempered steel cores and seven tempered steel drive plates
- Plates measure 25% wider than the OEM plates for a significant increase in the clutch area
- Stack height is preset for easy installation
- Can be used in wet or dry clutches



PART #	DESCRIPTION
1131-1803	For L84-89 Evolution Big Twin

All part numbers in BLUE are new for the OldBook.



1131-1801

1131-1802

CLUTCH KITS

- Standard kit includes five friction plates with 6061-T6 aluminum cores and a maximum depth pattern for efficient heat dissipation and oil circulation
- Four tempered steel drive plates also included
- Kit with extra plate includes six friction plates with 6061-T6 aluminum cores, five tempered steel drive plates and 10 zero-crush coil type clutch springs
- Clutch plates are 20% wider than stock for improved clutch engagement and holding
- Both kits have the clutch plate stack height preset for easy installation

CK series

SRC series

SRK series

EBC BRAKES

CLUTCH KITS AND SPRINGS

CK STANDARD SERIES

- Cork-based material impregnated with aluminum particles to increase wear life and heat resistance
- Highly compressed construction avoids swell and clutch drag
- Ideal for general-purpose street/sport/touring bikes
- Kit includes complete set of friction plates only
- Not for use with semi-synthetic or full synthetic oil

SRC SERIES CLUTCH KITS

- Aramid fiber paper-lined plate set, complete with heavy-duty clutch springs
- SRC kits have longer plate life and higher heat resistance
- SRC kits have a more aggressive/faster clutch takeup than the CK Standard series clutch kits

SRK SERIES CLUTCH KITS

- Include aramid fiber-lined friction plates, steel separator plates and springs
- Diaphragm-style spring used in kits for bikes with OEM diaphragm clutch springs
- All kits designed to withstand the rigors of hard street use

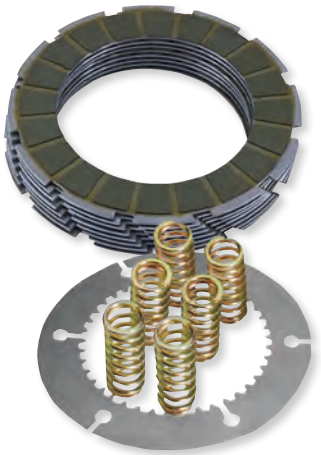
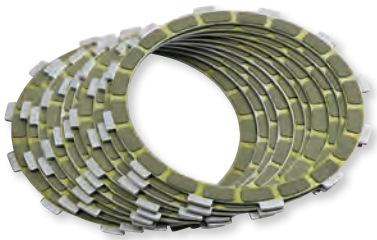
EXTRA PLATE CLUTCH KIT

- Kit includes six aramid fiber friction plates, one steel plate and a set of heavy-duty clutch springs
- Pre-68 models require an extra steel drive plate (PART #DS-223745)
- Kit adds approximately 20% more surface area
- Can be run wet or dry

PART #	DESCRIPTION
DS-223727	For 41-E84 Big Twin





EXTRA PLATE ARAMID FIBER CLUTCH KIT

- Eight bonded aramid fiber plates, one steel driven plate and a set of heavy-duty clutch springs
- Aramid fiber friction material for maximum performance without swell, fading or creeping problems
- Adds approximately 14% more clutch surface area
- Can be used wet or dry

PART #	DESCRIPTION
DS-223761	For 54-70 XL

EXTRA PLATE CLUTCH KIT

- Aramid fiber plates have high static and dynamic coefficient of friction
- The aramid fiber friction plates provide smooth, positive engagement and release
- Adds 11% more surface area to clutch pack
- Consists of 10 friction plates and nine steel plates

PART #	DESCRIPTION
DS-223472	For 98-99 Evolution Big Twin

- Standard replacement spring

PART #	DESCRIPTION
DS-223355	For 98-99 Evolution Big Twin; repl. OEM #37871-98

DS-199218

HEAVY-DUTY CLUTCH SPRINGS

- Heavy-duty springs approximately 20% stronger than OEM
- Recommended for competition use

PART #	DESCRIPTION
DS-199218	For 98-99 Evolution Big Twin

PART #	DESCRIPTION
DS-223742	For 90-97 Big Twin

PART #	DESCRIPTION
DS-223743	For L84-85 XL

DS-199219

CLUTCH SPRING CONVERSION KITS

- Convert your diaphragm spring clutch system to six coil springs
- CNC-machined billet pressure plate
- Ideal for stock to high-performance motors
- Allows for more precise adjustment and smoother operation
- Increases the holding capacity of the clutch
- Includes two sets of coil springs to provide three different pressure options
- Utilizes the stock clutch hub, shell and clutch plates

PART #	DESCRIPTION
DS-199219	For 98-99 Evolution Big Twin w/ mechanical clutch

PART #	DESCRIPTION
1131-2051	For 98-99 Evolution Big Twin w/ hydraulic clutch

All part numbers in BLUE are new for the OldBook.

DS-223754

DS-223760

CLUTCH SPRING SETS

- Choice of standard or heavy-duty designs
- Includes six springs per set

PART #	DESCRIPTION
FOR L54-70 XL	
DS-223754	Standard clutch spring set; repl. OEM #38076-52
DS-223755	Heavy-duty clutch spring set; repl. OEM #38076-52

REPLACEMENT CLUTCH SPRING SETS

- Includes 10 standard or heavy-duty springs

PART #	DESCRIPTION
DS-223760	Standard clutch spring set for 68-E84 Big Twin (10-pk.); repl. OEM #37077-68
DS-223741	Heavy-duty clutch spring set for 41-E84 Big Twin (10-pk.)
DS-223759	Standard clutch spring set for 41-67 Big Twin (10-pk.); repl. OEM #37077-41

HEAVY-DUTY CLUTCH SPRING SET

- Includes 10 heavy-duty springs
- 20% pressure increase over stock

PART #	DESCRIPTION
DS-199209	For 68-E84 Shovelhead; repl. OEM #37077-68

HEAVY-DUTY CLUTCH SPRINGS

- Includes 10 heavy-duty springs

PART #	DESCRIPTION
1131-1808	For 41-67 Big Twin; repl. OEM #38075-41

CLUTCH SPRING SEATS

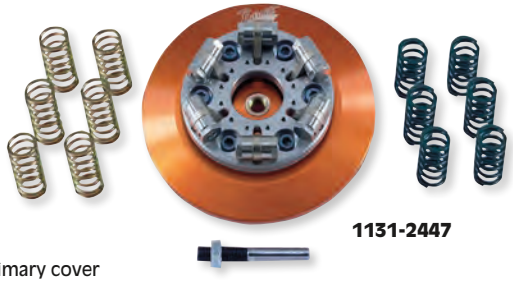
- Replacement center and inner spring seats
- Sold in 5-packs

PART #	DESCRIPTION
FOR L84-85 XL	
1132-0701	Center spring; repl. OEM #36793-84
1132-0702	Inner spring; repl. OEM #36794-84

All part numbers in BLUE are new for the OldBook.

Barnett Performance Products

SCORPION LOW-PROFILE LOCK-UP PRESSURE PLATES



1131-2447

1131-2448

- Low-profile design fits under stock primary cover
- Direct bolt-on design retrofits to existing Scorpion billet clutches
- Progressively increases pressure as rpm increases
- CNC-machined, 6061-T6 billet aluminum
- Perfect for large-displacement, high-horsepower motors

PART #	DESCRIPTION
1131-2447	For 98-99 Evolution Big Twin w/ existing mechanical Scorpion clutch
1131-2448	For 98-99 Evolution Big Twin w/ existing hydraulic Scorpion clutch

Barnett Performance Products

LOW PROFILE LOCK-UP PRESSURE PLATE CONVERSION KITS

1131-2404

- Specifically designed to fit under the stock or aftermarket primary/derby covers and increase the capacity of your stock clutch by using stainless steel weighted arms that progressively increase pressure to the clutch as rpm increases
- This also allows lever effort to be kept to a minimum – even with big-inch motors
- Three different sets of six coil springs (light, medium, heavy) are included for a variety of spring pressure options
- Coil spring design provides much smoother shifting and a more progressive, linear engagement compared to a diaphragm-type spring
- Simple bolt-on installation is all that is required with no modifications needed
- Cable-actuated and hydraulic versions are available

PART #	DESCRIPTION
1131-2404	For 98-99 Evolution Big Twin w/ cable-operated clutches
1131-2405	For 98-99 Evolution Big Twin CVO models w/ hydraulic-operated clutches

Barnett Performance Products

BILLET PRESSURE PLATE

- Strong billet aluminum design, works with stock or heavy-duty diaphragm spring

PART #	DESCRIPTION
2012-1270	For 91-97 Big Twin models; repl. OEM #37912-91

PART #	DESCRIPTION
1131-0491	For 41-E84 Big Twin; repl. OEM #37549-41

COMPETITION SERIES CLUTCH PLATE KITS

- Clutch friction plate kits are supplied as a separate kit from springs and drive plates
- Different friction materials are used to match original specification
- Friction plates should be allowed to bed in to avoid glazing friction surface
- Clutch steel plates are made from corrosion-free steel
- Check old plates for color and wear and preferably replace at the same time as friction plates
- Increase in clutch spring strength is achieved either through the extra length or by tighter winding

NOTE: Some synthetic oils increase the danger of clutch slip with friction plates.

CLUTCH PUSHROD KITS AND COMPONENTS

- Available as complete kits or as individual components
- Big Twin kits include center pushrod, left pushrod, right pushrod, bearing, thrust washer and snap ring
- XL kits include all four pushrods

PART #	DESCRIPTION
COMPLETE KITS	
DS-192510	For 98 FLT/FXD/FXDWG, 99 FXST/FLST, 99-00 FXR
DS-192509	For 91-97 FLT/FXR/FXST/FLST and Dyna models
DS-192508	For 90 FLT/FXR/FXST/FLST and Dyna models
DS-192506	For 87-89 FLT/FXR/FXST/FLST and Dyna models
DS-192505	For 85-86 FLHT/FLT/FXRS/FXRT/FXRP and FLHTP; 86 FXST
DS-192504	For L84 FLTC/FXRT/FXRP and FXRS
DS-192507	For L84-85 FXST; 85-86 FX
DS192503	For 80-83 FLT, FLHT; 82-83 FXR, FXRS
DS-192526	For 67-70 XLH, 70 XLCH
DS-192501	For 56-66 KH, XL, XLH, XLCH and 67-69 XLCH
RIGHT PUSHROD ENDS	
DS-192520	For 90-98 FLT/FXD/FXDWG, 90-99 FXST/FLST, 99-00 FXR models w/ mechanical clutch (2,6580"); repl. OEM #37069-90
DS-192522	For 87-89 FLT/FXR/FXST/FLST and Dyna models (2,6250"); repl. OEM #37089-84
DS-192522	For 85-86 FLHT/FLT/FXRS/FXRT/FXRP and FLHTP; 86 FXST models (2,6250"); repl. OEM #37089-84
DS-192522	For L84 FLTC/FXRT/FXRP and FXRS models (0,6250"); repl. OEM #37089-84
DS-192521	For 80-83 FLT, FLHT; 82-83 FXR, FXRS (1,8750"); repl. OEM #37089-79
PUSHROD CENTERS	
DS-192515	For 98 FLT/FXD/FXDWG, 99 FXST/FLST, 99-00 FXR (10,870"); repl. OEM #37088-90
DS-192514	For 87-89 FLT/FXR/FXST/FLST and Dyna models (11,3750"); repl. OEM #37088-87
DS-192513	For 85-86 FLHT/FLT/FXRS/FXRT/FXRP and FLHTP; 86 FXST models (11,1250"); repl. OEM #37088-85

DS-194116

NEW-STYLE THROW-OUT BEARING PUSHROD KITS

- Contain parts required to update clutch pushrod thrust bearing
- Include pushrod, oil slinger, thrust washers, release finger, rod bushing and a heavy-duty bearing
- Bearing kit is only available separately

PART #	DESCRIPTION
FOR 70-E84 BIG TWIN 4-SPEED; REPL. OEM #37305-70	
DS-194115	Heavy-duty throw-out bearing pushrod kit
DS-194116	Throw-out bearing kit only

PART #	DESCRIPTION
FOR 70-E84 BIG TWIN 4-SPEED; REPL. OEM #37305-70 (CONT)	
1132-0568	Repl. bearing; repl. OEM #37312-75

RIGHT CLUTCH PUSHROD END

- Stamped steel construction
- Includes oil slinger

PART #	DESCRIPTION
7805-0015	For 90-99 Big Twin w/ mechanical clutch; repl. OEM #37069-90

DS-192502

1132-0568

CLUTCH PUSHROD BEARING KIT

- Includes two thrust washers, one retaining clip and roller bearing

PART #	DESCRIPTION
DS-192502	For 87-99 Evolution Big Twin w/ mechanical clutch; repl. OEM #s 37313-80, 11096 and 37312-75
1132-0568	Repl. bearing; repl. OEM #37312-75

CLUTCH PUSHROD ADJUSTING SCREWS

- Sold in 5-pack

PART #	DESCRIPTION
DS-193159	For 36-E84 Big Twin; repl. OEM #37357-41

SNAP RINGS FOR CLUTCH PUSHRODS

- Each part number is sold in 10-pack

PART #	DESCRIPTION
FOR 75-99 4- AND 5-SPEED BIG TWIN	
DS-188029	3/4 ring; repl. OEM #11096
DS-188030	Full ring; repl. OEM #11096A

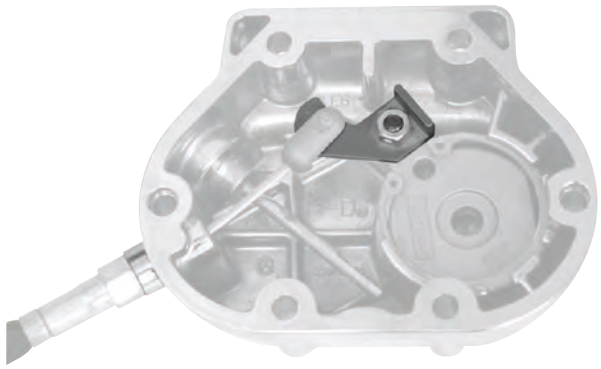
All part numbers in **BLUE** are new for the OldBook.

BURLY BRAND MOTORCYCLE ACCESSORIES

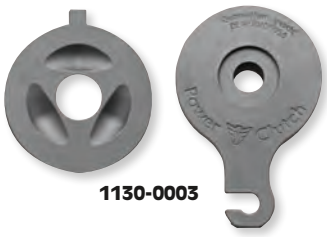
EASYBOY LITE CLUTCH

- 40% easier clutch pull; less fatigue with smooth clutch action
- Simple installation

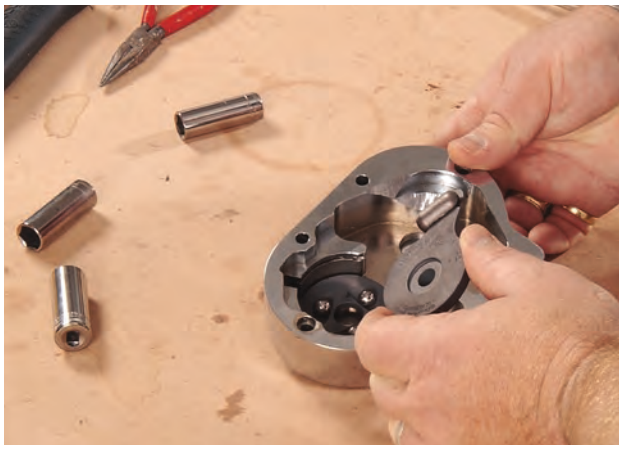
NOTE: Will not fit FXR, FXRS, FXRS-SP, FXRT or FXLR models.



PART #	DESCRIPTION
DS-223005	For 87-98 FLT/FLTR/FLHT/FLHS/FLHR, 87-99 Softails, 87-94 FXRP, 91-98 FXD



1130-0003



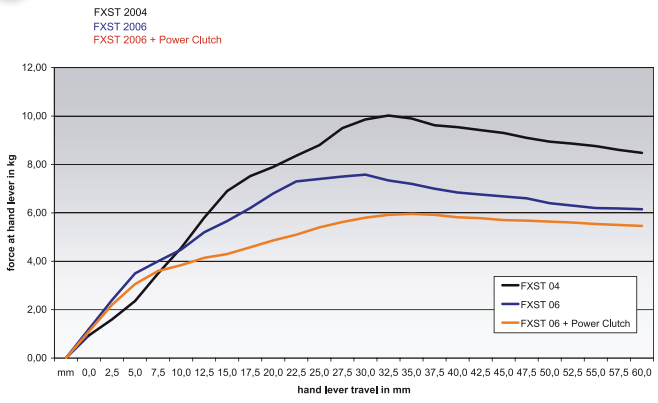
1130-0045

MÜLLER MOTORCYCLE AG

POWER CLUTCHES

- The original Müller Power Clutch
- Replaces OEM inner and outer ramp assemblies
- Reuse existing pivot balls, unless noted
- 45% easier clutch lever operation
- Easy to install; no drilling or spacers needed
- For use with mechanical clutch only

Hand Lever Force Diagram



PART #	DESCRIPTION
1130-0003	For 87-99 Big Twin (w/ mechanical clutch)
1130-0045	For Baker right-side-drive transmissions with mechanical clutch release (except Big Dog with RSD transmissions)

202240

1107-0252

PRO PERFORMANCE PRODUCTS

HYDRAULIC CLUTCH ACTUATORS

- Crafted from billet aluminum with a chrome or black anodized finish
- Installs with OEM bolts; 10 mm banjo bolt, banjo washers and bleeder screw included
- Requires the use of a $^{11}/_{16}$" bore master cylinder (sold separately)
- Hydraulic line not included

PART #	DESCRIPTION
FOR ALL 87-99 EVOLUTION BIG TWIN 5-SPEED MODELS	
202240	Smooth, chrome

MAGNUM

BRAIDED HYDRAULIC CLUTCH LINES

- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braid and an outer PVC jacket
- Unique stainless steel transmission fitting eliminates the use of adapters
- Available in Sterling Chromite® II with highly polished chrome plated banjos
- Braid color and weave match all other Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing the bike's paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Choice of 90°, 35° or 180° banjos with rotating feature for perfect no-kink fitments
- Transmission fittings have a natural stainless steel finish

NOTE: 87-99 OE Harley, CVO, P&A hydraulic clutch line fittings require taking a measurement to determine ordering length.

STERLING CHROMITE II	TOTAL LENGTH	BANJO ANGLE

GOODRIDGE
FLUID TRANSFER SYSTEMS

STAINLESS STEEL BRAIDED HYDRAULIC CLUTCH LINE KITS

- -3 hydraulic clutch lines feature clear PVC coated, PTFE lined, premium stainless steel braided hose
- PVC hose coating is extruded to the stainless braiding, adding great looks and abrasion protection to expensive parts, while offering resistance to damaging UV rays
- PTFE liner is an inert material, which is compatible with all hydraulic and brake fluids; has a heat range of -105 °C to -295 °C (-158 °F to 500 °F)
- Stainless steel braid is superior in pressure rating, flame resistance and volumetric expansion to all other materials

HYDRAULIC CLUTCH HOSE ADAPTER

- Adapts Goodridge universal brake line to convert it to a clutch line
- Works on any 87-99 OEM-style hydraulic clutch actuator

PART #	DESCRIPTION
1742-0144	Straight universal hydraulic clutch hose adapter
1742-0211	30° universal hydraulic clutch hose adapter

DRAG Specialties

HYDRAULIC CLUTCH HOSE ADAPTER

- CNC-precision-machined steel
- Screws into Big Twin OEM-style hydraulic clutch actuator
- Enables any AN-3 brake line to be used as a hydraulic clutch line

PART #	DESCRIPTION
1742-0027	Hose adapter for 87-99 Evolution models
1742-0028	Repl. O-ring (5-pk.)

All part numbers in BLUE are new for the OldBook.

BYO® BUILD-YOUR-OWN HYDRAULIC CLUTCH LINE KIT

- Design meets all FMVSS-106 standards once assembled for safe and reliable on-road use (see compatibility note below)
- Assembles in five minutes with only side cutters and $^{7}/_{16}$" wrench
- Hydraulic hose and fittings are labeled, pressure tested and 100% inspected
- Hydraulic clutch kit contains all components to build one complete stock or custom hydraulic line which includes 7' of BYO non-yellowing clear-coated braided stainless hose, chrome-plated banjos, polished stainless hardware, copper crush washers, a vise wrench and a natural finish, stainless steel transmission fitting
- All components and hoses are available separately to build your own hydraulic clutch line; choose banjo fittings and then cut bulk line to the exact length needed to eliminate ordering guesswork and a perfect fit every time

NOTE: Compatible Magnum Shielding BYO® brand hydraulic hose and BYO® components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, or liability claims.

PART #	DESCRIPTION
1132-0821	For Evolution Big Twin, CVO and P&A models w/ hydraulic clutch (10 mm 35° upper banjo)

BYO® BUILD-YOUR-OWN UNIVERSAL HYDRAULIC CLUTCH LINES

- Design meets all FMVSS-106 Standards for safe and reliable on-road use (see compatibility note below)
- Assembles in five minutes with only side cutters and $^{7}/_{16}$" wrench
- All components and hoses are available separately to build your own clutch line—choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Hydraulic hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vice wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos are polished and chrome-plated with polished stainless steel fittings
- -3 braided black stainless line is coated with an opaque black outer jacket – banjos are black chrome-plated and include black heat shrink to cover the stainless fittings once assembled

NOTE: Compatible Magnum Shielding BYO® hydraulic hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, or liability claims.

NOTE: Please see BRAKE section for compatible Drag Specialties and Magnum banjo bolts and crush washers.

STAINLESS STEEL HYDRAULIC LINES AND COMPONENTS

PINGEL® Since 1967

ELECTRIC EASY SHIFT™ SPEED SHIFTER KITS

- For speed, comfort and fun
- Electronically suspends the ignition system, allowing the transmission to smoothly shift up or down with just the push of a button
- Shift up at partial or full throttle and back down at the touch of a button
- There is no need to use the foot shifter, and the clutch is used only when starting or stopping
- Works for normal street riding or full-throttle shifting
- Also a perfect match for male and female riders who own bikes that require a lot of hand strength to pull in the clutch lever
- OEM shifting ability is retained after installation
- Includes a dual-button handlebar control, a shift cylinder plated with a lustrous chrome finish, bolt-on shift cylinder support bracket and a state-of-the-art control module that sends a quick signal from the handlebar control to the shift cylinder
- Also included is the electronic ignition kill module and step-by-step instructions with photos for easy installation
- Universal kits also available with dual-button handlebar control to fit 7/8" or 1" diameter handlebars/clip-ons; installation may require purchase of frame tube brackets for shift cylinder mounting (sold separately)
- Not suitable for 4-speed transmissions

PART #	DESCRIPTION
BOLT-ON KITS	
1601-0175	For 87-98 FLT/FLHT/FLHR/FLTR models

JT DRIVE CHAIN

JT DRIVE CHAINS

- JT Chains produce a full range of superior quality motorcycle chains using leading-edge technology and only the highest grade of special steel alloys
- Leading edge technology in materials and production ensures top class performance, strength and durability
- Specially engineered to favorably compare with all types and brands of motorcycle chain on the market
- Minimum weight at maximum strength

EK CHAINS

DR2/DRZ2 530 SERIES CHAINS

- 530 DRZ2 is designed in conjunction with Pierre Elliott of Diamond Powersports
- 530 DRZ2 features Zero Stretch Technology that eliminates measurable chain stretch during initial use
- 530 DR2 is for street bike drag racing
- Both chains and connecting links are chrome-plated
- Includes clip-style connecting link

520/530 SERIES ZVX3 SEALED CHAINS

- For competition and OEM replacement
- Super/ultra strong; 520 series has tensile strength of 9400 lb; 530 series has tensile strength of 11,100 lb
- New NX ring lasts 15% longer than previous ZVX series chains
- Minimize clearance between plates
- Improved stiffness and weight
- Includes rivet-style master link
- Replacement rivet connecting links are available

520DR

520/530DR REGINA EXTRA DRAG RACING CHAIN

- Designed to withstand the severe application of drag racing
- Features high alloy steel in gold-colored plates and pins and solid bushings and rollers
- Plates, pins and rollers are shot-peened for improved fatigue resistance
- Breaking strength of 10.566 lb and a fatigue limit of 2135 lb is sufficient up to Pro Stock level
- Clip and rivet type link included

ZRT SERIES

- Z-ring chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/bushing area provides long life
- High-carbon allow pins to minimize wear and increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Original equipment on Aprilia RSV4, BMW S100RR, Ducati Panigale 1199, KTM RC8 and many others
- Ideal for street bikes and superbikes up to 1300cc
- Gold color

DRAG Specialties

REAR DRIVE BELTS

- Carbon fiber reinforced Goodyear engineered Falcon SPC™ belts offer up to 33 percent more tensile strength than conventional aramid reinforced belts
- High-temperature rubber compound offers excellent flex and long service life
- Fabric reinforced belt tooth surfaces improve wear resistance
- Durable material construction is designed to withstand belt-penetrating debris without breaking

NOTE: No warranty claims are made or implied.

PANTHER MOTORCYCLE DRIVE BELTS

PANTHER REAR DRIVE BELTS

- Improved RPP™ Panther® Design
- Features ULTRA-CORD™ tensile members and the Able™ compound
- ULTRA-CORD doesn't stretch or shrink, thus reducing the strain on bearings, shafts and other drive components
- ULTRA-CORD resists degradation and moisture to give you longer belt life
- The Able compound, an advanced polymer, resists tooth shear, adding to the belt's stability
- The rugged parabolic tooth profile reduces noise and offers drive efficiency up to 98%

NOTE: No warranty claims are made or implied.

PART #	SIZE	FITMENT
1 1/2" BELTS		
DS-197001	132-tooth	For 87-92 and 94 Softail w/ 70-tooth pulley; repl. OEM #40023-86

All part numbers in **BLUE** are new for the OldBook.

REAR DRIVE BELTS

- BDL now offers Gates carbon X3N material for its rear belts
- The same brand used by Harley-Davidson since 1980 due to its reliability
- Teeth on the belts have a slick surface that is easy on pulleys
- Outer surface of the Gates belt is ribbed to help with flexibility
- Higher reliability due to increased length stability and better pitch
- Higher resistance to humidity
- Higher tensile strength and robust construction

NOTE: No warranty claims are made or implied.

PART #	SIZE	FITMENT
1 1/2" BELTS

JT SPROCKETS

- Computer-designed to achieve ultimate strength at minimum weight
- JT combines leading-edge technology with top materials to produce the ultimate quality sprocket
- Every sprocket meets the highest possible quality standards set for the motorcycle industry
- All sprockets are heat-treated and shot-blasted to reduce material surface tension
- Front sprockets made with C49/50 steel and SCM420 steel alloy; rear sprockets made with top-grade high-carbon steel with a chrome/zinc finish

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps ensure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN TRANSMISSIONS

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gaskets flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

Genuine JAMES GASKETS

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR IRONHEAD XL

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps ensure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

REPLACEMENT GASKETS/SEALS/O-RINGS

- High-quality products for long-term reliability
- Manufactured from premium fuel-resistant materials that will not creep, crack or become brittle
- Gaskets available in multiple types to best suit the intended application
- Extreme Sealing Technology (EST) gaskets feature embossed steel gaskets covered with a proprietary rubber material or solid copper, depending on the application
- Multi-Layer Steel (MLS) gaskets feature two outer Viton®-coated embossed spring steel layers with an inner steel layer to provide additional support
- CFM is a composite material with a steel tang center laminated to provide excellent heat tolerance without delaminating while providing a long-lasting seal
- Single-Layer Steel (SLS) gaskets feature a stainless steel core and embossed outer surfaces that create a heavy-duty seal between the center steel layer and the gasket mating surfaces
- Aluminum Foamette Material (AFM) gaskets feature an aluminum core and a chemically blown, compounded nitrile synthetic rubber coating that is bonded to the outside layer; do not require gasket sealer
- Viton® gaskets feature a stainless steel core with a 0,001" thick coating of Viton rubber on both sides

16778-97	Lower left rocker gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0748**	5-pk. (ea.)
17355-84A	Lower rocker box cover gasket for 84-91 Evolution	Viton	**0934-1349**	5-pk. (ea.)
17355-92	Lower rocker box cover gasket for 92-99 Evolution	Viton	**0934-1350**	5-pk. (ea.)
17356-84A	Upper rocker box cover gasket for 84-91 Evolution	Viton	**0934-1346**	5-pk. (ea.)
17356-92	Upper rocker box cover gasket for 92-99 Evolution	Viton	**0934-1347**	5-pk. (ea.)
17358-84A	Inner rocker box cover gasket for 84-99 Evolution	Viton	**0934-1348**	5-pk. (ea.)
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	Viton coated steel/0,020"	**0934-0753**	2-pk.
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	CFM20/0,043"	**0934-4646**	2-pk.
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	CFM20/0,043"	**0934-4647**	10-pk. (ea.)
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	Fiber/0,031"	**0934-4684**	2-pk.
63858-49	Washers for rocker box gaskets for 94-99 Evolultion	Vulcanized rubber	**0935-0169**	10-pk. (ea.)
-	One-piece rocker base gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0751**	10-pk. (ea.)
-	One-piece rocker base gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0001**	2-pk.

REPLACEMENT GASKETS/SEALS/O-RINGS continued on next page.

All part numbers in BLUE are new for the OldBook.

COMETIC GASKET

REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)

FOR BIG TWIN (CONT)				
OEM #	**DESCRIPTION**	**THICKNESS/MATERIAL**	**PART #**	**QTY.**
CYLINDER HEAD/CYLINDERS				
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,027"	**0934-0031**	2-pk.
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,030"	**0934-0032**	2-pk.
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,036"	**0934-0033**	2-pk.
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,040"	**0934-0034**	2-pk.
93-1073	Head gasket for S&S Super Sidewinder+ 4 1/8" bore	MLS/0,045"	**0934-0791**	2-pk.
16770-36	Head gasket for 36-47 Knucklehead w/ stock bore, 0,043"	CFM	**0935-0397**	2-pk.
16770-66B	Head gasket for 66-84 Shovelhead w/ stock bore	MLS/0,040"	**0934-0794**	2-pk.
16773-85	Head gasket for 84-99 Evolution 3 5/8" bore	MLS/0,030"	**DS172088**	2-pk.
16773-85	Head gasket for 84-99 Evolution 3 5/8" bore	MLS/0,040"	**DS172089**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,060"	**0934-1227**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,030"	**DS172086**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,040"	**DS172087**	2-pk.
16776-48	Front cylinder base gasket for 66-84 Shovelhead (standard bore)	Fiber/0,031"	**0934-4711**	ea.
16770-48	Head gaskets for 48-65 Panhead (standard bore)	MLS/0,040"	**0934-4662**	2-pk.
16777-48	Rear cylinder base gasket for 66-84 Shovelhead (standard bore)	Fiber/0,031"	**0934-4712**	ea.
16777-83A	Base gasket for 84-99 Evolution	Viton coated steel/0,020"	**DS-172051**	2-pk.
17507-48	Rocker box gaskets for 48-65 Panhead	Felt/0,125"	**0934-4687**	10-pk. (ea.)
17535-38	Front rocker tin gasket for 36-47 Kunclehead	High-density fiber/0,031"	**0934-4648**	2-pk.
17541-48B	Rocker box gaskets for 48-65 Panhead	High-density fiber/0,125"	**0934-4686**	2-pk.
18000-81	Valve Guide Seal w/ garter 0,625" OD for L79-84 Shovelhead	Viton Rubber	**0934-4726**	ea.
18000-81	Valve guide seals for L81-84 Shovelhead	Viton	**0935-0835**	ea.
18196-51	Valve guide gasket for 51-78 Big Twin	Vulcanized Fiber/0,031"	**0934-4702**	4-pk. (ea.)
18265-37	Valve guide gasket for 36-47 Knucklehead	Vulcanized Fiber	**0934-4649**	4-pk.
26856-89	Umbrella valve seal for 93-99 Evolution	Viton	**0935-0167**	10-pk. (ea.)
-	Head gasket for 84-99 Evolution 3 3/4" bore	MLS/0,030"	**0934-1353**	2-pk.
-	Head gasket for 84-99 Evolution 3 3/4" bore	MLS/0,040"	**0934-1354**	2-pk.
-	Head gasket for 84-99 Evolution 3 13/16" bore	MLS/0,030"	**0934-1355**	2-pk.
-	Head gasket for 84-99 Evolution 3 13/16" bore	MLS/0,040"	**0934-1356**	2-pk.
-	Head gasket for 84-99 Evolution 3.875" bore	MLS/0,040"	**0934-4739**	2-pk.
-	Head gasket for 4" bore TP and S&S Evolution	MLS/0,025"	**0934-0007**	2.pk.
-	Head gasket for 4" bore TP and S&S Evolution	MLS/0,030"	**0934-0008**	2-pk.
-	Head gasket for 4" bore TP and S&S Evolution	MLS/0,036"	**0934-0009**	2-pk.
-	Head gasket for 4" bore TP and S&S Evolution	MLS/0,040"	**0934-0010**	2-pk.
-	Head gasket for 66-84 Shovelhead w/ 3 5/8" bore	MLS	**0934-0797**	2-pk.
-	Head gasket for 66-84 Shovelhead w/ 3 5/8" bore	MLS	**0935-0398**	2-pk.
-	Head gasket for 66-84 Shovelhead w/ 3 3/16" bore	MLS	**0934-4650**	2-pk.
-	Head gaskets for 46-65 Panhead w/ 3 5/8" bore	MLS/0,040"	**0934-4653**	2-pk.
-	Base gasket for std. bore 84-99 80" Evolution models	Copper/0,016"	**DS-172055**	2-pk.
-	Base gasket for 3 5/8" bore 84-99 80" Evolution models	Copper/0,020"	**DS-172056**	2-pk.
-	Base gasket for 84-99 Evolution, std. bore	Viton coated steel/0,010"	**0934-0773**	2-pk.
-	Base gasket for 84-99 Evolution 3 5/8" or 3 3/4" bore	Viton coated steel/0,010"	**0934-0780**	2-pk.
-	Base gasket for 3 5/8" bore 84-99 Evolution	Viton coated steel/0,020"	**DS-172052**	2-pk.
-	Base gasket for 3 13/16" bore 84-99 Evolution	Viton coated steel/0,020"	**0934-0004**	2-pk.
-	Base gasket for 4,0" bore S&S Big Twin	Viton coated steel/0,010"	**0934-0005**	2-pk.
-	Base gasket for 4,0" bore S&S Big Twin	Viton coated steel/0,020"	**0934-0006**	2-pk.
-	Base gasket for 4,125" bore S&S Super Sidewinder Plus	Viton coated steel/0,010"	**0934-0035**	2-pk.
-	Base gasket for 4,125" bore S&S Super Sidewinder Plus	Viton coated steel/0,020"	**0934-0036**	2-pk.
-	Base gasket for 4,125" TP cylinder	Viton coated steel/0,020"	**0934-0775**	2-pk.
-	Base gaskets for 66-84 Shovelhead w/ 3 3/16" bore	MLS	**0934-4725**	2-pk.
-	Base gasket for 66-84 Shovelhead w/ 3 3/16" bore (2 front S&S cylinders)	Viton coated steel/0,020"	**0934-4651**	2-pk.
-	Base gasket for 66-84 Shovelhead	Viton coated steel/0,020"	**0934-0781**	2-pk.
-	Base gasket for 66-84 Shovelhead	Viton coated steel/0,020"	**0934-4664**	2-pk.
-	Base gasket for 66-84 Shovelhead w/ 3 5/8" bore (2 fronts, for S&S cylinders)	Viton coated steel/0,020"	**0934-4665**	2-pk.
-	Base gasket for 66-84 Shovelhead w/ 3 5/8" bore	Fiber/0,031"	**0934-4718**	2-pk.
-	Base gaskets for 48-65 Panhead w/ 3 3/16" bore	Viton Coated Steel/0,020"	**0934-4725**	2-pk.
-	Base gaskets for 48-65 Panhead w/ 3 5/8" bore	Viton/0,020"	**0934-0783**	2-p k.
-	Base gaskets for 48-65 Panhead w/ 3 5/8" bore (S&S cylinders)	Viton	**0934-0784**	2-p k.
LOWER END/CAM/PUSHROD				
11118	Upper pushrod cover O-ring for L81-84 Shovelhead	Buna Rubber	**0934-4723**	4-pk. (ea.)
11132	Middle pushrod cover O-ring for 84-99 Evolution	Buna	**0935-0170**	25-pk. (ea.)
11132	Dipstick cover O-ring for 90-99 Evolution	Buna	**0935-0170**	25-pk. (ea.)
11133	Lower pushrod tube quad seal for L79-84 Shovelhead	Buna Rubber	**0935-0259**	10-pk. (ea.)
11145	Lower pushrod cover O-ring for 94-99 Evolution	Nitrile	**0935-0150**	25-pk. (ea.)
11157	Upper pushrod O-ring for 84-99 Evolution	Viton	**0935-0149**	25-pk. (ea.)
11241	Oil pump cover O-ring for 92-99 Evolution	Viton	**0935-0174**	25-pk. (ea.)
11241	Oil pump cover O-ring for 92-98 Evolution	Viton	**0935-0260**	10-pk. (ea.)
17955-36	Pushrod cover gasket for 36-E79 Big Twin (small)	Cork/0,156"	**0934-4713**	25-pk. (ea.)
17955-48	Pushrod cover gasket for 36-E79 Big Twin (large)	Cork/0,156"	**0934-4716**	25-pk. (ea.)
17955-48	Pushrod cover gasket for 36-E79 Big Twin (large)	Buna Rubber	**0934-4701**	25-pk. (ea.)
18633-48A/C	Rear tappet block gasket for 66-99 Big Twin	AFM/0,032"	**0934-1351**	10-pk. (ea.)
18633-48D	Rear tappet block gasket for 48-99 Big Twin	Fiber/0,020"	**0934-1644**	10-pk. (ea.)
18633-48D	Rear tappet block gasket for 48-65 Panhead	AFM/0,032"	**0934-1351**	10-pk. (ea.)
18634-48-A/B/C	Front tappet block gasket for 66-99 Big Twin	AFM/0,032"	**0934-1352**	10-pk. (ea.)
18634-48-C	Front tappet block gasket for 48-99 Big Twin	Fiber/0,020"	**0934-1645**	10-pk. (ea.)
25225-36C	Cam cover gasket for 48-69 Big Twin	AFM/0,060"	**2011-1499**	5-pk. (ea.)

All part numbers in **BLUE** are new for the OldBook.

COMETIC GASKET

REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)

FOR BIG TWIN (CONT)

OEM #	DESCRIPTION	THICKNESS/MATERIAL	PART #	QTY.
LOWER END/CAM/PUSHROD (CONT)				
25225-70	Cam cover gasket for 84-92 Evoution	AFM/0,032"	**0934-1648**	5-pk. (ea.)
25225-70B	Cam cover gasket for 84-92 Evolution	High-density fiber/0,031"	**0934-1649**	5-pk. (ea.)
25225-70B	Cam cover gasket for 84-92 Evolution	AFM/0,060"	**2011-1497**	5-pk. (ea.)
25225-70XM	Cam cover gasket for 70-84 Shovelhead	AFM/0,060"	**2011-1497**	5-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,031"	**0934-1647**	10-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,032"	**0934-1646**	5-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,060"	**2011-1498**	5-pk. (ea.)
26072-90	Oil pan gasket for 90-98 Dyna	AFM/0,060"	**0935-0217**	10-pk. (ea.)
26077-93	Oil pan gasket for 93-98 FLT	AFM/0,060"	**0935-0218**	5-pk. (ea.)
26227-58	Oil pump drive gear seal for 84-99 Evolution	Viton	**0935-0175**	5-pk. (ea.)
26231-78	Oil pump relief plug gasket for 54-80 Big Twin	Vulcanized Fiber/0,047"	**0934-4724**	10-pk. (ea.)
26244-37	Oil pump body gasket for 37-59 Big Twin	Fiber/0,020"	**0934-4697**	10-pk. (ea.)
26245-41	Oil pump gasket for 41-65 Big Twin	Vulcanized Fiber/0,010"	**0934-4695**	10-pk. (ea.)
26246-68D	Oil pump body gasket for 68-E80 Shovelhead	Vulcanized Fiber/0,010"	**0934-4693**	10-pk. (ea.)
26257-50A	Oil pump cover gasket for L50-67 Big Twin	Vulcanized Fiber/0,010"	**0934-4696**	10-pk. (ea.)
26258-68D	Oil pump cover gasket for 68-E80 Shovelhead	Vulcanized Fiber/0,010"	**0934-4694**	10-pk. (ea.)
26273-80B	Oil pump body gasket for 84-91 Evolution	Vulcanized fiber, paper/0,010"	**0934-1362**	10-pk. (ea.)
26273-80B	Oil pump body gasket for 84-91 Evolution	Metal/Viton coated, paper/0,010"	**0934-1650**	10-pk. (ea.)
26273-92	Oil pump body gasket for 92-99 Evolution	Vulcanized fiber, paper/0,010"	**0934-1361**	10-pk. (ea.)
26273-92	Oil pump body gasket for 92-99 Evolution	Metal/Viton coated, paper/0,010"	**0934-1651**	10-pk. (ea.)
26276-80A	Oil pump cover gasket for 84-91 Evolution	Vulcanized fiber, paper/0,010"	**0934-1363**	10-pk. (ea.)
26276-80A	Oil pump cover gasket for 84-91 Evolution	Metal/Viton coated, paper/0,010"	**0934-1652**	10-pk. (ea.)
26276-92	Oil pump cover gasket for 92-99 Evolution	Vulcanized fiber, paper/0,010"	**0934-1364**	10-pk. (ea.)
27062-78	Intake manifold to cylinder head O-ring for L78-84 Shovelhead	Nitrile Rubber	**0934-4717**	2-pk. (ea.)
27023-71	Bendix intake manifold gasket for 71-75 Shovelhead	Fiber/0,020"	**0935-0221**	10-pk. (ea.)
27060-55	Intake manifold O-ring kit for 66-E78 Shovelhead	-	**0934-4705**	kit
27077-78	Keihin manifold gasket for 78-84 Shovelhead	Fiber/0,031"	**0935-0222**	10-pk. (ea.)
30143-30	Generator gasket for 36-57 Big Twin	Fiber/0,020"	**0934-4677**	10-pk. (ea.)
30143-58	Generator mount gasket for 66-69 Shovelhead	Fiber/0,020"	**0934-4675**	5-pk. (ea.)
30143-58	Generator mount gasket for 58-69 Big Twin	AFM/0,032"	**0934-4676**	5-pk. (ea.)
32521-36	Timer base gasket for 36-64 Big Twin	AFM/0,032"	**0934-4685**	10-pk. (ea.)
32951-70	Points cover gasket for 70-79 Shovelhead	Fiber/0,031"	**0934-4678**	10-pk. (ea.)
32591-80	Points cover gasket for 70-99 Big Twin	AFM/0,032"	**0934-1359**	5-pk. (ea.)
32591-80	Points cover gasket for 84-99 Evolution	Fiber/0,031"	**0934-4666**	10-pk. (ea.)
63529-57	Oil line sleeve seal for 63-84 Big Twin	Viton Rubber	**0935-0828**	10-pk. (ea.)
83162-51	Points seal (double lip) for cam housing for 70-99 Big Twin	Viton	**0935-0171**	5-pk. (ea.)
32591-80	Points cover gasket for 80-84 Shovelhead	-	**0934-4666**	10-pk. (ea.)
PRIMARY/STARTER/CLUTCH				
11101	Starter oil deflector O-ring for L66-82 Shovelhead	Buna Rubber	**0935-0178**	10-pk. (ea.)
11116	Starter housing O-ring for 91-99 Evolution	Nitrile	**0935-0179**	25-pk. (ea.)
11116	Starter housing O-ring for 91-99 Evolution	Buna rubber	**0935-0850**	ea.
11125	Inner primary-to-case O-ring for 70-E82 Shovelhead	Buna Rubber	**0935-0261**	10-pk. (ea.)
11171	Starter bolt O-ring for 89-90 Evolution	Nitrile	**0934-1367**	10-pk. (ea.)
12014	Clutch hub nut seal for 65-E84 Big Twin	Dual lip Viton	**0935-0196**	5-pk. (ea.)
12018	Inner primary bearing seal for 70-E84 Shovelhead	Dual lip Viton	**0935-0262**	5-pk. (ea.)
12043	Starter shaft seal for 80-86 Big Twin	Dual lip Viton	**0935-0199**	5-pk. (ea.)
12051	Starter shaft seal for L84-88 Evolution	Viton	**0935-0180**	5-pk. (ea.)
12053	Starter shaft seal for 89-93 Evolution	Viton	**0935-0181**	5-pk. (ea.)
12066	Starter shaft seal for 94-99 Evolution	Viton	**0935-0163**	5-pk. (ea.)
25416-70	Derby cover gaskets for 70-E84 Shovelhead	AFM/0,060"	**2011-1496**	5-pk. (ea.)
25416-84	Derby cover O-ring for 84-98 Evolution	Buna	**DS-172019**	10-pk. (ea.)
25416-84	3-hole derby cover gasket for 70-84 Shovelhead	AFM/0,060"	**0934-1228**	5-pk. (ea.)
31320-80	Starter housing gasket for 84-86 Evolution	AFM/0,032"	**0934-1368**	10-pk. (ea.)
31321-80	Starter cover gasket for 80-86 Big Twin	AFM/0,032"	**0934-1369**	10-pk. (ea.)
31341-80	Starter shaft seal for 84-86 Evolution (double lip)	Viton	**0935-0182**	5-pk. (ea.)
31433-84A	Derby cover bolt washer for 84-98 Evolution	AFM/0,032"	**0935-0177**	5-pk. (ea.)
33340-90	Starter shaft O-ring for 90-92 Evolution	Nitrile	**0935-0278**	25-pk. (ea.)
34901-79A	Primary gasket for 80-93 FLT, FXR	AFM/0,060"	**2011-1490**	5-pk. (ea.)
34901-94A	Primary gasket for 94-98 FLT	AFM/0,060"	**2011-1487**	5-pk. (ea.)
34902-79A	Primary-to-transmission gasket (large) for 80-83 Shovelhead	Fiber/0,031"	**0934-1653**	10-pk. (ea.)
34903-79	Primary-to-transmission gasket (small) for 80-83 Shovelhead	Fiber/0,039"	**0934-1654**	10-pk. (ea.)
34906-85A	Inspection cover gasket for 86-98 FLT/FXR	AFM/0,060"	**2011-1494**	5-pk. (ea.)
60538-81C	Primary gasket for 66-88 FX, FLH	AFM/0,060"	**2011-1489**	5-pk. (ea.)
60539-89	Primary gasket for 89-98 FXST/FLST, 91-95 Dyna	AFM/0,060"	**2011-1488**	5-pk. (ea.)
	Primary gasket for 84-88 FXST/FLST	AFM/0,060"	**0934-4809**	5-pk. (ea.)
60559-80	Starter housing gasket for 66-85 Big Twin	AFM/0,032"	**0934-1371**	10-pk. (ea.)
60565-36	Derby cover gasket for 36-65 Big Twin	AFM/0,060"	**0934-1712**	5-pk. (ea.)
60567-36	Inspection cover gasket for 36-64 FL, FLH	AFM/0,060"	**0934-1365**	5-pk. (ea.)
60567-36	Inspection cover gasket for 36-64 FL, FLH	Cork/0,125"	**0934-4680**	5-pk. (ea.)
60567-65B	Inspection cover gasket for 65-98 FX, FL, FXWG	AFM/0,060"	**2011-1495**	5-pk. (ea.)
60629-55	Chain housing to motor gasket for 55-64 Panhead	Fiber/0,031"	**0934-1366**	10-pk. (ea.)
60645-65	Solenoid mount gasket	PSA foam	**0935-0183**	10-pk. (ea.)

COMETIC GASKET

REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)

OEM #	DESCRIPTION	THICKNESS/MATERIAL	PART #	QTY.
FOR BIG TWIN (CONT)				
PRIMARY/STARTER/CLUTCH (CONT)				
63859-95A	Primary spacer gasket for 95-99 FXST/FLST	AFM/0,060"	**0934-1405**	5-pk. (ea.)
-	Primary-to-transmission gasket (large) for 84 Evolution	High-density fiber/0,031"	**0934-1653**	10-pk. (ea.)
-	3-hole derby cover gasket for 84-98 Evolution	Viton	**0934-1228**	5-pk. (ea.)
-	Inner primary case saver gasket	AFM, 0,032"	**0934-4745**	5-pk.
TRANSMISSION				
6007	Drain plug washer for 84-94 Evolution	Nylon/0,063"	**0935-0185**	10-pk. (ea.)
11115	Countershaft O-ring for 65-86 Big Twin	Buna Rubber	**0935-0187**	10-pk. (ea.)
11117	Shifter sleeve O-ring for L84-99 FXR, Dyna	Viton	**0934-1372**	25-pk. (ea.)
11132	Dipstick cover O-ring for 90-99 Evolution	Viton	**0935-0170**	25-pk. (ea.)
11162	Right end mainshaft O-ring seal for L84-86 Evolution	Viton	**0935-0188**	25-pk. (ea.)
11165	Main shaft quad seal for L84-99 Evolution	Viton	**0935-0189**	10-pk. (ea.)
11166	Mainshaft bearing O-ring for 84-86 Evolution	Viton	**0935-0190**	25-pk. (ea.)
11178	Filler plug O-ring for 87-98 Evolution	Viton	**0935-0191**	10-pk. (ea.)
11179	Clutch cable O-ring for 87-99 Evolution	Viton	**0935-0192**	25-pk. (ea.)
11191	Shifter shaft seal O-ring for 90-99 FXST/FLST	Viton	**0934-1374**	25-pk. (ea.)
12010	Shifter shaft seal for L79-86 Big Twin	Dual lip Viton	**0935-0193**	5-pk. (ea.)
12013	Main drive gear seal for L81-86 Big Twin	Dual lip Viton	**0935-0195**	5-pk. (ea.)
12013A	Main drive gear seal for L81-86 Big Twin	Viton, metal	**0935-0194**	5-pk. (ea.)
12022	Main drive gear seal for L66-E81 Shovelhead	-	**0935-0197**	5-pk. (ea.)
12026B	Sprocket shaft seal for 84-99 Evolution	Viton	**0935-0176**	5-pk. (ea.)
12035A	Main drive gear seal for 91-99 Evolution	Viton	**0935-0198**	5-pk. (ea.)
12044DL	Double-lip main drive gear seal for 80-E84 Shovelhead	Dual lip Viton	**0935-0200**	ea.
12045DL	Shifter shaft seal for 80-84 Shovelhead	Dual lip Viton	**0935-0201**	5-pk. (ea.)
12050	Main shaft seal for L84-94 Evolution	Viton	**0935-0202**	ea.
12052	Inner primary seal for L84-99 Evolution	Viton	**0935-0162**	5-pk. (ea.)
12067A	Main shaft seal for 95-99 Evolution	Viton	**0935-0203**	ea.
31341-80-DL	Starter shaft seal for 80-84 Shovelhead	Dual lip Viton	**0935-0182**	5-pk. (ea.)
33043-80	Neutral indicator washer for 65-95 Big Twin	Nylon/0,063"	**0935-0204**	10-pk. (ea.)
33196-79	Shifter cover gasket for L79-86 Big Twin	AFM/0,032"	**0935-0219**	10-pk. (ea.)
33295-36	End cover gasket for 36-76 Big Twin	AFM/0,032"	**0934-1375**	10-pk. (ea.)
34036-36	Shifter cam seal (rubber) for 36-E79 Big Twin	Dual lip Viton	**0935-0206**	10-pk. (ea.)
34036-80	Shift fork cap O-ring for 80-86 Big Twin	Viton	**0935-0207**	10-pk. (ea.)
34552-52	Ratchet cover gasket for 52-E79 Big Twin	AFM/0,032"	**0934-1376**	10-pk. (ea.)
34565-52	Shifter adapter plate for 66-E79 Shovelhead	AFM/0,032"	**0934-1377**	10-pk. (ea.)
34824-36	Top cover gasket for 36-E79 Big Twin	AFM/0,060"	**0934-1378**	10-pk. (ea.)
34824-79	Top cover gasket for L79-86 Big Twin	AFM/0,032"	**0934-1379**	10-pk. (ea.)
34904-79	Top cover gasket for 80-86 Big Twin	AFM/0,032"	**0934-1380**	10-pk. (ea.)
34904-86B	Top cover gasket for 87-99 Evolution (thin version)	AFM/0,032"	**0934-1381**	10-pk. (ea.)
34906-79A	Inspection cover gasket for 80-83 FLT, FXR	AFM/0,060"	**2011-1493**	5-pk. (ea.)
34917-90A	Top cover gasket for 90-98 Dyna	AFM/0,032"	**0934-1382**	10-pk. (ea.)
35151-52A	Motor shaft sprocket seal for L74-84 Shovelhead	Dual lip Viton	**0935-0829**	ea.
35230-39DL	Main shaft seal for 36-79 Big Twin	Dual lip Viton	**0935-0208**	5-pk. (ea.)
35652-79A	Bearing housing gasket for 80-98 Big Twin	AFM/0,032"	**0934-1383**	10-pk. (ea.)
36801-79	Clutch release cover gasket for 80-86 Big Twin	AFM/0,032"	**0934-1384**	10-pk. (ea.)
36801-87B	Transmission end cover gasket for 87-99 Evolution	AFM/0,032"	**0934-1385**	10-pk. (ea.)
37091-80	Filler plug washer for 80-86 Big Twin	Nylon/0,094"	**0935-0210**	10-pk. (ea.)
37101-84	Clutch release lever O-ring for 84-86 Evolution	Viton	**0935-0211**	ea.
37741-67A	Single-lip main shaft seal for L79-81 Shovelhead	Single lip Viton	**0935-0212**	5-pk. (ea.)
37741-82	Double-lip main drive gear seal for 82-86 Big Twin	Dual lip Viton	**0935-0213**	5-pk. (ea.)
60641-74	Shifter shaft seal for 74-85 Big Twin	Viton	**0935-0184**	5-pk. (ea.)
62423-90	Oil filler spout gasket for 91-98 Dyna	AFM/0,032"	**0934-1386**	10-pk. (ea.)
62432-93	Oil filler spout gasket for 93-98 FLT	AFM/0,032"	**0934-1387**	10-pk. (ea.)
62672-90	Dipstick cover O-ring for 91-98 Evolution	Viton	**0935-0214**	10-pk. (ea.)
62702-52	Drain plug washer for 66-86 Big Twin	Vulcanized Fiber/0,015"	**0935-0216**	10-pk. (ea.)
67141-36	Speedometer drive gasket for 36-84 Big Twin	AFM/0,032"	**0934-1388**	10-pk. (ea.)
AIR/FUEL/INTAKE				
27002-89	Carb-to-manifold seal for 89-99 Evolution	High-density fiber/0,031"	**0935-0173**	ea.
27077-78	Keihin manifold gasket for 84-89 Evolution	High-density fiber/0,031"	**0935-0222**	10-pk. (ea.)
29242-83	Intake to head compliance fitting seal for 84-89 Evolution	Viton	**0934-1360**	10-pk. (ea.)
29313-95	Air filter backplate gasket for 95-98 Evolution	AFM/0,060"	**0934-1343**	10-pk. (ea.)
29313-95	Air filter backplate gasket for 95-98 Evolution	AFM/0,060"	**0934-2018**	10-pk. (ea.)
EXHAUST				
65324-83A	Exhaust port gasket, tapered, for 84-99 Evolution	Stainless graphite mesh	**0934-1337**	10-pk. (ea.)
-	Exhaust port gasket for 84-99 Evolution	Stainless spiral wound	**0934-1237**	10-pk. (ea.)
-	Exhaust port gasket, race style, for 84-99 Evolution	Stainless graphite mesh	**0934-1336**	10-pk. (ea.)

OEM #	DESCRIPTION	THICKNESS/MATERIAL	PART #	QTY.
FOR XL				
TOP END				
11101	Rocker arm O-ring for 57-85 XL	Viton	**0935-0178**	10-pk.
16769-72A	Head gasket for 72-E73 XL	Copper/0,020"	**0934-4719**	2-pk.
16769-73	Head gaskets for L73-85 XL	Copper/0,032"	**0934-4709**	2-pk.
16769-82	Head gaskets for 72-E73 XL	Copper/0,032"	**0934-4708**	2-pk.
16769-82	Head gaskets for L73-85 XL	Copper/0,043"	**0934-4710**	2-pk.
16774-57	Cylinder base gaskets for 57-71 XL	High-density fiber/0,012"	**0934-4720**	2-pk.

All part numbers in BLUE are new for the OldBook.

COMETIC GASKET

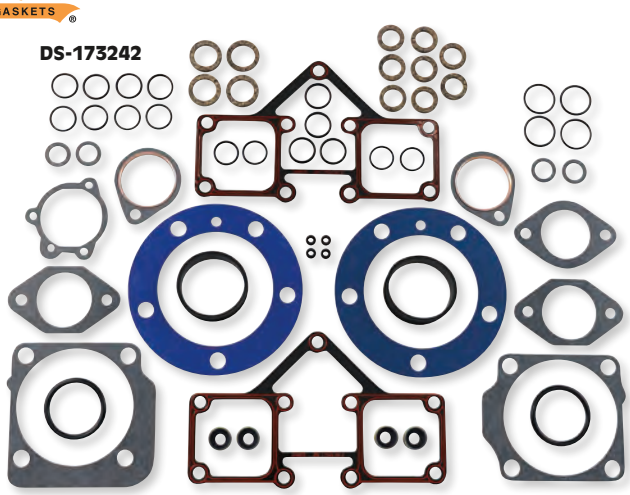
REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)

OEM #	DESCRIPTION	THICKNESS/MATERIAL	PART #	QTY.
FOR XL (CONT)				
TOP END (CONT)				
16774-72	Cylinder base gaskets for 72-85 XL	High-density fiber/0,031"	**0934-4715**	2-pk.
17536-70	Rocker box cover gasket for 57-85 XL	High-density fiber/0,020"	**0934-4714**	2-pk. (ea.)
25224-52	Cam cover gasket for 57-81 XL	AFM/0,060"	**0934-4668**	ea.
25224-52	Cam cover gasket for 57-81 XL	AFM/0,060"	**0934-4669**	5-pk. (ea.)
25263-81	Cam cover gasket for 82-85 XL	AFM/0,060"	**0934-4682**	ea.
LOWER END/CAM/PUSHROD				
6007	Drain plug washer for 80-85 XL	Nylon	**0935-0185**	10-pk. (ea.)
11124	Points shaft seal for 71-85 XL	Dual Lip Viton	**0935-0230**	5-pk. (ea.)
11157	Upper pushrod cover O-ring for 84-85 XL	Viton	**0935-0149**	25-pk. (ea.)
12023	Magneto seal for 68-69 XLCH	Viton	**0935-0832**	5-pk.
17955-36	Pushrod seal for 57-E79 XL (small)	Cork/0,156"	**0934-4713**	25-pk. (ea.)
17955-36A	Pushrod cover seal for 57-E79 XL	Nitrile Rubber	**0934-4700**	25-pk. (ea.)
17955-48	Pushrod cover seal for 57-E79 XL (large)	Cork/0,156"	**0934-4716**	25-pk. (ea.)
24978-57	Oil strainer gasket for 57-76 XL	Cork/0,031"	**0934-4699**	10-pk. (ea.)
26256-52	Oil pump gasket for 57-74 XL	Vulcanized Fiber/0,010"	**0934-4692**	10-pk. (ea.)
26258-52	Oil pump outer cover gasket for 57-E62, 72-76 XL	Vulcanized Fiber/0,010"	**0934-4688**	10-pk. (ea.)
26258-62	Oil pump outer cover gasket for L62-71 XL	Vulcanized Fiber/0,010"	**0934-4691**	10-pk. (ea.)
26259-52	Oil pump inner cover gasket for 57-E62, 72-76 XL	Vulcanized Fiber/0,010"	**0934-4690**	10-pk. (ea.)
26259-62	Oil pump inner cover gasket for L62-71 XL	Vulcanized Fiber/0,010"	**0934-4689**	10-pk. (ea.)
26434-76A	Oil pump cover O-ring for 77-85 XL	Nitrile Rubber	**0934-4703**	10-pk. (ea.)
26495-75	Oil pump gasket for 75-84 XL	High-density fiber	**0934-4698**	10-pk. (ea.)
29550-55	Magneto cover gasket for 58-E84 XL	Fiber/0,031"	**0934-4681**	5-pk. (ea.)
30143-58	Generator mount gasket	Fiber/0,020"	**0934-4675**	5-pk. (ea.)
32591-70	Points cover gasket for 70-85 XL	Fiber/0,031"	**0934-4678**	10-pk. (ea.)
34624-77	Footpeg stud gasket for 77-85 XL	Vulcanized Fiber	**0935-0233**	10-pk. (ea.)
37339-53	Release rod oil seal for 57-70 XL	Viton	**0935-0827**	ea.
60645-65	Solenoid mount gasket for 67-80 XL	Foam	**0935-0183**	10-pk. (ea.)
63529-57	Oil line sleeve seal for 57-85 XL	Viton	**0935-0828**	10-pk. (ea.)
PRIMARY/STARTER				
11103	Clutch gear O-ring for L57-66 XLH, 57-69 XLCH	Buna Rubber	**0934-4707**	10-pk. (ea.)
11125	Inner primary-to-engine case O-ring for 70-85 XL	Viton	**0935-0261**	10-pk. (ea.)
11139	Filler cap O-ring for L78-85 XL	Buna Rubber	**0934-4704**	10-pk. (ea.)
31461-70	Starter hole cover plate gasket for 70-E79 XL	Fiber/0,031"	**0934-4721**	ea.
31471-67A	Starter gasket for 67-80 XL	Fiber/0,031"	**0934-4679**	10-pk. (ea.)
31488-77	Starter housing mount gasket for 67-80 XL	Fiber/0,012"	**0934-4683**	10-pk. (ea.)
31488-81B	Starter gasket for 81-84 XL	Fiber/0,020"	**0934-4667**	10-pk. (ea.)
34035-52	Shifter shaf seal for 57-85 XL	Viton	**0935-0833**	ea.
34952-52	Primary cover gasket for 58-60 XLCH (0,060")	AFM/0,060"	**0934-4670**	ea.
34952-52	Primary cover gasket for 58-60 XLCH	AFM/0,060"	**0934-4671**	5-pk.
34955-67	Primary cover gasket for 67-76 XLH, 70-76 XLCH	AFM/0,060"	**0934-4672**	ea.
34955-67	Primary cover gasket for 67-76 XLH, 70-76 XLCH	AFM/0,060"	**0934-4673**	5-pk. (ea.)
34955-67A	Primary cover gasket for 67-76 XLH, 70-76 XLCH	AFM/0,060"	**0934-4722**	ea.
37740-57	Clutch shell seal for L57-66 XLH, 57-69 XLCH	Viton	**0935-0834**	ea.
60567-36	Inspection cover gasket for 58-69 XLCH	AFM/0,060"	**0934-1365**	5-pk. (ea.)
60567-36	Inspection cover gasket for 58-69 XLCH	Cork/0,125"	**0934-4680**	5-pk. (ea.)
TRANSMISSION/CLUTCH				
12023	Pushrod cover oil seal for 83-85 XL	Viton	**0935-0832**	5-pk. (ea.)
35151-52A	Motor sprocket shaft seal for L84-85 XL	Viton	**0935-0829**	ea.
35151-74	Transmission mainshaft seal for L84-85 XL	Viton	**0935-0234**	5-pk. (ea.)
37531-56B	Clutch gear oil seal for 57-66 XLH, 57-69 XLCH	Viton	**0935-0831**	ea.
37762-52	Clutch cover gasket for 57-70 XL	Fiber/0,031"	**0934-4674**	ea.
AIR/FUEL/INTAKE				
27023-71	Bendix manifold gasket for 72-E76, 79-85 XL	Fiber/0,020"	**0935-0221**	10-pk. (ea.)
27062-78	Manifold to cylinder head O-ring for 79-85 XL	Buna Rubber	**0934-4717**	2-pk. (ea.)
MISCELLANEOUS				
12023	Magneto seal for 68-69 XLCH	Viton	**0935-0832**	5-pk.
24978-57	Oil strainer gasket for 57-76 XL	Cork/0,031"	**0934-4699**	10-pk. (ea.)
26256-52	Oil pump gasket for 57-74 XL	Vulcanized Fiber/0,010"	**0934-4692**	10-pk. (ea.)
26258-52	Oil pump outer cover gasket for 57-E62, 72-76 XL	Vulcanized Fiber/0,010"	**0934-4688**	10-pk. (ea.)
26258-62	Oil pump outer cover gasket for L62-71 XL	Vulcanized Fiber/0,010"	**0934-4691**	10-pk. (ea.)
26259-52	Oil pump inner cover gasket for 57-E62, 72-76 XL	Vulcanized Fiber/0,010"	**0934-4690**	10-pk. (ea.)
26259-62	Oil pump inner cover gasket for L62-71 XL	Vulcanized Fiber/0,010"	**0934-4689**	10-pk. (ea.)
26434-76A	Oil pump cover O-ring for 77-85 XL	Nitrile Rubber	**0934-4703**	10-pk. (ea.)
26495-75	Oil pump gasket for 75-84 XL	High-density fiber	**0934-4698**	10-pk. (ea.)
29550-55	Magneto cover gasket for 58-69 XLCH	Fiber/0,031"	**0934-4681**	5-pk. (ea.)

All part numbers in BLUE are new for the OldBook.

Genuine JAMES GASKETS

DS-173242



GASKET SETS FOR BIG TWIN MODELS

- Top-quality gaskets available as complete sets, motor sets or top end sets
- Contain gaskets, oil seals and O-rings necessary to completely rebuild an Evolution, Shovelhead, Panhead or Knucklehead/Flathead engine

PART #	DESCRIPTION
COMPLETE GASKET SETS	
DS-173323	For 70-84 Shovelhead 4-speed (Fire-Ring™ head gaskets); repl. OEM #17029-70A
DS-173239	For 66-84 Shovelhead 4-speed; repl. OEM #17029-70/17029-66
DS-173326	For 48-65 Panhead; repl. OEM #17028-48
DS-173356	For 40-73 45" Flathead (copper head gaskets); repl. OEM #17026-40
DS-174965	For 36-47 EL/FL; repl. OEM #17028-36
0934-0546	For 36-48 UL/ULH; repl. OEM #17027-36

PART #	DESCRIPTION
TOP END GASKET SETS	
2011-2097	For 92-99 80" Evolution w/ S&S/Landmark billet rocker boxes (0,045" head gaskets, 0,020" metal base and metal rocker gaskets)
0934-1590	For 92-99 4" bore Evolution w/ S&S/Landmark billet rocker boxes (0,045" head gaskets, 0,020" metal base and metal rocker gaskets)
0934-1717	For 92-99 4" bore Evolution (metal base and metal rocker gaskets); repl. OEM #17033-92-4
0934-0947	For 92-99 80" Evolution (multi-layered steel head gaskets, RCM base gaskets, metal rocker gaskets); repl. OEM #17040-92A
DS-173250	For 92-99 80" Evolution (metal rocker gasket/0,045" head gaskets); repl. OEM #17040-92A
DS-174972	For 84-91 80" Evolution (3 5/8" big bore) (0,045" head gaskets/steel base gaskets/rubber rocker gaskets); repl. OEM #17033-83
DS-173275	For 92-99 80" Evolution (3 5/8" big bore) (rubber rocker gaskets/0,045" head gaskets); repl. OEM #17033-92
0934-0946	For 84-91 Big Twin (multi-layered steel head gaskets, rubber rocker gaskets); repl. OEM #17033-83-MLS
DS-173251	For 84-91 Big Twin (rubber rocker gaskets/0,045" head gaskets); repl. OEM #17033-83A
DS-173342	For 84-91 Big Twin (cork rocker gaskets); repl. OEM #17033-83
DS-174982	For 78-84 Shovelhead (3 5/8" big bore) (steel base gaskets)
DS-173242	For 66-84 Shovelhead (0,045" head gaskets/0,030" base gasket); repl. OEM #17034-66
DS-174973	For 66-84 Shovelhead (Fire-Ring™ head gaskets); repl. OEM #17034-66X

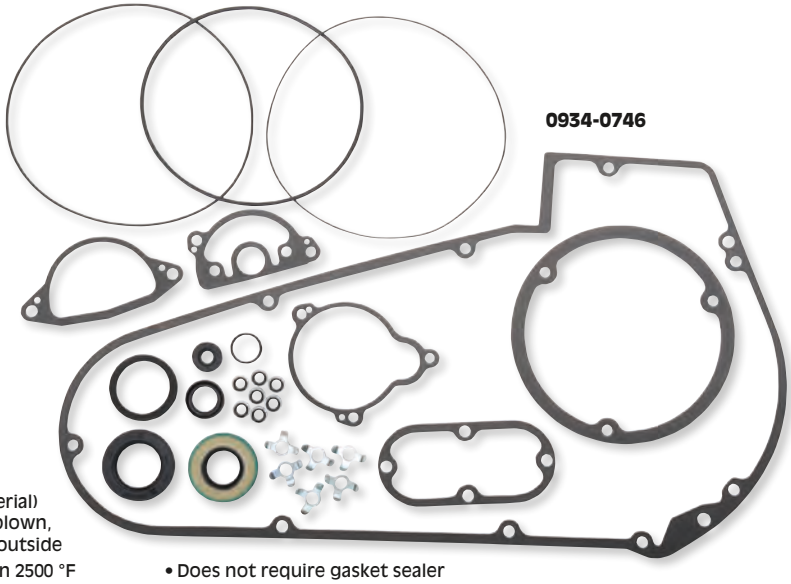
DS-174956	For 77-85 XL models, w/ silicone bead
0934-1724	For 70-E82 Shovelhead w/ 8-hole primary cover (0,0652" paper primary)



0934-0746

PRIMARY GASKET KITS AND OIL CHANGE KITS FOR BIG TWIN

• Cometic's proprietary AFM (Aluminum Foamette Material) gaskets feature an aluminum core with a chemically blown, compounded nitrile synthetic rubber bonded to the outside
• Gaskets have resistance to temperatures of more than 2500 °F
• Have an 85% shape-recovering while maintaining strong torque retention – ideal gasket material for machined surfaces
• Does not require gasket sealer
• Kits include all gaskets, seals, O-rings and lock tab washers required for both the inner and outer primary

PART #	DESCRIPTION
0934-0745	94-98 FLT/FLHT/FLHR/FLTR/FXR

0407-0677

0407-0673

FORK SEAL AND DUST WIPER KITS

- Seal profile is engineered to create equal pressure in each seal lip; equalized seal pressure creates less drag and longer seal life
- MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily
- Kits include fork seals and dust wipers

PART #	DESCRIPTION
0407-0677	For 84-99 FXS/FXST, 93-98 FXDWG, 84-86 FXWG (41 mm)
0407-0674	For 91-98 FXD, L87-00 FXR (39 mm)

PART #	DESCRIPTION
0407-0673	For 83-85 FXEF/SB, 84-E87 FXR, 83-85 XL (35 mm)

0407-0672

0407-0057

0407-0671

FORK SEAL KITS

- Seal design and special elastomer has 1/3 of the stiction and up to four times the life of an OEM seal
- Dual-lip design balances the drag forces across both sealing lips resulting in less lip distortion, which extends seal life and reduces seal operating temperature
- Sold in pairs or 10-pk. as noted

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT/FLHX/FLTR, 84-99 FXST/FLST MODELS, 93-98 FXDWG MODELS, 84-86 FXWG MODELS W/ 41 MM SHOWA FORKS

MAGNUM STERLING CHROMITE® II

BRAIDED SPARK PLUG WIRES

- The industry's best braid is available in Sterling Chromite®, polished stainless, candy apple blue, candy apple red and black pearl
- Braid perfectly matches all other Magnum cables and brake lines
- High-voltage, high-temperature 8 mm silicone ignition wire with an OE style high-performance suppression conductor core for guaranteed compatibility with all H-D ignition systems
- Heavy-walled, extreme-duty, crystal-clear FEP Fluoropolymer outer insulation eliminates the need for grounding wires and ensures no interference with late model computer modules

PART #	DESCRIPTION
FOR L85-96 FLT/FLHT/FLHR	
2104-0104	Polished stainless
FOR 84-99 FXST/FLST (W/ COIL ADJACENT TO OIL TANK), 91-98 DYNA GLIDE	
2104-0096	Polished stainless
0802-3023	Sterling Chromite II
2104-0009	Candy apple red
2104-0010	Candy apple blue
2104-0014	Black pearl
FOR 82-94, 99-00 FXR	
2104-0099	Polished stainless
0802-3030	Sterling Chromite II

0802-3030

2104-0014

- Posi-lock spring clip terminals and silicone boots ensure maximum performance and clean spark delivery
- OE direct fitments for ease of installation

PART #	DESCRIPTION
FOR 82-94, 99-00 FXR (CONT)	
2104-0028	Candy apple red
FOR 65-84 FX/FL/FLH (W/ COIL ADJACENT TO OIL TANK)	
0802-3023	Sterling Chromite II
2104-0096	Polished stainless
2104-0009	Candy apple red
2104-0010	Candy apple blue
2104-0014	Black Pearl
FOR 65-85 XL	
0802-3024	Sterling Chromite II

8 MM CUSTOM-COLORED PLUG WIRES

- Designer plug wire sets come in distinctive, highly visible colors
- Precut and have the plug/coil boots and terminals already installed
- Boots and wires are made from extra-high-temperature silicone, which gives protection up to 316 °C (600 °F)
- Spiro-Pro core provides up to 10 times the conductivity of a standard carbon-core wire
- Low resistance means they run cooler and last three to four times longer than carbon-core wires
- Designed for electronic ignitions, but also work great on point types
- Available in prefitted styles
- Universal wire kits feature 61 cm (24") wire leads (not for Twin Cam)
- Sold in pairs

PART #	DESCRIPTION
FOR FOR L84-98 FLT/FLHT/FLHR/FLTR (54,5 CM (21,5") LEAD W/ 180° PLUG BOOT, 180° COIL BOOT, 23 CM (9") LEAD W/ 180° PLUG BOOT, 90° COIL BOOT)

ACCEL

THUNDERSPORT UNIVERSAL 5 MM IGNITION WIRE KIT

- Half the diameter of stock wires, and flexible
- Run through cylinder heads, rocker covers and frame tubes for a completely hidden, clean look
- 150 ohms per foot: 5 mm silicone jacket is rated for over 288 °C (550 °F)
- Available in black
- Kit includes two 152 cm (5') leads with 90° spark plug ends

PART #	DESCRIPTION
2104-0046	Black

Single-plug straight ends	DS-242655	DS-242656
Dual-plug straight ends	-	DS-242658

300+ CUSTOM FIT 8 MM IGNITION WIRE SETS

- Black silicone jacket with aramid core and fiberglass braiding
- Terminal ends are high-conductivity brass with silicone boots
- Eliminate electrical leakage; provide excellent performance in high-temperature applications
- Work with electronic- or point-type ignitions

PART #	DESCRIPTION
2104-0122	For 97-98 FLT/FLHT/FLHR/FLTR
2104-0123	For 94-96 FLT/FLHT/FLHR
2104-0121	For 91-99 FXST/FLST

2104-0119

PART #	DESCRIPTION
2104-0119	For 82-94, 99-00 FXR
2104-0337	For 84-90 Softail, 91-98 Dyna, 85-86 FXWG, 71-E78 XLH/XLCH, 79-85 XL/XLCH/XLX, 79-82 XLS

CUSTOM 8,8 MM WIRE SETS

- These yellow or black heavy-duty silicone 8,8 mm wire sets are cut to size and available with suppressor core wire

NOTE: L78-present H-D ignition systems require the use of suppression core wire; copper wire may damage the ignition system.

DYNATEK
dyna performance electronics

UNIVERSAL 8 MM SUPPRESSION PLUG WIRE SET

- Dyna suppression core spark plug wires use the highest grade graphite suppression core to reduce electrical noise and increase engine performance
- Two wires, each 122 cm L (48"); cut to length; can be used for up to four cylinders

PART #	DESCRIPTION
DW800	8 mm suppression plug wire set

Daytona Twin Tec

UNIVERSAL SPARK PLUG WIRE KIT

- Wires available in 8,5 mm diameter
- Kit includes plug wires measuring 45,5 cm/61 cm (18"/24"), terminals and 90° and 115° spark plug boots for many applications

PART #	DESCRIPTION
7806-1557	For Evolution Big Twin models

PARTS UNLIMITED

FLASHING SPARK PLUG CAPS

- Fit 10 mm, 12 mm and 14 mm plugs with terminal nuts
- Accept 7 mm or 8 mm plug wires
- For terminal nut-style plugs
- Sold each

NOTE: Not for use on fuel-injected models.

PERFORMANCE SPARK PLUGS

- Conventional-style spark plugs, available in OEM heat ranges
- Plugs have a unique look with a black ceramic body and bold red logo/script
- Insulator is made of 95% pure alumina, features strong resistance to heat shock and superior insulation
- Multi-rib design of the insulator eliminates flashover
- Nickel-plated housing prevents oxidation and corrosion
- Multi-layer gaskets and heat crimping process ensure a leak-free, gas-tight seal
- Copper core electrode prevents oxidation and corrosion, has good electrical and heat conductivity and creates long spark plug service life
- Sold in pairs in blister pack

ACCEL

"CYCLELITE" PLATINUM SPARK PLUGS

- Accel's platinum plugs are made from state-of-the-art components
- Platinum tipped for longer life and durability that holds a precise gap even longer
- Knurled chromium-nickel alloy side wire for greater durability and greater spark with reduced voltage
- Pure copper core decreases fouling
- Sold in pairs

PART #	DESCRIPTION	GAP
Y2410P	For 80-81 Shovelhead	0,040"

ACCEL

U-GROOVE SPARK PLUGS

- Accel's state-of-the-art, U-Groove spark plugs with ground electrodes, copper glass inner seal and an electric heat seal to prevent leakage in high-compression engines
- Permit the spark to develop a larger, fuller flash for a more complete burn
- Extra-wide heat range
- Sold in pairs unless noted in chart

IW16

DENSO

IRIDIUM SPARK PLUGS

- Six times harder than platinum, iridium doesn't melt in temperatures up to 2.204 °C (4.000 °F)
- Because the plug's iridium electrode can shrink to only 0,4 mm, voltage requirements decrease while firing performance improves
- 360° laser welding of electrode provides a seal that resists wear even in the worst conditions
- Ground electrode features a tapered cut and U-groove that form a large volume area for the flame's center
- Sold each

IRIDIUM PART #	NGK REFERENCE #	DESCRIPTION
IW16	BPR5ES-11	For 78-84 Big Twin
IW20	BPR6ES-11	For 83-85 XR 1000

IGNITION PARTS

SPARK PLUGS

- Superior construction for serious power
- NGK makes plugs for almost every application and riding style
- Versatile plugs with wide operating heat ranges prevent fouling from running too cool and pre-ignition from running too hot
- Features include high alumina ceramics for improved heat dissipation and electrical insulation, deep-seated copper core for a wider heat range and a nickel alloy tip for longer life
- Sold each

PART #	DESCRIPTION
BPR5ES-11	For 84-99 80" Evolution Big Twin (Cooler plug)
BPR5ES-11	For 75-81 Shovelhead
BPR6HS-10	For 79-85 XL
BPR6HS	For 79-85 XL
B6L	For 57-78 XL

IGNITION PARTS

IRIDIUM IX SPARK PLUGS

- The ultimate in spark plug technology and performance from the industry leader
- The iridium electrode is 25% smaller than a platinum electrode, and it's just 1/4 the size of a conventional nickel electrode
- Ultra-small-diameter center electrode reduces voltage requirement and extends ignition system life
- Metal shell plating has enhanced anticorrosion qualities
- Sold each

PART #	DESCRIPTION
BPR5EIX-11	For 84-00 80" Evolution Big Twin
BPR5EIX-11	For 82-84 Shovelhead
BPR6EIX-11	For 83-85 XR1000
BPR6HIX	For 79-85 XL

SPARK PLUGS

AU-996

AU-4265

- Designed for a sharper, leaner spark with tapered nickel/chrome alloy tip and copper center electrode
- Sold each

PART #	DESCRIPTION
AU-4265	For 84-99 80" Evolution Big Twin
AU-2585	For 82-84 Shovelhead
AU-4265	For 75-81 Shovelhead
AU-4275	For 48-74 Big Twin
AU-4123	For 79-85 XL
AU-996	For 57-78 XL

E3 RESISTOR SPARK PLUG

- Unique electrode shape maximizes the power created by the spark plug – Diamond Fire technology
- Electrode is a combination of performance and technology that results in an improved flame kernel shape
- This flame front ignites the bulk air/fuel mixture faster, moves heat into the combustion chamber faster and creates a more localized pressure front for faster pressure rise during the cylinder power stroke
- The result is more complete combustion and an improvement in engine performance
- A truly premium performance plug
- Sold each

PART #	DESCRIPTION	NGK REF	H-D REF
2103-0083	For 78-84 Big Twin and 83-85 XR1000 models	BPR5EIX, BPR5ES, BPR6EIX, BPR6ES, BPR7EIX, BPR7ES, BUR4EB11, BUR5EB11, BUR6EA, BUR7EA11, GR45, GR4GP, GR4IX, GR55, GR5IX, IGR7AG, PGR5C11, PGR6A, PGR7A, ZGR5C	HD56, HD5A6, HD5A6A, HD5R6, HD5R6A, HD5RL, HD6RL

SPARK PLUG HOLDER

- A replica of the spark plug holder found on early Panheads, updated to accept even late-model Shovelhead deep-reach plugs
- Metal holder clamps onto the rear frame tube behind the oil tank on all Big Twin models and holds two extra spark plugs (not supplied)
- Held in place by a thumbscrew

PART #	DESCRIPTION
DS-196091	Chrome-plated

SPARK PLUG CADDY

- Dual-plug caddy holds two 14 mm spark plugs securely in place

PART #	DESCRIPTION
2870368	Spark plug caddy

2102-0369

2102-0368

2102-0370

COMP CAMS

FAST SINGLE- AND DUAL-FIRE IGNITION COILS

- Smaller and lighter than stock
- Bolt directly to stock mounts
- Greater spark energy than stock for improved fuel mileage and better starts
- Overmolded poly case is epoxy sealed
- PART #s 2102-0368 and 2102-0369 provide 30.000 volts of spark energy to eliminate lean surge

PART #	RESISTANCE	FITMENT	DIMENSIONS	OEM #
DUAL-FIRE COILS				
2102-0367	3 ohm	For 80-99 Big Twin models	70 mm L x 70 mm W x 83 mm H	31643-83
2102-0369	3 ohm	For 80-99 Big Twin	83 mm L x 70 mm W x 79 mm H	31614-83F
2102-0368	5 ohm	For 66-84 Big Twin models	83 mm L x 70 mm W x 79 mm H	31609-65A
SINGLE-FIRE COILS FOR MOST AFTERMARKET IGNITIONS				
2102-0370	3 ohm	For 80-99 Big Twin	83 mm L x 70 mm W x 83 mm H	-

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

S&S PERFORMANCE

3-OHM HIGH-OUTPUT SINGLE-FIRE IGNITION COIL

- This single-fire coil is actually two separate coils in a single package
- Works well with any single-fire ignition system

PART #	DESCRIPTION
2102-0021	3-ohm single-fire coil for electronic ignition

2102-0204

2102-0205

ANDREWS

SUPERVOLT 12V IGNITION COILS

- The original Andrews ignition coil adds great performance with a classic look
- Replacement coils deliver 30.000+ volts
- 2,8 ohm coil fits electronic ignition/dual-fire
- 4.8 ohm coil fits points ignition/dual-fire
- Produce more voltage than a stock coil
- Sold each

PART #	DESCRIPTION
2102-0204	4,8 ohm coil, black
2102-0205	2,8 ohm coil, red

140403

140403S

ACCEL

UNIVERSAL "SUPER COIL" KITS

- Extremely high output and available in one- and two-coil versions
- 12V, 3 ohm coils ideal for custom and dual-plug applications; each comes with 9 mm plug wires

NOTE: Not for use with CDI ignitions or Twin Cam applications.

2102-0264

PART #	DESCRIPTION
140403	Yellow two-coil kit
140403S	Yellow one-coil kit
2102-0264	Black one-coil kit

2102-0079

2102-0080

Daytona Twin Tec

SINGLE-FIRE MINI IGNITION COIL KIT

- Miniature coil intended for custom motorcycles where space is at a premium and a single-fire coil is required for maximum performance
- 3-ohm primary is compatible with Twin Tec ignitions and most newer aftermarket single-fire ignitions
- Kit includes two coils, universal spark plug wire set, 90° and 135° spark plug boots and all required electrical terminals
- Coils also available separately (two coils required per application)
- Coil measures 61 mm L x 58,4 mm H x 40,6 mm W (2,4" x 2,3" x 1,6"); weight is 198 g (7 oz.)

PART #	DESCRIPTION
FOR 70-99 BIG TWIN SINGLE-FIRE APPLICATIONS	
2102-0079	Mini-coil kit

PART #	DESCRIPTION
FOR 70-99 BIG TWIN SINGLE-FIRE APPLICATIONS (CONT)	
2102-0080	Mini-coil (ea.)

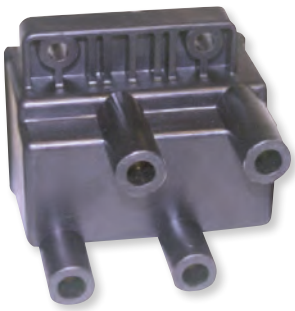
DYNATEK
dyna performance electronics

TWIN FIRE II COIL

- Single-fire just got easier
- High-technology materials now make it possible to put two coils in the same space as the stock coil with greater output
- No exposed laminations to rust and degrade performance
- High voltage and primary terminals machined from brass
- High-impact thermoplastic housing is ultrasonically welded and sealed against moisture
- Compact size fits easily under stock covers
- Peak gap current in excess of 50mA
- Over 40.000V per output
- Rated at 3 ohms; accepts 7 to 8 mm wires

NOTE: Not for use with DS6-2 ignition system.

PART #	DESCRIPTION
DC6-5	Twin Fire II Miniature, dual output towers



TWIN FIRE COIL

- Design incorporates two individual performance ignition coils into a single, easy-to-mount package that is only slightly larger than the stock coil and uses the stock mounting bracket
- Delivers spark voltage in excess of 30.000V with fast rise times and high energy
- For all single-fire, dual-plug head applications
- Can be used with any electronic advance ignition system that incorporates dwell control but cannot be used with the DS6-2 Dyna S or similar ignitions
- All coils are rated at 3 ohms

PART #	DESCRIPTION
DC6-4	Twin Fire, four output towers

DC10-1

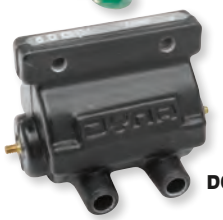
DC3-1

DC2-1

DC1-1

DC6-1

DC8-1



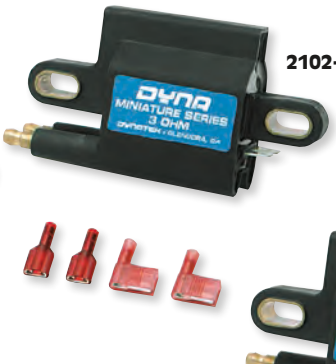
DC7-1

12V COILS

- The "industry standard" with 35.000V spark energies second to none
- Designed to work with any Dyna ignition system
- Can be used for single- or dual-plug applications

PART #	DESCRIPTION
DC10-1	5 ohm (black), angled single output street application (pr.)
DC3-1	3 ohm (green), angled single output, for use with DS-62 single-fire ignition only race application (pr.)
DC2-1	1,5 ohm (brown), angled dual output (pr.)
DC1-1	3 ohm (green), angled dual output (pr.)
DC6-1	3 ohm (green), straight dual output, Std. H-D style (85-up electronic ignition) (ea.)
DC8-1	5,0 ohm (black), angled dual output (points) (pr.)
DC7-1	5,0 ohm (black), straight dual output with single-plug heads

2102-0001



2102-0003

2102-0004

MINIATURE SERIES COILS

- One of the smallest packages delivers high output with advanced magnetic core technology
- Designed for use with Dyna 2000 and 3000 series ignitions, factory-installed electronics or with aftermarket ignitions that employ dwell control
- Secondary resistance is 11,5 ohms
- Great for customs where coils need to be hidden

NOTE: Not for use with the Dyna "S," DYNA III or earlier generation ignitions.

PART #	DESCRIPTION
2102-0001	3 ohm, dual tower coil, single-fire, dual-plug (pr.)
2102-0003	3 ohm, dual tower coil, single-fire, dual-plug (ea.)

PART #	DESCRIPTION
2102-0002	3 ohm, single tower coil, single-fire, single-plug (pr.)
2102-0004	3 ohm, single tower coil, single-fire, single-plug (ea.)

DRAG Specialties

HEAVY-DUTY COIL BRACKET

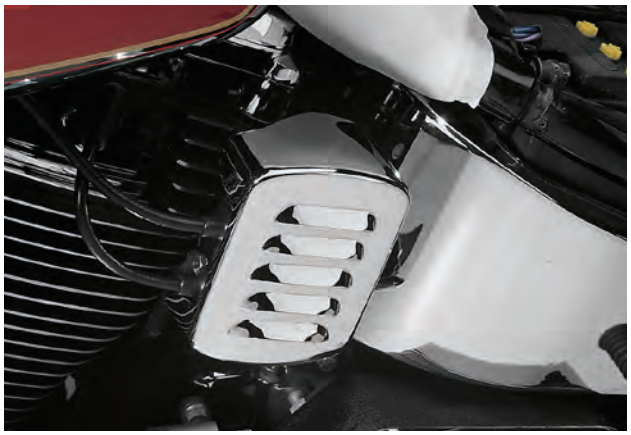
- Exclusive replacement-type coil bracket made of solid steel for exceptional strength
- Features a chrome finish

PART #	DESCRIPTION
DS-325469	For 65-E82 Big Twin; repl. OEM #s 31724-65 and 31728-78

SMOOTH COIL COVER

- Clean chrome style
- Covers coil when mounted in stock location

PART #	DESCRIPTION
DS-376601	For 84-99 FXST/FLST and 65-84 Big Twin



LOUVERED COIL COVER

- Chrome-plated and accented with five louvers for a truly custom appearance

PART #	DESCRIPTION
DS-376610	For 84-99 FXST/FLST, 65-84 Big Twin models

CHROME COIL COVER

- Covers OEM and most aftermarket OEM-style coils in highly visible stock locations
- Mounts with OEM hardware
- Includes cover for the top and back side of coil on XL model

PART #	DESCRIPTION
2102-0065	For 84-98 FLT/FLHT and 83-85 XL

CHROME OLD-STYLE COIL COVER

- An old-style look for bikes using OEM-style coils
- Sold each

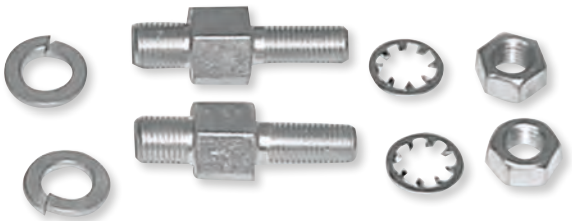
PART #	DESCRIPTION
DS-376609	For 84-99 FXST/FLST

COIL COVER

- Brilliant chrome finish

PART #	DESCRIPTION
DS-373605	For 82-94, 99-00 FXR

Colony Where Excellence Is a Standard



COIL MOUNTING STUD KIT

- Kit features two studs, OEM #72341-56A; two nuts, OEM #7753; four internal star lock washers, OEM #7127; and two flat washers, OEM #6702
- Cad-plated

PART #	DESCRIPTION
2401-0611	For 56-82 Big Twin

2101-0045

2101-0043

DYNATEK
dyna performance electronics

DYNA2000

2000-HDE PC-PROGRAMMABLE DIGITAL IGNITION MODULES

- A plug-in upgrade to the electronic advance ignition found on late model Harleys, these ignitions are micro-computer controlled, generating extremely accurate control over the entire ignition process
- Allow riders to tailor the advance curve and rev limiter to the specific needs of their particular engine; four built-in advance curves cover the needs of stock to highly modified engines over a variety of operating conditions; four independent rev limiter choices from 6000 to 7500 rpm set the exact protection level needed
- PC programmability allows you to define a wide-open and part-throttle curve, rev limits, dead-cranking revs and rear cylinder offset
- PART #2101-0045 comes with 8-pin connectors; operates in single-fire or dual-fire modes
- PART #2101-0046 comes with 8-pin connectors; operates in dual-fire mode only
- PART #2101-0045 and 2101-0046 offer a quick curve which simulates a mechanical advancer for hot rod motors; option to use vacuum advance compensation via a VOES switch and retard mode, which allows selection of ignition retard of 5°, 7° or 10° upon activation of a retard input
- PART #2101-0044 is for use with a dual-fire ignition only; it simply plugs right into your 7-pin stock harness and mounts right in the original ignition mounting area
- PART #2101-0043 comes with a 7-pin connector; can be used with either one ignition coil firing both cylinders (dual fire), or with two ignition coils, one firing each cylinder (single-fire); no other ignition offers this flexibility
- A separate tach output wire allows clean tach operation during rev limiting and when in single-fire mode
- A diagnostic LED indicator is included on the back of the control module to assist trouble shooting and static timing

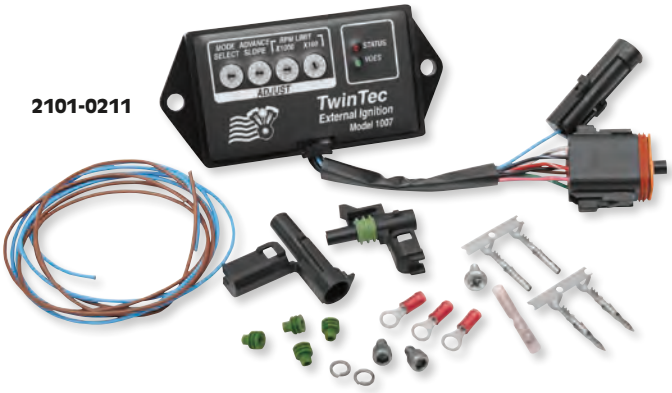
IMPORTANT NOTE: On any electronic advance ignition such as the Dyna 2000-HD1 or the stock Harley ignition, you must use carbon fiber-type suppression spark plug wires to reduce radio frequency interference. Use of copper wires may cause malfunction of the ignition due to severe electrical noise generated at the spark plugs. The original wire supplied by Harley-Davidson should be okay.

NOTE: Not for fuel-injected models.

NOTE: HDE systems are not compatible with Dyna "S" systems. Use HD1/HD2 systems only.

PART #	DESCRIPTION
2101-0045	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG single- or dual-fire system (w/ 8-pin)
2101-0046	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG dual-fire system (w/ 8-pin)
2101-0043	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG single- or dual-fire digital system (w/ 7-pin)
2101-0044	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG dual-fire digital system (w/ 7-pin)
1009001	Dyna 2000 electrical harness extension (84-90 Big Twin models)

2101-0211



2101-0075

Daytona Twin Tec

EXTERNAL PLUG-IN IGNITION MODULE

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Unit has four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low-resistance spiral-core-type plug wires
- Uses the tachometer wire for the PC-link and come with a connector
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0211	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG w/ 8-pin Deutsch plug
2101-0075	USB interface

Daytona Twin Tec

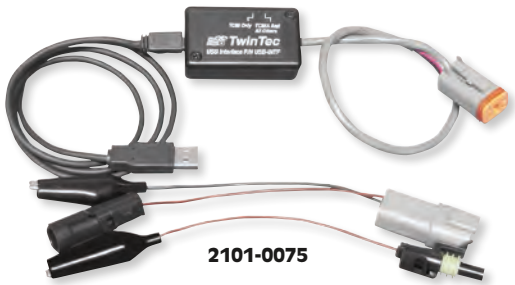
1020-2749

EXTERNAL IGNITION KITS

- Allows the use of an external ignition, which helps prevent heat-related ignition failures by replacing heat-sensitive internal nose-cone style ignitions
- Includes the 1007EX ignition module, an OEM-style cam position sensor with highly sensitive Hall effect sensor and rotor cup
- Kits also include adapter harness, mounting standoffs with screws, and a parts bag with a 4-pin male/female connector/pins/sockets along with Packard Weather Pack connectors for single-fire coil and tachometer hookup
- PART #1020-2749 also includes a Daytona Twin Tec single-fire coil and universal spark plug wire kit
- Includes detailed easy-to-follow directions

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM) AND 71-85 XL MODELS WITH NOSE CONE CAPABLE OF ACCEPTING AN IGNITION PICK-UP ASSEMBLY (CARBURETED MODELS ONLY)	
1020-2748	External ignition conversion kit
1020-2749	External ignition conversion kit with single-fire coil and spark plug wire kit

2101-0214



2101-0075

EXTERNAL MODULE IGNITION KITS

- Includes ignition module, single-fire coil, 8,5 mm spark plug wires and instructions
- Two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Unit has four rotary switches for adjusting timing, single/dual fire, rpm limit and two LED indicator lights
- Digitally set rpm limit (in 100 rpm steps); selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com/index.html)
- Kit uses the tachometer wire for the PC-link and comes with a connector

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0214	For L94-98 FLT/FLHT, 96-99 FXST/FLST and 96-98 FXD/FXDWG w/ 8-pin Deutsch plug
2101-0213	For 91-E94 FLT/FLHT, 91-95 FXST/FLST and 91-95 FXD/FXDWG w/ 7-pin Cannon plug
2101-0075	USB interface kit

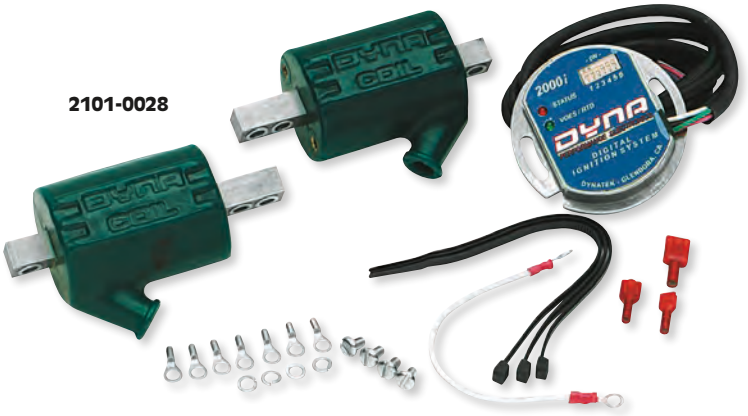
dyna performance electronics



2101-0028

2101-0027

2101-0012

2000I PC PROGRAMMABLE ELECTRONIC IGNITION KITS

- Completely self-contained so entire unit hides under the cam cover for a clean look on custom bikes
- Single-fire operation down to zero rpm for easier cranking and kicking
- Will operate in all combinations of single-fire or dual-fire with single-plug or dual-plug heads
- Ten advance curves cover a broad range of engine builds and riding styles
- Engine over-rev protection, adjustable from 6000 to 7500 rpm
- Adjustable timing retard for nitrous and turbo applications
- VOES indicator lets you monitor VOES switch at a glance
- Built-in tach driver can be used to activate shift lights, auto-shifters and other accessories
- Easy static timing with built-in timing indicator
- Intelligent over-current/short-circuit protection
- Active dwell control
- Over-voltage protected against momentary spikes
- Data recording includes total engine hours, time wide-open throttle, longest time operating at wide-open throttle, max rpm, seconds near rev limit and number of engine starts
- PC programmability makes possible an eight-point, fully definable, wide-open throttle curve and a fully definable part-throttle curve, rev limit programmable in 50 rpm steps, programmable dead-cranking revs 0-5, rear cylinder offset, total of +/- 10°, programmable rev limiter, security lock-out (pin # activated), single- or dual-fire
- Programming and downloading data and graphs from module requires proper programming kit (includes cables and instructions)
- Pigtail connector enables the user to connect the ignition to a PC to either download recorded info from the ignition or program their own power curves, rev limits, dead revs or rear cylinder off-set timing; connector remains on bike

NOTE: Not for fuel-injected models.

NOTE: Programming kit is not necessary to use all selectable functions of the current ignition.

PART #	DESCRIPTION
FOR 70-99 BIG TWIN AND 71-85 XL MODELS; 82 AND EARLIER WILL REQUIRE A SENSOR CUP ADDITION, OEM #32402-83 (PART #2101-0234)	
2101-0028	Single-plug/single-fire kit (includes module and pair of DC3-1 coils)
2101-0029	Dual-plug/single-fire kit (includes module and pair of DC1-1 coils)
2101-0031	Single-plug/single-fire kit (includes module and DC6-5 Twin Fire II miniature coil)
2101-0027	Module only
2101-0012	Programming kit for 2101-0027, 2101-0028, 2101-0029, 2101-0030 and 2101-0031

DSK61

DSK62

IGNITION AND COIL KITS

- Complete electronic ignition systems built with the latest state-of-the-art engineering
- The same ignition used by top drag and road racers to set records and bring home victories over the past decade
- The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original advance unit, so the factory advance curve is maintained
- Coils provide spark voltages in excess of 30.000V and spark energies second to none
- The DSK61 Dyna S and coil system includes a DC7-1 high energy coil
- The DSK62 Dyna S and coil system is designed for single-fire applications; includes two DC10-1 Dyna coils

NOTE: Not for fuel-injected models.

NOTE: Later models will require the use of a mechanical advance unit.

PART #	DESCRIPTION
FOR 70-99 BIG TWIN, 71-85 XL	
DSK61	Dual-fire ignition kit

PART #	DESCRIPTION
FOR 70-99 BIG TWIN, 71-85 XL (CONT)	
DSK62	Single-fire ignition kit

All part numbers in **BLUE** are new for the OldBook.

DYNATEK dyna performance electronics

DUAL-FIRE ELECTRONIC IGNITION SYSTEM

- Perfect ignition timing once and for all
- Self-contained ignition system features Hall Effect magnetic sensors, which are not sensitive to rpm changes or affected by dirt and oil
- Improves overall performance by changing the timing less than three degrees, extends plug life, eliminates the use of points and condensers; can be easily installed
- Used and endorsed by many championship racers

NOTE: On 84-up Harley-Davidsons, an advance weight mechanism is required.

NOTE: Not recommended for use with OEM coils.

PART #	DESCRIPTION
DS6-1	For 70-99 Big Twin (80-99 Big Twin require an advance unit), 71-85 XL

APPLICATION CHART FOR DYNA COILS WHEN USING DYNA "S" IGNITION SYSTEMS

FITMENT	APPLICATION	PART #
W/ single-plug heads	Race only, 3 ohm (green), each	DC6-1
W/ dual-plug heads	Race/Street, 1,5 ohm (brown), pair	DC2-1
W/ dual-plug heads	Street, 5 ohm (black), pair	DC7-1

DYNATEK dyna performance electronics

SINGLE-FIRE ELECTRONIC IGNITION SYSTEM

- All the features of the famous Dyna "S", plus the special feature of firing the front and rear cylinders independent of each other, allowing a much more accurate timing of each cylinder
- The stock ignition system fires both cylinders at the same time, which works fine for the front cylinder but the rear receives the "wasted" spark when the cylinder has started its intake stroke; this can result in harder starting, increased engine vibration, backfire and raw fuel being spit back into the carb, all creating a power loss
- Dyno and top-speed testing have shown a dramatic improvement in power in all areas; bikes with hotter cams show the greatest improvement
- If you truly want to get the most out of your stock, slightly modified or all-out customized Harley-Davidson, you need a Dyna "S" single-fire ignition system

NOTE: Not recommended for use with OEM coils.

NOTE: On later models, an advance weight mechanism is required.

NOTE: This unit must be used with special Dyna coils; see coil chart for correct coils.

NOTE: Tach adapter is required when using an electric tach.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
DS6-2	For 70-99 Big Twin, 71-85 XL using a mechanical advance unit

PART #	DESCRIPTION
D-101	Tach adapter

APPLICATION CHART FOR DYNA COILS WHEN USING DYNA "S" IGNITION SYSTEMS

FITMENT	APPLICATION	PART #
W/ single-plug heads	Street, 5 ohm (black), pair	DC10-1
W/ single-plug heads	Race only, 3 ohm (green), pair	DC3-1
W/ dual-plug heads	Race only, 3 ohm (green), pair	DC1-1
W/ dual-plug heads	Street, 5 ohm (black), pair	DC8-1
W/ dual-plug heads	Race only, requires two coils, 3 ohm (green), each	DC6-1

PROVEN S&S PERFORMANCE

HI-4N IGNITION MODULE KIT

- More power than the stock ignition
- Single-fire and dual-fire function built into a single module
- All-metal housing provides improved heat dissipation
- Ignition advance and timing degree markings are on the metal flange
- Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- Electronics are fully enclosed to resist vibration, moisture and dirt
- All electronics are mounted directly to the metal housing, which acts as a heat sink

- Four rotary switches for ignition mode selection, advance rate, and rev limit
- Switches provide accurate, repeatable settings
- PART #2101-0346 includes ignition module, S&S ignition coil and correct-length spark plug wires; PART #2101-0345 includes HI-4N ignition module only

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
FOR 70-84 SHOVELHEAD, 71-85 XL	
2101-0346	HI-4N ignition module, ignition coil and plug wires

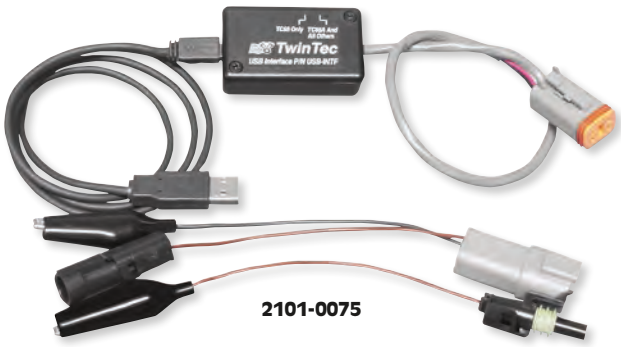
2101-0242



2101-0075

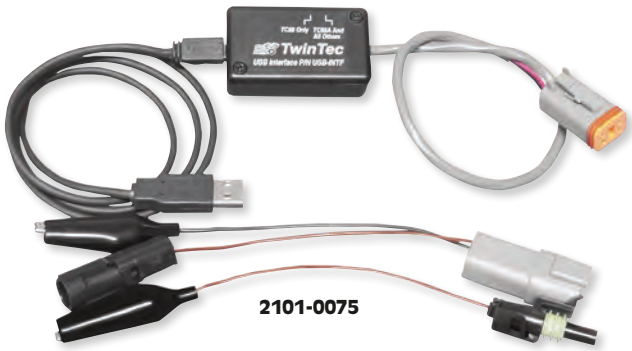
INTERNAL IGNITION KIT

- Includes ignition system, 8,5 mm spark plug wires, single-fire coil and instructions
- Ignition system has two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Four rotary switches for adjusting timing and single/dual fire rpm limit
- Digitally set rpm limit (in 100 rpm steps), selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface kit and software available for programming custom curves (programs available on website www.daytona-twintec.com)
- Requires the use of an OEM timing rotor (OEM #32402-83 or PART #2101-0234)
- Uses the tachometer wire for the USB interface and includes a connector

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0242	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o use of the USB interface)
2101-0075	USB interface kit

2101-0209



2101-0075

INTERNAL IGNITION SYSTEMS

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low resistance spiral-core-type plug wires
- Require timing rotor OEM #32402-83 or PART #2101-0234
- Uses the tachometer wire for the PC link and comes with a connector
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0241	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o using the USB interface)
2101-0209	For 70-99 Big Twin, 71-85 XL (two-stage rev limiter)
2101-0075	USB interface kit

V-TWIN ELECTRONIC IGNITION SYSTEM

- Dual-fire electronic ignition system features fully encapsulated construction
- Includes special trigger rotor for use with traditional mechanical advance mechanism
- Precise digitally set rpm limiter (200 rpm steps from 5200 to 7000 rpm)
- Status LED for easy static timing
- Electronic dwell control for maximum ignition energy at high rpm and reduced current draw at low rpm
- Compatible with most OE and aftermarket dual-fire ignition coils
- Hall effect sensor detects teeth on trigger rotor and provides stable spark timing
- Operates down to below 6 volts
- Easy installation; two-wire hookup to coil
- Waterproof and highly resistant to vibration and shock
- Over-temperature protection; rated to operate at 125 °C (260 °F)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0267	For 70-99 Big Twin, 71-85 XL carb models

SINGLE-FIRE "SUPER SYSTEM"

- Kit features a programmable ignition module with adjustable rev limiter
- Single-fire coil (3,0 ohms)
- Accel U-groove spark plugs with black 8,8 mm plug wires

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
7805-1039	For 70-99 Big Twin, 71-85 XL; use w/ OE rotor #32402-83 (PART #2101-0025)

SINGLE- OR DUAL-FIRE IGNITION MODULE

- For use in single- or dual-fire applications with proper coil
- Features adjustable rev limiter and 15% advance curves
- Requires graphite plug wires and resistor spark plugs
- Uses stock rotor cup OEM #32402-83 or equivalent

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
7805-1040	For 70-99 Big Twin, 71-85 XL

BREAKERLESS DUAL-FIRE IGNITION KIT MODULE

- Eliminates the need for points and condenser
- Unilite module has no moving parts and consists of an integrated photo coupler, a signal processor and a power switch
- Recommended coils are 2,0 - 3,0 ohms for racing or 3,0 - 4,0 ohms for street

NOTE: Not for fuel-injected models.

NOTE: Requires the use of an advance unit and spiral-core or carbon core plug wires.

PART #	DESCRIPTION
2130-0271	For 70-99 Big Twin, 71-85 XL

DYNATEK
dyna performance electronics

SINGLE POINTS IGNITION BOOSTER MODULE

- Boost ignition power in points-equipped motorcycle
- Improves performance by transferring inconsistent electrical surges into precisely controlled bursts of energy to the coil for more thorough and efficient combustion
- No more burned points; current reduced to 0,1 amp
- Unaffected by dirt, moisture, oil or vibration
- Ultra-fast spark voltage rise time; 50% faster than points
- Extends spark plug life

PART #	DESCRIPTION
2101-0323	For single points ignition

TWO-STAGE REV LIMITER FOR EFI MODELS

- Precisely controls over-revving and launch rpm
- Designed for the odd firing angle of Harley V-Twins
- Over-rev limit guarantees against damage due to missed shifts or drivetrain breakage; adjustable from 5.500 to 9.250 rpm
- Launch limit gives maximum off-the-line performance; adjusts between 2.500 and 6.250 rpm in 250 rpm increments
- Spares unnecessary poundings of expensive engine components

PART #	DESCRIPTION
DRL400HD	Rev Limiter

HIGH-PERFORMANCE STARTER MOTORS

- 100% new – not remanufactured!
- Starters feature oversize clutch rollers, cold-headed steel idler gears and armature hairpins that are resistance-fused to the armature
- All 90-99 starters are supplied with 10/32 threaded output shafts
- 1,4kW is a new replacement unit for stock and slightly modified engines; generates more power than the OEM stock starter
- 1,7kW is a new replacement unit for highly modified engines in touring bikes, featuring a permanent magnet motor coupled to the OEM-style offset gear reduction case, making a drop-in solution to hard-starting touring bikes (due to the high in rush current of a permanent-magnet motor a minimum 300 CCA battery is recommended with 4-gauge battery cables)
- Starter motor design is more compact than the original and does not require the rear bracket; because of the higher output, 4-gauge cables are recommended for this starter
- Available in black or chrome finish

NOTE: OEM Hitachi starters measure 133 mm (5¼"). OEM Prestolite starters measure 152 mm (6").

NOTE: For optimum performance, use with Drag Specialties battery and battery cables.

PART #	DESCRIPTION
FOR 90-99 BIG TWIN (REPL. OEM #S 31553-90 AND 31553-94)	
80-1001	1,4kW black
80-1002	1,4kW chrome

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

SLUGGER 1,8 kW HIGH-TORQUE STARTER MOTORS

- Starters are assembled using with heavy-duty components and tested with state-of-the-art equipment
- Starter offers superior windings, high-tolerance heavy-duty clutch and a thicker commutator that resists flying shorts
- 1,8 kW output has the torque to start any monster motor with the least amount of amperage drain
- Static balanced for smoother operation
- Low-profile design will clear the electronic speedometer sensor for easy installation

NOTE: Starters on 90-98 FLT models will require use of spacer block PART #DS-196233. On FXST/FLST, Dyna and FXR models you must relocate oil lines and some wiring.

FUEL / STARTING SYSTEMS
FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

Black Wrinkle

Polished Chrome

STARTER MOTORS

- Nippondenso starters are assembled using heavy-duty components and tested with state-of-the-art equipment
- Solenoid plunger, return damper and springs are replaced with stronger components
- Clutch shaft and rollers are replaced with precision-ground and hardened parts for longer service life
- All components are assembled with a special lube that has been formulated for starter roller clutch applications
- CNC-machined billet mounting noses are held together with aerospace fasteners
- After assembly, all starters go to a dyno test including hi-low voltage, stall torque, solenoid engagement, amperage draw, load test, maximum rpm and motor impulse wave form
- Starters have a 4,4:1 gear reduction and produce 46% more cranking torque than the stock starter
- Starters available in four kilowatt ratings (1,2; 1,4; 1,6 and 2,0)
- The 1,6 kW starter is designed for 96" or larger motors with limited size batteries such as the FXR, FXST or FXD models
- The 1,2/1,4/1,5 kW starters are designed for OEM applications; use Terry battery cables and a batter with 300+ cranking amps like the Drag Specialties battery for best results
- The 2,0 kW starter will start any monster motor (for best results, use with Terry battery cables and a battery with 300+ cold-cranking amps like the Drag Specialties battery)

NOTE: 1,6 kW and 2,0 kW starters will require the use of starter spacer block PART #DS-196233 when used on 90-98 FLT models (sold separately). On Softail, Dyna or FXR models, you must relocate oil lines and some wiring.

NOTE: PART #DS-196182 has a raw finish starter nose.

- Sold individually

PART #	DESCRIPTION
0924-0591	For 84-88 FX/FXWG/FXST, 71-84 Shovelhead and 67-85 XL; repl. OEM #9063

STARTER MOTOR BEARING

- High-quality OEM-style bearing
- For use on armature #31590-81
- Sold each

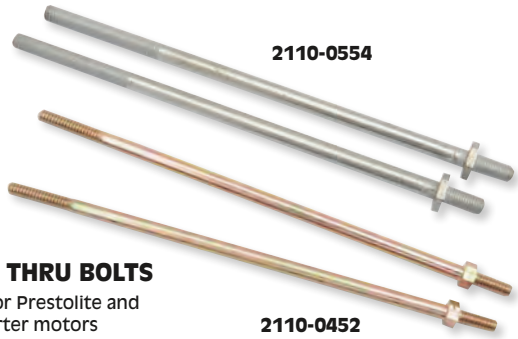
PART #	DESCRIPTION
2110-0555	For 81-85 XL; repl. OEM #8878

STARTER END BEARING

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
2110-0451	For L66-82 Big Twin, 67-80 XL; repl. OEM #31539-66

STARTER THRU BOLTS



- Available for Prestolite and Hitachi starter motors
- Sold in pairs

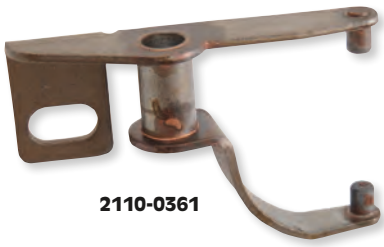
PART #	DESCRIPTION
FOR 65-88 BIG TWIN, 67-80 XL MODELS	
2110-0554	For Prestolite starter (7" L); repl. OEM #31535-66
2110-0452	For Hitachi starter ($6^{7}/_{16}$" L); repl. OEM #31576-73

STARTER GEAR ENGAGEMENT LEVERS

- Replaces OEM-style engagement lever

PART #	DESCRIPTION
DS-242098	For all 65-84 Big Twin w/ 4-speed transmissions and rear chain drives; repl. OEM #31445-65A
DS-242097	For 67-80 XL, XLH; repl. OEM #31424-67

STARTER GEAR ENGAGEMENT LEVER



- Sold each

PART #	DESCRIPTION
2110-0234	For 65-85 chain drive FX/FL, 84-85 FXST; repl. OEM #31445-65A
2110-0361	For 67-80 XL; repl. OEM #31424-67

BOLT AND O-RING FOR STARTER GEAR ENGAGEMENT LEVERS

- High-strength bolt with O-ring for Shovelhead

PART #	DESCRIPTION
2401-0425	For 66-84 FL/FLH (ea.); repl. OEM #31478-65-X

STARTER SHAFT COMPONENTS

- High-quality replacement components
- Sold individually unless noted
- Nut and spacer kit PART #2210-0237 includes left-hand thread starter shaft nut, replaces OEM #31493-67 and starter shaft to primary spacer, replaces OEM #31531-69

PART #	DESCRIPTION
2110-0235	Starter shaft shifter collar for 65-69 Big Twin, 67-80 XL; repl. OEM #31503-65
2110-0236	Starter shaft shifter collar for 70-84 FX/FL, 84-85 FXST; repl. OEM #31503-70
2110-0237	Starter shaft/primary nut and spacer kit for 65-82 Big Twin; repl. OEM #31530-65
2110-0317	Starter shaft nut for 65-84 Big Twin (except Evo), 67-80 XL; repl. OEM #31493-67
2110-0449	Starter shaft spacer for 67-80 XL; repl. OEM #31490-67
2110-0450	Bronze starter shaft inner thrust washer for 65-71 Big Twin, 67-80 XL (5-pk.); repl. OEM #31501-65

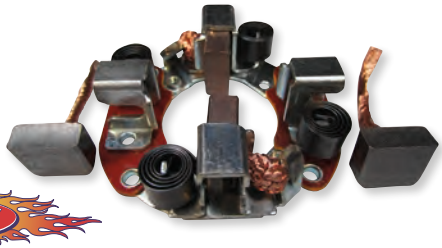
STARTER BRUSHES

- Replacement brushes for early and late-model starters

PART #	DESCRIPTION
DS-195147	For 89-90 Big Twin, 81-85 XL (set); repl. OEM #31596-85
DS-194144	For 74-88 Big Twin, 74-E76 XL (Hitachi) (set); repl. OEM #31582-73



STARTER BRUSH HOLDER

- High-quality OEM replacement starter brush holder

PART #	DESCRIPTION
2110-0561	Fits 1,2 kW OEM or 1,4 kW aftermarket High Torque Nippondenso starter motors including brushes

STARTER SHAFT HOUSINGS

- Available for Hitachi or Prestolite starter motors
- Fits chain drives
- Oil deflector and needle bearing (OEM #9062) PART #BAM-810 must be purchased separately

DS-195154

DS-195157

PART #	DESCRIPTION
DS-195154	For L79-85 Big Twin w/ chain drive (Hitachi); repl. OEM #31572-79
DS-195155	For 73-E79 Shovelhead (Hitachi); repl. OEM #31572-73

PART #	DESCRIPTION
DS-195156	For 65-72 Big Twin (Prestolite); repl. OEM #31465-65
DS-195157	Oil deflector plate for Prestolite or Hitachi; repl. OEM #60516-65A

STARTER SHAFT OUTER THRUST WASHERS

- Direct OEM replacements
- Sold in pairs

PART #	DESCRIPTION
1132-0092	For 66-88 Big Twin, 67-80 XL; repl. OEM #31502-65

STARTER SHAFT LOCK WASHERS

- Sold in 10-packs

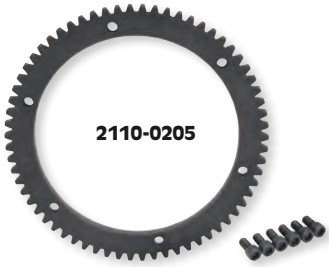
2110-0232

PART #	DESCRIPTION
2110-0229	For 94-99 Evolution Big Twin; repl. OEM #33126-94
2110-0232	For 93 Big Twin; repl. OEM #33126-93
2110-0231	For L90-92 Big Twin; repl. OEM #33126-90
2110-0230	For 89-E90 Big Twin; repl. OEM #33125-89

OEM-REPLACEMENT STARTER RING GEARS

- High-quality steel construction

2110-0204



2110-0205

PART #	DESCRIPTION
2110-0204	102-tooth ring for 98-99 Evolution Big Twin
DS242074	102-tooth ring for 94-97 Big Twin

PART #	DESCRIPTION
2110-0205	66-tooth ring for 90-93 Big Twin

STARTER RING GEARS

- Replacement tooth weld-on style
- Sold each

1112-0039

PART #	DESCRIPTION
1112-0039	For 65-E84 Big Twin (66-tooth, 181 mm ID ($7^1/_8$")); repl. OEM #33163-65B
1112-0038	For 67-79 XL (62-tooth, 165 mm ID ($6^1/_2$")); repl. OEM #33162-67

STARTER END COVER

- Chromed, die-cast starter end cover adds a finishing touch
- Smooth finish

PART #	DESCRIPTION
DS-325517	For 65-88 Big Twin, 65 Panhead, 67-80 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

DRAG Specialties

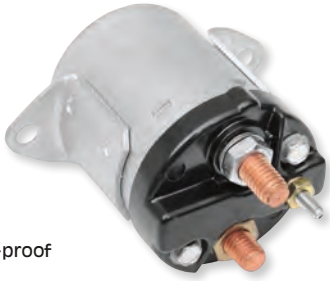
HIGH-PERFORMANCE STARTER SOLENOID

- Designed with extra current capacity for starting high-compression motors
- Recommended for use with Drag Specialties High-Performance Starters
- Features zinc-plated case
- Copper terminals and hardened plunger
- Sealed cover for long life

PART #	DESCRIPTION
2110-0327	For 84-88 FXST/FLST, 85-86 FXWG/FXSB, 65-84 Big Twin 4-speed, 67-80 XL; repl. OEM #71469-65

DRAG Specialties

STARTER SOLENOID



DS242281

- Features zinc-finished moisture-proof case, hardened steel plunger and long-life contact disc

PART #	DESCRIPTION
DS-242116	For 84-88 FXST, 85-86 FXWG, 65-84 4-speed models, 67-80 XL; repl. OEM #71469-65
DS242281	For 80-88 FLT/FLHT and 82-88 FXR; repl. OEM #31489-79A

Daytona Twin Tec

IGNITION POWER RELAY KIT

- Kit is designed to correct starting problems in motorcycles with high compression ratios or large displacement engines that use Twin Tec PART #s DS-242373 and 2101-0241 single-fire installations
- The combined draw of the starter motor, single-fire coil and the long length of wire between the battery, engine stop-run switch and the coil may leave too little energy at the coil to provide enough spark to fire the engine – the power relay kit solves the problem by supplying full battery voltage to the coil
- Kit includes a high-quality relay, wire and all required terminals

PART #	DESCRIPTION
2101-0078	For single-fire ignition power conversions

KURYAKYN

UNIVERSAL WIRING AND RELAY KIT

- Recommended for use with halogen Silver Bullets when they are used as additional running/driving lights
- Relay lets you wire the lights separately to avoid overloading the headlight circuit
- Kit provides switch, relay, universal wiring harness and general instructions for installation
- For custom applications

PART #	DESCRIPTION
2050-0131	Universal wiring/relay kit

DRAG Specialties

RELAY

- For the starter, brake light and fuel pump

PART #	DESCRIPTION
DS-325866	For 91-99 Evolution Big Twin models (w/ a diode); repl. OEM #31504-91A

COMP CAMS

FAST START BOOST RELAY

- Provides full battery voltage to single fire coil during cranking
- Eliminates hard starting due to voltage drop
- 30 amp sealed relay with complete installation hardware
- High-temperature rated sealed housing
- Measures 38 mm x 25 mm x 1 mm (1,5" x 1" x 1") with mounting flange hole

PART #	DESCRIPTION
2110-0830	For single-fire ignition applications

STANDARD MOTORCYCLE PRODUCTS

RELAY

- For use with starter, fuel pump and brake light

PART #	DESCRIPTION
2110-0374	For 91-99 Evolution Big Twin models w/ a diode; repl. OEM #31504-91A

RIVCO

WATERPROOF 30 AMP ELECTRIC RELAY

- Protects light-duty OEM wiring and switches (horn button) from damage when adding accessories that draw high amounts of current
- Strongly recommended for use with all dual electrical horn systems
- Also works well with driving lights; waterproof and vibration-proof

PART #	DESCRIPTION
2050-0094	Waterproof 30A electric relay

NAMZ Custom Cycle Products

Cycle Electric Inc.
Charging Systems for Americas V-twins
MADE IN U.S.A.

2112-0712

3-PHASE 50A CHARGING KIT

- Produces 32A at 1000 rpm and 50A at 2500 rpm
- Yield more charging power when upgrading from 32A or 38A
- Improved durability and dependability than stock 48A system

PART #	DESCRIPTION
2112-0558	For 89-98 FLT/FLHT/FLHR and 89-94, 99-00 FXR

PART #	DESCRIPTION
2112-0712	Repl. regulator

2112-0558

2112-0149

3-PHASE 38A CHARGING KITS

- Get more power out of a smaller stator
- Kits deliver 17A at 1000 rpm and 38A at 2500 rpm

PART #	DESCRIPTION
CHARGING KITS	
2112-0148	For 84-98 FLT, FLHT, FLHR, 84-00 FXR
2112-0149	For 84-99 FXST, FLST, 91-98 FXD/FXDWG

REPLACEMENT REGULATORS	
2112-0145	For kit PART #2112-0149
REPLACEMENT STATORS	
2112-0147	For kit PART #s 2112-0148, 2112-0149

DS-195214

CYCLE ELECTRIC ALTERNATOR KIT

- Kit includes stator, rotor, voltage regulator and mounting hardware
- Available with a black Cycle Electric rectifying regulator

NOTE: Adding electrical accessories increases amperage usage. When doing so, it is important to consider amperage ratings of switches and wires. If you draw too many amps through a switch or wire, it will heat up and may burn. Fuses and breakers are sized to protect wiring and switches. DO NOT CHANGE 30A MAIN BREAKER TO A 50A BREAKER. THE SWITCHES AND WIRING WILL NOT BE PROTECTED.

PART #	DESCRIPTION
FOR 84-99 FX, FXR, FXD, FXDWG (EXCEPT FXST, FLST)	
DS-195214	32A kit
FOR 84-99 FXST, FLST (LOW VOLTAGE)

THUNDER MAX

THREE-PHASE CHARGING SYSTEM

- 32A narrow rotor design converts an original single-phase system to a three-phase system on Evolution or S&S Evolution motors
- Digitally calibrated for optimum charging level over a wide temperature range
- Rugged billet aluminum regulator housing is highly polished for a custom look
- Self-temperature compensated to control heat and extend service life; over-temperature protection prevents catastrophic heat failure under severe operating conditions
- Highly efficient power conversion means more current at lower speeds for easy starting and extended battery life; more current is also available for operating EFI and other electronic accessories
- System reaches full charge at 550 to 650 rpm; factory system reaches full charge at 1000 rpm
- Designed for custom applications

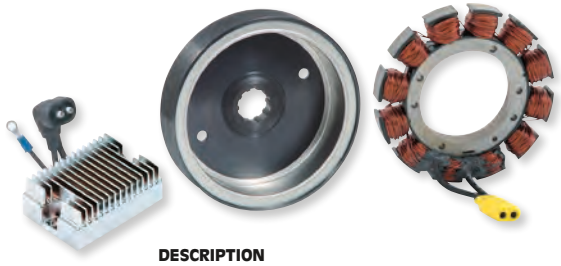
NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2112-0101	For most 84-99 Evolution Big Twin

ACCEL

32A CHARGING SYSTEM KIT

- Heavy-duty rotors feature encapsulated magnets, a super thick hub and splines that eliminate cracks
- Precision-wound stator
- Includes a chrome regulator with OEM-style connectors



PART #	DESCRIPTION
2112-0232	For 84-99 Evolution Big Twin models (except EFI)

DS-195210

DRAG Specialties

HEAVY-DUTY 32A CHARGING KIT

- Kit includes an encapsulated magnetic rotor, precision-wound stator and an 89-99 32A chrome or black voltage regulator
- Features a thick 12,1 mm (0,476") center rotor as compared to a 5,6 mm (0,222") center OEM rotor

2112-1204

PART #	DESCRIPTION
FOR 90-96 FLT, 84-96 FXST/FLST, 91-96 FXD/FXDWG, 84-94/99-00 FXR, 70-84 SHOVELHEAD W/ 32A SYSTEM	
DS-195210	W/ chrome regulator
2112-1204	W/ black regulator

DRAG Specialties

ALTERNATOR ROTORS

- Feature encapsulated magnets in a reinforced steel shell
- Direct OEM replacements
- Heavy-duty rotor, PART #DS-195206, features a 12,1 mm (0,476") reinforced center thickness

DS-195092

DS-195036

ALTERNATOR STATORS

- Each meets or exceeds OEM specifications and features precise construction

PART #	DESCRIPTION
UNCOATED	
DS-195092	For 88-96 FLT/FLHT/FLHR (except fuel-injected models), 89-99 FXST/FLST, 91-98 FXD/FXDWG, 88-94 FXR; repl. OEM #29970-88/C
DS-195098	For 84-87 FLT/FLHT, 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 81-84 Shovelhead; repl. OEM #29965-81/A
DS-195097	For 76-80 Shovelhead; repl. OEM #29965-75
DS-195096	For 70-75 Shovelhead; repl. OEM #29965-70
DS-195093	For L84-85 XL; repl. OEM #29967-84A
COATED	
DS-195035	For 84-87 FLT/FLHT 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 81-84 Shovelhead; repl. OEM #29965-81/A
DS-195036	For 76-80 Shovelhead; repl. OEM #29965-75

152104

152103

ALTERNATOR STATORS

- Made from the finest components available
- Each is individually wrapped and packaged in an attractive four-color display box

PART #	DESCRIPTION
UNMOLDED	
152110	For 97-98 FLT/FLHT/FLHR/FLTR; repl. OEM #29987-97
152107	For 88-96 FLT/FLHT/FLHR (except fuel injected models), 89-99 FXST/FLST, 91-98 FXD/FXDWG, 88-94, 99-00 FXR; repl. OEM #29970-88/C
152104	For 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR 84-87 FLT/FLHT; repl. OEM #29965-81/A
152104	For 81-84 Shovelhead (22A); repl. OEM #29961-81
MOLDED	
152103	For 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 84-87 FLT/FLHT, 81-84 Shovelhead (22A); repl. OEM #29965-81/A
152102	For 76-80 Shovelhead (17,8A); repl. OEM #29965-75

2112-0155

CYCLE ELECTRIC STATORS

- Designed for 18A, 22A or 38A applications

PART #	DESCRIPTION
2112-0155	For 81-84 Shovelhead, 22A; repl. OEM #29965-81A
DS-195228	For 97-98 FLT, 38A; repl. OEM #29987-97
DS-195229	For 95-96 FLHT models w/ EFI; repl. OEM #74505-95
2112-0155	For 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 84-87 FLT/FLHT 18A; repl. OEM #29965-81/A
2112-0158	For L84-85 XL 18A; repl. OEM #29967-84A
2112-0156	For 84-99 FX, FXR, FXD, FXDWG

STATOR LOCK AND MOUNTING KIT

- Kit includes two locking plates (OEM #29988-73), alternator plug retainer (OEM #29954-71), two retainer screws (OEM #2216W), four stator mounting screws (OEM #2653) and four No. 10 internal tooth lockwashers (OEM #7118)

PART #	DESCRIPTION
DS-195103	For 70-84 Shovelhead, 84-86 FX

DS-313016

DS-313015

Cycle Electric Inc.
Charging Systems for American V-twins
MADE IN U.S.A.

CYCLE ELECTRIC RECTIFYING REGULATORS

- Control voltage on Harley-Davidson alternators, unlike other rectifiers or regulators that dump to ground and cause maximum stator current and higher temperatures
- Cycle Electric rectifying regulators block current to control voltage; this reduces stator current, resulting in low temperature and less drag on the motor, which means more efficient operation
- A lower-voltage style is available to lower the heat level in the battery where battery is enclosed in center of oil tank

2112-0837

PART #	DESCRIPTION
STANDARD	
2112-0296	For 95-96 FLHT models w/ EFI; repl. OEM #74505-95

GENERATOR-MOUNTED REGULATORS

- Available for 12V applications in a black finish
- Updated end plate has an extra set of mounting holes to align the fins on the regulator with the fins on the engine
- If you have purchased a Cycle Electric generator since 1984, it may have the four-hole end plate
- Updated end plate is available separately if your current generator is not equipped with one (comes complete with bearing and seal)
- 12V regulators are available in a standard or low output style (for use with small batteries in wraparound oil tanks)

SLA MAX FACTORY-ACTIVATED AGM MAINTENANCE-FREE BATTERIES

- Designed to offer maximum performance to big engine bikes equipped with lots of electronic accessories
- Superior capacity
- AGM construction (Absorbed Glass Material)
- VRLA battery (Valve Regulated Lead Acid)
- Sealed and factory activated
- Spillproof design
- Multi-positional fitment
- Ready and easy to use
- Increased power and extended life
- Extreme vibration resistance

NOTE: Factory-Activated batteries should be charged once a month when not in service.

2113-0645

PART #	DESCRIPTION
2113-0645	For 97-98 FLT/FLHT/FLHR/FLTR
2113-0642	For 91-99 FXST/FLST, 91-98 Dyna Glide

SLA FACTORY-ACTIVATED AGM MAINTENANCE-FREE BATTERIES

- AGM construction (Absorbed Glass Material)
- VRLA battery (Valve Regulated Lead Acid)
- Sealed and factory activated
- Spillproof design
- Multi-positional fitment
- Ready and easy to use
- Increased power and extended life
- Extreme vibration resistance

NOTE: Factory-Activated batteries should be charged once a month when not in service.

PART #	DESCRIPTION
2113-0615	For 84-96 FLT/FLHT/FLHR
2113-0643	For 84-96 FLT/FLHT/FLHR
2113-0615	For 80-83 FLT/FLHT
2113-0643	For 80-83 FLT/FLHT
2113-0638	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0638	For 82-94, 99-00 FXR, 73-84 FXE
2113-0638	For 79-85 XL/XLH

PARTS EUROPE

HEAVY-DUTY BATTERY KIT

- Parts Europe Heavy-Duty battery is built to the same exacting specifications and quality-control standards as OEM
- Rugged and provide more cranking power over standard batteries
- Lead calcium alloy reduces water loss and service by 66% compared to standard batteries
- Includes anti-sulfation chemical formulated to reduce sulfate crystal buildup on the battery plates
- Reduces self-discharge for longer time between charges
- Fiberglass separators improve acid flow
- Includes battery, pre-measured acid pack, red filler tube, hardware kit and clear vent tube

PART #	YUASA REF #	DESCRIPTION
2113-0408	Y50-N18L-A	For 80-96 FLT/FLHT

2113-0428

2113-0425

HIGH PERFORMANCE AGM MAINTENANCE-FREE BATTERIES

- Parts Europe is proud to offer a premium-quality, high performance maintenance-free battery
- Deliver additional cranking amps for vehicles that require extra starting power
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries

PART #	YUASA REF. #	DESCRIPTION
2113-0428	YTX24HL-BS	For 84-96 FLT/FLHT/FLHR
2113-0428	YTX24HL-BS	For 80-83 FLT/FLHT
2113-0425	YTX20H-BS	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0425	YTX20H-BS	For 82-94, 99-00 FXR, 73-84 FXE
2113-0425	YTX20H-BS	For 79-85 XL/XLH

AGM MAINTENANCE-FREE BATTERY

- Parts Europe is proud to offer a premium-quality, maintenance-free battery at a great low price
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Acid pack included
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries

PART #	YUASA REF. #	DESCRIPTION
2113-0423	YTX20-BS	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0423	YTX20-BS	For 82-94, 99-00 FXR, 73-84 FXE
2113-0423	YTX20-BS	For 79-85 XL/XLH

2113-0455

2113-0454

2113-0453

PREMIUM PERFORMANCE BATTERIES

- AGM (Absorbed Glass Mat) separators with superior grid and component designs allow Drag Specialties to offer one of the most powerful batteries in the industry
- Improved charge recovery capability from a deeply discharged condition
- Longer shelf life
- Improved life cycle performance
- Extreme vibration resistance
- Factory-activated, spill-proof design
- Upgrade for customized motorcycles requiring the best performance

PART #	DESCRIPTION
2113-0455	For 97-98 FLT/FLHT/FLHR/FLTR
2113-0454	For 91-99 FXST/FLST, 91-98 Dyna Glide
2113-0453	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0453	For 82-94, 99-00 FXR, 73-84 FXE
2113-0453	For 79-85 XL/XLH

2113-0358

GYZ FACTORY-ACTIVATED AGM MAINTENANCE-FREE BATTERIES

- AGM (Absorbed Glass Mat) separators with superior grid and component designs
- Improved charge recovery capability from a deeply discharged condition
- Longer shelf life
- Improved life cycle performance
- Extreme vibration resistance
- Supplied "Factory-Activated" (filled, sealed and charged at the factory)
- Heavy-duty, flush-mounted terminals; embedded brass nut
- Upgrade for customized motorcycles requiring the best performance

NOTE: Factory-Activated batteries should be charged once a month when not in service.

PART #	DESCRIPTION

YUASA BATTERY

YB30L-B

YUMICRON 12V BATTERIES

- The most powerful lead-acid battery of its size
- Appears as original equipment on more and more big bikes
- Shipped dry

YUMICRON CX 12V BATTERIES

- Lead/calcium battery has 5% to 8% more cranking power than the high-output Yumicron
- Requires minimal servicing
- Shipped dry

PART #	DESCRIPTION
YB30L-B	For 97-98 FLT/FLHT/FLHR/FLTR
Y50-N18L-A	For 84-96 FLT/FLHT/FLHR
Y50-N18L-A-CX	For 84-96 FLT/FLHT/FLHR
Y50-N18L-A	For 80-83 FLT/FLHT
Y50-N18L-A-CX	For 80-83 FLT/FLHT

CUSTOM BATTERY CABLE KITS

2113-0671

2113-0672

- Build custom-length cables for an exact fit
- Each kit contains the following: 7,6 m (25') cable (1), 6,3 mm (1/4") terminals (20), 7,9 mm (3/8") terminals (8), 9,5 mm (5/16") terminals (12), black heat shrink (40) and red heat shrink (12)
- Using 30,5 cm (12") cables as an example, this 7,6 m (25') custom cable kit will make 27 cables (a 30,5 cm [12"] cable uses 28 cm [11"] of cable and two terminal ends), for a substantial savings over precut lengths

NOTE: See Parts Europe Tire & Service catalog for crimping tool.

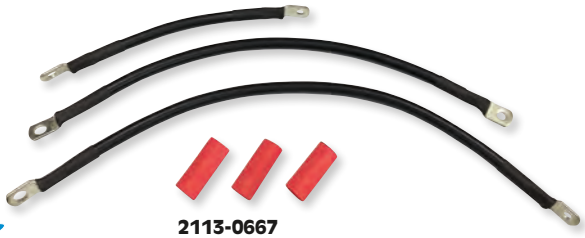
BATTERY CABLE KITS



2113-0667

2113-0669

- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and superior flexibility
- Increase starter performance by supplying maximum battery current to the starter motor
- Contain all battery cables to replace OEM cables

PART #	DESCRIPTION
2113-0661	For 93-98 FLT/FLHT; cable lengths 203 mm, 33 cm and 33 cm (8", 13", 13")
2113-0662	For 89-99 FXST/FLST; cable lengths 254 mm and 30,5 cm (10", 12")
2113-0664	For 91-93 FXD; cable lengths 203 mm, 203 mm and 38 cm (8", 8", 15")
2113-0667	For 84-88 FXST/FLST; cable lengths 203 mm, 38 cm and 43 cm (8", 15", 17")
2113-0668	For 82-88 FXR; cable lengths 30,5 cm, 40,5 cm and 40,5 cm (12", 16", 16")
2113-0669	For 65-84 FLH/FL; cable lengths 299 mm, 40,5 cm and 40,5 cm (9", 16", 16")
2113-0670	For 89-92 FLHT/FLT; cable lengths 84 cm and 84 cm (33", 33")

BATTERY CABLES

2113-0648

2113-0650

- Increases starter performance by supplying maximum battery current to the starter motor
- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and flexibility
- Specially rated 125 °C (257 °F), oil- and grease-resistant, ultra-flexible black jacket guarantees excellent performance
- All cables manufactured with 6,3 mm (1/4") terminal and 7,9 mm (5/16") terminal
- Sold each

NOTE: Cables do not have auxiliary wires.

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

BATTERY CABLES

- Manufactured from 4-gauge, 1650-strand tinned copper wire with a super flexible silicone jacket
- Unique lug design (99,9% pure electrolytic copper) provides a positive connection with greater conductivity and dependable service
- These cables will deliver more cranking power with less voltage drop than any cable on the market today
- Available in black
- Cables are available in kits or individually
- Kits include cables for required stock applications
- Individual cables can be used for universal/ custom positive or negative applications

NOTE: Cables do not have auxiliary wire unless noted.

BATTERY CABLE WITH AUXILIARY WIRE

- The perfect choice when doing custom wiring
- Positive battery cable with auxiliary wire eliminates stacking cables on the battery
- Perfect for wiring directly to the terminal block, regulator or any accessory
- Positive cable is 18K gold-plated and tinned copper 1666 strand Mega Cable
- Auxiliary wire is 12-gauge tinned copper 259 strand Mega Cable
- Negative battery cable is the perfect solution for the ground wire on custom bikes
- Eliminates poor electrical ground
- Install the 4-gauge wire to the transmission and the 12-gauge wire to any accessory for the ground
- Auxiliary wire measures 30,5 cm (12") L on both positive and negative battery cable wires

RIVCO

MAGNUM ELECTRIC HORN SET AND HARDWARE KIT

2107-0067

2107-0065

- Featuring an output of 118 dB, these are the loudest electric horns you can buy
- Direct replacement for most 12V electric horns
- Horn set includes two chrome-finish horns (one high and one low tone), mounting brackets and installation instructions
- Each horn measures 76 mm x 76 mm x 76 mm (3" x 3" x 3")
- Uses the stock horn button; bolt-on, plug-in installation
- Hardware kits (sold separately from the horn set) include 30 amp relay and fuse, all model-specific, pre-cut 14-gauge wiring, mounting hardware and detailed instructions

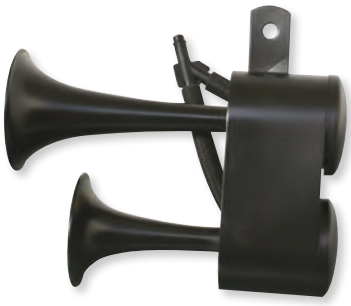
NOTE: The use of a 30A relay is recommended with Horn Set (not included with the horn set, but included in each wiring/mounting kit) to achieve maximum volume and protect the stock electrical system.

PART #	DESCRIPTION
2107-0067	Horn set, chrome
2107-0065	Hardware kit for 84-98 FLT/FLHR/FLHT/FLTR (mounts one horn in original location and one near left footpeg)
2107-0066	Hardware kit for multiple applications

RIVCO

AIR HORNS

2107-0064



2107-0082

- Waterproof dual-trumpet air horns replace stock horn and give a loud warning blast of 128 dB
- Includes horn assembly, air compressor, relay, simple wiring, cone-shaped dust/bug covers and complete installation instructions
- Air compressor creates instant air pressure to the horns and mounts either under the seat, behind right-side cover or down tube of frame (mounting position varies per model)
- Will fit with Harley-Davidson® lowers
- Uses the stock horn button; bolt-on, plug-in installation

FOR MOST H-D MODELS WITH LEFT-SIDE "BETWEEN THE CYLINDERS" OEM MOUNT

EASY RFID MODULE

- The easiest way to add keyless ignition
- Low power consumption in standby mode compared to other RFID devices
- Integrated power switches for ignition and starter relay output make installation simple and easy
- One-button functionality; one press activates the transponder, press and hold to activate the starter relays, press again to deactivate the module
- Can be programmed to recognize two different RFID frequencies
- Includes the module, antenna and two RFID "keys" (one chip, one card format)
- Module measures 40 mm x 25 mm x 12 mm; antenna measures 29 mm x 19 mm

HANDLEBAR SWITCHES

- OEM-replacement switch kits with color-coded leads and black protective sleeves
- 96-99 kits have 152,5 cm (60") leads, 82-95 use 122 cm (48") leads
- Individual switches are also available separately
- Meets or exceeds OEM specifications
- Fit U.S.A. and international models

NOTE: Switch kits for OEM radio; radio/cruise controls are not included with the standard kits and must be purchased separately.

mo.UNIT DIGITAL CONTROL CENTER

mo.UNIT BASIC

- Digital control possible using 4- or 5-button operation
- Completely replaces the fuse box
- Integrated alarm system, starter relay, turn signal, parking light and headlight flashing
- Features 10 output channels and 12 input channels
- Ten independent circuits can be digitally controlled and switched off, if necessary
- Acceleration-controlled emergency brake light
- Switch high- and low-beam with only one push button
- Integrated digital hazard lights, digital load independent flasher relay, digital brake light modulator with programmable flashing mode and horn relay
- Ability to manage power consuming devices, maximizing battery when starting bike
- Diagnostic function with 15 indicator LEDs
- 101 mm L x 61 mm W x 28 mm D

PART #	DESCRIPTION
2020-1536	mo.unit blue

mo.UNIT BLUE

- Equipped with all mo.unit basic features
- Encrypted Bluetooth® Low Energy connection for lower smartphone and energy usage
- Manage setup and alarm with mo.ride smartphone app
- Features Keyless Go, on-board electrical system switches on when approaching bike with smartphone
- Gives real-time audio fault messages through helmet headset
- Displays parking position and vehicle location
- Adjustable alarm system mode and sensitivity settings
- Operated using buttons or handlebar switches
- Operates with push-button switch gear or with conventional switch gear
- 101 mm L x 61 mm W x 28 mm D

PART #	DESCRIPTION
2020-1537	mo.unit basic

2201-0107

2201-0108

H-D HANDLEBAR TOP CLAMPS

- Milled aluminum billet handlebar top clamp for all H-D models with 25,4 mm (1") handlebars
- Replaces the upper OEM part of the original handlebar clamp to incorporate the Motoscope Mini, sold separately; see GAUGES section
- Features five LED indicator lights
- Includes four matching bolts in stainless steel for the clamp, two diodes if only one flasher indicator is used, two bolts to attach the instrument and installation instructions

PART #	DESCRIPTION
2201-0107	Black

PART #	DESCRIPTION
2201-0108	Polished

mo.LOCK DIGITAL IGNITION LOCK AND ACCESSORIES

- A digital ignition/starter lock
- Replaces a mechanical ignition lock and its electrical switching function (on/off)
- The ignition and power supply of the bike is switched on when within 30 mm-50 mm of the digital key/transponder
- Uses the most recent RFID technology (radio frequency identification)
- Each key is singular by its digital code and cannot be spoofed
- Includes one master key and one user key that are the size of a key tag
- Keys do not require batteries
- Additional or replacement keys can be purchased separately and "trained" to the mo.lock
- Optional "Glass Tube" key measures 3 mm x 13 mm

0521-0889

PART #	DESCRIPTION
0521-0889	mo.lock digital ignition lock
2020-0466	mo.lock 12V 40A relay
2020-0467	mo.lock back capacitor

PART #	DESCRIPTION
2020-0468	mo.lock Teardrop key
2020-0469	mo.lock Glass Tube key

mo.RELAY

- Small, compact relay
- Designed to control almost any kind of device including high-beam light, driving light, horn, ignition, etc.
- Moves high loads and currents directly to the switched devices
- Enhances the electrical reliability of your bike
- Reduces voltage drops in power supply
- Load and current at the handlebar switch gear and ignition lock is reduced to a minimum, allowing small diameter wiring at the switch gear for easier wiring
- CNC-machined and black anodized
- Molded internally, waterproof and vibration-resistant
- Two red cables allow the connection of devices for 12V power supply and up to 20A load current
- Two black cables allow the connection of the switch gear
- Not intended as a control unit for push-buttons
- Easy to install

PART #	DESCRIPTION
2020-0462	mo.relay

2020-0463

mo.FLASH DIGITAL FLASHER

- Replaces all conventional flasher relays; only uses two cables
- Perfect for custom bikes and modifications with limited space
- Route through the handlebar, frame tubing or in the cable harness
- Constant and correct flashing rate; suitable for almost all LED blinkers and all micro-blinkers
- Works with four signal lights or two handlebar end blinkers and has an immediate, lossless flasher response
- Features an automatic overload protection; does not generate heat during operation
- Takes 5V to 18V to operate; suitable for 6V flashers
- Water- and short circuit-proof

PART #	DESCRIPTION
2020-0463	mo.flash digital relay

2020-0464

- Does not require load resistors or similar accessories
- PART #2020-0463 is suitable for all LED blinkers, micro blinkers, halogen blinkers and bulb blinkers from 1W-100W
- mo.wave PART #2020-0464 is the first flasher relay to allow a smooth fade in/fade out with your flash lights

PART #	DESCRIPTION
2020-0464	mo.wave digital relay

HANDLEBAR CLIP KITS

- CNC-milled billet clips
- Mounts the Motoscope Mini or Motosign Mini to a standard 25,4 mm (1") handlebar
- Includes two single clips (clamp, counter part and bolt)

PART #	DESCRIPTION
2201-0118	Black

PART #	DESCRIPTION
2201-0120	Polished

Rowe Electronics

POWER DISTRIBUTION MODULE AMPLINK

- Designed to connect directly to a 12V power source vehicle battery, and safely distribute power for accessories or electronic devices
- 60A total capacity
- Six high-current output leads
- Programmable amp limits
- Rugged and waterproof
- Wireless control and setup
- Three programmable input triggers
- Solid state electronics with automatic fault circuit reset, which protects wiring and devices without fuses
- Dimensions: 76 mm L x 51 mm W x 23 mm H (3" x 2" x 0,90")
- Weighs 283 g (10 oz.) net wt.
- Fully compatible with CAN equipped systems
- Free amplink app available in the app store and play store

DESCRIPTION	PART #
Power distribution module amplink	2130-0276

Rowe Electronics

PDM60 POWER DISTRIBUTION MODULE

- Designed to connect directly to a 12V power source vehicle battery, and safely distribute power for accessories or electronic devices
- 60A total capacity
- Six high-current output leads
- Super-bright LED indicators keep you informed of the status of each circuit
- Fully programmable via USB
- Fully compatible with CAN equipped systems
- Rugged and waterproof
- Two programmable input triggers
- Solid state electronics with automatic fault circuit reset, which protects wiring and devices without fuses
- Dimension 76 mm L x 51 mm W x 24 mm H (3" x 2" x 0,90")
- Weighs 283 g (10 oz.) net wt.

DESCRIPTION	PART #
PDM60 Power distribution module	2130-0275

2120-0384

HANDLEBAR EXTENSION WIRING KITS

- Saves time by streamlining handlebar wiring jobs
- Kit includes all the materials necessary to extend the wires for hand controls (does not include extensions for Throttle-By-Wire controls if applicable)
- Terminals crimped on one end
- Cut-to-length design will accommodate up to 51 cm (20") Ape Hanger handlebars
- Includes OEM color matching wires and heat shrink

PART #	DESCRIPTION
2120-0382	For 96-99 Evolution Big Twin universal application (except FLHT/FLTR/FLHR models)
2120-0384	For 96-98 FLHT/FLTR/FLHR models

EXTENDED HANDLEBAR WIRING HARNESS

- Replaces stock harness when converting to taller handlebars
- Has 122 cm long (48") L wires and 96,5 cm long (38") L black covering, which allows the installation of almost any height bars; it comes with connectors and tie wraps

PART #	DESCRIPTION
DS-305201	For 82-95 H-D, 122 cm L (48")

HANDLEBAR WIRING HARNESS EXTENSION KIT WITH SWITCHES AND HARDWARE

- Available in a complete 122 cm (48") kit for left and right sides
- Completely soldered together, ready to install; color-coded to match OEM specifications
- Includes switches, wire connectors, buttons, screws, stoplight switch rubber boot and switch retaining plates

PART #	DESCRIPTION
DS-305202	For 73-81 Big Twin, XL models

CUSTOM CHOPPER WIRE HARNESS

- Makes wiring your custom motorcycle a snap
- Includes just the essentials: keyed on-off start switch, three-way toggle switch, in-line fuses (15 and 30 amp), wire ends, shrink tube and wiring diagram
- For custom applications only

PART #	DESCRIPTION
2120-0018	Custom wire harness

EXTENDED HANDLEBAR WIRING HARNESS

- Extended harness simplifies handlebar swaps that require longer wiring
- Color coded to match OEM wiring; measures 91 cm (36") in length

PART #	DESCRIPTION
2120-0022	For 96-98 Big Twin models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

THUNDER MAX

ELECTRONIC HARNESS CONTROLLER

- Compact design makes it easy to hide on a custom motorcycle
- Performs all fuse, relay and signal-canceling functions in one simple package
- Allows a dual-filament bulb to be used in three ways: tail, brake and turn signal (excluding the need for a center brake light); includes ribbon cable for integrating generic indicator lights
- Weather-resistant connections for trouble-free use in extreme environments
- Trim-to-fit harnesses allow installation on most custom bikes

PART #	DESCRIPTION
2120-0675	"D" model electronic controller w/ ribbon cable for indicator lights

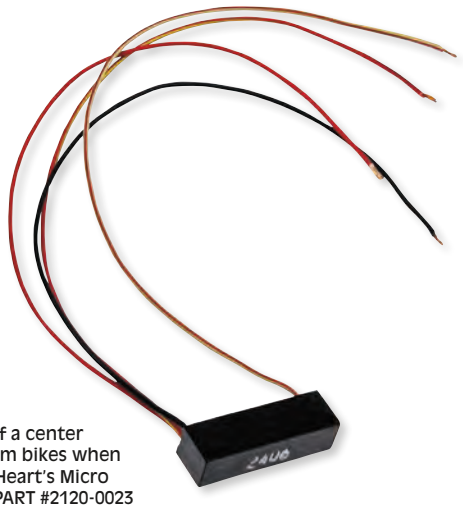
MICRO HARNESS CONTROLLERS

2120-0086

- Billet 6061-T6 aluminum housing and 213 cm (7') trim-to-fit wiring design is compact and easily hidden on custom motorcycles
- Performs all fuse, relay (includes starter relay) and signal-canceling functions in one simple package
- Provides multiple flasher combinations (signal canceling, hazard lights, running lights and turn signal) from one dual-filament bulb
- Utilizes relays to distribute all power functions, thus eliminating the need to run large wires to all the switches
- Can be used with micro switches
- PART #2120-0086 includes brake light module for separate brake light output
- Optional push-button momentary switch converter available separately (PART #2120-0085)
- Weather-resistant connections for trouble-free use in extreme environments
- Designed for U.S. and European applications
- Weighs 1 kg (2,25 lb)

PART #	DESCRIPTION
2120-0023	For choppers and custom bikes w/o separate brake light

PART #	DESCRIPTION
2120-0086	For choppers and custom bikes w/ separate brake light



CENTER BRAKE LIGHT MODULE

- Allows installation of a center brake light on custom bikes when used with Thunder Heart's Micro Harness Controller PART #2120-0023
- Compatible with LED and incandescent bulbs
- Solid-state construction, fully circuit-protected and has no relays to wear out
- Compact size of 50,8 mm x 15,2 mm x 12,7 mm (2" x 0,6" x 0,5") lets you mount it just about anywhere
- 12V, 3A max current capacity
- Simple four-wire hookup; wiring diagram included

PART #	DESCRIPTION
2120-0084	Center brake light module

PUSH-BUTTON CONVERTER

- Convenient way to wire up push-button hand control switches
- Takes momentary signal from a push-button hand control switch and converts it to a standard "latching" signal
- Design is fully circuit-protected and has no relays to wear out
- Compact size; measures just 50,8 mm x 15,2 mm x 12,7 mm (2" x 0,6" x 0,5")
- Simple six-wire hookup; wiring diagram included
- Designed for use with 12V electrical systems such as Thunder Heart's Micro Harness Controller; 1 amp maximum load

PART #	DESCRIPTION
2120-0085	Push-button converter

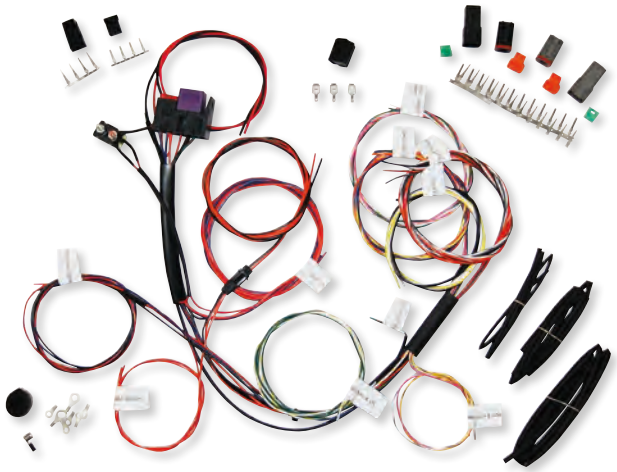
NAMZ Custom Cycle Products

COMPLETE BIKE HARNESS

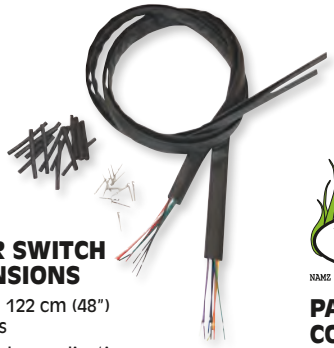
- High beam, turn signal, oil and neutral indicator wiring
- 30-amp circuit breaker installed
- Fuse block holds 3 ATO fuses and a full size starter relay
- Headlight wiring with headlight socket and terminals
- Rear fender taillight harness with connectors and terminals
- Color matching handlebar switch wiring as found on 96-99 non-glide models for HIGH/LOW, HORN, START and kill switches only
- Coil wire with ring terminals, tachometer, horn, oil, sending unit, brake switch and neutral switch wiring with terminals
- 4,8 mm (3/16"), 6,4 mm (1/4"), 9,5 mm (3/8"), and 12,7 mm (1/2") heat shrink sections included
- Heavy gauge 12(+) power and (-) ground wires with terminals for battery connection



PART #	DESCRIPTION
2120-0973	Indicator only

NAMZ Custom Cycle Products

HANDLEBAR SWITCH WIRE EXTENSIONS



- 61 cm (24") and 122 cm (48") wire extensions
- For cut and solder applications
- Wire ends are stripped but left with slugs to prevent fraying

PART #	DESCRIPTION
FOR 82-95 MODELS (EXCEPT DRESSER MODELS)	
2120-1020	61 cm (24") extension
2120-1021	122 cm (48") extension

NAMZ Custom Cycle Products

PASSING LAMP CONTROL HARNESS

- Allows the use of passing lamps while the high beam is on
- Plug-n-play installation

PART #	DESCRIPTION
2120-1118	For 98 FLHS/FLHT/FLHTC/FLHTCU/ FLHTCUL/FLHTCUSE/FLHTK/ FLHTKL/FLHX/FLHXS/FLHXXX

NAMZ Custom Cycle Products

HARNESS TURN SIGNAL TAP

- Front turn signal tap
- For adding additional front turn signals
- Plug-n-play

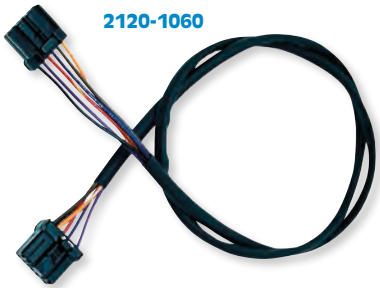
PART #	DESCRIPTION
2120-1116	For 96-98 FLHR/FLHT

NAMZ Custom Cycle Products

REAR WIRING HARNESSES AND ADAPTERS

- Plug-n-play installation
- Wiring matches OEM color-coding
- Connects to rear taillight circuit board
- Made in the U.S.A.
- Adapters allow Plug-n-Play connection of 10-20 FLTRX/FLHX OEM harness to models listed
- Harnesses and adapters sold separately

2120-1060



2120-1058

PART #	DESCRIPTION
WIRING HARNESS	
2120-1060	For 97-98 FLHR/FLHTK/FLHX, 96-99 FLST, 97-98 FXD/FXDWG

PART #	DESCRIPTION
WIRING HARNESS ADAPTERS	
2120-1058	For 97-98 FLHR/FLHT/ FLTR using a 14-20 style harness
2120-1059	For 97-98 FLHR/FLHT/FLTR using a 10-13 style harness

2120-0647

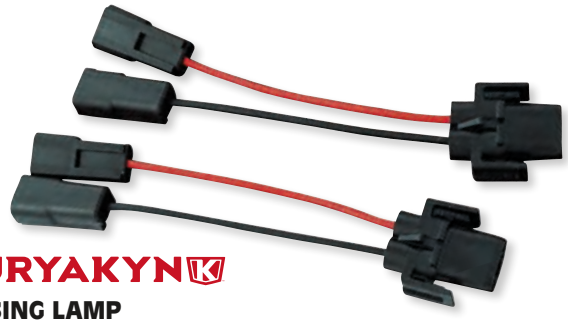
2001-1264

Custom Dynamics

LED HEADLAMP ADAPTER HARNESS

- Required when replacing the stock dual-halogen headlamps with an LED headlamp or any other H4 based headlamp
- Sold each

PART #	DESCRIPTION
2120-0647	For custom applications
2001-1264	H4 adapter for custom applications



KURYAKYN

PASSING LAMP ADAPTER HARNESSES

- Allows installation of 05-19 style passing lamps on 04-earlier models
- Sold in pairs

PART #	DESCRIPTION
2050-0162	Plug-and-play passing lamp adapters

KURYAKYN

USB POWER SOURCE

- Features two USB ports and 2,1A output, enough to charge any modern device, even the iPad®
- Universal application, can be mounted to any 25 mm x 25 mm (1" x 1") flat surface or 25,4 mm (1") diameter handlebar/tubing (requires at least 25 mm (1") L straight section to mount)

2130-0228

- Connects directly to the battery with inline fuse
- Chrome or black finish

PART #	DESCRIPTION
2120-0546	Chrome
2130-0228	Black

NAMZ Custom Cycle Products

DUAL USB CHARGING PORT

- Mounts to panel
- Charge two devices at once
- Includes O-ring and lock nut
- 5V

PART #	DESCRIPTION
2130-0249	Dual USB charging port

KURYAKYN

ELECTRICAL POWER POINTS

- Perfect for plugging in accessories like cell phones, iPod®, etc.
- Dressed up like a silver bullet light housing for a sleek look
- Includes everything needed to connect directly to a battery or accessory wiring harness
- Available with handlebar clamps for 25,4 mm or 32 mm (1" or 1 1/4") diameter handlebars, or 84-17 H-D clutch/brake perch mounts
- Clutch/brake perch model also fits mounts with the bolts vertically spaced 27 mm to 40 mm (1 1/16" to 1 9/16") apart; accepts 1/4"-20 bolts or M6x1 bolts (included)

2130-0134

NOTE: Not for use with Kuryakyn clutch master cylinder covers.

PART #	DESCRIPTION
2130-0132	For 25,4 mm (1") dia. handlebars
2130-0133	For 32 mm (1 1/4") handlebars

PART #	DESCRIPTION
2130-0134	For 82-99 H-D clutch/brake perch

DRAG Specialties

UNIVERSAL MOISTURE-RESISTANT CIGARETTE LIGHTER

- Features a rubber seal/cap to keep moisture out
- Kit includes a lighter, fuse holder, 10-amp fuse and wire

12V CIGARETTE LIGHTER PLUG

- Charge any electrical device on the bike
- Accepts any cable, easy installation
- Works for both Euro and small-size cigarette lighters
- Comes with 8A fuse included for additional safety
- Sold each

FLOSSER

PART #	DESCRIPTION
2130-0185	12V cigarette lighter plug

KILL SWITCH HOW TO ORDER

NOTICE TO CUSTOMERS: There are two types of stop switches: (1) Normally Open (NO) or (2) Normally Closed (NC). Switches in this catalog are typically of the Normally Open (NO) type. They work by GROUNDING the primary ignition lead when activated. Note that they will not work on electrical systems requiring a Normally Closed (NC) switch, which works by OPENING the circuit when activated. NC switches are typically used on battery type ignitions, which may have an ignition key as an identifier. NC switches are generally found on newer machines. If in doubt, check your machine's wiring schematic.

XL SERIES 450-WATT AMP/SPEAKER KIT

- Complete kit with dual 225-watt amps and front and rear XL Series 13,5 cm (5,25") speakers
- Includes metal mesh grilles for front speakers (PART #4405-0379)
- Amplifiers feature R.E.M.I.T. circuitry for excellent FM reception from a class D amp
- All required plug-and-play wiring and mounting hardware to complete installation is included
- Compatible with HD specific aftermarket radios

NOTE: Not compatible on CVO models with factory amplifiers installed.

PART #	DESCRIPTION
4405-0618	For 98 FLHTCU models

HOGTUNES
Audio Solutions For The Great American Cruiser

XL SERIES 225-WATT AMP/SPEAKER KIT

- Complete Road Glide-specific kit
- Features a 225-watt amp and XL series 13,5 cm (5,25") front speakers
- Speakers install with supplied mesh grilles; can use factory grille cloth
- Amplifier features R.E.M.I.T. circuitry for excellent FM reception from a Class D amp
- All required plug-and-play wiring and Road Glide-specific amplifier mounting plate included

NOTE: Not compatible on CVO models with factory amplifiers installed.

PART #	DESCRIPTION
4405-0669	For 98 FLTR models

XL SERIES 225-WATT AMP/SPEAKER KIT

- Complete kit with 225-watt amp and XL Series 13,5 cm (5,25") front speakers
- Includes metal mesh grilles (PART #4405-0379)
- Amplifier features R.E.M.I.T. circuitry for excellent FM reception from a Class D amp
- All required plug-and-play wiring and hardware to complete the installation is included

NOTE: Not compatible on CVO models with factory amplifiers installed.

PART #	DESCRIPTION
4405-0613	For 98 FLHTCU models

XL FRONT SPEAKER KIT

- Kit includes two 13,5 cm (5,25") 2-ohm front speakers with SGF Grill-AA metal mesh grilles
- Speakers offer superior bass response and overall better sound, especially at riding speeds
- Features carbon fiber woofer cone and titanium-impregnated 25 mm (1") tweeter
- Large magnet assembly for higher power handling
- Features studio-quality polystyrene capacitors in crossovers
- Works best when used with an amplifier
- Easy, plug-and-play installation

PART #	DESCRIPTION
4405-0555	For 98 FLHT models

SPEAKER SYSTEM KIT FOR MEMPHIS SHADES BATWING FAIRINGS

- Includes custom "pod" with dual 11 cm (4,25") speaker, 50-watt amp with USB charge port (1A max), audio perch with built-in volume control, a mini 3,5 mm (1/8") stereo audio cable and all required hardware and wiring
- Fits all Memphis Shades Batwing fairings
- Measures approximately 11 cm W x 13,5 cm T x 14 cm D (11 1/16" x 5 1/4" x 5 1/2")

NOTE: Kit may not fit if gauges are riser-mounted.

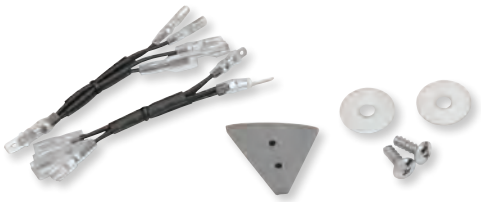
PART #	DESCRIPTION
4405-0218	Speaker system kit for Memphis Shades Batwing fairings

7" WOOFER KIT

- Includes 2-ohm 18 cm (7") woofers, grilles (not shown) and all required hardware
- Includes wire harness to plug into the rear channels of 450-AA, amp (4405-0388)
- Requires amplifier PART #s 4405-0338 or 4405-0341 (not included)
- Requires FLHT-style vented fairing lowers

NOTE: An additional amp will be required if using rear speakers with this kit.

PART #	DESCRIPTION
4405-0233	For 98 FLHT models



"HOG-POD" FLHT/FLHX DASH TRIM/TWEETER POD

- Complete add-on tweeter kit
- Doubles as a fairing accent piece with decorative chrome trim (included)
- Pod comes "satin black" to match stock inner fairings (as shown)
- Disassembles easily to paint-match custom-painted fairings
- Black "see-through" grilles can also be painted, chromed
- Second set of cloth-covered grilles included
- Works with all Hogtunes speaker systems, 98 stock systems or bikes with aftermarket car radios
- Includes custom-designed 50-watt (RMS) high-efficiency metalized dome tweeters with 3rd order (18 dB) passive crossovers
- Radically improves clarity and performance of your audio system
- All mounting hardware, drilling template and plug-and-play wiring is included in box

- Covers the stock antenna stud when the stock antenna is relocated

PART #	DESCRIPTION
4401-0204	Antenna cap

PINGEL® Since 1967

LOW MOUNT ANTENNA RELOCATION KITS

- An affordable way to relocate the antenna down low and out of the way of the detachable luggage rack or the tour pack on radio-equipped baggers
- No need to change the location of the antenna every time the tour pack is installed or removed from the bike
- Kit includes all hardware and polished stainless steel bracket
- Mounts to the rear fender support brackets; may fit on some models with saddlebag fillers

NOTE: Not for models with rear fender fascia.

J.W. SPEAKER ADAPTIVE 2 SERIES ECE Type Approved

18 CM (7") LED ADAPTIVE 2 HEADLIGHTS

- The improved Adaptive 2 series headlight allows for the use of adaptive technology when using either high beam or low beam
- Senses leaning angles up to 30° and dynamically fills in dark areas while turning
- Direct replacement for most 18 cm (7") headlights, retrofits PAR56 headlights
- Superior visibility, safety and durability
- Easy plug-n-play H4-style connector
- Die-cast aluminum housing

2001-1774

2001-1775

- 1600 lumen output (high beam), 1020 lumen output (low beam)
- Available with mounting ring for 84-98 Dresser models only
- ECE approved

KURYAKYN

18 CM (7") ORBIT PRISM LED HEADLAMP WITH BLUETOOTH® CONTROLLED LED HALO

- Ultra-high performance 18 cm (7") LED headlamp
- Powerful high-output LEDs have a color rating of 6.000K for optimum brightness
- Outer LED halo features infinite custom color options you can control using the IOS or Android app
- Sealed, cast-aluminum housing is IP67-rated
- Non-yellowing, hard-coated, scratch-resistant and UV-protected polycarbonate lens
- Lumen raw output: 2.600 (high beam), 1.350 (low beam)
- Effective lumen output: 1.600 (high beam), 1.000 (low beam)
- Low beam current draw is 1,5 amps, high beam current draw is 3,0 amps
- Uses standard H4, three-blade connector
- Includes all necessary mounting hardware
- Bluetooth® LED halo ring controller included

PART #	DESCRIPTION
2001-2215	18 cm (7") Orbit Prism+ LED headlamp w/ Bluetooth® controlled LED halo

18 CM (7") ORBIT VISION LED HEADLAMP WITH HALO

- Ultra-high performance 18 cm (7") LED headlamp
- Powerful high-output LEDs have a color rating of 6.000K for optimum brightness
- Integrated outer white LED halo enhances the field of visibility and the rider's field of vision
- Sealed, cast-aluminum housing is IP67-rated
- Non-yellowing, hard-coated, scratch-resistant and UV-protected polycarbonate lens
- Lumen raw output: 2.600 (high beam), 1.350 (low beam)
- Effective lumen output: 1.600 (high beam), 1.000 (low beam)
- Low beam current draw is 1,5 amps, high-beam current draw is 3,0 amps
- Uses standard H4, 3-blade connector
- Includes all necessary mounting hardware

RAT EYE LED MIRROR MOUNT TURN SIGNALS

- Design tucks the turn signals under your controls for a minimalist look
- The dome shape of the light produces a wider range of light around the bike
- Solid-state LEDs are designed for long life and low energy draw
- More light to help you focus on the road ahead
- Fit any $^{5}/_{16}$" or 8 mm mirror mounting bolt
- Must have mirrors that use a mounting bolt that threads into the mirror stem
- Gloss black or chrome-plated finishes
- CNC-machined from billet aluminum
- Feature two or four super-bright 18 mm amber LED lights
- Great day and night visibility
- Can operate as run/turn signals with intensifier
- Dimensions: 22,2 mm W x 42,9 mm T x 41,3 mm L (0,875" x 1,6875" x 1,625"); stands off the bike 30,5 mm (1,20")
- Sold in pairs

IMPORTANT: Additional electrical equipment may be needed to complete installation.

NOTE: If being used as a turn signal and marker light or run/brake/turn on rear, the use of an LED Intensifier Converter is required. Depending on the year/make/model of your bike a load equalizer, LED turn signal flasher or diode kit may be required. If you are unsure of what is needed, please contact Joker Machine for assistance.

SINGLE RAT EYE LED TURN SIGNALS

- Housings are CNC-machined from billet aluminum
- Each signal has 18 mm amber or red LEDs
- Exceptional beam angle
- Single-function design (can be converted to run/turn or run/turn/brake)
- Side-mounted, wires exit from the back of the signal housing
- Compact design measures 38 mm L x 22,2 mm square (1,5" L x 0,875"); stands off the bike 30,5 mm (1,20") when mounted
- Mount to any $^{5}/_{16}$" or 8 mm hole
- Mounting hardware included
- Optional adapter plates feature large $1\,^{1}/_{16}$" x $^{3}/_{16}$" hole and mounting hardware
- Signals and adapter plates sold in pairs

Joker MACHINE

ASTRO LED TURN SIGNAL/MARKER LIGHTS

- Bullet-style super-bright LED turn signal/marker lights really clean up the look of your bike
- Each features nine intensely bright LEDs in a cluster module for light output, amazing for its size (roughly 19 mm diameter (3/4")) at the light source)
- Available in your choice of amber or red LED light color output (amber only for fork mount version)
- All parts are fully CNC-machined from 6061-T6 billet aluminum
- Available in your choice of chrome or hard black anodized finishes
- May be rotated into virtually any upward-and-downward setting
- Dimensions: a little over 25 mm diameter (1"), 60 mm long (2 3/8"), and stand off the bike 38 mm (1 1/2")

PART #	DESCRIPTION
CENTER MOUNT MARKER LIGHTS	
2020-0441	Black anodized finish, amber LED
2020-0444	Black anodized finish, red LED
2020-0445	Chrome finish, red LED

- Center-Mount Turn Signal Marker Lights can be mounted in almost any 5/16" or 8 mm hole; wires feed through a pre-drilled hole in the mounting bolt
- Adapter plates available for your Side Rail Turn Signal/ Marker Lights, allowing you to remove your stock rear turn signals and replace them with Astros for a narrow look
- Sold in pairs

NOTE: If being used as turn signals, a load equalizer may be required.

PART #	DESCRIPTION
ADAPTER PLATES FOR SIDE RAIL-MOUNT MARKER LIGHTS PART #S 2020-0447/2020-0448/2020-0450/2020-0451

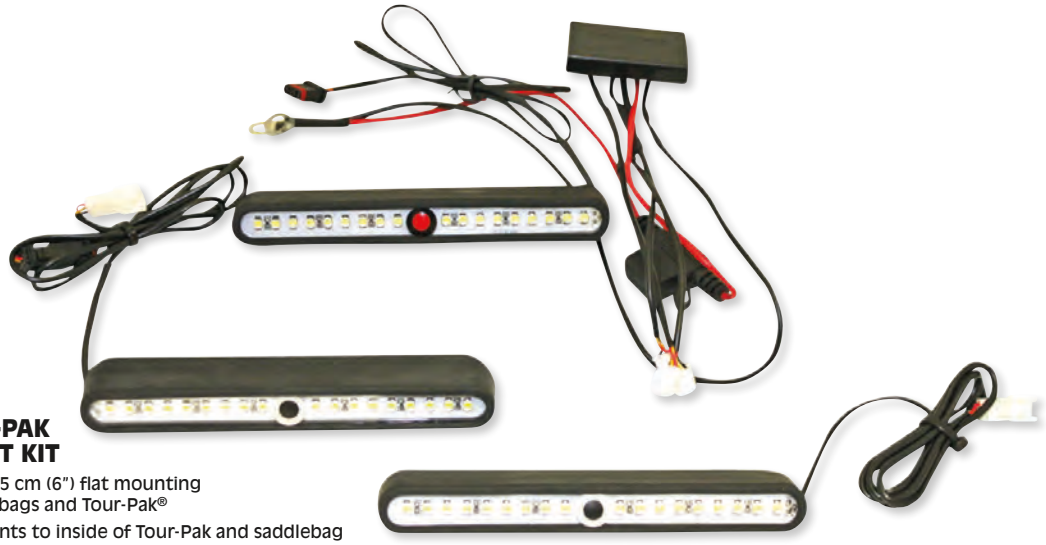
FOR 97-98 FLHS/FLHR/FLHRC, AND 98 FLTR MODELS	
2040-2477	Red
2040-2478	Smoke

All part numbers in BLUE are new for the OldBook.



SADDLEBAG/TOUR-PAK INTERIOR LED LIGHT KIT

- Fits any HD model with 15 cm (6") flat mounting surface with hard saddlebags and Tour-Pak®
- Bright LED light bar mounts to inside of Tour-Pak and saddlebag
- 3-LED light bars with 18 super-bright white LEDs per bar
- Five-minute auto shutoff
- Plug-and-play
- Convenient on/off button located on each light bar
- Quick-disconnect wire harness

PART #	DESCRIPTION
2040-2265	Saddlebag/Tour-Pak light kit

FLATZ™

- Super-bright (131 LEDs per unit) accent lights
- Super-low profile design, measure 18,5 cm L x 56 mm W x 18 mm H (7,1" x 2,2" x 0,7")
- Mount with 3M™ double-sided tape to any flat surface; work great on saddlebags or filler panels
- Three-wire hookup (low, high, ground)
- Can be wired as run/brake, run/turn or run/brake/turn signals
- Chrome finish with red lenses
- Sold in pairs

PART #	DESCRIPTION
2040-1846	Clear LEDs w/ red lenses

2040-0304

TOUR-PAK® LENS KIT

- Available with smoke lens
- Replaces the stock red lens exactly
- Includes eight red bulbs and all necessary installation hardware
- Replacement bulbs sold separately

PART #	DESCRIPTION
2040-0304	For 79-98 Tour-Pak®

PART #	DESCRIPTION

KURYAKYN

PRISM+ PRO KITS

- Pro kits are designed for riders who overlook no details in turning their bike into the ultimate attention-getter
- Prism+ system is loaded with a variety of ways to turn your ride into a rolling canvas of light; all controlled by your phone via Bluetooth®
- Multiple one-touch color options from a spectrum-based color wheel, four preset modes, user-created custom modes, sync-to-music mode, camera-recognition color matching and more
- The smart LEDs are also capable of practical features like additional run, brake and turn signal functionality to greatly improve visibility toward other motorists
- Available with or without a V2 Prism+ Bluetooth controller (PART #2050-0387) so you can start from scratch or add to existing Prism+ headlights, kits or components already using a Bluetooth controller
- Includes ten Prism+ light pods, two 10 cm (4") flex-strip lights, two 20,5 cm (8") flex-strip lights, eight 23 cm (9") extension wires, two 30,5 cm (12") extension wires, two 61 cm (24") extension wires, two short Y connectors, two long Y connectors, on/off switch, zip ties, alcohol pads and dielectric grease
- Bluetooth controller features four zones for max coverage and variety (two front, two rear)
- Controller max load output is 3200 mA, with no zone to exceed 1200 mA (Prism+ impact kit total draw: 902 mA)
- Light pods: Eight intensely-bright, wide-angle LEDs (92 mA draw)
- 10 cm (4") Flex-strip lights: Eight intensely-bright, wide-angle LEDs (92 mA draw)
- 20,5 cm (8") Flex-strip lights: 16 intensely-bright, wide-angle LEDs (175 mA draw)
- Durable IP67-rated waterproof housings and connectors
- Universal for any vehicle with 12VDC
- High-strength 3M® VHB™ for easy, secure installation

PRISM+ ACCENT LIGHTS

- Add on to an existing kit, create your own kit from scratch or replace damaged Prism+ Light Pods or Flex-Strip Lights
- 10 cm (4") strips contain eight intensely bright wide-angle LEDs (92mA draw); 20,5 cm (8") strips contain 16 intensely bright LEDs (175 mA draw)
- Requires Prism+ Bluetooth® Controller (PART #2050-0387), sold separately or included with select Prism+ kits and headlights
- Sold individually to allow easy upgrades to existing Prism+ lighting systems

PART #	DESCRIPTION
2040-2494	10 cm (4") Flex-Strip light
2040-2495	20,5 cm (8") Flex-Strip light

PART #	DESCRIPTION
2040-2496	Prism+ Light Pod

PRISM BLUETOOTH® CONTROLLER

- Features four "zones" (two front and two rear) that can run multiple colors and display modes simultaneously
- Not compatible with original Orbit Prism Headlights (PART# 2001-1800, PART# 2001-1524) or passing lamps (PART# 2001-1802)
- Kuryakyn Prism App is compatible with all iOS or Android mobile devices for quick and easy operation, offering infinite color options, customizable preloaded display modes as well as user-created custom display modes and more
- Available for installing Orbit Prism+ 11,5 cm (4 1/2") passing lamps or any of Prism+ Pods, Flex-Strips, Flare or Roulette Wheel lights that do not include a controller
- Controller max load output is 3200 mA, with no zone to exceed 1200 mA
- Universal for any vehicle with 12VDC
- Device microphone recognition for music syncing capability
- Camera recognition for convenient photo color referencing

PART #	DESCRIPTION
2050-0387	Prism+ Bluetooth® controller

PRISM+ LIGHT WIRING COMPONENTS

- Variety of available extension cords and connectors to keep your Prism+ installation or expansion clean and painless
- Y-Connectors are available in short (20,5 cm (8")) or long (30,5 cm (12")) lengths
- Extension wires are available in 23 cm (9"), 30,5 cm (12") or 61 cm (24") lengths to accommodate an array of vehicles and Prism+ layouts
- Sold each

LED ROCK LIGHT KIT 2.0 AND EXPANSION KIT

- Tough aluminum-cast housing with color-changing LED chips
- Super-bright light with over two million color combinations
- 30% brighter than original Rock Lights with better dispersion and a slim module only 13 mm (0,5") thick
- Control with any Bluetooth® connections on smartphone; connects in seconds
- Pick a color, run a program of colors or play music to change colors
- Compatible with any LED Bluetooth-controlled light
- Features a daisy-chain design, two lines out (front and rear)
- Expandable (up to 10 modules)
- Kit includes controller box, four LED modules, four extension cables, silicone mount pads and mounting hardware
- Controller box: 89 mm x 89 mm x 25 mm (3,5" x 3,5" x 1"), modules: 76 mm x 21 mm x 127 mm (3" x 2" x 5"), extension cables: (two) 2 yards (6') and (two) 3 yards (10')
- Two-piece LED expansion kit (PART #2040-2679) is designed to allow additional LED light modules to be added
- Up to three additional expansion kits can be added to Rock Light kit 2.0 controller for a total of 10 LED modules running from one controller box
- Expansion kit includes two LED modules, two extension cables, silicone mount pads and hardware

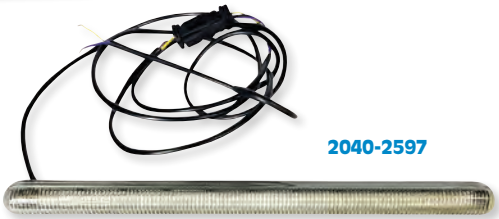
2040-2596

LOW-PROFILE DUAL-INTENSITY LED LIGHT BARS

- Comes pre-taped for mounting to any flat surface
- Slim design contains 50 dual-intensity red LEDs behind either a red or smoke lens
- Simple 3-wire hookup
- Fits all 12VDC systems with a negative ground
- Measures 18 cm L x (7") x 13 mm W (0,5") x 10 mm H (0,4")



2040-2597

PART #	DESCRIPTION
2040-2596	Red lens

PART #	DESCRIPTION
2040-2597	Smoke lens

All part numbers in BLUE are new for the OldBook.

Custom Dynamics

LED FENDER TIP BOARDS

- Replaces OEM #194 bulb
- 40 wide-angle super-bright LEDs
- Available in amber or white front LED lights, or run/brake rear LED lights
- Can be used behind any color lens
- Sold each

PART #	DESCRIPTION
FOR 84-98 FLHT, 86-99 FLST/FLSTC MODELS (FRONT)	
2060-0276	Amber LED light
2040-1289	White LED light

PART #	DESCRIPTION
FOR 84-98 FLHT, 86-99 FLST/FLSTC MODELS (REAR)	
2060-0453	Red LED light
2060-0278	Red dual-intensity LED light

DRAG Specialties

NOSTALGIA-STYLE FRONT FENDER LIGHT

- Improved version of Harley-Davidson's old-style front fender light is die-cast and chrome-plated
- Includes mounting gasket, concealed mounting hardware and extra-long wire leads
- Features an amber lens
- Measures 17,5 cm L x 57 mm W x 51 mm H (6 7/8" L x 2 1/4" W x 2" H)
- For replacement bulbs, see pages 721-726

PART #	DESCRIPTION
DS-280180	Front fender light, 12V

DRAG Specialties

FENDER TIP LIGHTS

- These tip lights are a perfect fit on OEM and aftermarket front and rear fenders
- Clear fender light comes with amber and red bulb
- Replacement lenses available separately
- Sold each

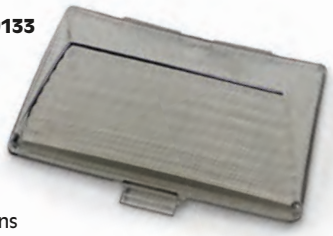
FRONT LIGHTS	
PART #	DESCRIPTION
FOR 80-95 FLT/FLHT (EXCEPT FLTR) AND 86-95 FLSTC/N	
DS-719933	Light w/ amber lens; repl. OEM #59180-80
2040-1247	Light w/ smoke lens
REPL. FRONT LENS ONLY	
PART #	DESCRIPTION
FOR 84-98 FLT, FLHT/C, 86-99 FLSTC	
2040-0589	Amber lens; repl. OEM #59180-80
2040-0592	Smoke lens
2040-0129	Clear lens

REAR LIGHTS	
PART #	DESCRIPTION
FOR 80-95 FLT/FLHT, 86-95 FLSTC	
DS-719932	Light w/ red lens; repl. OEM #59658-79
REPL. REAR LENS ONLY	
PART #	DESCRIPTION
FOR 99 FLSTC	
2040-0580	Light w/ red lens; repl. OEM #59672-99
2040-0584	Light w/ smoke lens
FOR 80-08 FLT/FLHT	
2040-0588	Red lens; repl. OEM #68046-79
2040-0591	Smoke lens

KURYAKYN

FENDER TIP LIGHT LENS KITS

- Fender tip smoke lens kit adds style
- Includes a push-in LED bulb and smoke lens
- Sold each



PART #	DESCRIPTION
FOR 80-98 FLHT, L82-84 FLH, 86-99 FLST/FLSTC MODELS (REAR FENDER)	
2040-0133	Kit w/ red LED

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT, 86-99 FLST/FLSTC MODELS (FRONT FENDER)	
2040-0134	Kit w/ amber LED

All part numbers in BLUE are new for the OldBook.

SMART TRIPLE PLAY®

- Converts rear turn signals to run-brake-turn
- Works with LEDs or incandescent bulbs
- Ten user-selectable built-in brake light strobe/flash patterns (user can also select no strobe/flash on brake)
- Ten user-selectable running light intensities allow user to match the running light brightness of turn signals to center taillight
- Ability to apply brake strobe/flash patterns on center taillight only, rear turns only, or rear turns and center taillight
- Built-in short-circuit protection
- Sealed, weathertight case
- Slimline design: 11 cm x 36 mm x 15 mm (4,2" x 1,4" x 0,6")

PART #	DESCRIPTION
2050-0146	For 97-98 Touring, 96-99 Softails and 97-98 Dyna

LOAD BALANCING TRIPLE PLAY MODULE®

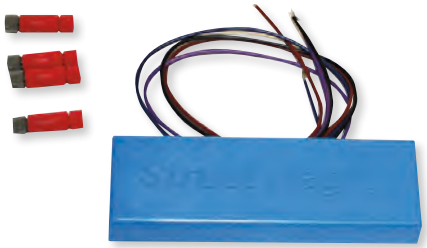
- Acts as a no-load, no-heat load equalizer
- Converts rear 1156 turn signals to function as run/brake/turn signals
- 10 user-selectable built-in brake light, or strobe/flash patterns
- Plug-and-play

PART #	DESCRIPTION
2050-0381	For 97-99 FLHR/FLHRC/FLHS/FLTR/FLTRU, 96-99 Softails and 97-98 Dyna models

SMART TRIPLE PLAY® EXTENSION HARNESS

- Plugs into accessory ports on the Smart Triple Play® module
- Allows for a total of two plug-and-play lighting products

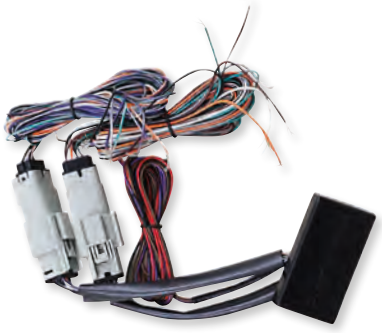
PART #	DESCRIPTION
2120-0976	Smart Triple Play® extension harness



SIGNAL STABILIZER MODULE

- Simple posi-tap installation
- Alarm compatible
- 100% waterproof

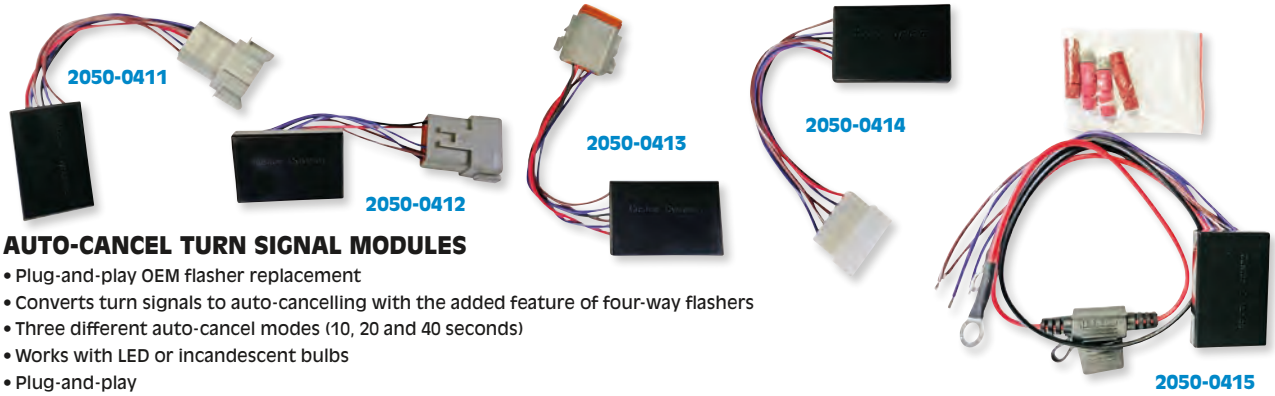
PART #	DESCRIPTION
2050-0222	For all models



SEQUENTIAL TURN SIGNAL CONTROL MODULE

- Allows for up to five separate turn signal segments per side to flash sequentially instead of flashing all at the same time
- 91 cm (36") wire leads
- Built-in quick connectors
- 9-16VDC operating range
- Reverse battery protection
- .25AMP per output

PART #	DESCRIPTION
2050-0426	Sequential turn signal control module



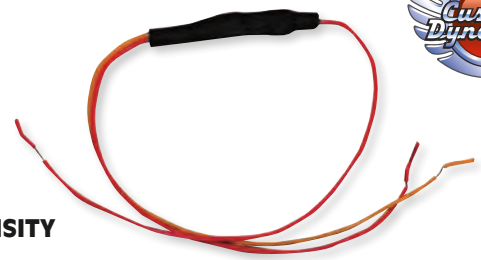
AUTO-CANCEL TURN SIGNAL MODULES

- Plug-and-play OEM flasher replacement
- Converts turn signals to auto-cancelling with the added feature of four-way flashers
- Three different auto-cancel modes (10, 20 and 40 seconds)
- Works with LED or incandescent bulbs
- Plug-and-play

PART #	FITS MODEL
2050-0411	96-98 FLHR/FLHT/Dyna, 96-99 Softail models w/ installed 8 position male connector
2050-0412	For Deutsch style 12-pin plug for 94-99 models w/o Delphi TSM

PART #	FITS MODEL
2050-0413	For 94-95 FLHR/FLHT/XL models w/ installed 8-position female connector
2050-0414	For 87-93 FLT/FLHT models w/ 10-position connector
2050-0415	Universal hardwire application

All part numbers in BLUE are new for the OldBook.



ECLIPZE2® DUAL-INTENSITY MODULE

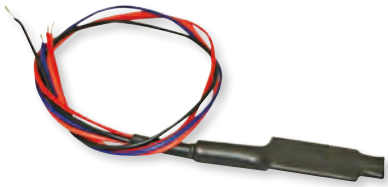
- Converts single-intensity LEDs to dual intensity with the advantage of 100% ON running lights and a full-contrast turn signal flash
- Works with any size LED up to 300mA per side
- Increases front visibility by changing the running light from 30% brightness to 100% brightness and flashing the LEDs from 0% to 100% to give more contrast to the turn signal
- Eclipze2® LEDs work with emergency hazard flashers and all alarm systems when the vehicle is off or on
- Sold in pairs

PART #	DESCRIPTION
2050-0085	Eclipze2® dual-intensity module

AMBER/WHITE CONVERTERS FOR LED BOLTZ

- Allow amber/white LED Boltz to function as white running lights with amber turn signals
- These modules turns the white LED off when the turn signal is engaged, providing a full contrast amber turn signal
- Maximum of three LED Boltz per converter
- Sold in pairs

PART #	DESCRIPTION
2050-0401	Amber/white converters

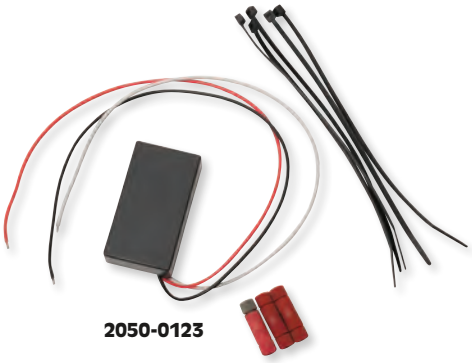


UNIVERSAL TURN SIGNAL ISOLATOR

- Electronically isolates all turn signal outputs allowing the use of almost any aftermarket turn signal
- Hard-wire installation on any motorcycle
- Recommended for use with any aftermarket turn signal

PART #	DESCRIPTION
2050-0320	Turn signal isolator

2050-0120



2050-0123

MAGIC STROBES BRAKE LIGHT FLASHERS

- 10-user selectable flash/strobe patterns
- Overcurrent/thermal/short circuit/reverse wiring protection
- 84W, 12V system
- Sealed weathertight case
- Measures 57 mm L x 32 mm W x 13 mm H (2,25" x 1,25" x 0,5")

PART #	DESCRIPTION
2050-0120	For 97-98 Dressers, 96-99 FXST/FLST and 97-98 FXD
2050-0160	For 97-98 H-D models with King or Ultra-style Tour-Pak®
2050-0123	Universal

RUN/BRAKE/TURN ACCESSORY ADAPTER

- Converts Custom Dynamics plug-and-play run/brake accessories to run/brake turn functions
- Compatible with non-sequential, single-color red LED accessories
- Separated brake wire lead
- Plug-and-play
- Sold each

PART #	DESCRIPTION
2050-0432	For 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR, 96-99 Softails and 97-98 Dyna models

2120-1151

2120-1152

PLUG-AND-PLAY REAR FENDER ADAPTER

- Adapter harness plugs into OEM motorcycle wire harness under the seat to mate with OEM rear lighting harness on newer model rear fender

PART #	DESCRIPTION
FOR 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR MODELS	
2120-1151	14-current rear fender conversion
2120-1152	Rear fender conversion

INTEGRATED TAILLIGHT HARNESS

- Provides turn signal power to rear taillight assembly for compatibility of any Custom Dynamics® or ProBEAM® integrated LED taillight
- For all 99 and earlier Harley-Davidson models with integrated taillight assembly
- Plug-and-play

PART #	DESCRIPTION
2120-1074	Integrated taillight

MPR EXTENSION HARNESS

- This extension harness plugs into the 3-pin accessory ports on the MPR adapter harness (typically included with Custom Dynamics plug-and-play lighting)
- Allows for three separate plug-and-play products to run off a single MPR adapter harness

PART #	DESCRIPTION
2120-1026	MPR extension harness

All part numbers in BLUE are new for the OldBook.

QUICK-DISCONNECT FOR TOUR-PAK®

- Provides convenient plug-and-play connection of OEM or add-on Tour-Pak®
- Provides accessible connector for easy removal of Tour-Pak®
- Sold each

PART #	DESCRIPTION
2130-0268	For 97-98 FLHT/FLHR/FLHRC/FLTR

UNIVERSAL 4-WIRE WEATHERTIGHT QUICK-DISCONNECTS

- Quick-disconnect for any two, three or four wire auxiliary lighting product
- 22 AWG wires
- 15" total wire length
- Four-pin JAE connectors
- Sold in pairs

PART #	DESCRIPTION
2130-0316	Universal 4-wire weathertight quick-disconnects

WRAP-AROUNDS™ WIRE CONVERTERS

- Convert 2-wire Custom Dynamics Wrap-Arounds™ to 3-wire
- Convert wire function to run as both running and turn instead of just turn
- Sold in pairs

PART #	DESCRIPTION
2050-0251	Wrap-Arounds™ wire converters

WIRE ADAPTERS FOR PROBEAM® DYNAMIC STRIPS™

- Wire adapters allow for installation of ProBEAM® Dynamic Strips™ (PART #s 2040-2556, 2040-2558 or 2040-2557 sold separately)
- Plug-and-play

PART #	DESCRIPTION
2050-0418	For all 96-98 FLHR models

PLASMA RODS™ WIRING ADAPTER

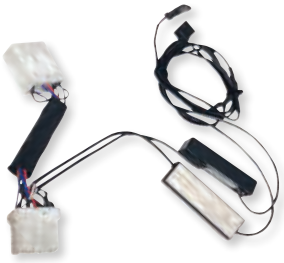
- Allows Custom Dynamics Dual Color Plasma Rods (PART #s 2040-2702, 2040-2703, 2040-2704, 2040-2705; sold separately) to be used as run/brake/turn operation
- Install into main wire harness for easy wire hookup
- One unit needed per bike
- Plug-and-play technology

PART #	FITS MODEL
2050-0429	For 97-98 FLHT/FLHTCU/FLHR/FLHRC, 98 FLTR, 96-99 Softails and 97-98 Dynas

WIRING ADAPTER FOR PLASMA RODS

- Allows Custom Dynamics Plasma Rods (PART #s 2040-2688, 2040-2689, 2040-2690, 2040-2691) to be used as running/brake lights
- Install to main wire harness for easy hookup
- One unit needed per bike
- Plug-and-play

PART #	DESCRIPTION
2050-0421	For 97-98 FLHT/FLHTC, 97-98 FLHR/FLHRC, 98 FLTR, 96-99 Softails, and 97-98 Dyna models



2050-0434

2050-0437

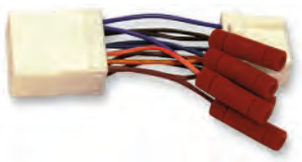
MICRO BULLET WIRING ADAPTERS

- Install in-line with factory wiring to allow for simple plug-in installation of Micro Bullet LED turn signals (sold separately)
- Built-in converters allow the amber turn signal to override the red brake light when braking and turning at the same time
- Plug-and-play technology

97-98 FLHT/FLHTC/FLHR/FLHRC, 98 FLTR, 96-99 SOFTAILS AND 97-98 DYNA GLIDE MODELS

PART #	DESCRIPTION
2050-0434	Amber/white

PART #	DESCRIPTION
2050-0437	Amber/red

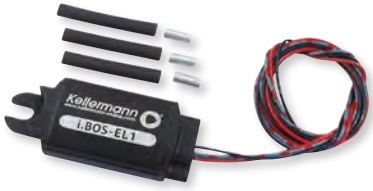


UNIVERSAL WIRING ADAPTER

- Provides easy connection to run, brake, left and right turn, and ground wires

PART #	DESCRIPTION
2050-0167	For 97-98 Touring models, 96-99 Softail models and 97-98 Dyna models (except FXDB/FXDLS/FXDWG)

All part numbers in BLUE are new for the OldBook.



2040-2316

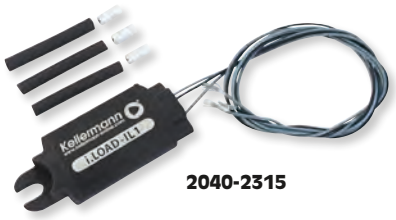
2040-2317

Kellermann high quality products made in germany

i.BOS

- Fix control lights when functioning inaccurately

PART #	DESCRIPTION
2040-2316	For use with LED rear lights
2040-2317	For use with warning/control lights



2040-2315

2040-2318

Kellermann high quality products made in germany

i.LOAD

- When installing new indicators the flashing rate of the indicator or the control light may increase
- i.Load provides correct function for the indicator lights

PART #	DESCRIPTION
2040-2315	For use with indicator control light
2040-2318	For use with 10 watt LED indicators

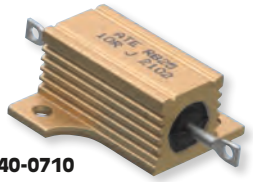
Kellermann high quality products made in germany

ECE Type Approved

LOAD-INDEPENDENT INDICATOR RELAY

- Ideal for use with LED or halogen indicators
- In addition to regulating the indicating frequency, this relay offers the advantage of cancelling the function of the unused indicator
- Optimally suited for motorcycles with one or two indicator lights and as a replacement for two- or three-poled original relays
- Includes all necessary mounting hardware

PART #	DESCRIPTION
2040-0709	Load-independent indicator relay



2040-0710

2040-0711

Kellermann high quality products made in germany

POWER RESISTORS

- When changing the original indicators to LED or halogen, the indicating frequency is automatically altered
- The indicating frequency is adjusted for parallel switched power resistors
- See application chart for guidance

NOTE: When using micro 1000 DF and a light control bulb, one additional resistor at 33 ohm (PART #2040-0712) for the rear light and one additional resistor at 7,5 ohm (PART #2040-0711) for the brake light are required.

PART #	DESCRIPTION	PART #	DESCRIPTION	PART #	DESCRIPTION
2040-0710	10 ohm	2040-0711	7,5 ohm	2040-0712	33 ohm

SHOW CHROME ACCESSORIES

DUAL LOAD EQUALIZER

- Allows LED turn signals to operate in place of stock incandescent bulb turn signals without replacing the flasher module
- Splice into existing turn signal system

PART #	DESCRIPTION
2050-0044	Dual load equalizer

Joker MACHINE

LED TURN SIGNAL INTENSIFIER

- Converts single-function Joker Machine LED lights into run/turn or run/brake/turn lights
- Converter has been designed to hide in-line on your factory wiring
- Will do high function, which can be turn function or brake function; the low function is for running light to add visibility
- Sold in pairs

NOTE: In-line converter is not for incandescent or halogen bulbs and max rated for 500 mili-amps.

PART #	DESCRIPTION
2050-0270	LED turn signal intensifier

All part numbers in BLUE are new for the OldBook.

PLUG-IN ILLUMINATOR WITH RED LENSES

- Our Illuminator run-brake-turn signal module packaged together with red signal lenses
- Lenses fit the rear OEM turn signal assemblies
- Gives you three running/brake lights and maintain turn signal functions
- Greatly increase the visibility of the motorcycle when seen from the rear
- Illuminators plug into OEM wiring harness for a quick installation that does not require cutting and splicing wires (unless noted)

2050-0019

2050-0020

PART #	DESCRIPTION
2050-0019[1]	For 86-96 FLSTC, 86-98 FLT/FLHT/FLHR and FLTR models (AMP-style 6-pin square plug)

PART #	DESCRIPTION
2050-0020[1]	For 86-96 FXST/FLST/FXR and Dyna models (except 86-96 FLSTC models) (AMP-style 6-pin square plug)

[1] Motorcycles wihout an AMP-style 6-pin plug will require the unit being hardwired.

STATIC/DYNAMIC SEQUENTIAL SIGNAL MODULES

- Allow for the three separate LED turn signals installed on the rear of the bike and flash sequentially
- LEDs will also perform brake and running light functions
- Include color-coded replacement rear fender harness and installation instructions
- Built-in load-equalizer prevents rapid flashing
- Static sequential flashing: When the turn signal button is pressed, the first LED will light up, followed by the second and third, before all three shut off and the sequence starts again
- Dynamic sequential flashing: When the turn signal button is pressed, the first LED will light up, then power off; followed by the second on/off and third on/off before the sequence starts again

2050-0303

PART #	DESCRIPTION
2050-0303	Static module

PART #	DESCRIPTION
2050-0307	Dynamic module

2050-0017

2050-0214

2050-0091

RUN, BRAKE AND TURN SIGNAL MODULE

- Turns stock or custom turn signals into running and brake lights; also retains turn signal capabilities
- Increases visibility from the rear of the motorcycle
- Built-in load equalizer will allow running of even the smallest lights or a minimum of two lights only
- Comes complete with wiring, connectors and easy-to-follow instructions

PART #	DESCRIPTION
2050-0017[1]	For 85-90 FLTR/FLHT/FLHR , 86-95 FXST/FLST/FXR and 95-96 Dyna models (connectors require assembly; AMP-style 6-pin square plugs)

PART #	DESCRIPTION
2050-0214	For 91-93 FLT/FLHT models
2050-0091	For 94-96 FLT models with 8-pin Deutsch plugs

[1] Motorcycles without AMP 6-pin connectors require hardwiring of this unit.

PLUG-IN AUTOMATIC TURN SIGNAL CANCELERS

- Plug in and replace the OEM signal canceler
- Do not require stock speedometer for proper operation
- Automatically flash for 11 seconds; can be manually canceled at any time
- Built-in emergency flasher mode
- Built-in load equalizer runs LEDs of up to 100W per side
- Measure 73 mm L x 34,9 mm W x 22,2 mm D ($2^{7}/_{8}$" x $1^{3}/_{8}$" x $^{7}/_{8}$")

NOTE: Be sure to identify which connector is on the bike before purchasing, as the factory was not consistent during 1994-1999.

UNIVERSAL PULSING BRAKE LIGHT MODULE

- When brake is applied, it pulses brake light five times before remaining solid light
- Designed for use with most Badlands lighting modules

PART #	DESCRIPTION
7808-1029	AMP style 6-pin plug for 87-93 FLT, 90-93 Big Twin models

PART #	DESCRIPTION
2050-0292	Universal brake light module

All part numbers in BLUE are new for the OldBook.

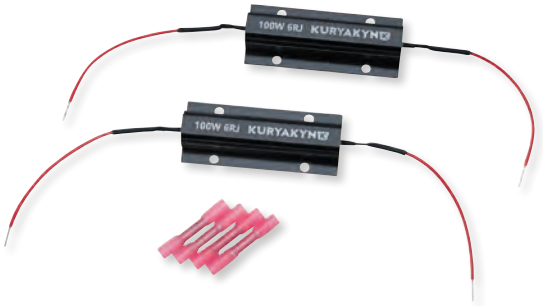
KURYAKYN

RUN/TURN/BRAKE LIGHT CONTROLLER

- Module makes single-filament or single-circuit turn signals on the rear of the bike function as running lights, turn signals, and brake lights
- Can be used with LED or halogen lights, incandescent fender strut lights, stock turn signals, or any single-filament light that may already be installed on the rear of bike
- Kit with Tour-Pak® harness also converts Tour-Pak® lights to run/turn/brake lights
- Complete plug-in for most 96-newer H-D models with single-filament turn signals and a taillight with running and brake functions
- Compatible with 02-later H-D models with factory cruise control

PART #	DESCRIPTION
2050-0139	For 97-98 FLHT/FLHR, 98 FLTR, 96-99 FXST/C/S, 96-99 FLST/C/F/FB/SB/N, 91-98 FXD/B/CL and 97-98 FXDWG (w/o harness)

ALUMINUM LOAD EQUALIZERS



- Perfect for any custom application when replacing OEM incandescent turn signals with low-draw LED turn signals
- 100W – 6 Ohm rating
- Black anodized aluminum housings for durability and heat dissipation
- Includes heat shrink butt connectors
- In most instances, this kit will allow all four turn signals to be replaced with LED lights
- Sold in pairs

PART #	DESCRIPTION
2050-0433	For universal 12V applications

TOTAL CONTROL PASSING LAMP HARNESSES

- Allows passing lamps to remain lit when the high beam is in use
- Required when using Kuryakyn Phase 6 or Phase 7 LED headlamp/passing lamps
- Plug-and-play installation
- Sold each

PART #	DESCRIPTION
2050-0184	For 97-98 FLHR, 96-99 FLST (all models w/ passing lamps)

PART #	DESCRIPTION
2050-0185	For 98 FLHT (all models w/ passing lamps)

LOAD EQUALIZER ADAPTER

- Allows splice-free installation of Kuryakyn load equalizers equipped with 3-pin connectors
- Sold each

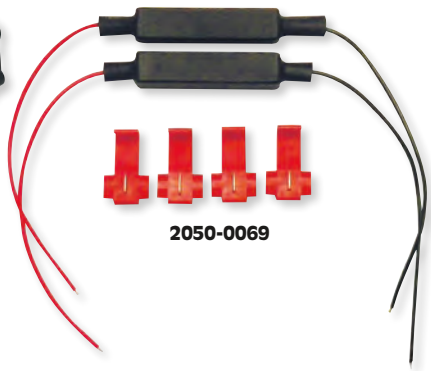
PART #	DESCRIPTION
2050-0108	For 97-98 Dressers and Road Kings, 96-99 Softails and 97-98 Dyna

8-PIN HARDWIRE ADAPTER

- Splice-in 8-pin Amp connector is required to install Panacea taillights or a Kuryakyn Run-Turn-Brake controller
- Sold each

PART #	DESCRIPTION
2050-0014	For 94-96 Dresser, Road King, 94-95 Softail and 94-96 Dyna

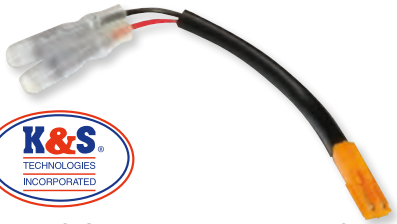
IN-LINE RESISTORS



- 10W/3-ohm universal in-line resistors or 20W/8,5-ohm heavy-duty in-line resistors
- Work great with LED lights
- Extra terminals included
- Sold in pairs

PART #	DESCRIPTION
2050-0065	Universal in-line resistors (10W/3-ohm)
2050-0069	Heavy-duty in-line resistors (20W/8,5-ohm)

TURN SIGNAL WIRE ADAPTERS



- Eliminate the need to cut and splice wiring when using aftermarket turn signals or marker lights
- Plug into the OEM turn signal plug and then use pin connectors used on aftermarket lights
- Sold in pairs

PART #	DESCRIPTION
2020-1170	Universal turn signal wire adapters

All part numbers in BLUE are new for the OldBook.

motogadget

mo.STOP BRAKE LIGHT MODULATOR

- Adjustable digital brake light controller
- Increases road safety
- Allows brake light to pulsate, creating faster reaction time for traffic behind you
- Can also be used as a normal flasher relay or a flasher relay with automatic switch-off
- Route through the handlebars, frame tubing or in the cable harness
- Six different light/blink variants adjustable for brake light: normal mode (no flashing, direct transmission); rise and fall at 3 Hz; flashing at 5 Hz; flashing eight times at 5 Hz, then continuous illumination; flashing two times at 5 Hz, then one second continuous illumination and again repeat; three second transmission, then flashing at 5 Hz
- Works with almost all LED brake lights and all conventional brake light lamps
- Easy to install
- Watertight, vibration-resistant and does not generate heat during operation
- Features an automatic overload protection

PART #	DESCRIPTION
2020-0465	mo.stop digital brake light modulator

www.elektronikbox.de

2120-0963

REAR LIGHT CONVERSION MODULES

- A simple solution for rewiring imported bikes to match local standards
- Convert brake light/indicator signals from US requirements to European requirements, or vice versa
- Cheaper and easier than rewiring manually

NOTE: Module does not differentiate between brake light and emergency flashers; external emergency switch is required for emergency flasher function.

PART #	DESCRIPTION
2120-0962	US to EU conversion module
2120-0963	EU to US conversion module

www.elektronikbox.de

BRAKE 2 FLASHER MODULE

- Add flasher functionality to brake lights
- Makes bike more visible on the road for a safer ride
- 14 different programmable modes

PART #	DESCRIPTION
2120-0964	Brake 2 flasher module

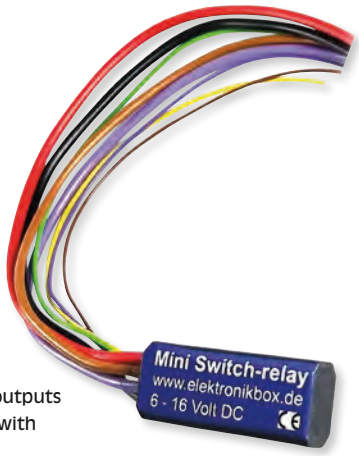
www.elektronikbox.de

MULTI FLASHER RELAY

- Small flasher for push-button lighting that will fit any handlebars
- Comfort flasher function switches off indicators if no buttons are pushed for a short while
- Measures 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0965	Multi flasher relay

www.elektronikbox.de

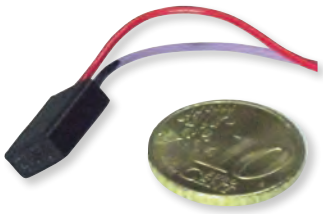


MINI SWITCH RELAY

- Features two 60W power outputs
- Change between outputs with the push of a button
- Measures 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0966	Mini switch relay

www.elektronikbox.de

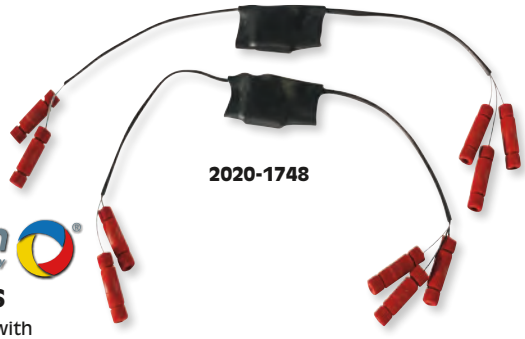


NANOFLASH FLASHER RELAY

- Small enough to fit anywhere on a bike
- Measures only 15 mm x 9 mm x 5 mm
- Durable ABS housing

PART #	DESCRIPTION
2120-0967	Nanoflash

Kellermann
high quality products made in germany



2020-1748

FLASHER RELAYS

- Suitable for vehicles with 5-9 volt or 12 volt indicator application
- Higher wattage than stock equipment

PART #	DESCRIPTION
2020-1747	5-9 volt

PART #	DESCRIPTION
2020-1748	12 volt

KURYAKYN

ELECTRONIC LED FLASHER RELAY

- Replace the stock relays and eliminate the need for load resistors with this solid-state design that provides consistent flash rate regardless of load
- Works great with LED replacement bulbs, custom LED turn signals or incandescent bulbs
- Max load is 200 watts
- Available with spade terminal for custom applications on motorcycles, trucks or cars
- Easy alternative to wiring in load equalizers
- For universal 12V applications
- Available with spade terminal for custom applications

PART #	DESCRIPTION
2050-0444	Electronic LED flasher relay w/ male spade terminals

All part numbers in BLUE are new for the OldBook.

2130-0219

DRAG Specialties

CUSTOM HEADLIGHT RELAY

- Controls the high-low beam operation of your headlight with a single wire and a simple push-button switch
- Makes for a cleaner-looking handlebar control
- Can be used with a horn switch or similar push-button switch (sold separately)
- For 12V systems only

PART #	DESCRIPTION
DS-324201	Custom headlight relay

DRAG Specialties

HAZARD FLASHER RELAY

- OEM replacement 12V hazard flasher relay

PART #	DESCRIPTION
2050-0034	For all 65-88 models; repl. OEM #68541-64A

FLOSSER

FLASHERS

- Keep your aftermarket turning signals working
- Available for LED and standard bulb turning signals
- Sold each or in a 10-pk.

PART #	DESCRIPTION	VOLT	MAX POWER
2130-0181	Flasher for LED with 2 terminals (ea.)	12V	30W
2130-0219	Flasher for LED with 2 terminals (10-pk.)	12V	30W

See chart for details

HIGH-PERFORMANCE HALOGEN BULBS

- Because of their unique filament materials, reflective technology, and proprietary coatings, PIAA bulbs offer far greater output than standard halogen bulbs
- While standard halogen bulbs give off a yellowish light that's not at all similar to sunlight, PIAA's technology gives off a whiter, brighter light or piercing amber light, enhancing visibility
- XTRA technology in Super Plasma and Star White bulbs allows light output to be dramatically higher than normal bulbs drawing the same wattage
- Each bulb is factory tested, ensuring it's within PIAA's extremely high manufacturing tolerances and performance standards
- Headlight bulbs available with Xtreme White, Ion Crystal Yellow and GTX Super Plasma technologies

GT-X SUPER PLASMA

- For the look of HID there is nothing closer than the GT-X Super Plasma bulbs
- With the H4 shining at 3800 to 5000K (Kelvin Color Temperature) and the H3 at 5000K, you will never sacrifice performance; with the XTRA technology, these bulbs have power to spare

PART #	DESCRIPTION	POWER CONSUMPTION	LIGHT OUTPUT

2500K Ion Crystal / Plasma Ion Yellow

XTREME WHITE

- Bulbs shine at 4150 Kelvin color temperature
- Closest in brightness to PIAA's High Intensity Discharge (HID) lights

XTREME WHITE HYBRID

- Constructed utilizing the best balance between performance and bulb life
- Provides high output and reliability
- Bulb coatings provide drivers with a brighter and whiter beam than stock

2030-0343

2030-0345

SIDE-MOUNT LICENSE PLATE MOUNTS

- Simple and sturdy way to mount a license plate
- Mounts horizontally to most 3/4" axles
- Made from tough stainless steel for durability and great finish
- PART # 2030-0345 accepts most cat eye-style taillights

PART #	DESCRIPTION
2030-0343	Left side
2030-0345	Left side w/ cat eye light mount

VERTICAL LEFT-SIDE AXLE MOUNT LICENSE PLATE BRACKET

- Fits any 3/4" axle – just install the steel plate bracket off your axle, and install your plate
- This bracket allows easy relocation of your license plate and accepts both the 28 and 33 style tail lights, or any aftermarket light designed to fit the same mounting hole pattern (such as Biltwell A, B, C, D, and E tail lights)
- Plate area is 7,25" x 4,25"

NOTE: Be sure to check your local laws regarding license plate orientation and location.

PART #	DESCRIPTION
2030-1029	Vertical left-side axle mount license plate bracket

SHOCK MOUNT LICENSE PLATE MOUNT

- Bolts to lower 1/2" shock bolt
- Allows for easy relocation of license plate
- Plate area is 7,25" x 4,25"
- Black powdercoated steel

NOTE: Be sure to check your local laws regarding license plate orientation and location.

PART #	DESCRIPTION
2030-0860	Shock license plate mount

AXLE MOUNT LICENSE PLATE BRACKET

- Fits any 3/4" axle; just install the steel plate off your axle, then attach the aluminum license plate backing plate, either vertically or horizontally, with the supplied hardware
- Plate area is 7,25" x 4,25"

NOTE: Be sure to check your local laws regarding license plate orientation and location.

PART #	DESCRIPTION
2030-0883	Axle mount license plate bracket

- Thread pitch is 1 mm and thread diameter is 9,75 mm

PART #	DESCRIPTION
2030-0383	LED license plate light

All part numbers in BLUE are new for the OldBook.

KOSO® Feel The Speed

ECE Type Approved

SPEED LED LICENSE PLATE LIGHT

- Illuminates license plate
- Includes attached cables
- Measures 45,6 mm L x 28,8 mm W x 11,8 mm H
- ECE approved
- Sold each

PART #	DESCRIPTION
2030-1372	Speed LED license plate light

KOSO® Feel The Speed

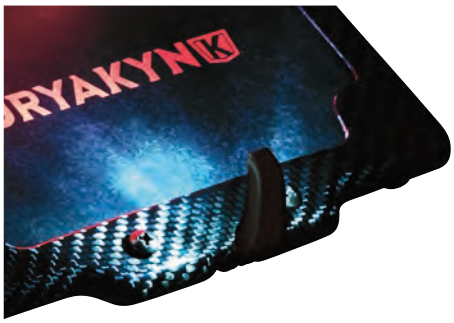
ECE Type Approved

DROP LED LICENSE PLATE LIGHT

- Used to illuminate a license plate
- For 12V systems
- Comes with pre-attached cables
- Measures 42 mm L x 16,6 mm W x 10 mm H
- ECE approved
- Sold each

PART #	DESCRIPTION
2030-0881	LED license plate light; black

KURYAKYN

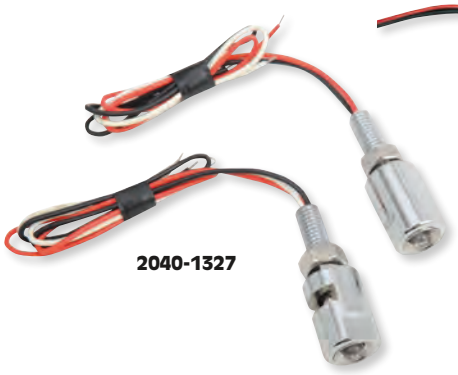


KELLERMAN KL 1 LICENSE PLATE LIGHT

- Emits ultra-bright pure white LED illumination
- Bracket support plate measures 70 mm wide x 57 mm tall ($2^{3}/_{4}$" x $2^{1}/_{4}$") (light source extends 32 mm ($1^{1}/_{4}$") from backer plate)
- Attaches to virtually any license plate bracket via high-strength 3M® VHB™ or fastened with screws (not included)
- Compatible with all 12V electrical systems
- ECE approved, not certified for DOT/FMVSS 108

PART #	DESCRIPTION
2030-1958	Kellerman KL1 license plate light

KURYAKYN



2040-1327

2030-0813

LED LICENSE PLATE ILLUMINATORS WITH OR WITHOUT TURN SIGNAL ACCENTS

- Available with or without LED turn signal accents
- Both styles have two white LEDs that illuminate the license plate
- PART # 2040-1327 has red rear-facing LEDs can function as auxiliary run/turn/brake light
- Both styles mount using hollow $^{1}/_{4}$" stud with internal wiring for a simple, clean installation
- License plate frame not included
- Sold in pairs

PART #	DESCRIPTION
2040-1327	W/ red accent light

PART #	DESCRIPTION
2030-0813	W/o red accent light

All part numbers in BLUE are new for the OldBook.

Custom Dynamics

LED TAG BOLTZ

- Offers super-bright chip-on-board white LEDs for license plate illumination
- Simple two-wire installation with 18" wire leads
- M-6 x 1" thread
- Fits all models with 12VDC negative ground systems
- Thread diameter is 0,232"
- Thread length is 0,59"
- Head diameter is 0,469"
- Head height is 0,711"

CH150R	Red (150-pk., sold ea.)

Kellermann high quality products made in germany

ECE Type Approved

KH 2000 LICENSE PLATE REFLECTOR

- CNC-milled
- Lightweight construction
- Multiple possibilities for positioning

PART #	DESCRIPTION
2030-1375	100 x 13 mm reflector

CHRIS PRODUCTS

LICENSE PLATE FASTENERS

- License plate bolt assembly is complete with a Phillips-head bolt, two washers and a locking hex nut
- Thread size of the bolt is 10-24 x $^{5}/_{8}$" L
- Available in bag of 100

PART #	DESCRIPTION
CH-100	License plate fasteners

DRAG Specialties

LICENSE PLATE MOUNT BOLT SET

- Chrome socket-head bolt set for mounting license plates
- Knurled head

PART #	DESCRIPTION
DS-190726	License plate mount bolt set

DRAG Specialties

LICENSE PLATE ACORN SET

- Each set includes four bolts, complete with custom acorn nuts
- Excellent for mounting license plates onto motorcycles

PART #	DESCRIPTION
DS-190190	License plate acorn set

LP-600

PARTS UNLIMITED

2030-0010

NYLON LICENSE PLATE FASTENERS

- Will never corrode, rust or loosen
- Remove and install with fingers
- Sold in bags of 100 bolts and nuts; sold to consumer as each

Joker MACHINE

INSPECTION TAG PLATES

- Laser-cut 6061 billet aluminum construction
- Made for 2¾" square inspection tag sticker
- ½" diameter mounting hole
- Overall size 89 mm x 120,5 mm (3,5" x 4,75")
- Available with a hard black anodized or chrome finish

PART #	DESCRIPTION
2030-1588	Black
2030-1589	Chrome

PRO PERFORMANCE PRODUCTS

MINI REGISTRATION HOLDERS

- Store your registration behind your license plate holder
- Adjustable brackets mount to the rear of most stock license plate assemblies
- Hardware mounts through the front of the license frame
- Available in upright or lay-down styles
- Tube length is 4,5" and is constructed of polished stainless steel
- Tube end caps are sealed with O-rings to ensure a watertight seal
- Brackets are machined from 6061-T6 billet aluminum, then polished and chrome-plated
- All necessary mounting hardware included

PART #	DESCRIPTION
3550-0135	Upright
3550-0136	Lay-down

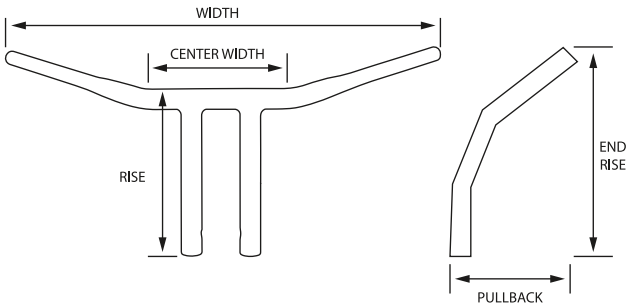
T-Bar



38 MM (1 1/2") "BIG" BUFFALO BARS

- Handlebars for the "biggest fattest" look
- Feature a full 38 mm (1 1/2") diameter in the clamping area (except T-Bars)
- Custom bends for the ultimate in comfort
- Gloss black, chrome-plated or flat black finish available
- Slotted and notched for Throttle-By-Wire applications
- Designed for use with 96 and newer style controls and master cylinders
- Special risers required for all bars (except T-Bars) include upper clamps and feature hidden clamp bolts; see pages 788-809
- Optional gauge mounts are available separately for T-Bars; see DASHES & GAUGES section

NOTE: Accept heated grips and hydraulic clutch.

38 MM (1 1/2") GRANDE TWIN PEAKS HEFTY HANDLEBARS

- Measures 38 mm (1 1/2") in the handlebar clamping area
- Separate 38 mm (1 1/2") risers required for mounting
- 89 mm (3 1/2") on-center knurled clamping area
- Will work with hydraulic clutches
- Mitered top with a traditional two-bend bottom
- Slotted for internal wiring
- Notched for Throttle-By-Wire capability

NOTE: Accept H-D OEM heated grips.

38 MM (1 1/2") TREE HUGGER HANDLEBARS

- The lowest profile handlebars on the market
- New, innovative adjustable riser design allows you to adjust the handlebars forward or backward
- 12,7 mm (1/2") risers let you hug the top of the triple tree (89 mm (3 1/2") on-center)
- Can be used with cable and TBW (Throttle-By-Wire) applications
- Designed to flow with a Wide Glide triple tree on a Softail or Dyna, and fits under the nacelle on 96-98 Road Kings
- Drilled for internal wiring

NOTE: Accepts H-D OEM heated grips.

38 MM (1 1/2") EZ INSTALL FLAT TOP HANDLEBAR KIT

- Revolutionary interlocking bolt-together two-piece handlebar design that takes up half the shelf space, is economical to ship and even faster to install
- New adjustable 38 mm (1 1/2") collar next to the handlebar controls for a custom-finished look
- CNC mandrel-bent from 38 mm (1 1/2") diameter x 2,5 mm (0,095") wall heavy tube
- EZ Install - no more need to fight internal wiring; with our handlebars you can install wiring in minutes
- Available with pointed top handlebars
- Pointed top bars feature billet machined top with a large internal machined radius that allows for EZ pulling of wiring (non-welded top corner)
- Install kit includes everything to install the handlebars in half the time of other kits due to our design that only extends the existing clutch cable/clutch line and brake lines; no need to waste time and money replacing the existing cables and lines

- Black bars come with wire extensions and smooth black braided lines/vinyl cable extensions as required; chrome bars come with wire extensions and braided stainless lines/cable extensions as required **(see note)**
- Designed to work with ABS and non-ABS models
- Knurled and notched for TBW applications

NOTE: Kits only include the necessary components needed to install handlebars based on the model, and the height of the handlebar. Certain models and heights of handlebar kits will include brake line extension, clutch line/cable extension and wiring harness. Some of the shorter handlebar kits will only have a wiring harness or only a clutch line/cable extension.

NOTE: Some 25,5 cm (10") and 30,5 cm (12") kits are not available for certain models, as these models only require a handlebar change and reuse the existing brake and clutch lines.

NOTE: Accept OEM heated grips.

32 MM (1¼") BUFFALO BARS

- The ultimate 32 mm (1¼") diameter handlebar, designed for maximum comfort
- 25,4 mm (1") diameter in clamping area
- Slotted and notched for Throttle-By-Wire applications unless noted
- Standard bars have 89 mm (3½") on-center knurling to prevent movement (except T-Bars)
- Springer-style bars have 12 cm (4¾") center diamond knurling for a smooth finished look; work with the OEM Springer risers and handlebar clamps
- Optional 32 mm (1¼") thick Buffalo risers are also available to complete the look
- Optional handlebar clamps cover all of the center area that is sized down to one inch
- Optional gauge mounts for T-Bars sold separately; see DASHES & GAUGES section
- See pages 788-809 for handlebar clamps and risers

NOTE: Compatible with hydraulic clutch controls.

NOTE: Accepts OEM H-D heated grips.

32 MM (1 1/4") BIG JOHNSON FL HANDLEBARS

- Improves the rider's overall body position
- Provides a more comfortable ride, is easier to steer and makes the bike feel 90 kg (200 lb) lighter
- Will work with all stock cables, lines and controls
- Is a direct replacement for stock bars with a 25,4 mm (1") riser clamp diameter
- Reduced reach and improved back position is provided by the 33 cm (13") pullback
- A lower grip point helps relax the shoulders for added comfort
- An improved bar length helps increase the leverage, which makes the bike easier to steer
- Reduced or eliminated hand numbness comes from the realigned wrist position
- Will not interfere with stock mirrors
- Width 97 cm (38"), rise 12,5 cm (5"), pullback 33 cm (13")

0601-1255	Black

HEFTY 32 MM (1 1/4") HANDLEBARS

- Handlebars have a 32 mm (1 1/4") diameter in the clamping area and will require the use of special risers; sold separately, see page 797
- All bars are dimpled and drilled for internal wiring
- Not notched for Throttle-By-Wire
- Tapered for clearance of master cylinders and hydraulic clutch assemblies
- Non-Ape Hanger-style bars will fit with most stock cables; check before installing

32 MM (1¼") HEFTY TWIN PEAKS HANDLEBARS

- Features 32 mm (1¼") diameter in the clamping area
- Works with the OEM riser and clamps; has the correct wire exit location
- Bar includes new black control clamps to replace the oversize OEM clamps, unless noted
- Does not need to remove the stock pin in the OEM mount clamps; bar still has more than 35° of adjustment
- Knurled clamping area
- Will work with hydraulic clutches

NOTE: Accept H-D OEM heated grips.

32 MM (1¼") NICE CURVES APE HANGER HANDLEBARS

- 32 mm (1¼") bars have 25,4 mm (1") clamping area; 32 mm (1¼") thick bars have 32 mm (1¼") diameter clamping area
- Require special risers and clamps
- Drilled for internal wiring, notched for electronic throttle and works with hydraulic clutch setups
- Feature 89 mm (3½") on-center knurling

NOTE: Accept H-D OEM heated grips.

0601-4424

0601-4428

32 MM (1 1/4") VIKING HANDLEBARS

- Viking handlebar internal design guarantees easy installations of complete wiring harnesses
- Without taking away from the clean look of the peak, the novel design creates enough room to allow the complete wiring harness with factory vinyl covering and the terminal connections along with their respective shrink sleeve to easily pass through without chaffing
- Using a unique flaring process, the burr-free internal radius creates a generous pocket of additional clearance within the troublesome peak of the handlebar
- To make wiring installations even easier, Magnum preloads the bars with E-Z pull-thru plastic woven sleeving
- Insert the wiring harness into the sleeving and pull through, it's that simple
- Manufactured with the highest quality construction, including machined control mounts (not swaged) plus burr-free internal wiring holes and electronic throttle control slots
- All handlebars are 32 mm (1 1/4") diameter, have 25,4 mm (1") diameter center sections, 89 mm (3 1/2") on center knurling and work with standard controls, including hydraulic clutch
- Each handlebar is CNC-mandrel bent for an accurate fit and incorporates an aggressive look with wrist angles engineered for riding comfort
- Bagger style bars are designed for the correct clearance on Batwing models
- Available in Bagger or Ape Hanger styles with high-luster chrome or gloss black finishes for an unsurpassed appearance

NOTE: Not for use with stock risers and handlebar clamp/ gauge mount clamp on 883C/1200C models.

NOTE: Viking Handlebars have a 25,4 mm (1") diameter center section and fit 25,4 mm (1") risers. Models originally equipped with handlebars that have a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

32 MM (1 1/4") STRIP HANDLEBARS

- 32 mm (1 1/4") handlebars with 25,4 mm (1") clamping area
- Notched for electronic throttle control (except for FXSTS/FLSTS models)
- Polished welds
- Slotted for internal wiring
- Compatible with hydraulic clutch
- Offer a clean line of sight to the stock mirrors

NOTE: Accept H-D OEM heated grips.

32 MM (1 1/4") BEATER BARS

- Classic, yet simple beater for your beater bike
- Great tiny bars with a comfortable wrist angle
- Available with either 25,4 mm (1") center mounting to accommodate most stock risers or 32 mm (1 1/4") center mounting which requires special risers and clamp (sold separately)
- Style straight up and narrow with just enough pullback
- Slotted for internal wiring
- Notched for electronic throttle control

NOTE: Accept H-D OEM heated grips.

KHROME WERKS

32 MM (1,25") FAT CENTER BOBBER APE HANDLEBARS

- Made of 14-gauge steel tubing
- Features a 32 mm (1,25") clamping area; requires special risers and top clamp to mount
- Available in three heights: 25,5 cm (10"), 30,5 cm (12") or 35,5 cm (14")
- Notched for electronic throttle control; non-TBW models will require handlebar grip extension PART #0601-2828; see page 787
- Slotted and milled for internal wiring

CHROME PART #	GLOSS BLACK PART #	DESCRIPTION	WIDTH	END RISE	CENTER WIDTH	PULLBACK

32 MM (1 1/4") HANDLEBARS

- 32 mm (1 1/4") diameter formed handlebars with 25,4 mm (1") center diameter and 25,4 mm (1") grip/control mounts
- Ape Hangers are offered in Original and Bobber styles
- Original bars have grips that sweep down and back and offer a relaxed position with reduced reach
- Bobber-style bars have grips that are upright and forward for a pure attitude position
- Dresser bars feature a 30,5 cm (12") center straight section for proper clearance in the batwing fairing
- +2 provides 73 mm (2 7/16") additional pullback at the same height and width as factory
- 2+2 provides the same additional pullback and adds 52,5 mm (2 1/16") in height
- Diamond knurled for non-slip clamping with risers on 89 mm (3 1/2") centers
- Dimpled and drilled for late model controls
- Work with standard controls and grips

ROLAND SANDS DESIGN BLACK OPS

32 MM (1¼") KING APE BAGGER HANDLEBARS

- It seems you can never make an ape hanger too big; so we shot for the sky with our King Ape
- We borrowed some style from our classic Vintage bar and made everything a little larger, including the tubing diameter to give you a punk tall bar with attitude, style and quality hand TIG welding
- 32 mm (1¼") diameter bar with 25,4 mm (1") diameter center mounting surface and control clamping surface
- Stylish multi-hole drilled corner gusset offers strength and rigidity
- Slotted and drilled for internal wiring; notched for electronic throttle
- Lower contour bend allows fitment on FLHT/FLHX without any modifications to the fairing
- Knurling for risers at 89 mm (3½)" on-center
- Black Ops™ is a textured black handlebar with gloss black billet aluminum end caps

0601-4600	0601-4601	25,4 mm (1") BMX handlebar	76 mm (3")	80 cm (31 1/2")	15 cm (6")	13 cm (5 3/8")

0601-5337

0601-5340

25,4 MM (1") HANDLEBARS

- Available in Bagger or Ape Hanger styles with 25,5 cm (10"), 30,5 cm (12") and 35,5 cm (14") height options
- Feature a high-luster chrome or gloss black finish
- Manufactured with quality construction, including laser-cut, burr-free holes and slots for internal or external wiring
- All handlebars have 89 mm (3 1/2") on-center knurling and are notched for Throttle-By-Wire applications
- All handlebars are CNC bent for an accurate fit and incorporate comfortable, but aggressive looking wrist angles
- Bagger bars are designed for correct clearance on Batwing models

NOTE: Fits 25,4 mm (1") risers. Models originally equipped with handlebars having a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

32 MM (1¼") CHUBBY® HANDLEBARS

- Handlebars are 25% thicker than stock
- All bars are precision-machined (not swage-formed) at control mounts, providing perfect fit, form and unsurpassed look
- Designed with fluid bends at precise angles for maximum comfort and control
- Pre-drilled for internal wiring
- Polished welds and diamond knurled
- Work with hydraulic clutch, stock and most custom controls, stock risers and top clamps
- Available in show-chrome finish or Blackout series featuring a satin black finish to match OEM black switch housings
- All handlebars work with Throttle-By-Wire as well as cable applications

NOTE: All bars work with H-D® heated grips.

NOTE: Not for FLHT models (unless noted)

DUAL HANDLEBAR RISER CLAMP ASSEMBLIES

- Replace your heavy "cast" handlebar risers with one of these high-performance all-billet aluminum riser sets
- Fully CNC-machined racing styled design is made from solid 6061-T6 bar stock for maximum strength
- Special alloy gold zinc top clamp mounting bolts are included
- Lightweight "dual" design top clamps give your bike a unique "cafe racer" look
- Available with a black anodized finish
- 51 mm or 10 cm (2" or 4") tall risers are tapped for 1/2"-13 bolts (sold separately)
- Designed for 25,4 mm (1") diameter bars

PATRIOT SERIES PIVOTING RISER KITS

0602-0842

0602-0844

0602-0846

- Risers can be positioned forward, backward or anywhere in between to allow the rider to truly customize the feel of their bike
- Bottom fits 25,4 mm (1") handlebar clamps; 25,4 mm (1") bar clamp on the top side
- Easy installation: remove the current bar, place the stem of the risers where the bar was located previously, then tighten it down; place the handlebar in the top side of the risers and tighten all bolts down securely
- Constructed from aircraft-grade aluminum (6061-T6)
- Available in black, chrome or machined aluminum finish

NOTE: Always check and confirm that your machine has adequate cable and brake line length before installing handlebar risers.

MOTOSCOPE MINI HANDLEBAR BRACKETS

- Bracket frame features five integrated indicator lights
- Two choices to attach bracket frame (bracket frame must be purchased separately for both choices)
- Bolt-on bracket is directly bolted to handlebar; cable is led through handlebar tube (two threaded holes and one hole for cable have to be drilled in handlebar)
- Clip-kit bracket is fixed with two small milled clamps (similar to the handlebar clip-kit) (drilling the handlebar is not necessary)

Joker MACHINE

RISER MOUNT PLUGS

- A perfect solution for cleaning up your bike's riser mounting holes (13 mm (1/2") diameter) after installing clip-on style bars
- These parts are fully CNC-machined from 6061-T6 aluminum
- Inspired with aircraft design technology that ties in with Joker's entire Sportster line
- Easily installed in minutes and gives your bike a dramatic look, covering abrasion and vibration damage on the triple tree surface from having riser mounts installed
- Available in a hard black anodized finish
- Mounting hardware included
- Sold in pairs

PART #	DESCRIPTION

Biltwell Inc. "QUALITY COUNTS"

SOLID RISER BUSHINGS

- CNC-machined 6061-T6 aluminum construction
- Fit most stock and select aftermarket Harley-Davidson® upper trees
- Replace rubber bushings for a more rigid interface between handlebars and bike, resulting in better handling
- Include 1/2-13 t.p.i grade-8 Allen cap mounting bolts

PART #	COLOR
0604-0223	Chrome
0604-0224	Black

LA choppers

ANGLED RISER BUSHING KITS

- Change the angle of your risers or T-Bars without having to install a different set of triple trees
- Built-in 5° or 10° angle; can be installed to face towards or away from the rider
- Angle the risers toward you for increased pullback and a more comfortable riding position
- Angle the risers away from you for a custom chopper look without the expense of raking out the front end or switching your handlebars
- Machined from 6061-T6 billet aluminum with a chrome or gloss black finish

NOTE: Check handlebar clearance before operating.

FOR MOST 84-99 FXST/FLST AND 91-98 FXD/FXDWG

CUSTOM ENGINEERING CYCLE

BILLET HANDLEBAR RISER BUSHING KIT

- Chrome billet aluminum construction
- Solid bushings eliminate that sloppy, spongy feel in your handlebars

PART #	DESCRIPTION
DS290269	Solid riser bushing kit

DRAG Specialties

FLUSH HANDLEBAR RISER BUSHING KIT

- Kit includes bushings, spacers and bolts to install your handlebars
- Features countersunk lower washers for a true custom look
- Available in 1/2"-13 threaded application

PART #	DESCRIPTION
0602-0113	For 73-85 XL

DRAG Specialties

RISER BUSHING

- Top-quality bushing replaces worn-out or cracked stock riser bushing
- Reduces handlebar vibrations
- Sold individually

PART #	DESCRIPTION
DS-290575	For 49-72 Big Twin, 54-72 XL; repl. OEM #56158-49

DRAG Specialties

POLYURETHANE RISER BUSHINGS

- Gets rid of the sloppy feel you get from the soft OEM or worn-out rubber bushings
- Black poly bushings are 28% stiffer for better control and they still provide exceptional vibration absorption
- Sold in 4-pack

0602-0067

PART #	DESCRIPTION
0602-0067	For most 84-99 Softail, 91-98 FXD/FXDWG, 82-00 FXR, 73-86 FX and 73-85 XL models; repl. OEM #s 53156-86 and 56158-73
DS-290573	For 83-98 FLT/FLHT/FLHR/FLTR models; repl. OEM #56161-83A

All part numbers in BLUE are new for the OldBook.

0604-0001

HEAVY-DUTY HANDLEBAR RISER BUSHINGS

- Made from a new space-age polyurethane material
- Eliminate sloppiness in handlebar and isolate vibration
- Sold in sets of four

DS-290723

HANDLEBAR CONTROL KITS WITHOUT SWITCHES

- Customize the most visible area the factory overlooked – the handlebar controls
- Designed to work with all 25,4 mm (1") diameter handlebars
- Chrome die-cast clutch/brake controls with switch housings are sold in complete kits or as individual components
- OEM wires and switches mount directly into these housings, so there is no need for new wires and switches
- Each complete kit includes clutch lever assembly with clamp half, a master cylinder assembly with clamp half, and the right and left switch housings
- Switch housing kit includes right and left housing only with mounting hardware
- Individual components are available to replace specific pieces instead of the complete assembly
- Kits come complete with all hardware for easy installation

NOTE: Lower switch housings will not fit 84-95 models with radio control switches in housings.

NOTE: Use appropriate master cylinder rebuild kit and levers for equivalent OEM model year and bore size.

PART #	DESCRIPTION
CHROME COMPLETE KITS	
0610-0500	Kit w/ 19 mm (3/4") bore single/dual disc master cylinder for 82-84 FLH, 82-83 FXR/FLT

KURYAKYN

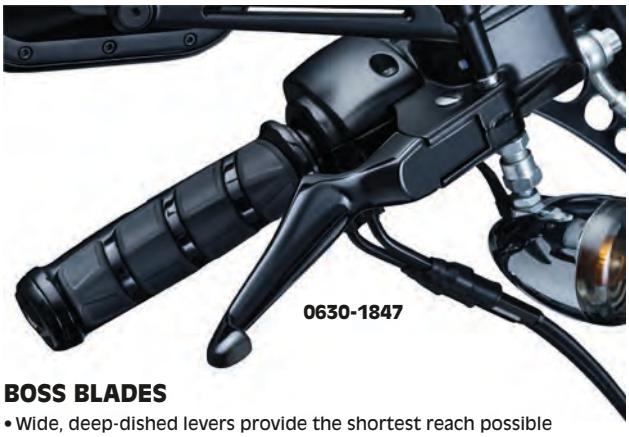
CHROME BOSS BLADES WITH ADJUSTABLE CLUTCH LEVER

- Clutch lever design relocates the cable anchor point, so the lever adjuster can be closer to the handlebar and not interfere with lever adjustment or clutch actuation
- Wide, deep-dished design provides the shortest reach possible to the lever
- Sold in pairs

NOTE: Must ensure proper clutch engagement with levers that are installed. Clutch and clutch cable must be correctly adjusted after installation, and you must verify that grip diameter does not affect clutch operation.

PART #	DESCRIPTION
0610-0666	For 96-99 Big Twin models w/ cable clutch



0630-1847

BOSS BLADES

- Wide, deep-dished levers provide the shortest reach possible

KURYAKYN

MECHANICAL THROTTLE CRUISE ASSIST

- The simplest, cleanest throttle position holder on the market
- Attaches to the end of the handlebar like a bar-end weight
- Open the throttle to the desired position, then roll the throttle back; a spring-loaded tensioner keeps the throttle in place
- Simply roll the throttle forward to disengage
- Matching left side bar-end weight completes the look; sold separately

NOTE: Installation may require cutting or drilling a 16 mm (5/8") hole in the end of grips.

0634-0197

PART #	DESCRIPTION
FOR USE WITH 22 MM (7/8") DIA. OR 25,4 MM (1") DIA. HANDLEBARS (EXCEPT MODELS W/ HEATED GRIPS OR AIR RESERVOIR IN HANDLEBAR)	
0634-0197	Chrome throttle assist
0634-0198	Chrome bar-end weight

PROVEN S&S PERFORMANCE

91,5 CM (36") THROTTLE CABLE KIT

- Kit contains throttle grips and both throttle cables
- Cable measurement is from throttle grip to end of the cable housing
- Barrel fittings are molded in place
- Cables are not interchangeable

PART #	DESCRIPTION
0632-0738	For Super E, G and Butterfly style carburetors

PROVEN S&S PERFORMANCE

DUAL-CABLE THROTTLE ASSEMBLY KITS

- Each kit includes a two-cable throttle assembly with matching grips, throttle sleeve, OEM-style throttle and idle cables and hardware
- Designed for early-style S&S Super E & G carbs or any other butterfly-type carburetor with 81-95 OEM-style throttle linkage
- Measured from throttle grip to end of cable housing; barrel fittings are soldered in place (not for CV carbs)
- 90° elbows

All part numbers in BLUE are new for the OldBook.

DS-223213

S&S UNIVERSAL THROTTLE ASSEMBLY KIT

- Includes a dual cable throttle assembly with cables, matching grips and hardware
- Designed for use with S&S series B, D or two-throat carbs, as well as many universal applications
- Cables measured from throttle grip to end of cable housing

NOTE: Not for Super E & G series or CV carbs.

PART #	DESCRIPTION
DS-223213	122 cm (48") universal throttle assembly kit
DS-223220	Repl. throttle cable (used as both throttle and idle cable)

ROLLER BEARING THROTTLE KIT

- Design allows the factory throttle tube to ride on a roller bearing instead of dragging on the handlebar
- Helps eliminate throttle binding for smoother operation
- Requires cutting 13 mm (0,500") from the right side of handlebar

PART #	DESCRIPTION
DS-243136	Roller bearing throttle kit

0632-0589

0632-0700

WHISKEY THROTTLE SLEEVES

- CNC-machined 6061-T6 aluminum
- Allows owners to replace the thick, generally uncomfortable stock molded one-piece grips with soft aftermarket grips
- The CNC-machined cable channel has barrel openings for two cables

PART #	DESCRIPTION
0632-0589	Polished

PART #	DESCRIPTION
0632-0700	Black

BILLET THROTTLE TUBE

- Fully CNC-machined from billet aluminum with a precision diamond knurl pattern that ensures no-slip grip performance
- Special hard black anodized finish for exceptionally smooth action and durability over plastic units
- Works super-smooth due to the precise bore finish; works especially well with a light coating of lithium grease
- Works perfectly with Joker's JX and Dual Cable style throttle housings
- Accepts all late-model dual Harley-Davidson throttle cables (accepts 6,4 mm (1/4") round or cylindrical cable lugs)

PART #	DESCRIPTION
0632-0203	Billet throttle tube

THROTTLE SLEEVE

- 36 mm (1,4") OD throttle sleeve
- Sold each

PART #	DESCRIPTION
DS243110	Black, dual-cable throttle sleeve for 82-99 Big Twin and 82-85 XL models (except models w/ air-assisted forks)

FUSION ALLOY THROTTLE TUBE

- Durable 6061 aluminum
- Hard-anodized black finish
- Integrated PTFE sleeves deliver smooth throttle pull and return
- Machined throttle barrels

PART #	DESCRIPTION
0632-0850	For 82-99 Big Twin models w/ cable throttle (except models w/ air-assisted forks) and 82-85 XL

All part numbers in BLUE are new for the OldBook.

Joker MACHINE

HAND CONTROL SPACERS

- For use with Joker controls on applications where a switch housing is needed, but you still want to fill in that gap between the hand control and grip
- This piece is also designed to balance out the left side spacing where the right side has the throttle housing
- Fits 25,4 mm or 22 mm (1" or 7/8") diameter handlebars (22 mm handlebars require adapter PART #0632-0336; see below)
- Secured by a set screw that can be rotated underneath to hide it for an-extra clean look
- Available in hard black anodized or chrome-plated finishes

PART #	DESCRIPTION
2404-0107	Chrome
0616-0035	Black anodized

22 MM TO 25,4 MM (7/8" to 1") HANDLEBAR ADAPTER SLEEVES

- Allow use of 25,4 mm (1") hand controls on 22 mm (7/8") handlebars

PART #	DESCRIPTION
0632-0336	22 mm to 25,4 mm (7/8" to 1") adapters for throttle and switch assemblies (pr.)

STAR SERIES HANDGUARDS

- Engineered to provide the ultimate in hand protection against the elements
- Allow the rider to wear thinner gloves for more control while still keeping rider's hands warm
- Model-specific mounting
- Requires mounting kit (sold separately)

STAR SERIES HANDGUARD MOUNTING KIT

- Model-specific mounting kit
- Brackets are CNC-machined from 6061-T6 aluminum
- Black anodized finish that matches stock Harley-Davidson controls

PART #	DESCRIPTION
0635-1471	Matte black handguards
0635-1473[1]	Handguard mount kit for 96-98 FLHT/FLHR/ FLTR, 96-99 Softail and 96-98 FXD models

STAR SERIES LED LIGHT KIT

- Increases visibility and improves peripheral lighting; lights consume only 4 watts each
- Simply snap out vent covers and snap in the LED light kit
- Can be wired directly to battery by using included 12V waterproof switch or by using any other 12V power source
- Bright LED lights (200 lumens each) provide additional visibility and safety

PART #	DESCRIPTION
0636-0107	LED light kit

[1] Models with turn signals mounted to stock controls will require a turn signal relocation kit (sold separately).

STEALTH MIRRORS WITH DUAL INTENSITY LEDS

- Four rows of dual-intensity LEDs are built into the front of each of these chrome clear-glass mirrors
- Low-intensity brightness can be wired for supplementary running lights, high-intensity brightness for supplementary turn signals
- The wiring is hidden in the mirror head and stem and leaves the stem through a hollow bolt
- Measure 12,5 cm x 64 mm (5" x 2 1/2") with a 15 cm (6") pivot stem
- Mirror head screws and pivot ball are stainless steel
- Mount on 82-99 H-D clutch or brake lever housings and most custom applications
- Replacement stems available separately

NOTE: May require a load equalizer when used in conjunction with custom lighting.

PART #	DESCRIPTION
DS302230	Right mirror
DS302231	Left mirror

STEALTH I AND II MIRRORS

- The original Stealth mirrors are available in clear or "Blue Sapphire" tinted designs
- "Blue Sapphire" design looks great and helps reduce glare
- The original Stealth I mirror with a 12 cm (4 3/4") stem; works great on most pullback and Ape Hanger bars
- The Stealth II – same great custom mirror head but has a 15 cm (6") stem – fabulous for drag or custom handlebars
- Stems fit all Stealth mirror heads plus most OEM and aftermarket OEM-style mirror heads that thread at the mirror head
- All feature familiar stud-style mounting common to other mirrors, or we supply chrome socket head Allen bolts for a new style of custom mounting
- Oval head measures 12,5 cm x 64 mm (5" x 2 1/2"); right- or left-side installation
- Mount on clutch or brake lever housings and most custom mounting applications
- Mirror head screws and pivots are stainless steel
- Sold each

0640-0300

0640-0303

VIEW TECH BILLET MIRRORS

- Stems and heads are completely CNC-machined from billet aluminum (not cast), with a design that is lightweight, strong and fully adjustable in every direction
- View Tech V mirrors have a super-streamlined teardrop head with 57 mm ($2^1/_4$") diameter lenses and Joker's "pocketed" aircraft milling design along the stem for lightness; fits left or right side; made to work with Joker's JX LED front turn signals PART #s 2040-0325 and 2040-0326
- View Tech VII design provides an old-school look, that includes retro-style holes along the stem for lightness; fully adjustable 83 mm ($3^1/_4$") diameter mirror heads
- All styles provide exceptional rear visibility due to the use of exclusive custom-made convex mirror glass
- Once the mirror is positioned, a simple twist of a wrench keeps them at the desired tension setting, unlike nonadjustable designs that fail with time
- Swivel post assembly is completely serviceable and is machined from stainless steel alloy to ensure corrosion-free operation

PART #	DESCRIPTION
VIEW TECH V	
0640-0199	Smooth, black, left or right
0640-1379	Smooth, chrome, left or right
VIEW TECH VII	
0640-0298	Left, chrome
0640-0299	Right, chrome
0640-0300	Left, black

- Unique conical teardrop head that makes on-the-road adjustments super easy, while providing exceptional rear visibility due to the use of custom-made convex 57 mm ($2^1/_4$") diameter mirror glass
- Unique "Drilled-Hole & Sculpted" milling design along the stem increases lightness; mirror dimensions: 15,5 cm x 84 mm x 11 cm ($6^1/_6$" x $3^5/_{16}$" x $4^5/_{16}$")
- A direct bolt-on fit for late-model Harley hand controls (including V-Rod) and most aftermarket hand controls
- Mounting hardware is included

PART #	DESCRIPTION
VIEW TECH VII (CONT)	
0640-0301	Right, black
0640-0302	Left, chrome (stock mirror position)
0640-0303	Right, chrome (stock mirror position)
0640-0304	Left, black (stock mirror position)
0640-0305	Right, black (stock mirror position)

BEER SCHOONER MIRRORS

- Unique "Schooner Beer Glass"-shaped head makes on-the-road adjustments super-easy, while providing exceptional rear visibility due to the use of Joker's exclusive custom-made convex 57 mm ($2^1/_4$") diameter mirror glass
- Unique "Drilled-Hole & Sculpted" milling design along the stem increases lightness while giving you that popular "retro" look
- The mirror stems and heads are completely CNC-machined from billet aluminum (not cast) – they're lightweight, strong and fully adjustable in every direction
- Once the mirror is positioned, a simple twist of a wrench keeps them at your desired tension setting right where you want them
- Swivel post assembly is completely serviceable and is machined from stainless-steel alloy to ensure corrosion-free operation
- Mirror dimensions: 15,5 cm x 84 mm x 11 cm ($6^1/_6$" x $3^5/_{16}$" x $4^5/_{16}$")
- Dual-tone black and silver anodized finish
- A direct bolt-on fit for late model Harley hand controls (including V-Rod) and most aftermarket hand controls

Joker MACHINE

BAR END MIRRORS

- Mirrors are completely CNC-machined from billet aluminum (not cast), lightweight, strong and fully adjustable in every direction to fit just about everyone
- All mirrors come with a convex mirror glass which provides exceptional rear visibility
- Super-solid units reduce vibration and make for a clearer image in the mirror
- With little modification, these units can be mounted through the ends of most existing grips by drilling the grip end
- Sold individually and available with a chrome-plated finish

PART #	DESCRIPTION
57 MM (2 1/4") ROUND BAR END MIRROR – STEM D	
0640-0606	Black anodized
57 MM (2 1/4") ROUND BAR END MIRROR – STEM C	
0640-0617	Black anodized
83 MM (3 1/4") ROUND BAR END MIRROR – STEM D	
0640-0608	Black anodized
83 MM (3 1/4") ROUND BAR END MIRROR – STEM C	
0640-0619	Black anodized

- Available with Stem C (curved) and Stem D (straight)
- Mounting is achieved with the use of expanding internal bar mounts (sold separately)
- Internal bar mount for 25,4 mm (1") OD handlebars expands from 19,1 mm to 21,6 mm (0,750" to 0,850"); mount for 22 mm (7/8") OD aluminum handlebars expands from 14 mm to 16,5 mm (0,550" to 0,650")

NOTE: Each assembly is universal and works on either left or right side of handlebars.

PART #	DESCRIPTION
CAFE STYLE BAR END MIRROR (3 7/8" W x 2 7/16" T MIRROR HEAD) – STEM D	
0640-0610	Black anodized
CAFE STYLE BAR END MIRROR (98 MM W x 51 MM T MIRROR HEAD (3 7/8" x 2 7/16")) – STEM C	
0640-0621	Black anodized
INTERNAL BAR MOUNTS (EA.)	
0641-0099	For 25,4 mm (1") handlebars
0641-0100	For 22 mm (7/8") aluminum handlebars
0641-0098	For 22 mm (7/8") steel handlebars

FOLDING BAR END MIRRORS

- Inspired by aircraft structural design combined with unique "cafe racer" styling
- Our mirror heads and mounting arms are completely CNC-machined from billet aluminum, super-lightweight, strong and fully adjustable in a multitude of directions and settings
- All parts are anodized for durability
- Mirror heads swivel (fold) a full 180° frontwards and backwards, a full 360° rotational on the bracket arm, and feature a ball bearing detent when they are in the extended position; the bracket arm may be rotated up or down to your desired position on the bar mounting shaft
- All rotational tension of the parts may be set to your preference with an Allen wrench and all hardware is top-quality heat-treated alloy plated with our "gold cad" finish for strength and durability
- All moving parts feature super-smooth pivoting action due to the use of nylon spacers between the mating parts
- These mirrors provide exceptional rear visibility due to the use of our exclusive custom-made convex mirror glass
- Mounting is achieved with the use of expanding internal bar mounts (sold separately)

PART #	DESCRIPTION
BLACK ANODIZED MIRROR HEADS	
0640-0486	Round mirror (57 mm (2 1/4") dia. glass size)
0640-0487	Round mirror (83 mm (3 1/4") dia. glass size)

- Internal bar mount for 25,4 mm (1") OD handlebars expands from 19,1 mm to 21,6 mm (0,750" to 0,850"); mount for 22 mm (7/8") OD aluminum handlebars expands from 14 mm to 16,5 mm (0,550" to 0,650")
- Mirrors and mounts sold each

NOTE: Each assembly is universal and works on either left or right side of handlebars.

PART #	DESCRIPTION
INTERNAL BAR MOUNTS (EA.)	
0641-0099	For 25,4 mm (1") handlebars
0641-0100	For 22 mm (7/8") aluminum handlebars
0641-0098	For 22 mm (7/8") steel handlebars

CONCEALED BAR END MIRRORS

- Innovative and compact idea for bar end type mirrors
- Come with a 57 mm (2 1/4") diameter convex mirror glass that provides you with exceptional rear visibility
- Mirrors are completely CNC-machined from billet aluminum (not cast) making them lightweight and strong; fully adjustable in every direction to fit just about everyone
- Feature a unique solid-mounted outer housing with a 15° rotating swivel mirror section inside
- Super-solid units reduce vibration and make for a clearer image in the mirror
- With little modification, these units can be mounted through the ends of most existing grips by drilling the grip end
- Sold individually and available in your choice of chrome-plated or Joker's super-durable black anodized finish
- Mounting is achieved with the use of expanding internal bar mounts (sold separately)

RIVCO

CUSTOM LED ACCENT MIRRORS

- Anti-vibration design for clearer vision
- Feature super-bright LEDs that are easy to see in the brightest sunlight
- Increase visibility to all traffic
- Front amber LEDs accent both turn signals and running lights; bright red LEDs on the outer rim of the mirrored side function as turn indicators
- Mirror face is convex (objects are closer than they appear)
- Long custom stems provide real-world rear viewing (not just a great view of your shoulders)
- Mount arm-length from arm mount to center of mirror is 15 cm (6")
- Fit all motorcycles with bolt-on mirrors (include metric adapters)
- Simple bolt-on, plug-in installation
- Convex mirrored glass measures 76 mm x 14 cm (3" x 5,5")
- Module kit allows for use with CANbus wiring
- Sold in pairs

NOTE: These LED Accent Mirrors are designed to piggyback with stock turn signals.

PINGEL Since 1967

FAIRING MIRROR DROP BRACKETS

- Unique design drops the OEM fairing mount mirrors for that cool Bagger look on models with tall bars
- Provide the same clear image with the OEM mirrors as compared to the shaky-blurred image when using handlebar-mounted mirrors
- Fit FLHT models by drilling small holes in the inner fairing
- Billet aluminum with a black finish
- Mounting hardware and instructions included
- Sold in pairs

NOTE: Not for use with stock handlebars; rider will not see past arms.

PART #	DESCRIPTION
0640-0984	For 96-98 FLHT

KURYAKYN

MIRROR STEM EXTENDERS

- Attach to the handlebar like the stock mirrors
- Extend mirrors outward approximately 76 mm (3") from the stock position
- For use with H-D mirrors with round steel stems
- Sold in pairs

0641-0156

0641-0280

PART #	DESCRIPTION
0641-0156	Chrome

PART #	DESCRIPTION
0641-0280	Gloss black

DRAG Specialties

MIRROR STEM EXTENSION KITS

- Extend mirrors approximately 51 mm (2") upward for an improved rear view
- Kit includes two spacers and two $^{5}/_{15}$"-24 threaded extensions
- Designed to fit with most threaded round-stem mirrors

0641-0174

0641-0175

PART #	DESCRIPTION
0641-0174	Chrome kit; repl. OEM #91907-87
0641-0175	Black kit

MILLER'S MIRROR CLAMPS

DRAG Specialties

- Classy chrome-plated or matte black finish two-piece clamp by Miller's Custom Cycle
- Great for mounting Harley®-type mirrors to 25,4 mm (1") handlebars
- Versatile – can be used on either the right or left side
- 25,4 mm (1") inside diameter fits most safety bars, frame tubes and handlebars
- For use when late-style H-D® controls are not used or when mirror position is not functional
- Sold each

DS-302020

0641-0109

PART #	DESCRIPTION
DS-302020	Chrome-plated

EMGO

HANDLEBAR MIRROR MOUNT

- Easily mounts around 25,4 cm (1") diameter handlebars
- Uses two-piece clamp for easy installation without having to remove other handlebar components
- Durable chrome finish
- Standard 10 mm threads
- Sold each

PART #	DESCRIPTION
0641-0191	25,4 mm (1") handlebar mirror mount

LA Choppers

2202-0205

FAIRING MIRROR HOLE PLUGS

- The perfect plug for covering the unsightly hole left behind in your fairing when relocating the stock mirrors
- Seamlessly blends with your stock fairing, looking like your bike was meant to come that way yet still adds a minor flare to an otherwise dull spot
- Sold in pairs

2202-0206

PART #	DESCRIPTION
FOR 96-98 FLHT/FLHTC/FLHTCU	
2202-0205	Chrome
2202-0206	Black

MIRROR HOLE PLUG

Joker MACHINE

- Tapered top design cleans up the "plain hole" look of Joker Classic or stock H-D hand control mirror area when the stock mirrors are removed
- A must when using bar-end-type mirrors
- Fully CNC-machined from 6061-T6 aluminum, then black anodized
- Easy installation
- Designed for 28 mm (1,10") mirror mount area thickness; all stainless steel mounting hardware is included
- Sold each

PART #	DESCRIPTION
0641-0113	Black mirror plug

Black Vinyl

BRAIDED AND BLACK VINYL THROTTLE AND IDLE CABLES

- Cables feature polished-chrome fittings, stainless-steel braiding or black vinyl outer casings, tempered-steel inner conduit and an inner nylon liner for smooth operation and long life
- Braided cables feature outer housings coated with a non-yellowing clear covering for abrasion resistance
- Available in undersize/standard/oversize lengths for most single and dual cable applications

NOTE: Length given is the length of the outer housing only, excluding the elbow.

NOTE: Throttle cables for 74-E76 models do not come with the 90° adjuster elbows. These cables fit into OEM throttle adjuster. If you do not have the stock adjuster, order the L76-E81 cable.

NOTE: Cables will also fit late style Mikuni carbs.

BRAIDED AND BLACK VINYL HIGH EFFICIENCY (H.E.) CLUTCH CABLES

- Low effort, maximum efficiency cable design meets or exceeds all OEM specifications for fitment, construction and endurance requirements
- Cables feature chrome-plated fittings, stainless-steel braided or black vinyl outer casings, tempered-steel inner wire and a nylon inner sleeve for smooth operation
- Braiding is coated with a non-yellowing clear coating for abrasion resistance
- High-performance cables use the latest technology of longitudinally winding the outer housing lengthwise rather than spirally so cable bends in a more natural arc and eliminates spring and compression
- Available in undersize/standard/oversize lengths for most models

Braided

Black Vinyl

HOW TO MEASURE CLUTCH CABLES

NOTE: Late-style cables are measured with the adjuster completely collapsed.

NOTE: Adjuster measured from bottom of cable.

Sterling Chromite II

BRAIDED THROTTLE AND IDLE/IDLE-CRUISE CABLES

- The industry's highest quality braid in four color choices to complement your bike; Sterling Chromite® II, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Fittings are polished and chrome or black chrome-plated
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- All cables are made with anti-friction inner liners, nylon adjuster inserts, and are factory lubricated for smooth, consistent, long-lasting operation
- Meets or exceeds all OE specifications for fitment, construction and endurance

NOTE: Length given is length of outer housing only, excluding elbows.

NOTE: All pre-96 cables have threaded elbows; 96 and later cables have non-threaded elbows.

BRAIDED HIGH EFFICIENCY CLUTCH CABLES

- The industry's highest quality braid available in four color choices to complement your bike; Sterling Chromite® II, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Coated with a non-yellowing, crystal-clear outer jacket for exceptional protection against scuffing paint or chrome
- Attractive adjuster with integrated water-resistant seals does not require a boot
- Rubber seal in transmission fitting eliminates fluid leaks
- Low-effort, high-efficiency cable design meets or exceeds all OE specifications for fitment, construction and endurance
- All fittings are polished and chrome or black chrome-plated
- Cables are made with anti-friction inner liners and adjuster inserts, plus they are factory lubricated for smooth, consistent, long-lasting operation

NOTE: Check torque spec on transmission fitting when installing.

HOW TO MEASURE CLUTCH CABLES

NOTE: Cables are measured with the adjuster completely collapsed.

Sterling Chromite II

STERLING CHROMITE® II BRAIDED THROTTLE AND IDLE CABLES FOR S&S CARBS

- The best braid available to complement your bike
- Braid color and weave matches on all MAGNUM control cables and brake lines
- Coated with a non-yellowing, crystal-clear FEP fluoropolymer outer jacket for exceptional protection against scuffing paint or chrome
- All fittings are polished and chrome-plated
- Meets or exceeds all OE specifications for fitment, construction and endurance
- All cables are made with anti-friction inner liners, nylon adjuster inserts and are factory lubricated for smooth, consistent, long-lasting operation

FOR EARLY-STYLE S&S E- AND G-SERIES CARBS (SHORT CABLE GUIDE)

PLATINUM SERIES THROTTLE AND IDLE CABLES

- Barnett cables are smooth-working, long-lasting and are made with the finest components available, making them virtually indestructible
- Platinum Series cables feature a bright, silver-plated braid
- Available with standard nylon-lined, PVC-coated casings in standard diameters

NOTE: Length of throttle and idle cables means length of outer housing only, excluding the elbows and/or adjusters.

HIGH-EFFICIENCY CLUTCH CABLES

- Barnett cables are smooth-working, long-lasting and are made with the finest components available, making them virtually indestructible
- Available in easy-pull high-efficiency design in standard diameters
- High-efficiency clutch cables reduce lever effort by up to 40%
- Available in four styles
- Platinum Series cables feature a bright, silver-plated braid
- Stainless steel cables with clear coating offer that custom look without the fear of damaging areas that the cables come in contact with
- Stealth Series "Black on black" cables feature a black vinyl casing with black chrome elbows and hardware
- Classic black vinyl cables feature a black vinyl casing with chrome elbows and hardware

Motion Pro AC ARMOR COAT

ARMOR COAT STAINLESS THROTTLE AND IDLE CABLES

- Cables feature a stainless steel outer housing, tempered-steel inner wire and an inner nylon sleeve for smooth operation and long life
- Outer housings feature a clear, nonabrasive Armor Coat finish
- Available in undersize/standard/oversize lengths for most single- and dual-cable applications

NOTE: Length given is the length of the outer housing only, excluding the elbow.

BLACKOUT CLUTCH CABLES

- Cables feature gloss black fittings and black vinyl housings
- Available in undersize/standard/oversize lengths
- Heavy-duty LW clutch cables feature a longitudinal weave housing for superior compression resistance, smoother operation and lighter pull

NOTE: Length given is the length of the outer housing only, excluding the elbow.

BYO® BUILD YOUR OWN® CONTROL CABLE KITS

- Available in three styles: stainless steel braid or black vinyl with chrome fittings and black vinyl with black chrome fittings
- Looks and performance like a factory made cable
- BYO cables are extra long to allow you to build the perfect stock or plus length cable every time
- Easy installation – route, cut and assemble in less than 10 minutes
- Throttle and idle cable kits make up to a 132 cm (52") housing length, have a choice of either a 90 degree or 45 degree elbow assembly
- Throttle and Idle kits are sold separately
- Clutch cables are a high-efficiency design and the clutch inner cable fitting has a pull-off strength of 226+ kg (500+ lb)
- Two-piece clutch cable kits fit 1987 and later 5 or 6 speed transmissions and can make up to 203 cm (80") total length
- Black two-piece clutch cables include a black boot to cover the adjuster; adjuster and transmission fittings are chrome
- One-piece clutch cable kits are specific for Big Twin or Sportster models and both types of kits are available in either stainless steel braid or black vinyl with chrome fittings
- One-piece cables make up to 178 cm (70") total length for Sportsters or 188 cm (74") total length for Big Twins
- Use enclosed template to set free length to factory specifications for most applications (throttle, idle and two-piece clutch cables only)

CLUTCH INNER CABLE REPAIR KIT

- Everything you need to replace a broken inner cable on your mechanical clutch
- Long enough to repair most Harley-Davidson clutch cables
- Includes one pre-lubed 254 cm (100") inner cable, two clutch slugs, two clutch pins and one pin holder
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application. A hammer and a hard level surface is needed to correctly install the transmission end of the inner cable.

PART #	DESCRIPTION
0652-1984	Clutch cable repair kit

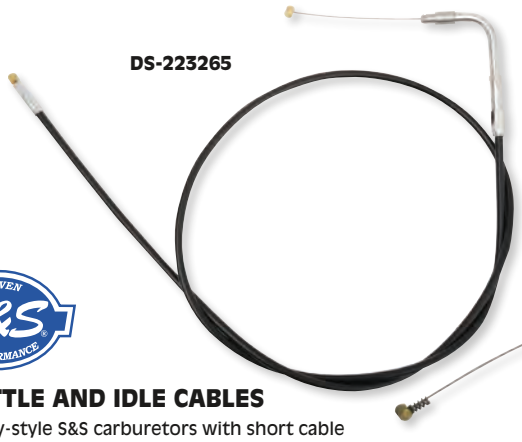
THROTTLE/IDLE CABLE REPAIR KIT

- Everything you need to replace a broken inner throttle or idle cable
- Long enough to repair most Harley-Davidson throttle, idle or idle-cruise cables
- There is no need to remove the cable housing from the bike to make the repair
- Includes: one pre-lubed 165 cm (65") inner cable, one throttle twist grip barrel, one idle cable spring and one carburetor double setscrew locking barrel with two Allen wrenches
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application.

PART #	DESCRIPTION
0650-1586	Throttle/idle repair kit

DS-223265



0632-0737

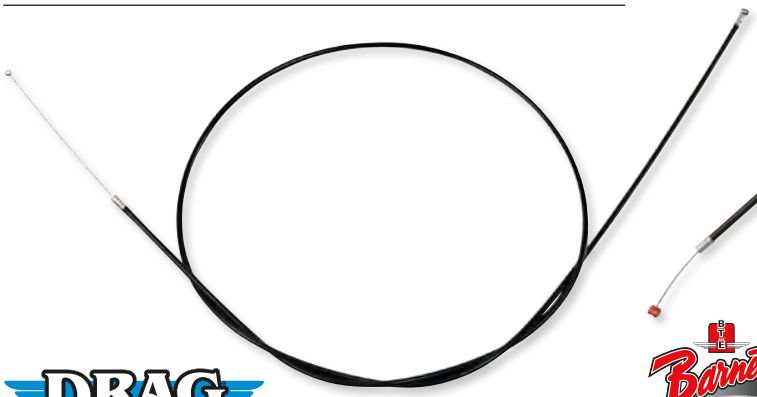
THROTTLE AND IDLE CABLES

- Fit early-style S&S carburetors with short cable guides when using stock throttle assemblies
- Available with black housings, in several lengths
- Sold each

NOTE: Length given is the length of the outer housing only, excluding the elbow.

PART #	DESCRIPTION
FOR 96-99 BIG TWIN	
DS-223261	106,5 cm (42") Throttle
DS-223265	122 cm (48") Throttle
DS-223262	106,5 cm (42") Idle
DS-223266	122 cm (48") Idle

PART #	DESCRIPTION
FOR 84-95 BIG TWIN	
0632-0736	91,4 cm (36") throttle, open side, threaded
0632-0737	91,4 cm (36") idle, close side, threaded



SPECIALTY/UNIVERSAL THROTTLE CABLE

- Black, vinyl-encased throttle cable for a variety of universal or specialty fitments

PART #	DESCRIPTION
DS-243070	Universal type w/ barrel/ball ends; 152,5 cm (60") L, 133 mm (5¼") free length

UNIVERSAL THROTTLE CABLE

- Cut to length for use with internal throttle assemblies
- 203 mm (8") over stock length
- 135 cm (53") total length, including adjuster

PART #	DESCRIPTION
0650-1576	Universal black vinyl throttle cable

All part numbers in BLUE are new for the OldBook.

Standard stainless kit

HANDLEBAR CABLE/BRAKE AND CLUTCH LINE/ WIRE KITS AND COMPONENTS

- Take "cable calculation" headaches out of swapping handlebars
- Individual components for all kits are available as listed

COMPLETE KITS

- Kit includes the correct length braided brake/clutch lines and wire extensions to complete a handlebar swap
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and brake lines with chrome fittings, banjo bolts and crush washers
- Midnight series kits include clutch line and brake lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra-custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

STANDARD KITS

- Kit includes the correct length brake/clutch lines and wire extensions to complete a handlebar swap; electrical wire extensions not included (available separately)
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and black stainless brake lines with chrome fittings, banjo bolts and crush washers
- The midnight kits include stainless steel brake lines and clutch lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra-custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

MAGNUM

DESIGNER HANDLEBAR INSTALLATION KITS

- The only complete kits with matching braided cables and brake lines
- Kits are available for non-ABS Harley-Davidson® models with 30,5 cm (12") to 51 cm (20") ape hanger style handlebars installed
- Kits include throttle and idle cables, clutch cable or hydraulic clutch line, brake lines, copper crush washers, hardware, and any necessary switch wiring or turn signal extensions
- All cable and brake lines feature either Sterling Chromite® II or Black Pearl braid with highly polished chrome or black chrome-plated fittings
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket
- All cables are a low-effort, high-efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Kits for dual disc models include an all brazed manifold that eliminates leaks, alignment problems and unattractive threaded connections

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: Kits are based on using ape hanger style handlebars with 51 mm (2") risers (except for Touring models).

XR STAINLESS HANDLEBAR INSTALLATION KITS

- Magnum XR handlebar installation kits offer a great fit and excellent quality at an economical price
- XR handlebar installation kits are available for non-ABS Harley-Davidson® motorcycles with 30,5 cm (12") to 43 cm (17") ape hanger style handlebars
- Three color combinations to complement your bike: OE style black vinyl with chrome plate fittings, clear-coated stainless steel with chrome-plated fittings or black-coated with black chrome-plated fittings
- All cables are a low effort, high efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Magnum XR brake lines use an enhanced construction of heavy gauge stainless steel embedded in tough abrasion-resistant nylon outer jacket for superior durability
- The coating on cables and brake lines offers exceptional protection for paint or chrome
- Kits that include manifolds use an all-brazed construction to ensure optimal OE fitment and appearance
- Manifolds use -3 AN connections for an easy installation
- Kits include throttle and idle cables, clutch cable or XR hydraulic clutch line, XR brake lines, copper crush washers, hardware, turn signal and switch wiring extensions

NOTE: Kits are based on using ape hanger style handlebars and 51 mm (2") risers (except Touring models).

CABLE CLAMPS

- Unique two-piece design allows easy installation
- Swivel-head design allows more natural cable routing without excessive bending
- Polished chrome or E-coated black finish
- Innovative single-bolt clamp gives a clean custom look
- Rubber sleeves protect painted surfaces and cable housing
- 25,4 mm (1") clamps fit handlebars and many aftermarket frames
- 28,6 mm ($1^1/_8$") clamps fit XL models through 81 and OEM 4-speed or Softail frames
- 32 mm ($1^1/_4$") clamps fit 82-95 FXR, Dyna and 82-03 XL models
- 38 mm ($1^1/_2$") clamps fit custom frames

PART #	DESCRIPTION
CHROME	
0658-0004	32 mm - 38 mm ($1^1/_4$"-$1^1/_2$") single throttle/clutch
0658-0005	32 mm - 38 mm ($1^1/_4$"-$1^1/_2$") dual throttle/clutch
0658-0006	25,4 mm - 28,6 mm (1"-$1^1/_8$") single throttle/clutch
0658-0007	25,4 mm - 28,6 mm (1"-$1^1/_8$") dual throttle/clutch
0658-0009	Dual cable holder for 6 mm, 7 mm, 8 mm and 9 mm cables ($^5/_{64}$", $^9/_{32}$", $^5/_{16}$" and $^{11}/_{32}$")

PART #	DESCRIPTION
BLACK	
0658-0086	Single cable holder for 6 mm and 7 mm cables ($^5/_{64}$" and $^9/_{32}$")
0658-0087	32 mm - 38 mm ($1^1/_4$"-$1^1/_2$") single throttle/clutch (6 mm, 7 mm or 8 mm w/ rubber sleeve ($^5/_{64}$", $^9/_{32}$", $^5/_{16}$") or 9 mm w/o rubber sleeve ($^{11}/_{32}$"))
0658-0088	32 mm - 38 mm ($1^1/_4$"-$1^1/_2$") dual throttle/clutch (6 mm, 7 mm or 8 mm w/ rubber sleeve ($^5/_{64}$", $^9/_{32}$", $^5/_{16}$") or 9 mm w/o rubber sleeve ($^{11}/_{32}$"))

Accutronix
precision crafted billet products

THROTTLE/IDLE CABLE CLAMP

- Billet aluminum construction
- Two-piece clamp separates cables so they don't rub together
- Keeps cables routed where they belong

PART #	DESCRIPTION
DS223350	Oval, chrome

PRO PERFORMANCE PRODUCTS

SPEEDO CABLE GUIDE, UNIVERSAL FIT

- Machined from solid billet aluminum
- Fits any fender
- 1/4"-20 thread
- Chrome finish
- Mounting hardware included

PART #	DESCRIPTION
0658-0080	Cable guide

DRAG Specialties

CLUTCH CABLE SUPPORT BRACKET

- Chromed steel clutch cable support mounts in the stock location and provides clean routing for trouble-free action
- Sold individually

PART #	DESCRIPTION
DS-223100	Clutch cable bracket

DRAG Specialties

CABLE, HOSE GUIDE/ TIE-DOWN BRACKET

- A chromed steel cable guide for routing clutch or speedo cables
- Can also be used for gas line routing or as a bungee cord tie-down bracket
- Sold to dealer in packs of 10; sold to consumer as each

PART #	DESCRIPTION
DS-110223	Clutch/speedo cable guide/tie-down bracket; repl. OEM #38623-68

KURYAKYN

CABLE GUIDE/TIE-DOWN BRACKETS

- Provide handy anchor points for securing luggage or other items
- Mounting hole accepts up to a 9,5 mm (3/8") screw (M10 screw)
- Can also be used as a cable guide; replaces H-D OEM #38623-68
- Sold in pairs

PART #	DESCRIPTION
3920-0354	Tie-down/cable guide brackets

DRAG Specialties

WIRE FUEL LINE GUIDE

- Guide is used between cylinders and on back of manifold
- Can also be used for routing cables or wires
- Sold each to consumer; sold in 5-pack to dealer

PART #	DESCRIPTION
DS-110225	Chrome; repl. OEM #45092-66

STAINLESS STEEL DRILLED BRAKE ROTORS WITH ABE

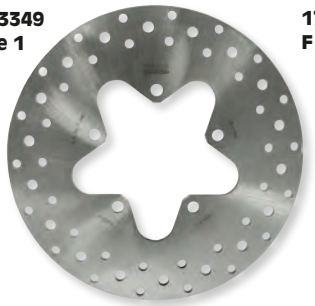
TYPE F DISC

- Stainless steel brake rotors
- Proprietary heat treatment ensures homogeneity and consistency of the rotor design
- Machined surfaces are finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm
- All non-machined surfaces are finished using anti-corrosive paint for durability and protection from the elements
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications
- Available in Type 1 Classic and Type 2 T-Bone styles
- ABE approved

TYPE FTK DISC

- Stainless steel fully floating brake rotors
- Outer brake ring features machined and painted rotor slots
- Innovative design improves brake performance and helps cool the rotor faster during extreme use
- Design gives maximum resistance to fade/ warp from heat and mechanical stresses
- Rotor design allows for better heat exchange
- Rotor bobbins are stainless steel for efficient rotor "float" so the rotor will not warp and distort under extreme stress/heat

1710-3349
F Type 1



1710-3411
F Type 2

- Stainless steel outer rotor rings are machined and the surfaces finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm
- Rotor weight and inertia are not increased compared to other brake rotor disc types; do not impede the motorcycle's steering/handling characteristics
- Very original style, great for customizers or to enhance the look on older stock bikes
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications
- ABE approved

SIX-PISTON DIFFERENTIAL-BORE FRONT CALIPERS

- Designed for 11,5" or 13" rotors
- Dual-disc applications require a left and right caliper
- Work with OEM-style or Performance Machine rotors
- Chrome calipers are highly polished then chrome-plated
- Contrast Cut™ finish starts with a polished caliper that has been black anodized, then recut to open the design
- Black Ops™ is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Include brake pads, bleeder screw and $^{3}/_{8}$"-24 banjo bolt
- TÜV approved

NOTE: Will not fit FXD/FXR/XL models with wire spoke wheels.

FOR USE WITH 11,5" ROTORS (112 X 6B CALIFPERS)

VINTAGE REAR CALIPERS AND BRACKETS

- Braking power comes from Performance Machine's proven 4-piston internals, with styling cues taken from the Dual Action Cast caliper
- CNC-machined fins give the caliper its vintage style while keeping the caliper cool and providing optimal braking power with no flex
- The precision-machined Performance Machine logo around the accent bolt and centrally located banjo are the finishing touches to a true classic
- Available in chrome, Black Ops™ and black finishes
- Black Ops is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Calipers and brackets sold separately

Sintered metal

Organic Aramid Fiber

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics while still providing excellent reduction in noise and dust
- Organic aramid fiber pads are OEM type replacement brake pads for 1970s and earlier models
- Organic aramid fiber pads are the perfect choice for polished or chromed rotors and billet steel rotors
- Semi–metallic brake pads offer a pad in between both the sintered and organic brake pads
- All three compounds of Drag Specialties brake pads are asbestos, nickel and lead free

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our organic aramid fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

DP BRAKES SINTERED METAL BRAKE PADS

- Give your bike peak braking performance with DP Brakes brake pads
- Pads have a quick break-in period so you get peak braking performance fast
- DP Brakes design and materials ensure consistent, hard stops and fade-free performance
- Pads give long pad life – sintered metal compounds outlast conventional organic or aramid pads
- Made with DP Brakes' proven sintered metal pad material
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Excellent initial bite and feel in both wet and dry conditions
- GG friction rated
- Quiet and non-abusive to most rotors; no brake dust or brake fade
- OEM pads for Performance Machine calipers
- ABE/TÜV approved

SDP SPORT HH+ SINTERED METAL BRAKE PADS

- Feature the industry-high, HH+ friction rating
- Provide superior stopping power with no mileage penalty
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Quick pad break-in time so you get maximum stopping power fast
- Quiet and dust-free
- ABE/TÜV approved

RDP RACING SINTERED METAL BRAKE PADS

- Developed with the aid of top works teams to give your bike maximum stopping power
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Designed to give maximum initial power, with fingertip control throughout the stop
- Quiet and dust-free

NOTE: DP Brakes brake pads are not for use with polished rotors.

⚠ WARNING RDP Race pads are for Race/Track use only; not for street use. These pads are for Race/Track use only. Any other use could result in death or serious injury.

FOR GMA/BDL CALIPERS

CALIPER TYPE	BRAKE PAD PART #
"F" caliper	**DP-907**

"THE SQUEALERS" REAR BRAKE PADS

- Made from organic aramid fibers for low abrasion
- Feature a unique squealing sound to let you know that it's time to replace your pads, which prevents damage that can occur when pads are overworn
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response
- Sold in pairs

PART #	DESCRIPTION
1720-0074	For L87-99 FXST/FLST, 91-98 FXD/FXDWG/L87-94 FXR; repl. OEM #44209-87C

BRAKE PAD SHIMS

- Reduce brake pad vibration and noise and protect the caliper piston
- Self-adhesive rubber/fiberglass shims can be trimmed (if necessary) to fit any caliper/pad combination
- Sold in a package of four

PART #	DESCRIPTION
1702-0132	Brake pad shims (4-pk.)

All part numbers in BLUE are new for the OldBook.

TRW Lucas TÜV APPROVED ABE

See chart for details

NRS Technology

BRAKE PADS

STANDARD PADS

- Organic material
- Long pad service life
- Suitable for use with all brake discs
- Solid performance, even in wet conditions
- Features NRS Technology, precluding loss of lining material under extreme thermal conditions
- All parts are ABE approved unless noted

RQ SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- Friction rate is matched to our SV sintered metal pads
- Recommended only for use when replacing sintered metal pads
- No bedding is required

SV SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- No bedding is required

SRQ SINTERED METAL ROAD RACING PADS

- Completely metallic sintered brake pads
- Extremely high friction rate
- Very effective performance with low pressure at the lever
- Suitable for high-performance use

CRQ CARBON RACING PADS

- Carbon-based racing pad
- Greater durability than the SRQ pad
- High friction levels; requires low effort at the lever
- Suitable for high-performance use

FRONT BRAKE PADS

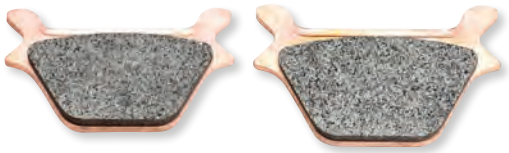
Organic Pads

Double-H Pads

Semi-Sintered V Pad



Extreme Performance pad

BRAKE PADS

ORGANIC PADS

- Organic brake pads feature aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating, the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace aramid fibers or sintered metal compound pads

EXTREME PERFORMANCE SINTERED METAL

- The newest sintered metal brake pad fusion technology
- Has the highest friction rating available in a pad - 0,6 - for strong, fade-free stopping power
- No lead, iron or steel additives; no more rotor outline etching or rotor stiction
- Super-fast bed-in; full friction after 10 to 15 race stop uses
- Great heat cycle ability; pads cool after extreme use and perform just as strong the next day

NOTE: Brake pads include abutment shims where required.

EBC BRAKES

BRAKE PAD SHIMS

- Anti-squeal shim kits reduce brake pad vibration and noise while protecting the caliper piston
- Can be trimmed with scissors to required shape; apply these shims to the reverse side of the brake pads to prevent brake noise
- Sold in a 4-pk.

PART #	DESCRIPTION
1702-0250	Brake pad shims (4-pk.)

All part numbers in BLUE are new for the OldBook.

DS-325342

BRAKE SHOES

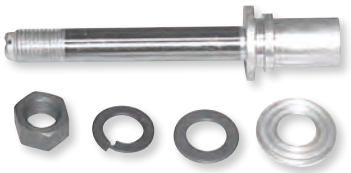
- High-quality brake shoes
- Sold in pairs

PART #	DESCRIPTION
DS-325342	Front, for 49-71 Big Twin; repl. OEM #44401-49B
DS-325386	Rear, for 63-72 Big Twin; repl. OEM #41801-63
1723-0424	Rear, for 58-62 Big Twin; repl. OEM #41801-58A
DS-325328	Rear, for 36-57 Big Twin; repl. OEM #41805-38
DS-325342	Rear, for 54-78 XL/K, front for 54-63 XL/K; repl. OEM #44401-49B

BRAKE LININGS AND RIVETS

- Sold in a complete set

PART #	DESCRIPTION
DS-325396	Linings/rivets for 54-71 Big Twin (front); 54-63 XL, K (front); 54-78 XL, K (rear); repl. OEM #44432-54A



FRONT BRAKE SHOE PIVOT STUD KIT

- Includes one stud, OEM #44448-48; one stud washer, OEM #44454-48; one $^{7}/_{16}$" washer, OEM #6486HW; one $^{7}/_{16}$" -20 nut, OEM #7835; one $^{7}/_{16}$" lockwasher, OEM #7055
- Cadmium-plated

PART #	DESCRIPTION
2401-0669	For 49-72 Big Twin

BRAKE PAD DOWEL PINS

- Durable, long-wearing steel
- Sold in 10-packs

PART #	DESCRIPTION
DS-324613	For 73 FX, 72-84 FL and 73 XL (front); 73-80 FX, FL (rear); repl. OEM #44124-72

DS-325392

BRAKE DRUM/SPROCKET SETS

- Chrome rear drum and sprocket sets

PART #	DESCRIPTION
DS-325392	For 67-72 Big Twin; repl. OEM #41400-67
DS-325390	For 63-66 Big Twin; repl. OEM #41400-63
DS-325344	For 52-78 XL and K models; repl. OEM #41401-52 (51T)

REAR WHEEL BRAKE CYLINDERS AND CYLINDER REBUILD KITS

- High-quality OEM replacement components
- Brake cylinders and rebuild kits sold separately

1730-0013

1730-0025

PART #	DESCRIPTION
1730-0013	For 63-73 Big Twin models; repl. OEM #41740-63
1730-0012	For 58-62 Big Twin models; repl. OEM #41740-58

PART #	DESCRIPTION
1730-0025	Rebuild kit for PART #1730-0012
1730-0026	Rebuild kit for PART #1730-0013

BRAKE DRUM WHEEL MOUNTING SOCKET SCREW SET

- Reproduction of hardened $^{3}/_{8}$"-20 bolts
- Complete with chip curls at bottom of the socket hole
- Parkerized and hardened

PART #	DESCRIPTION
2401-0527	For 36-72 Big Twin; repl. OEM #4026-35

BRAKE SHAFT NUT AND LOCK KIT

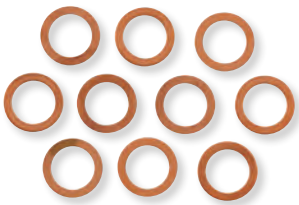
- Includes two special hex size nuts and two locks to prevent loosening of brake cross shaft components

PART #	DESCRIPTION
2401-0521	For 36-57 Big Twin

REAR WHEEL CYLINDER REPAIR KIT

- Repair kit for rear wheel cylinders

PART #	DESCRIPTION
33007	For 63-72 FL/FLH, 71-72 FX/FXE; repl. OEM #41748-63



COPPER CRUSH WASHERS FOR WHEEL CYLINDER BOLT

- Sold in 10-pack

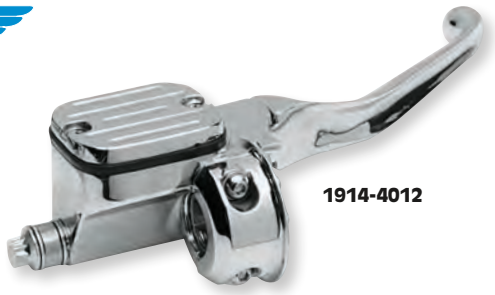
PART #	DESCRIPTION
DS-324618	For 58-72 FX/FL models w/ hydraulic brakes; repl. OEM #41744-58

All part numbers in BLUE are new for the OldBook.

FRONT BRAKE MASTER CYLINDER ASSEMBLY

- Chrome-plated assembly includes brake lever, reservoir cover, brake line fitting and all internal components

PART #	DESCRIPTION
DS-290708	For 72-81 FL, FLT and 73-81 FX/XL; repl. OEM #45010-73

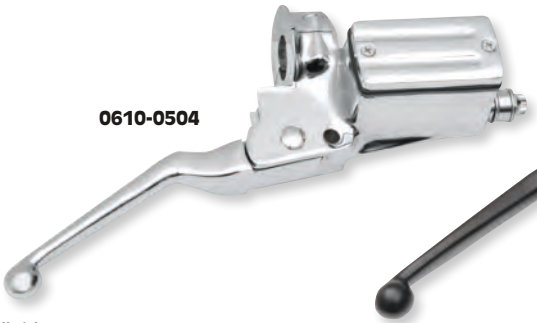


1914-4012

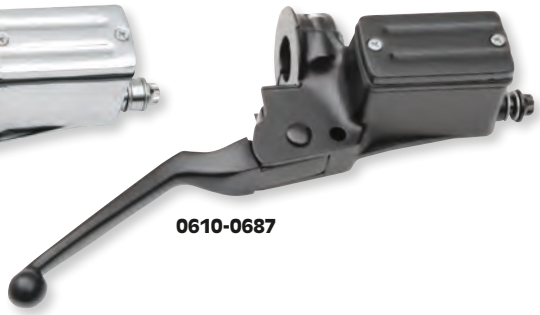
CUT-DOWN FRONT BRAKE MASTER CYLINDERS

- Chrome die-cast aluminum construction
- Cut down by 0,256" for a lower profile
- Include chrome mounting clamp with brake lever
- Not for use with 32 mm (1 1/4") or 38 mm (1 1/2") handlebars that are not clearanced for master cylinder

PART #	DESCRIPTION
FOR 96-99 EVOLUTION BIG TWIN MODELS	
1914-4011	1/16" bore, dual disc (3/8"-24)
1914-4012	9/16" bore, single disc (7/16"-24)
1914-4013	5/8" bore, single disc (7/16"-24)



0610-0504



0610-0687

FRONT BRAKE MASTER CYLINDERS

- Include lever and clamp half
- Compatible with DOT 4 or 5 brake fluid
- 5/8" bore master cylinders have a 7/16"-24 banjo bolt
- 11/16" bore master cylinders have a 3/8" -24 banjo bolt

PART #	DESCRIPTION
FOR 96-99 EVOLUTION BIG TWIN	
0610-0689	Black, 9/16" bore single disc

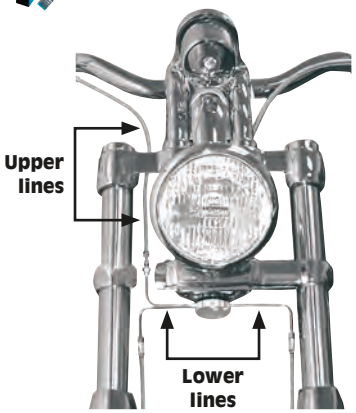
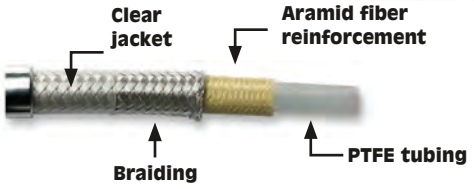
MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS KARBONFIBR





DESIGNER SERIES DOT BRAIDED NON-ABS FRONT BRAKE LINE KITS

- Brake kits utilize a superior two-piece design consisting of a direct fit lower assembly used in conjunction with alternative length upper lines
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- Choice of 35°, 90° or 180° upper brake line banjo angles ensure a great fit
- AN-3 connections for easy installations
- All fittings are highly polished and chrome or black chrome-plated
- The industry's highest quality braid in four color choices to complement your bike: Sterling Chromite® II, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Aramid Fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

NOTE: Upper and lower brake line kits are sold separately to allow for a perfect fitment.

NOTE: Non-stock applications require taking a measurement for the upper brake line length and banjo angle to ensure correct fitment (see How to Order).

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

IMPORTANT - HOW TO ORDER

Stock fitments: Use the stock fitment chart to determine the upper and lower kits needed for your application. The stock upper line length and banjo angle is also listed for each application. This information may be helpful when choosing alternative length lines.

Lower lines are model specific. Use the stock fitment chart to determine which kit is required.

Alternative fitments: Due to handlebar changes, fitment options are accommodated with the UPPER line only. You may prefer to use a different length or banjo angle based your specific routing. See the alternative length chart for available lengths and banjo angles.

Upper line length is determined by measuring the routing path from the top of the lower triple tree to the master cylinder. The upper and lower connection is made at this point – see diagram.

XR STAINLESS EXTREME RESPONSE FRONT DOT BRAKE LINE KITS

- Manufactured with an enhanced construction for extreme braking response and durability
- Designed to be compatible with Harley-Davidson® ABS requirements for stock and alternate length brake lines
- Inner PTFE tubing braided with XR stainless steel reinforcement embedded in a tough nylon outer jacket offers exceptional protection for paint or chrome
- Three color choices: Clear-coated with chrome fittings, OE-style black stainless steel with chrome fittings or black-coated stainless steel with black chrome fittings
- Available in stock and plus lengths with clear or black coated XR stainless brake line
- All fittings are highly polished and chrome or black chrome-plated
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- -3AN connections for easy installations

NOTE: Complete kits contain brake line assemblies to connect the caliper(s) to the master cylinder.

All non-ABS kits are complete kits.

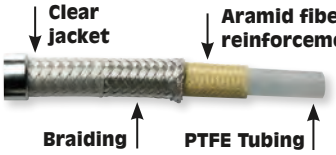
MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS KARBONFIBR



E-Z ALIGN DOT BRAIDED SINGLE DISC FRONT BRAKE LINES

- E-Z Align rotating caliper banjo feature for perfect no-kink fitments
- Choice of 35°, 90° or 180° upper brake line banjo angles
- Brake lines are available with either a $^{7}/_{16}$" or $^{3}/_{8}$"/10 mm master cylinder banjo fitting
- All fittings are polished and chrome or black chrome-plated
- The industry's highest quality braid available in four color choices to complement your bike: Sterling Chromite® II, Black Pearl, Karbonfibr and Polished Stainless
- Karbonfibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and company.

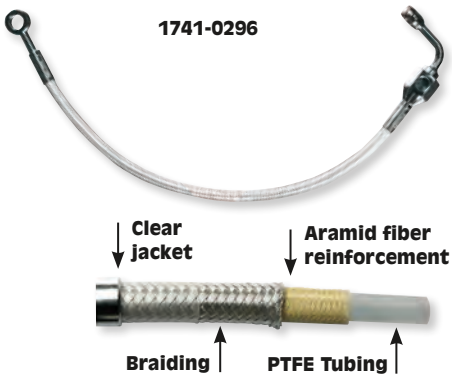
MAGNUM STERLING CHROMITE® II POLISHED STAINLESS



BRAIDED DOT REAR BRAKE LINE KITS

- The industry's highest quality braid available in two color choices to complement your bike: Sterling Chromite® II and Polished Stainless
- Braid color and weave match all other Magnum control cables and brake lines
- All fittings are polished and chrome-plated
- Kits use OE-style manifolds or universal T-blocks for a complete installation
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

RUSSELL

BRAIDED BRAKE LINE KITS

- Braided brake lines exceed OEM pressure specifications, reduce brake line expansion and look good
- Feature PTFE inner liner and stainless steel outer braid for smooth fluid transfer and high strength
- Factory-assembled for correct fit and reliability

NOTE: All measurements are approximate.

NOTE: Russell reference numbers ending in SS and B are clear-coated.

NOTE: Numbers ending in S are for off-road or show use only.

PRO SWIVEL

PRO SWIVEL™ BRAKE HOSES

- Features Russell's exclusive 360° swivel banjo system (patent pending)
- The banjo is incorporated at the caliper end of the hose assembly
- Makes the rotation alignment hassle-free
- Engineered using two O-rings for a positive seal
- Supported by a 305 stainless steel retention pin for permanent attachment
- Uses all stock mounting locations and hardware; simply route your hose and attach the banjo at the master cylinder

EBONY 2 BRAKE LINE KIT WITH ABE

- Contemporary black-on-black looks offer the hottest new style and high performance
- Hose features black PVC coating, PTFE inner liner and premium stainless steel braided outer
- PVC hose coating adds great looks, abrasion protection to expensive parts and resistance to damaging UV rays
- PTFE liner is an inert material, compatible with all hydraulic and brake fluids; has a heat range of -106 °C to 260 °C (-158 °F to 500 °F)
- Stainless steel braid outer is superior in pressure rating, flame resistance and volumetric expansion to all other materials, resulting in unmatched stopping power
- Zinc-plated mild steel hardware has a 96-hour salt spray rating
- All brake lines are stock length

UNIVERSAL BRAKE LINE AND FITTINGS

- Universal, black $^{3}/_{16}$" OD nylon brake lines; ideal for custom fabrication
- Semi-rigid nylon construction offers unparalleled flexibility, allowing the builder ultimate control
- Compression-type chrome fittings with unique concave design
- Line and fittings also work great for custom hydraulic clutch applications
- For off-road and show use only
- Fittings made from steel, not brass
- Line and fittings sold separately

NOTE: All Big Twin and XL models use standard $^{3}/_{8}$" and $^{7}/_{16}$" banjo bolts, washers and fittings. Fittings and washers listed as $^{3}/_{8}$"/10 mm can be used in either application.

PART #	DESCRIPTION
UNIVERSAL $^{3}/_{16}$" OD NYLON BRAKE LINES

BYO® BUILD-YOUR-OWN DOT BRAKE LINE BUILDER KITS

- Assemble lines in only five minutes with side cutters and a $^{7}/_{16}$" wrench for a perfect fit and alignment every time
- Three different kits are available in two colors to solve your brake line assembly challenges
- Basic Builder Single Disc Kits contain $^{7}/_{16}$" and 10 mm banjos and fittings to build multiple front single disc brake lines
- Deluxe Builder Kits contain banjos and fittings to build multiple front single disc brake lines, hydraulic clutch lines and most rear brake lines
- Master Builder Kits include everything in the Deluxe Kits, plus additional banjos along with four brazed and plated manifolds to build most dual front disc brake lines
- All kits are organized in a labeled, compartmental carrying case and include 7,6 m (25') of non-yellowing clear or black coated braided stainless steel hose, chrome or black chrome plated banjos, polished stainless hardware, copper crush washers plus a set of durable Aluminum BYO® Vise Jaws. Kit contents are listed below
- Brake hose and fittings are compliance labeled, pressure tested and 100% inspected
- NOT for use with Anti-lock Brake Systems

NOTE: BYO® brand brake hose and components have been specifically designed to work ONLY in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void all warranty, performance, and liability claims.

NOTE: Black and Basic BYO® Single Disc builder kits do NOT contain rear brake line T-blocks or inverted flare fittings.

NOTE: Black and Basic BYO® Single Disc Builder Kits Hydraulic Clutch Fittings are a natural stainless steel finish.

BYO® BUILD-YOUR-OWN UNIVERSAL BRAKE LINES

- Assembles in five minutes with only side cutters and 7/16" wrench
- All components and hoses are available separately to build your own brake line – choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Brake hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vise wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos and inverted flare fittings are polished and chrome plated with polished stainless steel fittings
- -3 braided black stainless brake line is coated with an opaque black outer jacket – banjos are black chrome plated and include black heat shrink to cover the stainless fittings once assembled

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance and liability compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: Please see pages 936-937 for compatible Drag Specialties and Magnum banjo bolts and crush washers.

BYO® BUILD-YOUR-OWN® BRAKE LINE KITS

- Assembles in 5 minutes with only side cutters and $^{7}/_{16}$" wrench
- Brake hose and fittings are labeled, pressure tested and 100% inspected
- Single disc kits contain 183 cm (6') of non-yellowing clear-coated braided stainless or black-coated stainless line, chrome or black chrome-plated banjos, polished stainless hardware, copper crush washers and vice wrench
- Dual disc kits contain 213 cm (7') of non-yellowing clear-coated braided stainless or black-coated stainless line, chrome or black chrome-plated banjos, dual disc manifold, polished stainless hardware, copper crush washers and vice wrench
- Kits contain all components needed to build one complete stock or custom brake line
- Select by model and year or by banjo size and angle for custom applications

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO® components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance or liability claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: All Big Twin and Ironhead XL use $^{3}/_{8}$" and $^{7}/_{16}$" banjo bolts.

PART #	DESCRIPTION
BRAIDED STAINLESS STEEL SINGLE DISC BRAKE LINE KITS WITH 183 CM (6') BRAKE LINE	
1741-3200	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 35° banjo)
1741-3201	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 90° banjo)
1741-3199	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 180° banjo)

PART #	DESCRIPTION
BRAIDED BLACK STAINLESS DUAL DISC BRAKE LINE KIT WITH 213 CM (7') BRAKE LINES	
1741-3206	For 84-98 Touring ($^{3}/_{8}$" 35° banjo)
BRAIDED BLACK STAINLESS SINGLE DISC BRAKE LINE KITS WITH 183 CM (6') BRAKE LINE	
1741-3227	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 35° banjo)
1741-3228	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 90° banjo)
1741-3226	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 180° banjo)

DS3519

BRAIDED UNIVERSAL BRAKE LINES AND FITTINGS

- Brake lines available in Universal DOT or ABS Universal DOT
- ABS Universal DOT brake lines are manufactured with an enhanced construction designed to be compatible with Harley-Davidson® ABS requirements for alternate length brake lines
- The industry's highest quality braid in four color choices to complement your bike; Sterling Chromite® II, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all MAGNUM control cables and brake lines
- Inner PTFE tubing braided with aramid fiber reinforcement greatly reduces line expansion to provide the ultimate in high performance
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Universal AN-3 fittings, banjos, and manifolds are chrome or black chrome-plated
- Banjos are offered in most popular sizes and bend angles
- AN-3 Male Mini Tee with bracket and Rear Brake Switch block are available to complete custom builds
- Brake lines constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: For banjo bolts, see pages 936-937 and for crush washers, see page 937.

PRO SYSTEM II NYLON LINES AND FITTINGS

- Universal line is manufactured from a semi-rigid nylon material; allows maximum flexibility
- Compression-type chrome or black fittings are easily attached
- Lines and fittings are sold separately
- Replacement olives allow reuse of existing fittings

NOTE: For show and off-road use only.

NOTE: All Big Twin and XL models use standard 10 mm x 1,25 and 12 mm x 1,50 ($^3/_8$" and $^7/_{16}$") banjo bolts, washers and fittings. Fittings and washers listed as $^3/_8$"/10 mm will work in either application.

RENEGADE UNIVERSAL BRAKE LINES AND FITTINGS

- Preassembled with Russell high-performance #3 stainless steel braided hose that features a rugged PTFE inner liner and crimp-on female swivel hose ends
- Ready for adapter fittings, these build-it-yourself brake lines are the newest innovation from Russell
- Features Twilight Black finish; abrasion-resistant against painted surfaces
- Black hose appearance is perfect for retros and late-model customs
- Provides superior braking performance with braided Powerflex
- Minimize line expansion
- Works with all brake fluids as well as stock, custom and racing applications
- Matching Renegade reusable adapter fittings feature a Twilight Black finish and are sold separately

NOTE: All Big Twin and XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10 mm can be used in either application.

STREET LEGAL™ UNIVERSAL BRAKE LINES AND FITTINGS

- Street Legal brake lines are clear-coated with chrome steel ends
- Program-designed #3 size for easy brake line hookups on almost any application
- Chrome banjo bolts and fittings are available separately for multiple applications

All Big Twin and XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10 mm will work in either application.

FLUID TRANSFER SYSTEMS

UNIVERSAL BRAKE LINES

- Available in uncoated, clear-coated, ebony and platinum-finished stainless steel lines
- The combination of the PTFE inner and stainless steel outer braid eliminates the spongy feeling under heavy braking conditions
- Great looks combined with reliability and safety
- Thread of 3/8-24 female to go with adapters on page 947-948

BRAKE LIGHT BANJO BOLTS WITH BUILT-IN PRESSURE SWITCH

BL775-44CH

- Constructed of chrome-plated steel, this brake light switch banjo bolt replaces the OEM part and allows changing of the master cylinder or using rear set conversions
- Single bleed is for motorcycles with one line coming to brake master cylinder

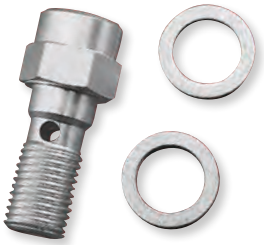
PART #	DESCRIPTION
BL775-03CH	3/8"-24 BL banjo bolt
BL775-44CH	7/16"-24 BL banjo bolt

BRAKE LIGHT BANJO BOLT BOOT

- Clean up the looks of your brake light bolts with this handy 90° black rubber boot
- Fits brake light banjo bolts with built-in pressure switch; switch not included

PART #	DESCRIPTION
1742-0098	Brake light bolt boot

BANJO BOLT WITH BRAKE LIGHT SWITCH MOUNT



- Allows brake light switch to be threaded directly into banjo bolt head
- Screws directly into master cylinder
- Replaces standard 3/8"-24 banjo bolt
- Eliminates junction block
- Great for custom applications
- Sold each

PART #	DESCRIPTION
DS-272185	Banjo bolt w/ brake light switch mount

BANJO BOLT

- 3/8"-24 banjo bolt has a 7/16" shoulder
- Used to attach a 7/16" banjo fitting to caliper or master cylinder that accepts a 3/8"-24 banjo bolt
- Sold each

PART #	DESCRIPTION
1742-0030	3/8"-24 banjo bolt w/ 7/16" shoulder

BANJO BOLTS

1742-0136

2401-0318

- Stainless steel fasteners with a polished finish
- 12-point heads
- Sold each

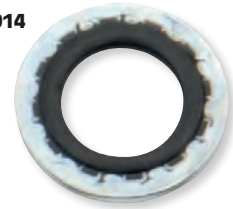
All part numbers in BLUE are new for the OldBook.

BANJO BOLT SEALING WASHERS

- High-quality washer includes a built-in rubber seal to ensure proper sealing around banjo bolt under various conditions
- Sold as 10-pack

PART #	DESCRIPTION
1742-0042	Banjo bolt 3/8"/10 mm sealing washers

DS-097014



BANJO BOLT SEALING WASHERS

- Washers feature a rubber seal that provides superior sealing around the banjo bolt
- Sold in 10-pack

PART #	DESCRIPTION
DS-097014	3/8"/10 mm washers; repl. OEM #41731-88
DS-097015	7/16" washers; repl. OEM #41733-88

BANJO ADAPTER WASHERS

- Designed for bikes that already have 7/16" banjos
- Enable the use of a 3/8" banjo bolt through a 7/16" banjo fitting (often the black rubber hose types found on late-model OEM controls) without having to remove the existing hoses
- Sold in pairs

NOTE: JX Master cylinders are set up for the use of the more common 3/8" banjo fittings that bolt onto 3/8"-24 threads in the body.

PART #	DESCRIPTION
1742-0112	Banjo adapter washers

49005

BANJO BOLT WASHERS

- Sold in 10-pack

PART #	DESCRIPTION
49005	3/8"/10 mm aluminum banjo sealing washers
49006	7/16" aluminum banjo sealing washers

1741-2442

ALUMINUM SEALING WASHERS

- Match the TRW banjo bolt/brake line fittings
- Aluminum construction
- 10 mm inner diameter

PART #	DESCRIPTION
1741-2442	10-pk.
1741-2443	50-pk.

DS096610

1742-0354

BRAKE LINE SANDWICHES

- Two-piece design
- Used to mount stainless steel brake line under bottom triple tree
- 0.343" machined groove holds brake line in place
- Can also be used as universal cable clamp

PART #	DESCRIPTION
DS096610	Chrome

PART #	DESCRIPTION
1742-0354	Black

DS-097023

40509

BUBBLE BRAKE LINE TEE

- Durable chrome-plated billet aluminum
- Banjo bolt (3/8"-24) design reduces the possibility of overtightening
- Prevents brake lines from rubbing on the front fender; 5 1/8" wide
- Requires the use of a double-shoulder 3/8"-24 banjo bolt and a 3/8"-24 single-shoulder banjo bolt; sold separately
- Designed for dual-disc brake system

PART #	DESCRIPTION
DS-097023	Bubble brake tee
40509	3/8"-24 single-banjo bolt (ea.)

- Narrow Mustang type features a single cap, two petcock outlets, straight mounting tabs and a hole-to-hole center line on mounting brackets of 445 mm (17 1/2")
- Extra-wide Mustang type features a high tunnel for the "Fatbob" look, one left-side petcock outlet and a hole-to-hole center line on mounting brackets of 450 mm (17 1/16")
- 1-Piece Fatbob style features a left-side external petcock outlet, indent on tank bottom for rocker box clearance and a hole-to-hole center line on mounting brackets of 502 mm (19 3/4")
- Dished tank style features a bung for cam-style gas cap, a bung for late-model 22 mm petcock and a hole-to-hole center line on mounting brackets of 425 mm (16 3/4")
- All accept 66-72 style vented gas caps (sold separately)

NOTE: Not for use on fuel-injected models.

NOTE: Paughco recommends all tanks be mounted on leather spacers or bushings.

NOTE: All tanks are pressure-tested and are bare metal; fit before painting.

PART #	DESCRIPTION
NARROW MUSTANG TYPE: 42 CM L X 23 CM W X 18 CM D (16 1/2" X 9" X 7"); TUNNEL MEASURES 64 MM W X 57 MM D (2 1/2" X 2 1/4")	
0701-0183	8,3 liter (2,2 US gal.) tank
EXTRA WIDE MUSTANG TYPE: 42 CM L X 30,5 CM W X 18 CM D (16 1/2" X 12" X 7"); TUNNEL MEASURES 64 MM W x 12,5 CM D (2 1/2" X 5")	
0701-0184	11,4 liter (3 US gal.) tank

PART #	DESCRIPTION
1-PIECE FATBOB STYLE: 49,5 CM L X 33 CM W X 20,5 CM D (19 1/2" X 13" X 8"); TUNNEL MEASURES 56 MM W X 11 CM D (2 3/16" X 4 1/4")	
0701-0185[1]	18 liter (4,75 US gal.) tank
DISHED STYLE: 40,5 CM L X 25,5 CM W X 23 CM D (16" X 10" X 9"); TUNNEL MEASURES 76 MM W x 64 MM D (3" X 2 1/2")	
0701-0523	11,4 liter (3 US gal.) tank

[1] Will not work on any stock FXR or FLT style frames.

0701-0828

0701-0829

MINI-STYLE SPORTSTER GAS TANKS

- These new Sportster-style tanks have been sectioned and narrowed to a 203 mm (8") width to create a cool new look for custom Bobbers
- Tunnel depth of 44 mm (1 3/4") results in a great high-mount look
- Measure 38 cm L x 20,5 cm W x 20,5 cm D (15 1/2" x 8" x 8"); tunnel measures 44 mm D x 57 mm W (1 3/4" x 2 1/4"); centerline hole-to-hole on mounting brackets measures 422 mm (16 5/8")

PART #	DESCRIPTION
0701-0828	Mini tank with screw-in gas cap bung

- Available with screw-in cap bung or cam-style bung for 66-72 style cap
- 22 mm petcock bung
- Bare metal finish; holds 6,4 liter (1,7 US gal.) of fuel

PART #	DESCRIPTION
0701-0829	Mini tank with cam-style gas cap bung

WARNING: ALL TANKS ARE SHIPPED UNPAINTED. CAPS ARE NOT INCLUDED UNLESS NOTED. ALL GAS TANKS SHOULD BE FITTED, PRESSURE-TESTED AND SEALED BEFORE BEING PAINTED TO ELIMINATE POTENTIAL PROBLEMS.

All part numbers in **BLUE** are new for the OldBook.

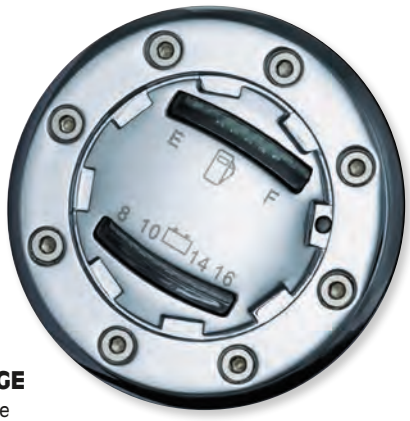
KURYAKYN



ZOMBIE LED FUEL AND BATTERY GAUGE

- Easy-to-read LED helps keep an eye on fuel and battery voltage levels
- Chrome-plated die-cast aluminum housing
- No-hassle plug-and-play wiring

PART #	DESCRIPTION
2212-0586	For 94-98 FLHR, 91-98 Dyna (except console-mounted gauges) and 88-94 FXR (except console-mounted gauges)

INFORMER LED FUEL/BATTERY GAUGE

- Cap incorporates LED battery and LED fuel gauge
- Daylight sensor adjusts LED brightness level
- Fuel gauge illuminates a single green LED when full, from full to $^5/_8$ tank a string of green LEDs, from $^1/_2$ to $^1/_4$ tank amber LEDs, from $^1/_4$ tank red LEDs, and when near empty, a flashing single red LED
- "Empty" fuel level at which the red LED begins flashing can be set by the rider
- Battery gauge shows green LEDs when the charging system is between 12,5V and 14,5V, amber LEDs if the bike is not charging and flashing red LEDs if charging level exceeds 15V or drops below 10V
- The perfect match for Kuryakyn's flush-mount gas cap

PART #	DESCRIPTION
2212-0433	For 94-98 FLHR, 91-98 Dyna (except console-mounted gauges) and 88-94 FXR (except console-mounted gauges)

2212-0628

2212-0629

ALLEY CAT LED FUEL AND BATTERY GAUGES

- Provides a nod toward retro muscle car styling
- Easily monitor voltage and fuel levels with the illuminated multi-colored LEDs that produce a highly visible display and provide the perfect complement to the Kuryakyn Alley Cat Gas Caps PART #s 0703-0711 and 0703-0710, sold separately
- Die-cast aluminum, measure 3" in diameter

FOR 94-98 FLHR, 91-98 DYNA AND 88-94 FXR (EXCEPT CONSOLE MOUNTED GAUGES)

POWER-FLO™ FUEL VALVES

- Substantially higher fuel flow compared to OEM or aftermarket fuel valve
- Necessary for adequate fuel delivery even on stock motorcycles and a must for high performance
- Available for 75-84 (75-85 XL) models with a 22 mm external thread, or 66-74 tanks internally threaded for 3/8" NPT
- Adapter nut included on 22 mm threaded valves

NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the On, Reserve and Off position of the fuel valve lever.

POWER-FLO™ -6AN FUEL VALVE

DS390285

0705-0058

DS-289141

- Chrome-plated solid brass hex-design petcock features a -6AN outlet
- For use with S&S E and G series carbs
- Fitting sold separately

PART #	DESCRIPTION
DS390285	For tanks w/ 22 mm external threads
0705-0058	For tanks w/ 3/8" NPT fittings
DS-289141	-6AN fuel fitting

PINGEL® Since 1967

POWER-FLO FUEL VALVE WITH 1/4" NPT INLET

- Hex design with a polished aluminum finish
- Universal configuration – can be used in almost any tank location
- Can be installed with the hose barb pointing in any direction that leaves the On/Res/Off lever accessible

PART #	DESCRIPTION
0705-0098	1/4" NPT, 180° outlet facing inward

All part numbers in BLUE are new for the OldBook.

PINGEL Since 1967

Pass More Gas®

IN-LINE CUSTOM FUEL VALVE

- Designed with the bike builder in mind
- Eliminates the need to worry about fuel valve location
- Simple on/off valve without reserve or filter

PART #	DESCRIPTION
0705-0032	In-line fuel valve

Pass More Gas®

CHOPPER VALVE

- Designed for use on bikes with custom fuel tanks that are raised high in front, which doesn't allow proper fuel pickup with a standard reserve fuel valve
- Keeps the bottom of the tank clean from fuel lines, giving universal options for mounting the fuel valve with mounting holes on the back of the valve
- Smooth, clean lines with a compact design that measures 50 mm (2") L x 38 mm ($1^1/_2$") H x 35 mm ($1^3/_8$") D
- Easy-to-operate position selector knob with a ball detent for positive on/off/reserve locating
- Two $^5/_{16}$" hose inlets with one $^5/_{16}$" hose outlet
- Requires two hoses to be routed from the tank: one for on and one for reserve
- Provides exceptional fuel flow to feed the thirstiest big-inch motors
- CNC-machined from billet brass, polished and chromed

PART #	DESCRIPTION
0705-0042	Chopper valve

Pass More Gas®

HIGH-FLOW FUEL VALVE WITH CUSTOM ROUND KNOB

- Custom knob features a detent for positive "on" position with ball-milled grooves that gives the valve a nice grip and a custom look
- Substantially higher fuel flow than OEM or aftermarket fuel valves
- Very universal; will work in any tank location
- Valve features a brass body with show-quality chrome plating
- Easy-to-read on, off and reserve positions

PART #	DESCRIPTION
0705-0033	22 mm round; 180° outlet facing inward

Pass More Gas®

VACUUM FUEL VALVES

- Has the highest fuel flow of any vacuum-style fuel valve on the market
- The same feature as OEM vacuum fuel valves – when valve is left in the "on" position with the motor off, fuel flow is shut off automatically
- High-quality, lustrous chrome finish is the same as Pingel's Power-Flo line of fuel valves
- Fits all 94-99 stock applications with 22 mm external thread
- Will also fit 84-93 models if a vacuum source is tapped
- Outlet is a single $^5/_{16}$" hose barb and will accept the stock vacuum line

NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the Reserve position of the fuel valve lever.

PART #	DESCRIPTION
HEX STYLE	
2107-0002	Left side mount, outlet facing forward; or right side mount, outlet facing back

0705-0085	Universal configuration, outlet facing down

POSITIVE OFF DETENT FUEL VALVES

- Round detent valve with levers with positive stops for the On and Reserve and a detent for the Off in the center position
- Valve features a brass body with show-quality chrome-plating
- Substantially higher fuel flow compared to OEM or aftermarket fuel valve
- 22 mm adapter nut included

NOTE: All descriptions are made from a left-side seated position on the motorcycle with a reference from outlet position to the OFF position of the fuel valve lever.

FUEL VALVE REBUILD KIT

- Designed to rebuild Pingel 3/8" NPT and 22 mm single-outlet valves
- PART #DS-390225 includes all the special tools necessary, photos, instructions and enough components to rebuild three fuel valves
- PART #DS-390226 includes enough components to rebuild five fuel valves; does not include any of the tools
- A bench vise or press with a 6 1/2" or larger opening is necessary for installing a rebuild kit

NOTE: These kits are not designed for hose outlet down, dual or triple outlets, 1/4" NPT or race valves. Pingel recommends these valves be sent directly to them for rebuilding.

PART #	DESCRIPTION
DS-390225	Fuel valve rebuild kit, complete

PART #	DESCRIPTION
DS-390226	Fuel valve rebuild components only

GOLAN PRODUCTS, INC.

"CLICK-SLICK" PETCOCKS

- Manufactured from 360 brass and stainless steel ball-bearings and components; available in either a chrome, black or raw brass finish
- Features detents for quick, effortless switching from "On" to "Reserve" to "Off"
- 90° movement between each detent ensures positive transition when riding
- Stainless steel internal ball bearings provide virtually friction-free petcock handle motion
- Valve position firmly held in place and unaffected by vibration
- Can be modified to fit custom tanks and/or be set to determine amount of reserve gas available with any custom gas tank

PART #	DESCRIPTION

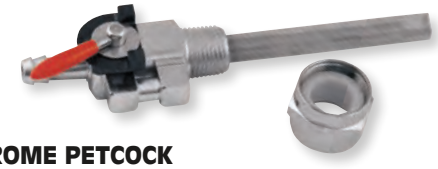
BRITISH-STYLE FUEL PETCOCKS

EMGO

- Faithful reproductions of British-style "ON/OFF" petcocks
- Threads into 1/4" NPT tank fitting and utilizes a lock nut to keep petcock in position
- Has 1/4" NPT outlet threads
- Chrome finish; sold each

PART #	DESCRIPTION
STANDARD PETCOCK W/ TUBE	
0705-0147	With position indicator
0705-0149	With reserve tube and filter
RESERVE PETCOCK W/O TUBE	
0705-0148	With straight-through filter
0705-0150	With position indicator and straight-through filter



ACCEL

HIGH-FLOW CHROME PETCOCK

- Features on, off and reserve with an easy-to-use knob, 15/16" barbed fuel outlet and a fine wire-mesh screen
- Valve has 3/8" NPT threads and comes with the 3/8" NPT to 7/8" adapter nut
- Fits all fuel tanks with 22 mm outlet
- Features a 100 micron fuel screen

PART #	DESCRIPTION
5105	Accel high-flow petcock w/ nut

PINGEL Since 1967

BIG TWIN VALVE ADAPTER

- Offers better fuel flow and retains the stock crossover connection of your 35-65 style Harley-Davidson® split fuel tanks
- Don't let the stock fuel valve be the main jet — the stock fuel valve setup simply cannot support the fuel demands of today's high-performance engine
- Stainless steel gas tank adapter and any 22 mm threaded Pingel Power-Flo or Guzzler fuel valve (sold separately) will drastically improve your fuel supply

PART #	DESCRIPTION
0705-0053	Valve adapter

Colony Where Excellence Is a Standard

GAS TANK SHUT OFF VALVE EXTENSION KNOB

- Beautifully chrome-plated accessory
- Allows easier operation of shut-off valve

PART #	DESCRIPTION
2401-0479	For 40-65 Big Twin

ACCEL

HIGH-FLOW FUEL VALVE WITH SWIVEL SPIGOT

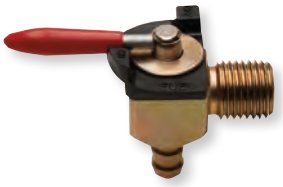
- Chrome fuel valve from Accel is designed to replace all right, left and rear spigot applications
- Unique design that incorporates a banjo-type spigot with a 180° swivel onto a high-flow fuel valve with a 22 mm nut
- 5/16" fuel outlet nipple
- Features a 100 micron fuel screen

NOTE: Won't fit 3/8" NPT thread tanks.

PART #	DESCRIPTION
5106	High-flow fuel valve w/ swivel spigot

0705-0126

0705-0128

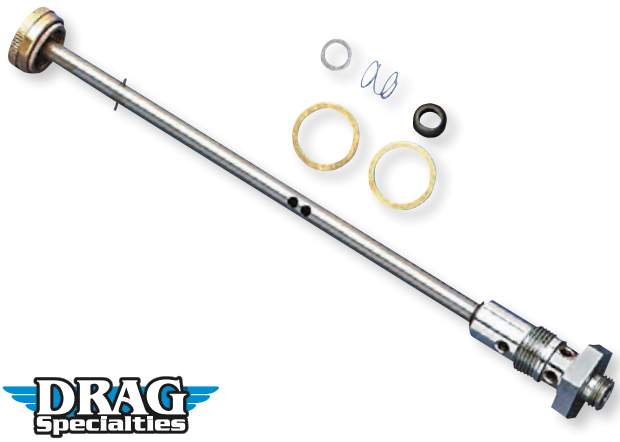


Motion Pro

FUEL VALVES

- Feature 1/4" NPT pipe thread on one end and a 1/4" barb on the other
- Available with straight or with 90° outlet
- Rugged steel construction with zinc plating
- Viton® O-ring stands up to most commonly used fuels

PART#	DESCRIPTION
0705-0126	Straight outlet
0705-0128	90° outlet



DRAG Specialties

GAS VALVE

- Shut-off rod and seat assembly; features a left tank reserve

NOTE: Fits earlier models if Linkert gas line is changed to 48-65 style.

PART #	DESCRIPTION
DS-390205	For 48-65 Panhead; repl. OEM #62033-41

Colony Where Excellence Is a Standard

GAS VALVE FITTING KIT

- Chrome-plated valve fitting kit is designed to use flexible hoses

NOTE: Not for Linkert carb.

PART #	DESCRIPTION
DS-193807	For 36-65 Big Twin

All part numbers in BLUE are new for the OldBook.

FUEL PUMP FOR FUEL-INJECTED CUSTOM BIKES

- Pump can be mounted in nearly any tank
- Hollow mounting bolts secure the pump flange to the bottom of the tank and provide an outlet for wiring and pressurized fuel
- In-tank fiber filter prevents contaminants from damaging the pump or clogging fuel injectors
- Kit contains pump, in-tank filter, inlet hose, mounting hardware and instructions
- Pump specifications: 58 psi, 12,0 gal/hr, 5A draw

PART #	DESCRIPTION
1009-0007	Fuel-injected fuel pump for custom applications

FUEL PUMP MODULE REBUILD KIT

- Comes ready for plug-and-play installation
- Economical solution for restoring lost performance or non-performing fuel pump
- Includes all necessary components to rebuild the OEM EFI fuel pump module
- Includes necessary pump, filter, hose(s), clamp(s) and wiring harness as necessary per model

PART #	DESCRIPTION
1009-0077	For 95-98 FLT/FLHT/FLTR/FLHR

SEAL FOR FUEL PUMP DOOR

- Meets or exceeds OEM specifications
- Replacement screws available separately
- Sold each

PART #	DESCRIPTION
0701-0663	For 95-98 FLT/FLHT/FLTR/FLHR; repl. OEM #61326-95

FUEL TANK OUTLET PLUG

- Use to plug the outlet on fuel tanks that use either the fuel-injection or petcock adapter
- Also for use on aftermarket fuel tanks that have dual fuel outlets, but only one is required for use
- Includes O-ring seal
- Fits OEM and aftermarket fuel tanks that accept petcock adapter OEM #62842-00 (Drag PART #0705-0024)

PART #	DESCRIPTION
0705-0054	Polished chrome

TANK FITTING KIT FOR FUEL-INJECTION TO CARBURETOR CONVERSION

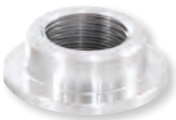
- Use when converting from OEM fuel-injection systems to use a carburetor in order to deliver adequate fuel for large-displacement engines
- Kit replaces the factory tank fittings, allowing the use of a high-quality, high-flow Pingel fuel valve to feed the carburetor
- Made of stainless steel
- Kits include adapter and plug or adapter only with O-rings or gaskets
- See Pingel fuel valves on pages 974-976

NOTE: Due to tight tolerances in the tank fittings, a Pingel fuel valve is the only one that will fit.

PART #	DESCRIPTION
0705-0030	For 95-98 FLT/FLHT models w/ Magneti Marelli EFI (adapter and plug); for use w/ any Pingel 22 mm valve

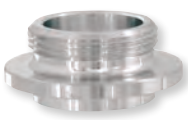
PETCOCK BUNGS

0705-0039



0705-0040

0705-0034



0705-0035

- Weld-on tank bungs are available in 22 mm male (stock on Harley-Davidson carbureted fuel tanks after 1975) or $^{3}/_{8}$" NPT female (stock on pre-1975 Harley-Davidson fuel tanks)
- Designed to be welded directly to the fuel tank
- Great for custom tanks or repairing stock tanks
- Sold each

PART #	DESCRIPTION
$^{3}/_{8}$" NPT	
0705-0039	Stainless steel
0705-0040	Aluminum

PART #	DESCRIPTION
22 MM	
0705-0034	Stainless steel
0705-0035	Aluminum

WELDLESS TANK BUNG

- Use when an alternative fuel source is needed, like when installing a nitrous oxide "wet" kit on fuel-injected motorcycles or as a fitting for an oil tank
- Requires a $^{9}/_{16}$" hole for mounting; will work with any tank up to $^{5}/_{8}$" wall thickness
- $^{1}/_{8}$" NPT internal thread size for hose barb
- CNC-machined from billet aluminum; includes a high-quality Viton® O-ring for a positive seal, a stainless steel nut and washer and an 80 micron filter

PART #	DESCRIPTION
0705-0043	Weldless tank bung

All part numbers in BLUE are new for the OldBook.

PINGEL Since 1967 — Pass More Gas®

IN-LINE FUEL FILTERS

- Filters have a high-quality O-ring for a leak-proof seal
- Cleanable, reusable 40 micron filter element
- $1^{3}/_{16}$" body length; $1^{1}/_{8}$" OD
- Works great with Pingel's high-volume fuel valves

PART #	DESCRIPTION
0707-0005	$^{3}/_{8}$" aluminum machined satin finish fuel filter (ea.)
0707-0006	$^{3}/_{8}$" aluminum chrome finish fuel filter (ea.)

FUEL FILTER

- OEM-style replacement fuel filter
- Essential to keep bikes running in top condition

PART #	DESCRIPTION
0707-0013	For 95-98 FLT/FLHT/FLHR/FLTR w/ Magnetti Marelli EFI; repl OEM #61343-95

0706-0024

STERLING CHROMITE® II FUEL TANK CROSS-OVER LINES

- The industry's highest quality braid to complement your bike
- Sterling Chromite® II uses technology to look like chrome
- Braid color and weave matches on all MAGNUM control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- All fittings are polished and chrome-plated
- Inner construction of PTFE tubing is not affected by any fuels including ones containing Ethanol
- Complete compression style line assemblies
- Two sizes of Viton® rubber seals are included in each kit

PART #	FITS MODEL	LENGTH INCLUDING FITTINGS
0706-0027	For 97-98 FLT/FLHT/FLHR	24 cm (9 1/2")
0706-0024	For 86-99 Softail	29 cm (11 1/2")

0706-0007

FUEL TANK CROSSOVER LINES

- Replaces the stock rubber lower crossover lines with stainless steel lines
- Seals with compression fittings for a positive seal

PART #	DESCRIPTION
CROSSOVER LINES	
0706-0007	For 97-98 FLT/FLHT models
0706-0006	For 86-99 FXST/FLST models
0706-0003	For 93-98 Dyna models

All part numbers in BLUE are new for the OldBook.

DS-096648

RUSSELL

FUEL LINE CROSSOVERS

- Braided stainless steel hose features 7,9 mm (5/16") ID for maximum fuel flow
- Attaches to crossover tubes with compression fittings for a positive seal – no more worm gear clamps

PART #	DESCRIPTION
0706-0011	For 86-99 FXST/FLST; 27,5 cm (10 3/4")

PART #	DESCRIPTION
DS-096648	Universal stainless steel crossover fuel line (not for FXR and Dyna) for 6 mm outlets (1/4") outlets; 29 cm (11 1/2")

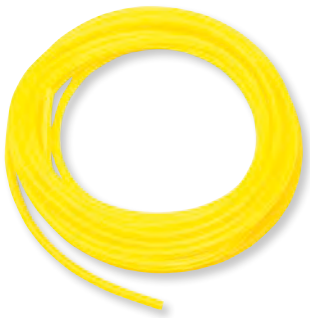
LP (LOW PERMEATION) PREMIUM FUEL LINE

- Certified to meet permeation emission standards of 15g/M2/day
- On emission-controlled vehicles, check with local and state agencies to determine suitability
- Robust multi-layer design and construction
- Fluoropolymer liner compatible with higher ethanol-blend gasoline up to 100%
- Highly flexible, easy to install and offers excellent fitting retention
- Resistant to swelling, hardening and cracking caused by hydrocarbon-based fluids
- Ozone and UV light resistant



- Wide temperature range from -28,9 °C to 73,9 °C (-20 °F to 165 °F)
- Yellow color for easy identification
- Use Stepless® Clamps

WARNING: Not for use with fuel injected engines.

DS-350145-PK	1/4"-20 threaded studs and steel side plates; for mounting battery boxes and oil tanks (5-pk.); repl. OEM #62563-65

PRO PERFORMANCE PRODUCTS

OIL TANK MOUNT STUD COVERS

- Fit the rubber mounts on Softail 89-99 oil tanks
- Show-chrome plated
- Sold in pairs

PART #	DESCRIPTION
0710-0165	For 89-99 Softails

WARNING: ALL TANKS ARE SHIPPED UNPAINTED. CAPS ARE NOT INCLUDED UNLESS NOTED. ALL GAS TANKS SHOULD BE FITTED, PRESSURE-TESTED AND SEALED BEFORE BEING PAINTED TO ELIMINATE POTENTIAL PROBLEMS.

All part numbers in BLUE are new for the OldBook.

OIL TANK BRACKET SET

- Replace the dull front and rear oil tank bracket on your late-model Softail with these chrome brackets

NOTE: Rear bracket requires $^{5}/_{16}$"-24 x $^{5}/_{8}$" bolts to mount on 93-99 models.

PART #	DESCRIPTION
DS-310255	For 84-99 Softail models; repl. OEM #62704-84, 62707-84

ENGINE OIL SPOUT KITS

- New Radium engine oil spout kits are CNC-machined from 6061-T6 billet aluminum and have a thread-in one-piece dipstick which eliminates dipstick blowout on acceleration
- Custom oil spout design allows the use of any starter (that will clear your Touring frame) as well as any style bearing door and side cover on the market
- A must-have item for aftermarket hydraulic side covers, doors and actuators
- Instructions included

PART #	DESCRIPTION
FOR 93-98 FLHT/FLHR/FLTR MODELS	
0710-0253	Chrome

PART #	DESCRIPTION
FOR 93-98 FLHT/FLHR/FLTR MODELS (CONT)	
0710-0256	Black

OIL DIPSTICKS

- Billet machined aluminum with a chrome finish
- Caps feature knurled edges to allow a good grip
- Plastic dipsticks have all required markings
- Come with sealing gaskets

PART #	DESCRIPTION
0710-0001	For 91-98 FXD, 93-98 FXDWG; repl. OEM #62685-95A
0710-0002	For 93-98 FLT/FLHT; repl. OEM #s 62640-93, 62607-93

CUSTOM OIL DIPSTICK

- Exact replacement for OEM dipstick
- Includes the swiveling dipstick
- Chrome-plated with clean "peaked" design caps

PART #	DESCRIPTION
0710-0146	For 84-99 Softail models

CUSTOM OIL TANK PLUG

- Features a 51 mm (2") billet aluminum cap with a peaked design
- Chrome finish with a knurled edge for easy removal
- 1,3" diameter rubber plug fits most 1,25" ID filler necks

PART #	DESCRIPTION
0710-0116	For 84-99 Softail models

BRASS PUSH-IN OIL TANK PLUG

- Plug cap made from sheets of solid brass, not brass-plated; drawn, formed and polished to a bright finish

PART #	DESCRIPTION
0710-0147	For 84-99 FLST/FXST models ($1^{1}/_{4}$" ID filler neck)

All part numbers in BLUE are new for the OldBook.

GOODRIDGE
FLUID TRANSFER SYSTEMS

REUSABLE BUILD YOUR OWN OIL LINES AND -6 COMPONENTS

- Easy-to-assemble high-quality oil lines and fittings
- Feature stainless steel braided hose with PTFE inner liner or black textile braided hose
- PTFE liner is an inert material, compatible with all oils and hydraulic fluids, has a heat range of -106 °C to 260 °C (-158 °F to 500 °F) and shields oil systems from moisture, unlike other materials like nylon
- Fittings meet 96-hour salt spray testing and ship complete with sealing ferrule

RUSSELL

UNIVERSAL BRAIDED HOSE AND FITTINGS

- Proflex hose features traditional stainless steel braided outer jacket with Russell's race-proven CPE synthetic rubber inner liner
- Pro classic hose utilizes a black nylon fabric outer braid over Russell's proven SPE synthetic rubber inner liner
- Superior construction enhances bend radius, yet will not collapse under extreme heat
- Ideal for street use or full competition
- Lightweight and easy to work with
- Simplifies routing, cutting and assembly
- Has a great bend radius with a max pressure rating of 350 psi
- Engineered to work with Russell full-flow hose aluminum hose ends in straight 45- and 90° in AN -6 or -8 sizes

PRO PERFORMANCE PRODUCTS

SLIMLINE BILLET OIL FILTER MOUNT

- 1/2"-thick billet aluminum mount with 3/8" external fittings
- Available in chrome
- Provide a low-cost, slim oil filter mount

PART #	DESCRIPTION
0712-0035	For 92-99 Evolution Big Twin

PROVEN S&S PERFORMANCE

OIL FILTER MOUNTING BRACKET KIT

- Polished billet oil filter mounting bracket
- No voids or other casting defects in the material to cause leaks
- Position of the filter has been shifted slightly to give additional clearance between the filter body and the crankcase for easier filter installation and removal
- Also machined to make it easy to install an oil cooler in the pressure-side of the system; if a cooler is not needed, simply install the pipe plugs in the threaded holes in the filter bracket, instead of the hose fittings

PART #	DESCRIPTION

OIL FILTERS

- Sturdy steel canister houses the finest filtering media and internal components available
- Canister is slightly smaller in diameter than stock filters to make them easier to remove and install; include O-rings
- Designed with a direct bypass valve that routes bypass oil directly to the filter exit, which minimizes the amount of contaminants carried to the engine in the unfiltered bypass oil
- The nominal particle capture size is smaller than that of stock filters while the resistance to oil flow is nearly the same
- Sold individually or in packs of 12
- Available in black or chrome finish

PERFORMANCE OIL FILTERS

- K&N delivers a premium oil filter which is built with a synthetic media specifically designed to withstand the high concentrates of synthetic racing oils
- A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth
- Uniform pleated synthetic filter media provides high capacity and outstanding filtration
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Protected by a heavy-duty canister and base plate, with a double-rolled seal
- Check-valve/anti-drain back valve prevents drain-back and dry starts (where applicable)
- Pre-lubed base gasket
- 17 mm hex nut (pre-drilled for safety wire security) allows easy-on, wrench-off removal (where applicable)

OIL FILTERS

- The original Hiflofiltro factory was founded in 1955 and has been manufacturing filters for the OEM motor industry since 1963
- With the experience of more than five decades, constant research and development and featuring a completely modern production facility, Hiflofiltro offers some of the best quality filters in the world
- TÜV approved and production monitored to ensure OEM or better quality
- Constructed using the best materials available
- One of the broadest ranges of aftermarket coverage

PERFORMANCE OIL FILTERS

- Heavy-duty steel casing features a pre-drilled welded hex nut for easy removal and installation
- Performance filters feature premium high-flow tri-fiber filtration media which stops more contaminants from reaching critical engine components
- Racing technology that is engineered for everyday use and standard service intervals
- Fully compatible with all oil types

Jagg Oil Coolers

HYPERFLOW LIFETIME OIL FILTER

0712-0555

- Precision CNC-machined billet aluminum body
- Knurled non-slip grip surface
- 30 micron absolute filtration
- Cleanable/reusable surgical-grade stainless steel woven filter element
- Disassembles without tools for easy inspection and cleaning
- Extreme flow volume greatly exceeds OEM filters
- Built-in rare-earth magnet

PART #	DESCRIPTION
0712-0555	For all H-D models w/ front-mount spin-on oil filters (3/4"-16 thread)
0712-0556	Service kit

PC Racing

FLO® STAINLESS STEEL "DROP-IN" OIL FILTER

- Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases
- Stainless filter catches items down to 35 microns, which is about three times better than most good paper or brass filters
- Unlike glued paper filters, the FLO® Oil Filter pleat seam is welded and able to withstand up to 600 °F
- Filter maintains consistent flow under all conditions including extreme heat, the presence of water, and cold start ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter the engine
- High-tech filter technology is widely used in all types of auto racing including NASCAR, Indy-type cars, Formula 1 and in the aerospace industry where filtration is of the utmost importance

PART #	DESCRIPTION
0712-0459	For 65-82 Big Twin, 57-78 XL; repl. OEM #63840-53

OIL COOLER KITS

PRO PERFORMANCE PRODUCTS

- CNC-machined from billet aluminum with a chrome-plated or black finish
- Kits mount to frame tubes with supplied clamps and reducers
- Available with or without a temperature gauge
- Come with AN #6 fittings (use with -6 lines found in most speed shops)
- If using standard 3/8" hose, use breather fittings PART #DS-245263 (sold separately)
- Measure 12" L x 2,25" diameter
- Replacement clamps available separately

0713-0075

0713-0051

NOTE: Twin Cam models require an oil filter adapter or offset mount w/ oil line fittings.

VERTICAL FRAME-MOUNT OIL COOLER KITS

Installation time measured in minutes

Extra riding time measured in years

- Cooler oil makes engines last longer – simple as that!
- Jagg oil coolers feature cutting-edge technology to keep your engine cool under the most punishing conditions
- And because they're designed to look as good as they perform, they'll perfectly complement your bike's style
- Hoses and clamps are included with oil cooler kits

Engineered to perform

- Multipass oil flow configuration ensures the oil's utilization of the entire oil cooler
- Specially designed turbulators in each oil passageway gently stir oil, exposing it to more critical heat dissipation surface area for superior cooling with minimal oil pressure restriction
- Highly concentrated mini-louvered air fins allow maximum heat transfer

NOTE: Vertical oil coolers do not fit touring models with lower fairings.

NOTE: Ten-row coolers are recommended for 95" and larger motors.

PART #	DESCRIPTION
FOR 84-98 TOURING, 84-99 SOFTAIL, 91-98 DYNA	
0713-0110	Deluxe 6-row

0713-0114	WideLine Chrome 10-row

VERTICAL FRAME-MOUNT FAN-ASSISTED KIT

- Features the Jagg high-performance 10-row oil cooler kit with an integrated fan
- Designed to perform as well at low vehicle speeds and stop-and-go traffic as on the open highway
- Kit includes cooler, sealed-motor fan, oil hose, mounting hardware, automatic thermal fan switch wiring harness and Jagg offset oil filter adapter

- Fan turns on automatically at approximately 96 °C (205 °F)
- Fan pulls a full 150 cfm of air across cooler
- HyperFlow technology ensures unsurpassed flow and heat rejection

PART #	DESCRIPTION
0713-0123	For 84-98 Dresser, 84-99 Softail and 91-98 Dyna

All part numbers in **BLUE** are new for the OldBook.

OIL FILTER ADAPTERS WITH THERMOSTAT

- Automatic thermostatic oil bypass valve allows oil to bypass the oil cooler until reaching operating temperature for faster vehicle warmup times
- Flows oil through the filter first, for better flow
- Stock-to-Jagg oil filter nipple is required when converting from stock H-D oil filter adapters to Jagg oil filter adapters; available separately
- Required for oil cooler installation on Twin Cam models
- Optional anti-rotation device for PART #0713-0031 bolts to face of offset oil filter adapter to lock in place during future oil filter removals; available separately
- Service kit for PART #0713-0031 includes new thermostat element assembly, AFM gasket and large O-ring
- Service kit for PART #0713-0145 includes two replacement quad-seal O-rings

0713-0145	Oil filter adapter
0713-0217	Service kit for PART #0713-0145

OIL FILTER ADAPTER

- Installs between the oil filter landing and the oil filter for easy oil supply access for installing an oil cooler (not included)
- Machined from anodized billet aluminum
- Flows oil through oil cooler full-time, with no oil bypass
- Sweeping internal flow passages produce optimal flow characteristics
- ProLine swivel fittings for easy oil plumbing
- HyperFlow technology balances performance and flow
- NPT port and plug for optional installation of sending unit or switch

PART #	DESCRIPTION
0713-0253	For 92-99 Evolution Big Twin (carb), L84-85 XL models w/ front-mount spin-on oil filters

0713-0215

MANUAL OIL BYPASS VALVE

- Acts as a manual thermostat, allowing you to bypass the oil cooling system for cold-weather riding or for faster warm-ups on cool days
- Durable anodized billet aluminum construction
- Knurled grip knob
- Works with all oil coolers
- Compact in-line installation
- Service kit contains replacement O-rings, snap-ring retaining clip for manual bypass knob and spare decal

NOTE: If oil hoses between the oil cooler and the oil source are too short, the oil cooler bypass valve may not fit in the oil lines. Jagg bypass valves require at least 76 mm (3") of straight hose.

PART #	DESCRIPTION
0713-0215	Manual oil bypass valve

MVX-8K SERIES ANALOG/DIGITAL PLUG-IN INSTRUMENTATION

- Whether installing a six-gauge set, or building your perfect gauge set from Dakota Digital's optional gauges, you will get all seven gauge readings displayed in the speedometer and tachometer LCD readouts (speed, rpm, volts, fuel, oil pressure, oil temp and air temp), as well as miles-to-empty and performance readouts (0-60 time, and quarter-mile speed and time)
- Personalize the gauge set by programming the pointer, backlight and LCD message center colors independently
- Six-gauge kits include speedometer, tachometer, oil pressure, oil temperature, fuel level and voltmeter
- Two-gauge kits include speedometer and tachometer (will display other gauge readouts in odometer)
- Optional fuel level gauges, oil pressure gauges, oil temperature gauges and voltmeter can only be used with MVX six- and two-gauge kits; they will not work alone
- Seven user-selectable LED lighting colors available for background, message and pointer: red, green, blue, teal, magenta, amber or white
- Chrome or black bezels available

MVX-8K SERIES ANALOG/ DIGITAL PLUG-IN INSTRUMENTATION continued on next page.

MVX SERIES ANALOG GAUGE SYSTEMS

- Has 140 mph speedometer, tachometer, odometer, dual resettable trip meters and full indicator light complement (turn signal, high beam, neutral, low oil pressure) in one stylish gauge
- Features seven user-selectable colors for pointer, backlight and LCD message center (red, green, blue, teal, magenta, amber or white)
- Two different face options available: black with gray accents and white with gray accents
- 8000 rpm tachometer has adjustable shift point and can display in digital numeric readout
- Resettable miles-to-service with a warning (user settable countdown) and hour meter
- Clock function (12-hour format)
- Voltage readout with low-voltage alert
- Cylinder head temperature sensor (if bike is equipped with factory sender unit)
- Oil pressure warning light (sold separately, PART #2212-0513 or DS-250019)
- Seven-speed gear position indicator, compatible with 3- to 7-speed transmissions
- Security system indicator
- Automatic turn signal cancelling compatible
- Wait to start/check engine light function
- Can perform performance calculations such as 0-60 time, top speed and peak rpm recall, $^1/_4$-mile time and speed
- Wiring installation is cut/splice; not a direct plug-in gauge
- Case diameter measures $4^1/_4$" and bezel diameter of $4^5/_8$"

PART #	DESCRIPTION
FOR 96-98 FLHR AND FXDWG, 96-99 FXST/FLST	
2210-0379	Black/gray/chrome
2210-0380	Black/gray/black

5000 SERIES HANDLEBAR-MOUNTED DIGITAL SPEEDOMETERS

- High-brightness readout is easy to read, even in direct sunlight
- Adjustable 0-255 mph/km/h speedometer with odometer and trip meter
- Features indicators for turn signals, high-beam, neutral, low oil pressure and check engine
- Sending units and mounting brackets available separately for use with electronic or cable drive systems; handlebar clamp mounts for American IronHorse motorcycles allow gauges to be mounted above or below handlebars and include wiring harness that plugs directly into stock wiring

2210-0014

2210-0015

PART #	DESCRIPTION
CHROME SPEEDOMETERS	
2210-0073	Wave; 2" H x 4,25" W
2210-0074	Spike; 2" H x 4,5" W
2210-0075	Classic; 2" H x 3,5" W
BLACK SPEEDOMETERS	
2210-0191	Wave; 2" H x 4,25" W
2210-0192	Spike; 2" H x 4,5" W
2210-0190	Classic; 2" H x 3,5" W
CHROME SPEEDOMETER MOUNTS	
DS-373895	Clamp mount for $1^1/_4$" T-bar/riser-style handlebars (can mount above or below handlebars)
DS-373896	Clamp mount for $1^1/_2$" T-bar/riser-style handlebars (can mount above or below handlebars)
DS-373872	Flat 1" handlebar clamp mount for pullback risers
DS-373873	35° 1" handlebar clamp mount for straight risers
2210-0117	Handlebar clamp mount for 02-04 American IronHorse models with T-bar (includes wiring harness)
2210-0118	Handlebar clamp mount for 05-06 American IronHorse models with V-bars (includes wiring harness)

PART #	DESCRIPTION
CHROME SPEEDOMETER MOUNTS (CONT)	
DS250035	Gauge mount for 1" risers
2212-0090	Gauge mount for $1^1/_4$" risers
BLACK SPEEDOMETER MOUNTS	
2210-0184	Flat 1" handlebar clamp mount for pullback risers
2210-0183	35° 1" handlebar clamp mount for straight risers
ADAPTERS, SENSORS AND SENDING UNITS	
2210-0012	36" extension cable for 00-03 OEM electronic transmission sensor
2210-0013	Pickup sensor, repl. OEM electronic 5-speed transmission sensor
2210-0014	Rear wheel pickup sensor for Softail and rigid applications ($1^1/_8$" ID)
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses $^5/_8$"-18 thread)
2210-0015	Universal inductive sender (reads the transmission gear teeth or steel rear sprocket)

4000 SERIES MINI GAUGES

- $1^7/_8$" diameter gauges are the smallest in the line
- High-brightness blue or red digital display
- 0-255 mph, adjustable speedometer features odometer and resettable trip odometer; speedometer is also available with km/h display
- Tachometer has a 0-18.000 rpm range and has a 10 rpm resolution under 10.000 rpm and 100 resolution over 10.000; features high-rpm recall and is adjustable from one to 15 cylinders
- Housing is $1^3/_8$" D with $2^1/_{16}$" OD bezel
- Available with retro-style bezels

3015 MODEL SPEEDOMETER/TACHOMETER

- High-brightness, vacuum fluorescent graphic display technology
- Includes turn signal, high beam, low oil, neutral and engine indicator lights (found on fuel-injected bikes)
- Speedometer is easily recalibrated for any gearing and tire size combination
- Includes an odometer with resettable trip meter
- Selectable displays allow the rider to choose between speedometer only, speedometer with odometer and trip meter, or speedometer with bar/graph tachometer
- Tachometer offers an adjustable shift point warning; calibration adjusts easily for any combination of one to 15 cylinders without using coils
- Features high beam, turn signal, neutral and low oil pressure indicators
- Automatic turn signal canceling compatible
- Displays "check engine" and "wait to start" lights
- Compact $2^{1}/_{16}$" diameter gauge is only 1" deep; machined aluminum housing with chrome front bezel and scratch-resistant, no-glare lens
- Sending units, adapters and mounting brackets available separately for use with either electronic or cable drive systems – OEM electronic speedometer sensor cable plugs directly into the back of gauge if desired
- Order mounting cups and brackets below, available separately

PART #	DESCRIPTION
ELECTRONIC SPEEDOMETER/TACHOMETER	
2210-0010	$2^{1}/_{16}$" dia.
GAUGE CUPS AND HANDLEBAR MOUNTING CLAMPS	
2210-0016	Chrome gauge cup for $2^{1}/_{16}$" gauge
2212-0100	Raw gauge cup for $2^{1}/_{16}$" gauge
2210-0018	1" handlebar clamp for gauge cup
2210-0020	$1^{1}/_{2}$" handlebar clamp for gauge cup

PART #	DESCRIPTION
ADAPTERS AND SENDING UNITS	
2210-0012	36" extension cable for 96-98 OEM electronic transmission sensor
2210-0013	Pickup sensor, repl. OEM electronic transmission sensor
2210-0014	Rear wheel pickup sensor for Softail and rigid applications ($1^{1}/_{8}$" ID)
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses $^{5}/_{8}$"-18 thread)
2210-0015	Universal inductive sender (reads the transmission gear teeth or steel rear sprocket)

2210-0148

2210-0149

BIG DOG DIRECT PLUG-IN SPEEDOMETER

- Upgrade the analog speedometer to digital while retaining use of the factory tachometer and indicator lights; fits inside factory tach ring and housing and plugs directly into factory wiring harness
- High-brightness readout with automatic nighttime dimmer
- Features LED display
- Adjustable 0-199 mph/km/h speedometer
- Odometer with two resettable trip meters
- Stores and displays high-speed recall, high-rpm recall, 0-60 time, $^{1}/_{4}$-mile time and $^{1}/_{4}$-mile speed

PART #	DESCRIPTION
FOR BIG DOG MODELS WITH FACTORY TACH RING	
2210-0148	Blue LED

3000 SERIES DIGITAL INSTRUMENTS

- High-quality digital instruments that offer stable, accurate and easy-to-view readings
- Teal display offers high-contrast visibility, even in sunlight
- All gauges have machined aluminum housings, chrome front bezels and non-glare, scratch-resistant lenses

SPEEDOMETERS

- Push-button calibration
- Odometer has resettable trip meter
- 3011 model is an adjustable 199 mph speedometer that calibrates to almost any gearing and tire size combination; easy push-button calibration
- Displays speed in numeric and bar graph form
- Odometer has two resettable trip meters and a miles-to-service meter with warning
- Features turn signal, low oil, high-beam and neutral indicators
- Performs calculations and displays high-speed recall, 0-60 timer and 1/4-mile time and speed
- Automatic turn signal canceling compatible

SPEEDOMETER/TACHOMETER

- Adjustable 255 mph speedometer calibrates easily to almost any gearing and tire size combination; push-button calibration
- Tachometer displays as bar graph and features an adjustable shift point warning
- Tachometer calibration is easily adjusted for combinations of one to 15 cylinders without using coils
- Odometer has two resettable trip meters, an hour meter and miles-to-service meter with warning
- Features turn signal, neutral, low oil pressure, low voltage, high beam and security indicators
- Performs calculations and displays high-speed recall, high-rpm recall, 0-60 timer and 1/4-mile time and speed
- Displays "check engine" and "wait to start" lights
- Gear position indicator works with 3- to 6-speed transmissions
- Automatic turn signal canceling compatible

TACHOMETERS

- Both models have 0-18.000 rpm range and easily adjust for combinations of one to fifteen cylinders without using coils; push-button calibration
- Works with single- or dual-fire ignitions
- Displays rpm and high-rpm recall
- 3021 model features an adjustable shift point warning and hour meter; when used with 3011 model speedometer, tachometer displays gear position indicator

NOTE: $3^3/_8$" speedometer, speedometer/tachometer and tachometer and $2^1/_{16}$" engine instruments will fit the 96-98 FLTR, FLHT fairing.

PART #	DESCRIPTION
ODYSSEY II SPEEDOMETER	
2210-0038	3011 model $3^3/_8$" speedometer w/ indicators (resolution 1 mph)
2212-0085[1]	Transmission speed sensor for PART #DS-250036
DS-250011	Sending unit for cable drive applications (can be mounted remotely or on speedometer; accepts $^5/_8$"-16 cable nut) for PART #DS-250036
DS250039	Rear wheel inductive sensor for Softail and rigid applications (reads the pulley bolts) for PART #DS-250036
2210-0012	36" extension cable for 96-98 Original Equipment electronic transmission sensor for PART #s 2210-0038 and 2212-0101
2210-0013	Pickup sensor, repl. Original Equipment electronic transmission sensor for PART #s 2210-0038 and 2212-0101
2210-0014	Rear wheel pickup sensor for Softail and rigid applications ($1^1/_8$" ID) for PART #s 2210-0038 and 2212-0101
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses $^5/_8$"-18 thread), for PART #s 2210-0038 and 2212-0101
2210-0015	Universal inductive sender (reads the transmission gear teeth or steel rear sprocket) for PART #s 2210-0038 and 2212-0101
ODYSSEY II SPEEDOMETER/TACHOMETER	
2212-0101[2]	3016 model $3^3/_8$" speedometer/tachometer w/ indicators
ODYSSEY II TACHOMETER	
2211-0027	3021 model $3^3/_8$" tachometer (resolution 100 rpm)
DS250037	3027 model $2^1/_{16}$" tachometer (resolution 10 rpm)
OTHER ODYSSEY II INSTRUMENTS	
2212-0102	$2^1/_{16}$" fuel level, oil pressure, oil temperature and air pressure gauge
DS-250045	Clock w/ ambient air temperature and day of the week and date display
DS250038	Fuel gauge
DS-250027	Voltmeter (range 8-17V, resolution 0,1V)
DS-250028	Oil pressure gauge (range 0-150 psi, resolution 1 psi)
2212-0083	Air pressure gauge (range 0-150 psi, resolution 1 psi)
2212-0008	Oil/air pressure sending unit for PART #s DS-250028, 2212-0083, 2212-0102 and 2212-0084 (range 0-150 psi, resolution 1 psi)
2212-0088	Oil/air pressure sending unit for PART #s DS-250028, 2212-0083, 2212-0102 and 2212-0084 (range 0-75 psi, resolution 1 psi)
DS-250029	Oil temperature gauge (range 0-400 °F, resolution 1 °F)
DS-250019	Oil temperature sending unit for DS-250029 ($^1/_8$" NPT threads)
DS-250030	Cylinder head temperature gauge (range 150-750 °F, resolution 4 °F)
DS-250033	Cylinder head temperature sending unit for PART #DS-250030
GAUGE CUPS AND HANDLEBAR MOUNTING CLAMPS	
2210-0016	Chrome gauge cup for $2^1/_{16}$" gauges
2212-0100	Raw gauge cup for $2^1/_{16}$" gauges
2210-0018	1" handlebar clamp for $2^1/_{16}$" gauge cup
2210-0020	$1^1/_2$" handlebar clamp for $2^1/_{16}$" gauge cup
2212-0148	Chrome gauge cup for $3^3/_8$" gauges
2212-0150	Raw steel gauge cup for $3^3/_8$" gauges
2212-0144	1" handlebar clamp for $3^3/_8$" gauge cup
2212-0145	$1^1/_4$" handlebar clamp for $3^3/_8$" gauge cup
2212-0146	$1^1/_2$" handlebar clamp for $3^3/_8$" gauge cup

[1] For 96-98 OEM Harley-Davidson and aftermarket Big Twin transmissions.
[2] Uses same speed sensors as PART #2210-0038 above.

2212-0535

2212-0536

$2^3/_{16}$" STAND-ALONE LCD GPS COMPASSES

- Designed to be used in place of the 96-98 factory air temperature gauge
- Uses the factory gauge cup and plugs directly into the existing gauge wiring
- LCD readout displays compass heading, air temperature and elevation in eight LED backlit color choices

PART #	DESCRIPTION
FOR 96-98 FLHT/FLTR	
2212-0535	Black/black
2212-0536	Silver/chrome

All part numbers in **BLUE** are new for the OldBook.

2212-0338

2212-0175

AUTO PROGRAMMING GEAR INDICATORS

- Sunlight-visible blue or red display with automatic nighttime dimming
- Displays one to six gears and a neutral indicator
- Simple programming
- Chrome or black-anodized housing with built-in mount
- Includes display, harness and instructions
- Available with handlebar mount (can be mounted above or below handlebars) or fairing flush-mount (clamps into 1,15" hole)

PART #	DESCRIPTION
FOR 1" HANDLEBARS	
2212-0140	Chrome w/ blue display
2212-0338	Black w/ blue display

2000 SERIES "FATBOB" DIGITAL INFORMATION SYSTEM SENSORS, SENDING UNITS AND OPTIONAL BEZEL KIT

- Sensors and sending units for 2000 series "FatBob" digital information system gauges

PART #	DESCRIPTION
FOR 96-99 FXST/FLST AND 96-98 FLHR	
2210-0013	Pickup sensor, repl. OEM electronic transmission sensor
2210-0014	Rear wheel sensor for Softail and rigid belt-drive applications
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread)

PART #	DESCRIPTION
FOR 96-99 FXST/FLST AND 96-98 FLHR (CONT)	
2210-0015	Universal inductive sender (reads teeth on transmission gears or steel rear sprocket)
2212-0088	Oil/air pressure sending unit (range 0-75 psi, resolution 1 psi)
DS-250019	Oil temperature sending unit (1/8" NPT threads)

ELECTRONIC SPEEDOMETER RECALIBRATION MODULE

- Allows for the recalibration of most 95-00 OEM electronic speedometers when changing tire size, pulley or final gearing
- Easy installation – simply plugs in between the pickup sensor and the stock wiring harness
- Allows small step corrections of less than 1 mph
- Correction range of 50% to 200%
- No power required to maintain calibration when the bike is parked
- Two sealed buttons allow easy resetting of the speedometer reading while the bike is in motion
- A must for custom builders using electronic speedometers

PART #	DESCRIPTION
2210-0391	For 96-99 FXST/FLST, 96-98 FLT/FLHT/FLHR, 96-98 FXD/FXDWG

All part numbers in **BLUE** are new for the OldBook.

KOSO® Feel The Speed

XR-SR MULTI-FUNCTION ELECTRONIC SPEEDOMETER

- Easy-to-read, blue-backlit digital display with eight indicator lights
- Display shows speed (mph/km/h), odometer, two trip meters, tachometer (100 rpm resolution), fuel level (10-bar display) and engine temperature
- Adjusts to any engine or tire size
- Keeps record of top speed, max rpm and max temperature
- Indicator lights for neutral, high beam, low beam, hazard lights, turn signals, oil pressure and water temperature
- Gauge measures 2,85" H x 4,57" W x 1,25" D
- Includes gauge bracket, speed sensor with bracket, speed sensor magnet and water temperature sensor
- ABE/TÜV approved

PART #	DESCRIPTION
2210-0119	XR-SR multi-function speedometer

D55 GP-STYLE SPEEDOMETER

- Measures 0-160 km/h
- Also includes an odometer and trip meter
- Tire circumference setting from 0-2999 mm
- Blue backlit with black display
- ABE/TÜV approved

PART #	DESCRIPTION
2210-0375	Black display

TNT TACHOMETER

- Measures 0-10.000 rpm
- Adjustable backlight brightness

PART #	DESCRIPTION
2211-0151	Black

DUAL EGT METER

- Designed for bikes with dual pipe systems
- Display range from 100-1.200 °C
- Features an over-temperature warning setting
- Measures 4,88" W x 2,30" H x 0,87" D

PART #	DESCRIPTION
2404-0616	Dual EGT meter

EGT METER

- Measures temperature between 100-1.200 °C
- Features an over-temperature warning setting
- Backlit LED display
- Attaches to vehicle with hook-and-loop material straps

PART #	DESCRIPTION
2404-0615	EGT meter

All part numbers in BLUE are new for the OldBook.

KOSO Feel The Speed

MINI 3 DUAL TEMPERATURE METER

- Developed with the best components and latest technology
- Monitors engine temperature to keep an eye on overheating
- Engine temperature warning at 120 °C (248 °F) the meter will flash
- Displays ambient temperature to monitor conditions and help you dress properly for the ride
- Compact and lightweight
- Gauge comes complete with two sensors
- Measures 1,2" H x 2,4" W x 0,5" D

PART #	DESCRIPTION
2212-0487	Dual temperature gauge

KOSO Feel The Speed

SUPER SLIM CLOCK/VOLT METER

- 24-hour clock
- Meter flashes if voltage goes higher than 14,0 or lower than 11,0 volts DC
- Effective temperature range between -10 °C - 60 °C
- Measures 2,22" W x 1,06" H x 0,43" D

PART #	DESCRIPTION
2212-0562	Clock and volt meter

KOSO Feel The Speed

REPLACEMENT SPEED SENSORS FOR KOSO SPEEDOMETERS

- Replacement speed sensors available in two versions: speed sensor with 79" cable or H-D OEM-style transmission speed sensor

PART #	DESCRIPTION
2210-0131	Speed sensor w/ 79" cable

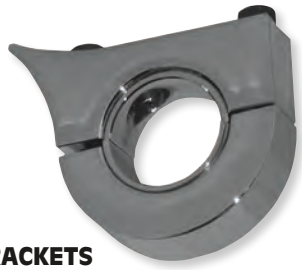
PART #	DESCRIPTION
2210-0132	OEM-style speed sensor; repl. OEM #74430-00D

KOSO Feel The Speed

SPEED SENSOR MAGNET BOLTS

- Simple and reliable alternative to gluing sensor magnet to a bolt or rotor
- Sold each

PART #	DESCRIPTION
2210-0133	$^{5}/_{16}$-18 x $^{7}/_{8}$" L
2210-0134	M5 x P0,8 x 12 mm L
2210-0415	M6 x P1,1 x 5 mm L
2210-0135	M6 x P1,1 x 12,6 mm L
2210-0136	M6 x P1,1 x 19,7 mm L
2210-0137	M6 x P1,0 x 24 mm L
2210-0138	M8 x P1,25 x 22,5 mm L
2210-0139	M8 x P1,25 x 27,5 mm L



KOSO Feel The Speed

OPTIONAL HANDLEBAR BRACKETS FOR ROUND GAUGES

- Unique bracket system allows gauge housing to be turned left or right up to 12°

PART #	DESCRIPTION
2210-0130	Bracket for 1$^{1}/_{2}$" handlebar

DYNATEK dyna performance electronics

SHIFT MINDER KIT

- Designed to provide optimum shifting to match your style
- Triggering accuracy to better than 1%
- Adjustable to switch at any of 64 different rpm settings; 125 rpm increment between each setting
- Requires no additional parts for rpm switch point selection

PART #	DESCRIPTION
DSMS-2	For non-EFI models

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

8000 RPM ELECTRONIC TACHOMETER

- OEM-style electronic tach features a stainless steel outer housing ring and an 8000 rpm face
- Tach could also be used on any 85 and up models using a single- or dual-gauge mount with an opening larger than 3 1/8"
- Comes complete with wiring and bulb
- For replacement bulb see pages 721-726

NOTE: Will not fit in console models.

PART #	DESCRIPTION
DS-243939	For 85 FXRT, 85-87 FXRS, 91-94 FXR Superglide and 84-94 FXRS-SP, FXRS-CON; repl. OEM #67042-85

8000 RPM TACHOMETER

- Reproduction of the original mechanical tachometer
- Comes complete with chromed bracket, bulbs and sockets

PART #	DESCRIPTION

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
2212-0369	Complete kit, Deep Cut style w/ black anodized finish
2212-0423	Complete kit w/ black anodized finish

- Bracket and cone assembly accepts most 1 1/2" diameter oil pressure gauges; bracket can also be used without the cone to accept the slightly larger Drag Specialties and Custom Chrome liquid-filled gauges

NOTE: Check clearance between gauge and gas tank.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
DS-245154	Repl. Ness liquid-filled oil gauge 0-60 lb; mounts to any bracket w/ a 1 1/2" opening; fittings sold separately

DRAG Specialties

OIL PLUG TEMP GAUGES

- Sensitive to oil temperatures up to 350 °F
- Chrome gauge bezel

PART #	DESCRIPTION
DS-330033	For 84-99 FXST/FLST; 84-94 FXR; 84-92 FLT (2 3/4" L)
DS-330031	For 66-84 FX, FL, FXWG (3 7/8" L)

PART #	DESCRIPTION
DS-330033	For 79-85 XL (2 3/4")

All part numbers in BLUE are new for the OldBook.

DS-244113

DS-244112

DS-244104

DS-244114

DS-244111

DS-244102

1 3/4" DELUXE LIQUID-FILLED OIL PRESSURE GAUGE KITS

- Liquid-filled cases eliminate needle bounce by absorbing vibration
- Features a weather-resistant sealed lens with a chrome rim, an extra-heavy-duty mechanism and 1 3/4" diameter stainless steel case
- Comes complete with all necessary chrome fittings for bolt-on installation

PART #	DESCRIPTION
DS-244113	For 84-99 Evolution Big Twin models, 60 lb. dial, white face
DS-244112	For 84-99 Evolution Big Twin models, 60 lb. dial, black face
DS-244104	For 36-69 Big Twin, 60 lb. dial, black face

PART #	DESCRIPTION
DS-244114	For 70-84 Shovelhead, 100 lb. dial, white face
DS-244111	For 70-84 Shovelhead, 100 lb. dial, black face
DS-244102	For 57-85 XL, 60 lb. dial, black face

2212-0418

OIL PRESSURE GAUGES

- 1/8" NPT rear mount oil pressure gauges
- Stainless steel housing with a black anodized finish
- Solid brass internals are bathed in a vibration damping glycerin for accuracy
- 60 or 100 psi

PART #	DESCRIPTION
2212-0417	60 psi
2212-0418	100 psi

2212-0608

2212-0611

OIL PRESSURE GAUGES

- Quality liquid-filled pressure gauge with 0-100 psi range
- 1.5" stainless steel case with white or black dial face
- Brass 1/8" NPT male bottom or back port

PART #	DESCRIPTION
2212-0608	White face, bottom port
2212-0609	Black face, bottom port
2212-0610	White face, back port
2212-0611	Black face, back port

OIL PRESSURE GAUGE MOUNT

- Chrome mount attaches at the crankcase and rocker box mounting bolt, allowing an unobstructed view of your oil pressure
- Stock oil pressure sending unit must be removed and oil pressure gauge must be ordered separately

PART #	DESCRIPTION
DS-244101	For 80" Evolution engines (except FLT/HT/HS/HR/Ultra)

OIL PRESSURE GAUGE LINE

- Braided stainless steel construction
- Features a unique one-piece fitting for ease of installation
- Intended for gauges mounted on the rocker box

PART #	DESCRIPTION
1204-8405	For 84-99 Evolution Big Twin

DS-245210

DS-245200

DS-245225

OIL GAUGE FITTINGS

PART #	DESCRIPTION
DS-245210	Elbow fitting for XL, 1/8" NPT
DS-245200	45° elbow, 1/8" male NPT to 1/8" female NPT, for oil tanks, master cylinder, etc.
DS-245225	1 1/2" long nipple for XL, 1/8" NPT

All part numbers in BLUE are new for the OldBook.

EVOLUTION-STYLE SOFTAIL FRAME

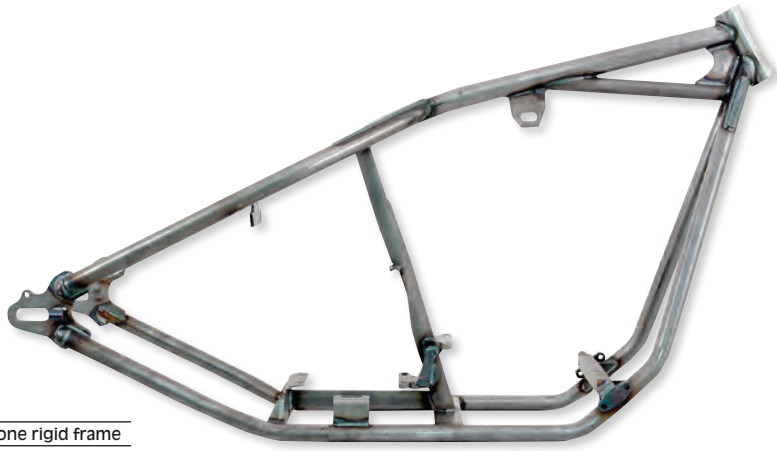
- Constructed of 1 1/8" DOM steel tubing, mandrel bent, TIG and MIG welded
- 30° rake, 0" stretch
- Accepts OEM neck bearings and cups
- Designed for 5- and 6-speed transmissions; transmission plate sold separately
- Accepts 86-99 Softail motors with clearance for cylinders up to 0,200" taller than a stock Evolution motor
- Comes equipped with stock coil mounts, oil tank mounts, forward control mounts and accepts Softail-style flatside gas tanks
- Swingarm not included; accepts stock or most aftermarket swingarms

PART #	DESCRIPTION
0501-0075	Evolution-style Softail frame

RIGID WISHBONE STYLE FRAME FOR BIG TWIN

- Constructed of 1 1/4" DOM steel tubing, mandrel bent, TIG and MIG welded
- 30° rake, 0" stretch
- Designed for 4-, 5- and 6-speed transmissions; transmission plate sold separately
- Accepts Evolution motors with clearance for cylinders up to 0,200" taller than stock Evolution
- Uses stock 86-99 Softail oil tank and rear brake caliper (sold separately)
- Gas tank mounts, rear axle, exhaust bracket, belt guard tabs and coil bungs sold separately

PART #	DESCRIPTION
0501-0103	130/140 tire, wishbone rigid frame



RIGID STRAIGHT BACKBONE STYLE FRAME FOR BIG TWIN

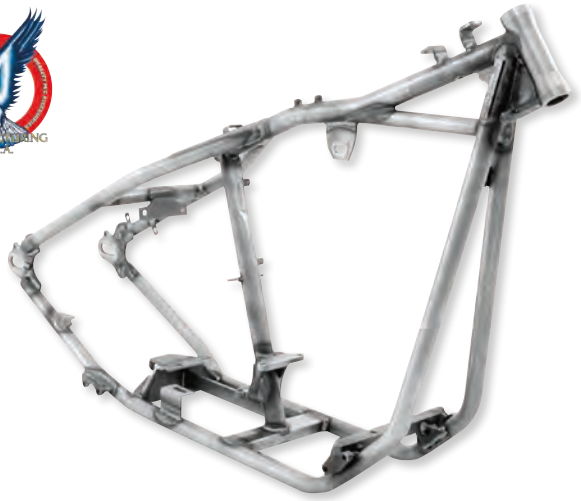
- Constructed of 1 1/4" DOM steel tubing, mandrel bent, TIG and MIG welded
- 30° rake, 0" stretch
- Designed for 4-, 5- and 6-speed transmissions; transmission plate sold separately
- Accepts Evolution motors with clearance for cylinders up to 0,200" taller than stock Evolution
- Uses stock 86-99 Softail oil tank and rear brake caliper (sold separately)
- Gas tank mounts, rear axle, exhaust bracket, belt guard tabs and coil bungs sold separately

PART #	DESCRIPTION
0501-0102	130/140 tire, straight backbone rigid frame

All part numbers in BLUE are new for the OldBook.

RIGID FRAMES FOR BIG TWIN

- Constructed of 1 1/4" DOM steel tubing, mandrel bent, TIG and MIG welded
- 30° rake, 0" stretch
- Requires a removable transmission plate for 4-, 5- and 6-speed transmissions; transmission plate sold separately
- Accepts Evolution/Shovelhead/Panhead motors with clearance for cylinders up to 0,200" taller than stock motor
- PART #0501-0071 is designed for 130/140 tire using a chain final drive
- PART #0501-0072 is engineered for 180 tire with 1 1/2" belt or 200 tire with chain
- Uses stock 86-99 Softail oil tank and rear brake caliper (sold separately)
- 3/4" rear axle and accessory kit included with 180/200 frame; 130 frame will require a custom 3/4" x 11 7/8" rear axle



PART #	DESCRIPTION
0501-0071	For 130/140 tire rigid frame

PART #	DESCRIPTION
0501-0072	For 180/200 tire rigid frame

RIGID FRAME FOR XL

- 30° rake and 0° stretch
- Constructed of 1 1/4" DOM steel tubing with 1 1/2" backbones
- Frame is welded using both TIG and MIG processes and accepts 67-85 XL Ironhead engines
- Frame features a blank backbone (no tank mounts) and requires a custom seat
- Accepts OEM neck post cups and 1" stem bearings
- Mid-control mounts; no forward control mounts

PART #	DESCRIPTION
0501-0073	For 67-85 XL w/ 130/140 rear tire

SOFTAIL SWINGARM

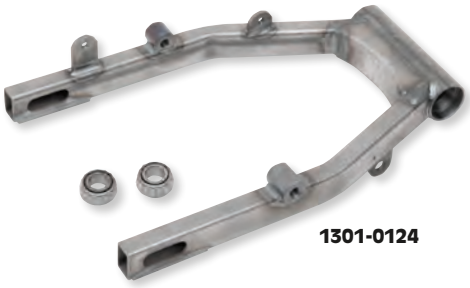
- Custom round tube swingarm better matches the OEM frame rails
- Constructed from high-quality steel and precision welded
- Accepts stock components

PART #	DESCRIPTION
1301-0126	For 87-99 Softail; repl. OEM #47537-89A/B

SWINGARMS

- Chain drive swingarms are available as adjustable style or OEM replacement
- Belt drive swingarm is available as an OEM replacement
- Adjustable swingarm features bolt-on shock anchor plates which, when adjusted, raises (up to 5/8") or lower the bike (up to 1 5/8")

1301-0123



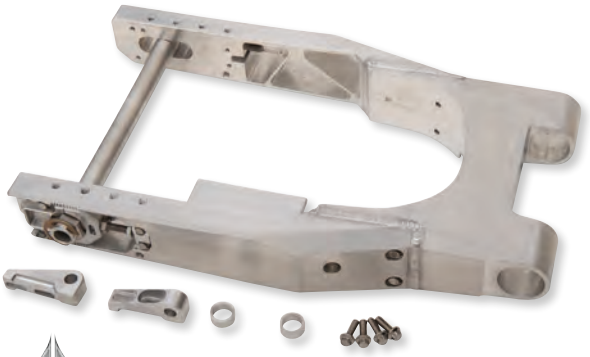
1301-0124

PART #	DESCRIPTION
ADJUSTABLE STYLE	
1301-0123	For 73-84 FX/FL w/ chain drive, raw

- Replacement style swingarm replaces the stock unit and has shock anchors, chain guard tab and brake anchor that are welded in place; available raw and ready to paint
- Includes bearings

PART #	DESCRIPTION
REPLACEMENT STYLE	
1301-0124	For 80-84 FXB/FXSB, 84 FXWG, 82-84 FLH/FLHC w/ belt drive, raw; repl. OEM #47466-79
1301-0125	For 73-84 FX/FL w/ chain drive, raw; repl. OEM #47500-73

All part numbers in BLUE are new for the OldBook.



Alloy Art

THE SWINGER

- Three piece, CNC-machined aluminum swingarm featuring a bolted, pinned and welded assembly
- Exceptional strength and functionality
- 2 lb. lighter than stock
- Adjustable shock mounts
- Machined finish

- Includes a chromoly 25 mm axle, stainless steel axle nut and adjuster bolts
- Accepts OEM pivot components

NOTE: Will require the use of a rear wheel that accepts a 25 mm axle.

PART #	DESCRIPTION
1301-0141	For 94-00 FXR

1302-0257

1302-0238
Swingarm not included

Custom Cycle Engineering

SWINGARM RETROFIT KITS

- Original Custom Cycle Engineering design retrofits the improved swingarm from 02-08 Touring models to 80-98 Touring models
- No need to alter transmission housing
- Will require the purchase of a 02-08 style OEM swingarm with bearings, rear caliper, 1" diameter rear axle and 1" rear wheel bearings

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHS	
1302-0257	Retrofit kit

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHS (CONT)	
1302-0258	Retrofit kit w/ pivot shaft

1302-0207

1302-0208

Custom Cycle Engineering

SWINGARM CONVERSION BEARING RETROFIT KITS

- Original Custom Cycle Engineering design replaces stock Cleve Bloc-style swingarm bushings with spherical bearings
- Dramatically changes handling and tracking of Dresser models
- Spherical bearings greatly reduce the stiction at the swingarm pivot, which provides a quicker reaction time to harsh road conditions
- Negates any lateral and torsional movement in the swingarm

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT AND 82-94, 99-00 FXR	
1302-0207	Swingarm conversion retrofit kit

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT AND 82-94, 99-00 FXR (CONT)	
1302-0208	Swingarm conversion retrofit kit w/ pivot shaft

DRAG Specialties

SWINGARM BUSHING KIT

- Replaces worn/damaged bushings, firms up handing and tracking
- Kit includes bushings and tolerance rings

PART #	DESCRIPTION
1302-0633	For 80-98 FLT/FLHT/FLHR, 82-94, 99-00 FXR; repl. OEM #s 47538-79/47556-81

All part numbers in BLUE are new for the OldBook.

SWINGARM BEARINGS AND RACES

- Bearings or races for various H-D models
- Sold as a set or individually

DS-540795

0215-0205

0502-0194

PART #	DESCRIPTION
DS-540795[1]	Bearing w/ race for 58-86 FL/FX/FXWG (set); repl. OEM #s 9033 and 9052
0215-0205	Bearing w/ race for 58-86 FL/FX/FXWG (set); repl. OEM #s 9033 and 9052
DS-540796[1]	Bearing only for 58-86 FL/FX/FXWG (ea.)
DS-540797[1]	Race only for 58-86 FL/FX/FXWG (ea.)

PART #	DESCRIPTION
0502-0194	Left swingarm bearing and race for 91-98 Dyna Glide, 82-85 XL (set); repl. OEM #47082-81
0502-0196	Bearing and race for L74-81 XL, 77-78 XLCR; will also fit earlier models that have been updated w/ bearing kit #47550-74 (ea.); repl. OEM #47521-74

[1] Original Timken.

SWINGARM BEARING KITS

- Individual bearing kits include required bearings, seals, spacers and lock tabs

1302-0001

PART #	DESCRIPTION
1302-0084	For 84-99 FXST/FLST; repl. OEM #s 9076, 11158

PART #	DESCRIPTION
1302-0001	For 58-86 FX/FXWG/FLH (except Softail, FXR, FLT)

SWINGARM ISOLATOR MOUNT

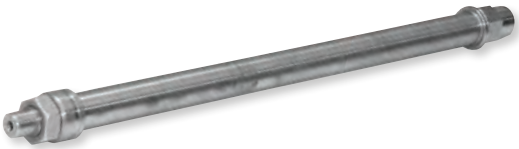
- Meets or exceeds OEM specifications
- Sold each

PART #	DESCRIPTION
0933-0053[1]	For 86-98 FLT, 86-94, 99-00 FXR; repl. OEM #47564-86B

[1] Will fit 85 models that have been updated with OEM swingarm pivot update kit.

SWINGARM PIVOT SHAFT

- OEM/Paughco replacement



PART #	DESCRIPTION
1302-0304	For 84-98 FLT/FLHT and 84-94/99-00 FXR; repl. OEM #47492-89A

SWINGARM PIVOT BLOCKS

- Chrome-plated, CNC-machined T6 billet aluminum
- Available in smooth or ball-milled design
- Include mounting hardware

1303-0076

2406-8768

1303-0244

FOR 82-94 FXR

PART #	DESCRIPTION
1303-0076	Smooth

PART #	DESCRIPTION
2406-8768	Ball-milled

PART #	DESCRIPTION
1303-0244	Black anodized, ball-milled

SWINGARM PIVOT SHAFT COVER

- Covers the pivot shaft head on the right side of the swingarm 1 1/2" diameter
- Available with a chrome-plated finish
- Sold each

PART #	DESCRIPTION
1303-0196	For 91-98 FXD/FXDWG models; repl. OEM #67859-90

SWINGARM PIVOT BOLT COVERS

- Die-cast, chromed and securely held in place by a setscrew
- Add a clean look
- Sold in pairs

PART #	DESCRIPTION
1303-0025	For 84-99 Softail models

SOCKET-HEAD SWINGARM END CAP BOLT KITS

- Chrome finish
- Sold in 4-pack

GARDNER WESTCOTT

DS-190121

DS-190123

PART #	DESCRIPTION
FOR 80-92 FLT/FLHT; 82-92 FXR	
DS-190121	7/16" -14 x 1 1/4" w/ center cap plugs; repl. OEM #s 3782, 67830-59

PART #	DESCRIPTION
FOR 80-92 FLT/FLHT; 82-92 FXR (CONT)	
DS-190123	7/16" -20 x 1 1/4"; repl. OEM #4729

All part numbers in BLUE are new for the OldBook.

DIAMOND ENGINEERING

SWINGARM PIVOT BOLT SET

- Socket cap fasteners made from stainless steel with a polished finish
- Manufactured from only the best materials that are certified SDF (Seamless and Defect Free)
- Threads are rolled to a UNJ3A spec

PART #	DESCRIPTION
1302-0168	For 84-99 Softail models

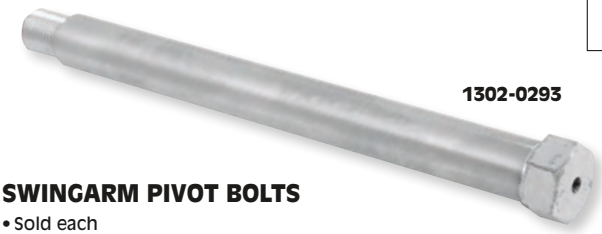
DRAG Specialties

SOFTAIL SWINGARM AXIS TUBE BOLT KIT

- Kit contains two chrome-plated $^{3}/_{4}$"-16 x 3" grade 8 hex bolts and two chrome washers

PART #	DESCRIPTION
DS-190901	For 84-99 Softail; repl. OEM #s 4961, 7142

Eastern MC Parts



1302-0293

SWINGARM PIVOT BOLTS

- Sold each

PART #	DESCRIPTION	FINSH
1302-0293	For 58-84 Big Twin; repl. OEM #47510-58	Chrome
1302-0294	For 54-81 XL; repl. OEM #47511-52	Zinc

SWINGARM PIVOT BOLT NUT

- Zinc-plated finish
- Sold each

PART #	DESCRIPTION
1302-0297	For E74-81 XL; repl. OEM #47512-74

SWINGARM SPACERS

- Measure 0,758" ID x 1,125" OD and are 0,375" W
- Sold in 2-pack

PART #	DESCRIPTION
DS-195400	For 58-84 Big Twin; repl. OEM #47517-58

INNER BEARING SWINGARM SPACERS

- Sold in pairs

PART #	DESCRIPTION
1302-0302	For 52-81 XL; repl. OEM #47518-52

SWINGARM BEARING NUT

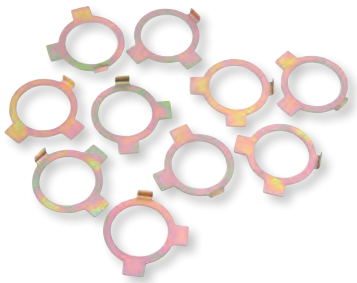
- Raw finish
- Sold each

PART #	DESCRIPTION
1302-0299	For L74-81 XL left side; repl. OEM #47514-74

SWINGARM BEARING DUST SHIELDS

- Sold in pairs

PART #	DESCRIPTION
1302-0295	For 52-81 XL; repl. OEM #47519-52



SWINGARM PIVOT BOLT LOCK TABS

- Sold in 10-pack

PART #	DESCRIPTION
1302-0250	For 58-84 Big Twin; repl. OEM #47513-58

SWINGARM BEARING NUT LOCK TABS

- Sold in 10-pack

PART #	DESCRIPTION
1302-0251	For 52-81 XL; repl. OEM #47525-52

All part numbers in BLUE are new for the OldBook.

Alloy Art

TXR STABILIZERS

- CNC-machined from 6061-T6 aluminum
- Improves handling by triangulating motor and transmission in the chassis to eliminate frame wobble at high speeds and while cornering
- Adjustable intermediate member with integrated Gooden Tite polyurethane and aluminum isolator bushings
- Open plate design with ventilating air scoops to assist in transmission cooling
- Easy bolt-up installation
- Available in black anodized finish
- Includes stainless steel hardware and Heim joints

NOTE: Not for use with cross-under exhaust systems.

1111-0001

1111-0007

PART #	DESCRIPTION
1111-0001	For 93-98 FLT/FLHT/FLHR/FLTR models
1111-0007	For 93-98 FLT/FLHT/FLHR/FLTR models with Baker plus one oil pan or Custom Cycle Engineering finned oil pan

PROGRESSIVE suspension

TOURING LINK CHASSIS STABILIZER

TOURING LINK

- The answer to the handling challenges faced by most touring models has arrived
- Helps stabilize the chassis by keeping the motor/swingarm assembly aligned with chassis without causing unnecessary vibration to the rider
- Ground clearance will not be affected
- Easy to install

PART #	DESCRIPTION
1111-0006	For 93-98 FLHT/FLHR/FLTR models (all)

0933-0071

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

0933-0072

ULTRA RIDE STABILIZING SYSTEMS

- Dramatically frees your bike from that "loose" feeling and wobbles that can plague the bike at high speeds
- System connects the powertrain to the frame by adding stabilizing links
- Allows the drivetrain to move freely in a forward motion, but eliminates side-to-side movement
- Cut pattern on rear mount plate allows unrestricted air to circulate around the oil bag
- Mount brackets manufactured from 6061-T6 billet aluminum, all mounting hardware and turnbuckles are stainless steel

PART #	DESCRIPTION
FOR 93-98 FLHT/FLTR/FLHR	
0933-0071	Brushed aluminum

PART #	DESCRIPTION
FOR 93-98 FLHT/FLTR/FLHR (CONT)	
0933-0072	Black

ARLEN NESS

1" LOWERED KICKSTANDS

- Chrome-plated forged steel
- 1" shorter than stock kickstand
- Mounts to stock mount and accept stock spring

DS240019

0510-0108

PART #	DESCRIPTION
DS240019	For 84-99 FXST/FLST models (10")

PART #	DESCRIPTION
0510-0108	For 91-98 FXD models (10")

All part numbers in BLUE are new for the OldBook.

KICKSTAND KITS

- Complete kit includes a one-piece polished chrome mount with spring tab, kickstand, leg stop, spring and nut
- Mounting repair kit available; includes mount, spring, leg stop and nut
- Mounting bracket only may be purchased separately

PART #	DESCRIPTION
0510-0038	Complete kickstand kit for 89-99 Softail (standard length)
0510-0039	Complete kickstand kit for 89-99 Softail (1" under stock length)
0510-0323	Complete kickstand kit for 89-99 Softail (standard length)
0510-0324	Complete kickstand kit for 89-99 Softail (1" under stock length)

PART #	DESCRIPTION
DS-233677	Complete kickstand kit for 36-84 Big Twin
DS-233675	Kickstand mounting repair kit for PART #DS-233677
DS-233676	Repl. mounting bracket only; repl. OEM #50041-80A

KICKSTANDS

- High-strength steel kickstands with a brilliant chrome finish or E-coated primer, powdercoated gloss black
- Replace OEM kickstands perfectly
- Under stock length kickstands are for bikes with lowered suspension

NOTE: Kickstands are measured from the center of the mounting hole to the first bend at the bottom of the kickstand.

CHROME KICKSTANDS

PART #	DESCRIPTION
FOR 89-99 FXST/FLST MODELS	
DS-240055[1]	Stock length (11" L); repl. OEM #50087-89A
0510-0265	1" under stock length (10" L)
FOR 84-98 FLHT/FLHR/FLTR MODELS	
0510-0270[3]	Stock length (11" L); repl. OEM #50075-83/50075-91A
0510-0264[3]	1" under stock length (10" L)
0510-0382[3]	1" over stock length (12' L), chrome
FOR 36-86 BIG TWIN, 84-88 FXST/FLST MODELS	
DS-240044[1]	Stock length (10½" L); repl. OEM #50061-36E
DS-240050[2]	1" over stock length, OEM style
FOR 82-94 FXR MODELS	
DS-240043	Stock length (12¾" L); repl. OEM #50031-84A

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG MODELS	
0510-0194	Stock length (11" L); repl. OEM #49704-90B
0510-0195	1" under stock length (10" L)
0510-0372	1" over stock length (12" L)
FOR L84-85 XL MODELS	
DS-240001[1]	1" under stock length (7" L)
FOR 52-E84 XL AND K	
DS-240049	Flat bottom, stock length (9½" L)

[1] Big Twin, Softail, FLT and XL kickstands are measured from the first bend at the top to the first bend at the bottom of the kickstand.

[2] Kickstands that are shorter than stock length are for bikes that have been lowered. Kickstands that are longer than stock length are for bikes with 4-6" longer fork tubes with no change in rake.

[3] Requires kickstand bumper PART #0510-0207 (sold separately).

GLOSS BLACK KICKSTANDS

PART #	DESCRIPTION
FOR 84-98 FLHT/FLHR/FLTR MODELS	
0510-0395[1]	Stock length (11" L); repl. OEM #50075-83/50075-91A
0510-0397[1]	1" under stock length (10" L)
0510-0396[1]	1" over stock length (12" L)

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG MODELS	
0510-0212	Stock length (11" L); repl. OEM #49704-90B
0510-0213	1" under stock length (10" L)
0510-0373	1" over stock length (12" L)

[1] Requires kickstand bumper PART #0510-0207 (sold separately).

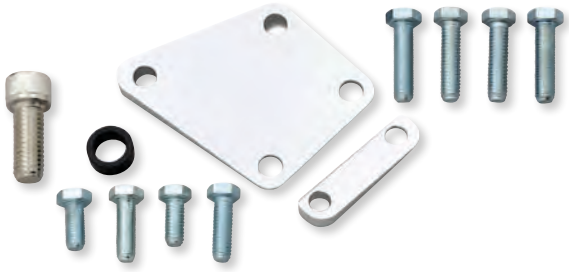
WELD-ON KICKSTAND MOUNT

- CNC-machined from forged steel
- Raw finish for ease of welding
- For use on 1⅛" diameter frame tubes

PART #	DESCRIPTION
0510-0196	Accepts 52-84 XL-style kickstand

All part numbers in **BLUE** are new for the OldBook.

KICKSTAND WEDGE KIT



- This kit, designed by Don Hotop, allows you to change the angle of your kickstand at the frame, rather than heating and bending your chrome kickstand to work for lowered bikes
- Maintains the original angle of the foot board
- 6061 billet aluminum construction
- Includes both fine- and coarse-thread bolts for early and late models and installation instructions

PART #	DESCRIPTION
0510-0028	For 80-98 FLT/FLHT/FLHS/FLHR models lowered up to 2"

KICKSTAND ANGLE PLATE

- For use on lowered bikes
- Allows you to adjust the angle of your kickstand quickly and easily
- Sold each

PART #	DESCRIPTION
0510-0090	For 84-99 FLST/FXST

KICKSTAND WEDGE

- Aluminum wedge changes the angle of the kickstand so it does not have to be bent
- For lowered models only

PART #	DESCRIPTION
DS-240202	For 84-99 Softail

JIFFY STAND AND FOOT CLUTCH LEVER BRACKET MOUNTING KIT

- Kit includes three $^{3}/_{8}$"-16 bolts, OEM #070; four $^{5}/_{16}$" bolts, OEM #064E; one nut, OEM #0133; four $^{5}/_{16}$"-24 nuts, OEM #7752 and four lock washers OEM #7045
- Available in parkerized finish

PART #	DESCRIPTION
FOR 36-78 BIG TWIN	
2401-0664	Parkerized

JIFFY STAND PIN AND SCREW KIT

- Replaces jiffy stand pin OEM #50090-53 and screw OEM #1760B

PART #	DESCRIPTION

RWD
RUSS WERNIMONT DESIGNS
www.russwernimont.com

REAR FENDER EXTENSION AND FILLER PANELS

- Heavy 18-gauge raw steel construction
- Designed to fill in the area between the fender and saddlebags and extend the rear of the fender for a street glide look
- Extends the fender 4" over OEM
- Requires custom mounting; no hardware is included
- Will not work on bikes equipped with detachable backrest

PART #	DESCRIPTION
1405-0091	For 96-98 FLTR/FLHR/FLHT models w/ OE hard bags and OE 7¼" rear fender

Before fillers

Detachable style shock-length/+2" fender stock-length saddlebags

0504-0090

0504-0091

LOWER FILLERS

- Constructed from 16-gauge steel and E-coated for rust and corrosion resistance and are designed to fill the void between the lower fender and saddlebags; a minor detail that makes a major impact!
- The only steel fillers designed to be used with or without detachables
- Detachable style is for use with OEM detachable accessories (available separately)
- Great to use in conjunction with Klock Werks Curvaceous Upper Fillers to smooth out that entire area
- Fillers are available in Standard for stock bags
- All are sold in pairs and include all necessary hardware and instructions to install them

HOW TO SELECT

STEP #1
Fender/Saddlebags fender/style

Determine:
- Length/style of Fender
- Length/style of Saddlebag

STEP #2
Detachable or Not

SMOOTH STYLE (Detachable backrest only)

DETACHABLE STYLE (Trunk or rack)

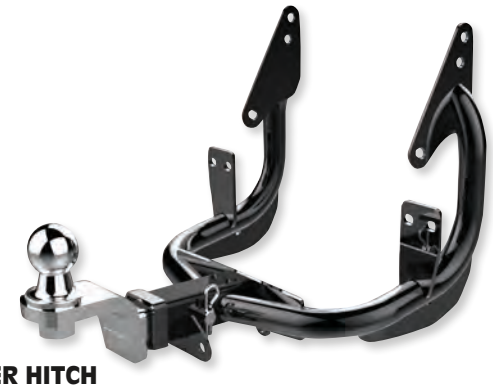
FOR 93-98 FLT/FLHT/FLHR/FLTR MODELS	
PART #	DESCRIPTION
FOR USE WITH STOCK-LENGTH FENDER OR KLOCK WERKS +2" FENDERS AND STOCK-LENGTH HARD SADDLEBAGS	
0504-0090	Stock, smooth style
0504-0091	Stock, detachable style

CURVACEOUS UPPER FILLERS

- Accent the line of your fender and hide clutter for a custom look
- Steel construction with E-coating, ready to color match paint
- Upper fillers mate up to the stock fender/lower filler on Street Glides
- Requires removal of stock license plate mount bar
- Smooth for models with or without detachable backrests
- Must remove stock license plate mount bar
- Sold in pairs

PART #	DESCRIPTION
0504-0080	For 95-98 FLT, FLHT, FLHR and FLTR models when used in conjunction w/ Klock Werks lower filler panels

All part numbers in BLUE are new for the OldBook.



KHROME WERKS

RECEIVER TRAILER HITCH

- 32 mm (1 1/4") receiver trailer hitch mounts to frame struts and the saddlebag supports
- Does not interfere with accessories such as docking kits for sissy bars, racks and tour boxes
- Made from 3,2 mm (0,125") 1020 steel tubing, robotic-welded and high-gloss black powdercoated
- Includes polished chrome-plated hitch, 47,6 mm (1 7/8")" ball and pin with hitch clip
- Optional chrome-plated 5-pin, die-cast, automotive-style connector set available separately; PART #3902-0069

NOTE: Not for use with accessory saddlebag rail kit.

PART #	DESCRIPTION
3902-0079	For L86-98 FLHT/FLHR/FLTR

RIVCO

TRAILER HITCH

- Steel construction and chrome-plated
- Includes tow ball and mounting hardware
- Quick installation

PART #	DESCRIPTION
3902-0192	For 80-98 FLH/FLT models

KURYAKYN

TRAILER HITCH

- Permanent mount hitch attaches at six points
- Steel construction for strength
- All visible components are chrome-plated
- All non-visible components are black powdercoated for maximum rust resistance
- Kit includes necessary mounting hardware and 47,6 mm (1 7/8") trailer ball

PART #	DESCRIPTION
3902-0006	For 80-98 FLT/FLHT/FLHR/FLTR

KURYAKYN

LED RECEIVER HITCH COVER

- Features crisp red, white and blue graphics with an extremely high output
- Fits 1 1/4" and 2" receiver hitches (pin not included)
- Plugs directly into standard 4-pin flat connector
- Durable injection-molded ABS construction
- Quick and easy installation and removal when not in use

PART #	DESCRIPTION
2010-1452	LED receiver hitch cover

DRAG Specialties

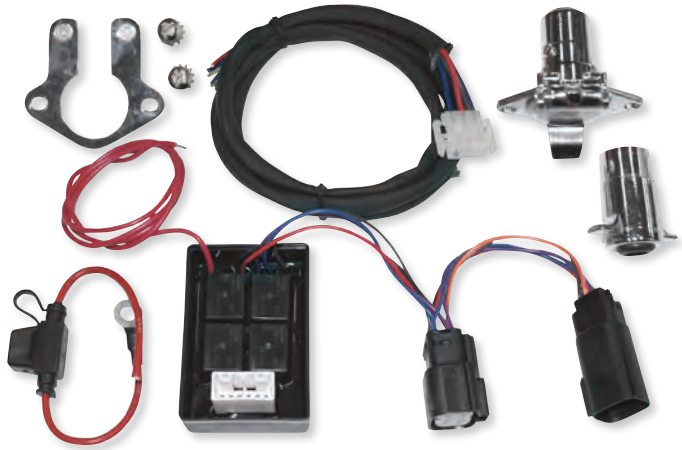
TRAILER HITCH RECEPTACLE KIT

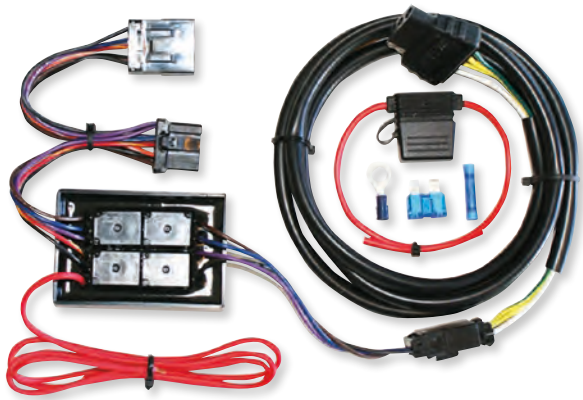
- Mounts easily to underside of hitch plate for a quick, clean way to connect/disconnect trailer light wiring
- Includes a chromed receptacle plate, chrome safety chain hookup, a five-pin male/female plug-in connector and all wiring and hardware

NOTE: Also fits other brands of trailer hitches.

PART #	DESCRIPTION
DS-720558	For 80-98 FLT/FLHT/FLHR and 86-99 FXST/FLST

All part numbers in BLUE are new for the OldBook.





TRAILER WIRING CONNECTOR KIT WITH ISOLATOR

KHROME WERKS

- To be used with trailers using the same number wires as the motorcycle
- Wiring harness features an isolator module with a fused, separate circuit from battery positive to power the trailer lighting; works through built-in relays and prevents overloading of factory-lighting circuit
- 5-pin, die-cast, automotive-style connector
- Mounts using mounting bracket that bolts directly to the safety chain bracket on current production Khrome Werks trailer hitches

PART #	DESCRIPTION
3902-0082	For 97-98 FLT/FLHT/FLHR/FLTR models w/ 8-pin rear light connectors

KHROME WERKS

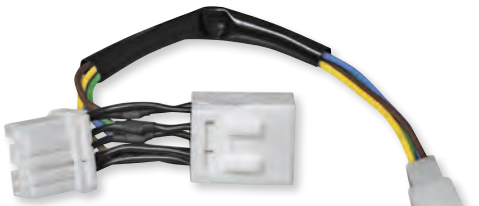
TRAILER WIRING KIT

- Includes 6-pin Molex isolator, 15-amp fuse/fuse holder, two butt connectors and ring terminal (no converter needed)
- Has an 8-pin multi-lock plug and also includes 4-wire, 48" harness with a flat 4-position connector

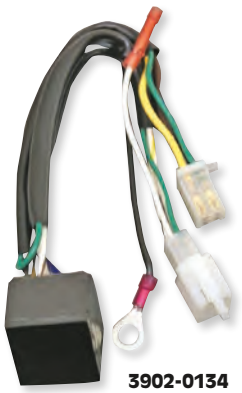
PART #	DESCRIPTION
3902-0168	For 97-98 FLT/FLHT/FLHR, 97-99 FLSTC w/ 8-pin rear light plugs

RIVCO

TRAILER WIRING SUB-HARNESS



3902-0147

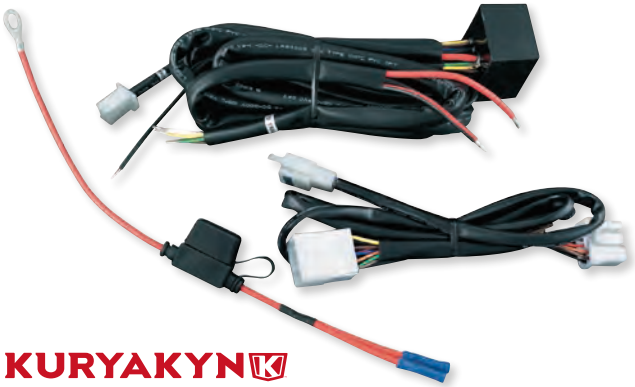


3902-0134

- Trailer wiring sub-harness plugs into the bike's stock wiring harness on one end, and Rivco's own 5- to 4-wire converter or isolator on the other
- Eliminates the need to cut and splice the stock wiring harness
- Order the sub-harness for your bike based on your bike's plug-in type (see chart)
- Requires two additional parts for a complete trailer wiring harness assembly: Rivco's 5- to 4-wire converter (PART #3902-0134) and Rivco's Universal Trailer Wiring Isolator (PART #3902-0119) (both sold separately)
- Sub-harnesses sold each

PART #	DESCRIPTION
3902-0147	For 97-98 FLHR/FLTR/FLHT, 97-99 FXST/FLST (8-pin AMP multi-lock)

PART #	DESCRIPTION
3902-0134	5- to 4-wire wire converter

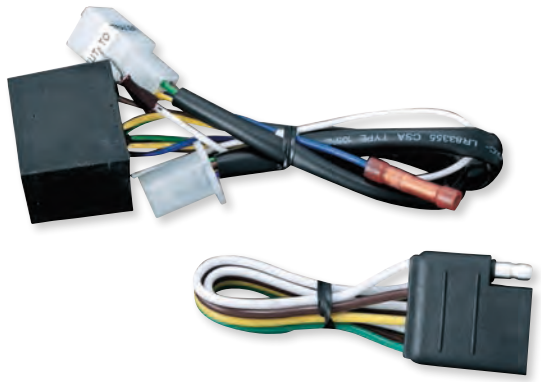


KURYAKYN

TRAILER WIRING HARNESSES AND RELAY

- Eliminates blown fuses caused by overload of the stock lighting or accessory circuits; relay harness utilizes inputs from the motorcycle to direct power from the battery to the appropriate trailer lighting circuit
- Kits provide standard five-wire output (run, brake, left turn, right turn, ground) plus a bonus wire that can be connected to provide 12V fused power to the trailer for compartment lights or keyless entry systems
- Does not include receptacle kits

PART #	DESCRIPTION
2120-0560	For 97-98 FLHT/FLTR/FLHR, 96-99 FXST/FLST, 97-98 FXD/FXDWG
2050-0141	Universal trailer wiring kit



KURYAKYN

5 TO 4 TRAILER WIRE HARNESS CONVERTER

- Plug-in that allows trailer wiring and relay kits to power trailers with a four-wire harness (run/left turn/brake, right turn/brake and ground)
- Fifth bonus wire is available to provide a fused 12V power supply to the trailer compartment for lights or keyless entry systems that are wired independently of the trailer's essential lighting
- Includes 4-pin flat vehicle connector
- Sold each

PART #	DESCRIPTION
2120-0388	5 to 4 trailer wire harness converter

All part numbers in BLUE are new for the OldBook.

SADDLEMEN™
PERFORMANCE OUTFITTER

SOFT FAIRING LOWER SET WITH STORAGE POUCH

- Made of SaddleHyde™ with a plush felt inner liner and storage pouch for extra weather protection
- Marine-grade SaddleHyde™ pushes away the wind to prevent road grime, water and cold air from getting to your legs
- Snaps on the engine guards in seconds with adjustable nylon webbing lanyard straps and a perimeter steel zipper that sets the opening where you need it for your highway pegs
- Can also be used in place of the Harley-Davidson® hard fairing lowers
- Perfect for road trips; when the weather turns nice, remove the soft lowers and place them in the included storage pouch
- Installs quick and fast; includes instructions and mounting straps

PART #	DESCRIPTION
0506-0765	For 86-98 FLT/FLHT/FLHR

RIVCO

VENTED LOWER LEG FAIRING KIT

- Features a built-in cold air venting system that allows Harley-Davidson® riders to adjust the amount of air that circulates across the engine
- Vents can be opened for additional air or closed for maximum protection from the elements
- Ratcheting friction lock pivot allows the rider to easily set the vent position
- Provides two glove boxes with snap-in covers
- Set fits onto the $1^{1}/_{4}$" engine guards
- Made from ABS plastic, available in gloss black
- Complete kit includes left and right fairing lowers and all necessary mounting hardware

NOTE: Will not fit with mustache engine guard.

NOTE: Will fit 98 FLTR by cutting $2^{1}/_{2}$" off the cap cover to clear the upper fairing bracket.

PART #	DESCRIPTION
2330-0152	For 84-98 FLT/FLHT/FLHR models

HOPNEL

PAC-A-DERMS™

- Front engine guard covers protect you from the weather
- Convenient, built-in teardrop storage pouch
- Secured in place with self-contacted adjustable hook-and-loop-material fasteners, not snaps

PART #	DESCRIPTION
1624-0279	W/ EZ Mount for 86-99 FLST/C w/ front dresser bar; 86-98 FLT/FLHT/FLHR

All part numbers in BLUE are new for the OldBook.

CUSTOM SPRINGER FORKS

- Economical alternative to a shock dampened-type Springer
- Fully assembled with an in-line top bracket without a built-in rake
- The standard length Springer (31" measured from top bearing to the axle) is comparable to a standard-length FXST front end
- 1" OD steering stem designed for Timken® type bearings
- Both rear legs are threaded for right or left brakes
- The 3/4" OD axle kit includes a brake mount pivot with thrust washer and hub spacers (custom spacers may be required depending on the wheel used)
- Measures 9 1/4" between rockers
- Riser mounts are on 4 3/4" centers and threaded 1/2"-20
- Requires 84-99 wheel (compatible with 3/4" OD axle)
- These Springers are measured from the bottom of the top tree to the center of the axle

NOTE: Does not include speedometer adapter.

NOTE: For American models only; will not fit on European models.

NOTE: Do not accept spotlight bars.

NOTE: No fender mounts.

[1] Includes upper triple clamp.

All part numbers in BLUE are new for the OldBook.

ARLEN NESS

7 & 7 RAKED TRIPLE TREE

- Offers 7" of rake while maintaining 7" of trail when using a 23" wheel for the ultimate in handling, no frame modifications necessary
- Designed to work with 23" and 21" wheels only (stock diameter wheels will not handle correctly)
- 21" wheels provide 6 1/8" of trail
- Machined from forged 6061-T6 billet aluminum and then finished in black anodize
- Includes top and bottom tree, pressed in steel stem, lower fork bearing and travel limiters
- Batwing style Fairings maintain stock position and do not require angled headlight wedges or special brackets to properly adjust headlights

NOTE: Will not work with factory diameter wheels.

NOTE: The larger the wheel, the less fork travel. Always check lower tree to fender clearance.

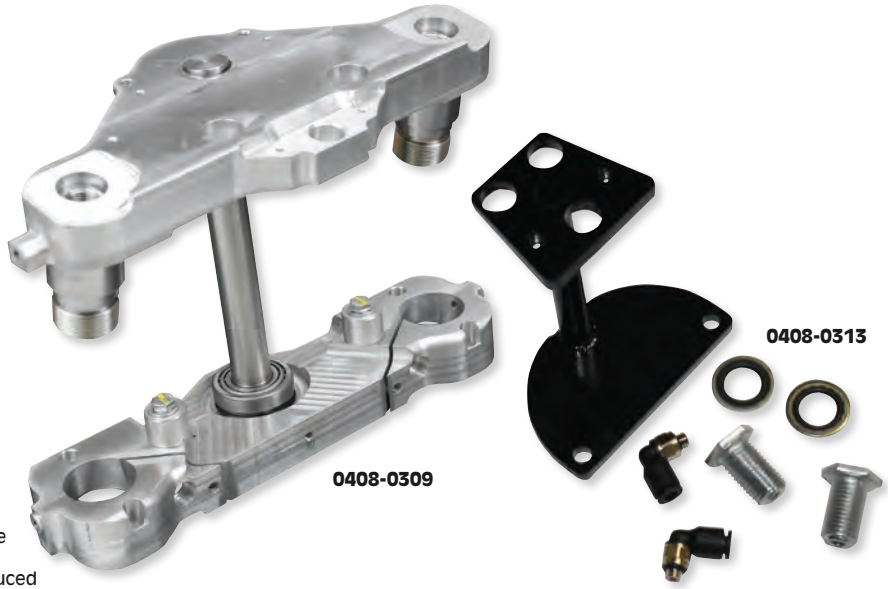
NOTE: Raked triple trees change the handling characteristics of the motorcycle. Use caution until familiar with the changes.

PART #	DESCRIPTION
0408-0316	For 97-98 FLT/FLHT/FLTR models, black, 7°

MOTOR TRIKE INCORPORATED

6° RAKED TRIPLE TREE KIT

- Get that longer Bagger look
- Increases frame-to-fender clearance for larger front wheels
- No modifications to OEM frame needed
- Accepts all OEM components
- Maintains stock ride height of the vehicle
- Reduced steering effort on bikes with trike conversions installed without eliminating steering feel – reduced effort leads to reduced rider fatigue, allowing for longer rides



PART #	DESCRIPTION
0408-0309[1]	For 87-98 FLT/FLHT/FLHR/FLTR models

PART #	DESCRIPTION
0408-0313	Adapter for FLHR models

[1] Road King models require PART #0408-0313 to overcome clearance issues.

HHI Hawg Halters

4°/6° TRIPLE TREES

- Designed to accept the original fork covers and headlight or full nacelle
- Maintain the stock look while increasing fork rake and overall wheelbase length
- 4° rake kit is typically for use with 21" or 23" front wheels
- 6° rake kit is typically for use with 26" front wheel

NOTE: Not recommended for bikes with the stock size front wheel or for installation with aftermarket fairing and/or saddlebags.

DRAG Specialties

41 MM FL-STYLE TRIPLE TREE

- Forged steel construction and highly chromed in a smooth style
- A distinctive addition to any Harley Big Twin model with FXST, FXWG and FL fork tubes (41 mm)
- Does not include mounts for stock headlight nacelle

NOTE: Does not allow fork-lock capability.

PART #	DESCRIPTION
DS-222939	Smooth style w/o mounts

PRO 1 PERFORMANCE PRODUCTS

41 MM BLIND TOP, WIDE GLIDE TRIPLE TREES

- CNC machined from aircraft-quality billet aluminum
- Accepts 41 mm fork tubes
- Offered with or without built-in LED turn signals
- Includes fork tube plugs that allow for a clean, finished look on the top of the triple tree
- Available in a stylish chrome or durable black anodized finish
- Triple trees are pre-drilled to mount the Pro-One Hide Away internal fork stop kits
- Include handlebar dampeners with chrome billet caps, a fork stem, and all the necessary mounting hardware
- Models with LED lights include additional smoked lens covers
- Offered in 0, 3, and 5-degree rake options

NOTE: Raked triple trees change the handling characteristics of the motorcycle. Steering geometry must be calculated to determine which degree of rake is most suited for your application. Trees with more than 3° of rake should not be used in stock frame applications.

PRO PERFORMANCE PRODUCTS

39 MM TRIPLE TREES

- CNC-machined out of solid 6061-T6 aluminum
- Increased clamping area of 0,25" on the bottom tree reduces lateral and torsional fork flex, which increases the rigidity and stability of the front end
- Machined cut-out in top tree for clean cable and wire routing
- No fork lock capabilities
- Works with optional internal fork stop; PART# DS-221926 (sold separately)
- Will fit most 39 mm front ends with 7" O.C. forks
- Designed to accept standard risers (3 1/2" O.C.)
- Available in black anodized or raw aluminum finishes

NOTE: Models with risers cast into the upper triple tree will require separate purchase of risers, bushings and mounting hardware.

PART #	DESCRIPTION
FOR 91-98 FXD, 88-94, 99-00 FXR MODELS

AXEO
LEGEND

AXEO HIGH-PERFORMANCE FRONT SUSPENSION SYSTEMS

- Designed to be used with stock diameter front wheels
- Easy installation
- Includes two mono-tube, dual chambered damper cartridges and two top out springs
- Performance spring rate
- Machined 303 stainless threaded pre-load adjuster
- Increased pre-load range allows the tuning for various riding styles and weights
- Ride quality is smooth and controlled
- Improves stability, cornering and traction
- Eliminates front-end dive during aggressive braking and maneuvering
- Firm feel for high-speed sweeping turns
- Eliminates bottoming out on large bumps or potholes
- Reduces dragging floorboards and pegs
- Designed for optimum performance with Legend rear suspensions
- Available in standard height, 25,4 mm (1") lower than stock or 50,8 mm (2") taller than stock

NOTE: These products are NOT designed for use with 53,5 cm (21") or 58,8 cm (23") wheels.

NOTE: PART #0414-0597 Axeo requires the use of Harley Davidson fork tubes OEM #83804-09 (57,3 cm (22,55") L).

NOTE: 97-98 models equipped with stock air forks will required additional purchase of Harley Davidson OEM #s 45419-80 (two) and 45733-48 (two) to install.

MONOTUBE FORK CARTRIDGE KITS

- Converts dual damper rod forks to high-performance cartridge forks
- Contains a pair of high-performance, gas-charged mono-tube fork cartridges and custom-tuned fork springs
- Improves resistance to front brake dive, front-end stability, cornering and bottoming control
- No modification for forks required
- Lowering kits lower the front end up to 2"

PART #	DESCRIPTION
STANDARD KITS	
0405-0308	For 84-96 FLT/FLHT/FLHR models
0414-0370	For 97-98 FLT/FLHT/FLHR/FLTR models

PART #	DESCRIPTION
LOWERING KITS	
0416-0062	For 84-96 FLT/FLHT/FLHR models
0414-0380	For 97-98 FLT/FLHT/FLHR/FLTR models

0405-0296

HEAVY-DUTY FORK SPRING KITS

- Heavy-duty version of the Progressive Suspension fork springs
- The cost-effective go-to for a substantial increase in front-end ride quality
- Includes Progressive Suspension rate springs combined with pre-load spacers
- Can improve front end stability and brake dive control as well as increase comfort for heavier riders or those looking for a firm high-performance feel out of their forks

PART #	DESCRIPTION
0405-0296	For 84-98 FLT/FLHT/FLTR/FLHR
0405-0296	For 84-99 FXST/FLST (except 92 FXST)

PART #	DESCRIPTION
0405-0296	For 85-86 FXWG
0405-0296	For 93-98 FXDWG

PART #	DESCRIPTION
0405-0315	For 91-92 FXD/B/C/L/X
0405-0315	For 88-99 FXRT

DS-222048

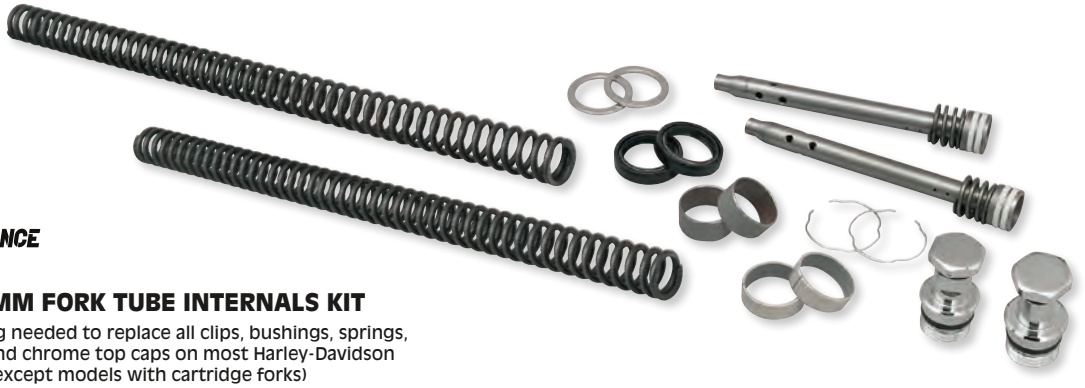
FORK SPRINGS

- High-quality, high-performance replacement fork springs
- A Progressive Suspension rate spring has the advantage of a rising rate resistance to compression
- The benefit is the spring can be soft enough at the start of the travel to offer a "plush" ride, yet firm enough at the end of the travel to soak up the big bumps
- Spring rates have been chosen to reduce front-end dive during braking, yet still provide excellent ride comfort
- Sold in pairs

PART #	DESCRIPTION
DS-222048	For 84-99 FXST/FXSTD/FLST/FLSTF; 93-98 FXDWG; 84-98 FLT/FLHT/FLTR; 94-98 FLHR (41 mm)
DS-222040	For 84-87 FXRT; 84-87 FXR/FXRS; 85-86 FXRD; 85-86 FX/FXE/FXS/FXSB; 86-87 XR (35 mm)

PART #	DESCRIPTION
DS-222056	For 87-94 FXLR; 88-94 FXR/FXRS; 88-03 XL (39 mm)
DS-222045	For 95-98 FXD
DS-222057	For 87-94 FXRSP/RT

All part numbers in BLUE are new for the OldBook.



PRO PERFORMANCE PRODUCTS

PART #	DESCRIPTION
DS-240350	For 76-87 FX; 76-85 XL (Showa) models; repl. OEM #45404-75
0406-0026	For 91-98 FXD and 87-94, 99-00 FXR models w/ 39 mm forks; repl. OEM #45401-87

All part numbers in BLUE are new for the OldBook.

Performance Machine

FORK BRACE

- CNC-machined billet aluminum
- Modular design for easy installation without the need to remove the legs
- Available in Black Ops™ and Contrast Cut™
- Contrast Cut™ finish starts with a polished air cleaner that has been black anodized, then recut to open the design
- Black Ops™ finish features gloss black on top of a contrasting textured black finish for outstanding durability and looks
- Includes mounting hardware

41 MM CHROME WIDE GLIDE TWEEK BAR

- Original Randy Smith design
- As in the good old days with extended front tubes, the need for a tweek bar is here again
- Vast improvement over the tweek bars used back in the 60s and 70s
- Features lightening holes with a compound arc for added strength and great looks
- Bolts directly to the fork tubes

Custom Cycle Engineering

Randy Smith

PART #	DESCRIPTION
2406-8002	For 80-86 FXWG

KURYAKYN

FORK BRACE

- High-quality, chrome-plated, die-cast aluminum fork brace
- Clamps to the lower fork leg below the dust cap
- Total adjustability prevents binding that may occur with one-piece fork braces

PART #	DESCRIPTION
DS-222098	For 84-99 FXST, 80-86 FXWG, 93-98 FXDWG (not for use w/ shrouded forks)

DRAG Specialties

CHROME FRONT FORK BRACES

- Increase the torsional rigidity of your front fork
- Provide a great looking accessory that also improves handling
- CNC-machined from solid billet aluminum, then high-luster polished and chromed to perfection

0415-0017

0415-0018

0415-0014	Black
0415-0022	Black Ops

CUSTOM ENGINEERING CYCLE

STEERING DAMPER SYSTEM

- This complete steering damper system stabilizes the front fork and helps prevent front-end wobble
- Custom-designed $1^1/_4$" clamp and bracket ensure that the included steering stabilizer is positioned in the optimum location
- Fully adjustable to accommodate most styles of riding
- Must use OEM engine guard

NOTE: If equipped with OEM air baffle #58520-79A, it must be removed prior to installation.

NOTE: Not for trikes or bikes with raked triple trees or raked frames.

PART #	DESCRIPTION
0414-0459	For 97-98 FLHR, FLHT, FLHTCU, FLTR models

DS221909

DRAG Specialties

STEERING DAMPER KITS

- Dampen unwanted fork oscillations (speed wobble)
- Seven-position hydraulic steering dampers
- Fully adjustable; allows full-fork movement from stop-to-stop
- Satin finish body and clamps
- Includes required mounting hardware and instructions for installation
- Great accessory for trikes and sidecars

PART #	DESCRIPTION
DS221907	For 86-99 FXST models

PART #	DESCRIPTION
DS221909	For 91-98 FXD

All part numbers in **BLUE** are new for the OldBook.

DRAG Specialties

PREMIUM RIDE-HEIGHT ADJUSTABLE SHOCKS

- Nitrogen-charged steel monotube damper bodies with hard chrome-plated shafts
- Dual-rate progressive wound springs for a smooth, comfortable ride
- Adjustable spring preload
- Ride-height adjustable, +/- 12,7 mm (1/2") from size listed
- Chrome shocks feature chrome springs and damper bodies with clear anodized end caps/eyelets
- Black shocks feature black springs and damper bodies with black end caps/eyelets
- Available in standard or heavy-duty applications (loads over 300 lb.)
- Mount with existing hardware

NOTE: Lowering the motorcycle will reduce ground and cornering clearance.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact, as well as chain/belt guard or tire contact.

NOTE: OEM upper shock mount covers will not fit with these shocks.

NOTE: Not for use with rear lowering kits.

LEGEND REVO DYNA COIL SUSPENSION

- Available only in Black Type III hard-coat anodize
- Legend's touring specific spring rates produce superior ride quality and performance
- Coils provide improved plush ride quality, control and resistance to bottoming out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Unique spring rate offers ability to soften preload and/or reduce ride height while maintaining a smooth ride
- Allows minimal pre-load adjustments by hand when changing between riders' weights or loads
- Adjusts by hand, no tools needed
- Available in 30,5 cm (12"), 33 cm (13"), and 35,5 cm (14"), standard or heavy-duty applications
- Easy installation and alignment, provided by spherical bearings on both top and bottom mounting points
- High-flow piston reacts quickly for improved fluid flow management
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Low friction sealing system and sliding bearings for improved performance and feel
- Sold in pairs

NOTE: Heavy-duty application is recommended for 113 kg (250 lb)+ rider and passenger total weight.

NOTE: Harley Davidson OEM #s 54666-08 (two), 7880 (two) and 8185 (two) are required for 91-98 models.

NOTE: 35,5 cm (14") shocks require short exhaust.

LEGEND REVO ARC PIGGYBACK

LEGEND REVO-ARC PIGGYBACK FXR COIL SUSPENSION

- Legend's touring specific spring rates produce superior ride quality and performance
- Coils provide improved plush ride quality, control, and resistance to bottoming out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Allow minimal pre-load adjustments by hand when changing between riders' weights or loads
- Adjusts by hand, no tools needed
- Available in 33 cm (13") and 35,5 cm (14"), standard or heavy-duty applications
- Easy installation and alignment, provided by spherical bearings on both top and bottom
- 35 mm monotube construction
- Deflective disc valve stacks
- Balanced/Matched piston and base-valve design specific for these motorcycle applications
- Low friction sealing system and sliding bearings for improved performance and feel
- Seven external knob adjustments allow fine-tuning of rebound
- Seven external knob adjustments allow fine-tuning of compression
- Provide optimum rebound and compression performance for any given rider weight, personal ride quality preference, or personal riding style
- Nitrogen gas bladder design allows ultra-fast response and stiction-free movement
- Light to heavy riders can fine-tune ride preference

FAIRING-MOUNTED LED BACKLIT PSI GAUGES

- Fairing mounted, illuminated PSI gauge
- 0-150 PSI full sweep air gauges by Auto Meter
- Colors and designs match factory gauges
- Easy, direct installation replaces ambient air temperature gauges in 97-98 fairings
- Plug-in wiring and color-matched LED bulbs so these look OEM
- Kit includes gauge, 2,4 m (8') of air line, tubing cutter, Y-fitting and straight female fitting
- Black gauge accepts chrome bezel from stock gauge if desired

NOTE: Does not fit rocker box style gauge mounts.

NOTE: Not intended for use with Softail AIR ride systems.

CHROME LEGEND HANDLEBAR MOUNTED CONTROLS

- Replaces black handlebar control that comes as standard equipment in all Legend Air Ride kits
- Deutsch-style wire connector is compatible with all current generation NAMZ/Legend wire harnesses
- Fits 25 mm (1") and 31,7 mm (1 1/4") handlebars

PART #	DESCRIPTION
0616-0207	Switch assembly w/ Deutsch connectors

SHOCKS

HYPERPRO

- High-performance, 7075-T6 aircraft aluminum construction; a wet born piston rod and self-adjusting bearing
- Radial piston with straight flow and preload through a pre-combustion oil chamber offers optimum response
- Anti-block system features a separate overpressure valve that prevents the shock from hydraulic lock
- Anti-fading damping system
- Rebound/compression adjuster; 50/30 clicks
- Feature progressive spring and threaded spring preload adjuster
- Adjusted for a solo rider and occasional two-up riding; spring load can be adjusted to personal preference

NOTE: When rear fender clearance allows, the low shocks also fit on other H-D motorcycles not listed in the charts.

FREQUENCY SENSING TECHNOLOGY

GTÜ APPROVED TÜV APPROVED

See chart for details

444 SERIES SHOCKS

- Features the all new Frequency Sensing Technology (FST) which allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Deflective disc valving
- Adjust spring pre-load by hand, no special tool needed
- Include a progressive rate-spring and is high-pressure gas charged for consistent performance
- Standard or heavy-duty spring rate with black or chrome finish

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may slightly alter the head angle and provide somewhat slower steering.

NOTE: For OEM shock lengths, see the Quick Reference Guide in the back of this catalog.

NOTE: Heavy Duty Applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

412 SERIES SHOCKS

- Manufactured from the finest materials available
- Designed specifically for Harley models
- The 412s' simple, durable design makes them a cost-effective improvement to your motorcycle's suspension performance
- A five-position cam-style spring-load pre-load adjuster lets you easily dial in your ride
- Available with either a standard or heavy-duty progressive spring rate
- Multiple style options available
- Sold in pairs

Chrome **Black** **Chrome w/ covers** **Black w/ covers**

NOTE: All shocks are measured center-of-eyelet to center-of-eyelet.

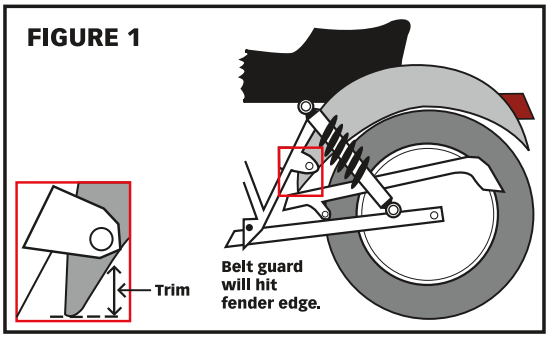
NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may alter the head angle slightly and provide somewhat slower steering.

NOTE: Heavy Duty Applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

FIGURE 1



To use the 279 mm or 292 mm (11" or 11,5") shocks on FXDWG models, the fender must be modified as follows: When the shock is compressed, the belt guard will hit the fender edge (see Figure 1). Trim the fender as shown in Figure 1 inset. After the fender is trimmed, install one shock with springs removed and compress shock to verify that belt guard clearance is sufficient.

12 SERIES 292 MM (11,5") SHOCKS WITHOUT SPRINGS

- Gas-charged with fade-free damping and consistent operation
- Automatic, six-stage damping adjusts to a variety of conditions
- Special cams allow easy pre-load adjustment
- Springs sold separately; available in a variety of rates; PART #s DS-222014-16 and DS-310030-32 are recommended

NOTE: All shocks are measured center-of-eyelet to center-of-eyelet.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

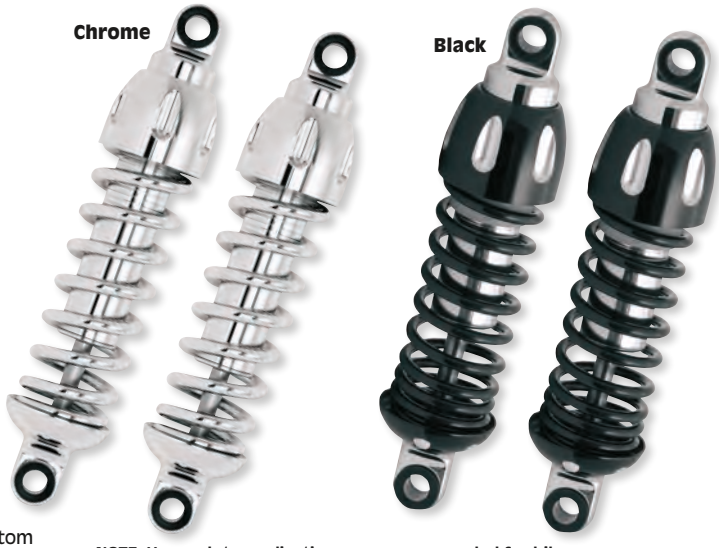
See chart for details

430 SERIES SHOCKS

- Get the best-in-class dampening performance with this high-pressure gas mono tube shock
- Fade-free in any type of conditions
- Feature disk valves for quick and consistent damping
- Threaded pre-load adjuster allows for fine tuning with a simple twist of the cap
- Can be mounted with the pre-load adjuster at the top or bottom
- Available in a chrome or black finish
- Sold in pairs

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may alter the head angle slightly and provide somewhat slower steering.



NOTE: Heavy duty applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

FREQUENCY SENSING TECHNOLOGY

GTÜ APPROVED

944 FST ULTRA TOURING/LOW SHOCKS

- Unique Ultra spring configuration provides the superb ride quality and suspension travel of a 330 mm (13") shock but the custom lowered look of a 305 mm (12") shock
- Low Series shocks are designed to sit even lower; 50,8 mm (2") lower than a stock Touring model
- Built around Progressive Suspension's Frequency Sensing Technology (FST)
- Allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Unique spring combination delivers a dropped ride height while being ridden, but also while the bike is on a side stand
- This allows you to better manage your bike at intersections and when parking
- Adjust spring pre-load by hand, no special tool needed
- Progressive rate main springs specifically designed for touring models
- High-pressure gas charged for consistent performance

NOTE: Heavy Duty Applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

STILETTO SHOCKS

- High-performance damper with dual springs
- Main spring coil absorbs big hits and prevents bottoming, while the secondary coil smooths out minor road imperfections
- Provide a plush ride that's not afraid to play rough
- May require modification to exhaust brackets to open up clearance for belt
- Sold in pairs

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

PROGRESSIVE suspension — GTÜ APPROVED

422 SERIES SHOCKS

- Fully adjustable for ride height and spring pre-load
- Tune suspension to match riding style
- Shocks feature a show chrome cover
- Pair of progressive-rate coil springs and purpose-designed monotube dampers provide superior suspension performance
- Dampers feature a nitrogen charge that eliminates internal oil cavitation and helps create a consistent ride while resisting heat-induced fade
- RAP (Remote Adjustable Pre-load) system allows for easy tuning of shocks to account for changing loads or the addition of a passenger with a remote pre-load adjuster
- Sold in pairs

1310-0204

NOTE: Heavy Duty Applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

PROGRESSIVE suspension — GTÜ APPROVED

422 SERIES SHOCKS WITH RAP

- The Softail chassis has long been a challenge as the shocks are hidden under the frame, which makes common adjustments difficult
- The RAP (Remote Adjustable Pre-load) system allows for easy tuning of the shocks to account for changing loads or the addition of a passenger; conveniently located behind the left passenger peg
- Simply turn the knob in either direction to set the spring pre-load

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

NOTE: Heavy Duty Applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

TIRE HUGGER SERIES FRONT FENDERS

- Steel fenders are thick enough to add rigidity to the front end by acting like a fork brace, but can still be cut or shaped enough for an even more Kustom appearance
- All fenders come predrilled and are stamped, not spun, to ensure a consistent finish and minimize body work
- E-coated to prevent rust and corrosion
- 16", 17", 18" and 19" fenders measure 6,25" outside width and will accommodate up to a 130 series tire
- 21" styles measure 5,875" outside width and will fit the current 120/70-21 series tires on 3,5" wide rims
- 21" Narrow measure 4,5" outside width and will fit models listed with the stock narrow rim and a tire up to 100/100-21
- Installation requires the use of Klockwerks Tire Hugger mounting blocks (sold separately)

HINGED REAR FENDER

- High quality with a raw steel smooth finish and no taillight hole

PART #	DESCRIPTION
DS-393489	For 58-84 FL, swingarm; repl. OEM #59604-65A

QUICKBOB™ REAR FENDER

- Unique steel fender converts the look of a stock XL rear fender to an FXWG-type bobbed rear fender
- Uses XL sissy bar side straps, but it is wider so an 8 1/4" FX-style sissy bar back must be used
- Requires custom mounting
- License plate/taillight mount and your choice of taillight must be ordered separately to complete installation

NOTE: Components cannot be interchanged with OEM or aftermarket parts.

PART #	DESCRIPTION
DS-380061	QuickBob rear fender only for 57-78 XL

CUSTOM QUICKBOB® REAR FENDER

- Wide Glide-style with a raw steel finish
- Accepts stock fender struts and hardware
- Optional chrome license/taillight bracket (PART #DS-270120); sold separately

PART #	DESCRIPTION
DS-380032	For 73-85 FX (except FXWG/FXST/FXR)

DS-393496

DS-393497

FAT BOB-STYLE REAR FENDERS

CUSTOM MALE MOUNT BOARDS

- Made from forged aluminum, these boards are CNC milled for unparalleled strength and durability
- Each board utilizes Big Bike Parts® anti-rotation mount system to allow full adjustability and ensure the boards will not pivot once secured
- Generous board size allows for a comfortable footrest for passengers
- Boards are designed to fit all models with 11 mm (7/16") female foot peg supports

PART #	DESCRIPTION
FOR 72-99 MODELS WITH MALE MOUNTS

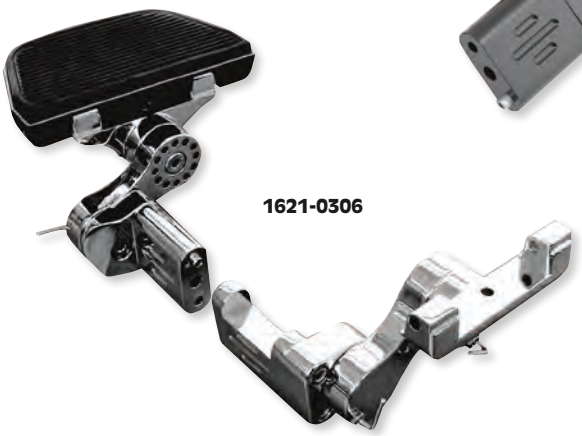
RIVCO

ADJUSTABLE PASSENGER FLOORBOARD MOUNTS

1621-0306



- Made from CNC-machined billet aluminum
- Accept either stock Harley-Davidson® floorboards or any direct-fit accessory floorboard (floorboards not included)
- The ultimate in passenger comfort; movement of the boards forward eliminates the problem of passenger's calves pressing against the saddlebag/guard rail and greatly increase foot and leg support over stock boards
- Adjust in seconds to 12 different positions through a 9" range of motion; simply pull out spring-loaded lock pins, then move the board up or down until pin clicks into next position; no tools required

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHS/FLTR/FLHR	
1621-0301	Chrome, for bikes w/ Original Equipment exhaust
1621-0671	Black anodized, for bikes w/ Original Equipment exhaust

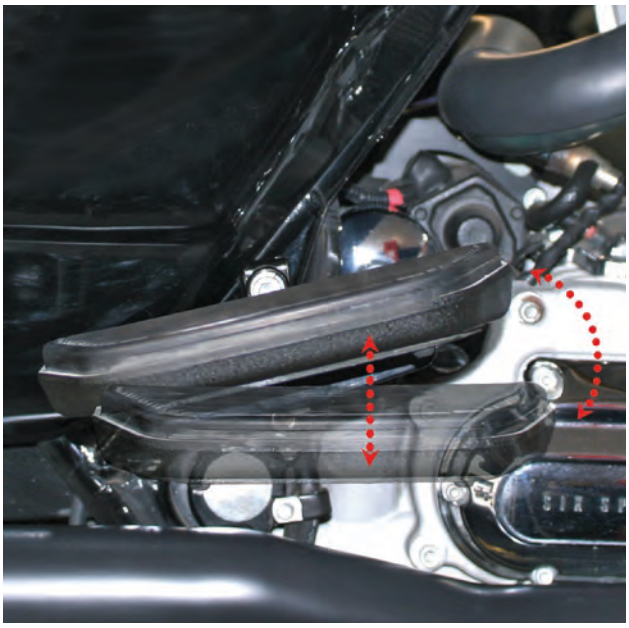
PASSENGER FLOORBOARD TALL COMFORT KIT

- Utilizes your stock floorboards
- Choose from six "comfort" positions of height and tilt
- Provides up to 2½" of additional legroom and widens the floorboards 1½" to help ease hip stress
- Relieves calf stress by tilting the rear of the floorboards
- Relaxes your knees to reduce joint stress
- Install and adjust in minutes

PART #	DESCRIPTION
1622-0243	For 93-98 FLT/FLHT/FLHR/FLTR models



PASSENGER FLOORBOARD SHORT COMFORT KIT

- Provides two additional floorboard positions with blocks and three positions for the floorboards, five positions total both up and down
- Approximately 1¼" to 2" higher than the highest stock setting
- The tilted position places the floorboards at an ergonomic plane relieving stress in the legs and calves
- This tilted position also allows the passenger to push into the boards when cornering, which provides a more secure feeling
- Provides two additional spacing widths to add additional comfort by placing the floorboards wider apart
- The wider position allows passengers to relax their lower body, which takes pressure off of the inner thighs, knees and lower back

PART #	DESCRIPTION
1621-0245	For 93-98 FLT/FLHT/FLHR/FLTR models

KURYAKYN

CHROME DRIVER FLOORBOARD RELOCATION BRACKETS

- Reposition the driver floorboards 1" forward and 1" further out than the stock location
- Compatible with Kuryakyn ISO® Boards and H-D Traditional or Swept Wing floorboards
- Not for use with Cruise Arm Mk III or standard length Cruiser Arm Mk IV

PART #	DESCRIPTION
1621-0170	For 97-98 FLHT/FLHR/FLTR

KURYAKYN

DRIVER FLOORBOARD SPACERS

- Move the stock driver's floorboards out ¾"
- Help alleviate hot air buildup by moving the thighs/lower legs slightly away from the bike to improve airflow
- Mounts are powdercoated black
- Mounting bolts are stainless steel
- Will work with OEM fairing lowers

PART #	DESCRIPTION
1621-0466	For 83-98 FLT/FLHT/FLHR/FLTR (not for use w/ display stand OEM #99002-97)

All part numbers in BLUE are new for the OldBook.

PINGEL Since 1967

PASSENGER FLOORBOARD EXTENDERS

- Billet aluminum construction with a polished finish
- Extenders move the passenger floorboards out 1"
- Work great on stock motorcycles to give the passenger increased comfort; necessary when using oversized primary covers such as the Barnett billet aluminum cover

PART #	DESCRIPTION
1621-0069	For 83-98 FLT/FLHT/FLHR/FLTR models

PINGEL Since 1967

DRIVER FLOORBOARD EXTENDER KIT

- Moves the floorboards outward 1 1/4"
- Provides greater comfort by moving the legs away from the gas tank and engine heat
- Works well with oversized primary covers
- Kit is easy-to-install using included hardware
- Billet aluminum with a black finish
- Compatible with fairing lowers, but not with centerstand

PART #	DESCRIPTION
1621-0098	For 83-98 FLT/FLHR/FLHT/FLTR models

ARLEN NESS

"RAIL" FOOT AND SHIFTER PEGS

DS-253696

DS-253698

- Another unique design from Drag and Arlen Ness
- Protective rubber rails run completely around diameter for great looks no matter how pegs rotate or pivot
- Each is precisely die-cast, chrome-plated aluminum
- End cap is super-clean and uses a Grade 8 countersunk flat-head socket screw
- Very tight tolerances ensure a great-quality, superstrong footpeg assembly
- Carbon-steel pivot ends are stronger than other die-cast pivots
- Peg diameter is 1 1/2" (between a standard large-size driver and the smaller passenger-style pegs); length is 4" without pivot end
- Shifter peg matches footpegs
- Sold in pairs with pivot ends installed

PART #	DESCRIPTION
DS-253696	"Rail" pegs w/ male mount
DS-253700	Small dia. (1 1/4") "Rail" footpegs w/ male-mount

ADJUSTABLE SERRATED BILLET FOOTPEGS AND SHIFTER PEGS

- Give your bike a unique design twist with these all-billet aluminum serrated footpegs
- Fully CNC-machined from solid 6061-T6 bar
- Superstrong, yet lightweight two-piece construction
- The comfortable serrated foot surface area provides a good "bite" onto the bottom of your shoe
- Footpegs available in original or heel style with Joker's exclusive pitch adjustment screw that enables you to adjust the pegs to a "level" riding position (if necessary) so the pegs don't appear to "lay down" with time, vibration, etc.
- Feature full 360° footpeg rotation making them perfect for any application
- Serrated shift pegs have serrations on the top surface only, and the bottom side is smooth to provide non-shoe-damaging upshifts – install easily to most stock H-D shift arms with a threaded $^{5}/_{16}$"-24 mounting hole
- Available in your choice of natural clear anodized, hard black anodized or raw aluminum finish
- Male-mount footpegs are available in three different lengths and fit most models with standard Harley female footpeg mounts
- Footpegs sold in pairs; shifter pegs sold each

FOR ALL MODELS WITH STANDARD FEMALE FOOTPEG MOUNTS

PART #	DESCRIPTION
ADJUSTABLE HEEL FOOTPEGS; $4^{3}/_{16}$" LONG X $3^{7}/_{8}$" WIDE X $^{13}/_{16}$" THICK	
1620-1150	Black anodized

RIBBED SHIFT PEGS; 2" LONG	
1603-0274	Black anodized

ROAD RACING FOOTPEGS AND SHIFT PEG

1620-1059

1603-0197

- Footrests feature an intricately CNC-machined tread pattern in the top surface for optimal footing
- Much lighter than stock and have an angled design for better road clearance when cornering
- Replace stock rubber or cast iron units
- Machined from solid blocks of 6061-T6 billet aluminum
- Full 360° footpeg rotation makes these footpegs perfect for any application
- Male-mount footpegs have Joker's exclusive pitch adjustment screw to maintain the proper upward angle of the peg
- Dimensions $3^{1}/_{4}$" L x $1^{1}/_{4}$" W
- Shifter peg is fully CNC-machined from 6061-T6 aluminum
- Super-strong, yet lightweight one-piece construction
- Installs easily to most stock H-D shift arms with a threaded $^{5}/_{16}$"-24 mounting hole (replaces the stock rubber unit)
- Both footpegs and shifter peg are available in hard black or clear anodized finish

DRAG Specialties

CHROME AXLE CAPS FOR 3/4" AXLES

- Styled after the FL accessory cap set, OEM #43895-56
- Each set includes caps for both the axle nut and axle head (where required), setscrews and hex key wrench
- Each cap has an internal hex to allow more thickness for the setscrew's thread, eliminating thread-stripping

- See the chart for fitment applications

NOTE: Will not work on late-model rear axles with cotter key locking devices.

FEULING

HEAD BOLT KITS

- Quality hex-head, hardened stainless steel bolts with a "show" corrosion-resistant finish
- Tensile strength rated @ 180.000 psi; superior and stronger than OEM and grade 8 fasteners
- Precision j-form threads for optimum engagement, to prevent galling and promote more consistent torque loading
- Wide underhead flange bolts and hardened chamfered washers provide even load distribution for optimum sealing of surfaces to prevent leaks
- Eliminates thread problems associated with chromed and soft stainless steel hardware
- Manufactured by ARP® to Feuling's exact specifications.

PART #	DESCRIPTION
2401-0825	For 85-99 Evolution Big Twin

LIFTER BASE SCREW KITS

- Include eight chrome socket-head screws

PART #	DESCRIPTION
DS-190699	For L76-99 Big Twin (1/4"-20)
DS-190700	For 36-E77 Big Twin (1/4"-24)

GARDNER WESTCOTT

ROCKER BOX MOUNTING KIT

- Kit contains all necessary hex-head bolts, Allen-head bolts and washers needed to install a pair of rocker boxes on a motor

PART #	DESCRIPTION
DS-190307	For 84-99 Evolution Big Twin

ROCKER COVER BOLT KIT

- Kit includes eight countersunk screws with dished washers and eight Genuine James paper washers

PART #	DESCRIPTION
DS-189703	For 84-99 Evolution

2401-0433

2401-0434

ROCKER ARM STUD AND NUT KITS

- High-quality studs and flexloc nuts
- Eight studs and nuts cover one cylinder head

PART #	DESCRIPTION
FOR 48-65 PANHEAD	
2401-0433	Parkerized studs; repl. OEM #17647-48
2401-0434	Cad-plated flexloc nuts; repl. OEM #7727

Eastern M C Parts

ROCKER BOX STUD KIT

- Includes eight long studs, two short studs and one top motor mount stud
- One kit required for each head

PART #	DESCRIPTION
0930-0027	For 66-84 Shovelhead

2401-0864

MOTOR CASE STUD KITS

- Contain all necessary hardware to bolt together stock motor cases
- Available in cad plating

PART #	DESCRIPTION
2401-0864	For 79-95 Big Twin
2401-0863	For 70-78 Shovelhead
2401-0862	For 65-69 Shovelhead

PART #	DESCRIPTION
2401-0861	For 48-64 Panhead
2401-0860	For 40-47 Knucklehead

Eastern M C Parts

TOP MOTOR MOUNT STUDS

- Sold in a 4-pack

PART #	DESCRIPTION
0930-0110	For 48-84 FX/FL; repl. OEM #16864-48

All part numbers in BLUE are new for the OldBook.

FEULING

CYLINDER STUD KIT

- Superior in strength and performance; designed to exceed needs of high-performance engines
- Stock replacement; reusable studs recommended for all V-Twin engines
- Precision J-form threads for optimum engagement, to prevent galling and promote more consistent torque loading
- Manufactured by ARP® to Feuling's exact specifications
- Kit includes eight cylinder studs, moly assembly lubricant and thread sealant

PART #	DESCRIPTION
2401-0203	For 85-99 Evolution Big Twin

2401-0885

2401-0888

PROVEN S&S PERFORMANCE

REPLACEMENT CYLINDER STUDS

- High-quality replacement cylinder studs provide increased strength and extended durability
- Meet or exceed OE standards
- Sold in 8-packs

PART #	DESCRIPTION
2401-0885[1]	For 84-99 Evolution Big Twin models
2401-0888[2]	For 84-99 S&S special application cases

[1] For Big Twin engines with less than 4" bore cylinders only.
[2] For Big Twin engines with 4", 4 1/8" or 4 3/8" cylinder bores only.

Kibblewhite Precision Machining Manufacturer of Valvetrain Components

CYLINDER STUDS

- Made of U.S. milled-and-certified aircraft-quality materials
- Stud body is the same size as the major diameter of the stud thread, allowing for a stronger stud and stronger body
- The complete surface has been ground to remove all the imperfections of standard rough-milled material, which also removes notch sensitivity
- Threads are rolled under hydraulic force, creating the strongest possible thread
- A radius is ground on the last thread to reduce the potential of the stud failing at that point
- Sold in a matched set of eight

PART #	DESCRIPTION
DS-199771	For 80" Evolution Big Twin

DS-189953

DS-189954

Colony Where Excellence Is a Standard

REPLACEMENT CYLINDER STUD SETS

- Heat-treated for strength and durability
- Equal or surpass original equipment
- Sold as set of eight

DIAMOND ENGINEERING

S&S AIR CLEANER BOLT KIT

- OEM-style fasteners made from stainless steel with a polished finish
- Manufactured from only the best materials that are certified SDF (Seamless and Defect Free), heat treated to a minimum of 180,000 psi (20% stronger than Grade Eight) and then the threads are rolled to a UNJ3A spec

PART #	DESCRIPTION
1014-0031	For S&S air cleaners

Colony Where Excellence Is a Standard

S&S AIR CLEANER COVER MOUNTING SCREWS

- Chrome-plated custom button-head countersunk Allen screws mount cover on S&S air cleaners
- Three screws per kit

PART #	DESCRIPTION
2401-0125	For 66-84 Shovelhead, 57-85 XL

Colony Where Excellence Is a Standard

CARBURETOR MOUNTING SCREW KIT

- Slotted-head screws
- Parkerized-plated

PART #	DESCRIPTION
2401-0507	#4 x 3/4" parkerized; repl. OEM #27422-39

ROCKER BOX KITS	
2401-0190	For 84-99 Evolution Big Twin
12-POINT TRANSMISSION TOP COVER KIT	
2401-0242	For 87-96 FLT, Softail and FXR models
OEM-STYLE TRANSMISSION TOP COVER KIT	
2401-1158	For 97-98 Touring models
2401-1159	For 87-96 FLT, Softail, 87-00 FXR models

PART #	DESCRIPTION
12-POINT TRANSMISSION SIDE COVER KIT	
2401-0192	For 93-99 Softail models w/ frame-mounted exhaust, 87-99 FLSTC, 87-99 FLSTF, 93-96 FLSTN, 87-90 FXST, 87-99 FXSTC, 87-99 FXSTS, 95-97 FXSTSB, 87-92 Touring models and 87-94 FXR models
2401-1182	For 91-98 Dyna models (replaces exhaust mounting studs with bolts)
OEM-STYLE TRANSMISSION SIDE COVER KIT	
2401-1157	For 87-99 FLSTC, 87-99 FLSTF, 93-96 FLSTN, 87-90 FXST, 87-99 FXSTC, 87-99 FXSTS, 95-97 FXSTSB w/ frame mounted exhaust, 87-92 FLT/FLHT/FLHR/ FLTR models and 87-94 FXR models
2401-1163	For 91-98 Dyna models (replaces exhaust mounting studs with bolts)

2401-0152

2401-0178

2401-0153

2401-0179

12-POINT AND SOCKET-HEAD POLISHED STAINLESS INDIVIDUAL BRAKE AND PULLEY BOLT KITS

- Polished to a mirror finish
- Custom 450 stainless steel
- 12-Point bolts have 180.000 psi tensile, which is 20% stronger than Grade 8
- UNJ3A rolled threads
- Belt/sprocket kits are ideal for high-performance applications; Race Proof® belt/sprocket bolts can withstand as much horsepower as you can throw at them – many Harley Top Fuel racers use these same bolts without fail for over a decade

PART #	DESCRIPTION
12-POINT FRONT CALIPER MOUNT KITS (TWO REQUIRED FOR DUAL DISC)	
2401-0152	For 84-99 all models
SOCKET-HEAD FRONT CALIPER MOUNT KITS (TWO REQUIRED FOR DUAL DISC)	
2401-0833	For 84-92 Big Twin and XL models
12-POINT REAR CALIPER MOUNT KITS	
2401-0178	For 87-99 Evolution Big Twin all models
12-POINT FRONT BRAKE ROTOR KITS (TWO REQUIRED FOR DUAL DISC)	
2401-0153	For all 84-98 Big Twin models
2401-0154	For 84-98 Narrow Glide Big Twin models
12-POINT REAR BRAKE ROTOR KITS	
2401-0181	For 92-98 Big Twin
12-POINT BELT/CHAIN SPROCKET KITS	
2401-0179	For 73-99 Big Twin models w/ cast wheels and 95-99 Big Twin models w/ laced wheels

All part numbers in BLUE are new for the OldBook.

CHASSIS/TRIM DRESS-UP FASTENER KIT

- Includes front right rotor (bolts do NOT clear speedo for left rotor), fork clamps, headlight bracket, voltage regulator, rear fender struts, upper rear shocks (requires drilling larger fender hole), lower rear shocks, rear rotor, rear pully/sprocket, rear swing arm supports, front stabilizer, side covers (right and left), dash board, foot pegs (right and left), shifter peg, front axle nut
- Quality 12-point hardened stainless steel bolts with a "SHOW" corrosion-resistant finish
- Features precision-rolled threads for optimum engagement, to prevent galling and promote more consistent torque loading
- Wide underhead flange design provides even load distribution for optimum sealing of surfaces – preventing leaks
- Top engine builders demand quality fasteners! Secure your engine with complete confidence
- Eliminates thread problems associated with chromed hardware
- Tensile strength rated @ 170.000 psi; superior and stronger than OEM and stronger than grade 8 fasteners
- Manufactured by ARP® to Feuling's® exact specifications
- Kit includes moly assembly lubricant for installation

PART #	DESCRIPTION
2401-1103	For 85-99 FXR

2401-0949

12-POINT ENGINE FASTENER KITS

- Top engine builders demand quality fasteners! Secure your engine with complete confidence
- Quality 12-point heat-treated 8740 chrome moly steel bolts with black oxide finish or 12-point heat-treated stainless steel
- Feature precision-rolled threads for optimum engagement, to prevent galling and promote more consistent torque loading

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
2401-0949	Rocker housing fastener kit includes 12-point heat-treated 8740 chrome moly steel bolts with black oxide finish for support, breather and rocker box housing bolts and washers
2401-0816	Exhaust studs/lock nuts kit includes 12-point heat-treated 8740 chrome moly steel bolts with black oxide finish
2401-1104	External engine fastener kit includes 12-point stainless bolts/ washers for front engine mount, front case mount, rear engine to trans mount, oil filter adapter mount, upper oil pump, cam cover, case nuts (use factory bolts), rocker covers with sealing washers

2401-0816

2401-1102

- Wide underhead flange design provides even load distribution for optimum sealing of surfaces, preventing leaks
- Tensile strength rated @ 170.000 psi; superior and stronger than OEM and stronger than grade 8 fasteners
- Manufactured by ARP® to Feuling's® exact specifications
- All kits include moly assembly lubricant for installation

PART #	DESCRIPTION
FOR 85-99 FXR	
2401-1102	External primary/transmission bolt/washer kit includes 12-point stainless bolt/washers for outer primary cover, inner primary cover outer front bolts, derby cover, inspection cover, shifter lever, transmission top cover, transmission bearing housing, transmission clutch release cover

DS-190995

BUTTON-HEAD BOLT ASSORTMENT KIT

- Kit contains polished chrome button-head bolts ranging in size from 8-32 to 3/8"-24 in lengths up to 1"; sold in 10-pack
- 1/4", 5/16" and 3/8" bolts longer than 1" are not included, but may be ordered separately; sold in 5-pack
- Replacement packs are available for all sizes listed

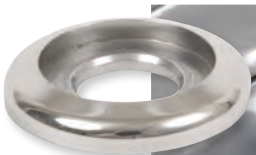
POLISHED STAINLESS STEEL FLANGE WASHER SYSTEM



2404-0490

- This system cleans up the stamped flat edge and stepped look of standard flat washers when used with Race Proof™ 12 Point flange bolt
- Every washer is specifically engineered for each size bolt with several key design features
- A precision counterbored hole is CNC-machined for the bolt to sit down inside of the washer – when the bolt is installed in the washer the two flanges meet for an almost seamless look
- All washers also feature a tight tolerance hole with an ID chamfer to clear the large under-head radius on Race Proof™ bolts
- To achieve a highly reflective finish a large radius is machined on the edge of each washer – a radius will "shine" and reflect more light than a square edge
- Finally each washer is polished, by hand, to a perfect mirror finish
- Washers are available for the entire range of bolt sizes from 1/4" through 7/16" in a variety of diameters; conveniently packaged two or four to a pack with 7/16" x 1,062" washers also packaged in a 5-pack for belt sprocket applications

PART #	DESCRIPTION
2404-0490	1/4" x 0,750" (4-pk.)
2404-0491	1/4" x 1,00" (2-pk.)

SADDLEMEN PERFORMANCE OUTFITTER

LARGE E-PAK PERSONAL ELECTRONICS MAGNETIC POUCH

- Sized to be used with modern smartphones, such as the Samsung Note® or iPhone Plus®, but can also be used with a variety of GPS units
- Can be oriented to match the screen format of the device
- Strong magnets keep the weather-resistant pouch secured to the metal fuel tank
- Each magnet is shielded to prevent interference with the device's electronics
- Compartment includes a removable plush pad and foam mat you can trim to custom fit the device
- Large plastic window transfers electrostatic energy, allowing for touchscreen operation with bare fingers or electrostatic-transmitting gloves
- Rubberized pouch back protects the motorcycle's paint finish while the perimeter zipper allows for easy stowage and removal
- Audio plug access port can be accessed through adjustable zipper opening
- Dimensions: 4,5" W x 7" L x 3/4" tall

PART #	DESCRIPTION
3502-0312	Large E-pak

SADDLEMEN PERFORMANCE OUTFITTER

TANK BAG E-PAK

- Bring your smartphone, GPS or other electronics on your motorcycle
- Strong magnets keep the weather-resistant pouch secured to your metal fuel tank (magnets are shielded to reduce interference with all electronic devices)
- Large plastic window transfers electrostatic energy so you can operate the touch screen of your device
- Rubberized material protects bike's finish
- Long perimeter zippers for easy access to device
- 5" W x 3 1/2" L x 3/4" T compartment includes a removable plush pad and foam mat that can be trimmed for a custom fit of your device

9903-0650	Floor stand seat display

BATTERY DISPLAY RACK

- Holds a great selection of Drag Specialties batteries in less than two square feet of floor space
- Measures 62 cm L x 25,5 cm W x 119 cm H (24 1/2" x 10" x 47")
- Easily assembled – no tools required
- Colorful header card included

PART #	DESCRIPTION
9903-0022	Battery display rack

YUASA BATTERY DISPLAY RACK

- Heavy duty steel construction with three large wire shelves
- Includes wheel-kit for easy mobility
- Shelf liners included
- Measures 37" W x 62" H x 15" D

PART #	DESCRIPTION
9903-0154	Yuasa battery rack

All part numbers in BLUE are new for the OldBook.

DRAG SPECIALTIES FLOORMAT

- Features a large three-color Drag Specialties logo and a nylon printed top with rubber back

PART #	DESCRIPTION
9905-0135	48" W x 72" L

DRAG SPECIALTIES METAL TACKER SIGN

- Promotional metal tacker sign
- Made from die-cut and embossed 0,025" aluminum
- Measures approximately 23,5" W x 7" H

PART #	DESCRIPTION
9904-0260	Drag Specialties metal sign

SLYFOX

MAT

- Designed to not only dress up your pit area or shop floor, but are also environmentally friendly
- Bike mats can absorb up to 6 liters of fluid like radiator coolant, oil, and any other solvent-based products that can harm the environment, by being contained within the mat, or help absorb mud and water at entrance to your store
- Not only are they lightweight, but can easily be washed and reused

PART #	DESCRIPTION
9201-0074	Floor mat

DS-800108

DRAG Specialties

DRAG SPECIALTIES DEALER BANNERS

- Two-color plastic exterior banner with four eyelets
- Sold each

PART #	DESCRIPTION
DS-800108	Drag banner, 1½' x 4'
DS-800109	Drag banner, 2½' x 8'

KLOCK Werks

METAL SIGN

- 0,025" die-cut aluminum sign
- Draw attention to display areas or windows
- Measures 14" W x 17,5" H

PART #	DESCRIPTION
9904-0768	Klock Werks logo

LA CHOPPERS SIGN

- Three-color LA Choppers logo
- Metal construction
- Measures 23,5" W x 14,65" H

PART #	DESCRIPTION
9904-0977	LA Choppers metal sign

All part numbers in BLUE are new for the OldBook.

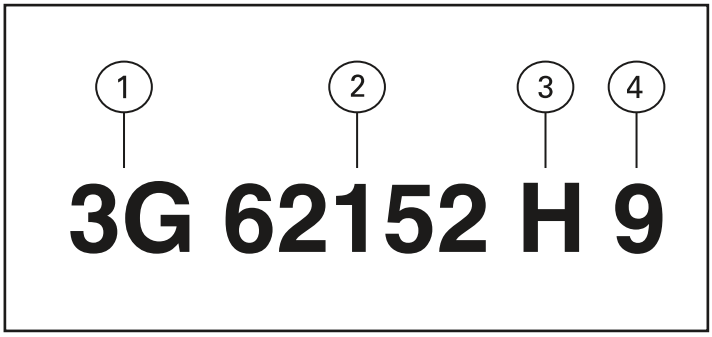
SEQUENTIAL NUMBER

REFERENCE #	DESCRIPTION
3	Sequential number (four digits)

VEHICLE IDENTIFICATION NUMBER 1970 TO 1980 MODELS

- Serial number identification for Harley-Davidson models
- Serial number located on engine case as well as the frame neck area



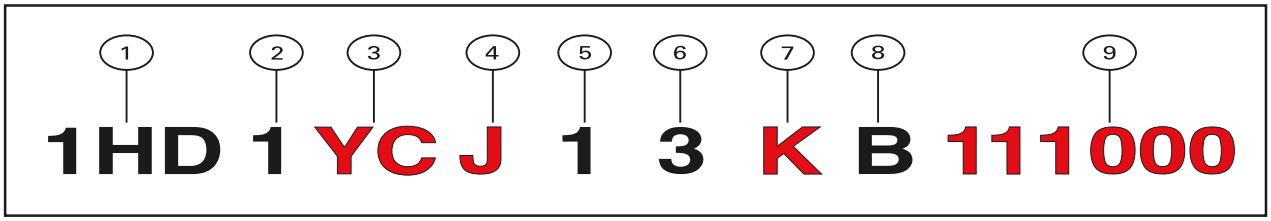
Typical Harley-Davidson VIN

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
1	First two digits	1A FL-1200
		1H FXB-80
		1K FLH-80 (Shrine)
		2A FL-1200
		2C FX-1200
		2F FXS-1200
		2G XLT
		2H CLE (Side Car)
		3A XLH (Sportster)
		3G FLH-80
		3G FLH Classic (1979)
		3H FLH Classic (1980)
		4A XLCH (Sportster)
		4E XLS
		5E FXFE-1200
		5H FLHS-80
		6E FXEF-80
		6H FL-80
		7G FXS-80
		7H FLH-1200 (Police)
		8H FLH-1200 (Shrine)
		9G FXWG-80
		9H FLH-80 (Police)

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Next five digits (sequential numbers)	1970 through 1977 #10000 and up
		1978 through 1980 #60000 and up
		Side Cars #80000 and up

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
3	Second to last digit (decade)	H = 1970 through 1979
		J = 1980

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
4	Last digit (year)	0 = 1970 OR 1980 (depending on item #3)
		1 = 1971
		2 = 1972
		3 = 1973
		4 = 1974
		5 = 1975
		6 = 1976
		7 = 1977
		8 = 1978
		9 = 1979



VEHICLE IDENTIFICATION NUMBER
1981 AND LATER MODELS

- Engine Identification Number consists of an abbreviation of the VIN. Numbers/letters above in RED are used in the Engine Identification Number

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
1	Origin of manufacture	1HD - manufactured in the USA
		5HD - manufactured in the USA for sale in other countries
		932 - manufactured in Brazil
		MEG - manufactured in India
		MLY - manufactured in Thailand

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Type of motorcycle	1 - Heavyweight - (over 900cc)
		4 - Middleweight - (351cc to 900cc)

Air deflectors, fairing 37
Air filter elements 325
Air filters 312-313, 315, 318, 322, 325-326
Air horns 582-583
Air intake assemblies emission control regulatory information 5
Air intakes 316
Air pressure sending units 1019
Air pressure sensors 1019
Air shocks 1090
Air stem 852
Air/wind deflectors for forks/frames/triple trees 1044

Airhawk
- Seat pads 199

Alarms for motorcycle covers 1224

All Balls
- Carburetor jet kits 305
- Carburetor rebuild kits 295, 297
- Fuel mixture screw 305
- Fuel pump module rebuild kit 979

Allen cap screw kits 275
Allen-head bolt end plugs/plug kits 1214-1215

Alloy Art
- Axles 1183
- Compression release adapters 355
- Drive cush conversion systems 496

Alloy Art (CONT)
- Extended handlebar wiring harness 599
- Fairing support brackets 37
- Foot/shifter pegs 1144
- Front motor plates 402
- Fuel tank mounting bushings 967
- Handlebar riser bushings 808
- LED front turn signal kits 677
- License plate mounts 729
- Marker lights 677
- Motor mounts 403
- Quick detach EZ bag mounts 122
- Rear footpegs/shift pegs 1144
- Shift linkages 477, 479
- Shifter shaft primary plug 485
- Shooter taillight kits 692
- Stabilizers/kits 1039
- Swingarms 1036

Alternator stators/rotors 562-564

Alto
- Clutch hub lining 467
- Clutch plate kits 462
- Clutch plates 460-462
- Diaphragm clutch springs 463

Amplifier adapter kits for FLTR 614
Amplifier kits 610
Amplifier mount kits 614, 619
Amplifier/speaker kits 611
Amplifiers 610, 614
AN washers 1210
Analog gauge packages 1013-1014

Andrews
- Belt drive transmission pulley 493
- Cam drive gears 384
- Cams 382-384
- Coils 538
- Countershafts/components 421-422
- Gear sets 418
- Mainshafts/components 419-420, 422
- Pushrods 373
- Shifter forks 425
- Valve spring lower collars 364
- Valve spring upper collars 364
- Valve springs 364

Angle plates, kickstand 1041
Antenna caps 620
Antenna relocation kits 620
Antennas 619-620
Antennas, radio/stereo 619
Anti-rattle clip 820

Arlen Ness/Drag Specialties
- Mirrors 845-846

Arlen Ness
- Air cleaner parts and accessories 313
- Air cleaners/kits 312-313
- Air filters 312-313
- Angled saddlebags, hard sided 47
- Antennas 620

Arlen Ness (CONT)

TÜV APPROVED
This logo symbolizes the vendor has the article tested by TÜV according to applicable test methods.

GTÜ APPROVED
This logo symbolizes the vendor has the article tested by GTÜ according to applicable test methods.

DEKRA APPROVED
This logo symbolizes the vendor has the article tested by DEKRA according to applicable test methods.

ECE TYPE APPROVED
This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

EC TYPE APPROVED
This logo symbolizes that the article conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED
This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)
This logo indicates the article's conformity with the Basic Health and Safety Requirements of Directive 89/686/EEC.

ABE
This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

ECE 22.05
This logo symbolizes that a helmet has been tested and certified to ECE 22.05 Regulation.

ELECTRICAL WIRING

WIRE GAUGE CONVERTER

GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø
22	0,33	0,65	16	1,0	1,3	10	5,0	2,6	4	19,0	5,2
20	0,5	0,8	14	2,0	1,7	8	8,0	3,3	2	32,0	6,5
18	0,8	1,0	12	3,0	2,1	6	13,0	4,1	0	52,0	8,3

WIRE GAUGE SELECTOR
It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
5A	30W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
6A	36W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
7A	42W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
8A	48W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
10A	60W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
11A	66W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
12A	72W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
15A	90W	18 AWG	18 AWG	18 AWG	18 AWG	14 AWG
18A	108W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
20A	120W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG
22A	132W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG
24A	144W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG
30A	180W	18 AWG	16 AWG	16 AWG	14 AWG	10 AWG
40A	240W	18 AWG	16 AWG	14 AWG	12 AWG	10 AWG

Horsepower (hp)	0,7457 kilowatt (kw)
SPEED	
Miles per hour (mph)	1,6093 kilometers per hour (km/h)
TORQUE	
Inch force-pounds (in.-lbs)	0,113 newton meters (nm)
Foot force-pounds (ft.-lbs)	1,356 newton meters (nm)
ENGINE CAPACITY	
Cubic Inch Displacements (CID)	16,39 cubic centimeters (cc) (cm^3)
FUEL CONSUMPTION	
Miles per gallon (mpg)	0,425 kilometers per liter (km/l)
	2,35 liters per kilometer (l/km)

FORMULAS

DISPLACEMENT

Bore x bore x stroke x 1,5708 = Displacement in Cubic Inches

Bore x bore x stroke x 25,744019 = Displacement in Cubic Centimeters

Example: A stock 96" Twin Cam has a bore of 3,750" and a stroke of 4,375".

Formula: 3,750" x 3,750" x 4,375" x 1,5708 = 96,64 cubic inch

3,750" x 3,750" x 4,375" x 25,744019 = 1583,86cc

COMPRESSION RATIO

Ratio = Cylinder displacement plus combustion chamber volume divided by combustion chamber volume.

Example: A 96" cubic inch Twin Cam has 794cc per cylinder. Combustion chamber volume is approximately 86cc.

Formula: 794 + 86 = 880 : 86 = 10,2:1 Compression Ratio (CR)

Note: When calculating compression ratio, do not forget to include gasket thickness, valve pockets and ringlands in the piston. CC-ing the heads, filling them with fluid after heads have been installed, will give you accurate numbers.

HEAD/BASE GASKET VOLUME

Bore x bore x 12,87 x compressed gasket thickness = Gasket volume in cubic centimeters

Example: A head gasket has a thickness of 0,045"; bore is 3,750".

Formula: 3,750" x 3,750" x 12,87 x 0,045" = 8,144cc

AREA OF CIRCLE

The radius is the diameter of a circle divided in half.

Radius x radius x 3,1416 = Area of a circle

Example : A stock 96" Twin Cam has a bore of 3,750".

Formula: 1,875" x 1,875" x 3,1416 = 11,05 Inch^2

47,63 mm x 47,63 mm x 3,1416 = 7127,09 mm^2 (71,271 cm^2)

ELECTRICAL: AMPERAGE, WATT AND VOLTS

Understanding electrical current is important to prevent a meltdown within the electrical wiring of a motorcycle. It is useful to calculate what fuse you will need for a certain application.

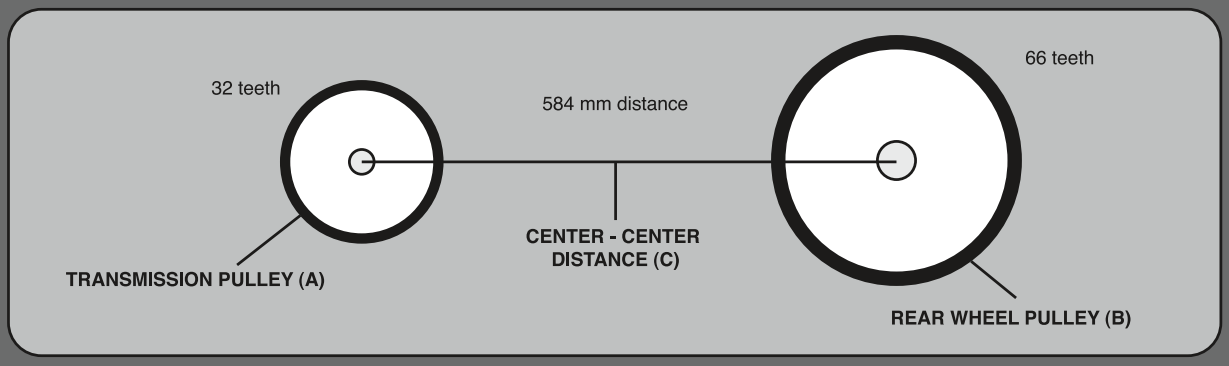
Watt divided by Volt = Amp

Amp multiplied by Volt = Watt

Watt divided by Amp = Volt

- THE 3-STEP BELT FORMULA -

How to find the correct belt



Formula

A = number of tooth transmission pulley
B = number of tooth rear wheel pulley
C = center to center distance between both pulleys

THE 3-STEP BELT FORMULA

Step 1) $\frac{(C \times 2)}{13,8} = D$

Step 2) $\frac{A + B}{2} = E$

Step 3) D + E = Number of teeth

Example

Transmission pulley has 32 tooth
Rear wheel pulley has 66 tooth
Center to center distance is 584 mm

Step 1) $\frac{584 \times 2 = 1168}{13,8 \text{ (belt pitch)}} = 84,6$

Step 2) $\frac{32 + 66}{2} = 49$

Step 3) 84,6 + 49 = 133,6 teeth
This means you must use a 133 tooth belt, because 137 tooth is not manufactured

From Our Garage To Yours

We are the #1 resource for powersports products. We support our dealers, vendors and fans at races, rallies, special events and showcases.
