## ⚠WARNING IMPROPERLY FITTING PRODUCTS COULD CONTRIBUTE TO SERIOUS INJURY OR DEATH.

**SAFETY WARNING:** Riding a motorcycle, snowmobile, ATV/UTV, watercraft or bicycle is a dangerous activity. When riding, always wear a helmet, eye protection and protective clothing. There is no assurance that serious injury or death can be avoided even if you wear the product shown in this catalogue and take all precautions to avoid every risk. Please ensure that your products fit properly. Improperly fitting products can impair your ability to control your motorcycle, snowmobile, ATV/UTV, watercraft or bicycle.

**HELMET FITMENT:** Helmet fit is critical to helmet performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you. Ask your dealer for more information.

# STREET HELMETS

## ULTRAFLITE™ MIPS® HELMETS

- Handcrafted FRP (fiberglass composite) shell for optimum strength with minimized weight
- MIPS® Brain Protection System is the latest tech for mitigating impact forces
- Intermediate-oval head-form fit optimized for the majority of riders
- Zero distortion Fog-Free UltrafliteShield™ with positive lock
- Includes clear Pinlock®-ready shield for added clarity in extreme conditions.
- Oversized Internal DropShield™ for increased eyeshade
- Removable moisture-wicking Hydradry™ comfort liner for a custom fit
- See helmet size guide on page 31 before ordering
- For replacement parts and accessories, see pages 89-92
- Meets DOT FMVSS 218 (US), ECE R22.06 (Europe), & PSC (Japan) helmet safety standards

**NOTE: Does not ship with PSC certification stickers unless purchased from an authorized dealer in that country.**

**NOTE: The DropShield™ visor must only be used while the main face shield is in the fully closed position.**

## AIRFLITE™ MIPS®

- MIPS® Brain Protection System can reduce harmful forces transmitted to the brain in certain types of impacts by allowing a slight uncoupled movement of the shell and liner during a crash
- Injection-molded polycarbonate shell for strength
- Multiple oversized intake and exhaust ports are strategically placed to keep you cool and comfortable, including four intake vents, MX-inspired chinbar vent and two exhaust ports that channel air between the comfort liner and the protective, energy-absorbing EPS foam liner
- Quick-change, fog-free outer FliteShield™ keeps debris away, while the internal, interchangeable DropShield™ keeps the sun in check with a flip of a switch
- Removable molded breath deflector and chin curtain
- Moisture-wicking Hydradry™ interior is fully removable and washable
- Both wind drag and weight are decreased by sculpting the traditional neckline of the Airflite™ to avoid jacket or suit interference
- See helmet size guide on page 31 before ordering
- For replacement parts and accessories, see pages 89-92
- Meets DOT FMVSS 218 (USA), ECE R22.06 (Europe) and PSC (Japan) safety and testing standards

**NOTE: Does not ship with PSC certification stickers unless purchased from an authorized dealer in that country.**

**NOTE: The DropShield™ visor must only be used while the main face shield is in the fully closed position.**

- Moisture-wicking Hydradry™ interior is fully removable and washable
- Both wind drag and weight are decreased by sculpting the traditional neckline of the Airflite™ to avoid jacket or suit interference
- Dark models feature Rubatone™ matte rubberized paint developed to match your riding gear
- See helmet size guide on page 31 before ordering
- For replacement parts and accessories, see page 89-92
- Meets DOT FMVSS 218 (US), ECE R22.06 (Europe) and PSC (Japan) safety and testing standards

**NOTE: Does not ship with PSC certification stickers unless purchased from an authorized dealer in that country.**

**NOTE: The DropShield™ visor must only be used while the main face shield is in the fully closed position.**

## AIRFLITE™ (CONT)

- Injection-molded polycarbonate shell for strength
- Multiple oversized intake and exhaust ports are strategically placed to keep you cool and comfortable, including four intake vents, MX-inspired chinbar vent and two exhaust ports that channel air between the comfort liner and the protective, energy-absorbing EPS foam liner
- Quick-change, fog-free outer FliteShield™ keeps debris away, while the internal, interchangeable DropShield™ keeps the sun in check with a flip of a switch
- Removable molded breath deflector and chin curtain
- Moisture-wicking Hydradry™ interior is fully removable and washable
- Both wind drag and weight are decreased by sculpting the traditional neckline of the Airflite™ to avoid jacket or suit interference
- Dark models feature Rubatone™ matte rubberized paint developed to match your riding gear
- See helmet size guide on page 31 before ordering
- For replacement parts and accessories, see page 89-92
- Meets DOT FMVSS 218 (US), ECE R22.06 (Europe) and PSC (Japan) safety and testing standards

## DISCOVERY HELMETS

- Inner shell construction is EPS material allocated at different densities to disperse energy released in case of impact
- Full face double shell type made up of Dyneema®, carbon and aramid fiber along with epoxy resin
- "Advanced Padding System" kit included with the helmet allows interior to be customized for better fit and comfort
- Interior designed for comfort and wide field of view, with hypoallergenic, removable, washable components treated with sanitized antimicrobial technology
- Easy Fit system allows sufficient space for driving with prescription lenses
- Optimal ventilation ensured thanks to large front intake, chin guard intake and extractors on the back
- Scratch-resistant polycarbonate visor is also equipped with dark inner visor for optimal driving in all weather and light conditions
- Visor features A+ Pinlock® and QRS technology with pins
- Visor closure block on the chin guard is a special mechanism that with simple click makes the helmet quieter and safer at high speeds
- Lightweight, with a small cap weight of 1,580 kg and a large cap weight of 1,650 kg
- Bluetooth® Smart Ready
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## LAND CRUISER HELMETS

- Innovative flip-up helmet easily converts to a dual sport model with the included free kit, blending design and versatility for both touring and off-road use
- Outer shell made from aramid carbon fiber and epoxy resin, offering lightweight, elastic, and impact-resistant performance
- EPS inner shell with variable density for optimal shock absorption
- Visor closure block on the chin guard enhances safety and reduces noise with a simple click
- Scratch-resistant polycarbonate visor and retractable internal dark visor, activated by a lever on the left side
- Pinlock® lens included to prevent fogging and easy to install
- Advanced ventilation system with front air intakes, chin guard vents, and rear extractors for optimal airflow and heat escape
- Equipped with the "Advanced Padding System" for customizable comfort, featuring a completely removable and washable lining made from breathable, sanitized antimicrobial technology
- Easy Fit system ensures a comfortable fit for prescription glasses wearers
- Micrometric closure for quick and easy release, plus pre-configured for Bluetooth® communication system installation
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## SUBVERTER HELMETS

- Thermoplastic outer construction is lightweight and inner construction is made of EPS material with varying density depending on the area to ensure impact response
- Features removable chin section to turn this full-face helmet to a jet helmet
- Visor is injection molded transparent polycarbonate and has anti-scratch treatment
- Internal visor works like sunglasses and can be raised inside the shell
- Ventilation system has two air intakes on the upper part of the shell and two extractors on the back
- Positioning of the interior has been designed to leave view wide and feeling of freedom of movement
- Interiors are removable, washable with sanitized antimicrobial technology
- Prepared for the predisposition of installation of Bluetooth® communication systems
- Strap with micrometric closure makes attachment and release very fast
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## GENIUS EVO HELMETS

A

B

- Flip-up helmet that can be transformed from full-face to open face by raising the chin guard without having to remove it from the shell
- Opening and closing mechanism is operated by a button located on the lower part of the chin guard itself
- Outer shell construction of ABS thermoplastic material which is elastic and impact resistant in case of a impact
- Inner shell construction is made of EPS material with different densities
- Internal ventilation consists of intake on the chin guard and two extractors on upper part of the shell; All ventilation devices are adjustable
- Visor is injection molded in transparent polycarbonate and has anti-scratch treatment
- Pinlock® lens included to prevent fogging and easy to install
- Helmet is also equipped with an internal retractable dark visor which is also anti-scratch treated and operated via a button on the lower edge of the outer shell
- "Advanced Padding System" kit included with the helmet allows interior to be customized for better fit and comfort
- Interiors are also completely removable, washable with sanitized antimicrobial technology
- Easy Fit technology allows driving with prescription lenses
- External housing allows installation of Bluetooth® communication devices
- Micrometric closure strap allows easy adjustment and quick release
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## TYPHOON HELMETS

- Outer shell construction uses two mold sizes to increase performance
- Inner shell construction is EPS material allocated at different densities to disperse energy released in case of impact
- Scratch-resistant polycarbonate visor with a special locking system, also has dark concealed inner visor allowing riding in all weather and light conditions
- Visor is equipped with Pinlock® lens included which can be mounted comfortably without aid of equipment
- Four element ventilation system consists of large air intake on front, one on the chin guard while two extractors on the back allow for optimal ventilation
- "Advanced Padding System" kit included with the helmet allows interior to be customized for better fit and comfort
- Thanks to the Easy Fit system the internal padding has been arranged to include sufficient space for eyeglasses
- Equipped with micrometric chinstrap and is prepared for installation of Bluetooth® communication systems
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## DOKKER HELMETS

- Outer shell construction is ABS thermoplastic material which is lightweight and safe in case of impact
- Inner shell is made of EPS material with varying densities depending on zone ensuring perfect response to impacts
- Main visor is transparent polycarbonate with a scratch resistant treatment, designed to cover the whole face for protection from wind and dust
- Second interior visor is dark for comfort against strong light, working like sunglasses; lower part, once raised causes the visor to disappear inside the shell
- Two air vents in the top and extractor on the back ensure good ventilation
- Removable and washable interior, with a breathable neck protector for added comfort
- Micrometric safety strap makes the hook and release fast
- See helmet size guide on page 43 before ordering
- For replacement parts and accessories, please see pages 93-94
- Meets ECE R22.06 safety standards

## LANE SPLITTER HELMETS

- Biltwell proprietary ABS outer shell with hand-painted finish
- Shock-absorbing expanded polystyrene inner shell
- Hand-sewn removable brushed Lycra® liner with contrasting diamond-stitched quilted open-cell foam padding
- Hand-stitched interior padding, cheek pads and BioFoam chin bar cushion for comfort
- Generous vents in the chin bar get the air flowing and the outlet in back lets hot air escape
- Shield boasts extremely accurate optics and simple hinge mechanics for high style and simple removal
- Mesh pockets are included in the ear recess – perfect for aftermarket drop-in communication systems (not included)
- Injection-molded face shield with the same aluminum hinge covers and mounting hardware
- See helmet size guide on page 51 before ordering
- US DOT FMVSS No. 218 compliant and ECE R22.06 certified

Mips® Koroyd ECE R22.06

## REFLEX SPORT CARBON

### CARBON SHELL

- Carbon shell features pre-impregnated carbon fiber material sheets to increase strength and decrease the shell weight
- Dual-density EPS with integrated Koroyd® impact technology
- The MIPS® Brain Protection System can reduce harmful forces transmitted upon certain impacts
- Contoured cheek pads with quick release pull tabs
- Updated mouth vent system
- Moisture-wicking, antimicrobial "Dry Form" comfort liner, which is removable and washable
- Fully adjustable visor
- Lightweight stainless steel D-rings
- Thor drawstring helmet bag included
- See helmet size guide on page 57 before ordering
- The following standards apply to this product: ECE R22.06 approved

## S-M10 SUPERTECH HELMETS

- Lightweight outer shell is constructed from technologically advanced composite materials in four sizes to ensure a superior fit
- Fitted with E-2, the latest generation of MIPS®, an integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head
- Multiple-density inner helmet liner
- ERS Emergency Visor Release and a new Visor Extension provide protection from roost and the sun
- Alpinestars A-Head Fitment System allows easy adjustment of angle and height
- Superior ventilation system utilizes 18 intake and 10 exhaust ports
- Redesigned chin bar is raised to clear the collarbone, with a new softer EPS liner providing a reduced chance of any sort of collarbone injury
- Emergency release and removable cheek pads
- 3D contoured foam
- Removable comfort liner uses anti-moisture and antibacterial fabrics
- Hydration system prepared
- E-Ject prepared
- Lightweight 1260 g/1310 g with side pads, 1370 g with visor extension
- The following standards apply to this product: meets ECE R22.06 approval
- Available in men's sizes XS-2X; see helmet size chart on page 76 before ordering

## S-M7 HELMETS

- Engineered for offroad racing
- Optimized to offer the perfect blend of superior ventilation and comfort in a lightweight helmet
- Aerodynamic profile design offers a smooth, streamlined shell free of any external channels and features that might act as a load point in an impact or compromise the overall integrity of the helmet's construction
- Shell's curvature promotes reduced friction on impact
- Ultra-ventilated helmet with 20 individual intake and exhaust ports, not including the eye port, with 13 intakes and 7 exhausts, for optimum ventilation
- The visor is engineered to automatically detach from the shell when it is subjected to an impact energy greater than 15 Joules for optimum impact protection, regardless of the direction
- The visor Detaching System features Alpinestars proprietary release mechanism to avoid the inherent weaknesses in other anchoring systems
- Alpinestars Plasma technology is strategically-integrated into the side pads for high performance shock absorption in a critical area, significantly reducing the risk of injuries
- Linings are removable and washable by hand
- Integrated channels on both sides to accommodate a hydration system
- Communication system compatible
- The following standards apply to this product: ECE R22.06 certified
- Available in men's sizes XS-2X; see Alpinestars size chart on page 76 before ordering

## S-M7 HELMETS

- Engineered for offroad racing
- Optimized to offer the perfect blend of superior ventilation and comfort in a lightweight helmet
- Aerodynamic profile design offers a smooth, streamlined shell free of any external channels and features that might act as a load point in an impact or compromise the overall integrity of the helmet's construction
- Shell's curvature promotes reduced friction on impact
- Ultra-ventilated helmet with 20 individual intake and exhaust ports, not including the eye port, with 13 intakes and 7 exhausts, for optimum ventilation
- The visor is engineered to automatically detach from the shell when it is subjected to an impact energy greater than 15 Joules for optimum impact protection, regardless of the direction
- The visor Detaching System features Alpinestars proprietary release mechanism to avoid the inherent weaknesses in other anchoring systems
- Alpinestars Plasma technology is strategically-integrated into the side pads for high performance shock absorption in a critical area, significantly reducing the risk of injuries
- Linings are removable and washable by hand
- Integrated channels on both sides to accommodate a hydration system
- Communication system compatible
- The following standards apply to this product: ECE R22.06 certified
- Available in men's sizes XS-2X; see Alpinestars size chart on page 76 before ordering

## SM5 HELMETS

- Constructed from a special lightweight and impact resistant thermo-injected polymer results in a significantly lighter helmet with increased structural strength and outer shell uniformity in two outer shell sizes
- Inner shell includes multi-density advanced EPS construction for optimal impact absorption performance in three sizes
- Features two concepts for impact energy management including a resin-coated inner shell surface that noticeably improves impact resistance and reduces linear acceleration values and an elastic joint to connect the helmet's inner shell and comfort liner to move independently in a crash scenario with an oblique impact, thereby spreading the energy forces from an impact, reducing rotational acceleration
- Uses Alpinestars Emergency Release System (ERS) consisting of removable cheek pads for safe, quick, easy and safe removal of the helmet by trained medical professionals/ emergency responders in the event of a crash
- Includes a multi-angle, quick-release visor system that is flush over the helmet's shell to diminish the visor protrusion from the helmet thereby enhancing safety, doesn't use screws used in the visor for increased levels of safety and convenience to be easily adjusted and allows for ease of detachment from and reconnection to the helmet in order to facilitate helmet cleaning and maintenance
- Designed to offer exceptional ventilation to prevent overheating on warm track/trail days, with the inner air network channeling combining with the outer-shell's multi-air inlets and exhaust ports for effective ventilation and high levels of heat transfer exchange
- Hydration tube compatible channels are intelligently integrated into the helmet's cheek pads for convenience and performance
- The following standards apply to this product: meets ECE R22.06 approval
- Available in men's sizes listed; see helmet size chart on page 76 before ordering

## SM3 SUPERTECH HELMETS

- Engineered for MX, enduro and offroad riding
- Features a thermo-injected shell incorporating a special polymer blend enhanced by varying degrees of thickness that is engineered to deliver the optimal combination of impact protection and lightweight
- Maximized ventilation and high levels of heat transfer exchange thanks to ten inlets and seven exhaust ports
- The inner and outer surfaces are engineered to minimize the effects of oblique impacts
- Alpinestars proprietary low-friction coating is applied to the inner part of the main EPS liner to reduce the rotational acceleration forces that can result from certain oblique impacts
- This layer essentially acts as a slip plane to mimic the brain's own low-friction cerebrospinal fluid, which is the body's natural defense against oblique impacts
- Alpinestars proprietary visor release system ensures the visor is released with the correct pre-determined amount of force, effectively reducing the forces on the rider's neck during an impact
- Five EPS inner parts with four densities to effectively manage volume and impact performance
- Hydration tube channels are integrated into the helmet's cheek pads for convenience and performance
- Comfort liner is constructed using recycled materials for a lower carbon footprint
- Fit can be tailored to the rider's head thanks to the helmet's crown and cheek pads, which are available as genuine spare parts in different thicknesses
- Equipped with an Emergency Release System (ERS) and removable cheek pads to permit the safe and easy removal of the cheek pads while the helmet is still on
- 3D contoured foam ensures rider comfort
- Stainless steel D-rings on the 25 mm soft textile chin strap offer a tight and secure fit for optimal safety and rider comfort
- Medium size weighs approximately 1430 g
- The following standards apply to this product: ECE 22.06 certified
- Available in men's sizes XS-2X; see Alpinestars size chart on page 76 before ordering

## F.I. MIPS® HELMETS

- Helmet is equipped with MIPS® technology
- Multi-density EPS liner for impact absorption
- Injection-molded polycarbonate shell is lightweight, compact and strong
- Nine intake and three exhaust vents feed into the internal air channels providing excellent ventilation
- Unique friction hinge visor is easily adjusted and secure
- Extra-large eye port for excellent field of vision
- Fully removable moisture-wicking liner and cheek pads
- Removable nose guard provides excellent coverage from roost
- Two shell sizes and two EPS sizes engineered for optimum fit
- DOT and ECE R22.06 certified
- See helmet size guide below before ordering

alpinestars ECE R22.06

## SM3 YOUTH HELMETS

- Anatomically engineered and profiled specifically for youth and younger riders
- Optimized for MX, Enduro and Offroad use
- Features a thermo-injected shell incorporating a special polymer blend
- Engineered to deliver the optimal combination of impact protection and light weight
- Lightweight outer shell is constructed from a technologically advanced impact-resistant thermoplastic
- Inner shell is constructed with a composite fiber assembled between the outer shell and the EPS liner for maximum protection against impacts
- Fit can be tailored to the rider's head thanks to the helmet's crown and cheek pads
- Medium and Large share the same EPS size and allows Medium to configure to a Large as the rider grows
- Multiple density inner liner ensures the helmet is equipped with the correct density in the correct area for enhanced impact absorption, while also helping reduce overall weight
- Inner and outer surfaces are engineered to minimize the effects of oblique impacts
- Alpinestars low friction coating is applied to the inner part of the main EPS liner to reduce the rotational acceleration forces that can result from certain oblique impacts
- Alpinestars visor release system ensures the visor is released with the correct pre-determined amount of force, effectively reducing the forces on the rider's neck during an impact
- Comfort liner is constructed using recycled materials for a lower carbon footprint
- Hydration tube channels are integrated into the helmet's cheek pads for convenience and performance
- Maximized ventilation and high levels of heat transfer exchange thanks to 10 inlets and 7 exhaust ports
- Visor has been designed to direct air into the ports for enhanced airflow
- Equipped with an Emergency Release System and removable cheek pads to permit the safe and easy removal of the cheek pads while the helmet is still on, while the 3D contoured foam ensures rider comfort
- Soft textile chin strap is 25 mm for optimal safety and rider comfort
- Stainless steel D-rings ensure a tight and secure fit
- Weighs 1060 g (ECE)
- The following standards apply to this product: meets ECE R22.06 approval

**VISOR WARNING:**

- Tinted visors marked with the statement "IF TINTED, FOR DAYTIME USE ONLY" or the EU Sun pictogram, are not suitable for use during the hours of twilight, darkness or in conditions of poor visibility or inclement weather.
- Colored visors that prevent the recognition of road signals are not suitable for on-road use.
- Be sure to choose a visor that is appropriate for the conditions of expected use.
- Any visor in use must be kept in perfect condition to ensure that no damage or wear obscures the rider's view through the visor.

**DROPSHIELD™ WARNING:**

- Tinted Dropshields™ are not suitable for use during the hours of twilight, darkness or in conditions of poor visibility or inclement weather.
- Colored Dropshields that prevent the recognition of road signals are not suitable for on-road use.
- Be sure to choose a Dropshield that is appropriate for the conditions of expected use.
- Any Dropshield in use must be kept in perfect condition to ensure that no damage or wear obscures the rider's view through the Dropshield™.

# AUDIO, COMMUNICATION & MOUNTS

SENA

4402-1043

## 60S BLUETOOTH® WAVE INTERCOM™

- Sena Wave Intercom™ technology offers unlimited range using cellular networks, up to a 2 km (1,25 mi.) radius
- Uses VoIP (Voice over IP) to allow voice communications to be transmitted using the internet or cellular network using IP (Internet Protocol) rather than traditional phone lines
- Mesh™ 3.0 and Bluetooth® functionality included: if a cellular network is unavailable, the 60S automatically switches to Mesh 3.0 technology to communicate with other 60S intercoms
- Can switch to Mesh™ 2.0 to connect with other Sena intercoms automatically if needed
- AINR (Artificial Intelligence Noise Reduction) technology filters out background noise
- Enhanced voice commands using Fluent.ai artificial intelligence
- Voice-activated Digital Assistant access ("Hey Google"/"Hey Siri")
- Unlimited number of participants in "public" mode with nine channels; up to 24 riders in private mode with a range of up to 2 km (1,25 mi.) in open terrain
- SOUND by Harman Karodon 40 mm diameter speakers are a new, thicker design for superior performance (volume increase of up to 130% compared to the 50S)
- System automatically adjusts sound levels so all riders are heard at the same sound level
- IPX7 waterproof rating
- Dynamic motion LED shows device status at a glance
- Built-in flashlight
- Single kit includes microphone, accessories and speakers to equip a full-face or open-face helmet
- Magnetic helmet mount allows you attach/remove the 60S without complex handling
- Battery life of approximately 16 hours; charges using USB-C cable
- Quick charge (3,5 hours approximate use time): 20 minutes; full charge: 1,5 hours
- Four interchangeable covers (dark chrome, metallic silver, pearl white, gloss black) included so you can customize the look

**SINGLE UNIT KIT INCLUDES:**

1 - 60s main unit
2 - Helmet clamp
2 - Speaker sets
3 - Microphone
4 - Faceplates
1 - Glued surface mount plate
1 - Additional supply double-sided adhesive tape
2 - Speaker pads
4 - Hook-and-loop pads for speakers
4 - Microphone sponges
3 - Hook-and-loop pads for microphone sponges
1 - Microphone boom holder
1 - Magnetic cover for helmet clamp
1 - 3,5 mm stereo audio adapter
1 - USB-C charging cable

## 50R LOW-PROFILE MESH INTERCOM™ HEADSET

- Features Bluetooth® 5.0 technology and Mesh™ 2.0
- Features a simplified layout with three-button functionality
- Mesh 2.0 brings significant advancements to communication for more reliable and stable communication between riders
- Redesigned HD speakers optimized for a boosted performance in volume, bass and clarity
- Features multi-language support and direct digital assistance; can be used with Google® Assistant and Siri through voice commands
- Three different intercom modes are available to riders: Multi-Channel Open Mesh Intercom™, Group Mesh Intercom™ or Bluetooth intercom
- Multi-channel Open Mesh intercom features nine channels available in open mode which allows the rider to switch frequencies and communicate with a new group; allows a near-limitless number of users within a range of up to 8 km (5 mi.)
- Group mesh supports a single, private group for up to 24 participants with a range of up to 8 km (5 mi.); only invited users can join the Group Mesh chat
- Also, connects via Bluetooth for four-way communication up to a 2 km (1,2 mi.) range; users can pair with a Sena Bluetooth intercom user and bridge them into a Mesh 2.0 intercom conversation
- HD speakers are slimmer and trimmed around the edges for a comfortable fit with a helmet on; audio output delivers crystal-clear sound quality
- Talk time of 9 hours with Mesh intercom or 14 hours with Bluetooth intercom when fully charged
- Included WiFi adapter recharges device and automatically installs firmware updates
- Charging time of 1 hour or a quick 20 minutes for 3,5 hours of Mesh communication or 6 hours of Bluetooth intercom
- Features a high-density battery that charges 30% faster than its predecessors
- Connects to Sena's 50 Utility App for customization of a variety of settings such as remotely controlling Bluetooth intercom pairing and connections, configuring channel settings for Open Mesh, setting a private group for Group Mesh or creating FM radio presets
- Dual kit includes two single kits in one box

### SINGLE UNIT KIT INCLUDES:

1- 50R headset main unit
1- Clamp
2- HD speakers
2- Speaker pads (thick)

## 50S MESH INTERCOM™ HEADSET

- Features Bluetooth® 5.0 technology and Mesh™ 2.0
- Features a versatile Jog Dial for effortless operation
- Mesh 2.0 brings significant advancements to communication for more reliable and stable communication between riders
- Redesigned HD speakers optimized for a boosted performance in volume, bass and clarity
- Features multi-language support and direct digital assistance; can be used with Google® Assistant and Siri through voice commands
- Three different intercom modes are available to riders: Multi-Channel Open Mesh Intercom™, Group Mesh Intercom™ or Bluetooth intercom
- Multi-channel Open Mesh intercom features nine channels available in open mode which allows the rider to switch frequencies and communicate with a new group; allows a near-limitless number of users within a range of up to 8 km (5 mi.)
- Group Mesh supports a single, private group for up to 24 participants with a range of up to 8 km (5 mi.); only invited users can join the Group Mesh chat
- Also connects via Bluetooth for four-way communication up to a 2,5 to 3,5 km (1,2 mi.) range; users can pair with a Sena Bluetooth intercom user and bridge them into a Mesh 2.0 intercom conversation
- HD speakers are slimmer and trimmed around the edges for a comfortable fit with a helmet on; audio output delivers crystal-clear sound quality
- Talk time of 9 hours with Mesh intercom or 14 hours with Bluetooth intercom when fully charged
- Included WiFi adapter recharges device and automatically installs firmware updates
- Charging time of 1 hour or a quick 20 minutes for 3,5 hours of Mesh communication or 6 hours of Bluetooth intercom
- Features a high-density battery that charges 30% faster than its predecessors
- Connects to Sena's 50 Utility App for customization of a variety of settings such as remotely controlling Bluetooth intercom pairing and connections, configuring channel settings for Open Mesh, setting a private group for Group Mesh or creating FM radio presets
- Dual kit includes two single kits in one box

### SINGLE UNIT KIT INCLUDES:

## 30K MESH INTERCOM

- Stay connected with your group as Mesh Intercom™ technology automatically searches for and reconnects to lost and dropped signals
- Dual antennas and processors allow for simultaneous connections to 5.0 Bluetooth® and Mesh Intercom technology, making it easier to connect to large groups
- Premium HD speakers are redesigned for physical comfort and optimal audio performance
- Three different intercom modes are available to riders; Multi-Channel Open Mesh Intercom™, Group Mesh Intercom™ or Bluetooth intercom
- Multi-channel Open Mesh intercom features nine channels available in open mode which allows the rider to switch frequencies and communicate with a new group of near-limitless number of users within a range of up to 8 km (5 mi.)
- Group mesh supports a single, private group for up to 24 participants with a range of up to 8 km (5 mi.); only invited users can join the Group Mesh chat
- Also connects via Bluetooth for four-way communication up to a 2 km (1,2 mi.) range; users can pair with a Sena Bluetooth intercom user and bridge them into a Mesh™ 2.0 intercom conversation
- Connects via Bluetooth or the Sena Ride Connected App Multitask by talking via the Mesh Intercom technology and listen to GPS navigation, phone calls or the built-in FM radio via Bluetooth connection
- Smoother listening experiences from audio that overlays instead of interrupts
- Control the headset with the optional handlebar remote or hands-free by utilizing voice commands
- 20 minutes of charging gives you five hours of Bluetooth intercom use or 3 hours of of Mesh Intercom use
- Firmware upgradeable
- Dual-pack kit includes two single kits in one box

## 20S EVO MOTORCYCLE BLUETOOTH® COMMUNICATION SYSTEM

- State-of-the-art motorcycle and powersports Bluetooth® communication system provides a sleek and aerodynamic design that offers a versatile jog dial that maximizes the ease of use for riders
- Features Bluetooth 4.0 technology with dual Bluetooth communication modules, to create one of the most advanced Bluetooth headsets in the market; the new Bluetooth technology increases the performance and reliability of the headset while also allowing for increased high-definition audio quality
- The advanced Audio Multitasking™ allows for a seamless blend of incoming and outgoing audio to create a mixed audio experience versus the traditional interruption-based audio technology of other Bluetooth devices
- With the 20S, users can call hands-free with their Bluetooth mobile phones, listen to stereo music or voice instructions of GPS navigation by Bluetooth wirelessly and have intercom conversations in full duplex with a passenger or other riders
- Advanced Noise Control™
- Versatile bike-to-bike conference intercom
- Intercom working distance up to 2 km (1,2 mi.) in open terrain
- Multipoint Bluetooth for dual mobile phone
- HD Quality crystal-clear and natural sound
- Intuitive voice prompts and commands
- Built-in FM radio tuner with a station scan-and-save function
- All-in-one helmet clamp kit
- Quick Bluetooth pairing
- Universal Intercom™: intercom with other brand communication systems
- Water-resistant for use in inclement weather
- Firmware upgradeable
- Dual kit includes two single kits in one box

### SINGLE UNIT KIT INCLUDES:

## 50C BLUETOOTH® CAMERA AND COMMUNICATION SYSTEM

4402-0915

- SOUND by Harman Kardon Premium speakers and microphone
- Both the speakers and microphone were created with the audio experts at Harman Kardon to provide world-class sound inside motorcycle helmet
- All-new microphone, which includes a newly designed sensor, offers robust performance for voice communication while riding
- Integrated Mesh and Bluetooth® intercom systems
- Integrated 4K camera
- Voice-activated Digital Assistant access ("Hey Google"/"Hey Siri")
- Voice commands in eight languages
- Includes integrated camera ready to capture any moment along the ride
- Shoot video in 4K at 30 frames per second or take 12MP photos in still shot, burst, or time-lapse mode
- When shooting in 1080p, the 50C offers electronic image stabilization at 60fps and 30fps
- Camera button allows for simple, one-touch recording while voice prompts keep you updated on camera's progress
- With video tagging, you can save important events from a continuous loop of recording, instantly creating highlights
- Accepts MicroSD cards up to 128 GB for storage
- Use Group Mesh Intercom™ mode for a private group conversation; Group Mesh supports a single, private group for up to 24 participants with a range of up to 5 mi.; only invited users can join the Group Mesh chat
- Traditional four-way Bluetooth intercom mode is also an option for connecting to other Sena Bluetooth-enabled users within a 1,6 km (1 mi.) range – when connected to just one other Sena Bluetooth headset, 50C users will experience HD intercom quality
- Additionally, users can pair with a Sena Bluetooth intercom user and "bridge" them into a Mesh™ 2.0 intercom conversation
- Use Sena Motorcycles App to configure device settings visually; download the app to customize different settings and features, including managing channel settings for Open Mesh remotely or setting up private group for Group Mesh
- With the Sena Camera App, users can preview and download footage being shot directly on their smartphone via built-in WiFi; the Camera App also allows you to fine-tune camera settings such as video recording mode and resolution, video microphone gain, and speaker sound recording
- Talk time: Bluetooth intercom, 22 hours; Mesh intercom, 12 hours
- Charging time: 2,5 hours
- Built-in 1,450 mAh Lithium polymer battery

### SINGLE UNIT KIT INCLUDES:

1- 50C Headset main unit
1- Gear clamp kit
1- Clamp unit
1- Glued surface mounting plate

## SENA 10S 4.1 BLUETOOTH® COMMUNICATION SYSTEM

- Upgraded system of the original SMH10 system
- Bluetooth® specification v4.1
- Bluetooth Intercom up to 1,6 km (1 mi.) in open terrain
- Ultra-slim and light for sportbike helmets
- Four-way conference intercom through One Touch Group Intercom™
- Also uses the Universal Intercom™ to communicate with all Sena and non-Sena Bluetooth headsets on the market
- Simplifies connections for earbuds and microphone (wired or boom-type) by condensing them down to a single clamp connector, minimizing the number of wires and enhancing reliability
- Easy operation by versatile Jog Dial makes it effortless to operate
- Micro USB port for battery charging and future software updates
- Bluetooth music playback control: play, pause, track forward and track back
- Remarkable battery life: talk time up to 12 hours; standby time up to 10 days; can be fully charged in as little as three hours
- Advanced noise control for less road noise and clearer communication
- Water-resistant for use in inclement weather

**4402-0923**

- 10S Smartphone app makes configuration a snap – change settings, set groups of intercom friends and access a Quick Guide; pair up to two mobile phones for convenient hands-free calling
- 10S Dual pack kit includes two complete sets of the 10S single-unit kit in one box

## SMH5 BLUETOOTH® STEREO HEADSET/ COMMUNICATOR/INTERCOM

- Bike-to-bike or rider-to-passenger communication
- Available with boom microphones for open-face helmets or with wired microphones for full-face helmets
- Bluetooth® Intercom up to 0,4 km (430 yrds.) in open terrain
- Multi-pair Bluetooth intercom
- Voice prompts
- Bluetooth stereo headset by A2DP
- Bluetooth music playback control by AVRCP: play, pause, track forward and track back
- Easy operation by versatile Jog Dial
- Sufficient sound level with integrated audio booster
- Bluetooth hands-free for Bluetooth mobile phones
- Bluetooth headset or stereo headset for Bluetooth GPS navigation
- Water-resistant for use in inclement weather
- Crystal-clear and natural sound quality
- Up to 8 hours talk time, 7 days standby time
- Can be used while charging on road trips
- Individual volume control for each audio source
- Firmware upgradable

### SMH5 UNIT INCLUDES:

1- Headset main unit
1- Clamp unit
1- Attachable boom microphone or wired microphone
1- USB power and data cable
1- Hook-and-loop surface mounting plate
1- Hook-and-loop pad for boom microphone
1- Attachable boom microphone holder
1- Allen wrench
1- Owner's manual
2- Microphone sponges
2- Hook-and-loop pads for speakers
2- Speaker pads
2- Helmet speakers

|---|---|
| Type A compatible w/ 30K, 20S Evo, 20S and 50S systems | **4402-0874** |

## +MESH™ SENA BLUETOOTH® TO MESH INTERCOM ADAPTER

- Wireless adapter for Sena headsets allows for seamless communication with other Sena headsets built with Mesh intercom™, rather than connecting over Bluetooth®
- Range up to 800 m (0,5 mi.)
- Mesh network technology instantly connects to a limitless amount of users
- Provides stable connection by searching for lost intercom connections and automatically reconnects them once back within range
- Attaches to any surface on motorcycle
- For optimal results and to maximize intercom range, mount the +Mesh™ in a spot that provides the most direct line of sight to rider(s) connecting
- +Mesh, antenna, flat surface mount, handlebar mount and USB power and data cable included

| DESCRIPTION | PART # |
|---|---|
| Bluetooth® +Mesh™ intercom adapter | **4402-0789** |

**4402-0703**

**4402-0704**

## FREEWIRE ADAPTERS

- Wirelessly connect to your bike's infotainment system, GPS or communicate via CB radio
- Use an additional Freewire to communicate with a passenger
- 7 hours of talk time
- Dimensions: 83 mm W x 45 mm L x 25 mm H
- Tested according to EN 62311:2008
- Meets following: FCC and IC certifications

| DESCRIPTION | PART # |
|---|---|
| Freewire Harley-Davidson® | **4402-0703** |

| DESCRIPTION | PART # |
|---|---|
| Freewire Honda Gold Wing | **4402-0704** |

## USB POWER AND DATA CABLE (USB TYPE C)

## alpinestars SUPERTECH VISION GOGGLE CASE

- Structured walls and padding provide goggle protection
- Outer shell is smooth, durable easy to clean polyester material
- Generously fits four pre-curved goggles
- Wide enough to fit with the roll-off system
- External zipper pocket big enough for tear-offs, or other flat items
- Fully lined in soft fleece to prevent scratching lenses
- Three movable, pre-curved walls, with lens pockets to customize internal organization
- Inside lid pockets: large soft fleece slip pocket for documents, tear-offs, etc.; full width no-scratch mesh pocket for tear-offs or flat lenses; and divided soft, no-scratch mesh pockets for roll-off canisters or miscellaneous items
- Horizontal layout is easiest to access contents
- Lid stays hold open lid at an angle, to stay open and access pockets
- Padded handle for comfortable carrying

## VISION 8 GOGGLES

- Lightweight ultra-pliable A-Flex frame for the ultimate feel and fit
- Polycarbonate lens is anti-fog hard coated with 100% UVA protection
- Ram-Air outrigger frame increases the flow of air over the 100 PPI reticulated vent foam for improved anti-fogging
- 3D molded multi-stage face foam for a comfortable and precise face fit accompanied with moisture channel technology for ultimate sweat management
- Strategically designed outrigger system pulls the goggle into the face for the ultimate goggle fit
- ISP (Ideal Strap Position) wedge positions the 45 mm wide woven strap at an ideal angle for comfortable and precise positioning of the goggle on your face
- Integrated lens tear-off posts compatible with standard and 28 pk. laminate tear-offs
- Vision 8 extra-large field of view accepts our Ultra-Wide roll-off system
- Vision 8 in mirror version also includes an additional clear lens inside the box

## VISION OTG GOGGLES

- Specifically designed OTG (over-the-glasses) frame
- Lightweight ultra-pliable A-Flex frame
- Frame is specially engineered to add volume inside the goggle, offering ample space for glasses
- Ram-Air vent ducts on the frame increase airflow over the 100 PPI reticulated vent foam for improved anti-fogging
- 3D formed, 3-layer 17 mm face foam
- No-slip, 45 mm silicone-backed strap with ISP (Ideal Strap Position) wedge that positions the strap at an ideal angle for comfort and precision positioning of the goggle on your face
- Polycarbonate, anti-fog, hard-coated lens
- Perfect for those who need maximum visibility without sacrificing comfort, this goggle allows you to enjoy a clear, wide field of view

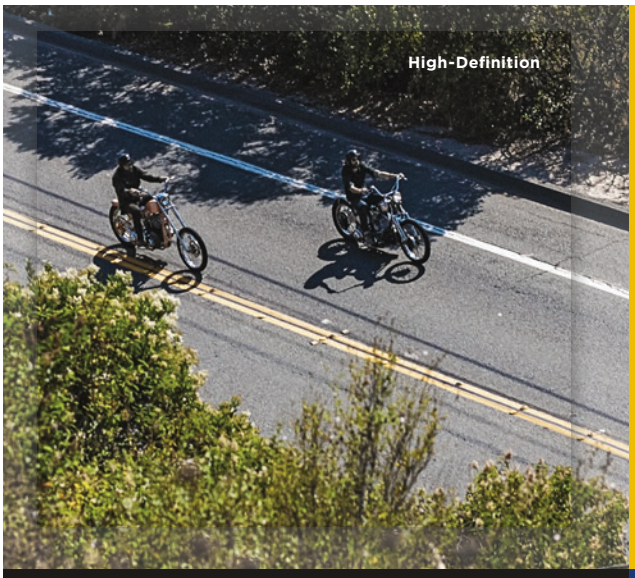
BOBSTER®

## BOBSTER® DNA

Bobster® prides itself on leading the pack when it comes to technology. All our products feature optically correct, polycarbonate shatter-resistant lenses that offer 100% UVA and UVB protection. We also offer products with Rx-ready frames, polarized lenses, photochromic lenses and all-new high-definition lenses.



## HIGH-DEFINITION LENSES

High-Def lenses will enhance your vision whenever worn.

What this technology does is elevate individual colors, which enables you to see imperfections in the road, changes in the water, or divots in the dirt much easier.

Without having to strain your eyes to see what is coming up, you can anticipate and react with more precision while filtering out harmful UV rays, leading to overall greater visual comfort.

## POLARIZED LENSES

While ordinary tinted lenses reduce brightness, only polarized lenses eliminate glare.

To ensure the impact resistance of the lenses, Bobster® uses polycarbonate polarized lenses while most other companies use polarized lenses that will shatter on high impact.

## PHOTOCHROMIC TECHNOLOGY

Bobster® photochromic lenses are available in a variety of eyewear styles and are precisely designed to automatically darken/lighten to the amount of ultraviolet (UV) light that reaches the lens.

The advantage of a photochromic lens is that you can wear your eyewear all day and not have to carry multiple sets of eyewear with you or change your lenses according to light conditions.

Do not leave photochromic lenses in direct sun or extreme heat for long periods of time as it will decrease the performance of the lenses.

BOBSTER®

## BOBSTER® GOGGLES

Expect superior functionality, comfort and durability from Bobster® goggles. Specifically designed to conform to various shapes of faces, the goggle frame creates an effective seal that significantly reduces wind blasts and vibrations. The adjustable head strap provides maximum retention and security, while the foam allows ultimate airflow to reduce lenses from fogging.

### CRUISER 3 GOGGLES

#### INTERCHANGEABLE LENSES

- Four sets of lenses: anti-fog smoked, amber, clear and smoked with Blue Revo
- Include shatter-resistant polycarbonate lenses
- Lenses provide 100% UV protection

## DYNO LEATHER JACKET

- Modern interpretation of a heritage jacket
- Tech-Air® 3 ready
- Combines leather and a regular fit to create a jacket that looks great, on and off the bike, in any setting
- Equipped with a detachable thermal vest with 80 g insulation at the front adds to its performance and versatility
- Constructed from 1,0 mm to 1,2 mm bovine leather for the optimum blend of light weight, thinness, suppleness and abrasion resistance
- The leather is dip dyed, and the oils used during this process results in a more natural finish with superior overall softness and a softer feeling against the skin
- Shoulder and elbow armor protectors are engineered with a low profile for a more tailored fit
- Low profile elbow protectors for a more stripped back and elegant aesthetic
- Nucleon Flex Plus shoulder and elbow armor are tested and certified to Level 1
- The following standards apply to this product: tested and certified to EN 17092-4:2020 - A Class
- Available in men's sizes S-4X; see Alpinestars size chart on page 200 before ordering

## AST v2 AIR JACKETS

- Tech-Air® 5 ready
- Ventilated construction offers enhanced breathability and airflow for optimized rider comfort
- GP Lite on shoulder for additional abrasion-resistance
- Offering a personalized sports riding fit, the AST v2 air jacket is an exceptionally light and durable jacket featuring a main mesh shell for superior ventilation that is fully optimized for use with or without Tech-Air 5
- Tech-Air 5 compatible; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required
- Strategically positioned stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted
- Constructed from hard-wearing 600D poly-fabric and incorporating extensive mesh panels strategically placed on the front, back and arms for optimum airflow performance
- Removable Nucleon Flex protectors in the elbows and shoulders are lightweight, sleek and promote exceptional resistance against impacts
- GP Lite on the shoulders for superior abrasion-resistance in a key area
- Chest and back pad compartments with comfort padding
- Sleeves feature pre-curved construction for increased comfort performance in riding position
- Volume adjustment system on sleeves incorporates hook-and-loop adjustments for a highly personalized fit and to help maintain positioning of elbow protector
- Elongated rear profile and hook-and-loop D-ring waist adjustment for added riding comfort and customization
- External hand pockets are zipped for a safe and secure closure
- Textile comfort edge on collar and cuffs for comfort and moisture-wicking
- YKK® auto-locking zippers for durability and safety
- Reflective details
- Nucleon flex shoulders and elbow armor is tested and certified to EN 1621-1:2012
- The following standards apply to this product: tested and certified to EN 17092 - A Class

## STELLA DYNO LEATHER JACKET

- Optimized for a female specific fit
- Modern interpretation of a heritage jacket
- Tech-Air® 3 ready
- Combines leather and a regular fit to create a jacket that looks great, on and off the bike, in any setting
- Equipped with a detachable thermal vest with 80 g insulation at the front adds to its performance and versatility
- Constructed from 1,0 mm to 1,2 mm bovine leather for the optimum blend of lightweight, thinness, suppleness and abrasion resistance
- The leather is dip dyed, and the oils used during this process results in a more natural finish with a superior overall soft feeling against the skin
- Shoulder and elbow armor are engineered with a low profile for a more tailored fit
- Low profile elbow protectors for a more stripped back and elegant aesthetic
- Nucleon Flex Plus shoulder and elbow armor are tested and certified to Level 1
- The following standards apply to this product: tested and certified to EN 17092-4:2020 - Class A

## SPORTMODE

The peak of athletic performance. Our SPORTMODE collection is an all-new creation for those athletes striving for greatness and that coveted top step. A minimalistic approach lead us to reduced chassis panels and seams, allowing for a superior athletic fit with increased overall stretch and body contouring. Keeping weight low and durability high tops this SPORTMODE collection off, allowing today's young rippers to handle business with unrestricted mobility for maximum performance and comfort.

## SPORTMODE JERSEYS

- Four-way stretch, poly/spandex chassis construction for unrestricted body mobility
- Tailored set-in style sleeves
- Laser-cut perforation vents for increased air flow
- Tapered collar, cuff and hem seams reduce weight and skin irritation
- Moisture-wicking materials keep the body cool and dry
- Sticky, silicone-printed drop tail to keep jersey in place
- Minimal seam chassis design for maximum stretch performance and comfort
- Athletic fit
- See size chart on page 259 before ordering

## SPORTMODE (CONT)

The peak of athletic performance. Our SPORTMODE collection is an all-new creation for those athletes striving for greatness and that coveted top step. A minimalistic approach lead us to reduced chassis panels and seams, allowing for a superior athletic fit with increased overall stretch and body contouring. Keeping weight low and durability high tops this SPORTMODE collection off, allowing today's young rippers to handle business with unrestricted mobility for maximum performance and comfort.

## SPORTMODE JERSEYS (CONT)

- Four-way stretch, poly/spandex chassis construction for unrestricted body mobility
- Tailored set-in style sleeves
- Laser-cut perforation vents for increased air flow
- Tapered collar, cuff and hem seams reduce weight and skin irritation
- Moisture-wicking materials keep the body cool and dry
- Sticky, silicone-printed drop tail to keep jersey in place
- Minimal seam chassis design for maximum stretch performance and comfort
- Athletic fit
- See size chart on page 259 before ordering

## SPORTMODE PANTS

- Durable four-way stretch In-Motion chassis construction allows unrestricted body mobility
- Taped interior sewn seams for extra durability with less skin irritation
- Minimal seam chassis design for maximum stretch performance and comfort
- Laser-cut perforation vents for increased air flow
- TPU knee protection overlays
- Sticky silicone printed inner waist keeps jersey in place
- Zipper-less waist opening for maximum comfort with reduced weight
- Precision-fit ratchet waist closure system
- Durable full grain leather inner knee grip panels
- Athletic fit
- See size chart on page 259 before ordering

## RIDEMODE (CONT)

Introducing the brand-new RIDEMODE collection, featuring material composition and size specification specifically influenced by its LAUNCHMODE sibling. RIDEMODE offers a more relaxed fit, with materials chosen for their air flow and moisture-wicking properties that are easy-wearing and abrasion tolerant where you need it. Race inspired fit and function, in a practical, affordable package.

THOR Hallman

## HALLMAN COLLECTION

Founded in 1968 by four-time World Motocross Champion Torsten Hallman, Hallman Racing is America's first motocross racewear brand. Torsten, a true original, was one of the men who introduced motocross to the United States and revolutionized everything from the way we ride to what we wear. Realizing the American racer's potential, Torsten saw the need for quality motocross gear, so he began importing pants, jerseys and gloves under the brand name Hallman Racing, or THOR (Torsten Hallman Original Racewear). We are proud to celebrate over 50 years of racing heritage with the new Hallman Collection by THOR. Authentic in every aspect, the Hallman Collection is inspired by the roots of the brand and offers timeless style for all things on two wheels. The First. The Forever.

## TECHSTAR PANTS

- Constructed from a durable 600D coated polyfabric and an advanced blend of stretch ripstop fabric from the Supertech line offering enhanced stretchability and durability, with durable 4-way stretch on the yoke, thighs and upper knee
- Performance-engineered single-layer construction and linerless design offer enhanced wearability, superior comfort, and lighter weight
- Provides an effortless on and off, even when worn with knee braces or knee guards
- Reinforced materials have been used on the seat and knees for enhanced durability
- Innovative revised Babel knee gusset construction for optimal flexibility, added ventilation and maximum rider comfort
- Secure and quick SX2 auto-lock magnetic buckle for optimum waist closure
- Strategically positioned laser perforations for additional airflow and optimum ventilation
- Goat leather inner knees for premium feel and durability
- Elasticated waist with silicone inner waistline keeps the pants securely in position
- Covered zippered fly for durability
- Perfect compatibility with Alpinestars offroad jerseys
- Available in men's sizes 28-40; see Alpinestars size chart on page 278 before ordering

## RACER AIR PANTS

- Featuring an ultra-lightweight, stretchable and durable design
- Built from lightweight, durable 600D polyfabric with perforations for airflow
- Ensure exceptional airflow, thanks to extensive perforations on the hips, thighs and lower leg
- Highly breathable Stretchnet panels on the back of the lower legs further enhance ventilation, comfort and flexibility, maximizing cooling and overall range of motion for offroad riders
- Goat leather inner knees provide a premium feel, enhanced grip, as well as added heat and abrasion resistance
- Updated ergonomic design features a sport-cut that enhances performance fit, providing greater comfort and mobility for the rider
- Unique ergonomic construction tailored to each graphic
- Materials are dyed rather than sublimated, enhancing color vibrancy and providing greater fade resistance over time
- Silicone inner waistline keeps the pants securely in place
- Zippered fly for convenience and ease of use
- Secure and quick SX2 auto-lock magnetic buckle and adjustable waist closure derived from the Techstar line ensure riders a customized fit
- Mesh liner included
- Available in men's sizes 28-40; see Alpinestars size chart on page 278 before ordering

## STELLA TECHSTAR NOMUR JERSEYS

- Specifically adapted to the female figure for optimal riding comfort
- Athletic race fit features an updated multi-material construction with a precisely body-mapped poly-fabric stretch main chassis
- Incorporates ergonomic stretch inserts for premium mobility and enhanced rider comfort
- Main chassis is constructed from a lightweight, highly durable, moisture-wicking, knitted poly-fabric for superior comfort and performance
- Strategically positioned laser perforations for additional airflow and optimum ventilation
- Ergonomically engineered cut and optimized racing multi-panel pattern for enhanced freedom of movement and superior mobility
- Strategically positioned stretch inserts for superior freedom of movement
- Flat stretch construction on arms and shoulders for enhanced range of movement and rider comfort
- Seamless bonded neck opening for ease of use and enhanced rider comfort and seamless bonded cuffs
- Extended rear for greater coverage in the riding position and compatibility with Alpinestars offroad pants
- Available in women's sizes XS-XL; see Alpinestars size chart on page 278 before ordering

## STELLA TECHSTAR NOMUR PANTS

- Specifically adapted to the female figure for optimal riding comfort
- Athletic race fit incorporates innovative features such as the SX2 magnetic closure buckle and a refined 3D Babel knee construction to significantly ramp up ventilation, flexibility and freedom of movement
- Newly reinforced materials construction that incorporates more stretch ripstop materials
- Updated ergonomically engineered cut and optimized racing multi-panel pattern delivers a second skin feel and provides premium freedom of movement and superior mobility
- 600D coated polyfabric chassis and an advanced blend of stretch rip-stop fabric from the Supertech line offering enhanced stretchability and durability, with durable 4-way stretch on the yoke, thighs and upper knees
- Single-layer construction and liner less design offer enhanced wearability, superior comfort and lighter weight, providing an effortless on and off, even when worn with knee braces or knee guard
- Strategically positioned laser perforations for additional airflow and optimum ventilation
- Goat leather inner knees for premium feel and connection with the bike and durability
- Elasticated waist with silicon inner waistline to keep the pants in position
- Covered zippered fly for durability
- Perfect compatibility with Alpinestars offroad jerseys
- Available in women's sizes 26-34; see Alpinestars size chart on page 278 before ordering

## OFFROAD PADDED BOXERS

- Designed with the active motocross and enduro rider in mind
- Comfortable and ergonomic chamois padding made of PU foam, designed for protection and riding comfort, especially for long rides
- PU foam has varying thickness ranging from 2 mm up to 10 mm, based on the impact absorption needed in the different areas of the seat
- Anatomically designed for maximum comfort and control
- Premium polyester boxer brief, crafted from 88% polyester/12% elastane, for high levels of comfort and stretch
- Constructed using a premium knit, smooth and lightweight fabric for maximum comfort
- High quality branded waistband for comfort and flexibility to avoid bunching up and pull-down of the boxers
- Strategically placed seams crafted with soft spun thread to prevent rubbing and chafing
- Constructed with reverse cover stitches for a flat and smooth finish to ensure a comfortable feel
- Stitching provides a smooth inner surface to reduce friction and irritation against the skin
- Available in men's sizes S-2X; see Alpinestars size chart below before ordering

# MOOSE OFFROAD SIZING GUIDES

## GARMENT SIZING INFORMATION

- The charts below will help you select the proper size. If you have any questions, please contact moosecomments@mooseracing.com or contact your nearest Parts Europe dealer.

## CARE INSTRUCTIONS

- Moose Offroad does not recommend dry cleaning for any products. All products are machine washable. You should use a commercial front-loading machine and follow the care instructions for each garment.

## JERSEYS

- Chest measurement: With tape level, measure around the fullest part of the chest, just under the arms and around the shoulder blades
- Sleeve measurement: With elbow slightly bent, measure from the center back of neck, over point of shoulder, around elbow and down to 13 mm (1/2") past wrist bone
- Jerseys are generously sized for comfort, mobility, and to be worn over low-profile roost shields/guards

| SIZE | CHEST | SLEEVE LENGTH |
|---|---|---|
| **RACEWEAR JERSEYS: SAHARA/M1/QUALIFIER** | | |
| S | 104 - 109 cm (41" - 43") | 84 - 86 cm (33" - 34") |

## BOGOTA PRO DRYSTAR® JACKETS

- Ergonomically designed adjustable cuffs for ease of use with gloved hands
- Pre-curved sleeves are engineered with a rotated design to follow the shape of the arm while delivering superior freedom of movement and range of motion while in the riding position
- Innovative collar closure with adjustable self-centering snap closure for an optimized fit, with hook-and-loop on the inner to keep the collar in the open position in warm weather conditions
- Detachable 100 g body, 60 g full sleeve thermal liner allows the jacket to be configured to the conditions
- Extensive stretch inserts around armpit for optimum freedom of movement and an enhanced fit
- Intuitive and functional incorporation of zippers, connectors and ergonomic designs on liner connection, closure systems, wrists, and collar for ease of use
- Two front zippered pockets, two chest pockets, an inner waterproof document pocket and two inner pockets on the liner for safe and secure storage of valuables
- Lower hem shock cord for an optimized fit
- Reinforced 2 L 450D hard outer shell construction for enhanced long-life durability and light weight, with 600D woven reinforcements for additional durability in key areas
- Inner construction for protection insert upgrades including both back and chest inserts and is also ready for the new, long back protector insert
- The jacket has a lightweight 600D main shell for enhanced durability
- The following standards apply to this product: tested and certified to EN 17092 - AA Class
- Available in men's sizes listed; see Alpinestars size chart on page 307 before ordering

# MOOSE OFFROAD SIZING GUIDES

## GARMENT SIZING INFORMATION

- The charts below will help you select the proper size. If you have any questions, please contact moosecomments@mooseracing.com or contact your nearest Parts Europe dealer.

## CARE INSTRUCTIONS

- Moose Offroad does not recommend dry cleaning for any products. All products are machine washable. You should use a commercial front-loading machine and follow the care instructions for each garment.

## JERSEYS

- Chest measurement: With tape level, measure around the fullest part of the chest, just under the arms and around the shoulder blades
- Sleeve measurement: With elbow slightly bent, measure from the center back of neck, over point of shoulder, around elbow and down to 13 mm (1/2") past wrist bone
- Jerseys are generously sized for comfort, mobility, and to be worn over low-profile roost shields/guards

| SIZE | CHEST | SLEEVE LENGTH |
|---|---|---|
| **RACEWEAR JERSEYS: SAHARA/M1/QUALIFIER** | | |
| S | 104 - 109 cm (41" - 43") | 84 - 86 cm (33" - 34") |

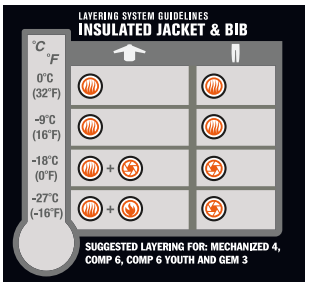
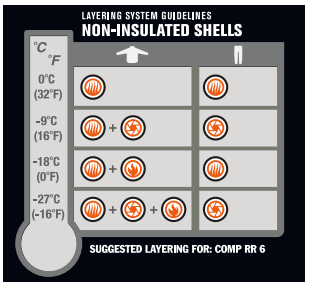
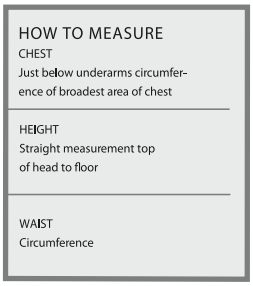
# SNOW RIDING APPAREL







## LAYERING SYSTEM

A proper layering system is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton-based garments are not recommended for use when layering because they absorb moisture and transfer the cold to your body. This includes sweatshirts and denim products.

Using products made from highly breathable fabrics like polyester and spandex helps to wick moisture away from your skin, keeping you dry and comfortable even when riding your hardest.

### MEN'S LAYERING SYSTEM MEASUREMENTS

| MEN'S SIZES | TOP (CHEST MEASUREMENT) | BOTTOM (WAIST MEASUREMENT) |
|---|---|---|
| S | 86 cm - 91 cm (34" - 36") | 71 cm - 76 cm (28" - 30") |
| M | 97 cm - 102 cm (38" - 40") | 81 cm - 91 cm (32" - 34") |
| L | 107 cm - 112 cm (42" - 44") | 91 cm - 97 cm (36" - 38") |
| XL | 117 cm - 122 cm (46" - 48") | 102 cm - 107 cm (40" - 42") |
| 2X | 127 cm - 132 cm (50" - 52") | 112 cm - 117 cm (44" - 46") |

### WOMEN'S LAYERING SYSTEM MEASUREMENTS

| WOMEN'S SIZES | TOP (BUST MEASUREMENT) | BOTTOM (WAIST MEASUREMENT) |
|---|---|---|
| XS (0-2) | 73,5 cm - 81 cm (29" - 32") | 68,5 cm - 72,5 cm (27" - 28,5") |
| S (4-6) | 84 cm - 89 cm (33" - 35") | 73,5 cm - 80 cm (29" - 30,5") |
| M (8-10) | 91 cm - 97 cm (36" - 38") | 79 cm - 83 cm (31 - 32,5") |
| L (12-14) | 99 cm - 104 cm (39" - 41") | 84 cm - 88 cm (33 - 34,5") |
| XL (16) | 107 cm - 109 cm (42" - 43") | 89 cm - 93 cm (35 - 36,5") |
| 2X (18) | 112 cm - 117 cm (44" - 46") | 94 cm - 98 cm (37 - 38,5") |

REGULATOR

### MEN'S REGULATOR TOPS AND BOTTOMS

## YOUTH QUALIFIER JERSEYS

- Combines performance-driven design with comfort and style
- Featuring breathable materials and a sleek fit, this jersey helps young riders stay cool, comfortable, and confident from start to finish
- Lightweight polyester chassis is soft, durable and moisture-wicking for all-day comfort
- High-quality sublimated graphics – fade-resistant designs keep young riders looking sharp ride after ride
- Ventilated mesh collar and cuffs delivers maximum airflow to keep riders cool under pressure
- Non-restrictive cuffs reduce arm fatigue for unrestricted movement and control
- Redesigned athletic fit with a modern, streamlined cut for a sleek and performance-driven look
- See size chart on page 344 before ordering

## YOUTH QUALIFIER PANTS

- Designed to deliver the perfect balance of durability, comfort and fit for future champions
- From trail rides to track days, these pants keep young riders moving freely while withstanding the rigors of offroad riding
- Durable polyester chassis is lightweight yet tough, with double-stitched seams for extra strength
- Reinforced high-denier nylon knee panels provide maximum durability and heat-resistance where it matters most
- High-quality sublimated graphics with bold, fade-free designs built to endure endless rides
- Pre-bent leg design supports the natural riding position for enhanced comfort and performance
- See size chart on page 344 before ordering

## BNS TECH 2 NECK SUPPORTS

- The BNS TECH-2 is constructed from an advanced, high-performance fiber polymer compound
- Complete design facelift and technical upgrade including new lightweight rear and chest padding and updated chinplate design
- Structural integrity and frame strength against heavy impact energies during a crash
- Ultra-lightweight performance and comfort while riding
- Less weight than its predecessors
- Resilience to low temperatures, below 0 °C
- Designed to provide a customizable, secure and personalized fit with the SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL
- The stretch fabric laminated foam padding kits are adaptable and the interchangeable EVA foam pads allow compatibility with body impact shield systems
- Lightweight Strap System can be worn over or under the jersey
- Incorporates a bio-organic engineering design for superb ergonomics
- Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key
- Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyperflexion
- Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure
- Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight
- Tested and certified to Category II EU 2016/425

## A-5 PLASMA CHEST PROTECTOR

- USDA certified bio-based eco-friendly and sustainable impact-absorbing material
- Equipped with adjustable shoulder and side straps for an optimized performance fit
- Removable soft tactile thermoformed shoulder padding for enhanced rider comfort
- Liners on the chest and back maintain integral structure to reduce the risk of material tearing
- Liners are ribbed for superior airflow and to reduce the amount of material in contact with the skin
- Perforated 3D mesh chassis offers additional protection against tire roost
- Bionic Neck Support compatibility via the BNS shoulder pull tabs (sold separately)
- Back protector tested and certified to EN 1621-2:2014 Level 2
- Chest protector tested and certified to EN 1621-3:2018 Level 2

## BIONIC ACTION CHEST PROTECTOR

- Ultra-lightweight protective system offering excellent upper body protection against impacts
- Features front and rear hard shell plates backed with Bio-Foam padding for a secure and comfortable snug fit
- Provides extended padding to protect against tire roost without obstructing arm movement
- All-new Cell Technology chest protector features a highly perforated shell for high levels of ventilation and protection
- Flexible construction of the sides adapts to the contours of the body for enhanced fit and comfort
- Features Cell Technology back protector with a flexion channel for enhanced mobility
- Removable shoulder pads for high levels of customization
- Protectors are perforated for maximum breathability and cooling ventilation
- Elastic closure system features newly designed, quick and easy-to-use buckles to fit a broad range of rider body sizes
- Thermoformed padded chassis for optimized levels of comfort and a close-to-body fit
- Adjustable shoulder straps for an optimal fit
- Bionic Neck Support compatibility with the BNS A-Strap, available as an optional upgrade (sold separately)
- Chest tested and certified to EN 1621-3:2018 Level 1

## A-6 CHEST PROTECTOR

- Chest and back protector plastic shells are constructed from a high-performance polymeric material blend for optimized flexibility and excellent weight-saving properties
- The plastic shells feature extensive, strategically-positioned perforation zones for excellent breathability and ventilation
- The thermoformed padded chassis and padded side wings offer optimal rider comfort
- An adjustable quick-release waist system allows for a customized fit and ensures protection remains secure and close to the body at all times
- The flexible front side wings are connected to the main chest protector with three bridge fixings allowing the wings to move independently and adapt to the natural contours of the body
- Removable back puck for BNS compatibility (sold separately)
- Silicone BNS pull tab for convenient and safe engagement of the BNS
- The removable shoulder protectors allow this upper body protector to be worn in various configurations to tailor the protector to the conditions
- The removable shoulder protectors feature an adjustable V-Strap System to allow for a comfortable and snug upper arm fitment
- Back protector tested and certified to EN1621-2:2014 Level 2

## A-1 CHEST PROTECTORS

- Combines high-tech materials and advanced design to provide superior protection for motocross riders
- Constructed of extremely tough Thermo PU and polypropylene and super-lightweight mesh backed by soft, washable Bio-Foam
- Removable shoulder and upper arm guards; wear under jersey without shoulder cups, or over jersey with shoulder cups
- Semi-rigid TPU/polypropylene plastic plates allow protector to fit close to body and follow the body's motion to help keep deflector in the optimal position at all times; large, lateral protectors closely and comfortably conform to the body
- Adjustable lateral and chest straps provide a superior fit
- Intake and exhaust vents combine with perforated panels to enhance airflow
- White front and back panels with black straps and red buckle closures
- Front and back hard shells constructed from a performance poly-material blend for optimized flexibility and excellent weight saving
- Stone shield tested and certified to EN 14021:2003

## NUCLEON KR-3 PROTECTOR

- Developed in three waist-to-shoulder dimensions in order to cover all body sizes
- Lattice structure back shell plate is constructed from a high-performance polymeric material blend for optimized flexibility and excellent weight-saving properties combined with soft viscoelastic PU foam compound construction
- Single injected lattice structure shell with an ergonomic design to absorb impacts and allow maximum breathability and airflow
- Nucleon PU foam on the central spine area for additional impact absorption performance
- Additional convex design on the central hard shell provides the highest level of protection for the spinal area
- Horizontal flex grooves for an adaptive fit in all riding positions
- Adjustable rib protector made with high-performance polymeric material blend for additional side protection
- Shoulder blade protective padding extensions to guard the acromion bones
- Waist adjustment for a customized fit
- Slim, vented kidney belt for added position stability and a custom fit
- Adjustable, detachable elastic shoulder straps via snap-fit system for a comfortable fit
- Compatible with the Nucleon KR-C and Nucleon KR-TB protectors (sold separately)
- Tested and certified to EN 1621-2:2014 Level 2

## SUPERTECH RK-10 PLASMA KNEE BRACES

- USDA certified bio-based eco-friendly and sustainable impact-absorbing material
- Soft-touch non-slip neoprene condyle padding ensures the highest levels of rider comfort while keeping the knee brace securely in position
- Padding prevents slipping of the knee brace and comes in different thicknesses for a customized fit
- X-straps are profiled to avoid pinching the back of the knee when fully flexed
- Nucleon Plasma embedded into the shin padding for additional protection
- Non-grip upper and lower patella padding to avoid friction
- High tensile strength buckles are robust and flexible for easy strapping and adaptivity
- Inner-knee central buckles are mounted internally inside the frames to avoid contact with the bike
- Sold in pairs
- Tested and certified to EN 1621-1:2012 Level 1

## YOUTH NECK SUPPORTS

- Compact, easy-to-use design for kids ages 8-14
- Ergonomic design and engineered shape for ideal fitment with Alpinestars A-5 S
- Left and right rigid frames are made from a polymer compound combination with the internal smooth edge made of soft-injected EVA to provide a great fit and stable positioning
- Overall frame construction dissipates energy loads by transmitting them across the back
- Flexible back connector between the left and right frames allows the neck support to follow the body's movements when riding
- Chin plates on the front dissipate pressure of the helmet when impacting
- Quick-release closure system to easily engage or disengage the neck support
- Compatible with Alpinestars A-5 S; can also be worn on its own using the A-strap (included in the YNS kit)
- The following standards apply to this product: tested and certified to Category II EU 2016/425

## SEQUENCE YOUTH NECK ROLLS

- Hybrid youth neck guard with extended tail for high position stability
- Ergonomic design and engineered shape to fit kids from 6-10 years and youth from 10-14 years of age
- Double-density core is made from a soft PU foam base embedding a hard layer EVA core for energy dissipation
- Bottom and internal soft section (neck side) provides comfort for the shoulders and neck, hard section on upper part provides stability and provides force distribution when the helmet impacts
- Easy-to-use soft strap closure on the front part
- Highly compatible with all other protectors and jackets
- External cover can be pulled off of the core for washing via hook-and-loop closure at the rear
- Category II EU 2016/425

## LAYERING SYSTEM

A proper layering system is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton-based garments are not recommended for use when layering because they absorb moisture and transfer the cold to your body. This includes sweatshirts and denim products.

Using products made from highly breathable fabrics like polyester and spandex helps to wick moisture away from your skin, keeping you dry and comfortable even when riding your hardest.

### MEN'S LAYERING SYSTEM MEASUREMENTS

| MEN'S SIZES | TOP (CHEST MEASUREMENT) | BOTTOM (WAIST MEASUREMENT) |
|---|---|---|
| S | 86 cm - 91 cm (34" - 36") | 71 cm - 76 cm (28" - 30") |
| M | 97 cm - 102 cm (38" - 40") | 81 cm - 91 cm (32" - 34") |
| L | 107 cm - 112 cm (42" - 44") | 91 cm - 97 cm (36" - 38") |
| XL | 117 cm - 122 cm (46" - 48") | 102 cm - 107 cm (40" - 42") |
| 2X | 127 cm - 132 cm (50" - 52") | 112 cm - 117 cm (44" - 46") |

### WOMEN'S LAYERING SYSTEM MEASUREMENTS

| WOMEN'S SIZES | TOP (BUST MEASUREMENT) | BOTTOM (WAIST MEASUREMENT) |
|---|---|---|
| XS (0-2) | 73,5 cm - 81 cm (29" - 32") | 68,5 cm - 72,5 cm (27" - 28,5") |
| S (4-6) | 84 cm - 89 cm (33" - 35") | 73,5 cm - 80 cm (29" - 30,5") |
| M (8-10) | 91 cm - 97 cm (36" - 38") | 79 cm - 83 cm (31 - 32,5") |

## GP PLUS R v3 LEATHER GLOVES

- Engineered for optimal performance and breathability
- Strategically placed padding on the palm and thumb patch absorbs impact forces while providing additional comfort
- Alpinestars Dynamic Friction Shield (DFS) technology enhances comfort by minimizing friction and abrasion in critical areas
- Extensive foam reinforcement on the top hand, cuff, palm and fingers provide additional impact absorption and structural support
- Hybrid seam construction on fingers ensures comfort and feedback, while also reducing material thickness for improved feel and control
- Touchscreen-compatible area on the index finger for use with smart devices
- Pull tab Hypalon enhances ease of use
- Aramid stretch fabric cuff
- TPU knuckle for maximum protection against repeated impacts
- Finger bridge on third and fourth finger prevents finger roll and separation in the event of a slide
- TPR wrist sliders, palm sliders and finger sliders provide additional abrasion resistance to key impact zones
- The following standards apply to this product: tested and certified to EN 13594:2015 Level 2 KP

## SP-8 v3 LEATHER GLOVES

- Universal riding glove bristling with racing DNA
- Reduced seams enhance rider comfort
- Premium full-grain goat leather and synthetic leather material construction is comfortable, durable and offers excellent abrasion-resistance
- Extended cuff for greater coverage with an integrated closure for security and ease of use
- An innovative microfiber and PU grip insert is strategically positioned on the palm and thumb for excellent levels of grip control and durability
- Alpinestars' exclusive ergonomic stretch insert between palm and thumb offers an enhanced range of hand movement and greater sensitivity while operating the bike controls
- Incorporates a premium quality synthetic suede palm and landing reinforcement for grip, control and durability
- ARshield reinforcement on the palm slider for superior abrasion-resistance
- Excellent repeated impact performance is offered by the advanced MotoGP-derived SP dual-density knuckle protector
- Alpinestars' third and fourth finger bridge prevents seam failure and finger separation in the event of a slide
- Perforated cuff and finger sidewalls for superior airflow and breathability
- Hook-and-loop cuff and wrist closure with an elasticized wrist design for secure, personalized fit
- Pre-shaped, anatomical finger design and half inner/half outer external seams for comfort and exceptional feel
- Touchscreen compatible index finger and thumb tip for use with smart devices

## SP-2 v3 GLOVES

- A superbly styled and anatomically profiled glove for sports or naked bike enthusiasts
- Constructed from a supple and highly durable full-grain leather chassis to provide core abrasion resistance and durability
- Palm and finger sidewalls are reinforced with supple goat's leather for feel and performance fit
- Main shell reinforcement is provided by leather coverage over first and second fingers and cuff
- Synthetic suede reinforcements on palm and landing zones for maximum abrasion resistance
- Ergonomic, advanced compound and MotoGP-derived TPU slider on palm is backed with EVA foam for impact performance
- Alpinestars robust yet flexible compound knuckle guard provides exceptional impact and abrasion protection
- Strategically positioned impact absorbing EVA foam for additional impact performance
- Alpinestars finger-bridge prevents excessive finger roll and separation during impacts
- Extensive sport knuckle gusset opening on thumb allows flex and freedom of movement
- Perforated cuff, leather top panel and ventilated finger sidewalls to help keep the hands cool
- Cuff side leather padded patches to enhance protection
- Pre-curved finger construction reduces rider fatigue
- Wide hook-and-loop wrist closure for easy entry and secure fastening
- Touchscreen compatible index finger and thumb tip for use with smart devices
- The following standards apply to this product: tested and certified to EN 13594 2015 Level 1 KP

## SP-X 1 GLOVES

- Engineered or riders seeking comfort and protection without sacrificing quality
- Equipped with finger bridge for superior dexterity and freedom of movement, while also enhancing control and precision riding
- Wrap-around reinforcements on the outer side of the palm and side of the pinky finger ensures durability and protection in critical areas
- The cut-back on the first and second fingers enhances comfort, especially when cornering
- Strategically positioned perforations for optimal airflow and breathability
- Stretch fabric top hand ensures a snug yet flexible fit for optimum freedom of movement
- Synthetic leather palm offers enhanced durability and grip, while also providing confidence and enhanced control
- A flatter cuff design reduces bulkiness, producing a sleek and streamlined look that is both stylish and functional
- Ventilated fourchettes further enhance airflow and comfort
- Touchscreen compatible area on thumb and index finger for use with smart devices
- A pull tab with silicon print enhances grip, making it easier to take on and off, especially in challenging conditions
- Strategically positioned reinforcements and foam padding on the palm and top of the hand for additional coverage against side scratches, bumps, and impacts
- Palm slider and finger sliders with synthetic leather overlays on the palm for additional abrasion and impact resistance, while also ensuring long-lasting durability
- The following standards apply to this product: tested and certified to EN 13594:2015 Level 1 KP

## STELLA SP-X 1 GLOVES

- Anatomically engineered for an optimized female fit
- Engineered or riders seeking comfort and protection without sacrificing quality
- Equipped with finger bridge for superior dexterity and freedom of movement, while also enhancing control and precision riding
- Wrap-around reinforcements on the outer side of the palm and side of the pinky finger ensures durability and protection in critical areas
- The cut-back on the first and second fingers enhances comfort, especially when cornering
- Strategically positioned perforations for optimal airflow and breathability
- Stretch fabric top hand ensures a snug yet flexible fit for optimum freedom of movement
- Synthetic leather palm offers enhanced durability and grip, while also providing confidence and enhanced control
- A flatter cuff design reduces bulkiness, producing a sleek and streamlined look that is both stylish and functional
- Ventilated fourchettes further enhance airflow and comfort
- Touchscreen compatible area on thumb and index finger for use with smart devices
- A pull tab with silicon print enhances grip, making it easier to take on and off, especially in challenging conditions
- Strategically positioned reinforcements and foam padding on the palm and top of the hand for additional coverage against side scratches, bumps, and impacts
- Palm slider and finger sliders with synthetic leather overlays on the palm for additional abrasion and impact resistance, while also ensuring long-lasting durability
- The following standards apply to this product: tested and certified to EN 13594:2015 Level 1 KP

## ABRASION-RESISTANT GLOVE LINERS

- Tuff-n-Lite® material is ounce for ounce up to 15 times stronger than steel, but it's as soft and flexible as cotton
- Tuff-n-Lite is created by a unique process that combines natural and synthetic fibers for almost unimaginable strength
- Tuff-n-Lite has a core fiber that's combined with strands of other fibers that give characteristics like strength, abrasion-resistance, heat-resistance and softness
- Will not compromise when wet or exposed to ultraviolet light
- Not affected by disinfectants or common household bleaches
- Help protect against chafing and blisters while riding
- Provide insulation while riding in colder temperatures

| SIZE | GRAY |

## SMX-6 v3 GORE-TEX® BOOTS

- Advanced microfiber upper construction for lightweight high-performance protection against abrasion and superb levels of flexibility
- Incorporates a waterproof and highly breathable Gore-Tex® liner for all-weather performance
- Front flex and back flexion zones are constructed with textile over-injected with a soft TPU for enhanced impact abrasion
- Promotes natural forward and backward movement
- Alpinestars unique ankle brace protection system provides bio-mechanical support and protection between the lateral top calf, the shin and ankle
- Limits hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection
- Features Alpinestars Lace-Lock System, which is constructed from an advanced polymer resin for a guaranteed quick, precise and secure closure
- Equipped with a TPU shifter zone for superior protection on the lower medial side
- Strategically positioned, race-derived TPU shin plate protector delivers superior impact and abrasion resistance
- Dual-density TPU ankle protectors are strategically positioned between the upper and padded lining to provide strategic protection in key areas
- Replaceable, dual-density TPU toe slider with screw-in assembly provides comprehensive protective coverage around the outer toe area while still being supremely flexible for walking comfort
- Replaceable heel slider and external side heel slider are strategically positioned for optimum shock dissipation and absorption, while promoting sliding in the event of an accident
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 39-46; see Alpinestars size chart on page 511 before ordering

## SP-X BOA BOOTS

- Sleek sport boot designed to fit under tech riding pants and provide superior walking capability
- Optimized for the sport and sport touring rider
- Compact, mid-height boots with premium levels of protection and comfort on and off the bike
- The upper is constructed from a combination of advanced microfiber, ultra-soft Rideknit® material and knitted mesh, plus seamless thermo-welded parts
- The lower features a TPU heel counter, toe slider, and the Alpinestars TPF (Transversal Protection Frame) on the sole
- Allows for high-levels of protection against impacts and any bending or twisting
- The sole also features an asymmetric back heel to facilitate the rider's natural stride and promote off-bike stability
- Includes an integrated shin impact protector, dual-density ankle discs, plus TPU shift pad and toe slider reinforcement
- Knitted areas on the front and back flex points offer great freedom of movement
- PU midsole with integrated double cushioned heel compound and removable OrthoLite® insock, provides great walking comfort
- In-and-out is facilitated by a medial zip combined with the BOA Speed Lace System for compact and precise closure
- Perfect boot for those sport riders looking for coverage and protection but without the full race boot, over-the-pant look
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 38-48; see Alpinestars size guide on page 511 before ordering

## SMX-1 R v2 BOOTS

- Ergonomic boot shaping for forefoot streamlining which offers wide-ranging foot profile fit and comfort
- Evolved closure strap is anatomically angled to follow natural shape of rider's instep
- Front hook-and-loop closure system offers a quick and secure fit over the instep area while permitting excellent levels of flex; strap features TPR puller for ease of use
- Aramidic fiber wires ensure the new strap closure system is durable, thin and lightweight
- Alpinestars exclusive compound rubber sole with grip patterning to promote improved feel and grip, water dispersion and durability
- Sole features integrated Alpinestars TPF (Transversal Protection Frame) to protect against possible transversal loads
- Instep and Achilles' accordion flex zones are constructed from lightweight microfiber for optimized levels of durability, comfort and maneuverability on and off the bike
- Thermowelded flex grooves to control the flexion and flexibility of the shoe; instep, medial and back
- Reverse zip closure ensures convenient in-and-out
- External, high modulus TPU heel counter, lateral ankle and shift pad for improved shock protection and durability
- Main upper constructed from an advanced microfiber for comfort, durability and excellent of abrasion-resistance
- Innovative heel counter support system, which works in conjunction with a strap closure to offer improved fit and support, as well as structural integrity
- Rear of heel counter has been designed with soft TPR insert which works seamlessly with the rear flex zone to allow for improved freedom of ankle movement and comfort on the bike's controls
- Rear flex bellow is equipped with a flex window, which also acts as an air intake for effective ventilation and airflow
- Ergonomic TPU shift pad for enhanced durability in a critical area
- Double density ankle protector on both sides layered under the upper offers protective performance and abrasion-resistance in key areas
- Internal toe box protection is layered under the upper for durability, improved feel and performance
- Removable anatomic foot-bed includes EVA foam and Lycra® for comfort and support
- Internal mesh lining for cooling comfort and moisture-wicking
- Integrated, replaceable bi-injected TPU forefoot slider features an easy-screw fixing concept for quicker and easier replacement
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 39-46; see Alpinestars size chart on page 511 before ordering

## WEB GORE-TEX® BOOTS

- Highly specified touring Gore-Tex® boots for long-distance road work in all weather conditions
- Leather construction gives excellent durability and long-lasting comfort
- Full Gore-Tex internal membrane ensures 100% waterproof performance and a high level of breathability
- The boot shape is engineered to give form-fitting comfort for long days on the bike with a toe box construction to improve riding control
- Extensive front and rear accordion microfiber flex zones offer fluid forward and back movement
- Side entry system with elastic mounted zipper and wide hook-and-loop flap for convenience and a precise, secure fit
- Hook-and-loop tab locks the zip pull closed, keeping it flat and secure
- Double-density ankle disk protection is mounted under the leather in both lateral and medial sides
- TPU shift pads protect the upper feet
- Internal shock resistant shin reinforcement mounted under the leather with heat-pressed Astars logo
- Rear reflective inserts for better visibility
- Textile collar inner linings are comfortable and durable
- Robust internal toe boxes and heel counters provide impact protection and structure to the foot hull of the boots
- Contoured, injected high modulus polyamide insoles include shank reinforcement
- Removable anatomically advanced EVA footbeds
- Alpinestars exclusive vulcanized rubber compound outer soles
- The following standards apply to this product: tested and certified to EN 13634:2017

## RADON DRYSTAR® BOOTS

- Main uppers are made of advanced microfibers for durability and long-lasting comfort
- Incorporates ergonomic toe box construction for improved compatibility with the motorcycle controls and a superior, wide-ranging foot profile for superior fit and comfort
- Internal heel counters and toe boxes for enhanced structural rigidity
- TPU shin plates and shift pads offer support and resistance to impacts
- TPR design on lateral toes give more flexibility and resistance against abrasion
- Drystar® membrane layer between boot uppers and inner linings
- Three adjustable lateral hook-and-loop straps for secure boot closure and a personalized fit
- Straps feature TPU pull tips for ease of use and durability
- Internal toe boxes and heel counter protection layered under the boot uppers for durability, improved feel and performance
- Comfortable and durable technical textile collar lining
- Dual-density ankle protectors are backed with foam inner padding for protection on both ankle sides
- High-modulus midsoles follow the shape of the foot and incorporate a structured shank reinforcement
- Innovative, weight-saving laminated technology is utilized on the shin plates for a lightweight yet strong guard against impacts
- Removable anatomical footbeds feature EVA foam and textile construction for comfort and support
- Rear and lateral reflective inserts for improved visibility
- Exclusive Alpinestars vulcanized compound boot soles
- The following standards apply to this product: tested and certified EN 13634:2017

## ANDES v2 DRYSTAR® TOURING BOOTS

- Fully featured touring Drystar® boot for long distance road riding in a range of climate conditions
- Main upper material constructed from reinforced leather for improved comfort, durability and abrasion resistance
- Full Drystar® internal membrane ensures 100% waterproof performance and a high level of breathability
- Extensive front and rear accordion constructed from microfiber to offer durability, comfort and forward/backward flex movement
- Medial side entry opening/closing system with elastic-mounted zipper and wide flap hook-and-loop closure for convenience and precise, secure fit
- Incorporates large aperture opening to promote easier entry and facilitate more convenient removal of boot
- Strategically positioned advanced TPR shin plate and TPR ankle protector for critical protection without impeding flexibility
- Double-density TPU ankle protector disks are layered on both sides under the upper and backed by polyfoam padding for protection
- Internal shock-resistant TPU shin guard mounted under the leather gives superior impact resistance
- Advanced TPU shift pad protects the upper and the toe box from abrasion and incorporates technical texturing for grip
- Toe box and heel counter internal reinforcement gives structured support, improved feel and impact resistance
- Exclusive vulcanized rubber compound sole promotes improved feel and grip, water dispersion and durability
- Contoured insole injected in polypropylene includes shank reinforcement for structural support and stability
- Removable anatomic advanced EVA footbed provides arch support and high levels of comfort
- Rear reflective insert for improved visibility of rider
- The following standards apply to this product: tested and certified to EN 13634:2017

## CR-1 SHOES

- Touring adventure shoe engineered for enhanced comfort on or off the bike
- The sole unit "Drop" (the off-set between heel and toe) is set at 9 mm to ensure a smooth heel-to-toe transition when walking
- Running shoe that provides a snug fit coupled with ample inner shoe volume for excellent all-day foot comfort
- Compressed EVA durable comfort mid-sole with heel stabilizers and a heel cushioning pad for enhanced support and outstanding all-day underfoot comfort
- OrthoLite® insole delivers long-term cushioning and high level of breathability and comfort
- Alpinestars exclusive dual-density rubber sole feature high grip lugs and a tapered pattern direction for grip in all-weather conditions while still delivering feel with the footrest
- Forefoot flex grooves are engineered into the mid-sole for enhanced forefoot comfort (the grooves promote flexing in the forefoot area)
- Integrated medial and external disks for impact protection with multi-layer padding for additional coverage
- Alpinestars Transversal Protection Frame (TPF) protects the foot while delivering the necessary support on the footrest without compromising the front foot flexion for superior walking comfort
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 6-13,5; see Alpinestars size chart on page 511 before ordering

## FASTER-4 DRYSTAR® RIDING SHOES

- Upper constructed with Drystar® technology for effective wet weather performance and a superbly lightweight, durable and abrasion-resistance microfiber
- Extremely lightweight, specifically compounded, reinforced rubber sole provides textured grip, superb absorption and features an integrated support shank for enhanced sole rigidity
- Heel dampening in the mid-sole for enhanced comfort
- 3D mesh lining for excellent breathability with anti-slip micro-suede on heel
- TPR slider details on lateral toe box gives enhanced flex when walking
- Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep, with a rear flexion point for further flexibility and comfort
- Lateral adjustable hook-and-loop closure system with TPR strap for added security
- Replaceable anatomical EVA footbed with Lycra® lining on top
- Traditional lace closure system for an easy, secure and comfortable fit
- Reinforced ankle structure to provide support
- Medial dual density ankle protectors for proven protection against impacts and abrasion
- Enhanced TPU ankle extended in lower lateral area increases support and protection
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design while delivering further coverage and abrasion resistance in key areas
- Asymmetric toe design gives protection on the shift area
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 7-13; see Alpinestars size chart on page 511 before ordering

## FASTER-4 RIDING SHOES

- Features new performance innovations
- Main upper material constructed from an advanced microfiber that incorporates seamless, thermo welded panels to create an innovative, lightweight and technical rode riding shoe
- 3D mesh lining for high levels of breathability and lightweight with anti-sliding microsuede on the heel
- Additional back flexion point constructed from soft microfiber to improve both back flexion and back protection, as well as to offer improved structure and riding comfort
- Medial quarter with dedicated seamless construction combined with soft TPU arear provides added structure and support
- Rear collar construction made of soft textile for enhanced comfort and improved flexion
- Unique, TPR on the lateral calf and slider details combined with the toe-box offer more support, protection and flexion
- Traditional lace closure system for easy, secure and comfortable fit
- Ergonomic TPR strap with lateral adjustable hook-and-loop closure system for an easier prehensility
- Medial dual density ankle protectors are applied between the upper and padded lining to provide strategic protection and flexibility in key areas
- Internal toe box and heel counter reinforcement in layered under the upper for more ergonomic design
- Enhanced TPU ankle extended in lower lateral area increases support and protection
- Asymmetric toe design gives protection on shift area
- Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep
- The new sole design compound in rubber provides textured grip, excellent absorption and features an integrated shank for enhanced sole support, with extra durability at the heal
- Heel dampening midsole
- Replaceable anatomical EVA footbed with Lycra® lining on top
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 7-13; see Alpinestars size chart on page 511 before ordering

## SPEEDFORCE XR SHOES

- Versatile and protective riding shoes with the look of a running sneaker
- High cut design with engineered ankle protection incorporating multi-layer ergonomic ankle support including impact protection dual density medial and lateral TPU disks
- New opening incorporates a medial side entry system with zipper combined with a lace closure for convenience and a precise and secure fit
- Running shoe silhouette and contour for efficient dynamic walking and an unrivalled casual look
- 8 mm drop for optimum walking comfort
- PU midsole guarantees stability and durable cushioning for superior performance
- Engineered for stability, cushioning comfort and protection
- Durable heel dampening EVA pad
- Alpinestars TPF (Transversal Protection Frame) technology using forefoot front transversal metal bar, TPU shanks and a PU midsole for unrivalled transversal protection
- Protective carbon textile layer
- Oil resistant rubber sole and dedicated high grip lugs design improves grip and control in any situation and on dirty surfaces
- Main upper material combines engineered textile with seamless PU for a snug and comfortable, streamlined fit
- Removable OrthoLite® insock provides long lasting comfort on the instep and around the ankle, as well as prevents over heating thanks to the Open Cell PU compound
- Reinforced toe and heel counters, with heel counter made in microfiber for increased durability and protection in key areas
- Tongue cover made from elasticated material with an integrated pocket that protects the lace closure
- Elastic collar area for enhanced rider comfort, offering a good fit for riders of all ankle sizes
- Rear back collar made from engineered textile material with an integrated rear puller, providing enhanced comfort especially when it comes to back flexion and easy entry
- 3D mesh lining for high levels of breathability with anti-sliding micro suede on heel
- Medial dual density ankle protectors provide strategic protection and flexibility in key areas
- TPR detail on lateral ankle provides more protection and support
- Internal toe box and heel counter reinforcement is layered under the upper for improved ergonomic design and protection
- The following standards apply to this product: tested and certified to EN 13634:2017

## SPEEDFLIGHT SHOES

- The perfect shoes for short rides and commuting, while still easy to wear every day, all day long
- Constructed from a performance ripstop upper with seamless reinforcement panels and a molded, semi-rigid heel piece with injected foam
- Advanced and lightweight main chassis
- Alpinestars TPF (Transversal Protection Frame) midsole reinforces the shoe and is sandwiched between a dual-density rubber sole with front protective walls, a comfort layer, and the EVA durable, yet comfortable midsole with lateral stabilizers
- An asymmetric TPU heel counter for added protection and stability, plus an OrthoLite® removable insock for great breathability and all-day walking comfort are also incorporated into the sole
- The sole itself also features a more "aggressive" 10 mm drop, meaning the height difference between the rider's heel and toes, allowing for great walking comfort off the bike
- Provides a "cradled" fit and enhances foot stability for walking comfort, as well as riding protection and confidence
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes listed; see Alpinestars size chart on page 511 before ordering

## STATED SHOES

- Modern interpretation of a retro sneaker
- Combines the stylistic minimalist skate pump look with a thick vulcanized sole with a stripped back, edgy style that looks great in any urban riding environment
- Main upper constructed from Nubuck, canvas and split suede for the optimal blend of durability and comfort
- Split suede toebox for enhanced durability
- Classic lace closure at the front with a lateral zip for a secure, precise fit
- Ankle collar is constructed with soft knitted mesh for enhanced rider comfort
- Dual layer midsole support for optimal comfort and support
- Alpinestars vulcanized rubber urban sole with bandage sole for optimal grip and comfort whether on or off the bike
- OrthoLite® insole delivers long-term cushioning and high level of breathability and comfort
- Integrated dual-density ankle disks for impact protection with external multi-layer padding for additional coverage
- Alpinestars TPF (Transversal Protection Frame) protects the foot while delivering the necessary support on the footrest without compromising the front foot flexion for superior walking comfort
- The following standards apply to this product: tested and certified to EN 13634:2017

## STELLA SMX-6 v3 BOOTS

- Anatomically engineered for an optimized female specific fit
- Advanced microfiber upper construction for lightweight high-performance protection against abrasion and superb levels of flexibility
- Front flex and back flexion zones are constructed with textile over-injected with a soft TPU for enhanced impact abrasion while also promoting a natural forwards and backwards movement
- Alpinestars unique ankle brace protection system provides a bio-mechanical support and protection between the lateral top calf, the shin and ankle, for superior ankle articulation, while also limiting hyper-torsion, hyper-extension and hyper-flexion, as well as providing Achilles and ankle impact protection
- Alpinestars Lace-Lock System is constructed from an advanced polymer resin for a guaranteed quick, precise and secure closure
- Equipped with a new TPU shifter zone for superior protection on the lower medial side
- Strategically positioned, race-derived TPU shin plate protector delivers superior impact and abrasion-resistance
- Dual-density TPU ankle protectors are strategically positioned between the upper and padded lining to provide the strategic protection in key areas
- Replaceable, dual-density TPU toe slider with screw-in assembly provides comprehensive protective coverage around the outer toe area while still being supremely flexible for walking comfort
- Replaceable heel slider and external side heel slider are strategically positioned for optimum shock dissipation and absorption, while promoting sliding in the event of an accident
- The following standards apply to this product: tested and certified to EN 13634:2017

## STELLA JUDY WATERPROOF BOOTS

- Versatile women's riding boot inspired by the classic combat boot design
- Lightweight design for supreme comfort, on and off the bike
- Waterproof membrane for excellent all-weather performance
- Rubber wrap-around reinforcement for further durability and strength
- Elasticated upper drawstring closure for a precise, secure closure
- Integrated rear pull loop for easy on and off
- Alpinestars Transversal Protection Frame (TPF) is engineered to deliver optimal lateral compression protection without compromising walking comfort
- Constructed with internal metal bars for strength, the frame protects the foot while simultaneously delivering the necessary support on the footrest without compromising the front foot flexion, thus ensuring superior walking comfort
- Elevated sole for a distinctive, contemporary look
- Soft, thermoformed textile rear collar for enhanced rider comfort
- Rubber sole for the optimum blend of grip, comfort and durability
- Removable OrthoLite® in-sock wicks away moisture and provides cushioning for enhanced comfort, on and off the bike
- Multi-layered ankle protection for effective impact protection, with a reinforced and padded shifter area for protection of the upper foot
- Internal toe box and heel counter protection for further coverage and abrasion resistance in key areas
- The following standards apply to this product: tested and certified to Category II EN 13634:2017

## STELLA FASTER-4 DRYSTAR® RIDING SHOES

- Anatomically engineered and optimized for a female specific fit
- Upper constructed with Drystar® technology for effective wet weather performance and a superbly lightweight, durable and abrasion-resistance microfiber
- Extremely lightweight, specifically compounded, reinforced rubber sole provides textured grip, superb absorption and features an integrated support shank for enhanced sole rigidity
- Heel dampening in the mid-sole for enhanced comfort
- 3D mesh lining for excellent breathability with anti-slip micro-suede on heel
- TPR slider details on lateral toe box gives enhanced flex when walking
- Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep, with a rear flexion point for further flexibility and comfort
- Lateral adjustable hook-and-loop closure system with TPR strap for added security
- Replaceable anatomical EVA footbed with Lycra® lining on top
- Traditional lace closure system for an easy, secure and comfortable fit
- Reinforced ankle structure to provide support
- Medial dual density ankle protectors for proven protection against impacts and abrasion
- Enhanced TPU ankle extended in lower lateral area increases support and protection
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design while delivering further coverage and abrasion resistance in key areas
- Asymmetric toe design gives protection on the shift area
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in women's sizes 5-9,5; see Alpinestars size chart on page 511 before ordering

## STELLA FASTER-4 RIDING SHOES

- Features new performance innovations engineered specifically for female riders
- Main upper material constructed from an advanced microfiber that incorporates seamless, thermo welded panels to create an innovative, lightweight and technical rode riding shoe
- 3D mesh lining for high levels of breathability and lightweight with anti-sliding microsuede on the heel
- Additional back flexion point constructed from soft microfiber to improve both back flexion and back protection, as well as to offer improved structure and riding comfort
- Medial quarter with dedicated seamless construction combined with soft TPU arear provides added structure and support
- Rear collar construction made of soft textile for enhanced comfort and improved flexion
- Unique, TPR on the lateral calf and slider details combined with the toe-box offer more support, protection and flexion
- Traditional lace closure system for easy, secure and comfortable fit
- Ergonomic TPR strap with lateral adjustable hook-and-loop closure system for an easier prehensility
- Medial dual density ankle protectors are applied between the upper and padded lining to provide strategic protection and flexibility in key areas
- Internal toe box and heel counter reinforcement in layered under the upper for more ergonomic design
- Enhanced TPU ankle extended in lower lateral area increases support and protection
- Asymmetric toe design gives protection on shift area
- Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep
- The new sole design compound in rubber provides textured grip, excellent absorption and features an integrated shank for enhanced sole support, with extra durability at the heal
- Heel dampening midsole
- Replaceable anatomical EVA footbed with Lycra® lining on top
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in women's sizes 5-9; see Alpinestars size chart on page 511 before ordering

## STELLA STATED PODIUM SHOES

- Anatomically engineered for an optimized women's fit
- Modern interpretation of a retro street sneaker
- Combines the stylistic minimalist skate pump look with a thick vulcanized sole with a stripped back, edgy style that looks great in any urban riding environment
- Midsole features an 8 mm platform along its entire length to offer greater elevation for shorter riders
- Main upper construction from Nubuck, canvas and split suede for the optimal blend of durability and comfort
- Split suede toebox for durability
- Classic lace closure at the front with a lateral zip for a secure, precise fit
- Ankle collar is constructed with soft knitted mesh for enhanced rider comfort
- Dual layer midsole support for optimal comfort and support
- Alpinestars vulcanized rubber urban sole with bandage sole for optimal grip and comfort whether on or off the bike
- OrthoLite® insole delivers long-term cushioning and high level of breathability and comfort
- Integrated dual-density ankle disks for impact protection with external multi-layer padding for additional coverage
- Alpinestars TPF (Transversal Protection Frame) protects the foot while delivering the necessary support on the footrest without compromising the front foot flexion for superior walking comfort
- The following standards apply to this product: tested and certified to EN 13634:2017

## RT-7 DRYSTAR® BOOTS

- Protective touring boot engineered for superior comfort on and off the bike
- Lateral side entry system with an elastic mounted zipper and a wide hook-and-loop flap for convenience and a precise, secure fit
- Drystar® membrane for proven performance in wet weather conditions
- Dynamic design shift pad in 3D print PU technology for effective upper foot protection
- Internal toe box and heel counter protection is layered under the upper for durability, improved feel and performance
- Rear puller for easy entry/exit
- Sole constructed with lightweight rubber compound for excellent grip on the pegs
- Removable anatomic EVA footbed with Lycra® lining on top for comfort
- Main upper material constructed with high abrasion textile with reflective dots for enhanced flexibility
- Shin plate and medial side constructed with microfiber and textile with reflective dots for enhanced durability and abrasion resistance
- Front and rear bellow constructed with a combination of textile material and soft lightweight stretch PU for enhanced rear flexion and comfort
- Double-density ankle disk protection is mounted under the leather on the lateral and medial side for impact protection in a key area
- Internal shin plate reinforcement for enhanced shin protection
- Soft PU on the lateral side provides additional lateral protection
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 38-48; see Alpinestars size chart on page 544 before ordering

## COROZAL ADVENTURE DRYSTAR® BOOTS

- Black boot uppers are made from PU-coated leather with high suede leather medial panels for superior grip
- Brown boot uppers are full-grain oiled leather
- Front and rear boot bellows made with lightweight microfiber for increased durability and abrasion resistance
- Rear reflective inserts for improved visibility
- Extended PU-coated front leather gaiters help keep out water and dirt
- Rear gaiters have rubber insert for flexibility and comfort
- TPU shins and calf plates offer support and resistance to impacts
- Biomechanical lateral flexi-blade boot system provides excellent front and rear movement while offering support and protection to the ankles
- TPU shift pad is made with a technical texture for added grip; foam padding on bottom of the shift pad provides better comfort
- Wide entry apertures for convenience with hook-and-loop upper closure flaps that allow a wide range of adjustment for an excellent fit
- TPU double-density ankle protector on medial sides for protection
- Boot closure system includes two polymer ratchet buckles with memory feature and quick-release locking system that is self-aligning for easy, precise closure
- All boot buckles are replaceable
- Soft foam surrounds the ankles and collars for comfort and shock-absorbing performance
- Drystar® membrane layer between boot upper linings
- Toe boxes and heel counter reinforcements layered under the boot upper
- PP insoles with steel shanks are co-injected for excellent feel and safety
- Alpinestars exclusive vulcanized rubber compound for optimal comfort and grip
- Replaceable anatomical EVA footbed with Lycra® lining on top
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 7-13; see Alpinestars size chart on page 544 before ordering

## TECH 10 SUPERVENTED BOOTS

- Construction uses a highly breathable, perforated microfiber
- TPU feature is combined with ventilation zones and a new airflow system sole for breathability and superior ventilation
- Two large inlet ports on front of boot with exhausts at back for optimized levels of airflow and heat exchange
- Co-injected for strength and structure, the exclusive TPU and rubber compound panels provide superb levels of grip contact, durability and heat-resistance
- The contoured calf protector ergonomically wraps around the rear leg and is constructed from a dual density compound rear blade system to offer progressive dampening of excessive torsional forces
- Shin plate features a new anatomic design for reduced weight and surface area
- Completely re-designed sole with proprietary grip sculpturing to improve footpeg performance, grip and mud and water run-off
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support
- The sole offers superior durability, grip and feel while riding, and improved performance on the shifter
- Innovative, lightweight upper combines advanced lightweight microfiber with an impact and abrasion resistant TPU shell
- The foot shell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity
- The foot shell incorporates heel and toe protection and is highly resistant against abrasion and impact while adding to the boot's overall durability
- The foot shell also includes an integrated shank for support and structural integrity
- Frontal protection features a dual closure system with an internal microfiber flap, plus hook-and-loop fasteners for a precise fit closure attached securely with a micro-adjustable, easy to operate, lightweight buckle
- The shin incorporates a unique TPU blade system engineered to prevent frontal hyperextension and offer greater flex control
- Soft microfiber gaiter helps seal out excessive water and dirt entry, while the 3D mesh lining ensures improved air circulation and comfort
- 3D mesh lining incorporates anti-sliding suede on heel area to keep the foot located inside the boot
- Highly ventilated perforated padding for optimized ventilation and airflow
- Perforated footbed for additional cooling
- The central sole insert features a micro grip and side hooking grip design that is easily replaceable and Alpinestars offers a full sole replacement and boot repair service
- Inner boot has a mesh construction for optimal levels of airflow
- Anatomically optimized for weight-saving and ergonomics, the new mechanical buckle closure system features a nylon and fiberglass compound for improved durability and strength
- Slim-line buckle closure system includes high-impact bridge closures which are cold forged for precision and strength
- The buckle closure system features a memory and a quick-release/locking system with self-aligning design for easy, precise closure and improved riding performance and security
- Air vents on the PU lateral calf plus breathable mesh insert improve comfort and reduce fatigue on short and long rides
- Alpinestars Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded polyfoam to absorb high impact energies during a crash
- Performance double pivot motion control system feature
- Medial and lateral double pivot system for improved levels of flexibility and precision control
- Engineered bi-density front flexion control is strategically positioned over the mesh area, combined with a dual front blade system and shock absorber insert to offer mechanical progressive force release to dampen and absorb impact energies
- Re-designed dual density TPU rear blade system is engineered to prevent hyperextension while offering improved flex control and impact resistance
- Evolutionary new shin plate design with ventilation windows strategically positioned to allow more ventilation without compromising the impact protection
- 3D higher spring insole creates an effective cooling system using air channels within the sole for optimal levels of ventilation, while also creating a cushioning effect for enhanced levels of comfort
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes listed; see Alpinestars size chart on page 544 before ordering

## TECH 10 BOOTS

- Combine dual front and rear blade connectors
- Provide a complete and seamless flexion control system, from the foot shell all the way up to the shin plate
- Engineered to 'float' freely between the lower and upper boot construction
- Asymmetrical, dual pivot arms on boot frame
- A unique feature is the ankle control system developed in the outer shell construction, allowing natural ankle movement, vertical compression control and improved impact protection
- Asymmetrical medial and lateral double pivot system for improved levels of flexibility and precision for both independent and synchronized movement
- Redesigned dual-density TPU rear blade system engineered to prevent hyperextension while offering improved flex control and impact resistance
- Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded poly-foam to absorb high impact energies during a crash
- Features lighter, anatomically redesigned medial and lateral torsion arms
- Double pivot system allows the boot to retain its integrity while flexing
- Low-profile, pull-on design for reduce material build, less weight and to facilitate easier and quicker wearing
- Innovative flexion inserts work seamlessly with new flex support system for ultimate in performance
- TPU protection and shock absorbing padding on the heel and ankles
- Constructed from a dual-density compound and combined with the rear blade system
- Energy dissipating shin plate features a new anatomic design for reduced surface area and weight-saving
- Completely redesigned sole with proprietary grip sculpturing to improve footpeg performance, grip and mud and water run-off
- Exclusive dual-compound sole is seamlessly integrated to the multi-density foot base structure with built-in support
- Slim-line buckles include high-impact bridge closures which are cold forged for precision and strength
- Closure system features contra-closure, doubling closure security and a quick release/locking system with self-aligning memory design for easy, precise closure and improved riding performance and security
- Soles and buckles are easily replaceable
- Chassis combines advanced lightweight microfiber and impact and abrasion resistant TPU shell
- Foot shell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity
- Soft microfiber gaiter helps seal out excessive water and dirt entry
- Poly-fabric lining with 3D open cell foam incorporates anti-slip suede in heel area, keeping the foot located inside the boot
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes listed; see Alpinestars size chart on page 544 before ordering

## TECH 10 ENDURO BOOTS

- Features a specifically engineered, compound sole to provide enduro riders superior durability, grip, feel and levels of structural rigidity
- The design improves overall functionality; performance and safety, while decreasing weight and reducing material volume
- Features Alpinestars Frontal Flexion Control Frame
- Dual front and the rear blade connectors, act as a shock absorber by distributing energy across the boot frame while controlling forward and rearward flex
- Seamless flexion control system, from the foot shell all the way up to the shin plate
- Provides high-performance double motion control, preventing over-compression and hyper-extension
- Equipped with Alpinestars ankle control system, which is integrated in the outer shell to allow natural ankle movement, vertical compression control and improved flex control and impact resistance
- Inner ankle brace and unique heel protection innovation
- The Alpinestars Dynamic Heel Compression Protector (DCHP) significantly reduces the effect of excessive, potentially injury causing, energy being transferred to the ankle and lower leg
- The Frontal Flex Frame is engineered to 'float' freely between the upper and lower boot, acting as a shock absorber by distributing energy across the boot frame while controlling forward and rearward flex, progressively releasing force which dampens and absorbs impact energies
- Slimmer and more streamlined profile with a contoured calf protector ergonomically wrapping around the leg
- Dual-compound removable anatomic footbed with EVA for comfort, support and even weight distribution
- Ultrathin and flexible forefoot area for increased sensitivity and control
- Easy to operate, more secure mechanism on the triple buckle closure system
- TPU lower shell features an innovative design on the shifter area, with a dedicated design for the left and right foot
- Further strengthened with a metal shank and is reinforced on the toe zone for impact and abrasion resistance
- Lightweight microfiber upper features extensive TPU protection on the toes, foot, heel, ankle, calf, and shin with extra hard compounds on the toe-box, heel for additional impact and abrasion resistance
- Equipped with a poly-fabric lining with 3D open cell foam and anti-sliding suede reinforcement on the heel area for enhanced abrasion resistance
- Co-injected for strength and to maintain the boot's structure, the Tech 10 Enduro's exclusive TPU and rubber compound panels provide superb levels of grip contact, durability and heat resistance
- Shin plate area is equipped with strategically positioned ventilation windows for superior airflow and ventilation without compromising impact protection
- Soft microfiber gaiter features a dedicated design especially for the back of the boot that effectively seals out excessive water and dirt entry
- Dual-closure system with an internal microfiber flap, plus hook-and-loop fasteners, for a precise fit closure
- The closure system includes lightweight polymer buckles plus an aluminum frame with self aligning, quick-release closures for a customized secure fitment
- Pull flap is engineered to offer increased prehensility
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 7-14; see Alpinestars size chart on page 544 before ordering

## TECH 7 BOOTS

- Upper is constructed from a light microfiber that provides flexibility and abrasion resistance
- TPU shin-plate construction and a reinforced hook-and-loop closure offers for comfortable, highly customized fitments
- TPU blade system provides flexibility while helping prevent frontal hyperextension
- Wide entry aperture and a hook-and-loop upper closure TPR flap allows for a broad range of calf-fit adjustments for comfort and support
- Single-piece TPU panel with honeycomb sculpturing for maximum grip contact with bike and improved heat and abrasion resistance on the medial facing area
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system helps to dissipate friction
- Ergonomic buckle system offers secure and highly personalized fit
- Innovative TPU lateral ankle protection provides biomechanical link between the middle lateral and the bottom lateral of the boot
- Instep and Achilles accordion flex zones for superior support and control
- Toes protected by metal shank-reinforced TPU shell
- Microfiber gaiter helps keep out water and dirt
- Polymer buckles with aluminum frames provide self-aligning, quick-release closures for personalized fits
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement in the heel
- Shock absorbing soft poly-foam surrounds around ankles and collar
- Removable anatomic footbed
- Replaceable high-grip double-density rubber outer sole
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes listed, see Alpinestars size chart on page 544 before ordering

## TECH 7 ENDURO DRYSTAR® BOOTS

- Upper is constructed from light, innovative microfiber that is flexible and abrasion-resistant
- Provides 100% protection against water penetration
- Innovative, evolutionary TPU shin plate construction for a greater range of fitment
- Shin plate features a reinforced hook-and-loop closure for a comfortable, customized fit
- Shin zone incorporates a TPU blade system engineered to prevent frontal hyperextension and offer greater flex control
- Specially designed sole provides enduro riders with superior grip, durability, feel and a high level of structural rigidity
- Wide entry aperture for convenience with a hook-and-loop upper closure with TPU flap to allow a wide range of calf fitment adjustment and support
- Medial-facing area is constructed from one-piece TPU panel with a honeycomb structure for maximum grip contact with the bike and improved heat and abrasion resistance
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system which dissipates the friction
- Ergonomic buckle system offers a secure and highly personalized fit
- Innovative TPU lateral ankle protection provides a biomechanical link between the middle lateral and the bottom lateral of the boot
- Instep and Achilles accordion flex zones constructed for superior control and support
- TPU lower shell is reinforced with a metal shank and includes toe reinforcement for impact and abrasion resistance
- Extended microfiber gaiter helps seal out water and dirt
- Closure system includes replaceable polymer buckles plus an aluminum frame with innovative, self-aligning quick-release closures for a custom, secure fit
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement on the heel area
- Soft poly-foam surrounds the ankles and collar to offer comfort and shock-absorbing performance
- Removable anatomic footbed
- Exclusive high-grip rubber dual-density compound outer sole
- Sole is replaceable

## TECH 5 BOOTS

- Upper constructed from innovative and lightweight microfiber material with action leather on toe box
- Redesigned instep and Achilles accordion flex zones
- Contoured TPU calf protector plate, TPU higher medial protector and TPU outer lateral ankle
- Injected TPU shin plate connected with the TPU medial protector panel
- Hook-and-loop upper closure and TPR flap for broad-ranging calf fit adjustment and support
- TPU higher medial protector is designed with technical texture for improved grip
- Biomechanical pivot
- Ergonomic TPU triple buckle straps
- Incorporates innovative one-piece TPU injected dual-compound foot shell, reinforced by a metal shank inside and co-injected toe reinforcement
- TPU heel patch connected with shell and lateral/medial TPU sections
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry
- Soft poly foam surrounds the ankles and collar
- Full inner textile lining
- Closure system includes four polymer buckles with an innovative closure system that includes a ratchet with memory and a quick-release/locking system with self-aligning design for precise closure; all buckles are replaceable
- Replaceable anatomic EVA footbed with textile lining on top
- Exclusive high-grip rubber compound outsole
- Sole is replaceable

## TECH 3 BOOTS

- Upper boot is made from innovative, lightweight microfiber material that is flexible
- Light microfiber on front and rear bellows for more comfort in flexible areas
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf plate, TPU higher medial plate, TPU outer lateral ankle guard and TPU heel counter provide support and resistance to impacts
- Rear TPU gaiter patch applied on the top of the TPU calf protector for added impact resistance and comfort on the rear flex zone
- Injected TPU shin plate connected to the TPU medial panel
- Hook-and-loop upper boot closure with TPR flap for a custom fit and support
- TPU higher medial guard is designed with a technical texture for improved grip
- Biomechanical medial blade system allows a good front/rear flex to provide support and impact resistance to the ankle
- Ergonomic TPU triple buckle straps wrap harmoniously from the front flex medial protector to the lateral side without compromising the flex of the boot
- Closure system includes three replaceable polymer buckles with ratchet memory and a quick-release/locking system with self-aligning design for easy, precise closure
- Innovative one-piece TPU injected dual-compound foot shell is reinforced with a metal shank inside an injected toe reinforcement
- Soft foam surrounds the ankle and boot collar for comfort and shock-absorbing performance
- Boot lining is textile for added comfort
- Replaceable EVA footbed with a textile lining on top
- Exclusive high-grip rubber sole compound replaceable outsole
- The following standards apply to this product: tested and certified to EN 13634:2017

## TECH 3 ENDURO DRYSTAR® BOOTS

- Boot upper construction is an innovative, lightweight microfiber material that is flexible and abrasion-resistant
- Light microfiber on front and rear bellows provides a more comfortable flex area
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf guard, TPU higher medial guard, TPU outer lateral ankle guard and TPU heel counter for support and resistance to impact
- Rear TPU gaiter patch applied on the top of the TPU calf protector for comfort and impact resistance on the rear flex area
- Injected TPU shin plate is connected with the TPU medial guard panel
- Hook-and-loop upper boot closure with TR flap that provides a wide range of fit and support
- TPU higher medial protector designed with technical texturing for improved grip
- Biomechanical medial blade system allows good front/rear boot flex and added support and impact resistance for the ankle
- Ergonomic TPU triple buckle straps wrap smoothly from the front flex and medial guard to the lateral side of the boot without compromising the boot's flexibility
- Closure system uses three replaceable polymer buckles with ratchet closure, buckle memory system and quick release/locking system with a self-aligning design
- One-piece TPU injected dual-compound foot shell is reinforced by a metal shank inside a co-injected toe reinforcement
- Soft foam surrounds the ankles and boot collar for comfort and shock-absorbing performance
- Entire boot is textile lined for comfort
- Replaceable EVA footbed with textile top lining
- Alpinestars all-terrain sole design with high-grip rubber compounds; sole is replaceable
- The following standards apply to this product: tested and certified to EN 13634:2010
- Available in men's sizes 7-13; see Alpinestars size charts on page 544 before ordering

## TECH-T BOOTS

- Upper constructed from a combination of full-grain leather and innovative microfiber for durability and abrasion resistance
- Extended front and rear accordion stretch zones for improved flex, control and support
- Double-density TPU ankle protector disks are layered under the upper and backed by polyfoam padding
- Ergonomically contoured shin plate is injected with high-modulus TPU for high-level impact and abrasion resistance
- Wide entry aperture for convenience with hook-and-loop upper closure TPR flap to allow broad-ranging calf fit adjustment and support
- 3D mesh textile with open cell foam for improved air circulation and comfort
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry
- Soft polyfoam reinforcement on ankles and collar for long-lasting comfort and shock absorption
- Three-buckle closure system with memory, featuring an integrated quick-release/locking system closure
- Buckles are injected with high-impact-resistant techno polymer
- Internal toe box and heel counter protection is layered under the upper for durability
- Leather shift pad for abrasion resistance and structural protection
- Polymer insole with integrated steel shank reinforcement for structure and support to the arch area
- Exclusive compound rubber sole with high grip, rough terrain design
- Outsole is replaceable
- Replaceable anatomic footbed for comfort and support ensures even weight distribution
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in men's sizes 7-12; see Alpinestars size chart on page 544 before ordering

## STELLA TECH 3 BOOTS

- Specially engineered calf shape for female fit
- PU-reinforced microfiber upper for flexibility, abrasion resistance, water resistance and light weight
- Material ensures a consistent fit and is easy to clean
- Contoured shin plate is injected with a high-modulus TPU for impact and abrasion resistance
- Medial facing side has a TPU panel with specially designed sculpting for maximum grip contact with the bike and improved heat resistance
- One-piece injected dual-compound foot shell with co-injected hard-to-guard and integrated steel shank
- Shell is highly resistant to abrasions and impacts and adds to the streamlined shape of the boot
- External flexion with low-profile medial and lateral pivot system for excellent movement and support
- Instep and Achilles accordion flex zones constructed for superior control and support
- Extended microfiber gaiter helps seal out water and dirt
- Soft polyfoam surrounds the ankle and boot collar for long-lasting comfort and shock absorption
- Internal mesh textile lining for comfort and support
- Ergonomic buckle system offers secure, highly personalized closure; buckles are replaceable
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures offer weight saving durability
- Buckle system features memory and quick-release/locking system with a self-aligning design for easy, precise closure
- Removable anatomic footbed for comfort and support
- Compound sole is seamlessly integrated into the base structure of the boot for superior durability; rubber soles have a high-performing grip pattern
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in women's sizes 6-9; see Alpinestars size charts on page 544 before ordering

## RADIAL BOOTS

- Pre-curved injection molded components throughout
- Radial hinge component adds structure and reduces overextension
- Injection-molded, positive-lock buckle system
- Adjustable straps allow for a custom and secure fit
- Injection-molded medial-abrasion plate with integrated shift protection
- Fully synthetic calf overlays deliver premium durability and optimal grip
- Low-profile toe box for unhindered shifting
- Unidirectional outsole with steel shank for rigidity
- Replaceable outsole inserts for extended wear
- Mesh liner promotes airflow while interior EVA panels enhance comfort
- Tested and certified to EN 13634: 2017 Level 2 2 2 2

## QUALIFIER BOOTS

- Chassis is constructed with polyurethane-coated synthetic leather that is abrasion-resistant and flexible
- Reinforced TPU shin, ankle and foot plates are engineered to improve stability without sacrificing mobility
- Low-profile compact lower toe box improves brake feel and ability to shift
- Integrated internal lace loop system secures foot and increases ankle stability
- Heavyweight suede leather inner calf guard improves abrasion and heat resistance
- Rigid steel shank reinforced sole eliminates flex and provides superior foot support
- Polyurethane plastic closure strap with metal buckle is adjustable and secure
- Internal soft EVA foam reinforced in impact areas improves comfort
- Multi-layer synthetic rubber outsole is long lasting and provides superior grip
- Polyester inner lining wicks moisture
- Tested and certified according to European standard EN 13634:2017 Level 2 2 2 2

## TECH 7S BOOTS

- Specifically designed and sized for junior and/or smaller framed riders
- PU-reinforced microfiber upper for flexibility, abrasion-resistance, water-resistance and weight-saving
- Material ensures consistent fit and is easy to maintain and clean
- Contoured shin plate is injected with high-modulus TPU for excellent levels of impact- and abrasion-resistance
- Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat- and abrasion-resistance
- One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank
- Shell is highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining
- Excellent flexion provided by low-profile medial and lateral pivot system to offer movement and support
- Instep and Achilles accordion flex zones constructed for superior control and support
- Extended microfiber gaiter helps seal out excessive water and dirt entry
- Compound sole is seamlessly integrated into the base structure for superior durability, high-performing rubber grip patterning, and feel
- Sole is replaceable
- Soft poly foam reinforcement on ankles and collar for long-lasting comfort and shock absorption
- Removable anatomic footbed for comfort and support ensures even weight distribution
- 3D mesh textile with open cell foam for improved air circulation and comfort
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving
- Buckle system features memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security
- All buckles are easily replaceable
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in youth sizes 2-8; see Alpinestars size chart on page 555 before ordering

## YOUTH/KIDS TECH 3S BOOTS

- Designed for junior riders
- Upper construction is made from innovative, lightweight microfiber material that is flexible and abrasion-resistant
- Light microfiber on the front and rear bellows for added comfort in the flex areas
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf guard, TPU higher medial guard, TPU outer lateral ankle guard and TPU heel counter for support and impact resistance
- Rear TPU gaiter patch applied on top of the TPU guard for added impact resistance and comfort on the rear flex zone
- Injected TPU shin plate is connected with the TPU medial guard panel
- Hook-and-loop upper boot closure with a TPR flap to fit a wide range of calf sizes while providing comfort and support
- TPU higher medial guard is designed with a technical texture for improved grip
- Biomechanical medial blade system allows good front/rear flex of the boot and provides support and impact resistance to the ankle
- Ergonomic TPU triple buckle straps wrap smoothly around the front flex area from the medial guard to the lateral side of the boot without compromising boot flex
- Boot closure system includes ratchet closure with memory system and a quick-release/locking system with a self-aligning design for easy, precise closure
- All buckles are replaceable
- Innovative one-piece TPU injected dual-compound foot shell is reinforced by a metal shank inside a co-injected toe reinforcement
- Soft foam surrounds the ankle and boot collar for comfort and shock-absorbing performance
- Boot has a textile lining for added comfort
- Replaceable anatomical EVA footbed
- Specially modified smaller footbed to accommodate growth and extended longevity of the product (only available in kid's boot sizes 10-1 and youth boot sizes 2-8)
- High-grip rubber compound sole
- The following standards apply to this product: tested and certified to EN 13634:2017
- Available in kids sizes 10-1 and youth sizes 2-8; see Alpinestars size charts on page 555 before ordering

## BICYCLE VECTOR ELBOW PROTECTORS

- Two-part construction permits the elbow to bend effortlessly while preventing the protector from slipping down the arm when riding
- Slipping is further prevented by the wider top elastic strap, which ensures the protector remains correctly positioned on the arm
- Lightweight elbow protector is constructed from a laminated rip-stop PE foam and poly-mesh for superior breathability and airflow
- Ergonomic, integrated Nucleon Flex Plus Technology protectors are strategically positioned to provide maximum protection of the elbow area
- Comfort liner prevents material bunching to ensure a snug fit while providing a soft-feel contact against the skin
- Snug design offers a firm compression fit and soft tissue support for all styles of riding
- Additional thermoformed inner and outer side padding for additional coverage
- Hook-and-loop top and bottom elastic straps help keep the protector in place for effective protection
- Silicone printing on the inner liner also prevents the protector being displaced while riding
- Highly abrasion-resistant textile over the front panel for durability
- Sold in pairs
- The following standards apply to this product: elbow protector certified to EN 1621-1:2012 Level 1

## YOUTH BICYCLE PARAGON LITE LONG-SLEEVE PROTECTION JACKET

- Extremely lightweight, durable and flexible protector constructed from breathable stretch mesh for a comfortable, close fit
- Interlinked cell protectors are highly perforated and secured in a mesh pocket for excellent breathability and core cooling
- Abrasion-resistant fabric front panel
- The super lightweight back protector insert is developed in three waist to shoulder dimensions in order to cover all body sizes
- The triple-segmented back shell plate is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties
- The back protector's structure design changes from the center towards the outside and provides the perfect balance between force dispersion and energy absorption
- Unique cell microstructure is designed for advanced energy absorption, adaptivity, maximum breathability and airflow
- Ergonomic protection plate contours to the natural curve of the back ensuring optimum fit while riding
- Horizontal flexion grooves for an adaptive fit in different riding position
- Soft comfortable air mesh on the body side of the protector offers maximum breathability and rider comfort
- PU foam chest pad provides additional coverage to the chest area
- The following standards apply to this product, back protector: EN 1621-2:2014 Level 1, elbow and shoulder protectors: EN 1621-1:2012 Level 1

## TECHDURA TACTICAL PACK

- Low profile pack solution to comfortably transport the off-road trailside essentials
- Constructed from heavy duty 1000D poly-fabric, 450D coated poly-fabric, and 3D comfort mesh
- Ergonomic Techdura Tactical Pack provides ample carrying capaciity thanks to a 5,5 to 6 L fixed main back compartment, and lower chest and lower lateral side pouches offering 0,75 L volume capacity each, for a total of up to 9 L of overall carrying capacity
- The front and side pouches are removable if desired, allowing the pack to become even more low profile allowing the rider to carry along only the necessary essentials
- Design allows the rider to centralize and disperse the pack's weight closer to and around the rider's body for better weight distribution and comfort for longer riding stamina, less overall muscle fatigue, and unobstructed mobility on the bike
- Pack has both a large belly buckle and a secure and easy to open and close, magnetic chest buckle, providing a large range of adjustability
- MOLLE webbing allow for the attachment of various compatible pouches and accessories
- Multiple compartments specifically designed to organize and carry trail necessities
- Ergonomic shoulder straps with perforated foam padding and mesh panels for an optimized airflow, adjustable and removable chest strap and the Alpinestars' magnetic chest buckle for a fast and secure adjustment.
- Can accommodate water bladders (not included) up to 3 L in volume

## CHARGER PRO BACKPACK

- Aerodynamically-shaped, semi-rigid backpack
- Thermoformed front panel is semi-rigid for strength and aerodynamically sculpted to provide minimal drag when riding
- Front panel has a smooth surface fabric construction for additional aerodynamic performance and features a polyurethane-coated pattern embossed polyester for durability
- Durable textured main body fabric utilizes a Jaquard-weave 440 g polyester with TPE back coating for exceptional durability
- Clamshell main compartment opening with inner gusset for ease of use
- Single auto-lock slider zipper on main compartment for a secure closure
- Expandable allowing users to increase the capacity of the backpack by approximately 4,5 L
- Adjustable harness allows riders to adapt it to their torso length for a personalized fit, thus ensuring stability and comfort
- Harness has been designed to be used with one hand, and features a quick-release magnetic center buckle for quick and easy use
- The lower strap has quick-release buckles, making it easy for riders to remove the backpack
- Removable waist belt allows riders to adapt the bag to their personal riding requirements
- When worn, belt offers greater stability; when removed it allows greater freedom of movement
- Equipped with a small pocket at top of the main compartment for storage of essentials, with removable waist belt pockets for additional storage options
- A padded laptop pocket with a closure strap, individual organizer pockets plus additional mesh pockets allow riders to quickly and easily sort and store items
- Built-in helmet carrier with color-keyed anchor point allows riders to easily and securely carry a helmet without fear of dropping it
- Includes rain cover for wet weather performance
- Reflective piping
- Designed to accommodate an Alpinestars Nucleon KR-CELLi medium size back protector (sold separately)

## AMP-7 BACKPACK

- Technical backpack designed for carrying all your important gear, keeping it safe, dry, and secure, both on and off the bike
- Includes a packable waist strap, chest strap with a magnetic buckle to help distribute the pack's load when worn as well as conveniently open and close one-handed with gloves, back panel comfort pads, quick access front pocket, quick access external rain cover, internal zippered mesh pockets, adjustable position removable inner pouch, and a separate padded laptop compartment
- Features an overall capacity of 22 L
- Constructed from a tech fabric with structured, padded walls and lower body reinforcements to help maintain the bag's shape, as well as full, long zippered openings for easy and wide access
- Whether partially filled or completely packed, four compression straps add extra security to the closure, stabilize the internal load, and allow the backpack to fit as comfortably and closely to the body as possible, while keeping the bag as aerodynamic as possible
- The two main shoulder straps are ergonomically shaped and padded with ventilated air holes to allow it to breathe well and fit comfortably for those long trips
- There are three convenient grab handles, to easily grab and to provide functional large anchor points to strap the bag down to the motorcycle for easier transportation

**BOLD MAGENTA** part numbers are new for 2026

## ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

## ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

## PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

## EC TYPE APPROVED

This logo symbolizes that the conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

## EU TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU Regulation (generally for newer products). Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

## PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425. (Non-motorcycle articles, e.g. Watercraft articles)

## ECE R22.06

This logo symbolizes that a helmet, helmet visor/shield or other helmet accessory has been tested and certified to ECE R22.06 regulation.

## ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention. (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventative value and the better it protects against theft.

## ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

## TEILEGUTACHTEN (German Parts Certificate)

This logo symbolizes that the article contains a TEILEGUTACHTEN (German Parts Certificate) to ensure the legal part installation. Issued by a German inspection body.

## CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

## SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security products) standards for theft prevention.

# ELECTRICAL WIRING

## WIRE GAUGE CONVERTER

| GAUGE | MM² | MM Ø | GAUGE | MM² | MM Ø |
|---|---|---|---|---|---|
| 22 | 0,33 | 0,65 | 10 | 5,0 | 2,6 |
| 20 | 0,5 | 0,8 | 8 | 8,0 | 3,3 |
| 18 | 0,8 | 1,0 | 6 | 13,0 | 4,1 |
| 16 | 1,0 | 1,3 | 4 | 19,0 | 5,2 |
| 14 | 2,0 | 1,7 | 2 | 32,0 | 6,5 |
| 12 | 3,0 | 2,1 | 0 | 52,0 | 8,3 |

## WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

**NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.**

| AMP | WATT | 91 CM (3 FT) | 152 CM (5 FT) | 213 CM (7 FT) | 305 CM (10 FT) | 457 CM (15 FT) |
|---|---|---|---|---|---|---|
| 5A | 30W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 18 AWG |
| 6A | 36W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 18 AWG |
| 7A | 42W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 18 AWG |
| 8A | 48W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 18 AWG |
| 10A | 60W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 16 AWG |
| 11A | 66W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 16 AWG |
| 12A | 72W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 16 AWG |
| 15A | 90W | 18 AWG | 18 AWG | 18 AWG | 18 AWG | 14 AWG |
| 18A | 108W | 18 AWG | 18 AWG | 16 AWG | 16 AWG | 12 AWG |

| AMP | WATT | 91 CM (3 FT) | 152 CM (5 FT) | 213 CM (7 FT) | 305 CM (10 FT) | 457 CM (15 FT) |
