Armega HiPER

It's simple. Humans see three primary colors – Red, Green and Blue.

Human vision begins to distort where these three colors overlap.

100% HiPER Lenses proprietarily filter out these crossovers, resulting in greater contrast and even more vibrant colors.

By ramping up contrast, riders experience depth-defining vision with unmatched perception to feel every detail of terrain before commanding past it.

Armega

The ARMEGA offers premium technology through an injection-molded, shatterproof lens that boasts an enhanced field of vision and impact protection. The 6-point locking-tab integration secures the lens and works in unison with a quick-change system enabling you to switch between lenses with a couple of simple clicks.

A bonded, dual-injected frame incorporates a next generation sweat management system that collects sweat as your ride intensifies and forces it away from the lens and out of the goggle through an integrated channel in the frame. Force air intakes in the frame promote increased airflow to ensure fog-free vision, despite heated efforts overcoming sub-par competition.

Want a goggle designed to give it 100% deep in the battlegrounds of motocross?
