# HELMETS

SUPERTECH

SM10

SOLID - ECE

- Lightweight outer shell is constructed from technologically advanced carbon in four sizes for best fitting.
- ECE 22/05 certifications.
- Multiple density inner liner.
- Fitted with E-2, latest generation of MIPS, integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head.
- Visor attached to helmet shell with patented system that will allow easy release in case of crash.
- Adjustable top pad height (Alpinestars' patented A-Head system).
- Maximized ventilation with 19 intakes and 5 exhaust ports.
- Side shell shape coupled with soft EPP foam prevents damage to collarbone in event of crash.
- Emergency release and removable cheek pads, 3D contoured foam.
- Removable comfort liner, anti-moisture and anti-bacterial fabrics.
- Hydration prepared.
- E-Ject prepared.

## APPAREL

## SUPERTECH GEAR

### JERSEY

- Ultra-lightweight advanced fabric main construction for moisture-wicking and performance fit.
- Jersey features a more fitted, lightweight design.
- Chassis consists of stretch mesh chassis with open mesh inserts on arms and side torso for high levels of cooling airflow.
- Innovative, fully floating arm construction offers full freedom of movement.
- Neck and sleeves feature fully tape-welded hems for reduced weight and improved levels of comfort.
- Pre-curved sleeves for maximum comfort and performance.
- Extended rear design helps maintain perfect riding fit.
- Sublimated fade-resistant graphics.

### PANTS

- Meticulously designed to a new pattern fit to keep pants perfectly positioned while riding aggressively and to offer unrivalled levels of movement and flexibility.
- Main shell extensively constructed (80%) from advanced stretch fabric for freedom of movement. Textile fiber composition specifically developed by Alpinestars to offer high levels of mechanical properties, such as strength, elasticity and durability.
- Heavy (900 denier) reinforcements on seat area provide seam strength, durability and critical coverage.
- Strategically positioned stretch mesh inserts offer cooling comfort and freedom of movement.
- Leather panels on inner leg provide heat resistance, grip and comfort.
- Front closure system with fly metal hook for a secure closure.
- Floating back yoke in solid 450D poly solid fabric for freedom of movement.
- Knee panel made in 450D solid poly fabric for durability. And freedom of movement.
- Side waist adjustments for an optimal fit.
- TPU reinforced knee area and on back for lightweight abrasion resistance.
- Welded hems on leg strength and reduced weight. Leg cuffs also features stretch insert for easy on and off.
- Advanced poly-fabric mesh lining offer comfort and internal cooling.
- Interior brushed effect for excellent skin-contact comfort.

## TECHSTAR FACTORY METAL GEAR

### JERSEY

- Extremely lightweight, vented poly-fabric main chassis construction for moisture-wicking and performance fit.
- Perforated mesh inserts around collar for excellent breathability, especially when using Alpinestars BNS neck support.
- Extended perforation inserts on side torso and forearms for excellent airflow and comfort.
- Pre-curved sleeves for maximum comfort and performance.
- Extended rear for compatibility with Alpinestars MX pants.
- Comfort neck collar and raglan construction for easy entry and exit.
- Seamless collar and cuffs for weight-saving and durability.
- Wrist cuffs feature stretch inserts for excellent fit and convenient in and out.
- Sublimated fade-resistant graphics in exciting new colorways.

### PANTS

- Multi-panel, poly-fabric construction with PU coating for excellent strength and durability.
- Innovative, strategically positioned four-way stretch panels for freedom of movement and riding fit.
- Localized perforation zones allows for cooling airflow and comfort.
- Exclusive 'Vector' back panel provides maximum comfort and flexibility when riding.
- 'Babel' knee design features a pre-bent, reinforced and padded 3D knee construction with hidden stretch spandex expansion gusset for excellent fit in the riding position.
- Heavy poly-fabric reinforcement on the seat area provides high levels of abrasion resistance.
- Lightweight and ventilated mesh lining with stretch panel insert for better fit in riding position.
- Leather panels on the inner leg provide heat resistance, grip and comfort.
- 3D injection molded rubber logos and details for additional durability.
- Silicon webbing on inner waist helps keep garment in position.
- Inner hip pocket for safe key/coin storage.

## YOUTH RACER BRAAP GEAR

### JERSEY

- Specially designed and developed for an optimized youth fit.
- Poly-fabric construction is lightweight, moisture-wicking and durable.
- Cut longer in the rear area for compatibility with Alpinestars MX pants.
- Stretch collar neck construction for fit and comfort.
- Fade-resistant sublimated graphics.
- Fitted wrist cuff.

### PANTS

- Specially designed and developed for an optimized youth fit.
- Durable poly-fabric/nylon construction that is PU coated for additional strength and durability.
- Soft stretch back panel from the upper thigh to the bottom of the leg provides increased comfort and flexibility.
- Internal comfort liner made of an extensive lightweight mesh with stretch panel inserts for improved feel and function.
- Pre-curved, ergonomic leg construction for improved performance in the riding position.
- Heavy poly-fabric reinforcement on the seat area and inner leg panels provide superior abrasion resistance.
- Leather reinforced inner-leg panels for heat resistance, grip and comfort.
- Innovative 3D knee construction and expansion panel designed to accommodate knee protectors.
- 3D injection molded rubber logos for durability.
- Ratchet closure with dual waist adjustment pull-tabs for safe, personalized fit.
- Convenient interior hip pocket for key/coin storage.

## YOUTH RACER TACTICAL GEAR

ET GEAR

JERSEY

- Extremely lightweight, vented poly-fabric main chassis construction for moisture-wicking and performance fit.
- Perforated mesh inserts around collar for excellent breathability, especially when using Alpinestars BNS neck support.
- Extended perforation inserts on side torso and forearms for excellent airflow and comfort.
- Pre-curved sleeves for maximum comfort and performance.
- Extended rear for compatibility with Alpinestars MX pants.
- Comfort neck collar and raglan construction for easy entry and exit.
- Seamless collar and cuffs for weight-saving and durability.
- Wrist cuffs feature stretch inserts for excellent fit and convenient in and out.
- Sublimated fade-resistant graphics in exciting new colorways.

PANTS

- Multi-panel, poly-fabric construction with PU coating for excellent strength and durability.
- Innovative, strategically positioned four-way stretch panels for freedom of movement and riding fit.
- Localized perforation zones allows for cooling airflow and comfort.
- Exclusive 'Vector' back panel provides maximum comfort and flexibility when riding.
- 'Babel' knee design features a pre-bent, reinforced and padded 3D knee construction with hidden stretch spandex expansion gusset for excellent fit in the riding position.
- Heavy poly-fabric reinforcement on the seat area provides high levels of abrasion resistance.
- Lightweight and ventilated mesh lining with stretch panel insert for better fit in riding position.
- Leather panels on the inner leg provide heat resistance, grip and comfort.
- 3D injection molded rubber logos and details for additional durability.
- Silicon webbing on inner waist helps keep garment in position.
- Inner hip pocket for safe key/coin storage.

## TECH TOP LONG SLEEVE SUMMER

- Ultra-lightweight, technical base layer anatomically optimized to be worn under outer garments.
- Comfortable moisture-wicking fiber aids all-round body temperature control and performance.
- Fully body-mapped with strategically positioned open mesh inserts for ventilation.
- Seamless tubular construction allows for performance compression fit.
- Flat-lock ergonomic seams allow unrestricted movement and an enhanced range of motion.

## TECH TOP SHORT SLEEVE SUMMER

- Ultra-lightweight, technical base layer anatomically optimized to be worn under outer garments.
- Comfortable moisture-wicking fiber aids all-round body temperature control and performance.
- Fully body-mapped with strategically positioned open mesh inserts for ventilation.
- Seamless tubular construction allows for performance compression fit.
- Flat-lock ergonomic seams allow unrestricted movement and an enhanced range of motion.

## TECH TANK SUMMER

- Ultra-lightweight, technical base layer anatomically optimized to be worn under outer garments.
- Comfortable moisture-wicking fiber aids all-round body temperature control and performance.
- Fully body-mapped with strategically positioned open mesh inserts for ventilation.
- Seamless tubular construction allows for performance compression fit.
- Flat-lock ergonomic seams allow unrestricted movement and an enhanced range of motion.

## MX PRO SOCKS

- Primaloft and bioceramic fibers for excellent moisture-wicking and breathability.
- Elasticated cuff prevents slippage and reduces material bunching.
- Arch and calf support bands for improved performance fit and comfort.
- Density cushioning on heel, toe, insole and Achilles area for comfort and durability.
- Knee length sizing for maximum coverage.
- Anti-bacterial, non-odorous.

## MX PLUS-1 SOCKS

- Dryarn fibers for excellent moisture-wicking and breathability.
- Elasticated cuff prevents slippage and reduces material bunching.
- Arch and calf support bands for improved performance fit and comfort.
- Density cushioning on heel, toe, insole and Achilles area for comfort and durability.
- Knee length sizing for maximum coverage.

## MX PLUS-2 SOCKS

- Dryarn fibers for excellent moisture-wicking and breathability.
- Elasticated cuff prevents slippage and reduces material bunching.
- Arch and calf support bands for improved performance fit and comfort.
- Density cushioning on heel, toe, insole and Achilles area for comfort and durability.
- Knee length sizing for maximum coverage.

# PROTECTION

# BNS TECH-2 NECK SUPPORT

- The BNS Tech-2 is constructed from an advanced, high-performance fibre polymer compound to offer:
- Complete design facelift & technical upgrading including lightweight rear and chest padding and updated chinplate design.
- Structural integrity and frame strength against heavy impact energies during a crash.
- Ultra-lightweight performance and comfort while riding.
- Less weight than its predecessors.
- Resilience to low temperatures, below 0°C.
- The BNS Tech-2 is designed to provide a customizable, secure and personalized fit with the SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL.
- The Lycra®-laminated foam padding kits are adaptable and the interchangeable EVA foam pads allow compatibility with body protection systems.
- The lightweight Strap System can be worn over or under the jersey.
- The BNS Tech-2 incorporates a bio-organic engineering design for superb ergonomics:
- Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key.
- Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyper-flexion.
- Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure.
- Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Category 2 under the PPE Directive EU 2016/425.

# BIONIC-10 CARBON KNEE BRACE

- Structural hybrid frames are constructed from a composite over-injected with a high performance fiber reinforced polymer which provides optimal structural integrity and support while being ultra-lightweight.
- The Bionic-10 Carbon Knee Brace comes in 4 different sizes: S, M, L and XL/2XL for perfect fitment.
- The asymmetric frame design ensures a wide range of unique leg shape compatibility and a perfect fit.
- Slim ergonomic design offers a high level of riding comfort during dynamic movement.
- The open structure and perforated areas promote maximum ventilation.
- Extremely stable slim-design 4-point hinge system perfectly follows the articulation of the knee.
- Hinge system incorporates easily exchangeable extension stops (0, 5, 10, 15, 20, 25 and 30 degrees) which reduces the risk of sustaining injuries to:
- The medial and lateral collateral ligament
- The anterior and posterior cruciate ligament
- The lateral and medial meniscus
- Lightweight and highly ventilated

double-wall knee-cup system offers strong impact force dispersion and absorption while ensuring maximum coverage area in all riding positions.

- The ergonomically sculptured triple segment knee cup is designed for flexibility and adaptivity and constructed from a double density polymer solution for high impact force dispersion on rigid external shell and energy absorption on semi-rigid internal shell structure.
- The knee cup is accurately secured in place by an innovative integrative mechanical guiding system that keeps the knee cup in correct position while providing controlled freedom of movement.
- Calf Frame strap system holds braces perfectly in position and avoids slipping down when rider is in action and extreme movement.
- The two calf straps are linked with a semi-rigid C-shaped connector that dynamically shapes towards the dimension change of the calf muscle.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Knee protector - EN 1621-1:2012 Level 1.

## SX-1 KNEE GUARD

- Extremely lightweight knee protection with large protective area for riders looking for most breathable and lightweight solutions on all riding styles.
- Upper and lower frames are constructed from a high performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight saving properties.
- Polymer protector plates are strategically perforated for maximum breathability and air ventilation.
- The upper and lower frame integrated dual pivot hinge gear system follows the natural movement of the knee and keeps the protector well positioned during all movements.
- Upper extended frame for increased thigh protection without compromising mobility.
- Innovative knee cup system features 'floating' protection cup for continuous coverage and mobility regardless of leg position.
- Knee cup system constructed from energy absorbing viscoelastic PU foam.
- Knee cup system is backed by soft padding for adaptive fit and breathable air mesh for ventilation and comfort.
- High abrasion resistant fabric with an over-injected TPU frame structure on outer central knee cup area to improve impact performance.
- Thermoformed foam backing for excellent comfort against the skin.
- Frames are asymmetrical and feature a slim, ergonomic design for comfort and performance fit.
- Hook and loop dual strap closure system with silicon Pull Tabs for easy in and out and a personalized, safe fit.
- Available in sizes: S/M – L/XL – 2XL.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Knee protector - EN 1621-1:2012 Level 1.

## MX LONG SOCKS

- Specifically designed to fit underneath knee brace or protector.
- Constructed from poly-fabric with perforated areas for breathability and comfortable compression fit.
- Elasticated edging with silicon print helps keep sock positioned.

## SEQUENCE KNEE PROTECTOR

- Designed to provide maximum protection on high impacts and to cover a high protection area. The plastic shell construction provides high force dispersion while the integrated grid pattern is designed to absorb high energies.
  - All components are engineered to offer a highly reduced material construction to create a protector that is extremely lightweight, slim and highly ventilated.
  - Technical elastane stretch mesh main construction is highly breathable and retains shape and structure, while keeping the protector close to the body for highly effective protection performance.
  - Plastic shell design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure.
  - Constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties.
- This protector incorporates a strategically positioned viscoelastic cup insert to protect joint extremity and help promote improved fit.
- Ergonomically contoured to follow the natural curvature of the body and feature air channeling to improve airflow and prevent heat build-up.
  - All plastic shells are mounted on padded perforated panels which offer an enhanced fit and skin-touch comfort.
  - Dual strap hook and loop grip closure system offers secure fitment of protection while allowing for unrestricted freedom of movement. Straps include silicone pull tabs for convenient closing while wearing gloves.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Knee protector - EN 1621-1:2012 Level 1.

## SEQUENCE ELBOW PROTECTOR

- Designed to provide maximum protection on high impacts and to cover a high protection area. The plastic shell construction provides high force dispersion while the integrated grid pattern is designed to absorb high energies.
  - All components are engineered to offer a highly reduced material construction to create a protector that is extremely lightweight, slim and highly ventilated.
  - Technical elastane stretch mesh main construction is highly breathable and retains shape and structure, while keeping the protector close to the body for highly effective protection performance.
  - Plastic shell design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure.
  - Constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties. This protector incorporates a strategically positioned viscoelastic cup insert to protect joint extremity and help promote improved fit.
- Ergonomically contoured to follow the natural curvature of the body and feature air channeling to improve airflow and prevent heat build-up.
- Elbow protector shell features an additional soft TPR section for extra coverage and to help keep the protector in position.
  - All plastic shells are mounted on padded perforated panels which offer an enhanced fit and skin-touch comfort.
  - Dual strap hook and loop grip closure system offers secure fitment of protection while allowing for unrestricted freedom of movement. Straps include silicone pull tabs for convenient closing while wearing gloves.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## BIONIC PLUS KNEE PROTECTOR

- Protection systems utilizing robust protective structures and impact absorption padding.
- Highly ergonomic design improves streamlining while providing crucial protection for MX and off-road riding.
- Asymmetrical and lightweight ergonomic panel construction offers extended protection surfaces to reduce rotation.
- Double strap closure system on knee protectors specially designed to offer more comfort and adjustment, with top strap mounted above the knee and lower strap positioned for ergonomic fit.
- Vented outer shell and 3D mesh material give comfort to the rider, preventing heat build-up while maintaining tactile contact with skin.
- Designed with a flexion channel through the shell that allows the shell to bend with the knee.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Knee protector - EN 1621-1:2012 Level 1.

## BIONIC PLUS ELBOW PROTECTOR

- Protection systems utilizing robust protective structures and impact absorption padding.
- Highly ergonomic design improves streamlining while providing crucial protection for MX and off-road riding.

## A-10 FULL CHEST PROTECTOR

- Back and chest protectors feature embedded grid technology under the shells which absorbs and dissipates impacts forces.
- Grid technology cell system enables greater flexibility and air ventilation while allowing for significantly reduced weight.
- Plastic shells are constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- Plastic shells feature perforation zones and air channelling for excellent breathability and ventilation.
- Modular design to allow for addition of BNS neck support.
- Removable back puck for BNS compatibility.
- Removable upper front panel for BNS compatibility.
- Silicon BNS pull tabs for convenient and safe engagement of the BNS.
- Modular design means the protector can be worn in various configurations allowing rider to use it in different riding situations and environments.
- Removable EVA padding on biceps with a locking system on the shoulder pad keeps the shoulder protector in the correct position.
- Thermoformed padded chassis for maximum comfort and personalised, close-to-the-body fit.
- Side adjustable kidney belt allows for various fit sizes and ensures protection remains close to the body at all times.
- Features Alpinestars quick release attachment system for convenient in and out.
- Comes in international sizes XS/S - M/L - XL/2XL.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 2.
  - Chest protector - EN 1621-3:2018 Level 2 (Full chest).
  - Shoulder protectors - EN 1621-1:2012 Level 2.

## A-1 PLUS CHEST PROTECTOR

- Extended padding to offer more protection against tire roost without obstructing arm movement.
- Removable shoulder pads and back protector for customizable use.
- Stone shield and back protectors are constructed from a high performance polymeric blend for optimized flexibility and excellent weight saving.
- The protector's plastic shells are perforated for maximum breathability and cooling ventilation.
- Adjustable elastic closure system features quick and easy-to-use buckles that fit a broad range of rider body types.
- Thermoformed padded chassis for optimized levels of comfort and close-to-body fit.
- Adjustable shoulder straps for optimal fit.
- BNS neck support compatibility.
- Silicon BNS pull tabs for easy and safe engagement of the BNS.
- Integrated Y-strap system for modular use of the back protector with fast and convenient mounting. According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 2.
  - Stone shield - EN 14021:2003.

## BIONIC CHEST PROTECTOR

- Chest and back protector plastic shells are constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- Plastic shells feature perforation zones and air channeling for excellent breathability and ventilation.
- Removable back puck for BNS compatibility.
- Silicon BNS pull tab for convenient and safe engagement of the BNS.
- Modular design means protector can be worn in various configurations allowing the rider to use it in different riding situations and environments.
- Thermoformed padded chassis and side offers superb rider comfort whilst also protecting the lower ribs against injury.
- Side adjustable kidney belt allows for various fit sizes and ensures protection remains close to the body at all times.
- The front side wings are connected to the main chest protector with three bridge fixings allowing the wings to move independently and take the shape of the body.
- The shoulder protectors are adjustable to allow for different shoulder widths and can also be removed if required.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 1.
  - Chest protector - EN 1621-3:2018 Level 1 (Full chest).
  - Shoulder protectors - EN 1621-1:2012 Level 1.

## A-1 ROOST GUARD

- Stone shield and back protectors are constructed from a high performance poly-material blend for optimized flexibility and excellent weight saving.
- The protector plastic shells are perforated for maximum breathability and cooling ventilation.
- Adjustable elastic closure system features quick and easy-to-use buckles that fit a broad range of rider body types.
- Thermoformed padded chassis for optimized levels of comfort and close-to-the-body fit.
- Modular design means A-1 is optimized for use with BNS neck braces.
- Removable back puck for BNS neck support compatibility.
- Silicon BNS pull tabs for easy and safe engagement of the BNS.
- Removable and adjustable shoulder pads for size regulation with integrated BNS silicon pull tab.
- Innovative integrated Y-strap system for modular use of back protector with fast and convenient mounting.
- Available in sizes: M/L – XL/2XL.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Stone shield - EN 14021:2003.

## SEQUENCE CHEST PROTECTOR

- Soft shells are constructed from a high performance lightweight thermoformed material blend that is soft and flexible yet offers the same level of protection as a hard shell protector.
- Shells feature perforation zones and air channeling for excellent breathability and ventilation.
- Thermoformed textile used for the construction are highly abrasion resistant and will not easily get scratched.
- Constructed with a soft 3D mesh on the body side of the protector that offers extra comfort and breathability.
- Removable back puck for BNS compatibility.
- Silicon BNS pull tab for convenient and safe engagement of the BNS.
- Thermoformed padded chassis for maximum comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 1.
  - Stone shield - EN 14021:2003.

## A-4 MAX CHEST PROTECTOR

- Triple layer chest protector features a highly perforated impact absorption insert for high levels of ventilation and protection.
- Features a Cell Technology back protector.
- Removable shoulder pads for high levels of customization.
- Extended padding to offer more protection against tire roost without obstructing arm movement.
- The protector plastic shells are perforated for maximum breathability and cooling ventilation.
- Adjustable elastic straps incorporate thermoformed perforated rib protection panels for additional protection without compromising movement.
- Quick and easy-to-use buckles that fit a broad range of rider body sizes.
- Thermoformed padded chassis for optimized levels of comfort and close-to-body fit.
- Adjustable shoulder straps for optimal fit.
- Bionic Neck Support compatibility.
- Silicon BNS pull tabs for easy and safe engagement of the BNS.
- Additional thermoformed EVA tail extension for extended coverage to the lower spine.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 1.
  - Chest - EN 1621-3:2018.

## SEQUENCE LONG SLEEVE PROTECTION JACKET

- The back protector is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- The chest, back, shoulder and elbow protectors are highly perforated for maximum breathability and ventilation.
- Ergonomic protectors contour to the natural curve of the back ensuring optimum fit while riding.
- Silicon BNS pull tabs for an easy and safe engagement of the BNS.
- Adjustable and removable elastic belt.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 1.
  - Chest protector - EN 1621-3:2018 Level 1.
  - Shoulder and elbow protectors - EN 1621-1:2012 Level 1.

## SEQUENCE SHORT SLEEVE PROTECTION JACKET

- The back protector is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- The chest, back and shoulder protectors are highly perforated for maximum breathability and ventilation.
- Ergonomic protectors contour to the natural curve of the back ensuring optimum fit while riding.
- Silicon BNS pull tabs for an easy and safe engagement of the BNS.
- Adjustable and removable elastic belt.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 1.
  - Chest protector - EN 1621-3:2018 Level 1.

## SEQUENCE PRO SHORTS

- Multi-panel, body-mapped design fits under pants for additional coverage and compression fit support.
- Constructed from technical elastane stretch mesh main shell for breathability and flex fit.
- Strategically positioned thermoformed foam padding incorporates vents for his levels of cooling airflow.
- Perforated viscoelastic inserts on upper thigh and hip for additional coverage and fit.
- Multi-density chamois padding is ergonomically designed for various riding positions and unrestricted movement. Padding features air channeling on the inner side for breathability.
- Elastized waist and silicone lower hem helps keep shorts in position.
- Reinforced stitching for seam strength and durability.

## BIONIC FREERIDE SHORTS

- Lycra® and mesh base construction.
- Ventilated foam padding on hip, thigh and tailbone areas.
- Hard PU inserts reinforce the thigh and tailbone areas for additional impact and abrasion resistance.

# SEQUENCE KIDNEY BELT

- Ergonomically designed for maximum stability around the waist and lower back.
- Lightweight and flexible lower back shell construction provides the perfect balance of support, impact protection and flexibility for highest comfort when riding.
- The TPR Cell structure of the main

panel is flexible to allow the ease of movement. The properties of the Cell structure mean the belt is also highly breathable and allows for maximum airflow.

- Perforations in the waist straps, back main elastic bands and the 3D mesh behind the main Cell structure provide extra ventilation.

# BIONIC TECH V2 PROTECTION JACKET

- Slim fit stretchable fabric for a comfortable fit.
- Features a floating, highly ventilated and flexible rigid Chest Protector with flexible side wings that adapt to the rider's body.
- Central front zipper for a better fit and ease of donning.
- Additional front padding on the arms, sides and chest for enhanced roost protection.
- High abrasion resistant fabric on the arms over the protectors for additional protection.
- Height adjustable kidney belt for optimal levels of fit.
- BNS compatible with a removable back puck panel and elastic BNS cords on the shoulders straps.
- New Cell Technology back protector is highly ventilated and flexible for enhanced rider comfort.
- Water bladder compatible
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Back protector - EN 1621-2:2014 Level 2.
  - Chest protector - EN 1621-3:2018 Level 2.
  - Shoulder and elbow protectors - EN 1621-1:2012 Level 1.

# SATURN KIDNEY BELT

- Ergonomically designed for maximum stability across the torso and lower back.
- Lightweight and flexible construction.

- Reinforced TPR main panel.
- Waist straps with mesh insert for ventilation.
- Dual hook and loop closure on the waist offers precise fit.

## BIONIC PLUS JACKET

- Perforated back protectors feature triple-layer EVA compound padding for good shock absorption.
- Shoulder and elbow protectors feature softer formulation PU foams for excellent ventilation and flexibility.
- Silicon BNS pull tabs for an easy and safe engagement of the BNS.
- Technical, elastane stretch mesh main construction is highly breathable and retains shape.
- Reduced material construction on underarms and arms for ventilation and weight saving.
- Slim lined elbow protectors provide excellent impact protection and are asymmetric to offer optimized left/right fit.
- Removable upper chest and back puck accommodate fitment of Alpinestars BNS.
- Thermoformed chest and kidney protector padding.
- Premium, auto-locking YKK zips on main frontal closure and on detachable sleeves.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Elbow and shoulder protectors - EN 1621-1:2012 / Level 1.
  - Back protector - EN 1621-2:2014 / Level 1.

## BIONIC ACTION JACKET

- Back protector developed in three waist to shoulder dimension in order to cover all the body size.
- All protectors are constructed from a high performance polymeric material blend for optimized flexibility and excellent weight-saving properties.
- All protectors are highly perforated for maximum breathability and air ventilation.
- Single injected compound shells constructed with a back integrated grid structure which absorbs and dissipates impact forces.
- Shells are vented and channeled to improve airflow and prevent heat build-up.
- Protectors are ergonomically contoured to the natural curve of the back ensuring optimum fit while riding. Back protector segments lock to lessen overextension of the back.
- Removable upper back puck for BNS compatibility.
- Silicon BNS pull tabs for convenient and safe engagement of the BNS.
- Shoulder and elbow straps for a customized fit.
- Kidney belt to tighten the back protector to the back.
- New technical elastane main construction is highly breathable and retains shape.
- Premium auto-locking YKK zips on main frontal closure.
- Comfort thermoformed padding on the shoulder.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Elbow and shoulder protectors - EN 1621-1:2012 / Level 1.
  - Back protector - EN 1621-2:2014 / Level 1.

# YOUTH NECK SUPPORT

- Designed and developed for a fit that is specific to a youth rider's anatomy.
- Frame constructed from injected polymer compound that has been extensively impact tested at performance on a range of off-road surface and varying temperatures.
- Frame has been ergonomically engineered to promote contact with the helmet during impact – including rear support edge that fits closer to the body and raised chest to avoid hyper-flexion injuries - thus providing a solid surface which instantly channels damaging, compressive impact energy away from the neck and on to the support.
- Frame's anatomical profile promotes positive helmet contact in event of a crash while allowing rider freedom of movement.
- Rear stabilizer system helps keeps support in position and is also designed to channel extreme energy loads away from the spine by transmitting it across the shoulder and helping to avoid serious spinal injury.
- Ultra-lightweight EVA foam on the support's underside for comfort and positioning and to distribute the impact force over the widest possible area.
- Closure system for convenient engagement of support and to facilitate quick removal in case of emergency.
- The support is supplied with the easy-to-use strap system which allows use over or under the jersey to secure the device on the rider.
- The Youth Neck Support can be easily integrated with the A-5S Youth Body Armour to ramp up a young rider's overall protective coverage.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Category 2 under the PPE Directive EU 2016/425.

## SEQUENCE YOUTH NECK ROLL

- Hybrid children's neck protection with extended tail for position stability.
- Ergonomic design and engineered shape to fit kids from 6-10 yrs and from 10-14 yrs.
- Double density core is made from a soft PU foam base embedding a hard layer EVA for energy dissipation.
- Bottom and internal soft section (neck side) provides comfort for the shoulders and neck, a hard section on the upper part to give stability and provides force distribution when the helmet impacts.
- Easy to use soft strap closure on the front part.
- Highly compatible with all other Alpinestars protectors and jackets.
- External cover can be removed for washing by hook and loop grip opening on the rear.

## YOUTH ACTION BIONIC JACKET

- Lightweight protection jacket with high adjustability and maximum breathability.
- All components are engineered to offer a highly reduced material construction for a garment that is extremely lightweight, slim and highly ventilated.
- Technical elastane stretch mesh main construction is highly breathable and retains shape and structure, while keeping plates close to the body.
- Versatile and customizable fit with removable upper back and front panel for compatibility with Youth Neck Support (YNS).
- Soft touch YNS puller for convenient and secure engagement of the YNS.
- Plate design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure.
- All panel shells (back, chest, elbows and shoulder) are constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties.
- Plates are ergonomically contoured to follow the natural curvature of the body and feature air channeling to improve airflow and prevent heat build-up.
- Back protector feature three articulated plates to allow for greater flexibility and adaptive back fit in all riding positions. Plates 'interlock' in the event of a crash to help reduce risk of injury to the spine area. Back protector is developed in two waist-to-shoulder dimensions in order to cover all the KIDS/YOUTH body sizes from 6-10 and from 10-14 years.
- Thermoformed foam collar and shoulder for comfort and structure.
- All plates are mounted on PE padded panels which are highly perforated to offer fit and skin-touch comfort.
- Elastic kidney with TPR belt system for improved ergonomics and a customized, secure fit.
- Premium auto-locking YKK zips for main front closure, plus zip garage for improved comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Elbow and shoulder protectors - EN 1621-1:2012 / Level 1.
- Back protector - EN 1621-2:2014 / Level 1.
- Chest protector - EN 1621-3:2018 / Level 2.

## YOUTH BIONIC PLUS PROTECTION JACKET

- The back protector is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- The chest, back, shoulder and elbow protectors are highly perforated for maximum breathability and ventilation.
- Ergonomic back protector contours to the natural curve of the back ensuring an optimum fit while riding.
- Silicon YNS pull tabs for easy and safe engagement of the YNS.
- Youth Neck Support Compatible.
- Adjustable and removable elastic belt.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Elbow and shoulder protectors - EN 1621-1:2012 / Level 1.
  - Back protector - EN 1621-2:2014 / Level 1.
  - Chest protector - EN 1621-3:2018 / Level 1.

## A-5 S YOUTH BODY ARMOUR

- Protector shells are ergonomically optimized for youth and smaller framed riders. Highly protective, lightweight and easy-to-use kids/ youth body armor designed to incorporate Alpinestars Youth Neck Support.
- Plate design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure. Shells are highly perforated for maximum breathability and air ventilation.
- All panel shells (back, front, elbows and shoulder) are constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties.
- Plates are ergonomically contoured to follow the natural curvature of the body and feature air channeling to improve airflow and prevent heat build-up.
- Wide lateral protective structure for secure fitting of jacket.
- Soft bio foam padded chassis for maximum comfort and personalized, close-to-the-body fit.
- Side adjustable kidney belt allows for various fit sizes and ensures protection remains close to the body at all times.
- Back removable section to accommodate Alpinestars Youth Neck Support.
- Adjustable shoulder straps for close, customizable fit.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Shoulder protectors - EN 1621-1:2012 / Level 1.
  - Back protector - EN 1621-2:2014 / Level 1.
  - Chest protector - EN 1621-3:2018 / Level 2.

## BIONIC 5S YOUTH KNEE BRACE

- Innovative hybrid frames are constructed from a flexible composite over-injected with a high performance fiber reinforced polymer which provides optimal structural integrity and support while being ultra-lightweight and adaptive.
- The frame system reduces the risk of sustaining injuries to:
  - The medial and lateral collateral ligament
  - The anterior and posterior cruciate ligament
  - The lateral and medial meniscus
- Slim ergonomic design for riding comfort during dynamic movement.
- Extremely stable slim-design four-point hinge system perfectly follows the articulation of the knee.
- Lightweight and highly ventilated knee protector offers strong impact force dispersion and absorption while ensuring maximum coverage area in all riding positions.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - Knee protectors - EN 1621-1:2012 / Level 1.

## SEQUENCE YOUTH KIDNEY BELT

- Ergonomically designed for maximum stability around the waist and lower back.
- Lightweight and flexible lower back shell construction provides the perfect balance of support, impact protection and flexibility for highest comfort when riding.
- The TPR Cell structure of the main panel is flexible to allow the ease of movement. The properties of the Cell structure mean the belt is also highly breathable and allows for maximum airflow.
- Perforations in the waist straps, back main elastic bands and the 3D mesh behind the main Cell structure provide extra ventilation.

## SX-1 YOUTH KNEE PROTECTOR

- Extremely lightweight knee protection with large protective area for riders looking for most breathable and lightweight solutions on all riding styles.
- Upper and lower frames are constructed from a high performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight saving properties.
- Polymer upper and lower frames are strategically perforated for maximum breathability and air ventilation.
- The protector plastic shell integrated dual pivot hinge gear system follows the natural movement of the knee and keeps the protector well positioned in all riding positions.
- Upper extended frame for increased thigh protection without compromising mobility.
- Innovative knee cup system construction features 'floating' protection cup for continuous coverage and mobility, regardless of leg position.
- Knee cup system is constructed from energy absorbing viscoelastic PU foam that is backed by soft padding for an adaptive fit with breathable air mesh for ventilation and comfort.
- High abrasion resistant fabric on the outer central knee cup area reduces the possibility of scratching.
- Thermoformed foam backing for excellent comfort against the skin.
- Frames are asymmetrical and feature a slim, ergonomic design for comfort and performance fit.
- Hook and loop dual strap closure system with silicon Pull Tabs for easy in and out and a personalized, safe fit.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Knee protector - EN 1621-1:2012 Level 1.

## BIONIC PLUS YOUTH ELBOW PROTECTOR

- Protective structures and impact absorption padding.
- Highly ergonomic design improves streamlining while providing crucial protection for MX and off-road riding.
- Double closure system on Elbow Protectors specially designed to offer more comfort and adjustment, with top strap mounted above the elbow and lower strap positioned for ergonomic fit.
- Asymmetrical and lightweight ergonomic panel construction offers extended protection surfaces to reduce rotation.
- Vented outer shell and 3D mesh material give comfort to the rider, preventing heat build-up while maintaining tactile contact with skin.
- Designed with a flexion channel through the shell that allows the shell to bend with the elbow.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Elbow protector - EN 1621-1:2012 Level 1.

## BOOTS

## TECH 10 BOOT

- Performance double pivot motion control system features:
  - Medial and lateral double pivot system for improved levels of flexibility and precision control.
  - Engineered front flexion control offered by a dual front blade system plus shock absorber insert to offer mechanical progressive force release which dampens and absorbs impact energies.
  - Redesigned dual density TPU rear blade system engineered to prevent hyperextension while offering improved flex control and impact resistance.
- Built into the Tech 10's unique and lightweight single-piece co-injected foot chassis is the patented Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded poly-foam to absorb high impact energies during a crash. DHCP features a directional impact protection system which significantly reduces the effect of excessive, potentially injury-causing energy being transferred to the ankle and lower leg. DHCP has been developed and tested in the demanding circuits of professional Supercross and Motocross.
- Co-injected for strength and structure exclusive TPU and rubber compound panels provide superb levels of grip contact, durability and heat resistance. Innovative material construction ensures panels are lighter, anatomically profiled and reduced in thickness.

- The contoured calf protector ergonomically wraps around rear leg and is constructed from a dual density compound rear blade system to offer progressive dampening of excessive torsional forces.
- Shin plate features an anatomic design for reduced surface area and weight-saving.
- Completely redesigned sole with proprietary grip sculpturing to improve foot-peg performance, grip and mud and water run-off. Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support. The sole offers superior durability, grip and feel while riding and improved performance on shifter. The central sole insert features micro grip and side hooking grip design. It is easily replaceable and Alpinestars offers a full sole replacement and boot repair service.
- Anatomically optimized redesigned for weight-saving and ergonomics mechanical buckle closure system feature a nylon and fiberglass compound for improved durability and strength. Slim-line buckle closure system includes high-impact bridge closures which are cold forged for precision and strength. The buckle closure system features a memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security. All buckles are easily replaceable.

- Innovative, lightweight upper combines advanced lightweight microfiber and impact and abrasion resistant TPU shell.
- Footshell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity. Foot shell incorporates heel and toe protection is highly resistant to abrasion and impact, and adds to the boot's overall durability. Foot shell also includes integrated shank for support and structural integrity.
- Frontal protection features a dual closure system with an internal microfiber flap, plus hook and loop fasteners for a precise fit closure attached securely with a micro-adjustable, easy to operate, lightweight buckle. Shin incorporates a unique TPU blade system engineered to prevent frontal hyperextension and offer greater flex control.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Poly-fabric lining with 3D open cell foam incorporates anti-sliding suede on heel area to keep foot located inside the boot.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2017.

### REDESIGNED BIO-MECHANICAL INNER ANKLE BRACE FEATURES:

- Lighter, anatomically redesigned medial and lateral torsion bars for ankle and leg rotation and progressive damping of torsional forces during an accident, while still allowing natural freedom of movement.
- Low-profile, pull-on design for reduced material build, less weight and to facilitate easier and quicker wearing.
- Innovative flexion inserts work seamlessly with Tech 10's flex support system for ultimate in performance.
- TPU protection and shock absorbing padding on the heel and ankles and an ultra-thin and flexible forefoot area for increased sensitivity and control.
- Dual compound removable anatomic footbed includes EVA for comfort and support and aids even weight distribution.

TECH 8 RS BOOT

- Upper constructed from a combination of full grain leather and innovative and light microfiber that is flexible and abrasion resistant.
- Alpinestars inner ankle sleeve is constructed from leather with 3D mesh panels and incorporates adjustable shock absorbing gel inserts on the ankles and a removable anatomic footbed for enhanced comfort, fit and protection on the ankle and lower leg.
- Alpinestars exclusive high grip, dual density rubber outsole includes footpeg area which is reinforced with hard polymer compound for durability and comfort. The outsole is fully replaceable.
- Reinforced lateral flex zone above outward facing ankle helps prevent torsion.
- Contoured shin plate injected with high modulus polymer for superior impact and abrasion resistance is perforated for ventilation.
- Contoured calf protector plate is injected with high modulus polymer for impact resistance.
- Extended, internal protection plates constructed from injected polymer to guard the ankle and lower foot as well as the toe box area.
- Advanced closure system features strong techno-polymer buckles for easy adjustability with a precise, secure and streamlined fit.
- Top and bottom reverse closure design provide superior impact security and improved fit.
- Low profile toe for improved control and sensitivity in the shift area.
- Full length, sculpted rubber panel on the inner side of the boot gives superb grip against the bike and is insulated with aluminum foil for improved heat resistance.
- Instep and Achilles flex zones for superior comfort, control and support.
- Replaceable kick starter protection insert located on the right boot.
- Stamped steel sole and heel guard.
- Soft, polymer gaiter provides effective seal around the top of the boot, preventing excessive water and dirt entry.
- Breathable 3D tech mesh lining reduces heat buildup and improves comfort.
- Contoured tempered steel shank is over injected inside the mid sole assembly for rider safety and support.
- Buckle closure system includes polymer buckles plus aluminum frame with innovative self-aligning quick release closures.
- All buckles are replaceable.
- Full inner bootie is constructed with 3D breathable mesh plus synthetic material chassis for support, plus breathable textile lining on the ankle areas.
- Ankle features perforated soft comfort padding and incorporates adjustable shock absorbing gel inserts on the ankles. Gel inserts are replaceable.
- Dual compound, removable anatomic footbed features polymer forefoot plus EVA arch support and top textile lining for support and comfort.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

# TECH 7 BOOT

SIZE | US 5-16/ 38-52 EUR

- Lightweight upper combines suede leather with lightweight microfiber for impact and abrasion resistant TPU shell.
- Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced hook and loop closure for comfortable, highly customized closure.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevents torsion.
- Medial-facing panel constructed from TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.
- Contoured TPU calf protector plate offers impact resistance.
- Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and achilles tendon.
- Closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.
- All the buckles are replaceable.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support; the sole superior durability and grip.
- Main flexion of the boot is supported around medial and lateral ankle by low profile pivot system which dissipates friction when bending the boot.
- Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.
- Removable anatomic footbed in lycra on top.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2017.

TECH 5 BOOT

- Upper constructed from innovative and light microfiber material with action leather on toe box.
  - Redesigned instep and Achilles accordion flex zones.
  - Contoured TPU calf protector plate, TPU higher medial protector and TPU outer lateral ankle.
  - Injected TPU shin plate connected with the TPU medial protector panel; hook and loop upper closure, plus TPR flap for broad ranging calf fit adjustment and support. The TPU higher medial protector designed with technical texture for improved grip.
  - Bio-mechanical pivot.
- Ergonomic TPU triple buckle straps.
  - Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside and co-injected toe reinforcement.
  - TPU heel patch connected with shell and lateral/medial TPU sections.
  - Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
  - Soft poly foam surrounds the ankles and collar.
- Entire textile lining.
  - Closure system includes 4 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for precise closure; the all buckles are replaceable. Replaceable anatomic EVA footbed with textile lining on top.
  - Exclusive high grip rubbercompound outsole.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

TECH 3 BOOT

- Upper construction is made from lightweight microfiber material for flexibility, durability and abrasion resistance.
  - Light microfiber front and rear bellow inserts offer improved comfort and flexibility in key area.
  - Toe box is constructed from synthetic material for abrasion performance.
  - Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
  - Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
  - Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.
  - Injected TPU shin plate connected with the TPU medial protector panel; hook and loop grip upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- The TPU higher medial protector is designed with technical texture for improved grip.
  - Bio-mechanical medial blade system allows front rear flex giving support and protection to the ankle.
  - The ergonomic TPU triple buckle straps allow smooth frontal flex from the medial protector to the lateral side without compromising range of movement.
  - Closure system includes 3 polymer buckles with an innovative closure system.
  - This closure includes a micro-adjustable ratchet with memory and a quick release/ locking system with self-aligning design for easy, precise closure. All buckles are replaceable.
  - Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside a co-injected toe reinforcement.
- Soft foam surrounds the ankles and collar offering comfort and shock absorbing performance.
  - Entire textile interior lining for improved levels of comfort and moisture-management.
  - Replaceable EVA footbed with textile lining on top provides arch support and comfort.
  - Alpinestars' exclusive high grip rubber compound outsole provides grip and traction on various surfaces and is profiled to provide control and feel on the bike's footpegs. The sole is replaceable.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2017.

TECH T BOOT

- Upper constructed from a combination of full grain leather and innovative microfiber for durability and abrasion resistance,
  - Extended front and rear accordion stretch zones for improved flex, control and support.
  - Double density TPU ankle protector disks are layered under the upper and backed by poly-foam padding.
  - Ergonomically contoured shinplate is injected with high modulus TPU for a high level impact and abrasion resistance.
  - Wide entry aperture for convenience with hook and loop upper closure TPR flap to allow broad ranging calf fit adjustment and support.
- 3D mesh textile with open cell foam for improved air circulation and comfort.
  - Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
  - Soft poly-foam reinforcement on ankles and collar for long lasting comfort and shock absorption.
  - Three buckles closure system with memory, featuring an integrated quick release/locking system closure. Buckles are injected with high impact resistant techno polymer.
  - Internal toe box and heel counter protection is layered under the upper for durability.
- Leather shift pad for abrasion resistance and structural protection.
  - Polymer insole with integrated steel shank reinforcement for structure and support to the arch area.
  - Exclusive compound rubber sole with high grip, rough terrain design. The outsole is replaceable.
  - Replaceable anatomic footbed for comfort and support ensures even weight distribution.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

# TECH 3 ENDURO BOOT

- Upper construction is made from innovative and light microfiber material that is flexible and abrasion resistant.
- Light microfiber on front and rear bellow gives more comfort on the flexible area.
- Toe box is made of synthetic material for high abrasion.
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
- Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
- Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.
- Injected TPU shin plate connected with the TPU medial protector panel; Hook and Loop upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- The TPU higher medial protector is designed with technical texture for improved grip.
- Bio-mechanical medial blade system allows a good front rear flex giving support and protection to the ankle.
- The ergonomic TPU triple buckle straps wrap the front flex from the medial protector to the lateral side without compromising the flex.
- Closure system includes 3 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure; the all buckles are replaceable.
- Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside a co-injected toe reinforcement.
- Soft foams surrounds the ankles and collar offer comfort and shock absorbing performance.
- Entire textile lining for more comfort.
- Replaceable EVA footbed with textile lining on top.
- Specific Alpinestars all terrain design sole and high grip rubber compounds. The sole is replaceable.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

STELLA TECH 3 BOOT

- Specially designed for an optimized women's fit.
- PU-reinforced microfiber upper for flexibility, abrasion resistance and weight-saving. Main material ensures consistent fit and ease of maintenance.
- Contoured shin plate is injected with high modulus TPU for high levels of impact and abrasion resistance.
- Medial boot side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
- One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank. The shell is highly resistant to abrasion and impact, adds to the boot's streamlining.
- Excellent flexion provided by low profile medial and lateral pivot system to offer movement and support.
- Instep and Achilles accordion flex zones constructed for superior control and support.
- Extended microfiber gaiter helps seal out excessive water and dirt entry.
- Soft poly-foam padding surrounds ankles and collar for long lasting comfort, fit and additional shock absorption.
- Internal mesh textile lining for improved air circulation and comfort.
- Ergonomic buckle system offers secure and highly personalized closure. All buckles are easily replaceable.
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving.
- Removable anatomic footbed for comfort and support ensures even weight distribution.
- Specific rubber compound sole is seamlessly integrated into the base structure for superior durability, high performing rubber grip patterning and feel. The sole is replaceable.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

| 3410-1942        | 9       | 41      |

TECH 7S BOOT

- Tech 7S is specifically designed and sized for junior and /or smaller framed riders.
  - PU-reinforced microfiber upper for flexibility, abrasion resistance, water-resistance and weight-saving. Material ensures consistent fit and is easy to maintain and clean.
  - Contoured shin plate is injected with high modulus TPU for excellent levels of impact and abrasion resistance.
  - Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
  - One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank. The shell is highly resistant to abrasion and impact, and adds to the boot's overall durability and improves boot's streamlining.
- Excellent flexion provided by low profile medial and lateral pivot system to offer movement and support.
  - Instep and Achilles accordion flex zones constructed for superior control and support.
  - Extended microfiber gaiter helps seal out excessive water and dirt entry.
  - Soft poly foam reinforcement on ankles and collar for long lasting comfort and shock absorption.
  - 3D mesh textile with open cell foam for improved air circulation and comfort.
  - Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving. Buckle system features
- memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security. All buckles are easily replaceable.
  - Compound sole is seamlessly integrated into the base structure for superior durability, high performing rubber grip patterning, and feel. The sole is replaceable.
  - Removable anatomic footbed for comfort and support ensures even weight distribution.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

TECH 3S BOOT

- Designed specifically for junior riders.
  - Upper construction is made from innovative and light microfiber material that is flexible and abrasion resistant.
  - Light microfiber on front and rear bellow gives more comfort on the flexible area.
  - Toe box is made of synthetic material for high abrasion.
  - Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
  - Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
  - Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.
  - Injected TPU shin plate connected with the TPU medial
- protector panel; Hook and Loop closure upper closure, plus TPR flap for broad ranging calf fit adjustment and support.

  - The TPU higher medial protector is designed with technical texture for improved grip.
  - Bio-mechanical medial blade system allows a good front rear flex giving support and protection to the ankle.
  - The ergonomic TPU triple buckle straps wrap the front flex from the medial protector to the lateral side without compromising the flex.
  - Closure system includes 3 polymer buckles with an innovative closure system.
  - This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure.
  - All the buckles are replaceable.
- Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside a co-injected toe reinforcement.
  - Soft foams surrounds the ankles and collar offer comfort and shock absorbing performance.
  - Entire textile lining for more comfort.
  - Replaceable anatomical EVA footbed.
  - Additional specially modified smaller footbed to accommodate growth and extended longevity of product (only available in boots size: 2-3-4).
  - Exclusive high grip rubber compound outsole.
  - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: EN 13634:2010.

| CHEST (CM)                 | 86 - 90                               | 90 - 94                 | 94 - 98                 |
| WAIST TO SHOULDER (CM)     | 38 - 43                               | 43 - 48                 | 43 - 48                 |
| HEIGHT (CM)                | 169 - 172                             | 172 - 176               | 176 - 180               |
| CHEST (INCHES)             | 33 <sup>3/4</sup> - 35 <sup>1/2</sup> | 35 <sup>1/2</sup> - 37" | 37" - 38 <sup>1/2</sup> |
| WAIST TO SHOULDER (INCHES) | 15" - 17"                             | 17" - 19"               | 17" - 19"               |
| HEIGHT (FEET)              | 5'6" - 5'8"                           | 5'8" - 5'9"             | 5'9" - 5'10"            |

CHEST - MEASURE AROUND THE FULLEST PART, UNDER THE ARMPITS, KEEPING THE TAPE HORIZONTAL.  
WAIST - MEASURE AROUND THE NATURAL WAIST LINE, INLINE WITH THE NAVEL, KEEPING THE TAPE HORIZONTAL.  
HEIGHT - STAND AGAINST A WALL, ASK SOMEONE ELSE TO MEASURE FROM THE FLOOR TO THE TOP OF YOUR HEAD, KEEPING THE TAPE VERTICAL.

SUPERTECH HELMETS SIZE RANGE

| SIZE                        | XS            | S           | M             | L             | XL          | 2XL           |
|-----------------------------|---------------|-------------|---------------|---------------|-------------|---------------|
| HEAD CIRCUMFERENCE (CM)     | 53-54         | 55-56       | 57-58         | 59-60         | 61-62       | 63-64         |
| HEAD CIRCUMFERENCE (INCHES) | 20.8" - 21.2" | 21.6" - 22" | 22.4" - 22.8" | 23.2" - 23.6" | 24" - 24.4" | 24.8" - 25.2" |

MEN'S KNEE PROTECTORS SIZE RANGE

| SIZE               | S/M   | L/XL  |
|--------------------|---|---|
| UPPER LEG (CM)     | 39 - 45   | 45 - 50   |
| LOWER LEG (CM)     | 32 - 38   | 38 - 43   |
| UPPER LEG (INCHES) | 15 <sup>1</sup> / <sub>4</sub> - 17 <sup>3</sup> / <sub>4</sub> | 17 <sup>3</sup> / <sub>4</sub> - 19 <sup>3</sup> / <sub>4</sub> |
| LOWER LEG (INCHES) | 12 <sup>1</sup> / <sub>2</sub> - 15"                            | 15" - 17"   |

UPPER LEG CIRCUMFERENCE: MEASURE 10CM/4" ABOVE THE CENTER OF THE KNEE CUP LOWER LEG CIRCUMFERENCE: MEASURE AT THE WIDEST PART OF THE CALF.

MEN'S ELBOW PROTECTORS SIZE RANGE

| SIZE               | S/M                                 | L/XL  |
|--------------------|-------------------------------------|---|
| UPPER ARM (CM)     | 23 - 29                             | 29 - 35   |
| LOWER ARM (CM)     | 20 - 28                             | 28 - 34   |
| UPPER ARM (INCHES) | 9" - 11 <sup>1</sup> / <sub>2</sub> | 11 <sup>1</sup> / <sub>2</sub> - 13 <sup>3</sup> / <sub>4</sub> |
| LOWER ARM (INCHES) | 8" - 11"                            | 11" - 13 <sup>1</sup> / <sub>2</sub>                            |

MEASURE AT THE WIDEST MUSCLE CIRCUMFERENCE.

BIONIC KNEE BRACE SIZE RANGE

| SIZE         | S   | M   | L   | XL  |
|--------------|---|---|---|---|
| WIDTH (CM)   | 10.6 - 11.4   | 11.4 - 12.2   | 12.2 - 13.0   | 13.0 - 13.8   |
| WIDTH (INCH) | 4 <sup>1</sup> / <sub>4</sub> - 4 <sup>1</sup> / <sub>2</sub> | 4 <sup>1</sup> / <sub>2</sub> - 4 <sup>3</sup> / <sub>4</sub> | 4 <sup>3</sup> / <sub>4</sub> - 5 <sup>1</sup> / <sub>4</sub> | 5 <sup>1</sup> / <sub>4</sub> - 5 <sup>1</sup> / <sub>2</sub> |

Measure knee cup width at the center.

MEN'S KIDNEY BELTS SIZE RANGE

| SIZE           | XS/L                                 | XL/4XL                               |
|----------------|--------------------------------------|--------------------------------------|
| WAIST (CM)     | 70 - 94                              | 94 - 116                             |
| WAIST (INCHES) | 27 <sup>1</sup> / <sub>2</sub> - 37" | 37" - 45 <sup>1</sup> / <sub>2</sub> |

WAIST - MEASURE AROUND THE NATURAL WAIST LINE, INLINE WITH THE NAVEL, KEEPING THE TAPE HORIZONTAL.

YOUTH KINDEY BELTS SIZE RANGE

| SIZE           | S/M   | L/XL  |
|----------------|---|---|
| YEARS          | 6 - 8   | 9 - 12  |
| WAIST (CM)     | 60.5 - 70.5   | 70.5 - 80.5   |
| WAIST (INCHES) | 21 <sup>1</sup> / <sub>2</sub> - 24 <sup>1</sup> / <sub>2</sub> | 24 <sup>1</sup> / <sub>2</sub> - 27 <sup>1</sup> / <sub>2</sub> |

WAIST - MEASURE AROUND THE NATURAL WAIST LINE, INLINE WITH THE NAVEL, KEEPING THE TAPE HORIZONTAL.
