⚠WARNING IMPROPERLY FITTING PRODUCTS COULD CONTRIBUTE TO SERIOUS INJURY OR DEATH.

SAFETY WARNING: Riding a motorcycle, snowmobile, ATV/UTV or bicycle is a dangerous activity. When riding, always wear a helmet, eye protection, gloves, boots and protective clothing. There is no assurance that serious injury or death can be avoided even if you wear the product shown in this catalog and take all precautions to avoid every risk. Please ensure that your products fit properly. Improperly fitting products can impair your ability to control your motorcycle, snowmobile, ATV/UTV or bicycle.

HELMET FITMENT: Helmet fit is critical to helmet performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you. Ask your dealer for more information.

AIRFLITE™ MIPS HELMETS

- MIPS Brain Protection System can reduce harmful forces transmitted to the brain in certain types of impacts by allowing a slight uncoupled movement of the shell and liner during a crash
- Injection-molded polycarbonate shell for strength
- Multiple oversized intake and exhaust ports are strategically placed to keep you cool and comfortable, including four intake vents, MX-inspired chinbar vent and two exhaust ports that channel air between the comfort liner and the protective, energy-absorbing EPS foam liner
- Quick-change, fog-free outer FliteShield™ keeps debris away, while the internal, interchangeable DropShield™ keeps the sun in check with a flip of a switch
- Removable molded breath deflector and chin curtain
- Moisture-wicking Hydradry™ interior is fully removable and washable
- Both wind drag and weight are decreased by sculpting the traditional neckline of the Airflite™ to avoid jacket or suit interference
- Rubatone is a matte rubberized paint developed to match your riding gear
- See helmet size guide on page 29 before ordering
- For replacement parts and accessories, see pages 52-56
- Meets DOT FMVSS 218 (US), ECE 22-06 (Europe), SAI AS1698:2006 (Australia) and PSC (Japan) safety and testing standards

NOTE: Does not ship with SAI, PSC OR MFJ certification stickers unless purchased from an authorized dealer in that country.

ECE 22.06

AIRFORM MIPS (CONT)

- MIPS Brain Protection System can reduce harmful forces transmitted to the brain in certain types of impacts by allowing a slight uncoupled movement of the shell and liner during a crash
- Injection-molded polycarbonate shell for strength and durability
- Intermediate-oval headform
- Clear fog-free Optics™ shield installed and dark smoke fog-free Optics™ shield included
- Dark smoke internal DropShield™
- Prolock™ shield locking system
- Moisture-Wicking Hydradry™ removable comfort liner
- Dark smoke spoiler kit
- Gloss/matte painted finish with 3D Graphics
- Meets DOT FMVSS 218 (US), ECE 22.06 (Europe), and PSC (Japan) helmet safety standards

NOTE: Does not ship with PSC certification stickers unless purchased from an authorized dealer in that country.

NOTE: The DropShield™ visor must only be used while the main face shield is in the fully closed position.

S-M10 SUPERTECH HELMETS

- Lightweight outer shell is constructed from technologically advanced composite materials in four sizes to ensure a superior fit
- Fitted with E-2, the latest generation of MIPS, an integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head
- Multiple-density inner helmet liner
- Visor is attached to helmet shell with patented system that allows easy release in case of an impact
- Two visors supplied with helmet – one Regular height and one Super High height
- Alpinestars patented A-Head adjustable-height top interior helmet pad height
- Superior ventilation system utilizes 19 intake and 5 exhaust ports
- Helmet side shell shape combined with soft EPP foam prevents damage to collarbone in event of crash
- Emergency release and removable cheek pads
- 3D contoured foam
- Removable comfort liner uses anti-moisture and antibacterial fabrics
- Hydration system prepared
- E-Ject prepared
- The following standards apply to this product: ECE 22.06 approved
- Available in sizes listed; see Alpinestars helmet size chart on page 40 before ordering

SM-5 HELMETS

- Constructed from a special lightweight and impact resistant thermo-injected polymer results in a significantly lighter helmet with increased structural strength and outer shell uniformity in two outer shell sizes
- Inner shell includes multi-density advanced EPS construction for optimal impact absorption performance in three sizes
- Features two concepts for impact energy management including a resin-coated inner shell surface that noticeably improves impact resistance and reduces linear acceleration values and an elastic joint to connect the helmet's inner shell and comfort liner to move independently in a crash scenario with an oblique impact, thereby spreading the energy forces from an impact, reducing rotational acceleration
- Uses Alpinestars Emergency Release System (ERS) consisting of removable cheek pads for safe, quick, easy and safe removal of the helmet by trained medical professionals/ emergency responders in the event of a crash
- The ERS features easy to locate pull-tabs for rapid release of the cheek pads, thus minimizing risk of additional injury
- Includes a multi-angle, quick-release visor system that is flush over the helmet's shell to diminish the visor protrusion from the helmet thereby enhancing safety, doesn't use screws used in the visor for increased levels of safety and convenience to be easily adjusted and allows for ease of detachment from and reconnection to the helmet in order to facilitate helmet cleaning and maintenance
- Designed to offer exceptional ventilation to prevent overheating on warm track/trail days, with the inner air network channeling combining with the outer-shell's multi-air inlets and exhaust ports for effective ventilation and high levels of heat transfer exchange
- Hydration tube compatible channels are intelligently integrated into the helmet's cheek pads for convenience and performance
- The following standards apply to this product: ECE 22.06 certified
- Available in sizes listed; see Alpinestars helmet size chart on page 40 before ordering

SM-5 HELMETS

- Constructed from a special lightweight and impact resistant thermo-injected polymer results in a significantly lighter helmet with increased structural strength and outer shell uniformity in two outer shell sizes
- Inner shell includes multi-density advanced EPS construction for optimal impact absorption performance in three sizes
- Features two concepts for impact energy management including a resin-coated inner shell surface that noticeably improves impact resistance and reduces linear acceleration values and an elastic joint to connect the helmet's inner shell and comfort liner to move independently in a crash scenario with an oblique impact, thereby spreading the energy forces from an impact, reducing rotational acceleration
- Uses Alpinestars Emergency Release System (ERS) consisting of removable cheek pads for safe, quick, easy and safe removal of the helmet by trained medical professionals/ emergency responders in the event of a crash
- The ERS features easy to locate pull-tabs for rapid release of the cheek pads, thus minimizing risk of additional injury
- Includes a multi-angle, quick-release visor system that is flush over the helmet's shell to diminish the visor protrusion from the helmet thereby enhancing safety, doesn't use screws used in the visor for increased levels of safety and convenience to be easily adjusted and allows for ease of detachment from and reconnection to the helmet in order to facilitate helmet cleaning and maintenance
- Designed to offer exceptional ventilation to prevent overheating on warm track/trail days, with the inner air network channeling combining with the outer-shell's multi-air inlets and exhaust ports for effective ventilation and high levels of heat transfer exchange
- Hydration tube compatible channels are intelligently integrated into the helmet's cheek pads for convenience and performance
- The following standards apply to this product: ECE 22.06 certified
- Available in sizes listed; see Alpinestars helmet size chart on page 40 before ordering

MISSILE TECH HELMETS

- Outer shell is constructed using a blend of aramid fiber and fiberglass for strength and lightness
- Smooth profile is streamlined and free of any external features that might act as a load point in impact
- Surface curvature promotes reduced friction on impact, allowing deflection and the most efficient transfer to protect the rider's head
- MIPS for mitigation against the causes of brain injuries
- Unique visor release system, which ensures the mounting is held securely in place for riding over the most extreme terrain, yet provides the right level of resistance to ensure the visor detaches from the helmet in significant impact
- 22 vents for maximum airflow and ventilation
- Removable air vent on the chin for additional airflow
- Removable air filter on mouth opening for easy cleaning
- Vented chin strap for additional airflow when riding
- Wide aperture is designed to accommodate a wide variety of goggles
- ERS system for quick and safe extraction in emergency situations
- D-ring closure for a secure closure
- Hydration kit compatible
- Tested and certified according to EN 1078:2012

Pivot kit, black	**0133-1398**

[1] Colors may vary on RST shields.

WARNING: Faceshields with "22.06" in the description may be used with ECE R22.05 and R22.06 helmets. Faceshields without "22.06" in the description may not be used with ECE R22.06 helmets."

VISOR WARNING:

- Tinted Visors marked with the statement "IF TINTED. FOR DAYTIME USE ONLY" or the EU Sun pictogram, are not suitable for use during the hours of twilight, darkness or in conditions of poor visibility or inclement weather.
- Colored Visors that prevent the recognition of road signals are not suitable for on-road use.
- Be sure to choose a Visor that is appropriate for the conditions of expected use.
- Any Visor in use must be kept in perfect condition to ensure that no damage or wear obscures the rider's view through the Visor.

DROPSHIELD WARNING:

- Tinted Dropshields™ are not suitable for use during the hours of twilight, darkness or in conditions of poor visibility or inclement weather.
- Colored Dropshields™ that prevent the recognition of road signals are not suitable for on-road use.
- Be sure to choose a Dropshield™ that is appropriate for the conditions of expected use.
- Any Dropshield™ in use must be kept in perfect condition to ensure that no damage or wear obscures the rider's view through the Dropshield™.

ART.3000 INTEGRAL LIGHT SENSITIVE LENS

PROGRIP

NO-FOG HELMET SHIELD INSERT

- Clear, light-sensitive shield insert that eliminates the need to carry extra shields for different light conditions
- Adhesive gasket for better hold and anti-fogging performance
- Fits most helmet shield designs

DESCRIPTION	PART #
No-fog helmet shield insert	**PG-3000LS**

HELMET PROTECTION

- Keeps mud off helmet in extreme conditions
- Mud does not stick on helmet, so the helmet stays light
- Helps to stay in balance
- Universal model for all helmets

HELMET MOHAWKS

- Every rider can add some attitude
- Simply separate Peel 'n Stick hook tape from Mohawk, peel off backing, align on helmet in desired location and press firmly
- Attach Mohawk; hook-and-loop will hold to over 200 mph, however, it should be checked occasionally
- Different color or style can be put on in seconds

50S MESH INTERCOM™ HEADSET

- Features Bluetooth® 5.0 technology and Mesh 2.0
- Features a versatile Jog Dial for effortless operation
- Mesh 2.0 brings significant advancements to communication for more reliable and stable communication between riders
- Redesigned HD speakers optimized for a boosted performance in volume, bass and clarity
- Features multi-language support and direct digital assistance; can be used with Google Assistant and Siri through voice commands
- Three different intercom modes are available to riders: Multi-Channel Open Mesh Intercom™, Group Mesh Intercom™ or Bluetooth intercom
- Multi-channel Open Mesh intercom™ features nine channels available in open mode which allows the rider to switch frequencies and communicate with a new group; allows a near-limitless number of users within a range of up to 8 km (5 miles)
- Group mesh supports a single, private group for up to 24 participants with a range of up to 8 km (5 miles); only invited users can join the Group Mesh chat
- Also connects via Bluetooth for four-way communication up to a 2,5 to 3,5 km (1,2 mile) range; users can pair with a Sena Bluetooth intercom user and bridge them into a Mesh 2.0 intercom conversation
- HD speakers are slimmer and trimmed around the edges for a comfortable fit with a helmet on; audio output delivers crystal-clear sound quality
- Talk time of 9 hours with Mesh intercom or 14 hours with Bluetooth intercom when fully charged
- Included WiFi adapter recharges device and automatically installs firmware updates
- Charging time of 1 hour or a quick 20 minutes for 3,5 hours of Mesh communication or 6 hours of Bluetooth intercom
- Features a high-density battery that charges 30% faster than its predecessors
- Connects to Sena's 50 Utility App for customization of a variety of settings such as remotely controlling Bluetooth intercom pairing and connections, configuring channel settings for Open Mesh, setting a private group for Group Mesh or creating FM radio presets
- Dual kit includes two single kits in one box

20S EVO MOTORCYCLE BLUETOOTH® COMMUNICATION SYSTEM

- State-of-the-art motorcycle and powersports Bluetooth® communication system provides a sleek and aerodynamic design that offers a versatile jog dial that maximizes the ease of use for riders
- Features Bluetooth 4.0 technology with dual Bluetooth communication modules, to create one of the most advanced Bluetooth headsets in the market; the new Bluetooth technology increases the performance and reliability of the headset while also allowing for increased high-definition audio quality
- The advanced Audio Multitasking™ allows for a seamless blend of incoming and outgoing audio to create a mixed audio experience versus the traditional interruption-based audio technology of other Bluetooth devices
- With the 20S, users can call hands-free with their Bluetooth mobile phones, listen to stereo music or voice instructions of GPS navigation by Bluetooth wirelessly and have intercom conversations in full duplex with a passenger or other riders
- Advanced Noise Control™
- Versatile bike-to-bike conference intercom
- Intercom working distance up to 2 km (1,2 miles) in open terrain
- Multipoint Bluetooth for dual mobile phone
- HD Quality crystal-clear and natural sound
- Intuitive voice prompts and commands
- Built-in FM radio tuner with a station scan-and-save function
- All-in-one helmet clamp kit
- Quick Bluetooth pairing
- Universal Intercom™: intercom with other brand communication systems
- Water-resistant for use in inclement weather
- Firmware upgradeable
- Dual kit includes two single kits in one box

50C BLUETOOTH® CAMERA AND COMMUNICATION SYSTEM

- SOUND by Harman Kardon Premium speakers and microphone
- Both the speakers and microphone were created with the audio experts at Harman Kardon to provide world-class sound inside motorcycle helmet
- All-new microphone, which includes a newly designed sensor, offers robust performance for voice communication while riding
- Integrated Mesh and Bluetooth® intercom systems
- Integrated 4K camera
- Voice-activated Digital Assistant access ("Hey Google"/"Hey Siri")
- Voice commands in eight languages
- Includes integrated camera ready to capture any moment along the ride
- Shoot video in 4K at 30 frames per second or take 12MP photos in still shot, burst, or time-lapse mode
- When shooting in 1080p, the 50C offers electronic image stabilization at 60fps and 30fps
- Camera button allows for simple, one-touch recording while voice prompts keep you updated on camera's progress
- With video tagging, you can save important events from a continuous loop of recording, instantly creating highlights
- Accepts MicroSD cards up to 128 GB for storage
- Use Group Mesh Intercom mode for a private group conversation; Group Mesh supports a single, private group for up to 24 participants with a range of up to 5 miles; only invited users can join the Group Mesh chat
- Traditional four-way Bluetooth intercom mode is also an option for connecting to other Sena Bluetooth-enabled users within a 1,6 km (1 mile) range – when connected to just one other Sena Bluetooth headset, 50C users will experience HD intercom quality
- Additionally, users can pair with a Sena Bluetooth intercom user and "bridge" them into a Mesh 2.0 intercom conversation
- Use Sena Motorcycles App to configure device settings visually; download the app to customize different settings and features, including managing channel settings for Open Mesh remotely or setting up private group for Group Mesh
- With the Sena Camera App, users can preview and download footage being shot directly on their smartphone via built-in WiFi; the Camera App also allows you to fine-tune camera settings such as video recording mode and resolution, video microphone gain, and speaker sound recording
- Talk time: Bluetooth intercom, 22 hours; Mesh intercom, 12 hours
- Charging time: 2,5 hours
- Built-in 1,450 mAh Lithium polymer battery

SINGLE UNIT KIT INCLUDES:

1- 50C Headset main unit

SENA

4402-0923

SENA 10S 4.1 BLUETOOTH® COMMUNICATION SYSTEM

- Upgraded system of the original SMH10 system
- Bluetooth® specification v4.1
- Bluetooth Intercom up to 1,6 km (1 mile) in open terrain
- Ultra-slim and light for sportbike helmets
- Four-way conference intercom through One Touch Group Intercom™
- Also uses the Universal Intercom™ to communicate with all Sena and non-Sena Bluetooth headsets on the market
- Simplifies connections for earbuds and microphone (wired or boom-type) by condensing them down to a single clamp connector, minimizing the number of wires and enhancing reliability
- Easy operation by versatile Jog Dial makes it effortless to operate
- Micro USB port for battery charging and future software updates
- Bluetooth music playback control: play, pause, track forward and track back
- Remarkable battery life: talk time up to 12 hours; standby time up to 10 days; can be fully charged in as little as three hours
- Advanced noise control for less road noise and clearer communication
- Water-resistant for use in inclement weather
- 10S Smartphone app makes configuration a snap – change settings, set groups of intercom friends and access a Quick Guide; pair up to two mobile phones for convenient hands-free calling
- 10S Dual-Pack Kit includes two complete sets of the 10S single-unit kit in one box

SF SERIES BLUETOOTH® COMMUNICATION SYSTEMS WITH DUAL SPEAKERS

SF2

- Provides two-way intercom communication for driver-to-driver or driver-to-passenger up to 800 meters (880 yards) in open terrain
- Smartphone connectivity allows for music streaming, taking and making phone calls and hearing turn-by-turn GPS directions
- Features Audio Overlay™, allowing riders to listen to music and use the intercom simultaneously
- Up to 13 hours of talk time
- Advanced Noise Control™
- Built-in FM radio
- Dual-pack kit includes two single kits in one box

SF4

- Equipped with four-way intercom communication over 1,3 km (.8 miles) in open terrain
- Smartphone connectivity
- Features Audio Overlay™, allowing riders to listen to music and use the intercom simultaneously
- Up to 13 hours of talk time
- Advanced Noise Control™
- Built-in FM radio
- Dual-pack kit includes two single kits in one box

SINGLE KIT INCLUDES:

1- SF2/SF4 communication system
1- Quick clamp kit with HD speakers
2- Speakers
1- Glued surface mounting plate
1- Boom microphone holder
1- Hook-and-loop fastener for Boom microphone
1- Hook-and-loop fastener for holder
1- Hook-and-loop fastener for Wired microphone
2- Hook-and-loop fasteners for speakers
2- Microphone sponges
1- USB power and data cable

SMH-5 BLUETOOTH® STEREO HEADSET/ COMMUNICATOR/INTERCOM

- Bike-to-bike or rider-to-passenger communication
- Available with boom microphones for open-face helmets or with wired microphones for full-face helmets
- Bluetooth® Intercom up to 430 yards in open terrain
- Multi-pair Bluetooth intercom
- Voice prompts
- Bluetooth stereo headset by A2DP
- Bluetooth music playback control by AVRCP: play, pause, track forward and track back
- Easy operation by versatile Jog Dial
- Sufficient sound level with integrated audio booster
- Bluetooth hands-free for Bluetooth mobile phones
- Bluetooth headset or stereo headset for Bluetooth GPS navigation
- Water-resistant for use in inclement weather
- Crystal-clear and natural sound quality
- Up to eight hours talk time, seven days standby time
- Can be used while charging on road trips
- Individual volume control for each audio source
- Firmware upgradable

SMH-5 UNIT INCLUDES:

- 1- Headset main unit
- 1- Clamp unit
- 1- Attachable boom microphone or wired microphone
- 1- USB power and data cable
- 1- Hook-and-loop surface mounting plate
- 1- Hook-and-loop pad for boom microphone
- 1- Attachable boom microphone holder
- 1- Allen wrench
- 1- Owner's manual
- 2- Microphone sponges
- 2- Hook-and-loop pads for speakers
- 2- Speaker pads
- 2- Helmet speakers

BARSTOW CLASSIC GOGGLES

- Inspired from the days of air-cooled dirt bikes and the rugged, harsh tracks of desert racing
- Classic vision fused with modern styling and technology results in a timeless look with next-level motocross performance
- Minimal frame design works in union with anti-fog Lexan® lens to increase visibility
- Synthetic leather strap trim elevates performance and adds rich detail
- Upper vents force air in and channel moisture out to reduce fogging
- Distinct lens shape and premium enamel-coated metal badges enhance design aesthetic
- Triple-layer, fleece-lined face foam provides superior comfort and moisture management
- Embossed frame pinstripe complements frame contour and styling
- Integrated lens pins for seamless tear-off application
- 100% UV protection

FORECAST ADVANCED MUD SYSTEM

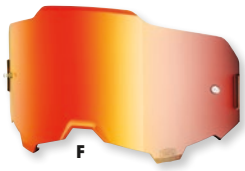

FOR 100% RACECRAFT, ACCURI AND STRATA GOGGLES

- Offers the largest field of clear vision in motocross
- Complete system is engineered with components that work together in unison to fight out the elements – wider film, smoother pulls and an advanced cleaning system
- Transparent canisters provide an easy view of remaining film, and at 45 mm wide, it provides the maximum amount of vision
- Smooth-rolling drawstring for easy pulling, and film exits closer to the lens to reduce dirt from entering the main view
- SVS embossed lens with integrated clear mud visor provides smooth operation and keeps out the elements
- Self-cleaning canister with integrated film wipe reduces mud buildup
- Replacement parts for the Forecast System available
- Mudflap prevents water, dirt, mud and other elements from infiltrating the system
- Replacement lens includes mounting holes for easy installation

REPLACEMENT LENSES

- All-purpose clear lens provides maximum amount of light allowance for all conditions
- Clear and smoke dual lenses prevent fog buildup in all weather conditions and are ideal for the toughest conditions
- Blue lens provides increased contrast for varying conditions and is ideal for medium to low light
- Yellow lens is perfect for flat, low-light conditions and improves the contrast and definition of any obstacle
- Neutral tint smoke lens reduces glare while providing accurate color perception in medium-to-bright light conditions
- Persimmon and orange lenses are ideal for overcast conditions with improved depth perception and increased contrast
- Mirrored lenses offer the maximum reduction of glare in bright-light conditions for improved performance

BOBSTER® DNA

Bobster® prides itself on leading the pack when it comes to technology. All our products feature optically correct, polycarbonate shatter-resistant lenses that offer 100% UVA and UVB protection. We also offer products with Rx-ready frames, polarized lenses, photochromic lenses and all-new high-definition lenses.

HIGH-DEFINITION LENSES

High-Def lenses will enhance your vision whenever worn.

What this technology does is elevate individual colors, which enables you to see imperfections in the road, changes in the water, or divots in the dirt much easier.

Without having to strain your eyes to see what is coming up, you can anticipate and react with more precision while filtering out harmful UV rays, leading to overall greater visual comfort.

POLARIZED LENSES

While ordinary tinted lenses reduce brightness, only polarized lenses eliminate glare.

To ensure the impact resistance of the lenses, Bobster® uses polycarbonate polarized lenses while most other companies use polarized lenses that will shatter on high impact.

PHOTOCHROMIC TECHNOLOGY

Bobster® photochromic lenses are available in a variety of eyewear styles and are precisely designed to automatically darken/lighten to the amount of ultraviolet (UV) light that reaches the lens.

The advantage of a photochromic lens is that you can wear your eyewear all day and not have to carry multiple sets of eyewear with you or change your lenses according to light conditions.

Do not leave photochromic lenses in direct sun or extreme heat for long periods of time as it will decrease the performance of the lenses.

BOBSTER®

BOBSTER® GOGGLES

Expect superior functionality, comfort and durability from Bobster® goggles. Specifically designed to conform to various shapes of faces, the goggle frame creates an effective seal that significantly reduces wind blasts and vibrations. The adjustable head strap provides maximum retention and security, while the foam allows ultimate airflow to reduce lenses from fogging.

CRUISER 3 GOGGLES WITH INTERCHANGEABLE LENSES

- Four sets of lenses: anti-fog smoked, amber, clear and smoked with Blue Revo
- Include shatter-resistant polycarbonate lenses
- Lenses provide 100% UV protection
- Frame size: large

GP PLUS v4 LEATHER JACKETS

- Tech-Air® ready
- Race derived sport leather jacket, revolution of existing GP Plus v3 model
- Improved material selection with lighter weight
- Modernized look with refined detailing
- Race derived A-CS™ Plus stretch paneling provides increased flexibility and improved freedom of movement
- A-CS Plus provides high levels of abrasion- and tear-resistance, as well as high breathability, as well as a lower weight and profile than leather accordion paneling
- DFS shoulder kit with Nucleon Flex Plus shoulder armor provides impact protection and movement comfort
- GP-R Lite extended elbow armor and pre-curved race fit provide impact protection and natural pre-curved riding position comfort
- Detachable thermal vest 80 g and long direct opening vents for climate management
- Tested and certified to EN 1621-1:2012 Nucleon Flex Plus shoulder armor
- Tested and certified to EN 1621-1:2012 GP-R Lite Elbow armor
- Tested and certified to EN 17092-3:2020 Class AA
- Available in men's sizes listed; see Alpinestars size chart on page 182 before ordering

FASTER AIRFLOW v2 LEATHER JACKET

- Tech-Air® 5 ready
- Tech-Air is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required
- Racing leather jacket designed with a body mapped race fit and pre-curved sleeves and body for optimal riding performance
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars Airbag System, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted
- Highly durable and technical premium 1,3 mm leather multi-panel construction for comfort and high levels of abrasion-resistance
- Rear of the jacket is elongated for enhanced coverage when riding
- Snap-button system to integrate the Level 2 Alpinestars Nucleon back protector; sold separately
- Alpinestars Nucleon Flex Plus removable internal shoulder and elbow protectors ensure protection against impacts while being extremely flexible
- New shoulder protection features an over-molded advanced TPU guard layered under the outer fabric for additional impact protection
- Extensive, advanced poly fabric stretch inserts on the chest, underarm and rear shoulder with extensive accordion leather stretch panels above the elbow areas for an optimum fit
- Perforated padded panels integrated into main shell and sleeves for an improved fit
- A combination of snap button and wrist zipper closures for a secure and customized fit
- Ventilation inlets on the shoulders for high levels of airflow are zippered for ease of use
- Rear of the jacket is elongated for enhanced coverage when riding
- Strategically positioned localized perforations for superior ventilation
- Hook-and-loop waist adjustment for an optimized fit
- Soft 3D mesh collar construction plus 3D mesh cuff edging for comfort with a mesh liner construction for enhanced breathability, comfort and ventilation
- External, large-opening front hand pockets are zippered for peace-of-mind security
- Multiple internal compartment pockets feature a hook-and-loop closure for additional security
- Interior waterproof wallet pocket for safe storage of documents/electronics
- Waist connection zipper allows attachment to Alpinestars riding pants
- Tested and certified to EN 17092 standards - Class AA
- Tested and certified to EN 1621-1:2012 Nucleon Flex Plus shoulder and elbow protectors
- Available in European men's sizes 48-60; see Alpinestars size chart on page 182 before ordering

CERIUM TECH-STRETCH DENIM RIDING PANTS

- Extremely compact mono-layer fabric construction uses fine yarns in weft and warp for reduced material volume and superior mechanical performance
- The elastomer present in the weft ensures elongation for a guaranteed temporary deformability as the user moves, returning to its natural position when the movement stops, for superior rider comfort
- Slim fit with stretch denim layer for enhanced levels of comfort
- Nucleon Plus knee armor allows high levels of movement and has a slim design to ensure the protector is discreet off the bike
- Triple stitched seams for strength and durability
- Classic five pocket detailing
- Stitched rivets
- Reflective label
- Tested and certified to EN 1621-1:2012 Alpinestars Nucleon Plus knee protectors
- Tested and certified to EN 17012 - Class A

STELLA T-JAWS v3 WATERPROOF JACKET

- Optimized for a woman's performance fit
- Constructed from a highly durable and abrasion resistant 450/600 denier poly-fabric main shell for long-lasting performance, plus newly developed brushed poly panels for soft touch finish
- Incorporates windbreaker liner for excellent protection against blustery conditions
- Extended mesh panels on the torso, upper chest, arms and rear back provides substantial airflow when riding for superior comfort in warmer weather conditions
- Full mesh lining boosts garment's all-round airflow capabilities and breathability
- Sport fit with pre-curved sleeve construction for reduced fatigue and enhanced riding comfort
- Strategically positioned accordion poly-fabric stretch insert on rear shoulders and elbow for excellent flex fit
- Comfort collar and wrist cuff edging for improved comfort and breathability
- Hook-and-loop and D-ring waist adjustments for a secure and customized fit
- Hook-and-loop and zipped wrist cuff closures allow further fine-tuning of garment's fit
- Lower rear profile design offers lumbar coverage and prevents jacket from riding up over pants
- Convenient waterproof internal pocket keeps important documents safe and dry
- External, large-opening front hand pockets are zippered for peace-of-mind closure
- Multiple internal compartment pockets feature hook-and-loop closures for additional security
- Waist connection zipper allows attachment to Alpinestars riding pants
- Reflective details for improved rider visibility
- Lightweight elbow and shoulder protectors grant the jacket a sleek fit yet provide class-leading impact protection
- Snap button system to integrate the Level 2 Alpinestars Nucleon Back protector
- Tested and certified to EN 1621-2:2014 Alpinestars Nucleon back protector

PRIME

PERFORMANCE PERSONIFIED

Every stitch of Prime racewear was designed with intent and purpose. Utilizing premium materials and detailed craftsmanship, Prime is our most advanced racewear to date. Built around the notion that unrestricted mobility, minimal weight and athletic fit all allow the rider to work more efficiently with the motorcycle, Prime Pro is designed to reduce interference between man and machine. From concept to creation, Prime was developed with insight and testing from our elite riders to deliver next-level performance.

JERSEYS

- Hybrid fit with set-in style tailored sleeves
- Tapered collar and cuffs
- Minimal seams for maximum comfort
- Fully ventilated arms and back panel
- Moisture-wicking material keeps you dry
- Tail silicone print helps keep jersey tucked in
- Flat-stitched seams minimize irritation
- See size chart on page 225 before ordering

PRIME (CONT)

PERFORMANCE PERSONIFIED

Every stitch of Prime racewear was designed with intent and purpose. Utilizing premium materials and detailed craftsmanship, Prime is our most advanced racewear to date. Built around the notion that unrestricted mobility, minimal weight and athletic fit all allow the rider to work more efficiently with the motorcycle, Prime Pro is designed to reduce interference between man and machine. From concept to creation, Prime was developed with insight and testing from our elite riders to deliver next-level performance.

PRIME JERSEYS

- Hybrid fit with set-in style tailored sleeves
- Tapered collar and cuffs
- Minimal seams for maximum comfort
- Fully ventilated arms and back panel
- Moisture-wicking material keeps you dry
- Tail silicone print helps keep jersey tucked in
- Flat-stitched seams minimize irritation
- See size chart on page 225 before ordering

THOR Hallman

HALLMAN COLLECTION

Founded in 1968 by four-time World Motocross Champion Torsten Hallman, Hallman Racing is America's first motocross racewear brand. Torsten, a true original, was one of the men who introduced motocross to the United States and revolutionized everything from the way we ride to what we wear. Realizing the American racer's potential, Torsten saw the need for quality motocross gear, so he began importing pants, jerseys and gloves under the brand name Hallman Racing, or THOR (Torsten Hallman Original Racewear). We are proud to celebrate over 50 years of racing heritage with the new Hallman Collection by THOR. Authentic in every aspect, the Hallman Collection is inspired by the roots of the brand and offers timeless style for all things on two wheels. The First. The Forever.

MOOSE RACING SIZING GUIDES

GARMENT SIZING INFORMATION

- The charts below will help you select the proper size. If you have any questions, please contact moosecomments@mooseracing.com or contact your nearest Parts Unlimited dealer.

CARE INSTRUCTIONS

- Moose Racing does not recommend dry cleaning for any products. All products are machine washable. You should use a commercial front-loading machine and follow the care instructions for each garment.

JERSEYS

- Chest measurement: With tape level, measure around the fullest part of the chest, just under the arms and around the shoulder blades
- Sleeve measurement: With elbow slightly bent, measure from the center back of neck, over point of shoulder, around elbow and down to 13 mm ($^1/_2$") past wrist bone
- Jerseys are generously sized for comfort, mobility, and to be worn over low-profile roost shields/guards

SIZE	CHEST	SLEEVE LENGTH

HOW TO MEASURE

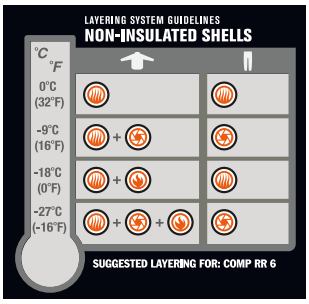

CHEST
Just below underarms circumference of broadest area of chest

HEIGHT
Straight measurement top of head to floor

WAIST
Circumference

EVAPORATOR SHIRT/PANT/SOCK
REGULATOR JERSEY/PANT
INSULATOR JERSEY/PANT/SOCK

LAYERING SYSTEM

A proper Layering System is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton-based products are absolutely not part of a Layering System. This includes sweatshirts and denim products.

During the activity of snowmobiling you generate moisture (sweat). The harder you ride, the more moisture you generate. Cotton products trap this moisture, which in turn, transmits cold directly to your body.

MEN'S LAYERING SYSTEM MEASUREMENTS

MEN'S SIZES	TOP (CHEST MEASUREMENT)	BOTTOM (WAIST MEASUREMENT)
S	86 cm - 91 cm (34"-36")	71 cm - 76 cm (28"-30")

BNS TECH 2 NECK SUPPORTS

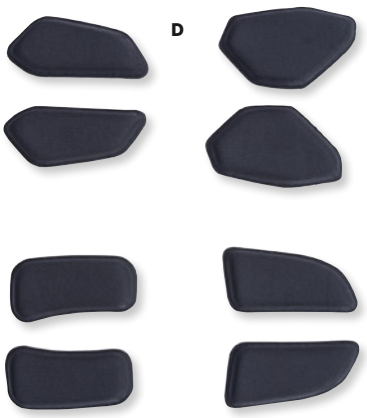

- The BNS TECH-2 is constructed from an advanced, high-performance fiber polymer compound
- Complete design facelift and technical upgrade including new lightweight rear and chest padding and updated chinplate design
- Structural integrity and frame strength against heavy impact energies during a crash
- Ultra-lightweight performance and comfort while riding
- Less weight than its predecessors
- Resilience to low temperatures, below 0 °C
- BNS TECH-2 is designed to provide a customizable, secure and personalized fit with the SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL
- The stretch fabric laminated foam padding kits are adaptable and the interchangeable EVA foam pads allow compatibility with body impact shield systems
- Lightweight Strap System can be worn over or under the jersey
- BNS TECH-2 incorporates a bio-organic engineering design for superb ergonomics
- Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key
- Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyperflexion
- Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure
- Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight
- The following standards apply to this product:
- Tested and certified to EU2016/425 – Category 2

A-6 CHEST PROTECTOR

- Chest and back protector plastic shells are constructed from a high-performance polymeric material blend for optimized flexibility and excellent weight-saving properties
- The plastic shells feature extensive, strategically-positioned perforation zones for excellent breathability and ventilation
- The thermoformed padded chassis and padded side wings offer optimal rider comfort
- An adjustable quick-release waist system allows for a customized fit and ensures protection remains secure and close to the body at all times
- The flexible front side wings are connected to the main chest protector with three bridge fixings allowing the wings to move independently and adapt to the natural contours of the body
- Removable back puck for BNS compatibility
- Silicone BNS pull tab for convenient and safe engagement of the BNS
- The removable shoulder protectors allow this upper body protector to be worn in various configurations, giving the rider the opportunity to tailor the protector to the conditions
- The removable shoulder protectors feature an adjustable V-Strap System to allow for a comfortable and snug upper arm fitment
- The following standards apply to this product:

NUCLEON KR-CELLI BACK PROTECTOR INSERT

- Super lightweight back protector insert in three waist-to-shoulder dimensions to cover all body sizes
- Triple-segmented back shell plate is constructed from a high-performance polymeric material blend for optimized flexibility and excellent weight saving properties
- Structural design from center towards the outside provides the perfect balance between force dispersion and energy absorption
- Unique cell microstructure designed for advanced energy absorption, adaptivity, maximum breathability and airflow
- Ergonomic protection plate contours to the natural curve of the back ensuring optimum fit while riding
- Horizontal flexion grooves for an adaptive fit in different riding positions
- Soft comfortable airmesh on the body side of the protector offers maximum breathability and rider comfort
- The following standards apply to this product:
- Back protector tested and certified to EN1621-2:2014 - Level 1

BIONIC-10 CARBON KNEE BRACE

- Features lightweight hybrid frame construction of carbon composite cores overinjected with an advanced fiber-reinforced polymer
- Innovative design and optimized material utilization of the exoskeleton frame construction make the knee brace even lighter than its predecessor, yet provide high structural strength and support
- Performs at temperatures as low as -20 °C (-4 °F)
- Double-pivoting hinge system incorporates tool-free, fast, easily exchangeable extension stops to help prevent hyperextension injuries
- Lightweight and highly-ventilated double-wall knee-cup system offers strong impact force dispersion and absorption while ensuring maximum coverage in all riding positions
- Ergonomically sculpted kneecup is constructed from a triple-segmented polymer for flexibility and adaptivity that is backed with light padding for comfort
- Kneecup position is secured accurately in place by an innovative integrative mechanical guiding system to allow multi-directional movement
- Highly-ventilated channeled padding and mesh zones provide optimized ventilation and airflow
- Soft comfortable lateral knee padding avoids pressure points
- Additional space padding enables a high adjustability for a personal fit
- Lightweight single straps on upper frames and buckle system promote secure fitment of brace in all riding positions and effortless mounting
- C-Frame strap system holds braces perfectly in place
- The following standards apply to this product:
- Knee protector tested and certified to EN1621-1:2012 - Level 1

SX-1 v2 KNEE GUARDS

- Extremely lightweight knee protection with large protective area for riders looking for the most breathable and lightweight solutions for all riding styles
- Upper and lower frames are constructed from a high-performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight-saving properties
- Polymer protector plates are strategically perforated for maximum breathability and air ventilation
- The upper and lower frame integrated dual-pivot hinge gear system follows the natural movement of the knee and keeps the protector well-positioned during all movements
- Upper extended frame for increased thigh protection without compromising mobility
- Perforated knee protector offers high levels of ventilation
- Backed by soft padding for an adaptive fit with breathable air mesh for ventilation and comfort
- Foam backing for excellent comfort against the skin
- Frames are asymmetrical and feature a slim, ergonomic design for comfort and a performance fit
- Hook-and-loop dual strap closure system with silicone pull tabs for easy in-and-out and a personalized, secure fit

PPE

BIONIC TECH YOUTH PROTECTION JACKET

- Lightest Level 2 Chest Protector in its class.
- 17% of the protector structure consists of ventilation apertures and are aligned through both hybrid layers to ensure maximum ventilation.
- Super ventilated with channeling of direct heat build-up away from the chest.
- Viscoelastic back protector is highly adaptive, ventilated, and flexible.
- YNS compatible via removable puck panel and elasticated YNS pull tabs.
- Chest and back protectors can be detached from the base layer for easy washing of the jacket.
- V-straps on the back protector make for a more adaptive fit
- Race-proven breathable and stretchable textiles used for the base layer construction.
- Floating Chest and Back protectors, and rib guards
- Nucleon Flex Plus Level 1 certified shoulders and elbow protectors
- SHOULDER: tested and certified to EN 1621-1:2012 - Level 1
- ELBOW: tested and certified to EN 1621-1:2012 -Level 1

PPE

YOUTH NECK SUPPORTS

- Compact, easy-to-use design for kids ages 8-14
- Ergonomic design and engineered shape for ideal fitment with Alpinestars A-5 S
- Left and right rigid frames are made from a polymer compound combination with the internal smooth edge made of soft-injected EVA to provide a great fit and stable positioning
- Overall frame construction dissipates energy loads by transmitting them across the back
- Flexible back connector between the left and right frames allows the neck support to follow the body's movements when riding
- Chin plates on the front dissipate pressure of the helmet when impacting
- Quick-release closure system to easily engage or disengage the neck support
- Compatible with Alpinestars A-5 S; can also be worn on its own using the A-strap (included in the YNS kit)
- Tested according to the essential health and safety requirements of Regulation (EU) 2016/425 - Category 2

SEQUENCE YOUTH NECK ROLL

- Hybrid youth neck guard with extended tail for high position stability
- Ergonomic design and engineered shape to fit kids from 6-10 years and youth from 10-14 years of age
- Double-density core is made from a soft PU foam base embedding a hard layer EVA core for energy dissipation
- Bottom and internal soft section (neck sides) provides comfort for the shoulders and neck, hard section on upper part provides stability and provides force distribution when the helmet is impacting
- Easy-to-use soft strap closure on the front part
- Highly compatible with all other protectors and jackets
- External cover can be pulled off of the core for washing via hook-and-loop closure at the rear

YOUTH BIONIC 5S KNEE BRACES

- Innovative hybrid frames are constructed from a rigid composite overinjected with a high-performance fiber reinforced polymer which provides optimal structural integrity and support while being ultra-lightweight and adaptive
- Slim ergonomic design for riding comfort during dynamic movement
- Extremely stable slim-design four-point hinge system perfectly follows the articulation of the knee
- Hinge system incorporates easily exchangeable extension stops (0, 10, & 20 degrees) which reduce the risk of sustaining injuries to the medial and lateral collateral ligaments, the anterior and posterior cruciate ligaments and the lateral and medial meniscus
- Lightweight and highly ventilated knee-cup system offers strong impact force dispersion and absorption while ensuring maximum coverage area in all riding positions
- The following standards apply to this product:
- Knee protectors tested and certified to EN1621-1:2012 - Level 1
- Sold in pairs

DESCRIPTION	BLACK/RED
Youth Bionic 5S knee braces	2704-0645

YOUTH SX-1 KNEE GUARDS

- Extremely lightweight knee protection with large area for riders looking for the most breathable and lightweight solutions for all riding styles
- Upper and lower frames are constructed from a high-performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight-saving properties
- Polymer protector plates are strategically perforated for maximum breathability and air ventilation
- Dual-pivot hinge gear system follows the natural movement of the knee and keeps the protector well-positioned in all riding positions
- Upper extended frame for increased thigh protection without compromising mobility
- Innovative patella construction features "floating" protection cup for continuous coverage and mobility regardless of leg position
- Patella cup constructed from energy-absorbing viscoelastic PU foam
- Patella cup is backed by soft padding for adaptive fit and breathable air mesh for ventilation and comfort
- High-abrasion resistant fabric on the outer central knee-cup area reduces the possibility of scratching
- Thermoformed foam backing for excellent comfort against the skin
- Frames are asymmetrical and feature a slim, ergonomic design for comfort and performance fit
- Hook-and-loop TPR dual-strap closure systems for easy in-and-out for a personalized, safe fit
- Straps feature Airprene for optimized comfort and airflow

RAIDER DRYSTAR® v2 PANTS

- An excellent tailored all-weather textile pant with class-leading internal protection incorporated into its multi-panel chassis
- Features Drystar® membrane for 100% waterproofing and high levels of breathability
- Removable thermal liner allows these pants to adapt to all weather conditions and are fully compatible with Alpinestars touring jackets
- Multi-fabric poly-shell construction for optimal combination of durability, protection and weight
- Strategically positioned abrasion and tear resistant reinforcements offer additional durability
- Class-leading impact protection provided by removable Alpinestars Nucleon Flex Plus knee protectors
- Protectors are housed within internal mesh pockets, allowing them to be adjusted according to rider's leg length
- Hip compartments with Alpinestars Bio-Flex hip protector compatibility for protection in a key area
- Removable thermal lining means pants can be worn in a variety of climatic conditions, adding to their overall versatility
- Pre-curved legs and an articulated knee construction provide high level of comfort while accordion stretch panels on knee provides enhanced freedom of movement
- Elongated rear for greater coverage in the riding position with comfort edges for enhanced rider comfort
- Optimized for use with range of textile jackets, thanks to a full circumference waist zipper
- Dynamic Flow Control (DFC) zippered thigh direct vents allow for personalized and adjustable levels of airflow
- Extended zippered boot gussets with double adjusters ensure a tight seal around the ankle and facilitate fitting and removal
- Integrated high-visibility reflective details for increased visibility
- Hook-and-loop waist and leg adjustments for precision fit in various riding positions
- Premium YKK® zippers used throughout garment
- Hand pockets for safe and secure storage of valuables
- Tested and certified to EN17092 - Class A

HURRICANE RAIN JACKET

- Constructed from ultra-lightweight PU-coated 100% waterproof poly-nylon fabric that has been specially treated to avoid sticking when worn over textile or leather garments
- Black fluorescent colorway incorporates poly-textile panels for color fastness
- All seams are tape sealed for 100% waterproof performance
- Light poly-mesh lining for improved internal air circulation and comfort
- Reflective detailing improves the visibility of the rider in poor weather conditions
- Hook-and-loop adjustments on the arms and waist shock cord adjustment ensure a close fit
- Elasticated collar and cuffs help for a hermetic seal to prevent wind and water penetration
- Waterproof storage compartment on inside of chest for easy access and secure storage
- Comes with storage bag for easy transportation
- Available in men's sizes S-XL; check Alpinestars size chart on page 347 before ordering

MOOSE RACING SIZING GUIDES

GARMENT SIZING INFORMATION

- The charts below will help you select the proper size. If you have any questions, please contact moosecomments@mooseracing.com or contact your nearest Parts Unlimited dealer.

CARE INSTRUCTIONS

- Moose Racing does not recommend dry cleaning for any products. All products are machine washable. You should use a commercial front-loading machine and follow the care instructions for each garment.

JERSEYS

- Chest measurement: With tape level, measure around the fullest part of the chest, just under the arms and around the shoulder blades
- Sleeve measurement: With elbow slightly bent, measure from the center back of neck, over point of shoulder, around elbow and down to 13 mm ($^1/_2$") past wrist bone
- Jerseys are generously sized for comfort, mobility, and to be worn over low-profile roost shields/guards

SIZE	CHEST	SLEEVE LENGTH
RACEWEAR JERSEYS: SAHARA/M1/QUALIFIER		
S	104 cm - 109 cm (41"-43")	84 cm - 86 cm (33"-34")

4X	132 cm - 142 cm (52"-56")	99 cm - 102 cm (39"-40")

PANTS

- The sizing information below will help you select the proper size; sizing by measurement in inches
- Inseam measurement: measure from the crotch to the bottom of the leg
- Race pants will have shorter inseam to accommodate wearing the pant on the inside of boots, Outerwear pants will be more similar to casual pants as these are designed to be worn over boots

WARMME HEATED VEST

- Double outer layer is waterproof and blocks wind
- Designed to be worn under any jacket or coat
- Infrared heating is made from hidden circuits composed of carbon heat-up elements that are flexible and ultra-flat; strategically positioned in specific areas to create and maintain a comfortable temperature
- Easy Touch button (so you can use it without removing gloves) to select temperatures; three colored lights make it simple to tell what temperature you are using - even in the dark
- Red light = high 50 °C, 3,5 hour battery life; orange light = average 45 °C, 6,5 hour battery life; green light = maintenance 40 °C, 7,5 hour battery life
- Lithium-ion battery (7,4V - 3000 mAh) is small, light and recharges quickly; positioned in a small interior pocket
- Double side-zipper for a perfect fit to the body, whatever clothing you are wearing
- Zipper pulls and "easy open" pocket flaps can be used without removing gloves
- Battery and charger included; can also be purchased separately
- Optional 12V power supply cable lets you connect vest directly to cigarette lighter for power, without using batteries

WARMME HEATED SOCKS

- Battery-powered heated socks for motorcycle riding, skiing, trekking, fishing and any other use
- Nylon/polyester protectors on calves protect against wear
- Made with breathable materials that offer lightness, strength and comfort, but also let natural perspiration escape
- Heating circuits radiate heat on the top part of foot and ensure benefits even at the lowest temperatures
- Hidden carbon fiber heating circuits are hyperflexible and ultra-thin, radiating infrared heat (up to 45 °C/113 °F) so as to maintain a comfortable foot temperature
- Temperature level can be adjusted to one of three levels by clicking the button on battery (on - low - medium - high - off)
- Small, lightweight and fast recharging 7,4V - 2200 mAh lithium ion battery is stored in a small inner pocket on the top of calf
- Special cotton and spandex make the socks softer and more comfortable
- Hand washable in 30 °C (86 °F) water
- Battery and charger included; battery can also be purchased separately
- Sold in pairs

WARMME OUTDOOR HEATED GLOVES

- Waterproof and insulated gloves are perfect for motorcycling, skiing, trekking, fishing and any other use
- Made with breathable materials that are lightweight, strong and resist wind and rain, yet let natural perspiration escape
- Designed to ensure maximum comfort
- Heating circuit follows the hand's contour to radiate heat in all parts (including fingers) for warmth even at the lowest temperatures
- Hidden heating plates are flexible, ultra-flat and strategically placed in specific areas
- Easy Touch button selects temperature; three colored lights let you see setting even in the dark (low - 7,5 hours, medium - 6,5 hours, high - 3,5 hours)
- Light lithium-ion battery is smaller, lighter and recharges quickly (7,4V - 3000 mAh); located inside a small pocket
- Tips of the thumb and index fingers are touchscreen compatible with a special coating that allows the use of touchscreen devices (smartphones, navigators, etc.) without having to take off gloves
- Batteries and charger included; can also be purchased separately
- Optional Y-cable allows direct 12V power for gloves through cigarette lighter plug-in (no batteries); PART #3807-0470 also required

HOW TO MEASURE

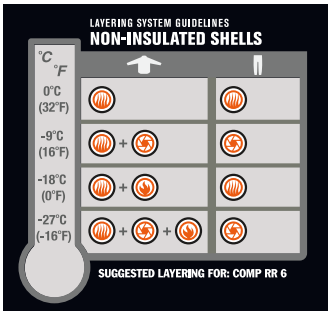

CHEST
Just below underarms circumference of broadest area of chest

HEIGHT
Straight measurement top of head to floor

WAIST
Circumference

EVAPORATOR SHIRT/PANT/SOCK
REGULATOR JERSEY/PANT
INSULATOR JERSEY/PANT/SOCK

LAYERING SYSTEM

A proper Layering System is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton-based products are absolutely not part of a Layering System. This includes sweatshirts and denim products.

During the activity of snowmobiling you generate moisture (sweat). The harder you ride, the more moisture you generate. Cotton products trap this moisture, which in turn, transmits cold directly to your body.

MEN'S LAYERING SYSTEM MEASUREMENTS

MEN'S SIZES	TOP (CHEST MEASUREMENT)	BOTTOM (WAIST MEASUREMENT)
S	86 cm - 91 cm (34"-36")	71 cm - 76 cm (28"-30")
M	97 cm - 102 cm (38"-40")	81 cm - 91 cm (32"-34")
L	107 cm - 112 cm (42"-44")	91 cm - 97 cm (36"-38")
XL	117 cm - 122 cm (46"-48")	102 cm - 107 cm (40"-42")
2X	127 cm - 132 cm (50"-52")	112 cm - 117 cm (44"-46")

WOMEN'S LAYERING SYSTEM MEASUREMENTS

WOMEN'S SIZES	TOP (BUST MEASUREMENT)	BOTTOM (WAIST MEASUREMENT)
XS (0-2)	73 1/2 cm - 81 cm (29"-32")	68 1/2 cm - 72 1/2 cm (27"-28 1/2")
S (4-6)	84 cm - 89 cm (33"-35")	73 1/2 cm - 80 cm (29"-30 1/2")
M (8-10)	91 cm - 97 cm (36"-38")	79 cm - 83 cm (31-32 1/2")
L (12-14)	99 cm - 104 cm (39"-41")	84 cm - 88 cm (33-34 1/2")
XL (16)	107 cm - 109 cm (42"-43")	89 cm - 93 cm (35-36 1/2")
2X (18)	112 cm - 117 cm (44"-46")	94 cm - 98 cm (37-38 1/2")

REGULATOR

MEN'S REGULATOR TOPS AND BOTTOMS

- Midweight, highly breathable polyester

ZANHEADGEAR®

ZAN HEADGEAR® WINDPROOF COLLECTION

Providing another way to protect you from wind, sleet, snow or sand. The bonded Windproof fabrication works great to protect your head, neck and face, as well as your nose and ears, in colder temperatures. Fleece-bonded fabrication has been tested and certified as Windproof, meaning less than 1% of air will pass through the fabric. Zan Headgear® Windproof products offer 99-100% protection against wind.

SP-2 v3 GLOVES

- A superbly styled and anatomically profiled glove for sports or naked bike enthusiasts
- Constructed from a supple and highly durable full-grain leather chassis to provide core abrasion resistance and durability
- Palm and finger sidewalls are reinforced with supple goat's leather for feel and performance fit
- Main shell reinforcement is provided by leather coverage over first and second fingers and cuff
- Synthetic suede reinforcements on palm and landing zones for maximum abrasion resistance
- Ergonomic, advanced compound and MotoGP-derived TPU slider on palm is backed with EVA foam for impact performance
- Alpinestars robust yet flexible compound knuckle guard provides exceptional impact and abrasion protection
- Strategically positioned impact absorbing EVA foam for additional impact performance
- Alpinestars finger-bridge prevents excessive finger roll and separation during impacts
- Extensive sport knuckle gusset opening on thumb allows flex and freedom of movement
- Perforated cuff, leather top panel and ventilated finger sidewalls to help keep the hands cool
- Cuff side leather padded patches to enhance protection
- Pre-curved finger construction reduces rider fatigue
- Wide hook-and-loop wrist closure for easy entry and secure fastening
- Touchscreen compatible fingertip area on index and thumb for use with smartphones and GPS systems
- The following standards apply to this product: EN 13594 2015, Level 1 KP

SP-8 v3 LEATHER GLOVES

- Universal riding glove bristling with racing DNA
- New construction for reduced seams and enhanced rider comfort
- Premium, full-grain goat leather and synthetic leather material construction is comfortable, durable and offers excellent abrasion-resistance
- Extended cuff for greater coverage with an integrated closure for security and ease of use
- An innovative microfiber and PU grip insert is strategically positioned on the palm and thumb for excellent levels of grip control and durability
- Alpinestars' exclusive ergonomic stretch insert between palm and thumb offers an enhanced range of hand movement and greater sensitivity while operating the bike controls
- Incorporates a premium quality synthetic suede palm and landing reinforcement for grip, control and durability
- Arshield reinforcement on the palm slider for superior abrasion-resistance
- Excellent repeated impact performance is offered by the advanced MotoGP-derived SP dual-density knuckle protector
- Alpinestars' third and fourth finger bridge prevents seam failure and finger separation in the event of a slide
- Perforated cuff and finger sidewalls for superior airflow and breathability
- Hook-and-loop cuff and wrist closure with an elasticized wrist design for secure, personalized fit
- Pre-shaped, anatomical finger design and half inner/half outer external seams for comfort and exceptional feel
- Touchscreen compatible fingertip on index finger and thumb for use with touchscreen devices

COROZAL v2 DRYSTAR® GLOVES

- Durable softshell stretch poly-textile upper with goat leather palm and back hand panels for optimized levels of abrasion-resistance and comfort
- Uses Alpinestars' Drystar® performance material technology
- Over-molded polymer hard knuckle protector offers class-leading protection against impact and abrasion
- Rubber thumb and palm reinforcement gives extra grip on the controls while offering great seam reinforcement
- EVA padding reinforcements on outer hand, fingers and palm provides strategic abrasion-resistance and improved fit
- Touchscreen-compatible fingertips for use with smartphones/tablets/GPS systems
- Pre-curved glove construction improves comfort and prevents hand muscle fatigue on longer journeys
- Accordion stretch inserts for excellent lever control and dexterity
- Short cuff design with hook-and-loop cuff closure for easy entry
- Cuff is designed to fit under sleeve jacket for comfort
- The following standards apply to this product: EN13594:2015 - Level 1 KP

PPE

MEN'S ANTHEM 2™ GLOVES

- Abrasion-resistant premium grade Ax Suede™ Laredo palms are lighter than cowhide and quite supple, yet extremely durable
- Mesh backhands married to proprietary one-piece leather palms, leave no seams or stitches to get in the way, while still providing necessary reinforcement
- D3O® knuckle inserts offer low profile, ergonomic protection and increased durability without adding bulk, ensuring soft and flexible shock-absorbing knuckles that combine comfort with impact protection
- Touchscreen-enabled fingertips for your hand-held devices
- Neoprene cuffs and hook-and-loop closures at wrist for a secure fit
- Tested and certified according to Standard - EN 13594:2015, Level 1, KP

NOTE: Black gloves do not feature screenprinted finger logo.

ABRASION-RESISTANT GLOVE LINERS

- Tuff-n-Lite® material is ounce for ounce up to 15 times stronger than steel, but it's as soft and flexible as cotton
- Tuff-n-Lite® is created by a unique process that combines natural and synthetic fibers for almost unimaginable strength
- Tuff-n-Lite® has a core fiber that's combined with strands of other fibers that give characteristics like strength, abrasion-resistance, heat-resistance and softness
- Will not compromise when wet or exposed to ultraviolet light
- Not affected by disinfectants or common household bleaches
- Help protect against chafing and blisters while riding
- Provide insulation while riding in colder temperatures

SIZE	GRAY

UNDERWARE GLOVE LINERS

ORIGINAL, QUALIFIER OR ULTRA

- Designed to be worn inside normal cold-weather riding gloves
- Liners take the beating that palms and lower fingers usually endure from the inside of the riding gloves
- The DuPont™ Kevlar® fibers of the UnderWARE liners absorb the friction between glove and hand that would otherwise cause blisters, including the chafing and rubbing that hands normally endure while riding through the whoops or trails
- Almost no chance for blisters and the material is machine washable, right along with all the rest of the riding gear, for easy maintenance

SIZE	(A) ORIGINAL	(B) QUALIFIER	(C) ULTRA
S	3351-0005	-	-
M	-	-	3351-0012

- Original style features full fingers, and Qualifier style features open fingers
- Ultra style features waterproof material and is recommended for wet conditions where hands are moist from perspiration; material will not absorb moisture

SIZE	(A) ORIGINAL	(B) QUALIFIER	(C) ULTRA

SMX-6 v2 GORE-TEX® BOOTS

- Boot uppers incorporate innovative front, rear and calf area bellows zones
- Main upper material constructed from advanced microfiber for durability, abrasion resistance and a waterproof, highly breathable Gore-Tex® liner for all-weather performance
- Ergonomic forefoot design streamlines the boot shape for improved feel for the motorcycle controls
- High-modulus TPU injected shin guards, calf guards, shift pads and toe sliders
- Alpinestars innovative TPU lateral ankle brace protection provides a biomechanical support between the lateral top calves/shins and ankles for improved structural integrity
- Double-density ankle guards on medial side are layered under the boot uppers for improved impact resistance and durability
- Rubber compound soles for improved feel, grip, durability and water dispersion
- Air vents on heel counter and shin plate improve cooling comfort
- Integrated, replaceable bi-injected TPU toe sliders feature new easy screw-in attachment system
- Innovative insteps and Achilles accordion flex zone construction
- Internal insoles with the shank reinforcement integrated to the arch area for support and impact resistance
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook-and-loop closure
- Internal toe box protection is layered under the boot uppers for durability, improved feel and performance
- Dual-compound removable anatomical footbeds made of EVA and stretch fabric

PPE

SMX-6 v2 BOOTS

- Boot uppers incorporate an innovative front and rear bellows and rear calf zones for superior levels of flexibility
- Boot uppers are constructed from microfiber for durability and abrasion resistance
- Ergonomic forefoot streamlining enables greater control of the bike's controls and provides a superior, wide-ranging foot profile for excellent fit and comfort
- Alpinestars innovative TPU lateral ankle braces provide a biomechanical support between the lateral top calf/shin and ankle and provides improved structural integrity, protection against impact shocks, repeated abrasion resistance and flex support
- Air vents on the heel counters and shin plates plus breathable mesh inserts improve comfort and reduce fatigue on the ride (vented boot styles only)
- High modulus TPU-injected shin guards, calf protectors, heel counters, shift pads, ankle braces and toe sliders for improved shock protection and durability
- Double-density ankle protectors on the medial side, layered under the uppers, offer protective performance in key areas
- Integrated, replaceable bi-injected TPU sliders feature a new easy-screw fixing concept for quicker, easier replacement
- Innovative insteps and Achilles accordion flex zones construction for superior comfort, extension, control and support
- Internal insoles with shake reinforcement integrated for support to the arch area and foot protection
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook-and-loop closure for flexibility and a secure fit
- Aperture openings are large to promote easy in/out of the boots
- Internal toe box protection is layered under the upper for durability, improved feel and performance
- Breathable textile interior lining features anti-sliding suede reinforcement on the heel area to help keep the foot in position while riding
- Removable anatomic footbeds include EVA and stretch fabric for performance, comfort and support
- Alpinestars new, exclusive rubber compound soles promote improved feel and grip, water dispersion and durability
- The following standards apply to this product: EN13634:2017
- Available in men's sizes listed; check the Alpinestars size chart on page 491 before ordering

SP-X BOA BOOTS

- Sleek sport boot designed to fit under tech riding pants and provide superior walking capability
- Optimized for the sport and sport touring rider
- Compact, mid-height boots with premium levels of protection and comfort on and off the bike
- The upper is constructed from a combination of advanced microfiber, ultra-soft Rideknit® material and knitted mesh, plus seamless thermo-welded parts
- The lower features a TPU heel counter, toe slider, and the Alpinestars TPF Transversal Protection Frame on the sole
- Allows for high-levels of protection against impacts and any bending or twisting
- The sole also features an all-new design with an asymmetric back heel to facilitate the rider's natural stride and promote off-bike stability
- Includes an integrated shin impact protector, dual-density ankle discs, plus TPU shift pad and toe slider reinforcement
- Knitted areas on the front and back flex points offer great freedom of movement
- PU midsole with integrated double cushioned heel compound and removable OrthoLite® insock, provides great walking comfort
- In-and-out is facilitated by a medial zip combined with the BOA speed lace system for compact and precise closure
- Perfect boot for those sport riders looking for coverage and protection but without the full race boot, over-the-pant look
- The following standards apply to this product: EN13634:2017
- Available in men's sizes 38-48; see Alpinestars size guide on page 491 before ordering

SMX 1R v2 BOOTS

- Ergonomic boot shaping for forefoot streamlining which offers wide-ranging foot profile fit and comfort
- Evolved closure strap is anatomically angled to follow natural shape of rider's instep
- Front hook-and-loop closure system offers a quick and secure fit over the instep area while permitting excellent levels of flex; strap features TPR puller for ease of use
- Aramidic fiber wires ensure the new strap closure system is durable, thin and lightweight
- Alpinestars exclusive compound rubber sole with grip patterning to promote improved feel and grip, water dispersion and durability
- Sole features integrated Alpinestars TPF (Transversal Protection Frame) to protect against possible transversal loads
- Instep and Achilles' accordion flex zones are constructed from lightweight microfiber for optimized levels of durability, comfort and maneuverability on and off the bike
- Thermowelded flex grooves to control the flexion and flexibility of the shoe; instep, medial and back
- Reverse zip closure ensures convenient in-and-out
- External, high modulus TPU heel counter, lateral ankle and shift pad for improved shock protection and durability
- Main upper constructed from an advanced microfiber for comfort, durability and excellent of abrasion-resistance
- Innovative heel counter support system, which works in conjunction with a strap closure to offer improved fit and support, as well as structural integrity
- Rear of heel counter has been designed with soft TPR insert which works seamlessly with the rear flex zone to allow for improved freedom of ankle movement and comfort on the bike's controls
- Rear flex bellow is equipped with a flex window, which also acts as an air intake for effective ventilation and airflow
- Ergonomic TPU shift pad for enhanced durability in a critical area
- Double density ankle protector on both sides layered under the upper offers protective performance and abrasion-resistance in key areas
- Internal toe box protection is layered under the upper for durability, improved feel and performance
- Removable anatomic foot-bed includes EVA foam and Lycra® for comfort and support
- Internal mesh lining for cooling comfort and moisture-wicking
- Integrated, replaceable bi-injected TPU forefoot slider features new easy-screw fixing concept for quicker and easier replacement
- The following standards apply to this product: EN13634:2017

CR-X DRYSTAR® RIDING SHOES

- Advanced construction consisting of fine mesh plus seamless technology to improve the structure, with specific breathable windows for high levels of airflow and breathability
- Alpinestars Drystar® membrane layer between upper and lining for unsurpassed all-weather performance
- Vamp in mesh for enhanced comfort and breathability with a higher tongue in Nubuck microfiber for high levels of abrasion resistance
- Hook-and-loop strap combined with a traditional lacing system for a comfortable, customizable fit
- Toe box and heel counter internal reinforcements give structure, support and impact resistance
- Technical rubber band provides high levels of abrasion resistance on the toe area
- Alpinestars anatomical double density TPU ankle discs layered under the upper plus external lateral ankle protector TPR provides strategic protection in critical areas
- Replaceable anatomical EVA footbed with Lycra® lining on top for high levels of rider comfort
- Alpinestars exclusive vulcanized rubber designed for enhanced levels of comfort and grip
- The following standards apply to this product: EN:13634:2017
- Available in U.S. men's sizes 6-14; see Alpinestars size chart on page 491 before ordering

PPE

PRIMER RIDING SHOES

- Can be worn off the bike casually for off bike urban activities
- Provides excellent spongy underfoot feel for all-day comfort
- Snug fit coupled with ample inner volume creates a shoe which offers exceptional all-round foot comfort
- Flex grooves on foot front offer enhanced levels of flex while walking
- Oil resistant dual rubber compound for optimized grip on unclean/slippery surfaces
- The increased medial sole edge radius enables easy movement on the bike's pegs
- Open cell PU removable Ortholite technical insock for easy step in and enhanced comfort
- Open cell PU polyurethane compound ensures high-levels of breathability, thus reducing overheating when worn
- Nubuck leather quarters on upper for feel, stability and enhanced levels of abrasion-resistance
- Tongue has been designed to remain in position when riding for a snug, secure fit
- Asymmetric rubber layer on fore foot for additional durability in the gear shift area
- Internal EVA patch material between outer and inner materials reduces pressure on foot in the gear shift area for optimized levels of comfort
- Open cell PU foam ankle protector for additional protection
- TPU full-length plate for protection and improved foot comfort
- Outsole has an asymmetric stud configuration which provides excellent levels of grip and high-abrasion resistance
- Fore foot and rear foot bumpers for added stability, protection and durability
- The following standards apply to this product: EN 13634:2017

SPEEDFLIGHT SHOES

- The perfect shoes for short rides and commuting, while still easy to wear every day, all day long
- Constructed from a performance ripstop upper with seamless reinforcement panels and a molded, semi-rigid heel piece with injected foam
- Advanced and lightweight main chassis
- Alpinestars TPF Transversal Protection Frame midsole reinforces the shoe and is sandwiched between a dual-density rubber sole with front protective walls, a comfort layer, and the EVA durable, yet comfortable midsole with lateral stabilizers
- An asymmetric TPU heel counter for added protection and stability, plus an OrthoLite® removable insock for great breathability and all-day walking comfort are also incorporated into the sole
- The sole itself also features a more "aggressive" 10 mm drop, meaning the height difference between the rider's heel and toes, allowing for great walking comfort off the bike
- The Speedflight provides a "cradled" fit and enhances foot stability for walking comfort, as well as riding protection and confidence
- The following standards apply to this product: EN13634:2017
- Available in men's sizes 6-14; see Alpinestars size chart on page 491 before ordering

MEN'S STORMHAWK™ WATERPROOF BOOTS

- Premium leather uppers feature a water-resistant finish
- Breathable eVent waterproof liners help keep feet dry
- Highly lugged oil/slip-resistant rubber outsoles provide peak motorcycle performance
- Open-cell polyurethane insoles cushion feet
- BOA® lacing system for easy on/off and a comfortable fit
- Dual D3O® inserts provide ankle coverage
- Reinforced rubber toe-caps, reflective heel accents and shifter interface nubs
- Tested and certified to standard - EN 13634:2017

MEN'S CARGA CE™ BOOTS

- Road-ready protection in a classic, skate-inspired package
- Genuine leather upper provides real-world coverage against asphalt
- D3O® ankle inserts reduce transmitted impact forces while the oil- and slip-resistant rubber outsole ensures you stick every trick
- Reinforced shifter overlay
- Hi-rebound EVA foam insole
- Tested and certified according to standard - EN 13634:2017

RT-7 DRYSTAR® BOOTS

- Protective touring boot engineered for superior comfort on and off the bike
- Lateral side entry system with an elastic mounted zipper and a wide hook-and-loop flap for convenience and a precise, secure fit
- Drystar® membrane for proven performance in wet weather conditions
- New dynamic design shift pad in 3D print PU technology for effective upper foot protection
- Internal toe box and heel counter protection is layered under the upper for durability, improved feel and performance
- Rear puller for easy entry/exit
- Sole constructed with lightweight rubber compound for excellent grip on the pegs
- Removable anatomic EVA footbed with Lycra lining on top for comfort
- Main upper material constructed with high abrasion textile with reflective dots for enhanced flexibility
- Shin plate and medial side constructed with microfiber and textile with reflective dots for enhanced durability and abrasion resistance
- Front and rear bellow constructed with a combination of textile material and soft lightweight stretch PU for enhanced rear flexion and comfort
- Double density ankle disk protection is mounted under the leather on the lateral and medial side for impact protection in a key area
- Internal shin plate reinforcement for enhanced shin protection
- Soft PU on the lateral side provides additional lateral protection
- The following standards apply to this product: EN13634:2017
- Available in men's sizes 38-48; see Alpinestars size chart on page 491 before ordering

PPE

BELIZE DRYSTAR® BOOTS

- Black boot uppers are constructed from PU-coated leather on lower medial panels and suede leather on higher medial panels, both with heat-press texture for superior grip
- Brown boots are full-grain oiled leather construction
- Front and rear bellows are made with lightweight microfiber for more flexibility and comfort
- TPU shin plate and calf plate design offer support and resistance to impact
- TPU shift pads made with technical texture for added grip, plus foam padding on underneath for better comfort
- Wide entry apertures for convenience with two lateral buckles (shin plate and instep) for a precise and adjustable closure
- Inner TPU ankle protectors are double-density on medial side for protection
- Lateral ankle closure system includes two polymer buckles; the closure includes ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure; all buckles are replaceable
- Biomechanical lateral "flexi-blade" system provides excellent front and rear movement while offering support and protection to the ankles
- Soft poly foam surrounds the ankles and collars for comfort and shock-absorbing performance
- Drystar® membrane layer between uppers and linings for proven performance in difficult weather conditions
- Internal toe boxes and heel counter reinforcement are layered under the boot upper
- Polypropylene insoles with steel shank co-injected for excellent feel and rigid comfort and safety
- Boot height stops just under the calf to offer a sporty alternative to the traditional touring high boot design
- Alpinestars exclusive vulcanized rubber plus injected PU midsoles designed for optimal combination of comfort and grip
- Replaceable anatomical EVA footbeds with Lycra® lining on top
- The following standards apply to this product: EN 13634:2017
- Available in men's U.S. full sizes 7-12; check Alpinestars size chart on page 491 before ordering

COROZAL ADVENTURE DRYSTAR® BOOTS

- Black boot uppers are made from PU-coated leather with high suede leather medial panels for superior grip
- Brown boot uppers are full-grain oiled leather
- Front and rear boot bellows made with lightweight microfiber for increased durability and abrasion resistance
- Rear reflective inserts for improved visibility
- Extended PU-coated front leather gaiters help keep out water and dirt
- Rear gaiters have rubber insert for flexibility and comfort
- TPU shins and calf plates offer support and resistance to impacts
- Biomechanical lateral flexi-blade boot system provides excellent front and rear movement while offering support and protection to the ankles
- TPU shift pad is made with a technical texture for added grip; foam padding on bottom of the shift pad provides better comfort
- Wide entry apertures for convenience with hook-and-loop upper closure flaps that allow a wide range of adjustment for an excellent fit
- TPU double-density ankle protector on medial sides for protection
- Boot closure system includes two polymer ratchet buckles with memory feature and quick-release locking system that is self-aligning for easy, precise closure
- All boot buckles are replaceable
- Soft foam surrounds the ankles and collars for comfort and shock-absorbing performance
- Drystar® membrane layer between boot upper linings
- Toe boxes and heel counter reinforcements layered under the boot upper
- PP insoles with steel shanks are co-injected for excellent feel and safety
- Alpinestars exclusive vulcanized rubber compound for optimal comfort and grip
- Replaceable anatomical EVA footbed with Lycra® lining on top
- The following standards apply to this product: EN 13634:2017
- Available in men's U.S. full sizes 8-13; check Alpinestars size chart on page 491 before ordering

PPE

TECH 10 SUPERVENTED BOOTS

- Construction uses a highly breathable, perforated microfiber
- TPU feature is combined with ventilation zones and a new airflow system sole for breathability and superior ventilation
- Two large inlet ports on front of boot with exhausts at back for optimized levels of airflow and heat exchange
- Co-injected for strength and structure, the exclusive TPU and rubber compound panels provide superb levels of grip contact, durability and heat-resistance
- The contoured calf protector ergonomically wraps around the rear leg and is constructed from a dual density compound rear blade system to offer progressive dampening of excessive torsional forces
- Shin plate features a new anatomic design for reduced surface area and weight-saving
- Completely re-designed sole with proprietary grip sculpturing to improve footpeg performance, grip and mud and water run-off
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support
- The sole offers superior durability, grip and feel while riding, and improved performance on the shifter
- Innovative, lightweight upper combines advanced lightweight microfiber with an impact and abrasion resistant TPU shell
- The foot shell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity
- The foot shell incorporates heel and toe protection and is highly resistant against abrasion and impact while adding to the boot's overall durability
- The foot shell also includes an integrated shank for support and structural integrity
- Frontal protection features a dual closure system with an internal microfiber flap, plus hook-and-loop fasteners for a precise fit closure attached securely with a micro-adjustable, easy to operate, lightweight buckle
- The shin incorporates a unique TPU blade system engineered to prevent frontal hyperextension and offer greater flex control
- Soft microfiber gaiter helps seal out excessive water and dirt entry, while the 3D mesh lining ensures improved air circulation and comfort
- 3D mesh lining incorporates anti-sliding suede on heel area to keep the foot located inside the boot
- Highly ventilated perforated padding for optimized ventilation and airflow
- Perforated footbed for additional cooling
- The central sole insert features a micro grip and side hooking grip design
- It is easily replaceable and Alpinestars offers a full sole replacement and boot repair service
- Inner boot has a mesh construction for optimal levels of airflow
- Anatomically optimized for weight-saving and ergonomics, the new mechanical buckle closure system features a nylon and fiberglass compound for improved durability and strength
- The new slim-line buckle closure system includes high-impact bridge closures which are cold forged for precision and strength
- The buckle closure system features a memory and a quick-release/locking system with self-aligning design for easy, precise closure and improved riding performance and security
- All buckles are easily replaceable
- Air vents on the PU lateral calf plus breathable mesh insert improve comfort and reduce fatigue on short and long rides
- Alpinestars Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded polyfoam to absorb high impact energies during a crash
- New performance double pivot motion control system feature
- Medial and lateral double pivot system for improved levels of flexibility and precision control
- Engineered bi-density front flexion control is strategically positioned over the mesh area, combined with a dual front blade system and shock absorber insert to offer mechanical progressive force release to dampen and absorb impact energies
- Re-designed dual density TPU rear blade system is engineered to prevent hyperextension while offering improved flex control and impact resistance
- Evolutionary new shin plate design with ventilation windows strategically positioned to allow more ventilation without compromising the impact protection
- 3D higher spring insole creates an effective cooling system using air channels within the sole for optimal levels of ventilation, while also creating a cushioning effect for enhanced levels of comfort
- The following standards apply to this product: EN 13634: 2017
- Available in men's U.S. full sizes 7-14; see Alpinestars size chart on page 513 before ordering

TECH 10 BOOTS

- Combine dual front and rear blade connectors
- Provide a complete and seamless flexion control system, from the foot shell all the way up to the shin plate
- Engineered to 'float' freely between the lower and upper boot construction
- Asymmetrical, dual pivot arms on boot frame
- A unique feature is the ankle control system developed in the outer shell construction, allowing natural ankle movement, vertical compression control and improved impact protection
- Asymmetrical medial and lateral double pivot system for improved levels of flexibility and precision for both independent and synchronized movement
- Redesigned dual-density TPU rear blade system engineered to prevent hyperextension while offering improved flex control and impact resistance
- Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded poly-foam to absorb high impact energies during a crash
- Features lighter, anatomically redesigned medial and lateral torsion arms
- Double pivot system allows the Tech 10 to retain its integrity while flexing
- Low-profile, pull-on design for reduce material build, less weight and to facilitate easier and quicker wearing
- Innovative flexion inserts work seamlessly with new flex support system for ultimate in performance
- TPU protection and shock absorbing padding on the heel and ankles
- Constructed from a dual-density compound and combined with the rear blade system
- Energy dissipating shin plate features a new anatomic design for reduced surface area and weight-saving
- Completely redesigned sole with proprietary grip sculpturing to improve footpeg performance, grip and mud and water run-off
- Exclusive dual-compound sole is seamlessly integrated to the multi-density foot base structure with built-in support
- Slim-line buckles include high-impact bridge closures which are cold forged for precision and strength
- Closure system features contra-closure, doubling closure security and a quick release/locking system with self-aligning, memory design for easy, precise closure and improved riding performance and security
- Soles and buckles are easily replaceable
- Chassis combines advanced lightweight microfiber and impact and abrasion resistant TPU shell
- Foot shell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity
- Soft microfiber gaiter helps seal out excessive water and dirt entry
- Poly-fabric lining with 3D open cell foam incorporates anti-slip suede in heel area, keeping the foot located inside the boot
- The following standards apply to this product: EN 13634:2017
- Available in men's sizes 7-14; see Alpinestars size chart on page 513 before ordering

TECH 7 BOOTS

- Upper is constructed from a light microfiber that provides flexibility and abrasion resistance
- TPU shin-plate construction and a reinforced hook-and-loop closure offers for comfortable, highly customized fitments
- TPU blade system provides flexibility while helping prevent frontal hyperextension
- Wide entry aperture and a hook-and-loop upper closure TPR flap allows for a broad range of calf-fit adjustments for comfort and support
- Single-piece TPU panel with honeycomb sculpturing for maximum grip contact with bike and improved heat and abrasion resistance on the medial facing area
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system helps to dissipate friction
- Ergonomic buckle system offers secure and highly personalized fit
- Innovative TPU lateral ankle protection provides biomechanical link between the middle lateral and the bottom lateral of the boot
- Instep and Achilles accordion flex zones for superior support and control
- Toes protected by metal shank-reinforced TPU shell
- Microfiber gaiter helps keep out water and dirt
- Polymer buckles with aluminum frames provide self-aligning, quick-release closures for personalized fits
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement in the heel
- Shock absorbing soft poly-foam surrounds around ankles and collar
- Removable anatomic footbed
- High-grip, double-density rubber outer sole
- Replaceable sole
- The following standards apply to this product: EN 13634:2017

TECH 7 ENDURO BOOTS

- Upper is constructed from light, innovative microfiber that is flexible and abrasion resistant
- Innovative, evolutionary TPU shin plate construction for a greater range of fitment
- Shin plate features a reinforced hook-and-loop closure for a comfortable, customized fit
- Shin zone incorporates a TPU blade system engineered to prevent frontal hyperextension and offer greater flex control
- Specially designed sole provides enduro riders with superior grip, durability, feel and a high level of structural rigidity
- Wide entry aperture for convenience with a hook-and-loop upper closure with TPU flap to allow a wide range of calf fitment adjustment and support
- Medial-facing area is constructed from one-piece TPU panel with a honeycomb structure for maximum grip contact with the bike and improved heat- and abrasion-resistance
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system which dissipates the friction
- Ergonomic buckle system offers a secure and highly personalized fit
- Innovative TPU lateral ankle protection provides a biomechanical link between the middle lateral and the bottom lateral of the boot
- Instep and Achilles accordion flex zones constructed for superior control and support
- TPU lower shell is reinforced with a metal shank and includes toe reinforcement for impact and abrasion resistance
- Extended microfiber gaiter helps seal out water and dirt
- Closure system includes polymer buckles plus an aluminum frame with innovative, self-aligning quick-release closures for a custom, secure fit
- All buckles are replaceable
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement on the heel area
- Soft poly-foam surrounds the ankles and collar to offer comfort and shock-absorbing performance
- Removable anatomic footbed
- Exclusive high-grip rubber dual-density compound outer sole
- Sole is replaceable

BOLD MAGENTA part numbers are new for 2024

TECH 5 BOOTS

- Upper constructed from innovative and lightweight microfiber material with action leather on toe box
- Redesigned instep and Achilles accordion flex zones
- Contoured TPU calf protector plate, TPU higher medial protector and TPU outer lateral ankle
- Injected TPU shin plate connected with the TPU medial protector panel
- Hook-and-loop upper closure and TPR flap for broad-ranging calf fit adjustment and support
- TPU higher medial protector is designed with technical texture for improved grip
- Biomechanical pivot
- Ergonomic TPU triple buckle straps
- Incorporates innovative one-piece TPU injected dual-compound foot shell, reinforced by a metal shank inside and co-injected toe reinforcement
- TPU heel patch connected with shell and lateral/medial TPU sections
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry
- Soft poly foam surrounds the ankles and collar
- Full inner textile lining
- Closure system includes four polymer buckles with an innovative closure system that includes a ratchet with memory and a quick-release/locking system with self-aligning design for precise closure; all buckles are replaceable
- Replaceable anatomic EVA footbed with textile lining on top
- Exclusive high-grip rubber compound outsole
- Sole is replaceable
- The following standards apply to this product: EN 13634:2017
- Available in men's sizes listed; see Alpinestars size chart on page 513 before ordering

TECH 3 BOOTS

- Upper boot is made from innovative, lightweight microfiber material that is flexible and lightweight
- Light microfiber on front and rear bellows for more comfort in flexible areas
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf plate, TPU higher medial plate, TPU outer lateral ankle guard and TPU heel counter provide support and resistance to impacts
- Rear TPU gaiter patch applied on the top of the TPU calf protector for added impact resistance and comfort on the rear flex zone
- Injected TPU shin plate connected to the TPU medial panel
- Hook-and-loop upper boot closure with TPR flap for a custom fit and support
- TPU higher medial guard is designed with a technical texture for improved grip
- Biomechanical medial blade system allows a good front/rear flex to provide support and impact resistance to the ankle
- Ergonomic TPU triple buckle straps wrap harmoniously from the front flex medial protector to the lateral side without compromising the flex of the boot
- Closure system includes three polymer buckles with ratchet memory and a quick-release/locking system with self-aligning design for easy, precise closure; buckles are replaceable
- Innovative one-piece TPU injected dual-compound foot shell is reinforced with a metal shank inside an injected toe reinforcement
- Soft foam surrounds the ankle and boot collar for comfort and shock-absorbing performance
- Boot lining is textile for added comfort
- Replaceable EVA footbed with a textile lining on top
- Exclusive high-grip rubber sole compound replaceable outsole
- The following standards apply to this product: EN 13634:2017
- See Alpinestars size charts on page 513 before ordering

TECH 3 ENDURO BOOTS

- Boot upper construction is an innovative, lightweight microfiber material that is flexible and abrasion-resistant
- Light microfiber on front and rear bellows provides a more comfortable flex area
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf guard, TPU higher medial guard, TPU outer lateral ankle guard and TPU heel counter for support and resistance to impacts
- Rear TPU gaiter patch applied on the top of the TPU calf protector for comfort and impact resistance on the rear flex area
- Injected TPU shin plate is connected with the TPU medial guard panel
- Hook-and-loop upper boot closure with TR flap that provides a wide range of fit and support
- TPU higher medial protector designed with technical texturing for improved grip
- Biomechanical medial blade system allows good front/rear boot flex and added support and impact resistance for the ankle
- Ergonomic TPU triple buckle straps wrap smoothly from the front flex and medial guard to the lateral side of the boot without compromising the boot's flexibility
- Closure system uses three polymer buckles with ratchet closure, buckle memory system and quick-release/ locking system with a self-aligning design
- All boot buckles are replaceable
- One-piece TPU injected dual-compound foot shell is reinforced by a metal shank inside a co-injected toe reinforcement
- Soft foam surrounds the ankles and boot collar for comfort and shock-absorbing performance
- Entire boot is textile lined for comfort
- Replaceable EVA footbed with textile top lining
- Alpinestars all-terrain sole design with high-grip rubber compounds; sole is replaceable
- The following standards apply to this product: EN 13634:2017

TECH-T BOOTS

- Upper constructed from a combination of full-grain leather and innovative microfiber for durability and abrasion resistance
- Extended front and rear accordion stretch zones for improved flex, control and support
- Double-density TPU ankle protector disks are layered under the upper and backed by polyfoam padding
- Ergonomically contoured shin plate is injected with high-modulus TPU for high-level impact and abrasion resistance
- Wide entry aperture for convenience with hook-and-loop upper closure TPR flap to allow broad-ranging calf fit adjustment and support
- 3D mesh textile with open cell foam for improved air circulation and comfort
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry
- Soft polyfoam reinforcement on ankles and collar for long-lasting comfort and shock absorption
- Three-buckle closure system with memory, featuring an integrated quick-release/locking system closure
- Buckles are injected with high-impact-resistant techno polymer
- Internal toe box and heel counter protection is layered under the upper for durability
- Leather shift pad for abrasion resistance and structural protection
- Polymer insole with integrated steel shank reinforcement for structure and support to the arch area
- Exclusive compound rubber sole with high grip, rough terrain design
- Outsole is replaceable
- Replaceable anatomic footbed for comfort and support ensures even weight distribution
- The following standards apply to this product: EN 13634:2017
- See Alpinestars size chart on page 513 before ordering

STELLA TECH 3 BOOTS

- Specially engineered calf shape for women
- PU-reinforced microfiber upper for flexibility, abrasion resistance, water resistance and light weight
- Material ensures a consistent fit and is easy to clean
- Contoured shin plate is injected with a high-modulus TPU for impact and abrasion resistance
- Medial facing side has a TPU panel with specially designed sculpting for maximum grip contact with the bike and improved heat resistance
- One-piece injected dual-compound foot shell with coinjected hard-to-guard and integrated steel shank
- Shell is highly resistant to abrasions and impacts and adds to the streamlined shape of the boot
- External flexion with low-profile medial and lateral pivot system for excellent movement and support
- Instep and Achilles accordion flex zones constructed for superior control and support
- Extended microfiber gaiter helps seal out water and dirt
- Soft polyfoam surrounds the ankle and boot collar for long-lasting comfort and shock absorption
- Internal mesh textile lining for comfort and support
- Ergonomic buckle system offers secure, highly personalized closure; buckles are replaceable
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight savings
- Buckle system features memory and quick-release/locking system with a self-aligning design for easy, precise closure
- Removable anatomic footbed for comfort and support
- Compound sole is seamlessly integrated into the base structure of the boot for superior durability; rubber soles have a high-performing grip pattern
- The following standards apply to this product: EN 13634:2017

RADIAL BOOTS

- Pre-curved injection molded components throughout
- Radial hinge component adds structure and reduces overextension
- Injection-molded, positive-lock buckle system
- Adjustable straps allow for a custom and secure fit
- Injection-molded medial-abrasion plate with integrated shift protection
- Fully synthetic calf overlays deliver premium durability and optimal grip
- Low-profile toe box for unhindered shifting
- Unidirectional outsole with steel shank for rigidity
- Replaceable outsole inserts for extended wear
- Mesh liner promotes airflow while interior EVA panels enhance comfort
- Tested and certified to standard EN 13634: 2017

QUALIFIER BOOTS

- Chassis is constructed with polyurethane-coated synthetic leather that is abrasion-resistant and flexible
- Reinforced TPU shin, ankle and foot plates are engineered to improve stability without sacrificing mobility
- Low-profile compact lower toe box improves brake feel and ability to shift
- Integrated internal lace loop system secures foot and increases ankle stability
- Heavyweight suede leather inner calf guard improves abrasion and heat resistance
- Rigid steel shank reinforced sole eliminates flex and provides superior foot support
- Polyurethane plastic closure strap with metal buckle is adjustable and secure
- Internal soft EVA foam reinforced in impact areas improves comfort
- Multi-layer synthetic rubber outsole is long lasting and provides superior grip
- Polyester inner lining wicks moisture
- Tested and certified according to European standard EN 13634:2017

TECH 7S BOOTS

- Specifically designed and sized for junior and/or smaller framed riders
- PU-reinforced microfiber upper for flexibility, abrasion-resistance, water-resistance and weight-saving
- Material ensures consistent fit and is easy to maintain and clean
- Contoured shin plate is injected with high-modulus TPU for excellent levels of impact- and abrasion-resistance
- Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat- and abrasion-resistance
- One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank
- Shell is highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining
- Excellent flexion provided by low-profile medial and lateral pivot system to offer movement and support
- Instep and Achilles accordion flex zones constructed for superior control and support
- Extended microfiber gaiter helps seal out excessive water and dirt entry
- Compound sole is seamlessly integrated into the base structure for superior durability, high-performing rubber grip patterning, and feel
- Sole is replaceable
- Soft poly foam reinforcement on ankles and collar for long-lasting comfort and shock absorption
- Removable anatomic footbed for comfort and support ensures even weight distribution
- 3D mesh textile with open cell foam for improved air circulation and comfort
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving
- Buckle system features memory and a quick release/ locking system with self-aligning design for easy, precise closure and improved riding performance and security
- All buckles are easily replaceable
- The following standards apply to this product: EN 13634:2017
- See Alpinestars size chart on page 513 before ordering

VECTOR ELBOW PROTECTORS

- Two-part construction permits the elbow to bend effortlessly while preventing the protector from slipping down the arm when riding
- Slipping is further prevented by the wider top elastic strap, which ensures the protector remains correctly positioned on the arm
- Lightweight elbow protector is constructed from a laminated rip-stop PE foam and poly-mesh for superior breathability and airflow
- Ergonomic, integrated Nucleon Flex Plus Technology protectors are strategically positioned to provide maximum protection in the knee area
- Comfort liner prevents material bunching to ensure a snug fit while providing a soft-feel contact against the skin
- Snug design offers a firm compression fit and soft tissue support for all styles of riding
- Additional thermoformed inner and outer side padding for additional coverage
- Hook-and-loop top and bottom elastic straps help keep the protector in place for effective protection
- Silicone printing on the inner liner also prevents the protector being displaced while riding
- Highly abrasion-resistant textile over the front panel for durability
- The following standards apply to this product, elbow protector – EN 1621-1:2012 Level 1

SIZE	BLACK/ANTHRACITE/RED

CHARGER PRO BACKPACK

- Aerodynamically-shaped, semi-rigid backpack
- Thermoformed front panel is semi-rigid for strength and aerodynamically sculpted to provide minimal drag when riding
- Front panel has a smooth surface fabric construction for additional aerodynamic performance and features a polyurethane-coated pattern embossed polyester for durability
- Durable textured main body fabric utilizes a Jaquard-weave 440 g polyester with TPE back coating for exceptional durability
- Clamshell main compartment opening with inner gusset for ease of use
- Single auto-lock slider zipper on main compartment for a secure closure
- Expandable allowing users to increase the capacity of the backpack by approximately 4,5 L
- Adjustable harness allows riders to adapt it to their torso length for a personalized fit, thus ensuring stability and comfort
- Harness has been designed to be used with one hand, and features a quick-release magnetic center buckle for quick and easy use
- The lower strap has quick-release buckles, making it easy for riders to remove the backpack
- Removable waist belt allows riders to adapt the bag to their personal riding requirements
- When worn, belt offers greater stability; when removed it allows greater freedom of movement
- Equipped with a small pocket at top of the main compartment for storage of essentials, with removable waist belt pockets for additional storage options
- A padded laptop pocket with a closure strap, individual organizer pockets plus additional mesh pockets allow riders to quickly and easily sort and store items
- Built-in helmet carrier with color-keyed anchor point allows riders to easily and securely carry a helmet without fear of dropping it
- Includes rain cover for wet weather performance
- Reflective piping
- Designed to accommodate an Alpinestars Nucleon KR-CELLi medium size back protector

DESCRIPTION	BLACK
Charger pro backpack	3517-0499

ROVER MULTI BACKPACK

- Multi-use adventure touring backpack complete with ergonomic design for rider comfort with a robust material construction for durability, while the external access and compartments make this suitable for commuting and everyday use
- Adjustable harness system for fit, comfort and load stability
- Large and tall roll top main compartment for quick and easy access, with a removable waterproof liner
- Compression lid for security and easier packing
- Hydration pocket for rider comfort
- Expandable side pods with zippers for extra capacity
- Equipped with multiple external pockets for quick access in town
- Front large zipper pocket, side entry front panel pocket and small items pocket on the lid for storage of essential items
- Clever compression design means that if the front compartment is empty, it will flatten with the compression straps to lay flat against the main compartment
- All straps are finished with easy pull ends for ease of use, with the down loops for added security
- 32,4 L capacity

DESCRIPTION	BLACK
Rover multi backpack	3517-0477

CITY HUNTER BACKPACKS

- Multi-material outer shell is a combination of lightweight 420D nylon and 420D ripstop nylon to reinforce the bottom
- Approximately 25 L capacity
- Two external waterproof pockets on front
- Computer compartment with full length zip featuring 38 cm (15") laptop fleece sleeve
- Large main compartment with internal organizer featuring a smartphone fleece sleeve
- Built-in helmet carrier
- Rain cover stored in its pocket in the main compartment
- Ergonomic shoulder belts with perforated foam padding and mesh panels for an optimized airflow, adjustable and removable sternum strap and the Alpinestars quick-release system for a fast and secure adjustment that prevents the extra webbing from flapping
- Ergonomic 15 mm back padding preventing pressure on the spine; ventilation channels for an optimized air-flow

- Removable waist strap featuring the Alpinestars quick-release system for a fast, secure adjustment
- YKK® semi auto-locking zippers for a secure closure
- Reflective details on the front and shoulder belts to improve rider's visibility in varying light conditions

AMP-7 BACKPACK

- Technical backpack designed for carrying all your important gear, keeping it safe, dry, and secure, both on and off the bike
- Includes a packable waist strap, chest strap with a magnetic buckle to help distribute the pack's load when worn as well as conveniently open and close one-handed with gloves, back panel comfort pads, quick access front pocket, quick access external rain cover, internal zippered mesh pockets, adjustable position removable inner pouch, and a separate padded laptop compartment
- Features an overall capacity of 22L
- Constructed from a tech fabric with structured, padded walls and lower body reinforcements to help maintain the bag's shape, as well as full, long zippered openings for easy and wide access
- Whether partially filled or completely packed, four compression straps that add extra security to the closure, stabilize the internal load, and allow the backpack to fit as comfortably and closely to the body as possible, while keeping the bag as aerodynamic as possible
- The two main shoulder straps are ergonomically shaped and padded with ventilated air holes to allow it to breathe well and fit comfortably for those long trips
- There are three convenient grab handles, to easily grab and to provide functional large anchor points to strap the bag down to the motorcycle for easier transportation

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Basic Health and Safety Requirements of Regulation (EU) 2016/425.

EC TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425 (non-motorcycle articles, e.g., Watercraft articles)

ECE 22.05

This logo symbolizes that a helmet has been tested and certified to ECE 22.05 Regulation.

ECE 22.06

This logo symbolizes that a helmet has been tested and certified to ECE 22.06 Regulation.

SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security products) standards for theft prevention.

CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES, France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventive value and the better it protects against theft.

We Support The Sport®!

We are the #1 resource for powersports products. We support our dealers, vendors and fans at races, rallies, special events and showcases.
