ON THE COVER

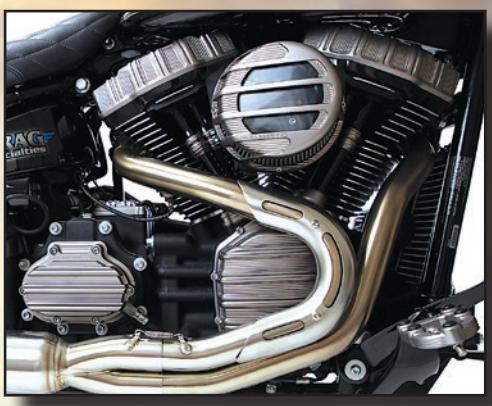
The 2021 Drag Specialties FatBook Bike is designed and built by Cory Ness of Arlen Ness Enterprises in Dublin, California. Ness is a well-known figure in the motorcycle industry for his bike builds and skill in designing and engineering innovative motorcycle accessories.

"It was a neat opportunity," says Ness. "Arlen Ness is celebrating the 50th year of being in business, and had not done a Drag bike in a while. So when Tom called and offered the chance to build a bike, we took on the challenge of working with a newer Softail model." A 2019 FLSB Sport Glide was the bike of choice. "I liked the look of the bike, especially the stock bags. That was the main reason I selected this model. But I wanted to give the bike more of a classic Dyna-ish look."

Ness enjoys the challenge of building a bike for Drag Specialties. "Drag is fun to work with, as they have something of a 'no rules' philosophy," he says. "You get a lot of freedom to design what you want." Ness incorporated a selection of parts from his own company's lineup and complemented them with products from other top vendors that are found in the Drag Specialties FatBook.

"It is a fun way to design and bring a bike together," he says.

The first change was lowering the bags on the bike. Not much, just an inch or



Painter: Brian @ Mazz Custom Paint, Glendale Arizona

two, but this made a big difference. “It was a real nice result. It gave the bike a more high-performance look. Then we added Russ Wernimont Long Shot rear fender, a LePera Kickflip seat and a Legends Suspensions Air-A rear suspension kit to complete the change. I am really happy with the result,” Ness says.

The bike features a number of Ness parts: the engine and transmission covers, the air cleaner assembly, the mirrors and footpegs. All these parts feature the new Titanium finish. They are complemented with additional quality items sourced from the Drag Specialties FatBook. Among the choices Ness decided on are an all-new design Vance & Hines stainless-steel high output exhaust system, Vance & Hines Fuelpak, Legends Suspensions AEXO43 front fork kit and a Custom Dynamics ProBeam LED headlamp add to the bike’s impressive looks and performance.

Another key change was the wheels. Ness installed a set of their new Y-Spoke Titanium-finish wheels. “These are the newest, lightest wheels in the lineup,” Cory says. “The Titanium finish on the billet is a really clean, fresh look.” The wheels are wrapped with Metzeler Cruisetec tires. Arlen Ness brake calipers rotors complete the custom wheel setup.

Ness said the paint scheme is clean and classy. “It has blue, which calls out to Drag Specialties,” Cory says. “And additional colors that tie in to the titanium finishes on our parts. It really stands out; it will grab your attention when you walk by. I am really happy with how the final build and paint came together.”

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL, AND REGULATORY INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

Whether your bike has conventional forks (tins) or a Springer front end, once installed, Trigger-Lock mounts let you remove or change Memphis Shades Fats/Slims/Sportshield windshields in a moment's time.

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES FATS/SLIM WINDSHIELDS

- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors, or black E-coated plates, bolts and anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately

[3] Fats shield not recommended for V-Rod models.
[5] Relocation kit for turn signals included.
[6] Requires relocation kit PART #2020-1190.
[8] Requires turn signal relocation kit PART #2020-1922.

PART #	DESCRIPTION
2020-1190	Headlight relocation kit for 15-20 XG 500, 750 (except 17-20 XGA)
2001-2292	Headlight extension kit for for 20 FLXRS

PART #	DESCRIPTION
2001-2293	Headlight ring/shroud kit for for 20 FLXRS
2020-1922	Turn signal relocation kit for 16-20 XL 1200X Forty-Eight (17)

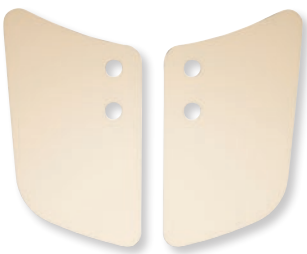
SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact – Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Fit Road King, Fat Boy, Heritage and Memphis Fats windshields using injection-molded glass-filled nylon clamps in place of the billet aluminum clamps (can be mounted along with Hot Wing)
- Sold in pairs

PART #	DESCRIPTION
2350-0200	Side Wings

HOT WING

- Boost airstream upward – Venturi action speeds up the airstream while smoothing the flow – without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Uses lightweight, economical injection-molded glass-filled nylon clamps; fits Memphis Fats windshields or similar windshields that measure 3 mm or 4,5 mm thick (includes inserts for both sizes)



PART #	DESCRIPTION
2350-0199	Memphis Hot Wing

Clear

Solar

CUSTOM LOWERS

- Provide additional protection by extending your coverage downward
- Shield rider from rain, wind and noise coming up from the road
- Made of the same high-quality materials as Memphis Shades windshields with matching tints
- Available in clear, black and solar (a light tint with 72% visible light transmission)
- Must purchase Lowers mounting kits; see pages 12-13
- May require turn signal relocation
- Measure 20,5 cm H x 12,5 – 14 cm W (8" H x 5 – 5 1/2" W)
- Sold in pairs

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES SPORTSHIELD WINDSHIELDS

- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors, or black E-coated plates, bolts and anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately

- Designed to be looked over, the spoiler windshield diffuses the airstream, effectively slowing the flow without buffeting
- Made of aircraft-grade Lucite® for excellent optics and durability
- Available in smoke (a medium-bronze tint with 30% visible light transmission), dark smoke, black opaque and Ghost (a light-black tint with 85% visible light transmission) for a custom style and adaptability to any riding conditions
- Uses OEM hardware for a perfect fit

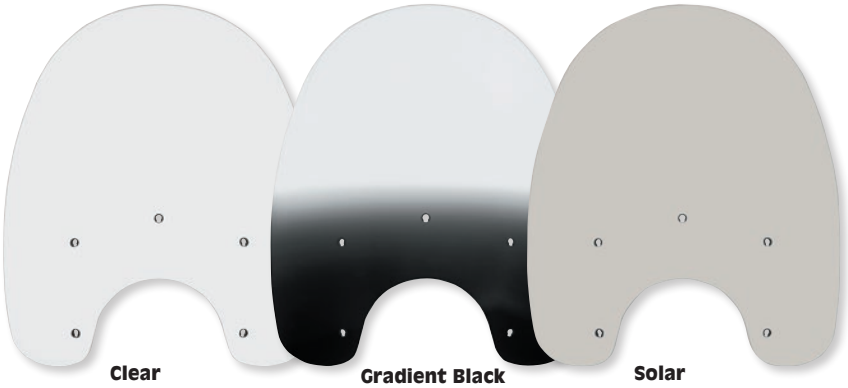
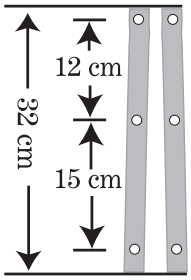
REPLACEMENT PLASTIC FOR HARLEY-DAVIDSON® WINDSHIELDS



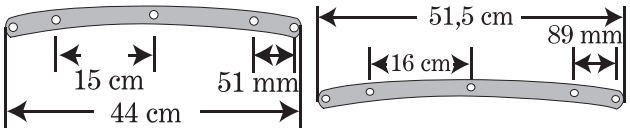
- Now riders can replace their OEM windshield with the size and color of their choice
- Available in gradient black, black smoke, dark black smoke as well as clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for seven models in up to four different heights – pick a size that's right for you
- Perfect fit with OEM hardware
- Holes are not drilled but rather machined to accept snap-in nylon inserts that prevent stress fractures and star cracks commonly seen around holes – an exclusive feature of Memphis Shades replacement plastic

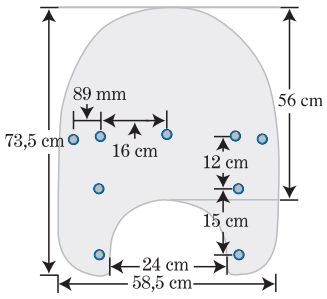


Due to variations in OEM mounting hardware, these windshields may not fit all models; be sure to check measurements before ordering.

NOTE: Measurements are approximate and measured center to center of holes on the outside of windshield.

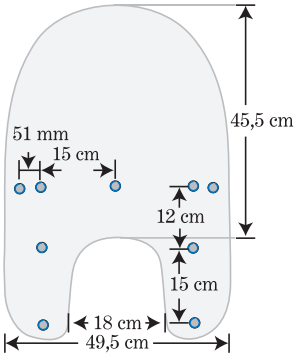
2310-0056





VERTICAL STRAPS

There is a right and left strap, although they measure the same.



HORIZONTAL STRAPS

The windshield should have one of the two straps illustrated. Straps shown for reference only.

FLARE™ WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce for stability while the "flip" at the tip directs air up and over the rider to help eliminate swirling and buffeting
- Made from unmatched durability Lexan® polycarbonate with FMR hard coating on both sides of the windshield
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare™ windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S And also under International Patents: 324093, 324094, 325192.

FLARE™ WINDSHIELDS

- Two styles available: Pro Touring and Sport
- The Pro-Touring Flare™ is a wider, more full-coverage option for riders and passengers that prefer an even greater amount of wind protection for the long haul, and is stylish enough to use around town
- The Sport Flare™ is more streamlined and offers radical curves and a sportier stance; it complements the lines of the new fairing with a more aggressive profile and adds stability and handling with improved air management
- The patented design features "hips" at the sides that re-route the wind away from riders while adding downforce to the front-end of the motorcycle to improve stability vs. riding with the stock windshield
- The "flip" at the top of the Flare™ kicks air up and over the rider creating cleaner, less turbulent air for the rider and passenger
- Wind tunnel tested and designed for maximum performance and air management
- Made of Lexan® polycarbonate with FMR hard coating on both sides of the shield for unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S. And also under International Patents: 324093, 324094, 325192.

FLARE™ BILLBOARD WINDSHIELDS

- Modeled after the original Flare™ windshield for Baggers; now almost every rider can get all of the same performance and style with bolt-on ease
- Patented Klock Werks "hips" on each side create downforce for added stability and the "flip" at the top kicks air up and over the rider for a smoother, less turbulent ride
- Wind tunnel tested and designed to create the same downforce as the original Flare™ windshield
- Computer simulations and real-world testing have resulted in multiple windshield heights to ensure a windshield size that will work for almost any rider
- Windshield heights listed are measured from the top of the headlight opening to the top of the windshield
- Pre-drilled for easy mounting using stock windshield mounting kits
- For the following applications "Detachable" refers to the old-style H-D grommet/hinge style mechanism

NOTE: All measurements given are approximate.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

Memphis SHADES MOTORCYCLE FAIRINGS & WINDSHIELDS

See chart for details

SPOILER WINDSHIELDS FOR MEMPHIS SHADES BATWING FAIRING

- Designed to be looked over, the spoiler windshield diffuses the airstream, effectively slowing the flow without buffeting
- Made of aircraft-grade Lucite® for excellent optics and durability
- Available in smoke (a medium tint with 30% visible light transmission), dark smoke and Ghost (a light-black tint with 85% visible light transmission) for a custom style and adaptability to any riding conditions; vertical portion of Ghost is optically correct with the lower portion gradient black
- Mounts with existing hardware

Trigger-lock mounts let you remove your Batwing Fairing in a moment's time or quickly change to your Memphis Fats/Slim or Sportshade windshield to instantly change the look of your bike

MEMPHIS SHADES BATWING FAIRING

- The clean aerodynamic shape and innovative mounting system easily enhances the style and comfort of your ride
- The fairing body of PART #2330-0017 measures 92,5 cm (36 1/2") wide and 43 cm (17") tall; fairing body of PART #2330-0075 measures 85 cm (33 1/2") wide and 43 cm (17") tall (excluding windshield and wind deflectors)
- Inner fairing structure is black textured ABS
- Fairing outer shell is opaque black Lucite® with a class A finish that looks great as is or can easily be painted
- No-Tool Trigger-Lock mount kits are CNC-machined and are available with E-coated polished or black aluminum and stainless steel hardware for a clean appearance that's built to last
- Trigger-Lock kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairing is predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four heights and two translucent colors and clear and solar (a light tint with 72% visible light transmission); see pages 35-36
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trims for style are also available; see page 36
- Now you can add an optional sound system to the Batwing Fairing with Hogtunes' speaker systems; see AUDIO & VIDEO section for more details

NOTE: Batwing Fairing is not compatible with any other fairing windshields, wind deflectors or accessories.

NOTE: Softail models listed that already have a Memphis Fats or Slims windshield installed can use their existing Trigger-Lock mount kit to install a Batwing Fairing, or purchase a plate-only kit (black or polished aluminum) and switch back-and-forth from Fats, Slim or Sportshield windshield to Batwing Fairing.

WHAT TO ORDER

1. BATWING FAIRING
2. TRIGGER-LOCK MOUNT KIT SPECIFIC TO BIKE MODEL; SOME SOFTAIL MODELS MAY REQUIRE A TURN SIGNAL RELOCATION KIT
3. WINDSHIELD OF YOUR PREFERENCE; HEIGHT AND COLOR OPTIONS ARE SHOWN ON NEXT PAGE

MEMPHIS SHADES BULLET FAIRING

- Bold aerodynamic shape adds custom style and increases rider comfort
- Looks like a two-piece but is actually a strong, one-piece fairing constructed of high-impact aircraft-grade Lucite®
- Provides full torso coverage to virtually eliminate wind fatigue, while allowing an unobstructed view of the countryside
- "Factory" finish looks great as is or can easily be painted to really achieve the next level of custom
- Custom fit, model-specific mounting kits feature Memphis Shades exclusive Trigger-Lock mounting system – on and off without tools; or if you already have a Memphis Fats/Slim windshield, Sportshield or Gauntlet Fairing, simply purchase a plate-only mount kit to mount the fairing

TÜV APPROVED

ABE

See chart for details

Trigger-Lock mounts let you remove your bullet fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike.

BULLET BOOSTER WING

- Virtually eliminates buffeting, generating "clean" air, a boon for passengers as well as the driver
- "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Santoprene pads grip the windshield but do not mar the surface
- Bullet Booster Wing attaches to the Bullet Fairing using glass-filled nylon biplane clamps

TOURING SPORT FAIRINGS

- Embody the aggressive cruiser style; the sweeping lines flow nicely with the motorcycle and look great with a variety of handlebar setups
- Flanking the headlight bucket are two styling pockets with great potential for further customization with lighting
- Made of high-quality, molded ABS and paired with an opaque impact-resistant acrylic windscreen for strength and durability
- Includes universal mounting kit consisting of black powdercoated, heavy-duty steel brackets
- Fits 35 mm-49 mm forks and most 14,5 cm (5,75") headlights
- Available in tall (43 cm (17")) or standard (23 cm (9")) windscreen options

PART #	DESCRIPTION
2330-0185	Tall (43 cm (17"))

PART #	DESCRIPTION
2330-0188	Standard (23 cm (9"))

OUTLAW FAIRING

- Refined style inspired by classic motorcycle heritage
- Fits most bikes with a 14,5 cm (5,75") headlight
- High-quality molded ABS paired with an opaque, impact-resistant acrylic 20,5 cm (8") windscreen for strength and durability
- Includes a universal mounting kit consisting of black powdercoated heavy-duty steel brackets
- Fits 35 mm-49 mm forks

PART #	DESCRIPTION
2330-0186	Outlaw fairing

CAFE SPORT FAIRING

- Adds style in a compact package
- Made from high-quality, molded ABS plastic
- Includes universal mounting kit consisting of black powdercoated heavy-duty steel brackets
- Fits 35 mm-49 mm forks and is made to fit most 14,5 mm (5,75") headlights

PART #	DESCRIPTION
2330-0187	Cafe sport fairing

STEALTH FAIRING SUPPORT BAR

- Allows removal of the stock engine guard and fairing support brackets
- Gives your Road Glide a super-clean custom look without sacrificing fairing rigidity
- Completely hidden inside your fairing
- Fits all fairing support applications, regardless of wheel size
- Will work in stock and raked applications
- Gloss black powder-coat finish
- Bolt-on installation, all necessary hardware included

PART #	DESCRIPTION
2330-0148	For 15-20 FLTRX/FLTRXS/FLTRU/FLTRK, 15-16 FLTRUSE

FAIRING DROP BLOCK KIT

- Allows you to drop your stock fairing a full 1.75"
- Increases your field of vision
- Gives your Road Glide a truly custom "Muscle Bagger" stance and look
- Created from a solid block of 6061-T6 aircraft aluminum
- Gloss black powdercoated finish
- Included in your kit is our patented Stealth Fairing Support Bar which hides discreetly inside your fairing

NOTE: US Patents D786,139 and 9,561,831.

SADDLEMEN
PERFORMANCE OUTFITTER

CRUIS'N DELUXE 3-POCKET WINDSHIELD BAG

- Distinctively styled windshield bag features large opening flaps for easy access to contents – keep your sunglasses or camera at your fingertips
- Leather-grained UV- and weather-resistant SaddleHyde™ bag has over 7,37 liters (450 cubic inches) of total cargo capacity in three independent pockets
- Superbly constructed bag fits snugly with the contours of the inner dash of the classic Harley-Davidson® batwing fairing
- Rigid construction holds bag shape, even when empty; quarter-turn flap releases accept mini-padlocks so you secure your belongings in the bag
- Left pocket easily snaps off to permit the mounting of a Harley-Davidson accessory or similar-brand GPS mount
- Easy installation can be completed in minutes with basic hand-tools and no modification to your motorcycle

PART #	DESCRIPTION
3508-0015	For 99-13 FLHT/FLHTC/FLHX/FLHTK/FLHTCU and H-D FL Trike w/ 10 cm (4") and taller windshield

KURYAKYN

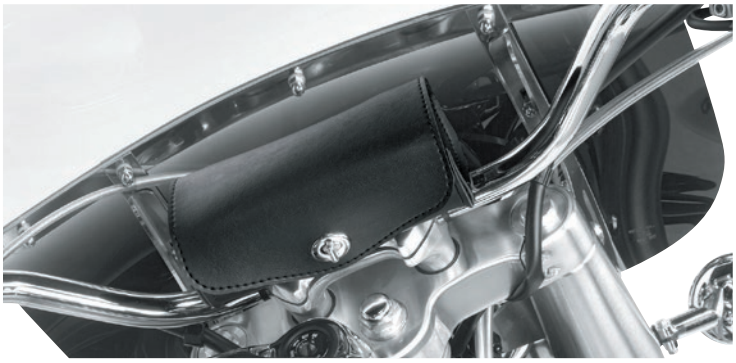
FAIRING LOWER DOOR POCKETS

- Handy pouches mount directly over the factory lower fairing panels, providing a convenient storage option to keep smaller items at your fingertips
- Clean lines with premium formed vinyl construction that retains its shape and is also UV tested
- Heavy-duty magnetic closures ensure secure storage and easy opening or closing of the top lid
- Interior mesh wall to keep items securely in place
- Perfect match to the Batwing Fairing Pouch, PART #3508-0050, sold separately
- Sold in pairs

PART #	DESCRIPTION
3508-0054	For 14-20 FLHTK/L/SE, 16-20 FLTRU, 15-16 FLTRUSE, 14-20 FLHTCUTG, and 15-20 FLHXSE

All part numbers in BLUE are new for 2021.

DUAL POUCH WINDSHIELD BAG



- Designed to fit a 89 mm (3 1/2") or taller fairing windshield
- Easy to install by loosening the screws that hold the windshield between the inner and outer fairing
- The windshield bag is supported by a plastic back with alignment notches designed to fit around the windshield retaining screws
- Hook-and-loop closure with an electronics port integrated into the bag
- Constructed out of durable synthetic leather
- 54 cm L x 57 mm W x 16,5 cm H (21 1/4" L x 2 1/4" W x 6 1/2" H)

PART #	DESCRIPTION
3508-0027	For 99-13 FLHT, FLHX and H-D FL Trike models

REVOLUTION UNIVERSAL HANDLEBAR BAG

- Black synthetic leather
- Ideal for quick and easy storage
- Includes a high-quality chrome quarter-turn fastener
- Will fit all handlebars
- 19 cm L x 10 cm W x 76 mm H (7 1/2" L x 4" W x 3" H)

PART #	DESCRIPTION
3507-0009	Revolution handlebar bag

REVOLUTION WINDSHIELD BAG

- Black synthetic leather
- Mounts to the chrome strap on your windshield
- Makes for a handy storage place
- 26,5 cm L x 64 mm W x 15 cm H (10 1/2" L x 2 1/2" W x 6" H)

PART #	DESCRIPTION
3508-0009	Revolution windshield bag

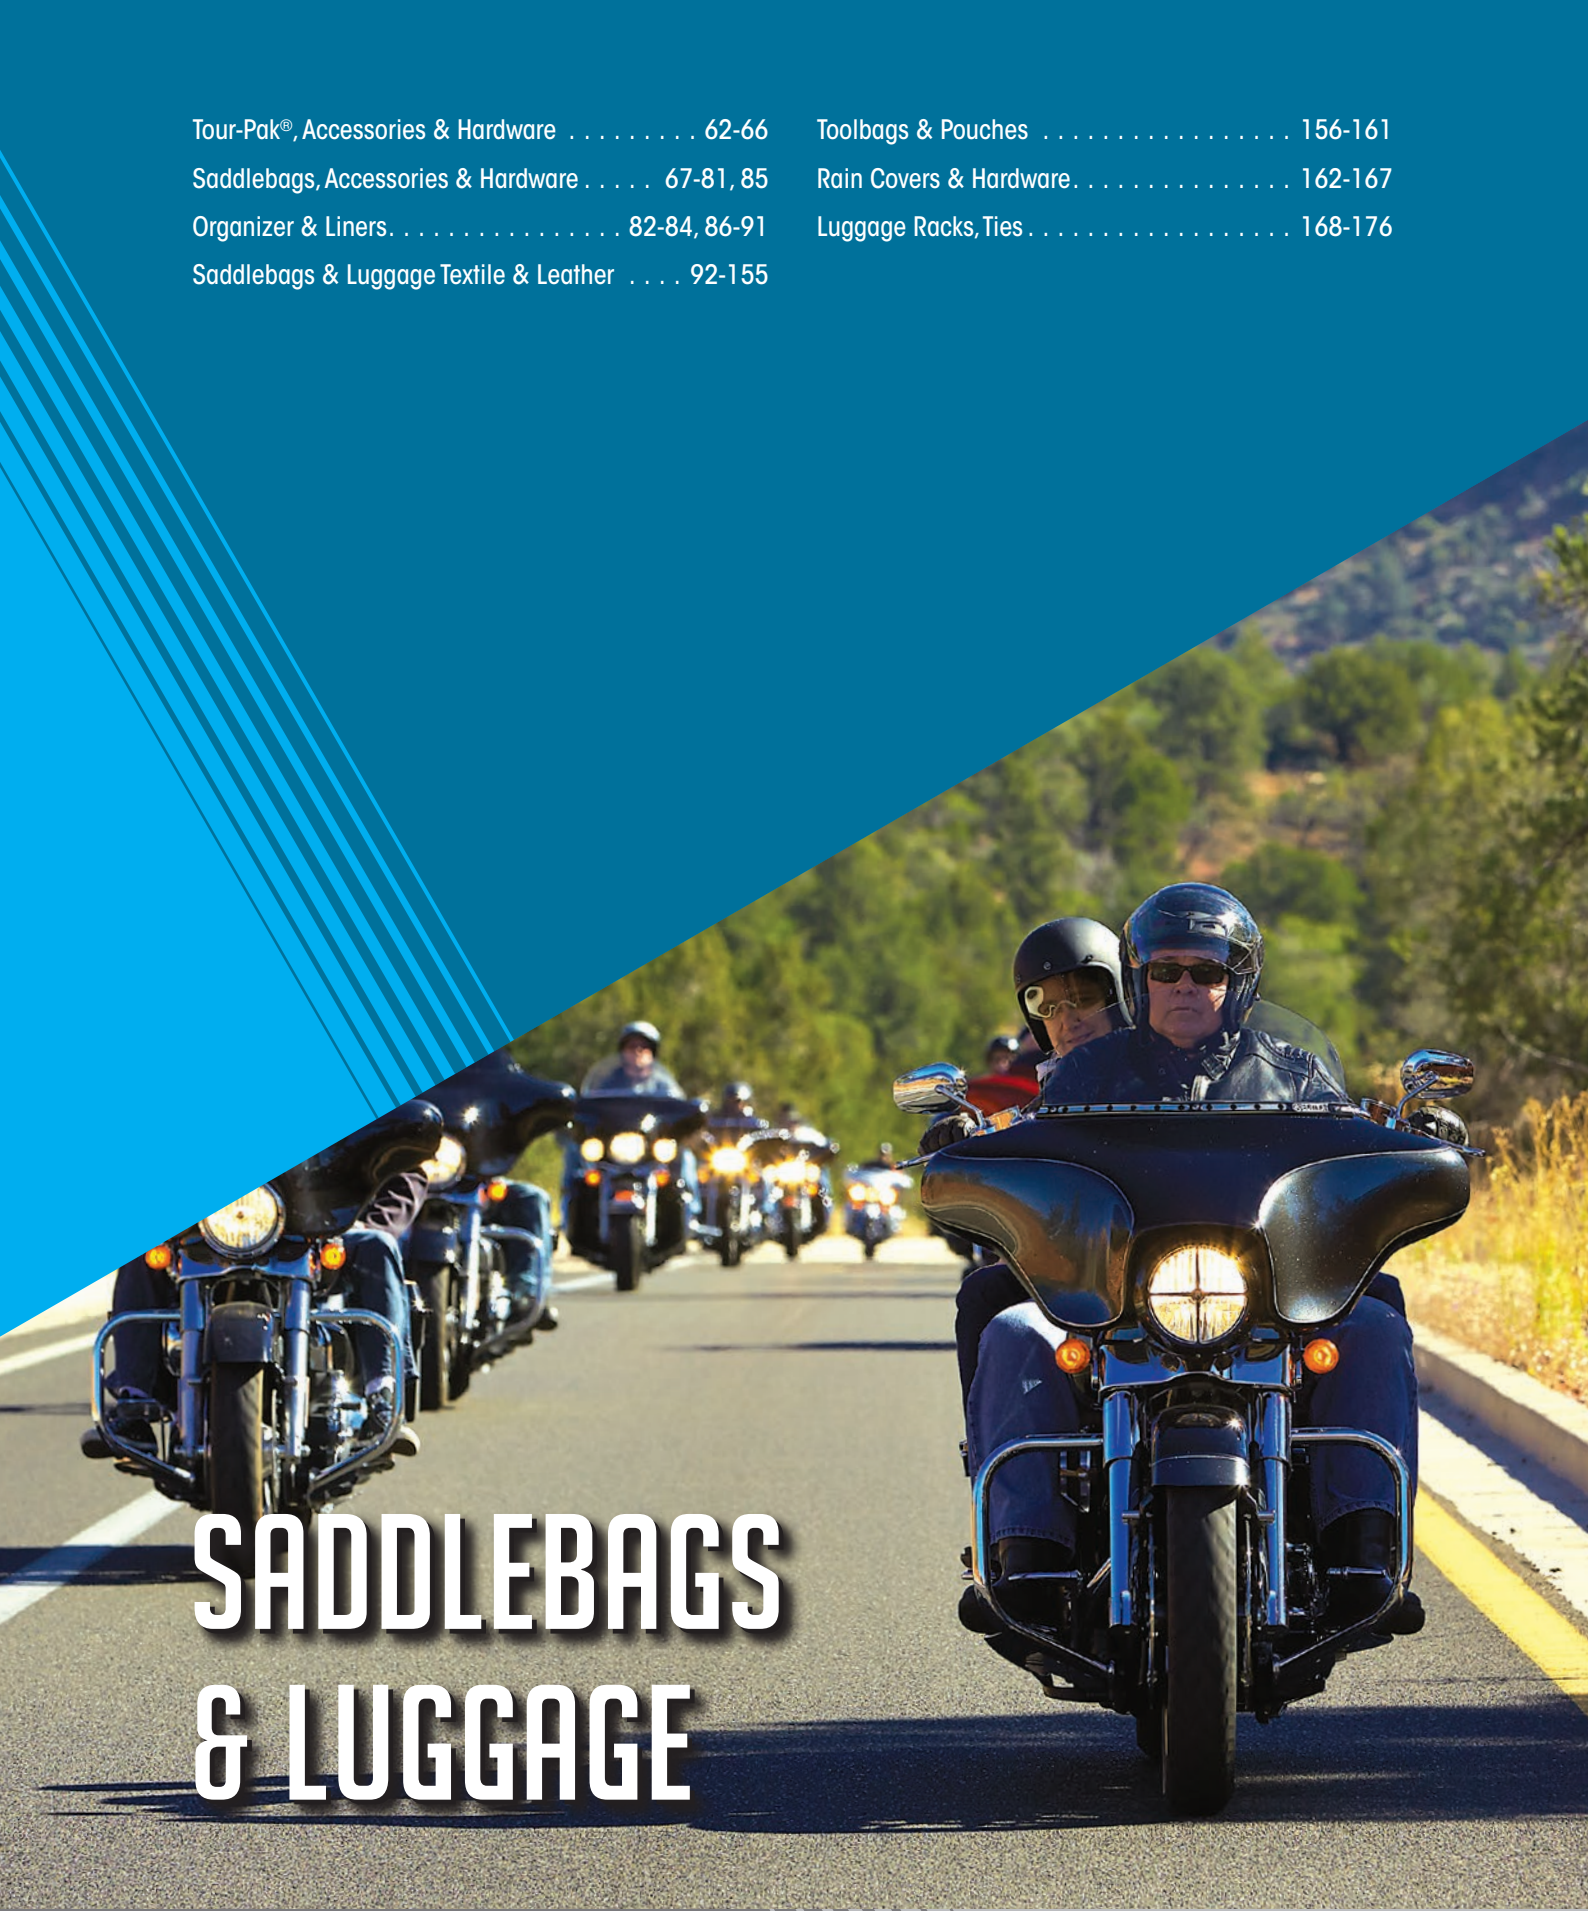
TAKE-ALONG WINDSHIELD BAG

- Black synthetic leather construction
- Great for holding cell phones, keys, garage door opener, sunglasses, etc.
- Feature a quick-detach mounting system
- Take the bag along to safely keep your possessions with you at all times
- Easily mounts to most windshields that have a horizontal support strap

- Include accessory/shoulder strap
- Large measures 26,5 cm L x 76 mm W x 14 cm H (10 1/2" L x 3" W x 5 1/2" H)

PART #	DESCRIPTION
3508-0008	Large

HANDLEBAR/WINDSHIELD POUCH



- Black synthetic leather pouch mounts to any handlebar
- Can also be mounted on the windshield with "peel-and-stick" hook-and-loop fastener, also included
- Wipe clean with damp cloth; never need lotions or cream
- 19 cm L x 64 mm W x 10 cm H (7 1/2" x 2 1/2" x 4")

BAGSTER SADDLEBAG MOUNT

- Allows the installation of 99-13 H-D FLT/FLHT standard hard bags onto your Sportster
- Made of high-quality steel and available in black powdercoated finish

U.S. Patent #7,278,560.b2

NOTE: Bags must be purchased separately.

NOTE: Will work with fixed or detachable sissy bar side plates.

NOTE: Requires turn signals to be relocated.

NOTE: Will not work with some axle covers.

PART #	DESCRIPTION
3501-0733	For 04-07 XL, 08-13 883, 883C, 883R, 1200C, 1200R, 1200L, 1200T

3501-0780

3501-0776

SumaX

SADDLEBAG MOUNT BRACKETS

- One-piece steel construction and have Dzus® clips for quick 1/4 turn bag detachment
- Softail brackets mount at two locations: on fender rails and behind the rear passenger pegs; relocation of rear turn signals for lid clearance may be required on some models
- Dyna brackets mount easily to the fender rails and shock stud; models with rear turn signals located on fender rails will require relocation of signals
- Sportster brackets mount easily to the fender rails and shock stud; rear turn signals must be relocated
- High-gloss powdercoat finish
- Designed for use with 99-13 FLT/FLHT/FLHR style saddlebags

NOTE: If bike is lowered to where the rear axle/nut is above the bracket, axle/nut may contact and damage saddlebags.

PART #	DESCRIPTION
3501-0776	For 94-20 XL w/ conventional taillight/license plate mount

All part numbers in BLUE are new for 2021.

SADDLEMEN™
PERFORMANCE OUTFITTER

TOUR-PAK® LUGGAGE BAG

- Handsome, rugged luggage bag is designed to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's other bagger accessories
- High-quality 600D construction
- Multiple storage and organizer sections with a full-side main compartment opening so you have easy access to your stuff even when the luggage bag is in the Tour-Pak
- Special shape accommodates Tour-Pak with molded liners, light housings and radio antennas
- Sturdy grip handle for convenient carrying – included shoulder strap allows you to carry with ease
- Fully lined with full-circumference, sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift your luggage bag out of the Tour-Pak to move your cargo easily into the hotel, campground or to unload fast once you're home
- Measures 57 cm x 19 cm x 38 cm (22 1/2" x 7 1/2" x 15")

PART #	DESCRIPTION
3516-0121	For 99-13 FLHT/FLHX/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

TOUR-PAK® SOFT LINER BAG

- Standard soft tour pack liner bag is contoured to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's Saddlebag Packing Cube Liner Sets
- Unique design stores flat when empty and features a full side lid opening so you have easy access to your stuff even when the bag is in the Tour-Pak
- Special shape and construction accommodates Tour-Paks with molded liners, light housings and radio antennas
- Made from durable 150D logo-stamped fabric with sturdy zippers that permit over-packing while keeping the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift your liner bag out of the Tour-Pak to move your cargo easily into the hotel, campground or to unload fast once you're home
- Measures 57 cm x 19 cm x 38 cm (22 1/2" x 7 1/2" x 15")

SADDLEMEN™ PERFORMANCE OUTFITTER

TOUR-PAK® LID ORGANIZER

- Trim, functional organizer fits snugly to the inner lid of a classic 99-13 Harley-Davidson® Tour-Pak
- Organize your trip packing and maximize your cargo space using the organizer's nine separate storage pockets
- A variety of elastic bands keep your flashlight, tire gauge and other gear in place, but easily accessible
- Easily installs to the lid by attaching to the rack fasteners or with the included self-adhesive hook-and-loop fastener tape strips
- Installation can be completed in minutes with no modification to your motorcycle
- Removes in seconds so you can use the convenient carrying handle to take your belongings into the hotel or your home at the ride's end
- Rugged construction will last a lifetime with its 600D and 150D polyester materials
- Measures 51,5 cm x 35,5 cm x 25 mm (20 1/4" x 14" x 1")

PART #	DESCRIPTION
3516-0123	For 99-13 FLHT/FLHX/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

SADDLEBAG PACKING CUBE LINER SETS

- Four-piece liner set includes one full-size liner bag matched perfectly to the shape of FLD-style hard saddlebag plus one vertically oriented half-size liner used in conjunction with two quarter-sized horizontally oriented liner bags that stack neatly together in your other saddlebag
- Unique design permits efficient organization of your belongings – separate your laundry or keep rider and passenger gear divided while maximizing the capacity of your saddlebags
- Top sections of the quarter-sized liner bags are transparent with double-pull zippers so you can see the contents and get to them quickly – perfect for items you need to grab when you're on the road
- Made from light, durable PVC-lined 150D polyester with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters, organizing your tools or cleaning supplies; simply lift your liners out of the saddlebags to move your cargo easily into the hotel, campground or to unload fast once home
- Complete set measurements: large liner measures 40,5 cm x 13,5 cm x 24 cm (16" x 5 1/4" x 9 1/2"), medium liner measures 19 cm x 14 cm x 26,5 cm (7 1/2" x 5 1/2" x 10 1/2"), smaller liner measures 19 cm x 14 cm x 11,5 cm (7 1/2" x 5 1/2" x 4 1/2")

FTB2500/FTB3600 SPORT SISSY BAR AND COMBO BAGS

- A sharp collection of motorcycle luggage from Saddlemen; the FTB line features a bold, yet sporty look with an array of vital features bundled with superb construction and class-leading value pricing
- Sissy bar bag mounting is simple and quick, using Saddlemen's adjustable backrest sleeve that conforms to the width of your sissy bar or pad, and its shape or taper
- Mounting is secure, when using a sissy bar bag or just a rack or seat, with the four hold-down straps included with each bag
- Rugged 1200D SaddleTuff™ fabric cover construction with a matte finish, marine-grade vinyl accent panels and stylish black-chrome emblems
- FTB2500 and FTB3600 have the same knife-sharp styling and organizing features as the smaller bags, but with more capacity
- Mid-size side compartments easily hold extra cargo
- Each bag includes a specialized top storage bag that clips on and off in seconds
- Equipped with the same highly functional gull-wing style access flaps as our Sport Trunk and Rack Bag, these top bags expand your cargo capacity by a huge margin
- If the weather gets wet, use the supplied high-visibility, light-reflective rain cover to protect the bag and its contents
- FTB2500 dimensions: Main bag measures 35,5 cm W x 28 cm H x 24 cm D (14" x 11" x 9½") excluding pockets; 47 cm W x 28 cm H x 24 cm D (18½" x 11" x 9½") including pockets; top bag measures 45,5 cm W x 20,5 cm H x 20,5 cm D (18" x 8" x 8"); capacity 9,1 kg (20 lb)
- FTB3600 dimensions: Main bag measures 40,5 cm W x 42 cm H x 24 cm D (16" x 16½" x 9½") excluding pockets; top bag measures 54,5 cm W x 42 cm H x 27,5 cm D (21½" x 16½" x 10¾") including pockets; top bag measures 49,5 cm W x 23 cm H x 24 cm D (19½" x 9" x 9½"); capacity 11,3 kg (25 lb)

SADDLEMEN PERFORMANCE OUTFITTER

SISSY BAR BAGS

- Whether it is a day ride or a weekender, Saddlemen's sissy bar bags go the distance
- Built to last with oversized hardware, riveted straps/handle and lots of space to pack it full for your journey
- Main cargo component flap opens fully with solid tethered sides for easy loading
- Adjustable shelf allows you to organize your bag for easy access
- Works with or without a rack with the newly designed adjustable mounting sleeve that adapts to the shape and width of your bike's sissy bar
- Heavy-duty leather tech construction
- EVA-molded organizer that stores phone and other valuables safely
- Multiple oversized mounting rings around the bag overcome unique mounting challenges
- Honeycomb rigid luggage shell maintains its shape regardless of cargo load, yet it is lightweight to reduce the impact on your motorcycle
- Strong nylon meshing zipper teeth with chrome sliders equipped with large pulls for easy use with a gloved hand
- High-visibility reflective rain cover with locking cinch cord included
- PART #3515-0171 includes top roll bag for extra cargo capacity; top cargo straps mount roll bag, strap down jacket or rain gear
- CD3600 with roll bag measures 15 cm W x 25 cm H x 41,5 cm D (6" x 9,75" x 16,25"); roll bag 33,5 cm W x 23 cm H x 20,5 cm D (13,25" x 9" x 8")
- CD1750 measures 28 cm W x 28 cm H x 36 cm D (11" x 11" x 14,25")
- CD1700 measures 35,5 cm W x 28 cm H x 28 cm D (14" x 11" x 11")

NOTE: Dimensions are for the main body; side and front pockets add an extra 64 mm (2,5") to each side.

Internal Quarter Turn Locking Fastener

Internal Quarter Turn Locking Fastener disconnected

Support Bracket Kit w/ docking posts and turn signal relocation bracket

S4 RIGID-MOUNT QUICK-DETACH SLANT SADDLEBAGS

- A truly portable luggage system, handles included; available in Drifter and Desperado styles
- Designed for heavier loads and maximum durability
- Specially built to fit bike perfectly; molded plastic frame slips over posts directly mounted to the fender struts
- Remove saddlebags easily by releasing two QTL (Quarter Turn Locking) pins found inside each bag
- Lockable, quick-release hidden buckles under each strap are easy to use; protect contents and prevent unauthorized removal of bags from bike
- Includes a chromed metal support that fits behind each bag for extra strength and security (also easily removed when bags are not to be used for an extended period)
- Inner stiffeners and rigid back maintain bag shape, even when empty
- Drifter features smooth, clean and uncluttered styling with three leather straps and buckles
- Desperado features chrome studs and three leather straps with buckles
- All necessary hardware, including turn signal relocators if needed, and instructions are included
- Made of water-resistant materials; clean easily with a damp cloth, or for best results use Saddlemen's saddlebag cleaner and conditioner, available separately
- Custom designed to fit exact models; bolt directly to motorcycle using saddlebag quick-disconnect mounting system (sold separately; see page 163)

NOTE: Some models will require the relocation of the license plate mount.

NOTE: Turn signal relocation required on some Harley-Davidson® applications; universal relocation kit is included.

NOTE: Matching seats available; see SEATS & SISSY BARS section.

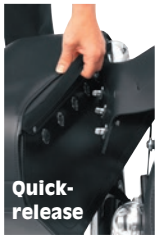
SADDLEMEN™
PERFORMANCE OUTFITTER

SADDLEMEN EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle. The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets (sold separately) are strongly recommended, see page 163

Custom fit



Custom fit

CRUIS'N™ SLANT SADDLEBAGS

- Smooth, clean-styled saddlebags available in Throw-Over and Custom-Fit styles
- Made of a durable combination of materials including weather-resistant SaddleHyde™ and a tough plastic frame
- All feature easy-open lid with lockable twist-locks and supplemental hook-and-loop and rigid construction
- Extra-strong plastic back works perfectly with the S4 Quick-Disconnect Mounting System (sold separately; see page 163)
- S4 saddlebag support brackets (sold separately) are strongly recommended

NOTE: Matching seats available; see SEATS & SISSY BARS section.

Throw-over

SADDLEMEN EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle. The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets (sold separately) are strongly recommended, see page 163

COBRA USA

SADDLEBAG SUPPORTS

- Take necessary precautions and properly support your saddlebags with these chrome-steel supports
- Prevent spoke-chewed luggage
- Attach to existing hard mounts on the bike for quick installation
- Made of sturdy steel
- Bent to fit each bike model and then polished and chrome-plated
- Sold in pairs

NOTE: Not compatible with OEM detachable sissy bar/luggage rack.

3501-0625

PART #	DESCRIPTION
3501-0622	For 00-17 FLST, 02-10 FXST models (except FXSTD/FLSTC/N)
3501-0886	For 13-17 FXSB models

PART #	DESCRIPTION
3501-0625	For 04-20 XL models (except 883N/1200N/1200X/1200V/1200CX)

All part numbers in BLUE are new for 2021.

Internal quarter turn locking fastener

Quarter turn locking fastener disconnected

SADDLEMEN
PERFORMANCE OUTFITTER

S4 QUICK-DISCONNECT SADDLEBAG MOUNTING KITS

- Designed to attach/detach all Saddlemen saddlebags and any rigid-back aftermarket and OEM saddlebags with a twist of the QTL (Quarter Turn Locking) fasteners
- Complete kit includes docking posts and fasteners, turn signal relocator and support bracket
- For specific applications, components are also sold individually; see descriptions below
- Docking posts and fasteners replace fender strut bolts and allow you to put on or take off saddlebags with a quick twist of the QTL (Quarter Turn Locking) fasteners; includes four docking posts with fasteners, spacers, saddlebag grommets, support clips, nuts/bolts/fasteners needed and instructions
- Docking post kit should be used in conjunction with Saddlemen saddlebag support bracket; can be used to mount OEM Harley-Davidson® and Harley-Davidson accessory saddlebags (except 1200S bags) without purchase of additional bracket
- Support bracket kit includes two chrome-plated steel saddlebag supports and comes with an assortment of $^{5}/_{16}$" and $^{3}/_{8}$" fasteners in lengths to fit the most popular H-D models and aftermarket accessories
- Two types of turn signal relocation kits available: universal kit moves rear turn signals to the license plate mount and specific-fit kits relocate stock turn signals further back by extending the chrome fender rail

COMPLETE QUICK-DISCONNECT KIT

PART #	DESCRIPTION
3501-0344	For 00-17 FXST/FLST (except FXSTD)
3501-0343	For 99-17 Dyna, 99-08 Dyna Wide Glide (except 13-17 FXDB)
3501-0342	For 94-20 XL (except 883N/1200N/NS/X/XS/V/CX)

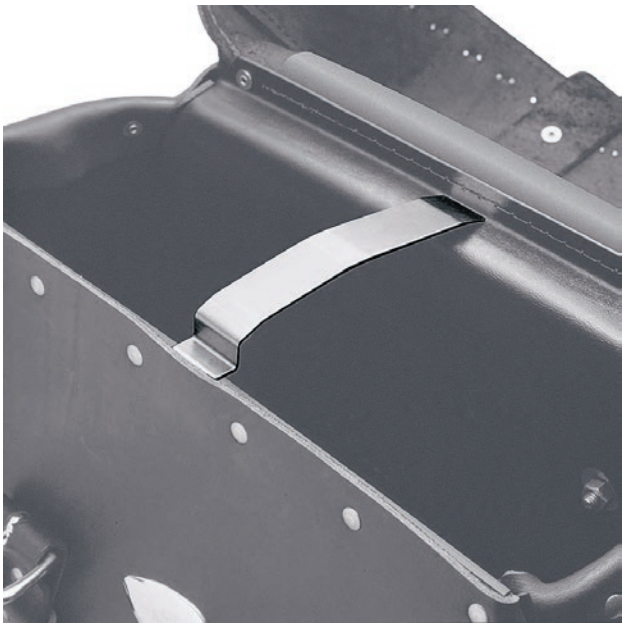
SADDLEBAG FASTENERS

- Posi-Lock™ Soft Fasteners keep saddlebags in place
- Designed not to fail, they are a great anti-theft and quick release for 99-20 Harley FLH/FLT models
- U-Clip Nuts prevent using a wrench or pliers to remove the fastener from outside the saddlebag
- Comfortable 38 mm (1½") black rosette knobs make attachment easy and ensure installed saddlebags stay in place to avoid unwanted loss, yet can be removed quickly when not desired
- Sold as a set of 4, perfect for a pair of saddlebags



PART #	DESCRIPTION
2404-0668	For 99-20 H-D hard saddlebags

PRO PERFORMANCE PRODUCTS

"BAG BAR" SADDLEBAG LID SUPPORTS

VANTAGE LUGGAGE RACKS

- CNC-machined from extruded billet aluminum
- Custom extruded aluminum tubes hold the rails in place with blind screws from below, enhancing its clean design
- Mounting feet are also bottom-mounted with threaded studs that eliminate the need to weld
- Spacing of the feet is designed to match most existing tubular racks, making the Vantage Rack an easy update on almost any Harley
- Includes special angled stainless steel leg washers that properly secure the feet to the trunk lid and minimize the pressure that causes trunk lid cracking
- Designed to clear the OEM spoiler
- Available in either bright chrome or anodized black finish

LARGE TOURING SEATS THAT ACCEPT FRAME-MOUNTED BACKRESTS

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- The driver area is cut narrow in the front and is approximately 25 mm (1") lower than the stock seat
- Molded polyurethane foam for maximum comfort and styling
- 5 mm ($^3/_{16}$") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Accepts driver backrest receiver mechanism and backrest assembly (sold separately)
- Also works with H-D® OEM frame-mounted backrest mechanism and backrest pad
- Includes all mounting hardware

DRAG Specialties seats

LOW-PROFILE TOURING SEATS WITH FORWARD-POSITIONING AND EZ GLIDE II™ BACKREST OPTION

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- 5 mm ($^3/_{16}$") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Driver area is cut narrow in the front to help eliminate pressure on the inner thighs
- Seat has the EZ Glide II™ backrest mounting system for driver only and accepts backrest pad assemblies (sold separately)
- Seat moves rider forward 51 mm (2") compared to stock seat; this may vary depending on model and year
- Includes all mounting hardware

SADDLEMEN PERFORMANCE OUTFITTER

EXTENDED REACH HEATED ROAD SOFA SEATS

0801-1190

0801-1044

- Available in lattice stitch (LS) and carbon-fiber (CF) styles
- LS seats infuse old-school lattice stitch retro styling with a modern twist
- CF seats feature silver stitching and the legendary carbon-fiber look while providing comfort and stability
- Extended Reach design extends the driver's seating area a full 51 mm (2") from the stock seating position
- Two-level heat adjustment that connects easily to the bike's electrical system
- Independently controlled heating elements for the rider and passenger
- Brightly colored LEDs indicate the level of heat
- Seat's styling and function is unaffected by switches or wiring
- Refined split-cushion design separates the seating surface from the lumbar support to reduce tailbone/back pressure for maximum long-range comfort
- Features a combination of progressive-density foam and GelCore™ inserts for superior driver and passenger comfort
- LS seats have a perforated, ventilated leather cover for the ultimate in luxurious comfort, feel and looks
- Protective rain cover included with LS seats
- Passenger pillion area has received special attention for comfort and to allow a clear view of the road ahead
- Available with or without driver's backrest

GELCORE TECHNOLOGY

PROFILER BW SEATS

- Features narrow styling, a thin profile and low riding height
- Design drops the rider down into the bike for the lowest riding position possible, while maintaining a high standard of comfort and support
- Unique blend of variable-density foam and GelCore™ technology eases tailbone pressure and improves circulation
- Whisper-grain, basket-weave cover
- Basket-weave material on driver's seat provides more breathability and extra grip if needed
- Basket-weave is sewn into the side of the tail section to accent the low seat styling and profile

SADDLEMEN
PERFORMANCE OUTFITTER

DOMINATOR SEATS AND PILLION PADS WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and a modern style
- Seats using Saddlemen's Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable SaddleHyde™ that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- The matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 339 for matching Saddlemen Dominator detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Dominator sissy bar pads.

DOMINATOR LOW SOLO SEAT

- Hybrid seat design combines a GelCore™ interior and ProFoam channel design to provide Harley-Davidson® riders with unparalleled comfort, control and a modern style
- Low, wide and comfortable with carefully designed contours and a frame-hugging profile
- Gel Channel™ (GC) relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and durable SaddleHyde™ with gray stitching holds up to hard use while still retaining the seat's good looks
- Easy to install; optional pillion pads include additional mounting hardware as needed

GEL CORE TECHNOLOGY

LARIAT SOLO SEAT AND PILLION PAD WITH BACKREST OPTION

- The Lariat solo seat is covered in genuine distressed brown leather, so it is as close to having a true western horse saddle as you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Seat pans are engineered from Saddlemen's award-winning Heels Down Renegade solo-seat family, so the fit is perfect
- Like a Heels Down, each Lariat seat is specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Progressive density foam and GelCore™ technology ease tailbone pressure for better circulation and comfort
- Seat contains the internal hardware to accept an optional matching driver's backrest; backrest is sold separately
- Covered with the same special leather as the seats, the optional driver's backrest adds superb lumbar support with position adjustment for excellent riding comfort
- The optional driver's backrest installs in seconds without using tools
- Matching, optional leather-covered pillion pads also feature gel to aid in passenger comfort; pillion pads are sold separately

NOTE: See page 339 for matching Saddlemen Lariat detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Lariat sissy bar pads.

GELCORE TECHNOLOGY

RENEGADE SOLO SEATS AND PILLION PADS WITH BACKREST OPTION

- Comfortable touring-style solo seats are wide and low for superior style and comfort
- Supple leather-grade SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks
- This stitch-top cover provides initial pushiness and a custom appearance while the progressive density foam and GelCore™ foundation offers supportive comfort for hours on end
- Some available with a row of chrome studs that follow the seats contour for an added splash of style
- The nose area of the seat was sculpted so it works well with the varied dash styles used on Touring models
- The seat interacts properly with the fuel tank, regardless of the length or width Harley-Davidson® dash mounted to the tank
- Some models offer removable/adjustable driver's backrest; vertical adjustments made via spring detent in backrest bar and horizontal adjustments (fore-aft) made with a thumbscrew
- Solo seats and pillions feature GelCore for additional comfort
- Two pillion styles: narrow and low Sport profile or wide Touring to match passenger or styling preferences
- Matching optional driver's backrest to complete custom look (available as noted) mounts in seconds, no tools necessary
- The driver's backrest can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance

NOTE: See page 366 for matching Saddlemen Renegade sissy bar pads.

SADDLEMEN PERFORMANCE OUTFITTER

GELCORE TECHNOLOGY

S3 SUPER SLAMMED SOLO SEAT

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover for a rich, custom look
- Offers excellent comfort with a classic feel and are weather-resistant for low-maintenance ownership
- The progressive-density foam with a top GelCore™ layer offers a surprising amount of supportive comfort for a slammed solo seat
- Gel-coated, marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install, just like the bike's original seat; includes additional mounting hardware as needed

FOR DRESSER/TOURING

ONE-PIECE HEATED TOURING SEATS

- Mustang's one-piece touring design provides the rider and passenger with the fullest, most comfortable seat possible
- Dual-zone high/low heat settings for driver and passenger right on the side of the seat
- Illuminated switches
- Does not require any OEM controllers or switches to function
- Seat pan is constructed with extra-rugged, triple-layered fiberglass
- Wire harness hooks to accessory port in front of battery; seat has power only when the ignition key is turned on and accessory toggle switch below the handlebars is flipped up
- Baseplate open in the middle to accept a Mustang or stock H-D driver backrest kit
- 43 cm W (17") front bucket, 35,5 cm W (14") rear seat
- Seat will fit with a handrail

NOTE: Installation on 14-20 FL Touring requires use of H-D adapter 69200722 or 69201599, depending on the year. If the accessory port is already in use, install H-D adapter 70264-94A or 70270-04, depending on the year, to add additional ports. Seat will fit with handrail. All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced-reach, extended-reach or low seat, these comparisons may not apply.

SADDLEMEN™
PERFORMANCE OUTFITTER

GELCORE TECHNOLOGY

DOMINATOR SOLO SEATS AND PILLION PADS WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and modern style
- Seats using Saddlemen's Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for longer time
- In addition to pressure relief, the GC-style center of the seat provides an air flow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- The GelCore technology in both driver and passenger portions reduces engine vibration by 50% and dampens road shock by up to 90%
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- Matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- Matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 339 for matching Saddlemen Dominator detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Dominator sissy bar pads.

SADDLEMEN™
PERFORMANCE OUTFITTER

GELCORE TECHNOLOGY

LARIAT SOLO SEATS AND PILLION PADS WITH BACKREST OPTION

- The Lariat solo seat is covered in genuine distressed brown leather; it is as close to having a true western horse saddle you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Seat pans are engineered from Saddlemen's award-winning Heels Down Renegade solo seat family, so the fit is perfect
- Like a Heels Down, each Lariat seat is specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Progressive-density foam and GelCore™ technology reduce engine vibration by 50% and dampen road shock by up to 90%
- Seat contains the internal hardware to accept an optional matching driver's backrest; backrest is sold separately
- Covered with the same special leather as the seats, the optional driver's backrest adds superb lumbar support with position adjustment for excellent riding comfort
- The optional driver's backrest installs in seconds without using tools (sold separately)
- Matching, optional leather-covered pillion pads also feature gel to aid in passenger comfort; pillion pads are sold separately

NOTE: See page 339 for matching Saddlemen Lariat detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Lariat sissy bar pads.

GELCORE TECHNOLOGY

RENEGADE™ SOLO SEATS AND PILLION PADS

- Comfortable touring-style solo seats are wide and low for superior style and comfort
- Solo seats and pillions feature GelCore™ technology scientifically engineered to dampen, divert and deflect up to 90% of the energy from road shock
- Two pillion styles: narrow and low Sport profile or wide Touring to match passenger or styling preferences

NOTE: Matching luggage available; see SADDLEBAGS & LUGGAGE section.

NOTE: See page 366 for matching Saddlemen Renegade sissy bar pads.

S3 SUPER SLAMMED SOLO SEATS

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover
- Offers excellent comfort with a classic feel and is weather-resistant for low-maintenance ownership
- The progressive-density foam foundation offers a surprising amount of supportive comfort for a slammed solo seat
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install, just like the bike's original seat; includes additional mounting hardware as needed

NOTE: See page 339 for matching Saddlemen S3 detachable pillion pads.

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- Lower profile with molded polyurethane foam interior for maximum comfort and styling
- 5 mm (3/16") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Approximate 15 cm (6") high step for additional support
- Includes all mounting hardware

NOTE: Seats mount to the center mount hole on the rear fender. Certain models and 06-08 years may not have the center mount hole. If your model year does not have the center mount hole in the fender, you will need to drill your fender and install the nut kit that is included with the seat.

PART #	DESCRIPTION
FOR 06-17 FLD/FXD/FXDWG	
0803-0440	2-up seat

DOMINATOR SOLO SEATS AND PILLION PAD WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and modern style
- Seats using Saddlemen's Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for a longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding

- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- The matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 339 for matching Saddlemen Dominator detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Dominator sissy bar pads.

SADDLEMEN PERFORMANCE OUTFITTER

RENEGADE LARIAT SOLO SEAT WITH BACKREST OPTION AND PILLION PAD

- The Lariat solo seat is covered in genuine distressed brown leather, so it is as close to having a true western horse saddle as you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Seat pans are engineered from Saddlemen's award-winning Heels Down Renegade solo seat family, so the fit is perfect
- Like a Heels Down, each Lariat seat is specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- Seat contains the internal hardware to accept an optional matching driver's backrest; backrest is sold separately

- Covered with the same special leather as the seats, the optional driver's backrest adds superb lumbar support with position adjustment for excellent riding comfort
- The optional driver's backrest installs in seconds without using tools
- Matching, optional leather covered pillion pad also features gel to aid in passenger comfort; pillion pad is sold separately

NOTE: See page 339 for matching Saddlemen Lariat detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Lariat sissy bar pads.

GELCORE TECHNOLOGY

S3 SUPER SLAMMED SOLO SEATS

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover
- Both cover types offer excellent comfort with a classic feel and are weather-resistant for low-maintenance ownership
- The progressive density foam foundation offers a surprising amount of supportive comfort for a slammed solo seat

PART #	DESCRIPTION

SADDLEMEN PERFORMANCE OUTFITTER

DOMINATOR SEATS WITH BACKREST OPTION AND PILLION PADS

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and modern style
- Seats using Saddlemen's Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for a longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed

PART #	DESCRIPTION
FOR 04-20 XL W/ 17 LITER (4,5 US GALLON) TANK	
0804-0493	GC-style seat
0804-0494	GC-style pillion pad
0801-0805	Matching driver's backrest

- The matching optional driver's backrest installs in seconds without using tools, and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 339 for matching Saddlemen Dominator detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Dominator sissy bar pads.

0801-0805	Matching driver's backrest

RENEGADE LARIAT SOLO SEATS WITH BACKREST OPTION AND PILLION PAD

- The Lariat solo seat is covered in genuine distressed brown leather, so it is as close to having a true western horse saddle as you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Seat pans are engineered from Saddlemen's award-winning Heels Down Renegade solo seat family, so the fit is perfect
- Like a Heels Down, each Lariat seat is specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Solo seat and pillion pad each feature a unique blend of variable-density foam and GelCore™ technology that is the largest comfort advancement in motorcycle seating since the creation of suspension
- Seat contains the internal hardware to accept an optional matching driver's backrest; backrest is sold separately

PART #	DESCRIPTION
FOR 04-20 XL W/ 17 LITER (4,5 US GALLON) TANK	
0804-0452	Solo seat
0804-0453	Pillion pad
0822-0188	Matching leather driver's backrest

- Covered with the same special leather as the seats, the optional driver's backrest adds superb lumbar support with position adjustment for excellent riding comfort
- The driver's backrest installs in seconds without using tools
- Matching, optional leather covered pillion pads also feature gel to aid in passenger comfort; pillion pads are sold separately

NOTE: See page 339 for matching Saddlemen Lariat detachable pillion pads.

NOTE: See page 366 for matching Saddlemen Lariat sissy bar pads.

SADDLEMEN PERFORMANCE OUTFITTER

S3 SUPER SLAMMED SOLO SEATS

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover with a classic feel and is weather-resistant for low-maintenance ownership
- The progressive-density foam foundation offers a surprising amount of supportive comfort for a slammed solo seat
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install, just like the bike's original seat; includes additional mounting hardware as needed

NOTE: See page 339 for matching Saddlemen S3 detachable pillion pads.

FOR CUSTOM/RIGID

Biltwell Inc. "QUALITY COUNTS"

MIDLINE SEATS

- Heavy-duty stamped steel pan in traditional chopper shape
- Adjustable carriage bolt system on bottom makes for flexible fitment
- Molded polyurethane foam with hand-stitched black vinyl covers available in vertical tuck-n'-roll, diamond and smooth designs
- Uncovered seat also available to allow riders to customize to their liking
- Measures 33 cm L x 23,5 W (13" x 9¼")

SLIMLINE SOLO SEATS

- Same features and construction as Solo seats with a deeper side profile contour for bikes with steep backbones
- Heavy-gauge stamped steel pan with gently sloping rear kick for added support
- Stamped-in ridges on the pan increase stiffness and give the pan a clean, classic look with a matte black electroplated finish
- Covers are hand-stitched, heavy-duty black vinyl
- Foam is molded polyurethane, approximately 25 mm (1") thick
- Uncovered seat also available to allow riders to customize to their liking
- A unique carriage bolt system on the underside of the seat pan allows builders to fine-tune the location of the seat hinge and both springs
- Measures 38 cm L x 25,5 W (15" x 10")

FOR CUSTOM/RIGID

SOLO 2 SEATS

- 3 mm-thick (1/8") stamped steel pan with welded carriage bolts on nose and tail for spring and hinge mounting
- Stamped-in ridges on the pan increase stiffness and give the pan a clean, classic look with a matte black electroplate finish
- Covers are made of hand-stitched heavy-duty black vinyl and are available in three styles: tuck-n'-roll, smooth and diamond
- Foam is molded polyurethane, approximately 25 mm (1") thick
- Compared to the original Solo seat, the new Solo 2 has a shorter overall length and two more inches of kick in the tail to deepen the seating area and improve its visual flow on bikes with steep backbones
- Uncovered seat also available to allow riders to customize to their liking
- Measures 33 cm L x 29 cm W (13" x 11,5")

DRAG Specialties seats

DRIVER BACKREST KITS FOR OEM DRESSER/ TOURING SEATS

- Specially designed to work with 99-20 Dresser/Touring models (except H-D FL Trike) with OEM slotted one-piece seat
- EZ Glide receiver mechanism allows you to easily mount your choice of pad assembly (receiver mechanism and pads sold separately)
- Pad assembly includes high-quality polished and chrome-plated 184 mm (short) or 248 mm (tall) (7,25" or 9,75") detent bar with a design that provides 51 mm (2") of fore and aft adjustment
- All pads fold forward for ease of getting on and off bike
- Pad assembly options include a vinyl pillow-style to match tall pillow-style seats, and solar-reflective leather styles that match both lower profile and tall seats; solar-reflective reduces surface temperature by as much as 14 °C (25 °F) for a cooler contact, higher durability and longer life over conventional leather or vinyl

PART #	DESCRIPTION
EZ GLIDE RECEIVER MECHANISM	
0822-0163	For 99-20 Dresser/Touring models
SMALL PAD ASSEMBLY WITH STATIONARY PAD (23 CM X 13,5 CM) (9" X 5,25")	
0822-0164	Short bar, solar-reflective leather

SADDLEMEN PERFORMANCE OUTFITTER

GELCORE TECHNOLOGY

DETACHABLE PILLIONS

- One of the most comfortable, lowest profile and best looking pillions on the market
- The unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- Each pad attaches easily and securely with its limited-lifetime warranted, unique dry-installation, dual-cavity suction cup and can be removed just as easily using the built-in quick-release pull tab
- The pads' non-abrasive liner also ensures your expensive rear fender paint job is protected during attachment or removal
- 15 cm (6") pads measure 44 mm H x 15 cm W x 25,5 cm L (1 3/4" x 6" x 10")
- 18 cm (7") pads measure 44 mm H x 18 cm W x 25,5 cm L (1 3/4" x 7" x 10")
- 23 cm (9") Contoured pads measure 44 mm H x 23 cm W x 25,5 cm L (1 3/4" x 9" x 10")
- Dominator combines leading-edge styling with comfort-enhancing Gel Channel™ technology for a truly unique seat that looks and feels great
- Knuckle is engineered to brashly transform your bike with its deep, aggressive ribs that are carefully stitched into element-resistant distressed SaddleHyde™ cover
- Lariat is covered in genuine distressed brown leather; it's as close to having a true western horse saddle as you can get
- Renegade-LS is the finest, most comfortable low-profile removable pad in the world; available in black, brown or black with studs
- The S3's fit and finish matches its street-smart looks with two cover options to choose from: standard SaddleHyde and element-resistant distressed SaddleHyde cover

NOTE: Not for passenger use; for cosmetic use only.

NOTE: Pads should be installed dry; do not wet either fender or suction cups during installation.

NOTE: Not for use in hot, wet or rough conditions.

GELCORE TECHNOLOGY

SADDLEMEN PERFORMANCE OUTFITTER

3D-MOLDED GEL PAD

- 3D-molded surface for additional comfort and air channel cooling
- GelCore™ evenly distributes weight to absorb and relieve hip and tailbone pressure
- Features Gel Channel™ technology that increases blood flow and keeps the rider in the saddle longer
- Fits many larger cruisers and most touring bikes, including Harley-Davidson® Baggers, as well as larger adventure bikes

PART #	DESCRIPTION
0810-2072	3D-molded seat pad

GELCORE TECHNOLOGY

TECH MEMORY FOAM GEL PADS

- Viscoelastic GelCore™ for the ultimate in strap-on seat pad comfort
- 3D-molded process conforms quickly and comfortably to rider's anatomy, while the GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Includes exclusive air canals for increased cooling and breathability
- Center ergo channel eliminates pressure to prevent numbness and discomfort
- Comfort foam breathable top layer maximizes GelCore efficiency
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom
- Three sizes available to fit most seats

PART #	DESCRIPTION
0810-0522	Medium; 24 cm L x 20,5 cm rear width x 15 cm front width (9,5" x 8" x 6")
0810-0521	Large; 26,5 cm L x 35,5 cm rear width x 20,5 cm front width (10,5" x 14" x 8")
0810-0520	Extra large; 32 cm L x 39,5 cm rear width x 21,5 cm front width (12,5" x 15,5" x 8,5")

GELCORE TECHNOLOGY

PILLOW GEL PADS

- Button-tufted, comfortable, strap-on gel seat pad looks perfect on top of most cruisers
- Features an extra-soft layer of pillow foam on top of Saddlemen's famous GelCore™
- Viscoelastic GelCore adds riding comfort to any seat on any model
- GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom
- Three sizes available to fit most seats

PART #	DESCRIPTION
0810-0525	Medium; 24 cm L x 20,5 cm rear width x 15 cm front width (9,5" x 8" x 6")
0810-0524	Large; 26,5 cm L x 35,5 cm rear width x 20,5 cm front width (10,5" x 14" x 8")

PART #	DESCRIPTION
0810-0523	Extra large; 32 cm L x 39,5 cm rear width x 21,5 cm front width (12,5" x 15,5" x 8,5")

COMFY SADDLE™ PASSENGER SEAT PADS

- A great way to provide comfort for the passenger on long-distance rides
- Simply slip over existing passenger seat; no need to purchase a touring seat
- Fits passenger seats over 18 cm (7") wide, matches Saddlemen Desperado and Cruiser seats and fit all sizes and styles of bikes
- Adds 30,5 cm (12") to width of seat, 15 cm (6") on either side; each side measures 23 cm L x 15 cm W x 11,5 cm H (9" x 6" x 4½")

PART #	DESCRIPTION

- Instantly returns to its original shape when weight is lifted
- Bottom has a non-slip surface
- 45,5 cm L x 39,5 cm W x 25 mm thick (18" x 15,5" x 1")

PART #	DESCRIPTION
0821-1132	Comfort pad

AIRHAWK® COMFORT SEATING SYSTEM

AIRHAWK R SEAT PADS

- Center cut-out area runs from the front to the back of the cushion, creating strategic points of no contact
- Back cutaway allows for tailbone and prostate relief and has a tapered transition for increased comfort
- Re-designed cell geometry improves airflow under the rider to keep pad and rider cool
- Includes a nonskid cover and straps for securing it to the bike's seat
- Cover is constructed from a breathable space mesh with red vinyl accents
- Automatically adjusts to the shape of the rider

0807-0167

PART #	DESCRIPTION
0807-0167	Large; 35,5 cm x 35,5 cm (14" x 14")

PART #	DESCRIPTION
0807-0166	Small; 28 cm x 28 cm (11" x 11")

0807-0095

AIRHAWK® 2 COMFORT SEATING SYSTEM

AIRHAWK 2 SEAT PADS

- Unique inflatable, multiple-cell design for the ultimate in comfortable seating and vibration absorption
- Made from polyurethane and features a breathable, stretchable outer cover and a nonskid urethane base to protect your seat
- Features open-mesh side panel to allow air circulation through individual air cells, creating extra ventilation to reduce heat buildup
- Patented Shape Fitting Technology eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride

PART #	DESCRIPTION
0807-0095	Medium; 35,5 cm L x 35,5 cm W (14" x 14")
0807-0096	Small; 45,5 cm L x 30,5 cm W (18" x 12")

0807-0096

0807-0097

- Automatically adjusts to the shape of the rider
- Raises ride-height only slightly
- Securely fastens via double strap system running under seat or pillion
- Will not scratch or disfigure existing seat or pillion
- Valve for inflation, adjustment and deflation

PART #	DESCRIPTION
0807-0097	Small pillion; 28 cm L x 23 cm W (11" x 9")

All part numbers in BLUE are new for 2021.

WILDASS MOTORCYCLE AIR CUSHION

AIR SEAT CUSHIONS

- Eliminate painful pressure points and promote blood circulation by utilizing adjustable interconnected air cells which conform to the rider's shape regardless of weight or seating position
- Reduce shock and vibration to reduce lower back pain; improve air circulation under the rider to disperse heat and perspiration
- Add shock absorption to provide greater overall seat comfort
- Four size options: Smart, Saddle, Sport and Pillion
- Smart (39,5 cm W x 35,5 cm L x 51 mm H (15,5" x 14" x 2")) is a universal fit for most Harley-Davidson Dresser/Touring models; special features include a wide front-to-back cutout to reduce contact with the scrotum, prostate and tailbone; tapered front and back air cells provide optimal fit for elevated front and back seat contours and also improve leg passage
- Saddle (34 cm W x 29 cm L x 51 mm H (13,5" x 11,5" x 2") is a universal fit for smaller cruisers, sport touring, larger adventure bikes and wider pillion seats; this scaled down version of the Smart features the same wide front-to-back cutout to reduce contact all the way up the center of the cushion along with the tapered back and tailbone cutout
- Sport (32 cm W x 32 cm L x 51 mm H (12,5" x 12,5" x 2")) was designed with a 15 cm (6") front to match the narrow seat profile of most non-Touring Harley models; special features include a narrow front with tapered cells to reduce contact with the scrotum and provide easy leg passage; back cutout area reduces contact with tailbone
- Pillion (23 cm W x 29 cm L x 51 mm H (9" x 11,5" x 2")) is a universal fit for passengers on almost all motorcycles; may also be used by the rider on very short or narrow saddles; special features allow the passenger or rider to use the Pillion lengthways or sideways
- Three cushioning options: Classic, Air Gel and Lite
- Classic cushions are made with medical-grade neoprene rubber for the ultimate in comfort, elasticity and natural "butt feel" in a motorcycle seat cushion
- Air Gel features three layers of polyurethane with gel pads inserted inside each individual air cell to provide additional cushioning, shock absorption and vibration dampening; can also be used without air when the rider wishes to feel 100% "close to the bike" yet needs some additional cushioning
- Lite is made of economical, lightweight polyurethane and reduces painful pressure points, promotes blood circulation, reduces heat and moisture buildup and lowers shock and vibration better than any other low-cost comfort product

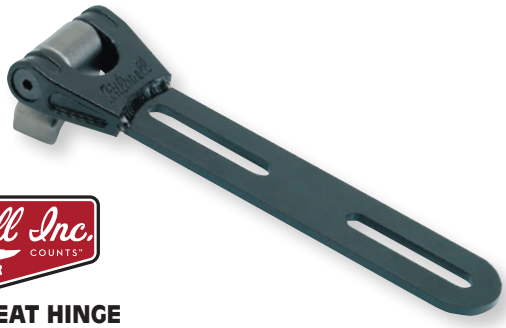
SEAT MOUNT NUT AND REPLACEMENT "E" CLIP



- Use for custom seat mounting or replacing OEM parts
- $^1/_4$"-20 die-cast nut with nylon retaining washer
- DS490044 replaces the "E" clip on DS-490045

PART #	DESCRIPTION
DS-490045	Seat mount nut (5-pk.); repl. OEM #59768-97

DS-490045

PART #	DESCRIPTION
DS490044	Repl. "E" clip (10-pk.)

Biltwell Inc. "QUALITY COUNTS"

MACHO SEAT HINGE

- The evolution of Biltwell's original 4130 chromoly seat hinge
- Second-generation welded seat bracket now features an even tougher investment-cast steel pivot head
- Retrofits to both the original welded and newer cast hinge bung so upgrades are easy
- Black electroplated finish

PART #	DESCRIPTION
0820-0045	Steel solo seat hinge

Biltwell Inc. "QUALITY COUNTS"

CAST STAINLESS STEEL SEAT HINGE

- Investment-cast stainless steel seat hinge is rugged and beautiful
- Raw-cast chromoly bung welds to the backbone of the bike's frame to create a hinge for mounting solo seats on custom choppers
- Stainless steel seat bracket bolts securely to the weld-on bung with a recessed shoulder bolt to form a hinge on finished assembly
- Hand-polished finish

PART #	DESCRIPTION
0820-0046	Cast stainless steel solo seat hinge

Biltwell Inc. "QUALITY COUNTS"

GEN 3 SEAT HINGE BUNG

- Investment-cast chromoly steel bung fits 38,1 mm (1,5") OD backbone tubes on stock and custom motorcycle frames
- Includes self-lubricating bronze pivot bushings to reduce binding, ensure tighter tolerances and provide smoother operation when paired with a Biltwell seat hinge
- Raw finish welds easily and takes spray can paint like a champ
- Mates to any generation or style of Biltwell brand seat hinge

PART #	DESCRIPTION
0820-0087	Seat hinge bung

Biltwell Inc. "QUALITY COUNTS"

CHROME SEAT HINGE REPLACEMENT BOLT

- Replacement shoulder bolt for Biltwell seat hinges is chrome-plated for added protection against the elements, and a more finished, less industrial look
- Mates to all Macho and cast stainless steel Biltwell seat hinges

PART #	DESCRIPTION
0820-0086	Repl. seat hinge bolt

LA choppers

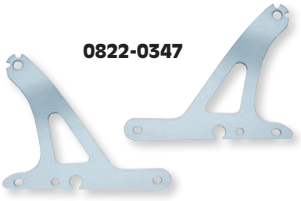
SHOW CHROME ACCESSORIES

DETACHABLE SMART MOUNT™ DRIVER BACKREST

- Unique slide lock system allows the backrest to easily detach and be removed through the seat opening; provides a true clean look when not installed
- As with all Smart Mount™ Backrests, riders enjoy 76 mm (3") of horizontal pad adjustment and 25 mm (1") of vertical pad adjustment to ensure a comfortable ride
- Design allows for additional height selection of 89 mm (3 1/2") of vertical adjustment to accommodate the numerous choices of seat heights
- Pad measures 31,4 cm x 18 cm (12 3/8" W x 7" H)

PART #	DESCRIPTION
0822-0349	For 98-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK models w/ OEM style slotted seat

0822-0257



0822-0321

KURYAKYN

MULTI-PURPOSE DRIVER AND PASSENGER BACKREST

0822-0347

- Truly multi-purpose backrest and luggage rack system provides a driver or passenger backrest along with a luggage system, which can be used in either position
- Sturdy aluminum main frame, steel folding luggage rack with rubber inserts and a comfortable, padded backrest
- Fully adjustable and extremely versatile; the back rest converts from driver to passenger without tools
- Backrest pad is adjustable via stainless sliding rods with push-button locks and knurled threaded knobs

NOTE: Backrest and mount kits are sold separately.

ROUND SISSY BARS AND SIDE PLATES

- All sissy bars are constructed from 14,3 mm ($^{9}/_{16}$") solid steel with $^{1}/_{4}$"-20 threads
- Side plates are a bolt-on design – no drilling required
- Bars are measured from the first bend to the top of the bar
- Bars and side plates sold separately
- Available in chrome or with a gloss black finish

OVAL SISSY BAR PADS

- High-quality automotive-grade vinyl cover
- PART #0822-0118 features solar-reflective leather on face of pad so pad stays cool even in direct sunlight, and automotive-quality vinyl on sides and back; patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl; matches Drag Specialties seats
- Designed to match Drag Specialties seats specifically
- Fits short, medium and tall H-D detachable sissy bars
- Measure 19 cm tall x 25,5 cm wide (7½" tall x 10" wide)

NOTE: Pads mount with OEM hardware.

NOTE: The short bar and pad may not work with the OEM tall passenger pillion seats.

FOR 99-20 FLHR/FLHT/FLHX/FLTR MODELS W/ H-D DETACHABLE SISSY BARS (EXCEPT AIR WING SISSY BAR)

RINEHART RACING

FOR DRESSER/TOURING TRUE-DUALS

SLIMLINE DUALS EXHAUST SYSTEMS

- Performance exhaust system that wraps up a blast of bottom end performance with a classic look
- Anti-reversion louvers eliminate the negative pulse from traveling back into the port, robbing the engine of horsepower
- Features 12 mm and 18 mm O_2 ports, with optimum placement for dyno tuning and proper measurement of exhaust gas concentration from port, making the engine perform efficiently
- Eliminate need for bung adapter used by other manufacturers which fail to properly place the sensor within the exhaust flow
- Header kits are the answer to riders who want to add a header system to a bike previously equipped with Rinehart racing slip-on mufflers

Tradition end cap, black

- Available with 4" or 4.5" mufflers in chrome or black with your choice of chrome or black end caps
- Header kits available separately; replacement end caps also available separately, see page 503

FOR DRESSER/TOURING

2-INTO-2

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
FOR ALL 17-20 FLHT/FLHTK/FLHR/FLHX/FLTR/FLTRX/FLTRU/FLTRK MODELS	
1800-2317	Chrome heat shields
1800-2318	Black heat shields

PART #	DESCRIPTION
FOR ALL 10-16 FLHT/FLHR/FLHX/FLTR MODELS	
1800-1489	Chrome heat shields
1800-1490	Black heat shields

BIG RADIUS EXHAUST SYSTEMS

- Big 2½" full header and muffler heat shield system is virtually blue-proof
- Dual O_2 sensor ports allow mounting of 12 mm or 18 mm sensors
- Chrome pipes feature scalloped tips for a unique look
- Black pipes are all slash-cut and feature heat shields coated with a race-quality matte black ceramic contrasted with a signature chrome badge and tips
- Include removable baffles and mounting hardware

1861-1204

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLTRX/FLTRU/FLTRK/FLHX/FLHR (EXCEPT FLHTCUTG/FLRT)	
1800-2234	Chrome
1800-2235	Black

PART #	DESCRIPTION
FOR 09-16 FLHT/FLHR/FLHX/FLTR	
1800-2143	Chrome
OPTIONAL COMPONENT	
1861-1204	Quiet baffle

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

FOR DRESSER/TOURING
2-INTO-1

SHORT ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped 1 3/4" to 1 7/8" equal length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding
- 4" tapered, megaphone-style or straight-can short muffler body; system mounts off of transmission for that truly radical short look
- System comes with 18 mm and 12 mm O_2 ports with sensors, adapters and plugs
- Includes removable baffle and billet end cap

PART #	DESCRIPTION
1800-2201	For 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK
1800-2172	For 07-16 FLHT/FLHR/FLHX/FLTR

PART #	DESCRIPTION
1800-2192	For 99-06 FLHT/FLHR/FLHX/FLTR
1860-1998	Opt. quiet baffle (ea.)

LONG ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped 1 3/4" to 1 7/8" equal length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding
- 4" tapered, megaphone-style muffler body or 4" Straight Can muffler body; system mounts off of traditional saddlebag location
- System comes with 18 mm and 12 mm O_2 ports, adapters and plugs
- Includes removable baffle and billet end cap

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTR/FLTRX/FLTRU/FLTRK	
1800-2199	Megaphone
1800-2200	Straight can

PART #	DESCRIPTION
FOR 99-16 FLHT/FLHR/FLHX/FLTR	
1800-2173	Megaphone
1800-2174	Straight can
1860-1370	Opt. DNT Baffle for PART #1800-2174

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FOR DRESSER/TOURING
2-INTO-1

1800-1283

1801-0548

ROAD RAGE II MEGA POWER 2-INTO-1 SYSTEMS

- Designed specifically to address the needs of tuned motors built for high-horsepower applications
- Headers are stepped ($1^{3}/_{4}$"-$1^{7}/_{8}$")
- For 125+ horsepower applications
- Tapered megaphone-style muffler body with 4" black billet end cap with contrasting machined flutes
- Includes full-coverage heat shields
- 12 mm and 18 mm O_2 sensor port plugs included
- Includes removable baffle
- Optional Pseudo left-side megaphone mufflers available for Bagger models for that twin-muffler look; includes matching non-functioning (no baffle) muffler with black billet end cap and contrasting flutes

PART #	DESCRIPTION
FOR 99-16 FLHT/FLHR/FLHX/FLTR	
1800-1282	Chrome, long
1800-1283	Black, long
OPTIONAL PSEUDO LEFT-SIDE MEGAPHONE MUFFLERS	
1801-0548	For 09-16 FLHT/FLHR/FLHX/FLTR (PART #1800-1282), chrome
OPTIONAL PSEUDO LEFT-SIDE MEGAPHONE MUFFLERS (CONT)	
1801-0549	For 09-16 FLHT/FLHR/FLHX/FLTR (PART #1800-1283), black
REPLACEMENT BAFFLE	
1861-0764	For PART #s 1800-1282, 1800-1283

1800-2492

1800-2493

ROAD RAGE 2-INTO-1 EXHAUST FOR HIGH-PERFORMANCE MOTORS

- Developed in conjunction with Chris Rivas to develop the right system to address M-Eight big motor builds
- Features equal-length stepped headpipes from $1^{3}/_{4}$" into 2" and then into $2^{1}/_{8}$"
- 4" muffler housing has 3" louvered removable baffle
- Includes full heat shields, billet end cap, 18 mm O_2 bung and 12 mm adapters

NOTE: Recommended for bikes with motor builds above 140 hp.

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK MODELS	
1800-2492	Chrome
FOR 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK MODELS (CONT)

SIDEWINDER 2-INTO-1 EXHAUST SYSTEMS AND SHADOW MUFFLER KITS

- Increased power and torque
- Stainless steel header construction
- High-flow catalytic converters on some applications
- Includes adapters that allow use of wide band or stock O_2 sensors
- Machined aluminum end cap
- Deep performance exhaust note
- Systems without catalytic converters include removable dB reducer included
- Optional Shadow Muffler kits fill the left-side cutout in extended saddlebags when running a Sidewinder 2:1 exhaust system
- Matched muffler body is 4,5" in diameter
- End cap is a mirror image match of the right-side 2:1 Sidewinder muffler end cap
- All necessary mounting hardware included

NOTE: No EC models.

KHROME WERKS

FOR DRESSER/TOURING
2-INTO-1

2-INTO-1 SYSTEMS WITH THREE-STEP HEADERS

- Designed to increase horsepower and torque while providing an aggressive, low-frequency sound level
- 1,75" to 1,875" to 2" high-flow 16-gauge stepped primary headers with a 2,5" collector
- 4,5" diameter, 16-gauge HP-Plus muffler with 2,5" inlet
- Removable 1,5" absorptive baffle with 3" reverse cone outlet to maximize torque; baffle is wrapped in stainless steel wool and high-temp fiberglass for a rich mellow tone
- Billet muffler tips
- 2,50", 220°, 16-gauge heat shields
- 18 mm and 12 mm O_2 bungs welded into the primaries
- Includes OEM-style muffler clamp and mounting hardware
- Tips also available separately; fit all 4,5" Khrome Werks mufflers that accept billet aluminum tips

PART #	DESCRIPTION

2-INTO-1 SYSTEMS WITH TWO-STEP HEADERS

- Designed for peak performance and style
- Maximize horsepower and torque
- 1,75" to 1,875" 16-gauge stepped primary headers that merge into a 2,5" collector
- 2,50" high-flow baffles wrapped in stainless steel wool and high-temperature fiberglass
- 2,50" tapered baffle exit cone to enhance low-end torque
- 2,25", 220° 16-gauge heat shields
- 18 mm and 12 mm O_2 bungs welded into the primaries
- Eclipse finish features a proprietary high-temperature black chrome electroplated finish
- See the SEATS & SISSY BARS, HANDLEBARS, CONTROLS & MIRRORS and FRAMES & SUSPENSION sections for products with a matching Eclipse finish

2-INTO-1

1800-2215

1800-2216

EL DIABLO 2-INTO-1 EXHAUST SYSTEMS

- Uses equal-length exhaust headers mated to a chrome cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Chrome full-length heat shields

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK

1800-1674

1800-1675

2-INTO-1 SYSTEMS FOR BAGGERS

- Elegant in design with seamless 2,5" heat shields on the headpipes and a beautiful 2,75" collector shield
- 4,5" PowrFlo muffler produces a deep, distortion-free thunder because of the partnership of the 3" stepped core and proprietary sound tuning materials that surround the core
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- 4,5" Race Pro tip is finished in satin black, held in place with seven 12-point zinc-plated bolts
- Feature dual oxygen sensor bungs

FOR DRESSER/TOURING HEADERS

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES

- True-Dual crossover header pipes perform as good as they look
- Feature proper port angle and patented matched-length rear headpipe design that produces even performance from each cylinder
- Offer improved low-end torque and appearance
- Fabricated from 16-gauge steel, finished in chrome and supplied with three custom-fit heat shields
- Can be used with Bassani mufflers or most 95-16 OEM-style aftermarket mufflers (mufflers sold separately)
- Include 12 mm and 18 mm O_2 sensor port plugs
- Chrome finish

PART #	DESCRIPTION
1802-0125	For 99-08 FLHT/FLHR/FLHX/FLTR

1802-0365

1802-0277

TRUE-DUAL DOWN UNDER HEADPIPES

- $1^3/_4$" headpipes with $2^1/_4$" heat shields
- Accept any 95-16 style mufflers that fit to stock headpipes, including Bassani Dresser mufflers
- Mufflers sold separately
- PART #1802-0297 is used to mount PART #s 1802-0277 and 1802-0278 on 09-16 H-D FL Trikes

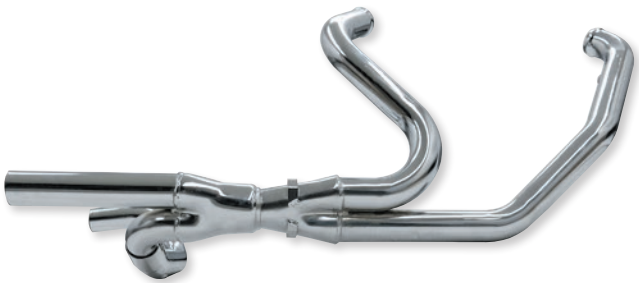
BAGGER TRUE DUAL HEADPIPES

- Chrome true dual headpipes with heat shields
- Right-side pipe follows same clean lines as frame
- Can be used with Bassani mufflers or most 95-16 OEM-style aftermarket mufflers (sold separately)
- Includes 12 mm and 18 mm O_2 sensor port plugs
- Mounting instructions and hardware included



PART #	DESCRIPTION
1802-0132	For 99-08 FLT/FLHT/FLHR/FLTR/FLHX

2X2 DUAL HEADPIPES

- $1^3/_4$" diameter tubing with O_2 ports for 18 mm and 12 mm sensors
- Fits under the stock heat shields for the 17-20 Bagger and utilizes a power chamber for added performance
- Made to fit with the stock 17-20 Bagger slip-ons or Bassani Xhaust slip-on mufflers
- Utilizes stock crossover pipe
- Industrial chrome finish

PART #	DESCRIPTION
1802-0379	For 17-20 FLHT/FLHTK/FLHX/FLHR/FLTRX/FLTRU/FLTRK

CHROME 2X2 DUAL HEADPIPES

- $1^3/_4$" headpipes with 18 mm and 12 mm O_2 ports
- 2x2 design allows fitment of stock heat shields
- Advanced inner collector for maximum performance
- Made to fit with stock 95-16 slip-on mufflers or Bassani Xhaust slip-on mufflers

PART #	DESCRIPTION
1802-0326	For 09-16 FLHT/FLHR/FLHX/FLTRX

FOR 99-08 FLT/FLHT/FLHR/FLTR/FLHX (CONT)	
1802-0389	Black ceramic

KHROME WERKS

2-INTO-2 DUAL HEADER SYSTEMS

- Reduces heat transmission to the rider and passenger by routing the exhaust under the frame instead of under the seat
- Lighter system that offers more flow and makes more top-end power than the factory system
- Features $1^{3}/_{4}$" 16-gauge mandrel bent, interconnected headers and 220° full-coverage heat shields
- Front pipe crosses over to the left side and is securely mounted to the transmission oil pan
- Crossover pipe is formed from the $1^{7}/_{8}$" tubing for increased ground clearance and no cross-sectional area loss
- Hidden inter-connect for maximum top-end horsepower, improved low-end torque and sound dampening
- Headers systems are available in a high-gloss chrome finish and full-coverage heat shields are finished in black Jet-Hot® high-performance coating with chrome-plated headers

PART #	DESCRIPTION
FOR 99-08 FLHT/FLHX/FLTR/FLHR	
1802-0121	Chrome headers

- Includes two 18 mm O_2 sensor ports, plugs and all mounting hardware
- Header systems accept any 95-16 OEM-style dresser mufflers (sold separately)
- O_2 sensor ports and plugs, gaskets and all mounting hardware included
- Use any Khrome Werks™ or other bagger muffler set

PART #	DESCRIPTION
FOR 99-08 FLHT/FLHX/FLTR/FLHR (CONT)	
1802-0252	Headers w/ black shields

KHROME WERKS

HIDEAWAY 2-INTO-2 HEADER SYSTEM

- Fits directly under factory heat shields
- Significantly reduced heat footprint
- Spherical port caps to ensure proper sealing
- 18 mm and 12 mm O_2 bungs, flexible tuning
- 2,5" collector
- 16 gauge $1^3/_4$" primaries
- Mounts with factory hardware and crossover
- Increased performance potential
- Superior sound
- Easy installation
- Fits with OEM-style mufflers for 17-20 Dresser models
- Coated with nickel chrome
- Includes gasket seals, O_2 bung plugs and crush washers

PART #	DESCRIPTION
1802-0400	For 17-20 FLHT/FLHTK/FLHX/FLHR/FLTRX/FLTRU/FLTRK models

FOR DRESSER/TOURING HEADERS

1802-0359

1802-0109

POWERPORT HEADPIPES

- Dual-pipe styling with 2-into-1 performance
- New enlarged pulse chamber improves exhaust scavenging for more horsepower
- Dual-bung versions feature both 12 mm and 18 mm bungs for easier tuning, and include installed 18 mm bung plugs (09 models will require 12 mm bung plugs (sold separately))
- 2,5" heat shields
- 17-20 style headpipes accept aftermarket 17-20 specific mufflers only
- 09-16 style headpipes accept 95-16 style mufflers

NOTE: Mufflers not included; must be purchased separately.

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLHR/FLTR/FLHX/FLTRU/FLTRK MODELS	
1802-0360	W/ chrome heat shields
1802-0361	W/ black heat shields
1802-0385	Dual bungs w/ chrome heat shield
1802-0386	Dual bungs w/ Raven black heat shield
FOR 10-16 FLHT/FLHR/FLHX/FLTR AND H-D FL TRIKE MODELS

1802-0109	W/ chrome heat shields
FOR 10-16 FLHTCUTG MODELS	
1802-0401	Dual bungs w/ Raven black heat shields

[1] Requires S-bend pipe adapters PART #1802-0285 for use on 09-16 H-D FL Trike models; see page 407.

1802-0298

POWERPORT TRIKE DUAL HEADPIPES

- Display the clean look of a true-dual system, but pack the performance to back it up; because of the Cobra PowerPort crossover, this system performs like a 2-into-1 exhaust
- The PowerPort Dual headpipes fatten the low-end and mid-range torque curve, perfect for touring and highway use
- The headpipes arrive with the proper bends built in so there is no need to use adapters (all other aftermarket headpipes require "S" adapters to connect the headpipes to the mufflers – stock or aftermarket)
- The system consists of the headpipes, PowerPort section, heat shields and all of the mounting hardware needed to complete the installation
- 1,75" diameter
- Mufflers not included; accept 95-16 aftermarket mufflers

PART #	DESCRIPTION
FOR 17-20 H-D FL TRIKE MODELS	
1802-0402	Raven black

PART #	DESCRIPTION
FOR 10-16 H-D FL TRIKE MODELS

1861-0573	For 10 FLTRX/FLHX models with factory 2-into-1 exhaust
1802-0129	For 09-16 H-D FL Trike models

[1] Non-sensor applications will require sensor port plug kit PART #1861-0464; see page 513.

[2] Must use 17-20 OEM-style mufflers.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

FOR DRESSER/TOURING HEADERS

TRU POWER TRUE DUAL EXHAUST HEADERS

- Header pipes are dyno-designed to maximize torque and performance
- $2^{1}/_{8}$" diameter heat shields maximize style and the look
- Work with O_2 sensors on all years; include plugs for models not utilizing O_2 sensors
- Provide balance and symmetry, giving your bike a tight, tough look
- Beautiful triple-chrome-plated hand-polished finish
- For maximum performance gains use with our Tru Power slip-on mufflers (sold separately) or with any 95-16 OEM-style mufflers
- Stainless steel mounting hardware and installation instructions included

PART #	DESCRIPTION
1802-0275	For 99-16 FLT/FLHT/FLHR/FLHX/FLTR

2-INTO-2 TRUE DUAL HEADPIPES

- Design adds a unique style
- Includes 2,25" chrome heat shields
- Fits SuperTrapp® SE series, Kerker® FatShots slip-ons, SuperTrapp/Kerker Stouts or other 99-08 style mufflers
- Hardware included
- O_2 bung plugs included for non-sensor applications

PART #	DESCRIPTION
1802-0096	For 99-08 FLT/FLHT/FLHR/FLHX/FLTR

UNFILTERED 2:1:2 HEADPIPE

- High-performance headpipes that substantially outflow the stock unit
- Utilizes stock crossover pipe and heat shields for a clean appearance
- 12 mm O_2 ports
- Accepts any SuperTrapp® Dresser mufflers as well as any OEM-style Dresser mufflers for year applications listed

PART #	DESCRIPTION
1802-0378	For 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK

RINEHART RACING

DBX45 SLIP-ON MUFFLERS

- 4,5" slip-on mufflers for 2017 and later Harley Touring models
- Proprietary baffle that's engineered specifically to increase and enhance the sound of the M-Eight engine, while providing a free-flowing exhaust and the perfect amount of backpressure, unlocking both horsepower and torque
- Available in 4,5" muffler body, which gives your bike a louder, bass heavy tone that never sounds muffled or flat
- Comes with Tradition end caps that perfectly complement the style of the M-Eight Bagger
- Sold in pairs

NOTE: Performance by DBX baffle sold separately for riders who already have Rinehart 4" or 4,5" Slip-Ons on their M-Eight Touring bike.

4,50" HP-PLUS® SLIP-ON MUFFLERS

- Engineered for performance, style and sound
- Produce the Khrome Werks signature, authoritative tone without annoying high-frequency noises
- 4,50" 16-gauge muffler body
- Absorptive baffle covered with stainless steel mat and high-temp fiberglass
- Improved torque and horsepower from the hit of the throttle
- Billet aluminum tips can be rotated 360° at 90° increments; feature a high-temp powdercoated finish
- Tips also available separately; fit all 4,5" Khrome Werks mufflers that accept billet aluminum tips
- Optional Ripper baffles boost low-end performance and enhance sound
- Bolt-in optional inserts available that comply with SAE J2825 sound test with no appreciable loss of performance
- Mufflers and optional baffles sold in pairs; optional end caps sold each

1801-1027

1801-0745

TRI-FLO SLIP-ON MUFFLERS

- Tri-oval-shaped muffler rear seamlessly transforms into 4" round front
- 5" wide, 4" tall thin-line aluminum tip
- 3" core for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Feature proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- Sold in pairs
- Raven black is slightly darker than the standard black finish

TRI-OVAL II CHROME SLIP-ON MUFFLERS

- Updated version of the ever-popular original Tri-oval slip-on mufflers
- Redesigned aluminum tips with machined flutes on the interior slopes
- Retain the distinctive dual-port outlet
- Graceful scallop edge forms the top line of the tips
- Louvered core design retains the deep sound with enhanced rasp that's familiar to Tri-Oval owners
- Reworked body begins as a 4" round shape at the front and slowly transforms into the classic Tri-Oval shape at the rear
- Sold in pairs

PART #	DESCRIPTION
1801-0736	For 99-16 FLHT/FLHR/FLHX/FLTR and H-D FL Trike models (except 15-16 FLRT)

FREEWHEELER MUFFLERS

- Chromed 3,75" bodies bell to 4" at the rear
- Perforated constant-velocity cores wrapped in woven fiberglass provide the deep sound and improved performance
- Black powdercoated aluminum tips
- Same end point as stock mufflers
- Sold in pairs

TRI-GLIDE® MUFFLERS

- Designed specifically for Harley's big trikes
- 3,75" muffler bodies are capped off with machined 3" radial slash-cut aluminum tips that step up to the bodies via a mild, yet graceful bevel
- This configuration allows the Cobra tips to have the ground clearance equal to or in some cases greater than the stock system
- Internal construction of the muffler bodies consists of a 2,5" perforated constant-velocity core wrapped in woven fiberglass that is protected by a fiberglass wrap, providing outstanding performance with a deep thundering bass note
- Available in chrome with chromed aluminum tips
- Sold in pairs

PART #	DESCRIPTION
1801-0823	For 09-20 FLHTCUTG, FLHXXX models

TRI-GLIDE ADAPTER KIT

- Allows Cobra PowerPort Dresser headpipes and Cobra Mufflers to fit Tri-Glide and Freewheeler models
- Chrome-plated

NOTE: Not for use with rear suspension lift kits.

1801-0606

4 1/2" HI-OUTPUT SLIP-ON MUFFLERS

- Designed specifically to address the needs of tuned motors built for high horsepower applications (high compression, large displacement, big cams)
- Every aspect is singularly focused to yield maximum horsepower by improving the volumetric efficiency of heavily modified engines as well as stock
- Compatible with Dresser Duals, Power Duals and CVO drop skirt bags
- Sold in pairs

NOTE: Qualified manufacturer declared replacement for 17-20 FLHT/FLHX/FLTRX/FLTRU/FLHR models.

1861-0606

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLHX/FLTRX/FLTRU/FLTRK/FLHR MODELS	
1801-1068	Chrome
1801-1069	Matte black ceramic
FOR 99-16 FLT/FLHT/FLHX/FLHR/FLTR MODELS	
1801-0606	Chrome
1801-0607	Matte black ceramic

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS	
1861-0606	Quiet baffle (ea.)
1860-0628	Replacement chrome end cap (pr.)
1860-0809	Replacement right mounting bracket (ea.)
1860-0810	Replacement left mounting bracket (ea.)

1801-1174

1801-0395

4" MONSTER ROUNDS SLIP-ON MUFFLERS

- Twice the internal volume of other slip-on mufflers for better flow and more power
- Stereo-friendly, with a deep rich tone that is perfect for cross-country tours
- Full-coverage, one-piece formed heat shields with machined end caps
- Sold in pairs

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK MODELS	
1801-1174	Chrome w/ chrome tips
1801-1175	Matte black w/ chrome tips

PART #	DESCRIPTION
FOR 99-16 FLT/FLHT/FLHX/FLHR/FLTR MODELS	
1801-0395	Chrome w/ chrome tips
REPLACEMENT COMPONENT	
1860-0665	Repl. end cap

5 1/2" MONSTER OVALS LEFT HEAT SHIELD

- For PART #1801-0311

PART #	DESCRIPTION
FOR 99-16 FLT/FLHT/FLAX/FLHR/FLTR MODELS (EXCEPT CVO MODELS W/ DROP SKIRT SADDLEBAGS OR H-D FL TRIKES)	
1860-0750	Left heat shield for PART #1801-0311

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES AND SLIP-ON MUFFLERS

- True-Dual crossover header systems perform as good as they look
- Offer improved low-end torque, appearance and an unmistakable exhaust tone
- Fabricated from 16-gauge steel, finished in show-quality chrome and supplied with custom-fit heat shields

PART #	DESCRIPTION
CROSSOVER HEADER PIPES	
1800-0639	For 07-17 FXST/FLST (except FLSTC HDI models)
1800-0638	For 00-06 FXST/FLST

- Crossover system will only accept Bassani's Softail slip-on mufflers (sold separately), featuring 16-gauge steel construction, removable flow-through baffles and show-chrome finish
- All hardware and mounting brackets included with headpipes

NOTE: Header pipes and mufflers listed will not interchange with OEM components.

PART #	DESCRIPTION
SLIP-ON MUFFLERS (PR.)	
1801-0450	4" megaphone w/ billet end cap and standard 2 1/4" baffles
1801-0452	3" slash-cut w/ standard 2" baffles
1801-0453	3" slant-cut w/ standard 2" baffles

FOR SOFTAIL
TRUE DUALS

1800-1752

1800-1753

SOFTAIL DUAL EXHAUST SYSTEMS

- Provides a classic dual-exit look while increasing performance
- 1¾" exhaust tubing provides improved exhaust flow; rear headpipe is not flattened to clear the coil bracket
- Removable louvered baffles increase back pressure and torque
- New coil-mounting bracket increases clearance for the tightly curved rear headpipe on 07-newer models
- 2½" heat shield gives the classic straight pipe look
- Available with 2½" billet tips or classic chromed steel fishtail-style tip
- Billet-tip style lines up with the rear fender
- Fishtail-style tips stick out 6" further than the standard billet tip for a more custom look
- 07-17 styles accept 12 mm and 18 mm O_2 sensors

PART #	DESCRIPTION
FOR 12-17 FLS/FLST/FXS MODELS	
1800-1750	W/ billet tips
1800-1752	W/ fishtail tips

1800-1753	W/ billet tips
1800-1754	W/ fishtail tips

1800-1486

1861-0072

1861-1203

SOFTAIL DUALS

- Give your Softail the nostalgic look of true duals
- 2⅛" 220° full-coverage headpipe heat shields and 2½" slip-on heat shields make the system virtually blue-proof
- The Slip-ons give the performance and sound you would expect with standard louver core baffles
- Enhance the nostalgic look of a Springer Softail or any other Softail model
- Feature matched straight-cut billet tips
- Flat plane mounting panel for the 12 mm O_2 sensors now featured across the 12-17 Softail model lines; mounting panel positions sensor deeper into exhaust stream, providing enhanced data feedback to the ECM

NOTE: Pre-07 applications will require O_2 sensor port plug kit PART #1861-0464.

PROVEN S&S PERFORMANCE

GRAND NATIONAL 2-INTO-2 EXHAUST SYSTEMS

- Free-flow design equals solid hp gains
- Hidden crossover provides performance benefits of a 2-into-1 system
- Full heat shields on both front and rear header pipes
- Stainless steel header construction
- Race inspired Grand National end caps
- Available in chrome or black ceramic finish
- Oxygen sensor ports allow use of wide band or stock O_2 sensors
- FXBB, FXLR models require brake pedal kit PART #1861-1493 for installation (sold separately)
- Optional right-side passenger peg relocation kit PART #1861-1272 sold separately
- Removable dB reducers included

FOR 18-19 FXFB

SPEEDSTER LONG EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
1800-1828	For all 12-17 FXS/FLS/FLST (except FXSB/FXSE) models
1800-1827	For all 07-11 FXST/FLST (except FXCW/C) models

2-INTO-2

1800-2301

1800-2147

SPEEDSTER SHORT EXHAUST SYSTEMS WITH RACE PRO TIPS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep, aggressive exhaust tone
- PowerPort offers increased power and overall performance by providing superior scavenging of exhaust gasses over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- 1,75" diameter constant-velocity cores for exceptional sound and performance
- Race Pro Tips (RPT) design is adapted from Cobra's Race Pro 4" mufflers; the full-system heat shields expand in size from 2,5" to 2,75" at the system ends
- Exhaust tips mimic the machined Race Pro Tips; held in place with 12-point bolts
- Chrome exhausts feature satin black exhaust tips
- Black exhausts feature machined aluminum clear-coated exhaust tips

1800-1381

1800-1380

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Swept system is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Swept exhaust requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

COVINGTONS CUSTOMS

COVINGTONS HOT ROD 2-INTO-1 SYSTEM

- Inspired by Jerry Covington's days in the hot rod era
- Black megaphone collector with turn-out end and removable baffle
- Full-coverage chrome heat shields with Covington-style holes
- O_2 sensor port plugs included for pre-07 models

PART #	DESCRIPTION
1800-1122	For 00-11 FXST/FLST

1800-2414

1800-2014

RINEHART RACING

2-INTO-1 EXHAUST SYSTEMS

- Race-proven technology and design
- Multi-stepped header design for better flow and power
- Anti-reversion louver technology, providing low-, mid- and high-end torque and increased horsepower over stock
- Equalized back pressure ensures solid response without sacrificing performance
- Design highlights half-megaphone/half-straight 4" muffler with a 4" billet end cap and heat shields that fit seamlessly over collector and primary tube
- Softail models include 18 mm O_2 sensor ports
- More end caps available separately; see page 503

NOTE: 12-17 Softail models require bung adapter kit.

PART #	DESCRIPTION

FOR SOFTAIL
2-INTO-1

PRO PIPE 2-INTO-1 EXHAUST SYSTEMS

- Include tuned length stepped headers with a highly efficient merge collector that feeds into the stepped 4 1/2" megaphone design
- Complete with header and collector heat shields, as well as a shield over the first step of the megaphone muffler body
- CNC-machined chrome-plated billet end cap
- Flat plane mounting panel for 12 mm O_2 sensors on 12-20 Softail models; mounting panel positions sensor deeper into exhaust stream, providing enhanced data feedback to the ECM
- Available in chrome or matte black finish

NOTE: Not for Softail models with Heritage-style saddlebags.

1800-2095

1800-2096

COBRA USA RIDE LOUD

909 2-INTO-2 EXHAUST SYSTEMS

- Unique blend of performance, sound, style and price
- Class-leading power
- PowrPort crossover makes for a significant power increase from just off idle to redline
- Expanded end and rolled tips
- Bodies expand from 3" at the front to 3 1/2" at the rear
- 2" constant-velocity cores for exceptional sound and performance
- Removable baffles

2-INTO-2

1800-2117

1800-2136

BIG SHOTS STAGGERED 2-INTO-2 EXHAUST SYSTEMS

- Feature the revolutionary Power Chamber™ design; a unique cross-over system that increases horsepower and torque
- Armed with full-coverage 2½" heat shields that are essentially blue-proof for long-lasting style
- Like all Vance & Hines systems, these feature a superior fit and an unrivaled finish
- 06-17 models incorporate "Super Bung" dual-mounting O_2 sensor ports, which allow mounting of 12 mm/18 mm O_2 sensors
- Meticulously finished billet end caps
- Include removable baffles and all mounting hardware

NOTE: Will not fit models with kickstarts.

FOR DYNA GLIDE 2-INTO-1

ROAD RAGE 3-STEPPED 2-INTO-1 EXHAUST

- Stepped equal-length headers – 1 3/4" to 1 7/8" to 2" designed for maximum performance
- Hand TIG-welded stainless steel construction
- Short megaphone muffler body
- Brushed aluminum end cap
- Removable baffle

PART #	DESCRIPTION
1800-2229	For 99-17 FXD w/ mid-controls, 07-17 w/ forward controls

ROAD RAGE III 2-INTO-1 EXHAUST SYSTEM

- 2-into-1 stepped equal-length headers 1 3/4" to 1 7/8" designed for maximum performance
- Utilizes an advanced inner collector for maximum performance
- Stainless steel 304 construction
- Hand TIG welded
- 18 mm O_2 ports with 12 mm adapters and plugs included
- Better ground clearance and fitment
- Brushed billet end cap included
- Upper rear heat shield included
- Removable baffle

NOTE: Designed to fit with stock OEM cam cover only.

PART #	DESCRIPTION
FOR 99-17 DYNA (EXCEPT 99-05 W/ FORWARD CONTROLS AND 12-16 FLD)	
1800-1955	Road Rage III exhaust system
1861-1174	Opt. heat shields

FOR DYNA GLIDE
2-INTO-1

1800-2135

GREG LUTZKA 2-INTO-1 EXHAUST

- 2-into-1 stepped equal length $1^{3}/_{4}$" to $1^{7}/_{8}$" headpipes designed for maximum performance
- Megaphone-style muffler
- 409 stainless steel construction
- Hand TIG welded
- Includes O_2 sensor port plugs
- Removable baffle and end cap
- Partial heat shield included

PART #	DESCRIPTION
FOR 99-17 DYNA W/ MID CONTROLS, 07-17 DYNA W/ FORWARD CONTROLS	
1800-2135	Megaphone
1861-1213	Repl. partial heat shield, 5,5" L x 2" D

COVINGTONS HOT ROD 2-INTO-1 SYSTEM

- Inspired by Jerry Covington's days in the hot rod era
- Black megaphone collector with turn-out end and removable baffle
- Full-coverage chrome heat shields with Covington-style holes
- O_2 sensor port plugs included for pre-07 models

PART #	DESCRIPTION
1800-1122	For 99-11 Dyna

2-INTO-1 EXHAUST SYSTEM

- Race-proven technology and design
- Multi-stepped header design for better flow and power
- Anti-reversion louver technology, providing low-, mid- and high-end torque and increased horsepower over stock
- Equalized back pressure ensures solid response without sacrificing performance
- Design highlights half-megaphone/half-straight 4" muffler with a 4" billet end cap and heat shields that fit seamlessly over collector and primary tube
- Available in black with black end caps
- Includes 18 mm O_2 sensor ports
- Replacement end caps available separately; see page 503

NOTE: 12-17 Dyna models require bung adapter kit.

PART #	DESCRIPTION
FOR 06-17 FXD/FXDWG	
1800-2018	Black system w/ black end caps

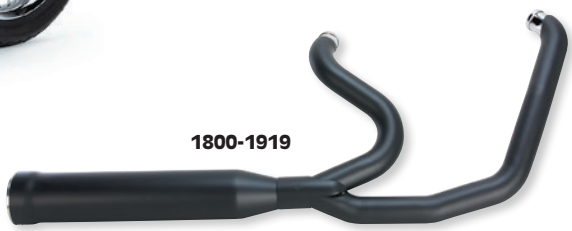
FOR DYNA GLIDE
2-INTO-1

1800-2166

1800-2167

EL DIABLO 2-INTO-1 EXHAUST SYSTEMS

- Uses equal-length exhaust headers mated to a cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Chrome full-length heat shield



PART #	DESCRIPTION
FOR 12-17 DYNA MODELS	
1800-2166[1]	Chrome
1800-2167[1]	Black
1800-2223[2]	Chrome w/ billet tip

1800-2164[1]	Chrome
1800-2165[1]	Black
1800-2221[2]	Chrome w/ billet tip
1800-2222[2]	Black w/ billet tip

[1] Has 4" megaphone muffler body.
[2] Has 3.5" canister muffler body.

1800-1918

1800-1919

POWERPRO HP 2-INTO-1 RPT EXHAUST SYSTEMS

- This updated 2-into-1 exhaust system provides real-world performance gains matched by the deep throaty rumble you expect
- The 4" muffler body produces a deep rumble, and is capped off with a machined aluminum, powdercoated matte black RacePro Tip (RPT)
- 222° heat shields and Cobra's unique collector give your bike an aggressive appearance
- Internally, the muffler uses the same sound-control technology as Cobra's Bagger slip-on mufflers, providing one of the deepest tones available
- Muffler body is constructed to prevent blueing

NOTE: Does not work with passenger footpegs.

PART #	DESCRIPTION
FOR 12-17 ALL DYNA MODELS	
1800-1918	Chrome

1800-1503

VANCE & HINES COMPETITION SERIES

COMPETITION SERIES 2-INTO-1 EXHAUST SYSTEMS

- Available in brushed stainless steel or black ceramic powdercoated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes

PART #	DESCRIPTION
FOR 06-17 DYNA GLIDE MODELS (EXCEPT FLD)	
1800-1502	Brushed stainless steel
1800-1503	Black ceramic powdercoated stainless steel

1861-0605

- Include O_2 sensor port plugs for non-sensor applications
- Flat plane 12 mm and quick access 18 mm O_2 sensor ports for wideband tuning capability

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

1800-2093

1800-2356

SPEEDSTER SHORT 909 2-INTO-2 SYSTEMS

- PowrPort crossover makes for a significant power increase from just off idle to redline
- PowrPort increases power and overall performance by providing superior scavenging of exhaust gasses over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Shotgun-styled pipes
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome or black finished heat shields
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- O_2 bungs installed

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowrPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowrPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- System is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Requires removal of passenger footpegs.

2-INTO-2

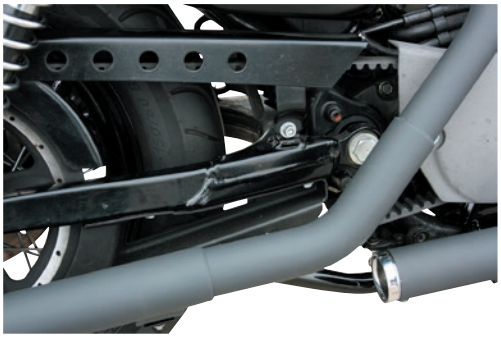
1800-2122

1861-1168

1¾" SIDE-BY-SIDE UPSWEEP FISHTAIL EXHAUST



- Pipes feature long, one-piece 1¾" headpipes with blended fishtails that cross to a side-by-side styling at the tips
- Unbaffled pipe set gives your bike the deep growl only upswept fishtails can deliver
- Available with chrome-plated or high heat satin black powdercoated finishes
- Bolts directly to the OEM exhaust brackets or use Paughco replacement brackets, PART #1861-1166 (chrome), without the factory crossover tube for 04-13 models
- Optional 2¼" heat shields are sold separately

NOTE: O_2 sensor port plugs are included for 04-06 XL applications.

PART #	DESCRIPTION
FOR 14-20 XL MODELS	
1800-2124	Chrome exhaust
1800-2125	Black exhaust
1861-1170	Chrome front and rear heat shield set
1861-1171	Black front and rear heat shield set

PART #	DESCRIPTION
FOR 04-13 XL MODELS	
1800-2122	Chrome exhaust
1800-2123	Black exhaust
1861-1168	Chrome front and rear heat shield set
1861-1169	Black front and rear heat shield set

BLACK STEP-WELDED STAGGERED DUAL EXHAUST

- Features 1¾" upper headpipes step-welded into 2" lower headpipes, which are in turn welded into 2¼" muffler bodies with bolt-in baffles and chrome tips
- This exhaust system can be run as drag pipes or as baffled muffler pipes
- The black high-heat powderpaint finish with rough welded seams confers a handmade look onto any street bobber
- Bolts directly to the OEM exhaust brackets

NOTE: O_2 sensor port plugs are included for 04-06 XL applications.

PART #	DESCRIPTION
1800-2127	For 14-20 XL

1¾" DRAG PIPES

- Slash-cut chrome drag pipes
- Mount to OEM bracket with included mounting hardware kit
- Measure 40" L

1800-1023

PART #	DESCRIPTION
1800-1023	For 07-13 XL models

PART #	DESCRIPTION
1800-0908[1, 2]	For 86-03 XL models

[1] Additional mounting clamps may be required to mount exhaust system and headpipes. Mounting clamps are sold separately.
[2] Includes heat shields.

FOR XL
2-INTO-1

ROAD RAGE III HIGH-OUTPUT 2-INTO-1 SYSTEM

- 2-into-1 equal-length headers that are stepped $1^{3}/_{4}$" to $1^{7}/_{8}$" to gain horsepower through the powerband
- Utilizes an advanced inner collector for maximum performance
- Stainless steel 304 construction
- Hand TIG welded
- 18 mm O_2 ports with 12 mm adapters and plugs
- Better ground clearance and fitment
- Brushed billet end cap included
- Partial heat shield included
- Removable baffle

PART #	DESCRIPTION
1800-2413[1]	For 04-20 XL1200 w/ mid controls

[1] Also fits highly modified XL 883 models.

1800-2103

ROAD RAGE III 2-INTO-1 SYSTEMS

- 2-into-1 stepped equal-length headers
- $1^{3}/_{4}$"-$1^{7}/_{8}$" stepped headpipes
- Utilizes an advanced inner collector for maximum performance
- Steel construction
- Hand TIG welded
- 18 mm O_2 ports with 12 mm adapters and plugs
- Better ground clearance and fitment
- Brushed billet end cap included
- Partial heat shield included
- Removable baffle

FOR XL
2-INTO-1

1800-2162

1800-2354

EL DIABLO 2-INTO-1 EXHAUST SYSTEMS

- Uses equal-length exhaust headers mated to a chrome cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Chrome full-length heat shields

PART #	DESCRIPTION

1800-2354[1]	Black w/ billet tips

[1] 4" megaphone muffler body.
[2] 3,5" canister muffler body.

1800-1832

1800-1833

POWERPRO HP 2-INTO-1 RPT EXHAUST SYSTEMS

- This updated 2-into-1 exhaust system provides real-world performance gains matched by the deep throaty rumble you expect
- The 4" muffler body produces a deep rumble and is capped off with a machined aluminum, powdercoated matte black RacePro Tip (RPT)
- 222° heat shields and Cobra's unique collector give your bike an aggressive appearance
- Internally, the muffler uses the same sound-control technology as Cobra's Bagger slip-on mufflers, providing one of the deepest tones available
- Muffler body is constructed to prevent blueing

NOTE: Does not work with passenger footpegs.

PART #	DESCRIPTION
FOR ALL 07-13 XL MODELS	
1800-1832	Chrome
FOR ALL 07-13 XL MODELS (CONT)	
1800-1833	Matte black

FOR XL 2-INTO-1

COMPETITION SERIES 2-INTO-1 EXHAUST SYSTEMS

- Available in brushed stainless steel or black ceramic powdercoated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes
- Includes O_2 sensor port plugs for non-sensor applications
- Flat plane 12 mm and quick access 18 mm O_2 sensor ports for wideband tuning capability

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

FOR V-ROD
2-INTO-1

ROAD RAGE 2-INTO-1 SYSTEMS

- Stepped headers merge into a true reverse-cone megaphone muffler
- 1 3/4" headpipe steps up to 1 7/8" into the collector to increase flow and improve performance
- 4" muffler body with billet end cap
- Removable spiral-core louvered baffle included
- Includes mounting hardware
- Available in short (12") muffler length with chrome or black finish
- Heat shields included

PART #	DESCRIPTION
FOR 07-17 V-ROD (EXCEPT VRSCF)	
1800-1276	Chrome, short
1800-1277	Black short
FOR 02-05 VRSCA/B W/ FORWARD CONTROLS	
1800-1274	Chrome, short
OPTIONAL COMPONENTS	
1860-1053	Opt. black billet end cap for all 3,5" megaphone style mufflers (ea.)

ROAD RAGE II B1 POWER 2-INTO-1 SYSTEMS

- Designed specifically to address the needs of tuned motors built for high horsepower applications
- Uses a unique extended inner collector to maximize performance
- 4" straight-style performance muffler body with 2 1/2" x 16 1/2" baffle and black billet end cap with contrasting machined flutes
- Includes full-coverage heat shields
- O_2 sensor port plugs included for non-sensor applications

PART #	DESCRIPTION
FOR 07-17 VRSCAW/VRSCDX/VRSCX, 09-16 VRSCF	
1800-1315[1, 2]	Chrome
1800-1316[1, 2]	Black
FOR 02-05 VRSCA/B	
1800-1319	Chrome
REPLACEMENT BAFFLE (EA.)	
1860-0928	For PART #s 1800-1315, 1800-1316, 1800-1319

[1] Will not fit VRSCF with passenger pegs.
[2] 12-16 models require O_2 sensor bung reducers, PART #1861-0784.

COMPETITION SERIES 2-INTO-1 EXHAUST SYSTEMS

- Available in brushed stainless steel or black ceramic powdercoated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes
- Include O_2 sensor port plugs for non-sensor applications
- Flat plane 12 mm and quick access 18 mm O_2 sensor ports for wideband tuning capability

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

MIDWAY EXHAUST MOUNTING KIT

- Relocates rear midway support clamp off rear pipe bend for improved mounting and appearance
- Chrome kit includes two 1 3/4" pipe clamps (one each for the rear and the front) and one mounting hanger bracket
- Fits Drag Specialties and other exhaust pipes

PART #	DESCRIPTION
DS-209970	For 00-05 Dyna Glide

PIPE HANGER

- Used to mount 1 7/8" diameter pipe extensions that have no brackets
- Chrome finish
- Sold each

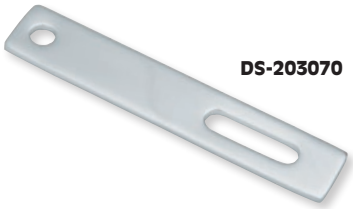
PART #	DESCRIPTION
1860-0234	For L85-16 FLT/FLHT models

1861-1109

REAR EXHAUST PIPE BRACKETS

- High-quality replacement component
- Zinc-plated steel

PART #	DESCRIPTION
1861-1109	For 99-06 FLT/FLHT/FLHR/FLHX/ FLTR; repl. OEM #65678-85D
1861-1244	For 99-06 FLT/FLHT/FLHR/FLHX/FLTR



EXHAUST BRACKET TAB

- High-quality steel construction with a zinc-plated finish
- Used to attach the rear header pipe to the starter bracket exhaust mount
- Sold each

PART #	DESCRIPTION
1861-0998	For 99-08 FLHT/FLHX/FLTR/FLHX models; repl. OEM #65619-98

DS-203070

EXHAUST HANGER BRACKETS

- Chromed 1/8" thick steel exhaust hangers
- Sold individually

PART #	SIZE
DS-203060	3" L
DS-203070	4 3/4" L

REPLACEMENT CHROME MUFFLER SUPPORT

- 1" OD steel tubing

PART #	DESCRIPTION
DS-209940	For 86-03 XL; repl. OEM #65599-80A

EXHAUST HANGER BRACKET

- Great for swapping out when upgrading to aftermarket exhaust systems
- Design eliminates the unsightly crossover breather tube on the OEM brackets and also weighs 30% less than stock
- Available in chrome

PART #	DESCRIPTION
1861-1166	For 04-13 XL models

RUBBER MUFFLER MOUNTS

- High-quality replacement component
- Sold in pairs

PART #	DESCRIPTION
1861-0808	For 99-17 FLT/FLHT/FLHR/FLHX and FLTR models; repl. OEM #65724-85

OPTIONAL LEFT PASSENGER PEG RELOCATION KIT

- Optional left passenger peg relocation kit for 00-17 Softail models matches left peg to right peg's position

NOTE: Not for Softail models with Heritage-style saddlebags.

PART #	DESCRIPTION
FOR 00-17 FXS/FXST/FLS/FLST MODELS (EXCEPT FXSB/FXSE)	
1620-0509	Optional left passenger peg relocation kit for 00-17 Softail models

FLAMING SKULL HEAT SHIELDS

- Measure 10" in length
- Chrome-plated finish
- Universal fit for 2" - 2¼" OD exhaust pipes
- Sold in pairs; clamps included

PART #	DESCRIPTION
1861-0102	Chrome

UNIVERSAL HEAT SHIELDS

- High-quality heat shields look great and keep you cool
- Heat shields are a full 6" or 7" in length and come in three sizes to fit most pipes
- Shields are triple chrome-plated and highly polished for a non-blueing look for years to come
- Come complete with clamps for mounting
- Sold each

PART #	DESCRIPTION
990155	1¾" heat shield, 6"
990165	2" heat shield, 7"

PART #	DESCRIPTION
990175	2¼" heat shield, 7"

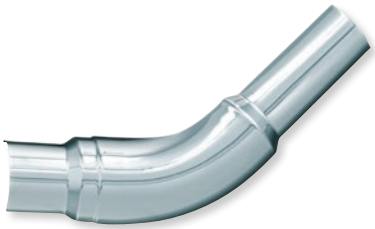
UNIVERSAL HEAT SHIELD

- Custom stainless steel heat shield
- Universal application
- Fits all 1½" to 2⅛" pipes
- Measures approximately 7¼" x 3"
- Sold each

PART #	DESCRIPTION
1861-0869	Exhaust heat shield

KURYAKYN

UNIVERSAL RIOT HEAT SHIELDS



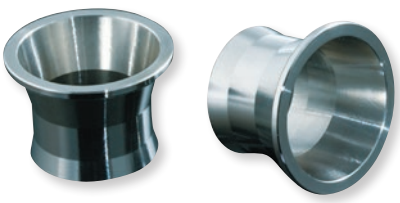
- Aggressively designed clamp-on heat shield made from high-quality aluminum helps prevent leg or boot contact with the exhaust
- Measures 6" in length
- Cast from durable A380 aluminum

PART #	DESCRIPTION
1861-1251	Silver

- Bead-blasted silver or satin black finishes are extremely durable and heat-resistant
- Easy to install with included hose clamps for a wide range of fitments
- Sold each

PART #	DESCRIPTION
1861-1252	Satin black

KURYAKYN



BRIDGE THE GAP

- Takes the blues away
- Integrates easily and seamlessly to remove the gap between the stock heat shields
- For use with stock headpipes and stock heat shields

PART #	DESCRIPTION
1861-0150	For 99-08 Dresser and Road King models

KURYAKYN

TORQUE CONES

- Machined from stainless steel
- An inexpensive way to get back lost horsepower and gas mileage without affecting the sound of straight pipes
- Fit most 1¾" OD exhaust systems
- Sold in pairs

PART #	DESCRIPTION
1861-1053	Torque cones

TORQUE CONES

- High-temperature stainless steel cones have fully radiused edges for improved engine response, especially low-end torque
- Generate correct levels of back pressure for increased horsepower
- Fit most stock and aftermarket exhaust systems; fit 1¾"-2" ID exhaust pipes

PART #	DESCRIPTION
1861-0400	Torque cones

- New Vortex design increases back pressure, improving torque and horsepower
- Smooths out the power curve for more consistent performance
- Sold in pairs

PART #	DESCRIPTION
1861-0770	Vortex torque cones

KHROME WERKS

SOUND REDUCTION KIT

- Easy, bolt-in sound reduction for 3" HP-Plus® mufflers
- Takes off 4 dB at idle and improves low-end torque – minimal loss of top-end horsepower
- The machined discs with tapered bosses fit into each end of the patented resonator near the exit end of the mufflers and are retained by the supplied bolts and nuts
- This kit is designed to use with three-ball style resonators that are 6,50" long
- Will also fit most other mufflers (four-ball style resonators) if 1/4"-20 x 11,00" threaded rods are substituted for the supplied bolts
- Installation requires removal of the mufflers
- Kit includes machined discs and two 7,50" 1/4"-20 bolts and two prevailing torque nuts

PART #	DESCRIPTION
1861-0806	Sound reduction kit

1861-1469

MINI FLEX-BLANKET™

- The Mini Flex-Blanket™ is a radiant and conductive heat shield
- Measures 12" x 40" and is constructed of woven fiberglass laminated to an aluminum reflective surface
- Ideal for use on areas that require reflective shielding
- Reflects 95% of infrared heat, and offers an efficient high-temperature barrier material with superior durability
- Available in peel-and-stick or standard versions

PART #	DESCRIPTION
0710-0236	Mini Flex-Blanket™ w/ adhesive

ACCEL

MATRIX HEAT SHIELD™ MAT

- The Matrix Heat Shield Mat is a unique self-adhesive heat shield with a carbon-fiber finish
- Made from crushed volcanic rock; 25% stronger than a typical fiberglass mat
- Weather and chemical resistant

HIGH-TEMPERATURE EXHAUST WRAP KITS

- Wraps will increase power and reduce radiated exhaust heat
- Kits include 2" x 25' or 1" x 50' top-quality high-temperature wrap and four stainless steel tie wraps for that finishing touch
- Wraps can withstand up to 1200 °F continuous and 2000 °F intermittent
- Available in black, tan or Matrix, which features a carbon-fiber look
- Replacement 4-pack exhaust wrap clamps are also available

PART #	DESCRIPTION
1861-0828	Matrix, 1" x 50'
1861-0829	Matrix, 2" x 25'
1861-0318	Black, 2" x 25'

PART #	DESCRIPTION
1861-0729	Black, 1" x 50'
1861-0319	Tan, 2" x 25'
1861-0730	Tan, 1" x 50'

PART #	DESCRIPTION
1861-0320	Exhaust wrap clamps

[1] Matrix does not include stainless steel ties.

VANCE & HINES

HEADER WRAP KIT

- Features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape locks in heat and reduces the radiant heat by 50%
- Kit will wrap two motorcycle headers thoroughly
- Includes 25' roll of black wrap tape, two Vance & Hines Wrap Clamps and six locking stainless steel ties

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this Kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the headpipe, thereby raising the headpipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the headpipe material, and may ultimately lead to cracks in the headpipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

FEULING

O_2 SENSORS

- Precision manufactured with a ceramic body made of stabilized zirconium dioxide, surface coated with gas-permeable platinum electrodes and a porous ceramic to help prevent erosion due to contamination and particulates in the exhaust gases
- Slow reading oxygen sensors can cause a drop in fuel economy of 10-15%, excessive exhaust emissions and poor drivability
- Life expectancy of an average oxygen sensor in a properly tuned engine is typically 30.000-50.000 miles
- Narrow band O_2 sensors available in 12,5", 16", 16,25" and 29" overall lengths
- All sensors meet or exceed OE specifications
- Sold each

PART #	DESCRIPTION	LOCATION
12 MM NARROW BAND O_2 SENSORS		
1861-1107	For 10-16 Touring models	Front (black 4 wire connector, 29" length)

NAMZ Custom Cycle Products

O_2 SENSOR HARNESS EXTENSION AND BUNG ADAPTER

- Now you can use 09 Dresser exhaust pipes on 10-16 Dresser models
- Reduces the 18 mm O_2 bungs on 09 models to 12 mm O_2 bungs
- Uses NAMZ simple Plug-N-Play wiring harness technology; no cutting or splicing required

PART #	DESCRIPTION
1861-0608	O_2 extension harness

NAMZ Custom Cycle Products

O_2 SENSOR HARNESS EXTENSION AND BUNG ADAPTER

- Allows the use of exhaust systems with 18 mm O_2 sensor bungs to be used with late model bikes with 12 mm O_2 sensors
- Reduces the 18 mm O_2 bungs to 12 mm O_2 bungs used on many 10-20 models
- Wiring harness comes pre-assembled with connector pins

PART #	DESCRIPTION
1861-0789	O_2 extension harness

S&S PERFORMANCE

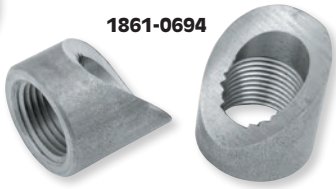
18 MM OXYGEN SENSOR KIT

- Kit includes two oxygen sensor assemblies, wire harness, two oxygen boss sensor mounts, two splice connectors and five black cable ties
- Wire leads measure 31,75 cm (12 1/2") L

PART #	DESCRIPTION
1022-0163	For Magneti Marelli EFI models

Daytona Twin Tec

ACTIVE INTAKE AND EXHAUST ELIMINATOR KIT



- Used to avoid setting a diagnostic trouble code when installing some aftermarket air filters and exhaust that require the removal of original equipment active systems; for off-road racing use only

PART #	DESCRIPTION
1020-1479	For late-model European spec models w/ active intake and exhaust

CENTURION SUPER PRO AND PRO PLUS PROFESSIONAL DIAGNOSTIC TOOL SYSTEM

- The industry's only complete professional diagnostic and tuning tool system designed for independent professional repair facilities
- Communicates with ALL 97-20 Harley-Davidson and Buell models using the included proprietary VCM-TR4 Communication Module and included cables
- Works with limited features also with all Indian models with Delphi EFI System up to 2019 and Victory models from 2003-2017
- Re-flash blank ECU, BCM and Key Fobs
- Centurion recovers locked security modules (TSSM/BCM) without the costly replacement of the TSSM or BCM
- Perform radio, speaker, lighting and navigation system configuration on all models
- Easily perform speedometer calibration on 2005+ models
- ABS bleeding and solenoid testing
- Read and clear Diagnostic Trouble Codes (DTC)
- Reset air/fuel values
- Perform active tests on tachometer, speedometer, fuel pump, idle rpm, system relays, cooling fans, alarm, IAC, ACR compression, injector coils, coolant pump, left- or right-side turn signals and other systems
- Centurion Super Pro Plus equals in functionality with OEM Indian and Victory diagnostics
- LED indicator tests for 6th gear, ABS service, battery, check engine, cruise control, high and low beam, neutral, oil, security and coolant temp
- View real-time data in strip chart or digital dashboard formats
- Enable/disable TPMS Module
- TPMS replacement and manual sensor coding
- Chassis fan active test; can enable/disable chassis fan function
- Enable/disable oil fan function
- Enable/disable fork lock function
- Can perform ECU cloning of an original ECU to a blank ECU
- IAC active test with step plot
- Throttle actuator and throttle grip active test with voltage and degree plot (CAN Bus models)
- BCM/TSSM (HSFM) system info capability
- ABS system info
- Radio system info
- Speedometer system info
- VCM data recording
- Enable/disable auxiliary 1 and auxiliary 2
- Enable/disable SMS text messaging function
- Additional parameters on data monitoring charts
- Requires use of a Windows PC, laptop or tablet; connect using either included cable or Bluetooth® wireless connection
- Fast data acquisition and many hours of data storage provide accuracy and save time
- Can easily update the software online through TechnoResearch to stay current on all features, years and model types
- Included VCM-TR4 Communication Module is fully compatible with Direct Link and Tune Builder keys (sold separately)
- Diagnostic license model updates for Centurion Super Pro Plus PART #s 1020-3008 and 1020-3009 are available separately; no returns

PART #	DESCRIPTION
CENTURION SUPER PRO PLUS	
3807-0314	For 97-20 H-D/Buell, 11-20 Indian and 07-17 Victory models

PART #	DESCRIPTION
DIAGNOSTIC LICENSE MODEL UPDATES FOR CENTURION SUPER PRO PLUS	
1020-3008	1 model year (maximum 2019)
1020-3009	2+ model years (maximum 2019)

CENTURION SUPER PRO PLUS DIAGNOSTICS USB LICENSE KEY

- The Centurion Diagnostics USB license key is needed to run the Centurion Super Pro Plus (HD, Victory and Indian) diagnostic software
- It permits communication with 1995-2020 Harley-Davidson and Buell models using the proprietary VCM-TR4 Communication Module and cables

NOTE: Annual new model year updates available for download and purchase for minimal fee; see licensing for details.

PART #	DESCRIPTION
3807-0498	Centurion Super Pro Plus diagnostics USB license key

TECHNORESEARCH USB KEY UPGRADE

- Upgrade of non-EU TechnoResearch performance products to be able to use European licenses and provide access to other TechnoResearch products where no master key was provided
- PART #1020-2868 upgrades Centurion Tuner without tuning capabilities (VCM-TR3 and VCM-TR4) to enable tuning capabilities for all Harley-Davidson® Delphi® EFI systems (additional European digital tuning license PART #1020-2852 required; sold separately see page 515)

PART #	DESCRIPTION
1020-2868	TechnoResearch USB key upgrade

3807-0519

CENTURION STANDARD PROFESSIONAL DIAGNOSTIC TOOL SYSTEM

- This is the hardware kit that is required to use the advanced features of Centurion on a pay-per-bike basis
- Centurion is a Windows software designed for Harley-Davidson repair shops that are looking for more independence
- Centurion software gives shops the advanced diagnostic, testing and adjustment features they need to be truly self-sufficient
- Gives access to the Harley-Davidson Engine Control Unit (ECU), Turn Signal Module (TSM), Turn Signal Security Module (TSSM), Hand Free Security Module (HFSM), Body Control module (BCM), Instrumentation Cluster (IC), Infotainment/ Radio System and Tire Pressure Monitoring System (TPMS)
- Works with all Harley-Davidson EFI ECUs (Delphi, Marelli and VDO)
- Read and clear DTC's
- View Real-time data
- Radio, ABS, TSSM/HSFM/BCM, Speedometer read and clear DTC
- Required PART #3807-0520 Centurion Standard Pay-Per Bike License is a digital code that grants permission to use the advanced features of Centurion on one Harley-Davidson motorcycle; sold separately

CENTURION STANDARD PAY-PER-BIKE LICENSE

- ABS bleeding
- Disarming TSSM/HSFM/BCM
- ECU Cloning of an original ECU for a blank ECU
- Re-flash blank ECU and enter new VIN
- Enable/disable ACR
- Enable/disable lights configuration (BCM)
- Key FOB coding
- Speedometer calibration
- Enable/disable chassis fan
- TPMS manual sensor coding
- Radio and speaker configuration
- Recover locked security modules (TSSM/HSFM/BCM)
- Use for one Harley-Davidson motorcycle
- Can be used on one motorcycle an unlimited amount of times, but not multiple motorcycles
- Requires Centurion hardware (VCM-TR4)
- No returns

PART #	DESCRIPTION
FOR 99-20 H-D MODELS	
3807-0519	Centurion Standard diagnostic tool system

PART #	DESCRIPTION
FOR 99-20 H-D MODELS (CONT)	
3807-0520	Centurion Standard Pay-Per-Bike License

MAXIMUS TUNER VCM

- Tune and modify ECU tables
- Back-up and restore the original map
- Auto mapping
- Fast data acquisitions and display
- Provides power from motorcycle for wideband O_2
- Record/monitor wideband O_2 sensors
- Single use

NOTE: Must order 4-pin Maximus cable connector PART #1022-0213 or Maximus 6-pin cable connector PART #1022-0214 (sold separately). Can be used on one motorcycle an unlimited amount of times, but not multiple motorcycles.

1020-2840

1022-0213

PART #	DESCRIPTION
1020-2840	Maximus Tuner VCM for all 01-20 Harley-Davidson w/ Delphi EFI
1022-0214	6-pin Maximus cable connector for 14-20 Touring, 11-20 Softail, 12-17 Dyna, 14-20 XL and 15-17 Street XG500/750 w/ CAN data bus
1022-0213	4-pin Maximus cable connector for all 01-13 models w/ Delphi EFI (J1850), 10-17 V-Rod

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

VCM-TR4 PERFORMANCE DEALER PACK

- Includes VCM-TR4, Master Key, 4-Pin and 6-Pin cable, extension cable, USB cable, two digital licenses (for two motorcycles); additional tuning licenses sold separately (PART #1020-2852)
- Tune and modify ECU tables
- Back-up and restore the original map
- Fast data acquisitions and display
- Provides power from motorcycle for wideband O_2
- Record/monitor wideband O_2 sensors
- Ideal for any size workshop or dealer
- Provides the user with tools to modify the fuel-injection pulse-width, spark timing and other calibration values, and then store them in ECU/ECM flash memory
- Adjust additional parameters by editing look-up tables
- Software also enables data monitoring and logging
- Auto-Mapping, available with an optional Wideband O_2 controller permits tuning with even better precision
- With Direct Link (Flash-Tuner), you will maximize the performance of any fuel-injected race or street bike

PART #	DESCRIPTION
1020-2851	For all 01-20 Harley-Davidson models w/ Delphi® EFI systems

WIDEBAND O_2 SENSOR SYSTEM TRO_2

- No calibration required
- Soft start technology
- Two analog outputs, one digital input and one digital output
- Bosch LSU 4.2 sensor
- Compatible with multiple fuels
- Sensor is hand tested
- Digital precision
- Includes 12V power input, 4 prong analog clip, termination jumper, serial RX plug (In), serial TX plug (Out) and sensor input clip

PART #	DESCRIPTION
1022-0215	Wideband O_2 sensor system TRO_2

SECURITY CABLE FOR CENTURION DIAGNOSTICS KITS

- Security cable for Centurion diagnostics kits, 6pin-6pin with battery leads
- Provides power to the BCM to jumpstart the module, allowing the software to pull the 5-digit PIN for you to then unlock the security
- This is used only on CAN bus 6-PIN motorcycles

PART #	DESCRIPTION
3807-0499	Security cable for Centurion diagnostics kits

DIRECT LINK NO RETURN

- Custom replacement
- Maximize the performance of Harley Davidson fuel-injection
- Requires Centurion hardware - VCM-TR4
- Can be used on one motorcycle an unlimited amount of times, but not multiple motorcycles
- Sold each

PART #	DESCRIPTION
1020-3222	Direct Link (ea.)

ADDITIONAL DIGITAL EUROPEAN TUNING LICENSE

FOR CENTURION SUPER PRO PLUS OR VCM-TR4

- Can be used on one motorcycle an unlimited amount of times, but NOT multiple motorcycles
- No inventory to stock
- Buy as you go
- Cost effective
- Save time and money
- Sold each

NOTE: Licenses cannot be returned.

PART #	DESCRIPTION
1020-2852	Additional digital tuning license for PART #s 3807-0314 and 1020-2851

O_2 INSTALL BLOCK AND VENT SCREW

- Block is designed to be compatible with 18 mm wideband O_2 sensors
- Block will be temporarily attached to the motorcycle using Rivnut/rivet nuts and a vent screw
- If using this block, please ensure you have the proper tools to allow for rivet nut installation
- It is recommended that you purchase these blocks in pairs (one for each cylinders exhaust)
- Vent screw is a replacement part to be used with the O_2 install block
- Vent screw is a hollowed out bolt that holds the install block in the Rivnut/rivet installed by the O_2 installation kit

3850-0449

3850-0450

PART #	DESCRIPTION	PART #	DESCRIPTION
3850-0449	O_2 install block	3850-0450	Vent screw

Dynojet

POWER VISION 3

- Flash performance tunes via OEM diagnostic connector, no need to remove and send out ECU
- Display vehicle data channels in real-time
- Weather-resistant for use in all conditions
- High-contrast display, viewable in direct sunlight
- Fueling revised for maximum power and torque
- Spark timing optimized for 91-93 octane fuel
- Rev limit raised
- Speed limit raised

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research.

PART #	DESCRIPTION
1020-3170	For 14-20 FLHT/FLHX/FLHR/FLTRX/FLTRU/FLTRK, 11-20 Softails, 12-17 Dyna models, 14-20 XL and 15-20 XG models (6-pin connector)

POWER VISION

- The quickest, most powerful flash tuner on the market
- The sophisticated, yet easy-to-use, 3,5" full-color touch-screen display mounts to handlebars with integrated AMPS 4-hole threaded inserts; also mounts to most aftermarket accessory mounts that feature AMPS 4-mounting options
- The display's interface cable plugs directly to the bike's diagnostic connector
- NO COMPUTER REQUIRED; simply select the tune and follow the on-screen prompts to flash the bike; tunes can also be edited directly from the Power Vision
- Utilizes WinPV (Windows PC-based tuning application)
- Stores up to six different tunes that can be flashed to the bike
- Downloads and stores the stock calibration in case OEM restoration is needed; stock calibration can also be saved as an editable copy and used as a starting point
- Dynojet preconfigured tunes are preloaded on the unit; Power Vision will identify the bike's information and automatically sort hundreds of applicable, dyno-proven tunes
- Custom tunes can be loaded by a tuning shop or received via email and loaded onto the device
- Displays all J1850 H-D vehicle data, wide-band air fuel ratio[2] and various calculated channels (including MPG instant and trip MPG)
- AutoTune Basic and Pro[3] calculates and stores fuel trims to optimize fuel curve
- Checks and clears diagnostic codes
- Features adaptive trims and idle offset (with bike running)
- Features a flat black outer case
- See Dynojet website http://www.dynojet.com/powervision-tune-license-programs.aspx for information about purchasing additional Power Vision tune licenses

MANUFACTURER'S NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
1020-2324	For all H-D models w/ Delphi EFI (except 11-20 Softails, 12-17 Dynas, 14-20 Dressers, 14-20 XL, 02-17 V-Rod, and 15-20 XG models) (4-pin connector)
1020-2325	For 14-20 FLHT/FLHX/FLHR/FLTRX/FLTRU/FLTRK, 11-20 Softail models, 12-17 Dyna models, 14-20 XL and 15-20 XG models (6-pin connector)

PART #	DESCRIPTION
REPLACEMENT PARTS	
1020-2085	Cable, Y-Adapter HD-CAN
1020-3193	6-pin to 4-pin adapter
1020-3194	Cable, Y-Adapter HD-J1850
1020-3195	Cable, J1850-PV to diagonal plug
1020-3196	Cable, CAN-PV to diagonal plug
1020-3197	4-pin to 6-pin adapter

POWER VISION VISORS

- Quick-release ability to remove or attach the Power Vision to the Techmount
- "NutSerts" are embedded and allow you to attach the visor/quick clip to mounting systems or any other system with a 4-hole pattern
- Shaded display screen, improving screen visibility
- Available in flat black

PART #	DESCRIPTION
1020-2045	Power Vision visor

Dynojet

POWER COMMANDER V

- Fuel and timing control
- Rev Xtend increases Rev limit
- The Power Commander V can read the exact engine temperature through the bike's ECM, which allows the tuner to choose how much fuel to add during cold starts
- Cold starting on heavily modified engines should be more controllable and easy to adjust
- USB powered from computer
- Two position map-switching function built-in (switch not included)
- Can add any SPST switch and toggle between two different fuel/timing maps
- Gear/speed input allows for map adjustment based on gear
- Analog input allows user to install any 0-5 volt sensor
- Builds an adjustment table based on analog input, such as boost or temperature
- Power Commander V is capable of allowing each cylinder to be mapped individually and for each gear with the gear position input connected
- Ten throttle position columns
- World's largest dyno-tested map database
- Enhanced "accel pump" utility

PART #	DESCRIPTION
1020-2666	For 17-20 FLHT/FLHX/FLHR/FLTRX/FLTRU
1020-2068	For 14-16 FLHT/FLHX/FLHR/FLTR/FLTRX/FLTRU
1020-2898	For 08-13 FLHT/FLHX/FLHR/FLTR
1020-2933	For 07 FLHT/FLHX/FLHR/FLTR
1020-1867	For 02-06 FLHT/FLHX/FLHR/FLTR
1020-2460	For 99-01 FLHT/FLHX/FLHR/FLTR
1020-2785	For 18-20 Softail models
1020-2502	For 16-17 FLS/FLST
1020-1555[1]	For 12-15 FXS/FLS/FLST (except 12-15 CVO models)
1020-2875	For 07-11 FXST/FLSTF/FXCW (except 11 CVO models)
1020-2890	For 07-11 FLSTC/FLSTN
1020-1869	For 01-06 FXST/FLST
1020-2702	For 16-17 FXDLS 110" models
1020-1556[1]	For 12-17 Dyna Glide (except FXDLS)

PART #	DESCRIPTION
1020-2876	For 06-11 Dyna Glide
1020-1871	For 04-05 Dyna Glide
1020-2072	For 14-18 XL883
1020-2895	For 10-13 XL883
1020-2873	For 07-09 XL883
1020-2071	For 14-20 XL1200
1020-2896	For 10-13 XL1200
1020-2874	For 07-09 XL1200
1020-2897	For 09-12 XR1200
1020-1557[1]	For 12-17 V-Rod
1020-2877	For 08-11 V-Rod
1020-1870	For 02-07 V-Rod
1020-2261	For 15-20 Street 500
1020-2262	For 15-20 Street 750

[1] O_2 optimizer available.

PART #	DESCRIPTION
O_2 OPTIMIZERS	
1020-1750	Front
1020-1751	Rear

POWER COMMANDER V MAP SELECT SWITCH

- Switches between two different maps that have been pre-loaded in a Power Commander V
- Comes with a switch, wiring and instructions
- Universal mount

PART #	DESCRIPTION
1020-2082	Map select switch

1020-1153

1020-1139

OXYGEN SENSOR OPTIMIZER

- Optional high-performance oxygen sensor optimizer for easier adjustments through the control center software
- Use with Power Commander III USB

PART #	DESCRIPTION
FOR 07 EUROPEAN HARLEYS (EXHAUST)	
1020-1153	Exhaust bypass plug
1020-1139	Sensor eliminator

POWER COMMANDER III USB POWER ADAPTER

- Allow you to activate a Power Commander for changing or altering maps while disconnected from the bike
- For limited use

PART #	DESCRIPTION
1020-1738	USB 9V power adapter

Dynojet

AUTOTUNE KITS FOR POWER VISION

- Plug directly into the Power Vision with a single cable
- Include 18 mm O_2 sensors and power connector that plugs into the bike's harness
- Provide real-time AFR feedback to the Power Vision
- Allow for semi-automated fuel corrections
- User can specify what air/fuel ratio to make each rpm and throttle position percentage combination
- Make it possible to adjust cruise for best fuel economy as well as larger throttle openings for peak power
- Base settings included for air/fuel ratios, but are fully adjustable if need be

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

1020-1532

PART #	DESCRIPTION
1020-1532	For use w/ Power Vision PART #1020-1493, 2324
1020-1533	For use w/ Power Vision PART #1020-1493, 2324; includes weld-in 18 mm bungs

1020-2522

1020-2523

POWER VISION TUNER KITS

- Tune multiple bikes using just one Power Vision and AutoTune Pro Module
- Dyno Tuner Kit designed for Dynojet dynos equipped with the Gen4 exhaust pump
- Shop Tuner Kit designed for shops without a Dynojet dyno or Gen4 exhaust pump
- Include Power Vision, AutoTune Pro Module with plug-in power supply, and all necessary cables in order to tune J1850 or CAN models
- Require installation of the most recent version of WinPV on your computer to take advantage of new features; WinPV can be updated using the Power Vision Update Client from the Dynojet website
- You will need to create an online account to use the new WinPV 2.0 Online License software; once you create an account, you are ready to purchase license credits at any time

NOTE: For shop use only; no retail pricing available.

PART #	DESCRIPTION
1020-2522	Dyno Tuner Kit
1020-2523	Shop Tuner Kit
1020-2796	Shop Tuner Kit without Power Vision

AUTO TUNE KITS FOR POWER COMMANDER V

- Plug directly into the Power Commander V with a single cable
- Include 18 mm O_2 sensors and power connector that plugs into the bike's harness
- Make automatic fuel adjustments
- User can specify what air/fuel ratio to make each rpm and throttle position percentage combination
- Make it possible to adjust cruise for best fuel economy as well as larger throttle openings for peak power
- Base settings included for air/fuel ratios, but are fully adjustable if need be

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

1020-0857

PART #	DESCRIPTION
1020-1559[1]	For 14-20 Dressers, 12-17 FXS/FLS/FLST, Dyna Glide and 12-17 XL models w/ CAN-bus 6-pin connector
1020-1117[1]	For 10-13 Dresser models w/ 12 mm O_2 sensor (except FXST/FLST, Dyna Glide 4-pin connector models)
1020-0857	For all models w/ 18 mm O_2 sensors (except 11 FXST/FLST 6-pin connector models)
1020-2083	Autotune power lead cable extension for 02-13 V-Rod

[1] Requires installation of two 18 mm sensor bungs (included).

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

Dynojet

1020-2483

TARGET TUNE

- Allows the factory ECM to interpret and use wideband O_2 sensor signals
- Target fuel table from the calibration is achieved in real time
- Retains OEM closed loop and achieves adaptive fuel control strategy
- Learns and uses VE table corrections as you ride
- Does not interfere with dealer diagnostic/service tools
- Includes OEM style connectors to plug into factory O_2 harness, either 2- or 4-pin versions

PART #	DESCRIPTION
1020-2491	For 14-20 Dresser models
1020-2485	For 10-13 Dresser models
1020-2483	For 07-09 Dressers, 07-11 FXST/FLST (except 07-11 CVO models), 06-11 Dyna Glide, 08-11 V-Rod, and 07-13 XL models
1020-2489	For 12-17 FXST/FLST and 12-17 Dyna Glide models
1020-2495	For 14-20 XL models
1020-2487	For 12-17 V-Rod models
1020-2493	For 15-20 XG 500/750 models

1020-1732

MULTI-FUNCTION HUB ACCESSORIES FOR POWER COMMANDER

- The Multi-Function Hub allows access to advanced expansion features of the Power Commander
- Compatible with the LCD display, but the display is not required
- Four separate functions can be accessed with the Multi-Function Hub
- The Map Selection Switch ($^7/_8$" bar mount) allows the rider to switch between two different maps in the Power Commander, allowing a map for economy and a separate map for performance
- The Gear Position/Speed function allows fuel and timing adjustments to be made depending on the gear selected and the position of the throttle, up to +/-50% fuel and +/-10 degrees of timing
- Pressure input allows the fuel to be increased along with the boost level on turbocharged installations; the change of boost level does not require a re-mapping of the Power Commander
- Relay outputs allow up to two warning lights or relays to be triggered independently to activate items such as shift lights, nitrous systems, or air shifter; the trigger can be by throttle percent, rpm, or both
- Comes complete with installation instructions, wiring diagrams and CD with the required software updates

PART #	DESCRIPTION
1020-1732	Multi-Function Hub and wiring harness for Map Selection Switch only
1020-2084	Map switch and harness only

POD-300 DIGITAL DISPLAY

- Real-time fuel adjustment
- Display channels real-time: rpm, TP, map position (when using map switch), duty cycle, fuel exchange, ignition change and wideband air/fuel ratio (with WB2 or auto-tune connected)
- Weather resistant for use in all conditions
- Log channels saved to internal memory and can be viewed/analyzed with Dynojet's powercore software
- High-contrast display, viewable in sunlight
- Includes CAN cable for attachment to Power Commander V, Auto Tune and Wide Band Power Commander

NOTE: Not for use with Power Commander III USB.

PART #	DESCRIPTION
1020-2371	POD-300 digital display

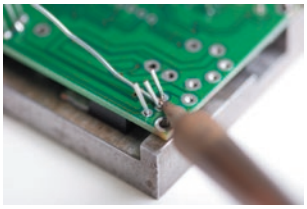
All part numbers in BLUE are new for 2021.

FUELPAK PRO WIDEBAND TUNING KIT FOR FUELPAK FP3

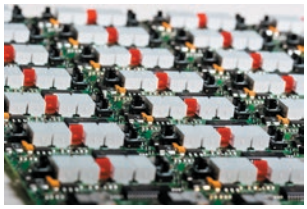
- For quick, precise auto tuning using the Fuelpak FP3
- Allows FP3 to collect four times more data for quicker and more accurate full mapping sessions
- Plug-and-play installation adds wideband tuning
- Includes two 18 mm wideband Bosch O_2 sensors and control module
- Can be used on multiple bikes with a Fuelpak FP3 installed
- Full mapping sessions complete in as little as fifteen minutes
- Exclusive dealer cloud server account for uploading each dyno session and building private library of FP3 maps

PART #	DESCRIPTION
3807-0474	For use with FP3 PART #1020-2203 only

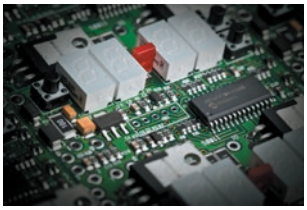
1020-2203



FUELPAK FP3



- The Fuelpak FP3 has revolutionized fuel management for all new Harley-Davidson models using the HDLAN system
- Connecting wirelessly by Bluetooth® to any iPhone® or Android Smartphone, Fuelpak FP3 uses Flash technology to recalibrate engine parameters and mapping for exhaust systems and other performance upgrades downloaded from the expansive library of calibrations developed by Vance & Hines
- Also standard for the Fuelpak FP3 is an AutoTune feature, making use of all factory sensors to add another layer of precision tuning for specific requirements, whether tuning for unique components or different grades of fuel
- With the Fuelpak FP3 module plugged in, Live Sensor Data can be viewed through the smartphone to display speed, rpm, cylinder head temperature, voltage, gear selection and other vital information
- Features smartphone app user interface
- Displays live sensor data; PART #1020-2538 excludes fuel economy, average fuel economy, gear and odometer



PART #	DESCRIPTION
1020-2203[1]	For all 14-20 FLHT/FLHX/FLHR/FLTRX, 18-20 Softails (except CVO models), 11-17 FXS/FLS/FLST, 12-17 FXD/FXDWG (except CVO models), 14-20 XL, 15-20 XG models
1020-2538	For all 07-13 FLHT/FLHX/FLHR/FLTRX, (except 07-08 CVO models) 07-10 FXST/FLST, 07-11 FLD/FXD/FXDWG, 08-11 FXCW/C, 07-13 XL/XR models

[1] EN 6100-6-1, EN 6100-6-1.

FUELPAK

- Throttle position sensor-based system simplifies the process of fuel-injection tuning
- Enables you to fine-tune the fuel mixture throughout the entire rpm range with the touch of a button
- Increases power and improves throttle response
- Very user friendly; plugs into the existing harness on the bike
- No computer or software is required; simply punch in the values provided on the Vance & Hines website
- Values provided are for use with Vance & Hines exhaust systems
- Fuelpak will also work with other exhaust systems (contact V&H tech support for tuning information)
- Includes all necessary mounting hardware

NOTE: Requires the use of a high-performance air filter.

PART #	DESCRIPTION
ORIGINAL FUELPAK	
1020-0361	For 02-07 FLHT/FLHR/FLHX/FLTR models
1020-2000	For 08-11 FXCW/C, 08-11 FLSTSB, 09 FXSTSSE

PART #	DESCRIPTION
ORIGINAL FUELPAK (CONT)	
1020-0360	For 01-06 FXST, 01-11 FLST (except 07-11 FLSTF, 08-11 FLSTSB)
1020-2000	For 04-11 Dyna, 02-11 V-Rod and 09-12 XR1200 models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

POWERED BY COBRA

Fi2000®

Fi2000R PLUG-IN FUEL PROCESSOR

- Proven Fi2000R comes with leads that snap directly into the bike's injector bodies
- Standard open-loop design for 06 Dyna and all 07-08 models can use exhaust systems that do or do not have O_2 sensor bungs
- More advanced tuning for modified bikes
- Think of third tuning pot as an electronic main jet while thinking of the entire Fi2000R as a digital jet kit
- Full range of fuel adjustment (0-10 settings) across all rpm ranges
- Three easily identifiable lights: green – Fi2000R is adding more fuel to the air/fuel ratio approx. 14:1; green and yellow lights – these lights will be on in unison when throttle is open more quickly and air/fuel mixture is approx. 12,5:1; red – light comes on and stays on as long as the Fi2000R follows the fuel curve while adjusting to approx. 12,8:1 air/fuel ratio, which is where the engine will produce its best full-throttle power
- Step-by-step instructions
- Improves rideability by smoothing out the powerband and giving the bike more throttle response
- Corrects lean air/fuel mixture problems; eliminates overheating, hesitation on acceleration or an uneven cruising rpm
- Waterproof circuit board
- No fuel map adjustments or computer downloads required

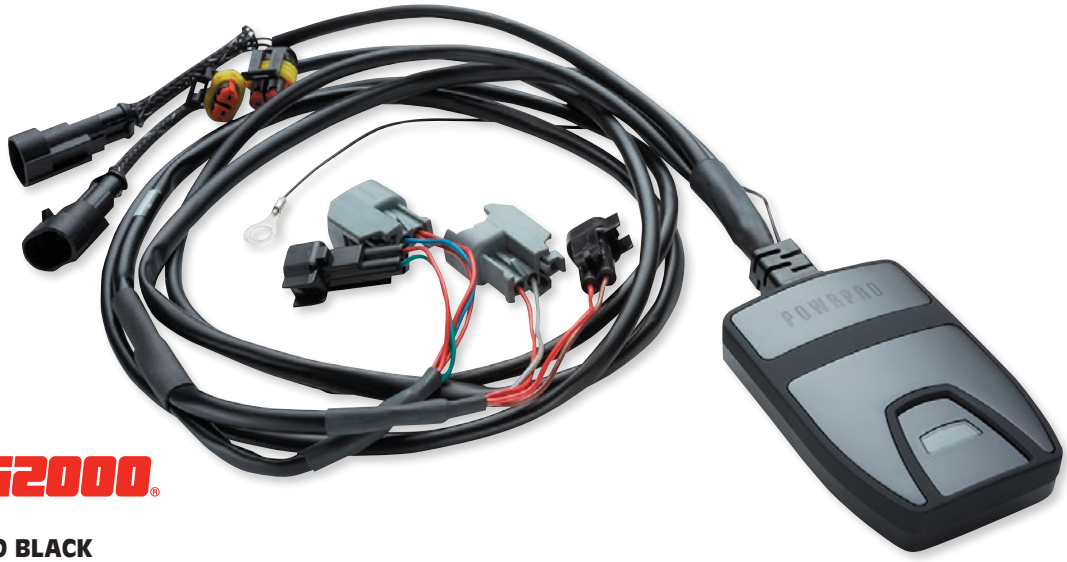
PART #	DESCRIPTION
STANDARD	
1020-0561	For 08-09 FLHT/FLHR/FLTR/FLHX models
1020-0304	For 07 FLHT/FLHR/FLTR/FLHX models
1020-0204	For 06 FLHT/FLHR/FLTR/FLHX models
1020-0093	For 95-05 FLHT/FLHR/FLTR/FLHX models
1020-0544	For 08-11 FXCW/FXCWC models

PART #	DESCRIPTION
STANDARD (CONT)	
1020-0206	For 06 FXST/FLST models
1020-0095	For 01-05 FXST/FLST and 04-05 Dyna Glide models
1020-0306	For 07-11 XL models (except XL1200V 12-13)
1020-0094	For 02-07 V-Rod models
1020-0341	Repl. O_2 Sensor Eliminator kit

Fi2000®

O_2

Fi2000R O_2 FUEL PROCESSORS



- The Fi2000R O_2 digital fuel processor is designed to work with all H-D exhaust systems (stock or aftermarket) equipped with oxygen sensors in place (closed-loop design)
- Works much like a carburetor jet kit with adjustments similar to the air-mixture screw, the needle and clip positions and the main jet
- The Fi2000R increases horsepower and torque by optimizing stock lean air/fuel mixtures (helps cool the engine temps as well)
- Quick and simple installation with plug-and-ride technology with OEM-style connectors
- No confusing computer downloads to install
- No expensive dyno-testing required
- Pre-configured from the factory for your make and model, but easy to adjust should your specific application need it
- Improves overall rideability

PART #	DESCRIPTION
STANDARD	
1020-2662	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/ FLHTCUTG/FLRT models
1020-2126	For 14-16 FLHT/FLHR/FLHX/FLTRX/FLTRU/ FLHTCUTG/FLRT models
1020-0562	For 08-09 FLHT/FLHR/FLTR/FLHX models
1020-2839	For 18-20 FXDRS/FXFB/FXFBS/FXBB/FXBR/ FLDE/FLFB/FLFBS/FLHC/FLHCS/FLSB/FLSL models
1020-1554	For 12-15 FXS/FLS/FLST models (except FXSB/FXSE, CVO)
1020-2608	For 16-17 FLS/FLST models
1020-0303	For 07 FXST/FLST models

PART #	DESCRIPTION
STANDARD (CONT)	
1020-0545	For 08-10 FXCW/FXCWC models
1020-1552	For 12-17 Dyna Glide models
1020-0937	For 08-11 Dyna Glide models
1020-0302	For 07 Dyna Glide models
1020-0314	For 06 Dyna Glide models
1020-2124	For 14-20 XL models
1020-0307	For 07-13 XL models
1020-1572	For 12-17 V-Rod models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

POWERED BY COBRA Fi2000®

Fi2000 POWRPRO BLACK

- Requires no dyno tuning – plug it in and ride
- PowrPro Black analyzes, tunes and adjusts your air/fuel ratio for peak performance instantaneously
- Tunes acceleration fuel delivery in every gear for peak performance
- Works with stock or modified engines, air cleaners and exhaust systems
- Can fine-tune the non-acceleration air/fuel curves using the Bluetooth® app
- Can tune engine fuel delivery in specific ranges, check rpm, read fuel injector pulse width and duty cycle, and add or remove fuel in low- or mid-range rpm

PART #	DESCRIPTION
1020-2661	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/ FLHTCUTG/FLRT models
1020-2577	For 14-16 FLHT/FLHR/FLHX/FLTRX/FLTRU/ FLHTCUTG/FLRT models
1020-2565	For 10-13 FLHT/FLHR/FLTR/FLHX/FLHTCUTG/FLHXXX models
1020-2562	For 08-09 FLHT/FLHR/FLTR/FLHX models
1020-2575	For 08-09 FLHT Police models
1020-2558	For 07 FLHT/FLHR/FLTR/FLHX models
1020-2553	For 06 FLHT/FLHR/FLTR/FLHX models
1020-2551	For 02-05 FLHT/FLHR/FLTR/FLHX models
1020-2779	For 99-01 FLHT/FLHR/FLTR models
1020-2838	For 18-20 FXDRS/FXFB/FXFBS/FXBB/FXBR/FLDE/FLFB/ FLFBS/FLHC/FLHCS/FLSL
1020-2574	For 12-17 FLST CVO models
1020-2573	For 10-11 FLST CVO models
1020-2567	For 12-15 FXS/FLS/FLST models (except FXSB/SE, CVO)
1020-2564	For 08-11 FXST/FLST models (except CVO models)

PART #	DESCRIPTION
1020-2554	For 06 FXST/FLST models
1020-2557	For 06-07 FXST/FLST, 08-09 FLT Police model
1020-2555	For 01-05 FXST/FLST and 04-05 Dyna Glide models
1020-2639	For 16-17 FXDLS models
1020-2566	For 12-17 Dyna Glide models (except 16-17 FXDLS)
1020-2560	For 08-11 Dyna Glide models
1020-2556	For 07 Dyna Glide models
1020-2559	For 06 Dyna Glide models
1020-2568	For 12-17 V-Rod models
1020-2563	For 08-11 VRSCA/B/R V-Rod models
1020-2552	For 02-07 V-Rod models
1020-2572	For 14-20 XL1200 models
1020-2571	For 14-20 XL883 models
1020-2569	For 07-13 XL models (except XL1200V)
1020-2570	For 12-13 XL1200V models

1020-0948

Daytona Twin Tec

TWIN TUNER II

- Twin Tuner II has all the features of the original Twin Tuner and includes ignition timing control capability
- Easily adjusts the OEM Delphi fuel-injection and ignition to match the requirements of performance parts including high-compression pistons/heads, camshafts, free-flowing exhausts, and low-restriction air filters – add 30% or subtract 20% fuel and retard spark timing up to 10°
- You can use the mode and up/down push button switches to make fuel trim adjustments in the rpm and throttle position ranges required by most applications; the fuel trim value is displayed on a bright daylight-readable LED display
- The Twin Tuner also has an advanced mode, using the optional USB Interface and PC Link Tuner software to make precise fuel adjustments and allows independent adjustments to the front and rear cylinders
- May be compatible with other controller maps
- Easy plug-in installation and setup, with no splicing, cutting, crimping or bulky interconnections
- Compact size: 10 cm x 51 mm x 13 mm (4" x 2" x 0,5")
- Compatible with Twin Scan II+ Tuning Aid – install the Twin Scan II+ and ride the bike, then copy the air/fuel ratio corrections calculated by the Twin Scan II+ into the PC Link Tuner software

PART #	DESCRIPTION
1020-0949	For 08-13 FLHT/FLHR/FLTR/FLHX

PART #	DESCRIPTION
1020-0948	For 01-11 Big Twin and 07-13 XL (except 08-11 Touring models)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

Daytona Twin Tec

TWIN TUNER FUEL-INJECTION CONTROLLER

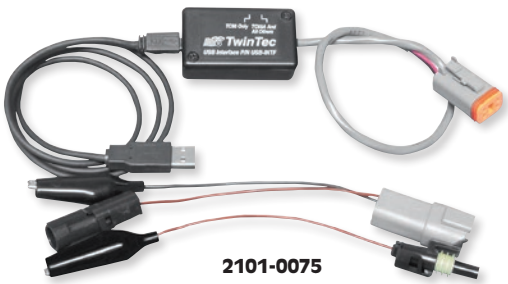
- Allows easy adjustments to OEM Delphi fuel-injection systems to improve performance and match the requirements of performance parts
- Mode and up/down pushbutton switches make fuel trim adjustments in the rpm and throttle position ranges required by most applications; fuel trim value is displayed on a bright daylight-readable LED display
- Advanced mode (using optional USB Interface PART #2101-0075 and PC Link Tuner software) allows precise fuel adjustments and independent adjustments to the front and rear cylinders
- May be compatible with other controller maps
- Easy plug-in installation and setup
- Compact size: 10 cm x 51 mm x 13 mm (4" x 2" x 0,5")
- Compatible with Twin Scan II+ Tuning Aid – install the Twin Scan II+ and ride the bike, then copy the air/fuel ratio corrections calculated by the Twin Scan II+ into the PC Link Tuner software

PART #	DESCRIPTION
1020-0834	For 03-07 Buell

TCFI AUTO-TUNING FUEL INJECTION KITS

- Offer real-time and continuous auto-tuning with monitoring, control and override capability
- Utilizes high-end Alpha-N fuel control to eliminate any dependence on manifold pressure; unaffected by long duration and high overlap camshafts
- Programmable user outputs for functions such as shift light, nitrous activation and electric shifter
- Support all sensors including theft and security module
- User-friendly PC Link software with 3-D graphics and easy spreadsheet editing capabilities for quick cell block changes
- Built-in data logging that helps you diagnose real-world problems
- Easy to install by simply replacing stock ECM and O_2 sensors with those included in kit; detailed instructions included

PART #	DESCRIPTION
1020-2383	For 08-13 FLHT/FLHR/FLHX/FLTR models
1021-0007	For 01-11 Twin Cam (except 11 Softail and 08-11 Touring models)



1020-2383

- Kit includes TCFI plug-in fuel injection controller, USB interface for PC, software, WEGO IID dual-channel wide-band exhaust gas oxygen sensor interface, two Bosch LSU 4.2 wide-band exhaust oxygen sensors and two 18 x 1,5 mm weld nuts for exhaust pipes
- See page 513 for replacement weld nuts and socket plugs

PART #	DESCRIPTION
REPLACEMENT COMPONENT FOR TCFI INJECTION TUNERS	
1022-0008	Repl. Bosch brand WEGO II oxygen sensor (sold each)

1020-2033

2101-0075

FI-TO-CARBURETOR CONVERSION KIT

- Allows most Big Twin and XL models with Delphi EFI to be converted to a carb fuel system
- Uses existing wiring harness with no modifications needed
- All functions of the turn signal/security module continue to function normally
- Includes required software and detailed instructions

NOTE: Requires the separate purchase of USB interface PART #2101-0075.

NOTE: Requires the separate purchase of a Pingel fuel injection-to-carb tank fitting kit PART #0705-0031.

PART #	DESCRIPTION
1020-2033	For 01-07 Big Twin and 07 XL models w/ 36-pin connector
2101-0075	USB interface kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

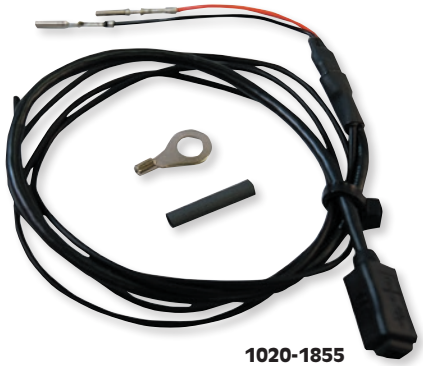
THUNDER MAX

1020-1851

1020-2361

1022-0039

THUNDERMAX ECMs WITH INTEGRAL AUTO-TUNE SYSTEM



- ThunderMax ECM with Auto-Tune module mounts conveniently in place of the factory ECM and plugs in to the existing harness
- Utilizes wide-band O_2 sensors and works as a closed-loop control system to continuously self-adjust and properly tune the motorcycle's air/fuel ratio for all riding conditions
- Easy installation: replace the factory ECM, install new O_2 sensors and harness, load the correct map for your bike, and ride
- Includes ThunderMax ECM with Auto-Tune Module, plug-in harness and two wide-band sensors, TMax software and communication USB cable, Quick-Start Easy Install and Comprehensive User's Manual, technical support and free software and updates
- Hundreds of maps available to download for your bike (based on model, engine size, exhaust system air cleaner, pistons, cams, etc.) – load the map of your choice and the integral Auto-Tune will do the rest
- Improves throttle response, exhaust sound and driveability
- Does not require dyno tuning
- Rider can adjust idle speed, rev limit and speedometer calibration
- Adjustable front and rear cylinder AFR maps, ignition timing (spark) maps, and startup maps
- Works with all popular exhaust systems and is compatible with high-performance camshafts
- Supports turbo, nitrous and supercharger applications
- Software program allows live monitoring, recording and examination of diagnostic codes and datalogs including number of starts, engine temperature and rpm operation
- New maps, software, firmware updates, map analysis and tech support available online at no charge

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their O_2 sensor port bungs.

PART #	DESCRIPTION
1020-2664	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLHTCUTG/FLRT
1020-2118[1]	For 14-16 FLHT/FLHR/FLHX/FLTR models and 14-15 FLSTNSE models
1020-0836[1]	For 08-13 FLHT/FLHR/FLHX/FLTR models and 09-13 H-D FL Trike
1020-2795	For 18 Softail models
1020-2850[1]	For 16-17 FXS/FXST/FLS/FLST models, 14-15 FXSBSE/FLSTNSE models, 16-17 FXDLS models
1020-2360[1]	For 12-15 FXS/FLS/FLST models, 12-17 FXD/FLD/FXDWG models (except FXDLS) and 14-18 XL models
1020-1848	For 11 FXS/FLST models
1020-1851	For 01-10 FXST/FLST, 02-07 FLHT/FLHR/FLTR/FLHX, 07-09 XL
1020-2361	For 08-10 FXCW/C, 04-11 FXD/FXDWG, 09 SE Softail, 10-13 XL models and 08-12 XR1200/X (includes mini USB pigtail)
1020-1853[1]	For 02-17 V-Rod models
1020-2382	For 15-18 XG500/750 models
1022-0039	Repl. 18 mm oxygen sensor (ea.)

[1] Will require the use of an exhaust system with 18 mm sensor bungs or headpipes must be modified to accept 18 mm sensors.

1022-0059

1020-1855

THUNDERMAX PIGTAIL HARNESS

- Allows a second port for the communication cable connection to the ThunderMax
- It is installed to the bike's wiring harness at the 36-pin ECM connector (connection requires harness plug disassembly; two terminated wires are inserted into two unused ports in the 36-pin connector, and a ground wire added)
- Handy for motorcycle models with tight clearances around the ECM such as Dyna, Softail Rocker and 02-05 V-Rod models

NOTE: PART #1022-0059 requires ThunderMax ECM with serial number 114000 or higher (produced beginning August 2008). Will not work on previous model ThunderMax PART #232661 TBW unit.

NOTE: PART #1020-1855 requires ThunderMax ECM with Mini USB communication port (beginning November 2012). Will not work on previous model ThunderMax ECM or PART #1020-0836 (Touring TBW units).

PART #	DESCRIPTION
1022-0059	ThunderMax pigtail harness for V-Rod PART #1020-1853, Gen II PART #s 1020-0323, 1020-1279, 1020-1311 and AutoTune repl. module PART #1020-0322
1020-1855	ThunderMax Mini USB pigtail for remote access to modules PART #s 1020-1851, 1020-1852 and 1020-2361

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

1020-1717

1020-1716

NAMZ Custom Cycle Products

ADJUSTABLE O_2 ENRICHMENT DEVICES

- Enrichment devices are intended to give riders the proper fuel mixture when adding performance mufflers, pipes and high-flow air filter upgrades
- Adjustable version allows external adjustment of the air-fuel ratio in closed-loop mode
- Cheaper than other fuel management programmers or auto tuners
- Reduces engine temperature 20-30 °F
- Recommended for models with high-flow air intakes and exhaust

PART #	DESCRIPTION
1020-1717	For 10-16 Touring models, all 12-17 Softail, Dyna and V-Rod models

PART #	DESCRIPTION
1020-1716	For 06-11 Dyna, 07-11 Softail, 07-13 XL and 07-08 Touring models

NAMZ Custom Cycle Products

1020-1151

O_2 ENRICHMENT DEVICES

- Reduce your engine's temperature 20 to 30 °F
- Install in a few minutes; simply plug in between the oxygen sensors and the OEM wiring harness
- Recommended for models with high-flow air intakes and exhausts
- Sold in pairs

PART #	DESCRIPTION
1020-1296	For 10-16 Touring models and 12-17 Softail/Dyna models (all)
1020-1295	For 09 Touring models (all)
1020-1151	For 07-08 Touring models and all 07-11 Big Twin Race (except 08-11 Touring and H-D FL Trikes)
1020-0796	For 06 Dyna and all 07-11 models (except 08-12 Touring and H-D FL Trikes)
1020-1152	For 07-13 XL and 09-12 XR 1200

1021-0011

PROVEN S&S PERFORMANCE

70 MM INDUCTION KITS

- Includes a 70 mm S&S Throttle Hog throttle body and all components needed for installation on the 143" engine
- S&S Stealth air cleaner included; use stock 99-07 cover or any of the S&S Stealth covers (available separately. see page 556)

PART #	DESCRIPTION
1021-0011	For 06-07 Touring models

PART #	DESCRIPTION
1021-0012	For 02-05 Touring/Dyna models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

1022-0182

1022-0186

1022-0190

1022-0193

CABLE OPERATED THROTTLE HOG THROTTLE BODIES

- More airflow for improved performance
- Choose from 58 mm for stock or mildly built engines, or the whopping 66 mm for big inch engines
- Requires throttle body specific Stealth air cleaners (available separately) for 58 mm and 66 mm bodies
- One-piece throttle body/manifold design for easy installation and stock appearance
- Compatible with stock sensors, fuel rail and throttle cables
- Sealed, stainless steel throttle shaft with dual roller bearings for smooth operation and no air leaks
- Black powdercoat finish matches stock
- Throttle bodies include hardened steel flanges and seals

NOTE: Some S&S heads have additional material on the manifold surface to allow the use of a stock length manifold (405) on a 124" engine. If you are not sure which manifold should be ordered, check fitment with the stock manifold first.

FOR 02-05 TWIN CAM, S&S HOT SETUP KITS AND T-SERIES LONG BLOCKS W/ CABLE OPERATED THROTTLE

PART #	DESCRIPTION
58 MM	
1022-0182	For 97", 98", and S&S T-Series engines (engines produced after 1.10.2012), 410 size manifold size
1022-0184	For S&S T-Series 111" engines produced prior to 1.10.2012, 398 size manifold
1022-0185	For S&S 117" Hot Setup kits, 408 size manifold
1022-0183	For S&S T-Series 124" engines produced prior to 1.10.2012, 417 size manifold

PART #	DESCRIPTION
66 MM	
1022-0187	For 97", 98", and S&S T-Series engines (engines produced after 1.10.2012), 410 size manifold size
1022-0189	For S&S T-Series 111" engines produced prior to 1.10.2012, 398 size manifold
1022-0188	For S&S 117" Hot Setup kits, 408 size manifold
1022-0186	For S&S T-Series 124" engines produced prior to 1.10.2012, 417 size manifold

FOR 06-17 TWIN CAM, S&S HOT SETUP KITS AND T-SERIES LONG BLOCKS W/ CABLE OPERATED THROTTLE

PART #	DESCRIPTION
58 MM	
1022-0191	For 98", 103", 106", 107", S&S 117" Hot Setup kit and 124" Hot Setup kit (w/ S&S +0,032" heads only), S&S T series engines (engines produced after 1.10.2012), 405 size manifold
1022-0192	For S&S T-Series 111" engines produced prior to 1.10.2012, 398 size manifold
1022-0190	For S&S T-Series 124" engines w/ S&S bolt pattern and 124" Hot Setup kit (w/ stock or standard S&S heads produced prior to 1.10.2012), 417 size manifold

PART #	DESCRIPTION
66 MM	
1022-0194	For 98", 103", 106", 107", S&S 117" Hot Setup kit and 124" Hot Setup kit (w/ S&S +0,032" heads only), S&S T series engines (engines produced after 1.10.2012), 405 size manifold
1022-0195	For S&S T-Series 111" engines produced prior to 1.10.2012, 398 size manifold
1022-0193	For S&S T-Series 124" engines w/ S&S bolt pattern and 124" Hot Setup kit (w/ stock or standard S&S heads produced prior to 1.10.2012), 417 size manifold

SINGLE-BORE THROTTLE BODIES

- Designed for riders seeking the greatest possible performance gains from their fuel-injected engines
- For maximum tunability and performance gains an S&S Variable Fuel-Injection (VFI) module is recommended (sold separately), but any compatible, programmable module with enough capability and tuning range can be used
- Components must be purchased separately to complete a Single-Bore EFI assembly

NOTE: Appropriate air cleaner kit must be ordered separately, see page 555.

1022-0081

1050-0151

PART #	DESCRIPTION
THROTTLE BODIES	
1022-0082	58 mm for 06-17 Big Twin and aftermarket models (Delphi-style) (except 16-17 Softail, and 08-17 Touring models)
1022-0081	58 mm for 01-05 EFI Big Twin and aftermarket models (Delphi-style)
1050-0243	58 mm for 124" fuel-injected Big Twin w/ 5,013" cylinder length

PART #	DESCRIPTION
THROTTLE BODIES (CONT)	
1050-0261	58 mm for 96", 103" and 106" 06-13 Big Twins w/ stock or S&S heads w/ 4,937" cylinder length
MANIFOLD	
1050-0151	For 80", 88", 89", 95", 96" 103" and 106" motors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

1022-0205

1022-0208

1015-0114

KURYAKYN

THROTTLE SERVO MOTOR COVERS

- Quick, easy upgrade to the stock throttle servo motor
- Durable cast aluminum construction designed to conceal the exposed throttle servo motor and wiring
- Available with a chrome or gloss black finish

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU AND H-D FL TRIKES	
CHROME	
1022-0205	For all Kuryakyn air cleaners
1022-0207	For all Screamin' Eagle Stage 1 air cleaners
GLOSS BLACK	
1022-0206	For all Kuryakyn air cleaners
1022-0208	For all Screamin' Eagle Stage 1 air cleaners

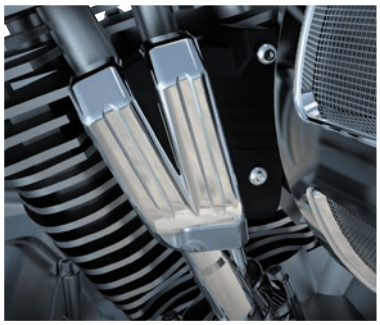
PART #	DESCRIPTION
FOR 17 FXDLS, 16-17 SOFTAIL, 08-16 FLHT/FLHR/FLTR/FLHX AND H-D FL TRIKES, 11-12 FLSTSE, 14-15 FLSTNSE AND 13-14 FXSBSE	
CHROME	
1015-0114	For all Kuryakyn air cleaners
1015-0113	For all Screamin' Eagle Stage 1 air cleaners

Performance Machine

THROTTLE SERVO COVER

- Simple, slim and attractive two-piece design
- Covers Throttle-By-Wire servos
- For use with Performance Machine air cleaners only
- Available in chrome and black anodized finishes

1015-0123



1015-0124

PART #	DESCRIPTION
FOR 17 FXDLS, 16-17 SOFTAIL, 08-16 FLHT/FLHR/FLTR/FLHX AND H-D TRIKE	
1015-0123	Black anodized

PART #	DESCRIPTION
FOR 17 FXDLS, 16-17 SOFTAIL, 08-16 FLHT/FLHR/FLTR/FLHX AND H-D TRIKE (CONT)	
1015-0124	Chrome

CIRO

SERVO HARNESS COVER

- Hides the servo motor harness on the side of the throttle body
- Easy to install, no need to remove air cleaner
- Strong ABS polymer construction in chrome and black
- Designed to blend in with the engine and pushrod tubes

PART #	DESCRIPTION
1015-0144	For 09-16 FLHT/FLHR/FLTR/FLHX and H-D trike

TRASK

FUEL REGULATOR HOUSING

- Anodized housing is CNC-machined from billet aluminum
- Replaces the plastic OEM housing

PART #	DESCRIPTION
1009-0025	For 01-07 FXST/FLST, 02-07 FLHT/FLHX/ FLHR/FLTR; repl. OEM #62373-01

Genuine James Gaskets

INDUCTION MODULE ASSEMBLY O-RING KIT

- Kit contains fuel fitting O-rings

PART #	DESCRIPTION
DS-174988	For 99-01 FLT/FLHT/FLHR fuel-injected models; repl. OEM #17043-95

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

PART #	DESCRIPTION
INJECTORS	
DS289284	For 01-05 FXST/FLST, 02-05 FLT and 04-05 Dyna models (4,04 gm/sec) (ea.); repl. OEM #27609-01
FUEL REGULATORS	
DS-289143	For 95-99 (300 kPa), (43 PSI); repl. OEM #27219-95
AIR TEMPERATURE SENSOR	
DS-289144	For 95-05; repl. OEM #27270-95
ENGINE TEMPERATURE SENSOR	
DS289285	For 99-17; repl. OEM #32446-99
BAROMETRIC PRESSURE SWITCH	
DS189001	For 95-98 (100 kPa); repl. OEM #32424-95

PART #	DESCRIPTION
THROTTLE POSITION SENSORS	
1022-0021	For 06-17 Dyna (except 16-17 FXDLS), 06-15 FXST/FLST and 06-07 FLHT models; repl. OEM #27659-06
2103-1002	For 01-05 FXST/FLST/FXSTD, 02-05 FLT/FLHT and 04-05 Dyna models; repl. OEM #27629-01
IDLE AIR CONTROL MODULES	
1022-0022	For 06-17 Dyna (except 16-17 FXDLS), 06-15 FXST/FLST and 06-07 FLHT models; repl. OEM #27658-06
1022-0084	For 01-05 FXST/FLST, 02-05 FLHT/FLHR/FLTR, 04-05 Dyna, 07-20 XL and 02-10 VRSC models; repl. OEM #27628-01/01A
MAP SENSOR WITH SEAL	
1050-0039	For 99-10 fuel-injected Big Twin models (except 08-10 Dressers), 00-06 Big Twin and 04-06 XL carb models; repl. OEM #32316-99

1022-0085

1022-0075

PART #	DESCRIPTION
INJECTORS	
1022-0077	For 01-05 FXST/FLST, 02-05 FLT and 04-05 Dyna models (4,04 gm/sec) (ea.); repl. OEM #27609-01
1022-0072	For 01-05 FXST/FLST, 02-05 FLT and 04-05 Dyna models (high flow, 5,9 gm/sec) (ea.); repl. OEM #27609-01
FUEL REGULATORS	
1009-0012	For 99 (300 kPa); repl. OEM #27219-95
AIR TEMPERATURE SENSOR	
1050-0238	For 99-05; repl. OEM #27270-95
ENGINE TEMPERATURE SENSOR	
1050-0239	For 99-17; repl. OEM #32446-99

PART #	DESCRIPTION
THROTTLE POSITION SENSORS	
1022-0076	For 01-05 FXST/FLST/FXSTD, 02-05 FLT/FLHT and 04-05 Dyna models; repl. OEM #27629-01
1022-0073	For 06-17 Dyna (except 16-17 FXDLS), 06-15 FXST/FLST and 06-07 FLHT models; repl. OEM #27659-06
IDLE AIR CONTROL MODULES	
1022-0074	For 06-17 Dyna (except 16-17 FXDLS), 06-15 FXST/FLST and 06-07 FLHT models; repl. OEM #27658-06
1022-0085	For 01-05 FXST/FLST, 02-05 FLHT/FLHR/FLTR, 04-05 Dyna, 07-20 XL and 02-10 VRSC models; repl. OEM #27628-01/01A
MAP SENSOR WITH SEAL	
1022-0075	For 99-10 fuel-injected Big Twin models (except 08-10 Dressers), 00-06 Big Twin and 04-06 XL carb models; repl. OEM #32316-99

FEULING

ELECTRONIC FUEL-INJECTION COMPONENTS

- Quality OEM replacements and upgrades available as listed
- PART #s 1022-0120, -0114, -0115, -0116, -0229 and -0230 are for RACE USE ONLY
- Sold each

PART #	DESCRIPTION	CONNECTOR TYPE	FLOW RATE, GRAMS PER SECOND
INJECTORS			
FOR 17-20 M-EIGHT TOURING AND SOFTAILS			
1022-0229	Provides 20% more fuel than the OE injectors and 3,5% less than the SE 5.5 G/S injectors. These deliver fuel at 5,3 grams per second through multiple spray holes. Recommended for performance engine combinations making over 90 rear wheel horsepower; repl. OEM #27400015; repl. SE #27400040	EV-6 USCAR	5,3
1022-0230	Provides 27% more fuel than the OE injectors and 11% more than the SE 5,5 G/S injectors. These deliver fuel at 6,1 grams per second through multiple spray holes. Recommended for performance engine combinations making over 110 rear wheel horsepower; repl. OEM #27400015; repl. SE #27400040	EV-6 USCAR	6,1
FOR 02-16 TOURING (EXCEPT 06-07), 16-17 SOFTAILS, 01-05 SOFTAILS, 04-05 DYNA, 07-19 XL AND 02-17 V-ROD			
1022-0118	XL OEM replacement for stock to mild performance engines; repl. OEM #27706-07/A	EV-1 Minitimer square	3,8
1022-0113	OEM stock replacement (except XL/V-Rod) 46mm, OEM 50 mm, Screamin' Eagle 43 mm throttle body (4 spray holes) for stock to mild performance engines under 95 hp at rear wheel, injector; repl. OEM #27609-01B	EV-1 Minitimer square	4,3
1022-0119	V-Rod stock replacement, great performing injector for XL and Twin Cam engines with mild cylinder head work and increased compression ratios, 4 spray holes with 20 degree spray pattern; for stock to mild performance engines (6-spray holes); repl. OEM #27665-01/A	EV-1 Minitimer square	5,1
1022-0228	High-flow red band injector 5,3 g/s. Recommended for mild to medium performance engines making over 95 hp to the rear wheel, also fits higher performance XL engines looking for a higher flow rate; repl. OEM #27796-08	EV-1 Minitimer square	5,3
1022-0115	For Screamin' Eagle 58 mm throttle body and high flow oval-port intake manifold (4 spray holes, 23% over OEM for race applications only with over 110+hp at rear wheel); repl. OEM #27617-08	EV-1 Minitimer square	5,7+
1022-0231	High-flow yellow band. Fuel flow at 6,2 g/s with a single hole 15° spray pattern. Recommended for mild to medium performance engines making over 110 hp to the rear wheel, also fits higher performance XL and V-Rod engines looking for extreme high flow rate.	EV-1 Minitimer square	6,2
1022-0161	For race only engines	EV-1 Minitimer square	8,2
FOR 06-07 TOURING, 06-15 SOFTAILS, 06-17 DYNA AND SE 50, 58, 62MM THROTTLE BODIES W/ CABLE DRIVEN THROTTLES			
1022-0112	OEM stock replacement for models w/ Original Equipment 46 mm throttle body (updated 25° angle cone with 6 spray-hole nozzle ends, supersedes OEM #27625-06); repl. OEM #27709-06/A	EV-6 USCAR	3,91
1022-0114	Provides 25% more fuel than OE, 3 spray holes, for race applications only with over 100hp at rear wheel; repl. OEM #27654-06	EV-6 USCAR	4,9
1022-0120	Provides 25% more fuel than the OE injectors through 4 spray holes with a dual pattern; 13°/6°. Recommended for performance engine combinations making over 100 rear wheel horsepower	EV-6 USCAR	5,3
1022-0116	Provides 59% more fuel than OE, for race applications only with over 120hp at rear wheel; repl. OEM #27400004	EV-6 USCAR	6,2
THROTTLE POSITION SENSORS			
1022-0121	For 06-07 FLHT, 06-15 FXST/FLST, 06-17 Dyna (except 16-17 FXDLS); repl. OEM #27659-06	-	-
1022-0123	For 02-05 FLT/FLHT, 01-05 FXSTI/FLSTI/FXSTDI, 04-05 Dyna; repl. OEM #27629-01	-	-
IDLE AIR CONTROL MODULE			
1022-0122	For 06-07 FLHT, 06-15 FXST/FLST, 06-17 Dyna (except 16-17 FXDLS); repl. OEM #27658-06	-	-
MAP SENSOR WITH SEAL			
1022-0124	For 99-10 fuel-injected Big Twin models (except 08-10 Dressers), 00-06 Big Twin and 04-06 XL carb models; repl. OEM #32316-99	-	-
1022-0162	For 08-16 Touring, 16-17 FXDLS, 16-17 Softails and 07-19 XL fuel-injected models; repl. OEM #32319-07/A	-	-
INJECTOR ADAPTERS (EA.)			
1022-0180	Adapts EV6 plug to fit EV1 Injector	-	-
1022-0225	Adapts EV1 injector connectors to EV6 injectors	-	-
FUEL PRESSURE REGULATOR			
1009-0083	For 99 models; repl. OEM #27219-95	-	-

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

1022-0212

1022-0209

ELECTRONIC FUEL-INJECTION COMPONENTS

- For single bore throttle bodies
- Sold each

PART #	DESCRIPTION
AIR TEMPERATURE SENSOR W/ HARDWARE	
1022-0211	For 99-05 Big Twin; repl. OEM #27270-95
THROTTLE POSITION SENSOR W/ HARDWARE	
1022-0212	For 01-05 Big Twin, VFI; repl OEM #27271-99

PART #	DESCRIPTION
IDLE AIR CONTROL MOTOR KIT	
1022-0209	For 01-05 Big Twin, 02-10 VRSC, 07-20 XL, S&S X-Wedge w/ S&S SBEFI, repl. OEM #27628-01/A

1022-0136

1022-0145

HIGH-PERFORMANCE FUEL INJECTORS

- Made using the latest injector technology
- Detailed test report included with each set
- Sold in matched sets

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
1022-0216	5,38 grams per second at 58 psi, 25° spray angle
1022-0217	6,24 grams per second at 58 psi, 25° spray angle
1022-0218	7,08 grams per second at 58 psi, 25° spray angle
1022-0219	7,79 grams per second at 58 psi, 25° spray angle
1022-0220	8,49 grams per second at 58 psi, 25° spray angle
1022-0221	9,22 grams per second at 58 psi, 25° spray angle
1022-0222	9,90 grams per second at 58 psi, 25° spray angle
1022-0223	10,62 grams per second at 58 psi, 25° spray angle
FOR 06-17 TWIN CAM MODELS W/ CABLE THROTTLE CONTROL (EXCEPT V-ROD AND SPORTSTER)	
1022-0136	3,9 grams per second at 58 psi, 25° spray angle
1022-0137	5,4 grams per second at 58 psi, 25° spray angle
1022-0138	6,2 grams per second at 58 psi, 25° spray angle
1022-0139	7,1 grams per second at 58 psi, 25° spray angle
1022-0140	7,8 grams per second at 58 psi, 25° spray angle

PART #	DESCRIPTION
FOR 06-17 TWIN CAM MODELS W/ CABLE THROTTLE CONTROL (EXCEPT V-ROD AND SPORTSTER) (CONT)	
1022-0141	8,5 grams per second at 58 psi, 25° spray angle
1022-0142	9,2 grams per second at 58 psi, 25° spray angle
1022-0143	9,9 grams per second at 58 psi, 25° spray angle
1022-0144	10,6 grams per second at 58 psi, 25° spray angle
FOR 16-17 FXDLS, 16-17 SOFTAILS, 08-16 DRESSERS MODELS W/ ELECTRONIC THROTTLE CONTROL	
1022-0145	5,4 grams per second at 58 psi, 18° spray angle
1022-0146	6,2 grams per second at 58 psi, 18° spray angle
1022-0147	7,1 grams per second at 58 psi, 18° spray angle
1022-0148	7,8 grams per second at 58 psi, 18° spray angle
1022-0149	8,5 grams per second at 58 psi, 18° spray angle
1022-0150	9,2 grams per second at 58 psi, 18° spray angle
1022-0151	9,9 grams per second at 58 psi, 18° spray angle
1022-0152	10,6 grams per second at 58 psi, 18° spray angle

FUEL INJECTOR

- Meets OE stock specifications
- Sold each
- EV-6 USCAR connector

PART #	DESCRIPTION
1022-0181	For 06-17 Twin Cam w/ cable throttle control; repl. OEM #27709-06/A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

1001-0046

1001-0018

DS-0409

SUPER E AND G SHORTY CARBURETOR KITS

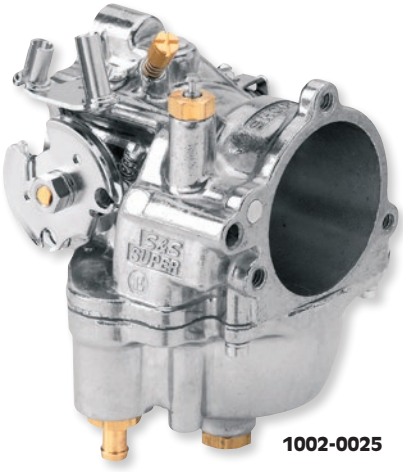
- Each carb kit includes a natural finish S&S Super E or Super G gas carburetor (unless noted) with updated fuel delivery pots and idle screw, S&S teardrop air cleaner assembly, manifold (unless noted), mounting hardware, fuel line, clamps, overflow line, one extra intermediate jet and two main jets, VOES tubing (when applicable), installation and jetting instructions
- Super E has a 1,875" throat at the butterfly and a 1,5625" venturi and is recommended for use on Big Twin or Sportster engines up to 100-cubic-inch
- Super G has a 2,0625" throat at the butterfly and a 1,75" venturi and is recommended for use on 90-cubic-inch and larger high-performance and modified engines
- Super G is not recommended for smaller, lower compression engines
- If there is a doubt as to which carburetor to use, we suggest the 1,875" Super E

NOTE: S&S Super E & G carburetors require the use of a two-cable, pull open/pull close throttle assembly; S&S kits are compatible with stock cables except as noted.

DESCRIPTION	SUPER E	SUPER G
FOR BIG TWIN MODELS (INCLUDES MANIFOLD)		
For 06 Twin Cam	**1001-0039**	**1001-0040**
For 99-05 Twin Cam	**DS-0452**	**DS-0453**
For 99-06 Twin Cam, T143 Twin Cam style engine (incl. Stealth air cleaner)	-	**1001-0046**[1]

DESCRIPTION	SUPER E	SUPER G
FOR XL MODELS (INCLUDES MANIFOLD)		
For 04-06 XL	**1001-0018**	-
For 91-03 XL	**DS-0409**	-
For 86-90 XL	**DS-0408**	-

[1] Does not include air cleaner cover. Stock 99-06 cover or any S&S Stealth style cover can be used (sold separately).



CRUISE CONTROL ADAPTER KIT

- Super Shorty carbs can easily be installed on motorcycles equipped with stock H-D cruise control
- Includes all parts and instructions needed to complete installation

PART #	DESCRIPTION
1003-0022	For 99-06 Twin Cam

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

1002-0025

1001-0044

SUPER E AND G CARBURETORS

- Four fuel delivery ports for better fuel flow
- O-ring sealed idle mixture screw
- Increased airflow for more horsepower
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the OEM dual-cable throttle system for smooth, reliable operation
- Variable position enrichment starting system
- High-quality fit and finish
- Super E carburetors have $1^{7}/_{8}$" throat at the butterfly and a 1,5625" venturi; recommended for use on Big Twin or XL engines up to 100 cubic inches in displacement
- Super G carburetors have a $2^{1}/_{16}$" throat at the butterfly and a 1,75" venturi; recommended for use on high-performance and modified engines 90 cubic inches or larger in displacement
- Super G carburetors are not recommended for smaller-displacement, low compression engines
- Big bore carburetors feature a 7% larger venturi for more airflow
- Sold each

FOR 99-06 BIG TWIN AND 86-06 XL

PART #	DESCRIPTION
SUPER E	
1002-0025	Natural finish
1002-0059	Black finish
1001-0043	Black finish, big bore

PART #	DESCRIPTION
SUPER G	
1002-0026	Natural finish
1002-0060	Black finish
1001-0044	Black finish, big bore

42-18

45-4X

HSR42 AND HSR45 SMOOTHBORE CARBURETOR KITS

- Kits include the 42 mm/45 mm smoothbore carb in a natural finish
- Easier, faster installation using stock CV throttle cables
- Excellent throttle response, more power, improved acceleration and better gas mileage
- Order fewer part numbers to cover more applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well made for years of dependable service
- See pages 545-546 for additional main and pilot jets
- Installation instructions and hardware included

NOTE: Kits are not for use on models with cruise controls.

42 MM/45 MM EASY KITS

- Accepts the original H-D intake manifold, choke cable, air cleaner and throttle cables
- Keep the stock look of your bike
- Recommend the use of a high-flow air filter designed for the stock CV carb

42/45 MM TOTAL KITS

- Includes performance intake manifold, rubber flange, 42 mm or 45 mm carb, high-flow K&N filter, air cleaner cover, breather kit and hardware

EASY KITS

PART #	DESCRIPTION
42 MM	
42-18	For 99-06 Twin Cam (not for use with stock air cleaner; requires a hi-perf air cleaner; use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)
42-10	For 94-03 XL 1200 models (includes special backing plate and hardware; use stock oval air cleaner cover and high-flow filter)

PART #	DESCRIPTION
42 MM (CONT)	
42-11	For 94-06 XL 1200 models and 94-02 Buell; must use aftermarket air filter (include air filter adapter)
45 MM	
1002-0030	For 99-06 Twin Cam; requires use of Screamin' Eagle manifold (use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)

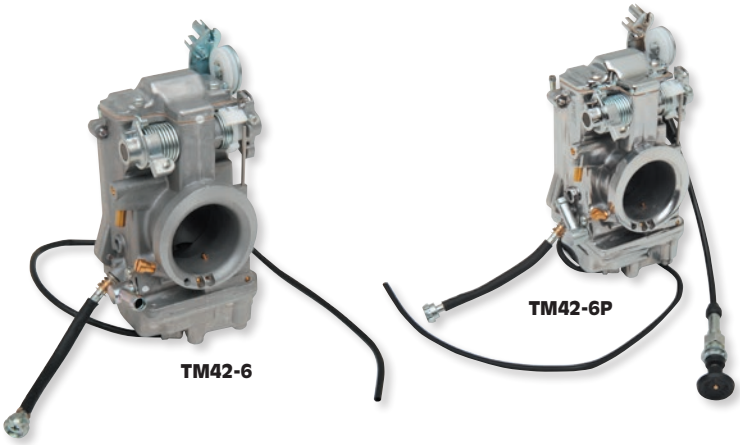
TOTAL KITS

PART #	DESCRIPTION
42 MM CARB KITS	
42-19	For 99-06 Twin Cam

PART #	DESCRIPTION
45 MM CARB KITS	
45-4X	For 99-06 Twin Cam

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.



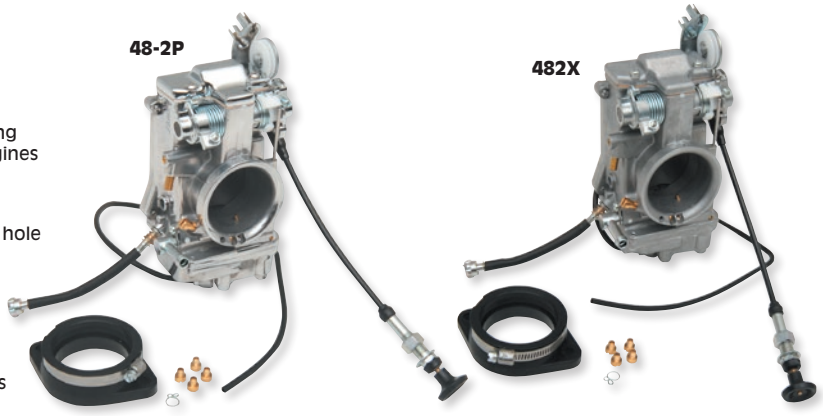
HSR42 AND HSR45 SMOOTHBORE CARBURETORS

- For the high-performance engine builder who needs a carb for specific custom applications
- Available in standard or highly-polished finishes
- HSR smoothbore carbs offer excellent throttle response and control
- Well made for years of dependable service
- See pages 545-546 for additional main and pilot jets

NOTE: Choke cable included, except for the TM42-6, which uses stock choke cable from CV-type carb.

NOTE: Airbox adapter HS42/001-K must be ordered separately.

NOTE: Kits are not for use on models with cruise controls.



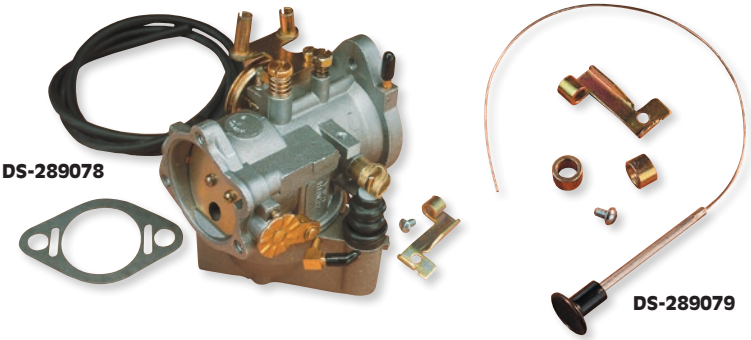
PART #	DESCRIPTION
TM42-6	42 mm carb, standard finish
TM42-6P	42 mm carb, polished finish

PART #	DESCRIPTION
TM45-2	45 mm carb, standard finish
TM45-2P	45 mm carb, polished finish

HSR48 SMOOTHBORE CARBURETORS

- These high-performance carbs are ideal for realizing the maximum potential from custom and race engines
- Available in standard or highly-polished finishes
- Recommended for engines over 120ci or larger
- Includes rubber mounting flange with 78 mm bolt hole centers, choke cable and four different main jets
- Uses stock H-D throttle cables
- HSR smoothbore carbs offer excellent throttle response and control
- Well made for years of dependable service
- See pages 545-546 for additional main and pilot jets
- For race and custom applications only

PART #	DESCRIPTION
48-2P	48 mm carb, polished finish

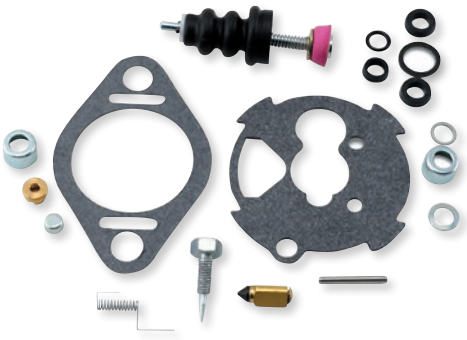


PART #	DESCRIPTION
482X	48 mm carb, standard finish

REPLACEMENT FILTER ELEMENTS

- Replacement 2 1/2" or 3" filter element for HSR42/45/48 carburetor

PART #	DESCRIPTION
HS42012-250	2 1/2" filter element
HS42/012-300	3" filter element



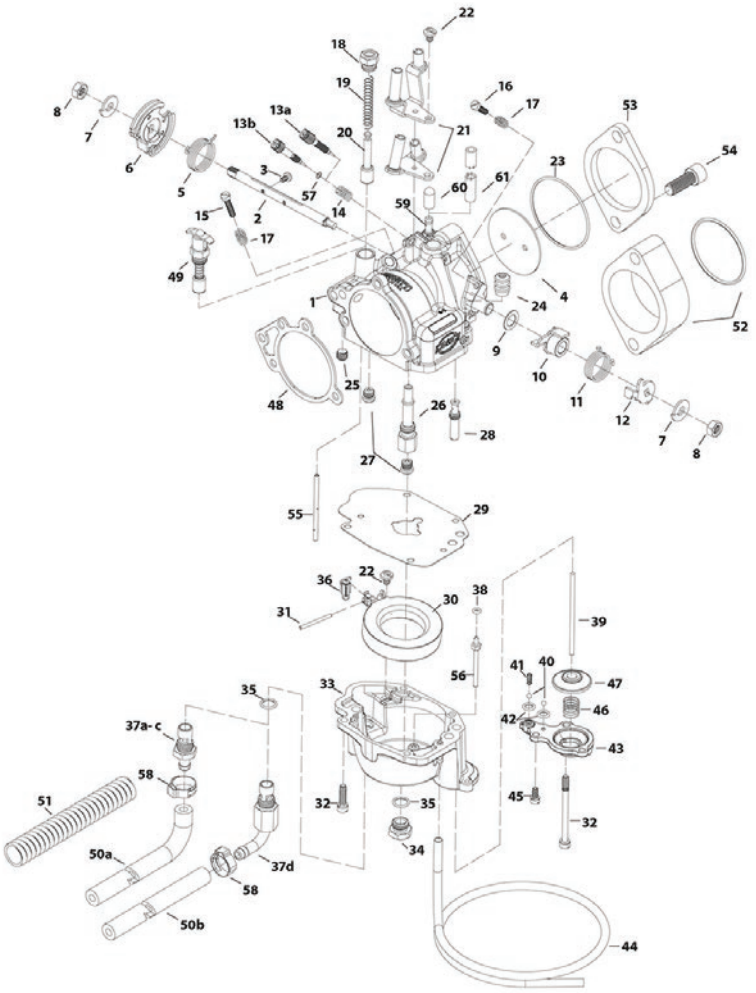
BENDIX CARBURETOR

- High-performance Bendix carburetor is a bolt-on replacement that doesn't require any extra fittings or linkage connections
- Offers adjustable high-speed jets; all provide improved acceleration and easier, quicker starts

NOTE: All Bendix carbs may be used for other applications, provided correct cables are used.

PART #	DESCRIPTION
DS-289078	40 mm high-performance carb w/ adjustable main jet, standard finish, for all 86-87 XL w/ dual-throttle cable linkage (will not fit models w/ CV carbs unless choke hook-up is fabricated, intake manifold purchased and cables modified)
DS-289079	Choke cable accessory kit (required for installation of 40 mm carb on 86-87 XL Evolution)

GENUINE BENDIX CARB REBUILD KIT



- Rebuild kit includes all necessary gaskets, seals, idle screw and accelerator pump

PART #	DESCRIPTION
DS-289084	40 mm Bendix rebuild kit for 84-89

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

S&S CARBURETOR REBUILD KITS AND REPLACEMENT COMPONENTS

- Rebuild kits are available in master kits, body-only kits and accelerator pump kits
- Replacement gaskets, O-rings and components are made from the highest quality materials available

REPLACEMENT COMPONENTS

PART #	DESCRIPTION
112923	Master rebuild kit Super E (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
112924	Master rebuild kit Super G (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
DS-289111	Rebuild kit for Super E (body rebuild kit)
DS-289112	Rebuild kit for Super G (body rebuild kit)
1003-0312	Rebuild kit for Super E & G basic
1003-0085	(13a) Idle mixture screw (5-pk.)
1003-0040	(14) Idle mixture screw spring (10-pk.)
1003-0047	(20) Fast idle plunger/enrichener (ea.)
1003-0196	(21) Throttle cable guide/bracket for use w/ butterfly cables (ea.)
1003-0195	(21) Throttle cable guide/bracket for use w/ CV (constant velocity) cables (ea.)
DS289935	(23) Manifold to carburetor O-ring, Super E (10-pk.)
DS289934	(23) Manifold to carburetor O-ring, Super G (10-pk.)
1003-0455	(24) Seal, bellows, Super E/G, 2T, Nitrile
1003-0043	(24) Bellows seal, accelerator pump (5-pk.)
	Main Jets, see page 547
	Intermediate Jets, see page547
0934-5028	(29) Bowl gasket, Super E & G (ea.)
DS289933	(29) Bowl gasket, Super E & G (10-pk.)
1003-0460	(32) Screw, S&S float bowl (10-24 x 3/4") (10-pk.)
1003-0966	(32) Screw, S&S float bowl, long (ea.)
1003-0452	(33) Float bowl for Super E & G
1003-0041	(34) Float bowl plug (5-pk.)
0935-0864	(35) O-ring, 0,390" ID x 0,510" OD, Silicone (50-8009) (ea.)
0935-0870	(35) O-ring, 0,390" ID x 0,510" OD, Silicone (50-8095) (ea.)
1003-0042	(36) Needle for S&S E & G carb (1,875" E & 2,0625" G) (ea.)
1003-0052	(37) Fuel inlet/seat for S&S E & G carb (1,875" E & 2,625" G) (uses needle 1003-0042) (ea.)
1003-0237	(37d) Inlet carb fuel swivel, 90°
0935-0865	(38) O-Ring, (-006), 0,125" ID x 0,250" OD, Silicone (50-8011) (ea.)
1003-0192	(38) O-ring, accelerator pump tube E & G carburetor (10-pk.)
1003-0194	(40) Accelerator pump check ball only (10-pk.)
1003-0050	(41) Check ball spring (5-pk.)
0935-0866	(42) O-ring, (-009), 7/32" ID x 1/32" OD x 1/16" CS, Silicone (50-8012) (ea.)

PART #	DESCRIPTION
1003-0193	(42) Accelerator pump cap O-ring (two required) (10-pk.)
1003-0188	(44) Fuel bowl overflow hose; 24" long (5-pk.)
1003-0058	(45) Pump cap screw 8-32 (10-pk.)
1003-0044	(46) Diaphragm spring, accelerator pump (10-pk.)
1003-0045	(47) Accelerator pump diaphragm (ea.)
112084	(49) Enrichment device for B series carb (will work on Super E & G carbs when changing air cleaners) (ea.)
0706-0203	(50b) Straight gas hose for use with the new S&S carbs with 90° fuel inlet
DS-289183	Gas line insulator
160057	(52) 1" Spacer block Super E
160357	(52) 1" Spacer block Super G
160491	(53) 0,25" Insulator block w/ O-ring Super E
1050-0360	(53) 1 7/8" x 3/8" Super E and G manifold insulator blocks w/ O-ring
160492	(53) 0,25" Insulator block w/ O-ring Super G
1050-0361	(53) 2 1/16" x 3/8" Super E and G manifold insulator blocks w/ O-ring
1003-0454	(56) Tube, ejector nozzle, Super E/G, flared, brass
0713-0140	(58) Clamp, hose, bolt-style, 5/8" – 7/8"
1050-0359	(60) vHose VOES/oil (19-0395) (ea.)
DS-289113	Accelerator pump rebuild kit for E & G (diaphragm, spring, check balls and springs, pushrod and required hardware)
2402-0256	Bowl screw 10-24 x 3/4" (three required) (ea.)
1050-0440	Idle speed/pump adjuster spring for Super E or G carburetor
1050-0445	Plunger nut (ea.)
1050-0441	Idle mixture screw spring (ea.)
1050-0438	(57) Idle mixture needle O-ring (ea.)
1003-0353	(30) Float for Super E or G carburetor (ea.)
1050-0442	Throttle return spring for Super E or G carburetor (ea.)
1006-0327	Main Jet for B series carburetor (ea.)
1050-0439	(40) Check ball (two required) (ea.)
1050-0302	Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1050-0302	Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
2402-0257	(45) Pump cap screw 8-32 (ea.)
1003-1874	Enrichment plunger spring for Super E and G carburetors (ea.)

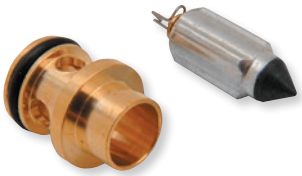
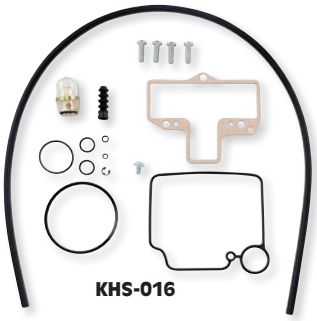
REPLACEMENT PARTS FOR HSR 42/45 CARB KITS



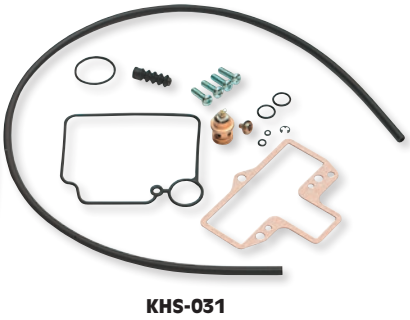
PART #	DESCRIPTION
HS42/001-K	Mikuni-to-CV carb air box adapter w/ three mounting screws
990-605-065	Short idle screw adjuster
990-662-002	Choke cable, for use with Mikuni plastic nut, spring and brass plunger

HSR4 MAIN JET EXTENSION KIT

- Increases amount of fuel to float bowl
- Completely submerges main jet within extender, eliminating chance of air bubbles getting through



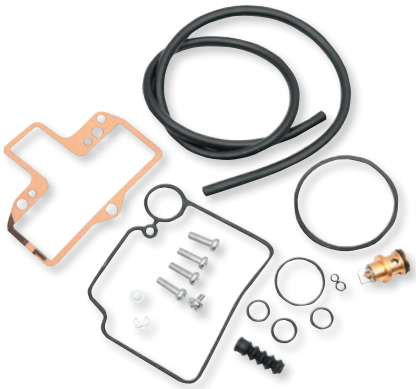
PART #	DESCRIPTION
1006-0248	HSR4 main jet extension kit



NEEDLE AND SEAT FOR MIKUNI HSR42/45 CARBURETOR

- Replacement needle and seat assembly for HSR42/45 carburetors
- Includes needle, seat and O-ring

PART #	DESCRIPTION
1050-0390	Needle and seat for Mikuni HSR42/45 carburetor



GENUINE MIKUNI HS CARBURETOR REBUILD KITS

- Genuine Mikuni parts properly replace worn or mistreated components for HSR42/45/48 carburetors
- Includes top cover gasket, jet needle E-ring and washer, throttle valve seal, pilot air O-ring, fuel joint O-ring, accelerator pump O-ring, needle valve O-ring, needle valve retainer screw, needle valve assembly, float bowl O-ring/gasket, overflow hose, float bowl screws, accelerator pump rod boot
- Includes all the parts needed to rebuild HSR42/45 or HSR48 carburetors

PART #	DESCRIPTION
KHS-016	HSR42/45 Carb rebuild kit

PART #	DESCRIPTION
KHS-031	HSR48 Carb rebuild kit

CARB REBUILD KIT FOR MIKUNI

- Includes all required parts to completely rebuild a carb
- For HSR42/45 mm carburetors

PART #	DESCRIPTION
1003-0293	Rebuild kit for HSR42/45 mm carbs

CARB REBUILD KIT FOR KEIHIN

- Kit includes all necessary parts to rebuild a CV-style Keihin carb

PART #	DESCRIPTION
1003-0292	For 88-06 Keihin CV carbs

REBUILD KIT FOR KEIHIN CARBS

- Includes the parts necessary for rebuilding carbs

PART #	DESCRIPTION
DS-289098	For all 88-06 CV carbs

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

CV CARBURETOR REBUILD KITS

- NBR rubber material is used on all O-rings and rubber gaskets; NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kit are based off of U.S. models and discretion must be used when attempting to install the kit on a non-U.S. model
- All gaskets and O-rings, including intake gaskets before and after the carburetor
- Kit includes float bowl, carburetor cap, and accelerator pump screws
- Extended fuel mixture screw with spring, washer, and O-ring
- Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- Three main jets and three pilot jets that can be used to tune a stock machine or a modified one
- Kit is intended for closed-course racing only

PART #	DESCRIPTION
1003-1275	For 00-06 Twin Cam (includes: 45, 48, 50 pilot jets 190,195, 200 main jets; N8EA needle)
1003-1271	For 88-03 XL 883 (includes: 42, 45, 48 pilot jets; 160, 165, 170 main jets; N0KH needle)
1003-1274	For 04-06 XL 1200 (includes: 42,45,48 pilot jets; 180, 185, 190 main jets; N0KH needle)
1003-1272	For 88-03 XL1200 (includes: 42, 45, 48 pilot jets; 170,175,180,190,195,200 main jets; N0KH needle)

CARB REBUILD KIT FOR KEIHIN CV

- For use with all 99-06 Big Twin or 88-06 XL models using the CV carb
- Includes all the necessary needles, O-rings, seals and gaskets etc. for a complete rebuild

PART #	DESCRIPTION
DS-289109	For all 88-06 CV carbs

ACCELERATOR PUMP DIAPHRAGM

- Sold each

PART #	DESCRIPTION
DS-174445	For 86-89 XL w/ OEM Keihin carb; repl. OEM #27361-76

CARBURETOR INSULATOR BLOCK KIT

- Kit includes $^{3}/_{8}$" fiber insulator block and gaskets
- Designed to reduce the risk of boiling fuel in the carb

PART #	DESCRIPTION
2011-1214	For custom applications; 1,86" ID w/ $2^{3}/_{4}$" center-to-center mounting holes

CARBURETOR AND INTAKE MANIFOLD SEAL KITS

- Kits contain carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
DS-174381	40 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ Original Equipment carbs
DS173537	44 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ Screamin' Eagle carbs

INTAKE MANIFOLD AND CARB SEAL KIT

- Kit contains one carburetor-to-intake seal (27002-89) and two intake-to-cylinder head seals (26995-86B)

PART #	DESCRIPTION
0935-0172	40 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ OEM carb

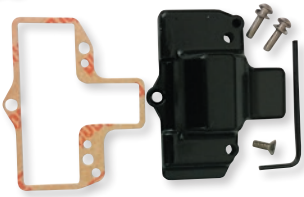
SMOOTH CHROME CV CARB TOP COVER



- Smooth die-cast chrome cover replaces the OEM black plastic top cover
- Installation is a snap; just remove the four OEM screws and bolt on the new cover with them

PART #	DESCRIPTION
DS-288801	For 99-06 Big Twin and 88-06 XL CV carb models; repl. OEM #27040-88

KHS-029

1007-0392

MIKUNI

MIKUNI CARB TOP COVERS

- Highly polished chrome or black covers give a unique custom look
- Available with or without embossed Mikuni logo

PART #	DESCRIPTION
FOR MIKUNI HSR CARBURETORS	
KHS-029	Chrome cover w/ Mikuni logo
KHS-028	Chrome cover w/o Mikuni logo
1007-0392	Black cover w/o Mikuni logo

GARDNER WESTCOTT

CARBURETOR SOCKET-HEAD BOLT KITS

DS-190695

DS-190697

- Replace the stock screws with strong chrome socket-head bolts
- For use on CV carburetors and S&S carburetors

PART #	DESCRIPTION
DS-190695	For top cover only on 99-06 CV carburetors
DS-190697	For S&S E and G carburetor body and air cleaner

1050-0262

TODDS CYCLE

MIKUNI ENRICHENER CABLE RELOCATION BRACKET KITS AND KNOBS

- Kit includes bracket, idle mixture screw knob and enrichener cable knob
- CNC-machined billet aluminum components
- Available in a black, chrome or raw finish

NOTE: Must be used with Mikuni enrichener cable, Drag Specialties PART #990-662-002.

PART #	DESCRIPTION
1050-0183	Bracket kit w/ enrichener and idle knobs, chrome
1050-0262	Bracket kit w/ enrichener and idle knobs, black

1050-0184

PART #	DESCRIPTION
1050-0184	Bracket kit w/ enrichener and idle knobs, raw
990-662-002	Choke cable

1050-0226

1050-0227

TODDS CYCLE

ECON ENRICHENER CABLE RELOCATION BRACKETS

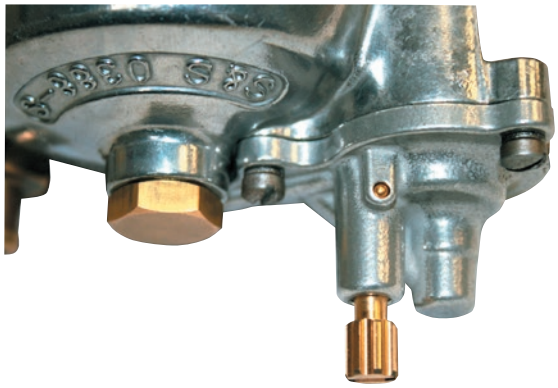
- Relocates enrichener cable and knob out of the way
- For use with stock enrichener cables and knobs
- Made from stainless steel with ball-burnished finish

PART #	DESCRIPTION
1050-0226	For all Mikuni HSR carbs

PART #	DESCRIPTION
1050-0227	For all Keihin CV carbs

GASBOX

CHOKE CABLE MOUNT



- Bracket mounts directly to the top of a CV carburetor and allows the choke cable to be relocated without dismantling it (which all other styles require)
- Made from stainless steel with a tumbled finish
- Works great with Gasbox Dog Dish air cleaners

PART #	DESCRIPTION
1050-0362	Choke cable mount

Boyesen

QUICKSHOT

- Cost-effective, bolt-on upgrade that allows accelerator pump fuel spray to be adjusted simply with the turn of a screw
- Patent-pending design
- Accelerator pump check valve stops bogging and coughing
- Adjustable fuel jet to control accelerator pump spray
- Precision single hole sprayer tip directs and injects the fuel more efficiently than stock
- A fine high-speed stream of fuel atomizes faster to improve roll-on acceleration
- Instant throttle response
- Improves low-end performance and fuel economy
- Easy bolt-on; no modifications necessary

PART #	DESCRIPTION
1050-0241	Quickshot for S&S Super E & G carburetors

Boyesen

TWINSHOT ADJUSTABLE FUEL CONTROL

- Cost-effective, bolt-on upgrade eliminates the sluggish and inconstant throttle response of CV-40-carbureted H-D models
- Converts all OEM CV-40 carburetors to a standardized fuel system
- Precision twin-hole sprayer for improved roll-on acceleration
- Patented Quickshot accelerator pump technology eliminates low-speed bogging and coughing
- Adjustable fuel jet to control accelerator pump fuel spray
- Dual check valve system for consistent spray pressure
- Removable sprayer allows convenient service and maintenance
- Removable main jet cap for easy access tuning
- Precision accelerator pump plunger rod improves spray response
- Stiffer spring on activation arm delivers consistent spray response
- Available in polished aluminum finish
- Bolt-on, no modifications required
- Includes new float bowl O-ring, new plunger arm and plunger arm boot

PART #	DESCRIPTION
1050-0233	For 99-06 Big Twin and 88-06 XL w/ Keihin CV-40 carburetor

DRAG Specialties

FUEL INLET FITTING

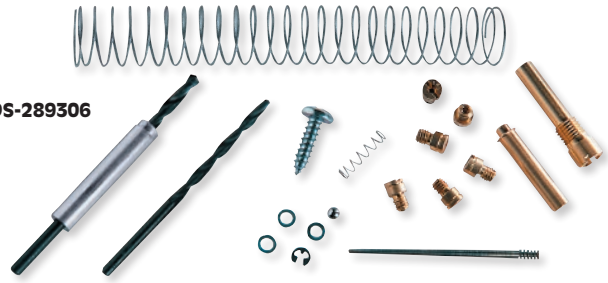
- Solid brass fitting
- Accepts 1/4" fuel line
- For 99-06 Keihin butterfly and CV carburetors
- Sold each

PART #	DESCRIPTION
1003-0257	Fuel inlet fitting; repl. OEM #27371-76A

PINGEL Since 1967

Pass More Gas®

POWER-FLO™



-6AN FUEL LINE FITTING FOR S&S CARBS

- Allows the use of -6AN fittings and fuel line for fuel supply
- For all S&S Super E and G series carbs
- Used with Pingel fuel valves PART #DS-390285 (22 mm inlet) and PART #0705-0058 (3/8" NPT inlet); and The Guzzler® fuel valves PART #s 0705-0029/0705-0050 (22 mm inlet) and PART #s 0705-0028/0705-0056 (3/8" NPT inlet)
- Sold each

PART #	DESCRIPTION
DS-289141	-6AN fuel fitting

DS-289306

RECALIBRATION KITS

- Recalibrate your stock Keihin CV carb to make full use of the performance potential
- Includes the jets, needles, instructions, etc. necessary to recalibrate stock engines with CV carbs
- Kit provides broad-range performance gains and maintain stock driveability

PART #	DESCRIPTION
DS-290347	For 00-06 Twin Cam
DS-290148	For 99 Twin Cam
DS-289306	For 96-03 XL
DS-289303	For 90-95 XL 883, 1200

PART #	DESCRIPTION
DS-289450	For 89-03 XL 883 "race only"
1007-0001	For 04-06 XL 883
DS-289451	For 98-03 XL1200 Sport
1007-0002	For 04-06 XL 1200

PART #	DESCRIPTION
DS-289309	For 99-02 Buell M2 Cyclone
DS-290348	For 00-02 Buell Blast

DS-290356

STAGE 7 THUNDERSLIDE WITH JET KITS

- Stage 7 kit is for 80 plus horsepower engines and include a taller carburetor top for more slide movement
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit includes jets, needles, clips, carburetor top and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290356	For 00-06 Twin Cam

PART #	DESCRIPTION
DS-290351	For Screamin' Eagle 44 mm Keihin CV Twin Cam 88

DS-290349

THUNDERSLIDE JET KITS

- Designed for engines with stock or aftermarket air filter and exhaust system
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit also includes jets, needles, clips and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290349	For 00-06 Twin Cam
DS-290149	For 99 Twin Cam
DS-289308	For 89-03 XL 1200 (not Sport) (Stage 1)

PART #	DESCRIPTION
DS-289454	For 98-03 XL 1200 Sport (Stage 1)
1007-0005	For 04-06 XL 1200/C/R

CARBURETOR JET KITS

- Designed to recalibrate OEM stock CV carburetors for use with Vance & Hines exhaust systems
- Include complete needle assemblies with five ranges of adjustment, main jets, clips, washer and appropriate drill bits
- Include detailed instructions for easy installation

DISCLAIMER: FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE.

PART #	DESCRIPTION
V22827	For 00-06 Twin Cam models
V22831	For 00-05 Buell Blast

POWER X-WING

- Patented air vane requires no modifications to install
- Acceleration gains from idle to wide-open throttle
- Dyno tests show 2-5 horsepower gains and 4-6 ft./lbs. max torque increases on OEM H-D engines
- Independent tests were conducted on 88", 96" and 110" engines
- Complements popular air filter system upgrades

1050-0180

PART #	DESCRIPTION
1050-0194	For 08-16 FLHT/FLHX/FLHR/FLTR models
1050-0181	For 01-05 Softail, 04-05 Dyna, 02-05 FLHT/FLHR/FLTR, 07-15 XL w/ Delphi EFI

PART #	DESCRIPTION
1050-0180	For 99-06 models w/ OEM CV carb

PROVEN S&S PERFORMANCE

FLANGE MOUNT INTAKE MANIFOLDS

- For mounting an S&S E and G series carburetor or flange mount carburetor
- Comes with a map sensor port and match OEM intake ports

BILLET FLANGE ADAPTER FOR SPIGOT-TYPE CARBS

- Allows you to mount OEM late-model CV or Mikuni HSR-42 carbs on early Evolutions with two-bolt flange manifolds
- CNC-machined from 6061 billet aluminum
- Mounting holes are 2,75" on center
- Can be polished, plated or painted
- Carb-to-manifold seal also available; see GASKETS & SEALS section
- Sold each

PART #	DESCRIPTION
DS-289219	Billet flange adapter

CHROME INTAKE MANIFOLD FLANGES

- Chrome flanges replace the stock flanges
- Sold in pairs
- Replacement intake manifold seals also available; see GASKETS & SEALS section

PART #	DESCRIPTION
DS-289212	For 99-05 Twin Cam and 86-06 XL models

M-VM-40-200

RUBBER FLANGE ADAPTERS FOR SPIGOT-TYPE CARBURETORS

- Adapters fit 38 mm and 40 mm spigot-type carburetors
- Includes clamp
- PART # M-VM-36-200 has mounting holes that are 70 mm on center; ID of 39,5 mm
- PART # M-VM-38-200 has mounting holes that are 74,6 mm on center; ID of 38 mm
- PART # M-VM-40-200 has mounting holes that are 74,6 mm on center; ID of 47 mm
- Sold individually

PART #	DESCRIPTION
M-VM-36-200	36 mm-38 mm rubber flange adapter
M-VM-38-200	40 mm rubber flange adapter – 43 mm carb spigot OD (fits RS40, RS42)
M-VM-40-200	40 mm rubber flange adapter – 52 mm carb spigot OD

HS42-062-48

BLACK FLANGE ADAPTERS

- Rubber flange adapters fit 42 mm, 45 mm and 48 mm spigot-type carburetors
- PART #HS42/018-42 has mounting holes that are 70 mm on center; ID of 45 mm
- PART #HS42/018-45 has mounting holes that are 70 mm on center; ID of 48 mm
- PART #HS42/062-48 has mounting holes that are 70 mm on center; ID of 71 mm
- Includes clamp
- Original straight-through design
- Sold individually

PART #	DESCRIPTION
HS42/018-42	42 mm
HS42/018-45	45 mm

PART #	DESCRIPTION
HS42/062-48	48 mm

1050-0232

1050-0394

INTAKE MANIFOLD FLANGES

- Sold in pair (front/rear) or each

PART #	DESCRIPTION
FOR 99-05 TWIN CAM AND 86-06 XL ENGINES WITH S&S INTAKE MANIFOLD	
1050-0232	Front/rear flange; repl. OEM #s 27009-86B, 27010-86B
1050-0394	Front flange only; repl. OEM #27009-86B
1050-0395	Rear flange only; repl. OEM #27010-86B

1003-0313

0934-0665

INTAKE MANIFOLD O-RINGS AND U-RINGS

- For use with all current S&S intake manifolds
- O-rings sold in 10-pack
- U-rings sold each

PART #	DESCRIPTION
O-RINGS (MANIFOLD TO CYLINDER HEADS)	
1003-0060	For 99-06 Big Twin and 86-06 XL engines w/ S&S manifold (10-pk.)
1003-0313	For stock heads (10-pk.); repl. OEM #26995-86A
1003-0457	For stock heads (ea.); repl. OEM #s. 26992-99, 26995-86A, 26995-86B
1003-0456	For Super B or E carburetor (ea.)

PART #	DESCRIPTION
U-RINGS (CV CARB TO MANIFOLD)	
0934-0666	40-42 mm
0934-0665	44-45 mm
REPLACEMENT PARTS	
1050-0347	Straight fitting hose (0,200" x 0,098")
0935-0868	O-ring ($17/8$" for Super E carburetor)

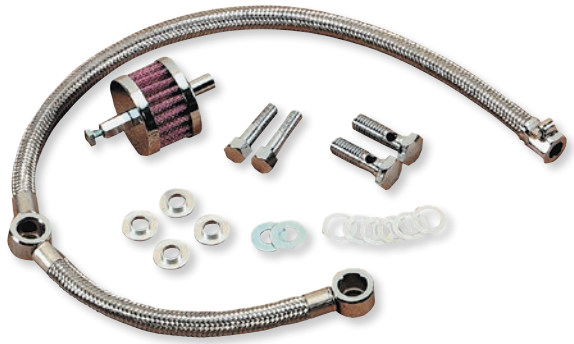
CRANKCASE BREATHER/SUPPORT BRACKET KITS

- Kits allow the installation of aftermarket air cleaner assemblies on late model bikes equipped with OEM CV carb or Delphi EFI system
- Includes bracket, filter, hose and all mounting hardware necessary for installation except where noted

PART #	DESCRIPTION
1013-0036	For 08-16 FLHT/FLTR/FLHX/FLHR, 16-17 Softails, 17 FXDLS models
DS-289082	For all 99-17 Big Twin models (except 08-17 Dressers, 16-17 Softails, 17 FXDLS)
DS-289060	For 99-17 Big Twin models (no hose or filter) (except 08-17 Dressers, 16-17 Softails, 17 FXDLS)

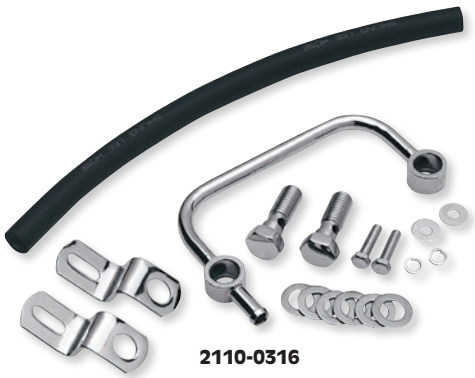


1013-0030

PART #	DESCRIPTION
1013-0030	For 07-20 XL models
DS-289126	For 91-06 XL models
1003-0056	Breather conversion kit for early S&S air cleaners
DS-289073	Repl. filter

BRAIDED HOSE CRANKCASE BREATHER KIT

- This kit provides the best looking alternative to black rubber hoses when mounting a crankcase breather system
- Features a 3/8" ID stainless steel braided hose crimped onto chrome banjo fittings
- Outlet side of assembly is long enough to custom-route the hose and mount the breather filter in an inconspicuous location
- Includes breather filter (with mounting stud), hardware and instructions
- Air cleaner and carb support bracket must be purchased separately



NOTE: Not recommended for stock applications. Make sure the braided line does not contact anything (i.e. the gas tank, carb or wiring) as damage may result.

PART #	DESCRIPTION
DS289118	For 99-17 Big Twin custom applications only

DS-289620

2110-0316

CRANKCASE BREATHER KIT

- One-piece chrome tube design
- Comes with breather bolts, washers and hardware
- Works with most aftermarket air cleaners

PART #	DESCRIPTION
DS-289620	For 99-17 Big Twin (except 17 FXDLS, 16-17 Softails, 08-17 Dressers)
2110-0316	For 91-20 XL

AIR CLEANER BREATHER KIT

- Enables the mounting of most aftermarket air cleaners to late-style engines that breathe through the cylinder heads
- Fittings can be rotated 360° so that hoses can be routed as necessary
- Hose sold separately

PART #	DESCRIPTION
DS-289055	For 99-17 Big Twin (except 17 Dressers) and 91-20 XL models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

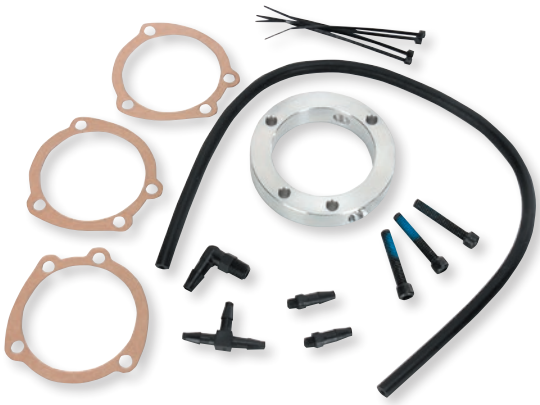
KURYAKYN

BLUEGRASS BREATHER KITS

- Kits route the vented gases upward so gravity can keep any expelled oil droplets back into the engine instead of down the sides of the bike
- Vent line can be run up or out, into an optional catch tank (available separately, PART #1012-0217)
- Include vent hose and fittings

1012-0216

1012-0217



PART #	DESCRIPTION
1012-0218	Short leg breather kit for 99-06 Twin Cam with stock and most carbs, 01-17 Twin Cam with Delphi EFI (except 17 FXDLS, 16-17 Softails, 08-17 Touring/Trike and 11-12 FLSTSE, 13-14 FXSBSE and 14-15 FLSTNSE)
1012-0216	Long leg breather kit for 91-20 XL models
1012-0217	Optional catch tank for breather kits

KURYAKYN

CHROME CRANKCASE BREATHER

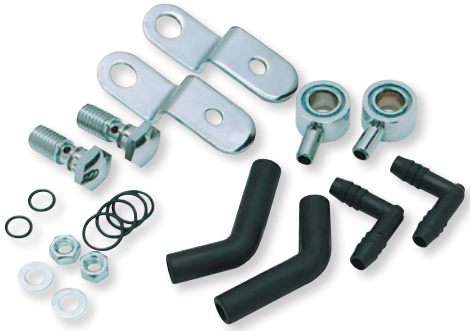
- With this breather, as oil-laden air condenses in the breather body, the excess oil now runs back down into the engine rather than into the air cleaner
- A really clean setup

NOTE: Not for use on fuel-injected models.

PART #	DESCRIPTION
1012-0200	For 07-20 XL

MIKUNI

HSR CARBURETOR HEAD-BREATHER KITS



- For use with Mikuni air filter PART #HS42012250 and HS42012300
- For the installation of HSR carburetor kits using the K&N high-flow filter

KHS-030

PART #	DESCRIPTION
KHS-030	For HSR42/45 carb on 99-06 Twin Cam

KHS-020

PART #	DESCRIPTION
KHS-020	For HSR42/45 carb on 93-06 XL

FEULING

ROCKER BOX BREATHER KIT

- Properly sized breather holes for optimum engine breathing
- Machined from billet 6061 aluminum with square surfaces promoting excellent gasket and breather system sealing
- Kit includes billet breather housings, gaskets, breather filter elements, umbrella valves and ARP® hardware.
- Rocker cover gaskets sold separately

PART #	DESCRIPTION
1012-0247	For 99-16 Touring, 00-17 Softail and 99-17 Dyna

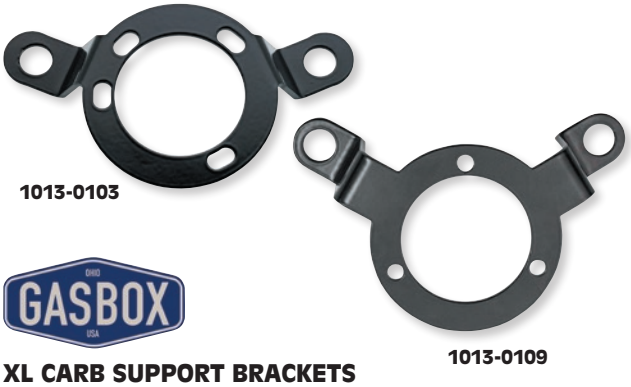
SUPPORT BRACKETS

- Chrome air cleaner braces provide additional support for the Dragtron™ II air cleaners or any flat-backed air cleaners
- Mount to the cylinder heads
- Can be used in conjunction with most breather kits (where applicable)

PART #	DESCRIPTION
DS289190	For 99-17 Twin Cam (except 17 FXDLS, 16-17 Softails, 08-17 Dressers) (CV carb/Delphi EFI)

- Breather kits/bolts sold separately
- All gaskets and mounting hardware included
- For replacement gaskets, see Gaskets & Seals section

PART #	DESCRIPTION
1013-0017	For 07-20 XL
DS-289062	For 88-06 XL



DRAG Specialties

CARB SUPPORT BRACKET WITH CHOKE CABLE MOUNT

- Chrome-plated stamped steel
- Provides support for carb and air cleaner
- Offers mounting of choke control under the carb for easy access

PART #	DESCRIPTION
2110-1212	For 99-06 Twin Cam w/ Mikuni HSR 42/45 carb

GASBOX

XL CARB SUPPORT BRACKETS

- Provides additional support for the carb and air cleaner
- Black powdercoated steel

NOTE: Breather kits/bolts sold separately.

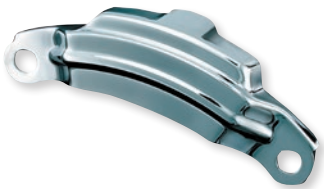
PART #	DESCRIPTION
1013-0103	For 91-06 XL model w/ CV carb
1013-0109	For 91-06 XL model w/ S&S carb

PROVEN S&S PERFORMANCE

ADJUSTABLE CARBURETOR SUPPORT BRACKET

- Adjusts from 5,25" to 6,375"
- Mounts from the center-case bolt between cylinders to the lower flange mount of the manifold

PART #	DESCRIPTION
160471	Support bracket



PROVEN S&S PERFORMANCE

THREAD REDUCER

- Used on 93-99 H-D cylinder heads when installing a carburetor support bracket that requires $^{5}/_{16}$"-18 mounting bolts
- Reduces a $^{1}/_{2}$"-13 threaded hole to $^{5}/_{16}$"-18
- Sold each; two required per motor

PART #	DESCRIPTION
7806-2940	$^{1}/_{2}$"-13 to $^{5}/_{16}$"-18 thread reducer

KURYAKYN

THROTTLE BODY SUPPORT BRACKET COVER

- Adds a chrome accent to the OEM support bracket
- A must-have when replacing the OEM air cleaner

PART #	DESCRIPTION
1013-0073	For 17 FXDLS, 16-17 Softails, 08-16 FLHT/FLHR/FLTR/ FLHX and H-D FL Trikes (except CVO/SE models)

AIR CLEANERS

- Original S&S teardrop air cleaner assemblies
- Include an S&S cover, backing plate and high-quality filter element and hardware kit
- Increase horsepower with no other changes
- Available for most OEM carburetors and S&S performance intake systems

NOTE: Installation of an S&S air cleaner may require re-jetting or engine re-tuning.

PART #	DESCRIPTION
S&S CHROME AIR CLEANERS	
1010-0419	For 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 Softails, 16-17 FXDLS, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE
1010-2165	For 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 Softails, 16-17 FXDLS, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE
1010-2163	For 01-17 Twin Cam models w/ Delphi EFI (except 08-17 Touring, 16-17 FXDLS, 16-17 Softail, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE)
DS-289137	For 99-06 Twin Cam models w/ E & G series carbs
1010-0325	For 99-06 Big Twin w/ stock CV carb
1010-1901	For E & G series carbs on S&S 4 1/8" bore engines on 99-05 Big Twin frames
1010-2604	For 07-20 XL stock EFI
1010-0326	For 91-06 XL w/ stock CV carb
DS-289129	For 86-90 XL models w/ E & G series carbs
CHROME AIR CLEANERS FOR EFI SINGLE BORE THROTTLE BODY	
1010-1879	For 93-15 Big Twin models w/ stock breathing and 58 mm throttle body
1010-1878	For S&S 4 1/8" bore engines w/ 58 mm throttle body

PART #	DESCRIPTION
GLOSS BLACK AIR CLEANERS	
1010-2166	For 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 Softails, 16-17 FXDLS, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE
1010-2164	For 01-17 Twin Cam models w/ Delphi EFI (except 08-17 Touring, 16-17 FXDLS, 16-17 Softail, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE)
1010-2605	For 07-20 XL stock EFI
1010-1866	For 96-06 Big Twin with stock CV carb
1010-1867	For 91-06 XL with stock CV carb

PART #	DESCRIPTION
REPLACEMENT COMPONENTS	
DS289404	Repl. S&S air cleaner cover for E & G carb, chrome
DS289403	Repl. S&S air cleaner cover for S&S CV air cleaner and Super B carbs, chrome

SUPER STOCK™ STEALTH AIR CLEANER KITS

- For stock and S&S fuel system applications
- Kit includes backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Optional high-flow (1" taller) filter and pre-filter/rain sock also available

NOTE: Kits do not come with covers. Use PART # 1014-0225 or 1014-0267 to install stock covers on 14-20 Touring models. Twin Cam applications will accept the OEM football-style air cleaner cover. All kits will accept any of the Stealth air cleaner covers (sold separately).

NOTE: Stealth air cleaner kits for 01-17 EFI applications come with a special sticker and instructions for applying it to an inconspicuous location on the frame.

1010-2617

PART #	DESCRIPTION
SUPER STOCK™ STEALTH AIR CLEANER KITS	
1010-2607	For 17-20 M-Eight (stock EFI and 64 mm throttle body)
1010-2161	For 08-16 FLHT/FLHX/FLTR, H-D Trike, 16-17 Softails, 16-17 FXDLS, 11-12 FLSTSE, 13-15 FXSBSE and 14-15 FLSTNSE

STEALTH AIR CLEANER COVERS

- Fits the S&S Stealth air cleaner kits
- Bob and Muscle-style air cleaner covers are machined from billet aluminum, fit over the end of the air filter and leave the filter element exposed
- Chrome finish, powdercoated gloss black and highlight machined finish or black wrinkle powdercoated finish
- Air Stream-style is die-cast and features screened vents for more air without sucking in rain/road hazards
- Tribute style mimics the classic S&S Two Throat air cleaner kits
- Muscle-style features muscle car-style hood pins

EC-APPROVED STEALTH AIR CLEANER KITS

- Increased filter area, combined with an air horn-like radiused inlet and unique S&S stinger cone, allows smoother, faster airflow
- Kit does not include an air cleaner cover
- Can be run without a cover or for a sleeper look use an OEM-type 99-later Big Twin air cleaner cover
- For a little more style and a high-performance look, S&S offers a number of good-looking covers
- Kit includes back plate, filter element, top cover, hardware, and instructions
- Cover sold separately, see page 556

PART #	DESCRIPTION
1010-2497[1]	For 17-20 M-Eight
1010-2059[2]	For 16 110" Softail/Dyna w/ Throttle-by-Wire
1010-2058[2]	For 16 110" Softail/Dyna w/ cable throttle body
1010-2057[2]	For 16 103" Softail/Dyna w/ Throttle-by-Wire
1010-2056[2]	For 16 103" Softail/Dyna w/ cable throttle body
1010-2055[2]	For 07-16 XL 1200 EFI
1010-2054[2]	For 07-16 XL 883 EFI

[1] ECE approved. [2] EC approved.

MINI TEARDROP STEALTH AIR CLEANER KITS

- 85% of original size for perfect proportions; all laid over the easy to install Stealth Air Cleaner system
- Iconic look
- Machined openings around the rim add style and provide additional airflow
- Kit includes backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Chrome or gloss back finish

HIGH-FLOW AIR FILTER AND ADAPTER KIT

- High-flow filter designed especially for Super E and G carburetors
- Filter is 1" taller than standard filter and features a low-restriction, pre-oiled filter element
- Allows for a 37% increase in airflow
- Filter and adapters extend the teardrop housing out 1" for better exposure and a high-performance street racer look
- Kit installs in minutes; no permanent modifications required

1011-0323

DISCLAIMER: FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE.

NOTE: Not for use with S&S Super B or Super D carburetors, or Super E and G Kits for Buells.

PART #	DESCRIPTION
1011-0323	For S&S Super E and G carbs
1011-2286	Repl. high-flow filter for S&S Super E and G carbs (also fits S&S air cleaners for stock carbs and EFI throttle bodies)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

INVERTED SERIES AIR CLEANER KITS

- CNC-machined from forged billet aluminum
- Forged billet air filter covers feature exposed design and a CNC inverted top that acts as a velocity stack to help pull in more airflow
- Forged billet aluminum backing plate features Big Sucker™ hidden breather technology and a radius air inlet for smooth airflow
- Hidden breathers are O-ringed at the heads and exits at throttle body/carb to create a virtually closed-loop system
- No external hoses or hardware needed
- Black stainless steel jacketed inverted filters feature an inverted pleated top and 360° of pleated sides to pull in filtered air from every angle
- Performance filters features a black synthetic filter element wrapped in a stainless steel jacket
- Filter is water-resistant, eliminating the need for a rain sock
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

PART #	DESCRIPTION

CLEAR TEAR SERIES AIR CLEANER KITS

- The Clear Tear air cleaner series brings the timeless teardrop shape to a new level
- Smooth flowing cage design is forged and CNC-machined
- Specially formed radius shaped polycarbonate top is coated for long-term durability
- Radius polycarbonate window can be installed in both the front or back facing direction allowing the rider to choose their preferred look
- Hidden breather backing plate technology
- Breather design is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes
- M-Eight applications feature an integrated oil-catch to ensure no oil reaches the air filter and restricts air flow
- Performance air filter is made from black pre-oiled cotton and is washable

SIDEKICK AIR CLEANERS

- The Sidekick air cleaner combines forged billet aluminum, clear polycarbonate and an angled shape for the best in function and style
- Air cleaner cover is forged and CNC-machined into a angled shape for excellent leg room
- Integrated Polycarbonate top is coated for long-term durability
- Hidden breather backing plate technology
- Breather design is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes
- M-Eight applications feature an integrated oil-catch to ensure no oil reaches the air filter and restricts air flow
- Performance air filter is made from black synthetic material wrapped in stainless steel mesh
- Filters are washable and water-resistant

1011-4451

1014-0299

1014-0300

VELOCITY 90° AIR CLEANER KITS

- Forward facing 90° Velocity series intake
- Aggressive short length intake tube engineered to significantly increase airflow without sacrificing legroom
- Hidden breathers are O-ringed at the heads and exit at the mouth of the throttle body/carb to provide efficient engine breathing in a virtually closed loop system, eliminating the need for any external hoses or hardware
- Velocity style performance filter features a built-in inverted top to pull in air not only from the sides of the filter but also the front, for more performance gaining airflow
- Synthetic filter element is water-resistant and washable/re-useable; for extreme weather situations rain socks are available (sold separately)
- M-Eight applications include throttle servo cover
- Designed to work with factory lowers

1014-0301

1014-0302

- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately
- Replacement air filter fits all Velocity 90° air cleaners; sold separately
- Optional 10-Gauge and Beveled covers are designed to bolt-on to the face of Arlen Ness Velocity 65° or Arlen Ness Velocity 90° air cleaners; sold separately

1010-2454

1010-2455

1014-0299

1014-0300

VELOCITY 65° AIR CLEANER KITS

- Feature Big Sucker "hidden breather" technology and a forward facing 65° intake design that produces the highest air flow performance numbers (CFM) we have tested
- Hidden breathers are O-ringed at the heads and exist out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Integrated radius air inlet for performance gaining unobstructed airflow
- M-Eight engine applications include a throttle servo cover
- Inverted 65 style filter features a built-in inverted top to pull in air not only from all sides of the filter but also the front, which directs more performance gaining airflow into your engine
- Each filter is constructed from synthetic material that is water resistant, which in most cases eliminates the need for a rain sock
- Filters are re-usable and do not require oil, just rinse and re-use

1014-0301

1014-0302

- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately
- Replacement air filter fits all Velocity 65° air cleaners; sold separately
- Optional 10-Gauge and Beveled covers are designed to bolt-on to the face of Arlen Ness Velocity 65° or Arlen Ness Velocity 90° air cleaners; sold separately

METHOD CLEAR SERIES AIR CLEANER KITS

- Forged billet aluminum air cleaner featuring a polycarbonate window to view the internal working of air intake system
- Forged billet aluminum backing plate with internal hidden breather backing plate technology eliminating the need for external hoses or hardware for a virtually closed loop system
- Polycarbonate window is coated with proprietary films that prevents oil adhesion, yellowing, or marring from engine oil or UV exposure to maintain window clarity for a clear view of engine's internals
- Radius air inlet provides unobstructed airflow into engine
- High-performance filter is constructed from black pre-oiled cotton for optimum flow and filtration
- Filter is washable and re-usable
- Includes backing plate, forged filter housing, clear polycarbonate top, filter, gaskets and necessary hardware
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

1010-2634

1010-2654

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/ H-D FL TRIKE, 18-20 SOFTAILS	
1010-2369	Black anodized w/ machined accents
1010-2373	Black anodized
1010-2377	Chrome
1010-2530	Red anodized
1010-2534	Gold anodized
1010-2538	Blue anodized
1010-2634	Orange anodized
1010-2654	Titanium anodized
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2370	Black anodized w/ machined accents
1010-2374	Black anodized
1010-2378	Chrome
1010-2531	Red anodized
1010-2535	Gold anodized

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS (CONT)	
1010-2539	Blue anodized
1010-2635	Orange anodized
1010-2655	Titanium anodized
FOR 01-17 TWIN CAM DELPHI EFI MODELS AND 99-06 TWIN CAM CV CARB MODELS (EXCEPT 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2371	Black anodized w/ machined accents
1010-2375	Black anodized
1010-2379	Chrome
1010-2532	Red anodized
1010-2536	Gold anodized
1010-2540	Blue anodized
1010-2636	Orange anodized
1010-2656	Titanium anodized

PART #	DESCRIPTION
FOR 91-20 XL	
1010-2372[1]	Black anodized w/ machined accents
1010-2376[1]	Black anodized
1010-2380[1]	Chrome
1010-2533[1]	Red anodized
1010-2537[1]	Gold anodized
1010-2541[1]	Blue anodized
1010-2637[1]	Orange anodized
1010-2657[1]	Titanium anodized
OPTIONAL COMPONENT	
1011-4355	Pre-filter/rain sock

[1] Will fit 88-90 models also; breather system is not applicable for these model years.

MINI 22° AIR CLEANER KITS

- Compact performance air cleaner featuring 4,5" tapered air filter design and angled billet top for increased performance and leg clearance
- 22° angle CNC-machined billet top
- Hidden breather is O-ringed at the heads and exits out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Each air filter is made from four layers of premium black pre-oiled cotton for the best in air flow and filtration; washable/re-usable

1010-2708

1010-2709

- Filter assembly is CNC-machined from aluminum and the backing plate is cast aluminum
- Includes backing plate, filter assembly, gaskets, O-rings and all necessary hardware

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL TRIKE, 18-20 SOFTAILS	
1010-2708	Black
1010-2709	Chrome
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2710	Black
1010-2711	Chrome

PART #	DESCRIPTION
FOR 01-17 TWIN CAM DELPHI EFI MODELS AND 99-06 TWIN CAM CV CARB MODELS (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2712	Black
1010-2713	Chrome
FOR 91-20 XL	
1010-2714[1]	Black
1010-2715[1]	Chrome

[1] Will fit 88-90 models also; breather system is not applicable for these model years.

BIG SUCKER™ STAGE I AIR FILTER KITS WITH COVER FOR M-EIGHT

- The new Big Sucker™ Stage 1 performance intake for M-Eight™ engines adds new and improved features to the original industry-leading air cleaner
- New hidden breather backing plate technology is a step up from the original system
- Each breather is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary breather tubes
- Breathing system eliminates oil issues associated with M-Eight engines by directing any excess breather oil back into the engine
- To ensure no oil saturates the filter and restricts your airflow, we also integrated a new oil reservoir that can be serviced when you service the filter element
- Smooth radius air inlet for unobstructed airflow
- New aluminum filter top plate has integrated filter mounting studs for increased durability while eliminating the need for additional filter mounting hardware
- High-performance filters are made from black pre-oiled cotton for the best in airflow and filtration
- Filter is washable and re-usable
- Backing plates available in gloss black or chrome finish
- Each M-Eight Big Sucker™ Stage I kit includes one-piece backing plate, breather tubes, performance filter, filter top, gaskets, oil reservoir and necessary hardware

KITS W/ STANDARD FILTER AND STEEL COVER

BIG SUCKER™ STAGE I AIR FILTER KITS FOR M-EIGHT

- New Big Sucker™ Stage I air cleaner for M-Eight™ Softails adds new and improved features to the original industry leading performance intake
- In addition to the hidden breather backing plate technology, an added outer lip which wraps around the filter base resulting in a clean look while better securing and protecting the filter element
- Smooth radius air inlet directs unobstructed air flow straight down the throttle body
- New aluminum filter top plate replaces the traditional stamped steel filter plate and has integrated filter-mounting studs which eliminates the need for additional filter mounting hardware
- High-performance filters are made from black pre-oiled cotton for the best in airflow and filtration
- Filters are washable and re-usable
- Backing plates are available in black or chrome finish
- Will also fit 17-20 FLHT/FLHR/FLHX/FLTRX/H-D FL Trike models if used with Arlen Ness Stage I covers; sold separately (see page 566)

1010-2498

1010-2499

BIG SUCKER™ STAGE I AIR FILTER KITS FOR M-EIGHT

- New Big Sucker™ Stage 1 performance intake for M-Eight™ FLT touring models adds new features to the original industry-leading air cleaner and designed to accept factory air cleaner cover
- New hidden breather backing plate technology is a step up from original system
- Each breather is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary breather tubes
- Breathing system eliminates oil issues associated with M-Eight engines by directing any excess breather oil back into the engine
- To ensure no oil saturates the filter and restricts your airflow, we also integrated a new oil reservoir that can be serviced when you service the filter element
- New aluminum filter top plate has integrated filter mounting studs and directional air venturi for increased durability and performance
- Performance filter is constructed from red pre-oiled surgical-grade cotton and is washable/re-usable
- Filter offers over 200% more surface area than the factory filter and features a tapered bottom resulting in more filter surface area than any other performance intake option designed for the 17-up factory cover
- Backing plates available in natural, black or chrome finish
- Each kit includes one-piece backing plate, breather tubes, performance filter, filter top, gaskets, oil reservoir and necessary hardware
- Accepts stock OEM outer cover

BIG SUCKER™ STAGE I AIR FILTER KITS WITH COVER FOR TWIN CAM AND XL

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is O-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in black or chrome
- Kits are available with standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four layers of surgical-grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and re-use
- All kits include high-performance filter, backing plate and outer cover
- All necessary hardware and instructions are included with each kit

KITS W/ STANDARD FILTER AND BILLET COVER

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS MODELS	
1010-2471	Carbon, black
1010-2476	Knuckle, black
1010-2481	Knuckle, chrome
1010-2478	Brushed stainless, black
1010-2483	Brass smooth, black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM DELPHI EFI AND 99-06 TWIN CAM CV CARB MODELS (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 16-17 FXDLS MODELS)	
1010-2472	Carbon, black
1010-2477	Knuckle, black
1010-2482	Knuckle, chrome
1010-2479	Brushed stainless, black

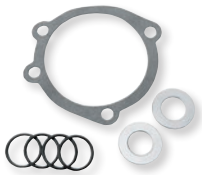
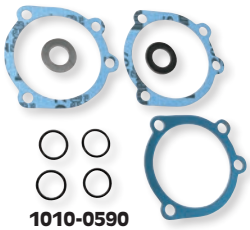
BIG SUCKER™ STAGE II AIR FILTER KITS WITH COVER FOR TWIN CAM AND XL



- Feature a one-piece aluminum backing plate/carb support bracket with hidden breather technology and radius air inlet
- Eliminate the need for banjo fittings, hoses and filter
- Breather passages exit at the mouth of the carburetor/ throttle body, creating a virtually closed-loop system
- Kits include a 20% larger high-performance filter and steel outer cover
- Filters are available with standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four layers of surgical-grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and reuse
- All necessary hardware and instructions are included



PART #	DESCRIPTION
STAGE II KITS W/ STANDARD FILTER	
1010-0432	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models (chrome)
1010-0434	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models (wrinkle black)
1010-0431	For 01-17 Twin Cam Delphi EFI and 99-06 Twin Cam CV carb models (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models) (chrome)
1010-0433	For 01-17 Twin Cam Delphi EFI and 99-06 Twin Cam CV carb models (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models) (wrinkle black)
1010-0429[1]	For 91-20 XL models w/ CV carb or Delphi EFI (chrome)
STAGE II KIT W/ SYNTHETIC FILTER	
1010-2701	For 01-17 Twin Cam Delphi EFI and 99-06 Twin Cam CV carb models (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models) (wrinkle black)

[1] Will fit 88-90 models also, breather system is not applicable for these model years.

BILLET SUCKER AND BIG SUCKER COMPONENTS

- Replacement and optional components for all Ness Billet Sucker and Big Sucker air filter kits

PART #	DESCRIPTION
STAGE I BIG SUCKER REPL. AIR FILTERS	
1011-3151[1]	For 14-16 FLHT/FLHX/FLTR/H-D FL Trike, 16-17 Softails (except FLSS/FLSTFBS models), 16-17 FXDLS
1010-0360	For 08-13 FLHT/FLHR/FLHX/FLTR/H-D FL Trike models
2110-9494	For 02-07 FLHT, 00-10 FXST, 99-07 FXD/FXDWG
1011-4364	For 08-16 FXD w/ OEM cover (except models w/ round covers)
2110-9496	For PART #DS-288882 only
1011-2851	For PART #s 1010-1014, 1010-0891, 1010-0892
1011-4242	For PART #s 1010-2082, 1010-2083, 1010-2084
STAGE II BIG SUCKER REPL. AIR FILTERS	
1010-0361	For 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE, 16-17 FXDLS models
2110-9495	For 01-17 Twin Cam Delphi EFI and 99-06 Twin Cam CV carb models (except 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models); also fits PART #s 1010-2062, 1010-2063, 1010-2064
HARDWARE/GASKET KITS	
1010-0591	Stage II hardware kit for all 01-17 Twin Cam Delphi EFI models and 99-06 Twin Cam CV carb models
1010-0583	Stage I hardware kit for all 01-17 Twin Cam Delphi EFI models and 99-06 Twin Cam CV carb models
1010-0585	Stage I hardware kit for 99-01 Twin Cam FLT fuel-injected models

PART #	DESCRIPTION
HARDWARE/GASKET KITS (CONT)	
1010-0587	Gasket kit for 08-16 FLT/H-D FL Trike models
1010-0588	Gasket kit for 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS models)
1010-0590	Gasket kit for 91-20 XL models
OPTIONAL OUTER COVERS	
1014-0030[2]	Big Sucker Stage I scalloped (chrome)
1014-0091[2]	Big Sucker Stage I smooth (chrome)
1014-0092[2]	Big Sucker Stage I smooth (black)
1010-0067	Big Sucker Stage II scalloped (chrome)
1014-0284	Big Sucker Stage I smooth (Brushed stainless)
1014-0285	Big Sucker Stage I smooth (Brass)
1014-0286	Big Sucker Stage I smooth (Carbon)
1014-0287	Big Sucker Stage I Knuckle (chrome)
1014-0288	Big Sucker Stage I Knuckle (black)
OPTIONAL PRE-FILTERS	
1011-3242	Big Sucker Stage I
1011-3243	Big Sucker Stage II

[1] For use with PART #s 1010-1461, 1010-1462 and 1010-1463 only.

[2] Not for PART #s 1010-0891, 1010-0892, 1010-1014, 1010-1011, 1010-1012 and 1010-1013.

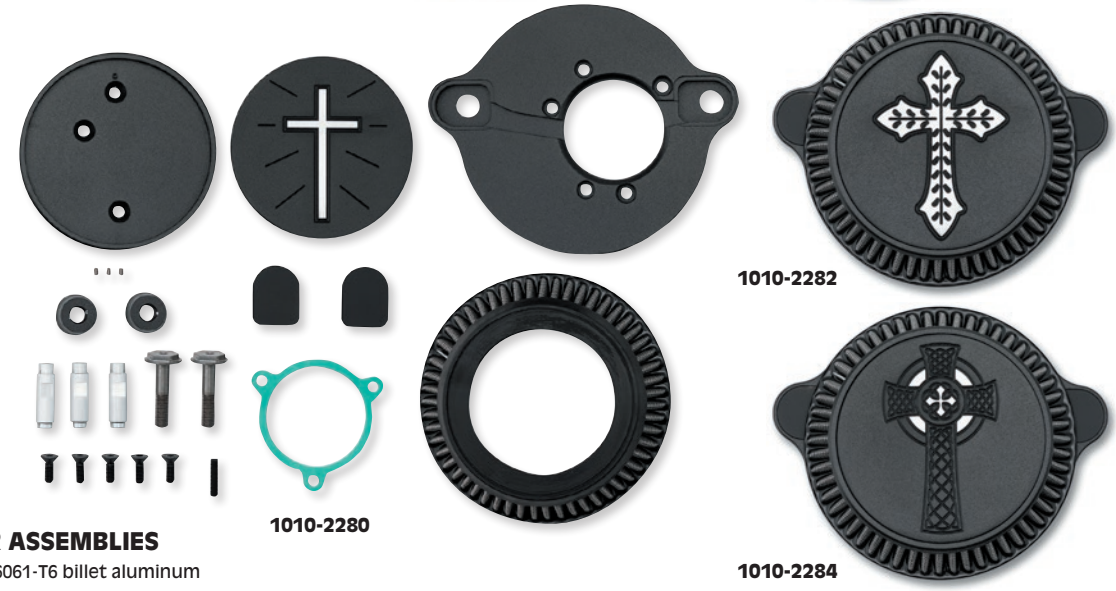
PLAIN COVER BIG AIR CLEANERS

- Features machined 6061-T6 billet aluminum outer cover and backing plate
- K&N air filter provides increased airflow
- Increases intake velocity, boosting horsepower and torque
- Super low profile, increases legroom over stock
- Available in chrome or textured black
- Complete hardware kit and instructions included for easy installation
- Stock cover can be used with the exception of 17-20 FLHT/FLHR/FLHX/FLTR/H-D Trike



PART #	DESCRIPTION
For 17-20 FLHT/FLHR/FLHX/FLTR/H-D TRIKE AND 18-20 SOFTAILS	
1010-2576	Chrome
1010-2577	Black
FOR 08-16 FLHT/FLHR/FLTR/FLHX, H-D FL TRIKES, 16-17 SOFTAILS, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-2572	Chrome
1010-2573	Black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 DRESSER/H-D FL TRIKES, 16-17 SOFTAILS, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE)	
1010-2570	Chrome
1010-2571	Black
FOR 91-20 XL	
1010-2574	Chrome
1010-2575	Black

AIR CLEANER ASSEMBLIES

- Machined from 6061-T6 billet aluminum
- Kit replaces the OEM air cleaner assembly, maintaining balance and symmetry
- Custom-made AirRaid air filter provides increased airflow volume to the engine
- Dyno-designed AirLoad backing plate reduces turbulence and increases air intake velocity, boosting horsepower and torque
- Covers are triple chrome-plated or textured black powdercoat with laser-cut design
- Exposes more of the engine and brings out its aggressive nature
- New low-profile black air filter element
- Complete hardware kit and instructions included for easy installation

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTR/H-D TRIKE AND 18-20 SOFTAILS	
1010-2273	xXx, chrome
1010-2274	xXx, black
1010-2275	8-ball, chrome
1010-2276	8-ball, black
1010-2279	Standard cross, chrome
1010-2280	Standard cross, black

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTR/H-D TRIKE AND 18-20 SOFTAILS (CONT)	
1010-2281	Spanish cross, chrome
1010-2282	Spanish cross, black
1010-2283	Celtic cross, chrome
1010-2284	Celtic cross, black
REPLACEMENT COMPONENTS	
1011-3628	Black air filter element

All part numbers in **BLUE** are new for 2021.

AIR CLEANER ASSEMBLY WITHOUT COVER

- Machined from 6061-T6 billet aluminum
- Round center-bolt design retains the stock round air cleaner cover
- Custom-made K&N® air filter provides increased airflow volume to the engine
- Dyno-designed AirLoad backing plate reduces turbulence and increases air intake velocity, boosting horsepower and torque
- Exposes more of the engine and brings out its aggressive nature
- New low-profile black air filter element
- Complete hardware kit and instructions included for easy installation

NOTE: Must re-use stock center-bolt air cleaner cover to install.

PART #	DESCRIPTION
1010-2285	For 18-20 Softail models w/ round center-bolt air cleaner cover

REPLACEMENT AIR FILTER FOR ORIGINAL-STYLE LA CHOPPERS AIR CLEANER ASSEMBLY KITS AND AFFLICTION AIR CLEANERS

- Replacement larger-profile red air filter elements for original-style LA Choppers Air Cleaner Assembly kits and Affliction Air Cleaners and for current air cleaners using the the new-style low-profile black air filter element

1011-2052

PART #	DESCRIPTION
1011-2052	For 08-16 FLHT/FLHR/FLTR/FLHX, H-D FL Trikes, 16-17 Softails, 16-17 FXDLS,14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE models (6,5" diameter)
1011-2053	For 01-16 Twin Cam w/ Delphi EFI, 99-06 Big Twin w/ CV carb (except 08-16 Dresser, H-D FL Trikes, 16-17 Softails, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE models) (8" diameter)
1011-3628	Repl. black air filter element

1014-0153	Black pinstripe

RAINCOATS FOR BAK

- Protect your BAK filter from moisture and dust
- BAK filters are water-resistant, but extended riding in rain is not recommended
- Classic fits 2" W filter
- Slim fits 1 1/2" filter
- Classic will also work on any filter kit that uses a K&N E-3333 filter (does not fit K&N billet filter kits)

1011-2940

1011-2941

RPT AIR INTAKES

- Same internal components as the Cobra Powerflo air intake, with the outside cover replaced with a machined aluminum industrial-looking frame that echoes Cobra's popular Race Pro mufflers
- Unique internal venturi design promotes maximum airflow
- High-flow K&N® air filter element ensures the best air intake and maximum protection for your engine
- Include all the fasteners, seals, backing plate and mounting hardware to make for an easy installation
- Formed stainless steel mesh insert keeps out bugs and debris

AIR CLEANER KITS

- Flow better than stock or competing units, in large part because of its unique internal venturi design of the inner filter
- Optimize overall performance
- High-flow K&N® Air Filter element ensures the maximum air intake and protection
- Four styles available in black or chrome finishes
- Slim profile keeps the unit away from the rider's leg
- The Cobra system consists of a laser-cut, formed steel cover, separate mounting ring, and all the fasteners, seals, backing plate and mounting hardware for easy installation
- Formed stainless steel mesh insert

TURBINE AIR CLEANERS

- Exposed filter design offers enhanced airflow
- Backing plate promotes smooth airflow into carb/throttle body
- Built-in internal crankcase breathers
- High-volume K&N air filter
- Laser-engraved center nose cone (except repl. air filter)
- All mounting hardware included

BLACK BLACK OPS Contrast Cut

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR AND H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE MODELS	
1010-0845	Black
1010-0846	Contrast Cut™
1010-0847	Chrome
1010-0963	Black Ops™
FOR 01-15 SOFTAIL MODELS , 04-17 DYNA GLIDE MODELS (EXCEPT FXDLS), 02-07 FLT MODELS W/ DELPHI EFI, 99-06 BIG TWIN MODELS W/ STOCK CV CARB	
1010-0842	Black
1010-0843	Contrast Cut™
1010-0844	Chrome

PART #	DESCRIPTION
FOR 01-15 SOFTAIL MODELS , 04-17 DYNA GLIDE MODELS (EXCEPT FXDLS), 02-07 FLT MODELS W/ DELPHI EFI, 99-06 BIG TWIN MODELS W/ STOCK CV CARB (CONT)	
1010-0962	Black Ops™
FOR 91-20 XL W/ CV CARB/DELPHI EFI	
1010-0848	Black

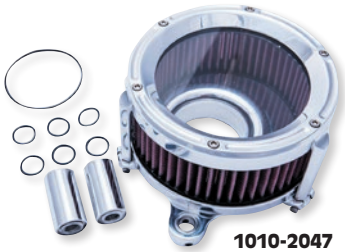
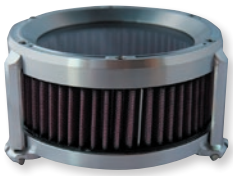
TRASK



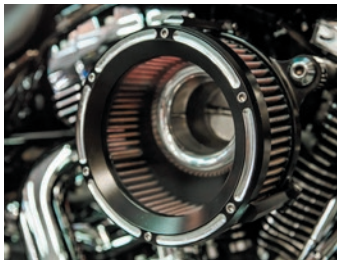
ASSAULT SERIES

ASSAULT CHARGE HIGH-FLOW AIR CLEANERS



- Features a billet aluminum backing plate with hidden integrated breather system and a plexiglass outer cover
- Snap-in velocity stack for improved airflow
- Dyno developed and tested
- High-flow air filter is reusable; just clean and re-oil
- Rain sock repels water from air filter element
- Optional velocity stack, PART #1010-2218, upgrades stock opening to 58 mm

1010-2519



1010-2047

1010-2048

1010-2049

1010-2629

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK, 18-20 SOFTAILS	
1010-2521	Gloss black powdercoat
1010-2268	Flat black
1010-2150	Raw machined
1010-2151	Chrome
1010-2152	Reverse Cut
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE AND 11-12 FLSTSE	
1010-2519	Gloss black powdercoat
1010-2266	Flat black
1010-2046	Reverse Cut
1010-2047	Chrome
1010-2048	Raw machined
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 BIG TWIN W/ CV CARBS (EXCEPT 08-17 TOURING, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNE AND 11-12 FLSTSE)	
1010-2520	Gloss black powdercoat
1010-2267	Flat black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 BIG TWIN W/ CV CARBS (EXCEPT 08-17 TOURING, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNE AND 11-12 FLSTSE) (CONT)	
1010-2049	Reverse Cut
1010-2050	Chrome
1010-2051	Raw machined
FOR 91-20 XL	
1010-2629	Flat black
1010-2630	Reverse cut
1010-2631	Chrome
1010-2632	Gloss black powdercoat
1010-2633	Raw machined
OPTIONAL/REPLACEMENT COMPONENTS	
1010-2218	Opt. velocity stack for PART #s 1010-2046, 1010-2047, 1010-2048, 1010-2049, 1010-2050, 1010-2051, 1010-2266, 1010-2267
1011-4321	Opt. air filter rain sock; black
1011-4322	Repl. high-flow air filter; black

RINEHART RACING

MOTO SERIES INVERTED AIR CLEANERS

- Drastically improves airflow over stock filters and delivers uncompromising performance
- Available in your choice of black or chrome
- Highly-efficient hidden breather and virtually closed-loop system
- Inverted, pleated top and sides maximize airflow from all angles - not just the sides
- Forged aluminum machined cover protects the filter element and adds distinct Rinehart Racing style to your ride

1010-2242

1010-2245

- Synthetic water-resistant washable filter element eliminates the need for a rain sock or air filter oil

PART #	DESCRIPTION
FOR 17-20 M8 TOURING AND 18-19 M8 SOFTAIL	
1010-2242	Black
1010-2412	Chrome

PART #	DESCRIPTION
FOR 08-16 TWIN CAM MODELS (FLY-BY-WIRE)	
1010-2244	Black
1010-2245	Chrome

ROLAND SANDS DESIGN

AIR CLEANER SCRUB BAG

- Stretches over complete air cleaner to prevent water from entering engine while washing bike
- Helps to keep water or other debris from entering when bike is parked
- Made from waterproof denier material with an elastic enclosure

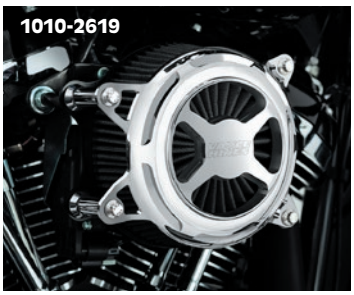
NOTE: Cannot be used while engine is running. For washing and storage purposes only.

PART #	DESCRIPTION
1011-2051	For all RSD Venturi and Turbine air cleaners

ROLAND SANDS DESIGN

RAIN SOCK

- Stretches over complete air cleaner for quick and easy roadside installation (no tools required)
- Helps to prevent water from entering your engine when riding in wet conditions
- Compatible with all RSD Venturi and Turbine air cleaner assemblies
- Hydrophobic manufacturing process repels water
- Filters out larger particles of debris down to 0,005"
- Uniform micron openings allow air in while keeping debris and water out



PART #	DESCRIPTION
1011-2050	For all RSD Venturi and Turbine air cleaners

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

VO2 X AIR INTAKES

- Extracts the maximum performance from any machine by utilizing the K&N Xstream high-flow air filter
- CNC-machined billet cover
- High-capacity washable air filter element
- Include backing plate, venturi and breather assemblies
- Available in chrome or black contrast finish

1010-2620

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/H-D FL TRIKES	
1010-2619	Chrome
1010-2620	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE	
1010-2621	Chrome
1010-2622	Black
FOR 18-20 SOFTAILS	
1010-2623	Chrome
1010-2624	Black

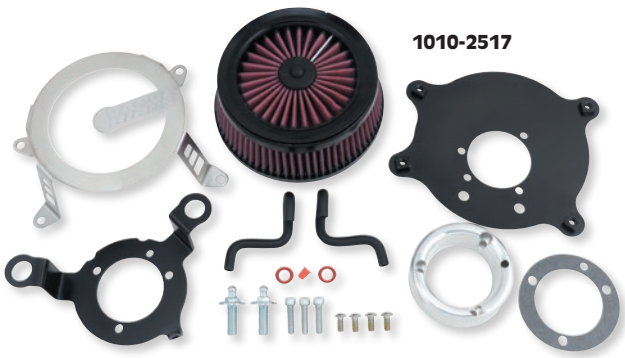
PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE)	
1010-2625	Chrome
1010-2626	Black
FOR 91-20 XL	
1010-2627	Chrome
1010-2628	Black
REPLACEMENT COMPONENTS	
1011-3972	Blue filter element
1011-3973	Red filter element

VO2 BLADE AIR INTAKES

- Sharp, clean lines give any V-Twin the edge in both show and go by utilizing the K&N Xstream high-flow air filter
- CNC-machined billet cover
- High-capacity washable air filter element
- Include backing plate, venturi and breather assemblies
- Available in chrome or black contrast finish

1010-2680

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL TRIKES	
1010-2679	Chrome
1010-2680	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE	
1010-2681	Chrome
1010-2682	Black
FOR 18-20 SOFTAILS	
1010-2683	Chrome
1010-2684	Black



PART #	DESCRIPTION
FOR 99-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE)	
1010-2685	Chrome
1010-2686	Black
FOR 91-20 XL	
1010-2687	Chrome
1010-2688	Black
REPLACEMENT COMPONENTS	
1011-3972	Blue filter element
1011-3973	Red filter element

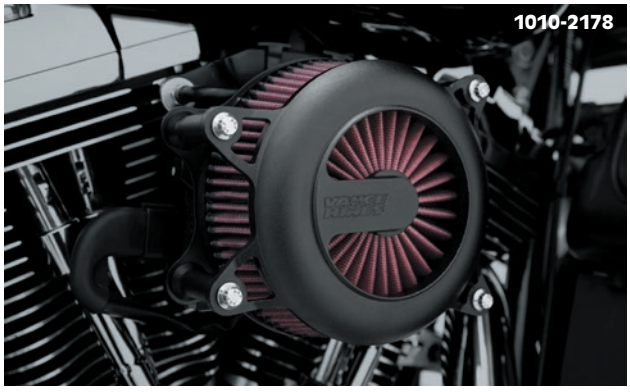
VO2 CAGE FIGHTER AIR INTAKE KITS

- Designed for maximum airflow to the filter element while providing a custom look
- Include washable high flow filter element
- Feature large inlet backing plate and billet venturi
- Available in a brushed finish

1010-2190

1010-2517

NOTE: 114" Softails will require support bracket H-D part #1600049 to install.



PART #	DESCRIPTION
1010-2190	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU models
1010-2516	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trikes, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE models
1010-2511	For 18-20 FXBB/FXBR/FXFB/FXLR/FLDE/FLFB/FLHC/FLSB/FLSL models
1010-2517	For 01-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam models w/ CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trikes, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE)
1010-2518	For 91-20 XL models
REPLACEMENT COMPONENTS	
1011-3972	Blue filter element
1011-3973	Red filter element

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

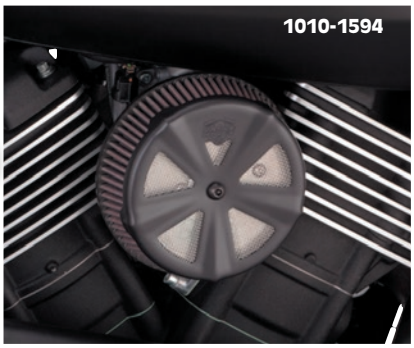
All part numbers in BLUE are new for 2021.

VANCE & HINES

VO2 ROGUE AIR INTAKE KITS

- For those looking to carry the classic upswept design throughout their motorcycle, the VO2 Rogue air intake echoes the classic rounded styling of the 2-into-1 Upsweep exhaust system
- Include washable high flow filter element
- Feature large inlet backing plate and billet venturi
- Include mounting hardware and installation instructions

NOTE: 114" Softails will require support bracket H-D part #16400049 to install.



PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES	
1010-2332	Chrome
1010-2333	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE	
1010-2177	Chrome
1010-2178	Black
FOR 18-20 SOFTAILS	
1010-2334	Chrome
1010-2335	Black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKES, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE)	
1010-2179	Chrome
1010-2180	Black
FOR 91-20 XL MODELS	
1010-2181	Chrome
1010-2182	Black
REPLACEMENT COMPONENTS	
1011-3972	Blue filter element
1011-3973	Red filter element

NAKED VO2 AIR INTAKES

- A high-flow replacement kit with greater air flow
- CNC-machined venturi
- Include a washable high-flow and reusable air filter
- Larger inlet backing plate

PART #	DESCRIPTION
1010-2221[1]	For 17-20 FLHT/FLHR/FLHX/FLTRX/H-D FL Trike models
1010-2081[2]	For 17-20 FLHT/FLHR/FLHX/FLTRX/H-D FL Trike models, 18-20 Softail models
1010-1611	For 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike and 16-17 Softail models (except FLSS/FLSTFBS)
1010-0738[2]	For 01-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam models w/ CV carb (except 08-17 Dressers, Dyna, X-Bones, 16-17 Softails)
1010-0865[2]	For 08-17 FXD/FXDWG models (except FXDLS)
1010-0866[2]	For 91-20 XL models
1010-1594[2]	For 15-20 XG 500/750
REPLACEMENT COMPONENT (EXCEPT FOR PART # 1010-2221)	
1011-2939	Filter for VO2 air cleaner

[1] Accepts stock cover.
[2] Will not accept stock cover, must use Vance & Hines Skullcap outer covers. Sold separately, see page 589.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

1010-2346

1010-2343

BURLY BRAND
MOTORCYCLE ACCESSORIES

HEX AIR CLEANERS

- Made from strong, stamped steel
- Slotted faceplate design
- Uses a K&N filter for maximum filtration and performance
- Air filter features oil breather bolts that route heat and oil through chemical-resistant, flexible tubing through the unit and back to the intake manifold for minimum oil seep

1010-2336

1010-2339

1010-2340

- Hex design complements the H-D V-Twin lines and its thin profile provides plenty of knee clearance without sacrificing airflow
- In chrome or black finish
- Optional faceplates sold separately

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR, HD FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2345	Chrome
1010-2344	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 SOFTAILS, 16-17 FXDLS	
1010-2347	Chrome
1010-2346	Black

1010-2340	MX faceplate, black
1011-4171	Repl. filter element

Joker MACHINE

1010-0926

HIGH-PERFORMANCE AIR CLEANER ASSEMBLIES

- Super-clean design features all-CNC-machined billet aluminum construction throughout
- Equipped with a genuine K&N 4" diameter high-flow filter
- Has Joker's exclusive "baffle plate" crankcase breathing system, held all together with high-strength 12-point alloy mounting bolts

1010-0928

1010-0929

- Improves leg clearance over the stock air cleaner assembly due to its compact design
- Available in your choice of hard black anodized or chrome-plated finishes

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR, HD FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE AND 16-17 FXDLS)	
1010-0926	Smooth black anodized

SUPER GAS AIR CLEANERS AND UNIVERSAL FACEPLATES

- Versatile design accepts interchangeable faceplates that are designed to match Performance Machine wheels
- Air cleaners include a K&N filter behind a stainless steel wire mesh screen to allow high-volume air flow, resulting in increased horsepower
- Air cleaners and universal faceplates are sold separately and available in chrome, Contrast Cut™ and Platinum Cut™ finishes
- Contrast Cut™ finish starts with a polished faceplate that has been black anodized, then recut to open up the design
- Platinum Cut uses the same process as the Contrast Cut™, only the recut areas are then hand polished to a brilliant finish
- Screamin' Eagle/Ness upgrade kit adapts a Performance Machine designed faceplate to fit the Screamin' Eagle/Arlen Ness air cleaners
- Screamin' Eagle/Ness upgrade kit includes mesh insert, spacer, hardware, and PM Logo badge

VINTAGE AIR CLEANER

- Lightweight low-profile design
- Installed with a high-flow air filter for better horsepower than stock units
- Available in Chrome, Contrast Cut™ or Black Ops™ finishes

1010-2230

1010-2231

1010-2232

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK, 18-20 SOFTAILS W/ 107"/114" MOTOR	
1010-2676	Contrast Cut™
1010-2677	Chrome
1010-2678	Black Ops™
FOR 08-16 FLHT/FLHR/FLTR/FLHX/H-D TRIKE, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-2233	Contrast Cut™
1010-2234	Chrome
1010-2235	Black Ops™

PART #	DESCRIPTION
FOR 01-15 SOFTAIL MODELS, 04-17 DYNA MODELS (EXCEPT FXDLS), 02-07 FLT MODELS W/ DELPHI EFI, 99-06 TWIN CAM MODELS W/ STOCK CV CARB	
1010-2230	Contrast Cut™
1010-2231	Chrome
1010-2232	Black Ops™
FOR 91-20 XL W/ CV CARB/DELPHI EFI	
1010-2236	Contrast Cut™
1010-2237	Chrome
1010-2238	Black Ops™

1010-1585

1010-1586

1010-1587

JET AIR CLEANERS

- Low-profile and lightweight air cleaners are CNC-machined from billet aluminum
- Innovative and versatile design allows unit to be mounted in the vertical or horizontal position
- Compact design for improved knee clearance
- Features PM's proven internal crankcase venting system
- Feature a high-flow reusable air filter
- Available in Contrast Cut™, chrome and Black Ops™ finishes
- Contrast Cut™ finish starts with a polished air cleaner that has been black anodized, then recut to open the design
- Black Ops™ finish features gloss black on top of a contrasting textured black finish for outstanding durability and looks

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK, 18-20 SOFTAILS W/ 107"/114" MOTOR	
1010-2670	Contrast Cut™
1010-2671	Chrome
1010-2672	Black Ops™
FOR 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-1588	Contrast Cut™
1010-1589	Chrome
1010-1590	Black Ops™

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/CV CARB (EXCEPT 08-17 TOURING, 16-17 FXDLS, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE)	
1010-1585	Contrast Cut™
1010-1586	Chrome
1010-1587	Black Ops™
FOR 91-20 XL W/ CV CARB/DEPHI EFI	
1010-1591	Contrast Cut™
1010-1593	Black Ops™
OPTIONAL/REPL. COMPONENTS	
1011-3593	Rain sock

REPLACEMENT AIR FILTER FOR SCALLOP/ARRAY AIR CLEANER

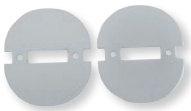
PART #	DESCRIPTION
1011-3190	Repl. air filter

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

KURYAKYN

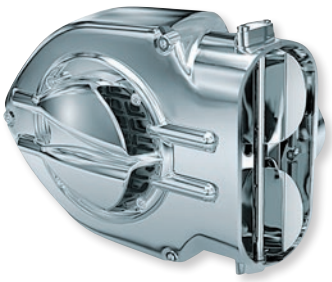
PRO R HYPERCHARGER™



- The best-flowing Hypercharger™ ever produced
- Careful redesign of all interior shapes increases airflow
- Additional air scoop on outer cover directs air onto the high-flow, washable and reusable air filter
- Unrestricted air under high-load riding situations from huge front butterflies is vacuum-operated
- Includes all necessary mounting hardware and crankcase breather kit

1010-1544

PART #	DESCRIPTION
1010-1004	For 08-16 FLHT/FLHR/FLTR/FLHX, H-D FL Trikes, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE
1010-0215	For 06-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam w/ CV carb (except 08-16 FLHT/FLHR/FLTR/FLHX, H-D FL Trikes, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE)
1010-1058	For 07-20 XL
1011-1079	Repl. K&N air filter (ea.)
1011-3206	Repl. cage/foam filter assembly
1010-1547	Repl. butterfly shaft kit w/ screws, washers, bearings and springs (kit)
1010-1544	Repl. chrome butterflies (pr.)
1011-3599	Opt. pre-filter (ea.)
1010-1548	Case screws (set of 3)



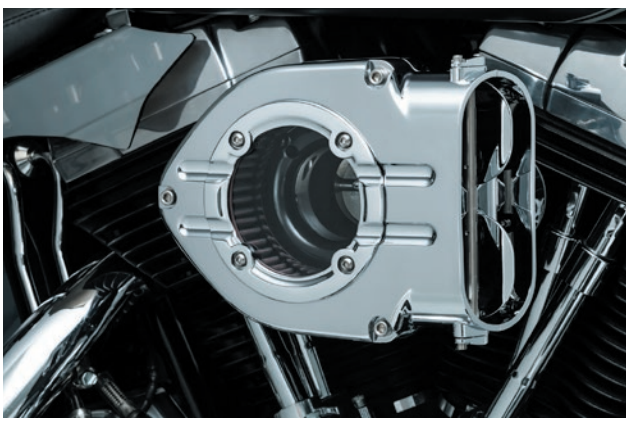
1010-1546

1010-1544

PRO SERIES HYPERCHARGER™ ACCESSORIES/REPLACEMENT PARTS

- Replacement parts/accessories for Pro Series Hyperchargers™

PART #	DESCRIPTION
1010-1546	Repl. butterfly shaft kit w/ screws, washers, bearings and springs (kit)
1011-3206	Repl. cage/foam filter assembly
1010-1544	Chrome butterflies (pr.)
1010-1548	Case screws (set of 3)



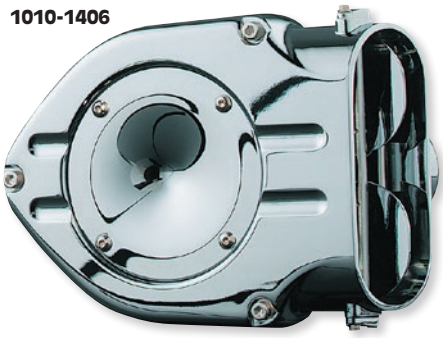
STINGER TRAP DOOR FOR HYPERCHARGER™

- If you have a need for more performance, look no further
- Stinger trap door maximizes airflow into the carburetor or throttle body through a high-flow filter element
- Highly cost-effective way to boost airflow to any standard Hypercharger™
- Easy four-bolt replacement for standard trap door
- Chrome finish

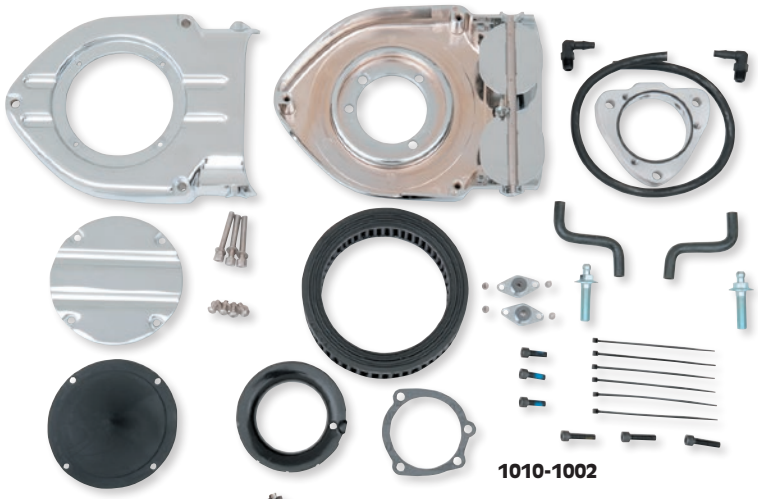
PART #	DESCRIPTION
1010-0145	Stinger trap door (ea.)

CLEAR TRAP DOOR FOR HYPERCHARGER™

- Direct replacement for the trap door on Kuryakyn's standard and Blood Groove Hyperchargers™
- Gives you an inside look at the inner workings of the air cleaner and throttle body
- Trim ring is cast aluminum construction
- Clear window is made from durable, shatterproof polycarbonate
- Gasket included



PART #	DESCRIPTION
1014-0242	Clear trap door for Hypercharger



DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

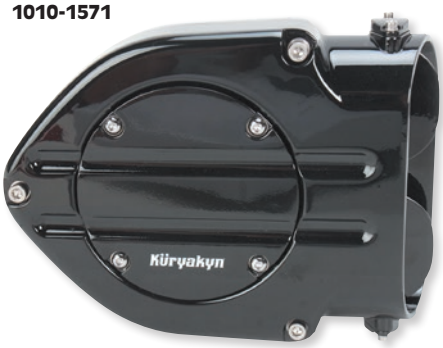
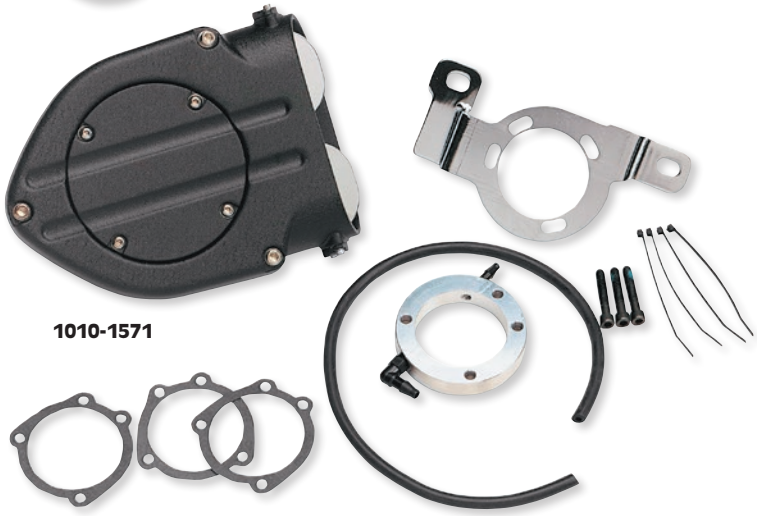
KURYAKYN



1010-1406

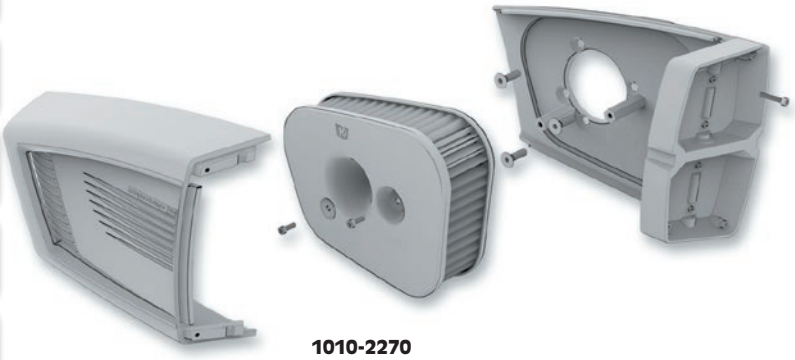


1010-1002

1010-1571

1010-1571

HYPERCHARGER™ AIR CLEANERS



- These air cleaners look great and work even better
- Outstanding performance on stock or mildly modified engines up to 90 horsepower
- Available with a standard (smooth) trap door or our Blood Groove design
- Chrome-plated or gloss black body and trapdoor with either chrome or black butterflies
- Provide excellent legroom for comfort while riding
- Include Kuryakyn's breather where applicable

PART #	DESCRIPTION
CHROME HYPERCHARGER WITH SMOOTH TRAP DOOR W/ CHROME BUTTERFLIES	
1010-1566	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trikes, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-14 FXSBSE, 14-15 FLSTNSE
1010-1406	For 07-20 XL w/ Delphi EFI
1010-0141	For 91-06 XL w/ stock carb
CHROME HYPERCHARGER WITH BLOOD GROOVE TRAP DOOR	
DS-288844	For 06-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam w/ CV carb (except 16-17 Softail, 16-17 FXDLS, 08-16 FLHR/FLHT/FLHX/FLTR and H-D FL Trike)
1010-1002	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trikes, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-14 FXSBSE, 14-15 FLSTNSE
1010-1568	For 07-20 XL w/ Delphi EFI
GLOSS BLACK HYPERCHARGER WITH BLOOD GROOVE TRAP DOOR W/ BLACK BUTTERFLIES	
1010-1571	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trikes, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-14 FXSBSE, 14-15 FLSTNSE
1010-1579	For 06-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam w/ CV carb (except 16-17 Softail, 16-17 FXDLS, 08-16 FLHR/FLHT/FLHX/FLTR and H-D FL Trike)
1010-1569	For 07-20 XL w/ Delphi EFI
HYPERCHARGER ACCESSORIES	
1013-0096	Throttle body support bracket for 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trikes, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-14 FXSBSE, 14-15 FLSTNSE
1013-0108	Carburetor support bracket for 88-06 XL with CV, Mikuni, Rev Tech or Screamin' Eagle carburetors
1013-0101	Bolt 1" mount
1013-0107	Mount kit for 06-17 Twin Cam with Delphi EFI (except 08-17 Touring/Trike, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-14 FXSBSE and 14-15 FLSTNSE)
1013-0106	Mount kit for 99-06 Twin Cam with CV carb
DS-288827	Adapter to mount Hypercharger on S&S E and G carburetors for 91-06 XL models (requires PART #DS-288826 adjustable enrichener and $^1/_2$"-13 x 1$^1/_2$" breather bolts)
DS-288826	Adjustable enrichener for S&S E and G carbs 91-06 XL models
1010-0146	Chrome blood groove trap door
1010-0332	Chrome butterflies (pr.)
1010-1540	Repl. butterfly shaft
DS-288825	Repl. K&N filter element for Hyperchargers
1010-1583	Repl. 1" breather bolts (pr.)
1012-0201	Formed breather hoses for Twin Cam breather kit
1010-1645	$^5/_8$" air cleaner spacer
1010-2740	Vacuum Pod Rebuild Kit for Hypercharger™

1010-1620

1010-1624

1010-1633

MACH 2™ AIR CLEANER KITS

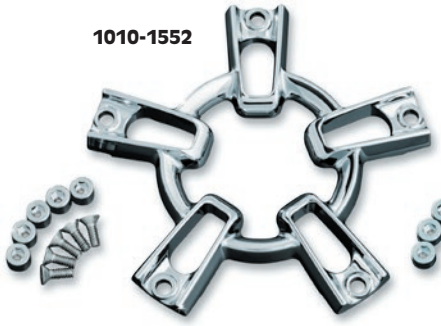
- Attractive, high-performance air cleaners
- Support over 140hp
- Include all necessary hardware
- Available in chrome, Zombie™, black and chrome or black
- Can be customized to meet the individual needs of the most demanding riders
- Air cleaner assembly only also available; sold each
- Matching inserts, Co-Ax Update Kits and replacement components available separately; see below

PART #	DESCRIPTION
CHROME	
1010-1636	For 07-16 XL
1010-1614	Complete Mach 2 air cleaner assembly only
ZOMBIE™	
1010-1620	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trike, 16 Softail, 14-15 FLSTNSE, 11-12 FLSTSE, 13-14 FXSBSE
BLACK AND CHROME	
1010-1626	For 93-99 EVO Big Twin w/ CV carb
1010-1625	For 91-06 XL w/ CV carb

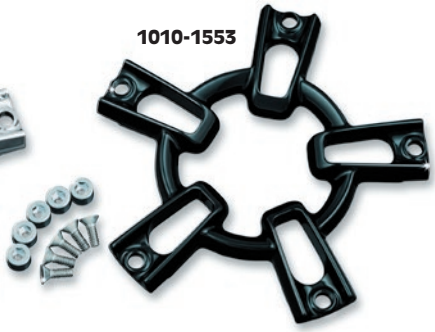
PART #	DESCRIPTION
BLACK AND CHROME (CONT)	
1010-1624	Complete Mach 2 air cleaner assembly only
BLACK	
1010-1633	For 99-17 Twin Cam w/ CV carb or Delphi EFI (except 08-17 FLHR/FLHT/FLHX/FLTR/H-D FL Trike, 16-17 FXDLRS, 16-17 Softail, 14-15 FLSTNSE, 11-12 FLSTSE, 13-14 FXSBSE)
1010-1632	For 93-99 EVO Big Twin w/ CV carb
REPLACEMENT COMPONENTS	
1011-3324	K&N pre-filter

1010-1556

1010-1564



MACH 2™ CO-AX AIR CLEANERS



- Supports engine builds over 150 hp
- High-flow parabolic curve entry to throttle body
- Features K&N element
- Can be upgraded with interchangeable accessories, available separately
- Available in chrome or gloss black

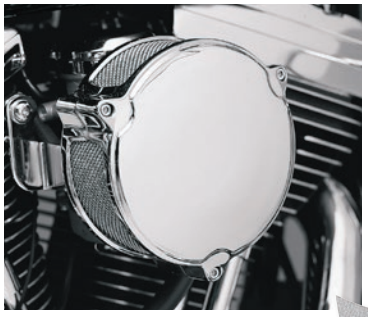
PART #	DESCRIPTION
CHROME	
1010-1559	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trike, 16 Softail, 14-15 FLSTNSE, 11-12 FLSTSE, 13-14 FXSBSE
1010-1558	For 99-16 Twin Cam w/ CV Carb or Delphi EFI (except 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trike, 16 Softail, 14-15 FLSTNSE, 11-12 FLSTSE, 13-14 FXSBSE)
1010-1556	For 07-16 XL
1010-1555	For 91-06 XL w/ CV carb
GLOSS BLACK	
1010-1564	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trike, 16 Softail, 14-15 FLSTNSE, 11-12 FLSTSE, 13-14 FXSBSE

1010-1552

1010-1553

MACH 2™ CO-AX UPDATE KITS

- Co-Ax Update Kits fit Mach 2 air cleaners only and are available in chrome or black; sold each



NOTE: Not recommended for use on engine cases.

PART #	DESCRIPTION
1010-1552	Chrome

PART #	DESCRIPTION
1010-1553	Gloss black

1010-2091

1010-2093

1010-2111

1010-2105

1011-4265

MONSTER SUCKER AIR CLEANER KITS WITH COVER

- Monster Sucker kit features Big Sucker "hidden breather" technology and more filter surface area for maximum performance
- Hidden breathers are O-ringed at the heads and exit out the mouth of the throttle body to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Filter features a built-in inverted top to pull in air not only from all sides of the filter but also from the front, which results in more performance-gaining airflow
- Each filter is constructed from synthetic material that is water-resistant, which in most cases eliminates the need for a rain sock
- Filters are re-usable and do not require oil, just rinse and re-use
- Kits include Arlen Ness forged billet covers
- Replacement air filter fits all Monster Sucker air cleaners; sold separately
- Fit with fairing lowers

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL TRIKE (EXCEPT MODELS W/ FAIRING LOWERS), 18-20 SOFTAILS	
1010-2091	10-Gauge, chrome
1010-2095	10-Gauge, black
1010-2092	Beveled, chrome
1010-2096	Beveled, black
1010-2093	Deep Cut, chrome
1010-2097	Deep Cut, black
FOR 08-16 FLHT/FLHR/FLHX/FLTR AND H-D FL TRIKE (EXCEPT MODELS W/ FAIRING LOWERS) 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2109	10-Gauge, black
1010-2123	10-Gauge, chrome
1010-2110	Beveled, black
1010-2111	Deep Cut, black
1010-2125	Deep Cut, chrome

PART #	DESCRIPTION
FOR 01-17 TWIN CAM DELPHI EFI MODELS AND 99-06 TWIN CAM CV CARB MODELS (EXCEPT MODELS W/ FAIRING LOWERS AND 08-16 FLHT/FLHR/ FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)

1014-0251

1014-0252

1014-0253

MONSTER SUCKER AIR CLEANER KITS

- Monster Sucker kit features our Big Sucker "hidden breather" technology and more filter surface area for maximum performance
- Hidden breathers are O-ringed at the heads and exit out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Filter features a built-in inverted top to pull in air not only from all sides of the filter but also from the front, which results in more performance-gaining airflow
- Each filter is constructed from synthetic material that is water-resistant, which in most cases eliminates the need for a rain sock
- Filters are re-usable and do not require oil; just rinse and re-use
- Kits do not include Arlen Ness forged billet covers; must be purchased separately
- Cover styles available in Deep Cut or Beveled
- Forged billet covers can be added at any time to any Monster Sucker kits that were originally purchased without covers (sold separately)
- Replacement air filter fits all Monster Sucker air cleaners; sold separately
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL TRIKE (EXCEPT MODELS W/ FAIRING LOWERS), 18-20 SOFTAILS	
1010-2094	Chrome
1010-2098	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE (EXCEPT MODELS W/ FAIRING LOWERS), 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2107	Black
1010-2108	Chrome
FOR 01-17 TWIN CAM DELPHI EFI MODELS AND 99-06 TWIN CAM CV CARB MODELS (EXCEPT MODELS W/ FAIRING LOWERS AND 08-16 FLHT/FLHR/ FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAILS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2102	Black
1010-2103	Chrome

PART #	DESCRIPTION
FOR 91-20 XL	
1010-2112[1]	Black
1010-2113[1]	Chrome
OPTIONAL/REPL. COMPONENTS	
1014-0250	Deep Cut cover, black
1014-0251	Deep Cut cover, chrome
1014-0252	Beveled cover, black
1014-0253	Beveled cover, chrome
1011-4265	Repl. air filter for all Monster Sucker air cleaners
1011-4358	Pre-filter for Monster Sucker air cleaner w/o cover only

[1] Will fit 88-90 models also; breather system is not applicable for these model years.

1010-2171

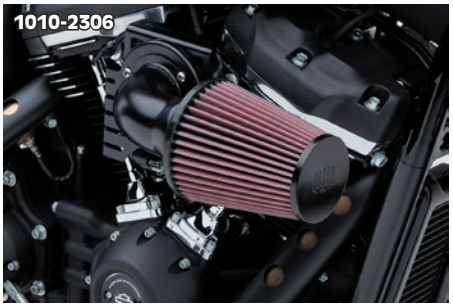
1010-2408

TUNED INDUCTION AIR CLEANERS

- Swept forward, two-in-one design rams additional air into the cylinder
- Natural supercharging effect increases mid-range torque
- Nearly twice the filter area of a teardrop air cleaner
- Features chrome runner, bracket, backing plate, filters and hardware (unless noted)

1011-0897

1011-0898



1011-1336

PART #	DESCRIPTION
1010-2171	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE models w/ S&S Single Bore EFI (except models w/ fairing lowers) (black finish)
1010-2170	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE models w/ S&S Single Bore EFI (except models w/ fairing lowers)
1010-2169	For 01-17 Twin Cam w/ stock Delphi EFI (except 08-17 Touring, 16-17 FXDLS, 16-17 Softails, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE)
1010-1079	For 99-06 Twin Cam models w/ stock CV carb
1010-1084	For 99-06 Twin Cam models w/ S&S E/G series carb
1010-2616	For 07-20 XL w/ stock EFI
1010-1080	For 91-20 XL w/ stock CV carb and Delphi EFI
1010-2408	For 07-17 XL w/ stock EFI
1010-1081	For S&S 124", 117", 111" motors w/ S&S 4 1/8" single-bore fuel-injection
REPLACEMENT COMPONENTS	
1011-0897	Repl. red filter w/ clamp (ea.)
1011-0898	Opt. blue filter w/ clamp (ea.)
1011-1336	Moisture repellent rain cover for S&S tuned induction filters (pr.)
1010-2706	Moisture repellent rain cover for S&S tuned induction filters (ea.)

CONE AIR INTAKES

- Orients the K&N filter forward
- Includes lasered and folded shield
- Simple bolt-on installation
- Available in chrome or black

1010-0553

VANCE HINES

RAIN SOCK FOR VO2 90 AIR INTAKES

- Made of textile material and is reusable
- Fits the following VO2 90 Air Intakes PART #s: 1010-1717, 1010-1718, 1010-1720, 1010-1721, 1010-1722, 1010-1724
- Sold each

PART #	DESCRIPTION
1011-3970	Rain sock for VO2 90 Air Intakes

DRAG Specialties

AIR CLEANER ADAPTERS

- Allows installation of a Dragtron II air cleaner (PART #s DS-289044 or 1010-2692) to models listed
- Plain machined finish

PART #	DESCRIPTION
1010-0552	For 08-16 FLHT/FLHR/FLTR/FLHX and H-D FL Trike models
1010-0553	For 01-17 Twin Cam models w/ Delphi EFI (except 08-16 Dressers/H-D FL Trike, 16-17 FXDLS and 16-17 Softails)

TRASK

MIKUNI AIR CLEANER ADAPTER

- Machined 6061-T6 billet aluminum construction
- Use to mount either an S&S E/G or Keihin CV style air cleaners to a Mikuni HSR 42/45 carb

PART #	DESCRIPTION
1013-0099	Mikuni adapter

1013-0059

1013-0060

LA choppers

AIR CLEANER ADAPTERS

- Allows installation of a Los Angeles Choppers xXx air cleaner or Baron Big Air Kit to a Mikuni or S&S carburetor
- Will also work for mounting other air cleaner kits designed to mount stock CV carburetors; not for use with Arlen Ness Big Sucker air cleaners
- Constructed from 6061-T6 billet aluminum

PART #	DESCRIPTION
1013-0059	For Mikuni HSR42/45 carburetors
1013-0060	For S&S carburetors

Esteves Motorcycle Design

VORTEX AIR CLEANER HOUSINGS

- Simplicity of a raw performance part with a good mix of basic old-school design and function
- Manufactured in die-cast aluminum with CNC-milled gasket surface
- Central porthole is thermoformed Lexan® to increase flow and to watch that spray of raw fuel when you grab a handful of throttle
- Lightweight and functional
- Includes stainless steel back plate and hardware
- Air filter element will need to be ordered separately; not included, order K&N PART #TB10; does not include breathers
- Sold each

NOTE: Carb support brackets sold separately.

PART #	DESCRIPTION
FOR 99-13 BIG TWIN AND 86-13 XL WITH CV CARBURETOR OR DELPHI EFI UP TO 96" (EXCEPT 08-13 DRESSERS)	
1010-2044	Black cut
1010-2045	Raw

LA choppers

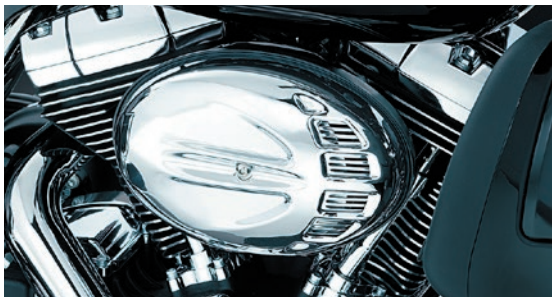
STOP-N-POP BOTTLE OPENER

- Add a visual kick to your air cleaner or custom location of your choice
- Aluminum base construction with stainless steel bottle opener
- Base is ball-furnished finish, bottle opener is polished finish
- Installs using original air cleaner center-mount bolt; mounting hardware for bottle opener included
- Mounts in just minutes, adding both functionality and bling

PART #	DESCRIPTION
1014-0110	For 99-17 Twin Cam w/ stock oval air cleaner cover (except 14-16 FLHT/FLHR/FLHX, 16-17 Softail and 08-17 Dyna)

1014-0131

1014-0168



KURYAKYN

ALLEY CAT AIR CLEANER COVERS

- Designed to fit Kuryakyn Street Sleeper II high-flow air cleaner
- Also fits select H-D Screamin' Eagle and some other aftermarket air cleaners (see chart)
- Features a unique chrome mesh insert and "knock-off" style end cap for a retro look
- Cover only, not a complete air filter assembly
- Sold each

NOTE: Will not work on Arlen Ness Stage II Big Sucker air cleaner or original Kuryakyn Street Sleeper.

PART #	DESCRIPTION
FOR 99-16 FLHT/FLHR/FLTR/FLHX, 00-17 FLST/FXST AND 99-07 DYNA W/ SCREAMIN' EAGLE STAGE I AIR CLEANER KIT; ALSO FITS KURYAKYN STREET SLEEPER II AND III AIR CLEANER OR ARLEN NESS STAGE I BIG SUCKER AIR CLEANER	
1014-0131	Chrome
1014-0168	Black and chrome

KURYAKYN

SCARAB AIR CLEANER COVER

- Stylish upgrade for the OEM air cleaner assembly
- Contoured design adds a racy touch
- Chrome grille openings allow additional airflow

PART #	DESCRIPTION
1010-0716	For 02-13 FLHT/FLHR/FLTR/FLHX and H-D FL Trike (except models w/ carburetor), 01-15 FXST/FLST (except 11-13 FXS, 12-15 FLS, 08-11 FLSTSB and models w/ carburetor), 04-07 FXD/FXDWG

1010-0868

1010-0867

VANCE & HINES

FEULING

3" VELOCITY STACK

- 3" tall billet aluminum velocity stack fits M-Eight throttle body bolt pattern
- Impressive horsepower and torque gains on engines running modified and ported cylinder heads and intakes with larger throttle bodies
- Great performance part for racing and for those that want to head to the track on the weekend
- 4" diameter opening with an internal taper down to 2,4"
- ID matched to 62 mm throttle bodies
- Natural aluminum finish
- Includes gasket and hardware

NOTE: Will require a custom breather system or will bolt up to aftermarket air cleaner backing plates that have internal breather systems.

PART #	DESCRIPTION
1010-2578	For 17-20 FLHT/FLHR/FLHX/FLTRX/ FLTRU/H-D Trike and 18-20 Softails

PROVEN S&S PERFORMANCE

AIR HORN VELOCITY STACK KIT

1011-3843

- Fully machined from lightweight alloy aluminum castings
- Kit includes: air horn, three mounting screws, carb support bracket (bracket connects the center crankcase bolt to the bottom manifold carburetor mounting bolt), two longer bottom carb-to-manifold mounting bolts and an enrichment device
- Replacement air horns available in short 6,25 cm (2 1/2") or long 10 cm (4") lengths; include mounting screws
- Air horn cover sold separately
- Fits Super E & G carbs

PART #	DESCRIPTION
1011-3843	Air horn kit
1010-2702	Air horn 6,5 cm (2,5") L

PART #	DESCRIPTION
1010-2703	Air horn cover
1010-2704	Air horn 10 cm (4,0") L

ROLAND SANDS DESIGN

NOSTALGIA VELOCITY STACK

- High-velocity stack includes backing plate with breathers and screen
- CNC-machined billet aluminum
- Available in black anodized finish
- All mounting hardware included

PART #	DESCRIPTION
1010-0835	For 91-20 XL

ROLAND SANDS DESIGN

VELOCITY STACK PRE-FILTER

- Compatible with all RSD velocity stacks
- Also fits on any 3 3/4" velocity stack
- Hydrophobic manufacturing process repels water
- Filters out larger particles of debris down to 0,005"
- Uniform micron openings allow air in while keeping debris and water out

PART #	DESCRIPTION
1011-2763	Velocity stack pre-filter

REPLACEMENT AIR FILTER ELEMENTS

- High-quality paper filter medium
- Meets or exceeds OEM specifications
- For use with OEM stock air filter housings

NOTE: Not for use with Screamin' Eagle air cleaners (unless noted).

PART #	DESCRIPTION
FOR BIG TWIN	
1011-3940	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL Trike; repl. OEM #29400212
1011-3178	For 14-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trikes, 16-17 Softail (except FLSS/FLSTFBS); repl. OEM #29400045
1011-2957	For 08-13 FLHR/FLHT/FLHX/FLTR and H-D FL Trikes; repl. OEM #29633-08
1011-4219	For 99-01 88" Twin Cam Fuel-Injected Dressers; repl. OEM #29462-99
1011-4223	For 08-14 FLHTCU/FLHRSE w/ Screamin' Eagle stage I air cleaner; repl. OEM# 29244-08
1011-2956	For 99-17 Twin Cam (except 11-13 FXS, 12-17 FLS, 99-01 EFI models, 08-16 FLHT/FLHR/FLHX/FLTR and H-D FL Trike models, 08-15 Dyna Glide models, 08-11 FLSTSB); repl. OEM #s 29461-99/29400042

FOR STREET		
1011-3531	For 15-20 XG 500/750 (except 750A)	29400078
1011-4167	For 17-20 XG 750A Street Rod	29400269
FOR BUELL		
1011-0328	03-09 XB9/XB12/XB12S/SCG, 08 XV12SS/STT, 04-09 XB12R	P0213.0248
1011-1725	For 08-09 1125R/CR	P02131AMA
FOR AFTERMARKET AIR CLEANERS		
1011-1410	For Screamin' Eagle stage 1 filter for 08-16 FLT/FLHT/FLHR/FLHX/FLTR and 16-17 Softail	29242-08, 29400019
1011-0557	For Twin Cam Screamin' Eagle tapered air filter (except 08-15 Dresser/Dyna and 16-17 Softail) (no lid); $5^1/_2$" dia. (top) x $6^1/_4$" dia. (base)	29244-99A/B/C/D
1011-2674	For Screamin' Eagle stage 1 for 09-17 Ventilator element, 10-17 CVO Dresser (oval)	29670-09/29400022A
1011-1409	For Screamin' Eagle stage 1 filter for 08-17 Dyna	29385-08
1011-1068	For Screamin' Eagle stage 1 for 04-20 XL (oval)	29044-04B/29400026
HD-0600	For Early Evolution Screamin' Eagle air filter (w/ lid); 7" dia. (base) x 7" dia. (top)	29055-89
1011-3217	For Joker Machine high-performance air cleaner assemblies	-
E-3224	For S&S "D" teardrop air filter; $2^1/_{16}$" (53,4 mm)	-
E3226	For S&S Super E and G series carb air filter; $2^1/_2$"	-
E-3225	For S&S old-style teardrop-shaped housing; 6" x $2^3/_{16}$" air filter	-
DS-289057	For Dragtron™ II air filter (5,25")	-
1011-3983	For K&N RK Series air cleaner assembly (large capacity $3^1/_8$")	-

REPLACEMENT AIR FILTER ELEMENTS FOR STAGE 1 SCREAMIN' EAGLE® AIR CLEANER

- Premium pre-oiled direct replacement element for Screamin' Eagle® kits
- Each is handmade one at a time in a urethane body that won't crack; four layers of surgical-grade cotton provide optimum air flow and protection
- 100% re-usable and washable
- Available in red cotton; fit with original Screamin' Eagle covers
- Can also be used with Ness Stage I top cover for an exposed filter high-performance look; no other hardware necessary

PART #	DESCRIPTION
1011-2054	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike and 16-17 Softail models w/ 58 mm throttle body
2110-9494	For 02-07 FLHT, 00-10 FXST, 99-07 FXD/FXDWG

K&N

DRYCHARGERS

- Specially designed filter wrap made to extend the service interval of your K&N air filter when used in severe dusty or wet conditions
- Made from durable polyester material containing uniform micron openings, the DryCharger® will stop small dirt particles and is water repellant, yet adds little restriction to the airflow of your filter
- Features double-stitched elastic openings to secure drycharger in place
- Designed to be run dry and can be cleaned with K&N filter cleaner
- Custom fit to each application

T143 LONG BLOCK ENGINES

- Fits in stock chassis, no cutting or frame modifications necessary
- S&S B3 cylinder heads CNC-machined with two-bolt exhaust flanges
- S&S Super Stock™ T2 crankcases with reed breather valve three-piece flywheels
- S&S TC3 oil pump and redesigned cam cover
- S&S 635 easy-start gear drive cams and 1,725:1 rocker arms for 0,674" total lift
- S&S premium high-performance tappets
- 4,425" bore x 4 5/8" stroke
- 10,5:1 compression ratio
- Available in wrinkle black/chrome finish or Black Edition
- Black Edition includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

PART #	DESCRIPTION
FOR 07-16 TOURING MODELS (EXCEPT TWIN COOLED)	
0901-0236[1]	Wrinkle black/chrome
0901-0201[3]	Wrinkle black/chrome
0901-0253[1]	Black
0933-0115	Top motor mount, 07-08 Touring models
0933-0116	Top motor mount, 09-16 Touring models
0711-0220	Oil line installation kit
FOR 99-06 TOURING AND 99-05 DYNA MODELS	
0901-0239	Wrinkle black/chrome
0901-0245	Black

NOTE: Does not include carb/intake or ignition system. Must be purchased separately, see FUEL/AIR SYSTEMS and ELECTRICAL sections.

NOTE: T143-specific or custom exhaust required.

NOTE: Additional components required for installation, components sold separately.

PART #	DESCRIPTION
FOR 99-06 TOURING AND 99-05 DYNA MODELS (CONT)	
0901-0205[2, 3]	Wrinkle black/chrome
FOR 06-17 DYNA MODELS	
0901-0249	Wrinkle black/chrome
0901-0250	Black
0950-0848	Installation kit, black
0950-0849	Installation kit, silver

[1] Requires the use of oil line kit PART #0711-0220 for installation (sold separately).
[2] Not for use with Magneti Marelli EFI.
[3] Feature high-flow oil pump and earlier design cam cover.

T124HC SERIES LONG BLOCK ENGINES

- High Compression, 10,8:1 for the ultimate in street performance
- No fuel system or ignition systems included
- Special head machining fits stock length intake manifolds (S&S manifold size 410)
- Stock style breathing system; compatible with stock and most performance air cleaners
- Includes Super Stock™ heads, crankcases, TC3 oil pump and cam plate, redesigned cam cover and easy start 640 gear drive cams
- Specs: displacement 124"; bore 4 1/8"; stroke 4 5/8"; piston type forged flat top; compression Ratio 10,8:1
- Black Edition includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

NOTE: Additional components required for installation, components sold separately.

PART #	DESCRIPTION
FOR 07-16 TOURING MODELS (EXCEPT TWIN COOLED)	
0901-0234[1]	Wrinkle black/chrome
0901-0247[1]	Black
0901-0199[3]	Wrinkle black/chrome
FOR 99-06 TOURING AND 99-05 DYNA MODELS	
0901-0191[2, 3]	Wrinkle black/chrome

NOTE: Cylinder heads on T-Series long block engines are 99-05 style. Owners of 06 models will need to purchase a set of 99-05 style, offset intake flanges.

NOTE: Cylinder heads on these engines are specially machined to compensate for the non-stock cylinder length. As a result, they are compatible with manifolds and throttle bodies with stock length intake runners. In addition, the breather vent bolt locations have been adjusted so they are in the stock location, so stock style air cleaner back plates will bolt up to these engines.

PART #	DESCRIPTION
FOR 06-17 DYNA MODELS	
0901-0232	Wrinkle black/chrome
0901-0243	Black

[1] Requires the use of oil line kit PART #0711-0220 for installation (sold separately).
[2] Not for use with Magneti Marelli EFI.
[3] Includes high-flow oil pump (not TC3) and earlier design cam cover.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

0901-0235

0901-0237

T124LC SERIES LONG BLOCK ENGINES

- Lower compression, 10,2:1, for great street torque
- Includes Super Stock™ heads, T2 crankcase, TC3 oil pump, Easy Start 585 gear drive cams and redesigned cam cover
- Specs: displacement 124"; bore $4^{1}/_{8}$"; stroke $4^{5}/_{8}$"; piston type S&S forged dish 11 cc; compression ratio 10,2:1 (unless noted)
- No fuel system or ignition systems included
- Special head machining fits stock length intake manifolds (S&S manifold size 405)
- Stock style breathing system; compatible with stock and most performance air cleaners
- Black Edition includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

NOTE: Additional components required for installation, components sold separately.

PART #	DESCRIPTION
FOR 07-16 TOURING MODELS (EXCEPT TWIN COOLED)	
0901-0248[1]	Black
0901-0235[1]	Wrinkle black/chrome
0901-0200	Wrinkle black/chrome
0711-0220	Oil line installation kit
FOR 06-17 DYNA MODELS	
0901-0240[2]	Wrinkle black/chrome
0901-0241[2]	Black

NOTE: Cylinder heads on T-Series long block engines are 99-05 style. Owners of 06 models will need to purchase a set of 99-05 style, offset intake flanges.

NOTE: Cylinder heads on these engines are specially machined to compensate for the non-stock cylinder length. As a result, they are compatible with manifolds and throttle bodies with stock length intake runners. In addition, the breather vent bolt locations have been adjusted so they are in the stock location, so stock style air cleaner back plates will bolt up to these engines.

128" POWER PACKAGES FOR M-EIGHT

- Big-bore bolt-on kit increases your 114"/117" with 4,5" stroke M-Eight to 128" with no case machining required
- $4^{1}/_{4}$" bore cylinders with 11:1 forged pistons
- Wrinkle black or black granite finish cylinders with or without fin highlighting
- S&S oil pump/cam plate with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the oil feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit installed in the engine
- Quickee pushrods with chrome pushrod tubes
- S&S premium tappets
- S&S hard-anodized, black coated tappet cuffs are billet aluminum construction
- Improve tappet stability in high lift, high rpm situations
- S&S 550 cams designed for big bore applications (gear or chain drive cams available)
- S&S valve springs; work with cams up to 0,605" lift
- High-performance conical single-wire spring design
- All necessary gaskets, bearings and hardware for bolt-on installation included

PART #	DESCRIPTION
FOR 17-20 M-EIGHT OIL-COOLED ENGINES	
0904-0067	Chain drive cam, wrinkle black w/ highlighted fins
0904-0068	Gear drive cam, wrinkle black w/ highlighted fins
0904-0069	Chain drive cam, wrinkle black w/ non-highlighted fins
0904-0070	Gear drive cam, wrinkle black w/ non-highlighted fins
0904-0073	Chain drive cam, black granite w/ highlighted fins
0904-0074	Gear drive cam, black granite w/ highlighted fins
FOR 17-20 M-EIGHT WATER/OIL-COOLED ENGINES	
0904-0065	Chain drive cam, wrinkle black w/ highlighted fins

124" POWER PACKAGE FOR M-EIGHT

- Increase your 107" M-Eight engine to 124" with this bolt-on power package
- 4 1/4" bore cylinders with 11:1 forged pistons
- Wrinkle black finish cylinders with or without fin highlighting
- S&S oil pump/cam plate with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the oil feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit installed in the engine
- Quickee pushrods with chrome or gloss black pushrod tubes
- S&S premium tappets
- S&S hard-anodized, black coating tappet cuffs are billet aluminum construction
- Improve tappet stability in high lift, high rpm situations
- S&S 550 cams designed for big bore applications (gear or chain drive cams available)
- S&S valve springs; work with cams up to 0,605" lift
- High-performance conical single-wire spring design
- All necessary gaskets, bearings and hardware for bolt-on installation included

PART #	DESCRIPTION
FOR 17-20 M-EIGHT OIL-COOLED ENGINES	
0904-0057	Chain drive cam w/ highlighted cylinder fins and chrome pushrod tubes
0904-0058	Gear drive cam w/ highlighted cylinder fins and chrome pushrod tubes
0904-0061	Chain drive cam w/ highlighted cylinder fins and gloss black pushrod tubes
0904-0062[1]	Chain drive cam w/ non-highlighted cylinder fins and gloss black pushrod tubes
0904-0063	Gear drive cam w/ highlighted cylinder fins and gloss black pushrod tubes
0904-0064	Gear drive cam w/ non-highlighted cylinder fins and gloss black pushrod tubes
FOR 17-20 M-EIGHT WATER/OIL-COOLED ENGINES	
0904-0056	Gear drive cam w/ highlighted cylinder fins and chrome pushrod tubes
0904-0059	Chain drive cam w/ highlighted cylinder fins and gloss black pushrod tubes
0904-0060	Gear drive cam w./ highlighted cylinder fins and gloss black pushrod tubes

[1] Does not include bearings, gaskets or hardware.

POWER PACKAGES

- Get everything needed in one package
- Includes an S&S 4" big bore cylinder kit with 10,5:1 pistons, S&S 585 Easy Start cams, S&S Quickee Pushrods, and S&S Premium Hydraulic tappets to make the most of the added displacement
- TC3 cam support plate and TC3 oil pump to ensure consistent oil pressure and engine longevity
- Increases displacement to 100" (99-06) or 110" (07-17)
- Cylinders fit to pistons; no machining required
- All parts required to upgrade to gear drive cam or hydraulic tensioners in one easy to order part number

NOTE: 99-04 Twin Cams will require the additional purchase of valve spring kit PART #0926-2722. Pinion shaft runout must be less than 0,003" to use gear drive cams. Kit not available to fit 06 Dyna models.

NOTE: Not for use with S&S 79 cc heads.

NOTE: Can be used with stock heads.

PART #	DESCRIPTION
110" KITS FOR 07-17 TWIN CAM	
0904-0029	585CE, (chain drive), silver
0904-0030	585CE, (chain drive), black
0904-0031	585CE, (gear drive), silver
0904-0032	585CE, (gear drive), black

PART #	DESCRIPTION
100" KITS FOR 99-06 TWIN CAM EXCEPT 06 DYNA	
0904-0025	585CE, (chain drive), silver
0904-0026	585CE, (chain drive), black
0904-0027	585CE, (gear drive), silver
0904-0028	585CE, (gear drive), black

GRIND	OPEN	CLOSE	DURATION @ 0,053	VALVE LIFT
S&S 585 CAM SPECIFICATIONS				
Intake	20°	45°	245°	0,585"
Exhaust	60°	20°	260°	0,585"

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

124" HOT SETUP KITS

- The S&S Hot Setup kit for Twin Cams allows a Twin Cam owner to convert a stock engine to 124" using the stock crankcases
- Include S&S heads 91 cc, 4,125" bore cylinders and forged 10,8:1 flattop pistons, S&S 4,625" stroke flywheel assembly, S&S 0,640" lift chain-drive Easy Start cams, tappets, S&S adjustable pushrods, roller rocker arms, and all hardware, gaskets and instructions
- Fuel system is not included
- Available in black powdercoat finish

NOTE: This project requires crankcase modifications. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

PART #	DESCRIPTION
0903-0951[1]	For 07-17 Twin Cam 96/103/110A and 06 Dyna
0922-0124[2]	For 07-17 Twin Cam 96B/103B/110B
0903-1254	For 01-06 Twin Cam 88B

0903-1254

PART #	DESCRIPTION
0903-0950	For 99-06 Twin Cam 88A (except 06 Dyna)

[1] Not for use on Twin Cooled motors.
[2] Includes chromoly steel adjustable pushrods.

106" HOT SETUP KIT

- Increased fin area for better heat dissipation
- Increase bore size from 3,750" to 3,927"
- $4^{3}/_{8}$" stroke, 10:1 comp. with stock heads
- Easy installation; no machining or rebalancing required
- Forged coated pistons are compatible with stock or S&S Super Stock 79 cc and 89 cc heads
- Valve pocket recessed in S&S pistons are enlarged for oversize valves and higher lift cams
- Maintains stock engine height and stock piston weight
- 11 fins and full fin pattern on cam side of cylinders closely resembles OEM shape
- Kit includes: S&S cylinders with gaskets, piston set with rings, top end gasket kit, pushrods, tappets, 585CE chain-drive easy start cams and instructions
- A fuel system is not included

PART #	DESCRIPTION
0903-1293	For 07-17 Twin Cam models (except Twin Cooled)

95" HOT SETUP KIT FOR 88" ENGINES

- A great way to get serious horsepower out of a motor
- Installing this 95" Hot Setup kit can be easier than a routine top-end job
- The kit includes Twin Cam style S&S Super Stock cylinder heads, cylinders and pistons, adjustable pushrods, pushrod covers, high-performance tappets, S&S 585G gear drive cams, and all required gaskets
- No need to re-balance stock flywheels
- A fuel system is not included

PART #	DESCRIPTION
0903-1291	For 99-06 Twin Cam (except 06 Dyna, black)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

0922-0149

0931-0430

0920-0001

106" TWIN CAM STROKER FLYWHEEL KITS

- Features three-piece assembled flywheels with shafts
- Does not require any motor case modification
- 4 1/2" stroke
- 103" stock motors or motors with factory 95" kits require piston kit only; stock or S&S cylinder heads can be used
- Stock cylinders will require boring to 3,875"
- For replacement piston rings, see page 613

NOTE: Fuel-injected motors will require recalibration of the fuel-injection system.

PART #	DESCRIPTION
106" STROKER FLYWHEELS (4,5" STROKE)	
0922-0115	For 06 Dyna and all 07-16 Twin Cam 96" A motor, w/o sprocket bearing race
0922-0140	For 07-16 Twin Cam 96" "B" motor, w/o sprocket bearing race
0922-0117	For 99-06 Twin Cam "A" motor (except 06 Dyna), w/o sprocket bearing race
0922-0118	For 00-06 Twin Cam "B" motor, w/o sprocket bearing race
0921-0559	For 00-06 Twin Cam "B" motor, w/ sprocket bearing race
0922-0149	For 99-06 Twin Cam "A" motor (except 06 Dyna), w/ sprocket bearing race

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

PART #	DESCRIPTION
3,875" CYLINDER/PISTON KITS FOR S&S 106" STROKER ONLY (10,5:1 COMPRESSION) (88" MOTOR ONLY)	
0931-0430	Black powdercoat
0931-0431	Silver powdercoat
106" PISTON KITS (10,1:1 COMPRESSION RATIO) (95"-103" MOTORS ONLY)	
0920-0001	Std.
2001-2910	+0,005" pistons
2001-2911	+0,010" pistons

128" BIG BORE KITS FOR M-EIGHT 114"/117" ENGINES

- Bolt-on kit, the largest cylinder bore possible without requiring machining of the crankcases
- 4 1/4" bore, 4 1/2" stroke
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included

0931-0835

0931-0876

PART #	DESCRIPTION
FOR 17-20 114"/117" M-EIGHT	
0931-0835	Wrinkle black finish w/o highlighted cylinder fins
0931-0836	Wrinkle black finish w/ highlighted cylinder fins

PART #	DESCRIPTION
FOR 17-20 114"/117" M-EIGHT (CONT)	
0931-0876	Black granite finish w/ highlighted cylinder fins

124" BIG BORE KITS FOR M-EIGHT 107" ENGINES

- Bolt-on kit is the largest possible bore that does not require machining of the crankcases
- 4 1/4" bore, 4,375" stroke
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included

PART #	DESCRIPTION
FOR 17-20 107" M-EIGHT	
0931-0833	Wrinkle black finish w/o highlighted cylinder fins
0931-0834	Wrinkle black finish w/ highlighted cylinder fins

0931-0833

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

124" CYLINDER AND PISTON KIT

- Kit includes fitted 10,9 cc dished forged pistons, pins, clips, rings, 4 1/8" bore cylinders, head gaskets, base, and exhaust gaskets
- For use with stock heads or S&S heads with stock bolt pattern
- 10,6:1 compression ratio w/ stock 85cc cylinder heads
- 4,625" stroke

NOTE: Requires crankcase machining.

PART #	DESCRIPTION
0931-0686	For 07-17 Twin Cam

0931-0434

0931-0537

BIG BORE KITS

- The Big Bore kit yields excellent results with stock cylinder heads (not for Twin Cooled motors) unless noted
- Easy installation: no need to bore or split existing cases, just swap the cylinders (unless noted)
- Cylinders are constructed from premium aluminum castings with cast-in iron liners
- Kits include cylinders, pistons, rings and gaskets (head, base and exhaust)
- Black or silver powdercoat finish

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

PART #	DESCRIPTION
106" KITS FOR 07-17 TWIN CAM (3,927" BORE, 4 3/8" STROKE, 10:1 COMP. W/ STOCK HEADS)	
0931-0434[1]	Black powdercoat
0931-0435[1]	Silver powdercoat
107" KITS FOR ALL 07-17 TWIN CAM MODELS (3,937" BORE, 4 3/8" STROKE, 9,9:1 COMP. W/ STOCK HEADS)	
0931-0534[1, 3]	Black powdercoat
107" KITS FOR ALL 07-17 TWIN CAM MODELS (3,937" BORE, 4 3/8" STROKE, 9,9:1 COMP. W/ STOCK HEADS)	
0931-0535[1, 3]	Silver powdercoat
117" KITS FOR 07-17 TWIN CAM (4,125" BORE, 4 3/8" STROKE, 10,9:1 COMP. W/ STOCK HEADS)	
0931-0539[1, 2]	Black powdercoat
0931-0538[1, 2]	Stone gray powdercoat
124" KITS FOR 07-17 TWIN CAM (4,125" BORE, 4 5/8" STROKE, 11,4:1 COMP. W/ STOCK HEADS)	
0931-0541[1, 2]	Black powdercoat
0931-0540[1, 2]	Stone gray powdercoat

PART #	DESCRIPTION
95" KITS FOR 99-06 TWIN CAM (3,875" BORE, 4" STROKE, 9,7:1 COMP. W/ STOCK HEADS)	
0931-0432	Black powdercoat
0931-0433	Silver powdercoat
97" KITS FOR 99-06 TWIN CAM (3,927" BORE, 4" STROKE, 9,7:1 COMP. W/ STOCK HEADS)	
0931-0436	Black powdercoat
0931-0437	Silver powdercoat
98" KITS FOR 99-06 TWIN CAM (3,937" BORE, 4" STROKE, 9,8:1 COMP. W/ STOCK HEADS)	
0931-0536[3]	Black powdercoat
0931-0537[3]	Silver powdercoat

[1] Will fit Twin Cooled motors.
[2] Requires case machining for installation.
[3] Not for use with S&S 79cc heads.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0931-0741

0931-0740

BOLT-IN SIDEWINDER® 4" BIG BORE KITS

- Bolt in - no machining, balancing, or splitting the crankcases; install can be performed with engine still in frame
- Cast Ductile Iron Sleeve in cast aluminum for superior heat transfer
- 88" engines are boosted to 100"
- 96" and 103" engines are boosted to 110"
- 10,5:1 compression (w/ stock 85cc heads) makes for a very streetable and dependable engine that also responds well to performance cams
- Complete kits include cylinders, forged pistons, rings, piston pins, clips and gaskets
- Available with wrinkle black or silver powdercoat finish cylinders

NOTE: Not for use with S&S 79cc heads.

PART #	DESCRIPTION
110" FOR 07-17 TWIN CAM MODELS	
0931-0741	Silver
0931-0742	Wrinkle black

PART #	DESCRIPTION
100" FOR 99-06 TWIN CAM MODELS	
0931-0739	Silver
0931-0740	Wrinkle black

0903-1300

0903-1303

HOOLIGAN KITS

- Bolt-on big bore kit means easy installation with no machining and no rebalancing
- S&S bolt-in cams and premium tappets make the most of the added displacement
- Cams are 0,482" lift and 240° duration intake and 234° degree duration exhaust
- Compression ratio 9,6:1 for 1200 kits and 11,2:1 for 1250 kits
- Easy installation; bolt-on parts, no machining, no rebalancing
- Use stock heads, pushrods, and fuel system
- Available in silver powdercoat or wrinkle black finishes

PART #	DESCRIPTION
FOR 00-20 XL MODELS	
0903-1300	883 cc to 1200 cc, wrinkle black

0903-0944

0903-0945

XL 883 TO 1200 CONVERSION KITS

- Increase displacement from 883cc to 1200cc
- Saves time because pistons are already fit to the cylinders – ready to assemble out of the box
- Cylinders are constructed from premium aluminum castings with cast-in iron liners
- No machining
- No re-balancing of 883cc flywheels
- No cylinder head modifications
- Available in wrinkle black or silver powdercoat finish
- Big bore $3^{1}/_{2}$" cylinders
- 9,7:1 with stock 883cc heads
- Kit includes cylinders, pistons, rings and gaskets (head, base and exhaust)

PART #	DESCRIPTION
FOR 86-20 XL 883 MODELS	
0903-0944	Silver

0903-0945	Wrinkle black

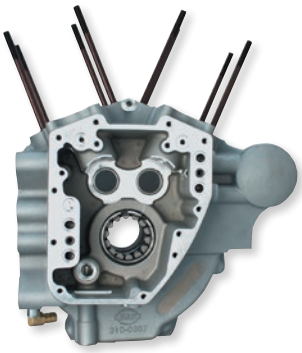
0931-0527

0931-0528

1250 CC CONVERSION KITS

- Forged pistons – coated piston skirts with measurement window and S&S logo
- Forged pistons have larger than stock valve pockets and accept up to 2,00" valves
- Available in silver powdercoat or wrinkle black powdercoat finish
- Kit includes S&S 1250 cc pistons with rings and wristpins, S&S $3^{9}/_{16}$" bore cylinders, MLS head, base and exhaust gaskets, assembly lube and instructions

NOTE: 883 models will require the use of XL1200 cylinder heads to achieve correct compression ratios.



PART #	DESCRIPTION
FOR 86-20 XL MODELS	
0931-0527	W/ 10,3:1 flat top pistons, silver
0931-0529	W/ 11,2:1 5,5cc domed pistons, silver

PART #	DESCRIPTION
FOR 86-20 XL MODELS (CONT)	
0931-0528	W/ 11,2:1 5,5cc domed pistons, wrinkle black

TWIN CAM ENGINE CASES

- Replacement Twin Cam "A" engine cases for stock H-D chassis only (carb and EFI)
- Features greater overall strength than stock crankcases
- Strong, dependable Timken®-style sprocket shaft bearings
- Clearanced for strokes up to and including 5"
- All passages between the crankcase cam support plate are O-ring sealed
- Compatible with most stock components
- Cam chest has clearance for up to 0,675" lift cams
- Includes S&S crankcase breather reed valve designed to eliminate oil carry-over and oil scavenging problems
- Rear motor mount bolts directly to the stock transmission; fully compatible with the stock primary, charging system, and other stock components
- Available with stock bore (ideal for replacement applications), and 4,125" bore engines with stock stud pattern (ideal for custom applications and for use with the S&S 124" Hot Set Up Kit®)
- Available with silver powdercoat or black powdercoat

NOTE: Installation in 07-16 FLHT, FLHR, FLHX, FLTR models requires oil line installation kit PART #0711-0220.

NOTE: To ease installation in 07-16 FLHT, FLHR, FLHX, FLTR models use PART #3802-0054.

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

FOR 99-06 TWIN CAM "A" ENGINES (EXCEPT 06 DYNA)

SUPER STOCK™ T2 ENGINE CASES

- Stock or $4^{1}/_{8}$" bore crankcases to be used as a foundation for a custom engine or replacement for T111, T124, or T143
- Stock looking, but stronger; thicker wall sections and superior 356-T6 aircraft grade aluminum
- Tough powdercoat finishes
- Reinforced front motor mount for extra strength
- Timken® sprocket shaft bearing – strong enough for the most demanding applications
- Clearanced for strokes up to $4^{3}/_{16}$" and cams up to 0,720" lift
- Includes pinion and Timken® bearing
- Manufacturer's Statement of Origin (MSO) included
- Includes studs and cam bearings installed
- Crankcases are specially machined for the S&S oil line installation kits sold separately

NOTE: Requires oil supply line installation kit PART #s 0950-0848 or 0950-0849.

PART #	DESCRIPTION
FOR 06-17 DYNA MODELS	
0920-0155	Stock bore, wrinkle black powdercoat

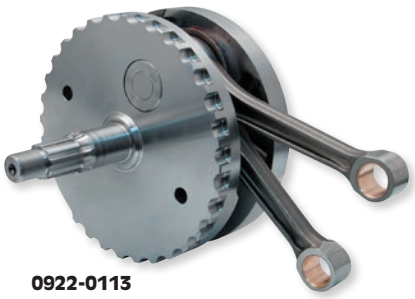
M-EIGHT FLYWHEEL ASSEMBLIES



- Consistent balance and precision machining
- Heat-treated 4140 material is harder and 114% stronger than stock
- S&S high-strength connecting rods are perfect for use with gear drive cams
- Available with either full width or tapered wristpin connecting rods
- Choose from 4 3/8", 4 1/2" or 4 5/8" stroke, with or without balancer gear
- No welding required

FOR 17-20 M-EIGHT

PART #	DESCRIPTION
4 3/8" STROKE (114"/117")	
0922-0164	With balancer gear, tapered wrist pin
0922-0167	With balancer gear, full wrist pin
0922-0170	No balancer gear, tapered wrist pin
0922-0173	No balancer gear, full wrist pin

PART #	DESCRIPTION
4 1/2" STROKE (107")	
0922-0163	With balancer gear, tapered wrist pin
0922-0166	With balancer gear, full wrist pin
0922-0169	No balancer gear, tapered wrist pin
0922-0172	No balancer gear, full wrist pin

PART #	DESCRIPTION
4 5/8" STROKE	
0922-0165	With balancer gear, tapered wrist pin
0922-0168	With balancer gear, full wrist pin
0922-0171	No balancer gear, tapered wrist pin
0922-0174	No balancer gear, full wrist pin

0922-0113

0922-0111

0922-0152

TWIN CAM FLYWHEEL ASSEMBLIES

- S&S three-piece flywheels with integral main shafts are the strongest yet, made from 4140 steel and feature a larger 1,671" crankpin

PART #	DESCRIPTION
FOR 88", 95" AND 100" (4" STROKE)	
0922-0119	For 03-06 Twin Cam "A" motor (except 06 Dyna), w/ sprocket shaft bearing race
0922-0120	For 03-06 Twin Cam "B" motor, w/ sprocket shaft bearing race
0922-0113	For 99-02 Twin Cam "A" motor, w/o sprocket shaft bearing race
0922-0114	For 00-02 Twin Cam "B" motor, w/o sprocket shaft bearing race
FOR 96"/103" (4 3/8" STROKE)	
0922-0121	For 07-16 Twin Cam "A" motor, w/ sprocket shaft bearing race
0922-0122	For 07-16 Twin Cam "B" motor, w/ sprocket shaft bearing race
0922-0111	For 07-16 Twin Cam "A" motor, w/o sprocket shaft bearing race
0922-0112	For 07-16 Twin Cam "B" motor, w/o sprocket shaft bearing race
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE)	
0922-0123	For 07-16 Twin Cam "A" motor and 06 Dyna models, w/o sprocket shaft bearing race
0922-0158	For 99-06 Twin Cam (except 06 Dyna) "A" motor, w/ sprocket shaft bearing race

- Flywheel assemblies without sprocket shaft bearing race are designed for use with Timken bearing conversion (sold separately)
- Fit directly in stock crankcases with no modifications

PART #	DESCRIPTION
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE) (CONT)	
0922-0157	For 99-06 Twin Cam (except 06 Dyna) "B" motor, w/ sprocket shaft bearing race
0922-0156	For 06 Dyna models, w/ sprocket shaft bearing race
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE)	
0921-0524	For 99-06 Twin Cam "A" motor, w/o sprocket shaft bearing race
0922-0143	For 99-06 Twin Cam "B" motor, w/o sprocket shaft bearing race
FOR 124" (4 5/8" STROKE)	
0922-0150	For 07-17 Twin Cam w/ 124" S&S motor
0922-0152	For 07-17 SE 120R motors
0922-0159	For 99-06 Twin Cam "B"
0922-0151	For 99-06 Twin Cam w/ 124" S&S motor
FOR S&S V-SERIES MOTORS	
0922-0160	For 124" 84-99 Big Twin

0922-0142

0921-0531

XL1200 FLYWHEEL ASSEMBLIES

- CNC-machined from heat-treated, closed die, steel forging
- Stronger than cast iron or late style steel flywheels
- Five-piece design makes it easily rebuilt with standard flywheel fixtures and tools
- Unassembled balanced flywheels are balanced by the static method
- Kits include flywheels, pinion shaft, sprocket shaft and connecting rods

PART #	DESCRIPTION
FLYWHEEL ASSEMBLIES	
0922-0142	For 91-03 XL models

NOTE: 88-03 models require the use of 77-87 XL pinion shaft oil pump drive gear PART #0932-0147 and pinion gear nut PART #0932-0148 (sold separately; see page 611), as well as 86-87 XL pinion gear.

PART #	DESCRIPTION
PINION SHAFT METER PLUGS FOR 86-20 SPORTSTER MODELS	
0921-0531	0,0925" hole

0923-0467

DS-194664

DRAG Specialties

ROD SETS

- Heavy-duty replacements, perfect for stock motors
- Meets or exceeds OEM specifications
- Comes completely fitted and ready to install
- Complete set includes a two-hole crankpin, aluminum retainers, bearings, nuts and forged heat-treated steel rods

PART #	DESCRIPTION
0923-0467	For 03, 05-06 Softail; repl. OEM # 23791-03/03A
DS-194664	For 86-99 XL; repl. OEM #24275-86A

S&S PERFORMANCE

HEAVYDUTY CONNECTING ROD SET

- High-quality, heavy-duty rod set comes complete and ready to install
- Set includes front and rear rods, crankpin and nuts, steel cages and roller bearings
- Rods are deep-forged and heat-treated, 0,120" wider than stock in the I-beam section and feature rod-to-rod clearance to accommodate strokes up to and including 5"
- Crankpin has two oil holes and rod has four slots ground on each side of the throw ends to help maintain the oil film on thrust faces

NOTE: Installation of rod sets may require additional clearancing of flywheels and cases.

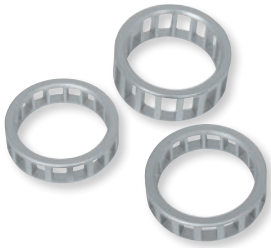
PART #	DESCRIPTION
DS-194655	For 86-99 XL (0,792" wrist pin)

S&S PERFORMANCE

CRANKPIN ASSEMBLY

- For use in stock and S&S flywheels

0921-0164



PART #	DESCRIPTION
FOR 86-99 XL	
0921-0164	Crankpin assembly
0920-0128	Replacement crankpin key

DRAG Specialties

ROD BEARING RETAINERS

- Replacement roller-type for Harley connecting rods
- Quality equal to OEM
- Sold in sets of three

PART #	DESCRIPTION
DS-194017	For 86 XL; repl. OEM #s 24362-54A, 24364-54A

Eastern MC Parts

ROD ROLLER BEARINGS WITH RETAINERS

- Includes bearings and bearing retainers

PART #	DESCRIPTION
0924-0171	For 86-99 XL; repl. OEM #24354-87A

JIMS Performance Parts For Harley-Davidson Motorcycles

ROD RACE SET

- Made from 52100 aerospace-quality Timken® bearing stock
- Sold as a set

PART #	DESCRIPTION
DS-194014	For 99 Big Twin (except Twin Cam); repl. OEM #s 24345-36A, 24356-36A

Eastern MC Parts

CONNECTING ROD ROLLER SETS

- Includes short and long rollers
- Sold in sets

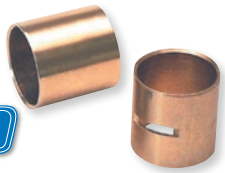
ACORN FRONT BELT DRIVE PULLEY NUT

- Chrome front pulley nut for open primary belt drive applications
- Sold individually

PART #	DESCRIPTION
DS-193813	For 99-06 Twin Cam models

MOTOR SPROCKET NUT

- OEM replacement style
- Sold each



PART #	DESCRIPTION
DS-189864	For 99-06 Twin Cam models; repl. OEM #24003-55

MOTOR SPROCKET NUT

- Motor sprocket nut for belt-drive conversions and/or eliminating compensating sprockets
- Sold each

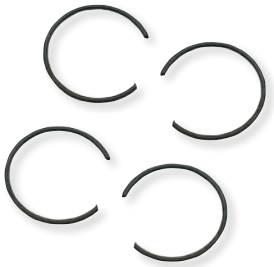
PART #	DESCRIPTION
DS-194074	For 99-06 Big Twin; repl. OEM #24003-55

DS196274

WRIST PIN BUSHINGS

- Machined from solid bronze bar stock
- Hold concentricity to less than 0,0002"
- Lead-in edge for easy installation
- Sold in pairs

PART #	DESCRIPTION
DS196274	For 99-06 Twin Cam std; repl. OEM #24316-99
DS-198825	For 86-20 XL; repl. OEM #24331-36



WRIST PIN BUSHING

- Constructed of SAE660 bearing bronze
- Made to exact tolerances and will meet or exceed fitment and wearability of all other OE-style replacement bushings available
- Sold each

NOTE: Does not include oil holes. These must be drilled after installation.

PART #	DESCRIPTION
0923-0354	For 05-17 Twin Cam (std.)

WRIST PIN CIRCLIPS

- For use with 0,927" wrist pins
- Sold in pack of 4

PART #	DESCRIPTION
0910-5262	For 99-17 Big Twin; repl. OEM # 22589-83A

0921-0787

CRANKSHAFT BEARING RACE KITS

- Includes right and left side crankshaft races with the left side thrust washers
- Press-on races have a precision-ground outer diameter finish and are designed to be true to size, producing the correct OD after proper press on installation

PART #	DESCRIPTION
0921-0787	For 17-20 M-Eight engines
0921-0786	For 99-17 Twin Cam A engines
0921-0787	For 00-17 Twin Cam B engines

RIGHT SIDE CRANKCASE RACE

- Sold each

PART #	DESCRIPTION
0924-0130	For 87-03 XL and Buell models (std.); repl. OEM #8881

0924-0108

0924-0270

CRANKCASE MAIN BEARINGS

- High-quality original Timken bearing assemblies

PART #	DESCRIPTION
0924-0108	For 99-02 Big Twin (set); repl. OEM #9028
0924-0270	For 86-03 XL models (set); repl. OEM #24729-74

0924-0502

RIGHT MAIN BEARINGS

- Replacement right main bearing assemblies for XL crankcases
- Sold each

PART #	DESCRIPTION
FOR 87-03 XL, 94-02 BUELL MODELS	
0924-0499	Blue; repl. OEM #24647-87
0924-0501	Red; repl. OEM #24650-87
0924-0502	White; repl. OEM #24659-87
0924-0500	Green; repl. OEM #24660-87

INNER MAIN BEARING RACE

- Sold each

PART #	DESCRIPTION
0924-0391	For 03-17 Twin Cam , 00-02 Twin Cam "B" and S&S 3-piece flywheels (right side)

MAIN BEARINGS

- Universal applications, see chart for cross reference

BLACK EDITION PISTON KITS FOR M-EIGHT

- Features ArmorX™ piston coating for superior protection in extreme conditions and reduced wear
- ArmorFit™ skirt coating auto-adjusts to the cylinder wall so there's no need to measure clearance; provides smooth, quiet, trouble-free operation
- Dome design for improved flame travel to maximize air/fuel burn efficiency
- High compression (11:1) for added power
- Superfinish piston pin reduces friction and improves scuff resistance
- Enhanced pin oiling for improved lubrication and reduced friction
- Augmented ring land details improve ring seal and function
- Dedicated rings for precise fit, improved compression and oil control
- Fits OEM and Screamin' Eagle cylinder heads (unless noted)
- Kit includes two pistons, rings, piston pins and circlips

PART #	DESCRIPTION
FOR 17-20 M-EIGHT (107")	
0903-1551	3,937" bore x 4,375" stroke, 107 cu. in.; positive dome (+4,2cc)
0903-1552	4,080" bore x 4,375" stroke, 114 cu. in.; positive dome (-2cc) 11,0:1 compression
0903-1553	4,125" bore x 4,375" stroke, 117 cu. in.; flat top (+4cc) 11,0:1 compression
0903-1554	4,250" bore x 4,375" stroke; 124 cu. in.; dished (-9cc) 11,0:1 compression
FOR 17-20 M-EIGHT (114"/117")	
0903-1677	4,016" bore x 4,5" stroke, 114" cu. in., 11,0:1 compression
0903-1678	4,75" bore x 4,5" stroke, 117" cu. in., 11,1:1 compression
0903-1679	4,080" bore x 4,5" stroke, 118" cu. in., 11,3:1 compression
0903-1680	4,135" bore x 4,5" stroke, 121" cu. in., 11,3:1 compression
FOR 17-20 M-EIGHT CVO (117")	
0903-1674	4,060" bore x 4,5" stroke, 117 cu. in, negative dome (-3,5cc) 11,0:1 compression
0903-1675	4,125" bore x 4,5" stroke, 121 cu. in, negative dome (-6,0cc) 11,0:1 compression
0903-1676	4,250" bore x 4,5" stroke, 124 cu. in, negative dome (-9,8cc) 11,0:1 compression

TRACKER™ SERIES PISTON KITS

- Forged piston crown with generous valve pockets for big valves and cams
- Precision-fit rings selected for each application for ultimate sealing
- Force-fed pin oiling provides enhanced lubrication of the piston pin
- Pressure seal groove reduces ring lifting and power loss
- ArmorGlide® skirt coating reduces friction, providing quieter operation and improving scuff resistance
- Value-packaged with two pistons, rings, piston pins and circlips

0903-1568

Wiseco Performance Products

0910-1998

HIGH-PERFORMANCE FORGED PISTON KITS

- Wiseco's high-tech manufacturing ensures greater operating strength and lower expansion at high temperatures
- Kit includes forged pistons with ArmorGlide™ coated skirts, rings, retainer clips, chrome piston pins
- Twin Cam pistons have ArmorPlating which improves ring seal, eliminates ring micro-welding, and improves the piston's ability to defend against detonation damage
- Piston kits are available with X-Ring package (0,062" top ring, 0,062" compression ring and 0,158" oil ring), XC-Ring packages (0,039" top ring, 0,062" compression ring, 0,158" oil ring) or VM-rings (1,2 mm steel, positive twist, gas nitrided top ring, 1,2 mm cast iron, taper under-hook scraper ring and 2,0 mm three-piece, flex-vent oil ring with steel chrome-faced rails); VM-rings, X-Rings and XC-Rings will not interchange
- X- and XC-rings are identified by PART # in the application chart; X-Ring PART #s end with an "X" and XC-Ring PART #s end with an "XC"
- 103" kits require cylinder boring; 110" kit requires big-bore cylinders and case boring; X-Ring package (0,0472" top ring, 0,0472" compression ring and 0,118" oil ring); recalibration required

NOTE: Replacement rings include rings for one piston only.

WARNING: Wiseco pistons that use VM-rings can only be fitted with Wiseco VM-rings; Wiseco pistons that use XC-rings can only be fitted with Wiseco XC-rings.

REPLACEMENT PISTON KITS

- OEM-quality cast aluminum alloy construction
- Some fitments feature pistons with a coating that extends piston life, reduces friction and allows for cooler running engines
- Ideal for OEM replacement
- Economical with great performance, all in one package
- Available in various compression ratios
- Kits include two pistons, wrist pins and clips
- Accept OEM or Hastings rings (order separately)

KB Performance Motorcycle Pistons

SUPER-DUTY FORGED PISTON KITS

- Skirt coating technology is applied to the entire thickness of the piston-to-wall clearance for a zero install clearance; coating then abrades in on start-up to hone for the perfect fit per cylinder
- Skirt coating eliminates piston rock for the best possible ring seal with no piston slap noise
- Hard anodized crown to aid in heat deflection and to reduce corrosion from alcohol fuels
- Hard anodized top ring groove eliminates micro welding of the ring to the groove; this maintains a flat and smooth surface for the best ring seal and top ring groove
- Works with 85cc bathtub or 95cc teardrop heads
- Includes piston, rings, pins and clips
- M-Eight kits have flat top 1,2 cc design with oversized valve pockets to accept 1 mm larger valves

KB PERFORMANCE HYPEREUTECTIC PISTON KITS

- Manufactured from high-strength, T-5, heat-treated, 390 hypereutectic aluminum alloy
- Allows a tighter fit and longer piston and ring life
- Diamond-machined pistons are held to plus or minus one gram weight and less than one-half-thousandth-inch (0,0005") tolerances from piston to piston
- Each kit contains two pistons, pins, spiral-lock pin clips and Hastings moly rings
- Replacement piston rings available separately
- Piston pin lock rings available separately; PART #0913-0001 is for .791" and .792" wrist pins; PART #0913-0002 fits .927" wrist pins

NOTE: KB pistons can be installed tighter than other pistons. This results in less piston rock and better ring seal. Please read instructions included with piston for correct piston clearance.

NOTE: Due to the thermal conductivity and design of KB pistons, special attention is required to the top ring end gap. Please read instructions furnished with piston for correct ring installation.

NOTE: Each replacement ring PART # denotes rings for two pistons, except 84-99 Big Bore kits and 99-06 88" Twin Cam kits, which require two sets.

HIGH-PERFORMANCE 107" PISTON KIT

- Forged 2618 aluminum
- Moly-coated piston skirts
- High-strength, lightweight chromoly wrist pin
- Phosphate coating to reduce micro-welding and pin galling
- Forced pin oiling preventing scuffing at start-up
- Precision-machined ring grooves preventing ring flutter and positive ring seal
- Includes two pistons, wristpins, ring set and pin locks
- Bore Size 3,937"; compression ratio 10,5:1, effective volume +0,6cc; valve depth intake: 0,209", exhaust: 0,209"; wrist pin dia. 0,927"; wrist pin length: 2,650"; offset pin 0,030"; weight 361 grams

PART #	DESCRIPTION
0910-4500	For 07-17 Twin Cam models

PISTON KITS

- High-strength forged design is built to withstand the demands of high-horsepower V-Twin engines

PISTON KITS

- From Daytona to Bonneville, JE Pistons continues to set the standards in piston design
- JE has recorded wins at Daytona, low ETs on the drag strip and land speed records at Bonneville
- Machined from 2618-T6 high-tensile forged aluminum
- Dome/dish features smooth flowing radii; require no deburring or preparation
- JE designs are specifically engineered for extreme applications including professional competition
- Pins, pin locks and rings included

0930-0006

SUPER STOCK™ CYLINDER HEADS FOR TWIN CAM

- High port flow gives great performance now, and more later when additional upgrades are done
- Heads are fully assembled with springs and valves, and are available in silver or wrinkle black powdercoat
- Compression ratios vary depending on cylinder heads chosen, pistons used and engine displacement; see Compression Ratios chart for specifications
- 79cc heads work great with stock motors for 88" to 103" motors; 89cc heads work best for motors over 103" or with high-compression pop-up pistons
- 79cc have 1,940" intake and 1,575" exhaust valve and springs for up to 0,650" lift (unless noted); 89 cc/91 cc have 2,000" intake and 1,605" exhaust and 0,650" springs
- Heads are machined for compression releases (sold separately)
- Do not include rocker arm components, intake manifold or gaskets
- Heads include four long headbolts, and reuse four long OEM headbolts
- Accept OEM intake manifolds
- Sold in pairs

NOTE: Must use S&S rocker boxes (PART #90-4110) if S&S compression releases are used.

PART #	DESCRIPTION
FOR 06-17 TWIN CAM (EXCEPT TWIN COOLED™ MOTORS)	
0930-0063[1]	79cc; silver powdercoat
0930-0064[1]	79cc; wrinkle black powdercoat
0930-0065[1]	89cc; silver powdercoat
0930-0066[1]	89cc; wrinkle black powdercoat
0903-1292	91cc; wrinkle black powdercoat

PART #	DESCRIPTION
FOR 99-05 TWIN CAM	
0930-0062	79cc; silver powdercoat
0930-0139[1, 2]	79cc; wrinkle black powdercoat
0930-0058	79cc; wrinkle black powdercoat
0930-0068	89cc; silver powdercoat
0930-0006	89cc; wrinkle black powdercoat

[1] Not for models with OEM compression releases.
[2] 0,585" lift.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

CYLINDER DOWELS

- CNC-machined dowels used for locating cylinder head
- Black oxide coated for corrosion resistance
- Improved tolerances over OEM dowels
- Sold as a 4-pack

2401-1052

DS-199772

PART #	DESCRIPTION
2401-1053[1]	For 17-20 M-Eight; repl. OEM #16589-99A
2401-1052	For 99 S&S 4" to 4 3/8" cylinders (0,250"/0,252" ends, 0,520" long)
2401-0579	For 99-07 88" Twin Cam and 05-17 96" and 103"/110" Twin Cam; repl. OEM #16595-99/16595-99A
DS-199772	For 86-20 XL/XR1200; repl. OEM #16573-83/16573-83A

[1] Also used in Twin Cam cam chest.

2009-9080

0930-0135

ELECTRONIC COMPRESSION RELEASE KIT

- For S&S heads that accept compression releases
- Electric compression releases open when you press the start button and close when the button is released
- Kit includes the required parts for installation
- Not for use on OEM heads

PART #	DESCRIPTION
2009-9080	Electric compression release kit for 99-17 Twin Cam w/ S&S cylinder heads/rocker covers
0930-0135	Repl. electric compression release unit
2009-9082	Compression release hole plugs (ea.)
0930-0137	Repl. silicone solenoid cap (ea.)
0930-0041	Repl. silicone solenoid caps (pr.)

MANUAL COMPRESSION RELEASE VALVES

- Give your starter a hand by installing these in your high-compression, big-inch motor
- Simply drill and tap (10 mm x 1,0 mm) each cylinder head and thread in the self-sealing release valves (thread tap PART #DS-196409 available separately)
- Sold in pairs

PART #	DESCRIPTION
DS-196400	Compression release valves for all Big Twin, XL and Buell motors

0950-0888

COMPRESSION RELEASE VALVES

- State-of-the-art design to help reduce hot start issues and starter/battery loads
- Have 5-7 Newtons of closing force resistance
- Custom molded knobs ensure they stay cool to the touch and are easy to operate
- Require an M10 x 1,00 threaded hole for installation
- Sold in pairs

PART #	DESCRIPTION
0950-0887	M10 x 1,00 threads, 35,5 mm (1,400") overall length
0950-0888	M10 x 1,00 threads, 44 mm (1,730") overall length
0950-0889	M10 x 1,00 threads, 44,5 mm (1,750") overall length

0950-0082

0950-0080

COMPRESSION RELEASE ADAPTERS

- Designed to be used in twin plug heads
- Accept 0,650"/10 mm x 1,0 compression release valves
- Sold each

PART #	DESCRIPTION
0950-0082	12 mm x 3/4" reach

PART #	DESCRIPTION
0950-0080	14 mm x 3/4" reach

COMPRESSION RELEASE CAPS

- Chrome cap covers the plain plastic end on many aftermarket compression releases
- Billet aluminum construction
- Install with silicone adhesive (not included)
- Sold in pairs

PART #	DESCRIPTION
0950-0101	Compression release caps

0926-3211	For 86-03 883 XL

[1] White Diamond valves.

FAT STEM BLACK DIAMOND™ EXHAUST VALVE

- Some Twin Cam heads using 7,0 mm valves may crack in the port end of the valve guide boss
- These valves have 0,005" oversize stems to re-establish the correct valve stem to valve guide clearance if the head has cracked
- Valve guides must be reamed/honed to set correct clearance, then a valve job performed to ensure proper sealing
- Oversize portion of the valve stem does not extend into the keeper groove area; OEM valve keepers can be used

NITRIDED VALVES

- One-piece stainless steel, stellite-tipped valves impregnated by a special nitrided process with 0,002" depth and 0,0002" surface buildup to improve wear properties and reduce friction
- This process provides resistance to corrosion; wears superior to hard chromium and electrolysis nickel-plating
- Lightweight with profiles that provide excellent flow characteristics
- Compatible with leaded and unleaded fuels and can be run in cast iron- and bronze-type guides at close tolerances for maximum oil control and heat dissipation
- Sold each

HIGH-PERFORMANCE V-TWIN VALVES

- First to introduce V-Twin hollow stem 1,900" and 2,000" intake valves, an estimated 4 grams lighter than OEM valve, ideal for higher revving engines
- Precision CNC-machined from a stainless one-piece forging for higher strength and durability
- High-grade allows design to withstand high heat and maintain roundness
- Chrome-coated
- Micro-polished 7 mm stem for smoother finish and less friction resulting in improved performance
- Multi-angle back cuts for enhanced flow
- Sold in pairs

REPLACEMENT STAINLESS STEEL VALVES FOR S&S HEADS

- Available for 89 cc/91 cc and 79 cc cylinder heads
- 89 cc/91 cc heads are found on S&S Twin Cam-style motors and use 2,000" intake valves and 1,605" exhaust valves
- 79 cc heads are also found on S&S Twin Cam-style motors and use 1,940" intake valves and 1,575" exhaust valves
- Sold each

PART #	DESCRIPTION	PART #	DESCRIPTION
FOR 89 CC/91 CC HEADS		FOR 79 CC HEADS	
2008-2910	Intake valve 2,000"	2008-2918	Intake valve 1,940"
2008-2911	Exhaust valve 1,605"	2008-2919	Exhaust valve 1,575"

0,585" VALVE SPRING KITS

- Unique S&S design dual-spring kit reduces the risk of valve float
- For valve lift to 0,585" with 1,800"/130 lb installed height, 325 lb at max lift
- Includes springs, top and bottom collars, keeper shims and valve seals

PART #	DESCRIPTION	PART #	DESCRIPTION	PART #	DESCRIPTION
0926-2723	For 05-17 Twin Cam	0926-2722	For 99-04 Twin Cam	0926-2814	For S&S Super Stock Heads

SIDEWINDER® 0,605" VALVE SPRING KITS

- Includes springs, upper and lower collars and keys
- For valve lift to 0,605" with 1,860"/178 lb installed height, 376 lb at max lift
- Max 6500 rpm

PART #	DESCRIPTION	PART #	DESCRIPTION
0926-2972	For 17-20 M-Eight	0926-2056	For 99-04 Twin Cam, 86-03 XL
0926-2069	For 05-17 88"/96"/103" Twin Cam		

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

HIGH-PERFORMANCE OVATE WIRE BEEHIVE VALVE SPRING KITS

- Progressively wound springs using Kobe super-clean, chrome silicon-based wire that is heat-treated and shot peened
- Tight-tolerance, FEA-designed hardened steel Posi-Loc™ style upper retainers or titanium retainers to ensure correct assembly height and resist keeper "pull through"
- Hardened H.T. steel basewashers control lateral movement
- Kits use OEM-style valve keys (sold separately)
- PART #s 0926-3000 and 0926-3002 come with special valve guide seals

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0926-2950[1]	0,465" lift (seat pressure 80 lb.)
0926-2967[2]	0,465" lift (seat pressure 80 lb.)
0926-2968[1]	0,550" lift (seat pressure 104 lb.) (high lift kit)
0926-3276[1]	0,625" lift (seat pressure 85 lb.)
0926-3277[2]	0,625" lift (seat pressure 85 lb.)

PART #	DESCRIPTION
FOR 05-17 TWIN CAM, 04-20 XL, 09-12 XR1200	
0926-3000	0,610" lift (seat pressure 175 lb.)
0926-3002	0,660" lift (seat pressure 178 lb.)
FOR 99-04 TWIN CAM, 86-03 XL, 95-02 BUELL	
0926-2999	0,610" lift (seat pressure 175 lb.)
0926-3001	0,660" lift (seat pressure 178 lb.)

[1] Titanium valve retainers.
[2] H.T. steel valve retainers.

RACING VALVE SPRING KITS

- 0,600" or 0,655" max lift kits are designed for maximum performance
- Feature interference-wound, double-chrome silicone springs and H.T. steel base washers
- Available in a complete set for one engine
- Include springs, H.T. steel keepers and H.T. steel or titanium spring retainers

NOTE: PART #0926-0184 includes two sets of base washers to accommodate both stock exhaust guide styles; includes valve seals.

PART #	DESCRIPTION
FOR 05-17 88"/96"/103" TWIN CAM, 04-20 XL, 09-12 XR1200	
0926-0184	0,600" lift (seat pressure 160-170 lb.) (steel spring retainers)
FOR 99-04 TWIN CAM, 86-03 XL, 95-02 BUELL	
0926-0802	0,600" lift (seat pressure 170-180 lb.) (steel spring retainers)
0926-3167	0,650" lift (seat pressure 185 lb.) (steel spring retainers)
0926-2935	0,655" lift (seat pressure 185 lb.) (titanium spring retainers)
0926-2936	0,655" lift (seat pressure 185 lb.) (steel spring retainers)
0926-3168	0,675" lift (seat pressure 185 lb.) (steel spring retainers)

VALVE SPRING SET

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- Spring set is 1,460" OD and has a pressure of 125 lb when closed and 275 lb at 0,500" lift; installed height should be 1,800"; coil bind occurs at 1,150"
- Sold in a set of four springs (enough for one engine)

PART #	DESCRIPTION
FOR 99-04 TWIN CAM	
DS-199547	0,600" spring set

VALVE SPRING KITS

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring kits are 1,460" OD and have a pressure of 160 lb when closed and 440 lb at 0,500" lift; installed height should be 1,850"; coil bind is at 1,200"
- 0,675" spring kits are 1,510" OD and have a pressure of 184 lb when closed and 422 lb at 0,600" lift; installed height should be 1,850"; coil bind occurs at 1,080"
- Kit includes locks, retainers and spring seats

PART #	DESCRIPTION
FOR 99-04 TWIN CAM	
DS-199523	0,600" spring kit w/ chromoly retainers

PART #	DESCRIPTION
FOR 99-04 TWIN CAM (CONT)	
DS-199525	0,675" spring kit w/ chromoly retainers

All part numbers in **BLUE** are new for 2021.

FEULING

FEULING BEEHIVE VALVE SPRINGS

0926-2973

ENDURANCE BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS

- Machined from premium-grade hi-tensile chrome silicon single-conical ovate wire
- Shot-peened with specially processed thermal heat treat and super NexTex® finish for fatigue life needed to exceed high demands of V-Twin engines
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Direct bolt-in replacement up to 0,650" cam lift; no machining or rocker box clearancing required
- Available for $^{5}/_{16}$", 7 mm and 6 mm valves
- Kits include: Endurance BeeHive® valve springs, lightweight 7° super Titanium heat-treated retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Twin Cam specs: seat lb./installed height; 198 lb. at 1,685" (0,535" lift), 194 lb. at 1,703" (0,553" lift), 190 lb. at 1,724" (0,574" lift), 187 lb. at 1,754" (0,604" lift), 185 lb. at 1,780" (0,630" lift), 160 lb. at 1,800" (0,650" lift), 375 lb. at 1,150" (open height) coil bind at 1,100"

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0926-2973	Standard, 6 mm valve stem (uses factory retainers)
0926-2974	Standard, 6 mm valve stem (includes titanium retainers)
FOR 05-17 88"/96"/103" TWIN CAM, 04-20 XL, 09-12 XR 1200	
0926-0852	7°, 7 mm valve stem w/ stock triple keeper groove

0926-1466

- M-Eight specs: seat lb./installed height; 134 lb. at 1,375" (0,405" lift), 127 lb. at 1,405" (0,435" lift), 125 lb. at 1,415" (0,445" lift), 121 lb. at 1,435" (0,465" lift), 116 lb. at 1,455" (0,485" lift), 113 lb. at 1,470" (0,500" lift), 109 lb. at 1,490" (0,520" lift), 103 lb. at 1,520" (0,550" lift), 226 lb. at 0,970" (open height), coil bind at 0,920"
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 98-04 Big Twin and 86-03 XL and up to 0,650" lift for 05-17 Twin Cam. Larger camshafts require valve guide machining for seal to retainer clearance.

PART #	DESCRIPTION
FOR 99-04 TWIN CAM AND 86-03 XL	
0926-0851	7°, standard $^{5}/_{16}$" valve stem and keeper groove
FOR TWIN CAM SCREAMIN' EAGLE HEADS	
0926-1466	$^{5}/_{16}$" valve stem and keeper groove and 0,530" diameter valve guides

HIGH-LOAD BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS FOR M-EIGHT

- M-Eight High-Load springs are machined from a premium-grade hi-tensile chrome silicon single conical ovate wire, shot-peened with a specially processed thermal heat treat and super NexTex® finish to give these valve springs the needed fatigue life to exceed the high demands of V-Twin engines from stock to performance
- Valve springs are a direct bolt-in replacement, no spring seat or rocker cover machining required up to 0,565" lift
- Springs will accommodate over 0,600 cam lift, but will require spring seat pocket machining on the cylinder heads to set correct spring open height
- Smaller lighter weight retainers which drastically reduce the valve weight creating a quicker revving and smoother motion than comparable dual or single valve springs
- Eliminate valve spring separation, maximize stability, reduce valve-train noise and harmonics
- Packaged as a matched set and must be installed at the correct OPEN HEIGHT
- Matching max cam lift to the open height spec of the valve springs is essential for optimal valve-train operation and spring life (see included spring spec chart)
- Kit includes: matched set of Feuling® High-Load BeeHive® valve springs, Titanium retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with a spring loaded valve stem wiper system
- Bolt in up to 565 lift for M-Eight

PART #	DESCRIPTION
0926-3138	For 17-20 M-Eight w/ factory style 6 mm valve stems and triple groove

- Fit up to 0,600" lift
- M-Eight specs: seat lb./installed height; 151 lb. at 1,475" (0,485" lift), 144 lb. at 1,498" (0,508" lift), 143 lb. at 1,501" (0,511" lift), 140 lb. at 1,511" (0,521" lift), 124 lb. at 1,562" (0,578" lift), 120 lb. at 1,582" (0,592" lift), 304 lb at 0,990" open height, coil bind at 0,945" (cam specs measured on the lifter at 0,050" lift with 1.61 rocker arm ratio)
- Recommended for 0,540"+ lift camshafts

NOTE: These springs are ONLY recommended for large lift camshafts like Reaper® 592 Cam PART #0925-1265 and RACE style engines as these valve springs have increased load and if used on smaller cams will create extreme rocker arm deflection.

NOTE: Valve seat cutter and pilot may be needed to achieve correct valve spring installed height on large lift camshafts (PART #s 3801-0364 and 3801-0365).

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING FEULING BEEHIVE VALVE SPRINGS

HIGH-LOAD BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS

- Made from premium stress-relieved conical ovate wire with nitrided surface heat treatment, shot-peened surface enhancements and Nano Peen™ polish
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the highest demands of performance engines with high-lift, steep-ramped camshafts
- Allow up to 0,750" lift cams; no rocker box clearancing required
- Available for $^{5}/_{16}$" and 7 mm valves
- Kits include: High-Load BeeHive® valve springs, lightweight 10° Titanium retainers manufactured from Ti-17 alloy and micropolished for enhanced fatigue life, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 217 lb. at 1,789" (0,574" lift), 215 lb. at 1,800" (0,585" lift), 208 lb. at 1,819" (0,604" lift), 200 lb. at 1,845" (0,630" lift), 185 lb. at 1,900" (0,685" lift), 170 lb. at 1,935" (0,720" lift), 415 lb. at 1,215" (open height) coil bind at 1,125"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 99-04 Big Twin and 86-03 XL and up to 0,700" lift for 05-17 Twin Cam. Larger camshafts require valve guide machining for seal-to-retainer clearance.

PART #	DESCRIPTION
FOR 05-17 88"/96"/103" TWIN CAM, 04-20 XL, 09-12 XR 1200	
0926-0854	7°, 7 mm valve stem with stock triple keeper groove
FOR 99-04 TWIN CAM AND 86-03 XL	
0926-0853	10°, standard $^{5}/_{16}$" valve stem and keeper groove
FOR TWIN CAM W/ SCREAMIN' EAGLE HEADS	
0926-1469	$^{5}/_{16}$" valve stem and keeper groove and 0,530" diameter valve guides

ECONO BEEHIVE® VALVE SPRING KITS

- Made from premium stress-relieved conical ovate wire
- Feature extremely high-level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the demands of performance engines with 0,585" and smaller lift camshafts
- Available for $^{5}/_{16}$" and 7 mm valves
- PART #s 0926-1467 and 0926-1468 include Econo BeeHive® valve springs, lightweight 7° steel retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- PART #s 0926-3322 and 0926-3323 include Econo BeeHive® valve springs, lightweight 7° Ti retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system

PART #	DESCRIPTION
FOR 05-17 88"/96"/103" TWIN CAM, 04-20 XL, 09-12 XR 1200	
0926-1468	7°, 7mm valve stem w/ stock triple keeper groove (includes steel retainers)
0926-3323	7°, 7mm valve stem w/ stock triple keeper groove (includes titanium retainers)

- Seat lb./installed height; 183 lb. at 1,760" (0,510" lift), 175 lb. at 1,785" (0,535" lift), 172 lb. at 1,803" (0,553" lift), 165 lb. at 1,825" (0,574" lift), 163 lb. at 1,835" (0,585" lift), 380 lb. at 1,250" OPEN HEIGHT coil bind at 1,180"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Econo BeeHive® kits are direct replacement with no machining or rocker box clearance required for cams up to 0,574" lift for 99-04 Big Twin and 86-03 XL and up to 0,585" lift for 05-17 Twin Cam.

PART #	DESCRIPTION
FOR 99-04 TWIN CAM AND 86-03 XL	
0926-1467	7°, $^{5}/_{16}$" valve stem w/ stock keeper groove (includes steel retainers)
0926-3322	7°, $^{5}/_{16}$" valve stem w/ stock keeper groove (includes titanium retainers)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0926-0690

0926-0691

COMP CAMS

BEEHIVE VALVE SPRING KITS

- Beehive™ Valve Spring Kits designed as drop-in performance valve train upgrades
- Beehive valve springs deliver a host of well-documented benefits over conventional cylindrical valve springs
- Increased rpm capability with no rocker box clearance problems
- Designed to work with the limited valve spring installed height of the Harley V-Twin engine, small spring pocket and high-lift cams
- Kit PART #0926-2899 features industry-first lightweight tool steel retainers; 30%+ lighter with greater strength and durability than conventional chromoly steel retainers

PART #	DESCRIPTION
0926-3054	For 17-20 M-Eight; 0,540" lift (tool steel retainers)
0926-2899	For 05-17 Twin Cam; 0,585" lift, for 7 mm valve stem (tool steel retainers)
0926-2900	For 05-17 Twin Cam; 0,585" lift, for 7 mm valve stem (chromoly steel retainers)
0926-0690	For 05-17 Twin Cam; 0,650" lift, for 7 mm valve stem (chromoly steel retainers)
0926-0691	For 99-04 Twin Cam; 0,650" lift, for $^{5}/_{16}$" valve stem (chromoly steel retainers)

COMP CAMS

DUAL VALVE SPRING KIT

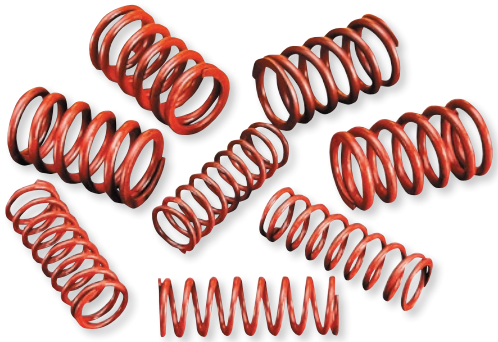
- Springs are made from super-clean, stress-relieved chrome silicon wire
- Provide excellent durability and resistance to load loss when using aggressive camshaft profiles
- Includes unique 10° super keys and retainers
- Wider key angle ensures a stronger assembly vs. the OEM 7° keeper angle
- High-strength chromoly retainers
- 0,685" lift capable spring assembly
- Kit fits $^{5}/_{16}$" valve stems
- 184 lb.@1,850", 443 lb.@1,230", 1,510" OD, 0,745" ID

PART #	DESCRIPTION
0926-2901	For 99-04 Twin Cam

COMP CAMS

VALVE SPRING KIT

- Chromoly retainers
- Features interference-wound double springs with a damper
- Includes 10° super keys and lower seats
- For use with cam lifts up to 0,600"
- Seat pressure 160 lb.



PART #	DESCRIPTION
DS-199501	For 99-04 Twin Cam

ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Accommodates cam lifts of 0,550"+
- Installation does not require machining of heads
- Kit includes four inner and four outer springs
- For use with titanium upper spring collars
- Collars sold separately

PART #	DESCRIPTION
DS-199739	For 99-04 Twin Cam and 86-03 XL Evolution

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

TITANIUM VALVE SPRING RETAINER KITS

- Can be used to upgrade Screamin' Eagle performance Beehive® valve springs to titanium retainers
- Can be used on Feuling® Econo Beehive® valve springs kits to update steel retainers to titanium
- PART #0926-2264 includes retainers, steel triple-groove keepers and Viton® valve seals for factory guides, can be used with PART #0926-1468
- PART #0926-2265 includes retainers, standard height steel keepers, machined steel spring seats and Viton® valve seals for factory guides

0926-2975

0926-2264

PART #	DESCRIPTION
0926-2975	For 17-20 M-Eight
0926-2264	For 05-17 88"/96"/103" Twin Cam, 04-20 XL/XR
0926-2265	For 99-04 Twin Cam, 86-03 XL, 95-02 Buell

0926-1170

FEULING

VALVE LOCK KEYS

- A selection of high-quality machined valve locks available in stock replacement, offset or triple-groove
- Offset locks raise retainer to gain 0,050" installed height
- Titanium locks are offset 10°

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0926-2976	Steel valve locks standard height for 6 mm valve stems
FOR 05-17 88"/96"/103" TWIN CAM AND 04-20 XL (7 MM VALVE STEMS)	
0926-1171	Steel valve locks standard height for 7 mm valve stems; repl. OEM 18260-02
FOR 99-04 TWIN CAM AND 86-03 XL (5/16" VALVE STEMS)	
0926-1170	Offset 10° for 5/16" valve stems; raise valve spring retainer to gain 0,050" of valve spring installed height (also fits Feuling High Load Beehive valve springs)

JIMS Performance Parts For Harley-Davidson Motorcycles

VALVE LOCK KEYS

- Made from the highest-grade materials and heat-treated to JIMS strict standards
- Feature a 10° lock angle
- Work well with JIMS titanium valve spring retainers
- Sold in 8-pack

PART #	DESCRIPTION
DS-199555	For all 99-04 Twin Cam and 86-03 XL that use a 10° lock angle and 5/16" valve stems

Kibblewhite Precision Machining Manufacturers of Valvetrain Components

0926-0776

VALVE KEYS

- Made of steel
- Sold in 8-pack

PART #	TYPE
FOR 17-20 M-EIGHT	
0926-2969	Standard; repl. OEM #18100060
FOR 99-04 TWIN CAM, 86-03 XL	
0926-0776	15° replacements for KPMI dual spring kits
0926-0777	Standard; repl. OEM #18229-83

Eastern MC Parts

VALVE KEYS

- High-grade steel construction
- Sold in sets of four

PART #	DESCRIPTION
0926-1092	For 05-17 88"/96"/103" Twin Cam, 04-20 XL models; repl. OEM #18260-02

ANDREWS

VALVE SPRING UPPER COLLARS

- Provide 0,050" more spring travel than stock
- Stronger and lighter than stock
- Use stock keepers
- Sold as set of four

PART #	DESCRIPTION
0926-1439	For 99-04 Twin Cam, 86-03 XL

Eastern MC Parts

VALVE SPRING UPPER COLLARS

- OEM-quality replacements
- Sold in 4-pack

PART #	DESCRIPTION
0926-2316	For 05-17 88"/96"/103" Twin Cam; repl. OEM #18258-02

FEULING

VALVE SPRING SEAT SHIMS

- Set valve spring open height to match camshaft lifts for optimum valve-train stability and performance
- Quality valve spring seat shims in three thicknesses; 0,060", 0,030" and 0,015" with 1,200" OD (outside diameter) and 0,570" ID (inside diameter)
- Includes eight 0,060" thick shims, eight 0,030" thick shims and eight 0,015" thick shims

PART #	DESCRIPTION
0930-0155	For 17-20 M-Eight

PROVEN S&S PERFORMANCE

VALVE SPRING SHIM

- 0,574" x 1,450" x 0,030"
- Black, steel construction
- Sold each

PART #	DESCRIPTION
0930-0138	0,030" valve spring shim

0927-0038

0927-0039

FORGED ROLLER ROCKER ARMS FOR M-EIGHT

- Designed using Finite Element Analysis (FEA) and forged from 8620 steel for strength
- Eliminate thrusting on valves for decreased wear on the valve train
- Rocker geometry is better suited to high-lift camshafts
- Bushings are 50% longer than stock, increasing the time between rebuilds
- Oil is sprayed directly on the valve springs, reducing the potential for valves breaking due to overheating
- Compatible with stock or S&S CNC-machined heads
- 1,640 ratio
- Capable of 0,650" max valve lift
- Serviceable and rebuildable
- Must-have when using cams with 0,550" or greater lift

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0927-0038	Forged roller rocker arms (set of 4)

PART #	DESCRIPTION
FOR 17-20 M-EIGHT (CONT)	
0927-0039	Rebuild kit

0927-0015

0927-0001

FORGED ROLLER ROCKER ARMS

- Forged from 8620 steel, heat-treated then shot-peened for additional strength and durability
- Rocker arms have 0,75" long bushings instead of the 0,50" long bushings found on most other rocker arms
- Feature a modified lubrication system with unrestricted roller oiling
- Must be used with adjustable pushrods; sold separately
- For ease of adjustment on 91-03 XL and Buell models, use pushrod tube covers PART #DS-193829
- Recommended that new rocker shafts be used when installing roller rocker arms; available separately

FOR 99-17 TWIN CAM (EXCEPT 17 DRESSERS), 86-20 XL, 09-12 XR 1200, 94-09 BUELL MODELS (EXCEPT 1125R)

PART #	DESCRIPTION
0927-0015	Stock 1,625 rocker ratio
0927-0028	1,725 rocker ratio
0927-0001	Roller rocker rebuild kit

0927-0014

0927-0033

FORGED STANDARD ROCKER ARMS

- An economical solution for stock rebuilds, and mild performance upgrades
- Forged from 8620 steel for greater strength than stock or cast steel
- Feature the same 0,750" long rocker shaft bushings as S&S Roller Rockers: longer bushing provides 50% more load bearing area; eliminates the risk of engine damage associated with failed needle bearings
- Valve contact tips are induction hardened for extended durability
- Recommended for cams of 0,585" lift or less
- Sold in set of four (two each of front and rear arms) or in pairs (one set of front or rear arms)

FOR 99-17 TWIN CAM AND 86-20 XL, 09-12 XR1200 AND 94-09 BUELL (EXCEPT 1125R)

PART #	DESCRIPTION
0927-0014	Set of four
0927-0032	Front exhaust/rear intake (pr.)
0927-0033	Rear exhaust/front intake (pr.)

ROLLER ROCKER ARMS

- The lightest rocker arm available, but still has superior strength characteristics due to its design
- The strength of 660 bronze bushings and bearing-grade steel for the roller tip
- Extensively tested under extreme conditions to ensure durability in your engine
- Will accept cams with up to 0,700" lift at a ratio of 1,625 (stock)
- Sold as a set of four

NOTE: Twin Cam rocker boxes may need to be clearanced.

PART #	DESCRIPTION
DS-193850	For 99-17 Twin Cam (except 17 Dressers), 86-20 XL, 09-12 XR 1200 and 94-09 Buell (except 1125R); repl. OEM #s 17360-83/17375-83

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

REPLACEMENT ROCKER ARMS WITH BUSHINGS

- OEM-style rocker arms
- Sold each

DS-193833

DS-193834

FOR 99-17 TWIN CAM (EXCEPT 17 DRESSER), 86-20 XL, 09-12 XR 1200 AND 94-09 BUELL (EXCEPT 1125R)

ROCKER ARM SHAFT KITS

- Shafts are precision-machined from a low alloy nickel, chromium, molybdenum case-hardened steel
- Hardware flats on the end of the shafts are held to a 0,0005" parallel tolerance, assuring the rocker is seated in the correct position with the pushrod cup and valve stem tip
- PART #0927-0034 includes a stud and nut kit to replace the stock hardware used to secure the rocker shafts

PART #	DESCRIPTION
FOR 17-20 M-EIGHT ENGINES	
0927-0034	Rocker arm shafts with hardware kit
0927-0035	Rocker arm shafts only; repl. OEM #17300059A

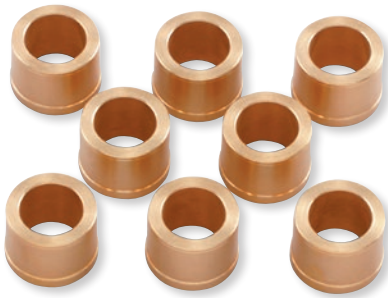
ROCKER ARM SHAFTS

- Sold each or in a set of four

PART #	DESCRIPTION
FOR 99-17 TWIN CAM, 86-20 XL; REPL. OEM #17611-83	
90-4036	Set of 4
0927-0029	Each

ROCKER ARM SHAFT

- Sold each



PART #	DESCRIPTION
DS-193820	For 99-17 Twin Cam, 86-20 XL and 94-09 Buell (except 1125R) motors; repl. OEM #17611-83

ROCKER ARM BUSHING

- Replacement bushing for S&S roller rocker arms
- Sold each

PART #	DESCRIPTION
0927-0030	For S&S standard and roller rocker arms

CUSTOM ROCKER ARM BUSHINGS

- For repairing roller rockers that use Torrington roller bearings
- Press fit and line ream to H-D specifications
- Work in Crane roller rocker arms
- Must be used with rocker shaft PART #DS-193820 (sold separately)
- Sold in sets of eight

PART #	DESCRIPTION
DS-197054	For Twin Cam and Buell (except 1125R)

ROCKER ARM BUSHINGS

- Manufactured from solid billet bearing bronze bar stock
- ID 0,547"
- Sold in packs of 8
- Ream to fit

PART #	DESCRIPTION
DS-193821	For 99-17 Twin Cam, 86-20 XL; repl. OEM #17428-57

0928-0037

ADJUSTABLE OR QUICKEE PUSHROD KITS WITH COVER KITS

- Kits include four S&S adjustable pushrods or Quickee pushrods, four pushrod covers, O-rings
- Pushrods are manufactured from chromoly steel for superior strength
- Chrome-plated or gloss black finish
- Quickee Kits do not require rocker box removal
- Adjustable kits require rocker box removal

NOTE: Requires the removal of tappet blocks for installation.

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0928-0088	Quickee pushrod kit w/ chrome covers
0928-0096	Quickee pushrod kit w/ gloss black covers
FOR 99-17 TWIN CAM MODELS	
0928-0017	Adjustable pushrod kit w/ chrome covers
0928-0023	Quickee pushrod kit w/ chrome covers

PART #	DESCRIPTION
FOR 99-17 TWIN CAM MODELS (CONT)	
0928-0097	Quickee pushrod kit w/ gloss black covers
FOR 04-20 XL MODELS	
0928-0037	Adjustable pushrod kit w/ chrome covers
0928-0036	Quickee pushrod kit w/ chrome covers

93-5022

ADJUSTABLE PUSHRODS

- 0.4375" diameter chromoly steel for maximum strength
- Rocker boxes must be removed for installation or removal
- Sold in sets of four

PART #	DESCRIPTION
DS199241	For 99-17 Twin Cam (standard length)
0928-0079	For 99-17 Twin Cam (+0,096")

PART #	DESCRIPTION
93-5022	For 91-20 XL, Buell
93-5033	For 86-90 XL

"TIME SAVER" CHROMOLY ADJUSTABLE PUSHRODS

- 0.4375" diameter pushrods adjust from 8,750" to 10,750" on Twin Cam models
- Speed up the installation of performance cams, rockers or other maintenance
- Removal of rocker boxes is not required for installation
- Adjusting end is a huge 0,354" – 40% larger than 0,250" ends
- Chromoly construction
- Sold in sets of four

PART #	DESCRIPTION
0928-0051	For 99-17 Twin Cam models

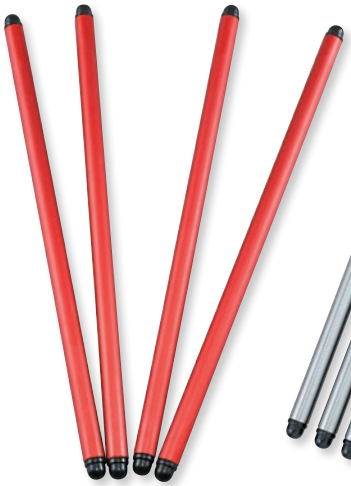
NON-ADJUSTABLE PUSHRODS

- Replace stock pushrods perfectly
- $^{7}/_{16}$" high-strength chromoly steel tubing for increased strength
- Pushrods are marked with stock color code and valve position for easy installation
- Set of four

PART #	DESCRIPTION
0928-0075	For 99-17 Twin Cam

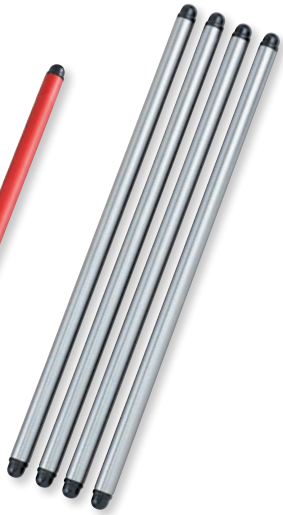
DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.



QUICKEE PUSHRODS

- Feature revolutionary design – allows quicker, easier installation without the removal of the rocker covers
- 0,4375" diameter chromoly steel
- Threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod, making installation or removal a snap
- Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving
- The ball ends of the pushrods are drilled so that oil can flow through the pushrod



NOTE: Twin Cam and XL applications will require aftermarket pushrod tubes that allow access to adjusters.

NOTE: S&S Quickee pushrods are designed especially for use with Evolution and Twin Cam style hydraulic tappets. They are not compatible with stock or aftermarket Shovelhead hydraulic tappets or most solid-style tappets.

PART #	DESCRIPTION
0928-0002	For 99-17 Twin Cam, 91-20 XL
2402-0222	Repl. O-ring for pushrods (0,500" ID x 0,625" OD, brown Viton®); repl. OEM #11140, 11273

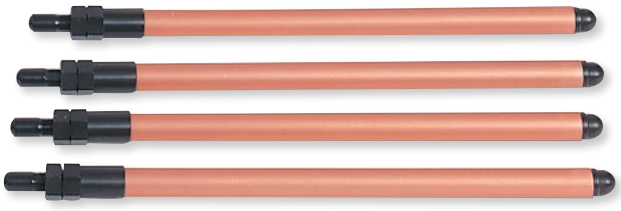
DS-193111

0928-0021

PUSHROD KITS



- Super-light, heavy-duty fixed-length pushrods
- Available in a choice of aluminum or chromoly
- Sold in sets of four to replace OE; two shorter rods for intake, two longer rods for exhaust
- Rocker boxes must be removed for installation

PART #	DESCRIPTION
FOR 91-03 XL REQUIRING A FIXED-LENGTH, NON-ADJUSTABLE PUSHROD	
DS-193123	Aluminum pushrod set
DS-193111	Chromoly pushrod set

ADJUSTABLE PUSHROD KITS

- Chromoly steel for maximum strength
- Rocker boxes must be removed for installation

PART #	DESCRIPTION
0928-0021	For 91-03 XL
DS-193115	For 86-90 XL

DS-199012

DS-199013

EZ-INSTALL PUSHRODS

- EZ-install pushrods eliminate the need to disassemble your rocker boxes or remove the gas tank when changing cams or doing maintenance
- Available in aluminum or chromoly
- Sold in a set of four

NOTE: Twin Cam applications require use of pushrod tube kit PART #0928-0016.

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0928-0095	Chromoly

PART #	DESCRIPTION
FOR 99-17 TWIN CAM	
DS-199012	Aluminum
DS-199013	Chromoly

FEULING

FEULING HORSEPOWER PLUS

FEULING RACE SERIES

HP+® AND RACE SERIES® ADJUSTABLE PUSHRODS

- Maintain maximum valve lift
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- Adjustable pushrods are 3/8", 4130 chrome moly tube and use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods
- Individual length intake and exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear
- For use with hydraulic or solid lifters and street or race engines
- HP+ and Race Series pushrods require removal of rocker covers and rocker arm supports, Feuling Quick install rods (PART #0928-0105) can be installed without removing the rocker covers, arms and supports
- Feuling HP+ and Race Series pushrods can be used with the factory pushrod tubes
- PART #0928-0009 HP+ pushrods have 24 threads per inch adjustment, super strength single jam nut lock system, wall thickness 0,120"
- PART #0928-0010 Race Series pushrods have 24 threads per inch with 0,145" wall thickness (recommended when extreme valve-spring pressures are used)

0928-0009

NOTE: HP+ and Race Series adjustable pushrods can be adjusted 0,225" over stock length to accommodate longer cylinders and smaller base circle camshafts.

NOTE: To ease installation on Twin Cam applications use Pushrod Tube Kit PART #s 0928-0016 or DS-193758; not required.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
FOR 99-17 TWIN CAM	
0928-0009	HP+® 0,120" wall thickness

PART #	DESCRIPTION
FOR 99-17 TWIN CAM (CONT)	
0928-0010	Race Series® 0,145" wall thickness

0928-0091

0928-0114

0928-0102

FEULING HORSEPOWER PLUS

HP+® ONE-PIECE PUSHRODS

- Feuling highly recommends using one-piece pushrods instead of adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues
- Fixed length, 4130 chromoly one-piece pushrods with swedged formed ends
- Heavy-duty 7/16" diameter tube with a wall thickness of 0,165"
- Heat-treated with a black oxide finish

NOTE: Requires removal of rocker covers and rocker arms for installation.

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0928-0091[1]	Stock replacement length and designed to work with factory base circle camshaft dimensions (works with all stock, Screamin' Eagle and Feuling camshafts)
0928-0113[1]	0,040" shorter than stock and designed to work with decked cylinder heads and running thinner head gaskets (work with all Feuling® stock and SE® M-Eight camshafts)
0928-0114[1]	0,040" longer than stock and designed to work with factory base circle camshaft dimensions (works with all Feuling® stock and SE® M-Eight camshafts)
FOR 99-17 TWIN CAM	
0928-0101	Stock replacement length and designed to work with factory base circle camshaft dimensions (works with Feuling 525, 543 and 574 cam grinds)
0928-0102	0,030" longer than stock and designed to work with smaller base circle camshafts (works with Feuling 594 and 630 cam grinds)

[1] Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling® highly recommends running one-piece pushrods instead of quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valve train harmonics and associated hydraulic lifter issues.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

FEULING HP+ PLUS HORSEPOWER PLUS

HP+® FIXED-LENGTH PUSHRODS

- Maintain maximum valve lift in your Harley Davidson® XL engine
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- 3/8" diameter/0,065" wall 4130 chromoly fixed-length one-piece pushrods with hardened ball ends
- Length is 0,040" under stock, intake 10,706", exhaust +10,760"
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve train
- Designed for use with hydraulic or solid lifters and street or race engines
- These pushrods require removal of rocker covers and rocker arm supports

PART #	DESCRIPTION
0928-0040	For 91-03 XL models

FEULING

QUICK-INSTALL PUSHRODS/TUBE KIT

- Strongest Quick-Install pushrod on the market
- Strength and rigidity of Quick-Install pushrods are second only to heavy-duty one-piece pushrods
- Tube material starts out as 7/16" rod OD, then gets turned down to 3/8" OD leaving heavy duty 7/16"-20 threads for the base and jam nut
- 0,134" wall thickness
- Jam nut slides up the pushrod
- Base then loosens up into the pushrod to allow Quick-Install access
- Individual length exhaust and intake pushrods
- Install without the removal of rocker covers
- Also included in the kit are four chrome lower tubes and clips; use in conjunction with factory inner tubes, covers, caps, springs and washers

NOTE: Correct pushrod/lifter adjustment requires starting with fully pumped up lifters.

NOTE: Quick Install pushrods have 7/16"-20 threads per inch. 0,050" adjustment per turn. Two turns = 0,100".

PART #	DESCRIPTION
0928-0106	For 99-17 Twin Cam

FEULING

QUICK-INSTALL PUSHRODS

- Strongest Quick-Install pushrod on the market
- Strength and rigidity of Quick-Install pushrods are second only to heavy-duty one-piece pushrods
- Tube material starts out as 7/16" rod OD, then gets turned down to 3/8" OD leaving heavy duty 7/16"-20 threads for the base and jam nut
- Jam nut slides up the pushrod
- 0,134" wall thickness
- Base then loosens up into the pushrod to allow Quick Install access
- Individual length exhaust and intake pushrods
- Install without the removal of rocker covers
- Sold as a set of four

NOTE: Correct pushrod/lifter adjustment requires starting with fully pumped up lifters.

NOTE: Requires Pushrod Tube kit PART #0928-0104 to install; sold separately.

NOTE: Quick-Install pushrods have 7/16"-20 threads per inch. 0,050" adjustment per turn. Two turns = 0,100".

PART #	DESCRIPTION
0928-0105	For 99-17 Twin Cam

VANCE & HINES

HIGH-PERFORMANCE PUSHRODS

- Hardened and tempered 4130 chromoly
- Designed for high-stress and extreme spring pressures
- 7/16" x 0,095" single taper 5/16" x 24 TPI
- Witness markings for quick install and precise adjustment
- Sold as a set of four

PART #	DESCRIPTION
0928-0080	For 99-17 Twin Cam models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

COMP CAMS

ADJUSTABLE TAPERED PUSHROD SET

- The $^{7}/_{16}$" tapered design is made from chromoly steel and is much stiffer than OEM pushrods; provides maximum lift and dynamic stability when running performance camshafts
- Fully adjustable, so they can be installed without the need to remove rocker boxes, makes cam installation easy
- Laser-etched alignment marks make it easy to keep track of adjustments
- Black oxide finish
- Set of four

PART #	DESCRIPTION
0928-0085	For 99-17 Twin Cam; repl. OEM #s 17922-99, 17923-99

FEULING

PUSHROD TUBE KIT

- Pushrod tube kit for use on Twin Cam engines using Quick-Install style pushrods that require more clearance inside the tube covers to adjust
- Kit includes lower tubes and clips only
- Use with factory inner tubes, cover cap, spring and washer

PART #	DESCRIPTION
0928-0104	For 99-17 Twin Cam

PROVEN S&S PERFORMANCE

GLOSS BLACK PUSHROD TUBES

- Enhance the look of your engine; great match for the black factory engine covers
- Tubes only; pushrod tube keepers sold separately
- Sold as a set of 4

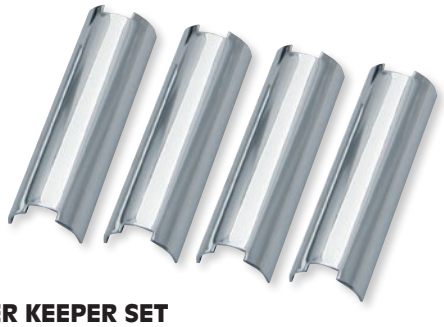
PART #	DESCRIPTION
0928-0100	For 17-20 M-Eight and 99-17 Twin Cam

PROVEN S&S PERFORMANCE

PUSHROD COVER KIT

- Fits 88", 95", 96" and 103" with stock cylinder lengths
- Includes top and bottom covers, cover cap, cover spring and spring washers
- Chrome finish

PART #	DESCRIPTION
0928-0068	For 99-17 Twin Cam



0928-0098

PROVEN S&S PERFORMANCE

GLOSS BLACK PUSHROD TUBE KEEPERS

- Simple, effective way to enhance the look of your engine
- Sold in a set of four

PART #	DESCRIPTION
0928-0098	For 17-20 M-Eight
0928-0099	For 99-17 Twin Cam

PROVEN S&S PERFORMANCE

PUSHROD COVER KEEPER SET

- For use in stock applications
- Chromed steel finish
- Sold in kit of four assemblies; enough for one engine

PART #	DESCRIPTION
FOR 07-16 BIG TWINS	
0928-0094	2,400" long, for stock height 96"/103" Twin Cam; repl. OEM #17950-48

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

HIGH-PERFORMANCE TAPPETS

- All-new improved design
- Hand-assembled to exact tolerances
- Reduced valve train noise from startup to shutdown
- Close tolerances for low leak-down rates
- Fast pump-up and superior high rpm performance
- Replace standard and premium lifters
- Sold as a set of four

PART #	DESCRIPTION
0929-0085	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL models

HP+® HYDRAULIC LIFTERS

- Performance hydraulic roller lifters dyno developed and track tested
- CNC-machined and precision ground
- When used with Feuling® oil pump, they will increase critical oil flow to valves, springs, rockers, shafts and valve guides
- Extend life of top end valve train
- Can also be used for OEM replacements
- Sold in a set of four

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

0929-0005

0929-0018

PART #	DESCRIPTION
0929-0005	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL/XR 1200 and 00-09 Buell

PART #	DESCRIPTION
0929-0017	For 91-99 XL and 94-99 Buell
0929-0018	For 86-90 XL

RACE SERIES® FULL-TRAVEL HYDRAULIC LIFTERS

- Full-travel hydraulic lifters made from machined steel designed with 0,200" of travel
- Exceed the needs of large-lift camshafts and higher spring pressures with a slower bleed-down rate
- Maintain proper and critical oil flow to valves, springs, rockers, shafts and valve guides
- Increase engine rpm and valvetrain stability; decreases valve float for maximum valve lift
- Available in oversize diameters
- Recommended for both strip and performance street engines
- Sold in a set of four

NOTE: High-volume oil pump recommended.

NOTE: Recommended for engines running higher than 185 lb. valve spring seat pressure.

FEULING

0928-0107

FEULING RACE SERIES

RACE SERIES® SHORT-TRAVEL HYDRAULIC LIFTERS

- New revolutionary design with 0,115" of total travel vs. a full travel lifter with 0,200"
- These lifters will increase rpm by decreasing valve float and valve-train harmonics while maintaining a quiet engine
- Travel reduction reduces the amount of oil that is required to fill the inside of the lifter which reduces oil aeration in the lifter on steep, fast action high lift camshaft lobes
- Short-travel lifters should be set with 0,065" - 0,070" of pre-load and with the normal engine growth from heat will put the operating lifter pre-load at or around half travel
- Short-travel lifters are designed to limit the amount of oil needed to fill the internals of the lifter which results in less oil needed compared to a full travel or other style short travel lifters
- Design drastically reduces aeration of the oil producing a fully filled lifter when the lifter rolls around to the front cam lobe ramp vs. having aerated oil and then the pushrod seat dropping when the lifter hits the front cam ramp after squeezing the aeration
- Machined from a steel body and designed to exceed the needs of large lift camshafts and higher valve spring pressures with a slower bleed down rate
- Precision ground needle roller bearing with high chromium steel axle for long life and minimal friction
- Cold forged extra long piston, precision ground and fitted for controlled leak down and pump up
- High-flow disc style quick reacting check valve for better reaction at higher rpm
- Race Series® lifters maintain proper oil flow to the top end, increase engine rpm, valve-train stability, decreasing valve float promoting maximum valve lift
- Feuling® recommends Race Series® lifters for engines running higher than 185 lbs. valve spring seat pressure
- Feuling® recommends the use of a high volume oil pump which will result in quieter, better performing lifters
- Race Series® lifters are compatible with either Feuling® HP+® or Race Series® oil pumps and are designed for use with both street and strip engines
- Spin-Tron dyno developed and track proven
- Available in standard and oversized diameters
- Sold as a set of four,

NOTE: Feuling® recommends pumping up each lifter by hand prior to installation, to remove all air and provide a fully pumped up lifter.

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0929-0081	Standard
0929-0082	+ 0,843 - 0,8435" oversize
0929-0083	+ 0,8435 - 0,844" oversize

FOR 99-17 TWIN CAM, 00-20 XL/XR 1200, 00-09 BUELL	
0928-0107	Standard
0928-0108	+ 0,843 - 0,8435" oversize
0928-0109	+ 0,8435 - 0,844" oversize

FEULING RACE SERIES

RACE SERIES® SOLID LIFTERS

- Designed for engines with radical valve spring pressures and large lift camshafts; maintain proper and critical oil flow to top end with metered oiling
- Optimize valvetrain stability, increase engine rpm, horsepower and torque output
- Decrease valve float; maintain maximum valve lift
- Made from hardened steel, CNC-machined and precision-ground
- Utilize standard pushrod seat height; Feuling recommends the use of PART #0928-0010 Race Series® adjustable pushrods (sold separately; see page 638)
- Recommended for both strip and high-performance street engines
- Sold in a set of four

NOTE: High volume oil pump recommended.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
0929-0024	For 99-17 Twin Cam, 00-20 XL/XR 1200, 00-09 Buell

COMP CAMS

HYDRAULIC ROLLER FULL-TRAVEL TAPPETS

- Full-travel hydraulic roller tappets are ideal when replacing OEM tappets
- An easy, drop-in replacement for stock
- Rollers and axles are manufactured from high-carbon/chromium bearing-quality steel, then through-hardened for improved wear and load-carrying capability
- Premium materials ensure long, reliable operation
- Feature an oil metering design that offers proper top-end lubrication throughout the entire rpm range
- Each tappet is precision ID ground and matched with a graded piston, ensuring reliable pump-up and quiet operation
- Sold in a set of four

PART #	DESCRIPTION
0929-0067	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL; repl. OEM #s 18538-99, 18538-99A, 18538-99B, 18538-99C

HYDRAULIC ROLLER SHORT-TRAVEL TAPPETS

- Short-travel hydraulic roller tappets give increased valve train stability at high rpm
- This offers maximum HP and valve train durability, especially with modern camshaft profiles
- Feature a rigid nodular iron body and a premium 52100 series steel alloy bearing, axle and wheel assembly
- Premium materials last longer and provide a stronger tappet
- Utilize an advanced ultra-high flow metering system which allows more oil movement through the engine to aid in cooling
- Each lifter is precision ID ground and matched with a graded piston, ensuring reliable pump-up and quiet operation
- Drop-in replacement for stock tappets
- Sold in a set of four

PART #	DESCRIPTION
0929-0066	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL; repl. OEM #s 18538-99, 18538-99A, 18538-99B, 18538-99C

0929-0076

V-THUNDER™ PERFORMANCE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Performance replacement for the stock hydraulic roller lifter
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 86-90 XL MODELS	
0929-0076	Performance forged tappet (ea.)
0929-0077	Performance forged tappets (set of 4)

0929-0078

V-THUNDER™ RACE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Race/slow bleed upgrade design for high-performance use
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 86-90 XL	
0929-0078	Race forged tappet (ea.)
0929-0079	Race forged tappets (set of 4)

V-THUNDER™ TAPPET ASSEMBLIES

- Features an oil metering design that provides uniform metering throughout the entire rpm range
- Rollers and axles are manufactured from high-carbon/chromium bearing-quality steel, which is through-hardened for improved wear and load-carrying capability, and the pushrod seat is carbo-nitrided
- Each unit is 100% tested for proper function
- HIGH ENERGY™ hydraulic roller lifter is a performance replacement for the stock hydraulic roller lifter, which should be used for street applications

DS-194262

- PRO-MAGNUM™ hydraulic roller lifter is designed to perform at higher engine speeds, as in race applications, and a slight increase in noise should be expected; unique anti-pump-up retainer is designed to replace the stock spring retainer clip, which precisely limits plunger travel
- HY-REV™ hydraulic roller lifter features internal hydraulic check valve, which allows for higher rpm
- Sold each

PART #	DESCRIPTION
DS194328	HIGH ENERGY™ for 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL/XR1200 and 00-09 Buell models
DS194329	PRO-MAGNUM™ for 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL/XR1200 and 00-09 Buell models
DS-194262[1]	HY-REV™ for 91-99 XL and 94-99 Buell

[1] Requires adjustable pushrods.

JIMS Performance Parts For Harley-Davidson Motorcycles

0929-0014

POWERGLIDE II HYDRAULIC TAPPETS

- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%
- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
FOR 17-20 M-EIGHT, 99-17 TWIN CAM, 00-20 XL/XR 1200 AND 00-09 BUELL	
0929-0014	Standard
0929-0023	+0,005" oversize

0929-0046

0929-0043

POWERGLIDE™ STEADY ROLL TAPPETS

- The same Powerglide™ advantage (oil-fed axle, billet steel body, precision-fit hydraulics), but now incorporates a Steady Roll bronze bushing in place of the needle bearing roller
- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%
- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
FOR 17-20 M-EIGHT, 99-17 TWIN CAM, 00-20 XL, 09-12 XR 1200 AND 00-09 BUELL	
0929-0046	Standard
0929-0047	+0,002" oversize
FOR 86-90 XL AND 87-90 BUELL	
0929-0043	Standard

DS-194278

DS-194107

BIG AXLE™ POWERGLIDE™ TAPPETS

- Micro-finish bore allows a running fit of 0,0002"
- Big Axle™ rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotate around the axle instead of an inner race, eliminating all possible movement in and around the axle
- Sold each

PART #	DESCRIPTION
FOR 91-99 XL, 94-99 BUELL; REPL. OEM #18526-89	
DS-194278	Std. (0,9035")
FOR 86-90 XL; REPL. OEM #18523-86	
DS-194107	Std. (0,8425")

0929-0015

DS-194347

DS-194342

HYDROSOLID TAPPETS

- Perform like a hydraulic tappet up to 5500 rpm, then turn into a solid tappet
- When they turn into solid tappets, it adds approximately three to six more usable horsepower
- Prevents hydraulic pump at high rpm
- Sold each

NOTE: Require the use of adjustable pushrods.

PART #	DESCRIPTION
0929-0015	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL/XR, 1200 and 00-09 Buell
DS-194347	For all 91-99 XL and 94-99 Buell (0,9035" OD); repl. OEM #18529-89
DS-194342	For 86-90 XL (0,8425" OD); repl. OEM #18523-86

S&S Yance Hines

HIGH-PERFORMANCE LIFTERS

- Tighter inner diameter grind provides substantial lower leak down
- Direct lubrication to axle and roller needle bearings
- Allow you to use of higher spring pressure and increased rpm capability
- Sold as a set of four

PART #	DESCRIPTION
0929-0062	For 17-20 M-Eight, 99-17 Twin Cam, 00-20 XL, 09-13 XR

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

HYDRAULIC TAPPETS

- Rollers have a larger-than-stock inner bearing race that reduces stress and increases axle life
- Each lifter body and plunger assembly is hand-fit and pressure-tested to ensure correct operation
- Redesigned plunger assembly withstands forces associated with heavy-duty valve springs and pushrods typically used in high-performance applications
- Revised metering device precisely controls oil delivery to top end, ensuring rapid lifter pump-up and reducing possibility of oil starvation to bottom end

PART #	DESCRIPTION
FOR 86-90 XL MODELS	
0929-0061	W/ HL²T kit

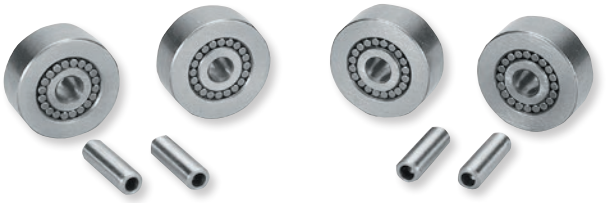
0929-0004

- Tappets that include the HL²T Limited Travel Kit improve cold starts and high rpm valve timing accuracy
- Sold in sets of four

PART #	DESCRIPTION
FOR 86-90 XL MODELS (CONT)	
0929-0004	W/o HL²T kit

HYDRAULIC TAPPET ASSEMBLY

- Features precision-hardened ball-type check valve to provide superior sealing and lash control
- Valve seal is self-cleaning, making it less susceptible to noise caused by oil contamination
- Lifter body and roller are heat-treated for improved strength and wear resistance
- Plunger is precision-ground and select-fitted to a tolerance in the millionths-of-an-inch for quieter operation



PART #	DESCRIPTION
0929-0055	For 91-99 XL and 94-99 Buell (set of 4)

BILLET TAPPET GUIDE FOR XL

- CNC machined billet aluminum
- Kit includes guides, O-rings and hardware

PART #	DESCRIPTION
0928-0072	For 86-90 XL w/ stock or Super Stock cases

HIGH-QUALITY TAPPET ROLLER KITS

- Made from 52100 bearing material
- Include 4340 chromoly axles
- Sold in a 4-pack

PART #	DESCRIPTION
0929-0053	For 86-90 XL

TAPPET CUFFS LIFTER GUIDES

- The factory tappet guides are constructed of plastic, which allows tappets to twist under heavy stress
- These tappet cuffs capture the tappets without impacting vertical motion to keep them aligned, even in high-rpm situations
- Billet aluminum construction with a hard anodized black coating
- Easy upgrade when changing tappets or doing a cam change
- Sold in pairs

NOTE: Due to variances between cam and tappet manufacturers, always check the tappet to tappet cuff clearance.

PART #	DESCRIPTION
0929-0075	For 17-20 FLHT/FLHR/FLTRX/FLTRU/FLTRK/FLHX, 18-20 Softail

HYDRAULIC LIFTER LIMITED-TRAVEL SPACERS

- Spacers are designed to limit the range of travel of the hydraulic tappet plunger
- Helps with starting and high-speed operation by not letting the hydraulic lifter bleed down or collapse
- Sold in sets of four

NOTE: Requires the use of adjustable pushrods, see page 636.

PART #	DESCRIPTION
0929-0006	For 03-17 Twin Cam and S&S Evo-style lifters w/ 0.612" ID tappets

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

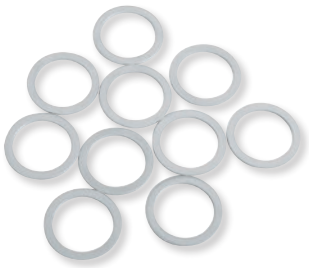
Colony Where Excellence Is a Standard

TWIN CAM QUICK INSTALL LOWER PUSHROD TUBE KIT

- This kit is a must when installing adjustable pushrods in a Twin Cam motor
- Includes four short lower tubes and clips, which allow easy access to the adjuster nut and lock nut
- Requires the use of OEM inner tubes, springs, spring cups, washers and O-rings

PART #	DESCRIPTION
DS-193758	For 99-17 Twin Cam models

Colony Where Excellence Is a Standard



PUSHROD TUBE COVER CONVERSION KIT

- Complete kit includes four adapter rings, four inner tubes, four bottom tubes, four clips, four spring covers, four springs, four spring washers and all seals
- For use with adjustable pushrods

PART #	DESCRIPTION
DS193829	For 91-03 XL models

Eastern MC Parts

PUSHROD TUBE WASHERS

- Sold in 10-packs

PART #	DESCRIPTION
0950-0369	For 99-17 Twin Cam and 86-89 XL; repl. OEM #6762B

Eastern MC Parts

PUSHROD COVER SPRINGS

- OEM-quality replacements
- Sold in a 10-pack to dealers and sold individually to the customer

PART #	DESCRIPTION
0928-0115	For 99-20 Big Twin and 87-90 XL (10-pk); repl. OEM #17947-36

GEAR DRIVE AND CHAIN DRIVE CAMCHEST KITS FOR M-EIGHT

- All parts in each kit are matched to ensure superior quality, fit, finish and performance
- Oil pump and cam plate are precision-machined from billet aluminum with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for the flywheel cavity and cam chest
- Debris screens in both scavenge pickups
- Increased oil flow capacity on both the feed and scavenge sides
- Adjustable pressure relief valve is adjustable with the unit installed in the engine
- S&S Quickee Pushrods with chrome or gloss black pushrod tubes
- S&S premium tappets
- Billet aluminum tappet cuffs have a hard-anodized black coating and are stronger than stock to eliminate distortion
- Improves tappet stability in high-lift situations
- 465 Torque Cam kits are the ideal choice for Touring bike applications
- 475 kits are bolt-in cams that can produce up to 100 horsepower
- 540 kits are for Touring bikes to add torque below 6000 rpm
- 550 kits are for big bore applications
- All kits include necessary gaskets, bearings and hardware required for a complete installation

CHAIN DRIVE KITS FOR 17-20 TWIN-COOLED M-EIGHT

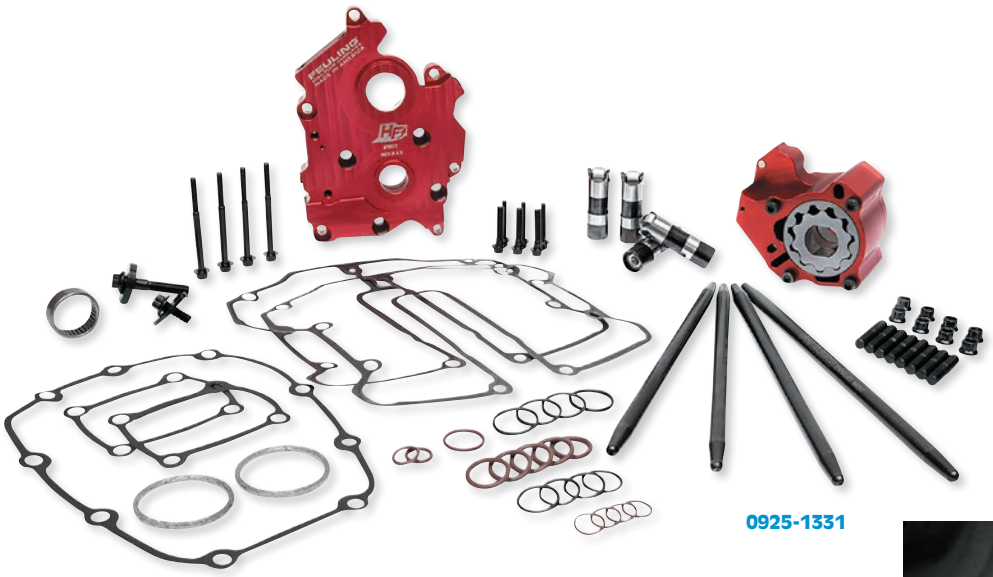
HP+® CAMCHEST KITS FOR M-EIGHT

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- Eliminate wet sumping, blowby and oily air cleaners
- Heavy-duty 0,165" wall one-piece pushrods reduce valvetrain harmonics and increase valve lift
- Kits include: Feuling High Volume Oil pump, High Flow billet Camplate, Reaper series camshaft, hydraulic roller lifters, fixed-length pushrods, Timken/Koyo cam bearing, rocker arm studs and nuts, gaskets, O-rings, ARP® cam/crank fasteners, washers, moly lube and Loctite®
- HP+ Series kits includes a billet 6061 aluminum high volume oil pump, High Flow camplate, HP+ hydraulic roller lifters and cam installation kit
- 30% more pressure gear volume over stock for M-Eight Twin-Cooled motors
- 53% more scavenge gear volume over stock for M-Eight Twin-Cooled motors
- 27% more pressure and scavenge gear volume over stock for M-Eight Oil-Cooled motors
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 68% more oil volume to the crankshaft and connecting rod bearing for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 15-25 degree cooler engine temperatures for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 15-30 degree cooler oil temperatures for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 10-30 more PSI of oil pressure for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- For M-Eight Reaper® cam description and specs see page 656



PART #	DESCRIPTION
FOR 17-20 M-EIGHT OIL-COOLED MOTORS

FEULING

0925-1331

FEULING RACE SERIES

RACE SERIES® CAMCHEST KITS FOR M-EIGHT

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- These combination kits not only ensure each individual part is designed to work and function together, but to do so in total harmony
- These camchest kits take the guess work out of the ordering process and provides the engine builder maximum reliability, peak performance and the coolest engine/oil temperatures obtainable
- Complete Camchest Kits include: Feuling® High Volume Oil pump, High Flow Camplate, Reaper® Series camshafts, hydraulic roller lifters, fixed length pushrods, Timken®/Koyo® cam bearings, rocker arm studs/nuts, gaskets, O-rings, ARP® cam/crank fasteners, washers, moly paste and Loctite®
- Race Series® kits include a Race Series® oiling system (billet 7075 oil pump, Race Series® lifters, High Flow billet 7075 aluminum camplate)
- Billet 7075 aluminum oil pump, which is 50% harder and stronger than the factory pump, holding tighter tolerances under temperature, deeper scavenge kidneys over Fueling HP+ oil pump
- Deeper scavenge kidney ports over the HP+ series for even more scavenge flow volume
- Race Series® hydraulic lifters have a full 0,200" of total travel designed with a slower bleed down rate to handle heavy valve spring pressures, increase engine rpm before valve float and feature increased roller clearance for steep ramped camshafts and clearance for the M-Eight front exhaust camshaft lobe flange
- 30% more pressure gear volume over stock for M-Eight Twin-Cooled motors
- 53% more scavenge gear volume over stock for M-Eight Twin-Cooled motors
- 27% more pressure and scavenge gear volume over stock for M-Eight Oil-Cooled motors
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 68% more oil volume to the crankshaft and connecting rod bearing for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 15-25 degree cooler engine temperatures for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 15-30 degree cooler oil temperatures for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- 10-30 more PSI of oil pressure for M-Eight Twin-Cooled motors and M-Eight Oil-Cooled motors
- Increase oil pressure, scavenge volume and engine oil flow
- Quieter and smoother engine operation
- Reduces wet sumping, blowby and oily air cleaners
- Magnets in oil pump to help protect gears and pressure relief valve
- Test results show 2 HP gain and 2 ft/lbs of TQ gain to the rear wheel on M-Eight
- Feuling test results show a 50% reduction of engine sump oil level
- For M-Eight Reaper® cam description and specs see page 656

GEAR DRIVE AND CHAIN DRIVE CAMCHEST KITS FOR TWIN CAM

- Upgrade to S&S bolt-in performance chain-drive or gear-drive camshafts
- Improves engine performance – higher lift and optimized cam timing
- S&S Quickee pushrods – easy installation, without removing rocker covers
- Replaces stock oil pump, cam support plate, cams, chain tensioners, and tappets with all-new, premium S&S components
- Kits for 99-06 models feature an 07-17 style oil pump (included) for better, more consistent oil pressure
- Gear-drive kits offer peace of mind – no more worries about cam chain failure
- Chain-drive kits include S&S Hydraulic cam chain tensioners for improved valve timing and chain life

GEAR-DRIVE KITS	
PART #	**DESCRIPTION**
FOR 07-17 TWIN CAM, 06 DYNA	
0925-1102	Kit w/ 510G Standard cams
0925-1103	Kit w/ 551GE Easy Start cams
0925-1104	Kit w/ 585GE Easy Start cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1098	Kit w/ 509G Standard cams
0925-1099	Kit w/ 510G Standard cams
0925-1100[1]	Kit w/ 551GE Easy Start cams
0925-1101[1]	Kit w/ 585GE Easy Start cams

[1] Requires the use of high-lift valve springs (sold separately).

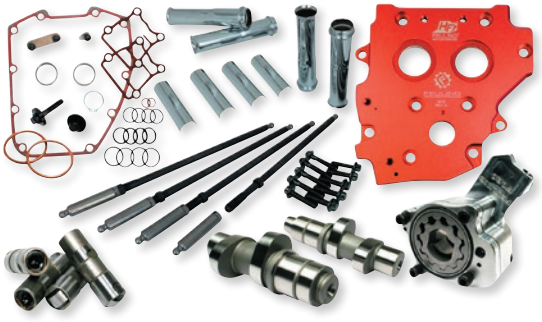
CHAIN-DRIVE KITS	
PART #	**DESCRIPTION**
FOR 07-17 TWIN CAM, 06 DYNA	
0925-1109	Kit w/ 551CE Easy Start cams
0925-1110	Kit w/ 583CE Easy Start cams
0925-1111	Kit w/ 585C Standard cams
0925-1181	Kit w/ 585CE Easy Start cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1105	Kit w/ 509C Standard cams
0925-1106	Kit w/ 510C Standard cams
0925-1107[1]	Kit w/ 551CE Easy Start cams
0925-1108[1]	Kit w/ 585CE Easy Start cams

[1] Requires the use of high-lift valve springs (sold separately).

OE+ HYDRAULIC CAM CHAIN CONVERSION CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part #
- These combination kits not only ensure each individual part is designed to work and function together, but to do so in total harmony
- These camchest kits take the guess work out of the ordering process and guarantees the engine builder maximum reliability, peak performance and the coolest engine/oil temperatures obtainable
- Complete Camchest Kits include: Feuling® High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, hydraulic roller lifters, adjustable pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- Includes conversion camshafts that updates your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Includes sprockets, hydraulic tensioners, chains and spacers needed for installation
- These camshafts utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system

- Cooler engine temperatures
- Cooler oil temperatures
- More oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- For Twin Cam Reaper® cam description and specs see pages 662-663



PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-1280	525 camchest kit

BULLETPROOF

HP+ PLUS FEULING HORSEPOWER PLUS

HP+® CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- Complete Camchest Kits include: Feuling® High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, hydraulic roller lifters, adjustable pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- 25-35 degree cooler engine temperatures
- 15-30 degree cooler oil temperatures
- 15-30 more pounds of oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- Chain Drive Conversion kits include conversion camshafts for 99-06 Twin Cam engines that updates your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Chain Drive Conversion kits include sprockets, hydraulic tensioners, chains and spacers needed for installation
- For Twin Cam Reaper® cam description and specs see pages 662-663

NOTE: Installation of gear drive cams will require a separate purchase of S&S or Andrews 4-gear cam drive kit; see page 672.

525 CAMCHEST KITS

PART #	DESCRIPTION
CHAIN DRIVE	
0925-1287	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0533	For 99-06 Twin Cam (except 06 Dyna Glide)
GEAR DRIVE	
0925-0690	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0518	For 99-06 Twin Cam (except 06 Dyna Glide)

PART #	DESCRIPTION
CHAIN DRIVE CONVERSION	
0925-1289[1]	For 99-06 Twin Cam (except 06 Dyna Glide)

[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

543 CAMCHEST KITS

PART #	DESCRIPTION
CHAIN DRIVE	
0925-1295	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0681	For 99-06 Twin Cam (except 06 Dyna Glide)
GEAR DRIVE	
0925-0692	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0683	For 99-06 Twin Cam (except 06 Dyna Glide)

PART #	DESCRIPTION
CHAIN DRIVE CONVERSION	
0925-1293[1]	For 99-06 Twin Cam (except 06 Dyna Glide)

[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

574 CAMCHEST KITS

PART #	DESCRIPTION
CHAIN DRIVE	
0925-0517	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0534	For 99-06 Twin Cam (except 06 Dyna Glide)
GEAR DRIVE	
0925-0691	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0519	For 99-06 Twin Cam (except 06 Dyna Glide)

PART #	DESCRIPTION
CHAIN DRIVE CONVERSION	
0925-1290[1]	For 99-06 Twin Cam (except 06 Dyna Glide)

FEULING RACE SERIES

RACE SERIES® CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- Complete Camchest Kits include: Feuling® High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, hydraulic roller lifters, adjustable pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- 25-35 degree cooler engine temperatures
- 15-30 degree cooler oil temperatures
- 15-30 more pounds of oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- Chain Drive Conversion kits include conversion camshafts for 99-06 Twin Cam engines that updates your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Chain Drive Conversion kits PART #s 0925-1291, 0925-1292 and 0925-1294 also includes sprockets, hydraulic tensioners, chains and spacers needed for installation
- For Twin Cam Reaper® cam description and specs see pages 662-663

NOTE: Installation of gear drive cams will require separate purchase of S&S or Andrews 4-gear drive kit; see page 672.

574 CAMCHEST KITS

PART #	DESCRIPTION
CHAIN DRIVE	
0925-1284	For all 07-17 Twin Cam and 06 Dyna Glide

PART #	DESCRIPTION
CHAIN DRIVE CONVERSION	
0925-1291[1]	For 99-06 Twin Cam (except 06 Dyna Glide)
0925-1157[2]	For 99-06 Twin Cam (except 06 Dyna Glide)

[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

[2] Conversion cams use early 99-06 style inner cam journals with late-style 07-17 outer journals requiring late-style hydraulic chain tensioners, sprockets and chains. See PART #s 0925-1068 or 0925-1071 for chain tensioner kits.

594 CAMCHEST KITS

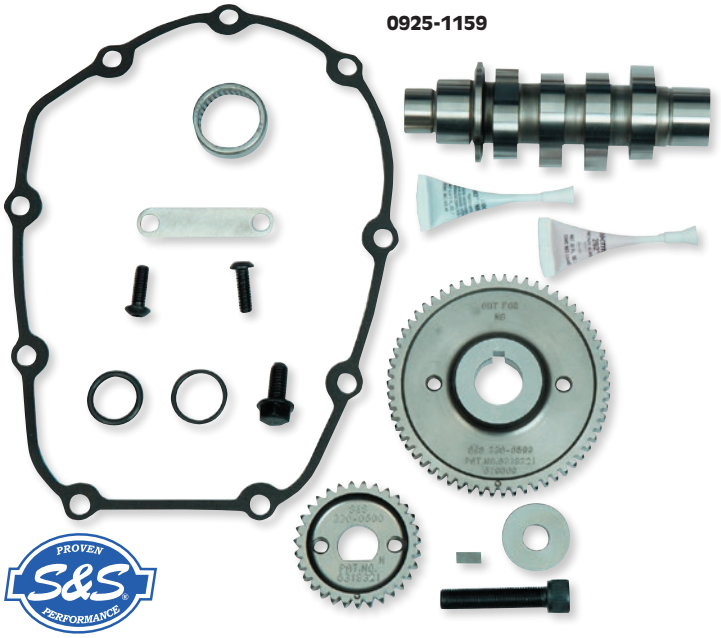
PART #	DESCRIPTION
CHAIN DRIVE	
0925-1296	For all 07-17 Twin Cam and 06 Dyna Glide
GEAR DRIVE	
0925-0737	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0736	For 99-06 Twin Cam (except 06 Dyna Glide)

PART #	DESCRIPTION
CHAIN DRIVE CONVERSION	
0925-1294[1]	For 99-06 Twin Cam (except 06 Dyna Glide)
0925-0733[2]	For 99-06 Twin Cam (except 06 Dyna Glide)

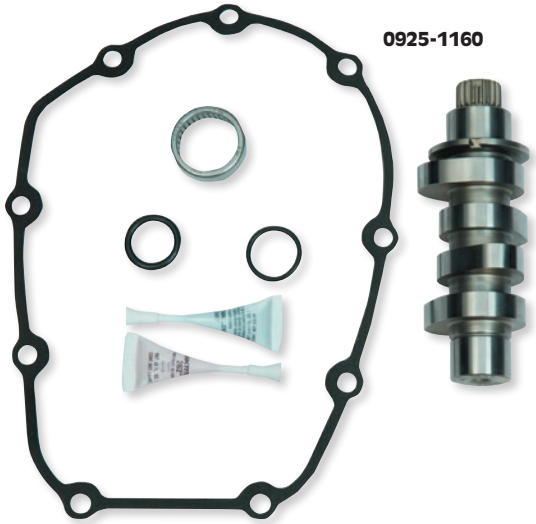
[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

[2] Conversion cams use early 99-06 style inner cam journals with late-style 07-17 outer journals requiring late-style hydraulic chain tensioners, sprockets and chains. See PART #s 0925-1068 or 0925-1071 for chain tensioner kits.

630 CAMCHEST KITS



PART #	DESCRIPTION
CHAIN DRIVE	
0925-1288	For all 07-17 Twin Cam and 06 Dyna Glide
0925-0731	For all 07-17 Twin Cam and 06 Dyna Glide



PART #	DESCRIPTION
GEAR DRIVE	
0925-0730	For all 07-17 Twin Cam and 06 Dyna Glide
CHAIN DRIVE CONVERSION	
0925-1292[1]	For 99-06 Twin Cam (except 06 Dyna Glide)

[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

All part numbers in **BLUE** are new for 2021.

CAM KITS FOR M-EIGHT ENGINES

350 CAMS

- Bolt-in compatible with all stock valve train components
- 350G gear drive cam has stock specs, but eliminates cam drive chain and tensioner
- No Tuning Required Kits include all required bearings, O-rings, and hardware
- Gear drive cams provide improved valve timing accuracy

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1159	Gear drive

465 CAMS

- Bolt-in compatible with all stock valve train components
- 465C chain drive and 465G gear drive cams both provide increased torque and horsepower
- Kits include all required bearings, O-rings, and hardware
- Gear drive cams provide improved valve timing accuracy

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1160	Chain drive
0925-1161	Gear drive

475 CAMS

- Kits are for a 100 HP Bolt-in Cam (when coupled with intake and exhaust)
- Designed for 107"/114" motors, compatible with all stock valve train components
- Kits include all required bearings, O-rings and hardware

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1171	Chain drive
0925-1172	Gear drive

540 CAMS

- Add more torque to big-bore engines, especially below 6000 rpm
- Cam requires the use of adjustable pushrods and heavy-duty valve springs (sold separately)
- Kits include all required bearings, O-rings, and hardware

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1337	Chain drive
0925-1340	Gear drive

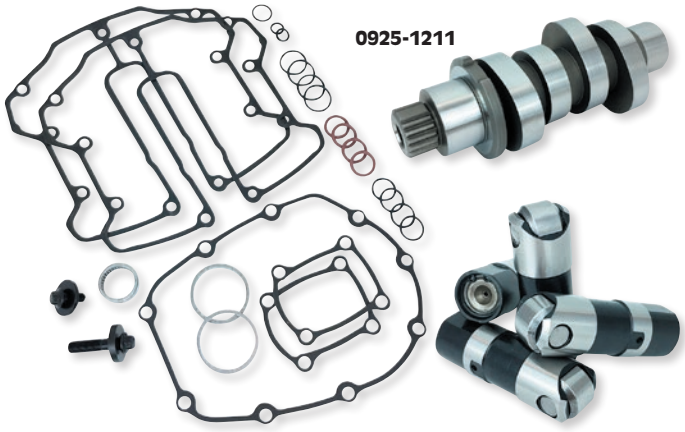
550 CAMS

- 550 is an ideal horsepower cam for 114" and larger engines
- Kits include all required bearings, O-rings and hardware

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1173	Chain drive
0925-1174	Gear drive

590 CAMS

- All-out horsepower cam for 124" and larger engines
- Designed specifically for use with monster bores and ported heads (not recommended for stock bore engines)
- Requires adjustable pushrods and heavy-duty valve springs
- Kits include all required bearings, O-rings and hardware



PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1341	Chain drive
0925-1342	Gear drive

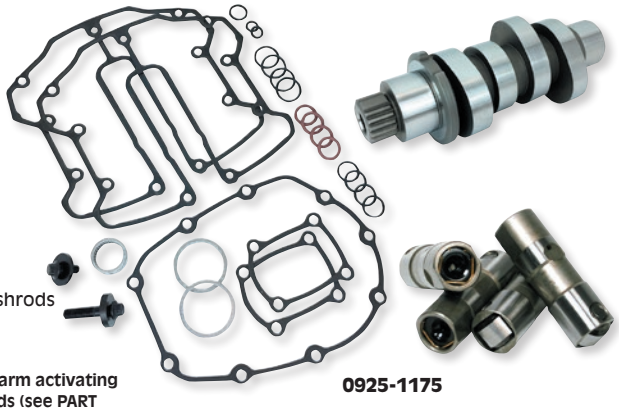
FEULING

0925-1211

FEULING RACE SERIES

RACE SERIES® CHAIN DRIVE CAMSHAFT KITS FOR M-EIGHT

- Include camshafts, lifters and a cam installation kit that includes the cam bearing, cam/crank hardware
- Kit also includes gasket/O-ring kit that allows installation of Feuling Heavy-Duty HP+ 0,0165" wall one-piece pushrods or factory one-piece pushrods
- Includes Race Series® lifters
- For M-Eight Reaper® cam description and specs see page 656



NOTE: Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling highly recommends running one-piece pushrods (see PART #0928-0091) over quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues.

NOTE: Feuling fastener kit PART #2401-0994 also highly recommended to help prevent cylinder head cracking; kit replaces the rocker shaft bolts with studs and nuts to help reduce the stress of the rocker shaft standoffs.

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1177	465 camshaft kit
0925-1327	472 camshaft kit

0925-1326	472 camshaft kit

0925-1163

FEULING Reaper CAMSHAFTS

REAPER® CAMS FOR 17-20 M-EIGHT

- Produce more power and torque in the riding rpm range, improving throttle response, acceleration and fuel mileage
- Smooth camshaft lobe ramps are easier on valvetrain components and eliminate excessive valvetrain noise and wear
- Dyno proven and track tested

405 CAM

- Produces a wide powerband that increases torque and horsepower throughout the entire rpm range
- Direct bolt-in replacement for M-Eight engines; can be used with stock valve springs, pushrods, lifters and exhaust
- Will respond well when used with slip-on mufflers or full exhaust system and a high-flow air cleaner
- Feuling recommends mufflers with smaller cores for the best low-rpm power
- 1700 - 5700 rpm range

REAPER® CAMS FOR 17-20 M-EIGHT continued on next page.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

REAPER® CAMS FOR 17-20 M-EIGHT (CONT)

465 CAM

- Produces solid bottom-end performance and substantial gains above 2800 rpm compared to the stock cams
- Direct bolt-in replacement for M-Eight engines; can be used with stock valve springs, pushrods, lifters and exhaust
- Will respond well when used with slip-on mufflers or a full exhaust system and a high-flow air cleaner
- Use of performance valve springs is not required but may result in a quieter, smoother-running valve train
- Responds well when combined with increased engine bore and/or engine compression
- 1850 - 5950 rpm range

472 CAM

- Great all-around camshaft and Feulings go to for 4 1/2 stroke 114" - 117" engines looking for a little more than the 465 grind and wanting a bolt-in
- Has a great bottom end with substantial gains above 2800 rpm when compared to stock
- Use of performance valve springs is not required but may result in a quieter, smoother-running valve train; see PART #0926-2973 or 0926-2974 on page 630
- Responds very well to increased bore and or compression, exhaust system and air cleaner

508 CAM

- The Grim Reaper Aggressive pulling power with a nasty sound
- This camshaft revs up faster than the 521 grind, sounds nastier and pulls harder, but is more difficult to tune
- The REAPER 508 grind will shine in 114" and larger cubic inch engines with added compression ratio
- Ported cylinder heads are not required, but will complement the cam and add even more pulling power throughout the range
- The stock throttle body produces an excellent powerband and use of a high-flow throttle body will increase peak power numbers
- A high-flow exhaust system and air cleaner is highly recommended for optimal performance
- Feuling recommends matching 508 cam with Race Series® oiling system PART #0932-0199
- Requires high lift valve springs; see PART #0926-2973 or 0926-2974 on page 630
- Heavy-duty pushrods are highly recommended; see PART #0928-0091
- 2250 - 5900 rpm range

521 CAM

- Aggressive pulling power with a "nasty" sound, the Reaper 521 grind will shine in 114" and larger cubic inch engines with added compression ratio
- Ported cylinder heads are not required, but will complement the cam and add even more pulling power throughout the range
- Stock throttle body produces an excellent powerband; use of a high-flow throttle body may increase peak power numbers
- A high-flow exhaust system and air cleaner is highly recommended for optimal performance
- Feuling recommends matching 521 cam with Race Series oiling system PART #0932-0199
- Requires high lift valve springs; see PART #0926-2973 or 0926-2974 on page 630
- Heavy-duty one-piece pushrods are also highly recommended; see PART #0928-0091 on pages 638-639
- 2250 - 6250 rpm range

592 CAM

- Get serious with bore size, ported cylinder heads and throttle body
- Aggressive camshaft requiring high lift and higher load valve springs, performance pushrods and lifters
- High-flow air cleaner and triple-stepped exhaust pipe highly recommended
- Feuling also recommends matching this cam with Race Series® oiling system PART #0932-0199 or #0932-0218
- Requires High lift/high load valve springs; see PART #0926-3138 on page 630
- Heavy-duty pushrods are highly recommended see PART #0928-0091
- High lift valve springs, performance pushrods and lifters required
- 2850 - 6250 rpm range

NOTE: Screamin' Eagle® cylinder heads have high-lift valve springs and do accept the 521 grind cam.

NOTE: Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling highly recommends running one-piece pushrods over quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues.

NOTE: Feuling fastener kit PART #2401-0994 also highly recommended to help prevent cylinder head cracking; kit replaces the rocker shaft bolts with studs and nuts to help reduce the stress of the rocker shaft standoffs.

0925-1165

ANDREWS

CAMS FOR 17-20 M-EIGHT

M450

- Bolt-in cam for stock compression 107" and 114" engines
- For touring-style riding
- Excellent low-rpm torque (1600-4800 rpm)

PART #	DESCRIPTION
0925-1165	M450 cam

M460

- Bolt-in cam for stock compression 107" and 114" engines
- Also for 117" big bore kits with higher compression
- Great low- to mid-rpm power (1700-5500 rpm)

PART #	DESCRIPTION
0925-1166	M460 cam

M462

- Bolt in cam 107"-114" engines
- Big power; 127 ft.-lbs. torque and 109 hp (from 1200 to 5500 rpm)

PART #	DESCRIPTION
0925-1205	M462 cam

M464

- Great mid-range torque and power with free-flow exhaust pipes and injector tuning

PART #	DESCRIPTION
0925-1206	M464 cam

M504

- For more spirited riding in stock 107" and 114" engines
- Excellent for big bore kits with higher compression ratios
- Mid-rpm cam (1800-5700)
- Requires high-lift valve springs

PART #	DESCRIPTION
0925-1167	M504 cam

M554

- For 124" and 128" big-bore motors with head work
- Also works well with 117" engines in lighter bikes
- Requires high-lift springs

PART #	DESCRIPTION
0925-1319	554

COMP CAMS

MEGA 8 CAMS FOR 17-20 M-EIGHT

- Designed with Comp Cams' industry-leading technology and trademark Endurance Ramps, the Mega 8 series of performance cams covers every bike and riding style
- With reduced valve train noise and increased stability, Mega 8 cams deliver everything from broad torque bands for touring and heavy bikes, to max power and performance cams for the horsepower-hungry riders
- Constructed from billet steel

TQ222V1 BOLT-IN CAM

- Big low-end and mid-range pull in 107" engines to red line
- Monster torque for 114"-117" engines

PART #	DESCRIPTION
0925-1219	TQ222V1 bolt-in cam

TQ230V3 BOLT-IN CAM

- For 107"-114" engines
- Most powerful camshaft you can install in a 107" engine, making big midrange and monster horsepower to 6000 rpm
- In a 114" engine, provides very strong mid-range, with pulling power to 5600 rpm

PART #	DESCRIPTION
0925-1220	TQ230V3 bolt-in cam

234A BOLT-IN CAM

- For 114" engines
- The most powerful camshaft you can install
- With Performance exhaust and intake system can make over 125 horsepower

PART #	DESCRIPTION
0925-1221	234A bolt-in cam

238A BOLT-IN CAM

- Best cam for high-performance 114" kits
- Big torque and top-end gains with ported heads, performance exhaust and an intake system

PART #	DESCRIPTION
0925-1222	238A bolt-in cam

246A BOLT-IN CAM

- Do-it-all cam for 117" kits
- Big torque and top-end gains using ported heads, performance exhaust and an intake system

PART #	DESCRIPTION
0925-1223	246A bolt-in cam

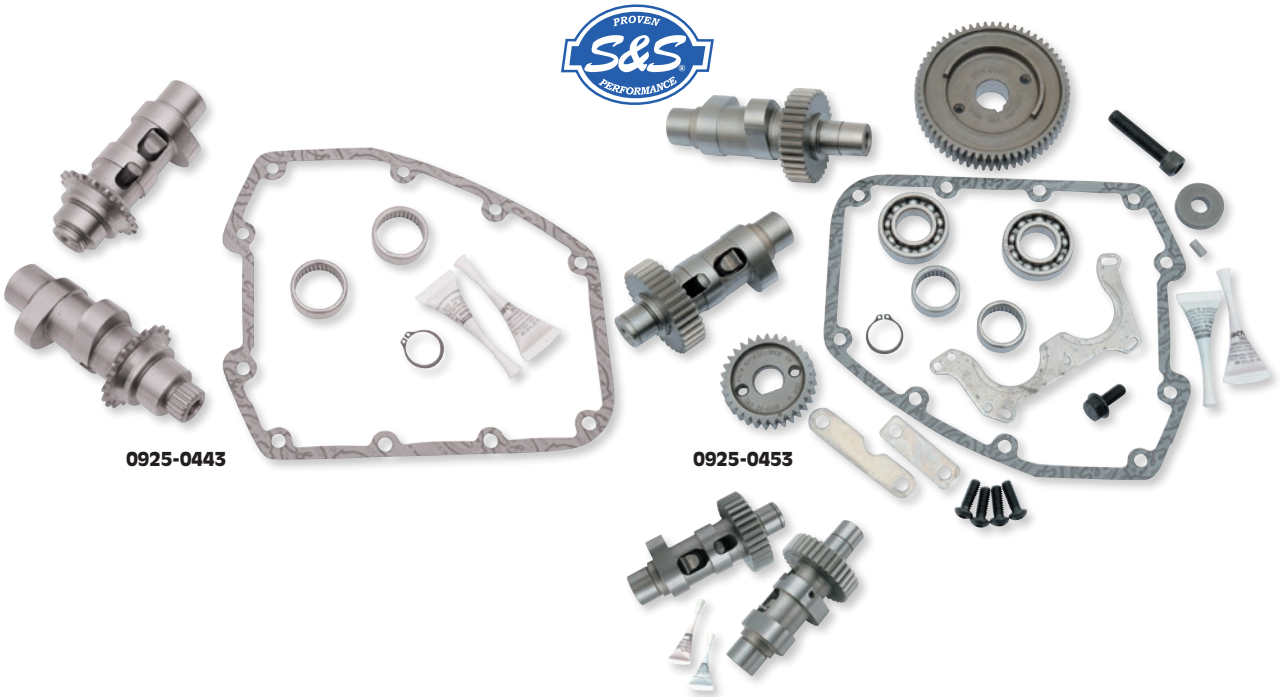
240C HIGH-LIFT CAM

- Best cam for high-performance 114" kits
- Big torque and top-end gains, with over 132+ horsepower using ported heads, performance exhaust and an intake system

PART #	DESCRIPTION
0925-1224	240C high-lift cam

248C HIGH-LIFT CAM

- A do-it-all cam for 117" kits
- Big torque and top-end gains
- Will make well over 138+ horsepower using ported heads, performance exhaust and an intake system



PART #	DESCRIPTION
0925-1225	248C high-lift cam

EASY START CAM KITS FOR TWIN CAM

- Start any engine regardless of displacement or compression ratio with a stock starter
- Saves your starter and battery; tested for 10.000 starts without running battery down
- Allow for easy start by initially reducing crank compression, but once the engine starts and rpm increases, the compression release lobe is centrifugally retracted and the engine runs normally, with full compression, and without any loss in performance
- Available in chain drive and gear drive versions
- All chain-drive cams include installation kit
- All gear-drive cams include 4-gear set and installation kit
- Gear-drive cams also available with inner gears only; intended for cam replacement for motors that have already been converted to an S&S gear-drive system

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: Due to the inherent characteristics of gear drives, you may experience more valve train noise.

NOTE: Not for models with OEM compression releases.

HP103 EZ CAMS

- Bolt-in cam for 103" and 106" Big Bore Twin Cam motors
- Use with stock heads (up to 10,2 compression) and low-restriction intake and exhaust
- Great for lighter bikes with strong power from 3500-6000 rpm

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA MODELS	
0925-0830	Chain drive cam kit
0925-0833	Gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1041	Chain drive cam kit
0925-1047	Gear drive cam kit
0925-1053	Gear drive cam w/ inner gears only

MR103 EZ CAMS

- Bolt-in cam for 103" Twin Cam motors
- Use with stock heads and low restriction intake and exhaust
- Broad torque curve improves output over stock over the entire rpm range

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA MODELS	
0925-0829	Chain drive cam kit
0925-0832	Gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1046	Gear drive cam kit
0925-1052	Gear drive cam w/ inner gears only

505 EZ CAMS

- Bolt-in cam
- Boosts low-end torque and mid-range horsepower

PART #	DESCRIPTION
FOR 99-06 TWIN CAM	
0925-1334	Chain drive cam kit

551 EZ CAMS

- Optimized for 88"/96"/103" to 106" Touring bikes with slip-on mufflers and 9,0 to 10,0:1 compression
- Best bolt-in cam available for most 05-16 Dressers
- Can be used with stock pushrods, springs and lifters
- Pulls hard from idle to 4000 rpm

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0443	Chain drive cam kit
0925-0448	Gear drive cam kit
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0521	Chain drive cam kit
0925-0453	Gear drive cam kit

557 EZ CAMS

- Designed for Tri-Glides and other heavy bikes needing good bottom and mid-range performance
- Bolt-in design

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0613	Chain drive cam kit

570 EZ CAMS

- For 88/95/96/103 cubic-inch engines
- Compression ratios below 10:1
- 99-04 models require high-lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0444	Chain drive cam kit
0925-0449	Gear drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0522	Chain drive cam kit
0925-0520	Gear drive cam kit
0925-0616	Gear drive cam w/ inner gears only

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

EASY START CAM KITS (CONT)

583 EZ CAMS

- Optimized for use as a great overall cam for Softail and Dyna, but can be used in any Big Twin
- Provides strong low-end torque and horsepower you can really feel
- Strongest from 1500-5000 rpm in a Softail and Dyna application
- 99-04 models require high-lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0445	Chain drive cam kit
0925-0450	Gear drive cam kit
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0523	Chain drive cam kit
0925-0454	Gear drive cam kit
0925-0617	Gear drive cam w/ inner gears only

585 EZ CAMS

- Optimized for 95" to 106" with slip-on mufflers, high-flow air filter and 9,0 to 10,5:1 compression
- Great results from 3000-6000 rpm
- 99-04 models require high-lift springs and adjustable pushrods

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0446	Chain drive cam kit
0925-0451	Gear drive cam kit
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0524	Chain drive cam kit
0925-0455	Gear drive cam kit
0925-0618	Gear drive cam w/ inner gears only

625 EZ CAMS

- For 95/96/103/110 cubic-inch engines
- Compression ratios from 10:1 to 10,75:1
- High-lift springs and adjustable pushrods required for all applications

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0447	Chain drive cam kit
0925-0452	Gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0538	Gear drive cam kit
0925-0619	Gear drive cam w/ inner gears only

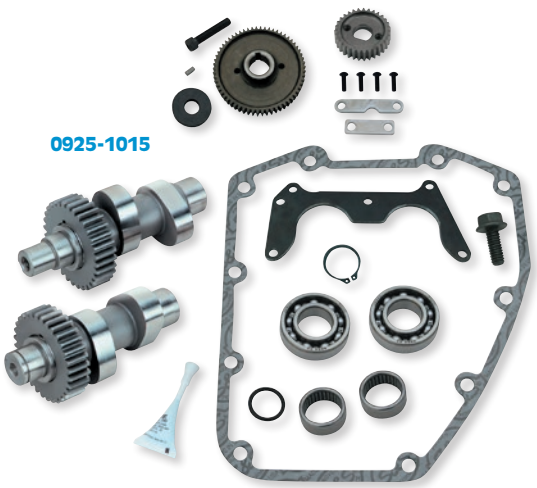
635 H.O. EZ CAMS

- High-power cam for modified engines, increase compression, high-lift springs, adjustable pushrods and large-bore throttle body required
- For best results, requires ported heads and low-restriction intake/exhaust
- rpm range 4000-6500

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA MODELS	
0925-0831	Chain drive cam kit
0925-0834	Gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1042	Chain drive cam kit
0925-1048	Gear drive cam kit
0925-1054	Gear drive cam w/ inner gears only

640 EZ CAMS

- For 95/96/103/110 cubic-inch engines
- Compression ratios from 10,5:1 to 11,5:1
- Strongest from 3000-6000 rpm
- High-lift springs and adjustable pushrods required



PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0958	Gear drive cam kit
0925-0746	Chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)

0925-0835

0925-0620

GEAR DRIVE CAM KITS FOR TWIN CAM

- Camshaft gear drive kits increase valve timing accuracy by eliminating timing chain lash and loosely-fit stock chain drive
- Reverses the rear cam's direction of rotation, providing additional operating clearance between cam lobes; as a result, higher cam lifts are possible with the gear drive kit
- Kits include cams, inner gears, outer drive gears, inner and outer bearings, gasket and instructions
- Material must be removed from the inner surface of the stock gear cover to install S&S gear drive cams
- A hydraulic press and other professional-level tools are required to install these kits
- S&S recommends that adjustable pushrod/ cover kit PART #0928-0017 be used
- Cam bearings and gaskets must be replaced when installing new cams
- Cams are also available with inner gears only; intended for cam replacement for motors that have already been converted to an S&S gear-drive system

NOTE: Kits require high-performance valve springs (except 509G and 510G) when installed in 99-04 models.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: Due to the inherent characteristics of gear drives, you may experience more valve train noise.

CHAIN DRIVE CAM KITS FOR TWIN CAM

- Cams for 00-06 Twin Cam are for use with stock splined drive gears; for installation on 99 Twin Cam motors you must purchase splined outer drive sprocket; S&S recommends that Andrews 4340 steel drive sprocket PART #DS-199175 be used
- Cams for 06 Dyna and 07-17 Twin Cam are for use with models with hydraulic tensioner chain-drive system; cams 510C and 551C are bolt-in applications, all others require high-lift valve springs

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

HP103 SERIES GRIND CAMS

- Bolt-in cam for 103" and 106" Big Bore Twin Cam motors
- Use with stock heads (up to 10,2 compression) and low-restriction intake and exhaust
- Great for lighter bikes with strong power from 3500-6000 rpm

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1015	475 gear drive cam kit

MR103 CAMS

- Bolt-in cam for 103" Twin Cam motors
- Use with stock heads and low-restriction intake and exhaust
- Broad torque curve improves output over stock over the entire rpm range

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE	
0925-0835	HP103 chain drive cam kit
0925-0837	HP103 gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-1044	HP103 chain drive cam kit
0925-1050	HP103 gear drive cam kit
0925-1056	HP103 gear drive cam w/ inner gears only

475 SERIES GRIND CAMS (OES)

- Original equipment specifications
- Bolt-in cam with stock cam timing
- Does not require tuning

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 96 DYNA GLIDE	
0925-1143	MR103 chain drive cam kit
FOR 99-06 TWIN CAM	
0925-1043	MR103 chain drive cam kit

GEAR DRIVE CAM KITS FOR TWIN CAM (CONT)

510 SERIES GRIND CAMS

- 510G/510C cams are designed as bolt-in cam for 88", 95", 96" and 103" engines with compression ratios below 9,7:1
- Strongest from 3000-5000 rpm
- Stock pushrods and valve springs acceptable

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE	
0925-0156	510G gear drive cam kit
0925-0346	510C chain drive cam kit

0925-1051	635 H.O. gear drive cam kit
0925-1057	635 H.O. gear drive cam w/ inner gears only

551 SERIES GRIND CAMS

- Designed as bolt-in cam for touring bikes with compression ratio between 9:1 and 9:9
- More power across the rpm range, with improved low and midrange torque
- Can be used with stock pushrods, springs and lifters
- Strongest from 1000-4000 rpm
- 99-04 models require high lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE	
0925-0743	551C chain drive cam kit
0925-0959	551G gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0526	551C chain drive cam kit
0925-0742	551G gear drive cam kit

557 SERIES GRIND CAMS

- Designed for Tri-Glides and other heavy bikes needing good bottom and mid-range performance
- Bolt-in design

PART #	DESCRIPTION
FOR 07-17 BIG TWIN AND 06 DYNA GLIDES	
0925-1158	557C chain drive cam kit

583 SERIES GRIND CAMS

- Great overall cam for Softail and Dyna
- Provides strong low-end torque and horsepower
- Strongest from 1500-5000 rpm
- 99-04 models require high lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE	
0925-0745	583C chain drive cam kit
0925-0961	583G gear drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0528	583C chain drive cam kit
0925-0744	583G gear drive cam kit

625 SERIES GRIND CAMS

- 625G gear drive cams are for 95/96/103/110 cubic-inch engines with compression ratios from 10:1 to 10,75:1
- 625C chain drive cams are for 95" or larger engines with compression ratios between 10,0 and 10,75:1
- Strongest from 3000-6000 rpm
- High-lift springs and adjustable pushrods required

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)

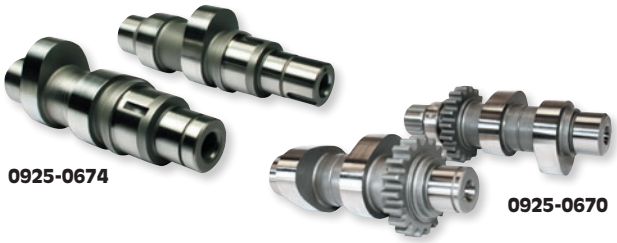
FEULING

REAPER® CAMS FOR TWIN CAM



- Produce more power and torque in the riding rpm range increasing throttle response, acceleration and fuel mileage
- Wide lobe separations produce wide power bands
- Smooth camshaft lobe ramps are easier on valve-train components and eliminate excessive valve-train noise and wear
- Dyno proven and track tested
- Feuling® camshaft installation kits recommended; see page 671
- Optimized cam timing provides easy starting without the need for mechanical devices or compression releases

NOTE: Installation of gear drive cams will require the separate purchase of a S&S 4-gear gear drive kit; see page 672.

0925-0426

0925-0427

0925-0674

0925-0670

525 CAMS

- Designed to increase torque band width and increase fuel economy
- Great bolt-in camshaft upgrade for stock 88" and 96" engines; also performs very well in 103" strokers and will respond well to increased compression and cylinder head work
- Produces strong low- and mid-range power with linear horsepower and torque curve
- Can be used with factory valve springs, pushrods and lifters
- Increases throttle response and eases starting
- 1750-5500 rpm power range

525 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0426	525G gear drive cam kit
0925-0427	525C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0425	525G gear drive cam kit
0925-0513	525C chain drive cam kit

543 CAMS

- The 'Freeway Flyer', great camshafts for those who want more top end power than the 525 cams without sacrificing low end torque
- Extremely smooth cam lobe layout maintains quiet valve train and produces the smoothest cruise power band available
- Excellent bolt-in camshaft for stock to mild 96" and 103" engines and works well in 88" and 95" engines
- Cam is easy starting, increases throttle response and fuel mileage. Responds well to increased compression ratio, performance exhaust and a high-flow air cleaner
- Performance valve springs are required on 99-04 engines and performance pushrods and lifters are recommended but not required
- 1900-6000 rpm power range

543 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0727	543G gear drive cam kit
0925-0673	543C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0674	543G gear drive cam kit
0925-0670	543C chain drive cam kit

574 CAMS

- Wicked power band for modified engines and an excellent bolt-in for stock 96", 103" and 110" engines; a great all-around camshaft with solid low end performance and mind-blowing mid and top end power
- Responds well to modified cylinder heads, increased compression ratio, performance exhaust and intake systems
- Extremely smooth cam lobe design creates a smooth and quiet valve train
- Performance valve springs required on 99-04 engines and performance pushrods and lifters recommended
- 2100-6500 rpm power range

574 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0429	574G gear drive cam kit
0925-0430	574C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0428	574G gear drive cam kit
0925-0514	574C chain drive cam kit

594 CAMS

- Fierce performing camshaft for an array of engine sizes, large displacement 103", 110" and 124" engines looking for a superior torque band with excellent horsepower gains in heavy bikes (2200-6250 rpm)
- Smaller high-revving displacement 95" style engines in lighter bikes looking to twist the throttle and tap into some horsepower (2500-6800 rpm)
- Large displacements respond well to increased compression ratio and smaller displacements will require it

NOTE: 594 cams require high-performance valve springs, pushrods, lifters, carburetor and or throttle body work, performance exhaust, intake and clutch.

594 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0728	594G gear drive cam kit
0925-0677	594C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0676	594G gear drive cam kit
0925-0675	594C chain drive cam kit

630 CAMS

- Vicious power gains, wide streetable power band from high-lift-profile camshaft for high-performance engines with highly modified cylinder heads and compression ratio
- Carburetor and/or throttle body work required along with a performance exhaust and intake system
- Maintains low end performance with eye-blurring mid and top end power
- High-performance valve springs, pushrods and lifters required
- 2500-6900+ rpm power range

630 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0432	630G gear drive cam kit
0925-0433	630C chain drive cam kit

PART #	**DESCRIPTION**
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0431	630G gear drive cam kit
0925-0754	630C chain drive cam kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

REAPER® CONVERSION CHAIN-DRIVEN CAMS FOR TWIN CAM

- Update old mechanical-style cams and tensioners to new-style hydraulic tensioner system
- Produce more power and torque increasing cranking compression, improving throttle response, acceleration and fuel mileage
- Conversion cams are a hybrid, with early 99-06 inner cam journals and late 07-17 outer cam journals. These cams use the 07-17 camplate and oil pump with 07-17 style hydraulic tensioners, chains, sprockets and spacers - purchased separately (options include PART #s 0925-1060, 0925-1061)

0925-0671

525CC CAMS

- Designed to increase torque band width and increase fuel economy
- Great bolt-in camshaft upgrade for stock 88" and 96" engines also performs very well in 103" strokers, will also respond well to increased compression and cylinder head work
- Produce strong low- and mid-range power with linear horsepower and torque curve
- Can be used with factory valve springs, pushrods and lifters
- Increase throttle response and ease starting
- 1750-5500 rpm power range

525CC CAMS	
PART #	**DESCRIPTION**
0925-0606	For 99-06 Twin Cam (except 06 Dyna)

543CC CAMS

- The 'Freeway Flyer', a great camshaft for those who want more top- end power than the 525 cam, without sacrificing low end torque
- Extremely smooth cam lobe layout maintains quiet valve-train and produces the smoothest cruise power band available
- Excellent bolt-in camshaft for stock to mild 96" and 103" engines and works well in 88" and 95" engines
- Cam is easy starting, increases throttle response and fuel mileage; responds well to increased compression ratio, performance exhaust and a high-flow air cleaner
- Performance valve springs are required on 99-04 engines and performance pushrods and lifters are recommended but not required
- 1900-6000 rpm power range

543CC CAMS	
PART #	**DESCRIPTION**
0925-0671	For 99-06 Twin Cam (except 06 Dyna)

574CC CAMS

- Wicked power band for modified engines and an excellent bolt-in for stock 96", 103" and 110" engines; a great all-around camshaft with solid low end performance and mind blowing mid- and top-end power
- Respond well to modified cylinder heads, increased compression ratio, performance exhaust and intake systems
- Extremely smooth cam-lobe design creates a smooth and quiet valvetrain
- Performance valve springs required on 99-04 engines and performance pushrods and lifters recommended
- 2100-6500 rpm power range

574CC CAMS	
PART #	**DESCRIPTION**
0925-0607	For 99-06 Twin Cam (except 06 Dyna)

594CC CAMS

- Fierce performing camshaft for an array of engine sizes, large displacement 103", 110" and 124" engines looking for a superior torque band with excellent horsepower gains in heavy bikes (2200-6250 rpm)
- Smaller high-revving displacement 95" style engines in lighter bikes looking to twist the throttle and tap into some horsepower (2500 - 6800 rpm)
- Large displacements respond well to increased compression ratio and smaller displacements will require it

NOTE: 594 cams require high-performance valve springs, pushrods, lifters, carburetor or throttle body work, performance exhaust, intake and clutch.

NOTE: Recommend using with Feuling oiling sytem PART #s 0932-0093, 0932-0029 or 0932-0030.

ANDREWS

CAMS FOR TWIN CAM

Andrews Products grinds its cams with the help of a computer with cam design capabilities. This superior technology gives the utmost in both performance and reliability. Only the best alloy steel billets and heat-treating processes are utilized. Furthermore, the power in Harley's Twin Cam engine can be made even more convincing when superior Andrews computer-designed high-performance cams are installed.

Gear drive cams

Chain drive cams

NOTE: All Andrews gear-driven cams require four-gear set for installation (DS-199532 for 99-06 applications; 0925-0166 or 0925-0152 for 07-17 Twin Cam and 06 Dyna applications).

NOTE: Chain-driven cams: 00-06 model cams use a splined cam drive sprocket. These cams will fit in the 1999 Twin Cam motor, but the splined cam drive sprocket OEM #25716-99 or DS-199175 must be used.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: 59G, 60G and 64G cams are for highly tuned engines and require the knowledge of an expert engine builder for proper setup and installation.

TW9 SERIES GRIND CAMS

- Bolt-in cam with more power through the entire rpm range (1000-5400 rpm)
- Use stock springs

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0597	TW9 chain-drive cam kit

26 SERIES GRIND CAMS

- Bolt-in cam for lower rpm torque on heavier bikes
- For two-up touring
- Good power from 1800-5500 rpm
- Can be used with stock springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0169	26HG gear-drive cam kit
0925-0113	26H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199117	TW26 gear-drive cam kit
DS-199179	TW26A chain-drive cam kit

32 SERIES GRIND CAMS

- High-lift version of 31G. Much more (+20%) power through rpm range with 10:1+ compression ratio
- 2800-5800 rpm range

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0188	32H chain-drive cam kit

21 SERIES GRIND CAMS

- Bolt-in cam for more torque with stock compression
- Run best with low-restriction exhausts (1700-5200 rpm)
- Similar to the EV-23 cam
- Cams work well with fuel injection or carburetor models
- Can be used with stock valve springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0168	21HG gear-drive cam kit
0925-0112	21H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199250	21G gear-drive cam kit
DS-199176	TW21 chain-drive cam kit

31 SERIES GRIND CAMS

- Great cam for motors with 95+ inches and 10:1 compression ratio
- Lower TDC lift means easy installation
- Similar to 37G but different timing (2000-5800 rpm power range)
- Can be used with stock springs and tappets

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0114	31H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0069	31G gear-drive cam kit
0925-0070	TW31 chain-drive cam kit

37 SERIES GRIND CAMS

- Bolt-in cams
- Smooth idle with broad torque band
- Run best with low-restriction exhausts (2200-5800 rpm)
- Can be used with stock valve springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0172	37HG gear-drive cam kit
0925-0115	37H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199247	37G gear-drive cam kit
DS-199180	TW37 chain-drive cam kit

ANDREWS

CAMS FOR TWIN CAM (CONT)

TW48 SERIES GRIND CAMS

- Broad tip cams for baggers with stock motors; max torque at low- and mid-rpm ranges
- Use stock springs

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0598	TW48 chain-drive cam kit
FOR ALL 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-1274	TW48 chain-drive cam kit

54 SERIES GRIND CAMS

- Designed for 96" and 103" motors with up to 10:1 compression ratio
- Cams work best at rpm range of 2200-5600

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0280	54G gear-drive cam kit
0925-0278	54H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0281	54G gear-drive cam kit
0925-0282	TW54 chain-drive cam kit

57 SERIES GRIND CAMS

- Bolt-in broad tip cams; 96", 103" Limited and 110" CVO engines
- Cams work best at rpm range of 2200-5600

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0668	57H chain-drive cam kit
FOR ALL 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-1275	57H chain-drive cam kit

60 SERIES GRIND CAMS

- Designed for 95"+ motors with major head work
- Maximum torque and HP at middle and upper rpm ranges (2700-6500+ rpm)
- Coil bind and valve-to-valve and valve-to-piston clearance must be checked

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0119	60H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199119	TW60 gear-drive cam kit
DS-199182	TW60 chain-drive cam kit

50 SERIES GRIND CAMS

- Designed for 95"+ motors with 9,25:1 to 9,50:1 compression ratio and stock heads
- For lighter bikes
- Cams work best at higher rpm of 2500-6000
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0117	50H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199118	TW50 gear-drive cam kit
DS-199181	TW50 chain-drive cam kit

55 SERIES GRIND CAMS

- Cams for maximum torque and horsepower at higher rpm ranges (2600-6000+ rpm)
- Designed for engines with 9,5:1 compression ratio or higher with 88"-95"
- Coil bind must be checked, but stock tappets can be used

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0175	55HG gear-drive cam kit
0925-0118	55H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199249	55G gear-drive cam kit
DS-199178	TW55 chain-drive cam kit

59 SERIES GRIND CAMS

- For 95"+ motors with 10:1 compression ratio or higher
- Maximum torque and HP at middle and upper rpm ranges (2400-6200 rpm)
- Coil bind must be checked, but can use stock tappets

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0176	59HG gear-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
DS199251	59G gear-drive cam kit

67 SERIES GRIND CAMS

- Hi-lift performance cams for 95-107+ inches, 10,0 to 10,8 compression ratio with high-flow head setup (2600-6400+ rpm)

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA GLIDE	
0925-0179	67HG gear-drive cam kit

ANDREWS

0925-0139

TWIN CAM CONVERSION CHAIN DRIVEN CAMS

- Allow you to upgrade your 99-06 Twin Cam (except 06 Dyna Glide) to the newer roller-style cam chains and replaces the spring tension cam chain adjusters with the later-style hydraulic adjusters for longer life
- Cam grinds listed are designed to be used with stock lifters; they require the installation of a 07-17 cam plate, oil pump, cam sprockets and chains, and both hydraulic chain adjusters (these parts are not included and must be purchased separately)
- A list of required components is supplied with each set of cams
- Performance should be similar to earlier bikes with the same cam grinds

NOTE: 99-06 Twin Cam motors (except 06 Dyna Glide) cannot use the 07-17 cams, as the bearing journal on the earlier motors is 0,875" in diameter and the 07-17 cams are 1,000" in diameter. The "N" series of cams feature the 0,875" bearing journal, yet still accept the new-style cam support plate.

NOTE: 99-01 model motors must use the Andrews rear cam sprocket Drag PART #0925-0147. 2002-2006 models must use the stock rear cam sprocket, OEM #25728-06.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)

"12N" GRIND CAMS

- Bolt-in cams with the same output as the stock cams
- Slight power increase when compared to stock
- No retuning of the stock system is necessary
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0139	"12N" grind cams

"21N" GRIND CAMS

- Bolt-in cams with more torque at low and middle rpm range (1700-4800 rpm)
- Similar to EV23 for heavy bikes
- Ideal for heavy bikes with stock compression ratios and stock pistons
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0140	"21N" grind cams

"26N" GRIND CAMS

- Bolt-in cams for low rpm torque and two-up touring
- Add more torque and horsepower at low and middle rpm range (1800-5200 rpm)
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0141	"26N" grind cams

"37N" GRIND CAMS

- Bolt-in cams for 88" or 95" motors
- Smooth idle, broad torque band
- Run best with low-restriction exhausts (2200-5800 rpm)
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0143	"37N" grind cams

"50N" GRIND CAMS

- Designed for easy installation in 95" motors with stock heads
- For lighter bikes with 9,5:1 to 9,8:1 compression ratio (2400-6000+ rpm)
- Can be used with stock valve springs and tappets, but valve travel must be checked (minimum 0,620")
- Piston-to-valve and valve-to-valve clearance must be checked

PART #	DESCRIPTION
0925-0145	"50N" grind cams

"55N" GRIND CAMS

- Maximum torque and horsepower at higher rpm ranges (2600-6200+ rpm)
- Designed for engines with 9,8:1 to 10,2:1 compression ratio
- Coil bind should be checked; can be used with stock tappets (minimum valve travel of 0,620")
- Piston-to-valve and valve-to-valve clearance must be checked

PART #	DESCRIPTION
0925-0146	"55N" grind cams

THUMPER CHAIN DRIVE CAMS FOR 06 DYNA GLIDE, 07-17 TWIN CAM

COMP CAMS

- Thumpr cams make a bold statement at stop lights and around the neighborhood with the radical sound of a hard-hitting, thumping, high-performance idle – this is the cam that will rattle your neighbor's windows
- Constructed from 8620 billet steel
- A larger throttle body is a plus
- Sophisticated "Endurance Ramp" lobe design makes great power, but is easy on the tappets and valve train for long life

TC-4101 CAM SET

- Designed for 103" engines and can be used as a bolt-in cam set, but benefits from performance heads and higher compression
- 55 mm and larger throttle bodies show big gains in acceleration and throttle response
- Wide powerband, pulls great up to 5400 rpm

PART #	DESCRIPTION
0925-1094	TC-4101 cam set

TC-4102 CAM SET

- Designed as a bolt-in cam set for 110"-117" engines, but really shines with performance heads and higher compression
- Can be used as a bolt-in cam set for 103" engines, but higher compression is needed
- 58 mm and larger throttle bodies show big gains in acceleration and throttle response
- Very wide power band, pulls great up to 6000 rpm

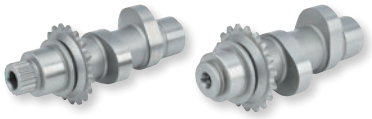
PART #	DESCRIPTION
0925-1095	TC-4102 cam set

TC-4103 CAM SET

- Designed as a serious performance cam set for 103" and larger engines using upgraded valve springs, performance heads and higher compression
- 58 mm and larger throttle bodies show big gains in acceleration and throttle response
- All valve train-related clearances must be checked, in particular valve-to-valve and piston-to-valve
- Very wide power band, pulls great up to 6200 rpm

PART #	DESCRIPTION
0925-1096	TC-4103 cam set

TC-4104 CAM SET



- Designed as a serious performance cam set for larger engines; will give outstanding performance in 120R, 124" and 130" engines wanting big sound and a wider power band
- 58 mm and larger throttle bodies show big gains in acceleration and throttle response
- All valve train-related clearances must be checked, in particular valve-to-valve and piston-to-valve
- Very wide power band, pulls great up to 6400 rpm

PART #	DESCRIPTION
0925-1097	TC-4104 cam set

V-THUNDER™ CHAIN DRIVE CAMS FOR 06 DYNA GLIDE, 07-17 TWIN CAM

- Sophisticated "Endurance Ramp" lobe design makes great power, but is easy on the tappets and valve train for long life
- Constructed from 8620 billet steel

TC-3101 CAM SET

- Excellent bolt-in torque performance cam set for 103"-110" engines
- Strong low-end power, ideal cam for the sport touring feel
- Additional power gains when used with performance exhaust and high-flow air cleaner
- Immediate passing power when cruising in 6th gear
- Great power up to 5200 rpm

PART #	DESCRIPTION
0925-1089	TC-3101 cam set

TC-3102 CAM SET

- Excellent bolt-in torque and mid-range performance cam set for 103"-110" engines
- Strong low-end and mid-range power, ideal cams for the sport touring and performance feel
- Additional power gains when used with performance exhaust and high-flow air cleaner
- Power to run through the gears with great 6th gear pull
- Great power up to 5400 rpm

PART #	DESCRIPTION
0925-1090	TC-3102 cam set

TC-3103 CAM SET

- Can be a bolt-in cam set for 103"-117" engines, but really shines when used with ported heads and added compression
- Awesome cam set for 110" or 117" CVO kits
- Strong low-end and mid-range power; ideal cams for the sport touring and performance feel
- Additional power gains when used with performance exhaust and high-flow air cleaner
- Power to run through the gears with great 6th gear pull
- Great power up to 5800 rpm

PART #	DESCRIPTION
0925-1091	TC-3103 cam set

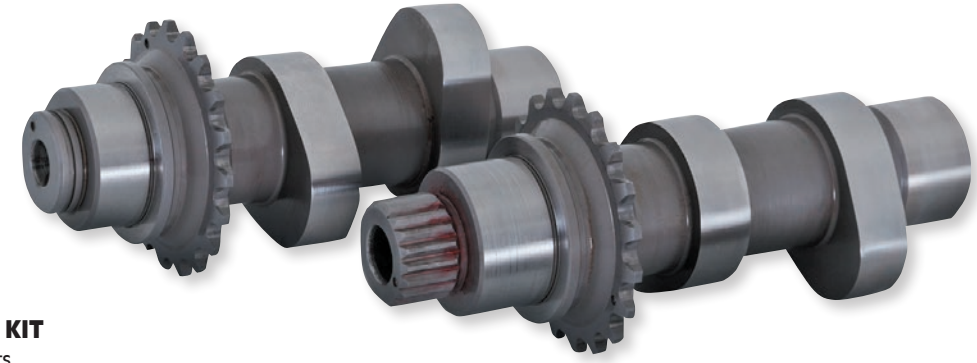
TC-3104 CAM SET

- Performance cam set for 103"-120" engines; requires valve springs and works best with modified heads and 10,5 compression
- Awesome cams for 110" or 117" CVO kits; big mid-range cam for 120R engines
- Strong low-end and mid-range power, ideal cam for the sport touring and performance feel
- Power to run through the gears with great 6th gear pull
- Great power up to 6000 rpm

PART #	DESCRIPTION
0925-1092	TC-3104 cam set

TC-3105 CAM SET

- Performance cam set for 110" and up engines; requires valve springs, modified heads and 10,5 compression
- Awesome cams for enhancing 120"-130" engines
- Strong all through the power band
- Great power up to 6200 rpm



PART #	DESCRIPTION
0925-1093	TC-3105 cam set

Exhaust	575	45°	15°	240°	0,145"	105°

0925-1084

S&S CAMS FOR SPORTSTER ENGINES

- S&S Cams are tested on the dyno, street and track before being offered to the public
- With hundreds of hours of testing on each cam, you know you are getting the best cam S&S can produce

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

482 CAMS

- Bolt-in cam for 00-19 models only
- Recommended for S&S 883 to 1250 conversion kits
- Best performance gains 3500-6500 rpm
- Compatible with stock valve springs and stock non-adjustable pushrods

PART #	DESCRIPTION
482 CAM	
0925-1084	For 00-20 XL

GRIND	OPEN	CLOSE	DURATION @ 0,053	VALVE LIFT
482				
Intake	22°	38°	240°	0,482"
Exhaust	48°	11°	234°	0,482"
500				
Intake	34°	50°	264°	0,500"
Exhaust	53°	33°	264°	0,500"

500 CAMS

- Bolt-in cams that provide excellent torque with stock or ported heads
- Recommended for modified engines up to 89" displacement and 9,0:1 to 10,5:1 compression ratio
- Will work in 89" to 100" engines with less than 9,0:1 compression
- Normal clearancing checks recommended
- 2000-6000 rpm
- Works with stock valve springs and stock non-adjustable pushrods

NOTE: 00-20 XL and 00-02 Buell models with stock flywheels require use of 91-99 style pinion gear PART #s 0921-0001 through 0921-0005, available separately.

DS-199076

DS-199111

ANDREWS

XL AND BUELL CAMS

- Cams run to 6500 rpm with stock hydraulic lifters; recommend solids not be installed
- Stock base circle sizes allow the use of stock pushrods
- V2 and N2 are bolt-in cams for stock applications designed for up to 6000 rpm
- N3 cams are bolt-in for 05-17 883/1200 engines with stock springs and heads (cams for 04-06 models with more than 0,465" lift may need different valves, springs and collars)
- V4 and N4 are for stock or modified applications and have a slightly higher idle speed, but can be used with stock hydraulic lifters and springs; rpm range of 2500-6500
- V6 and N6 designed for modified 1200s to 80" and/or high-compression pistons: stock springs and hydraulic lifters recommended; rpm range 2500-6500
- V8 and N8 designed for modified 883, 1100 and 1200 stroker models; stock springs and hydraulic lifters recommended; rpm range 2000-6000

FEULING

REAPER® CAMS FOR XL

505/515 CAMS

- Produce a wide powerband in stock engines
- Split lift camshaft produces a solid powerband with top fuel sound
- Can be used with stock pushrods and valve springs
- Feuling recommends new camshafts with new lifters (not required)

580 HIGH LIFT CAMS

- Designed for riders who want more horsepower and the powerband higher in the rpm range
- Requires high-lift valve springs (Feuling Beehive Endurance or High Load valve springs recommended)
- Higher compression also recommended, along with performance pushrods and lifters
- High-flow intake and performance exhaust required

NOTE: Most cam compartments will need to be machined to make clearance for 580 High Lift cams.

TWO-GEAR SET FOR M-EIGHT GEAR-DRIVEN CAMS

- A two-gear set is required for gear-driven cams that do not come with secondary cam gears; includes outer cam drive gear, pinion drive gear and mounting hardware
- Due to the inherent characteristics of gear drives, you may experience more valve train noise with gear-driven cams; oversized and undersized pinion gears are available to help achieve correct gear lash (sold separately)

NOTE: It is the installer's responsibility to check all clearances and follow all procedures in the S&S instructions and Harley-Davidson manual.

PART #	DESCRIPTION

0925-0094	Pinion gear, undersized
0925-0095	Pinion gear, oversized
0925-1072	Pinion gear, double undersized

ANDREWS

CAM CHAIN DRIVE SPROCKETS

- Manufactured from 4340 steel
- Cam drive sprockets replace the stock 34-tooth cam drive sprocket and include shims
- Crankshaft cam drive is a 17-tooth sprocket that can be used with OEM cam drive sprocket or PART #DS-199009
- Sold each

DS-199175

DS-199009

DS-199074

PART #	DESCRIPTION
CAM DRIVE SPROCKETS	
DS-199175	For 00-06 Twin Cam motors (except 06 Dyna Glide), splined; repl. OEM #25716-99
DS-199009	For 99 Twin Cam motors, keyed; repl. OEM #25563-99

PART #	DESCRIPTION
CRANKSHAFT CAM DRIVE SPROCKETS	
0925-1204	For 07-17 Twin Cam motors, 17-20 M-Eight models; repl. OEM #25673-06
DS-199074	For all 99-06 Twin Cam motors (except 06 Dyna Glide); repl. OEM #25609-99

ANDREWS

ROLLER CONVERSION CAM SPROCKET

- 34 teeth with ignition trigger ring
- Must use with 99-01 engines with stock ignition and cam position sensor
- 02-06 engines can use stock rear cam drive sprocket
- Trigger ring required for 99-01 engines with rear cam drive sprockets to permit engine control system to function correctly
- For use with Andrews Twin Cam Conversion Chain Driven Cams; see page 666

PART #	DESCRIPTION
0925-0147	Roller conversion cam sprocket

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

0925-1059

0925-1058

FEULING

CAM CHAIN DRIVE SPROCKETS

- Machined steel, stock replacement roller chain drive sprockets fit 07-17 Twin Cam engines as direct replacements and work on early 99-06 engines when upgrading to the hydraulic cam chain tensioners using the roller chain

PART #	DESCRIPTION
FOR 17-20 M-EIGHT, 07-17 TWIN CAM MOTORS	
0925-1059	Cam drive sprocket, 34 tooth (Twin Cam only); repl. OEM #25728-06
0925-1058	Crankshaft cam drive sprocket, 17 tooth; repl. OEM #25673-06

FEULING

CAMSHAFT SPROCKET SPACING ALIGNMENT/THRUST WASHER KIT

- Fits stock and stock replacement camshafts and conversion camshaft upgrades on 99-06 engines to the hydraulic chain tensioner system
- Conversion camshafts use the late 07-17 style cam plate and oil pump
- Alignment washers are used to align the rear camshaft sprocket with the crank sprocket to achieve correct chain alignment
- Kit includes front cam thrust washer 0,100", rear cam sprocket alignment washers 0,110", 0,120", 0,130", 0,140" and 0,150"

PART #	DESCRIPTION
0925-0951	For 17-20 M-Eight, 07-17 Twin Cam models and 06 Dyna; repl. OEM #25729-06

FEULING

CAMSHAFT SPROCKET ALIGNMENT SPACER KIT

- Spacers fit stock and stock replacement early style camshafts and conversion cam plates which update the early style camshafts to the late style hydraulic tension system
- Conversion cam plates use the original style 99-06 camshafts with the original style silent chain in the rear
- Spacers are used to align the rear camshaft sprocket with the crank sprocket to achieve correct chain alignment
- Kit includes one each of the following thickness spacers: 0,297"; 0,307"; 0,317"; 0,327"; 0,337"; 0,347" and 0,357"

PART #	DESCRIPTION
0925-0950	For all 99-06 Twin Cam motors (except 06 Dyna Glide); repl. OEM #25285-08

Eastern M C Parts

CAM DRIVE SPROCKET SPACERS

- Available in sizes from 0,100" to 0,150" in a six-piece assorted set
- Individual sizes sold in 5-pack

0925-0927

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0927	Spacer set (one each of 0,100"; 0,110"; 0,120"; 0,130"; 0,140"; 0,150" spacers)
0925-0921	0,100" spacers; repl. OEM #25729-06
0925-0922	0,110" spacers; repl. OEM #25731-06

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA (CONT)	
0925-0923	0,120" spacers; repl. OEM #25734-06
0925-0924	0,130" spacers; repl. OEM #25736-06
0925-0925	0,140" spacers; repl. OEM #25737-06
0925-0926	0,150" spacers; repl. OEM #25738-06

PROVEN S&S PERFORMANCE

PINION PARALLEL KEY

- 0,188" x 0,469"
- Steel construction

PART #	DESCRIPTION
0920-0129	Pinion parallel key

PROVEN S&S PERFORMANCE

PARALLEL KEY

- Steel individual key
- 0,188" x 0,150" x 0,420"
- Sold each

PART #	DESCRIPTION
0950-0805	Repl. key for 99-17 Twin Cam outer gears on gear drive camshafts

0925-0955

FEULING

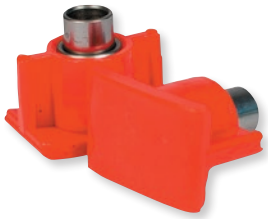
CAM CHAINS

- Stock replacement chains

PART #	DESCRIPTION
FOR 17-20 M-EIGHT, 07-17 TWIN CAM (INCLUDES 06 DYNA AND CONVERSION CAMSHAFTS)	
0925-0953	Inner roller chain, 16 link (Twin Cam only); repl. OEM #25683-06
0925-0954	Outer roller chain, 22 link; repl. OEM #25675-06

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPTS 06 DYNA)	
0925-0955	Inner silent chain, 16 link; repl. OEM #25607-99
0925-0956	Outer silent chain, 22 link; repl. OEM #25610-99

0925-1066



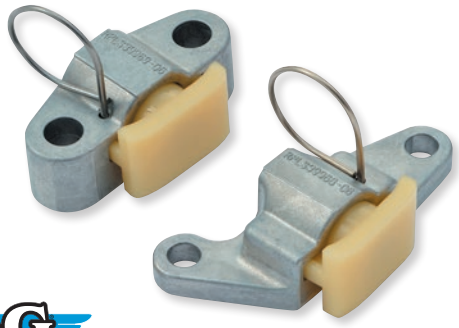
0925-1065

FEULING

HYDRAULIC CAM CHAIN TENSIONER ASSEMBLIES

- Stock replacement hydraulic cam chain tensioners
- Tensioner housings are precision machined from billet 6061 aluminum, pads are injection molded nylon with PTFE added to increase wear and friction resistance
- Tensioners are single piston duplicating the output pressure of stock units
- Feuling tensioners include ARP® 12-point hardware
- Tensioners fit Feuling, factory and SE 07-17 cam plates and conversion cam plates designed to run the early 99-06 camshafts

PART #	DESCRIPTION
0925-1066	Hydraulic tensioner kit, inner/outer, 07-17 Twin Cam, 06 Dyna, chain drive and cam plate
0925-1064	Hydraulic tensioner, outer, 07-17 Twin Cam, 06 Dyna, chain drive and conversion cam plate (ea.)
0925-1065	Hydraulic tensioner, inner, 07-17 Twin Cam, 06 Dyna, chain drive and conversion cam plate (ea.)



FEULING

HYDRAULIC CAM CHAIN TENSIONER PADS

- Tensioner pads are a direct drop-in replacement for the factory cast tensioner housings as well as the billet Feuling tensioner housings
- Pads are injection molded nylon with PTFE added to increase wear and friction resistance
- Tensioners are single piston, duplicating the output pressure of stock units
- Replacement pads include new hydraulic lash units
- Fit inner and outer factory HD cast housings and Feuling billet housings
- Sold in pairs

PART #	DESCRIPTION
0925-1067	For 07-17 Twin Cam, 06 Dyna

DRAG Specialties

CAM CHAIN TENSIONER KIT

- Stock replacement hydraulic cam chain tensioners
- Sold as a primary/secondary 2-piece kit

PART #	DESCRIPTION
0925-1162	For 07-17 Twin Cam, 06 Dyna; repl. OEM #s 39968-06 and 39969-06

0925-1073

0925-1076

PROVEN S&S PERFORMANCE

CAM CHAIN TENSIONERS

- For use in stock 07-17 Twin Cam engines or 99-06 Twin Cam engines with a hydraulic upgrade cam plate like the S&S TC3 bodies machined from 6061 aluminum
- Larger diameter piston and tighter tolerance fit of the shoe in the body provide improved stability, no more rocking shoes
- Thicker pad for longer wear between service
- Replaceable shoes fit S&S tensioners only
- Chain oiling feature; provides oil to the chain rails right before crossing the tensioner for increased lubrication and greater cooling

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE	
0925-1073	Tensioner kit
0925-1074	Tensioner assembly, outer, body

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA GLIDE (CONT)	
0925-1075	Tensioner assembly, inner, body
0925-1076	Repl. tensioner shoe

OE+ PLUS FEULING ORIGINAL EQUIPMENT+

0925-1071

0925-1070

OE+® HYDRAULIC CAM CHAIN TENSIONER CONVERSION KITS

- Kits allow engine builders to update early-style mechanical cam chain tensioner Twin Cam® engines to the late style hydraulic cam chain tensioner systems while mixing and matching components
- Whether using a Feuling camchest kit with conversion camshafts, Feuling conversion camplate oiling system with stock style 99-06 camshafts and or conversion camshafts with a combination of factory, SE®, Delkron® or S&S® oiling systems, these kits offer endless combinations
- Kits include: Cam and crank sprockets, sprocket alignment spacers, inner and outer cam chains, inner and outer hydraulic tensioner assemblies

NOTE: PART #s 0925-1068/0925-1071 are designed to work with camchest kits: PART #s 0925-0678, 0925-0680 0925-0679, 0925-0733, 0925-0732. Conversion camshafts: PART #s: 0925-0671, 0925-0606, 0925-0607, 0925-0608, 0925-0672. Oiling systems: PART #s 0932-0093, 0932-0029, 0932-0030.

NOTE: PART #s 0925-1069/0925-1070 are designed to work with OE + Conversion camplate oiling systems: PART #0932-0094, HP+ PART #0932-0071, RS PART #0932-0072. Screamin' Eagle conversion camplate oiling system: OEM #25284-11.

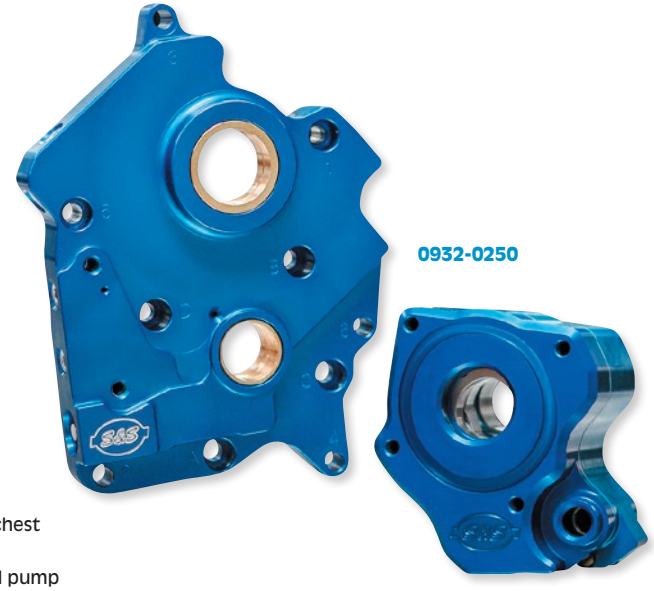
PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1068[1]	For use with conversion camshafts when updating 01-06 Delphi ignition system engines w/o cam position sensor to the hydraulic cam chain tensioner system; requires an 07-17 style oiling system
0925-1071[1]	For use with conversion camshafts when updating a 99-01 Magneti Marelli ignition system model engine w/ cam position sensor to the hydraulic cam chain tensioner system PART #0925-1063
FOR 99-06 STYLE CAMSHAFTS	
0925-1069[2]	For use on 01-06 Delphi equipped ignition system Twin Cam engines w/o cam position sensor; stock style splined drive camshafts and conversion camplate which allows use of hydraulic tensioner system
0925-1070[2]	For use on 99-01 Magneti Marelli equipped ignition system Twin Cam engines w/ cam position sensor; stock style splined camshafts and Conversion cam plate which allows use of hydraulic tensioner system PART #0925-1063

[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0608, 0925-0672.
[2] Will NOT work on keyway camshafts.

OE+® HYDRAULIC CAM CHAIN TENSIONER CONVERSION KITS

- Cam chain tensioner conversion kits include the needed components to upgrade early 99-06 style mechanical cam chain drive systems to the late 07-16 hydraulic cam chain drive systems
- Kits include a Feuling OE+ billet oil pump and cam plate, Feuling's billet hydraulic tensioners, cam chains, sprockets, sprocket alignment spacers, Timken®/ Feuling bearings, needed gaskets, O-rings, ARP® cam, crank and tensioner hardware, Loctite® and moly lube

NOTE: Rocker box gasket kit included so the factory one-piece pushrods can be reused.



0925-1063

PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1060[1]	Conversion Camshaft Hydraulic Tensioner Kit. Fits: 99-00 Twin Cam and 01 Bagger Magneti Marelli equipped ignition system engines requiring the timing tab on the rear camshaft sprocket for the cam sensor
0925-1061[1]	Conversion Camshaft Hydraulic Tensioner Kit. Fits: 01-06 Twin Cam Delphi equipped ignition system engines w/o cam sensor
FOR 99-06 STYLE CAMSHAFTS	
0925-1062[2]	Conversion cam plate Hydraulic Tensioner Kit. Fits: 99-00 Twin Cam and 01 Bagger Magneti Marelli equipped ignition system engines requiring the timing tab on the rear camshaft sprocket for the cam sensor with factory 00-06 style splined chain drive camshafts
0925-1063[2]	Conversion cam plate Hydraulic Tensioner Kit. Fits: 01-06 Twin Cam Delphi equipped ignition system engines w/o cam sensor with factory style 00-06 splined chain drive camshafts

[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0608, 0925-0672.
[2] Will NOT work on keyway camshafts.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

0932-0250

OIL PUMP AND CAMPLATE FOR M-EIGHT

- Precision-machined from billet aluminum
- Independent scavenge sections for the flywheel cavity and the cam chest
- Debris screens in both scavenge pickups
- Magnet in the cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit still in the engine
- Passage plugs are removable for servicing
- Blue anodized finish

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0932-0250	W/ Twin Cooled™ engines

PART #	DESCRIPTION
FOR 17-20 M-EIGHT (CONT)	
0932-0251	W/ oil-cooled engines

0932-0230

HP+ OIL PUMP/CAMPLATE KITS FOR M-EIGHT

- Increase oil pressure, oil volume, engine oil flow and return oil scavenging
- Quieter and smoother engine operation
- 15-25 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 10-30 more psi of oil pressure
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 horsepower gain and 2 ft/lbs of torque gain to the rear wheel on M-Eight
- Feuling test results show as much as 50% reduction of engine sump oil level
- Includes a billet 6061 aluminum high volume oil pump and Feulings® High Flow billet camplate made from 7075 aluminum; which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55-60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps are essential for proper oiling system function
- Feuling oil pump and camplate combination eliminates common pressure and scavenge issues associated with the factory oiling systems
- Optional Camplate/oil pump fastener kit PART #2401-0993 available separately; see page 683

PART #	DESCRIPTION
0925-1255	For 17-20 M-Eight oil-cooled motors

- PART #0925-1255 has 27% more pressure and scavenge gear volume over stock, 42% more scavenge volume through port sizing, matched passages and holes to the engine case and 68% more oil volume to the crankshaft and connecting rod bearing
- PART #0932-0230 has 30% more pressure gear volume over stock, 53% more scavenge gear volume over stock and 42% more scavenge volume with port sizing, matched passages and holes to the engine case

NOTE: The M-Eight oil pick up port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.

PART #	DESCRIPTION
0932-0230	For 17-20 M-Eight Twin-cooled™ motors

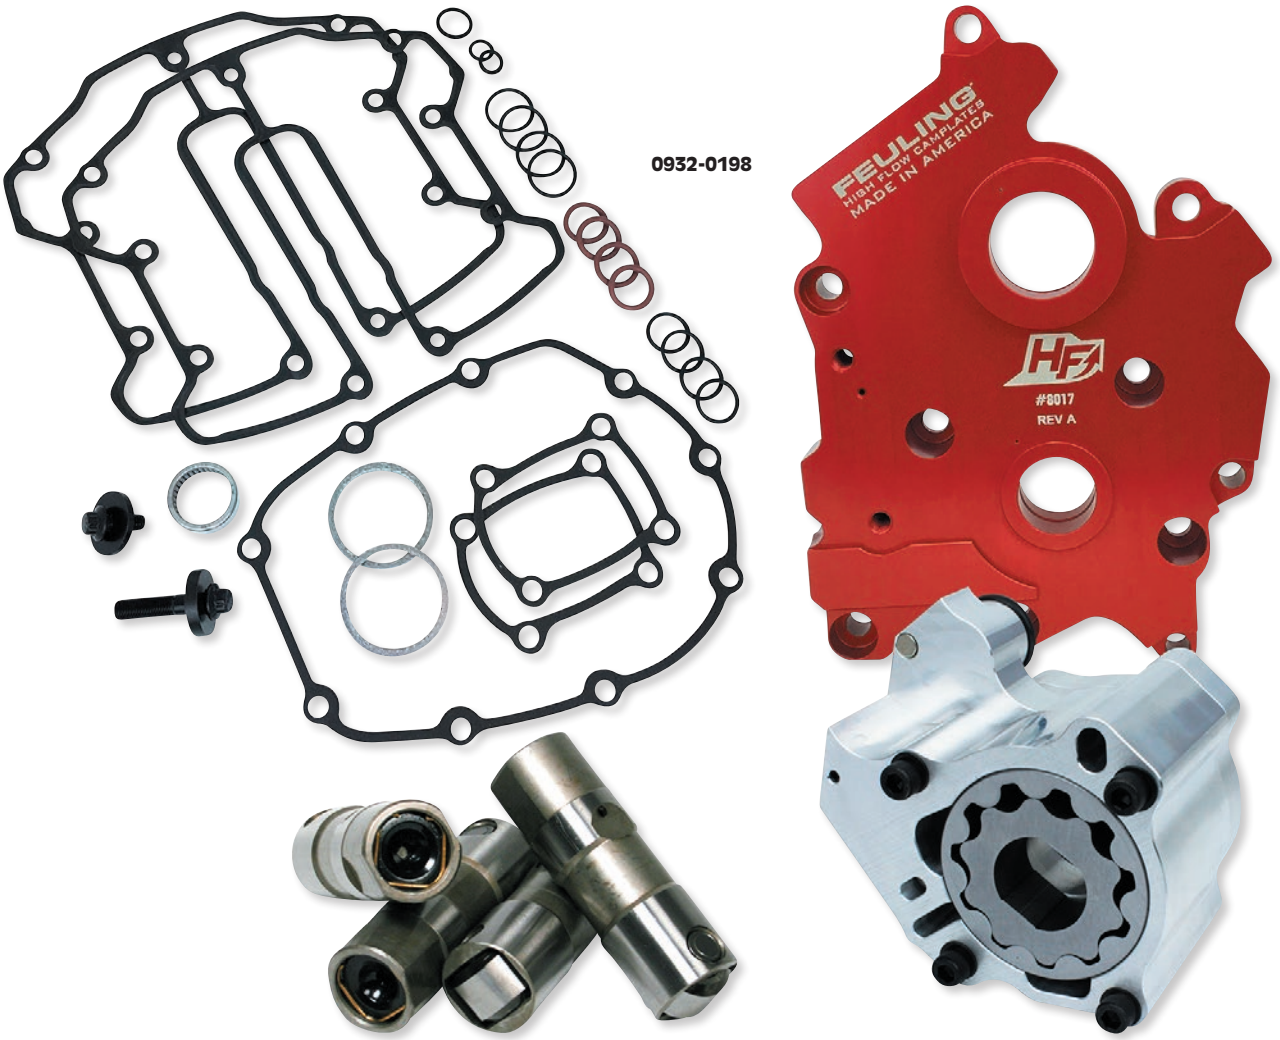
0925-1256

FEULING RS FEULING RACE SERIES

RACE SERIES® OIL PUMP/CAMPLATE KITS

- Increase oil pressure, oil volume, engine oil flow and return oil scavenging
- Quieter and smoother engine operation
- 15-25 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 10-30 more PSI of oil pressure
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 horsepower gain and 2 ft/lbs of torque gain to the rear wheel on M-Eight
- Feuling test results show as much as 50% reduction of engine sump oil level
- Includes a billet 7075 hard anodized oil pump which is 50% harder and stronger than the factory pump holding tighter tolerances under temperature (Race Series® M-Eight oil pumps have deeper scavenge kidneys when compared to the HP+ kidneys for increased scavenge volume)
- Also, includes Feuling® High Flow billet camplate made from 7075 aluminum; which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55-60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Feuling oil pump and camplate combination eliminates common pressure and scavenge issues associated with the factory oiling systems
- Optional Camplate/oil pump fastener kit PART #2401-0993 available separately; see page 683
- PART #0925-1256 has 27% more pressure and scavenge gear volume over stock, 42% more scavenge volume through port sizing, matched passages and holes to the engine case and 68% more oil volume to the crankshaft and connecting rod bearing
- PART #0932-0231 has 30% more pressure gear volume over stock, 53% more scavenge gear volume over stock and 42% more scavenge volume with port sizing, matched passages and holes to the engine case

NOTE: The M-Eight oil pick up port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.



PART #	DESCRIPTION

FEULING

0932-0198

FEULING HORSEPOWER PLUS

HP+® OIL SYSTEM PACKS FOR M-EIGHT

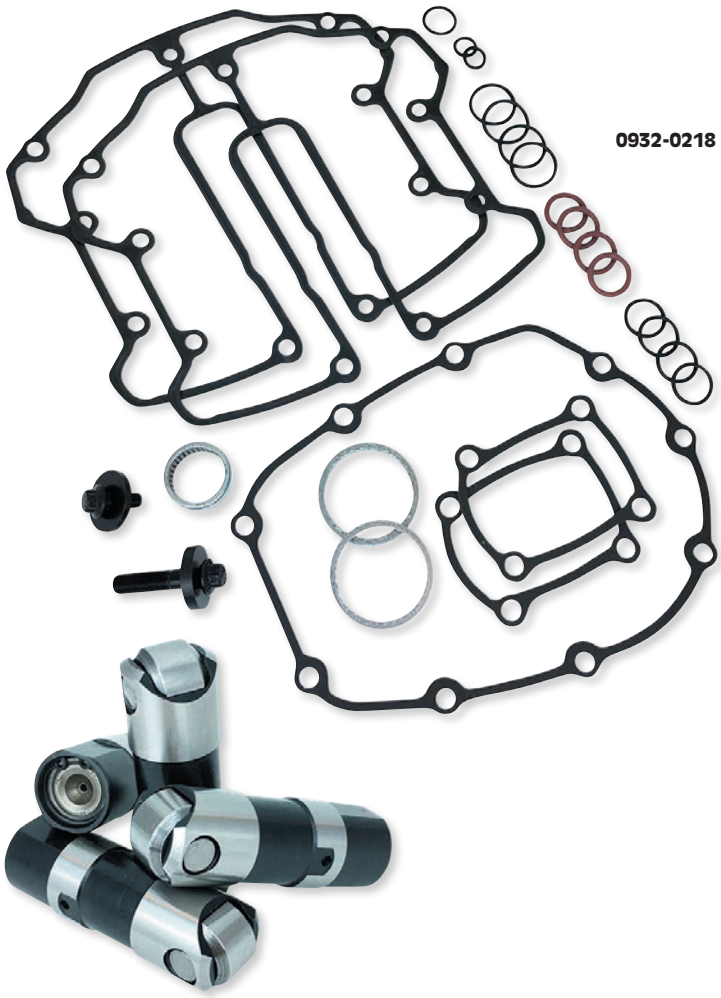
- Includes Feuling's® High Flow billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Feuling oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop off at 55-60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Feuling® oil pump and camplate combination eliminate common pressure and scavenge issues associated with the factory oiling systems
- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing
- 15-25 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 10-30 more psi of oil pressure
- M-Eight Twin-Cooled™ motor oil pump specs: 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motor pump specs: 27% more pressure and scavenge gear volume over stock
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 HP gain and 2 ft/lbs of torque gain to the rear wheel on M-Eight
- Includes billet 6061 aluminum high volume oil pump, High Flow camplate, HP+® Hydraulic roller lifters, cam installation kit, cam bearing, cam/crank bolts and washers, engine and fastener assembly lube

NOTE: Optional Feuling X ARP bolt kit available for the High Flow camplate PART #0932-0192 and HP+ or RS oil pump combo. See PART #2401-0993, optional ARP oil pump bolts do not use washers.

NOTE: Optional Feuling x ARP oil pump/camplate bolt kit available PART #2401-0993.

NOTE: Feuling test results show as much as 50% reduction of engine sump oil level.

NOTE: M-Eight engines must check clearance on front exhaust lifter to camshaft flange fit.



PART #	DESCRIPTION
0932-0198[1]	For 17-20 M-Eight Oil-Cooled motors w/ gear or chain drive
0932-0217[1]	For 17-20 M-Eight Twin-Cooled™ motors w/ gear or chain drive

[1] Block off plate PART #0932-0036 required when using gear drive cams.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

0932-0218

FEULING RACE SERIES

RACE SERIES® OIL SYSTEM PACK FOR M-EIGHT

- Includes Feuling's® High Flow billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil port holes throughout the camplate to the port holes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Feuling oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop off at 55-60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Fueling® oil pump and camplate combination eliminate common pressure and scavenge issues associated with the factory oiling systems
- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing
- 15-25 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 10-30 more PSI of oil pressure
- M-Eight Twin-Cooled™ motor oil pump specs: 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motor pump specs: 27% more pressure and scavenge gear volume over stock
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 HP gain and 2 ft/lbs of torque gain to the rear wheel on M-Eight
- Includes a Race Series® oil pump, Race Series® lifters, High Flow camplate and cam installation kit, cam bearing, cam/crank bolts and washers, engine and fastener assembly lube
- Billet 7075 aluminum oil pump which is 50% harder and stronger than the factory pump holding tighter tolerances under temperature
- Race Series® oil pumps feature increased scavenge side kidney port volume over HP+ oil pumps
- Race Series® hydraulic lifters have a full 0,200" of total travel designed with a slower bleed down rate to handle heavy valve spring pressures, increase engine RPM before valve float and feature increased roller clearance for steep ramped camshafts

NOTE: Optional Feuling X ARP bolt kit available for the High Flow camplate PART #0932-0192 and HP+ or RS oil pump combo. See PART #2401-0993, optional ARP oil pump bolts do not use washers.

NOTE: Feuling test results show as much as 50% reduction of engine sump oil level.

NOTE: M-Eight engines must check clearance on front exhaust lifter to camshaft flange fit.

PART #	DESCRIPTION
0932-0199[1]	For 17-20 M-Eight Oil-Cooled motors w/ gear or chain drive

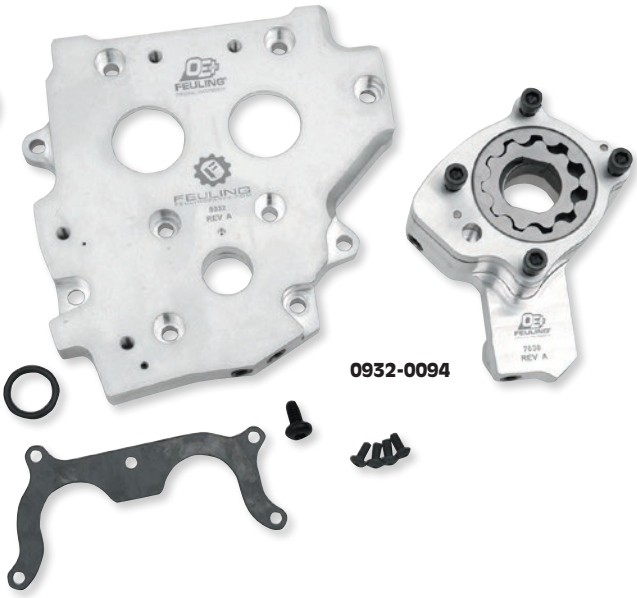
0932-0111

0932-0110

TC3 OIL PUMP AND CAMPLATE FOR TWIN CAM



- Precision CNC-machined forged aluminum
- Increased structural strength
- Dimensional stability
- Freedom for internal porosity
- Separate scavenge sections for flywheel cavity and cam chest scavenge each area more efficiently with no interference
- Gerotors are designed to tolerate more pinion shaft runout without damage
- Cam chest pickup features a magnetic trap to protect scavenge rotors from metal debris
- Both scavenge rotors are protected from debris, the most common cause of stock oil pump failure
- Passage plugs are removable for service
- Bronze pinion shaft bushing in all models and bronze cam bushings in 07-17 style can be replaced
- Adjustable oil pressure regulator – adjust without removing plate from engine
- 99-06 cam support plate is designed to use late-style hydraulic cam chain tensioners

PART #	DESCRIPTION
0932-0111	For 07-17 Twin Cam and 06 Dyna models

PART #	DESCRIPTION
0932-0110	For 99-06 Twin Cam models (except 06 Dyna models)

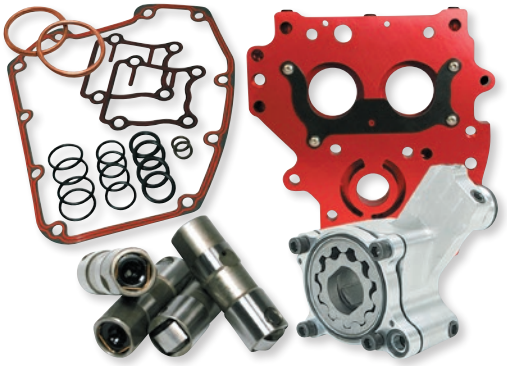
FEULING

OE+ PLUS FEULING ORIGINAL EQUIPMENT+

OE+ OIL PUMP/CAMPLATE KITS FOR TWIN CAM

- Upgrade to the stock oiling system, delivering increased oil pressure and return scavenging volumes from billet oil pump and matched camplate
- Increased rigidity; machined to tighter tolerances compared to stock
- Camplate pressure relief valve and spring are seated, sealed and pre-set with 50-60 psi pop-off
- Kits for 07-17 Twin Cam (and 06 Dyna) feature tighter cam journal bore tolerance for improve cam fitment
- Kits for 99-06 Twin Cam (except 06 Dyna) feature tighter cam bearing bore tolerance for improved press fit
- Bearing retainer plate and hardware included
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

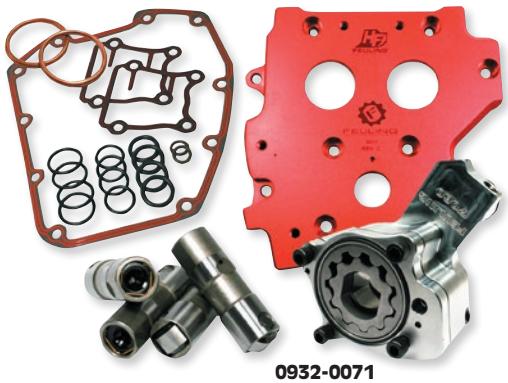


PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA	
0932-0093[1]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0932-0091	For gear drive cams
0932-0092[2]	For chain drive cams w/ mechanical tensioner
0932-0094[3]	Hydraulic tensioner conversion camplate for stock chain drive cams

[1] Block-off plate PART #0932-0036 required when using gear drive cams.
[2] Includes tensioner pins and guide hardware.
[3] Requires hydraulic cam chain drive system (tensioners, chains, sprockets and hardware), see Feuling tensioner kit PART #s 0925-1069 or 0925-1070.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2021.

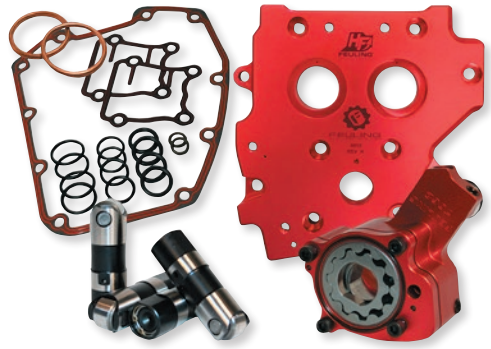


FEULING

0932-0027

0932-0035

0932-0071

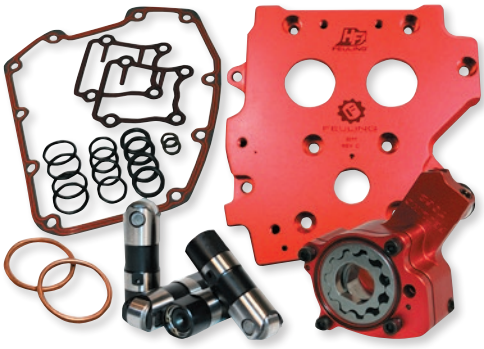


FEULING HORSEPOWER PLUS

HP+® OIL SYSTEM PACKS FOR TWIN CAM

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 15-35 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 15-30 more psi of oil pressure
- Eliminate wet sumping, blowby and oily air cleaners
- Test results show 3 horsepower gain and 4 ft./lb. of torque gain to the rear wheel
- Includes billet 6061 aluminum high volume oil pump, high flow cam plate, HP+® hydraulic roller lifters and cam installation kit
- Billet 7075 aluminum oil pump is 50% harder and stronger than the factory pump; holds tighter tolerances under temperature

PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA WITH GEAR OR CHAIN DRIVE	
0932-0029[1]	HP+ Performance oil system pack
FOR 99-06 TWIN CAM WITH GEAR DRIVEN CAMS (EXCEPT 06 DYNA)	
0932-0027[2]	HP+ Performance oil system pack
0932-0035[3]	Chain drive conversion kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) WITH CHAIN DRIVE STOCK REPLACEMENT	
0932-0069[2]	HP+ Performance oil system pack
FOR 99-06 TWIN CAM WITH CHAIN DRIVE (EXCEPT 06 DYNA) CONVERSION CAMPLATES UPGRADE TO 07-17 HYDRAULIC TENSIONERS	
0932-0071[4]	HP+ conversion cam plate



[1] Gear Drive cam systems require block-off plate kit PART #0932-0036.
[2] Includes bearing retainer plate and hardware.
[3] For use with PART #0932-0027 when using 99-06 chain drive system.
[4] Conversion camplates use 99-06 style camshafts; oil system pack requires separate purchase of hydraulic chain drive tensioners, chains, sprockets and spacers.

FEULING RACE SERIES

RACE SERIES® OIL SYSTEM PACKS FOR TWIN CAM

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 15-35 °F cooler engine temperatures
- 15-30 °F cooler oil temperatures
- 15-30 more psi of oil pressure
- Eliminate wet sumping, blowby and oily air cleaners
- Test results show 3 horsepower gain and 4 ft./lb. of torque gain to the rear wheel
- Includes Race Series oil pump, Race Series lifters, high flow cam plate and cam installation kit
- Billet 7075 aluminum oil pump is 50% harder and stronger than the factory pump; holds tighter tolerances under temperature
- Race Series hydraulic lifters have a full 0,200" of total travel designed with a slower bleed-down rate to handle very heavy valve spring pressures, increase engine rpm before valve float and have increased roller clearance for steep ramped camshafts

NOTE: Optional Feuling x ARP oil pump/camplate bolt kit available PART #2401-0993.

PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA WITH GEAR OR CHAIN DRIVE	
0932-0030[1]	Race Series oil system pack
FOR 99-06 TWIN CAM WITH GEAR DRIVEN CAMS (EXCEPT 06 DYNA)	
0932-0028	Race Series oil system pack
0932-0035[2]	Chain drive conversion kit
FOR 99-06 TWIN CAM WITH CHAIN DRIVE (EXCEPT 06 DYNA) CONVERSION CAMPLATES UPGRADE TO 07-17 HYDRAULIC TENSIONERS	
0932-0072[3]	Race series conversion cam plate

[1] Gear Drive cam systems require block-off plate kit PART #0932-0036.
[2] For use with PART #0932-0028 when using 99-06 chain drive system.
[3] Conversion camplates use 99-06 style camshafts; oil system pack requires separate purchase of hydraulic chain drive tensioners, chains, sprockets and spacers.

FEULING HF FEULING HIGH FLOW CAMPLATES

HIGH FLOW CAMPLATE FOR M-EIGHT

- Increases engine oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including the scavenging return holes from the pump to the camplate and into the engine case
- Camplate matches the oil portholes on the camplate to the oil holes in the engine case to increase oil flow throughout the engine
- Lowers engine temperatures by 15-25 °F and oil running temperature by 15-25 °F when matched with a Feuling HP+ or RS oil pump
- 7075 billet aluminum construction, which is 50% harder and stronger than the factory cast and Feuling® OE+ camplates
- Increases the strength and hardness of the camplate, holding tighter tolerances under temperature and eliminating flexing and the need for bronze bushings
- When matched with the Feuling® Race Series Oil Pump, rear wheel power gains of 2 horsepower and 2 ft./lb. of torque can be achieved

- For gear or chain drive cams (block-off plate PART #0932-0036 required when using gear drive cams)

NOTE: For use ONLY with Feuling HP+ and Race Series M-Eight oil pumps.

PART #	DESCRIPTION
0932-0192	For 17-20 M-Eight

FEULING OE+ PLUS FEULING ORIGINAL EQUIPMENT+

OE+ CAMPLATE FOR M-EIGHT

- Feuling® OE+ stock replacement billet camplates are manufactured from 6061 aluminum, providing increased rigidity and machined to Feuling's high tolerance standards
- Direct bolt-in replacement and accepts the factory OEM oil pump only
- Blueprinted and matched oil passages to the engine case passages, kidney shapes are designed to maximize flow
- Optimizes oil flow to and from the oil pump and in and out of the engine, aiding in reducing oil and engine temps
- Tighter cam journal bore tolerance for improved cam fitment
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication

- Added oil pressure feed holes to front and back of cam journal to prevent excessive thrusting wear
- For gear or chain drive cams (block-off plate PART #0932-0036 required when using gear drive cams)

PART #	DESCRIPTION
0932-0193	For 17-20 M-Eight

PROVEN S&S PERFORMANCE

CAMPLATE FOR M-EIGHT

- Precision-machined from billet aluminum
- Blue anodized finish
- Passage plugs are removable for servicing

PART #	DESCRIPTION
0932-0268	For 17-20 M-Eight

PROVEN S&S PERFORMANCE

TC3 CAMPLATES FOR TWIN CAM

- Precision CNC-machined forged aluminum
- Adjustable oil pressure regulator; adjust without removing plate from the engine
- Passage plugs are removable for service
- Rebuildable bronze pinion shaft bushing in all models and bronze cam bushings in 07-later style

0925-0914

NOTE: S&S oil pumps for 99-06 are not compatible with S&S cam support plates for 99-06 engines. All S&S cam support plates are machined for 07 and later-style oil pumps.

PART #	DESCRIPTION
0925-0914	For 07-17 Twin Cam and 06 Dyna models
0925-0915[1]	For 99-06 Twin Cam models (except 06 Dyna) w/ gear drive cams

[1] Accepts 07-16 style oil pumps only.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

HIGH FLOW CAMPLATES FOR TWIN CAM

- Increase engine oil flow and volume by enlarging the oil pump reservoirs and critical oil passages
- Camplate matches the oil port holes throughout the camplate to the portholes in the engine case increasing engine oil flow throughout the engine
- 25-35 °F cooler engine temperatures and 20-30 °F cooler oil temperatures
- Made from 7075 billet aluminum which is 50% harder and stronger than the factory, SE® and other aftermarket camplates
- The 7075 increases the strength and hardness of the camplate, holding tighter tolerances under temperature eliminating flexing and the need for bronze bushings
- Camplates are pressure tested and pressure relief valve is seated, sealed and set to pop off at 55-60 psi
- When matched with the Feuling® Race Series oil pump rear wheel power gains of 3 horsepower and 4 ft/lbs of torque can be achieved

0925-0110

0925-0440

- For use ONLY with the Feuling® oil pumps
- Camplates for 99-06 Twin Cam (except 06 Dyna) have tighter cam bearing bore tolerances for improved press fit
- Bearing and retainer plate hardware is included
- Camplates for 07-17 Twin Cam (and 06 Dyna) have tighter cam journal tolerance for improved cam fitment
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

PART #	DESCRIPTION
FOR 07-17 TWIN CAM (AND 06 DYNA)	
0925-0110[1, 2]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0920-0006[3]	For gear drive cams
0925-0109[3, 4]	For chain drive cams w/ spring tensioners
0925-0440[5]	Hydraulic tensioner conversion camplate for stock chain drive cams

[1] Block-off plate PART #0932-0036 required when using gear drive cams.
[2] Requires the use of 07-17 style Feuling HP+ or Race Series oil pump PART #s 0932-0023 or 0932-0026.
[3] Requires the use of 99-06 style Feuling HP+ or Race Series oil pump PART #s 0932-0018 or 0932-0020.
[4] Includes tensioner pins and guide hardware.
[5] Requires 07-17 hydraulic chain drive system (tensioners, chains, sprockets and hardware), see Feuling tensioner kit PART #s 0925-1069 or 0925-1070.

OE+ CAMPLATES FOR TWIN CAM

- Billet camplates are manufactured from 6061 aluminum providing increased rigidity and machined to Feuling® high tolerance standards
- Designed and manufactured to the highest standard of quality with proven Feuling® performance
- The pressure relief valve and spring are pre-set, matched and seated by Feuling® with a full pop off pressure of 50-60 psi
- Camplates for 99-06 Twin Cam (except 06 Dyna) have tighter cam bearing bore tolerance for improved press fit
- Bearing retainer plate and hardware included
- Camplate for 07-17 Twin Cam (and 06 Dyna) have tighter cam journal bore tolerance for improved cam fitment

0925-0842

0925-0839

- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

PART #	DESCRIPTION
FOR 07-17 TWIN CAM (AND 06 DYNA)	
0925-0842[1, 5]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0839[2]	For gear drive cams
0925-0840[2, 3]	For chain drive cams w/ spring tensioners
0925-0841[4]	Hydraulic tensioner conversion camplate for stock chain drive cams

[1] Block-off plate PART #0932-0036 required when using gear drive cams.
[2] For use with factory or any Twin Cam oil pump with the 99-06 bolt pattern. Compatible with Feuling oil pump PART #s 0932-0018, 0932-0089, 0932-0020.
[3] Includes tensioner pins and hardware guide.
[4] Requires 07-17 style oil pump, hydraulic chain drive system (tensioners, chains, sprockets and hardware), see Feuling tensioner kits 0925-1069 or 0925-1070. Compatible with Feuling oil pump PART #s 0932-0090, 0932-0023, 0932-0026.
[5] For use with factory and or any Twin Cam oil pump with 07-17 bolt pattern; compatible with Feuling oil pump PART #0932-0090, 0932-0023, 0932-0026.

ARP automotive Racing products

CAMPLATE/OIL PUMP FASTENER KITS

- Optional kit for Feuling camplates/oil pumps only
- Quality 12-point, heat-treated 8740 chromoly steel bolts with black oxide finish manufactured by ARP® to Feuling's exact specifications
- Precision-rolled threads provide optimum engagement, prevent galling and promote consistent torque loading

2401-1047

2401-0127

- Wide, underhead flange design provides even load distribution for optimum sealing of surfaces to prevent leaks
- Tensile strength rated at 170.000 psi; superior and stronger than OEM and stronger than grade 8 fasteners
- Includes moly assembly lubricant for installation

PART #	DESCRIPTION
2401-0993[1]	For 17-20 M-Eight engines w/ Feuling high flow camplate and HP+ or Race Series oil pumps (do not use washers with ARP® oil pump bolts)
2401-1047	For 17-20 M-Eight engines w/ Feuling OE+ camplate and factory HD oil pump (requires use of washers with ARP® oil pump bolts)
2401-0127	For 99-17 Twin Cam engines w/ Feuling HP+ or Race Series camplates and oil pumps
2401-0953	For 99-17 Twin Cam engines w/ Feuling OE+ camplates and oil pumps

[1] Not for use with OE+ camplates/oil pumps.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING RACE SERIES

RACE SERIES® OIL PUMPS FOR M-EIGHT

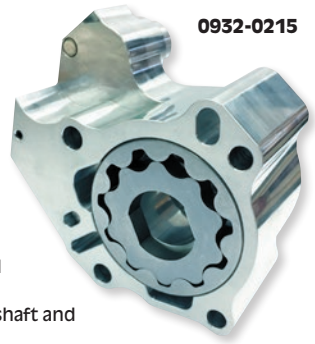
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Eliminate common pressure and scavenge issues associated with the factory oiling system
- Precision-machined pressure relief valve and bore
- Each oil pump is bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop off at 55-60 psi
- Requires use of the Feuling® High Flow camplate, the combo increases oil flow in and out of the engine with corrected tolerances, oil passages and larger geroter gears
- Reduces engine and oil temperatures, increase oil pressure volume and scavenge volume on the return side to reduce build up of oil in the crankcase
- High flow 2,250" Chrome Moly gerotor gears
- Increased and optimized passages, port holes and galleys requiring them to be matched up to a Feuling® High Flow camplate PART #0932-0192
- 42% more scavenge volume with matched passages, port sizing and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing
- Magnets to help protect gears and pressure relief valve

PART #	DESCRIPTION
0932-0196	For 17-20 M-Eight oil-cooled motors

0932-0216

- Testing shows increased HP and torque to the rear wheel
- M-Eight Twin-Cooled™ motors has 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight oil-cooled motors has 27% more pressure and scavenge gear volume over stock
- Billet 7075 aluminum with red anodize, this material holds tighter tolerance under temperature, is 50% harder and stronger than 6061 aluminum
- Feature increased scavenge side kidney port volume over HP+® oil pumps
- Increases oil pressure and scavenge volume
- Cooler oil and engine temperatures

NOTE: Must be matched to a Feuling® High Flow camplate PART #0932-0192.



PART #	DESCRIPTION
0932-0216	For 17-20 M-Eight Twin-Cooled™ motors

FEULING HORSEPOWER PLUS

HP+® HIGH VOLUME OIL PUMPS FOR M-EIGHT

- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps are essential for proper oiling system function
- Eliminate common pressure and scavenge issues associated with the factory oiling system
- Precision-machined pressure relief valve and bore
- Each oil pump is bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop off at 55-60 psi
- Requires use of the Feuling® High Flow camplate, the combo increases oil flow in and out of the engine with corrected tolerances, oil passages and larger geroter gears
- Reduces engine and oil temperatures, increase oil pressure volume and scavenge volume on the return side to reduce build up of oil in the crankcase
- High flow 2,250" Chrome Moly gerotor gears
- Increased and optimized passages, port holes and galleys requiring them to be matched up to a Feuling® High Flow camplate PART #0932-0192

PART #	DESCRIPTION
0932-0195	For 17-20 M-Eight oil-cooled motors

0932-0215

- 42% more scavenge volume with matched passages, port sizing and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing
- Magnets to help protect gears and pressure relief valve
- Testing shows increased HP and torque to the rear wheel
- M-Eight Twin-Cooled™ motors have 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight oil-cooled motors have 27% more pressure and scavenge gear volume over stock
- Billet 6061 aluminum with natural finish
- Increases oil pressure and scavenge volume
- Cooler oil and engine temperatures

NOTE: Must be matched to a Feuling® High Flow camplate PART #0932-0192.

PART #	DESCRIPTION
0932-0215	For 17-20 M-Eight Twin-Cooled™ motors

PROVEN S&S PERFORMANCE

OIL PUMPS FOR M-EIGHT

- PART # 0932-0267 features 20% flow increase on supply side and 52% flow increase on scavenge
- PART # 0932-0266 features 44% increase on the supply side and 58% flow increase on scavenge
- Pumps are made from precision-machined billet aluminum
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in the cam chest helps prevent debris from entering the pump
- Increased flow capacity on both feed and scavenge side

PART #	DESCRIPTION
0932-0266	For 17-20 M-Eight water-cooled Touring models

0932-0266

- Adjustable pressure relief valve can be adjusted with unit in engine
- Blue anodized finish
- Optional S&S camplate PART #0932-0268 available separately

PART #	DESCRIPTION
0932-0267	For 17-20 M-Eight oil-cooled models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

FEULING

FEULING RACE SERIES

RACE SERIES® OIL PUMPS FOR TWIN CAM

- 7075 billet aluminum with military spec hard anodized, blueprinted and designed for the racer
- The 7075 alloy is 50% harder and stronger than 6061 aluminum and holds tighter tolerance under temperature
- More pressure volume and more oil pressure
- More scavenge volume eliminating power robbing wet sumping, blowby and oily air cleaners
- PART #0932-0026 has 20%+ more pressure and 30%+ more return volume
- PART #0932-0020 has 40% more pressure and 60% more return volume
- Cooler oil and engine temperatures
- More horsepower, more torque, more oil pressure, more return volume
- High Flow 2" Chrome Moly gerotor gears

PART #	DESCRIPTION
0932-0026	For 07-17 Twin Cam and 06 Dyna Glide models

0932-0026

- When combined with the Feuling High Flow camplate, test results show 3 horsepower gain and 4 ft./lb. of torque gain to the rear wheel
- Stock replacement for Twin Cam engines, recommended for both strip and performance street engines

NOTE: Must be matched with a Feuling High Flow camplate.

PART #	DESCRIPTION
0932-0020	For 99-06 Twin Cam models (except 06 Dyna Glide)

FEULING ORIGINAL EQUIPMENT+

OE+ OIL PUMPS FOR TWIN CAM

- OE+ stock replacement billet oil pumps deliver increased oil pressure and return scavenge volumes over the factory oil pumps
- PART #0932-0090: offers 10% more pressure volume over stock 16% more scavenge volume over stock
- PART #0932-0089: offers 18% more pressure volume over stock 38% more scavenge volume over stock
- Upgraded alternative to stock components
- Designed and manufactured to the highest standard of quality with proven Feuling performance
- Billet 6061 aluminum construction
- Increases oil pressure
- 2" Chrome Moly gerotor gears

PART #	DESCRIPTION
0932-0090	For 06 Dyna and 07-17 Twin Cam models

0932-0090

PART #	DESCRIPTION
0932-0089	For 99-06 Twin Cam models (except 06 Dyna)

FEULING HORSEPOWER PLUS

HP+® HIGH VOLUME OIL PUMPS FOR TWIN CAM

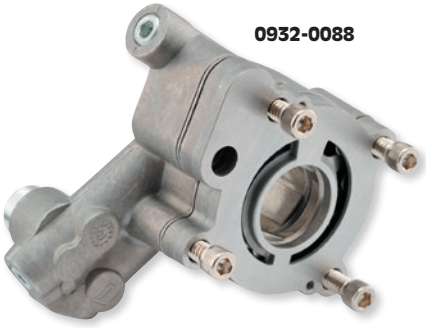
- Eliminates blowby and wet sumping
- No more oily air cleaners
- High Flow 2" Chrome Moly gerotor gears
- PART #0932-0023 generates 32% more pressure volume over stock, 16%+ more than SE. 38% more scavenge volume over stock and 9%+ more than SE
- PART #0932-0018 generates 40% more pressure volume over stock 60% more scavenge volume over stock
- Cooler oil and engine temperatures
- More horsepower and torque to the rear wheel
- Stock replacement
- Feuling design, tolerances and materials
- Billet 6061 aluminum

NOTE: Recommended for use with Feuling® cam support plate; see page 683.

PART #	DESCRIPTION
0932-0023	For all 07-17 Twin Cam and 06 Dyna models

0932-0023

PART #	DESCRIPTION
0932-0018	For 99-06 Twin Cam (except 06 Dyna)



DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0932-0236

0932-0088

0932-0219

DRAG Specialties

HIGH-PERFORMANCE OIL PUMPS

- Helps to reduce oil carryover during high-rpm operation; higher volume helps reduce engine and oil temperatures
- 53 mm diameter rotors for maximum performance
- Gain of 20% oil pressure, 125% pressure volume and 135% scavenge volume over OEM stock TC88 oil pumps
- Gain of 16% oil pressure, 66% pressure volume and 100% scavenge volume over OEM stock TC96/103 oil pumps
- High-quality die-cast aluminum body construction, high-strength steel gear construction
- Fits both stock and aftermarket cam support plates for seamless installation

NOTE: Does not fit Screamin' Eagle cam plate.

0932-0221

PART #	DESCRIPTION
0932-0236	For 17-20 M-Eight Twin-Cooled™motors
0932-0088	For 07-17 Twin Cam and 06 Dyna models
0932-0087	For all 99-06 Twin Cam (except 06 Dyna models)

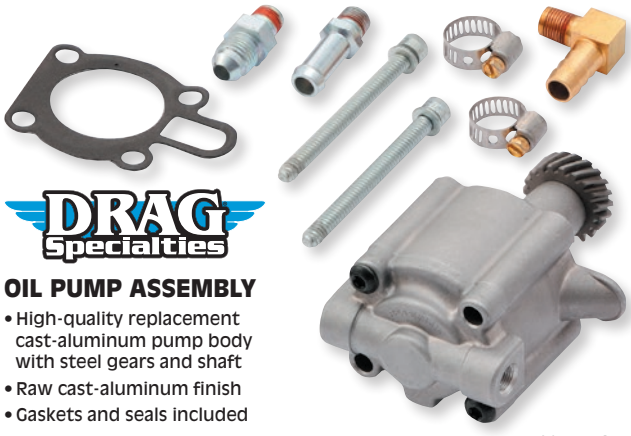
PART #	DESCRIPTION
REPLACEMENT COMPONENTS	
0932-0219	Gerotor scavenge for Twin Cam 88" and 96" applications
0932-0220	Gerotor feed for Twin Cam 88" and 96" applications
0932-0221	Partition plate and O-ring set for 88" Twin Cam applications
0932-0222	Partition plate and O-ring set for 96" Twin Cam applications

PROVEN S&S PERFORMANCE

TC3 OIL PUMPS

- Three stages for consistent pressure and reliable scavenging
- Separate scavenge sections for flywheel cavity and cam chest (no interface)
- Screens and magnetic traps help protect the scavenge rotors from debris
- Special design allows S&S pumps to tolerate more pinion shaft run-out without damage
- Oil pump replacement parts sold separately

NOTE: S&S oil pumps for 99-06 are not compatible with S&S cam support plates for 99-06 engines. All S&S cam support plates are machined for 07 and later-style oil pumps.



0932-0106

OIL PUMPS	
PART #	**DESCRIPTION**
0932-0106[1]	For 07-17 Twin Cam and 06 Dyna models
0932-0107	For 99-06 Twin Cam models (except 06 Dyna and 00-02 Softail models)

[1] Will not fit 00-02 Softails when used with a TC3 cam plate.

REPLACEMENT PARTS	
PART #	**DESCRIPTION**
0932-0208	Divider plate
0932-0209	Debris screen
0932-0210	Oil pump return plug
0932-0207	Oil pump valve pressure relief kit
0932-0211	Oil pump rotor set, flywheel cavity return
0932-0212	Oil pump rotor set, cam chest cavity return
0935-1014	O-ring, 1,5 mm x 14 mm Viton® (5-pk.)
1050-0443	O-ring 1,375" x 1,625" Viton® (-220) (ea.)
0935-1015	O-ring kit
0950-0892	Dowel pin, 0,125" x 0,750" hardened steel (5-pk.)
0950-0895	Internal retaining ring, 17 mm
0950-0896	Internal retaining ring, 0,625"
2401-1048	Screw kit, oil pump, 99-19 Big Twin (1/4" x 20 x 2" SHCS w/ washers)

DRAG Specialties

OIL PUMP ASSEMBLY

- High-quality replacement cast-aluminum pump body with steel gears and shaft
- Raw cast-aluminum finish
- Gaskets and seals included

PART #	DESCRIPTION
0932-0189	For 91-20 XL

FEULING

OIL PUMP REBUILD KITS

- Include everything needed to rebuild Feuling® HP+® and Race Series oil pumps
- Kit comes with new O-rings, separator plate and installation instructions

0932-0019

CAM NEEDLE BEARING ASSEMBLY

- OE-quality replacement part
- Sold in 2-pack

PART #	DESCRIPTION
0924-0395	For 07-17 Twin Cam (2-pack); repl. OEM #9215

CAM BEARINGS

- Superior quality OE replacement bearings
- Sold each

0924-0389

0950-0902

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0924-0389	Inner needle bearing; repl. OEM# 9215
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0924-0387	Inner needle bearing; repl. OEM# 9198
0950-0902	Outer ball bearing; repl. OEM #8990A

CAM BEARINGS

- Outer camshaft/cam plate bearings are single-row deep groove bearings manufactured by Timken® Fafnir® and are a necessity where tough applications and conditions apply
- Inner cam bearings are heavy-duty full-complement style designed to accept the higher loads and demands of performance engines
- Manufactured by Koyo® Torrington®
- PART #0925-1156 is sold each
- All others sold in pairs

0925-1156

0924-0239

PART #	DESCRIPTION
FOR 17-20 M-EIGHT	
0925-1156	Inner needle bearing; repl. OEM #9215
FOR 07-17 TWIN CAM AND 06 DYNA	
0924-0240	Inner needle bearings; repl. OEM #9215
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0924-0238	Outer ball bearings; repl. OEM #8990A
0924-0239	Inner needle bearings; repl. OEM #9198

0924-0277

0924-0238

OUTER CAM BEARING KIT

- PART #0924-0277 is a kit; includes one ball bearing front cam bearing and one roller bearing rear cam bearing with race (replaces OEM #s 8983 and 8990A)
- PART #0924-0238 is outer ball bearings only for gear-drive cams
- Ball bearing style bearings are Timken®

PART #	DESCRIPTION
FOR 99-06 TWIN CAM MODELS (EXCEPT 06 DYNA)	
0924-0277	Outer cam bearing kit for models w/ chain drive
0924-0238	Outer cam ball bearings only (gear drive cams only); repl. OEM #8990A

INNER CAM BEARING

- OEM-quality replacement component
- Sold each

PART #	DESCRIPTION
0924-0262	For 86-90 XL; repl. OEM #9057

CAM BEARING

- Left side bearing with inner race
- Sold individually

PART #	DESCRIPTION
0924-0588	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #8990A

0925-0046

CAM BEARING PLATE

- Heavy-duty steel cam bearing plate is recommended for use with all gear-drive cams and is included in S&S complete gear drive cam kits

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA GLIDE)	
0925-0046	Cam bearing plate
0921-0810	Cam plate dowel (pr.); repl. OEM #16589-99A

BEARING RETAINER PLATE

- Cam bearing retainer plate and hardware
- Recommended for use with all Twin Cam model cam plates

PART #	DESCRIPTION
0925-0437	For all 99-06 Twin Cam motors (except 06 Dyna Glide and Screamin' Eagle support plates)

BLOCK-OFF PLATE KIT

- Block-off hydraulic chain tensioner holes when using gear-driven cams

PART #	DESCRIPTION
0932-0036	For 17-20 M-Eight, 07-17 Twin Cam and 06 Dyna cam plates

CAMPLATE CHAIN TENSIONER PINS

- Made from heat-treated chromoly steel
- Ensure proper press fit when changing Twin Cam chain drive cam plates or replacing chain drive tensioners
- Use with retaining ring PART #DS-188016

PART #	DESCRIPTION
0925-0439	For all 99-06 Twin Cam chain drive cam plates (except 06 Dyna)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

HYDRAULIC TENSIONER BLOCK-OFF PLATE KIT

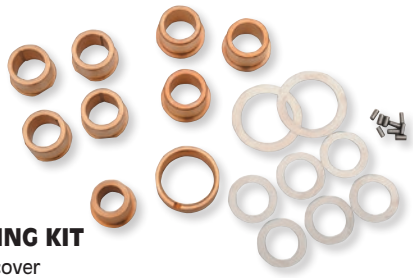
- Block off the hydraulic cam chain tensioner holes when using gear-driven cams

PART #	DESCRIPTION
0950-0891	For 17-20 M-Eight, 07-17 Twin Cam and 06 Dyna Glide

CAM COVER BUSHING

- Bushings are made from solid bronze bar stock
- Machined in one operation with a tolerance of 0,0002"
- Features a lead-in for ease of installation
- Sold each

PART #	DESCRIPTION
DS-197070	For 86-09 XL (0,9405" OD); repl. OEM #25586-37



0921-0528 DS-194171

CAM SUPPORT PLATE/COVER BUSHINGS

- High-quality OEM components
- Sold each

PART #	DESCRIPTION
0921-0528	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #25344-99
DS-194171	For 86-06 XL (#s 1, 3, 4); 45" (#4); repl. OEM #25586-37
DS-194174	For 86-90 XL (#2); repl. OEM #25588-57

CAM CHEST BUSHING KIT

- Properly re-bush cam cover
- Includes OE part numbers: (9) 275, (6) 6769 (0,007" thick), (1) 6773 (0,005" thick), (1) 6775 (0,010" thick), (3) 25586-37, (1) 25588-91, (1) 25593-74, (4) 25598-91

PART #	DESCRIPTION
0925-1168	For 91-20 XL

CAM BUSHING KIT

- Kit includes all cam and gear shaft bushings/bearings, along with lock pins and shims

PART #	DESCRIPTION
DS-194199	For 86-90 XL

CAM GEAR THRUST PLATES

- Sold in pairs

PART #	DESCRIPTION
0925-0290	For 86-90 XL; repl. OEM #25551-58

DOWEL PINS

- Used in crankcase and motor for transmission case applications
- Sold in 10-pack

PART #	DESCRIPTION
0920-0067	For 99-17 Twin Cam; repl. OEM #16574-99A

CRANKCASE BREATHER VALVE

- Solves the problem of oil carryover in Twin Cam "A" motors with stock oil pump
- Oil carryover is oil that comes out of your breather and all over your bike
- Easy to install when changing cams or servicing the oil pump

NOTE: Not for use with Feuling oil pumps.

PART #	DESCRIPTION
0920-0136	For 03-06 Twin Cam "A" motor

BREATHER GEAR SHIM

- Steel shim
- Sold each

PART #	DESCRIPTION
0925-0919	0,120"

PINION GEARS

- High-quality pinion gears are carefully machined, heat-treated and then finish-ground
- Available in various sizes
- Sold each

0921-0005

PART #	COLOR	OEM #
FOR 91-99 XL		
0921-0001	Blue	24057-91
0921-0002	Red	24057-91

GOLAN PRODUCTS, INC.

BLOW-BY OIL COLLECTORS

2110-6731

1012-0238

- Designed to collect head or crankcase blow-by
- Made from chrome-plated CNC-machined aluminum
- Measures 54 mm L x 33 mm diameter ($2^{1}/_{8}$" x $1^{5}/_{16}$")

U.S. Patent #s 5.972.213/399.299.

PART #	DESCRIPTION
2110-6731	Chrome

PART #	DESCRIPTION
1012-0238	Black

Hayden ENTERPRISES

KRANK VENT PLUS

- Installs on your crankcase breather hose
- Controls the air under the pistons by maintaining the proper amount of vacuum in the crankcase at any rpm
- Better seal is achieved due to an increased pressure differential across the compression ring
- Designed to give a 2-7 horsepower increase, with a deeper motor sound
- Comes apart for easy cleaning

PART #	DESCRIPTION
DS-289525	Krank Vent Plus

K&N

CRANKCASE VENT FILTERS

KN62-110

1011-1523

- Features a steel or rubber base, one-piece design and chrome top (unless noted)
- Measures 2" in diameter, and $1^{1}/_{2}$" H; comes with or without a mounting stud

STEEL BASE	RUBBER BASE	DESCRIPTION
-	1011-1521	$^{3}/_{8}$" vent filter, chrome w/ stud
62-1000	-	$^{3}/_{8}$" vent filter, chrome w/o stud (K&N embossed black rubber top)
KN62-110	1011-1522	$^{1}/_{2}$" vent filter, chrome w/ stud
0920-0159	-	$^{1}/_{2}$" vent filter, chrome w/o stud (K&N embossed black rubber top)

STEEL BASE	RUBBER BASE	DESCRIPTION
KN62-111	1011-1523	$^{5}/_{8}$" vent filter, chrome w/ stud
-	1011-1524	$^{3}/_{4}$" vent filter, chrome w/ stud
-	1011-1529	$^{5}/_{16}$" vent filter, chrome w/ stud
-	1011-1530	$^{9}/_{16}$" vent filter, chrome w/ stud
-	1011-1525	1" vent filter, chrome w/ stud

EMGO

CRANKCASE VENT FILTERS

14-20900

14-20905

14-20910

- High-quality crankcase breathers and filters from Emgo
- Crankcase breather filter kit PART #14-20900 features one-piece, chrome-top filter, hose clamp and die-cast mounting base; accepts $^{3}/_{8}$" ID hose
- Replacement filter with chrome die-cast cap PART #14-20905 is for use only with PART #14-20900 (crankcase breather filter kit)
- Black rubber-top crankcase breather PART #14-20910 can be clamped directly to $^{3}/_{8}$" ID hose

PART #	DESCRIPTION
14-20900	Chrome crankcase vent filter assembly
14-20905	Repl. chrome-top filter for use w/ PART #14-20900 only

PART #	DESCRIPTION
14-20910	Rubber-top crankcase vent filter

DRAG Specialties

CRANKCASE VENT FILTER

DS-289515

DS-289516

DS289519

DS-289517

DS-289073

- One-piece crankcase filter assembly comes complete with filter clamp and a chrome, die-cast mounting base and accepts a $^{3}/_{8}$" ID hose
- Replacement filters available; all sold each

PART #	DESCRIPTION
DS-289515	Chrome crankcase vent filter assembly
DS-289516	Repl. filter w/ chrome top
DS289519	Button head bolt filter

PART #	DESCRIPTION
DS-289517	Rubber top filter
DS-289073	Dual inlet filter

DRAG Specialties

MINI CRANKCASE VENT FILTER

- Features chrome end caps with washable filter
- Measures 1,5" in diameter and 1,6" in height
- Has a $^{1}/_{4}$" mounting tab and accepts a $^{3}/_{8}$" ID hose

PART #	DESCRIPTION
2110-0322	Chrome mini vent filter

Colony Where Excellence Is a Standard

CRANKCASE OIL SCREEN AND SPRING

- Tappet screen and spring

PART #	DESCRIPTION
2401-1124	For 00-20 Softail models; OEM# 24983-00, 11301

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2021.

JIMS Performance Parts for Harley-Davidson Motorcycles

M-EIGHT OIL PUMP ALIGNMENT TOOL

- Designed to aid in assembly of a complete cam chest correctly, in a quick and efficient manner
- Can be used by a technician to assemble as individual components with supplied studs or as an assembly with the alignment dowel, saving time and money

PART #	DESCRIPTION
3801-0398	For all M-Eight engines

Eastern MC Parts

OIL SCREENS

- Sold in packs of five

PART #	DESCRIPTION
0950-0224	For 01-17 Twin Cam; repl. OEM #24983-00

S&S Proven Performance

OIL PUMP PRESSURE RELIEF VALVE

- Standard relief valve for S&S billet oil pumps
- Sold each

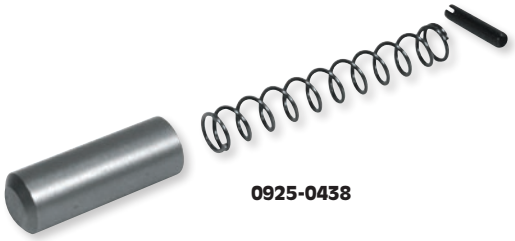
PART #	DESCRIPTION
0932-0265	Relief valve; repl OEM # 26400-82, 26400-82B

Eastern MC Parts

OIL PUMP RELIEF VALVE SPRING

- Sold in 10-pack

PART #	DESCRIPTION
0950-0232	For 17-20 M-Eight, 99-17 Twin Cam; repl. OEM #26210-99



PINGEL Since 1967

TWIN CAM OIL PUMP SCREENS

- Designed to protect the oil pump and cam plate from debris off the chain tensioners or other particles that may come loose in a Twin Cam engine
- Great to put in when doing a cam bearing job
- Keeps cam bearing rollers from dropping into the center section of your engine, which could ruin the oil pump and cam plate
- Does not restrict oil flow – in testing the engine returned the same amount of oil back to the oil tank in an allotted amount of time; the screens de-aerate the oil more, which drops oil temperature 5-10 °F
- Use with OEM oil pump
- Easy to install and clean

PART #	DESCRIPTION
0932-0073	For 99-17 Twin Cam models

0925-0438

FEULING

PRESSURE RELIEF KIT, SPRINGS AND PLUNGER

- Increases pressure relief valve pop-off psi
- Kit includes valve plunger, spring and roll pin
- Spring alone provides proper spring rate to control pop-off pressure and oil flow in bypass port
- Pressure relief valve plunger fits all Twin Cam cam plates including factory, Screamin' Eagle, Feuling® and others (will also work with M-Eight oil pumps)
- Bench testing recommended with cam plate pressure test tool PART #3801-0071 to ensure proper valve seal and valve operation
- PART #0925-0300 is sold to consumer as each

PART #	DESCRIPTION
FOR 17-20 M-EIGHT ENGINE USING FACTORY OR FUELING OIL PUMPS	
0932-0232	Pressure relief spring only (ea.); repl. OEM #26210-99
0932-0233	Pressure relief spring only (6-pk.); repl. OEM #26210-99
0932-0086	Pressure relief valve plunger
FOR 99-17 TWIN CAM ENGINE CAMPLATES	
0925-0438	Pressure relief kit; repl. OEM #s 26400-82B, 26210-99
0925-0300	Pressure relief spring only (6-pk.)(ea.); repl. OEM #26210-99
0932-0086	Pressure relief valve plunger

Eastern MC Parts

Genuine James Gaskets

OIL PUMP REPAIR KITS

- Comes with new components that allow you to totally rebuild/rebush most Big Twin and XL oil pumps
- Gasket/seal kits are available to complete the job

DS-194202

PART #	DESCRIPTION	MFG.
DS-194202	Gasket/bushing kit for 86-90 XL	Eastern MC Parts
0934-1637	Gasket/seal kit for 91-03 XL (w/ DL-style gasket)	James Gasket
DS-174531	Gasket/seal kit for 91-03 XL	James Gasket

ENGINE EQUATOR II

- Allows all Dresser riders to correct chassis misalignment, which is impossible to achieve with the stock motor mount
- Billet aluminum bracket replaces the forged front engine bracket
- Equipped with slots for the engine bolts and a series of hash marks, the motor is now able to move right or left in the frame and achieve perfect power train alignment
- Adjustable stabilizing link has been added to the bracket that attaches to a convenient frame lug

PART #	DESCRIPTION
0933-0121	For 09-16 FLHT/FLHX/FLHR/FLTR/FLHRC/FLHXSE 2, 3 /FLTRSE3/FLTRX and FLTRXSE

0933-0112

TOP STABILIZER LINKS

- Reduces engine vibration and aligns power train
- Adjustable rubber-isolated design
- Greatly reduces vibration especially at high speeds
- Replaces stock link which is metal-to-metal from top motor mount

PART #	DESCRIPTION
0933-0136	For 04-17 Dyna Glide

PART #	DESCRIPTION
0933-0112	For 99-03 Dyna Glide

ADJUSTABLE FRONT ENGINE BRACKET

- Replace stock front engine bracket with custom slotted bracket with alignment lines
- Allows the rider to dial-in the engine to perfect alignment
- Slides the engine left or right using the same alignment principals as FXR or early FLT models
- Hash marks at 0,05" intervals
- Includes black anodized aluminum bracket, two $^{3}/_{8}$-16 x $2^{1}/_{4}$ hex bolts and two $^{3}/_{8}$-16 nyloc nuts

PART #	DESCRIPTION
0933-0105	For 99-17 Dyna Glide; repl. OEM #s 47226-90A, 47226-93, 47226-99

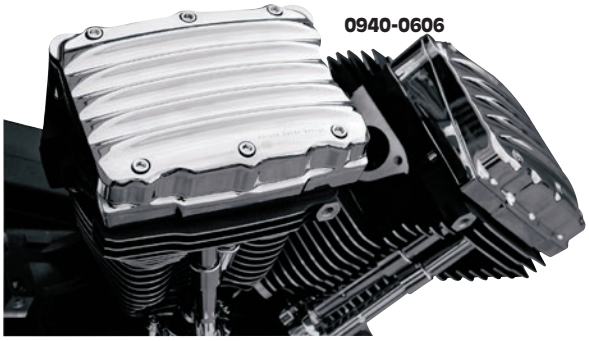
EVO FINNED ROCKER COVERS

- Original Randy Smith design
- Top covers only
- Feature a guaranteed fit and are compatible with the very latest breather system (early breathers too)
- Include adequate clearance for all factory frames
- Domestic aircraft-grade billet aluminum alloy, fully machined and polished
- Are not subject to the warpage and oil seepage that die-cast imported copies are
- The undersides of the covers have been machined for additional clearance which will accommodate virtually any high-lift cam
- Polished stainless button-head Allen screws and washers are also included
- Sold in pairs

PART #	DESCRIPTION
0940-0983	For 86-03 XL models



CLARITY ROCKER BOX COVERS

CLARITY CAM COVERS

- Allows for viewing of the internal moving engine components
- CNC-machined from billet aluminum
- PART #s 0940-1128, 0940-1129, 0940-1130 have a thinner design with smaller windows for additional exhaust clearance; will fit 02-16 Twin Cam models where this is needed
- Hardware included
- Matching Clarity air cleaner and derby cover available

The RSD Clarity Cam Covers contain two pre-installed Lexan® polycarbonate windows. These windows are very resistant to almost everything a motorcycle will be exposed to. However, extra care and preparation must be taken when installing the cam cover near the exhaust system. The Lexan® polycarbonate windows must be at least 8 mm (5/16") away from the exhaust pipe to ensure the temperature does not exceed the capabilities of the Lexan®. Additional clearance is recommended to preserve the optical clarity of the Lexan® window as well as reducing the amount of heat introduced to the engine from the exhaust. Take measurements when installing the exhaust system and make sure that the exhaust NEVER contacts the Lexan® windows, bolts or the aluminum cam cover. Lexan® is very durable but it must be treated just like any plastic and cannot come into contact with the exhaust pipes. The Lexan® windows, just like any plastic, will melt if in direct contact with the exhaust pipe. If the Lexan® windows have less than adequate clearance premature discoloration, cracking or melting may occur causing severe failure and/or possible injury to the rider. RSD recommends the use of "high pipes" or exhaust that runs above the cam cover which eliminates any potential exhaust contact.

TECHNICAL GUIDELINES FOR CLARITY CAM COVER:

1. There must be at least 8 mm (5/16") between the exhaust and the Lexan® windows, bolts and cover.
2. Absolutely no contact between the Lexan® windows, bolts or aluminum cam cover.
3. Do not use brake cleaner, acetone or any harsh chemicals during installation.
4. Use Plexus cleaner for cleaning. If any other cleaners are used, read the label to verify compatibility with Lexan®.

CAM COVER CONVERSION KIT FOR TWIN CAM MOTORS

- Converts Twin Cam ignitions to earlier Evolution-style electronic ignition
- Can be used with any aftermarket ignition/rotor cup system
- Great when building a custom bike with a kickstart transmission, a Twin Cam engine and gear-driven cams – the stock ignition is not kickstart compatible
- Allows the use of aftermarket Evolution wiring harnesses
- Made from 6061-T6 billet aluminum with a polished finish
- Kit includes cam cover, special bolt, cam cover end adapter and seal

NOTE: Not for use on fuel-injected models.

PART #	DESCRIPTION
0940-0863	For 99-06 Twin Cam engines w/ gear-driven cams

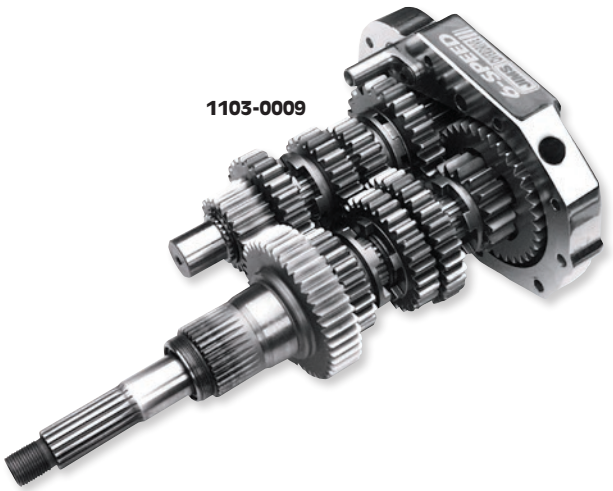
PREMIUM DRIVETRAIN INNOVATIONS FOR AMERICAN MOTORCYCLES

DD7

7-SPEED TRANSMISSION GEAR SET

1103-0013



- Direct replacement of the Cruise Drive Harley-Davidson factory 6-speed
- The 7th gear enables the motorcycle to make full use, by way of gear ratio management, of the torque and power put out by the 96 ci, 103 ci and 110 ci motors
- Unlike the stock mainshaft which includes 1st through 4th gears, the DD7 is lightweight and only includes the small 1st gear, minimizing the shift clunk
- Features a shortened 1st gear and tightened all other gears for a smooth and powerful riding experience with continuous acceleration from 1st to 4th gear
- Shift smoothness is achieved by use of a new linear roller ball detent which is part of the supplied billet top cover
- Comes ready to slide in the bike; no case modifications, shimming of the gear set or adjustments required
- 7th main drive gear, main drive gear bearing, main drive seal are all included to replace 6th main
- ARP 12pt bolts for door, top cover, stock side cover, Baker re-cal box and leads all included
- Reuses stock shifter pawl
- Includes new main drive gear bearing and seal, chrome door, door gasket, side cover gasket, top cover gasket and self-adhesive DD7 side cover emblem
- Utilizes F6F door bearing retainer plate
- DD7 door bearings are 28% wider than stock

PART #	DESCRIPTION
1103-0013	For 07-16 FLHT/FLHR/FLHX/FLTR, 07-17 FXST/FLST, 06-17 FXD/FXDWG

JIMS
A DIVISION OF THIESSEN PRODUCTS INC.
Performance Parts for Harley-Davidson Motorcycles

6-SPEED OVERDRIVE SUPER KITS

- Designed to turn stock 5-speed transmission into a 6-speed
- Reduces vibration that creates wear
- Creates a more relaxing cruising speed
- All gear sets use 2,94:1 close-ratio 1st gear that widens bike's speed range in 1st gear and lessens the rpm drop when shifting into second
- Overdrive 6th gear (0,86:1 ratio) lowers engine rpm by almost 475 at 75 mph

NOTE: Requires speedometer sensor block-off plate kit (PART #2404-0114; see DASHES & GAUGES section); if speedometer is not driven from transmission, then two block-off plates kits are required.

NOTE: Requires speedometer be recalibrated.

NOTE: Trap door extends 3/8" farther to right than stock part. Alteration to some parts that attach to or around the trap door may be required.

NOTE: When installing in 02-06 FLHT/FLHR/FLTR/FLHX transmission case, you will need an oil filler spout spacer (PART #DS-196233; see ELECTRICAL section) for clearance transmission to motor vent line.

PART #	DESCRIPTION
1103-0009	For 01-06 FLHT/FLHR/FLTR/FLHX, 02-06 FXST/FLST, 01-05 FXD/FXDWG
1103-0008	For 00 FLHT/FLHR/FLTR, 00 FXST/FLST, 99-00 FXD/FXDWG

All part numbers in BLUE are new for 2021.

BAKER DRIVETRAIN
PREMIUM DRIVETRAIN INNOVATIONS FOR AMERICAN MOTORCYCLES

DD6 DIRECT DRIVE 6-SPEED

DIRECT DRIVE 6-SPEED GEAR SET KITS

- Fits into existing 5-speed cases; lower the rpm at cruising speeds
- Includes a 6-speed gear set (3,24:1 1st gear/0,86:1 6th gear), 28-tooth motor sprocket, longer primary chain, fixed spindle-shift drum and anti-overshift ratchet shift pawl assembly
- All gears are full-width Baker ground gears; 4th, 5th and 6th gears are helical for silent operation
- Includes easy-to-follow instructions
- Replacement primary shoe available separately; designed for use with tensioner bracket OEM #39990-01

PART #	DESCRIPTION
FOR FLT/FLHT/FLHS/FLHR/FLTR/FXR	
1103-0006	01-06 models
1103-0004	99-00 models

PART #	DESCRIPTION

1103-0005	00-06 models
FOR FXD/FXDWG	
1103-0005	01-05 models

PART #	DESCRIPTION
REPLACEMENT PRIMARY SHOE	
1120-0220	"Fat Shoe" repl. primary shoe

RESULTANT RPM CHANGE BETWEEN STANDARD FIFTH GEAR AND BAKER SIXTH GEAR (FIFTH GEAR RATIO IN A 5-SPEED IS THE SAME AS FIFTH GEAR IN THE 6-SPEED OVERDRIVE (1:1) AND BAKER DD6)

MPH	RPM IN 5TH GEAR (1:1 RATIO)	RPM IN 6TH GEAR (0,86:1 RATIO)	RPM REDUCTION (0,86:1 RATIO)	RPM IN 6TH (DD6)	RPM REDUCTION (DD6)
65	2945	2533	412	2528	417
70	3172	2728	444	2723	440
75	3398	2923	475	2917	481
80	3625	3118	507	3112	513

The gear ratio (3.24 1st/0.86 6th) is only applicable if the included 28 tooth sprocket is used. Otherwise the gear ratio is 3.77 in 1st gear and 1.00 in 6th gear.

OD6 OVER DRIVE SIX SPEED

OVERDRIVE 6-SPEED GEAR SET KITS FOR TWIN CAM

- Includes all gears, mainshaft, countershaft, shifter drum, detent components, bearings, snap rings, gaskets and hardware
- Significantly smoother shifting than stock due to a roller detent shift drum with reduced inertia and gear dog teeth with lead-in ramping
- Gear ratio of 2,94 or 3,24 1st gear and 0,86 6th gear available
- Fits into stock and most aftermarket 5-speed transmission cases

NOTE: Exhaust bracket may require modification when using these kits.

80	3625	3118	507

All part numbers in BLUE are new for 2021.

JIMS
Performance Parts For Harley-Davidson® Motorcycles

FAT 5™ 5-SPEED OVERDRIVE SUPER KITS

- Gear cluster is installed into a unique chrome trap door
- Designed to slip into stock transmission case
- 0,886:1 "overdrive" 5th gear
- Compact shifter technology increases width and strength of every gear
- Width increase varies from 18% to 53% depending upon the loads each gear set must carry

NOTE: Modifications to exhaust bracket may be necessary.

NOTE: Oil filler spout spacer (PART #DS-196233; see ELECTRICAL section) may be required on 02-06 FL models.

PART #	DESCRIPTION
1103-0011	For 02-06 FLHT/FLHR/FLTR/FLHX, 00-06 FXST/FLST
1103-0010	For 99-00 FLT/FLHT/FLHR/FLTR, 99-00 FXD/FXDWG

5-SPEED CLOSE-RATIO GEAR SET

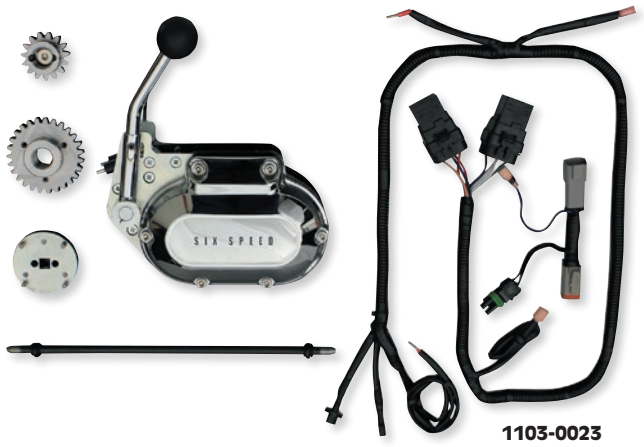
- Gears and shafts are made from steel that exceeds 8620 specifications
- Set includes all gears and shafts required to rebuild one transmission
- Gear ratios: 2,84 first gear, 2,21 second gear, 1,60 third gear, 1,23 fourth gear, 1,00 fifth gear

PART #	DESCRIPTION
DS-325787	For 99-06 Twin Cam (except 06 Dyna Glide)

All part numbers in BLUE are new for 2021.

DS-194507

DS-194509



ANDREWS

5-SPEED GEAR SETS

- Gears are made from high-nickel alloy steel that is heat-treated and shot-peened for maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear
- Sets include gears, mainshaft and countershaft
- For ease of installation, use transmission rebuild kits PART #s DS-325781, DS-325780 and DS-325779
- Available in stock or close ratio

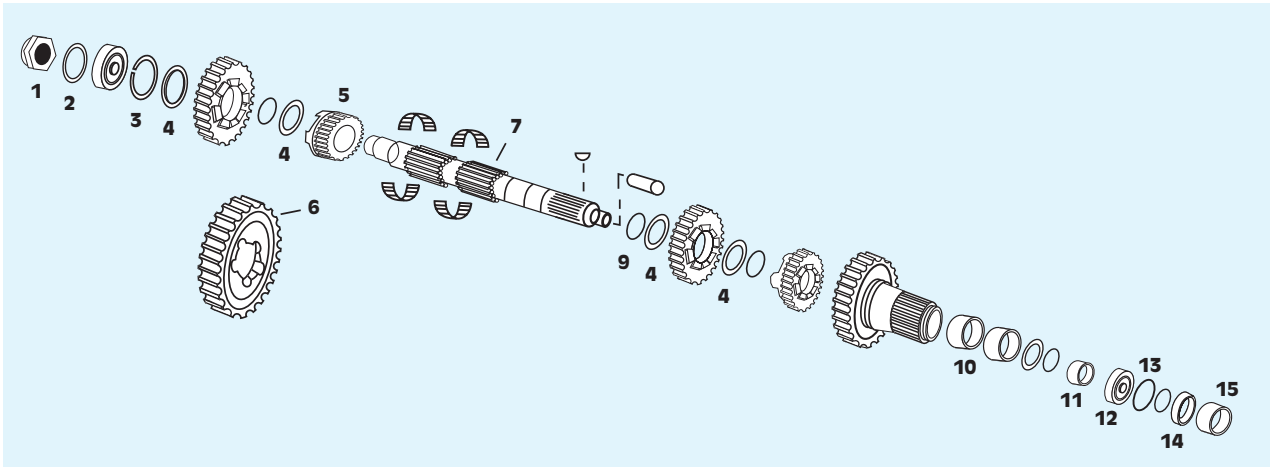
PART #	DESCRIPTION
CLOSE RATIO SETS (2,94:1 FIRST RATIO)	
DS-194507	For 99-06 Twin Cam (except 06 Dyna Glide)
STOCK RATIO SETS (3,24:1 FIRST RATIO)	
DS-194508	For 99-06 Twin Cam (except 06 Dyna Glide)

PART #	DESCRIPTION
STOCK RATIO SETS (3,24:1 FIRST RATIO)	
DS-194509	For 91-03 XL, 94-02 Buell

1103-0023

MOTOR TRIKE INCORPORATED

MECHANICAL REVERSE KITS WITH ELECTRONIC CUT-OFF SWITCH



- Make parking anywhere possible
- Constructed from lightweight aluminum, chromed and zinc-plated
- Equipped with an electronic cut-off switch to protect transmission from operator error
- No exhaust modification needed when used with OEM exhaust
- Do not affect forward gear operations
- Clutch-operated, eliminating any strain on the electrical system
- Plug-and-play harness, all installation tools and instructions included

PART #	DESCRIPTION
1103-0031	For 15-20 FLHT/FLHR/FLHX/FLTRX/FLTRU models w/ hydraulic clutch only
1103-0029	For 14 FLHT/FLHX models w/ hydraulic clutch only
1103-0023	For 09-13 FLHT and Screamin' Eagle 6-speed Original Equipment transmission (hydraulic clutch)
1103-0025	For 09-13 FLHT and Screamin' Eagle 6-speed Original Equipment transmission (standard clutch)
1103-0024	For 07-08 FLHT and Screamin' Eagle 6-speed Original Equipment transmission (hydraulic clutch)
1103-0028[1]	For 07-08 FLHT and Screamin' Eagle 6-speed Original Equipment transmission, 07-13 FXST/FLST, 06-13 Dyna (standard clutch)
1103-0026[1]	For 99 FLT/FLHT, 99-06 Twin Cam/5-speed (standard clutch)

[1] Softail models may require steel-braided oil lines to route around reverse component.

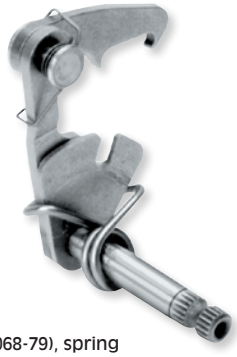
1104-0001



BAKER DRIVETRAIN
PREMIUM DRIVETRAIN INNOVATIONS FOR AMERICAN MOTORCYCLES

TRANSMISSION REBUILD KITS

- All-inclusive kit to allow a full transmission rebuild
- Includes seals, gaskets and all necessary hardware

PART #	DESCRIPTION
1104-0001	For 99-06 FLHR/FLHT/FLTR/FLHX, 00-06 FXST/FLST, 99-00 FXR and Baker Drivetrain OD6/DD6/DD5
1104-0002	For 99-05 FXD/FXDWG and Baker Drivetrain OD6/DD6/DD5

All part numbers in BLUE are new for 2021.

JIMS Performance Parts for Harley-Davidson Motorcycles

5-SPEED SHIFTING ASSEMBLY

- Reduces shifter free play
- Assembly includes plate (replaces OEM #35068-79), spring (#34087-79), pawl plate (#34086-79), shifter shaft (#34084-86), spring (#34083-79), pin (#34082-79), washer (#6016) and retaining ring (#11016)

PART #	DESCRIPTION
DS194066	For 99-00 Twin Cam 5-speed (except 00 Softail)

BAKER DRIVETRAIN
PREMIUM DRIVETRAIN INNOVATIONS FOR AMERICAN MOTORCYCLES

ANTI-OVERSHIFT RATCHET SHIFT PAWL ASSEMBLY

- Features a rectangular cross-section shifter-shaft spring
- Shift-shaft lever splines are hobbed on gear cutter just like Baker gears
- With this setup, there will be smoother shifts and no more broken shifter-shaft springs

PART #	DESCRIPTION
1110-0015	For 99-00 Twin Cam (except 00 Softail)

Eastern MC Parts

SHIFTER LEVER SHAFT

- Meets or exceeds OEM standards
- Sold each

SHIFTER SHAFT ASSEMBLY PINS, SPRINGS AND BUSHINGS

- Top-quality OEM replacement components
- Sold in 10-pack to dealers, unless noted

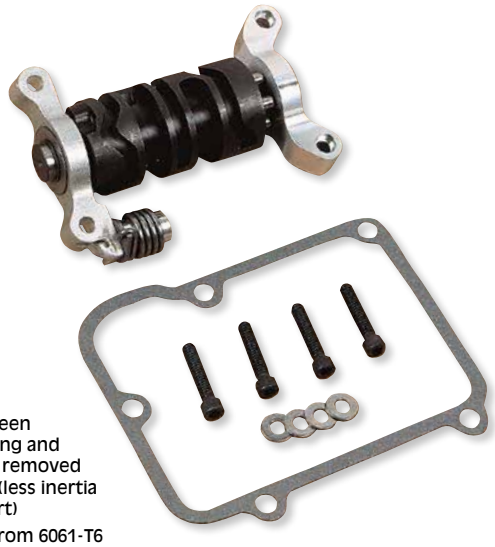
PART #	DESCRIPTION
1106-0050	Pawl spring for 99-01 Twin Cam; repl OEM #34977-00A
1106-0047	Detent arm spring for 99-06 Twin Cam (except 06 Dyna); repl OEM #33374-00
1106-0046	Detent arm spring for 04-05 XL; repl OEM #34483-02
1110-0049	Shifter lever assembly bushing for 04-20 XL (5-pk.); repl. OEM #34076-02A

JIMS Performance Parts for Harley-Davidson Motorcycles

5-SPEED SHIFTER UPGRADE KIT

- Upgrades early-model 5-speed Big Twin with the latest technology
- Includes newly designed shift drum and lever assembly with built-in anti-overshift, late-model pillow blocks, case shifter shaft sleeve bushing, hardware and instructions
- To install shifter sleeve, use PART #3802-0008

PART #	DESCRIPTION
1110-0043	For 99-00 Dyna, 99-00 FLHT/FLHR/FLTR



All part numbers in BLUE are new for 2021.

N1 SHIFTER DRUM

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- Originally developed for drag racers and street racers who used Baker's 6-speed overdrive
- For 5-speed transmissions

PART #	DESCRIPTION
1110-0041	Double pole for 99-06 Twin Cam (except 06 Dyna)

SHIFTER DRUM KIT

- Shifter drum grooves have been designed for smoother shifting and unneeded material has been removed from the barrel of the drum (less inertia translates to lower shift effort)
- Pillow blocks are machined from 6061-T6 extrusion stock for superior strength

PART #	DESCRIPTION
DS194401	For all 99-00 Twin Cam models (except 00 FXST, FLST)

SHIFTER DRUM BEARING

- High-quality OEM replacement
- Sold each

PART #	DESCRIPTION
1110-0051	For 00-06 Twin Cam (except 06 Dyna); repl. OEM #9837

BIG TWIN 5-SPEED SHIFTER FORKS

- Machined from billet steel and then hard chromed
- Cross section is three times thicker than stock forks
- Sold as a set (three shifter forks)

PART #	DESCRIPTION
DS-194173	For 99-06 Big Twin models (except 06 Dyna Glide); repl. OEM #s 34191-79E, 34193-79E and 34195-79E

XL SHIFT FORKS

- 0,035" thick; repl. OEM #33211-80
- 0,040" thick; repl. OEM #33212-80

PART #	DESCRIPTION
1106-0035	For 99-08 Twin Cam

6-SPEED CRUISE DRIVE HEAVY-DUTY TRAP DOOR UPGRADE KIT

- Designed to give transmission positive shifting and shaft center line integrity
- Made to handle today's performance powertrains
- Made from 6061 precision-machined aluminum
- Holds centerlines within 0,0005"
- Incorporates wider, heavy-duty bearings that are retained with beveled retaining rings to eliminate bearing end play
- Shifter shafts are solid, true center line and have rigid strength that replaces the OEM hollow shafts
- Includes trap door with bearings and shifter shafts
- Available in black

PART #	DESCRIPTION
1107-0357	For 07-16 Twin Came and 06 Dyna

TRANSMISSION DOOR BEARINGS

- High-quality replacement OEM components
- Sold each

1106-0092

1106-0070

PART #	DESCRIPTION

ROLAND SANDS DESIGN BLACK OPS

CLARITY TRANSMISSION SIDE COVERS

- Designed as a direct replacement for OEM cable clutch covers
- Allows use of your stock cable-actuated clutch while completing the flow of the Clarity cover line
- The Clarity window allows a view of the internal working components of your clutch actuation components and transmission
- Design matched to the Clarity line of products
- Easy bolt-on installation
- CNC-machined from billet aluminum
- Specialty coating on polycarbonate does not allow oil and grease to adhere
- Proprietary abrasion and UV-resistant film on polycarbonate to protect the surface from yellowing, marring or breakage
- Hardware included

Caution: The Clarity cable clutch cover may interfere with some exhaust systems. When installing, please verify there is an adequate distance of at least 8 mm ($^{5}/_{16}$") between the Clarity window and the exhaust pipe to allow adequate airflow and cooling. Failure to verify the gap distance may result in severe damage to the Clarity window, window discoloration and potential oil leakage.

Disclaimer: Roland Sands Design is not responsible for damage caused by improper installation.

FOR 07-13 FLHT/FLHX/FLTR, 07-16 FLHR, 07-17 SOFTAIL (EXCEPT 16-17 FLSS/FLSTFBS) AND 06-17 DYNA; REPL. OEM #37116-06

BAKER DRIVETRAIN
PREMIUM DRIVETRAIN INNOVATIONS FOR AMERICAN MOTORCYCLES

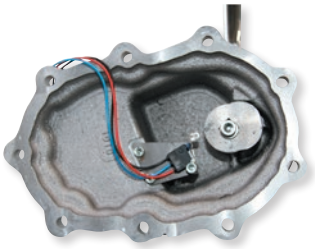
F5K

KICKER KIT FOR 5-SPEED TRANSMISSIONS

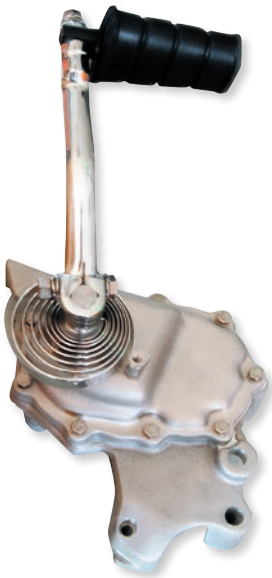
- Uses a ratchet hub that presses onto the shank of the mainshaft, then the OD of the ratchet hub presses into the oversized door bearing, keeping it secure
- Kit includes heavy-duty stainless steel straight kick arm, bronze kick pedal with $^5/_8$" spindle, preassembled polished door and cover, gaskets, fasteners and fork rod
- Cable-type actuator kits come with ball ramp actuator
- Compatible with Factory starter

NOTE: 99-06 FL models will require a Baker FF oil spout; see TANKS & OIL FILTERS section.



NOTE: Transmission case removal from bike is not required for installation.

NOTE: Some exhaust systems may interfere and may require spacing.



NOTE: 07-13 applications will require ignition change and converting bike from EFI to carb.

NOTE: Will fit 99-06 Twin Cam models that have been converted to pre-Twin Cam style ignitions using cam cover PART #0940-0863; sold separately.

PART #	DESCRIPTION
1112-0020	For 99-06 Twin Cam models that have been converted to pre-Twin Cam style ignitions using cam cover PART #0940-0863 (cover sold separately) and Baker 5-Speed transmissions

- Skull protrudes outward about 0,750"
- Available in chrome

NOTE: 06 Dyna Glide and all 07-18 Big Twin applications (except 16-18 Dressers, 15 FLHTCUL/FLHTKL) will require the use of gasket PART #s 0934-0289 or 0934-0788.

1107-0631

1902-0061

1107-0034

PART #	DESCRIPTION
1107-0631	For 04-20 XL
1902-0061	For 99-18 Big Twin (except 16-18 Dressers, 15 FLHTCUL/FLHTKL, 18 FLSB)

PART #	DESCRIPTION
1107-0034	For 94-03 XL

LIVE TO RIDE DERBY COVERS

- Feature a detailed chrome- or gold-plated eagle and banner
- Script is recessed

NOTE: 06 Dyna Glide and all 07-18 applications (except 16-18 Dressers, 15 FLHTCUL/FLHTKL) will require the use of gasket PART #s 0934-0289 or 0934-0788.

PRIMARY CHAIN INSPECTION COVERS

- Chrome-plated steel construction
- Use OEM hardware and gasket
- Sold each

PART #	DESCRIPTION
1107-0390	For 99-06 FLT/FLHT/FLHR/FLTR/FLHX; repl. OEM #60670-85A

All part numbers in BLUE are new for 2021.

1 1/2" ENCLOSED BELT DRIVE KIT

- One of BDL's original closed primary belt drives
- Kit includes 52-tooth front pulley, 142T-belt, complete clutch kit with ring gear and ball bearing pressure plate and hardware
- Clutch features 12 cylindrical replaceable clutch dogs, which allow clutch plates to maintain constant contact
- Clutch plates allow maximum performance with improved ball-bearing pressure plate

PART #	DESCRIPTION
1120-0293	For 07-17 FXST/FLST/FXS/FLS w/ mechanical clutch (except FXSB/SE, FXCW/C)

1120-0256

1120-0257

2" BELT DRIVE KITS WITH TOP BELT GUARD

- Use BDL's ball-bearing lockup clutch for positive clutch engagement and ease of shifting
- Kits also include a 142-tooth drive belt, motor plate, starter housing with guard, top belt guard, standoffs, side guard and rear pulley cover with hardware

PART #	DESCRIPTION
FOR 07-17 FXST/FLST/FXS/FLS W/ MECHANICAL CLUTCH (EXCEPT FXSB/SE, FXCW/C) AND 06-15 DYNA W/ FORWARD CONTROLS	
1120-0260	Black

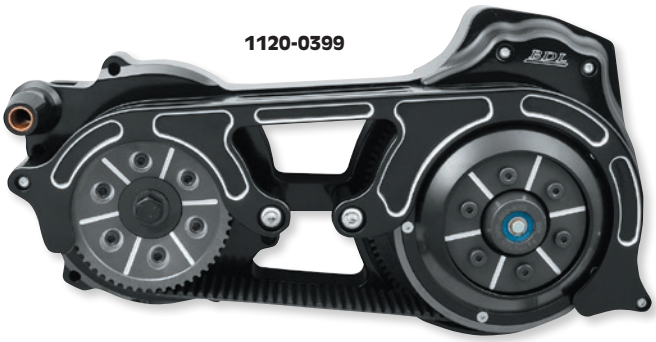
1120-0358

2" OPEN BELT DRIVE KITS WITH 2-PIECE MOTOR PLATE

- Features a two-piece motor plate design and 2" primary belt
- 52/69 pulley combination for a 1,32:1 final drive ratio
- Belt profiles are unique to each kit, requiring matched pulleys for each belt; pulleys may not be interchanged
- Front pulley face and spring collar have a matching pattern to the rear pulley
- Front pulley cover is counterbored for a super-clean appearance
- Diaphragm clutch is a 6-bolt configuration for a more firm feel and improved appearance
- Kits include side and top guard for an aggressive, open dome look
- Springs and spring collar are enhanced for more positive lock-up engagement, great for big-inch/high-horsepower motors
- Ball bearing pressure plate



PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK MODELS W/ HYDRAULIC CLUTCH	
1120-0397	Black

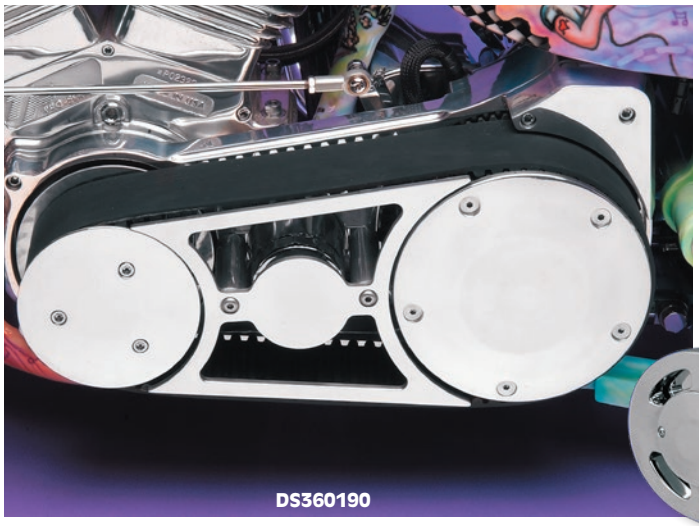
SS-2 2" BELT DRIVE KIT

- Beautiful styling and awesome performance
- 2" drive features a one-piece billet motor plate
- Clutch design eliminates clutch dogs and features an internal mill-cut basket to drive the clutch
- Ball-bearing lockup clutch offers 30% more contact surface than our 3" drives

PART #	DESCRIPTION
1120-0082	For 00-06 FXST/FLST

8 MM BELT DRIVE KITS WITH OUTBOARD SUPPORT PLATE



- 3" belt drive kits include outboard bearing support for rear shaft
- Similar design to BDL's "Top Fuel"-style belt kits
- Includes clutch assembly
- Includes ball-bearing lockup design clutch pressure plate
- Outer support plate is polished 6061 aluminum
- Accepts any 90-06 Big Twin-style starter
- Replacement components available separately; see page 746

NOTE: Systems are not designed for use with floorboards.

PART #	DESCRIPTION
1120-0255	For 00-06 Softail models

PART #	DESCRIPTION
1120-0246	For 99-05 Dyna models

DS360190

1120-0173

14 MM X 85 MM (3 3/8") MONSTER TOP FUEL BELT DRIVE KITS WITH CLUTCH

- Kits include front and rear pulley, 3 3/8" belt, nine friction plates and 11 steel clutch plates; use up to nine springs for varying pressure to accommodate any motor size
- Includes oil filter mount between the pulleys
- Polished outboard bearing support; outboard support is reversible and the back side is channeled for another distinct look, but only the flat side is polished
- Replacement components available separately; see page 746

NOTE: Systems are not designed for use with floorboards.

1120-0173	W/ outboard support bearing

All part numbers in BLUE are new for 2021.

1120-0247

1120-0251

1120-0245

8 MM BELT DRIVES WITH LOCKUP CLUTCH

- $1^{5}/_{8}$" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kits include front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems come with the Quiet Clutch and ball-bearing lockup design pressure plate
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch
- Replacement components available separately; see page 746

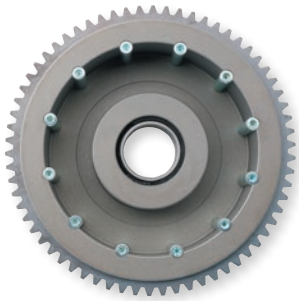
NOTE: 3" systems are not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
$1^{5}/_{8}$" SYSTEMS	
1120-0249	For 99-06 FLT/FLHT/FLHR/FLHX/FLTR
1120-0247	For 00-06 FXST/FLST and 99-05 Dyna models

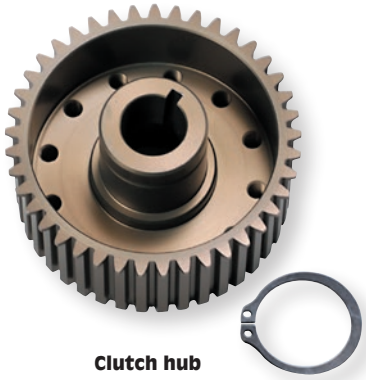
PART #	DESCRIPTION
3" ELECTRIC START SYSTEMS	
1120-0251	For 00-06 FXST/FLST models
1120-0245	For 99-05 Dyna Glide models

OUTBOARD BEARING RETROFIT KIT



- This kit has been updated to eliminate the front pulley and engine shaft supports
- The reason for this change is that many aftermarket components used on special-construction motorcycles do not allow proper alignment of the front engine and rear transmission shaft
- Kit now supports only the rear shaft (which is all that is really required) to eliminate any problems of misalignment of the front and rear transmission shafts
- Works with existing BDL 3" open belt drive kits for Softails and Dyna Glide models not incorporating an outboard bearing support (kits not enclosed within the OEM inner/outer primary covers)
- Includes outboard support plate, pulley covers and all necessary hardware

PART #	DESCRIPTION
1120-0171	Retrofit kit



All part numbers in BLUE are new for 2021.

Motor shaft pulley

Clutch basket

Clutch hub

REPLACEMENT BDL PULLEYS, CLUTCH BASKETS/HUBS

- Precision-machined out of aluminum and then hard anodized
- Motor shaft pulleys come with nut and washer (unless noted)

PART #	DESCRIPTION
PULLEYS FOR 3" SYSTEMS	
DS360422	For FXST and FLST
OFFSET SPACER INSERTS	
1132-0173	Std. insert
DS360424	1/4" insert

PART #	DESCRIPTION
OFFSET SPACER INSERTS (CONT)	
DS360425	1/2" insert
DS360426	3/4" insert
DS360427	1" insert
DS360428	1 1/4" insert

PART #	DESCRIPTION
OFFSET SPACER INSERTS (CONT)	
2017-5002	1 1/2" insert
7806-1250	1 3/4" insert
7806-1251	2" insert

MOTOR PULLEY LOCKING PLATE

- For use with BDL's standard, 3/4", 1", 1 1/4" or 1 1/2" offset insert kits
- Kit contains three 5/16"-18 x 1 1/2" sockethead cap screws, three 5/16" lock washers, three 5/8" OD spacers and locking plate

PART #	DESCRIPTION
1120-0235	Motor pulley locking plate

All part numbers in **BLUE** are new for 2021.

BDL REPLACEMENT COMPONENTS

- For use on BDL Belt Drive clutches

PART #	BDL #	DESCRIPTION
DS-191021	CDSB-100	Shoulder bolts, 3/8" x 1 1/4" (9-pk.)
DS-360154	ESB-100	Shoulder bolts, 3/8" x 1 1/2" (6-pk.)
1120-0101	SS-SB	Shoulder bolts, 3/8" x 3/4", 2" belt drive (4-pk.)
DS-360156	ECS-100	1,365" clutch springs, Top Fuel/Quiet Drive clutch belt drives (6-pk.)
DS-360157	SG-1	66T starter ring gear 65-84 Big Twin w/ quiet clutch (7 3/8" ID)
DS-360158	SG-2	66T starter ring gear 70-93 Big Twin (6 7/8" ID)
DS-360159	SG-2PG	66T starter ring gear w/ 9T pinion gear 99-06 Big Twin
2110-0518	SG-4	Ring gear for 69T basket
2110-0067	PG-100	9T starter pinion gear, 99-06 Big Twin (3 1/4" L)
1120-0057	PG-100A	+1" 9T starter pinion gear for 99-06 Big Twin
1120-0047	TFSH-100	Starter housing, 3 3/8" Top Fuel belt drives
DS-360173	EHB-100	40 mm double-row hub bearing (ea.)
1132-0172	EPP-100	Pressure plate, 3" belt drive
1131-2471	TFCPS-100	Complete repl. clutch pack

PART #	BDL #	DESCRIPTION
1131-2455	ERCPS-100	Complete clutch kit (fibers and steels) for EV, EVO, EVB belt drives
DS-360174	ECP-100	Friction clutch plate one-sided, inner splined (ea.)
DS-360175	ECP-200	Friction clutch plate two-sided, inner splined (ea.)
DS-360177	EDP-200	Steel backing plate inner splined (ea.)
DS-360035	ERDS-100	Steel drive plate, round dogs (ea.)
DS360400	EVRD-1	Round clutch dogs for Evolution 5-speed (12-pk.)
DS360401	ESRD-1	Round clutch dogs for Shovelhead 4-speed (12-pk.)
DS360407	CC-244	C-clip for hub bearing (ea.)
DS360409	CC-158	C-clip for back side of clutch hub (ea.)
1120-0034	TFBSB-100	Outboard bearings
1120-0033	TFBC-100	Outboard bearing covers
1120-0044	TFRPC-2000	Rear pulley cover for PART #DS-360191/1120-0173 (5-hole)
DS-360170	IBK-1	Repl. idler assembly for 11 mm, 1 1/2" kits
1120-0322	MPB-9	Motor plate bearing

DS-360004

DS-360014
