ON THE COVER

2026 Drag Specialties FatBook cover bike is a bold, chrome and carbon fiber enhanced example of the popular Road Glide. Built at Kodlin U.S.A., it is a beautiful example of what can be achieved with an expert eye for detail and a carefully selected list of parts from the FatBook.

Holger Mohr, one of the co-founders of Kodlin U.S.A., stressed that it was a team build. "I want to be clear, I didn't build this bike," laughed Mohr. "I did have a hand in it and managed the project, but the designer of the bike was Len (Kodlin, the 'other' co-founder of Kodlin U.S.A.). This bike build is the end result of his plan, his ideas and vision. The final design and execution was totally Len's. In football terms, Len was the quarterback of this build."

"When the discussion came up for our team to be selected for a cover bike build, this early on in our relationship with Drag Specialties, that is something really cool to have happen," Mohr said.

The first thing the team did was take a look at past FatBook cover bikes. "We took some time to look back at the past 20 or so cover bikes at the start of the project," Mohr said. Not so much to get ideas, but to see what had already been showcased on the FatBook cover.

"The approach of Len was to make something new, something exciting, something that will look cool 10 years from now," Mohr said. "A bike, that when you see it, you will still say 'Wow! That is a cool bike!'"

Chrome is increasing in popularity again, Mohr said. And there is a new segment that is getting attention – the Bagger racing series.

"We wanted to blend the two styles," Mohr said. "A combination of the classic chrome look, some custom work and some of the style of the Bagger racing bikes, the carbon fiber and performance aspect."

The Kodlin U.S.A. team plan was to use the build in part to highlight some of their own products that can currently be found in the FatBook, along with some new parts that will be available by the time the FatBook arrives at the dealers.

The team also looked through the pages of the FatBook, selecting parts from other suppliers that would complement the planned style of the bike build. "It was really exciting to just page through the FatBook," Len Kodlin said. "The top suppliers and products are all in there. It was really a lot of fun to be calling Drag Specialties as parts were selected and requested, 'Hey, send us this! Send us that!"

The bike build includes Thrashin' Supply triple trees and billet shift levers, Arlen Ness wheels and Slyfox carbon fiber saddlebags and a carbon fiber rear fender.

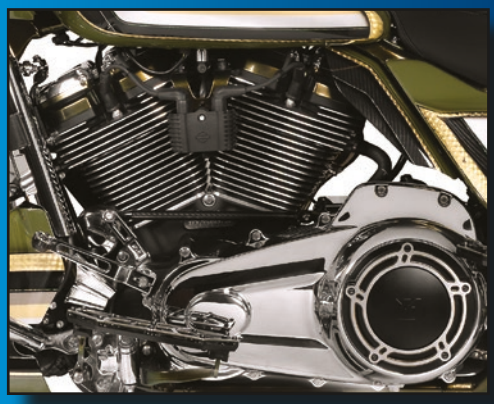
The bike's suspension features Legend Suspension AXEO Performance front kit, along with Arlen Ness chrome Method No-Flex lower fork legs. The rear suspension features a pair REVO-ARC Remote Reservoir

shocks. "Legends was a real pleasure to work with," Mohr said. "They always go above and beyond with their service and support."

"Of course we also wanted to use some of our own products," Mohr said. A Kodlin U.S.A. Signature Series Squareback seat, Ascent Pro risers and mirrors, saddlebag latch covers, water reservoir covers and horn relocation kit, air cleaner and gas cap are all included in the build.

A new line of Kodlin U.S.A. and SBS designed 10-spoke brake rotors are featured, matched with a set of Arlen Ness 6-piston brake calipers using titanium brake mouthing hardware.

The bike is not all 'just' catalogue parts. "Len took the bike down to the frame for powdercoating, he had his hands on everything." There are a few items on the bike where there was some fabrication and custom work, Mohr said. "But we did not go too extreme."



"One example of this is the Kodlin NXL Redline floorboards used on the bike," Mohr said. "They come standard with a red accent, but it is very easy for someone using their local custom powdercoating service, they can match their own custom color choice to their bike's paint." This was done for the cover bike build, Mohr said "This is an easy way for someone to add something extra to really make their bike stand out when using Kodlin U.S.A. parts."

Getting the bike painted was a bit more complicated than a 'typical' custom bike build. The gas tank, body panels, saddlebags, fenders and side covers were shipped to Ried, Austria for the prep and paint – making this cover a bike a true two-continent build.

"It is true," Mohr laughed. "We did send everything to Austria for the paint. Len has worked with Marcus (Pfeil) on past projects. They know each other very well, and Marcus really knows how to get Len's design ideas to show in the design and paint – he just nails it."

"I am very excited and proud of the result," Len Kodlin said. "I can't wait to drop in at a dealer somewhere on the planet and see the bike I built right there on the cover of the Drag Specialties FatBook."

TRANSLATION DISCLAIMER

The translation of this catalogue was carried out using artificial intelligence. This may result in linguistic inaccuracies or translation errors that significantly change the content of the text. It is also possible that certain elements, applications and files (e.g. PDFs, images, graphics, etc.) cannot be translated. We apologize for this. We accept no liability for any damage that may arise due to such inaccuracies or errors.

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL REGULATION AND NOISE REGULATION INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: A number of regions have exhaust noise laws. Exhaust products advertised might not be legal for sale or use on public roads or lands in such jurisdictions. Check applicable laws and regulations.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

MOTORCYCLE FAIRINGS & WINDSHIELDS

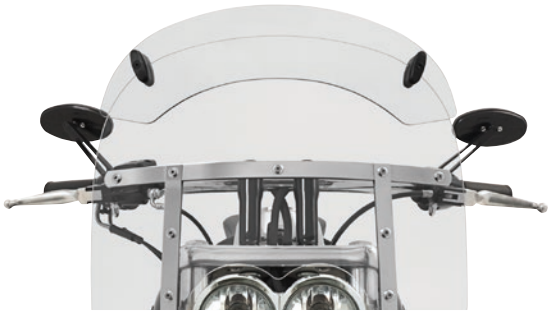
MEMPHIS FATS WITH BIG HEADLIGHT CUTOUT

- Features a 24 cm (9,5") cutout with a custom shape that is designed for a perfect fit on the large nacelle headlights made by Arlen Ness, Rick Doss and others
- Available in clear
- Made from Lucite® for excellent optics and durability
- 56 cm W (22")
- Windshield straps are polished stainless steel with CNC-machined billet aluminum fittings and stainless steel socket-head screws
- No-Tool detachable Trigger-Lock mounting hardware must be ordered separately; available in polished or "Night Shades" black, see pages 13-14
- Optional Lowers available for additional windshield coverage, see page 10

PART #	DESCRIPTION
2313-0054	43 cm (17") tall

SIDE WINGS



- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact – Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Fit Road King, Fat Boy, Heritage and Memphis Fats windshields using injection-molded glass-filled nylon clamps in place of the billet aluminum clamps (can be mounted along with Hot Wing)
- Sold in pairs

PART #	DESCRIPTION
2350-0200	Side Wings

HOT WING

- Boost airstream upward – Venturi action speeds up the airstream while smoothing the flow – without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Uses lightweight, economical injection-molded glass-filled nylon clamps; fits Memphis Fats windshields or similar windshields that measure 3 mm or 4,5 mm thick (includes inserts for both sizes)

PART #	DESCRIPTION
2350-0199	Memphis Hot Wing

Clear

MEP5811

CUSTOM LOWERS

- Provide additional protection by extending your coverage downward
- Shield rider from rain, wind and noise coming up from the road
- Made of the same high-quality materials as Memphis Shades windshields with matching tints
- Available in clear and black

PART #	DESCRIPTION
MEP5810	Clear

- Must purchase Lowers mounting kits; see pages 13-14
- May require turn signal relocation
- Measure 20,5 cm H x 12,5 to 14 cm W (8" H x 5 to 5 1/2" W)
- Sold in pairs

PART #	DESCRIPTION
MEP5811	Black

SPEED DEMON SPORTSHIELDS

- Offers more protection with a sporty look
- Features a similar shape and style to the popular handlebar mount "Demon" shield, but with the benefits of easier installation and faster removal due to the exclusive Sportshield mounting system
- Measures 53,5 cm (21") W and 45,5 cm (17") H above the headlight; fits a 18 cm (7") or 23 cm (9") headlight cutout
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission), black smoke and dark black smoke
- No-Tool detachable Trigger-Lock mounting hardware must be ordered separately; available in polished or "Night Shades" black; see pages 13-14

Whether your bike has conventional forks (tins) or a Springer front end, once installed, Trigger-Lock mounts let you remove or change Memphis Shades Fats/Slims/Sportshield windshields in a moment's time.

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES FATS/SLIM WINDSHIELDS AND SPORTSHIELD WINDSHIELDS

- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors, or black E-coated plates, bolts and anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately

MOTORCYCLE FAIRINGS & WINDSHIELDS

ABE

HELL CAT

- Sculpted full-body shape
- Measures 50 cm W (20") x approximately 45 cm H (18") above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamp that fits 25 mm and 22 mm (1" and 7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

PART #	DESCRIPTION
MEM1719	Solar

ABE

DEMON

- Measures 45,5 cm H x 53,5 cm W (21" W x 18" H) above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamps that fit 25 mm and 22 mm (1" and 7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

MEM2219	Solar

ABE

THE SHOOTER

- Looks great on today's wide-body motorcycles
- Measures 48,5 cm (19") W x approximately 35,5 cm (14") H above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamps that fit 25 mm and 22 mm (1" and 7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

PART #	DESCRIPTION
MEM1619	Solar

ABE

CLASSIC DEUCE

- Smooth shape surrounds headlight to become part of the motorcycle
- Measures approximately 49,5 cm W x 47 cm H (19 1/2" W x 18 1/2" H) above headlight
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Solid two-point handlebar mounting hardware fits many custom and stock applications
- Includes two-point mounting hardware consisting of polished billet aluminum handlebar clamps that fit 25 mm and 22 mm (1" and 7/8") handlebars (with sizing band) and CNC-machined aluminum rake plates, fittings and stainless steel socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

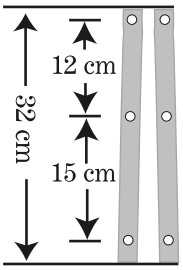
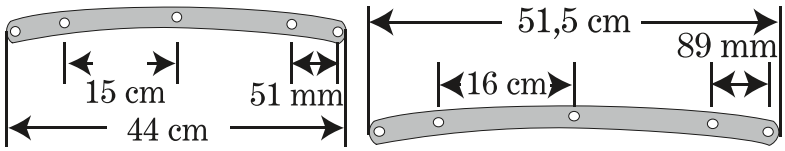
REPLACEMENT PLASTIC FOR HARLEY-DAVIDSON WINDSHIELDS



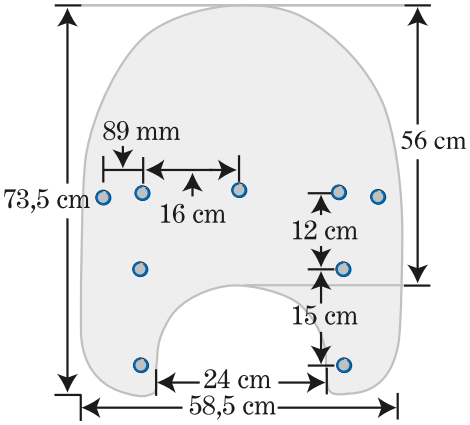
- Now riders can replace their OEM windshield with the size and color of their choice
- Available in black smoke, dark black smoke as well as clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for five models in up to four different heights – pick a size that's right for you
- Perfect fit with OEM hardware
- Holes are not drilled but rather machined to accept snap-in nylon inserts that prevent stress fractures and star cracks commonly seen around holes – an exclusive feature of Memphis Shades replacement plastic

Due to variations in OEM mounting hardware, these windshields may not fit all models; be sure to check measurements before ordering.

NOTE: Measurements are approximate and measured center to center of holes on the outside of windshield.



VERTICAL STRAPS



There is a right and left strap, although they measure the same.

HORIZONTAL STRAPS

The windshield should have one of the two straps illustrated.
Straps shown for reference only.

REPLACEMENT PLASTIC FOR MEMPHIS SHADES WINDSHIELDS

- Replacement plastic is a low-cost alternative to replace worn or damaged Memphis Shades
- Available in clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for standard headlight size of 14,5 cm to 18 cm (5 3/4" to 7")
- Replacement plastic does not include any hardware
- Sportshield replacement plastic has same part numbers as found on pages 11-12

PART #	DESCRIPTION

FLARE® WINDSHIELDS

- Two styles available: Pro Touring and Sport
- The Pro-Touring Flare® is a wider, more full-coverage option for riders and passengers that prefer an even greater amount of wind protection for the long haul, and is stylish enough to use around town
- The Sport Flare is more streamlined and offers radical curves and a sportier stance; it complements the lines of the new fairing with a more aggressive profile and adds stability and handling with improved air management
- The patented design features "hips" at the sides that re-route the wind away from riders while adding downforce to the front-end of the motorcycle to improve stability vs. riding with the stock windshield
- The "flip" at the top of the Flare kicks air up and over the rider creating cleaner, less turbulent air for the rider and passenger
- Wind tunnel tested and designed for maximum performance and air management
- Made of Lexan® polycarbonate with FMR hard coating on both sides of the shield for unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S; and also under International Patents: 324093, 324094, 325192.

FLARE® BILLBOARD WINDSHIELDS

- Modeled after the original Flare® windshield for Baggers; now almost every rider can get all of the same performance and style with bolt-on ease
- Patented Klock Werks "hips" on each side create downforce for added stability and the "flip" at the top kicks air up and over the rider for a smoother, less turbulent ride
- Wind tunnel tested and designed to create the same downforce as the original Flare windshield
- Computer simulations and real-world testing have resulted in multiple windshield heights to ensure a windshield size that will work for almost any rider
- Windshield heights listed are measured from the top of the headlight opening to the top of the windshield
- Pre-drilled for easy mounting using stock windshield mounting kits
- For the following applications "Detachable" refers to the old-style H-D grommet/hinge style mechanism

NOTE: All measurements given are approximate.

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S; and also under International Patents: 324093, 324094, 325192.

SPORT GLIDE® WINDSHIELD

- This functional, dark smoke windshield is designed to keep a low sport profile
- Windshield design kicks up the air to create a less-turbulent wind pocket
- Measures approximately 20,5 cm (8") from the lip of the fairing to the top of the windshield

PART #	DESCRIPTION
2310-0690	For 18-21 FLSB

ICE KOLOR FLARE® WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce while the flip at the tip directs air over the rider to help eliminate the swirl of air found in front of the rider on standard windshields
- Windshields are made from acrylic and have a vibrant fluorescent edge to give your motorcycle a little extra pop
- All are predrilled for easy mounting using stock windshield hardware

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S; and also under International Patents: 324093, 324094, 325192.

See OLDBOOK For Early Model Applications

KOLOR SPORT FLARE® WINDSHIELDS

- The Kolor Sport Flare® is streamlined and offers radical curves and a sportier stance; it complements the lines of the new fairing with a more aggressive profile and adds stability and handling with improved air management
- The patented design features "hips" at the sides that re-route air away from the rider while adding downforce to the front end to improve stability and handling compared to the stock windshield design (the stock design creates lift)
- The "flip" at the top of the Flare kicks air up and over the rider creating cleaner, less turbulent air for the rider and passenger
- Wind tunnel tested and designed for maximum performance and air management
- Windshields are made from acrylic
- All are predrilled for easy mounting using stock windshield hardware

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S; and also under International Patents: 324093, 324094, 325192.

2310-0811	20,5 cm (8")	Red
2310-0810	20,5 cm (8")	Yellow

KOLOR FLARE® WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce while the flip at the tip directs air over the rider to help eliminate the swirl of air found in front of the rider on standard windshields
- Windshields are made from acrylic
- All are predrilled for easy mounting using stock windshield hardware

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S; and also under International Patents: 324093, 324094, 325192.

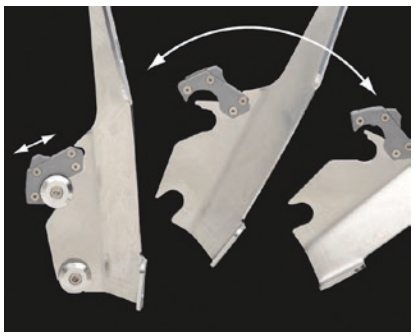
2330-0017 w/ optional 12,5 cm (5") windshield



2330-0075 w/ optional 30,5 cm (12") windshield and Elipse fairing trim

2320-0245

2320-0048

Trigger-lock mount lets you remove your Batwing Fairing in a moment's time or quickly change to your Memphis Fats/Slim or Sportshade windshield to instantly change the look of your bike

MEMPHIS SHADES BATWING FAIRINGS

- The clean aerodynamic shape and innovative mounting system easily enhances the style and comfort of your ride
- The fairing body of PART #2330-0017 measures 92,5 cm (36 1/2") wide and 43 cm (17") tall; fairing body of PART #2330-0075 measures 85 cm (33 1/2") wide and 43 cm (17") tall (excluding windshield and wind deflectors)
- Inner fairing structure is black textured ABS
- Fairing outer shell is opaque black Lucite® with a class A finish that looks great as is or can easily be painted
- No-Tool Trigger-Lock mount kits are CNC machined and are available with E-coated polished or black aluminum and stainless steel hardware for a clean appearance that's built to last
- Trigger-Lock kits are available in a combination of CNC machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairings are predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four heights and four different colors: solid black, gradient black, clear and solar (a light tint with 72% visible light transmission); see pages 35
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trims for style are also available; see pages 36
- Now you can add an optional sound system to the Batwing Fairing with Hogtunes' speaker systems; see AUDIO, COMMUNICATION & MOUNTS section for more details

NOTE: Batwing Fairings are not compatible with any other fairing windshields, wind deflectors or accessories.

NOTE: Softail models listed that already have a Memphis Fats or Slims windshield installed can use their existing Trigger-Lock mount kit to install a Batwing Fairing and switch back-and-forth from Fats, Slim or Sportshield windshield to Batwing Fairing.

WHAT TO ORDER

1. BATWING FAIRING
2. TRIGGER-LOCK MOUNT KIT SPECIFIC TO BIKE MODEL; SOME SOFTAIL MODELS MAY REQUIRE A TURN SIGNAL RELOCATION KIT
3. WINDSHIELD OF YOUR PREFERENCE; HEIGHT AND COLOR OPTIONS ARE SHOWN ON NEXT PAGE

Trigger-Lock mounts let you remove your bullet fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike.

MEMPHIS SHADES BULLET FAIRINGS

- Bold aerodynamic shape adds custom style and increases rider comfort
- Looks like a two-piece but is actually a strong, one-piece fairing constructed of high-impact aircraft-grade Lucite®
- Provides full torso coverage to virtually eliminate wind fatigue, while allowing an unobstructed view of the countryside
- "Factory" finish looks great as is or can easily be painted to really achieve the next level of custom
- Custom fit, model-specific mounting kits feature Memphis Shades exclusive Trigger-Lock mounting system – on and off without tools

FOR 99-13 FLHT/C/CU, FLHX AND H-D FL TRIKE	
2350-0214	Smooth chrome

KURYAKYN

WINDSHIELD SIDE TRIM

- Enhances transition from windshield to fairing on Road Glide models
- Made from lightweight injection-molded ABS
- Installation of the gloss black trim pieces reuses OEM hardware
- Sold in pairs

PART #	DESCRIPTION
2350-0307	For 24-25 FLTRK, 15-23 FLTR and 23-25 FLTRT (except 23 FLTRXSE)

All part numbers in BLUE are new for 2026.

2040-3431

2040-3432

QUILL™ LED FAIRING LIGHTS

- Custom-engineered for H-D batwing fairing models
- Dual-function LEDs with bright white running lights and built-in amber turn signals
- ABS construction; available in chrome or gloss black
- High-strength polycarbonate lenses
- Muli-layered GHOST™ Lens Technology delivers unparalleled brightness with a wide dispersion of light to enhance visibility
- Preinstalled VHB adhesive for secure mounting
- Plug-and-play installation with either the Ciro® Plug-N-Play Standard Harness or the Lightstrike COMMANDER™ (sold separately)
- Choice of different modes and animations when paired with the Lightstrike COMMANDER

PART #	DESCRIPTION
FOR 24-25 FLHX, 25 FLHXU, 23-25 FLHXSE	
2040-3431	Chrome

BAT BLADES® FAIRING TRIM

- These innovative strips feature ultrabright white LEDs to work as daytime running lights and also amber turn signals on each side
- Easy installation using included 3M™ tape with included wiring adapter that plugs into OEM harness
- Requires no drilling, cutting or splicing
- Low-profile black circuit board blends in seamlessly when the lights are off
- White lights fade when turn signals are activated so the amber really stands out
- Sold as a pair

PART #	DESCRIPTION
2350-0388	For 24 FLHTK, 14-23 FLHT/FLHX (except 23 FLHXSE), 14-25 FLHTCUTG

KURYAKYN

SEQUENTIAL RUN-TURN LED BAT LASHES

- Tried-and-true style plus increased visibility now offered with integrated sequential turn signals
- Auxiliary run-turn functionality featuring white LED running lights and amber LED turn signals that light up individually for consistent directional illumination
- Durable injection-molded ABS with ultra-bright LEDs for longer life, low current draw and a look unlike any other
- Require drilling holes in fairing to route wiring for plug-and-play installation
- Include run-turn controller

PART #	DESCRIPTION
2350-0483	For 14-25 FLHT/FLHX/FLHTCUTG

All part numbers in BLUE are new for 2026.

See OLDBOOK For Early Model Applications

Custom DYNAMICS

DUAL-COLOR LED FAIRING LIGHT STRIP

- Two low profile LED light strips
- Strips are 91 cm (36") in length and contain 36 dual-color amber/white LEDs
- Bright white turning light and full-contrast amber turn signal
- Pre-taped for mounting
- Can be cut after every 31,8 mm (1 1/4") (3 LEDs) to create a custom length
- Plug-and-play installation with pass-through male and female JAE connectors
- Connectors can be removed for hardwire installation on 12VDC vehicle

PART #	DESCRIPTION
2040-3062	For 14-24 FLHTK, 19-22 FLHT, 14-19 FLHTCU, 15-16 FLHTCUL, 15-18 FLHTKL, 14-21 FLHTKSE, 14-23 FLHX/FLHXS, 15-22 FLHXSE, 15-23 FLTRX/ FLTRXS, 22-23 FLHXST/FLTRXST/FLTRKSE, 20-24 FLTRK, 18-22 FLTRXSE 16-19 FLTRU, 14-25 FLHTCUTG, 20-22 FLHTCUTGSE, 23-25 FLTRT

2040-2811

2040-2810

DYNAMIC LED VENT INSERTS

- Replaces the factory fairing vent with decorative vent insert
- Plug-and-play
- 15 super-bright white LEDs operate as constant DRL
- 15 amber LEDs function as turn signals

FOR 14-24 FLHTK, 14-23 FLHX/FLHXS, 22-23 FLHXST, 15-22 FLHXSE, 19-22 FLHT, 14-19 FLHTCU, 15-16 FLHTCUL, 15-18 FLHTKL, 14-21 FLHTKSE, 14-25 FLHTCUTG AND 20-22 FLHTCUTGSE

FAIRING VENT LIGHT

- Dual-function LEDs with a bright white running light and built-in amber turn signals
- Custom engineered for Street Glide and Road Glide models
- Stealth mode lighting blends seamlessly into the motorcycle when turned off
- Multi-layered GHOST™ Lens Technology delivers unparalleled brightness with a wide dispersion of light to enhance visibility
- Plug-and-play installation with either Plug-and-Play Standard Harness or Lightstrike COMMANDER™ (sold separately)
- Can be used on its own or paired with Lightstrike COMMANDER for choice of different modes and animations (sold separately)

PART #	DESCRIPTION
2040-3419	For 24-25 FLHX/FLHXU, 23-25 FLHXSE

PART #	DESCRIPTION
2040-3418	For 24-25 FLTRX/FLTRXSTSE, 23-25 FLTRXSE

FAIRING VENT TRIM

- Sturdy ABS material backed with 3M™ automotive-grade adhesive
- Will not affect the airflow of fairing vent
- LED version features white light pipe technology that creates a mesmerizing effect
- LED light module plugs directly into the stock wiring harness with no cutting, drilling or splicing
- Fairing power Y-harness allows easy installation of multiple powered fairing accessories
- Sold each

W/ LED

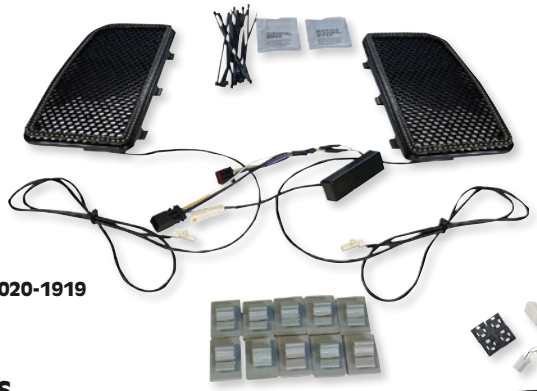
2350-0343	Chrome

DECORATIVE FAIRING VENT INSERT

- Fills the center void in the OEM FXLRST fairing
- Decorative black mesh and gloss black trim
- Snaps in place to screen the opening without preventing air flow

PART #	DESCRIPTION
2350-0595	For 22-25 FXLRST, 22 FXRST

FAIRING VENT TRIM



- Features built-in stainless steel vent mesh to match the stock air cleaner
- Mounts with 3M™ tape
- Vent trim does not interfere with opening and closing of stock fairing vent
- Use with optional LED vent light kits PART #s 2040-1852, 2040-1955 or 2040-2024 (sold separately)
- Gloss black with stainless steel mesh
- Sold each

PART #	DESCRIPTION
2350-0357	For 14-24 FLHTK, 14-23 FLHX/FLHXS, 22-23 FLHXST, 15-22 FLHXSE, 19-22 FLHT, 14-19 FLHTCU, 15-16 FLHTCUL, 15-18 FLHTKL, 14-21 FLHTKSE, 14-25 FLHTCUTG and 20-22 FLHTCUTGSE (Repl. OEM #29200007)

All part numbers in BLUE are new for 2026.

Custom DYNAMICS

2020-1919

DYNAMIC LOWER FAIRING INSERTS

- Direct replacement for the lower fairing radiator grilles or filler plates
- More than 130 white and amber LEDs per side
- When the turn signal is activated, the white DRL running light turns completely off providing greater visibility to the amber turn signal
- Snap in place
- Plug-and-play

NOTE: PART #2020-1919 is compatible with aftermarket H-D fairing lowers (H-D PART #57100257DH), Advanblack Rushmore Lower Vented Fairings and Saddle Tramp Lower Fairing Speaker Assembly (PART #2330-0248) (sold separately).

2040-3145

PART #	DESCRIPTION
2020-1919[1]	For 14-24 FLHTK, 14-19 FLHTCU, 15-16 FLHTCUL, 14-19 FLHTKL, 14-21 FLHTKSE, 15-19 FLHXSE, 20-24 FLTRK, 16-19 FLTRU, 15-16 FLTRUSE, 22-23 FLTRKSE, 14-25 FLHTCUTG, 20-22 FLHTCUTGSE
2040-3145	For 10-13 FLHTK, 06-13 FLHTCU/FLHTCUSE/FLHTCSE, 11-12 FLHXSE, 11-12 FLTRU/FLTRUSE, 09-13 FLHTCUTG

[1] Replaces OEM #s 57100151 (left) and 57100152 (right).

LED LIGHT INSERTS FOR LOWER FAIRING

- Function as both running and auxiliary turn signal lights
- Optional Lower Fairing Blocker Plates PART #0521-0898 (sold separately) can be installed behind the grille for a solid panel appearance
- The inserts produce a bright amber running light with full-contrast amber turn signal that's virtually invisible when off
- Each side features 53 amber LEDs
- Units snap in place with plug-and-play installation
- Sold in pairs

PART #	DESCRIPTION
2020-2135	For 14-24 FLHTK, 14-19 FLHTCU, 15-16 FLHTCUL/FLTRUSE, 15-19 FLHTKL/FLHXSE, 14-21 FLHTKSE, 20-24 FLTRK, 22-23 FLTRKSE, 16-19 FLTRU, 14-25 FLHTCUTG, 20-22 FLHTCUTGSE

2040-2814

2040-2815

2040-2813

VENT INSERTS WITH LED LIGHTS

- Bolt on to the left and right sides of the Road Glide headlamp
- Provide white LED running lights and amber LED turn signals
- Feature a decorative stainless steel mesh to fill the void between the headlamp and fairing
- Plug-and-play
- Sold in pairs

FOR 15-23 FLTRX/FLTRXS, 22-23 FLTRXST/FLTRKSE, 20-24 FLTRK, 18-22 FLTRXSE, 16-19 FLTRU, 20-22 FLTRUSE, 23-25 FLTRT

2040-2592

KURYAKYN

TRACER LED FAIRING LOWER GRILLES

- Intense, fully diffused LED lighting with full-time white running lights and amber switchback turn signals when activated
- Significantly enhance your front end's styling and visibility toward oncoming motorists with these direct snap-in replacements for the black plastic radiator grilles or filler plates on late-model H-D fairing lowers
- Durable injection-molded ABS construction with smoked polycarbonate lenses
- Features stylish diffused (solid) lighting effect with high-intensity output
- Full-time white running lights with amber turn signal functionality
- Easy snap-in installation with plug-and-play wiring

- Available in chrome or satin black housings
- Sold in pairs
- Optional solid plates are designed for 2014-later H-D air-cooled models with fairing lowers, allowing you to easily convert the open-air design to a closed panel similar to stock

FOR 14-25 FLHTCU/FLHTK/FLHTKL/FLHXSE/FLTRU/FLTRUSE/FLTRK/FLTRKSE

All part numbers in BLUE are new for 2026.

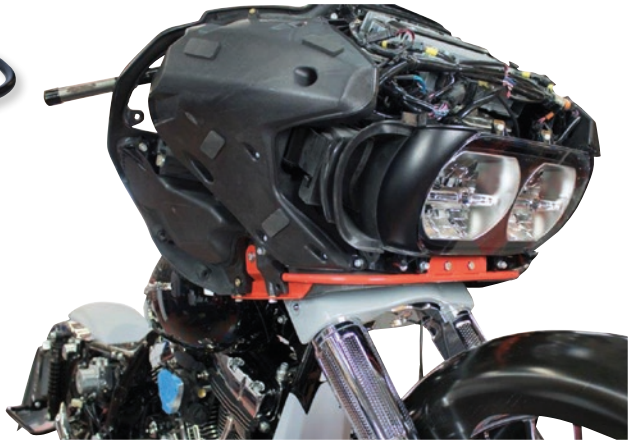
Paul Yaffe's Bagger Nation

2350-0496

2330-0320

FAIRING DROP BLOCK KITS

- Allows you to drop your stock fairing a full 44,5 mm (1,75")
- Increases your field of vision
- Gives your Road Glide a truly custom "Muscle Bagger" stance and look
- 6061-T6 aircraft aluminum mount bracket
- Gloss black powdercoated
- Included in your kit is our patented Stealth Fairing Support Bar which hides discreetly inside your fairing



U.S. Patent #s D786,139 and 9,561,831.

NOTE: Not for use on CVO models or models with fairing lowers.

PART #	DESCRIPTION
2350-0496	For 15-23 FLTRX (except 23 FLTRXSE)

PART #	DESCRIPTION
2330-0320	For 23-25 FLTRT

STEALTH FAIRING SUPPORT BAR

- Allows removal of the stock engine guard and fairing support brackets
- Gives your Road Glide a super-clean custom look without sacrificing fairing rigidity
- Completely hidden inside your fairing
- Fits all fairing support applications, regardless of wheel size
- Will work in stock and raked applications
- Gloss black powdercoated finish
- Bolt-on installation, all necessary hardware included

U.S. Patent #D786,139.

PART #	DESCRIPTION
2330-0148	For 20-24 FLTRK, 15-23 FLTRX/FLTRXS/FLTRU (except 23 FLTRXSE), 15-16 FLTRUSE

STEALTH FAIRING SUPPORT BAR

- Replaces the exposed fairing support with an undercover solution
- Ready for cleaner, aftermarket turn signals
- Black powdercoated finish

PART #	DESCRIPTION
2350-0564	For 22-25 FXLRST/FXRST

TRASK PERFORMANCE

HIDDEN INNER FAIRING BRACE

- Mild steel with black powdercoated finish
- Eliminate the need for factory engine guard to give the bike a nice clean look
- Mount between the inner and outer fairings
- Include amp mounts for aftermarket stereo systems

PART #	DESCRIPTION
2330-0118	For 99-13 FLTR/X/U

LA choppers

FAIRING SUPPORT BRACKETS

- Allows the user to remove the engine guards from the bike for a clean look
- Bolt-on installation, all necessary hardware included
- Steel construction with a black powdercoated finish

PART #	DESCRIPTION
2330-0262	For 04-13 FLTRX/FLTRU/FLTRK

All part numbers in BLUE are new for 2026.

2330-0102

2330-0183

ALLOY ART MFG.
PRIDE & QUALITY

STRONG ARM INNER FAIRING SUPPORT BRACKETS

- Made from super-strong lightweight injection-molded high-impact nylon
- Pocketed ribbed design provides superior strength over stock metal-type brackets, as well as being lighter than stock brackets
- Help reduce fairing vibration; bigger, heavier aftermarket speakers and amps are not a problem anymore
- Sold in pairs

PART #	DESCRIPTION
FOR 99-13 FLHT/FLHX/FLHTCUTG/FLHXXX (W/ OEM-STYLE BATWING FAIRING)	
2330-0102	Outer bracket; repl. OEM #58478-96B (left) and #58479-96B (right)
2330-0183	Inner bracket; repl. OEM #58938-96B (left) and #58939-96B (right)

DRAG Specialties

HEAVY-DUTY FAIRING SUPPORT BRACKETS

- Made with thick 13-gauge steel for increased strength
- Inner fairing support brackets are zinc-plated and outer fairing support brackets are black powdercoated for superior rust resistance
- Ideal for use on bikes with upgraded speakers and/or amps
- Sold as a set

2330-0238

2330-0268

PART #	DESCRIPTION
FOR 99-13 FLHT/FLHX/FLHTCUTG/FLHXXX	
2330-0238	Inner fairing support brackets; repl. OEM #s 58938-96C, 58939-96C

EASYSTASH DOCUMENT HOLDER

- Truly universal design that can work on most motorcycles
- Store registration, proof of insurance, license, maps and more
- Low-profile design for efficient use of space
- Flexible design to fit flat surfaces and slightly curved surfaces
- Holes to provide access to items that fall to the bottom
- Made of ABS plastic
- Holds documents up to 11,75 cm (4 5/8") wide and 16 mm (5/8") thick
- Holds cards up to 89 mm (3 1/2") wide and 5 mm (3/16") thick

- Requires a minimum flat or slightly curved surface area of 14,5 cm x 20 cm (5 3/4" x 7 7/8") to mount
- Universal applications can include front, back or side of hard-sided saddlebags, Tour-Paks and any flat surface

PART #	DESCRIPTION
3501-2023	EasyStash document holder

TRUNK LATCH ACCENT

- Made from chrome ABS
- Installs in just minutes
- Protects against key scratches

PART #	DESCRIPTION
3550-0159	For 09-13 H-D FL Trike

PASSENGER ARMRESTS

- Add comfort for your passenger on long rides
- Swing-away design for easy access to the passenger seat
- Built-in cup holder includes removable foam can cooler
- Mounting plates allow you to relocate your Tour-Pak up to 25 mm (1") or 51 mm (2") back from the stock position, or 25 mm (1") forward of the stock position

PART #	DESCRIPTION
0822-0464	For 14-24 FLHT/FLTRU/FLHTCUTG

All part numbers in BLUE are new for 2026.

MOOSE OFFROAD

3501-1826

KENAI SERIES ADVENTURE LUGGAGE

What to order:

- Side case mount kit (side cases are sold as each)
- Top case mount kit for your specific motorcycle (top case mount also requires PART #3516-0358 for installation)
- You can determine how many locks you will need to match to your side and top cases
- Optional Kenai accessories include inner liners for side and top cases, lock sets and inner cargo nets (see chart for details)

NOTE: If your mount is offset to accommodate exhaust, then you will need to use a smaller case on the exhaust side to balance your load and keep overall profile symmetrical.

NOTE: Instructions for top case mounts are available to download at mooseracing.com

3501-1826

KENAI SERIES 36/47 LITER ALUMINUM SIDE CASES

- High-quality hardened aluminum alloy construction with clear anodized finish
- AIDI 304 stainless steel integrated lock system
- Handle can be used to carry case when removed from bike
- Single key lock system for all operations
- Large 47 L case can accommodate two helmets
- Waterproof double sealing lid and compartment closure
- Designed to be self-standing when removed from bike
- Built-in case guards
- Available accessories include expandable side case bag and detachable inner cargo net.

3501-1828

KENAI SERIES 37/47-LITER ALUMINUM TOP CASES

- High-quality, hardened aluminum alloy construction with clear anodized finish
- AISI 304 stainless steel integrated lock system
- Single key lock system for all operations
- Handle can be used to carry case when removed from bike
- Waterproof, double-sealing lid and compartment
- Built-in bottom mat
- Four built-in cargo hooks, also made of AISI 304 stainless steel for additional mounting points

3501-1830

TOP AND SIDE CASE MOUNTS

- Made from 20 mm (3/4") tubing
- Powdercoated finish
- Rear crossbar design
- Vehicle-specific brackets and mounting points to ensure correct fitment to motorcycle
- Complete hardware included
- Assembly instructions at MooseRacing.com

USE YOUR OWN JUDGMENT WHEN LOADING YOUR MOTORCYCLE. LIMITS MAY DEPEND ON RIDER EXPERIENCE, SPEED, TERRAIN TO BE COVERED AND WEATHER CONDITIONS.

TOUR-PAK SOFT LINER BAG

- Standard soft Tour-Pak liner bag is contoured to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's® Saddlebag Packing Cube Liner Sets
- Unique design stores flat when empty and features a full side lid opening so you have easy access to your stuff even when the bag is in the Tour-Pak
- Special shape and construction accommodates Tour-Paks with molded liners, light housings and radio antennas
- Made from durable 150D logo-stamped fabric with sturdy zippers that permit over-packing while keeping the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift your liner bag out of the Tour-Pak to move your cargo easily into the hotel, campground or to unload fast once you're home
- Dimensions: 57 cm x 19 cm x 38 cm (22,5" x 7,5" x 15")

PART #	DESCRIPTION
3516-0122	For 99-13 FLHT/FLHX/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

SADDLEBAG PACKING CUBE LINER SETS

- Four-piece liner set includes one full-size liner bag matched perfectly to the shape of H-D-style hard saddlebag plus one vertically oriented half-size liner used in conjunction with two quarter-sized horizontally oriented liner bags that stack neatly together in your other saddlebag
- Unique design permits efficient organization of your belongings – separate your laundry or keep rider and passenger gear divided while maximizing the capacity of your saddlebags
- Top sections of the quarter-sized liner bags are transparent with double-pull zippers so you can see the contents and get to them quickly – perfect for items you need to grab when you're on the road
- Made from light, durable PVC-lined 150D polyester with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters, organizing your tools or cleaning supplies; simply lift your liners out of the saddlebags to move your cargo easily into the hotel, campground or to unload fast once home
- Small liner dimensions: 19 cm L x 14 cm W x 11,5 cm H (7,5" x 5,5" x 4,5")
- Medium liner dimensions: 19 cm L x 14 cm W x 26,5 cm H (7,5" x 5,5" x 10,5")

FTB1000/FTB1500 SPORT SISSY BAR BAGS

- The latest group of motorcycle luggage from Saddlemen®; the FTB line features a bold, yet sporty look with an array of vital features bundled with superb construction and class-leading value pricing
- Mounting is simple and quick, using Saddlemen's adjustable backrest sleeve that conforms to the width of your sissy bar or pad, and its shape
- Mounting is secure, even when using just a rack or seat, with the four hold-down straps included with each bag
- Rugged 1200D SaddleTuff™ fabric cover construction with a matte finish, marine-grade vinyl accent panels and stylish black-chrome emblems
- If the weather gets wet, use the supplied high-visibility, light-reflective rain cover to protect the bag and its contents
- Carry your sissy bar bag with you, using the included padded backpack straps
- Shaped to present a trim line on your motorcycle, but open up to hold an impressive amount of cargo for their size
- The main cargo compartment flap opens fully with solid tethered sides for easy loading
- Internal mesh storage compartments secure smaller items while keeping them visible so you can locate your stuff fast

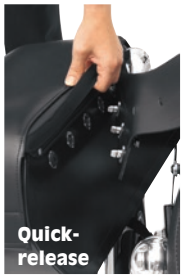
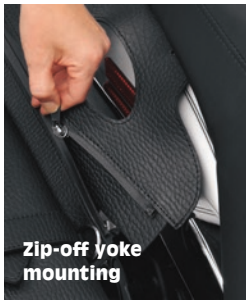
SADDLEMEN®
THE GEL-SEAT EXPERTS / SINCE 1987

SADDLEMEN® EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's® Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle. The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets (sold separately) are strongly recommended, see page 135.



Custom fit



CRUIS'N™ SLANT SADDLEBAGS

- Smooth, clean-styled saddlebags available in Throw-Over styles
- Made of a durable combination of materials including weather-resistant SaddleHyde™ and a tough plastic frame
- All feature easy-open lid with lockable twist-locks and supplemental hook-and-loop and rigid construction
- Extra-strong plastic back works perfectly with the S4 Quick-Disconnect Mounting System (sold separately; see page 135)
- S4 saddlebag support brackets (sold separately) are strongly recommended
- Dimensions: 43 cm L x 14 cm W x 25 cm H (17" x 5,5" x 9,75")

NOTE: Matching seats available; see SEATS & SISSY BARS section.

PART #	DESCRIPTION
3501-0307	Cruis'n™ slant saddlebags

HIGHWAYMAN TATTOO SADDLEBAGS

- Feature deep-textured 3D-embroidered orange flames; flame design matches Saddlemen's® Tattoo Flame seats
- Removable yoke included for over-the-fender mounting; can also be installed using Saddlemen S4 Quick-Disconnect Saddlebag Docking Post and Fastener Kit (sold separately)
- Made of a durable combination of materials including genuine leather, weather-resistant SaddleHyde™ and chrome-plated brass
- Genuine leather dual-strap design with heavy-duty, lockable chrome buckles and hidden, lockable quick-release buckles (two locks included; one per bag)
- Dimensions: 42 cm L x 15 cm W x 24 cm H (16,5" x 6" x 9,5")

NOTE: Matching seats available; see SEATS & SISSY BARS section.

SuMax

SADDLEBAG MOUNT BRACKETS

- One-piece steel construction and have Dzus® clips for quick 1/4 turn bag detachment
- Softail brackets mount at two locations: on fender rails and behind the rear passenger pegs; relocation of rear turn signals for lid clearance may be required on some models
- Sportster brackets mount easily to the fender rails and shock stud; rear turn signals must be relocated
- High-gloss powdercoat finish
- Designed for use with 99-13 FLT/FLHT/FLHR style saddlebags

NOTE: If bike is lowered to where the rear axle/nut is above the bracket, axle/nut may contact and damage saddlebags.

PART #	DESCRIPTION
3501-0776	For 94-20 XL w/ conventional taillight/license plate mount

LARGE TOURING SEATS THAT ACCEPT FRAME-MOUNTED BACKRESTS

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); the unique finishing process has been shown to reduce surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- The driver area is cut narrow in the front and is approximately 25 mm (1") lower than the stock seat
- Molded polyurethane foam for maximum comfort and styling
- 5 mm (3/16") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Accepts driver backrest receiver mechanism and backrest assembly (sold separately)
- Also works with H-D OEM frame-mounted backrest mechanism and backrest pad
- Includes all mounting hardware

PART #	DESCRIPTION

[1] Only for 14-25 models.

0801-1978

GELCORE TECHNOLOGY

SLIM LS - LATTICE STITCH SEATS

- Refined split-cushion design separates seating surface from lumbar support to reduce tailbone and back pressure for maximum long-range comfort
- Tall lumbar support and wide driver saddle support back and legs for superior comfort; streamlined nose improves reach to ground
- GelCore™ in both driver and passenger areas reduces tailbone pressure and increases circulation and comfort
- Perforated leather inserts and SaddleHyde™ cover
- **LS** - Lattice Stitch seats infuse old-school lattice stitch retro styling with a modern twist
- Fitted, protective rain cover included
- Available in black

0801-1200

GELCORE TECHNOLOGY

PROFILER LS - LATTICE STITCH SEATS

- Narrow styling, a thin profile and low riding height
- Driver's portion features a unique blend of variable-density foam and GelCore™ technology that is the largest comfort advancement in motorcycle seating since the creation of suspension
- Supple SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks
- **LS** - Lattice Stitch seats infuse old-school lattice stitch retro styling with a modern twist

PART #	DESCRIPTION
0801-1200	For 24-25 FLHRXS/FLHTK/FLTRK, 08-23 FLHX/FLHR/FLTR/ FLTRU/FLTRK/FLTRX/FLHT (except 23 FLHXSE/FLTRXSE)
0801-1199	For 99-07 FLHR (except FLHRS), 06-07 FLHX
0801-1201	For 99-07 FLHT/FLTR

0801-1277

GELCORE TECHNOLOGY

PROFILER BW - BASKET WEAVE SEATS

- Features narrow styling, a thin profile and low riding height
- Design drops the rider down into the bike for the lowest riding position possible, while maintaining a high standard of comfort and support
- Unique blend of variable-density foam and GelCore™ technology eases tailbone pressure and improves circulation
- Whisper-grain, basket-weave cover
- **BW** - Basket Weave material on driver's seat provides more breathability and extra grip if needed
- BW is sewn into the side of the tail section to accent the low seat styling and profile

PART #	DESCRIPTION
0801-1277	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 08-23 FLHT/FLHX/FLHR/ FLTR/FLTRU/FLTRK/FLTRX (except 23 FLHXSE/FLTRXSE)
0801-1383	For 99-07 FLHT/FLTR (except FLHX/FLHR)

All part numbers in BLUE are new for 2026.

THE GEL-SEAT EXPERTS / SINCE 1987

0801-1274

GELCORE TECHNOLOGY

KNUCKLE PROFILER SEATS

- Narrow styling, a thin profile and low riding height
- Features a unique blend of variable-density foam that eases tailbone pressure and improves circulation
- Proprietary GelCore™ technology dampens, diverts and deflects energy from road shock and engine vibration for a smooth, comfortable ride
- Supple SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks

PART #	DESCRIPTION
0801-1274	For 99-07 FLHR (except FLHRS), 06-07 FLHX
0801-1384	For 99-07 FLHT/FLTR (except FLHX/FLHR)

0801-1704

GELCORE TECHNOLOGY

KNUCKLE SOLO SEATS

- Audacious custom seat from Saddlemen®, with a brash refinement that instantly transforms your bike
- Deep, aggressive ribs are carefully stitched into the SaddleHyde™ weather-resistant cover while hand-crafted progressive-density foam and GelCore™ foundation serve up comfort not normally present in a low-profile seat
- Strong plastic-injected pans with plated hardware ensure a perfect fit for a trouble-free install

NOTE: See page 307 for matching Saddlemen® Knuckle detachable pillion pads.

PART #	DESCRIPTION
0801-1704	For 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE
0801-0840	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 08-23 FLHT/FLHX/FLHR/ FLTR/FLTRU/FLTRK/FLTRX (except 23 FLHXSE/FLTRXSE)

0801-1300

GELCORE TECHNOLOGY

LOW SOLO SEATS

- Specially designed to position the rider lower and farther forward for better control and riding comfort
- Saddle is low, wide and contoured to allow the rider to securely plant their feet when stopped

PART #	DESCRIPTION
FOR 24-25 FLHRXS/FLHTK/FLTRK, 08-23 FLHX/FLHR/FLTR/FLTRU/FLTRK/ FLTRX/FLHT (EXCEPT 23 FLHXSE/FLTRXSE) AND 09-13 TRIKE	
0801-1300	W/ studs

0801-1341

- Progressive-density foam and GelCore™ technology ease tailbone pressure for better circulation and comfort

PART #	DESCRIPTION
FOR 99-07 FLHT/FLTR	
0801-1341	W/o studs

0801-1901

GELCORE TECHNOLOGY

DOMINATOR SOLO SEATS

- Combines GelCore™ interior, progressive-density foam and a Gel Channel™ cover to provide riders with unparalleled comfort, control and modern style
- In addition to pressure relief, the Gel Channel center of the seat provides an airflow passage
- Extended reach seats move the seating area rearward by a full 2"

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE	
0801-1899	Dominator solo seat
0801-1901	Extended reach Dominator solo seat

0801-1497

- The rugged carbon fiber weave and smooth vinyl cover hold up to hard use and still retains its good looks
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed

PART #	DESCRIPTION
FOR 99-07 FLHT/FLTR (EXCEPT FLHX)	
0801-1497	Dominator solo seat
FOR 99-07 FLHR/FLHX (EXCEPT FLHRS)	
0801-1498	Dominator solo seat

GELCORE TECHNOLOGY

DOMINATOR EXTENDED REACH SEATS AND PILLION PADS WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™ cover to provide riders with unparalleled comfort, control and a modern style
- Seat uses Gel Channel (GC) technology featuring a center channel that relieves seating pressure
- GC-style center of the seat provides excellent airflow
- Extended reach seats move the seating area rearward by a full 2"
- Smooth vinyl cover holds up to hard use and still retains its good looks
- Cover is constructed with durable SaddleHyde™ that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, the GC-style seat offers the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install with included hardware
- Matching Tour-Pak backrest pad available separately
- The matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 307 for matching Saddlemen® Dominator detachable pillion pads.

NOTE: See pages 327-328 for matching Saddlemen Dominator sissy bar pads.

GELCORE TECHNOLOGY

DOMINATOR LOW SOLO SEAT

- Hybrid seat design combines a GelCore™ interior and ProFoam channel design to provide riders with unparalleled comfort, control and a modern style
- Low, wide and comfortable with carefully designed contours and a frame-hugging profile
- Gel Channel™ (GC) relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and durable SaddleHyde™ with gray stitching holds up to hard use while still retaining the seat's good looks
- Easy to install; optional pillion pads include additional mounting hardware as needed

FOR 24-25 FLHRXS/FLHTK/FLTRK, 08-23 FLHX/FLHR/FLTR/FLTRU/FLTRK/FLTRX/FLHT (EXCEPT 23 FLHXSE/FLTRXSE) AND 09-13 TRIKE

WIDE TRIPPER SOLO SEATS WITH BACKREST RECEIVER AND REAR SEATS

- Cut low with a 12" wide driver bucket so you can ride low, look cool, and still be comfortable at the end of a day's ride
- Sits the rider slightly lower but at a similar reach to the controls compared to stock
- Built-in receiver accepts a fully adjustable and easily removable driver backrest for total lumbar support
- Detailed stitching in the highly durable synthetic glove-leather cover makes the Wide Tripper™ a real show winner
- Controlled-density foam formula requires no break-in and retains shape and support after years of use
- Marine-grade fiberglass baseplate for long-lasting support and durability, with polyurethane bumpers to absorb vibration
- High-quality expanded vinyl cover that offers the appearance of leather and durability to withstand the elements
- Matching rear seats sold separately

FOR 24-25 FLHX/FLTRX, 24-25 FLTRXSTSE, 23-25 FLHXSE/FLTRXSE

SOLO SEATS WITH EZ GLIDE II™ BACKREST OPTIONS

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); the unique finishing process has been shown to reduce surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- Molded polyurethane foam for maximum comfort and styling
- 5 mm (3/16") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Lowers rider 38 mm (1 1/2") from stock seat
- Optional backrests feature solar-reflective leather cover with virtually no metal-to-metal contact for vertical and fore/aft pad adjustment
- EZ Glide II™ backrests are sold separately
- Optional rear seats are also available
- Includes all mounting hardware

GELCORE TECHNOLOGY

EXPLORER™ SEATS

- Saddlemen's® comfortable design is the gold standard for touring seats
- Supple SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks
- Exclusive, split-cushion design separates the seating surface from the lumbar support, reducing tailbone and back pressure for maximum long-range comfort
- GelCore™ in both driver and passenger portions reduces engine vibration by 50% and dampens road shock by up to 90%
- Also available with removable driver's backrest that is adjustable for both height and fore-aft position

NOTE: Matching luggage available; see SADDLEBAGS & LUGGAGE section.

GELCORE TECHNOLOGY

DOMINATOR SOLO SEATS AND PILLION PADS WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide riders with unparalleled comfort, control and modern style
- Gel Channel (GC) technology relieves seating pressure keeping the rider comfortable in the saddle for longer rides
- In addition to pressure relief, the GC-style center of the seat provides a cooling airflow passage
- Smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- GelCore technology in both driver and passenger portions reduces engine vibration by 50% and dampens road shock by up to 90%
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- The matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 307 for matching Saddlemen® Dominator detachable pillion pads.

NOTE: See pages 327-328 for matching Saddlemen Dominator sissy bar pads.

[1] Retains rear fender rack, but does not allow reuse of driver seat rail.

GELCORE TECHNOLOGY

LARIAT SOLO SEATS AND PILLION PADS WITH BACKREST OPTION

- Lariat solo seat is covered in genuine distressed brown leather, it is as close to having a true western horse saddle as you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Seat pans are engineered from Saddlemen's award-winning Heels Down Renegade solo seat family so the fit is perfect
- Like a Heels Down, each Lariat seat is specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Progressive-density foam and GelCore™ technology reduces engine vibration by 50% and dampens road shock by up to 90%
- Seat contains the internal hardware to accept an optional matching driver's backrest; backrest is sold separately
- Covered with the same special leather as the seats, the optional driver's backrest adds superb lumbar support with position adjustment for excellent riding comfort
- The optional driver's backrest installs in seconds without using tools (sold separately)
- Matching, optional leather-covered pillion pads also feature gel to aid in passenger comfort; pillion pads are sold separately

NOTE: See page 307 for matching Saddlemen® Lariat detachable pillion pads.

NOTE: See pages 327-328 for matching Saddlemen Lariat sissy bar pads.

0802-0795

S3 SUPER SLAMMED SOLO SEATS

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover
- Offers excellent comfort with a classic feel and are weather-resistant for low-maintenance ownership
- The progressive-density foam foundation offers a surprising amount of supportive comfort for a slammed solo seat
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install, just like the bike's original seat; includes additional mounting hardware as needed

NOTE: See page 307 for matching Saddlemen® S3 detachable pillion pads.

PART #	DESCRIPTION
0802-0795	For 06-09 FXST, 07-17 FLSTF/B

PART #	DESCRIPTION
0802-0797	For 06-17 FLSTC/FLSTN

RACING SEAT

- High-performance seat derived from the world of Bagger racing
- Raises the rider to aid in ground clearance
- Dense racing-grade foam
- Grip texture cover material made from durable Saddlehyde™ vinyl

PART #	DESCRIPTION

FOR SOFTAIL

MUSTANG MOTORCYCLE SEATS

SQUAREBACK 2-UP SEATS

- Delivers an updated style to a classic look for H-D
- A low-cut 29 cm (11,5") driver bucket rises to meet the squared-off passenger section, offering good back support
- The generous width of the passenger section gives great support for two-up riding while maintaining a sporty look
- Handsewn cover features a Tuck and Roll pattern in front with carbon fiber accents in the driver area and the rear made from marine-grade expanded vinyl
- Mustang's proprietary controlled-density foam formula requires no break-in and retains shape and support after years of use
- Marine-grade fiberglass baseplate for long-lasting support and durability, with polyurethane bumpers to absorb vibration

0802-1507

PART #	DESCRIPTION
FOR 23-25 FXBR	
0802-1658	29 cm (11,5") W driver; 21,5 cm (8.5") W rear

DOMINATOR SOLO SEATS AND PILLION PAD WITH BACKREST OPTION

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide H-D riders with unparalleled comfort, control and modern style
- Seats using Saddlemen's® Gel Channel (GC) technology have a center channel that relieves seating pressure
- GC-style center of the seat also provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- The matching optional driver's backrest installs in seconds without using tools and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 307 for matching Saddlemen® Dominator detachable pillion pads.

NOTE: See pages 327-328 for matching Saddlemen Dominator sissy bar pads.

GELCORE TECHNOLOGY

S3™ SUPER SLAMMED SOLO SEAT

- Really low to create a stylish saddle so thin it barely covers the bike's battery
- The perfect seat choice for the rider alone, no passenger pillion
- The sculpting of the seat not only creates a smart style, but it gives riders a short leg reach to the ground for confident stops
- Leather-grain SaddleHyde™ seat cover
- Both cover types offer excellent comfort with a classic feel and are weather-resistant for low-maintenance ownership
- The progressive density foam foundation offers a surprising amount of supportive comfort for a slammed solo seat
- Plastic-injection molded pan and chrome brackets make sure the seat is durable for decades of riding

- Easy to install, just like the bike's original seat; includes additional mounting hardware as needed

NOTE: See page 307 for matching Saddlemen® S3 detachable pillion pads.

GEL CORE TECHNOLOGY

DOMINATOR SEATS WITH BACKREST OPTION AND PILLION PADS

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide H-D riders with unparalleled comfort, control and modern style
- Seats using Saddlemen's® Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for a longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed
- The matching optional driver's backrest installs in seconds without using tools, and can be adjusted both horizontally and vertically to the rider's back and is removable for a sleek appearance
- The matching optional pillion pads also feature gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

NOTE: See page 307 for matching Saddlemen® Dominator detachable pillion pads.

NOTE: See pages 327-328 for matching Saddlemen Dominator sissy bar pads.

STEP-UP™ GRIPPER SEAT

- Ultra-modern styling with the extreme gripper lumbar – keeps the rider securely locked in the seat
- Smooth SaddleHyde™ styling cues
- Combines a GelCore™ interior and Ultra-Foam to create a foam that is a perfect balance of rigidity and user compliance
- Ultra-Foam's unique molding process creates an element-resistant self-skinning process that seals the foam from water and enhances the seat's durability as well as comfort
- Co-molded GelCore is the largest comfort advancement in motorcycle seating since the creation of the suspension
- If you are looking for the ultimate performance seat upgrade, look no further

PART #	DESCRIPTION
FOR 21-25 RA1250/S/ST/SE PAN AMERICA	
0810-2375	Step-Up™ gripper seat

STEP-UP™ SEATS

- Saddlemen® collaborated with top freestyle performers to create the T-sport inspired Step-Up™ seats
- High lumbar keeps the rider locked into the seat
- Features Ultra-Foam which is formulated to provide a perfect balance of rigidity and user compliance with integrated GelCore™ technology
- Whisper-grain SaddleHyde™ cover
- **LS** - Lattice Stitch seats infuse old-school lattice stitch retro styling with a modern twist
- **TR** - Tuck & Roll seats showcase true tuck & roll construction
- Installs easily with all necessary mounting hardware and instructions included

FOR PAN AMERICA

MUSTANG MOTORCYCLE SEATS

ADVENTURE TOURING SEAT

- Sets the rider at a more even position, eliminating the forward slide while ensuring comfort and control
- Gripper vinyl center panel
- Two piece 2-Up seat comes with rain covers
- Ergonomic rider design
- Enhanced ground reach with a narrow-cut nose that makes it easier for riders to plant their feet firmly on the ground
- Wide passenger seat pedestal offers superior support while its design prevents contact with grab rails, making 2-Up riding a breeze
- Integrated back support allows the passenger seat to double as added back support for the driver, ensuring that both riders can enjoy long-distance rides
- Weather-ready seat includes rain covers for both the passenger and rider seats so it is prepared for any adventure, rain or shine

MATCHING SEATS AND TAIL SECTIONS

SEATS

- Designed to mount seamlessly with matching tail section
- Carbon fiber or lattice stitch (LS) seat options available
- LS seats infuse old-school lattice stitch retro styling with a modern twist
- Carbon fiber seat features that legendary carbon fiber look while providing comfort and stability
- Seat fastens to the tail section using integrated DZUS® fittings
- Seat base is durable marine-grade fiberglass construction

TAIL SECTIONS

- Taillights, license plate and turn signals require relocating
- Installing tail section will require the removal of the seat, fender and fender struts
- Weldable steel frame mounting hoop creates a solid foundation for the tail section
- Black gel-coat finish, ready to prep, prime and paint
- DZUS® seat fasteners cleanly mount the seat for a pro-built look

NOTE: Seats and tail sections sold separately.

ELIMINATOR SEATS AND TAIL SECTIONS

- Turn any style of motorcycle into a street tracker
- Seat dimensions: 45,5 cm overall length x 23 cm widest dimension x 32 mm thick (18,75" x 9" x 1,25")
- Tail section dimensions: 69 cm length x 15 cm nose width x 27,5 cm midway width (27,25" x 6" x 10,75")

EZ GLIDE II™ BACKRESTS

- Features solar-reflective leather on contact area (unless noted); pouch and pad sides are high-quality automotive-grade vinyl
- Driver and passenger backrest capabilities
- Fit in seats' internal EZ Glide II™ system that features no metal-to-metal contact with the backrest detent bars; bars are securely suspended in place using synthetic composites that virtually eliminate corrosion and wear
- Features a detent bar with multiple detents on lower portion for adjustability up and down within the seat
- Chrome plated hardware that allows up to 51 mm (2") of forward-rearward adjustment

SOLAR REFLECTIVE™

THE CONVERTIBLE EZ GLIDE II™ BACKREST WITH BUILT-IN RAIN COVER

- Features solar-reflective leather on contact area; pouch and pad sides are high-quality automotive-grade vinyl
- "The Convertible" EZ Glide II™ backrest includes a built-in rain cover that pulls out of the pouch on the backside of the pad and covers the entire seat
- Rain cover is secured in the pouch by two snaps and can be removed for cleaning or to use the oversized pouch for additional storage
- Rain-resistant black cover is 600 x 600 denier polyester fabric with a urethane coating and WRMR (water-resistant, mildew-resistant) finish
- All exposed hardware is polished with a chrome finish; internal base is 14-gauge steel
- Pad pivots to the angle of your back and adjusts fore and aft up to 51 mm (2")

DRIVER BACKREST KITS FOR OEM DRESSER/TOURING SEATS

- Specially designed to work with 99-25 Dresser/Touring models (except H-D FL Trike) with OEM slotted one-piece seat
- EZ Glide receiver mechanism allows you to easily mount your choice of pad assembly (receiver mechanism and pads sold separately)
- Pad assembly includes high-quality polished and chrome-plated 184 mm (short) or 248 mm (tall) (7,25" or 9,75") detent bar with a design that provides 51 mm (2") of fore and aft adjustment
- All pads fold forward for ease of getting on and off bike
- Pad assembly options include a vinyl pillow-style to match tall pillow-style seats, and solar-reflective leather styles that match both lower profile and tall seats; solar-reflective reduces surface temperature by as much as 14 °C (25 °F) for a cooler contact, higher durability and longer life over conventional leather or vinyl
- All large pad assemblies also include a pouch
- Receiver mechanism includes all mounting hardware

NOTE: Short bar is for Street Glide, Road King and Road Glide-style low-profile seats. Tall bar is for Ultra-style tall-profile seats.

DRAG Specialties seats

SEAT RAIN COVERS

- Made of durable black 600 x 600 denier polyester fabric with a urethane coating and WRMR (Water-Resistant/Mildew-Resistant) finish
- Cover folds into its own pouch, and pouch is sewn into the rain cover so it is easy to locate
- Features one loop on each side and comes with 122 cm (4') of nylon and two barrel locks as adjusters for additional security, if needed

PART #	DESCRIPTION
0821-3423	For all Drag Specialties Solo front seats w/ or w/o backrest
0821-3425	For all Drag Specialties 2-Up Predator, Predator III and Solo front seats w/ Solo rear seat combination w/ or w/o backrest
0821-3426	For all Drag Specialties Low-Profile Touring seats w/ or w/o backrest

0821-0430

SADDLEMEN
THE GEL-SEAT EXPERTS / SINCE 1987

RAIN COVERS

- Black nylon covers are polyurethane-backed for water resistance
- Easy to install
- Elastic in edge to keep cover secured to the seat
- Fits model seats up to 76 cm L x 46 cm W (30" x 18")
- Fits all Saddlemen® Step-Up™ covers (except Touring bikes)
- Folds compact; stores in convenient storage bag (unless noted)

PART #	DESCRIPTION
0821-0427	For all FLST models and H-D Touring seats w/o rider backrest (fits most seats up to 89 cm L x 45,5 cm W (35" x 18"))
0821-0428	For all H-D Solo seats (except FLSTS) (fits most solo seats up to 66 cm L x 45,5 cm W (26" x 18"))
0821-0429[1, 2]	For all Touring seats w/ rider backrest (fits most seats up to 97 cm L x 45,5 cm W (38" x 18"))

GELCORE TECHNOLOGY

DETACHABLE PILLIONS

- One of the most comfortable, lowest profile and best looking pillions on the market
- The unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- Each pad attaches easily and securely with its limited-lifetime warranted, unique dry-installation, dual-cavity suction cup and can be removed just as easily using the built-in quick-release pull tab
- The pads' non-abrasive liner also ensures your expensive rear fender paint job is protected during attachment or removal
- 15 cm (6") pad dimensions: 44 mm H x 15 cm W x 25,5 cm L (1,75" x 6" x 10")
- 18 cm (7") pad dimensions: 44 mm H x 18 cm W x 25,5 cm L (1,75" x 7" x 10")
- 23 cm (9") contoured pad dimensions: 44 mm H x 23 cm W x 25,5 cm L (1,75" x 9" x 10")
- Dominator combines leading-edge styling with comfort-enhancing Gel Channel™ technology for a truly unique seat that looks and feels great
- Knuckle is engineered to brashly transform your bike with its deep, aggressive ribs that are carefully stitched into element-resistant distressed SaddleHyde™ cover
- Renegade™ LS - Lattice Stitch is the finest, most comfortable low-profile removable pad in the world; available in black, brown or black with studs
- The S3's™ fit and finish matches its street-smart looks with two cover options to choose from: standard SaddleHyde and element-resistant distressed SaddleHyde cover

NOTE: Not for passenger use; for cosmetic use only.

NOTE: Pads should be installed dry; do not wet either fender or suction cups during installation.

NOTE: Not for use in hot, wet or rough conditions.

GELCORE TECHNOLOGY

TECH MEMORY FOAM GEL PADS

- Viscoelastic GelCore™ for the ultimate in strap-on seat pad comfort
- 3D-molded process conforms quickly and comfortably to rider's anatomy, while the GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Includes exclusive air canals for increased cooling and breathability
- Center ergo channel eliminates pressure to prevent numbness and discomfort
- Comfort foam breathable top layer maximizes GelCore efficiency
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom
- Three sizes available to fit most seats

PART #	DESCRIPTION
0810-0522	Medium; 24 cm L x 20,5 cm rear W x 15 cm front W (9,5" x 8" x 6")
0810-0521	Large; 26,5 cm L x 35,5 cm rear W x 20,5 cm front W (10,5" x 14" x 8")
0810-0520	Extra large; 32 cm L x 39,5 cm rear W x 21,5 cm front W (12,5" x 15,5" x 8,5")

GELCORE TECHNOLOGY

SADDLEMEN
THE GEL-SEAT EXPERTS / SINCE 1987

3D-MOLDED GEL PAD

- 3D-molded surface for additional comfort and air channel cooling
- GelCore™ evenly distributes weight to absorb and relieve hip and tailbone pressure
- Features Gel Channel™ technology that increases blood flow and keeps the rider in the saddle longer
- Fits many larger cruisers and most touring bikes, including H-D Baggers, as well as larger adventure bikes

PART #	DESCRIPTION
0810-2072	3D-molded seat pad

GELCORE TECHNOLOGY

GELCORE™ SEAT PADS

- Viscoelastic GelCore adds riding comfort to any seat on any model
- Can be separately heated or cooled for added comfort depending upon temperature conditions
- Two cover choices: breathable fleece cover softens your ride, prevents heat buildup and perspiration, or choose original soft-stretch cover
- Quick-disconnect harness system mounts onto or over the seat and remains in place when pad is removed (instructions included), or use the optional side-seat hooks
- Raw gel pads also available for custom installation inside an existing saddle

PART #	DESCRIPTION

GELCORE TECHNOLOGY

GELCORE™ EASY REACH PADS

- Viscoelastic GelCore™ adds riding comfort to any seat on any model
- Specifically designed to provide the support needed for longer time in the saddle, yet provide leg clearance so that a person can remain flat-footed when stopped
- Will fit most cruisers and most touring motorcycles
- Available with a soft stretch cover, fleece cover or "raw" (no cover) for custom applications
- Dimensions: 37 cm W (back) x 29 cm L x 13,5 cm W (nose) (14,5" x 11,5" x 5,25")

PART #	DESCRIPTION
0810-1650	Soft stretch cover

DRAG Specialties seats

SOLAR REFLECTIVE™

OVAL SISSY BAR PADS

- High-quality automotive-grade vinyl cover
- PART #0822-0118 features solar-reflective leather on face of pad so pad stays cool even in direct sunlight, and automotive-quality vinyl on sides and back; the unique finishing process has been shown to reduce surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl; matches Drag Specialties seats
- Designed to match Drag Specialties seats specifically
- Fits short, medium and tall H-D detachable sissy bars
- Dimensions: 19 cm T x 25,5 cm W (7 1/2" x 10")

0822-0118

0822-0428

0822-0430

0822-0429

NOTE: Pads mount with OEM hardware.

NOTE: The short bar and pad may not work with the OEM tall passenger pillion seats.

FOR 99-23 FLHR/FLHT/FLHX/FLTR W/H-D DETACHABLE SISSY BARS (EXCEPT AIR WING SISSY BAR)

PART #	DESCRIPTION

EXHAUST

FOR DRESSER/TOURING
TRUE-DUALS

RINEHART RACING

SLIMLINE DUALS EXHAUST SYSTEM AND HEADER KITS

- Performance exhaust system that wraps up a blast of bottom end performance with a classic look
- Anti-reversion louvers eliminate the negative pulse from traveling back into the port, robbing the engine of horsepower
- Features 12 mm and 18 mm O_2 ports, with optimum placement for dyno tuning and proper measurement of exhaust gas concentration from port, making the engine perform efficiently
- Eliminates need for bung adapter used by other manufacturers which fail to properly place the sensor within the exhaust flow

PART #	DESCRIPTION
FOR 17-20 FLHT/FLHR/FLHX/FLTR	
1800-2426	Chrome system w/ chrome 4,5" mufflers and MotoPro 45 end caps

1802-0377

- Header kits are the answer to riders who want to add a header system to a bike previously equipped with Rinehart racing slip-on mufflers
- Available with 4" or 4,5" OD mufflers
- Header kits available separately; replacement end caps also available separately, see page 448

PART #	DESCRIPTION
FOR 17-24 FLHT/FLHR/FLHX/FLTR	
1802-0376	Chrome header kit
1802-0377	Black header kit

1800-2527

1800-2525

PROVEN S&S PERFORMANCE

EL DORADO TRUE DUAL EXHAUST SYSTEMS

- Improved power and torque
- Oxygen sensor location same as stock
- Includes adapters for wide band oxygen sensors
- Uses two high-flow cats to increase exhaust flow while providing just the right amount of back pressure for optimum torque

PART #	MUFFLER BODY	END CAPS
FOR 17-23 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK		
1800-2527	Chrome	Tracer
1800-2528	Black	Tracer

- Relocation of cats to 4,5" mufflers reduces heat on rider
- Produces a deep throaty exhaust note throughout the rpm range
- J2825 sound compliant

NOTE: Not for H-D FL Trike.

NOTE: Not for CVO models.

PART #	MUFFLER BODY	END CAPS
FOR 09-16 FLHT/FLHR/FLHX/FLTRX/FLTRU		
1800-2523	Chrome	Thruster
1800-2525	Black	Thruster

COBRA USA RIDE LOUD

SPEEDSTER DUALS

- Great sound that's enhanced by the proprietary PowerPort crossover
- PowerPort crossover also provides power boost across entire rpm range
- Traditional dual-pipe styling with 2-into-1 performance
- 2,5" heat shields
- Available with fishtail chrome tips
- Quick, easy installation

1800-2661	Black w/ slotted black heat shields

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION

2-INTO-1-INTO-2 DOMINATOR SYSTEMS

- Engineered for performance, style and sound
- Improves torque and horsepower from stock to the largest displacement build
- Aggressive tone without annoying high-frequency resonance
- Comes in race only version (no catalytic converter)
- Designed with a connected stepped head pipe and a unique baffle design
- Head pipe is three-step (1,75" to 1,875" to 2,0") for M-Eight or two-step (1,75" to 1,875") for Twin Cam
- 18 mm and 12 mm O_2 bungs are welded into the header primaries
- Heat shields have 220° coverage
- 4,5" HP Plus compliant mufflers deliver Khrome Werks signature aggressive sound
- Replacement end caps sold separately (see page 448)
- Tune sound and performance with optional Khrome Werks Baffle Inserts (Dominator only), Cone Reduction kit and SAE-J2825 Decibel Reducer (see page 450; sold separately)

NOTE: Comes with end caps.

FOR DRESSER/TOURING
2-INTO-1

SHORT ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped 1 3/4" to 1 7/8" equal length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding
- 4" tapered, megaphone-style or straight-can short muffler body; system mounts off of transmission for that truly radical short look

PART #	DESCRIPTION
FOR 17-25 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK	
1800-2201	Stainless steel
1800-2697[1]	Stainless steel

1800-2172	Stainless steel

1860-1998

1861-1581

- System comes with 18 mm and 12 mm O_2 ports with sensors, adapters and plugs
- Includes removable baffle and billet end cap

PART #	DESCRIPTION
BAFFLES AND END CAPS	
1860-1998	Opt. quiet baffle (ea.)
1861-1581	Optional brushed billet slash-cut end cap

[1] System has catalytic converter.

LONG ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped 1 3/4" to 1 7/8" equal length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding

PART #	DESCRIPTION
FOR 17-25 FLHT/FLHR/FLHX/FLTR/FLTRX/FLTRU/FLTRK	
1800-2199	Megaphone
1800-2200	Straight can

- 4" tapered, megaphone-style muffler body or 4" Straight Can muffler body; system mounts off of traditional saddlebag location
- System comes with 18 mm and 12 mm O_2 ports, adapters and plugs
- Includes removable baffle and billet end cap

PART #	DESCRIPTION
FOR 99-16 FLHT/FLHR/FLHX/FLTR	
1800-2174	Straight can

1861-0764

ROAD RAGE II MEGA POWER 2-INTO-1 SYSTEMS

- Designed specifically to address the needs of tuned motors built for high-horsepower applications
- Headers are stepped (1 3/4" to 1 7/8" to 2")
- For 125+ horsepower applications
- Tapered megaphone-style muffler body with 4" black billet end cap with contrasting machined flutes
- Includes full-coverage heat shields
- 12 mm and 18 mm O_2 sensor port plugs included
- Includes removable baffle

[1] CVO models require floorboard spacer kit PART #1621-1205 (sold separately).

ROAD RAGE 2-INTO-1 EXHAUST FOR HIGH-PERFORMANCE MOTORS

- Developed in conjunction with Chris Rivas to develop the right system to address M-Eight big motor builds
- Features equal-length stepped headpipes from 1 3/4" to 2" and then into 2 1/8"
- 4" muffler housing has 3" louvered removable baffle
- Includes full heat shields, billet end cap, 18 mm O_2 bung and 12 mm adapters

NOTE: Recommended for bikes with motor builds above 140 hp.

FOR 17-24 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK (EXCEPT 23-24 FLHXSE/FLTRXSE)

SIDEWINDER 2-INTO-1 EXHAUST SYSTEMS AND SHADOW MUFFLER KITS

- Increased power and torque
- Stainless steel header construction
- High-flow catalytic converters on some applications
- Includes adapters that allow use of wide band or stock O_2 sensors
- Machined aluminum end cap
- Deep performance exhaust note
- Systems without catalytic converters include removable dB reducer included
- Optional Shadow Muffler kits fill the left-side cutout in extended saddlebags when running a Sidewinder 2:1 exhaust system
- Matched muffler body is 4,5" in diameter
- End cap is a mirror image match of the right-side 2:1 Sidewinder muffler end cap
- All necessary mounting hardware included

NOTE: No EC models.

NOTE: Not for H-D FL Trike applications.

KHROME WERKS

2-INTO-1 OUTLAW SYSTEMS

- Engineered for performance, style and sound
- Improves torque and horsepower from stock to the largest displacement build
- Race only version (no catalytic converter)
- Head pipe comes in three-step (1,75" to 1,875" to 2,0") for the M-Eight, and two-step (1,75" to 1,875") for the Twin Cam
- 2 1/2" high-flow baffles are wrapped in stainless steel wool and high-temperature fiberglass
- 2 1/2" tapered baffle exit cone enhances low-end torque
- 18 mm and 12 mm O_2 sensor bungs are welded into header primaries
- Heat shields have 220° coverage
- 4,5" HP Plus compliant mufflers deliver Khrome Werks signature aggressive sound
- Optional ghost pipes available for that 2-into-2 look (M-Eight systems only, sold separately)
- End caps available, sold separately (see page 448)
- Tune the sound and performance with Khrome Werks Cone reduction kit and optional SAE-J2825 Decibel Reducer (see page 450; sold separately)

NOTE: Comes without end caps.

2-INTO-1

EL DIABLO 2-INTO-1 EXHAUST SYSTEM

- Uses equal-length exhaust headers mated to a chrome cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Available in Raven black finish (Raven black is slightly darker than the standard black finish)

PART #	DESCRIPTION
1800-2216	For 17-24 FLHT/FLHTK/FLHR/FLHX/FLTRX/FLTRU/FLTRK

2-INTO-1 HIGH OUTPUT PCX™ EXHAUST SYSTEMS

- PCX™ (Power Chamber Exhaust) technology
- Chambered high-flow catalyst cartridge designed to increase torque
- Lightweight high-grade 304 stainless steel construction
- Hand TIG-welded
- Stepped from 1,75" to 1,875" to 2,0" and feed into 4" Hi-Output megaphone
- Fits with standard (non-stretched) saddlebags

BAGGER TRUE DUAL HEADER PIPES

- Made of 16-gauge steel and finished with show-quality chrome
- Supplied with three custom-fit heat shields
- Right-side pipe follows same clean lines as frame
- Can be used with Bassani mufflers or most 99-16 OEM-style aftermarket mufflers (sold separately)
- Includes 12 mm and 18 mm O_2 sensor port plugs
- Mounting instructions and hardware included

PART #	DESCRIPTION
1802-0132	For 99-08 FLT/FLHT/FLHR/FLTR/FLHX

2X2 DUAL HEADPIPES

- 1 3/4" diameter tubing with O_2 ports for 18 mm and 12 mm sensors
- Fits under the stock heat shields and utilizes a power chamber for added performance
- Made to fit with the stock slip-ons or Bassani Xhaust slip-on mufflers
- Utilizes stock crossover pipe
- Industrial chrome finish

PART #	DESCRIPTION
1802-0379	For 17-25 FLHT/FLHTK/FLHX/FLHR/FLTRX/FLTRU/FLTRK

CHROME 2X2 DUAL HEADPIPES

- 1 3/4" headpipes with 18 mm and 12 mm O_2 ports
- 2x2 design allows fitment of stock heat shields
- Advanced inner collector for maximum performance
- Made to fit with stock 95-16 slip-on mufflers or Bassani Xhaust slip-on mufflers

PART #	DESCRIPTION
1802-0326	For 09-16 FLHT/FLHR/FLHX/FLTRX

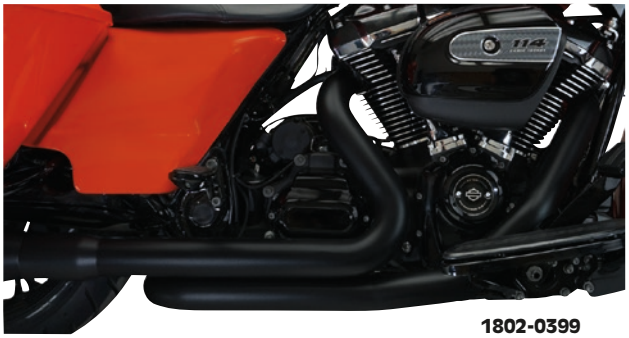
1802-0382

1802-0389

POWER TUNE® DUAL HEADERS

- Adds performance compared to the stock header pipes
- Independent dual-look with "under the bike" crossover
- Design moves the rear cylinder header away from the passenger to reduce radiated heat
- Stainless steel construction for superior corrosion resistance
- Heat shields with 220° coverage
- Hidden crossover passage between front and rear pipes for maximum performance
- Spherical inlet design for improved sealing and exhaust gasket durability
- All necessary hardware and exhaust port gaskets included
- Requires the use of symmetrical inlet 95-16 style mufflers



NOTE: Use of these headers on 09, 14-20 H-D FL Trike requires the use of Trike Adapter Kit PART #1802-0395.

PART #	DESCRIPTION
FOR 09-16 FLHT/FLHR/FLHX/FLTR	
1802-0355	Dual bungs w/ chrome heat shields

POWERPORT TRIKE DUAL HEADPIPES

- Display the clean look of a true-dual system, but pack the performance to back it up; because of the Cobra PowerPort crossover, this system performs like a 2-into-1 exhaust
- The PowerPort Dual headpipes fatten the low-end and mid-range torque curve, perfect for touring and highway use
- The headpipes arrive with the proper bends built in so there is no need to use adapters (all other aftermarket headpipes require "S" adapters to connect the headpipes to the mufflers – stock or aftermarket)
- The system consists of the headpipes, PowerPort section, heat shields and all of the mounting hardware needed to complete the installation
- 1,75" diameter

1802-0298

- Mufflers not included; 17-25 and 10-16 style headpipes accept 95-16 style mufflers
- Available in chrome and Raven black finishes (Raven black is slightly darker than standard black finish)

FOR DRESSER/TOURING MUFFLERS

1801-1051

POWR-FLO 4 1/2" SLIP-ON MUFFLERS

- 4,5" bodies taper to 4-inch round at the front
- 4,5" machined aluminum, thin-line tips
- 3" cores for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores create significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- Available in chrome finish
- Sold in pairs

PART #	DESCRIPTION
1801-1051	For 17-24 FLHT/FLHTK/FLHR/FLTRX/FLTRU/FLTRK/FLHX

4,5" RACE-PRO SLIP-ON MUFFLERS

- Bodies taper to 4" round at the front
- 4,5" machined aluminum thin line black tips are held in place with seven stainless steel, 12-point bolts
- Feature satin black laser-cut steel straps that tightly encircle the mufflers with built-in mounting straps
- 3" cores for superior performance
- The frequency and location of the perforation patterns in the cores create significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- Available in chrome and Raven black finishes (Raven black is slightly darker than standard black finish)
- Sold in pairs

FOR DRESSER/TOURING MUFFLERS

FREEWHEELER MUFFLERS

- Chromed 3,75" bodies bell to 4" at the rear
- Perforated constant-velocity cores wrapped in woven fiberglass provide the deep sound and improved performance
- Black powdercoated aluminum tips
- Same end point as stock mufflers
- Sold in pairs

PART #	DESCRIPTION
1801-0814	For 15-25 FLRT

TRI-GLIDE® MUFFLERS

- Designed specifically for H-D big trikes
- 3,75" muffler bodies are capped off with machined 3" radial slash-cut aluminum tips that step up to the bodies via a mild, yet graceful bevel
- This configuration allows the Cobra® tips to have the ground clearance equal to or in some cases greater than the stock system
- Internal construction of the muffler bodies consists of a 2,5" perforated constant-velocity core wrapped in woven fiberglass that is protected by a fiberglass wrap, providing outstanding performance with a deep thundering bass note
- Available in chrome with chromed aluminum tips
- Sold in pairs

PART #	DESCRIPTION
1801-0823	For 09-25 FLHTCUTG/FLHXXX

TRI-GLIDE ADAPTER KIT

- Allows Cobra® PowerPort Dresser headpipes and Cobra Mufflers to fit Tri-Glide and Freewheeler models
- Chrome-plated

NOTE: Not for use with rear suspension lift kits.

PART #	DESCRIPTION
1802-0285	For 09-16 FLHTCUTG/FLHXXX and 15-16 FLRT

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FOR DRESSER/TOURING MUFFLERS

1801-1456

1801-1457

TORQUER 450 SLIP-ON MUFFLERS

- Cutting-edge design that enhances the M-Eight or Twin Cam engine with a rich, bold roar and improved performance
- Massive 4 1/2" diameter muffler bodies
- CNC-machined billet end caps
- Work with stock headers or Vance & Hines Power Duals
- Vance & Hines quiet baffles are designed to work with the 17-25 Touring or 99-16 Twin Cam models; mounting hardware and installation instructions included
- Baffles reduce sound by approximately 2-3 decibels compared to standard baffles; offer a deeper rumble
- PART #1861-1603 has two different sized baffles in kit: works with 2 5/8" (right) and 1 3/4" (left) slip-on inlets for the M-Eight designed Touring slip-ons

FOR SOFTAIL
TRUE DUALS

DUAL EXHAUST SYSTEM WITH STRAIGHT MUFFLERS

- 1 3/4" headers are designed for maximum performance and include chrome full heat shields
- Chrome 2 1/4" straight mufflers for a classic Bassani sound
- Comes with 2" baffles and 18 mm O_2 bungs and 12 mm adapters
- Black billet aluminum end caps included

PART #	DESCRIPTION
1800-2428	For 18-24 FLHC/FLDE

1800-1752

SOFTAIL DUAL EXHAUST SYSTEMS

- Provides a classic dual-exit look while increasing performance
- 1 3/4" exhaust tubing provides improved exhaust flow; rear headpipe is not flattened to clear the coil bracket
- Removable louvered baffles increase back pressure and torque
- New coil-mounting bracket increases clearance for the tightly curved rear headpipe on 07-newer models
- 2 1/2" heat shield gives the classic straight pipe look
- Available with 2 1/2" billet tips or classic chromed steel fishtail-style tip
- Billet-tip style lines up with the rear fender
- Fishtail-style tips stick out 6" further than the standard billet tip for a more custom look
- 07-17 styles accept 12 mm and 18 mm O_2 sensors

1800-1753

PART #	DESCRIPTION
FOR 12-17 FLS/FLST/FXS	
1800-1750	W/ billet tips

PRO STREET SYSTEMS

- Features 16-gauge steel construction throughout
- 1 3/4" headpipes step to 2", then flow into 2 1/2" muffler bodies for increased flow and improved performance
- Designed to increase low-end torque and produce a deep, throaty exhaust note
- Includes heat shields, mounting brackets and hardware
- Includes O_2 sensor plugs for pre-07 applications
- Turn-out style mufflers (baffles are welded in place)

SPEEDSTER SHORT EXHAUST SYSTEMS WITH RACE PRO TIPS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep, aggressive exhaust tone
- PowerPort offers increased power and overall performance by providing superior scavenging of exhaust gasses over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- 1,75" diameter constant-velocity cores for exceptional sound and performance
- Race Pro Tips (RPT) design is adapted from Cobra's Race Pro 4" mufflers; the full-system heat shields expand in size from 2,5" to 2,75" at the system ends
- Exhaust tips mimic the machined Race Pro Tips; held in place with 12-point bolts
- Chrome exhausts feature satin black exhaust tips
- Black exhausts feature machined aluminum clear-coated exhaust tips

PART #	DESCRIPTION

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Swept system is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Swept exhaust requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

PART #	DESCRIPTION
FOR 18-25 FXFB/FXFBS/FXBB/FXLRS/FLSL/FXST	
1800-2748[1, 3]	Chrome
1800-2751[1, 2]	Chrome
1800-2749[1, 3]	Black
1800-2752[1, 2]	Black
1800-2750[1, 3]	Stainless steel
1800-2753[1, 2]	Stainless steel
1861-1837	Optional black exhaust bracket for PART #s 1800-2748 thru -2753
FOR 22-25 FXLRST/FLHC	
1800-2742[3]	Chrome
1800-2745[2]	Chrome
1800-2743[3]	Black

PART #	DESCRIPTION
FOR 22-25 FXLRST/FLHC (CONT)	
1800-2746[2]	Black
1800-2744[3]	Stainless steel
1800-2747[2]	Stainless steel
FOR 18-24 FXST/FXBB/FXBBS/FXLR/FXLRS/FXFB/FXFBS AND FLSL	
1800-2672[2]	Chrome
1800-2671[2]	Black
1800-2667[2]	Stainless steel

[1] Will fit 22-25 FXLRST/FXRST/FLHC, 18-21 FLSB if exhaust bracket PART #1861-1837 is used.
[2] Catalyzed baffle core.
[3] Race baffle.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FOR SOFTAIL
2-INTO-1

2-INTO-1 EXHAUST SYSTEM WITH SUPER BIKER MUFFLER

- Stepped 1 3/4" to 1 7/8" stainless steel headpipes
- PART #1800-2690 features a 4" muffler body with non-removable catalytic baffle core and tapered end cap
- Features TIG welding, 18 mm O_2 bungs and 12 mm adapters
- Partial heat shield covers the rear cylinder headpipe
- Brushed stainless steel finish

PART #	DESCRIPTION
FOR 18-25 FXBB/FXBBS/FXLRS, 18-21 FLHC, 20-24 FXST	
1800-2690[1]	Stainless steel
1800-2656[1]	Stainless steel

PART #	DESCRIPTION
FOR 18-25 FXBB/FXBBS/FXLRS, 18-21 FLHC, 20-24 FXST (CONT)	
1861-1840	Optional exhaust bracket for PART #s 1800-2690, 1800-2656

[1] Will fit 20-25 FXLRST/FLHC, 22 FXRST, 18-21 FLSB if optional exhaust bracket 1861-1840 is used.

ROAD RAGE 2-INTO-1 SYSTEM WITH SUPERBIKE MUFFLER

- 2-into-1 headers welded to collector and muffler
- Stepped 1 3/4" to 1 7/8" headpipes
- Utilizes an advanced inner collector for maximum performance
- Stainless steel construction
- Partial stainless heat shields
- Hand TIG welding
- 18 mm O_2 bungs with 12 mm adapters
- Megaphone muffler

PART #	DESCRIPTION
FOR 22-25 FXLRST/FLHCS, 22-25 FLHC, 18-21 FLSB	
1800-2756	Black w/ black partial heat shields
1800-2556[1]	Stainless steel w/ stainless steel partial heat shields

PART #	DESCRIPTION
FOR 22-25 FXLRST/FLHCS, 22-25 FLHC, 18-21 FLSB (CONT)	
1861-1836	Optional exhaust bracket for PART #1800-2556

[1] Will fit 22-25 FXLRST/FXRST, 22-25 FLHC, 18-21 FLSB if optional exhaust bracket PART #1861-1836 is used.

ROAD RAGE II B1 POWER 2-INTO-1 SYSTEM

- Designed specifically to address the needs of tuned motors built for high horsepower applications
- Uses a unique extended inner collector to maximize performance
- Features equal-length stepped headpipes with 1-step increase, 1 3/4" to 1 7/8"
- 4" straight-style performance muffler body with 2 1/2" x 16 1/2" baffle and black billet end cap with contrasting machined flutes
- Chrome finish
- Includes full-coverage heat shields
- O_2 sensor port plugs included for non-sensor applications

PART #	DESCRIPTION
1800-1510	For 00-17 FXS/FXST/FLS/FLST (except FXSB/FXSE)

PART #	DESCRIPTION
1860-0928	Repl. baffle (ea.)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FOR SOFTAIL
2-INTO-1

ROAD RAGE 2-INTO-1 SYSTEMS

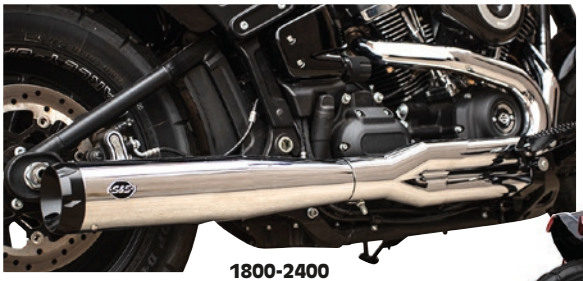
- Stepped headers merge into a true reverse-cone megaphone muffler
- 1 3/4" headpipe steps up to 1 7/8" into the collector to increase flow and improve performance
- Removable spiral-core louvered baffle included
- 4" muffler body with billet end cap
- Includes mounting hardware
- Available in long (24" L) and short (21" L) muffler lengths with chrome or black finish

1860-0497

1860-0662

- Heat shields included
- Includes 12 mm and 18 mm O_2 port plugs

PART #	DESCRIPTION
FOR 18-24 FXBR/S, 18-25 FLFB/S, 19-20 FXDR/S	
1800-2357[1]	Chrome, 15 1/2" short
1800-2358[1]	Black, 15 1/2" short
FOR 18-24 FLHC/S, FLDE	
1800-2308	Chrome, 24" long
1800-2309	Black, 24" long
FOR 18-25 FXBB/FXLR/FXFB/FLSL, 20-25 FXST	
1800-2269[3, 4]	Chrome, 15 1/2" short
1800-2245[3, 4]	Black, 15 1/2" short
1800-2243[3, 4]	Stainless steel, 15 1/2" short
FOR 18-21 FLSB, 22-23 FXLRST	
1800-2363[3, 4]	Chrome, 15 1/2" short
1800-2364[3, 4]	Black, 15 1/2" short
FOR 00-17 FXS/FXST/FLS/FLST (EXCEPT 13-17 FXSB/FXSE, 09 FXSTSSE)	
1800-1151[2]	Chrome, 24" long
1800-1155[2]	Black, 24" long
1800-1299[2]	Chrome, 21" short
1800-1300[2]	Black, 21" short
BAFFLES, HEAT SHIELDS AND END CAPS	
1861-0762	2 1/2" ID performance baffle for PART #s 1800-1149, 1800-1298
1860-0541	2 1/2" ID quiet baffle for PART #s 1800-0655, 1800-0657, 1800-0656, 1800-0658, 1800-1237, 1800-1238
1860-0519	2" ID standard baffle for PART #s 1800-0663, 1800-0664, 1800-0831, 1800-0832, 1800-0826, 1800-1286
1860-0494	Opt. polished billet end cap w/ 1" lip for long mufflers PART #s 1800-0650, 1800-0655, 1800-0656, 1800-0659, 1800-0660, 1800-0825, 1800-1013, 1800-1087 (for chrome or black ceramic) (ea.)



PART #	DESCRIPTION
BAFFLES, HEAT SHIELDS AND END CAPS (CONT)	
1860-0496	Opt. polished billet end cap w/ 1/2" lip for short mufflers PART #s 1800-0663, 1800-0826, 1800-0831, 1800-0832, 1800-1089 (for chrome or black ceramic) (ea.)
1860-0497	Opt. black powdercoated end cap w/ 1/2" lip for short mufflers PART #s 1800-0663, 1800-0826, 1800-0831, 1800-0832, 1800-1089 (for chrome or black ceramic) (ea.)
1860-0532	Opt. black powdercoated end cap w/ contrasting machined flutes for PART #s 1800-0655, 1800-0656, 1800-0659, 1800-0660, 1800-1010, 1800-1087, 1800-1151, 1800-1160, 1800-1164, 1800-1168, 1800-1172, 1800-1248, 1800-1249, 1801-0184, 1801-0185, 1802-0119, 1810-2002, 1810-2003, 1861-0381 (ea.)
1860-0662	Opt. black billet end cap w/ black coating w/ contrasting machined flutes for all short megaphone style mufflers (ea.)
1860-1053	Opt. black billet end cap for all 3,5" megaphone style mufflers (ea.)
1861-1838[3, 4]	Optional black exhaust bracket for PART #s 1800-2363, 1800-2364, 1800-2243, 1800-2245, 1800-2269
1861-1649	Bracket for mounting PART #s 1800-2519 and 1800-2245 to FXLRST

[1] Split design.
[2] Includes O_2 sensor plugs for pre-07 models.
[3] Will fit 25 FXLRST/FXRST/FLHC if exhaust bracket PART #1861-1838 is used.
[4] Will fit 22-24 FXLRST/FXRST, 22-24 FLHC, 18-21 FLSB if exhaust bracket PART #1861-1649 is used.

FOR DYNA GLIDE
2-INTO-2

SPEEDSTER SHORT SWEPT EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
FOR 12-17 DYNA (EXCEPT FLD)

FOR DYNA GLIDE
2-INTO-1

RIPPER SUPER BIKE 2-INTO-1 EXHAUST SYSTEM

- Stepped headers 1 3/4" to 1 7/8" designed for maximum performance and more ground clearance
- Utilizes an advanced inner collector for maximum performance
- Upswept Super Bike 4" stainless muffler body with aluminum end cap and a new removable conical performance baffle delivers an all new aggressive exhaust sound
- Stainless steel construction
- Hand TIG-welded
- Includes 18 mm O_2 bungs for tuning, 12 mm adapters and plugs
- Full coverage stainless heat shields for the front and rear header pipes included

PART #	DESCRIPTION
1800-2623	For 06-17 Dyna w/ mid controls

THE RIPPER SHORT ROAD RAGE 2-INTO-1 EXHAUST SYSTEMS

- Design with a louder, more aggressive tone than the Shorty Road Rage exhaust systems
- Stepped 1 3/4" to 1 7/8" headpipes
- Fully welded one-piece design
- 10" megaphone muffler with a removable louvered baffle that measures 10" x 2.25"
- Mild steel construction with full heat shields on chrome and black systems; stainless system has partial heat shields
- 18 mm O_2 bungs with 12 mm adapters

2-INTO-1

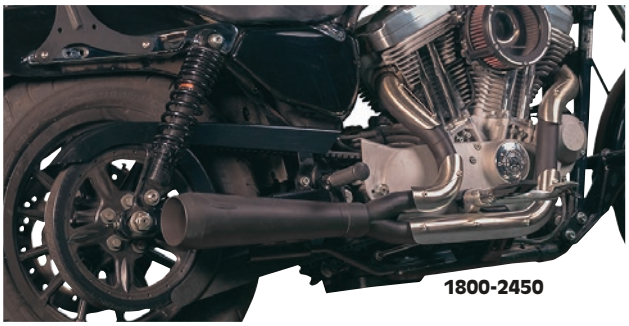
RINEHART RACING

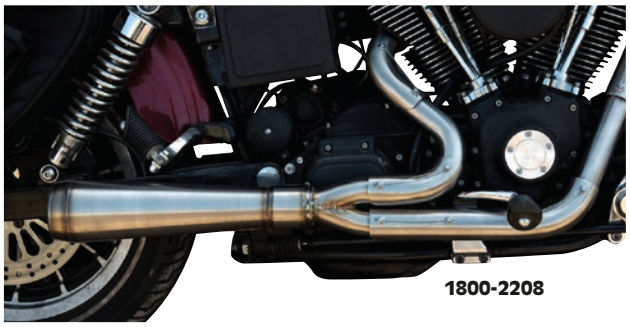
2-INTO-1 EXHAUST SYSTEM

- Race-proven technology and design
- Multi-stepped header design for better flow and power
- Anti-reversion louver technology, providing low-, mid- and high-end torque and increased horsepower over stock
- Equalized back pressure ensures solid response without sacrificing performance
- Design highlights half-megaphone/half-straight 4" muffler with a 4" billet end cap and heat shields that fit seamlessly over collector and primary tube
- Black finish with black end caps
- Includes 18 mm O_2 sensor ports
- Replacement end caps available separately; see page 448

NOTE: 12-17 Dyna models require bung adapter kit.

PART #	DESCRIPTION
1800-2018	For 06-17 FXD/FXDWG





QUALIFIER 2-INTO-1 RACE EXHAUST SYSTEM

- Full stainless steel construction
- Computer-aided stepped header design to maximize power output
- Precision bends allow for class-leading ground clearance
- Full-length heat shields on front and rear header pipes
- Race-inspired S&S end cap
- Sound reducer dB insert included
- Oxygen sensor ports allow use of wide band or stock O_2 sensors

PART #	DESCRIPTION
FOR 06-07 DYNA MODELS (EXCEPT CVO MODELS)

EL DIABLO 2-INTO-1 EXHAUST SYSTEMS

- Uses equal-length exhaust headers mated to a cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Available in chrome or black finishes

1800-1919

POWERPRO HP 2-INTO-1 RPT EXHAUST SYSTEMS

- This updated 2-into-1 exhaust system provides real-world performance gains matched by the deep throaty rumble you expect
- The 4" muffler body produces a deep rumble, and is capped off with a machined aluminum, powdercoated matte black RacePro Tip (RPT)
- 222° heat shields and Cobra's unique collector give your bike an aggressive appearance
- Internally, the muffler uses the same sound-control technology as Cobra's Bagger slip-on mufflers, providing one of the deepest tones available
- Muffler body is constructed to prevent blueing
- Available in chrome and black finishes

NOTE: Does not work with passenger footpegs.

1800-1747	Chrome heat shields
FOR 14-22 XL (EXCEPT RH SPORTSTER) (CONT)	
1800-1748	Black heat shields

SPEEDSTER SHORTS WITH RACEPRO TIPS

- PowrPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowrPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Available in short style with RacePro Tips
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- O_2 bungs installed

PART #	DESCRIPTION
1800-1649	For 14-22 XL (except RH Sportster)

SPEEDSTER SLASHDOWN EXHAUST SYSTEM

- PowrPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowrPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

EL DIABLO 2-INTO-1 EXHAUST SYSTEMS

- Uses equal-length exhaust headers mated to a chrome cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- 4" machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Chrome full-length heat shields

1802-0405

SLIP-ON SERIES MUFFLER AND LINK PIPE

- Created to fit seamlessly within the lines of the bike and utilizing a design used on Akrapovic products for the Adventure bike sector
- Highly durable slip-on has a sandblasted high-grade titanium muffler outer sleeve
- Handmade carbon fiber end cap and heat shield perfectly follow the profile of the muffler
- Weight savings of 11,6% or 0,5 kg (1 lb) over stock
- Slip-on increases power/torque and offers a deep, full V-twin sound
- Slip-on needs no remapping to the ECU, simple plug-and-play installation
- Compatible with the original Harley-Davidson side cases, saddlebags and centerstand
- Optional stainless steel link pipe is designed to raise power and torque levels, reduce weight and increase gas flow; sold separately
- Optional stainless steel link pipe was developed to be used with slip-on PART #1801-1497 and is intended for use on racetracks and closed courses only
- Installing the optional link pipe removes the stock pre-muffler, benefitting from a weight reduction of an impressive 76,5% or 1,9 kg (4 lb) over the stock version
- Optional stainless steel link pipe serves up a deep racing tone, perfectly in keeping with the V-twin engine
- No remapping of the ECU is required during installation of the optional stainless steel link pipe

PART #	DESCRIPTION	APPROVALS
FOR 21-24 RA1250/S PAN AMERICA		
1801-1497	Single titanium muffler w/ carbon end cap	EC/ECE Type Approval (installing optional link pipe invalidates the EC/ECE Approval)
1802-0405	Stainless link pipe	-

PART #	DESCRIPTION
FOR 99-24 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK (CONT)	
1861-1517	Replacement bracket only; repl. OEM #65723-85

REPLACEMENT CHROME MUFFLER SUPPORT

- 1" OD steel tubing

PART #	DESCRIPTION
DS-209940	For 86-03 XL; repl. OEM #65599-80A

RUBBER MUFFLER MOUNTS

- High-quality replacement component
- Sold in pairs

PART #	DESCRIPTION
1861-0808	For 99-23 FLT/FLHT/FLHR/FLHX/FLTR and H-D FL Trike; repl. OEM #65724-85/85A

EXHAUST STUDS

- $^{5}/_{16}$"-18, $^{5}/_{16}$"-24 x 1,910"
- Zinc-plated, steel
- Sold each or in 5-pack

FOR 99-17 TWIN CAM; REPL. OEM #16715-83

PART #	DESCRIPTION	PART #	DESCRIPTION
0930-0136	Each	2401-1016	5 pk.

EXHAUST STUDS

- Sold in pack of six
- Coarse thread (#18) to fine thread (#24)

PART #	DESCRIPTION
DS-197019	For all 99-25 Big Twin and 86-22 XL (except RH Sportster); repl. OEM #16715-83

EXHAUST T-BOLTS

- Measures $^{5}/_{16}$" x 1" L
- T is $^{5}/_{8}$" x 1 $^{1}/_{2}$" L
- Nut with star washer included
- Sold in pairs

PART #	DESCRIPTION
2404-0649	T-Bolts

EXHAUST PORT STUDS AND NUTS

- Kit includes four zinc-plated studs and four chrome-plated flanged nuts; replaces OEM #16715-83

PART #	DESCRIPTION
2401-0126	For 99-25 Big Twin, 86-22 XL (except RH Sportster)

EXHAUST NUTS

- $^{5}/_{16}$"-24 acorn and flange exhaust nuts
- Chrome-plated

PART #	DESCRIPTION	QTY.
FOR 00-23 BIG TWIN		
0934-6499	Exhaust acorn nut	4 pk.

PART #	DESCRIPTION	QTY.
FOR 00-23 BIG TWIN (CONT)		
0934-6500	Exhaust flange nut	8 pk.

REPLACEMENT COMPONENTS FOR VANCE & HINES EXHAUST SYSTEMS

- Replacement Allen cap screws for the "Supersport" and "SS2-R" exhaust systems
- Use these screws to reattach the can to the nose tip and end cap; sold as a set of 12

PART #	DESCRIPTION
V22533	Allen cap screw kit

- Dog Bone includes two nut plates and four $^{5}/_{16}$" -18 x $^{5}/_{8}$" bolts
- Fits all Vance & Hines systems and slip-on mufflers that use the dog bone style attachment system

PART #	DESCRIPTION
1860-0547	Dog Bone kit

EXHAUST DEALER SERVICE KIT FOR S&S EURO 4 MUFFLERS

- Everything needed to perform a required exhaust system service or end cap replacement
- Kit includes tamper-proof screws and S&S proprietary tamper-proof screw bit

PART #	DESCRIPTION
3850-0481	Dealer service kit for S&S EURO 4 exhaust

FLOORBOARD SPACER KIT

- Provides extra room when installing Bassani Xhaust full systems, true dual or dual headpipes
- Kit includes one $^{3}/_{8}$"-16 x 3" socket cap head bolt, one $^{3}/_{8}$"-16 x 1 $^{11}/_{16}$" socket cap head bolt, two $^{3}/_{8}$" split lock washers and two black steel spacers
- Improves spacing between the exhaust components and driver floorboards and brake lever

PART #	DESCRIPTION
1621-1205	For 14-21 FLHTKSE, 09-13 FLHTCUSE, 10/15-25 FLHXSE, 12/18-25 FLTRXSE, 24-25 FLTRXSTSE, 09 FLTRSE, 14 FLHRSE

KHROME WERKS

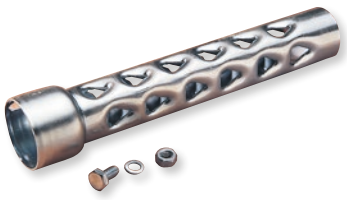
HP PLUS® DRAG PIPE BAFFLES AND INSERTS

DRAG PIPE BAFFLES

- HP Plus® perforate core baffles dampen sound without impeding flow-through performance
- All steel construction
- Install easily on 1 3/4" or 2", 16 or 18-gauge drag pipes
- Baffles held by 1/4"-20 screws and locking nuts
- Sold in pairs or each as noted

INSERTS



- Create the proper restriction for big torque numbers low in the rpm range or change the sound to your liking
- Cone reducer kit adds torque to bottom end; hits hard at 2K rpm
- Louvered inserts are best for balanced builds looking for power delivery across the rpm range
- Performance inserts are designed for big torque numbers; hits hard 2K rpm and up
- Plug reduces noise and comply with SAE J2825 sound test with no appreciable loss of performance
- Ripper inserts create the noise, allowing your bike to be heard
- Sound kit takes off 4 dB at idle and improves low-end torque with minimal loss of top-end horsepower
- Easy installation with basic hand tools

HEADER WRAP KIT

- Features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape locks in heat and reduces the radiant heat by 50%
- Kit will wrap two motorcycle headers thoroughly
- Includes 5 cm W x 7,6 m L (2" W x 25' L) roll of black wrap tape, two Vance & Hines Wrap Clamps and six locking stainless steel ties

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this Kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the headpipe, thereby raising the headpipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the headpipe material, and may ultimately lead to cracks in the headpipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

PART #	DESCRIPTION
1861-0622	Black exhaust wrap kit

1861-1112

WOVEN BASALT EXHAUST WRAP KITS

- Made of basalt lava rock material for extreme heat applications
- Temperature rating of 982 °C (1.800 °F) continuous/1.371 °C (2.500 °F) intermittent
- Includes four 35,5 cm (14") ball bearing and barb-locking stainless steel ties; replacement ties also available (PART #1861-0670)
- Glossy bronze color

PART #	DESCRIPTION
1861-1111	25 mm W x 7,6 m L (1" x 25')

MUFFLER PACKING

- Heavy-duty 649 °C (1.200 °F) muffler packing
- Can be split in half to allow for double use

PART #	DESCRIPTION
1861-0696	40,5 cm L x 28 cm W x 25 mm H (16" L x 11" W x 1")

1860-0198

UNIVERSAL CORE REPACK KITS

- High-grade fiberglass matting
- Kit PART #1860-0198 includes 9" x 16" fiberglass matting; enough material to repack two baffle cores
- Kit PART #1860-0510 includes two 14 1/2" x 12 1/2" x 1/2" thick fiberglass mats and two 14" x 8 1/2" woven thin mats

PART #	DESCRIPTION
1860-0198	Repack kit, 9" x 16"
1860-0510	Repack kit, 14 1/2" x 12 1/2" and 14" x 8 1/2"

V16106

FIBERGLASS REPACKING KITS

- Available in two sizes

PART #	DESCRIPTION
V16106	Fiberglass repacking kit, 20" x 12 1/2" x 3/8"
V16108	Fiberglass repacking kit, 13" x 9 1/2" x 3/8"

EBC BRAKES

BAFFLE PACK

- Silencer repacking material
- Material is labeled and conforms to BSAU 193T2
- Pack contains 250 g of silencer wool

PART #	DESCRIPTION
1860-0436	Baffle Pack

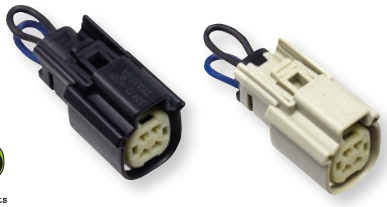
NAMZ Custom Cycle Products

O_2 SENSOR HARNESS EXTENSION AND BUNG ADAPTER

- Now you can use 09 Dresser exhaust pipes on 10-16 Dresser models
- Reduces the 18 mm O_2 bungs on 09 models to 12 mm O_2 bungs
- Uses NAMZ simple Plug-N-Play wiring harness technology; no cutting or splicing required

PART #	DESCRIPTION
1861-0608	O_2 extension harness

NAMZ Custom Cycle Products



O_2 SENSOR HARNESS EXTENSION AND BUNG ADAPTER

- Allows the use of exhaust systems with 18 mm O_2 sensor bungs to be used with late model bikes with 12 mm O_2 sensors
- Reduces the 18 mm O_2 bungs to 12 mm O_2 bungs used on many 10-20 models
- Wiring harness comes pre-assembled with connector pins

PART #	DESCRIPTION
1861-0789	O_2 extension harness

NAMZ Custom Cycle Products

PLUG KIT O2 SENSOR BYPASS

- Allows you to bypass OEM O_2 sensors when changing from the stock exhaust
- For OEM sensor wiring harness

PART #	DESCRIPTION
2120-1169	For 10-24 OEM sensor wiring harness

FEULING

O_2 SENSORS

- Precision manufactured with a ceramic body made of stabilized zirconium dioxide, surface coated with gas-permeable platinum electrodes and a porous ceramic to help prevent erosion due to contamination and particulates in the exhaust gases
- Slow reading oxygen sensors can cause a drop in fuel economy of 10 to 15%, excessive exhaust emissions and poor drivability
- Life expectancy of an average oxygen sensor in a properly tuned engine is typically 30.000 to 50.000 miles
- Available in various overall lengths
- All sensors meet or exceed OE specifications
- Sold each

PART #	DESCRIPTION	LOCATION
12 MM NARROW BAND O_2 SENSORS		
1861-1647	For 17-25 Touring/H-D FL Trike	Front (gray 4-wire connector, 52")
1861-1107	For 10-16 Touring/H-D FL Trike	Front (black 4-wire connector, 29")
1861-1106	For 10-25 Touring/H-D FL Trike	Rear (black 4-wire connector, 29")
1861-1253	For 18-25 Softail	Front and rear (16")
1861-1363	For 12-17 Softail/Dyna/V-Rod	Front (17")
1861-1362	For 12-17 Softail/Dyna/V-Rod	Rear (21")
1861-1362	For 14-19 XL	Front and rear (21")
18 MM NARROW BAND O_2 SENSORS		
1861-0885	For 09 Touring/V-Rod	Front (16,25")
1861-0884	For 09 Touring	Rear (12,5")
1861-0884	For 07-08 Touring, 07-13 XL	Front and rear (12,5")
1861-0885	For 07-11 Softail, 06-11 Dyna	Front and rear (16,25")

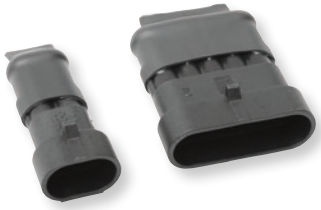
O_2 SENSORS

- Plug-and-play Planar oxygen sensor
- Isolated ground for added robustness
- Enables closed-loop control for better emissions control
- Precision made for outstanding performance
- Improved fuel economy and longer sensor life
- Manufactured to meet and exceed all OEM specifications
- Sold each

PART #	DESCRIPTION
12 MM NARROW BAND O_2 SENSORS	
1860-2512	For 17-20 Touring/H-D FL Trike (front); repl. OEM #32700046
1860-2507	For 10-20 Touring/H-D FL Trike (rear); repl. OEM #27809-10
1860-2508	For 10-16 Touring/H-D FL Trike, 15-20 XG Street (front); repl. OEM #27729-10
1860-2506	For 12-17 Softail, 12-17 Dyna, 14-21 XL (except RH Sportster), 13-17 V-Rod, 15-20 XG Street (rear); repl. OEM #32700006
12 MM NARROW BAND O_2 SENSORS (CONT)	
1860-2509	For 12-17 Softail, 12-17 Dyna, 13-17 V-Rod (front); repl. OEM #32700005
1860-2510	For 14-21 XL (except RH Sportster) (front only); repl. OEM #32700026
18 MM NARROW BAND O_2 SENSOR	
1860-2513	For 08 V-Rod (front and rear), 09-11 V-Rod (rear); repl. OEM #27703-08

DRAG Specialties

O_2 SENSOR BUNG ADAPTER KIT



- Reduces 18 mm exhaust bungs to 12 mm for 10-19 models
- Includes extension wire to allow the front sensor to reach the new installation location
- Kit includes two adapters, extension wire, wire connectors and instructions

PART #	DESCRIPTION
1861-0594	O_2 sensor bung adapter kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

ACTIVE INTAKE AND EXHAUST ELIMINATOR KIT

- Used to avoid setting a diagnostic trouble code when installing some aftermarket air filters and exhaust that require the removal of original equipment active systems; for off-road racing use only

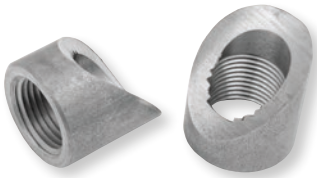
PART #	DESCRIPTION
1020-1479	For late-model European spec models w/ active intake and exhaust

1861-0831

1861-0832

O_2 SENSOR WELD-IN BUNGS AND PLUGS

- Allow for easy installation of oxygen sensors
- Sold each



PART #	DESCRIPTION
WELD-IN SENSOR BUNGS	
1861-0831	18 mm x 1,5 stainless steel
7806-1563	18 mm x 1,5 steel
SOCKET PLUGS	
1861-0832	12 mm x 1,25 steel
1861-0833	18 mm x 1,5 stainless steel

O_2 WELD-IN SENSOR BUNGS

- Used to install O_2 sensors in exhaust systems
- Weld-in style
- Available in 12 x 1,25 mm or 18 x 1,5 mm styles
- Available in a standard straight style, or machined at a 45° angle
- Sold in pairs

1861-0560

1861-0694

PART #	DESCRIPTION
STRAIGHT	
1861-0561	12 mm x 1,25
1861-0560[1]	18 mm x 1,5

PART #	DESCRIPTION
45° ANGLE	
1861-0695	12 mm x 1,25
1861-0694	18 mm x 1,5

[1] Stainless steel.

O_2 SENSOR BUNG, PLUG AND WASHER KIT

- Weld-in O_2 sensor bung allows installation of O_2 sensors in most exhaust systems; 18 mm x 1,5

PART #	DESCRIPTION
1861-0728	O_2 sensor bung, plug and washer kit

1861-0496

O_2 SENSOR PORT PLUGS

- Works with any O_2 sensor port fitting
- Two sizes available: 18 x 1,5 mm or 12 x 1,25 mm
- Sold each

PART #	DESCRIPTION
1861-0562	12 x 1,25 mm

PART #	DESCRIPTION
1861-0496	18 x 1,5 mm

1861-0790

1861-0607

1861-0464

O_2 SENSOR PORT PLUGS

- Allow non-sensor H-D models to run newer-style exhaust systems equipped with O_2 sensor ports
- Simply screw into non-essential sensor ports
- Sold in pairs

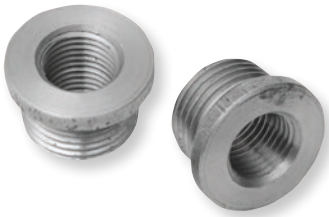
PART #	DESCRIPTION
1861-0791	12 mm x 1,25

PART #	DESCRIPTION
1861-0790	18 mm x 1,5

O_2 SENSOR PORT PLUG KITS

- Allow select pre-closed-loop H-D models to run newer-style exhaust systems equipped with O_2 sensor ports
- Include two zinc-plated plugs with sealing washers
- Simply screw into nonessential sensor ports

PART #	DESCRIPTION
1861-0607	12 mm x 1,25



PART #	DESCRIPTION
1861-0464	18 mm x 1,5

O_2 PORT BUSHING ADAPTER

- Reduce the O_2 port from 18 mm to 12 mm

PART #	DESCRIPTION
1861-1185	O_2 port bushing adapter

O_2 PORT BUSHING ADAPTERS

- Threaded outer and inner adapters reduce O_2 sensor port from 18 mm to 12 mm, allowing riders to use our exhaust pipes on select, newer-model motorcycles
- Sold in pairs

PART #	DESCRIPTION
1861-0784	O_2 port bushing adapters

CENTURION SUPER PRO PLUS PROFESSIONAL DIAGNOSTIC TOOL SYSTEM

- The industry's only complete professional diagnostic and tuning tool system designed for independent professional repair facilities
- Communicates with ALL 97-25 Harley-Davidson and Buell models using the included proprietary VCM-TR4 Communication Module and included cables
- Works with limited features also with all Indian models with Delphi EFI System up to 17 and Victory models from 03-17
- Re-flash blank ECU, BCM and Key Fobs
- Centurion recovers locked security modules (TSSM/BCM) without the costly replacement of the TSSM or BCM
- Perform radio, speaker, lighting and navigation system configuration on all models
- Easily perform speedometer calibration on 2005+ models
- ABS bleeding and solenoid testing
- Read and clear Diagnostic Trouble Codes (DTC)
- Reset air/fuel values
- Perform active tests on tachometer, speedometer, fuel pump, idle rpm, system relays, cooling fans, alarm, IAC, ACR compression, injector coils, coolant pump, left- or right-side turn signals and other systems
- Centurion Super Pro Plus equals in functionality with OEM Indian and Victory diagnostics
- LED indicator tests for 6th gear, ABS service, battery, check engine, cruise control, high and low beam, neutral, oil, security and coolant temp
- View real-time data in strip chart or digital dashboard formats
- Enable/disable TPMS Module
- TPMS replacement and manual sensor coding
- Chassis fan active test; can enable/disable chassis fan function
- Enable/disable oil fan function
- Enable/disable fork lock function
- Can perform ECU cloning of an original ECU to a blank ECU
- IAC active test with step plot
- Throttle actuator and throttle grip active test with voltage and degree plot (CAN bus models)
- BCM/TSSM (HSFM) system info capability
- ABS system info
- Radio system info
- Speedometer system info
- VCM data recording
- Enable/disable auxiliary 1 and auxiliary 2
- Enable/disable SMS text messaging function
- Additional parameters on data monitoring charts
- Requires use of a Windows PC, laptop or tablet; connect using included cable
- Fast data acquisition and many hours of data storage provide accuracy and save time
- Can easily update the software online through TechnoResearch to stay current on all features, years and model types
- Included VCM-TR4 Communication Module is fully compatible with Direct Link and Tune Builder keys (sold separately)
- Diagnostic license model updates for Centurion Super Pro Plus PART #s 1020-3008 and 1020-3009 are available separately; no returns

NOTE: Does not support ABS module programming (dealership only), features for Street XG500/750 BCM, blank ECU programming and cloning for 21-24 models, 21-24 speedometer pairing or 23,5/24 Skyline OS equipped models (CVO, RG, SG).

PART #	DESCRIPTION
CENTURION SUPER PRO PLUS	
3807-0314	For 97-25 H-D/Buell models (except 24-25 FLHX/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 Softail, RH1250S, RH975/975S, RA1250)
DIAGNOSTIC LICENSE MODEL UPDATES FOR CENTURION SUPER PRO PLUS	
1020-3008	Centurion Update

VCM-TR4 PERFORMANCE DEALER PACK

- Includes VCM-TR4, Master Key, 4-Pin and 6-Pin cable, extension cable, USB cable, two digital licenses (for two motorcycles); additional tuning licenses sold separately (PART #1020-2852)
- Tune and modify ECU tables
- Back-up and restore the original map
- Fast data acquisitions and display
- Provides power from motorcycle for wideband O_2
- Record/monitor wideband O_2 sensors
- Ideal for any size workshop or dealer
- Provides the user with tools to modify the fuel-injection pulse-width, spark timing and other calibration values, and then store them in ECU/ECM flash memory
- Adjust additional parameters by editing look-up tables
- Software also enables data monitoring and logging
- Auto-Mapping, available with an optional Wideband O_2 controller permits tuning with even better precision
- With Direct Link (Flash-Tuner), you will maximize the performance of any fuel-injected race or street bike

PART #	DESCRIPTION
1020-2851	For all 01-24 Harley-Davidson w/ Delphi EFI systems

WIDEBAND O_2 SENSOR SYSTEM TRO_2

- No calibration required
- Soft start technology
- Two analog outputs, one digital input and one digital output
- Bosch LSU 4.2 sensor
- Compatible with multiple fuels
- Sensor is hand tested
- Digital precision
- Includes 12V power input, 4 prong analog clip, termination jumper, serial RX plug (In), serial TX plug (Out) and sensor input clip

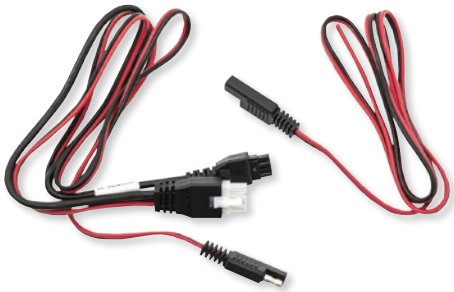
PART #	DESCRIPTION
1022-0215	Wideband O_2 sensor system TRO_2

3-IN-1 VCM-TR4 CABLE

- Combines the three Data Link Connector (DLC) styles of H-D for less wear and tear on your VCM-TR4
- Compatible with the 4-pin J1850 DLC from 01-14 models, the 6-pin CAN DLC through 2020 models and newer Harley-Davidson EURO5 compatible DLC (21)

NOTE: For use with the TR4 family of TechnoResearch VCMs only.

PART #	DESCRIPTION
2120-1155	3-in-1 VCM-TR4 cable



SECURITY CABLE

- Cable required for advanced BCM security recovery functions on 2021 motorcycles (backwards compatible)
- Replace the crocodile wire of the Centurion kit

NOTE: For use with the TR4 family of TechnoResearch VCMs only.

PART #	DESCRIPTION
2120-1160	Security cable

TRO_2 ADAPTER CABLE

- Cable for directly sourcing power between the battery and the TRO_2 controller

NOTE: For use with the TR4 family of TechnoResearch VCMs only.

PART #	DESCRIPTION
2120-1159	TRO_2 adapter cable

ECM REFURBISHING LICENSE FOR CENTURION SUPER PRO

- With the H-D ECM refurbishing license, you can refurbish used ECMs and keep your customer's Harley-Davidson motorcycles operating at their best
- Enables a wide range of refurbishing capabilities like converting a XL1200 ECM for an XL883, adapting a Twin-Cooled ECM for an air-cooled engine or retrofitting a 07 ECM to a 01-05 model
- Modify the VIN on a used ECM to match your customer's Harley-Davidson
- Restore and update the ECM to OEM/stock calibration, ensuring the motorcycle operates as if it were new
- ECM automatically updates its configuration to match stock settings, eliminating manual setup hassle
- Simple and straightforward requirements: verify that the ECM is compatible with the target vehicle model, maintain an up-to-date Centurion Super Pro license to ensure software compatibility/ support and purchase a license for each ECM refurbishment job

NOTE: Does not clear the pre-existing odometer reading in the ECM. The higher of the odometer readings from the ECM or the speedometer will be synchronized and adopted by both.

NOTE: TechnoResearch service does not unlock ECMs that are secured against modifications.

NOTE: Any custom tuning or calibrations previously applied will NOT be retained after refurbishment; only OEM calibrations are restored.

PART #	DESCRIPTION
1020-4284	ECM refurbishing license for Centurion Super Pro

USB DIRECT LINK LICENSE

- USB key including one license PART #1020-2852
- Maximize the performance of Harley-Davidson fuel-injection
- Requires Centurion hardware - VCM-TR4
- Can be used on one motorcycle an unlimited amount of times, but not multiple motorcycles
- No return
- Sold each

PART #	DESCRIPTION
1020-3222	USB Direct Link (ea.)

DIGITAL DIRECT LINK LICENSE

- For Centurion Super Pro Plus or VCM-TR4
- Can be used on one motorcycle an unlimited amount of times, but NOT multiple motorcycles
- No inventory to stock
- Buy as you go
- Cost effective
- Save time and money
- Sold each

NOTE: Licenses cannot be returned.

PART #	DESCRIPTION
1020-2852	Additional digital tuning license for PART #s 3807-0314 and 1020-2851

CENTURION SUPER PRO PLUS DIAGNOSTICS USB LICENSE KEY

- The Centurion Diagnostics USB license key is needed to run the Centurion Super Pro Plus (H-D, Victory and Indian) diagnostic software
- It permits communication with 1995-2020 Harley-Davidson and Buell models using the proprietary VCM-TR4 Communication Module and cables

NOTE: Annual new model year updates available for download and purchase for minimal fee; see licensing for details.

PART #	DESCRIPTION
3807-0498	Centurion Super Pro Plus diagnostics USB license key

TECHNORESEARCH USB KEY UPGRADE

- Upgrade of non-EU TechnoResearch performance products to be able to use European licenses and provide access to other TechnoResearch products where no master key was provided
- PART #1020-2868 upgrades Centurion Tuner without tuning capabilities (VCM-TR3 and VCM-TR4) to enable tuning capabilities for all Harley-Davidson Delphi EFI systems (additional European digital tuning license PART #1020-2852 required; sold separately, see above)

PART #	DESCRIPTION
1020-2868	TechnoResearch USB key upgrade

O_2 INSTALL BLOCK AND VENT SCREW

- Block is designed to be compatible with 18 mm wideband O_2 sensors
- Block will be temporarily attached to the motorcycle using Rivnut/rivet nuts and a vent screw
- If using this block, please ensure you have the proper tools to allow for rivet nut installation
- It is recommended that you purchase these blocks in pairs (one for each cylinders exhaust)

3850-0449

PART #	DESCRIPTION
3850-0449	O_2 install block

- Vent screw is a replacement part to be used with the O_2 install block
- Vent screw is a hollowed out bolt that holds the install block in the Rivnut/rivet installed by the O_2 installation kit

3850-0450

PART #	DESCRIPTION
3850-0450	Vent screw

1020-4280

SINGLE POWER VISION TOKEN

- With this token for your Dynojet Power Vision, you can tune an additional vehicle on the same device
- This is perfect for dealers, as well as enthusiasts and families who have multiple vehicles to maintain
- Works with all Power Vision (PV-1B (PART #1020-2324), PV-2B (PART #1020-2325), PV-3B (PART #1020-3472), PV-TK3 (PART #1020-2523), PV-TK3R (PART #1020-2796)/ Power Vision 3 (PV3-15-01 (PART #1020-3985), PV3-15-02 (PART #1020-3524), PV3-15-03 (PART #1020-3986), PV3-TK1 (PART #1020-4055), PV3-TK1R)/Power Vision 4 (PV4-15-01 (PART #1020-3989), PV4-15-02 (PART #1020-3524), PV4-15-03 (PART #1020-3987))
- Can be used on one vehicle an unlimited number of times, but not on multiple vehicles

UNIVERSAL POWER VISION TOKEN

- Simplified, user friendly, and budget-scaled Universal Token from Dynojet replaces the old tuning license system
- No more buying one specific brand of license or just a few at a time
- Through the magic of Dynojet Power Core and an integrated, powerful server system, purchase as many tokens as you'd like to have in your account to be exchanged for licenses, permissions, features, unlocks, etc.
- Downtime at a shop is never productive and Dynojet has knocked down another barrier to your tuning endeavors
- No longer must a Power Vision be unlocked during business hours with tech support on the phone, or a feature license manually added to your account
- The Universal Token can be exchanged anytime, anywhere through your Dynojet account

MANUFACTURER'S NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
1020-4230	Single license

PART #	DESCRIPTION
1020-4231	10 pk.

PART #	DESCRIPTION
1020-4280	Universal token

1020-2324

1020-3473

POWER VISION

- The quickest, most powerful flash tuner on the market
- The sophisticated, yet easy-to-use, 3,5" full-color touch-screen display mounts to handlebars with integrated AMPS 4-hole threaded inserts, also mounts to most aftermarket accessory mounts that feature AMPS 4-mounting options
- The display's interface cable plugs directly to the bike's diagnostic connector
- NO COMPUTER REQUIRED; simply select the tune and follow the on-screen prompts to flash the bike; tunes can also be edited directly from the Power Vision
- Utilizes WinPV (Windows PC-based tuning application)
- Stores up to six different tunes that can be flashed to the bike
- Downloads and stores the stock calibration in case OEM restoration is needed; stock calibration can also be saved as an editable copy and used as a starting point
- Dynojet preconfigured tunes are preloaded on the unit; Power Vision will identify the bike's information and automatically sort hundreds of applicable, dyno-proven tunes
- Custom tunes can be loaded by a tuning shop or received via email and loaded onto the device
- Displays all J1850 H-D vehicle data, wide-band air fuel ratio[2] and various calculated channels (including MPG instant and trip MPG)
- AutoTune Basic and Pro[3] calculates and stores fuel trims to optimize fuel curve
- Checks and clears diagnostic codes
- Features adaptive trims and idle offset (with bike running)
- Features a flat black outer case
- See Dynojet website http://www.dynojet.com/powervision-tune-license-programs.aspx for information about purchasing additional Power Vision tune licenses

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
POWER VISION	
1020-3472	For 21-24 M-Eight
1020-2325	For 14-20 FLHT/FLHX/FLHR/FLTRX/FLTRU/FLTRK, 11-20 Softail, 12-17 Dyna, 14-22 XL (except RH Sportster) and 15-20 XG (6-pin connector)
1020-2324	For all H-D models w/ Delphi EFI (except 11-20 Softail, 12-17 Dyna, 14-20 Dresser, 14-22 XL, 02-17 V-Rod, and 15-20 XG) (4-pin connector)
REPLACEMENT PARTS	
1020-3473	Interface cable for 21-24 M-Eight models
1020-4101	Interface cable for 14-20 FLHT/FLHX/FLHR/FLTRX/ FLTRU/FLTRK, 11-20 Softail, 12-17 Dyna, 14-22 XL (except RH Sportster) and 15-20 XG (6-pin connector)

PART #	DESCRIPTION
REPLACEMENT PARTS (CONT)	
1020-4098	Interface cable for all 01-13 H-D models w/ Delphi EFI (except 11-20 Softail, 12-17 Dyna, 14-20 Dresser, 14-22 XL, 02-17 V-Rod, and 15-20 XG) (4-pin connector)
1020-2085	Cable, Y-Adapter HD-CAN
1020-3194	Cable, Y-Adapter HD-J1850
1020-3195	Cable, J1850-PV to diagonal plug
1020-3196	Cable, CAN-PV to diagonal plug
1020-3197	4-pin to 6-pin adapter
1020-3193	6-pin to 4-pin adapter

POWER VISION 4

- Flash tunes to your ECU – no setup required, just create an account, select your tune, flash and enjoy the ultimate ride
- Access to a vast database of pre-loaded tunes for different configurations
- Easily download and manage pre-loaded and custom tunes
- Record real-time engine data and display in WinPEP 8 Data Center
- Optimized for remote tuning so you can easily ride, record and share data logs and tunes
- Read, review, clear and share diagnostic trouble codes (DTCs) with built-in descriptions
- Supports licensing additional vehicles
- Return to stock at any time, your original factory tune is safely backed up on the cloud and on your phone
- See Dynojet website: http://www.dynojet.com/powervision-tune-license-programs.aspx for information about purchasing additional Power Vision tune licenses

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
1020-4287	For 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 FXBB/FXBR/FXLRS/FXLRST/FLHC/FLFB/FLSTFI
1020-3987	For 21-24 FLHT/FLHX/FLHR/FLTRX/H-D FL Trike, 21-23 FXBB/FXBBS/FXFB/FXFBS/FXLR/FXLRS/FXST/ FLHC/FLHCS/FLFB/FLFBS/FLSB/FLSL (including CVO models), 21-23 RH1250S, 21-23 RA1250/S
1020-3524	For 11-20 Softail, 12-17 Dyna, 14-22 XL, 15-20 XG and all 14-22 models w/ CAN bus data (except 14-17 V-Rod) (6-pin connector)
1020-3989	For 01-13 models w/ Delphi EFI (J1850) and 02-17 V-Rod (4-pin connector)

POWER VISION 3

- Flash performance tunes via OEM diagnostic connector, no need to remove and send out ECU
- Display vehicle data channels in real-time
- Weather-resistant for use in all conditions
- High-contrast display, viewable in direct sunlight
- Fueling revised for maximum power and torque
- Spark timing optimized for 91-93 octane fuel
- Rev limit raised
- Speed limit raised

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research.

1020-3986

PART #	DESCRIPTION
1020-4288	For 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 FXBB/FXBR/FXLRS/FXLRST/FLHC/FLFB/FLSTFI
1020-3986	For 21-24 FLHT/FLHX/FLHR/FLTRX/H-D FL Trike, 21-23 FXBB/FXBBS/FXFB/FXFBS/FXLR/FXLRS/FXST/ FLHC/FLHCS/FLFB/FLFBS/FLSB/FLSL (including CVO models), 21-23 RH1250S, 21-23 RA1250/S
1020-3170	For 14-20 FLHT/FLHX/FLHR/FLTRX/FLTRU/FLTRK, 11-20 Softail, 12-17 Dyna, 14-20 XL and 15-20 XG (6-pin connector)
1020-3985	For 06-13 Touring, 06-10 Softail, 06-11 Dyna and 07-13 XL
1020-4058	Reflash harness for all Euro 5 motorcycle models

POWER VISION 3 SHOP KIT

- The PV3 tuner's kit comes with everything you need to dial in an existing tune or build a custom tune on bike's with a Power Vision 3 installed
- Install the included wideband module, flash the ECU with the PV3 and then use C3 software to dial in your tune
- All harnesses included to work on J1850 4-pin, CAN 6-pin, the new red CAN 6-pin and interconnect to the dual channel wideband O_2 module

NOTE: May not work on early 01-04 ECUs.

PART #	DESCRIPTION
1020-4055	For 02-22 EFI Harley-Davidson models

POWER VISION TUNER KIT

- Tune multiple bikes using just one Power Vision and AutoTune Pro Module
- Shop Tuner Kit designed for shops without a Dynojet dyno or Gen4 exhaust pump
- Includes Power Vision, AutoTune Pro Module with plug-in power supply, and all necessary cables in order to tune J1850 or CAN models
- Requires installation of the most recent version of WinPV on your computer to take advantage of new features; WinPV can be updated using the Power Vision Update Client from the Dynojet website
- You will need to create an online account to use the new WinPV 2.0 Online License software; once you create an account, you are ready to purchase license credits at any time

NOTE: For shop use only; no retail pricing available.

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

PART #	DESCRIPTION
1020-2523	Shop Tuner Kit w/ Power Vision

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

See OLDBOOK For Early Model Applications

AUTOTUNE KITS FOR POWER VISION

- Plug directly into the Power Vision with a single cable
- Include 18 mm O_2 sensors and power connector that plugs into the bike's harness
- Provide real-time AFR feedback to the Power Vision
- Allow for semi-automated fuel corrections
- User can specify what air/fuel ratio to make each rpm and throttle position percentage combination
- Make it possible to adjust cruise for best fuel economy as well as larger throttle openings for peak power
- Base settings included for air/fuel ratios, but are fully adjustable if need be

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

PART #	DESCRIPTION
1020-1533	For use w/ Power Vision PART #s 1020-1493, 1020-2324; includes weld-in 18 mm bungs
1020-4036	For use w/ Power Vision 3 PART #1020-3170

PART #	DESCRIPTION
1020-4044	For use w/ Power Vision 3 PART #1020-3986
1020-4045	For use w/ Power Vision 4 PART #1020-3989

POWER VISION 3 MOUNT KITS

- Secure bolted installation makes for the perfect placement while driving
- The perfect complement for the Power Vision 3 fuel tuner or Power Vision 3 tuner/POD-300 display
- Works on handlebars up to 1 1/4"

PART #	DESCRIPTION
0636-0337	Power Vision 3 handlebar mount kit
0636-0430	Power Vision 3/POD-300 mount kit

POWER VISION VISOR

- "NutSerts" are embedded and allow you to attach the visor/quick clip to mounting systems or any other system with a 4-hole pattern
- Shaded display screen, improving screen visibility
- Available in flat black

PART #	DESCRIPTION
1020-2045	Power Vision visor

POWER COMMANDER 6

- Compact design for discrete placement and easy uninstallation to revert to stock settings
- Easily change and upgrade tunes as you upgrade exhaust and air cleaners
- Comes with Power Core software that connects dyno runs with our EFI Tuning Devices to unlock your ride's potential
- Pair with other Power Commander accessories like the Autotune, Quickshifter or POD-300
- Analog input allows you to install any 0 to 5V sensor and build an adjustment table based on its input such as boost or temperature
- Easily connects to your computer via USB
- Each cylinder can be mapped individually and for each gear, giving riders more granular control

PART #	DESCRIPTION
1020-4245	For 24 FLHX/FLHXST/FLTRX/FLTRXST, 23-24 FLHXSE/FLTRXSE
1020-3599	For 21-23 FLHT/FLHX/FLHR/FLTRX/H-D FL Trike
1020-3597	For 17-20 FLHT/FLHX/FLHR/FLTRX/FLTRU
1020-3585	For 14-16 FLHT/FLHX/FLHR/FLTR/FLTRX/FLTRU
1020-3579	For 08-13 FLHT/FLHX/FLHR/FLTR
1020-3593	For 07 FLHT/FLHX/FLHR/FLTR
1020-3592	For 02-06 FLHT/FLHX/FLHR/FLTR
1020-3595	For 99-01 FLHT/FLHX/FLHR/FLTR
1020-3598	For 18-20 Softail
1020-3594	For 16-17 FLS/FLST
1020-3586	For 12-15 FXS/FLS/FLST (except 12-15 CVO)
1020-3573	For 07-11 FXST/FLSTF/FXCW (except 11 CVO)
1020-3576	For 07-11 FLSTC/FLSTN

PART #	DESCRIPTION
1020-3589	For 01-06 FXST/FLST
1020-3596	For 16-17 FXDLS 110"
1020-3587	For 12-17 Dyna (except FXDLS)
1020-3574	For 06-11 Dyna
1020-3590	For 04-05 Dyna
1020-3583	For 14-22 XL883
1020-3577	For 10-13 XL883
1020-3571	For 07-09 XL883
1020-3584	For 14-22 XL1200
1020-3578	For 10-13 XL1200
1020-3572	For 07-09 XL1200
1020-3588	For 12-17 V-Rod
1020-3575	For 08-11 V-Rod

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

POWER COMMANDER 6 PTI

- Uses the same great features as the Power Commander V, but is perfect for turbocharged or supercharged applications looking for precision, control and reliability
- Modify your fuel curve based off a pressure (boost) table and/or temperature table
- Pressure table provides 3D mapping capability based on boost vs. rpm
- Temperature table provides 2D mapping capability with up to 50 points of adjustments
- Comes with a Bosch 3 bar map/temp sensor

PART #	DESCRIPTION
1020-4279	For 24 FLHX/FLTRX/FLTRXSTSE, 23-24 FLHXSE/FLTRXSE

PCV

AUTO TUNE KIT FOR POWER COMMANDER V

- Plug directly into the Power Commander V with a single cable
- Include 18 mm O_2 sensors and power connector that plugs into the bike's harness
- Requires installation of two 18 mm sensor bungs (included)
- Make automatic fuel adjustments
- User can specify what air/fuel ratio to make each rpm and throttle position percentage combination
- Make it possible to adjust cruise for best fuel economy as well as larger throttle openings for peak power
- Base settings included for air/fuel ratios, but are fully adjustable if need be

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

PART #	DESCRIPTION
1020-1559	For 14-20 Dresser, 12-17 FXS/FLS/FLST, Dyna and 12-17 XL w/ CAN Bus 6-pin connector

O_2 OPTIMIZERS

- For use with Dynojet Power Commander V models
- Sold each

PART #	DESCRIPTION
FOR 14-15 TOURING	
1020-3336	Front
1020-3337	Rear
FOR 12-15 SOFTAIL/DYNA	
1020-1751	Rear

POWER COMMANDER V MAP SELECT SWITCH

- Switches between two different maps that have been pre-loaded in a Power Commander V
- Comes with a switch, wiring and instructions
- Universal mount

PART #	DESCRIPTION
1020-2082	Map select switch

POD-300 DIGITAL DISPLAY

- Real-time fuel adjustment
- Display channels real-time: rpm, TP, map position (when using map switch), duty cycle, fuel exchange, ignition change and wideband air/fuel ratio (with WB2 or AutoTune connected)
- Weather resistant for use in all conditions
- Log channels saved to internal memory and can be viewed/analyzed with Dynojet's powercore software
- High-contrast display, viewable in sunlight
- Includes CAN cable for attachment to Power Commander V, AutoTune and Wide Band Power Commander

NOTE: Not for use with Power Commander III USB.

PART #	DESCRIPTION
1020-2371	POD-300 digital display

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

1020-2491

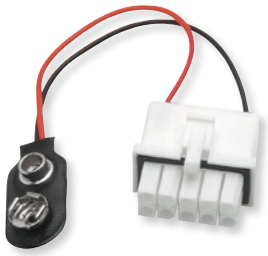
1020-4046

TARGET TUNE

- Allows the factory ECM to interpret and use wideband O_2 sensor signals
- Target fuel table from the calibration is achieved in real time
- Retains OEM closed loop and achieves adaptive fuel control strategy
- Learns and uses VE table corrections as you ride
- Does not interfere with dealer diagnostic/service tools
- Includes OEM style connectors to plug into factory O_2 harness, either 2- or 4-pin versions
- Available with or without O_2 sensor

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their sensor bungs.

PART #	DESCRIPTION
WITH O_2 SENSORS	
1020-4037	For 21-24 M-Eight w/ software level 28
1020-2491	For 14-20 Dresser
1020-2489	For 12-17 FXST/FLST and 12-17 Dyna



PART #	DESCRIPTION
WITHOUT O_2 SENSORS	
1020-4046	For 21-24 M-Eight w/ software level 28

1020-1153

1020-1139

OXYGEN SENSOR OPTIMIZER

- Optional high-performance oxygen sensor optimizer for easier adjustments through the control center software
- Use with Power Commander III USB

PART #	DESCRIPTION
FOR 07 EUROPEAN HARLEYS (EXHAUST)	
1020-1153	Exhaust bypass plug
1020-1139	Sensor eliminator

POWER COMMANDER III USB POWER ADAPTER

- Allow you to activate a Power Commander for changing or altering maps while disconnected from the bike
- For limited use

PART #	DESCRIPTION
1020-1738	USB 9V power adapter

CROSSOVER CABLE

- Crossover cable for H-D Euro 5 plug to H-D German 6-pin plug
- Sold each

PART #	DESCRIPTION
1020-4283	Crossover cable, H-D Euro 5 plug to H-D German 6-pin plug

OBD DIAGNOSTIC CABLE

- Read out and delete error messages with CAN-capable OBDII reading tool
- Show engine data live with OBD scanner
- Speed decrease for power measurements directly from diagnostic port
- Data acquisition and display with Dynojet dynamometers with Winpep8 software

PART #	DESCRIPTION
1020-3468	For all Euro 5 motorcycle models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

1020-4244

1020-1851

1022-0039

THUNDERMAX ECMs WITH INTEGRAL AUTO-TUNE SYSTEM

- ThunderMax ECM with Auto-Tune module mounts conveniently in place of the factory ECM and plugs in to the existing harness
- Utilizes wide-band O_2 sensors and works as a closed-loop control system to continuously self-adjust and properly tune the motorcycle's air/fuel ratio for all riding conditions
- Easy installation: replace the factory ECM, install new O_2 sensors and harness, load the correct map for your bike and ride
- Includes ThunderMax ECM with Auto-Tune Module, plug-in harness and two wide-band sensors, TMax software and communication USB cable, Quick-Start Easy Install and Comprehensive User's Manual, technical support and free software and updates
- Hundreds of maps available to download for your bike (based on model, engine size, exhaust system air cleaner, pistons, cams, etc.) – load the map of your choice and the integral Auto-Tune will do the rest
- Improves throttle response, exhaust sound and driveability
- Does not require dyno tuning
- Rider can adjust idle speed, rev limit and speedometer calibration
- Adjustable front and rear cylinder AFR maps, ignition timing (spark) maps and startup maps
- Works with all popular exhaust systems and is compatible with high-performance camshafts
- Supports turbo, nitrous and supercharger applications
- Software program allows live monitoring, recording and examination of diagnostic codes and datalogs including number of starts, engine temperature and rpm operation
- New maps, software, firmware updates, map analysis and tech support available online at no charge

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their O_2 sensor port bungs.

PART #	DESCRIPTION
ECM	
1020-4244[1]	For 24 FLHX/FLTRX/FLTRXSTSE
1020-3514[3]	For 24 FLHTK/FLTRK/FLHRXS, 21-23 FLHT/FLHX/FLHR/FLTR, 21-24 FLHTCUTG/FLRT/FLTRT (except 23-24 FLHXSE/FLTRXSE)
1020-2664[2, 3]	For 17-20 FLHT/FLHR/FLHX/FLTR/FLTRX/FLTRU/FLTRK, 17-20 H-D FL Trike
1020-2118	For 14-16 FLHT/FLHR/FLHX/FLTR, 14-16 H-D FL Trike
1020-0836[3]	For 08-13 FLHT/FLHR/FLHX/FLTR, 09-13 H-D FL Trike
1020-3515[3]	For 21-24 Softail
1020-2795[2, 3]	For 18-20 Softail
1020-2850[3]	For 16-17 FXS/FXST/FLS/FLST, 14-15 FXSBSE/FLSTNSE, 16-17 FXDLS
1020-2360[3]	For 12-15 FXS/FLS/FLST, 12-17 FXD/FLD/FXDWG (except FXDLS), 14-20 XL
1020-1848	For 11 FXS/FLST
1020-1851	For 01-10 FXST/FLST, 02-07 FLHT/FLHR/FLTR/FLHX, 07-09 XL
1020-2361	For 08-10 FXCW/C, 04-11 FXD/FXDWG, 09 SE Softail, 10-13 XL, 08-12 XR1200/X (includes mini USB pigtail)
REPLACEMENT PART	
1022-0039	Repl. 18 mm oxygen sensor (ea.)

[1] Not for models with VVT motors. [2] Not interchangeable or upgradeable from PART #s 1020-2118 and 1020-2526.
[3] Will require the use of an exhaust system with 18 mm sensor bungs or headpipes must be modified to accept 18 mm sensors.

1022-0059

1020-1855

THUNDERMAX PIGTAIL HARNESS

- Allows a second port for the communication cable connection to the ThunderMax
- It is installed to the bike's wiring harness at the 36-pin ECM connector (connection requires harness plug disassembly; two terminated wires are inserted into two unused ports in the 36-pin connector, and a ground wire added)
- Handy for motorcycle models with tight clearances around the ECM such as Dyna, Softail Rocker and 02-05 V-Rod

NOTE: PART #1022-0059 requires ThunderMax ECM with serial number 114000 or higher (produced beginning August 2008). Will not work on previous model ThunderMax PART #232661 TBW unit.

NOTE: PART #1020-1855 requires ThunderMax ECM with Mini USB communication port (beginning November 2012). Will not work on previous model ThunderMax ECM or PART #1020-0836 (Touring TBW units).

PART #	DESCRIPTION
1022-0059	Thundermax pigtail harness for V-Rod PART #1020-1853, Gen II PART #s 1020-0323, 1020-1279, 1020-1311 and AutoTune repl. module PART #1020-0322
1020-1855	ThunderMax Mini USB pigtail for remote access to modules PART #s 1020-1851, 1020-1852 and 1020-2361

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

1020-4297

FUELPAK X

- FPX is more than a tuner, it's the future of connected riding
- With seamless flash tuning, real-time engine data, smart navigation and built-in safety features like theft prevention and crash detection, the FPX transforms your riding experience
- Built into the heart of FPX is the all new achievements & challenges experience
- Track your performance, get rewards for milestones, and foster head-to-head competition with your friends and other riders worldwide

PART #	DESCRIPTION
1020-4297[1, 2]	For 21-25 Touring, 21-25 Softail, 21-24 RA1250/S/ST
1020-4298	For 14-20 Touring, 11-20 Softail, 12-17 Dyna, 14-22 XL883/1200, 14-20 XG500/750
1020-4299	For 07-13 Touring, 07-10 Softail, 07-11 Dyna, 07-13 XL883/1200

[1] 25 Softail excludes tuning capability.
[2] Excludes tuning capability for late 2023-2025 Touring VVT/Hi-Output/Center Cooled engines.

1020-3513

1020-4028

FP4

- Made of polycarbonate plastic/Bluetooth® low energy, FP4 hardware smaller and thinner than the previous generation electronics product
- Unit's LEDs have been simplified so the rider knows exactly what is happening between the FP4 and the rider's motorcycle
- Built from the ground up, Android™ and iPhone® apps feature a new rider interface and are easier to navigate and use than ever before
- Live Data in the FP4 app has been upgraded with a whole new look and an additional gauge to track more crucial data while riding
- All necessary hardware and instructions included

PART #	DESCRIPTION
1020-3513	For 21-24 FLHRXS/FLHTK/FLTRK, 21-23 FLHT/FLHX/FLHR/FLTRX/H-D FL Trike, 23 FLHXSE/FLTRXSE, 21-24 FXBB/FXBBS/FXFB/FXFBS/FLXR/FLXRS/FXST/FLHC/FLFB/FLFBS/FLSL/FLSB
1020-3962	For 14-20 FLHT/FLHX/FLTRX/S/FLTRU/FLTRK/FLHT, 15-20 FLRT, 11-20 Softail (excluding 11-13 CVO Softail), 12-17 Dyna, 14-22 XL (except RH Sportster) and 15-20 XG500/750/750A
1020-4028[1]	For 07-13 FLHR/FLHT/FLTR/FLHX, 09-13 FLHTCUTG, 10-11 FLHXXX, 07-11 Dyna, 07-11 Softail, 07-13 XL
1020-4200	For 21-23 RA1250/S

[1] Not compatible with 07-08 CVO/SE Touring, 07-10 CVO/SE Softail, and 07-11 CVO/SE Dyna.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

1020-4214

1020-4215

1020-4219

AUTOTUNE ELECTRONIC FUEL INJECTION CONTROL MODULE KITS

- Quickly auto-tune fuel curves for front and rear cylinders on a dyno or on-road with new WEGO IIID dual channel wide-band oxygen sensor interface
- Robust alpha-N (throttle position and rpm-based) fuel control eliminates problems with long duration/high overlap camshafts
- Extended data logging and diagnostics
- Data flash memory stores full 60 minutes of operating data at 10 samples/second
- Programmable user input for functions such as two-stage rpm limiter, nitrous retard, and shift kill
- Programmable user output for functions such as shift light, nitrous activation, and electric shifter
- Powerful Windows software for custom programming and data analysis
- Billet aluminum housing with black anodized finish
- Fully programmable plug-in replacement
- Easy plug-in installation

NOTE: Does not work on models with VVT (variable valve timing).

NOTE: Some aftermarket exhaust systems may require modifications or relocation of their O_2 sensor port bungs to avoid clearance issues.

NOTE: Turbo ECM kits are race only and require a qualified technician to install.

PART #	DESCRIPTION
FOR NATURALLY ASPIRATED MODELS	
1020-4238	For 21-24 FLHR/FLHX/FLHT/FLTR
1020-4214	For 17-20 FLHR/FLHX/FLHT/FLTR
1020-4241	For 21-24 Softail
1020-4217	For 18-20 Softail
1020-4237	For 14-17 Softail
FOR MODELS WITH TRASK TORNADO TURBO KIT (2 BAR MAP SENSOR)	
1020-4239[1]	For 21-24 FLHR/FLHX/FLHT/FLTR
1020-4215[1]	For 17-20 FLHR/FLHX/FLHT/FLTR
FOR MODELS WITH TRASK TORNADO TURBO KIT (2 BAR MAP SENSOR) (CONT)	
1020-4242[1]	For 21-24 Softail
1020-4218[1]	For 18-20 Softail
1020-4221	2 BAR map sensor
FOR MODELS WITH TRASK TORNADO TURBO KIT (3 BAR MAP SENSOR)	
1020-4240	For 21-24 FLHR/FLHX/FLHT/FLTR
1020-4216	For 17-20 FLHR/FLHX/FLHT/FLTR
1020-4243	For 21-24 Softail
1020-4219	For 18-20 Softail

[1] 2 Bar MAP Sensor PART #1020-4221 (sold separately).

TWIN TUNER II

- Twin Tuner II has all the features of the original Twin Tuner and includes ignition timing control capability
- Easily adjusts the OEM Delphi fuel-injection and ignition to match the requirements of performance parts including high-compression pistons/heads, camshafts, free-flowing exhausts, and low-restriction air filters – add 30% or subtract 20% fuel and retard spark timing up to 10°
- You can use the mode and up/down switches to make fuel trim adjustments in the rpm and throttle position ranges required by most applications; the fuel trim value is displayed on a bright daylight-readable LED display
- The Twin Tuner also has an advanced mode, using the optional USB Interface and PC Link Tuner software to make precise fuel adjustments and allows independent adjustments to the front and rear cylinders
- May be compatible with other controller maps
- Easy plug-in installation and setup, with no splicing, cutting, crimping or bulky interconnections
- Compact size: 10 cm x 51 mm x 13 mm (4" x 2" x 0,5")
- Compatible with Twin Scan II+ Tuning Aid – install the Twin Scan II+ and ride the bike, then copy the air/fuel ratio corrections calculated by the Twin Scan II+ into the PC Link Tuner software

PART #	DESCRIPTION
1020-0948	For 01-11 Big Twin and 07-13 XL (except 08-11 Touring)

REPLACEMENT WEGO II OXYGEN SENSOR

- Replacement WEGO IID dual-channel wide-band exhaust gas oxygen sensor interface
- Sold each

PART #	DESCRIPTION
REPLACEMENT COMPONENT FOR TCFI INJECTION TUNERS	
1022-0008	Repl. Bosch brand WEGO II oxygen sensor (sold each)

NAMZ Custom Cycle Products

O_2 ENRICHMENT DEVICE

- Reduce your engine's temperature 6 to 8 °C (20 to 30 °F)
- Install in a few minutes; simply plug in between the oxygen sensors and the OEM wiring harness
- Recommended for models with high-flow air intakes and exhausts
- Sold in pairs

PART #	DESCRIPTION
1020-1151	For 07-08 Touring and all 07-11 Big Twin Race (except 08-11 Touring and H-D FL Trike)

RBW PLUG N' RIDE

RBW SKULL RIDING MODE SELECTORS

- A skull shaped dial, conveniently mounted next to the throttle, allows the rider to easily select five different ride modes on the fly
- Rain, city, road (factory or your actual bike default), sport and anarchy (track mode)
- This simple plug-and-play solution utilizing Ride-By-Wire (RBW) technology is a serious performance upgrade providing the rider options for safety, comfort and fun
- Compatible with all varieties of stock motorcycles and all kinds of H-D performance engines

TRASK PERFORMANCE

TORNADO TURBO KIT

- Bolt on 40% to 50% more power to your stock 107", 114" or 117" M-Eight motors
- Trask compressor and turbine housings with Garrett internals
- Stainless steel pipe kit is mandrel bent and TIG welded; includes wastegate
- Brushed stainless or black exhaust with race-inspired stainless steel heat shields
- Trask plenum with integrated blow-off valve
- Includes all install components: larger injectors, spark plugs, boost gauge with mount, oil feed, drain lines, custom cam cover, Thundermax tune files and all necessary hardware and gaskets

0904-0098

NOTE: Requires use of Thundermax ECM PART #s 1020-3514, 1020-3515, 1020-2664 or 1020-2795 (sold separately) or Daytona Twin Tec Auto Tune module kits.

NOTE: Do not fit on Twin Cooled models or models with fairing lowers.

NOTE: Intended for offroad use only, and recommended for experienced riders.

FOR 17-23 FLHT/FLHX/FLHR/FLTR AND 18-23 SOFTAIL (EXCEPT 23 FLHXSE/FLTRXSE)

PART #	DESCRIPTION
0904-0096	Black w/ black exhaust
0904-0097	Black w/ brushed stainless exhaust

PART #	DESCRIPTION
0904-0098	Polished w/ brushed stainless exhaust

1022-0193

1022-0182

PROVEN S&S PERFORMANCE

CABLE-OPERATED THROTTLE HOG THROTTLE BODIES

- More airflow for improved performance
- Choose from 58 mm for stock or mildly built engines, or the whopping 66 mm for big-inch engines
- Requires throttle body specific Stealth air cleaners (available separately) for 58 mm and 66 mm bodies
- One-piece throttle body/manifold design for easy installation and stock appearance
- Compatible with stock sensors, fuel rail and throttle cables
- Sealed, stainless steel throttle shaft with dual roller bearings for smooth operation and no air leaks
- Black powdercoat finish matches stock
- Throttle bodies include hardened steel flanges and seals

NOTE: Some S&S heads have additional material on the manifold surface to allow the use of a stock length manifold (405) on a 124" engine. If you are not sure which manifold should be ordered, check fitment with the stock manifold first.

FOR 06-17 TWIN CAM, S&S HOT SETUP KITS AND T-SERIES LONG BLOCKS W/ CABLE OPERATED THROTTLE

PART #	DESCRIPTION
66 MM	
1022-0193	For S&S T-Series 124" engines w/ S&S bolt pattern and 124" Hot Setup kit (w/ stock or standard S&S heads produced prior to 1.1.2013), 417 size manifold

FOR 02-05 TWIN CAM, S&S HOT SETUP KITS AND T-SERIES LONG BLOCKS W/ CABLE OPERATED THROTTLE

PART #	DESCRIPTION
58 MM	
1022-0182	For 97", 98", and S&S T-Series engines (engines produced after 1.10.2012), 410 size manifold size

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

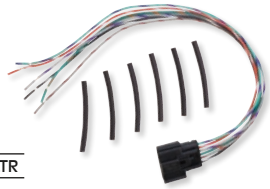
1020-4282

1020-4281

COMPLETE STAND-ALONE EFI SYSTEM



- Complete stand-alone, plug-and-play EFI wiring harness
- Kit includes a NAMZ twist grip and Thundermax ECM
- Eliminates BCM
- EFI management ONLY; will need to purchase a complete bike wiring harness for functions like lighting, switches, gauges, etc.
- Does not provide cruise control
- PART #1020-4281 is designed to work with OEM throttle body PART NO. 27200002 or equivalent Twin Cam throttle body with crank position sensor only
- PART #1020-4282 is designed to work with OEM throttle body PART NO. 27300122 or equivalent M-Eight throttle body with crank position sensor only

PART #	DESCRIPTION
1020-4282	For 17-22 M-Eight

PART #	DESCRIPTION
1020-4281	For 08-17 Twin Cam

FUEL INDUCTION MODULE/THROTTLE BODY PIGTAIL

- Includes a color matching 38 cm (15") long wire installed and crimped
- Wires come stripped with slug left on and includes $^{3}/_{16}$" heat shrink

PART #	DESCRIPTION
2120-1205	For 08-16 FLHT/FLHR/FLHX/FLTR

ELECTRONIC FUEL-INJECTION COMPONENTS

- Quality OEM replacements and upgrades available as listed
- PART #s 1022-0120, 1022-0114, 1022-0115, 1022-0116, 1022-0229 and 1022-0230 are for RACE USE ONLY
- Sold each

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION	CONNECTOR TYPE	FLOW RATE (GRAMS PER SECOND)
INJECTORS			
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 M-EIGHT TOURING (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL			
1022-0229	20% more fuel than OEM injectors and 3,5% less than SE 5,5 g/s injectors, delivers fuel through multiple spray holes (recommended for performance engine combinations making over 90 rear wheel hp); repl. OEM #27400015; repl. SE #27400040	EV-6 USCAR	5,3
1022-0230	39% more fuel than OEM injectors and 11% more than SE 5,5 g/s injectors, delivers fuel through multiple spray holes (recommended for performance engine combinations making over 110 rear wheel hp); repl. OEM #27400015; repl. SE #27400040	EV-6 USCAR	6,1
FOR 02-16 TOURING (EXCEPT 06-07), 16-17 SOFTAIL, 01-05 SOFTAIL, 04-05 DYNA, 07-22 XL (EXCEPT RH SPORTSTER), 02-17 V-ROD			
1022-0118	XL OEM replacement (for stock to mild performance engines); repl. OEM #27706-07/A	EV-1 Minitimer square	3,8
1022-0113	OEM stock replacement (except XL/V-Rod) 46 mm, OEM 50 mm, SE 43 mm throttle body (4 spray holes) (for stock to mild performance engines under 95 rear wheel hp); repl. OEM #27609-01A/B	EV-1 Minitimer square	4,3
1022-0119	V-Rod stock replacement, great performing injector for Twin Cam and XL engines w/ mild cylinder head work and increased compression ratios, 4 spray holes w/ 20° spray pattern (for stock to mild performance engines); repl. OEM #27665-01/A	EV-1 Minitimer square	5,1
1022-0228	High-flow red band injector (recommended for mild to medium performance engines making over 95 rear wheel hp, also fits higher performance XL engines looking for a higher flow rate); repl. OEM #27796-08	EV-1 Minitimer square	5,3
1022-0115	For SE 58 mm throttle body and high flow oval-port intake manifold (4 spray holes, 23% over OEM for race applications only w/ over 110+ rear wheel hp); repl. OEM #27617-08	EV-1 Minitimer square	5,7+
1022-0161	For race only engines	EV-1 Minitimer square	8,2
FOR 06-07 TOURING, 06-15 SOFTAIL, 06-17 DYNA, SE 50/58/62 MM THROTTLE BODIES W/ CABLE DRIVEN THROTTLES			
1022-0112	OEM stock replacement for models w/ OE 46 mm throttle body (updated 25° angle cone w/ 4 spray hole nozzle ends, supersedes OEM #27625-06); repl. OEM #27709-06/A	EV-6 USCAR	3,91
1022-0114	25% more fuel than OEM, 3 spray holes (for race applications only w/ over 100 rear wheel hp); repl. OEM #27654-06	EV-6 USCAR	4,9
1022-0120	25% more fuel than OEM injectors through 4 spray holes w/ a dual pattern; 13°/6° (recommended for performance engine combinations making over 100 rear wheel hp)	EV-6 USCAR	5,3
1022-0116	59% more fuel than OEM (for race applications only w/ over 120 rear wheel hp); repl. OEM #27400004	EV-6 USCAR	6,2
THROTTLE POSITION SENSORS			
1022-0121	For 06-07 FLHT, 06-15 FXST/FLST, 06-17 Dyna (except 16-17 FXDLS); repl. OEM #27659-06	-	-
1022-0123	For 02-05 FLT/FLHT, 01-05 FXSTI/FLSTI/FXSTDI, 04-05 Dyna; repl. OEM #27629-01	-	-
IDLE AIR CONTROL MODULE			
1022-0122	For 06-07 FLHT, 06-15 FXST/FLST, 06-17 Dyna (except 16-17 FXDLS); repl. OEM #27658-06	-	-
MAP SENSORS W/ SEAL			
1022-0162	For 08-16 Touring, 16-17 Softail, 16-17 FXDLS, 07-19 XL fuel-injected models; repl. OEM #32319-07/A	-	-
1022-0124	For 99-10 fuel-injected Big Twin (except 08-10 Dresser), 00-06 Big Twin, 04-06 XL carb; repl. OEM #32316-99	-	-
INJECTOR ADAPTERS			
1022-0180	Adapts EV6 plug to fit EV1 Injector	-	-
1022-0225	Adapts EV1 injector connectors to EV6 injectors	-	-
FUEL PRESSURE REGULATOR			
1009-0083	For 99 models; repl. OEM #27219-95/95A	-	-

DAYTONA TWIN TEC

HIGH-PERFORMANCE FUEL INJECTORS

- Made using the latest injector technology
- Detailed test report included with each set
- Sold in matched sets

1022-0216

1022-0138

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
1022-0216	5,38 grams per second at 58 psi, 25° spray angle
1022-0217	6,24 grams per second at 58 psi, 25° spray angle
1022-0218	7,08 grams per second at 58 psi, 25° spray angle
1022-0219	7,79 grams per second at 58 psi, 25° spray angle
1022-0220	8,49 grams per second at 58 psi, 25° spray angle
1022-0221	9,22 grams per second at 58 psi, 25° spray angle

PART #	DESCRIPTION
FOR 06-17 TWIN CAM W/ CABLE THROTTLE CONTROL (EXCEPT V-ROD AND SPORTSTER)	
1022-0138	6,2 grams per second at 58 psi, 25° spray angle
FOR 16-17 FXDLS, 16-17 SOFTAIL, 08-16 DRESSER W/ ELECTRONIC THROTTLE CONTROL	
1022-0147	7,1 grams per second at 58 psi, 18° spray angle

Eastern M C Parts

FUEL INJECTOR

- Meets OE stock specifications
- Sold each
- EV-6 USCAR connector

PART #	DESCRIPTION
1022-0181	For 06-17 Twin Cam w/ cable throttle control; repl. OEM #27709-06/A

1022-0211

S&S PROVEN PERFORMANCE

ELECTRONIC FUEL-INJECTION COMPONENTS

- For single bore throttle bodies
- Sold each

1022-0209

PART #	DESCRIPTION
AIR TEMPERATURE SENSOR W/ HARDWARE	
1022-0211	For 99-05 Big Twin; repl. OEM #27270-95
IDLE AIR CONTROL MOTOR KIT	
1022-0209	For 01-05 Big Twin, 02-10 VRSC, 07-20 XL, S&S X-Wedge w/ S&S SBEFI, repl. OEM #27628-01/A

S&S PROVEN PERFORMANCE

BILLET ALUMINUM FUEL RAIL

- Direct replacement for the OEM plastic fuel rail
- 6061 billet aluminum construction with an anodized black finish
- Eliminates worry about cracks and leaks from the plastic OEM fuel rail
- Increased fuel flow
- Increased fuel capacity dampens fuel pulses for smoother running

PART #	DESCRIPTION
1022-0306	For 24-25 FLHX/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 FLHXU

1022-0295

PART #	DESCRIPTION
1022-0295	For 17-24 Touring (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)
1022-0296	For 18-24 Softail

TRASK PERFORMANCE

FUEL REGULATOR HOUSING

- Anodized housing is CNC machined from billet aluminum
- Replaces the plastic OEM housing

PART #	DESCRIPTION
1009-0025	For 01-07 FXST/FLST, 02-07 FLHT/FLHX/FLHR/FLTR; repl. OEM #62373-01

DS-0453

DS-0409

SUPER E AND G SHORTY CARBURETOR KITS

- Each carb kit includes a natural finish S&S Super E or Super G gas carburetor (unless noted) with updated fuel delivery pots and idle screw, S&S teardrop air cleaner assembly, manifold (unless noted), mounting hardware, fuel line, clamps, overflow line, one extra intermediate jet and two main jets, VOES tubing (when applicable), installation and jetting instructions
- Super E has a 1,875" throat at the butterfly and a 1,5625" venturi and is recommended for use on Big Twin or Sportster engines up to 100 cubic inches
- Super G has a 2,0625" throat at the butterfly and a 1,75" venturi and is recommended for use on 90 cubic inch and larger high-performance and modified engines
- Super G is not recommended for smaller, lower compression engines
- If there is a doubt as to which carburetor to use, we suggest the 1,875" Super E

NOTE: S&S Super E & G carburetors require the use of a two-cable, pull open/pull close throttle assembly; S&S kits are compatible with stock cables except as noted.

DESCRIPTION	SUPER E	SUPER G
FOR BIG TWIN (INCLUDES MANIFOLD)		
For 06 Twin Cam	-	**1001-0040**
For 99-05 Twin Cam	**DS-0452**	**DS-0453**
For T143 Twin Cam style engine	-	**1001-0046**[1]

DESCRIPTION	SUPER E	SUPER G
FOR XL (INCLUDES MANIFOLD)		
For 91-03 XL	**DS-0409**	-
For 86-90 XL	**DS-0408**	-

[1] Does not include air cleaner cover. Stock 99-06 cover or any S&S Stealth style cover can be used (sold separately).

1002-0025

1001-0044

SUPER E AND G CARBURETORS

- Four fuel delivery ports for better fuel flow
- O-ring sealed idle mixture screw
- Increased airflow for more horsepower
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the OEM dual-cable throttle system for smooth, reliable operation
- Variable position enrichment starting system
- High-quality fit and finish
- Super E carburetors have a $1\frac{7}{8}$" throat at the butterfly and a 1,5625" venturi; recommended for use on Big Twin or XL engines up to 100 cubic inches in displacement
- Super G carburetors have a $2\frac{1}{16}$" throat at the butterfly and a 1,75" venturi; recommended for use on high-performance and modified engines 90 cubic inches or larger in displacement
- Super G carburetors are not recommended for smaller-displacement, low-compression engines
- Big bore carburetors feature a 7% larger venturi for more airflow
- Sold each

NOTE: Carburetor cannot be used with the stock backing plate and air filter, must use an S&S backing plate and air filter.

FOR 99-06 BIG TWIN AND 86-06 XL

PART #	DESCRIPTION	BORE
SUPER E		
1002-0025	Natural finish	Standard
1002-0059	Black finish	Standard
1001-0043	Black finish	Big bore

PART #	DESCRIPTION	BORE
SUPER G		
1002-0026	Natural finish	Standard
1001-0044	Black finish	Big bore

All part numbers in BLUE are new for 2026.

HSR42 AND HSR45 SMOOTHBORE CARBURETOR KITS

- Kits include the 42 mm/45 mm smoothbore carb in a natural finish
- Easier, faster installation using stock CV throttle cables
- Excellent throttle response, more power, improved acceleration and better gas mileage
- Order fewer part numbers to cover more applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 484-485 for additional main and pilot jets
- Installation instructions and hardware included

NOTE: Kits are not for use on models with cruise controls.

42 MM TOTAL KIT

- Includes performance intake manifold, rubber flange, 42 mm carb, high-flow K&N® filter, air cleaner cover, breather kit and hardware
- Made in Japan

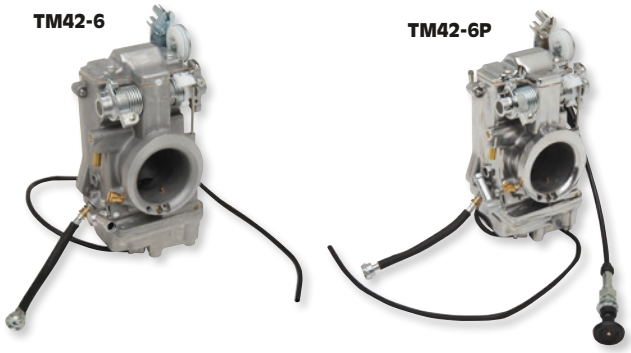
TOTAL KIT	
PART #	**DESCRIPTION**
FOR 99-06 TWIN CAM	
42-19	For 42 mm carb kit
45-4X	For 45 mm carb kit

42 MM/45 MM EASY KITS

- Accepts the original H-D intake manifold, choke cable, and throttle cables
- Keep the stock look of your bike
- Recommend the use of a high-flow air filter designed for the stock CV carb
- Made in Japan

EASY KITS	
PART #	**DESCRIPTION**
42 MM	
42-18	For 99-06 Twin Cam (not for use with stock air cleaner; requires a hi-perf air cleaner; use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)
42-10	For 94-03 XL1200 (includes special backing plate and hardware; use stock oval air cleaner cover and high-flow filter)
42-11	For 94-06 XL1200 and 94-02 Buell; must use aftermarket air filter (include air filter adapter)
45 MM	
1002-0030	For 99-06 Twin Cam (requires use of Screamin' Eagle manifold; use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)

HSR42 AND HSR45 SMOOTHBORE CARBURETORS



- For the high-performance engine builder who needs a carb for specific custom applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 484-485 for additional main and pilot jets

NOTE: Choke cable included, except for the TM42-6, which uses stock choke cable from CV-type carb.

NOTE: Airbox adapter HS42/001-K must be ordered separately.

NOTE: Kits are not for use on models with cruise controls.

PART #	DESCRIPTION
TM42-6	42 mm carb, standard finish
TM42-6P	42 mm carb, polished finish

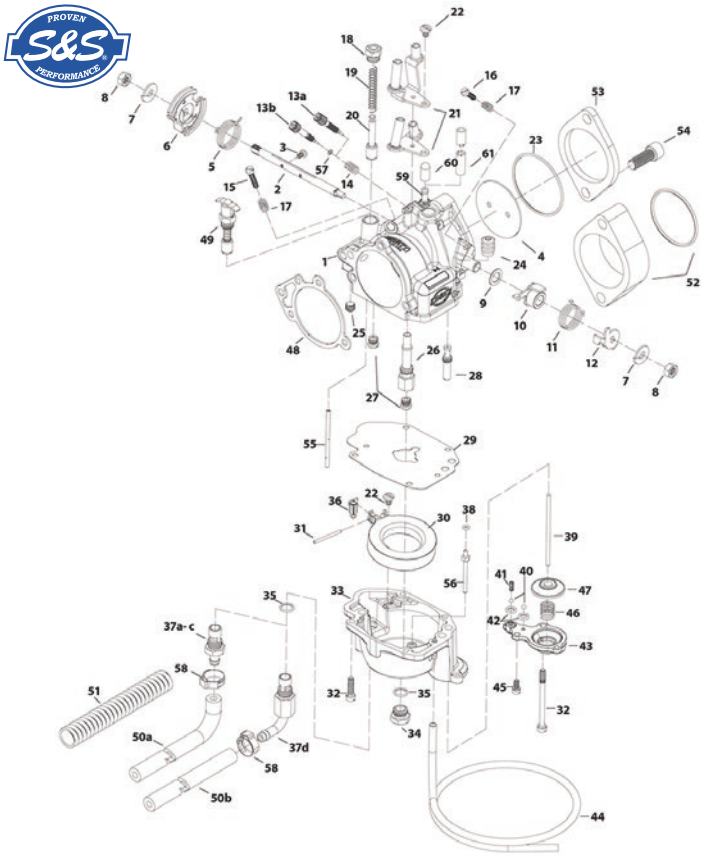
PART #	DESCRIPTION
TM45-2	45 mm carb, standard finish

HSR48 SMOOTHBORE CARBURETOR

- High-performance carb that is ideal for realizing the maximum potential from custom and race engines
- Recommended for engines over 1200 cc or larger
- Includes rubber mounting flange with 78 mm bolt hole centers, choke cable and four different main jets
- Uses stock H-D throttle cables
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 484-485 for additional main and pilot jets
- For race and custom applications only

PART #	DESCRIPTION
482X	48 mm carb, standard finish

HS42/012-300



REPLACEMENT FILTER ELEMENTS

- Replacement 2½" or 3" filter elements for HSR42/45/48 carburetor

PART #	DESCRIPTION
HS42012-250	2½" filter element
HS42/012-300	3" filter element

S&S CARBURETOR REBUILD KITS AND REPLACEMENT COMPONENTS

- Rebuild kits are available in master kits, body-only kits and accelerator pump kits
- Replacement gaskets, O-rings and components are made from the highest quality materials available

REPLACEMENT COMPONENTS

PART #	ID #	DESCRIPTION
112923		Master rebuild kit Super E (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
112924		Master rebuild kit Super G (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
DS-289111		Rebuild kit for Super E (body rebuild kit)
1003-1703		Super G carburetor body
1003-0312		Rebuild kit for Super E & G basic
1003-0056		Breather conversion kit for E & G carburetor
1003-0085	13A	Idle mixture screw (5 pk.)
1003-0040	14	Idle mixture screw spring (10 pk.)
1003-1716		Idle speed screw (10 pk.)
1003-0047	20	Fast idle plunger/enrichener (ea.)
1003-0459		Enrichener lever, Super E or G carburetor
1003-0196	21	Throttle cable guide/bracket for use w/ butterfly cables (ea.)
1003-0195	21	Throttle cable guide/bracket for use w/ CV (constant velocity) cables (ea.)
1003-1704	5	Throttle shaft spring for Super E carb (ea.)
1003-1705	5	Throttle shaft spring for Super G carb (ea.)
1003-1707	6	Throttle spring plate for Super E or G carb (ea.)
DS289935	23	Manifold to carburetor O-ring, Super E (10 pk.)
1003-0455	24	Seal, bellows, Super E/G, 2T, Nitrile
1003-0043	24	Bellows seal, accelerator pump (5 pk.)
-		Main Jets, see page 485
-		Intermediate Jets, see page 485
0934-5028	29	Bowl gasket, Super E & G (ea.)
DS289933	29	Bowl gasket, Super E & G (10 pk.)
1003-0966	32	Screw, S&S float bowl, long (ea.)
1003-0452	33	Float bowl for Super E & G
1003-0041	34	Float bowl plug (5 pk.)
0935-0864	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8009) (ea.)
0935-0870	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8095) (ea.)
1003-0042	36	Needle for S&S E & G carb (1,875" E & 2,0625" G) (ea.)
1003-0052	37	Fuel inlet/seat for S&S E & G carb (1,875" E & 2,625" G) (uses needle 1003-0042) (ea.)
1003-0237	37D	Inlet carb fuel swivel, 90°
0935-0865	38	O-Ring, (-006), 0,125" ID x 0,250" OD, Silicone (50-8011) (ea.)
1003-0192	38	O-ring, accelerator pump tube E & G carburetor (10 pk.)
1003-0194	40	Accelerator pump check ball only (10 pk.)
1003-0050	41	Check ball spring (5 pk.)
0935-0866	42	O-ring, (-009), 7/32" ID x 1/32" OD x 1/16" CS, Silicone (50-8012) (ea.)

PART #	ID #	DESCRIPTION
1003-0193	42	Accelerator pump cap O-ring (two required) (10 pk.)
1003-0188	44	Fuel bowl overflow hose; 24" long (5 pk.)
1003-0044	46	Diaphragm spring, accelerator pump (10 pk.)
1003-0045	47	Accelerator pump diaphragm (ea.)
112084	49	Enrichment device for B series carb (will work on Super E & G carbs when changing air cleaners) (ea.)
0706-0203	50B	Straight gas hose for use with the new S&S carbs with 90° fuel inlet
DS-289183		Gas line insulator
160057	52	1" Spacer block Super E
160491	53	0,25" Insulator block w/ O-ring Super E
1050-0360	53	1 7/8" x 3/8" Super E and G manifold insulator blocks w/ O-ring
160492	53	0,25" Insulator block w/ O-ring Super G
1003-0454	56	Tube, ejector nozzle, Super E/G, flared, brass
1050-0359	60	Hose VOES/oil (19-0395) (ea.)
DS-289113		Accelerator pump rebuild kit for E & G (diaphragm, spring, check balls and springs, pushrod and required hardware)
1050-0445		Plunger nut (ea.)
1050-0438	57	Idle mixture needle O-ring (ea.)
1003-0353	30	Float for Super E or G carburetor (ea.)
1050-0302		Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1050-0302		Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1003-1874	49	Enrichment plunger spring for Super E and G carburetors (ea.)
0935-0863		O-ring (-013) 0,437" ID x 0.565" OD, Viton®
0935-0869		O-ring (-233), 1,625" ID x 1.875" OD, Viton
1003-1709	6	Throttle return spring spool for E/G carb (ea.)
1003-1715	12	Accelerator pump arm
1003-1720	46	Accelerator pump plunger spring (10 pk.)
1003-1723	50	Main fuel tube E/G carb (ea.)
1003-1724	31	Float pin E/G carb (5 pk.)
1003-1730		Screw (3/8"-16 x 1")
1003-1731		Screw (3/8"-16 x 1,25")
1003-1734	55	Fast idle tube (ea.)
1003-1735		O-ring (5 mm x 3 mm x 1 mm) (10 pk.)
1003-1736	59	Fitting hose (,04")
1003-1738	15	Idle mix screw w/ O-ring (5 pk.)
0713-0140		Hose clamp (3/4") (50-8002) (ea.)

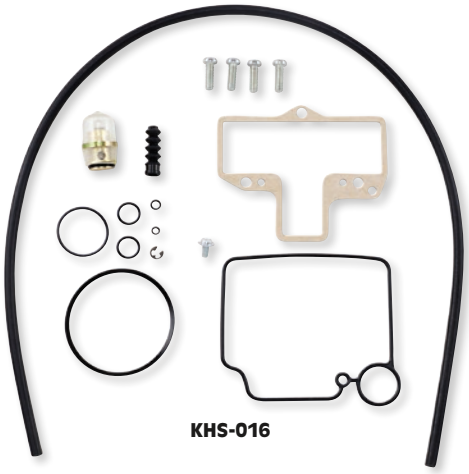
HS42/001-K

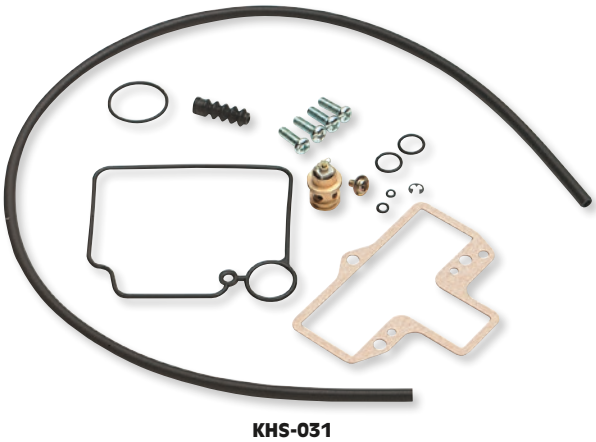
990-605-065

990-662-002



REPLACEMENT PARTS FOR HSR 42/45 CARB KITS

PART #	DESCRIPTION
HS42/001-K	Mikuni-to-CV carb air box adapter w/ three mounting screws
990-605-065	Short idle screw adjuster
990-662-002	Choke cable, for use with Mikuni plastic nut, spring and brass plunger
1003-2033	Replacement float for HSR42/45/48 carburetors



NEEDLE AND SEAT ASSEMBLY FOR MIKUNI HSR42/45 CARBURETOR

- Replacement needle and seat assembly for HSR42/45 carburetors
- Includes needle, seat and O-ring

PART #	DESCRIPTION
1050-0390	Needle and seat assembly for Mikuni HSR42/45 carburetor

KHS-016

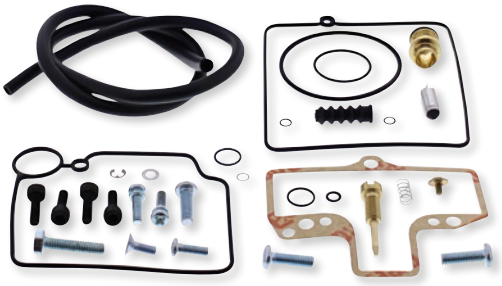
KHS-031

GENUINE MIKUNI HS CARBURETOR REBUILD KITS

- Genuine Mikuni parts properly replace worn or mistreated components for HSR42/45/48 carburetors
- Includes top cover gasket, jet needle E-ring and washer, throttle valve seal, pilot air O-ring, fuel joint O-ring, accelerator pump O-ring, needle valve O-ring, needle valve retainer screw, needle valve assembly, float bowl O-ring/gasket, overflow hose, float bowl screws, accelerator pump rod boot
- Includes all the parts needed to rebuild HSR42/45 or HSR48 carburetors

PART #	DESCRIPTION
KHS-016	HSR42/45 Carb rebuild kit
KHS-031	HSR48 Carb rebuild kit

1003-1271



CV CARBURETOR REBUILD KITS

- NBR rubber material is used on all O-rings and rubber gaskets; NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kit are based on U.S. models and discretion must be used when attempting to install the kit on a non-U.S. model
- Includes all gaskets and O-rings, including intake gaskets before and after the carburetor
- Kit includes float bowl, carburetor cap, and accelerator pump screws
- Extended fuel mixture screw with spring, washer, and O-ring
- Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- Three main jets and three pilot jets that can be used to tune a stock machine or a modified one
- Kit is intended for closed-course racing only

PART #	DESCRIPTION
1003-1275	For 00-06 Twin Cam (includes: 45, 48, 50 pilot jets; 190, 195, 200 main jets; N8EA needle)
1003-1271	For 88-03 XL883 (includes: 42, 45, 48 pilot jets; 160, 165, 170 main jets; N0KH needle)
1003-1274	For 04-06 XL1200 (includes: 42, 45, 48 pilot jets; 180, 185, 190 main jets; N0KH needle)
1003-1272	For 88-03 XL1200 (includes: 42, 45, 48 pilot jets; 170, 175, 180, 190, 195, 200 main jets; N0KH needle)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

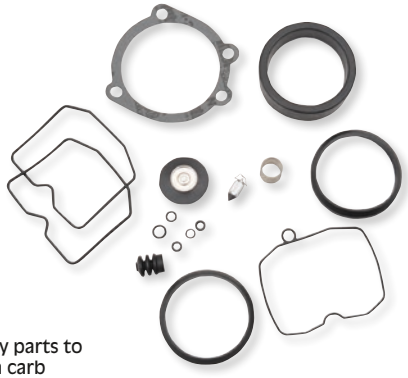
ALL BALLS RACING

CARBURETOR KIT FOR MIKUNI

- NBR rubber material is used on all O-rings and rubber gaskets – NBR has excellent resistance to the ethanol used in today's fuels
- Kit is intended for closed-course racing only
- Includes: all gaskets and O-rings including spigot body gasket; float bowl, carburetor cap and spigot body screws; fuel mixture screw with spring, washer, and O-ring; float needle valve with FMK tip; and accelerator pump boot

PART #	DESCRIPTION
1003-1948	For HSR 42/45



DRAG Specialties

CARB REBUILD KIT FOR MIKUNI

- Includes all required parts to completely rebuild a carb

PART #	DESCRIPTION
1003-0293	For HSR42/45 mm carbs

DRAG Specialties

CARB REBUILD KIT FOR KEIHIN

- Kit includes all necessary parts to rebuild a CV-style Keihin carb

PART #	DESCRIPTION
1003-0292	For 88-06 Keihin CV carbs

Genuine JAMES GASKETS

CARB REBUILD KIT FOR KEIHIN CV

- For use with all 99-06 Big Twin or 88-06 XL using the CV carb
- Includes all the necessary needles, O-rings, seals and gaskets etc. for a complete rebuild

PART #	DESCRIPTION
DS-289109	For all 88-06 CV carbs

Genuine JAMES GASKETS

ACCELERATOR PUMP DIAPHRAGM

- Sold each

PART #	DESCRIPTION
DS-174445	For 86-89 XL w/ OEM Keihin carb; repl. OEM #27361-76

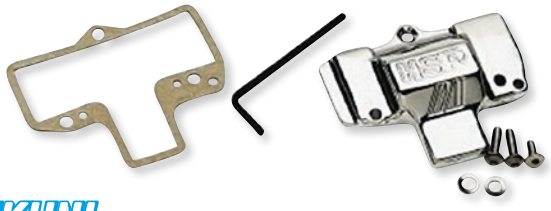
DS173537

Genuine JAMES GASKETS

CARBURETOR AND INTAKE MANIFOLD SEAL KITS

- Kits contain carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
DS-174381	40 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ OE carbs
DS173537	44 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ Screamin' Eagle carbs



COMETIC GASKET

INTAKE MANIFOLD AND CARB SEAL KIT

- Kit contains one carburetor-to-intake seal (27002-89) and two intake-to-cylinder head seals (26995-86B)

PART #	DESCRIPTION
0935-0172	40 mm seal kit for 99-06 Twin Cam and 88-06 XL w/ OEM carb

MIKUNI

MIKUNI CARB TOP COVER

- Gives your bike a unique custom look
- Chrome finish with embossed Mikuni logo

PART #	DESCRIPTION
KHS-029	For Mikuni HSR carburetors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

DRAG Specialties

SMOOTH CHROME CV CARB TOP COVER

- Smooth die-cast chrome cover replaces the OEM black plastic top cover
- Installation is a snap; just remove the four OEM screws and bolt on the new cover with them

PART #	DESCRIPTION
DS-288801	For 99-06 Big Twin and 88-06 XL CV carb models; repl. OEM #27040-88

GARDNER WESTCOTT

CARBURETOR SOCKET-HEAD BOLT KIT

- Replace the stock screws with strong chrome socket-head bolts
- For use on CV carburetors

PART #	DESCRIPTION
DS-190695	For top cover only on 99-06 CV carburetors

1050-0262

1050-0184

TODDS CYCLE

MIKUNI ENRICHENER CABLE RELOCATION BRACKET KITS AND KNOBS

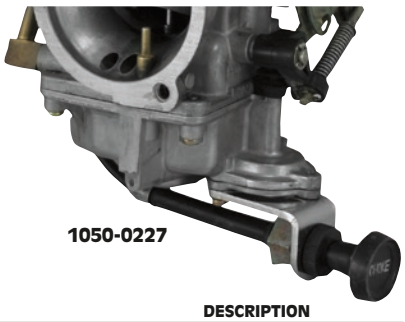
- Kit includes bracket, idle mixture screw knob and enrichener cable knob
- CNC-machined billet aluminum components
- Available in a black or raw finish

NOTE: Must be used with Mikuni enrichener cable, Drag Specialties PART #990-662-002, sold separately.

PART #	DESCRIPTION
1050-0262	Bracket kit w/ enrichener and idle knobs, black
1050-0184	Bracket kit w/ enrichener and idle knobs, raw

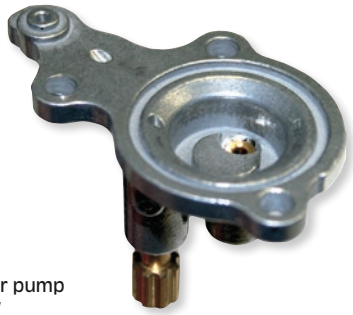
PART #	DESCRIPTION
990-662-002	Enrichener cable

1050-0226

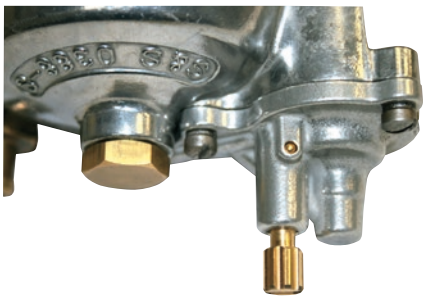


TODDS CYCLE

ECON ENRICHENER CABLE RELOCATION BRACKETS



- Relocates enrichener cable and knob out of the way
- For use with stock enrichener cables and knobs
- Made from stainless steel with ball-burnished finish



PART #	DESCRIPTION
1050-0227	For all Keihin CV carbs

1050-0227

PART #	DESCRIPTION
1050-0226	For all Mikuni HSR carbs

Boyesen

QUICKSHOT

- Cost-effective, bolt-on upgrade allows accelerator pump fuel spray to be adjusted with the turn of a screw
- Precision single hole sprayer tip directs and injects fuel more efficiently than stock
- Fine high-speed fuel stream atomizes faster to improve roll-on acceleration
- Provides instant throttle response
- Accelerator pump check valve stops bogging and coughing
- Adjustable fuel jet to control accelerator pump spray
- Improves low end performance and fuel economy
- Easy bolt-on; no modifications necessary

PART #	DESCRIPTION
1050-0241	For S&S Super E & G carburetors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

DRAG Specialties

FUEL INLET FITTING

- Solid brass fitting
- Accepts 1/4" fuel line
- Sold each

PART #	DESCRIPTION
1003-0257	For 99-06 Keihin butterfly and CV carburetors; repl. OEM #27371-76A

ALL BALLS RACING

EXTENDED FUEL MIXTURE SCREW

- Kit includes extended mixture screw for easy tuning, complete with O-ring, spring and washer
- Includes all necessary parts to replace OEM-style fuel mixture screw

PART #	DESCRIPTION
1050-0451	For Keihin 40 mm CV carbs

DYNOJET

DS-289306

RECALIBRATION KITS

- Recalibrate your stock Keihin CV carb to make full use of the performance potential
- Includes the jets, needles, instructions, etc. necessary to recalibrate stock engines with CV carbs
- Kit provides broad-range performance gains to maintain stock driveability

PART #	DESCRIPTION
DS-290347	For 00-06 Twin Cam
1007-0001	For 04-06 XL883

PART #	DESCRIPTION
DS-289306	For 96-03 XL883/1200
DS-289303	For 90-95 XL883/1200

STAGE 7 THUNDERSLIDE WITH JET KITS

- Stage 7 kit is for 80 plus hp engines and include a taller carburetor top for more slide movement
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit includes jets, needles, clips, carburetor top and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290351	For Screamin' Eagle 44 mm Keihin CV Twin Cam 88

DS-290349

THUNDERSLIDE JET KITS

- Designed for engines with stock or aftermarket air filter and exhaust system
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit also includes jets, needles, clips and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290349	For 00-06 Twin Cam
DS-290149	For 99 Twin Cam

PART #	DESCRIPTION
1007-0005	For 04-06 XL1200/C/R
DS-289308	For 89-03 XL1200 (not Sport) (Stage 1)

DRAG Specialties

55 MM HIGH-FLOW INTAKE MANIFOLD

- High-flow design
- Improved flow performance by flow bench tester
- Cast iron finish for replacement of stock plastic manifolds
- Reduces leakage problems

PART #	DESCRIPTION
1050-0480	For 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)

PROVEN S&S PERFORMANCE

55 MM PERFORMANCE INTAKE MANIFOLD

- Manifold has a full 55 mm diameter intake opening for more airflow
- Lets your engine breathe better - a must-have upgrade for 124" and larger engines
- CNC machined T6 heat-treated cast aluminum construction
- Adds horsepower
- More heat-resistant than the OEM polymer intake manifold
- Includes new rubber O-ring seal

PART #	DESCRIPTION
1050-0456	For 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)

PROVEN S&S PERFORMANCE

55 MM BLACK MANIFOLD - CNC PORTED

- 5-axis CNC ported manifold
- Maximum aerodynamic efficiency
- Textured finish encourages fuel dissipation and atomization
- Works with stock or ported heads
- High-temp, durable black powdercoat finish
- Fits all 55 mm throttle bodies

PART #	DESCRIPTION
1050-0472	For 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)

1050-0046

PROVEN S&S PERFORMANCE

FLANGE-MOUNT INTAKE MANIFOLDS

- For mounting an S&S E and G series carburetor or flange-mount carburetor
- Comes with a map sensor port and match OEM intake ports

PART #	DESCRIPTION
FOR 99-06 TWIN CAM	
1050-0291	S&S E-series carburetor

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (CONT)	
1050-0046	S&S G-series carburetor

PROVEN S&S PERFORMANCE

MANIFOLD CONVERSION KIT FOR SPORTSTER

- Replaces original rubber manifold
- Size 341 fits 4,650" cylinders
- Natural finish
- Includes front and rear manifold mounting flanges, manifold O-rings and aluminum spacer shims
- For use with S&S A/B/E, Tillotson, Bendix and Keihin butterfly carburetors

PART #	DESCRIPTION
1050-0353	For 86-03 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

SPIGOT-MOUNT INTAKE MANIFOLDS FOR S&S HEADS

1050-0292

- Used to install a stock CV carburetor on S&S 3,625", 4" and 4,125" bore motors
- PART #1050-0292 will also fit S&S Hot Setup and Super Stock™ head kits
- PART #1050-0295 is used to install 48 mm CV or Mikuni carburetor on Twin Cam 88", 95" bore motors

NOTE: Not for use with OEM-style O-rings. Requires the use of S&S manifold O-rings and U-rings, sold separately.

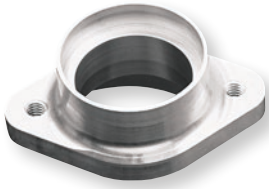
PART #	ENGINE SIZE	CYLINDER LENGTH
FOR S&S TWIN CAM STYLE MOTORS AND HEAD KITS		
1050-0292[1]	Fits stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors	4,9365"
1050-0295[2]	Fits stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors	4,9365"

[1] Requires the use of S&S manifold O-rings and U-rings (sold separately). Will fit S&S Hot Setup and Super Stock® head kits.
[2] Requires the use of S&S manifold O-rings and U-rings (sold separately).

TWIN CAM INTAKE MANIFOLD

- Intake manifold with MAPS hole for HSR42/45/48 carbs
- Rubber flange adapters sold separately

PART #	DESCRIPTION
1050-0467	For all carbureted Twin Cam engines



INTAKE MANIFOLD FLANGE KITS

- Die-cast zinc construction with a chrome finish
- Includes Viton® seals and hardware
- Sold in pairs

PART #	DESCRIPTION
1050-0418	For 06-17 Twin Cam; repl. OEM #s 26993-06, 26995-86B

BILLET FLANGE ADAPTER FOR SPIGOT-TYPE CARBS

- Allows you to mount OEM late-model CV or Mikuni HSR-42 carbs on early Evolutions with two-bolt flange manifolds
- CNC machined from 6061 billet aluminum
- Mounting holes are 2,75" on center
- Can be polished, plated or painted
- Carb-to-manifold seal also available; see GASKETS & SEALS section
- Sold each

PART #	DESCRIPTION
DS-289219	Billet flange adapter

RUBBER FLANGE ADAPTERS FOR SPIGOT-TYPE CARBURETORS

M-VM-40-200

- Adapters fit 38 mm and 40 mm spigot-type carburetors
- Includes clamp
- PART #M-VM-36-200 has mounting holes that are 70 mm on center; ID of 39,5 mm
- PART #M-VM-38-200 has mounting holes that are 74,6 mm on center; ID of 38 mm
- PART #M-VM-40-200 has mounting holes that are 74,6 mm on center; ID of 47 mm
- Sold individually

PART #	DESCRIPTION
M-VM-36-200	36 to 38 mm rubber flange adapter
M-VM-38-200	40 mm rubber flange adapter – 43 mm carb spigot OD (fits RS40, RS42)
M-VM-40-200	40 mm rubber flange adapter – 52 mm carb spigot OD

CHROME INTAKE MANIFOLD FLANGES

- Chrome flanges replace the stock flanges
- Sold in pairs
- Replacement intake manifold seals also available; see GASKETS & SEALS section

PART #	DESCRIPTION
DS-289212	For 99-05 Twin Cam, 86-06 XL

BLACK FLANGE ADAPTERS

HS42/062-48

- Rubber flange adapters fit 42 mm, 45 mm and 48 mm spigot-type carburetors
- PART #HS42/018-42 has mounting holes that are 70 mm on center; ID of 45 mm
- PART #HS42/018-45 has mounting holes that are 70 mm on center; ID of 48 mm
- PART #HS42/062-48 has mounting holes that are 70 mm on center; ID of 71 mm
- PART #1013-0166 has slotted mounting holes that are 70 to 75 mm on center; ID of 42 mm
- PART #1013-0167 has slotted mounting holes that are 70 to 75 mm on center; ID of 45 mm
- Includes clamp
- Original straight-through design
- Sold individually

1050-0232

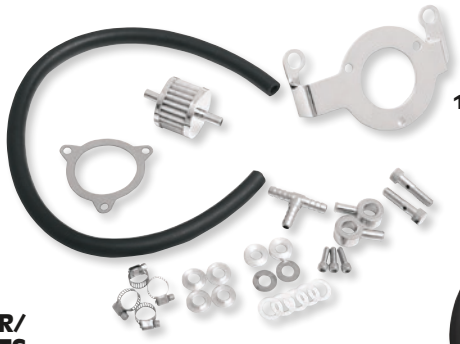
1050-0394

INTAKE MANIFOLD FLANGES

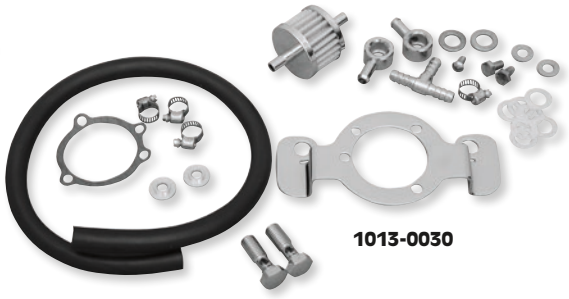
- Sold in pair (front/rear) or each

PART #	DESCRIPTION
FOR 99-05 TWIN CAM AND 86-06 XL ENGINES W/ S&S INTAKE MANIFOLD	
1050-0232	Front/rear flanges; repl. OEM #s 27009-86B, 27010-86B
1050-0394	Front flange only; repl. OEM #27009-86B
1050-0395	Rear flange only; repl. OEM #27010-86B

1003-0313



0934-0665



INTAKE MANIFOLD O-RINGS AND U-RINGS

- For use with all current S&S intake manifolds
- O-rings sold in each or in 10-pack
- U-rings sold each

FOR 99-06 TWIN CAM AND 86-06 XL	
PART #	DESCRIPTION
O-RINGS (MANIFOLD TO CYLINDER HEADS)	
1003-0060	For stock heads w/ S&S manifold (10 pk.)
1003-0313	For stock heads (10 pk.); repl. OEM #26995-86A
1003-0457	For stock heads (ea.); repl. OEM #s 26992-99, 26995-86A, 26995-86B
1003-0456	For Super B or E carburetor (ea.)
U-RINGS (CV CARB TO MANIFOLD)	
0934-0666	40 to 42 mm
0934-0665	44 to 45 mm
REPLACEMENT PARTS	
1050-0347	Straight fitting hose (0,200" x 0,098")
0935-0868	O-ring ($1\frac{7}{8}$" for Super E carburetor)

1013-0036

1013-0030

CRANKCASE BREATHER/ SUPPORT BRACKET KITS

- Kits allow the installation of aftermarket air cleaner assemblies on late model bikes equipped with OEM CV carb or Delphi EFI system
- Includes bracket, filter, hose and all mounting hardware necessary for installation except where noted

PART #	DESCRIPTION
1013-0036	For 08-16 FLHT/FLTR/FLHX/FLHR, 16-17 Softail, 17 FXDLS
DS-289082	For all 99-17 Big Twin (except 08-17 Dresser, 16-17 Softail, 17 FXDLS)
DS-289060	For all 99-17 Big Twin (no hose or filter) (except 08-17 Dresser, 16-17 Softail, 17 FXDLS)
1013-0030	For 07-22 XL (except RH Sportster)
DS-289126	For 91-06 XL
DS-289073	Repl. filter

DS-289620

2110-0316

CRANKCASE BREATHER KITS

- One-piece chrome tube design
- Comes with breather bolts, washers and hardware
- Works with most aftermarket air cleaners

PART #	DESCRIPTION
DS-289620	For 99-17 Big Twin (except 17 FXDLS, 16-17 Softail, 08-17 Dresser)
2110-0316	For 91-22 XL (except RH Sportster)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

DRAG Specialties

AIR CLEANER BREATHER KIT

- Enables the mounting of most aftermarket air cleaners to late-style engines that breathe through the cylinder heads
- Fittings can be rotated 360° so that hoses can be routed as necessary
- Hose sold separately

PART #	DESCRIPTION
DS-289055	For 99-17 Big Twin (except 17 Dresser), 91-22 XL (except RH Sportster)

MIKUNI

HSR CARBURETOR HEAD-BREATHER KITS

- For use with Mikuni air filter PART #HS42012250 and HS42012300
- For the installation of HSR carburetor kits using the K&N® high-flow filter

KHS-030

PART #	DESCRIPTION
KHS-030	For HSR42/45 carb on 99-06 Twin Cam

KHS-020

PART #	DESCRIPTION
KHS-020	For HSR42/45 carb on 93-06 XL

TRASK PERFORMANCE

EXTERNAL BREATHER KITS

- Converts Assault Charge Air Cleaner from internal to external breathing
- Vents breathers to atmosphere instead of recirculating oil mist back through the intake

1012-0255

PART #	DESCRIPTION
1012-0255	All Twin Cam engines equipped w/ Assault charge air cleaners

1012-0256

PART #	DESCRIPTION
1012-0256	All M-Eight engines equipped w/ Assault charge air cleaners

S&S PERFORMANCE

BILLET HEAD BREATHER KIT FOR TWIN CAM

- 6061 billet aluminum construction with an anodized blue S&S finish
- Dual O-ring design for better sealing
- Labyrinth design reduces oil pass-through
- Reduces amount of oil being burned; less oil carried over to the intake
- Maintenance-free design replaces the ineffective mesh filter
- Increased durability compared to the stock breather components

PART #	DESCRIPTION
0930-0249	For 99-17 Twin Cam; repl. OEM #17025-03A

S&S PERFORMANCE

BILLET HEAD BREATHER KIT FOR M-EIGHT

- 6061 billet aluminum head breathers replace the OEM plastic parts
- Dual O-ring design for a better seal in the head
- Unique Labyrinth design significantly reduces oil pass-through
- Reduces emissions by lowering the amount of oil being burned
- Increased durability compared to the stock head breathers
- S&S anodized blue finish
- Sold in pairs

PART #	DESCRIPTION
0930-0243	For 24 FLHTK/FLTRK/FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-24 H-D FL Trike and 18-24 Softail

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

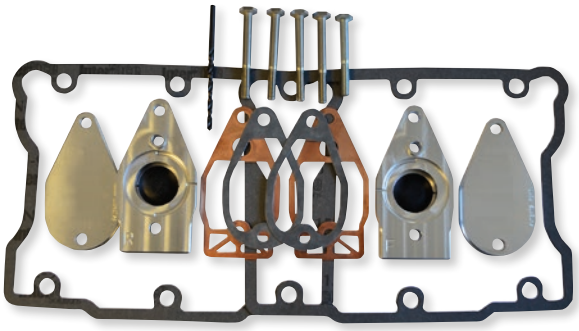
FEULING

CYLINDER HEAD BREATHERS FOR M-EIGHT



- Machined from billet 6061 aluminum with square surfaces, promoting excellent umbrella valve sealing, longer main breather exit nipples with dual O-rings to promote better breather system sealing
- Properly sized breather inlets and location for optimum engine breathing
- Unique design maximizes breather volume and allows for easy serviceability
- Breather bodies have multiple drain ports located on the inside floor, ports are chamfered on ID to allow easy drainage yet squared off on exits to deter filling from splash oil
- Anodized Feuling® red finish
- Feuling breathers work, seal and you will find they hold an engine vacuum
- Include billet breather housings, billet covers, breather filter elements, umbrella valves and quality hardware (rocker cover gaskets are not included and must be purchased separately)
- Sold in pairs
- Cylinder head breather rebuild kit PART #1012-0269 includes two umbrella valves, two filters, two button head screws and four o-rings (available separately)

NOTE: Testing on a healthy engine with no external venting (sealed dipstick and transmission top cover) will see 3 to 4 oz of oil in the sump and once dipstick is removed another 3 to 4 oz will drain.

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
0930-0239	For 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-25 H-D FL Trike, 18-24 Softail
1012-0269	Cylinder head breather rebuild kit for PART #0930-0239

FEULING

ROCKER BOX BREATHER KIT

- Properly sized breather holes for optimum engine breathing
- Machined from billet 6061 aluminum with square surfaces promoting excellent gasket and breather system sealing
- Kit includes billet breather housings, gaskets, breather filter elements, umbrella valves and ARP® hardware.
- Rocker cover gaskets sold separately

PART #	DESCRIPTION
1012-0247	For 99-16 Touring, 00-17 Softail, 99-17 Dyna

TRASK PERFORMANCE

MYSTFREE KIT

- Machined 6061-T6 billet aluminum construction
- Helps oil drain more efficiently into the rocker boxes
- Reduces oil misting coming from the engine breathers

PART #	DESCRIPTION
0920-0118	For 99-16 FL Touring, 00-17 Softail and 99-17 Dyna

COMETIC GASKET

BREATHER ASSEMBLY REBUILD GASKET KIT

- All necessary gaskets/seals for a complete rebuild of the breather assembly
- Includes two metal breather plates, two gaskets, one breather filter and one umbrella valve
- Kit is for one cylinder head only

PART #	DESCRIPTION
0934-6002	For 03-17 Twin Cam

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

Eastern M C Parts

BREATHER TUBES

1012-0243

1010-2029

- For use with OEM backing plates and air filters
- Sold in pairs

PART #	DESCRIPTION
1012-0243	For 08-13 Big Twin; repl. OEM #29502-08A
1012-0242	For 99-12 Big Twin; repl. OEM #29476-99

PART #	DESCRIPTION
1010-2029	For 95-00 XL; repl. OEM #24922-93

TWIN CAM BREATHER BOLT KIT

- Chrome-plated hex-head breather bolts
- Fits most supports and breather brackets

PART #	DESCRIPTION
1012-0161	3/8"-16 (Twin Cam)

BREATHER BOLT WASHER KIT

- Features four 7/16" and four 5/16" aluminum centering washers
- Also includes four 1/2" nylon sealing washers

PART #	DESCRIPTION
1012-0005	For 99-17 breather systems

1013-0017

DS-289062

SUPPORT BRACKETS

- Chrome air cleaner braces provide additional support for the Dragtron™ II air cleaners or any flat-backed air cleaners
- Mount to the cylinder heads
- Can be used in conjunction with most breather kits (where applicable)
- Breather kits/bolts sold separately
- All gaskets and mounting hardware included
- For replacement gaskets, see GASKETS & SEALS section

PART #	DESCRIPTION
DS289190	For 99-17 Twin Cam w/ CV carb/Delphi EFI (except 08-17 Dresser, 16-17 Softail, 17 FXDLS)
1013-0017	For 07-22 XL (except RH Sportster)
DS-289062	For 88-06 XL

CARB SUPPORT BRACKET WITH CHOKE CABLE MOUNT

- Chrome-plated stamped steel
- Provides support for carb and air cleaner
- Offers mounting of choke control under the carb for easy access

PART #	DESCRIPTION
2110-1212	For 99-06 Twin Cam w/ Mikuni HSR 42/45 carb

ADJUSTABLE CARBURETOR SUPPORT BRACKET

- Adjusts from 5.25" to 6.375"
- Mounts from the center-case bolt between cylinders to the lower flange mount of the manifold

PART #	DESCRIPTION
160471	Support bracket

METHOD CLEAR SERIES AIR CLEANER KITS

- Forged billet aluminum air cleaner featuring a polycarbonate window to view the internal working of air intake system
- Forged billet aluminum backing plate with internal hidden breather backing plate technology eliminating the need for external hoses or hardware for a virtually closed loop system (unless noted)
- Polycarbonate window is coated with proprietary films that prevent oil adhesion, yellowing, or marring from engine oil or UV exposure to maintain window clarity for a clear view of engine's internals
- Radius air inlet provides unobstructed airflow into engine
- High-performance filter is constructed from black pre-oiled cotton for optimum flow and filtration
- Filter is washable and reusable
- Includes backing plate, forged filter housing, clear polycarbonate top, filter, gaskets and necessary hardware
- Replacement air filter fits all Method Clear series air cleaners; sold separately
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3238[1]	Chrome
1010-3236[1]	Black anodized
1010-3237[1]	Black anodized w/ machined accents
1010-3239[1]	Blue anodized
1010-3240[1]	Gold anodized
1010-3241[1]	Red anodized
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2377	Chrome
1010-2373	Black anodized
1010-2369	Black anodized w/ machined accents
1010-2538	Blue anodized
1010-2534	Gold anodized
1010-2634	Orange anodized
1010-2530	Red anodized
1010-2654	Titanium anodized
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2378	Chrome
1010-2374	Black anodized
1010-2370	Black anodized w/ machined accents
1010-2539	Blue anodized
1010-2535	Gold anodized

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS (CONT)	
1010-2635	Orange anodized
1010-2531	Red anodized
FOR 01-17 TWIN CAM DELPHI EFI, 99-06 TWIN CAM CV CARB (EXCEPT 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2379	Chrome
1010-2375	Black anodized
1010-2540	Blue anodized
1010-2536	Gold anodized
1010-2636	Orange anodized
1010-2532	Red anodized
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2380[2]	Chrome
1010-2376[2]	Black anodized
1010-2541[2]	Blue anodized
1010-2537[2]	Gold anodized
1010-2533[2]	Red anodized
OPTIONAL/REPL. COMPONENTS	
1010-3196	Repl. air filter
1011-4355	Pre-filter/rain sock

[1] Does not include oil reservoir; vents through transmission top cover.

[2] Will fit 88-90 models also; breather system is not applicable for these model years.

CLEAR TEAR SERIES AIR CLEANER KITS

- The Clear Tear air cleaner series brings the timeless teardrop shape to a new level
- Smooth flowing cage design is forged and CNC machined
- Specially formed radius shaped polycarbonate top is coated for long-term durability
- Radius polycarbonate window can be installed in both the front or back facing direction allowing the rider to choose their preferred look
- Hidden breather backing plate technology
- Breather design is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes (unless noted)
- M-Eight applications feature an integrated oil-catch to ensure no oil reaches the air filter and restricts airflow; unless noted
- Performance air filter is made from black pre-oiled cotton and is washable

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL

METHOD STAGE II OVAL AIR CLEANERS

- Oval shape and clear polycarbonate window for added performance with a view into the engines intake system
- Low profile design for ample legroom
- Radius design backing plate engineered for horsepower and torque through unobstructed airflow
- Performance black pre-oiled air filter features a high flow pleated top and pleated perimeter to take in airflow from all directions resulting in increased performance
- Air filter is washable and reusable
- Includes backing plate assembly, air filter, outer cover assembly and all necessary hardware
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

CROSSFIRE AIR CLEANERS

- Design inspired by the all-new H-D Prodigy™ wheels found on 20-25 Special Touring models
- Reduced intake height for improved leg clearance
- Forged billet aluminum air cleaner featuring a polycarbonate window to view the internal working of air intake system
- Hidden breather backing plate technology
- Breather design is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes
- M-Eight applications feature an integrated oil-catch to ensure no oil reaches the air filter and restricts airflow (unless noted)
- Eliminates oil blow-by issues with M-Eight intakes
- High performance black pre-oiled air filter

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3235[1]	Chrome
1010-3233[1]	Black anodized
1010-3234[1]	Black anodized w/ machined accents
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2823	Chrome
1010-2815	Black anodized
1010-2819	Black anodized w/ machined accents
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2825	Chrome
1010-2817	Black anodized
1010-2821	Black anodized w/ machined accents

PART #	DESCRIPTION
FOR 01-17 TWIN CAM DELPHI EFI, 99-06 TWIN CAM CV CARB (EXCEPT 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2824	Chrome
1010-2816	Black anodized
1010-2820	Black anodized w/ machined accents
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2826[2]	Chrome
1010-2818[2]	Black anodized
1010-2822[2]	Black anodized w/ machined accents

[1] Does not include oil reservoir; vent through transmission top cover.

[2] Will fit 88-90 models also; breather system is not applicable for these model years.

INVERTED SERIES AIR CLEANER KITS

- CNC machined from forged billet aluminum
- Forged billet air filter covers feature exposed design and a CNC inverted top that acts as a velocity stack to help pull in more airflow
- Forged billet aluminum backing plate features Big Sucker™ hidden breather technology and a radius air inlet for smooth airflow
- Hidden breathers are O-ringed at the heads and exits at throttle body/carb to create a virtually closed-loop system (unless noted)
- No external hoses or hardware needed
- Black stainless steel jacketed inverted filters feature an inverted pleated top and 360° of pleated sides to pull in filtered air from every angle
- Performance filters feature a black synthetic filter element wrapped in a stainless steel jacket
- Filter is water-resistant, eliminating the need for a rain sock

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3226[1]	Beveled, chrome
1010-3225[1]	Beveled, black anodized
1010-3228[1]	Deep Cut, chrome
1010-3227[1]	Deep Cut, black anodized

SIDEKICK AIR CLEANERS

- The Sidekick air cleaner combines forged billet aluminum, clear polycarbonate and an angled shape for the best in function and style
- Air cleaner cover is forged and CNC machined into a angled shape for excellent leg room
- Integrated polycarbonate top is coated for long-term durability
- Hidden breather backing plate technology
- Breather design is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes (unless noted)
- M-Eight applications feature an integrated oil-catch to ensure no oil reaches the air filter and restricts airflow; unless noted
- Performance air filter is made from black synthetic material wrapped in stainless steel mesh
- Filters are washable and water-resistant

BIG SUCKER™ STAGE I AIR FILTER KITS WITH COVER FOR M-EIGHT

- The new Big Sucker™ Stage 1 performance intake for M-Eight engines adds new and improved features to the original industry-leading air cleaner
- New hidden breather backing plate technology is a step up from the original system
- Each breather is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary breather tubes (unless noted)
- Breathing system eliminates oil issues associated with M-Eight engines by directing any excess breather oil back into the engine
- To ensure no oil saturates the filter and restricts your airflow, we also integrated a new oil reservoir that can be serviced when you service the filter element (unless noted)
- Smooth radius air inlet for unobstructed airflow
- New aluminum filter top plate has integrated filter mounting studs for increased durability while eliminating the need for additional filter mounting hardware
- High performance filters are made from black pre-oiled cotton for the best in airflow and filtration
- Filter is washable and reusable
- Backing plates available in gloss black or chrome finish
- Each M-Eight Big Sucker Stage I kit includes one-piece backing plate, breather tubes, performance filter, filter top, gaskets, oil reservoir (unless noted) and necessary hardware

KITS W/ STANDARD FILTER AND STEEL COVER

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL

1010-2498

1010-2499

BIG SUCKER™ STAGE I AIR FILTER KITS WITHOUT COVERS

- Designed for increased horsepower and torque
- PART #s 1010-3250 and 1010-3251 feature an aluminum backing plate with zero flat surfaces (every angle of the intake is designed to promote airflow) and a one-piece aluminum top filter plate with integrated air venturi to direct airflow into the throttle body
- PART #s 1010-2498 and 1010-2499 feature a hidden breather system that is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary shooter tubes and an oil catch that is integrated into the backing plate to stop any excess breather oil from reaching the air filter
- High-performance filters are made from black pre-oiled cotton for the best in airflow and filtration
- Filters are washable and reusable
- Accepts all Ness Stage I custom air cleaner covers; sold separately (see page 503)

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3250	W/ chrome backing plate
1010-3251	W/ black backing plate

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2498[1]	W/ chrome backing plate
1010-2499[1]	W/ black backing plate

[1] Will also accept OEM center bolt round covers used on 18-24 FXLR/FLSL/FLDE/FLHC/FXST models.

1010-2083

1010-2084

BIG SUCKER™ STAGE I AIR FILTER KITS FOR M-EIGHT

- Big Sucker™ Stage 1 performance intake for M-Eight Touring/Bagger models adds new features to the original industry-leading air cleaner and designed to accept factory air cleaner cover
- Hidden breather backing plate technology is a step up from original system
- Each breather is O-ringed at the heads, passes through the backing plate and exits inside the mouth of the throttle body through proprietary breather tubes
- Breathing system eliminates oil issues associated with M-Eight engines by directing any excess breather oil back into the engine
- To ensure no oil saturates the filter and restricts your airflow, we also integrated a new oil reservoir that can be serviced when you service the filter element
- Aluminum filter top plate has integrated filter mounting studs and directional air venturi for increased durability and performance
- Performance filter is constructed from red pre-oiled surgical-grade cotton and is washable/reusable
- Filter offers over 200% more surface area then the factory filter and features a tapered bottom resulting in more filter surface area then any other performance intake option designed for the 17-24 factory cover
- Backing plates available in chrome, black or natural finish
- Each kit includes one-piece backing plate, breather tubes, performance filter, filter top, gaskets, oil reservoir and necessary hardware
- Accepts stock OEM outer cover

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE	
1010-2083	W/ chrome backing plate
1010-2084	W/ black backing plate
1010-2082	W/ natural backing plate

BIG SUCKER™ STAGE I AIR FILTER KITS WITH COVER FOR TWIN CAM AND XL

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is O-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in black powdercoat or chrome finish
- Kits are available with standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four-layers of surgical-grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and reuse
- All kits include high-performance filter, backing plate and outer cover
- All necessary hardware and instructions are included with each kit

KITS W/ STANDARD FILTER AND STEEL COVER

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS

1010-1604	Smooth, wrinkle black
FOR 99-01 FLHTI/FLHRI	
1010-2073	Beveled, gloss black
1010-2068	Slot Track, gloss black
FOR ALL 01-17 TWIN CAM DELPHI EFI, 99-06 TWIN CAM CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 16-17 FXDLS)	
1010-2076	Beveled, chrome
1010-2071	Beveled, gloss black
1010-2066	Slot Track, gloss black
1010-1601	Smooth, chrome
1010-1605	Smooth, wrinkle black
FOR 91-22 XL W/ CV CARB OR DELPHI EFI (EXCEPT RH SPORTSTER)	
1010-2079[1]	Beveled, chrome
1010-2074[1]	Beveled, gloss black
1010-2069[1]	Slot Track, gloss black
1010-1603[1]	Smooth, chrome
1010-1607[1]	Smooth, wrinkle black

[1] Will fit 88-90 models also, breather system is not applicable for these model years.

ARLEN NESS

BIG SUCKER™ STAGE II AIR FILTER KITS WITH COVER FOR TWIN CAM AND XL

- Feature a one-piece aluminum backing plate/carb support bracket with hidden breather technology and radius air inlet
- Eliminate the need for banjo fittings, hoses and filter
- Breather passages exit at the mouth of the carburetor/throttle body, creating a virtually closed-loop system
- Kits include a 20% larger high-performance filter and steel outer cover
- Filters are available with standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four layers of surgical grade cotton for optimum filtration and maximum airflow

1010-0434

1010-2701

- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and reuse
- All necessary hardware and instructions are included

PART #	DESCRIPTION
STAGE II KITS W/ STANDARD FILTER	
1010-0434	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS (wrinkle black)
1010-0431	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS) (chrome)
1010-0433	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS) (wrinkle black)
1010-0429[1]	For 91-22 XL w/ CV carb or Delphi EFI (except RH Sportster) (chrome)
STAGE II KIT W/ SYNTHETIC FILTER	
1010-2701	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS) (wrinkle black)

[1] Will fit 88-90 models also, breather system is not applicable for these model years.

BIG SUCKER™ AIR FILTER KITS FOR TWIN CAM AND XL

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is O-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in chrome, black powdercoat or natural finish
- Filters are available with standard red or synthetic black filter elements

Standard filter

Synthetic filter

- Standard red filters are pre-oiled, washable and feature four layers of surgical-grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and reuse
- Stage I kit accepts OEM outer cover (unless noted) or custom Ness outer cover
- Stage II kit features a 20% larger filter element and accepts an 8" round Ness outer cover only
- All necessary hardware and instructions are included with each kit

PART #	DESCRIPTION
STAGE I KITS W/ STANDARD FILTER (ACCEPTS OEM COVERS)	
1010-1462	For 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail (except FLSS/FLSTFBS) (chrome)
1010-1463	For 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail (except FLSS/FLSTFBS) (black)
1010-1461	For 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail (except FLSS/FLSTFBS) (natural)
1010-0353	For 08-13 FLHT/FLHR/FLHX/FLTR/H-D FL Trike (chrome)
1010-0351	For 08-13 FLHT/FLHR/FLHX/FLTR/H-D FL Trike (natural)
DS-288882	For 99-01 FLHTI/FLHRI (natural)
1010-1011	For 08-17 FXD/FXDWG (except 16-17 FXDLS, 16-17 models w/ high-output air cleaners) (black)
1010-1013	For 08-17 FXD/FXDWG (except 16-17 FXDLS, 16-17 models w/ high-output air cleaners) (natural)
1010-0181	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 08-17 FXD/FXDWG) (chrome)
1010-0179	For 01-17 Twin Cam Delphi EFI and 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 08-17 FXD/FXDWG) (natural)
1010-0891[1, 2]	For 91-22 XL (except 883N/1200X/1200V, RH Sportster) (chrome)
1010-0892[1, 2]	For 91-22 XL (except 883N/1200X/1200V, RH Sportster) (black)
1010-1014[1, 2]	For 91-22 XL (except 883N/1200X/1200V, RH Sportster) (natural)
1010-2063[1]	For 09-22 XL883N/1200X/1200V w/ round covers (chrome)
1010-2064[1]	For 09-22 XL883N/1200X/1200V w/ round covers (black)
1010-2062[1]	For 09-22 XL883N/1200X/1200V w/ round covers (natural)
1010-1810	For 15-19 XG500/750 (black)
STAGE I KITS W/ SYNTHETIC FILTER (ACCEPTS OEM COVERS)	
1010-1759	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 08-17 FXD/FXDWG) (chrome)
1010-1760	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 08-17 FXD/FXDWG) (black)
STAGE I KITS W/ STANDARD FILTER (ACCEPTS NESS STAGE I ROUND COVERS ONLY)	
1010-2699	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS (black)

[1] Accepts factory air cleaner cover only.

[2] Will fit 88-90 models also; breather system is not applicable for these model years.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

BILLET SUCKER™ AND BIG SUCKER™ COMPONENTS

- Replacement and optional components for all Ness Billet Sucker™ and Big Sucker™ air filter kits

PART #	DESCRIPTION
STAGE I BIG SUCKER™ REPL. AIR FILTERS	
1010-3196	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-25 H-D FL Trike, 18-24 Softail
1011-3151[1]	For 14-16 FLHT/FLHX/FLTR/H-D FL Trike, 16-17 Softail (except FLSS/FLSTFBS), 16-17 FXDLS
1010-0360	For 08-13 FLHT/FLHR/FLHX/FLTR/H-D FL Trike
2110-9494	For 02-07 FLHT/FLHR/FLHX/FLTR, 00-15 Softail, 99-17 Dyna, 91-22 XL, 15-19 XG
2110-9496	For PART #DS-288882 only
1011-2851	For PART #s 1010-1014, 1010-0891, 1010-0892
1011-4242	For PART #s 1010-2082, 1010-2083, 1010-2084
STAGE II BIG SUCKER REPL. AIR FILTERS	
1010-0361	For 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS
2110-9495	For 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS); also fits PART #s 1010-2062, 1010-2063, 1010-2064
HARDWARE/GASKET KITS	
1010-2870	Stage I hardware/gasket kit for 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-25 H-D FL Trike, 18-24 Softail
1010-2869	Stage I hardware/gasket kit for 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS
1010-2867	Stage I hardware/gasket kit for 99-01 Twin Cam FLT fuel-injected
1010-2868	Stage I hardware/gasket kit for all 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb
1010-2865	Stage I hardware/gasket kit for 91-22 XL (except RH Sportster)
1010-2875	Stage II hardware/gasket kit for 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS
1010-2873	Stage II hardware/gasket kit for 99-01 Twin Cam FLT fuel-injected
1010-2874	Stage II hardware/gasket kit for all 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb

1014-0286

1011-3242

1011-3243

PART #	DESCRIPTION
HARDWARE/GASKET KITS (CONT)	
1010-2871	Stage II hardware/gasket kit for 91-22 XL (except RH Sportster)
1010-0583	Stage I hardware kit for all 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb
1010-0585	Stage I hardware kit for 99-01 Twin Cam FLT fuel-injected
1010-0587	Gasket kit for 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike
1010-0588	Gasket kit for 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb (except 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)
1010-0590	Gasket kit for 91-22 XL (except RH Sportster)
OPTIONAL OUTER COVERS	
1014-0287	Big Sucker Stage I Knuckle (chrome)
1014-0288	Big Sucker Stage I Knuckle (black)
1014-0030[2]	Big Sucker Stage I Scalloped (chrome)
1014-0091[2]	Big Sucker Stage I Smooth (chrome)
1014-0092[2]	Big Sucker Stage I Smooth (black)
1014-0285	Big Sucker Stage I Smooth (brass)
1014-0284	Big Sucker Stage I Smooth (brushed stainless)
1014-0286	Big Sucker Stage I Smooth (carbon)
OPTIONAL PRE-FILTERS	
1011-3242	Big Sucker Stage I
1011-3243	Big Sucker Stage II

[1] For use with PART #s 1010-1461, 1010-1462 and 1010-1463 only.
[2] Not for PART #s 1010-0891, 1010-0892, 1010-1014, 1010-1011, 1010-1012 and 1010-1013.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

BIG SUCKER™ OVAL AIR FILTER UPGRADE

ARLEN NESS

- Performance air filter upgrade for H-D Special/ST Touring models with 114"/117" motors or H-D Accessory Ventilator air cleaners
- Black pre-oiled cotton media wrapped in a stainless steel mesh
- 22% more air filter surface area than factory air filter
- Includes spacers and all necessary hardware for easy installation
- Optional pre-filter with hydrophobic technology repels water in wet/rainy conditions and deflects harmful dirt/debris from your filter that would otherwise damage or clog the filter; sold separately
- Optional pre-filter properly wraps the larger Ness filter when installed on factory oval M-Eight backing plates

1011-4669

PART #	DESCRIPTION
1011-4669	For 17-25 FLHRXS, 17-24 FLHT/FLHR/FLHRXS/FLHX/FLHXS/FLHXSE/FLTRU/FLTRX/FLTRXS/FLTRKSE/FLTRXSE, 18-24 Softail w/ 114"/117" engines w/ oval style air cleaners or Screamin' Eagle Ventilator® air cleaners OEM #s 29400298, 29400299; repl. OEM #s 29400293, 29400267
1011-4781	Optional pre-filter/rain sock

ARLEN NESS

MINI 22° AIR CLEANER KITS

- Compact performance air cleaner featuring 4,5" tapered air filter design and angled billet top for increased performance and leg clearance
- 22° angle CNC-machined billet top
- Hidden breather is O-ringed at the heads and exits out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Each air filter is made from four layers of premium black pre-oiled cottom for the best in airflow and filtration; washable/reusable

1010-2709

1010-2708

- Filter assembly is CNC machined from aluminum and the backing plate is cast aluminum
- Includes backing plate, filter assembly, gaskets, O-rings and all necessary hardware
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2709	Chrome
1010-2708	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2711	Chrome
1010-2710	Black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM DELPHI EFI, 99-06 TWIN CAM CV CARB (EXCEPT 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2713	Chrome
1010-2712	Black
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2715[1]	Chrome
1010-2714[1]	Black
OPTIONAL COMPONENT	
1011-4780	Pre-filter/rain sock

[1] Will fit 88-90 models also; breather system is not applicable for these model years.

ROUGH CRAFTS

FINNED AIR CLEANERS

- Each backing plate is CNC machined from forged aluminum
- Feature Arlen Ness Big Sucker breathing technology
- Each hidden breather is O-ringed at the heads, passes through the backing plate and exits at the mount of the throttle body through proprietary shooter tubes; this eliminates the need for any external hoses or hardware
- Radius air inlet provides unobstructed airflow
- Eliminates oil blow-by issues with M-Eight intakes
- Synthetic air filter does not need oil, just wash and reuse for long-lasting performance
- Does not include oil reservoir

1010-3263

1010-3262

PART #	DESCRIPTION
FOR 24-25 FLHX/FLHXU/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3263	Chrome
1010-3262	Black

ROUGH CRAFTS

ROUND AIR CLEANERS

- Each backing plate is CNC machined from forged aluminum
- Feature Arlen Ness Big Sucker breathing technology
- Each hidden breather is O-ringed at the heads, passes through the backing plate and exits at the mount of the throttle body through proprietary shooter tubes; this eliminates the need for any external hoses or hardware
- Radius air inlet provides unobstructed airflow
- Eliminates oil blow-by issues with M-Eight intakes
- Synthetic air filter does not need oil, just wash and reuse for long lasting-performance
- Does not include oil reservoir

1010-3265

1010-3264

AIR CLEANERS

- Original S&S teardrop air cleaner assemblies
- Include an S&S cover, backing plate and high-quality filter element and hardware kit
- Increase horsepower with no other changes
- Available for most OEM carburetors and S&S performance intake systems

NOTE: Installation of an S&S air cleaner may require re-jetting or engine re-tuning.

PART #	DESCRIPTION
CHROME AIR CLEANERS	
1010-2165	For 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 Softail, 16-17 FXDLS, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE
1010-2163	For 01-17 Twin Cam w/ Delphi EFI (except 08-17 Touring, 16-17 FXDLS, 16-17 Softail, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE)
DS-289137	For 99-06 Twin Cam w/ E & G series carbs

PART #	DESCRIPTION
CHROME AIR CLEANERS (CONT)	
1010-0325	For 99-06 Big Twin w/ stock CV carb
1010-2754	For 07-22 XL w/ stock EFI (except RH Sportsters)
1010-0326	For 91-06 XL w/ stock CV carb
DS-289129	For 86-90 XL w/ E & G series carbs

PART #	DESCRIPTION
GLOSS BLACK AIR CLEANERS	
1010-2166	For 08-16 FLHT/FLHR/FLHX/FLTR, 16-17 Softail, 16-17 FXDLS, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE
1010-2164	For 01-17 Twin Cam w/ Delphi EFI (except 08-17 Touring, 16-17 FXDLS, 16-17 Softail, 14-15 FLSTNSE, 13-15 FXSBSE, 11-12 FLSTSE)
1010-2755	For 07-22 XL w/ stock EFI (except RH Sportsters)
1010-1866	For 99-06 Big Twin with stock CV carb
1010-1867	For 91-06 XL with stock CV carb

PART #	DESCRIPTION
REPLACEMENT COMPONENTS	
DS289404	Repl. S&S air cleaner cover for E & G carb, chrome
1014-0237	Repl. S&S air cleaner cover for E & G carb, gloss black
DS289405	Repl. air cleaner cover screws (10 pk.)
1012-0222	Breather screw, $^{3}/_{8}$"-16 , for S&S carburetor applications (ea.)
1010-1966	Repl. teardrop backplate for 99-06 Twin Cam, 91-03 XL (ea.)
0934-4760	Repl. backplate teardrop gasket (10 pk.)
1010-1735	Repl. gasket, backplate, Super E/G, CV Adapter, 0,0625"
1011-0324	Repl. crankcase breather hose for 93-06 Big Twin, 91-06 XL and 94-02 Buells
1012-0248	Breather screw for 99-17 Big Twin (ea.)
1011-0325	Breather screw seals (silicone-coated steel washer), 0,520" ID (10 pk.)
1011-0326	Breather screw seals (silicone-coated steel washer), 0,380" ID (10 pk.)

AIR STINGER STEALTH AIR CLEANER KITS

- Uses the S&S high-flow Stealth air cleaner and replaces it with a similarly-shaped air filter element
- Added air filter surface area improves airflow compared to the standard Stealth air cleaner filter; huge improvement compared to the stock air filter
- Filter element is washable and reuseable
- Kit includes backing plate cover, filter and hardware
- Available with classic mini teardrop or S&S ring cover

1014-0305

1014-0306

WITH TEARDROP COVER

PART #	DESCRIPTION
FOR 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-EIGHT (EXCEPT 23-24 FLHXSE/FLTRXSE)	
1010-2961	Chrome
1010-2962	Gloss black
FOR 08-16 FLHT/FLHR/FLTR/FLHX/H-D FL TRIKE, 16-17 SOFTAIL, 16-17 FXDLS, 11-12 FLSTE, 13-15 FXSBSE, 14-15 FLSTNSE	
1010-2963	Chrome
1010-2964	Gloss black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELHPI EFI (EXCEPT THROTTLE-BY-WIRE MODELS)	
1010-2965	Chrome
1010-2966	Gloss black
FOR 07-22 XL (EXCEPT RH SPORTSTER)	
1010-2968	Chrome
1010-2969	Gloss black

WITH S&S RING

PART #	DESCRIPTION
1010-2958	For 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight (except 23-24 FLHXSE/FLTRXSE)
1010-2959	For 08-16 FLHT/FLHR/FLTR/FLHX/H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTE, 13-15 FXSBSE, 14-15 FLSTNSE
1010-2960	For 01-17 Twin Cam w/ Delphi EFI (except Throttle-By-Wire models)
1010-2967	For 07-22 XL (except RH Sportster)

REPLACEMENT COMPONENTS

PART #	DESCRIPTION
1011-4648	Repl. Air Stinger air filter
1014-0305	Gloss black teardrop cover
1014-0306	Chrome teardrop cover
1011-4566	Pre-filter for teardrop Air Stinger air filter
1011-4567	Pre-filter for chrome ring Air Stinger air filter

EU TYPE APPROVAL STEALTH AIR CLEANER KITS

- Increased filter area, combined with an air horn-like radiused inlet and unique S&S stinger cone, allows smoother, faster airflow
- Kit does not include an air cleaner cover
- Can be run without a cover or for a sleeper look use an OEM-type 99-later Big Twin air cleaner cover
- For a little more style and a high-performance look, S&S offers a number of good-looking covers

PART #	DESCRIPTION
1010-2497[1]	For 17-23 M-Eight
1010-2058[1]	For 16 110" Softail/Dyna w/ cable throttle body
1010-2056[1]	For 16 103" Softail/Dyna w/ cable throttle body

1010-2058

1010-2497

- Kit includes back plate, filter element, top cover, hardware, and instructions
- Cover sold separately, see page 509

PART #	DESCRIPTION
1010-2055[1]	For 07-16 XL1200 EFI
1010-2054[1]	For 07-16 XL883 EFI

[1] EU type approval.

LAVA CHROME STEALTH AIR CLEANER KITS FOR M-EIGHT ENGINES

- Stealth intake provides 38 percent increase in flow
- High-strength synthetic polymer backplate is designed to reduce heat transfer to intake air
- Cooler, denser air allows for more efficient cylinder fill and better performance
- Lava Chrome teardrop cover features a smokey chrome finish with all the reflective qualities of traditional chromium
- Easy installation
- Washable filter element

PART #	DESCRIPTION
1010-3200	For 24-25 FLHX/FLHXU/FLTRXFLHXSE/FLTRXSE/FLTRXSTSE, 23-24 FLHXSE/FLTRXSE

PART #	DESCRIPTION
1010-3175	For 25 FLHRXS/FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)

SUPER E OR G CARBURETOR/STEALTH AIR CLEANER KITS

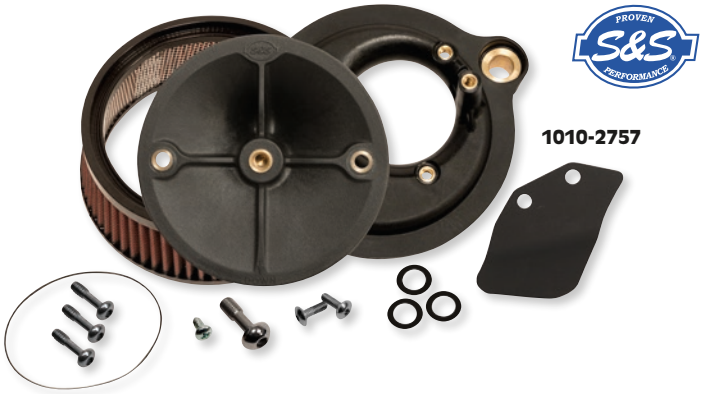
- Combines a Super E or G carburetor with the S&S Stealth air cleaner
- Increases fuel and airflow for added performance
- Variable position enrichment starting system
- O-ring sealed idle mixture screw
- Washable, reusable air filter element
- Teardrop style air cleaner cover
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the factory dual-cable throttle system for smooth, reliable operation
- Easy to install and tune
- Easy integration with S&S Long Block engines

PART #	DESCRIPTION
FOR 06 TWIN CAM	
1001-0091	Super E carburetor and Stealth air cleaner kit w/ chrome teardrop air cleaner cover
1001-0092	Super G carburetor and Slasher Stealth air cleaner kit w/ chrome slasher teardrop air cleaner cover

PART #	DESCRIPTION
FOR 99-05 TWIN CAM	
1001-0089	W/ Super E carburetor and Stealth air cleaner kit w/ chrome teardrop air cleaner cover
1001-0090	W/ Super G carburetor and Slasher Stealth air cleaner ktit w/ chrome slasher teardrop air cleaner cover

MINI TEARDROP STEALTH AIR CLEANER KITS

- 85% of original size for perfect proportions; all laid over the easy-to-install Stealth Air Cleaner system
- Iconic look
- Machined openings around the rim add style and provide additional airflow
- Kit includes backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow



PART #	DESCRIPTION
FOR 24 FLHTK/FLTRK/FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2762	Chrome
1010-2763	Gloss black
1010-3176	Lava chrome
FOR 08-16 FLHT/FLHR/FLTR/FLHX/H-D TRIKE, 16-17 SOFTAIL, 16-17 FXDLS, 11-12 FLSTE, 13-15 FXSBSE, 14-15 FLSTNSE	
1010-2323	Chrome
1010-2324	Gloss black
FOR 01-17 TWIN CAM W/ DELPHI EFI (EXCEPT THROTTLE-BY-WIRE MODELS)	
1010-2327	Chrome
1010-2328	Gloss black

PART #	DESCRIPTION
FOR 07-22 XL (EXCEPT RH SPORTSTER)	
1010-2764	Chrome
1010-2765	Gloss black
FOR 91-06 XL	
1010-2707	Gloss black
REPLACEMENT/OPTIONAL AIR CLEANER COVERS	
1014-0371	Lava chrome
1014-0272	Chrome
1014-0273	Black
1014-0289	Carbon fiber

SUPER STOCK® STEALTH AIR CLEANER KITS

- For stock and S&S fuel system applications
- Kit includes backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Optional high-flow (1" taller) filter and pre-filter/rain sock also available

NOTE: Kits do not come with covers. Use PART #s 1014-0225 or 1014-0267 to install stock covers on 14-20 Touring models. Twin Cam applications will accept the OEM football-style air cleaner cover. All kits will accept any of the Stealth air cleaner covers (sold separately).

NOTE: Stealth air cleaner kits for 01-17 EFI applications come with a special sticker and instructions for applying it to an inconspicuous location on the frame.

PART #	DESCRIPTION
SUPER STOCK® STEALTH AIR CLEANER KITS	
1010-3201	For 24-25 FLHX/FLTRX, 23-25 FLHXSE/FLTRXSE/FLTRXSTSE
1010-2757	For 25 FLHRXS, FLHTCUTG/FLRT/FLTRT, 17-24 M-Eight w/ stock EFI and 64 mm throttle body (except 24-25 FLHX/FLTRX, 23-25 FLHXSE/FLTRXSE/FLTRXSTSE)
1010-2161	For 08-16 FLHT/FLHX/FLTR, H-D Trike, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-15 FXSBSE and 14-15 FLSTNSE
1010-1509	For 08-16 FLHT/FLHX/FLTR, H-D Trike, 16-17 Softail, 16-17 FXDLS, 11-12 FLSTSE, 13-15 FXSBSE and 14-15 FLSTNSE
1010-2160	For 01-17 Twin Cam w/ Delphi EFI (except 08-17 Dresser/H-D Trike, 16-17 FXDLS, 16-17 Softail, 11-12 FLSTSE, 13-15 FXSBSE and 14-15 FLSTNSE)

PART #	DESCRIPTION
SUPER STOCK® STEALTH AIR CLEANER KITS (CONT)	
1010-3411	For 01-17 Twin Cam w/ Delphi EFI (except 08-17 Dresser/H-D Trike, 16-17 FXDLS, 16-17 Softail, 11-12 FLSTSE, 13-15 FXSBSE and 14-15 FLSTNSE)
1010-1508	For 99-06 Twin Cam w/ stock CV carb
1010-2753	For 07-22 XL w/ stock EFI (except RH Sportsters)
1010-1510	For 91-06 XL w/ stock CV carb
1010-1313	For 86-90 XL w/ S&S E/G series carbs

PART #	DESCRIPTION
SUPER STOCK™ STEALTH AIR CLEANER KITS FOR S&S ENGINES	
1010-2041	For 07-16 T124LC Touring Models w/ S&S 66 mm Throttle Hog

PART #	DESCRIPTION
SUPER STOCK™ STEALTH AIR CLEANER KITS FOR S&S ENGINES (CONT)	
1010-2042	For 07-16 T111 Touring Models w/ S&S 58 mm Throttle Hog

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS	
1014-0267	Air cleaner cover adapter kit for 17-23 FLHT/FLHR/ FLHX/FLTRX/FLTRU and H-D FL Trike
1014-0225	Air cleaner cover adapter kit for 14-16 Touring models
1011-2765	Replacement Stealth filter element

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS (CONT)	
1011-2766	Optional Stealth high-flow filter kit (1" taller)
1011-3119	Pre-filter/rain sock for Standard Stealth air filter
1011-3120	Pre-filter/rain sock for 1" taller Stealth air filter

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

HIGH-FLOW AIR FILTER AND ADAPTER KIT

- High-flow filter designed especially for Super E and G carburetors
- Filter is 25 mm (1") taller than standard filter and features a low-restriction, pre-oiled filter element
- Allows for a 37% increase in airflow
- Filter and adapters extend the teardrop housing out 1" for better exposure and a high-performance street racer look
- Kit installs in minutes; no permanent modifications required

DISCLAIMER: FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE.

NOTE: Not for use with S&S Super B or Super D carburetors, or Super E and G Kits for Buells.

PART #	DESCRIPTION
1011-0323	For S&S Super E and G carbs
1011-2286	Repl. high-flow filter for S&S Super E and G carbs (also fits S&S air cleaners for stock carbs and EFI throttle bodies)

STEALTH AIR CLEANER COVERS

- Fit the S&S Stealth air cleaner kits
- Bob air cleaner covers are machined from billet aluminum, fit over the end of the air filter and leave the filter element exposed
- Chrome finish, powdercoated gloss black and highlighted machined finish or black wrinkle powdercoated finish
- New lava chrome finish available - features the mirror finish of traditional chromium combined with a smoky radiance for a unique reflective look
- Air Stream-style is die-cast and features screened vents for more air without sucking in rain/road hazards
- Tribute style mimics the classic S&S Two Throat air cleaner kits

RINEHART RACING

MOTO SERIES INVERTED AIR CLEANER

- Drastically improves airflow over stock filters and delivers uncompromising performance
- Available in black
- Highly-efficient hidden breather and virtually closed-loop system
- Inverted, pleated top and sides maximize airflow from all angles - not just the sides
- Forged aluminum machined cover protects the filter element and adds distinct Rinehart Racing style to your ride
- Synthetic water-resistant washable filter element eliminates the need for a rain sock or air filter oil

PART #	DESCRIPTION
1010-2242	For 17-23 FLHT/FLHR/FLHX/FLTR, 17-25 H-D FL Trike and 17-24 Softail

KHROME WERKS

INSTIGATOR AIR CLEANER KITS

1010-3166

1010-3163

- Inspired by two of Khrome Werks' most popular designs: Tracer and Klassic
- Comes in a chrome finish
- Reusable black cotton element is protected by stainless steel mesh
- One-piece aluminum backplate with hidden breather
- The M-Eight model contains an oil catch can

FEULING BA AIR CLEANER RACE SERIES

FEULING

BA RACE SERIES AIR CLEANER KITS

1010-3135

1010-3152

1010-3150

- Originally designed for our 130 Bagger GP race engine, our Race Series (RS) BA air cleaner, comes in just under an inch taller and boasts an impressive 33% increase in filter size over our standard fit BA air cleaner
- Impressive horsepower and torque gains on any engine and exceptional gains seen on engines running modified and/or ported cylinder heads along with intakes and larger throttle bodies
- One piece design creates a clean look and eases installation when compared to the industry standard multi stack up construction
- Feature lengthened intake runners for increased air velocity, delivering added volume for balanced dynamic flow
- High flow billet aluminum velocity stack with optimal opening diameter, outer lip and internal (ID) taper
- High flow washable/reusable 3.335" wide air filter with one piece billet cage
- Set up with OEM-style cylinder head breathing, routing into the intake with optimized vent hole locations
- Convertible backing plate offering optional cylinder head venting
- Fit standard 55 mm throttle bodies as well as 64 mm Screamin Eagle throttle bodies and 58 mm/62 mm HPI throttle bodies
- Optional external breather kit allows the air cleaner backing to be converted from standard intake breathing to external breathers (sold separately)
- Optional 1 3/8" colored velocity stacks allow customers to further customize their BA Race Series (RS) air cleaners (sold separately)
- Replacement filters are available (sold separately)

NOTE: Use of these air cleaner kits will require mid foot controls for leg clearance.

NOTE: Not for 23-25 models with 121" VVT motors.

FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL W/ MID CONTROLS

PART #	DESCRIPTION
FOR 99-17 TWIN CAM W/ CV CARB/DELPHI EFI (EXCEPT 08-17 DRESSER/ H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE)	
1010-3027	Chrome
1010-3030	Black/chrome
FOR 04-22 XL W/ CV CARB/DELPHI EFI (EXCEPT RH SPORTSTER)	
1010-3031	Chrome
1010-3034	Chrome/black
1010-3032	Black
REPLACEMENT COMPONENT	
1011-4702	Repl. air filter

Internal venturi

POWRFLO AIR INTAKES

- Unique internal venturi design promotes maximum airflow
- High-flow air filter element ensures the best air intake and maximum protection for your engine
- The PowrFlo Intake system consists of an aluminum cover and all the fasteners, seals, backing plate and mounting hardware to make for an easy installation
- Formed stainless steel mesh insert in the dual entry ports keeps out bugs and debris

PART #	DESCRIPTION
FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE	
1010-3048	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-2998	Chrome
1010-2999	Black
FOR 18-24 FXBB/FXLR/FLSL/FLDE/FLSB (EXCEPT 114/117 MOTORS)	
1010-3049	Chrome
1010-3062	Black

PART #	DESCRIPTION
FOR 99-17 TWIN CAM W/ CV CARB/DELPHI EFI (EXCEPT 08-17 DRESSER/ H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE)	
1010-3000	Chrome
FOR 04-22 XL W/ CV CARB/DELPHI EFI (EXCEPT RH SPORTSTER)	
1010-3002	Chrome
1010-3003	Black
REPLACEMENT COMPONENT	
1011-4702	Repl. air filter

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

AIR CLEANER KITS

- Flows better than stock or competing units
- Optimizes overall performance
- High-flow air filter element ensures the maximum air intake and protection
- Four styles available in black or chrome finishes
- Slim profile keeps the unit away from the rider's leg
- Kits consist of a laser-cut, formed steel cover, separate mounting ring, and all the hardware for easy installation

CHROME

PART #	DESCRIPTION
FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE	
1010-3036	Swept
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE	
1010-3008	Spoke
1010-3004	Swept
FOR 18-24 FXBB/FXLR/FLSL/FLDE/FLSB (EXCEPT 114 MOTOR)	
1010-3056	Spoke
1010-3050	Swept

PART #	DESCRIPTION
FOR 99-17 TWIN CAM W/ CV CARB/DELPHI EFI (EXCEPT 08-17 DRESSER/ H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE)	
1010-3011	Cross
1010-3013	Plain
FOR 04-22 XL W/ CV CARB/DELPHI EFI (EXCEPT RH SPORTSTER)	
1010-3019	Cross
1010-3023	Spoke
1010-3017	Swept
REPLACEMENT COMPONENT	
1011-4702	Repl.air filter

BLACK

PART #	DESCRIPTION
FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE	
1010-3039	Cross
1010-3037	Swept
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-3007	Cross
1010-3005	Swept

TRASK PERFORMANCE ASSAULT SERIES

ASSAULT CHARGE HIGH-FLOW AIR CLEANERS

- Features a billet aluminum backing plate with hidden integrated breather system and a plexiglass outer cover
- Snap-in velocity stack for improved airflow
- Dyno developed and tested
- High-flow air filter is reusable; just clean and re-oil
- Rain sock repels water from air filter element
- Optional velocity stack PART #1010-2218 upgrades stock opening to 58 mm (sold separately)

PART #	DESCRIPTION
FOR 24-25 FLHX/FLTRX/FLTRXSTSE, 23-24 FLHXSE/FLTRXSE	
1010-3216	Chrome
1010-3218	Black
1010-3215	Gloss black
1010-3219	Raw machined
1010-3217	Reverse Cut
FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHR/FLHT/FLHX/FLTR/ H-D FL TRIKE (EXCEPT 23 FLTRXSE/FLTRKSE/FLHXSE), 18-23 SOFTAIL	
1010-2151	Chrome
1010-2268	Flat black
1010-2521	Gloss black powdercoated
1010-2150	Raw machined

VO2 STINGRAY AIR INTAKE KITS

- Adds just the right touch to enhance the nostalgia of your timeless pushrod V-twin engine
- Improved performance over stock
- Stamped cover featuring the Vance & Hines V-twin logo
- Force™ Velocity Stack with maximum flow and ease of installation
- High-capacity washable air filter
- Include backing plate and breather assemblies
- Include mounting hardware and installation instructions

NOTE: CVO/114"/117" models and models with SE stage 1 air cleaners will require support bracket H-D part #16400049 to install.

PART #	DESCRIPTION
FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2979	Matte black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE	
1010-2980	Matte black

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-17 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE)	
1010-2981	Matte black
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2982	Matte black
REPLACEMENT COMPONENT	
1011-2939	Repl. air filter element

VO2 STINGRAY/ELIMINATOR AIR CLEANER COVERS

- Great way to accessorize VO2 naked air intake kits
- Stamped Vance & Hines V-twin logo
- Fits Vance & Hines VO2 naked air intakes with round filters
- Also fits Screamin' Eagle and other aftermarket round air cleaners with center bolt
- Includes mounting hardware and installation instructions

PART #	DESCRIPTION
VO2 STINGRAY COVERS	
1014-0358	Chrome
1014-0359	Black

PART #	DESCRIPTION
VO2 ELIMINATOR COVERS	
1014-0360	Chrome
1014-0361	Black

TEARDROP AIR CLEANER ASSEMBLIES

- Chrome-plated cast aluminum construction
- Ribbed design
- Dimensions: 8" L x 4½" W x 2" H
- Includes mini air filter and all necessary fittings and hardware

NOTE: PART #1010-0710 requires the use of a support bracket and breather kit (as needed).

PART #	DESCRIPTION
1010-0711	For 01-07 Twin Cam w/ Delphi EFI, 99-06 Twin Cam w/ Keihin CV carb

PART #	DESCRIPTION
1010-0710	For S&S Super E/Super G carbs

C4 SERIES CARBON FIBER AIR CLEANER

- Ground-breaking appearance with weight savings and performance gains
- Embodies the essence of racing and modern design
- Beautifully sculpted ultra-lightweight carbon fiber shell
- Forward-facing reverse cone filter element
- Comes with a Black Ops™ finish outer ring
- Black Ops features a gloss black finish over a contrasting texture black finish

PART #	DESCRIPTION
1010-3273	For 24 FLHX/FLTRX/FLTRXSTSE, 23-24 FLHXSE/FLTRXSE
1010-3270	For 17-23 FLHR/FLHT/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 18-24 Softail
1010-3271	For 08-16 FLHT/FLHR/FLHX/FLTRX, 09-16 H-D FL Trike, 16-17 Softail, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE
1010-3272	For 01-17 Twin Cam w/ Delphi EFI, 99-06 Twin Cam w/ CV carb, (except 08-24 FLHR/FLHT/FLHX/FLTR, 16-24 Softail w/ electric throttle)

JET AIR CLEANERS

- Low-profile and lightweight air cleaners are CNC machined from billet aluminum
- Innovative and versatile design allows unit to be mounted in the vertical or horizontal position
- Compact design for improved knee clearance
- Features PM's proven internal crankcase venting system
- Feature a high-flow reusable air filter
- Contrast Cut™ finish starts with a polished air cleaner that has been black anodized, then recut to open the design
- Black Ops™ finish features gloss black on top of a contrasting textured black finish for outstanding durability and looks

PART #	DESCRIPTION

1010-2669

1010-2668

1011-3186

SUPER GAS AIR CLEANERS

- Versatile design accepts interchangeable faceplates that are designed to match Performance Machine wheels
- Include a K&N® filter behind a stainless steel wire mesh screen to allow high-volume air flow, resulting in increased horsepower
- Available in chrome and black finishes

NOTE: Air cleaners have a 5/8" reduced assembly depth.

PART #	DESCRIPTION
FOR 24 FLHTK/FLTRK/FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-24 H-D FL TRIKE, 18-24 SOFTAIL W/ 107"/114" MOTORS

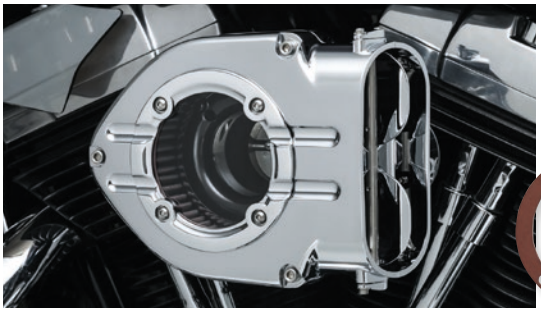
CLASSIC FACEPLATE FOR HYPERCHARGER™ ES

- Give your Hypercharger™ ES an all-new look quickly and easily with this interchangeable faceplate
- Features a clean, retro finned design made from quality A380 aluminum
- Available in black and chrome finish



PART #	DESCRIPTION
1014-0277	Classic faceplate for HyperCharger™ ES

STINGER TRAP DOOR FOR HYPERCHARGER™

- If you have a need for more performance, look no further
- Stinger trap door maximizes airflow into the carburetor or throttle body through a high-flow filter element
- Highly cost-effective way to boost airflow to any standard Hypercharger™
- Easy four-bolt replacement for standard trap door
- Chrome finish
- Sold each

PART #	DESCRIPTION
1010-0145	Stinger trap door

CLEAR TRAP DOOR FOR HYPERCHARGER™

- Direct replacement for the trap door on Kuryakyn's standard and Blood Groove Hyperchargers™
- Gives you an inside look at the inner workings of the air cleaner and throttle body
- Trim ring is cast aluminum construction
- Clear window is made from durable, shatterproof polycarbonate
- Gasket included

PART #	DESCRIPTION
1014-0242	Clear trap door for Hypercharger™

MACH 2™ CO-AX UPDATE KIT

- Fits Mach 2™ air cleaners only and is available in chrome
- Sold each

NOTE: Not recommended for use on engine cases.

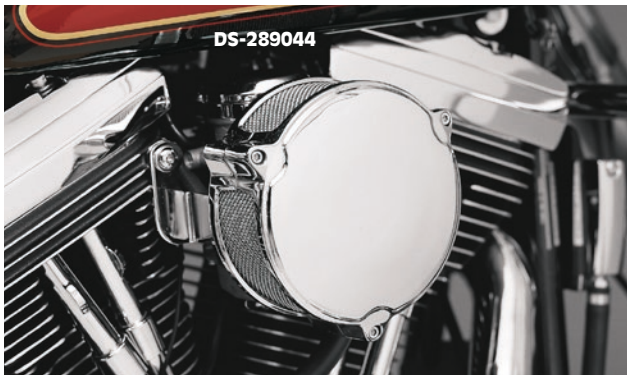
PART #	DESCRIPTION
1010-1552	Mach 2™ Co-Ax update kit

PRO SERIES HYPERCHARGER™ REPLACEMENT CAGE/FOAM FILTER ASSEMBLY

- For Pro Series Hyperchargers™
- Sold each

PART #	DESCRIPTION
1011-3206	Repl. cage/foam filter assembly

HYPERCHARGER™ AIR CLEANER ACCESORY



- Sold each

PART #	DESCRIPTION
1012-0201	Formed breather hoses for Twin Cam breather kit

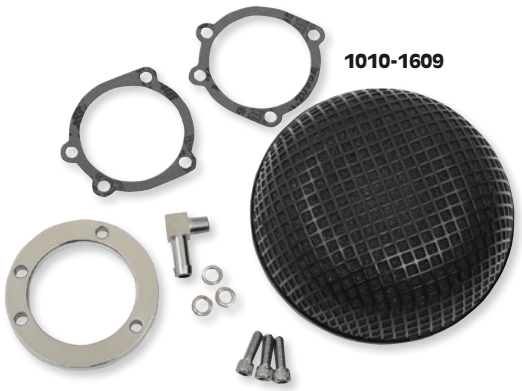
DRAG Specialties



HIGH PERFORMANCE 6" DRAGTRON™ II AIR CLEANERS

- Dynamometer-designed radius entry backing plate maximizes airflow and horsepower
- 2" washable filter is encased in a heavy stainless steel mesh and is easily serviced
- Stainless steel hardware is included
- Replacement filters available; see page 536

NOTE: Support brackets and breather kits are sold separately.

U.S. Design Patent #305,149.

PART #	DESCRIPTION
FOR 99-06 BIG TWIN, 88-06 XL (CV CARBS) (DELPHI EFI APPLICATIONS WILL REQUIRE ADAPTERS PART #S 1010-0552 OR 1010-0553; SOLD SEPARATELY)	
DS-289044	Chrome
1010-2692	Black

"BOB" RETRO-STYLE AIR CLEANERS

- Retro-style air cleaner measures 5½" in diameter
- Has a reusable foam filter element
- All necessary mounting hardware included
- Replacement filter element available separately

NOTE: Requires appropriate breather/carb support bracket.

PART #	DESCRIPTION
FOR 01-17 TWIN CAM W/ DELPHI EFI AND 99-06 TWIN CAM AND 88-06 XL MODELS W/ CV CARBURETOR (EXCEPT 16-17 SOFTAIL, 16-17 FXDLS, 08-16 FLHT/FLHR/FLTR/FLHX AND H-D FL TRIKE)

FOR S&S SUPER E/G CARBURETOR	
1010-0192	Chrome
1010-1610	Black
REPLACEMENT COMPONENTS	
1011-0881	Air filter element

STAMPED STEEL DRAGTRON™-STYLE AIR CLEANER

- Stamped steel version of our popular die-cast Dragtron™ air cleaner
- Fits Bendix, Keihin (not CV) and Tillotson carburetors

PART #	DESCRIPTION
DS-288999	Air cleaner

7" ROUND AIR CLEANERS

- Chrome air cleaners
- PART # DS-288998 requires a support brace or a brace/breather kit for models listed (sold separately)
- Air filter included

PART #	DESCRIPTION
DS-288998	For Bendix and Keihin (not CV) carbs

1010-2023

1011-1520

AIRCHARGER® INTAKE SYSTEMS W/ MANDREL-BENT ALUMINUM INTAKE TUBES

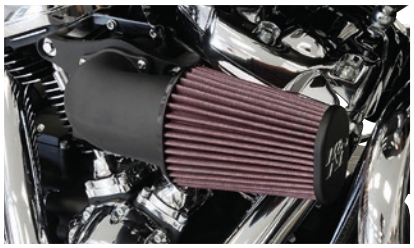
- Custom-built, providing an aggressive appearance and an increase in horsepower
- Custom aluminum throttle-body mounting plate
- Mandrel-bent aluminum high-flow intake tube
- K&N® High-Flow air filter designed to increase performance
- Includes complete breather assembly and mounting hardware
- Optional Drycharger™ for increased protection from the elements is available separately

PART #	DESCRIPTION
FOR 02-07 FLHR/FLHT/FLHX/FLTR/H-D FL TRIKE (EXCEPT MODELS W/ FAIRING LOWERS), 01-15 SOFTAIL, 01-17 DYNA (EXCEPT FXDLS)	
1010-3178	Bright chrome
FOR 07-21 XL883/1200	
1010-2023	Black
1010-2024	Bright chrome

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS	
1011-2289	Repl. air filter for PART #s 1010-3178 or 1010-2024
1011-1520	Optional Drycharger

STREET METAL™ AIR INTAKE SYSTEM

- Guaranteed increase in horsepower
- Aluminum backing plate with an integrated velocity stack provides a solid mounting surface
- Built-in breather replaces external OE breathers
- Developed around an oversized K&N® high-flow air filter that is designed to boost performance, filtration and service intervals
- High-quality aluminum Shaker cover with a black finish



PART #	DESCRIPTION
1010-2290	For 17-23 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL Trike, 18-23 Softail

AIRCHARGER® PERFORMANCE INTAKE SYSTEMS

- K&N® High-Flow air filter greatly increases performance and horsepower
- Mandrel bent aluminum intake tube
- Available in textured black
- Kit includes breather assembly and all necessary mounting hardware

1010-2250

1010-1110

PART #	DESCRIPTION
1010-2250	For 17-23 FLHR/FLHT/FLHX/FLTRX/FLTRU/FLTRK/H-D FL Trike (except models w/ fairing lowers), 18-23 Softail
1010-1980	For 08-16 FLHR/FLHT/FLHX/FLTR/H-D FL Trike w/ fairing lowers
1010-1110	For 07-21 XL883/1200
1011-2620	Repl. air filter for PART #s 1010-2250 and 1010-1110

CUSTOM AIR CLEANER ASSEMBLY

- Designed to fit Harley-Davidson motorcycles equipped with various carburetors
- Increases horsepower with proper carburetor calibration
- Mounts directly to the carburetor flange

PART #	DESCRIPTION
1011-1058	36-38 mm Mikuni air filter; 5" dia. open round style

1014-0301

1014-0300

1014-0299

1011-4451

VELOCITY 90° AIR CLEANER KITS

- Forward facing 90° Velocity series intake
- Aggressive short length intake tube engineered to significantly increase airflow without sacrificing legroom
- Hidden breathers are O-ringed at the heads and exit at the mouth of the throttle body/carb to provide efficient engine breathing in a virtually closed loop system, eliminating the need for any external hoses or hardware
- Velocity style performance filter features a built-in inverted top to pull in air not only from the sides of the filter but also the front, for more performance gaining airflow
- Synthetic filter element is water-resistant and washable/reusable; for extreme weather situations rain socks are available (sold separately)
- M-Eight applications include throttle servo cover
- Designed to work with factory lowers
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately
- Replacement air filter fits all Velocity 90° air cleaners; sold separately
- Optional 10-Gauge and Beveled covers are designed to bolt-on to the face of Arlen Ness Velocity 65° or Arlen Ness Velocity 90° air cleaners; sold separately

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2717	Chrome
1010-2716	Black
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS	
1010-2719	Chrome
1010-2718	Black
FOR 01-17 TWIN CAM DELPHI EFI, 99-06 TWIN CAM CV CARB (EXCEPT 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS)	
1010-2721	Chrome
1010-2720	Black

PART #	DESCRIPTION
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2723[1]	Chrome
1010-2722[1]	Black
OPTIONAL/REPL. COMPONENTS FOR ALL VELOCITY 90° AIR CLEANERS	
1014-0302	Optional Beveled cover, chrome
1014-0301	Optional Beveled cover, black
1014-0300	Optional 10-Gauge cover, chrome
1014-0299	Optional 10-Gauge cover, black
1011-4357	Optional Pre-filter/rain sock
1011-4452	Repl. air filter, chrome
1011-4451	Repl. air filter, black

[1] Will fit 88-90 models also; breather system is not applicable for these model years.

1010-2455

1014-0301

1014-0300

1014-0299

VELOCITY 65° AIR CLEANER KITS

- Feature Big Sucker "hidden breather" technology and a forward facing 65° intake design that produces the highest air flow performance numbers (CFM) we have tested
- Hidden breathers are O-ringed at the heads and exist out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Integrated radius air inlet for performance gaining unobstructed airflow
- M-Eight engine applications include a throttle servo cover
- Inverted 65 style filter features a built-in inverted top to pull in air not only from all sides of the filter but also the front, which directs more performance gaining airflow into your engine
- Each filter is constructed from synthetic material that is water resistant, which in most cases eliminates the need for a rain sock
- Filters are reusable and do not require oil, just rinse and reuse
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately
- Replacement air filter fits all Velocity 65° air cleaners; sold separately
- Optional 10-Gauge and Beveled covers are designed to bolt-on to the face of Arlen Ness Velocity 65° or Arlen Ness Velocity 90° air cleaners; sold separately

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT MODELS W/ FAIRING LOWERS, 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2454	Chrome
1010-2453	Black

MONSTER SUCKER AIR CLEANER KITS WITH COVER

- Monster Sucker kit features Big Sucker "hidden breather" technology and more filter surface area for maximum performance
- Hidden breathers are O-ringed at the heads and exit out the mouth of the throttle body to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Filter features a built-in inverted top to pull in air not only from all sides of the filter but also from the front, which results in more performance-gaining airflow
- Each filter is constructed from synthetic material that is water-resistant, which in most cases eliminates the need for a rain sock
- Filters are reusable and do not require oil, just rinse and reuse
- Kits include Arlen Ness forged billet covers
- Replacement air filter fits all Monster Sucker air cleaners; sold separately
- Rain sock will prevent water from getting to your filter and into the engine (each pre-filter has been engineered to add an extra layer of protection from water and other debris without restricting airflow)

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT MODELS W/ FAIRING LOWERS, 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL

MONSTER SUCKER AIR CLEANER KITS

- Monster Sucker kits feature Big Sucker "hidden breather" technology and more filter surface area for maximum performance
- Hidden breathers are O-ringed at the heads and exit out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Filters feature a built-in inverted top to pull in air not only from all sides of the filter but also from the front, which results in more performance-gaining airflow
- Each filter is constructed from synthetic material that is water-resistant, which in most cases eliminates the need for a rain sock
- Filters are reusable and do not require oil; just rinse and reuse
- Kits do not include Arlen Ness forged billet covers; must be purchased separately
- Cover styles available in Deep Cut or Beveled
- Forged billet covers can be added at any time to any Monster Sucker kits that were originally purchased without covers (sold separately)
- Replacement air filter fits all Monster Sucker air cleaners; sold separately
- Pre-filter with hydrophobic technology repels water in wet and rainy conditions and deflects dirt and other harmful debris from your filter that would otherwise damage or clog the filter; sold separately

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT MODELS W/ FAIRING LOWERS, 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL

ARLEN NESS

MONSTER SUCKER AND VELOCITY AIR CLEANER REPLACEMENT HARDWARE KITS

- Replacement hardware kits for Monster Sucker, Velocity 65° and Velocity 90° air cleaners
- Include all necessary hardware and gaskets

PART #	DESCRIPTION
1010-2876	For 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-25 H-D FL Trike, 18-24 Softail
1010-2877	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE, 16-17 FXDLS
1010-2878	For all 01-17 Twin Cam Delphi EFI, 99-06 Twin Cam CV carb
1010-2879	For 91-22 XL (except RH Sportster)

PROVEN S&S PERFORMANCE

TUNED INDUCTION AIR CLEANERS

- Uses two laser-cut and highly engineered tubes merged into a single collector, fed by a pair of high-flow air filters directly in the airstream
- Bolt-on performance: more than twice the filter area compared to the stock intake system
- Boosts horsepower and torque across the rpm range using air column inertia and carefully timed gas dynamic pressure waves
- Smooth intake tract using carefully selected and tuned lengths to aid performance
- High-flow, washable and reusable cotton media air filter elements

NOTE: Will not fit Touring models with fairing lower glove boxes or Twin Cooled models.

PART #	DESCRIPTION
FOR 24-25 FLHRXS, 17-24 FLHT/FLHR/FLHX/FLTR (EXCEPT 23-24 FLHXSE/ FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2880	Chrome
1010-2881	Gloss black
1010-2885	Stainless steel
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS AND 16-17 SOFTAIL	
1010-2883	Chrome

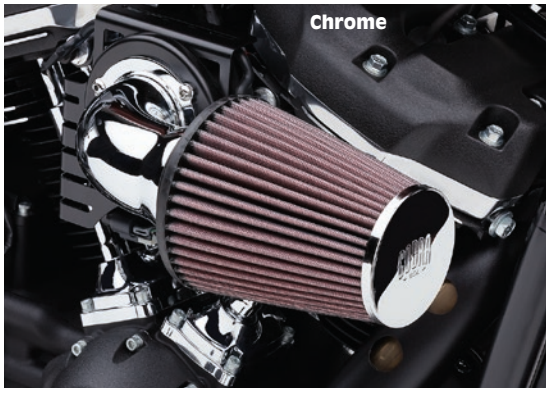
1010-2882	Stainless steel
REPLACEMENT COMPONENTS	
1011-4631	Repl. red filter w/ clamp (ea.)
1011-1336	Moisture repellent rain cover for S&S tuned induction filters (pr.)

Performance Machine.com BRAKES · WHEELS · ACCESSORIES

FAST AIR INTAKE SOLUTIONS

- The most innovative and aggressive-looking forward-facing air intake on the market
- Features an internal crankcase breather system
- Available in chrome or Contrast Cut™ finishes
- Contrast Cut starts with a polished surface that is black anodized then re-cut to open the design
- K&N® Filter element allows for a significant horsepower increase over stock air cleaner
- Not for models w/ fairing lowers
- Includes rain sock



PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 SOFTAIL, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE	
1010-0986	Contrast Cut™
FOR 01-17 TWIN CAM W/ DELPHI EFI, 99-06 TWIN CAM W/ CV CARB (EXCEPT 08-16 TOURING, 16-17 SOFTAIL, 16-17 FXDLS, 14-15 FLSTNSE, 13-14 FXSBSE AND 11-12 FLSTSE)	
1010-0985	Chrome
1010-0984	Contrast Cut

PART #	DESCRIPTION
REPLACEMENT COMPONENTS	
1011-2486	Air filter
1011-2485	Rain sock

CONE AIR INTAKES

- Designed with maximum performance in mind
- The ram-air style snorkel ensures you get the most out of your motor
- Unique air filter design flows better than stock/competing units
- Available in black

NOTE: Not for models with fairing lowers.

PART #	DESCRIPTION
1010-3128	For 17-24 FLHT/FLHR/FLHX/FLTRX/FLTRU/H-D FL Trike
1010-3127	For 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike
1010-3129	For 99-17 Twin Cam w/ CV Carb/Delphi EFI (except 08-16 Dresser/H-D FL Trike, 16-17 FXDLS, 16-17 Softail, 14-15 FLSTNSE, 13-14 FXSBSE and 11-12 FLSTSE)
1010-3131	For 18-24 Softail (except 114/117 motors)
1010-3130	For 04-22 XL (except RH Sportster)

VO2 FALCON AIR INTAKE KITS

- Sleek forward-facing 90° intake design
- Race-proven intake tube available in chrome, matte black, forged carbon fiber, weaved carbon fiber and stainless steel
- CNC-machined billet aluminum backing plate, breather stand-offs and flange cover
- Integrated breather assembly using 12-point stainless banjo bolts
- Washable high-flow oiled-media air filter with stamped V&H logo
- Matched induction module cover on throttle-by-wire models
- Mounting hardware and instructions included

NOTE: Not for use on Touring and Trike models with lower fairings.

PART #	DESCRIPTION
FOR 24-25 FLHX/FLTRX/FLTRXSTSE, 23-25 FLHXSE/FLTRXSE, 25 SOFTAIL	
1010-3416	Chrome
1010-3413	Matte black
1010-3406	Forged carbon fiber
1010-3415	Weaved carbon fiber
1010-3414	XL forged carbon fiber
1010-3418	Stainless steel
FOR 24-25 FLHRXS, 17-23 FLHT/FLHTK/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE (EXCEPT FLHTCUTG), 18-24 SOFTAIL	
1010-2946	Chrome
1010-2942	Matte black
1010-2950	Forged carbon fiber
1010-2954	Weaved carbon fiber
1010-3170	Stainless steel

PART #	DESCRIPTION
FOR 08-16 FLHT/FLHR/FLHX/FLTR/H-D FL TRIKE, 16-17 FXDLS, 16-17 SOFTAIL, 14-15 FLSTNSE, 13-14 FXSBSE, 11-12 FLSTSE	
1010-2947	Chrome
1010-2943	Matte black
1010-2955	Weaved carbon fiber
FOR 99-07 FLHT/FLHR/FLHX/FLTR (EXCEPT 99-01 TOURING FUEL INJECTION AND MODELS W/ LOWER FAIRINGS), 00-15 SOFTAIL (EXCEPT 11-15 CVO), 99-17 DYNA (EXCEPT 16-17 FXDLS)	
1010-2948	Chrome
1010-2944	Matte black
1010-2956	Weaved carbon fiber
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
1010-2945	Matte black
OPTIONAL/REPLACEMENT COMPONENTS	
1011-4635	Opt. rain sock
1011-4717	Repl. chrome air filter
1011-4718	Repl. black air filter

DRAG Specialties

AIR CLEANER ADAPTERS

- Allows installation of a Dragtron II™ air cleaner (PART #s DS-289044 or 1010-2692) to models listed
- Plain machined finish

1010-0552

1010-0553

PART #	DESCRIPTION
1010-0552	For 08-16 FLHT/FLHR/FLTR/FLHX/H-D FL Trike
1010-0553	For 01-17 Twin Cam w/ Delphi EFI (except 08-16 Dresser/H-D FL Trike, 16-17 Softail/FXDLS)

TRASK PERFORMANCE

MIKUNI AIR CLEANER ADAPTER

- Machined 6061-T6 billet aluminum construction
- Use to mount either an S&S E/G or Keihin CV style air cleaners to a Mikuni HSR 42/45 carb

PART #	DESCRIPTION
1013-0099	Mikuni adapter

LA choppers

AIR CLEANER ADAPTERS

- Allows installation of a Los Angeles Choppers xXx air cleaner or Baron Big Air Kit to a Mikuni or S&S carburetor
- Will also work for mounting other air cleaner kits designed to mount stock CV carburetors; not for use with Arlen Ness Big Sucker air cleaners
- Constructed from 6061-T6 billet aluminum

GERMAN PARTS CERTIFICATE

AIR FILTER COVERS

- Turns the original air filter into a style element to save you the cost of a new air filter assembly, no registration necessary
- The air filter cover is designed to fit the original air filter exactly
- 100% custom-fit ABS plastic part and no adjustment work necessary
- All bores and millings are milled on the most modern 5-axis CNC machining centers, so that the air filter cover only has to be exchanged for the original air filter cover
- The air filter cover is TOP processed, fits perfectly and turns the boring original air filter into a cool part
- Available in gloss black finished surface or paintable, with a perfect surface finish that ensures minimum painting effort
- Contains TEILEGUTACHTEN/German Parts Certificate

1014-0339

CULT-WERK

GERMAN PARTS CERTIFICATE

1014-0350

1014-0354

AIR FILTER COVERS

- The engineers at Cult-Werk have succeeded in developing a revolutionary airbox cover
- The entire speedometer unit including the decorative frame is inserted into the airbox cover from above and screwed on from the underside as with the original
- The middle part of the airbox cover has been moved downwards so that the original light edges are retained; thus, the airbox cover appears more three-dimensional and much bulkier
- The airbox cover is much wider than the original, but also designed in such a way that it does not protrude over the frame tubes and in such a way that it is also possible to turn in completely without the handlebars hitting the airbox cover
- The indicated air inlets give the airbox cover an ingenious look and make the airbox cover extremely complex
- Made from ABS plastic, milled on the most modern 5-axis CNC machining centers
- Contains TEILEGUTACHTEN/German Parts Certificate

NOTE: This airbox cover is delivered WITHOUT the matching air filter cover set PART #1014-0339. However, we recommend installing an air filter cover to avoid possible damage to the engine.

PART #	DESCRIPTION
FOR 02-17 VRSCDX	
1014-0350	Custom
1014-0354	Racing (2 pieces air filter cover included)

1014-0356	Special

0520-3706

0520-3707

RAM AIR PANELS

- Forward-facing air inlets on motorcycles for the entry of combustion air are referred to as Ram Air; at high speeds, they force more air into the combustion chamber, resulting in increased power
- This physical phenomenon is aided by the Cult-Werk Ram Air side covers
- With this set your bike appears more modern and sporty and gives your V-Rod a much more attractive look
- The Cult-Werk Ram Air covers are 100% custom-fit ABS plastic parts
- No adjustment work necessary
- Minimum painting effort due to perfect surface finish
- All bores and millings are milled on the most modern 5-axis CNC machining centers, so that the Ram Air side covers only have to be exchanged for the original side covers
- Contains TEILEGUTACHTEN/German Parts Certificate

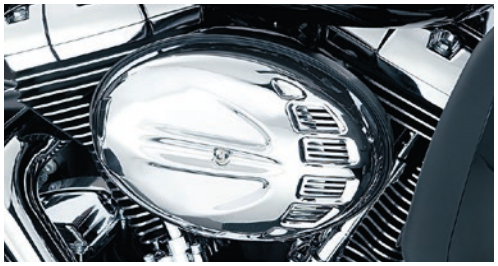
KURYAKYN



ALLEY CAT AIR CLEANER COVER

- Designed to fit Kuryakyn Street Sleeper II high-flow air cleaner
- Also fits select H-D Screamin' Eagle and some other aftermarket air cleaners (see chart)
- Features a unique chrome mesh insert and "knock-off" style end cap for a retro look
- Cover only, not a complete air filter assembly
- Sold each

NOTE: Will not work on Arlen Ness Stage II Big Sucker air cleaner or original Kuryakyn Street Sleeper.

PART #	DESCRIPTION
1014-0131	For 99-16 FLHT/FLHR/FLTR/FLHX, 00-17 FLST/FXST and 99-07 Dyna w/ Screamin' Eagle Stage I Air Cleaner Kit; also fits Kuryakyn Street Sleeper II and III air cleaner or Arlen Ness Stage 1 Big Sucker air cleaner

KURYAKYN

SCARAB AIR CLEANER COVER

- Stylish upgrade for the OEM air cleaner assembly
- Contoured design adds a racy touch
- Chrome grille openings allow additional airflow

PART #	DESCRIPTION
1010-0716	For 02-13 FLHT/FLHR/FLTR/FLHX and H-D FL Trike (except models w/ carburetor), 01-15 FXST/FLST (except 11-13 FXS, 12-15 FLS, 08-11 FLSTSB and models w/ carburetor), 04-07 FXD/FXDWG

DRAG Specialties

FIVE-BOLT DOMED AIR CLEANER INSERT

- Die-cast insert with a chrome finish
- Matches the five-bolt style of OEM derby cover

PART #	DESCRIPTION

FEULING

3" VELOCITY STACKS WITH BACKING PLATES

- High flow design billet aluminum construction
- 4" opening with internal taper down to 62 mm ID
- Fits M-Eight throttle body three hole bolt pattern
- Impressive horsepower and torque gains on engines running modified and ported cylinder heads and intakes with larger throttle bodies
- Great performance part for racing and for those that want to head to the track on the weekend

1010-2831

- Includes the aluminum backing plate and needed hardware for standard head breathers

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
FOR 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 17-25 H-D FL TRIKE, 18-24 SOFTAIL	
1010-2832	Raw machined aluminum w/ chrome backing plate
1010-2831	Raw machined aluminum w/ black backing plate

FEULING

3" VELOCITY STACK

- 3" tall billet aluminum velocity stack fits M-Eight throttle body bolt pattern
- Impressive horsepower and torque gains on engines running modified and ported cylinder heads and intakes with larger throttle bodies
- Great performance part for racing and for those that want to head to the track on the weekend
- 4" diameter opening with an internal taper down to 2,4"
- ID matched to 62 mm throttle bodies

- Natural aluminum finish
- Includes gasket and hardware

NOTE: Will require a custom breather system or will bolt up to aftermarket air cleaner backing plates that have internal breather systems.

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
1010-2578	For 17-25 FLHRXS, 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTR (except 23 FLHXSE/FLTRXSE), 17-25 H-D FL Trike, 18-24 Softail

STAGE II OVAL PERFORMANCE OEM UPGRADE AIR FILTER KITS

- For factory oval H-D air cleaners
- Increase performance and add style to the engine
- Feature a performance filter with a pleated top to take in air from the sides and top of the filter for maximum airflow
- Filter cover, spacers and clamps are all CNC machined from billet aluminum
- Performance air filter is made from high-flow black pre-oiled cotton media
- Increased filter height specially designed to increase airflow without reducing leg room
- Over 50% more air filter surface area than paper filters found in factory oval air cleaners
- Each filter kit includes a performance filter, billet air cleaner cover, billet spacers and clamps

NOTE: Does not include backing plate. Requires OEM/ H-D Ventilator oval backing plate.

REUSABLE AIR FILTERS

- Durable epoxy-coated wire mesh designed to maximize airflow and provide peak filtration
- 100% reusable and washable
- Pre-oiled for quick easy installation
- High-flow four-layer surgical-grade cotton filtration
- Urethane body won't crack or curl like rubber

PART #	DESCRIPTION
BIG TWIN	
1011-4230	For 24 FLHTK/FLTRK, 17-23 FLHT/FLHR/FLHX/FLTRX/FLTRU, 17-25 H-D FL Trike; repl. OEM #29400212
1011-4229	For 21-25 FLHRXS, 17-21 CVO Touring (114"); repl. OEM #29400267
1011-4202	For 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike and 16-17 Softail (except FLSS/FLSTFBS); repl. OEM #29400045
1011-4198	For 08-13 FLHT/FLHR/FLTR/FLHX/H-D FL Trike; repl OEM #29633-08
1011-4228	For 19-24 FLDE/FLHC/FLSL/FLSB/FLFB/FXLR/FXBB/FXBR/FXFB (107"); repl. OEM #29400248
1011-4229	For 18-24 FLFBS/FLHCS/FXBRS/FXFBS/FXBBS/FXLRS (114"); repl. OEM #29400267
1011-4203	For 12-17 FLS, 11-13 FXS, 08-11 FLSTSB, 13-17 FXDB; repl. OEM #29314-08
1011-4199	For 08-17 FXD/FXDB/FXDC/FXDF/FXDL/FXDWG/FLD (except 13-17 FXDB); repl. OEM #29191-08
1011-4197	For 99-17 Twin Cam (except 08-16 Dresser/H-D FL Trike, 11-13 FXS, 12-16 FLS, 08-11 FLSTSB, 99-01 Magneti-Marelli EFI, 08-16 Dyna); repl. OEM #s 29461-99, 29400042
1011-4208	For 99-01 88" Twin Cam w/ Magneti-Marelli EFI; repl. OEM #29462-99

PART #	DESCRIPTION
XL AND V-ROD	
1011-4260	For 14-22 XL (except RH Sportster); repl. OEM #29400015
1011-4196	For 04-13 XL (except 13 1200V); repl. OEM #29331-04
1011-4201	For 88-03 XL; repl. OEM #29331-96
1011-4211	For 02-17 V-Rod; repl. OEM #29437-01
PAN AMERICA	
1011-4665	For 21-25 RA1250/S; repl. OEM #29400390
AFTERMARKET AIR CLEANERS	
1011-4204	For S&S "D" teardrop air cleaner; 6" x 2 1/16" (K&N® ref. #E-3224)
1011-4205	For S&S teardrop air cleaner; 6" x 2 3/16" (K&N ref. #E3225)
1011-4206	For S&S Super E and G teardrop air cleaner; 6" x 2 1/2" (K&N ref. #E3226)
1011-4209	Screamin' Eagle Stage 1 air filter Twin Cam (except 99-01, 08-17 Dresser, 08-17 Dyna); repl. OEM #29442-99A
1011-4212	Screamin' Eagle Stage 1 air filter 08-14 FLHTCUSE/FLHRSE; repl. OEM #29244-08
1011-4214	Screamin' Eagle Stage 1 air filter 14-16 FLHT/FLHR/FLHX/FLTR/H-D FL Trike and 16-17 Softail (except FLSS/FLSTFBS)
1011-4213	Screamin' Eagle Stage 1 air filter 08-17 Dyna; repl. OEM #29385-08
1011-4210	Screamin' Eagle Stage 1 air filter 04-21 XL (except RH Sportster); repl. OEM #29044-04

K&N

DRYCHARGERS®

- Specially designed filter wrap made to extend the service interval of your K&N® air filter when used in severe dusty or wet conditions
- Made from durable polyester material containing uniform micron openings, the Drycharger® will stop small dirt particles and is water-repellent, yet adds little restriction to the airflow of your filter
- Feature double-stitched elastic openings to secure Drycharger in place
- Designed to be run dry and can be cleaned with K&N filter cleaner
- Custom fit to each application

0901-0266

MK136 BLACK EDITION ENGINE FOR OIL-COOLED M-EIGHT

- Complete crate engine, fully assembled
- High-flow cylinder heads with premium valves, valve seats, guides, springs and seals
- Intake and exhaust valves are +1 mm oversized and 0,030" longer than stock for improved valve train geometry
- 0,605" lift valve springs
- Gear-drive cam
- High-strength alloy used in the cylinder head casting for improved strength at high temperatures
- Enlarged cooling passages around the exhaust seats
- S&S exclusive design breather boxes
- Forged pistons
- S&S Performance oil pump and cam support plate
- Premium valve tappets and tappet cuffs
- Billet aluminum engine and valve covers
- Sprocket shaft spacer included
- Champion brand spark plugs included
- Retains stock engine height
- Cam cover badge included
- Black powdercoat finish matches the factory finish
- Crankcase features dual-spray piston cooling jets
- Precision-machined oil scraper
- Enlarged oil sump
- Contoured oil pan floor allows oil to easily drain back to the sump
- Race use only

0901-0247

0901-0232

T124HC SERIES LONG BLOCK ENGINES

- High Compression, 10,8:1 for the ultimate in street performance
- No fuel system or ignition system included
- Special head machining fits stock length intake manifolds (S&S manifold size 410)
- Stock style breathing system; compatible with stock and most performance air cleaners
- Includes Super Stock™ heads, crankcases, TC3 oil pump and cam plate, redesigned cam cover and easy start 640 gear drive cams
- Specs: displacement 124"; bore 4 1/8"; stroke 4 5/8"; piston type forged flat top; compression ratio 10,8:1
- Black Edition includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

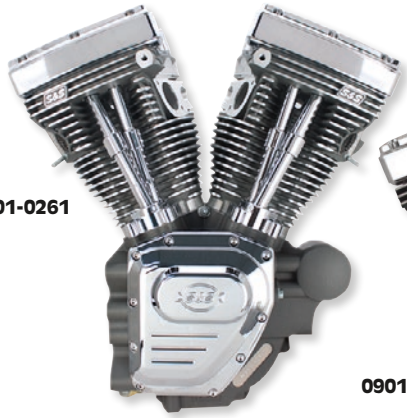
PART #	DESCRIPTION
FOR 07-16 TOURING (EXCEPT TWIN COOLED)	
0901-0234[1]	Wrinkle black/chrome
0901-0247[1]	Black Edition
0901-0260[1]	Stone gray
0711-0220	Oil line installation kit
FOR 99-06 TOURING AND 99-05 DYNA	
0901-0232	Wrinkle black/chrome
0901-0243	Black Edition

NOTE: Additional components required for installation (sold separately).

NOTE: Cylinder heads on T-Series long block engines are 99-05 style. Owners of 06 models will need to purchase a set of 99-05 style, offset intake flanges.

NOTE: Cylinder heads on these engines are specially machined to compensate for the non-stock cylinder length. As a result, they are compatible with manifolds and throttle bodies with stock length intake runners. In addition, the breather vent bolt locations have been adjusted so they are in the stock location, so stock style air cleaner back plates will bolt up to these engines.

NOTE: Not recommended for H-D FL Trike.



PART #	DESCRIPTION
FOR 06-17 FXD/FXDWG	
0901-0240[2]	Wrinkle black/chrome
0901-0241[2]	Black
0950-0848	Installation kit, black

[1] Requires the use of oil line kit PART #0711-0220 for installation (sold separately).

[2] Requires kit PART #0950-0848 for installation (sold separately).

0901-0235

0901-0261

0901-0237

T124LC SERIES LONG BLOCK ENGINES

- Lower compression, 10,2:1, for great street torque
- Includes Super Stock™ heads, T2 crankcase, TC3 oil pump, Easy Start 585 gear drive cams and redesigned cam cover
- Specs: displacement 124"; bore 4 1/8"; stroke 4 5/8"; piston type S&S forged dish 11 cc; compression ratio 10,2:1 (unless noted)
- No fuel system or ignition system included
- Special head machining fits stock length intake manifolds (S&S manifold size 405)
- Stock style breathing system; compatible with stock and most performance air cleaners
- Black Edition includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

PART #	DESCRIPTION
FOR 07-16 TOURING (EXCEPT TWIN COOLED)	
0901-0248[1, 2]	Black Edition
0901-0235[1, 2]	Wrinkle black/chrome
0901-0261[1, 2]	Stone gray
0711-0220	Oil line installation kit

NOTE: Additional components required for installation (sold separately).

NOTE: Cylinder heads on T-Series long block engines are 99-05 style. Owners of 06 models will need to purchase a set of 99-05 style, offset intake flanges.

NOTE: Cylinder heads on these engines are specially machined to compensate for the non-stock cylinder length. As a result, they are compatible with manifolds and throttle bodies with stock length intake runners. In addition, the breather vent bolt locations have been adjusted so they are in the stock location, so stock style air cleaner back plates will bolt up to these engines.

NOTE: Not recommended for H-D FL Trike.

PART #	DESCRIPTION
FOR 99-06 TOURING AND 99-05 DYNA	
0901-0244	Black Edition
0901-0237	Wrinkle black/chrome

[1] Requires the use of oil line kit PART #0711-0220 for installation (sold separately).

[2] Not recommended for H-D FL Trike models.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

T111 LONG-BLOCK ENGINES

- Super Stock™ heads and crankcase
- S&S Easy Start 585 gear drive cams
- TC3 oil pump and cam plate
- 9,8:1 forged flattop pistons
- 99-06 engines feature revised oil line routing (no longer require installation kits)
- Intake system not included; compatible with stock or aftermarket intake systems
- 4 1/8" bore x 4 1/8" stroke
- Black Edition, includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers

NOTE: Additional components required for installation (sold separately).

NOTE: Cylinder heads on T-Series long block engines are 99-05 style. Owners of 06 models will need to purchase a set of 99-05 style, offset intake flanges.

132" POWER PACKAGES FOR M-EIGHT

- Big-bore bolt-on kit increases your 114"/117" with 4,5" stroke M-Eight to 132" with no case machining required
- Big bore 4,32" cylinders with 11:1 forged pistons
- S&S oil pump/cam plate with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the oil feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit installed in the engine
- Quickee pushrods with chrome pushrod tubes
- S&S premium tappets
- S&S hard-anodized, black coated tappet cuffs are billet aluminum construction
- Improve tappet stability in high-lift, high-rpm situations
- S&S 550 cams designed for big bore applications (gear or chain drive cams available)
- S&S valve springs; work with cams up to 0,605" lift
- High-performance conical single-wire spring design
- All necessary gaskets, bearings and hardware for bolt-on installation included
- Original engine serial numbers are retained

PART #	DESCRIPTION
FOR 17-25 M-EIGHT OIL-COOLED ENGINES (EXCEPT CVO 121")	
0904-0162	Black granite w/ highlighted cylinder fins, chain drive cam
0904-0154	Black granite w/ highlighted cylinder fins, gear drive cam
0904-0163	Wrinkle black w/ non-highlighted cylinder fins, chain drive cam
0904-0164	Wrinkle black w/ highlighted cylinder fins, chain drive cam
0904-0155	Wrinkle black w/ non-highlighted cylinder fins, gear drive cam
0904-0156	Wrinkle black w/ highlighted cylinder fins, gear drive cam

PART #	DESCRIPTION
FOR 17-25 M-EIGHT WATER-COOLED ENGINES (EXCEPT CVO 121")	
0904-0168	Black granite w/ highlighted cylinder fins, chain drive cam
0904-0160	Black granite w/ highlighted cylinder fins, gear drive cam
0904-0169	Wrinkle black w/ highlighted cylinder fins, chain drive cam
0904-0161	Wrinkle black w/ highlighted cylinder fins, gear drive cam

0904-0167

129" POWER PACKAGES FOR M-EIGHT

- Big-bore bolt-on kit increases your 107" M-Eight to 129" with no case machining required
- 4,32" bore cylinders with 11:1 forged pistons
- S&S oil pump/cam plate with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the oil feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit installed in the engine
- Quickee pushrods with chrome pushrod tubes
- S&S premium tappets
- S&S hard-anodized, black coated tappet cuffs are billet aluminum construction
- Improve tappet stability in high-lift, high-rpm situations
- S&S 550 cams designed for big bore applications
- S&S valve springs; work with cams up to 0,605" lift
- High-performance conical single-wire spring design
- All necessary gaskets, bearings and hardware for bolt-on installation included

PART #	DESCRIPTION
FOR 17-25 M-EIGHT OIL-COOLED 107" ENGINES	
0904-0167	Wrinkle black w/ highlighted fins and chrome pushrod tubes, chain drive cam
0904-0166	Wrinkle black w/ highlighted fins and black pushrod tubes, chain drive cam
0904-0165	Wrinkle black w/o highlighted fins and black pushrod tubes, chain drive cam
0904-0159	Wrinkle black w/ highlighted fins and chrome pushrod tubes, gear drive cam
0904-0158	Wrinkle black w/ highlighted fins and black pushrod tubes, gear drive cam

POWER PACKAGES FOR TWIN CAM

- Get everything needed in one package
- Includes an S&S 4" big bore cylinder kit with 10,5:1 pistons, S&S 585 Easy Start cams, S&S Quickee Pushrods, and S&S Premium Hydraulic tappets to make the most of the added displacement
- TC3 cam support plate and TC3 oil pump to ensure consistent oil pressure and engine longevity
- Increases displacement to 100" (99-06) or 110" (07-17)
- Cylinders fit to pistons; no machining required
- All parts required to upgrade to gear drive cam or hydraulic tensioners in one easy-to-order part number

NOTE: 99-04 Twin Cams will require the additional purchase of valve spring kit PART #0926-2722.
Pinion shaft runout must be less than 0,003" to use gear drive cams. Kit not available to fit 06 Dyna.

NOTE: Not for use with S&S 79 cc heads.

NOTE: Can be used with stock heads.

PART #	DESCRIPTION
110" KITS FOR 07-17 TWIN CAM	
0904-0030	585CE, (chain drive), black
0904-0029	585CE (chain drive), silver
0904-0032	585GE, (gear drive), black
0904-0031	585GE (gear drive), silver

PART #	DESCRIPTION
100" KITS FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0904-0026	585CE, (chain drive), black
0904-0025	585CE (chain drive), silver
0904-0028	585GE, (gear drive), black
0904-0027	585GE, (gear drive), silver

GRIND	OPEN	CLOSE	DURATION @ 0,053"	VALVE LIFT
S&S 585 CAM SPECIFICATIONS				
Intake	20°	45°	245°	0,585"
Exhaust	60°	20°	260°	0,585"

All part numbers in **BLUE** are new for 2026.

0903-1254

124" HOT SETUP KITS

- The S&S Hot Setup kit for Twin Cams allows a Twin Cam owner to convert a stock engine to 124" using the stock crankcases
- Include S&S heads 91 cc, 4,125" bore cylinders and forged 10,8:1 flattop pistons, S&S 4,625" stroke flywheel assembly, S&S 0,640" lift chain-drive Easy Start cams, tappets, S&S adjustable pushrods, roller rocker arms, and all hardware, gaskets and instructions
- Fuel system is not included
- Available in black powdercoat finish

NOTE: This project requires crankcase modifications. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

NOTE: Not recommended for H-D FL Trike models.

PART #	DESCRIPTION
0903-0951[1]	For 07-17 Twin Cam 96/103/110A and 06 Dyna
0903-1254	For 01-06 Twin Cam 88B
0903-0950	For 99-06 Twin Cam 88A (except 06 Dyna)

[1] Not for use on Twin Cooled motors.

106" HOT SETUP KIT

- Increased fin area for better heat dissipation
- Increase bore size from 3,750" to 3,927"
- 4 3/8" stroke, 10:1 comp. with stock heads
- Easy installation; no machining or rebalancing required
- Forged coated pistons are compatible with stock or S&S Super Stock 79 cc and 89 cc heads
- Valve pocket recessed in S&S pistons are enlarged for oversize valves and higher lift cams
- Maintains stock engine height and stock piston weight
- 11 fins and full fin pattern on cam side of cylinders closely resembles OEM shape
- Kit includes: S&S cylinders with gaskets, piston set with rings, top end gasket kit, pushrods, tappets, 585CE chain-drive easy start cams and instructions
- A fuel system is not included

PART #	DESCRIPTION
0903-1293	For 07-17 Twin Cam (except Twin Cooled)

All part numbers in **BLUE** are new for 2026.

136" BIG BORE KITS FOR M-EIGHT 107"/114"/117" ENGINES

- Bolt-on kit, the largest cylinder bore possible without requiring machining of the crankcases
- Takes 107"/114"/117" to 136" displacement
- To achieve 136" bore, must use S&S stroker flywheel PART #0922-0168 with 4 5/8" stroke (sold separately)
- 4,320" bore
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included
- Includes cam cover badge

PART #	DESCRIPTION
FOR 17-25 107"/114"/117" M-EIGHT	
0931-1203	Black granite finish w/ highlighted cylinder fins
0931-1209	Wrinkle black finish w/ highlighted cylinder fins

PART #	DESCRIPTION
FOR 17-25 107"/114"/117" M-EIGHT (CONT)	
0931-1208	Wrinkle black finish w/o highlighted cylinder fins

132"/136" HIGH COMPRESSION BIG BORE KITS FOR M-EIGHT 114"/117" ENGINES

- Take performance to the next level
- Bolt-on kit, does not require machining of the crankcases
- 4.320" bore, 4 1/2" stroke with stock flywheel (132")
- To achieve 136" big bore, must use S&S flywheel PART #0922-0168 with 4 5/8" stroke (sold separately)
- All necessary gaskets and hardware required for installation included

NOTE: NOT compatible with H-D 4 5/8" stroke flywheel.
MUST use S&S 4 5/8" stroke flywheel to achieve 136" bore.

FOR 17-25 M-EIGHT (EXCEPT CVO 121")

PART #	DESCRIPTION
W/ 0cc DOME PISTONS	
0904-0150	Black granite w/ highlighted cylinder fins
0904-0148	Wrinkle black w/ highlighted cylinder fins
0904-0149	Wrinkle black w/o highlighted cylinder fins

PART #	DESCRIPTION
W/ +8.5cc DOME PISTONS	
0904-0153	Black granite w/ highlighted cylinder fins
0904-0151	Wrinkle black w/ highlighted cylinder fins
0904-0152	Wrinkle black w/o highlighted cylinder fins

132" BIG BORE KIT FOR M-EIGHT 114"/117" ENGINES

- Bolt-on kit, the largest cylinder bore possible without requiring machining of the crankcases
- 4,320" bore and 4,5" stroke
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included
- Includes cam cover badge

PART #	DESCRIPTION
FOR 17-25 114"/117" M-EIGHT	
0931-1202	Black granite finish w/ highlighted cylinder fins
0931-1206	Wrinkle black finish w/ highlighted cylinder fins

PART #	DESCRIPTION
FOR 17-25 114"/117" M-EIGHT (CONT)	
0931-1207	Wrinkle black finish w/o highlighted cylinder fins
0931-1081[1]	Wrinkle black finish w/ highlighted cylinder fins

[1] For 17-23 M-Eight only.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

131" STROKER CYLINDER AND PISTON KITS

- Bolt-on kit, works with the stock crankcases
- 4 1/4" bore cylinders with a new 11:1 forged piston design
- When paired with an S&S 4,625" stroker flywheel (sold separately), engine will be a true 131 cubic inches
- Retains stock engine height
- Kits include 0,045" MLS (Multi-Layer Steel) head gaskets
- Stock engine height is retained
- Original engine serial numbers are retained
- 131" cam cover badge included

NOTE: Must be used with S&S stroker flywheel PART #s 0922-0168 or 0922-0174 (sold separately) to achieve 131" displacement.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT CVO 121")

0931-1198	Wrinkle black w/ non-highlighted cylinder fins

129" BIG BORE KITS FOR M-EIGHT 107" ENGINES

- Bolt-on kit, the largest cylinder bore possible without requiring machining of the crankcases
- 4,320" bore and 4,375" stroke
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included
- Includes cam cover badge

PART #	DESCRIPTION
FOR 17-25 107" M-EIGHT	
0931-1204	Wrinkle black finish w/o highlighted cylinder fins

128" BIG BORE KITS FOR M-EIGHT 114"/117" ENGINES

- Bolt-on kit, the largest cylinder bore possible without requiring machining of the crankcases
- 4 1/4" bore, 4 1/2" stroke
- 11:1 forged pistons
- All necessary gaskets and hardware required for installation included

NOTE: Not recommended for H-D FL Trike.

PART #	DESCRIPTION
FOR 17-25 114"/117" M-EIGHT	
0931-1195	Black granite finish w/ highlighted cylinder fins

0931-0434

0931-0433

BIG BORE KITS FOR TWIN CAM

- The Big Bore kit yields excellent results with stock cylinder heads (not for Twin Cooled motors) unless noted
- Easy installation: no need to bore or split existing cases, just swap the cylinders (unless noted)
- Cylinders are constructed from premium aluminum castings with cast-in iron liners
- Kits include cylinders, pistons, rings and gaskets (head, base and exhaust)

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

NOTE: Not recommended for H-D FL Trike models.

PART #	DESCRIPTION
106" KITS FOR 07-17 TWIN CAM (3,927" BORE, 4 3/8" STROKE, 10:1 COMP. W/ STOCK HEADS)	
0931-0434[1]	Wrinkle black
0931-0435[1]	Silver
107" KITS FOR ALL 07-17 TWIN CAM (3,937" BORE, 4 3/8" STROKE, 10.5:1 COMP. W/ STOCK HEADS)	
0931-0535[1, 3]	Silver
117" KITS FOR 07-17 TWIN CAM (4,125" BORE, 4 3/8" STROKE, 10,9:1 COMP. W/ STOCK HEADS)	
0931-0539[1, 2]	Wrinkle black
0931-0538[1, 2]	Stone gray powdercoat
124" KITS FOR 07-17 TWIN CAM (4,125" BORE, 4 5/8" STROKE, 11,4:1 COMP. W/ STOCK HEADS)	
0931-0541[1, 2]	Wrinkle black
0931-0540[1, 2]	Stone gray powdercoat

PART #	DESCRIPTION
95" KITS FOR 99-06 TWIN CAM (3,875" BORE, 4" STROKE, 9,7:1 COMP. W/ STOCK HEADS)	
0931-0432	Wrinkle black
0931-0433	Silver
97" KITS FOR 99-06 TWIN CAM (3,927" BORE, 4" STROKE, 9,7:1 COMP. W/ STOCK HEADS)	
0931-0436	Wrinkle black
0931-0437	Silver
98" KITS FOR 99-06 TWIN CAM (3,937" BORE, 4" STROKE, 9,8:1 COMP. W/ STOCK HEADS)	
0931-0536[3]	Wrinkle black

[1] Will fit Twin Cooled motors.
[2] Requires case machining for installation.
[3] Not for use with S&S 79 cc heads.

0931-0741

0931-0740

BOLT-IN SIDEWINDER® 4" BIG BORE KITS

- Bolt in - no machining, balancing, or splitting the crankcases; install can be performed with engine still in frame
- Ductile cast iron liner wrapped in cast aluminum for superior heat transfer
- 88" engines are boosted to 100"
- 96" and 103" engines are boosted to 110"
- 10,5:1 compression (w/ stock 85 cc heads) makes for a very streetable and dependable engine that also responds well to performance cams
- Complete kits include cylinders, forged pistons, rings, piston pins, clips and gaskets
- Available with wrinkle black or silver powdercoat finish cylinders

NOTE: Not for use with S&S 79 cc heads.

NOTE: Not recommended for H-D FL Trike.

PART #	DESCRIPTION
110" FOR 07-17 TWIN CAM	
0931-0741	Silver
0931-0742	Wrinkle black

PART #	DESCRIPTION
100" FOR 99-06 TWIN CAM	
0931-0739	Silver
0931-0740	Wrinkle black

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

106" TWIN CAM STROKER FLYWHEEL KITS

- Features three-piece assembled flywheels with shafts
- Does not require any motor case modification
- 4 1/2" stroke
- 103" stock motors or motors with factory 95" kits require piston kit only; stock or S&S cylinder heads can be used
- Stock cylinders will require boring to 3,875"
- For replacement piston rings, see page 559

PART #	DESCRIPTION
106" STROKER FLYWHEELS (4,5" STROKE)	
0922-0115	For 06 Dyna and all 07-16 Twin Cam 96" A motor, w/o sprocket bearing race
0922-0118	For 00-06 Twin Cam "B" motor, w/o sprocket bearing race
0922-0117	For 99-06 Twin Cam "A" motor (except 06 Dyna), w/o sprocket bearing race

NOTE: Fuel-injected motors will require recalibration of the fuel-injection system.

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.

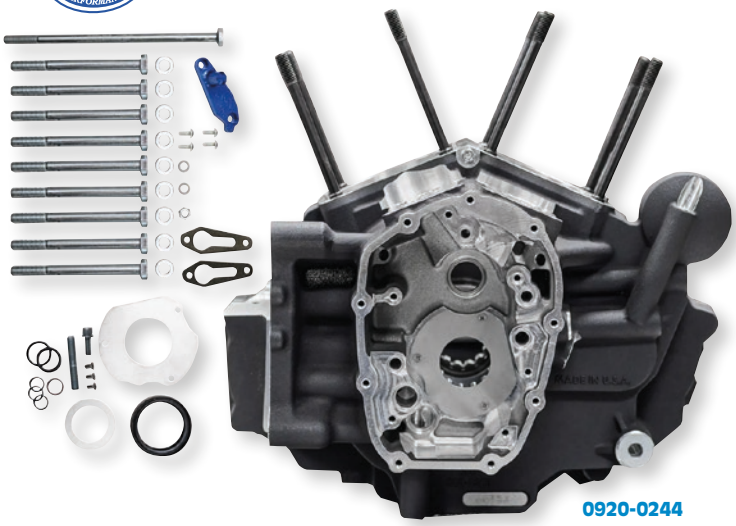
PART #	DESCRIPTION
3,875" CYLINDER/PISTON KITS FOR S&S 106" STROKER ONLY (10,5:1 COMPRESSION) (88" MOTOR ONLY)	
0931-0430	Black powdercoat
106" PISTON KITS (10,1:1 COMPRESSION RATIO) (95"-103" MOTORS ONLY)	
0920-0001	Std.
2001-2911	+0,010" pistons

883 CC TO 1200 CC HOOLIGAN KIT

- Bolt-on big bore kit means easy installation with no machining and no rebalancing
- S&S bolt-in cams and premium tappets make the most of the added displacement
- Cams are 0,482" lift and 240° duration intake and 234° degree duration exhaust
- Compression ratio 9,6:1
- Easy installation; bolt-on parts, no machining, no rebalancing
- Use stock heads, pushrods, and fuel system
- Wrinkle black finish

PART #	DESCRIPTION
0903-1300	For 00-22 XL883

XL 883 TO 1200 CONVERSION KITS



- Increase displacement from 883 cc to 1200 cc
- Saves time because pistons are already fit to the cylinders – ready to assemble out of the box
- Cylinders are constructed from premium aluminum castings with cast-in iron liners
- No machining
- No re-balancing of 883 cc flywheels
- No cylinder head modifications
- Big bore 3 1/2" cylinders
- 9,4:1 with stock 883 cc heads
- Kit includes cylinders, pistons, rings and gaskets (head, base and exhaust)

PART #	DESCRIPTION
FOR 86-22 XL883	
0903-0944	Silver

PART #	DESCRIPTION
FOR 86-22 XL883 (CONT)	
0903-0945	Wrinkle black

All part numbers in **BLUE** are new for 2026.

0920-0244

MK SERIES 4 1/2" BORE CRANKCASE ASSEMBLIES FOR M-EIGHT

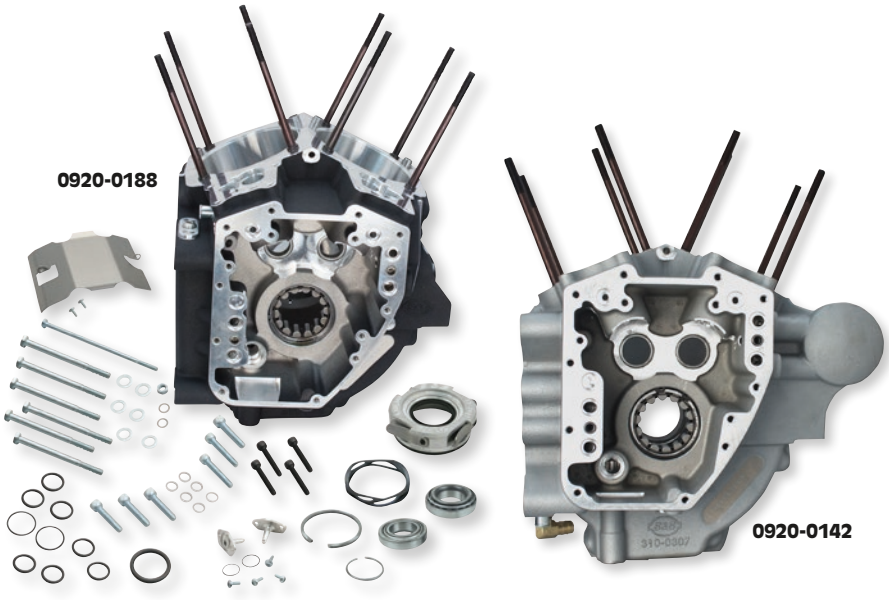
- Gives a solid foundation for building a big-bore engine
- Designed to accept cylinders up to 4 1/2"
- Close-fitting oil scraper is machined, not cast
- Stock deck height
- Large volume sump
- Fit in the stock frame without modifications
- Includes crankcase assembly, main bearings, balancer shaft bearings, inner cam bearing, cylinder studs, magnetic drain plug, 1/4" pipe plugs, front and rear piston cooling jets and gaskets, and all necessary hardware, O-rings and seals for assembly
- 4,695" spigot bore to accept larger bore cylinders
- Includes Manufacturers Statement of Origin (MSO) document
- Matte black finish

PART #	DESCRIPTION
0920-0244	For 17-25 M-Eight Touring
0920-0245	For 18-25 M-Eight Softail

MK SERIES CRANKCASE ASSEMBLY FOR M-EIGHT SOFTAIL

- Gives a solid foundation for building a big-bore engine
- Can be paired with a S&S 136" cylinder kit and 4 5/8" stroker crank (sold separately)
- Close-fitting oil scraper is machined, not cast
- Stock deck height
- Large volume sump
- Fit in the stock frame without modifications
- Includes crankcase assembly, main bearings, balancer shaft bearings, inner cam bearing, cylinder studs, magnetic drain plug, 1/4" pipe plugs, front and rear piston cooling jets and gaskets, and all necessary hardware, O-rings and seals for assembly
- Includes Manufacturers Statement of Origin (MSO) document
- Matte black finish

PART #	DESCRIPTION
0920-0242	For 18-24 Softail



MK SERIES CRANKCASE ASSEMBLY FOR M-EIGHT TOURING

- Aluminum construction
- Reinforced case prevents cracking in high-stress areas for improve reliability
- Machined oil scraper allows better oil scavenging; which results in lower temperatures in the flywheel cavity
- Designed to fit into the stock frame
- Stock deck height
- Large volume sump
- Accepts all OEM-style components
- Can accept larger bores than stock
- Includes crankcase assembly, main bearings (2), balancer shaft bearings (2), inner cam bearing, cylinder studs (8), magnetic drain plug, 1/4" pipe plugs (4), front and rear piston cooling jets and gaskets, and all necessary hardware, O-rings and seals for assembly
- Includes Manufacturers Statement of Origin (MSO) document

PART #	DESCRIPTION
0920-0239	For 17-23 M-Eight Touring

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

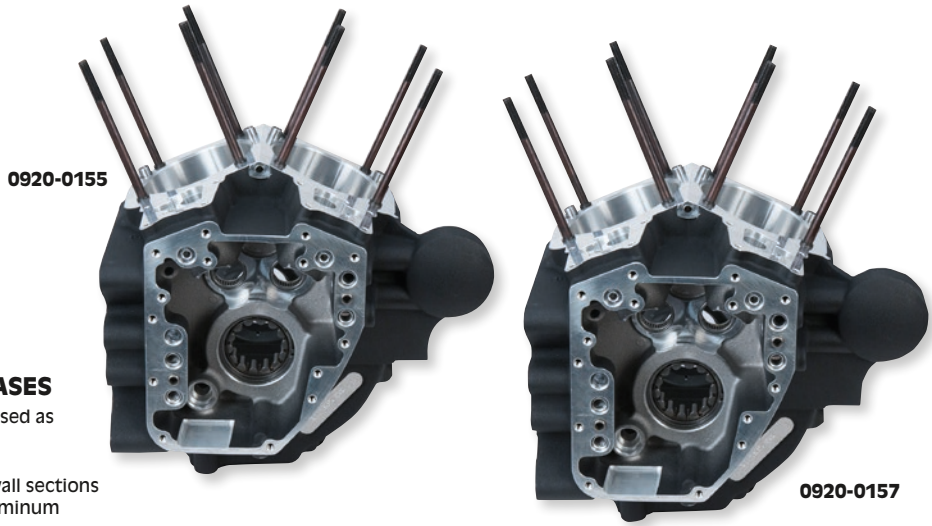
TWIN CAM ENGINE CASES

- Replacement Twin Cam "A" engine cases for stock H-D chassis only (carb and EFI)
- Features greater overall strength than stock crankcases
- Strong, dependable Timken®-style sprocket shaft bearings
- Clearanced for strokes up to a nd including 5"
- All passages between the crankcase cam support plate are O-ring sealed
- Compatible with most stock components
- Cam chest has clearance for up to 0,675" lift cams
- Includes S&S crankcase breather reed valve designed to eliminate oil carry-over and oil scavenging problems
- Rear motor mount bolts directly to the stock transmission; fully compatible with the stock primary, charging system, and other stock components
- Available with stock bore (ideal for replacement applications), and 4,125" bore engines with stock stud pattern (ideal for custom applications and for use with the S&S 124" Hot Set Up Kit®)
- Available with silver powdercoat or black powdercoat

NOTE: Installation in 07-16 FLHT/FLHR/FLHX/FLTR requires oil line installation kit PART #0711-0220.

NOTE: To ease installation in 07-16 FLH/FLHR/FLHX/FLTR models use PART #3802-0054.

NOTE: This project requires a skilled technician. It is the responsibility of the person assembling the parts to check all clearances and assembly specifications.



FOR 99-06 TWIN CAM "A" ENGINES (EXCEPT 06 DYNA)

PART #	DESCRIPTION
4,125" BORE WITH STOCK STUD PATTERN ONLY	
0920-0188	Black powdercoat

FOR 07-16 FLHT/FLHR/FLHX/FLTR MODELS

PART #	DESCRIPTION
STOCK BORE	
0920-0142	Black powdercoat
0711-0220	Installation kit

PART #	DESCRIPTION
4,125" BORE WITH STOCK STUD PATTERN ONLY	
0920-0093	Black powdercoat
0711-0220	Installation kit

SUPER STOCK® T2 ENGINE CASES

- Stock or 4 1/8" bore crankcases to be used as a foundation for a custom engine or replacement for T111, T124, or T143
- Stock looking, but stronger; thicker wall sections and superior 356-T6 aircraft-grade aluminum
- Tough powdercoat finishes
- Reinforced front motor mount for extra strength
- Timken® sprocket shaft bearing – strong enough for the most demanding applications
- Clearanced for strokes up to 4 3/16" and cams up to 0,720" lift
- Includes pinion and Timken bearing
- Manufacturer's Statement of Origin (MSO) included
- Includes studs and cam bearings installed
- Crankcases are specially machined for the S&S oil line installation kits sold separately

NOTE: Requires oil supply line installation kit PART #0950-0848.

FOR 06-17 DYNA

PART #	DESCRIPTION
0920-0155	Stock bore, wrinkle black powdercoat
0920-0157	4.125" bore w/ stock bolt pattern, wrinkle black powdercoat

PART #	DESCRIPTION
0950-0848	Oil line installation kit, black

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

M-EIGHT FLYWHEEL ASSEMBLIES

0922-0163

- Consistent balance and precision machining
- Heat-treated 4140 material is harder and 114% stronger than stock
- S&S high-strength connecting rods are perfect for use with gear drive cams
- Available with either full-width or tapered wristpin connecting rods
- Choose from 4 3/8", 4 1/2" or 4 5/8" stroke
- No welding required

FOR 17-23 M-EIGHT	
PART #	**DESCRIPTION**
4 3/8" STROKE (114"/117")	
0922-0164	W/ balancer gear, tapered wrist pin
0922-0167	With balancer gear, full wrist pin
4 1/2" STROKE (107")	
0922-0163	With balancer gear, tapered wrist pin
4 1/2" STROKE (107") (CONT)	
0922-0166	With balancer gear, full wrist pin
4 5/8" STROKE	
0922-0168[1]	With balancer gear, full wrist pin

[1] Not recommended for use with H-D FL Trike.

TWIN CAM FLYWHEEL ASSEMBLIES

0922-0113 0922-0111 0922-0152

- S&S three-piece flywheels with integral main shafts are the strongest yet, made from 4140 steel and feature a larger 1,671" crankpin
- Flywheel assemblies without sprocket shaft bearing race are designed for use with Timken® bearing conversion (sold separately)
- Fit directly in stock crankcases with no modifications

PART #	DESCRIPTION
FOR 88"/95"/100" (4" STROKE)	
0922-0119	For 03-06 Twin Cam "A" motor (except 06 Dyna), w/ sprocket shaft bearing race
0922-0120	For 03-06 Twin Cam "B" motor, w/ sprocket shaft bearing race
0922-0113	For 99-02 Twin Cam "A" motor, w/o sprocket shaft bearing race
0922-0114	For 00-02 Twin Cam "B" motor, w/o sprocket shaft bearing race
FOR 96"/103"/110" CVO (4 3/8" STROKE)	
0922-0121	For 07-16 Twin Cam "A" motor, w/ sprocket shaft bearing race
0922-0112	For 07-16 Twin Cam "B" motor, w/o sprocket shaft bearing race
0922-0111	For 07-16 Twin Cam "A" motor, w/o sprocket shaft bearing race
0922-0122	For 07-16 Twin Cam "B" motor, w/ sprocket shaft bearing race
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE)	
0922-0123[1]	For 07-16 Twin Cam "A" motor and 06 Dyna, w/o sprocket shaft bearing race
0922-0156[1]	For 07-17 Touring and 06-17 Dyna, w/ sprocket shaft bearing race

PART #	DESCRIPTION
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE) (CONT)	
0922-0158	For 99-06 Twin Cam (except 06 Dyna) "A" motor, w/ sprocket shaft bearing race
0922-0157	For 99-06 Twin Cam (except 06 Dyna) "B" motor, w/ sprocket shaft bearing race
FOR 96"/103"/106" BIG BORE/110"/117" W/ STOCK OR S&S PISTONS (4 3/8" STROKE)	
0921-0524	For 99-06 Twin Cam "A" motor, w/o sprocket shaft bearing race
FOR 124" (4 5/8" STROKE)	
0922-0150	For 07-17 Twin Cam w/ 124" S&S motor
0922-0152	For 07-17 SE 120R motors
0922-0159	For 99-06 Twin Cam "B"
0922-0151	For 99-06 Twin Cam w/ 124" S&S motor

[1] Footnote 1

ROD SETS

0923-0467

DS-194664

- Heavy-duty replacements, perfect for stock motors
- Meets or exceeds OEM specifications
- Comes completely fitted and ready to install
- Complete set includes a two-hole crankpin, aluminum retainers, bearings, nuts and forged heat-treated steel rods

NOTE: Check rod beam to flywheel for proper clearance.

PART #	DESCRIPTION
0923-0689	For 17-24 M-Eight (107"/114")
0923-0630	For 07-16 FLHT/FLHR/FLHX/FLTR, 07-17 Softail and 07-17 FXD/FXDWG (96"/103") (tapered small rod ends)
0923-0629	For 99-06 FLHT/FLHR/FLHX/FLTR, 00-04 Softail and 99-06 FXD/FXDWG (88") (small straight rod ends)

PART #	DESCRIPTION
0923-0467	For 05-06 Softail; repl. OEM # 23971-03/03A (tapered small rod ends)
DS-194664	For 86-99 XL; repl. OEM #24275-86A

HEAVY-DUTY CONNECTING ROD SET

- High-quality, heavy-duty rod set comes complete and ready to install
- Set includes front and rear rods, crankpin and nuts, steel cages and roller bearings
- Rods are deep-forged and heat-treated, 0,120" wider than stock in the I-beam section and feature rod-to-rod clearance to accommodate strokes up to and including 5"
- Crankpin has two oil holes and rod has four slots ground on each side of the throw ends to help maintain the oil film on thrust faces

NOTE: Installation of rod sets may require additional clearancing of flywheels and cases.

PART #	DESCRIPTION
DS-194655	For 86-99 XL (0,792" wrist pin)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

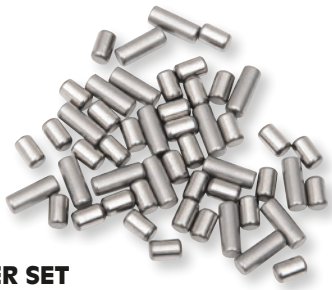
CRANKPIN ASSEMBLY

- For use in stock and S&S flywheels

PART #	DESCRIPTION
0921-0164	For 86-99 XL

ROD ROLLER BEARINGS WITH RETAINERS

- Includes bearings and bearing retainers



PART #	DESCRIPTION
0924-0171	For 86-99 XL; repl. OEM #24354-87A

ROD RACE SET

- Made from 52100 aerospace-quality Timken® bearing stock
- Sold as a set

PART #	DESCRIPTION
DS-194014	For 99 Big Twin (except Twin Cam); repl. OEM #s 24345-36A, 24356-36A

CONNECTING ROD ROLLER SET

- See includes short and long rollers

PART #	DESCRIPTION
0924-0203	+0,0004" for E86 XL; repl. OEM #s 9444A, 9156A

ACORN FRONT BELT DRIVE PULLEY NUT

- Chrome front pulley nut for open primary belt drive applications
- Sold individually

PART #	DESCRIPTION
DS-193813	For 99-06 Twin Cam

WRIST PIN BUSHINGS

- Machined from solid bronze bar stock
- Hold concentricity to less than 0,0002"
- Lead-in edge for easy installation
- Sold in pairs

DS196274

PART #	DESCRIPTION
DS196274	For 99-06 Twin Cam (std.); repl. OEM #24316-99
DS-198825	For 86-22 XL (except RH Sportster); repl. OEM #24331-36

WRIST PIN BUSHING

- Constructed of SAE660 bearing bronze
- Made to exact tolerances and will meet or exceed fitment and wearability of all other OE-style replacement bushings available
- Dimensions: 1,019" OD x 0,925" ID; overall length 1,040"
- Sold each

NOTE: Does not include oil holes. These must be drilled after installation.

PART #	DESCRIPTION
0923-0354	For 05-17 Twin Cam (std.)

WRIST PIN CIRCLIPS

- For use with 0,927" wrist pins
- Sold in pack of 4

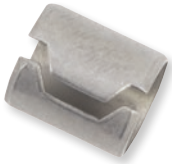
PART #	DESCRIPTION
0910-5262	For 99-17 Big Twin; repl. OEM #22589-83A

CRANKSHAFT BEARING RACE KITS

- Include right and left side crankshaft races with the left side thrust washers
- Press-on races have a precision-ground outer diameter finish and are designed to be true to size, producing the correct OD after proper press on installation
- Pinion race on PART #0921-0938 is undersized to allow service and re-machining of pinion shaft when prior damage occurred such as race spinning on shaft

0921-0787

0921-0938



PART #	DESCRIPTION
STANDARD	
0921-0787	For 17-25 M-Eight engines
0921-0786	For 99-17 Twin Cam "A" engines
0921-0787	For 00-17 Twin Cam "B" engines

PART #	DESCRIPTION
UNDERSIZED	
0921-0938	For 17-25 M-Eight engines
0921-0938	For 00-17 Twin Cam "B" engines

XL CRANKCASE COMPONENTS

- Available as listed

PART #	DESCRIPTION
FOR 86-03 XL AND 94-02 BUELL	
0920-0200	Dowel pin, 0,309" ID x 0,430" OD x 1/2" dowel pin (ea.); repl. OEM #s 24754-75, 24754-75A

RIGHT SIDE CRANKCASE RACE

- Sold each

PART #	DESCRIPTION
0924-0130	For 87-03 XL and Buell (std.); repl. OEM #8881

0924-0108

0924-0270

CRANKCASE MAIN BEARINGS

- High-quality original Timken® bearing assemblies

PART #	DESCRIPTION
0924-0108	For 99-02 Big Twin (set); repl. OEM #9028

PART #	DESCRIPTION
0924-0270	For 86-03 XL (set); repl. OEM #24729-74

0924-0502

RIGHT MAIN BEARINGS

- Replacement right main bearing assemblies for XL crankcases
- Sold each

PART #	DESCRIPTION
FOR 87-03 XL, 94-02 BUELL	
0924-0500	Green; repl. OEM #24660-87
0924-0501	Red; repl. OEM #24650-87
0924-0502	White; repl. OEM #24659-87

INNER MAIN BEARING RACE

- Sold each

PART #	DESCRIPTION
0924-0391	For 03-17 Twin Cam, 00-02 Twin Cam "B" and S&S 3-piece flywheels (right side)

0924-0564

MAIN BEARINGS

- Universal applications, see chart for cross reference

TIMKEN® SPROCKET SHAFT BEARING

- Used as OEM replacement components on 99-02 models and for Timken® bearing conversions on 03-17 Twin Cam

PART #	DESCRIPTION
0924-0388	For 99-17 Twin Cam (left side); repl. OEM #9028

PINION SHAFT BEARING

- Sold each

PART #	DESCRIPTION
0924-0236	For all 00-02 Twin Cam "B" (right side) and all 03-07 Twin Cam (right and left side); repl. OEM #24604-00D

PINION SHAFT BEARING

- OEM or better quality
- Does not include race
- Sold individually

PART #	DESCRIPTION
0924-0592	For 86 XL; repl. OEM #24648-77

PINION SHAFT AND CAMSHAFT BOLT KIT

- Heat-treated 12-point 8740 chromoly steel with a black oxide finish
- Precision engineered rolled threads
- Even load distribution with enhanced under-head flange
- Unmatched strength - surpasses Grade 8 fasteners

PART #	DESCRIPTION
0925-1614	For 18-24 M-Eight, 99-17 Twin Cam

0921-0526

LEFT SIDE SPROCKET SHAFT BEARING KIT

- Kit includes (2) OEM #8972 thrust washers, (1) OEM #24605-07 bearing, (1) OEM #35114-02 retaining ring and (1) bearing race
- Bearing and bearing race available separately

NOTE: PART #0921-0527 bearing race is a replacement only for PART #0921-0526 bearing kit.

PART #	DESCRIPTION
FOR 04-17 TWIN CAM	
0921-0526	Bearing kit; repl. OEM #24004-03B
0921-0527	Repl. bearing race
0925-0928	Repl. bearing; repl. OEM #24605-07

PINION GEAR NUT

- Replacement for stock pinion gear nut

PART #	DESCRIPTION
0932-0148	For 86-87 XL

0924-0268

PINION SHAFT BEARINGS

- Caged bearings
- Same color coding as OEM
- Sold each

PART #	DESCRIPTION
FOR 87-22 XL (EXCEPT RH SPORTSTER)	
0924-0266	Red; repl. OEM #24650-87
0924-0268	White/gray; repl. OEM #24659-87

PINION SHAFT BEARING

- Sold each

PART #	DESCRIPTION
0924-0122	For 99-02 Twin Cam A (right side); repl. OEM #24623-99

PINION SHAFT BEARING INNER RACE

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
0924-0267	For 87-22 XL (except RH Sportster); repl. OEM #24658-87

0950-0325

0950-0326

COUNTERBALANCE SHAFT BEARINGS

- High-quality replacement bearings
- Sold each

PART #	DESCRIPTION
FOR 00-06 TWIN CAM "B" MOTOR	
0950-0325	Left-side; repl. OEM #8989
0950-0326	Right-side; repl. OEM #8991

PISTON KITS

- From Daytona to Bonneville, JE Pistons continues to set the standards in piston design
- JE has recorded wins at Daytona, low ETs on the drag strip and land speed records at Bonneville
- Machined from 2618-T6 high-tensile forged aluminum
- Dome/dish features smooth flowing radii; require no deburring or preparation
- JE designs are specifically engineered for extreme applications including professional competition
- Pins, pin locks and rings included

0903-1551

BLACK EDITION PISTON KITS FOR M-EIGHT

- Features ArmorX™ piston coating for superior protection in extreme conditions and reduced wear
- ArmorFit™ skirt coating auto-adjusts to the cylinder wall so there's no need to measure clearance; provides smooth, quiet, trouble-free operation
- Dome design for improved flame travel to maximize air/fuel burn efficiency
- High compression for added power
- Superfinish piston pin reduces friction and improves scuff resistance
- Enhanced pin oiling for improved lubrication and reduced friction
- Augmented ring land details improve ring seal and function
- Dedicated rings for precise fit, improved compression and oil control
- Fits OEM and Screamin' Eagle cylinder heads
- Kit includes two pistons, rings, piston pins and circlips

DESCRIPTION	PART #
FOR 17-25 M-EIGHT (107")	
3,937" bore x 4,375" stroke, 107 cu. in.; positive dome (+4,2 cc)	**0903-1551**
4,080" bore x 4,375" stroke, 114 cu. in.; positive dome (-2 cc) 11:1 compression	**0903-1552**
4,125" bore x 4,375" stroke, 117 cu. in.; flat top (+4 cc) 11:1 compression	**0903-1553**
4,250" bore x 4,375" stroke, 124 cu. in.; dished (-9 cc) 11:1 compression	**0903-1554**

0903-1558

TRACKER™ SERIES PISTON KITS

- Forged piston crown with generous valve pockets for big valves and cams
- Precision-fit rings selected for each application for ultimate sealing
- Force-fed pin oiling provides enhanced lubrication of the piston pin
- Pressure seal groove reduces ring lifting and power loss
- ArmorGlide® skirt coating reduces friction, providing quieter operation and improving scuff resistance
- Value-packaged with two pistons, rings, piston pins and circlips

DESCRIPTION	PISTON KIT PART #	REPL. RNG SET PART #

WISECO Performance Products

0903-0584

HIGH-PERFORMANCE FORGED PISTON KITS

- Wiseco's high-tech manufacturing ensures greater operating strength and lower expansion at high temperatures
- Kit includes forged pistons with ArmorGlide™ coated skirts, rings, retainer clips, chrome piston pins
- Twin Cam pistons have ArmorPlating which improves ring seal, eliminates ring micro-welding, and improves the piston's ability to defend against detonation damage
- Piston kits are available with X-Ring package (0,062" top ring, 0,062" compression ring and 0,158" oil ring) or VM-rings (1,2 mm steel, positive twist, gas nitrided top ring, 1,2 mm cast iron, taper under-hook scraper ring and 2,0 mm three-piece, flex-vent oil ring with steel chrome-faced rails)
- 103" kits require cylinder boring
- Recalibration required

NOTE: Replacement rings include rings for one piston only.

WARNING: Wiseco pistons that use VM-rings can only be fitted with Wiseco VM-rings; Wiseco pistons that use X-rings can only be fitted with Wiseco X-rings.

REPLACEMENT PISTON KITS

- OEM-quality cast aluminum alloy construction
- Some fitments feature pistons with a coating that extends piston life, reduces friction and allows for cooler running engines
- Ideal for OEM replacement
- Economical with great performance, all in one package
- Available in various compression ratios
- Kits include two pistons, wrist pins and clips
- Accept OEM or Hastings rings (order separately)

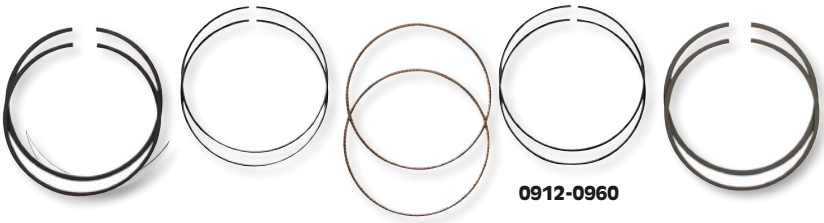
S&S PROVEN PERFORMANCE

PISTON RINGS FOR M-EIGHT

- Complete set of piston rings for M-Eight engines
- Sold in 2-pack

PART #	DESCRIPTION
0912-0923	For use in S&S 124"/128"/131" M-Eight big bore kits (4,250" bore)



DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

HASTINGS Piston Rings

REPLACEMENT PISTON RINGS

- Available in standard and oversize versions
- Feature a PVD top ring
- Napier taper face 2nd ring

NOTE: Each PART # includes enough rings for two pistons.

DESCRIPTION	PART #
FOR 107" M-EIGHT MOTORS	
Standard	**0912-0959**
+0,005	**0912-0960**
+0,010	**0912-0961**

DESCRIPTION	PART #
FOR 114" M-EIGHT MOTORS

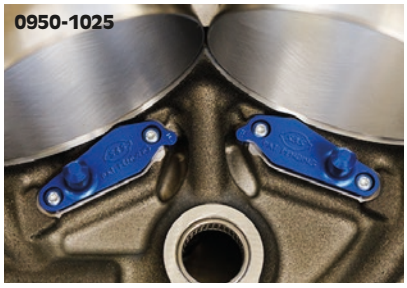
PISTON PIN CLIPS

- Replacement for a wide variety of Harley models
- Quality equals or exceeds OEM specifications
- Sold in 10-pack

Eastern MC Parts



PART #	DESCRIPTION
0913-0016	For 99-17 Twin Cam; repl. OEM #22097-99

PART #	DESCRIPTION
DS-750597	For 86-22 XL (except RH Sportster), XR1200; repl. OEM #s 22589-83/22589-83A/22589-83B

PROVEN S&S PERFORMANCE

DUAL SPRAY PISTON COOLING JET KIT

- Dual Spray technology evenly cools both intake and exhaust sides of pistons
- Revised spray locations for more effective cooling
- Creates a cooler engine with more power and better durability
- Made from billet 6061-T6 aluminum
- Anodized in S&S Performance Blue
- Shortened nozzle for increased rod clearance
- Includes all necessary hardware and gaskets

PART #	DESCRIPTION
0950-1025	For 17-25 M-Eight

PART #	DESCRIPTION
0950-1040	For 99-17 Twin Cam

JIMS Performance Parts for Harley-Davidson Motorcycles

PISTON OILING JET KIT

- Modified to handle upgraded stroker flywheels stroke
- Works with all stock and high-performance flywheel assemblies

PART #	DESCRIPTION
0920-0050	For 99-17 performance H-D and JIMS Twin Cam flywheel assemblies

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

M-EIGHT CYLINDERS

- Bolt-on cylinder set
- Bored slightly under nominal size and are not honed
- For 4,375" stroke motors
- Wrinkle black finish without highlighted cylinder fins
- Sold in pairs

0931-1201

FOR 17-25 M-EIGHT (EXCEPT CVO 121")

PART #	DESCRIPTION
4,25" BORE	
0931-1199	Black granite finish w/ highlighted cylinder fins
0931-1201	Wrinkle black finish w/ highlighted cylinder fins
0931-1200	Wrinkle black finish w/o highlighted cylinder fins

PART #	DESCRIPTION
4,320" BORE	
0931-1210	Black granite finish w/ highlighted cylinder fins
0931-1212	Wrinkle black finish w/ highlighted cylinder fins
0931-1211	Wrinkle black finish w/o highlighted cylinder fins

REPLACEMENT CYLINDERS FOR M-EIGHT

- OEM black texture powdercoat with highlighted fins
- Excellent for stock replacement
- Cylinders are finished slightly undersized so they may be finish-honed to fit your pistons
- Sold in pairs

PART #	DESCRIPTION
0931-0823	For 17-24 M-Eight motors (4,25" bore, 4,375" stroke; 124" and 128" applications)

4 1/8" BORE CYLINDERS FOR TWIN CAM

- Cylinders have a stock bolt pattern
- Bored slightly under nominal size and are not honed
- Wrinkle black finish with machined edges
- Sold in pairs

NOTE: Require crankcase machining.

0903-1294

PART #	DESCRIPTION
0931-0687	For 07-17 Twin Cam w/ 124" Hot Set Up kits

PART #	DESCRIPTION
0903-1294	For 99-06 Twin Cam w/ 124" Hot Set Up kits

REPLACEMENT CYLINDERS FOR TWIN CAM

- OEM black texture powdercoat with highlighted fins
- Excellent for stock replacement
- Cylinders are finished slightly undersized so they may be finish-honed to fit your pistons
- Sold each

0931-0710

PART #	DESCRIPTION
0931-0710	For 99-17 Twin Cam motors (3,75" bore; 88" and 96" applications); repl. OEM #s 16526-99/17458-07
0931-0822	For 99-17 Twin Cam motors (3,875" bore; 103" applications)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

REPLACEMENT CYLINDERS FOR XL EVOLUTION-STYLE MOTORS

- Replacement cylinder features ductile cast-iron sleeves in aluminum castings
- Sleeve has external ribs that "lock" the sleeve to the aluminum casting so it cannot move
- Excellent for stock replacement
- Cylinder is finished slightly undersized so they may be finish-honed to fit your pistons
- Available for all 1200 XL models
- 1200 XL cylinder makes increasing the displacement of an 883 a snap
- Sold each

0931-0018

DS-750506

PART #	DESCRIPTION
FOR 88-03 XL1200; REPL. OEM #16447-88	
0931-0018	Black w/ highlighted fins

0930-0063

SUPER STOCK® CYLINDER HEADS FOR TWIN CAM

- High port flow gives great performance now, and more later when additional upgrades are done
- Heads are fully assembled with springs and valves, and are available in silver or wrinkle black powdercoat
- Compression ratios vary depending on cylinder heads chosen, pistons used and engine displacement; see Compression Ratios chart for specifications
- 79 cc heads work great with stock motors for 88" to 103" motors; 89 cc heads work best for motors over 103" or with high-compression pop-up pistons
- 79 cc have 1,940" intake and 1,575" exhaust valve and springs for up to 0,650" lift (unless noted); 89 cc/91 cc have 2,000" intake and 1,605" exhaust and 0,650" springs

PART #	DESCRIPTION
FOR 06-17 TWIN CAM (EXCEPT 14-16 FLHTK/FLHTKL/FLHTCUTG TWIN-COOLED MOTORS)	
0930-0063[1]	79 cc; silver powdercoat
0930-0064[1]	79 cc; wrinkle black powdercoat
0930-0065[1]	89 cc; silver powdercoat
0930-0066[1]	89 cc; wrinkle black powdercoat
0903-1292[1, 3]	91 cc; wrinkle black powdercoat

0930-0006

- Heads are machined for compression releases unless noted (sold separately)
- Do not include rocker arm components, intake manifold or gaskets
- Heads include four long headbolts, and reuse four long OEM headbolts
- Accept OEM intake manifolds
- Sold in pairs

NOTE: Must use S&S rocker boxes (PART #90-4110) if S&S compression releases are used.

PART #	DESCRIPTION
FOR 99-05 TWIN CAM	
0930-0062	79 cc; silver powdercoat
0930-0139[1, 2, 3]	79 cc; wrinkle black powdercoat
0930-0058	79 cc; wrinkle black powdercoat
0930-0006	89 cc; wrinkle black powdercoat

[1] Not for models with OEM compression releases.
[2] 0,585" lift.
[3] Not machined for compression releases.

CYLINDER DOWELS

- CNC-machined dowels used for locating cylinder head
- Black oxide coated for corrosion resistance
- Improved tolerances over OEM dowels
- Sold as a 4-pack

2401-1053

DS-199772

PART #	DESCRIPTION
2401-1053[1]	For 17-24 M-Eight; repl. OEM #16589-99A
2401-0579	For 99-07 88" Twin Cam and 05-17 96" and 103"/110" Twin Cam; repl. OEM #16595-99/16595-99A
DS-199772	For 86-22 XL/XR1200; repl. OEM #16573-83/16573-83A

[1] Also used in Twin Cam cam chest.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

ELECTRONIC COMPRESSION RELEASE KIT

- For S&S heads that accept compression releases
- Electric compression releases open when you press the start button and close when the button is released
- Kit includes the required parts for installation
- Not for use on OEM heads

PART #	DESCRIPTION
2009-9080	Electric compression release kit for 99-17 Twin Cam w/ S&S cylinder heads/rocker covers
2009-9082	Compression release hole plugs (ea.)

PART #	DESCRIPTION
0930-0137	Compression release caps (ea.)
0930-0135	Repl. electric compression release unit
0930-0041	Repl. silicone solenoid caps (pr.)

MANUAL COMPRESSION RELEASE VALVES

- Give your starter a hand by installing these in your high-compression, big-inch motor
- Simply drill and tap (10 mm x 1 mm) each cylinder head and thread in the self-sealing release valves (thread tap PART #DS-196409 available separately)
- Sold in pairs

PART #	DESCRIPTION
DS-196400	Compression release valves for all Big Twin, XL and Buell motors

COMPRESSION RELEASE VALVES

- State-of-the-art design to help reduce hot start issues and starter/battery loads
- Have 5-7 Newtons of closing force resistance
- Custom molded knobs ensure they stay cool to the touch and are easy to operate
- Require an M10 x 1,00 threaded hole for installation
- Sold in pairs

PART #	DESCRIPTION
0950-0887	M10 x 1,00 threads, 35,5 mm (1,400") overall length
0950-0888	M10 x 1,00 threads, 44 mm (1,730") overall length
0950-0889	M10 x 1,00 threads, 44,5 mm (1,750") overall length

COMPRESSION RELEASE ADAPTERS

- Designed to be used in twin plug heads
- Accept 0,650"/10 mm x 1,0 compression release valves
- Sold each

PART #	DESCRIPTION
0950-0082	12 mm x 3/4" reach
0950-0080	14 mm x 3/4" reach

COMPRESSION RELEASE CAPS

- Chrome cap covers the plain plastic end on many aftermarket compression releases
- Billet aluminum construction
- Install with silicone adhesive (not included)
- Sold in pairs

PART #	DESCRIPTION
0950-0101	Compression release caps

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

SPECIAL SHOULDERED C630 BRONZE VALVE GUIDES

FOR 17-24 M-EIGHT

- Feature positive stop for easy installation and the best performance
- 1,655" overall length
- Use OEM-style valve guide seals (sold separately)
- Sold each

DESCRIPTION	INTAKE	EXHAUST	GUIDE OD	GUIDE ID IN	GUIDE ID EX
Std.	**0926-2955**	**0926-2961**	0,4750"	0,2347"	0,2342"
+0,001"	**-**	**0926-2963**	0,4750"	0,2347"	0,2342"

FOR 99-04 TWIN CAM AND 86-03 XL

- Precision-machined from nickel bronze
- Nickel content of 5% produces superior resistance to wear and approximately 80% copper content delivers outstanding heat conductivity
- Compatible with no-lead fuel and accept any type of valve-stem material
- Overall length of both intake and exhaust is 2,10"
- Accept special valve guide seals (sold separately)
- Sold each

0926-0320

SIZE	INTAKE	EXHAUST	GUIDE OD	GUIDE ID IN	GUIDE ID EX

MANGANESE BRONZE VALVE GUIDES

- Precision-machined guides
- Excellent heat conductivity which promotes long valve life
- Guides can be easily reamed with a battery-operated or electric drill and finished with a high-quality ball hone
- Eliminates the need for expensive honing equipment that would be required for nickel bronze valve guides
- Machined to accept OEM and aftermarket seals

0926-2292

FOR 05-17 88"/96"/103" TWIN CAM AND 04-22 XL (EXCEPT RH SPORTSTER) OEM-STYLE GUIDES

- Feature a tapered nose design for maximum bearing surface and minimal port obstruction
- Accept up to 0,600" lift cams
- Accept OEM top hat valve seals (sold separately)
- Accept OEM lower collar

Kibblewhite Precision Machining

0926-3027

0926-0327

PREMIUM VALVE SEALS

- Solid Viton® and solid PTFE seals utilize choker spring and lower tension spring to maintain optimal seal under high heat/stress conditions
- For use with stock intake and exhaust valve guides, except where noted
- Sold in 4 pk. or 8 pk.

PART #	DESCRIPTION
VITON® SEALS	
0926-2971	For 17-24 M-Eight (4 pk.)
0926-3027	For 17-24 M-Eight (8 pk.)
0935-1187	For 05-17 88"/96"/103" Twin Cam and 04-22 XL (except RH Sportster) (4 pk.) (7 mm stem dia. and 0,560" guides)
VITON® SEALS (CONT)	
0926-3204	For 99-04 Twin Cam, 86-03 XL (for use with 0,420" guides) (4 pk.)
PTFE SEALS	
0926-0327	For 99-04 Twin Cam, 86-03 XL, 95-02 Buell (4 pk.); repl. OEM #18001-83B

VALVE GUIDE SEALS

- Seals sold in 4 pk.
- Stem diameter $^{5}/_{16}$"; guide OD 0,420"

PART #	DESCRIPTION
0926-2041	For 99-04 Twin Cam, 86-03 XL

0926-3351

HIGH CHROME VALVE SEATS

- Seats contain 18 to 22% chromium for resistance to abrasion, corrosion and deformation
- Nickel content of 1 to 2% for added corrosion resistance and toughness
- Machined from solid bar stock and ground to exact tolerances
- Machines as a continuous chip
- Ideal alternative to powder metal valve seats
- Sold each

PART #	DESCRIPTION	OD	ID	THICKNESS

IRON-BASED POWDERED METAL VALVE SEATS

- Tests have proven that the machinability, wear and thermal conductivity surpasses all standards
- Compatible with all fuel blends
- Sold each

NOTE: Not for 110" Big Twin engines.

0926-0322

FAT STEM BLACK DIAMOND™ EXHAUST VALVE

- Some Twin Cam heads using 7,0 mm valves may crack in the port end of the valve guide boss
- These valves have 0,005" oversize stems to re-establish the correct valve stem to valve guide clearance if the head has cracked
- Valve guides must be reamed/honed to set correct clearance, then a valve job performed to ensure proper sealing
- Oversize portion of the valve stem does not extend into the keeper groove area; OEM valve keepers can be used

BLACK DIAMOND™ ENGINE VALVE KITS

- Kits include KPMI® or equivalent valve spring kit, a full set of Black Diamond™ stainless steel standard size valves, H.T. Steel valve keepers and valve stem seals (where applicable) for engine applications listed
- All Black Diamond valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kits for one engine

Kibblewhite Precision Machining

NITRIDED VALVES

- One-piece stainless steel, stellite-tipped valves impregnated by a special nitrided process with 0,002" depth and 0,0002" surface buildup to improve wear properties and reduce friction
- This process provides resistance to corrosion; wears superior to hard chromium and electrolysis nickel-plating
- Lightweight with profiles that provide excellent flow characteristics
- Compatible with leaded and unleaded fuels and can be run in cast iron- and bronze-type guides at close tolerances for maximum oil control and heat dissipation
- Sold each

PROVEN S&S PERFORMANCE

SIDEWINDER® 0,605" VALVE SPRING KIT

- Include springs, keepers, top collars, bottom collars and seals
- High-performance conical single wire valve springs
- For valve lift to 0,605" with 1,535"/68 lbs installed height, 264 lbs at max lift
- Max 6500 rpm

PART #	DESCRIPTION
0926-2972	For 17-25 M-Eight

0926-2056

PROVEN S&S PERFORMANCE

SIDEWINDER® 0,650" VALVE SPRING KITS

- Includes springs, upper and lower collars and keys
- For valve lift to 0,650" with 1,860"/178 lbs installed height, 376 lbs at max lift
- Max 6500 rpm

PART #	DESCRIPTION
0926-2069	For 05-17 88"/96"/103" Twin Cam
0926-2056	For 99-04 Twin Cam, 86-03 XL

0926-2723

0926-2722

PROVEN S&S PERFORMANCE

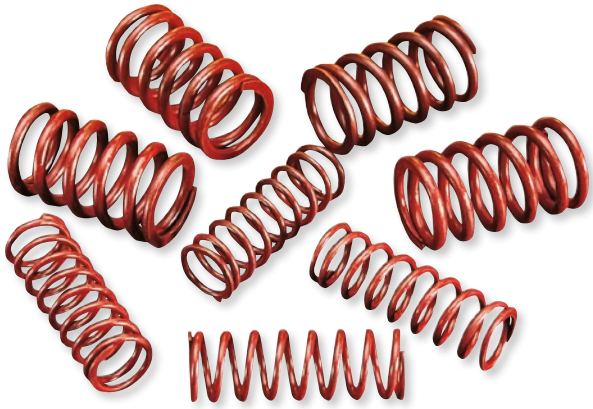
0,585" VALVE SPRING KITS

- Unique S&S design dual-spring kit reduces the risk of valve float
- For valve lift to 0,585" with 1,800"/130 lbs installed height, 325 lbs at max lift
- Includes springs, top and bottom collars, keeper shims and valve seals

PART #	DESCRIPTION
0926-2723	For 05-17 Twin Cam

PART #	DESCRIPTION
0926-2722	For 99-04 Twin Cam

PART #	DESCRIPTION
0926-2814	For S&S Super Stock Heads



JIMS
Performance Parts for Harley-Davidson Motorcycles

VALVE SPRING KIT

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring kits are 1,460" OD and have a pressure of 160 lbs when closed and 440 lbs at 0,500" lift; installed height should be 1,850"; coil bind is at 1,200"
- Kit includes locks, retainers and spring seats

PART #	DESCRIPTION
DS-199523	For 99-04 Twin Cam

ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Accommodates cam lifts of 0,550"+
- Installation does not require machining of heads
- Kit includes four inner and four outer springs
- For use with titanium upper spring collars
- Collars sold separately

PART #	DESCRIPTION
DS-199739	For 99-04 Twin Cam and 86-03 XL Evolution

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

FEULING BEEHIVE VALVE SPRINGS

ENDURANCE BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS

0926-2973

0926-1466

- Feuling® BeeHive® Endurance springs are direct bolt-in replacements, no machining or rocker box clearancing required
- M-Eight: up to 0,565" cam lift
- Twin Cam: up to 0,650" cam lift
- Machined from premium-grade hi-tensile chrome silicon single-conical ovate wire
- Shot-peened with specially processed thermal heat treat and super NexTex® finish for fatigue life needed to exceed high demands of V-Twin engines
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Available for 5/16", 7 mm and 6 mm valves
- Kits include: Endurance BeeHive valve springs, optional lightweight Titanium retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- M-Eight specs: seat lbs/ installed height; 134 lbs at 1,375" (0,405" lift),127 lbs at 1,405" (0,435" lift), 125 lbs at 1,415" (0,445" lift), 121 lbs at 1,435" (0,465" lift), 116 lbs at 1,455" (0,485" lift), 113 lbs at 1,470" (0,500" lift),109 lbs at 1,490" (0,520" lift), 103 lbs at 1,520" (0,550" lift), 226 lbs at 0,970" (open height), coil bind at 0,920"
- Twin Cam specs: seat lbs/ installed height; 198 lbs at 1,685" (0,535" lift),194 lbs at 1,703" (0,553" lift), 190 lbs at 1,724" (0,574" lift), 187 lbs at 1,754" (0,604" lift), 185 lbs at 1,780" (0,630" lift), 160 lbs at 1,800" (0,650" lift),375 lbs at 1,150" (open height) coil bind at 1,100"
- Feuling BeeHive valve springs must be installed at the correct open height, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 98-04 Big Twin and 86-03 XL and up to 0,650" lift for 05-17 Twin Cam. Larger camshafts require valve guide machining for seal to retainer clearance.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0926-2973	Standard, 6 mm valve stem (uses factory retainers)
0926-2974	Standard, 6 mm valve stem (includes titanium retainers)
FOR 05-17 88"/96"/103" TWIN CAM, 04-22 XL, 09-12 XR1200 (EXCEPT RH SPORTSTER)	
0926-0852	7°, 7 mm valve stem w/ stock triple keeper groove
FOR 99-04 TWIN CAM, 86-03 XL	
0926-0851	7°, standard 5/16" valve stem and keeper groove
FOR TWIN CAM SCREAMIN' EAGLE HEADS	
0926-1466	5/16" valve stem and keeper groove and 0,530" diameter valve guides

HIGH-LOAD BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS FOR M-EIGHT

- M-Eight High-Load springs are machined from a premium-grade hi-tensile chrome silicon single conical ovate wire, shot-peened with a specially processed thermal heat treat and super NexTex® finish to give these valve springs the needed fatigue life to exceed the high demands of V-Twin engines from stock to performance
- Valve springs are recommended for 0,530"+ lift camshafts
- Direct bolt-in replacement, no spring seat or rocker cover machining required up to 0,592" lift
- Springs will accommodate over 0,600" cam lift, but will require spring seat pocket machining on the cylinder heads to set correct spring open height
- Smaller lighter weight retainers which drastically reduce the valve weight creating a quicker revving and smoother motion than comparable dual or single valve springs
- Eliminate valve spring separation, maximize stability, reduce valve-train noise and harmonics
- Packaged as a matched set and must be installed at the correct OPEN HEIGHT
- Matching max cam lift to the open height spec of the valve springs is essential for optimal valve-train operation and spring life (see included spring spec chart)
- Kit includes: matched set of Feuling® High-Load BeeHive® valve springs, Titanium retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with a spring-loaded valve stem wiper system
- M-Eight specs: seat lbs/installed height; 151 lbs at 1,475" (0,485" lift), 144 lbs at 1,498" (0,508" lift), 143 lbs at 1,501" (0,511" lift), 140 lbs at 1,511" (0,521" lift), 124 lbs at 1,562" (0,578" lift), 120 lbs at 1,582" (0,592" lift), 304 lbs at 0,990" open height, coil bind at 0,945" (cam specs measured on the lifter at 0,050" lift with 1,61 rocker arm ratio)

NOTE: These springs are ONLY recommended for large lift camshafts like Reaper® 592 Cam PART #0925-1265 and RACE style engines as these valve springs have increased load and if used on smaller cams will create extreme rocker arm deflection.

NOTE: Valve seat cutter and pilot may be needed to achieve correct valve spring installed height on large lift camshafts (PART #s 3801-0364 and 3801-0365).

PART #	DESCRIPTION
0926-3138	For 17-25 M-Eight w/ factory style 6 mm valve stems and triple groove

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING FEULING BEEHIVE VALVE SPRINGS

HIGH-LOAD BEEHIVE® VALVE SPRINGS WITH TITANIUM RETAINERS

- Made from premium stress-relieved conical ovate wire with nitrided surface heat treatment, shot-peened surface enhancements and Nano Peen™ polish
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the highest demands of performance engines with high-lift, steep-ramped camshafts
- Allow up to 0,750" lift cams; no rocker box clearancing required
- Available for 5/16" and 7 mm valves
- Kits include: High-Load BeeHive® valve springs, lightweight 10° Titanium retainers manufactured from Ti-17 alloy and micropolished for enhanced fatigue life, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lbs./installed height; 217 lbs at 1,789" (0,574" lift), 215 lbs at 1,800" (0,585" lift), 208 lbs at 1,819" (0,604" lift), 200 lbs at 1,845" (0,630" lift), 185 lbs at 1,900" (0,685" lift), 170 lbs at 1,935" (0,720" lift), 415 lbs at 1,215" (open height) coil bind at 1,125"
- Dyno proven and track tested
- Feuling® BeeHive valve springs must be installed at the correct open height, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 99-04 Big Twin and 86-03 XL and up to 0,700" lift for 05-17 Twin Cam. Larger camshafts require valve guide machining for seal-to-retainer clearance.

PART #	DESCRIPTION

ECONO BEEHIVE® VALVE SPRING KITS

- Made from premium stress-relieved conical ovate wire
- Feature extremely high-level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the demands of performance engines with 0,585" and smaller lift camshafts
- Available for 5/16" and 7 mm valves
- PART #s 0926-1467 and 0926-1468 include Econo BeeHive® valve springs, lightweight 7° steel retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- PART #0926-3322 include Econo BeeHive valve springs, lightweight 7° Ti retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton valve seals equipped with spring-loaded valve stem wiper system
- Seat lbs/installed height; 183 lbs at 1,760" (0,510" lift), 175 lbs at 1,785" (0,535" lift), 172 lbs at 1,803" (0,553" lift), 165 lbs at 1,825" (0,574" lift), 163 lbs at 1,835" (0,585" lift), 380 lbs at 1,250" OPEN HEIGHT coil bind at 1,180"
- Dyno proven and track tested
- Feuling® BeeHive valve springs must be installed at the correct (open height), matching max lift to the open height spec of the valve springs

NOTE: Econo BeeHive® kits are direct replacement with no machining or rocker box clearance required for cams up to 0,574" lift for 99-04 Big Twin and 86-03 XL and up to 0,585" lift for 05-17 Twin Cam.

PART #	DESCRIPTION
FOR 05-17 88"/96"/103" TWIN CAM, 04-22 XL (EXCEPT RH SPORTSTER), 09-12 XR 1200	
0926-1468	7°, 7 mm valve stem w/ stock triple keeper groove (includes steel retainers)

PART #	DESCRIPTION
FOR 99-04 TWIN CAM, 86-03 XL	
0926-1467	7°, 5/16" valve stem w/ stock keeper groove (includes steel retainers)
0926-3322	7°, 5/16" valve stem w/ stock keeper groove (includes titanium retainers)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

HIGH-PERFORMANCE OVATE WIRE BEEHIVE VALVE SPRING KITS

- Progressively wound springs using Kobe super-clean, chrome silicon-based wire that is heat-treated and shot peened
- Tight-tolerance, FEA-designed hardened steel Posi-Loc™ style upper retainers or titanium retainers to ensure correct assembly height and resist keeper "pull through"
- Hardened H.T. steel basewashers control lateral movement
- Kits use OEM-style valve keys (sold separately)
- PART #s 0926-3000 and 0926-3002 come with special valve guide seals

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0926-3277[2]	0,625" lift (seat pressure 85 lbs)
0926-3457	0,640" lift (seat pressure 83 lbs)
0926-3458	0,640 lift (seat pressure 83 lbs)

0926-3002

PART #	DESCRIPTION
FOR 05-17 TWIN CAM, 04-22 XL (EXCEPT RH SPORTSTER), 09-12 XR1200	
0926-3000	0,610" lift (seat pressure 175 lbs.)
0926-3002	0,660" lift (seat pressure 178 lbs)
FOR 99-04 TWIN CAM, 86-03 XL, 95-02 BUELL	
0926-3001	0,660" lift (seat pressure 178 lbs)

[1] Titanium valve retainers.
[2] H.T. steel valve retainers.

RACING VALVE SPRING KITS

- Feature interference-wound, double-chrome silicone springs and H.T. steel base washers
- Available in a complete set for one engine
- Include springs, H.T. steel keepers and H.T. steel or titanium spring retainers

NOTE: PART #0926-0184 includes two sets of base washers to accommodate both stock exhaust guide styles; includes valve seals.

PART #	DESCRIPTION
FOR 05-17 88"/96"/103" TWIN CAM, 04-22 XL (EXCEPT RH SPORTSTER) 09-12 XR1200	
0926-0184	0,600" lift (seat pressure 160 lbs) (steel spring retainers)
0926-3347	0,650" lift (seat pressure 185 lbs) (steel spring retainers)
0926-3349	0,650" lift (seat pressure 185 lbs) (titanium spring retainers)
0926-3348	0,675" lift (seat pressure 185 lbs) (steel spring retainers)
0926-3350	0,675" lift (seat pressure 185 lbs) (titanium spring retainers)

0926-0184

PART #	DESCRIPTION
FOR 99-04 TWIN CAM, 86-03 XL, 95-02 BUELL	
0926-0802	0,600" lift (seat pressure 163 lbs) (steel spring retainers)
0926-3167	0,650" lift (seat pressure 185 lbs) (steel spring retainers)
0926-2935	0,655" lift (seat pressure 185 lbs) (titanium spring retainers)
0926-2936	0,655" lift (seat pressure 185 lbs) (steel spring retainers)

VALVE SHIM CONVERSION KIT WITH RACING VALVE SPRINGS

- Conversion kit uses Kibblewhite racing springs combined with a lightweight valve spring retainer that houses a standard 9,5 mm hardened steel shim
- Rocker arm rides directly on the 9,5 mm shim surface, allowing for a significantly greater rocker arm swipe surface area
- Increased rocker arm surface contact area allows the ability to run higher lift cams than previously could not be used with valves having a 6 mm valve stem
- Rocker shim thickness can be varied by changing shim size to adjust the effect valve stem protrusion height
- Increase in valve stem protrusion height with this kit is approximately 0,100"
- Feature interference-wound, double-chrome silicone springs

NOTE: To maximize shim contact in the retainer, Kibblewhite strongly recommends tipping (shortening the valve tip).

NOTE: Kibblewhite strongly recommends the use of titanium valves with this kit.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0926-3420	0,630" lift (seat pressure 101 lbs) (titanium spring retainers)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

0926-1171

FEULING

VALVE LOCK KEYS

- A selection of high-quality machined valve locks available in stock replacement, offset or triple-groove
- Offset locks raise retainer to gain 0,050" installed height
- Titanium locks are offset 10°

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0926-2976	Steel valve locks standard height for 6 mm valve stems; repl. OEM #18100060
FOR 05-17 88"/96"/103" TWIN CAM , 04-22 XL (EXCEPT RH SPORTSTER) (7 MM VALVE STEMS)	
0926-1171	Steel valve locks standard height for 7 mm valve stems; repl. OEM #18260-02
FOR 99-04 TWIN CAM, 86-03 XL (5/16" VALVE STEMS)	
0926-3368	Steel valve locks standard height groove 5/16" valve stems, 7° w/ square groove; repl. OEM #18229-83
0926-1170	Offset 10° for 5/16" valve stems; raise valve spring retainer to gain 0,050" of valve spring installed height (also fits Feuling® High Load BeeHive® valve springs)

JIMS
Performance Parts for Harley-Davidson Motorcycles

VALVE LOCK KEYS

- Made from the highest-grade materials and heat-treated to JIMS strict standards
- Feature a 10° lock angle
- Work well with JIMS titanium valve spring retainers
- Sold in 8-pack

PART #	DESCRIPTION
DS-199555	For 99-04 Twin Cam and 86-03 XL that use a 10 ° lock angle and 5/16" valve stems

Kibblewhite Precision Machining

VALVE KEYS

- Standard valve keys made of steel
- Sold in 8-pack

PART #	TYPE
FOR 99-04 TWIN CAM, 86-03 XL	
0926-0777	Standard; repl. OEM #18229-83

ANDREWS

VALVE SPRING UPPER COLLARS

- Provide 0,050" more spring travel than stock
- Stronger and lighter than stock
- Use stock keepers
- Sold as set of four

PART #	DESCRIPTION
0926-1439	For 99-04 Twin Cam, 86-03 XL

FEULING

VALVE SPRING SEAT SHIMS

- Set valve spring open height to match camshaft lifts for optimum valve-train stability and performance
- PART #0930-0155 includes eight 0,060" thick shims, eight 0,030" thick shims and eight 0,015" thick shims with 1,200" OD and 0,570" ID
- PART #0930-0237 includes four 0,060" thick shims and four 0,015" thick shims with 1,500" OD and 0,645" ID

PART #	DESCRIPTION
0930-0155	For 17-25 M-Eight

PART #	DESCRIPTION
0930-0237	For 99-17 Twin Cam, 86-17 XL

0930-0237

PROVEN S&S PERFORMANCE

VALVE SPRING SHIM

- 0,574" id x 1,450" OD x 0,030" thick
- Black, steel construction
- Sold each

PART #	DESCRIPTION
0930-0138	For 99-17 Twin Cam (0.030" valve spring shim)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

TOP END GUARDIAN KIT

- Everything needed to strengthen the top end of your M-Eight engine
- Rocker arm shafts are more durable than the stock arms
- Roller rocker arms relieve additional stress caused by high-lift camshafts running and high rpms
- Rocker arm stud kit extends the life of your cylinder heads by preventing damage to the rocker arm towers
- Head bolt kit is made of 8640 heat-treated steel with 200.000 psi tensile strength
- Cold-rolled threads and formed washer make these head bolts durable and reusable
- Sold as a kit; includes S&S rocker arm stud kit, S&S rocker arm shafts (set of 4; repl. OEM #17300059B), S&S forged steel rocker arms (set of 4; repl, OEM #s 17300053 and 17300055) and S&S head bolt kit (eight 12-point black oxide-coated head bolts)

PART #	DESCRIPTION
0927-0042	For 17-25 M-Eight

0927-0038

0927-0039

FORGED ROLLER ROCKER ARMS FOR M-EIGHT

- Designed using Finite Element Analysis (FEA) and forged from 8620 steel for strength
- Eliminate thrusting on valves for decreased wear on the valve train
- Rocker geometry is better suited to high-lift camshafts
- Bushings are 50% longer than stock, increasing the time between rebuilds
- Oil is sprayed directly on the valve springs, reducing the potential for valves breaking due to overheating
- Compatible with stock or S&S CNC-machined heads
- 1,640 ratio
- Capable of 0,650" max valve lift
- Serviceable and rebuildable
- Must-have when using cams with 0,550" or greater lift

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0927-0038	Forged roller rocker arms (set of 4)

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (CONT)	
0927-0039	Rebuild kit

0927-0015

0927-0001

FORGED ROLLER ROCKER ARMS

- Forged from 8620 steel, heat-treated then shot-peened for additional strength and durability
- Rocker arms have 0,75" long bushings instead of the 0,50" long bushings found on most other rocker arms
- Feature a modified lubrication system with unrestricted roller oiling
- Must be used with adjustable pushrods; sold separately
- Recommended that new rocker shafts be used when installing roller rocker arms; available separately

PART #	DESCRIPTION
FOR 99-17 TWIN CAM (EXCEPT 17 DRESSER), 86-22 XL (EXCEPT RH SPORTSTER), 09-12 XR1200, 94-09 BUELL (EXCEPT 1125R)	
0927-0015	Stock 1,625 rocker ratio
0927-0028	1,725 rocker ratio
0927-0001	Roller rocker rebuild kit

0927-0014

0927-0033

FORGED STANDARD ROCKER ARMS

- An economical solution for stock rebuilds, and mild performance upgrades
- Forged from 8620 steel for greater strength than stock or cast steel
- Feature the same 0,750" long rocker shaft bushings as S&S Roller Rockers: longer bushing provides 50% more load bearing area; eliminates the risk of engine damage associated with failed needle bearings
- Valve contact tips are induction hardened for extended durability
- Recommended for cams of 0,585" lift or less
- Sold in set of four (two each of front and rear arms) or in pairs (one set of front or rear arms)

PART #	DESCRIPTION
FOR 99-17 TWIN CAM AND 86-22 XL (EXCEPT RH SPORTSTER), 09-12 XR1200 AND 94-09 BUELL (EXCEPT 1125R)	
0927-0014	Set of four
0927-0032	Front exhaust/rear intake (pr.)
0927-0033	Rear exhaust/front intake (pr.)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

JIMS
Performance Parts for Harley-Davidson Motorcycles

ROLLER ROCKER ARMS

- The lightest rocker arm available, but still has superior strength characteristics due to its design
- The strength of 660 bronze bushings and bearing-grade steel for the roller tip
- Extensively tested under extreme conditions to ensure durability in your engine
- Will accept cams with up to 0,700" lift at a ratio of 1,625 (stock)
- Sold as a set of four

NOTE: Twin Cam rocker boxes may need to be clearanced.

PART #	DESCRIPTION
DS-193850	For 99-17 Twin Cam (except 17 Dresser), 86-22 XL (except RH Sportster), 09-12 XR1200 and 94-09 Buell (except 1125R); repl. OEM #s 17360-83, 17375-83

DRAG Specialties

REPLACEMENT ROCKER ARMS WITH BUSHINGS

- OEM-style rocker arms
- Sold each

PART #	DESCRIPTION
FOR 99-17 TWIN CAM (EXCEPT 17 DRESSER), 86-22 XL (EXCEPT RH SPORTSTER), 09-12 XR1200 AND 94-09 BUELL (EXCEPT 1125R)	
DS-193833	Front intake/rear exhaust
DS-193834	Front exhaust/rear intake

FEULING

ROCKER SHAFT KITS

- Designed with strength in mind
- Over double the strength of factory rocker shafts
- For M-Eight Rocker shafts and stud/nut kits custom tooling was created to provide a countersink relief for the bolt/nut head versus machining away the entire end of the shaft per the factory design
- Precision ground from 4140HT steel
- Gas nitrated and final surface treated
- Kits include the shafts and ARP bolts or shafts only
- Recommended for engines running higher lift camshafts and heavier valve spring pressures

PART #	DESCRIPTION
FOR 17-25 M-EIGHT TOURING, 18-25 SOFTAIL	
2401-1525	Rocker shafts and stud/nut kit (includes four shafts, eight studs and eight nuts)
2401-1524	Rocker shafts (includes four shafts only)
FOR 01-16 TOURING, 02-17 SOFTAIL, 01-17 DYNA, 01-22 XL (EXCEPT RH SPORTSTER)	
0927-0045	Rocker shafts and bolts kit (includes four shafts and eight nuts $^{5}/_{16}$"-18 x 2 $^{1}/_{2}$" bolts)
0927-0043	Rocker shafts (includes four shafts only)
FOR 99-00 TOURING, 00-01 SOFTAIL, 99-00 DYNA, 86-00 XL	
0927-0044	Rocker shafts and bolts kit (includes four shafts and eight nuts $^{5}/_{16}$"-18 x 2 $^{3}/_{4}$" bolts)
0927-0043	Rocker shafts (includes four shafts only)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

JIMS Performance Parts For Harley-Davidson Motorcycles

ROCKER ARM SHAFT KIT

- Shafts are precision-machined from a low alloy nickel, chromium, molybdenum case-hardened steel
- Hardware flats on the end of the shafts are held to a 0,0005" parallel tolerance, assuring the rocker is seated in the correct position with the pushrod cup and valve stem tip

PART #	DESCRIPTION
0927-0035	For 17-23 M-Eight; repl. OEM #17300059A

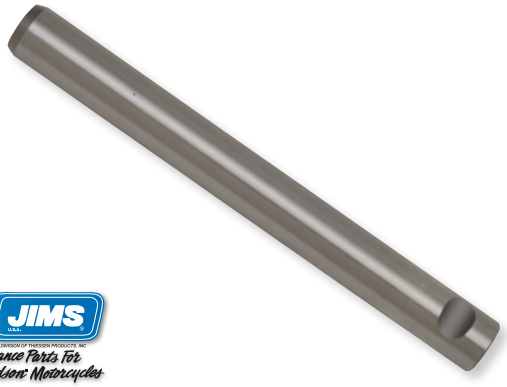
PROVEN S&S PERFORMANCE

ROCKER ARM SHAFTS

- Made from bearing-quality steel and precision-centerless ground for the perfect fit
- Stronger than stock to resist issues from radical cam profiles
- Sold in a set of four

NOTE: S&S recommends installing rocker stud kit PART #2401-1139 (sold separately) with these rocker arm shafts.

PART #	DESCRIPTION
0927-0041	For 17-23 M-Eight; repl. OEM #17300059A



PROVEN S&S PERFORMANCE

ROCKER ARM SHAFTS

- Sold in a set of four

PART #	DESCRIPTION
90-4036	For 99-17 Twin Cam, 86-22 XL (except RH Sportster); repl. OEM #17611-83

JIMS Performance Parts For Harley-Davidson Motorcycles

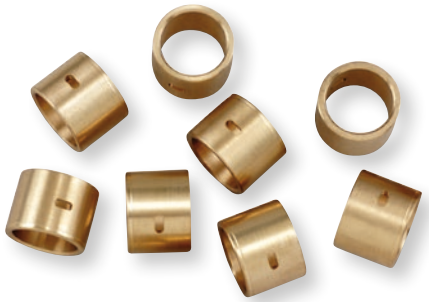
ROCKER ARM SHAFT

- Sold each

PART #	DESCRIPTION
DS-193820	For 99-17 Twin Cam, 86-22 XL (except RH Sportster) and 94-09 Buell (except 1125R); repl. OEM #17611-83

PROVEN S&S PERFORMANCE

ROCKER ARM BUSHING



- Replacement bushing for S&S roller rocker arms
- Sold each

PART #	DESCRIPTION
0927-0030	For S&S standard and roller rocker arms

JIMS Performance Parts For Harley-Davidson Motorcycles

ROCKER ARM BUSHINGS

- Manufactured from solid billet bearing bronze bar stock
- ID 0,547"
- Sold in packs of eight
- Ream to fit

PART #	DESCRIPTION
DS-193821	For 99-17 Twin Cam, 86-22 XL (except RH Sportster); repl. OEM #17428-57

FEULING

ROCKER SHAFT SHIMS

- Quiet your engine by tightening the rocker arm to cylinder head end play clearance
- Feuling® recommends an ideal side clearance of 0,0035" to 0,005" for optimum rocker arm oil psi and noise reduction
- M-Eight cylinder heads also have excessive wear on the rocker arm standoff thrusting surfaces; when the hardened shim is placed on the non thrusting side it will assist in reduction of further wear and damage to cylinder head
- Includes six 0,003" thick shims, six 0,005" thick shims and six 0,010" thick shims

NOTE: These shims should be installed by a professional; one who can make correct end play measurements and can install and tighten rocker shaft nuts/bolts without damaging shims.

PART #	DESCRIPTION
0930-0240	For all 17-25 M-Eight motors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

0928-0096

0928-0023

0928-0037

ADJUSTABLE OR QUICKEE PUSHROD KITS WITH COVER KITS

- Kits include four S&S adjustable pushrods or Quickee pushrods, four pushrod covers, O-rings
- Pushrods are manufactured from chromoly steel for superior strength
- Quickee Kits do not require rocker box removal
- Adjustable kits require rocker box removal

NOTE: Requires the removal of tappet blocks for installation.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0928-0088	Quickee pushrod kit w/ chrome covers
0928-0096	Quickee pushrod kit w/ gloss black covers
FOR 99-17 TWIN CAM	
0928-0017	Adjustable pushrod kit w/ chrome covers
0928-0023	Quickee pushrod kit w/ chrome covers
0928-0097	Quickee pushrod kit w/ gloss black covers

PART #	DESCRIPTION
FOR 91-22 XL (EXCEPT RH SPORTSTER)	
0928-0037	Adjustable pushrod kit w/ chrome covers (04-20)
0928-0036[1]	Quickee pushrod kit w/ chrome covers (91-22)

[1] 91-03 applications require S&S pushrod tube adapter PART NO. 33-5355.

ADJUSTABLE PUSHRODS

- 0,4375" diameter chromoly steel for maximum strength
- Rocker boxes must be removed for installation or removal
- Sold in sets of four

PART #	DESCRIPTION
DS199241	For 99-17 Twin Cam (standard length)
0928-0079	For 99-17 Twin Cam (+0,096")

93-5022

PART #	DESCRIPTION
93-5022	For 91-22 XL (except RH Sportsters), Buell
93-5033	For 86-90 XL

"TIME SAVER" CHROMOLY ADJUSTABLE PUSHRODS

- 0,4375" diameter pushrods adjust from 8,750" to 10,750" on Twin Cam models
- Speed up the installation of performance cams, rockers or other maintenance
- Removal of rocker boxes is not required for installation
- Adjusting end is a huge 0,354" – 40% larger than 0,250" ends
- Chromoly construction
- Sold in sets of four

PART #	DESCRIPTION
0928-0051	For 99-17 Twin Cam

NON-ADJUSTABLE PUSHRODS

- Replace stock pushrods perfectly
- 7/16" high-strength chromoly steel tubing for increased strength
- Pushrods are marked with stock color code and valve position for easy installation
- Set of four

PART #	DESCRIPTION
0928-0075	For 99-17 Twin Cam

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for 2026.

QUICKEE PUSHRODS

- Feature revolutionary design – allows quicker, easier installation without the removal of the rocker covers
- 0,4375" diameter chromoly steel
- Threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod, making installation or removal a snap
- Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving
- The ball ends of the pushrods are drilled so that oil can flow through the pushrod

NOTE: Twin Cam and XL applications will require aftermarket pushrod tubes that allow access to adjusters.

NOTE: S&S Quickee pushrods are designed especially for use with Evolution and Twin Cam style hydraulic tappets. They are not compatible with most solid-style tappets.

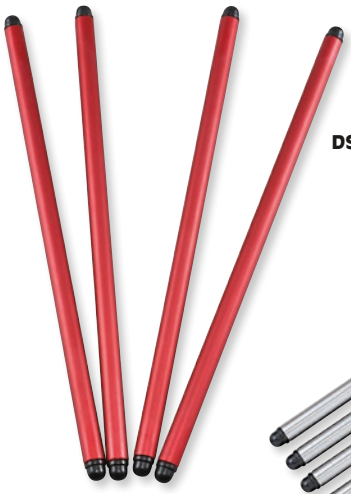
PART #	DESCRIPTION
0928-0124	For 17-25 M-Eight

PART #	DESCRIPTION
0928-0002	For 99-17 Twin Cam, 91-22 XL (except RH Sportster)

0928-0095

EZ-INSTALL PUSHRODS

- EZ-install pushrods eliminate the need to disassemble your rocker boxes or remove the gas tank when changing cams or doing maintenance
- Available in chromoly
- Sold in a set of four



NOTE: Twin Cam applications require use of pushrod tube kit PART #0928-0016.

PART #	DESCRIPTION
0928-0095	For 17-25 M-Eight

DS-199013

PART #	DESCRIPTION
DS-199013	For 99-17 Twin Cam

DS-193123

DS-193111

PUSHROD KITS

- Super-light, heavy-duty fixed-length pushrods
- Available in a choice of aluminum or chromoly
- Sold in sets of four to replace OE; two shorter rods for intake, two longer rods for exhaust
- Rocker boxes must be removed for installation

PART #	DESCRIPTION
FOR 91-03 XL REQUIRING A FIXED-LENGTH, NON-ADJUSTABLE PUSHROD	
DS-193123	Aluminum pushrod set
DS-193111	Chromoly pushrod set

0928-0021

ADJUSTABLE PUSHROD KITS

- Chromoly steel for maximum strength
- Rocker boxes must be removed for installation

PART #	DESCRIPTION
0928-0021	For 91-03 XL
DS-193115	For 86-90 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

HP+® AND RACE SERIES® ADJUSTABLE PUSHRODS

- Maintain maximum valve lift
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- Adjustable pushrods are 3/8", 4130 chrome moly tube and use a minimal adjustment parameter eliminating flex and loss of valve-train stability problems associated with most adjustable pushrods
- Individual length intake and exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear
- For use with hydraulic or solid lifters and street or race engines
- HP+® and Race Series® pushrods require removal of rocker covers and rocker arm supports, Feuling Quick Install rods (PART #0928-0105) can be installed without removing the rocker covers, arms and supports
- Feuling® HP+ and Race Series pushrods can be used with the factory pushrod tubes
- PART #0928-0009 HP+ pushrods have 24 threads per inch adjustment, super strength single jam nut lock system, wall thickness 0,120"

0928-0009

- PART #0928-0010 Race Series pushrods have 24 threads per inch with 0,145" wall thickness (recommended when extreme valve-spring pressures are used)

NOTE: HP+ and Race Series adjustable pushrods can be adjusted 0,225" over stock length to accommodate longer cylinders and smaller base circle camshafts.

NOTE: To ease installation on Twin Cam applications use Pushrod Tube Kit PART #s 0928-0016 or DS-193758; not required.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
FOR 99-17 TWIN CAM	
0928-0009	HP+® 0,120" wall thickness
0928-0010	Race Series® 0,145" wall thickness

0928-0091

0928-0114

0928-0102

HP+® ONE-PIECE PUSHRODS

- Feuling® highly recommends using one-piece pushrods instead of adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues
- Fixed length, 4130 chromoly one-piece pushrods with swedged formed ends
- Heavy-duty 7/16" diameter tube with a wall thickness of 0,165"
- Heat-treated with a black oxide finish

NOTE: Requires removal of rocker covers and rocker arms for installation.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0928-0091[1]	Stock replacement length and designed to work w/ factory base circle camshaft dimensions (works w/ all stock, SE and Feuling® camshafts)
0928-0113[1]	0,040" shorter than stock and designed to work w/ decked cylinder heads and running thinner head gaskets (works w/ all Feuling stock and SE M-Eight camshafts)
0928-0114[1]	0,040" longer than stock and designed to work w/ factory base circle camshaft dimensions (works w/ all Feuling stock and SE M-Eight camshafts)
FOR 99-17 TWIN CAM	
0928-0101	Stock replacement length and designed to work w/ factory base circle camshaft dimensions (works w/ Feuling 525, 543 and 574 cam grinds)
0928-0102	0,030" longer than stock and designed to work w/ smaller base circle camshafts (works w/ Feuling 594 and 630 cam grinds)
0928-0116	For use w/ Feuling Short-Travel lifters and designed to work w/ factory base circle camshaft dimensions (works w/ Feuling 525, 543 and 574 cam grinds)
0928-0117	For use w/ Feuling Short-Travel lifters and designed to work w/ smaller base circle camshafts (works w/ Feuling 594 and 630 cam grinds)

[1] Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling® highly recommends running one-piece pushrods instead of quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valve train harmonics and associated hydraulic lifter issues.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

FEULING HORSEPOWER PLUS

HP+® FIXED-LENGTH PUSHRODS

- Maintain maximum valve lift in your Harley-Davidson XL engine
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- 3/8" diameter/0,065" wall 4130 chromoly fixed-length one-piece pushrods with hardened ball ends
- Length is 0,040" under stock, intake 10,706", exhaust +10,760"
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve train
- Designed for use with hydraulic or solid lifters and street or race engines
- These pushrods require removal of rocker covers and rocker arm supports

PART #	DESCRIPTION
0928-0040	For 91-03 XL

QUICK-INSTALL PUSHRODS/TUBE KIT

- Strongest Quick-Install pushrod on the market
- Strength and rigidity of Quick-Install pushrods are second only to heavy-duty one-piece pushrods
- Tube material starts out as 7/16" rod OD, then gets turned down to 3/8" OD leaving heavy duty 7/16"-20 threads for the base and jam nut
- 0,134" wall thickness
- Jam nut slides up the pushrod
- Base then loosens up into the pushrod to allow Quick-Install access
- Individual length exhaust and intake pushrods
- Install without the removal of rocker covers
- Also included in the kit are four chrome lower tubes and clips; use in conjunction with factory inner tubes, covers, caps, springs and washers

NOTE: Correct pushrod/lifter adjustment requires starting with fully pumped up lifters.

NOTE: Quick-Install pushrods have 7/16"-20 threads per inch. 0,050" adjustment per turn. Two turns = 0,100".

0928-0106

0928-0120

PART #	DESCRIPTION
0928-0106	For 99-17 Twin Cam

PART #	DESCRIPTION
0928-0120	7/16"-20 repl. nut for PART #0928-0106 (ea.)

QUICK-INSTALL PUSHRODS

- Strongest Quick-Install pushrod on the market
- Strength and rigidity of Quick-Install pushrods are second only to heavy-duty one-piece pushrods
- Tube material starts out as 7/16" rod OD, then gets turned down to 3/8" OD leaving heavy duty 7/16"-20 threads for the base and jam nut
- Jam nut slides up the pushrod
- 0,134" wall thickness
- Base then loosens up into the pushrod to allow Quick Install access
- Individual length exhaust and intake pushrods
- Install without the removal of rocker covers
- Sold as a set of four

NOTE: Correct pushrod/lifter adjustment requires starting with fully pumped up lifters.

NOTE: Requires Pushrod Tube kit PART #0928-0104 to install; sold separately.

NOTE: Quick-Install pushrods have 7/16"-20 threads per inch. 0,050" adjustment per turn. Two turns = 0,100".

0928-0105

PART #	DESCRIPTION
0928-0105	For 99-17 Twin Cam

PART #	DESCRIPTION
0928-0120	7/16"-20 repl. nut for PART #0928-0105 (ea.)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FEULING

PUSHROD TUBE KIT

- Pushrod tube kit for use on Twin Cam engines using Quick-Install style pushrods that require more clearance inside the tube covers to adjust
- Kit includes lower tubes and clips only
- Use with factory inner tubes, cover cap, spring and washer

PART #	DESCRIPTION
0928-0104	For 99-17 Twin Cam

SLYFOX

PUSHROD COVER KIT

- Complete kit; includes upper and lower tube covers, clips, cups, washers and O-rings
- Pre-preg and autoclaved full carbon fiber construction
- Kit includes lower tubes, collar, and retainer clips plus all necessary O-rings

PART #	DESCRIPTION
0928-0123	For 17-25 M-Eight

S&S PERFORMANCE

PUSHROD COVER KIT

- Fits 88", 95", 96" and 103" with stock cylinder lengths
- Includes top and bottom covers, cover cap, cover spring and spring washers
- Chrome finish

PART #	DESCRIPTION
0928-0068	For 99-17 Twin Cam

S&S PERFORMANCE

GLOSS BLACK PUSHROD TUBES

- Enhance the look of your engine; great match for the black factory engine covers
- Tubes only; pushrod tube keepers sold separately
- Sold as a set of four

PART #	DESCRIPTION
0928-0100	For 17-25 M-Eight and 99-17 Twin Cam

0928-0098

S&S PERFORMANCE

GLOSS BLACK PUSHROD TUBE KEEPERS

- Simple, effective way to enhance the look of your engine
- Sold in a set of four

PART #	DESCRIPTION
0928-0098	For 17-25 M-Eight
0928-0099	For 99-17 Twin Cam

S&S PERFORMANCE

PUSHROD COVER KEEPER SETS

- Chromed steel finish
- Sold in kit of four assemblies; enough for one engine

PART #	DESCRIPTION
0928-0121	For 17-25 M-Eight (2,200" long)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0929-0014

POWERGLIDE II HYDRAULIC TAPPETS

- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%
- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
FOR 17-21 M-EIGHT, 99-17 TWIN CAM, 00-22 XL/XR1200 (EXCEPT RH SPORTSTER) AND 00-09 BUELL	
0929-0014	Standard
0929-0023	+0,005" oversize

BIG AXLE™ POWERGLIDE™ TAPPETS

- Micro-finish bore allows a running fit of 0,0002"
- Big Axle™ rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotate around the axle instead of an inner race, eliminating all possible movement in and around the axle
- Sold each

PART #	DESCRIPTION
FOR 86-90 XL; REPL. OEM #18523-86	
DS-194107	Std. (0,8425")

POWERGLIDE™ STEADY ROLL TAPPETS

- The same Powerglide™ advantage (oil-fed axle, billet steel body, precision-fit hydraulics), but now incorporates a Steady Roll bronze bushing in place of the needle bearing roller
- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"

PART #	DESCRIPTION
FOR 17-21 M-EIGHT, 99-17 TWIN CAM, 00-22 XL (EXCEPT RH SPORTSTER), 09-12 XR1200 AND 00-09 BUELL	
0929-0046	Standard

0929-0046

0929-0043

- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%
- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
FOR 86-90 XL AND 87-90 BUELL	
0929-0043	Standard

HYDROSOLID TAPPETS

- Perform like a hydraulic tappet up to 5500 rpm, then turn into a solid tappet
- When they turn into solid tappets, it adds approximately three to six more usable horsepower

PART #	DESCRIPTION
0929-0015	For 17-21 M-Eight, 99-17 Twin Cam, 00-22 XL/XR1200 (except RH Sportster) and 00-09 Buell

0929-0015

DS-194347

- Prevents hydraulic pump at high rpm
- Sold each

NOTE: Require the use of adjustable pushrods.

PART #	DESCRIPTION
DS-194347	For 91-99 XL and 94-99 Buell (0,9035" OD); repl. OEM #18529-89

HP+® HYDRAULIC LIFTERS

- Performance hydraulic roller lifters dyno developed and track tested
- CNC machined and precision ground
- When used with Feuling® oil pump, they will increase critical oil flow to valves, springs, rockers, shafts and valve guides
- Extend life of top end valve train
- Can also be used for OEM replacements

PART #	DESCRIPTION
0929-0005	For 17-25 M-Eight, 99-17 Twin Cam, 00-22 XL/XR1200 (except RH Sportster), 00-09 Buell

0929-0005

0929-0018

- Sold in a set of four

NOTE: Requires removal of rocker covers and rocker arm supports for installation when using one-piece pushrods.

PART #	DESCRIPTION
0929-0017	For 91-99 XL, 94-99 Buell
0929-0018	For 86-90 XL

FEULING

0929-0072

0929-0007

FEULING RACE SERIES

RACE SERIES® FULL-TRAVEL HYDRAULIC LIFTERS

- Full-travel hydraulic lifters made from machined steel designed with 0,200" of travel
- Exceed the needs of large-lift camshafts and higher spring pressures with a slower bleed-down rate
- Maintain proper and critical oil flow to valves, springs, rockers, shafts and valve guides
- Increase engine rpm and valvetrain stability; decreases valve float for maximum valve lift
- Available in oversize diameters
- Recommended for both strip and performance street engines
- Sold in a set of four

NOTE: High-volume oil pump recommended.

NOTE: Recommended for engines running higher than 185 lb valve spring seat pressure.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0929-0072[1]	Standard 0,842" to 0,8422"
0929-0073[1]	+0,8432" to 0,8435" oversize
0929-0074[1]	+0,8437" to 0,844" oversize
FOR 99-17 TWIN CAM, 00-22 XL/XR1200 (EXCEPT RH SPORTSTER), 00-09 BUELL	
0929-0007	Standard 0,842" to 0,8423"
FOR 99-17 TWIN CAM, 00-22 XL/XR1200 (EXCEPT RH SPORTSTER), 00-09 BUELL (CONT)	
0929-0008	+0,843" to 0,8435" oversize
0929-0009	+0,8435" to 0,844" oversize
FOR 86-90 XL	
0929-0022	Standard 0,8425"

[1] Must check clearance on front exhaust lifter to camshaft flange fit.

0928-0107

FEULING RACE SERIES

RACE SERIES® SHORT-TRAVEL HYDRAULIC LIFTERS

- New revolutionary design with 0,115" of total travel vs. a full travel lifter with 0,200"
- These lifters will increase rpm by decreasing valve float and valve-train harmonics while maintaining a quiet engine
- Travel reduction reduces the amount of oil that is required to fill the inside of the lifter which reduces oil aeration in the lifter on steep, fast action high lift camshaft lobes
- Short-travel lifters should be set with 0,065" to 0,070" of pre-load and with the normal engine growth from heat will put the operating lifter pre-load at or around half travel
- Short-travel lifters are designed to limit the amount of oil needed to fill the internals of the lifter which results in less oil needed compared to a full travel or other style short travel lifters
- Design drastically reduces aeration of the oil producing a fully filled lifter when the lifter rolls around to the front cam lobe ramp vs. having aerated oil and then the pushrod seat dropping when the lifter hits the front cam ramp after squeezing the aeration
- Machined from a steel body and designed to exceed the needs of large lift camshafts and higher valve spring pressures with a slower bleed down rate
- Precision ground needle roller bearing with high chromium steel axle for long life and minimal friction
- Cold forged extra long piston, precision ground and fitted for controlled leak down and pump up
- High-flow disc style quick reacting check valve for better reaction at higher rpm
- Race Series® lifters maintain proper oil flow to the top end, increase engine rpm, valve-train stability, decreasing valve float promoting maximum valve lift
- Feuling® recommends Race Series lifters for engines running higher than 185 lbs valve spring seat pressure
- Feuling recommends the use of a high volume oil pump which will result in quieter, better performing lifters
- Race Series lifters are compatible with either Feuling HP+® or Race Series oil pumps and are designed for use with both street and strip engines
- Spin-Tron dyno developed and track proven
- Available in standard and oversized diameters
- Sold as a set of four

NOTE: Feuling® recommends pumping up each lifter by hand prior to installation, to remove all air and provide a fully pumped up lifter.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0929-0081	Standard 0,8420" to 0,8423"
0929-0082	+0,8430" to 0,8435" oversize
0929-0083	+0,8435" to 0,8440" oversize
FOR 99-17 TWIN CAM, 00-22 XL/XR1200 (EXCEPT RH SPORTSTER), 00-09 BUELL	
0928-0107	Standard 0,8420" to 0,8423"
0928-0108	+0,8430" to 0,8435" oversize
0928-0109	+0,8435" to 0,8440" oversize

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING RACE SERIES

RACE SERIES® SOLID LIFTERS

- Designed for engines with radical valve spring pressures and large lift camshafts
- Maintain proper and critical oil flow to top end with metered oiling
- Decrease valve float and maintain maximum valve lift
- Optimize valvetrain stability at high engine rpm
- Increase horsepower and torque output
- CNC machined and precision-ground from hardened steel
- Utilize standard pushrod seat height; Feuling® recommends the use of PART #0928-0010 Race Series® adjustable pushrods (sold separately; see page 583)
- Recommended for both strip and high-performance street engines
- Sold in a set of four

NOTE: High volume oil pump recommended.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
0929-0024	For 17-25 M-Eight, 99-17 Twin Cam, 00-22 XL/XR1200 (except RH Sportster), 00-09 Buell

FEULING

ANTI-ROTATION LIFTER PINS

- Excessive engine noise can be produced when there is excess clearance between the lifters and the anti-rotation pins
- New pins create a balanced and quieter engine with proper pin clearance
- Feuling® recommends a max clearance of 0,002" to 0,003"
- Sold as 2-pack

PART #	DESCRIPTION
FOR 99-17 TWIN CAM MOTORS	
0929-0088	Stock replacement standard diameter; repl. OEM #18535-99
FOR 99-17 TWIN CAM MOTORS (CONT)	
0929-0089	+0,002" oversized diameter

PROVEN S&S PERFORMANCE

HYDRAULIC TAPPETS

- Rollers have a larger-than-stock inner bearing race that reduces stress and increases axle life
- Each lifter body and plunger assembly is hand-fit and pressure-tested to ensure correct operation
- Redesigned plunger assembly withstands forces associated with heavy-duty valve springs and pushrods typically used in high-performance applications
- Revised metering device precisely controls oil delivery to top end, ensuring rapid lifter pump-up and reducing possibility of oil starvation to bottom end
- Tappets that include the HL²T Limited Travel Kit improve cold starts and high rpm valve timing accuracy
- Sold in sets of four

PART #	DESCRIPTION
FOR 86-90 XL	
0929-0061	W/ HL²T kit
FOR 86-90 XL (CONT)	
0929-0004	W/o HL²T kit

PROVEN S&S PERFORMANCE

HIGH-PERFORMANCE TAPPETS

- All-new improved design
- Hand-assembled to exact tolerances
- Reduced valve train noise from startup to shutdown
- Close tolerances for low leak-down rates
- Fast pump-up and superior high rpm performance
- Replace standard and premium lifters
- Sold as a set of four

PART #	DESCRIPTION
0929-0085	For 17-25 M-Eight, 99-17 Twin Cam, 00-22 XL (except RH Sportster)

PROVEN S&S PERFORMANCE

HIGH-QUALITY TAPPET ROLLER KITS

- Made from 52100 bearing material
- Include 4340 chromoly axles
- Sold in a 4-pack

PART #	DESCRIPTION
0929-0053	For 86-90 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

TAPPET CUFFS FOR XL

- Capture the tappets without impacting vertical motion to keep them perfectly aligned, even in high-stress, high rpm situations
- Billet aluminum construction
- Stronger material eliminates distortion.
- Hard-anodized black coating
- Sold in pairs

PART #	DESCRIPTION
0929-0087	For 06-22 XL (except RH Sportster); repl. OEM #18505-06

TAPPET CUFFS LIFTER GUIDES

- The factory tappet guides are constructed of plastic, which allows tappets to twist under heavy stress
- These tappet cuffs capture the tappets without impacting vertical motion to keep them aligned, even in high-rpm situations
- Billet aluminum construction with a hard anodized black coating
- Easy upgrade when changing tappets or doing a cam change
- Sold in pairs

NOTE: Due to variances between cam and tappet manufacturers, always check the tappet to tappet cuff clearance.

PART #	DESCRIPTION
0929-0075	For 17-25 FLHT/FLHR/FLTRX/FLTRU/FLTRK/FLHX, 18-25 Softail

LOW-PROFILE BILLET TAPPET COVERS

- Made from 6061 billet aluminum with a black finish
- Covers were designed to be installed with Twin Cam pushrod covers, they will not work with standard M8 pushrod covers
- JIMS tappet covers have a sleek new look and are 1/2" lower than stock, making pushrod adjustment easy to do

PART #	DESCRIPTION
0940-2010	For 17-21 M-Eight

CHROME BILLET LIFTER COVERS

- CNC machined from 6061-T6 billet aluminum
- Gaskets and screws included

PART #	DESCRIPTION
DS-194532	For 99-17 Twin Cam

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

GEAR DRIVE AND CHAIN DRIVE CAMCHEST KITS FOR M-EIGHT

- All parts in each kit are matched to ensure superior quality, fit, finish and performance
- Oil pump and cam plate are precision-machined from billet aluminum with a blue anodized finish
- Passage plugs are removable for servicing
- Independent scavenge sections for the flywheel cavity and cam chest
- Debris screens in both scavenge pickups
- Increased oil flow capacity on both the feed and scavenge sides
- Adjustable pressure relief valve is adjustable with the unit installed in the engine
- S&S Quickee Pushrods with chrome or gloss black pushrod tubes
- S&S premium tappets
- Billet aluminum tappet cuffs have a hard-anodized black coating and are stronger than stock to eliminate distortion
- Improves tappet stability in high-lift situations
- 465 Torque Cam kits are the ideal choice for Touring bike applications
- 475 kits are bolt-in cams that can produce up to 100 horsepower
- 540 kits are for Touring bikes to add torque below 6000 rpm
- 550 kits are for big bore applications
- All kits include necessary gaskets, bearings and hardware required for a complete installation

CHAIN DRIVE KITS FOR 17-24 WATER-COOLED M-EIGHT

PART #	DESCRIPTION
CHROME PUSHROD TUBES	
0925-1353	W/ 465 cam
0925-1354	W/ 475 cam
0925-1364	W/ 540 cam

PART #	DESCRIPTION
GLOSS BLACK PUSHROD TUBES	
0925-1357	W/ 465 cam
0925-1358	W/ 475 cam

GEAR DRIVE KITS FOR 17-24 WATER-COOLED M-EIGHT

PART #	DESCRIPTION
CHROME PUSHROD TUBES	
0925-1299	W/ 465 cam
0925-1300	W/ 475 cam

PART #	DESCRIPTION
GLOSS BLACK PUSHROD TUBES	
0925-1307	W/ 465 cam
0925-1308	W/ 475 cam

CHAIN DRIVE KITS FOR 17-24 OIL-COOLED M-EIGHT

PART #	DESCRIPTION
CHROME PUSHROD TUBES	
0925-1355	W/ 465 cam
0925-1356	W/ 475 cam
0925-1363	W/ 540 cam
0925-1362	W/ 550 cam

PART #	DESCRIPTION
GLOSS BLACK PUSHROD TUBES	
0925-1359	W/ 465 cam
0925-1360	W/ 475 cam

GEAR DRIVE KITS FOR 17-24 OIL-COOLED M-EIGHT

PART #	DESCRIPTION
CHROME PUSHROD TUBES	
0925-1303	W/ 465 cam
0925-1304	W/ 475 cam
0925-1317	W/ 550 cam

PART #	DESCRIPTION
GLOSS BLACK PUSHROD TUBES	
0925-1311	W/ 465 cam
0925-1312	W/ 475 cam

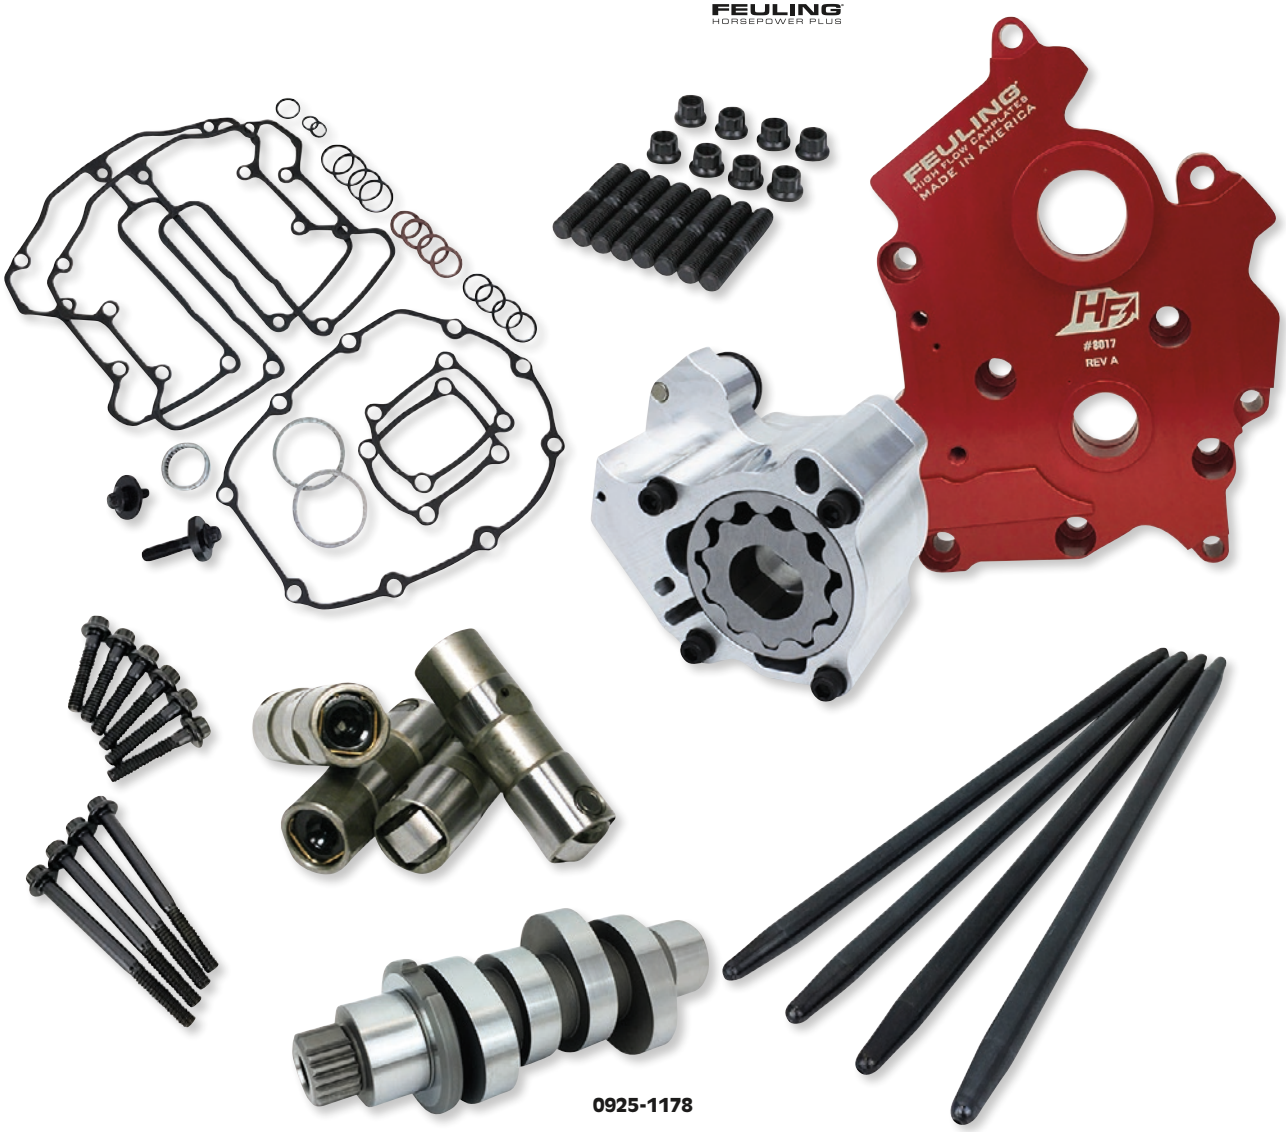
CAM CHEST KITS WITHOUT CAMS FOR M-EIGHT



- The proven performance of an S&S cam chest kit without the cams; allowing you freedom of choice in cam profiles
- Kit oil pump and cam plate are precision machined from billet aluminum
- Passage plugs are removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screens in both scavenge pickups
- Pressure relief valve is adjustable with the unit installed in the motor
- Provides 44% oil flow increase on the supply side and 58% flow increase on scavenge
- Quickee Pushrods
- S&S Precision Tappets that are hand-assembled to exacting tolerances
- Provide reduced valvetrain noise from startup to shutdown
- Close tolerances for low leakdown rates
- Fast pump-up and superior high rpm performance
- Include hard black anodized billet aluminum tappet cuffs that eliminate distortion
- Improve tappet stability in high lift and high rpm situations

PART #	DESCRIPTION
GEAR DRIVE KITS FOR OIL-COOLED 17-24 M-EIGHT	
0925-1569	W/ chrome pushrod tubes
0925-1568	W/ gloss black pushrod tubes
GEAR DRIVE KITS FOR WATER-COOLED 17-24 M-EIGHT	
0925-1571	W/ chrome pushrod tubes
0925-1570	W/ gloss black pushrod tubes

PART #	DESCRIPTION
CHAIN DRIVE KITS FOR OIL-COOLED 17-24 M-EIGHT	
0925-1573	W/ chrome pushrod tubes
0925-1572	W/ gloss black pushrod tubes
CHAIN DRIVE KITS FOR WATER-COOLED 17-24 M-EIGHT	
0925-1575	W/ chrome pushrod tubes
0925-1574	W/ gloss black pushrod tubes

0925-1178

HP+® CAMCHEST KITS FOR M-EIGHT

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- Eliminate wet sumping, blowby and oily air cleaners
- Heavy-duty 0,165" wall one piece pushrods reduce valvetrain harmonics and increase valve lift
- Kits include: Feuling® High Volume Oil pump, High Flow billet Camplate, Reaper® series camshaft, hydraulic roller lifters, fixed-length pushrods, Timken/Koyo cam bearing, rocker arm studs and nuts, gaskets, O-rings, ARP® cam/crank fasteners, washers, moly lube and Loctite®
- HP+® Series kits includes a billet 6061 aluminum high volume oil pump, High Flow camplate, HP+ hydraulic roller lifters and cam installation kit
- 30% more pressure gear volume over stock for M-Eight Liquid-Cooled motors
- 53% more scavenge gear volume over stock for M-Eight Liquid-Cooled motors
- 27% more pressure and scavenge gear volume over stock for M-Eight Oil-Cooled motors
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 46% more oil volume to the crankshaft and connecting rod bearing for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 15 to 25 degree cooler engine temperatures for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 15 to 30 degree cooler oil temperatures for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 10 to 30 more psi of oil pressure for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- For M-Eight Reaper® cam description and specs see page 603

PART #	DESCRIPTION
FOR 17-25 M-EIGHT OIL-COOLED MOTORS (EXCEPT 121" VVT MOTORS)	
0925-1178	405 camchest kit
0925-1179	465 camchest kit
0925-1328	472 camchest kit

PART #	DESCRIPTION
FOR 17-25 M-EIGHT LIQUID-COOLED MOTORS (EXCEPT 121" VVT MOTORS)	
0925-1212	405 camchest kit
0925-1213	465 camchest kit
0925-1329	472 camchest kit

FEULING

FEULING RACE SERIES

0925-1180

RACE SERIES® CAMCHEST KITS FOR M-EIGHT

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- These combination kits not only ensure each individual part is designed to work and function together, but to do so in total harmony
- These camchest kits take the guesswork out of the ordering process and provides the engine builder maximum reliability, peak performance and the coolest engine/oil temperatures obtainable
- Complete Camchest kits include: Feuling High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, Race Series® full-travel or short- travel hydraulic roller lifters, fixed-length pushrods, Timken®/Koyo® cam bearings, rocker arm studs/nuts, gaskets, O-rings, ARP® cam/crank fasteners, washers, moly paste and Loctite®
- Race Series kits include a Race Series oiling system (billet 7075 oil pump, Race Series lifters, High Flow billet 7075 aluminum camplate)
- Billet 7075 aluminum oil pump, which is 50% harder and stronger than the factory pump, holding tighter tolerances under temperature, deeper scavenge kidneys over Fueling HP+® oil pump
- Deeper scavenge kidney ports over the HP+ series for even more scavenge flow volume
- Race Series full-travel hydraulic lifters have a full 0,200" of total travel designed with a slower bleed-down rate to handle heavy valve spring pressures, increase engine rpm before valve float and feature increased roller clearance for steep ramped camshafts and clearance for the M-Eight front exhaust camshaft lobe flange
- Race Series short-travel hydraulic lifters have 0,115" of total travel and will increase rpm by decreasing valve float and valve-train harmonics while maintaining a quiet engine
- The travel reduction reduces the amount of oil that is required to fill the inside of the lifter which reduces oil aeration inside the lifter on steep, fast action high lift camshaft lobes
- 30% more pressure gear volume over stock for M-Eight Liquid-Cooled motors
- 53% more scavenge gear volume over stock for M-Eight Liquid-Cooled motors
- 27% more pressure and scavenge gear volume over stock for M-Eight Oil-Cooled motors
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 46% more oil volume to the crankshaft and connecting rod bearing for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 15 to 25 degree cooler engine temperatures for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 15 to 30 degree cooler oil temperatures for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- 10 to 30 more psi of oil pressure for M-Eight Liquid-Cooled motors and M-Eight Oil-Cooled motors
- Increase oil pressure, scavenge volume and engine oil flow
- Quieter and smoother engine operation
- Reduces wet sumping, blowby and oily air cleaners
- Magnets in oil pump to help protect gears and pressure relief valve
- Test results show 2 hp gain and 2 ft lbs of torque gain to the rear wheel on M-Eight
- Feuling test results show a 50% reduction of engine sump oil level
- Feuling M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal,
- For M-Eight Reaper® cam description and specs see page 603

NOTE: 508, 521 and 538 camchest kits require high lift valve springs PART #s 0926-2973 or 0926-2974.

NOTE: 592 camchest kits require high lift/high load valve springs PART #0926-3138.

KITS W/ FULL-TRAVEL HYDRAULIC LIFTERS

GEAR DRIVE AND CHAIN DRIVE CAMCHEST KITS FOR TWIN CAM

- Upgrade to S&S bolt-in performance chain-drive or gear-drive camshafts
- Improves engine performance – higher lift and optimized cam timing
- S&S Quickee pushrods – easy installation, without removing rocker covers
- Replaces stock oil pump, cam support plate, cams, chain tensioners, and tappets with all-new, premium S&S components
- Kits for 99-06 models feature an 07-17 style oil pump (included) for better, more consistent oil pressure
- Gear-drive kits offer peace of mind – no more worries about cam chain failure
- Chain-drive kits include S&S Hydraulic cam chain tensioners for improved valve timing and chain life

CHAIN DRIVE KITS	
PART #	**DESCRIPTION**
FOR 07-17 TWIN CAM, 06 DYNA	
0925-1109	Kit w/ 551CE Easy Start cams
0925-1111	Kit w/ 585C Standard cams
0925-1181	Kit w/ 585CE Easy Start cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1106	Kit w/ 510C Standard cams
0925-1107[1]	Kit w/ 551CE Easy Start cams
0925-1108[1]	Kit w/ 585CE Easy Start cams

[1] Requires the use of high-lift valve springs (sold separately).

GEAR DRIVE KITS	
PART #	**DESCRIPTION**
FOR 07-17 TWIN CAM, 06 DYNA	
0925-1102	Kit w/ 510G Standard cams
0925-1104	Kit w/ 585GE Easy Start cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1098	Kit w/ 509G Standard cams
0925-1099	Kit w/ 510G Standard cams
0925-1100[1]	Kit w/ 551GE Easy Start cams
0925-1101[1]	Kit w/ 585GE Easy Start cams

[1] Requires the use of high-lift valve springs (sold separately).

CAM CHEST KITS WITHOUT CAMS FOR TWIN CAM

- The proven performance of a S&S cam chest kit without the cams; allowing you freedom of choice in cam profiles
- Oil pump and cam plate are precision-machined from billet aluminum
- Independent scavenge sections for the flywheel cavity and cam chest
- Debris screens in both scavenge pickups
- Passage plugs are removable for servicing
- Magnet in cam chest side to help stop debris from entering the oil pump
- Approximately 44% flow increase on the supply side and 58% increase on the scavenge
- Pressure relief valve is adjustable with the unit installed
- Chain drive kits include S&S High Performance cam chain tensioner
- Quickee Pushrods
- S&S Precision tappets
- Hand-assembled to exacting tolerances
- Reduced valvetrain noise from startup to shutdown
- Close tolerances for low leak-down rates
- Fast pump-up and superior high rpm performance

OE+ HYDRAULIC CAM CHAIN CONVERSION CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part #
- These combination kits not only ensure each individual part is designed to work and function together, but to do so in total harmony
- These camchest kits take the guess work out of the ordering process and guarantees the engine builder maximum reliability, peak performance and the coolest engine/oil temperatures obtainable
- Complete Camchest Kits include: Feuling High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, hydraulic roller lifters, adjustable pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- Includes conversion camshafts that update your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Includes sprockets, hydraulic tensioners, chains and spacers needed for installation
- These camshafts utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system
- Cooler engine temperatures
- Cooler oil temperatures
- More oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- For Twin Cam Reaper cam description and specs see pages 608-609

FEULING

BULLETPROOF

FEULING HORSEPOWER PLUS

HP+® CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- Complete Camchest Kits include: Feuling High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, hydraulic roller lifters, quick-install adjustable pushrods or one-piece pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- 25 to 35 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 15 to 30 more pounds of oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- Hydraulic Chain Drive Conversion kits include conversion camshafts for 99-06 Twin Cam engines that update your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Hydraulic Chain Drive Conversion kits include sprockets, hydraulic tensioners, chains and spacers needed for installation on 99-06 models
- For Twin Cam Reaper cam description and specs see pages 608-609

NOTE: Installation of gear drive cams will require a separate purchase of S&S 4-gear cam drive kit; see page 616.

CHAIN DRIVE

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-1287	525 camchest kit (includes quick-install adjustable pushrods)
0925-1377	525 camchest kit (includes one-piece pushrods)
0925-1295	543 camchest kit (includes quick-install adjustable pushrods)
0925-1402	543 camchest kit (includes one-piece pushrods)
0925-0517	574 camchest kit (includes quick-install adjustable pushrods)

FEULING

FEULING RACE SERIES

RACE SERIES® CAMCHEST KITS FOR TWIN CAM

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- Complete Camchest Kits include: Feuling High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, Race Series® full-travel or short- travel hydraulic roller lifters, quick-install adjustable pushrods or one-piece pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- 25 to 35 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 15 to 30 more pounds of oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- Hydraulic Chain Drive Conversion kits include conversion camshafts for 99-06 Twin Cam engines that updates your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Hydraulic Chain Drive Conversion kits also include sprockets, hydraulic tensioners, chains and spacers needed for installation on 99-06 models
- For Twin Cam Reaper® cam description and specs see pages 608-609

NOTE: Installation of gear drive cams will require separate purchase of S&S 4-gear drive kit; see page 616.

0925-1401[1]	594 camchest kit (includes quick-install adjustable pushrods, pushrod tube kit and short-travel hydraulic lifters)
0925-1397[1]	630 camchest kit (includes one-piece pushrods and full-travel hydraulic lifters)
0925-1398[1]	630 camchest kit (includes quick-install adjustable pushrods, pushrod tube kit and short-travel hydraulic lifters)

[1] Conversion camshafts for 99-06 Twin Cam engines utilize the 99-06 inner cam journals with the 07-16 outer cam journals allowing the use of the 07-16 camplates, oil pump, hydraulic chain tensioners and chain drive system (includes sprockets, hydraulic tensioners, chains and spacers needed for installation).

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

CAM KITS FOR M-EIGHT ENGINES

465 CAMS

- Bolt-in compatible with all stock valve train components
- 465C chain drive and 465G gear drive cams both provide increased torque and horsepower
- Kits include all required bearings, O-rings, and hardware
- Gear drive cams provide improved valve timing accuracy

FOR 17-25 M-EIGHT (EXCEPT VVT)			
PART #	DESCRIPTION	PART #	DESCRIPTION
0925-1161	Gear drive	0925-1160	Chain drive

475 CAMS

- Kits are for a 100 HP Bolt-in Cam (when coupled with intake and exhaust)
- Designed for 107"/114" motors, compatible with all stock valve train components
- Kits include all required bearings, O-rings and hardware

FOR 17-25 M-EIGHT (EXCEPT VVT)			
PART #	DESCRIPTION	PART #	DESCRIPTION
0925-1172	Gear drive	0925-1171	Chain drive

540 CAMS

- Add more torque to big-bore engines, especially below 6000 rpm
- Cam requires the use of adjustable pushrods and heavy-duty valve springs (sold separately)
- Kits include all required bearings, O-rings, and hardware

FOR 17-25 M-EIGHT (EXCEPT VVT)			
PART #	DESCRIPTION	PART #	DESCRIPTION
0925-1340	Gear drive	0925-1337	Chain drive

590 CAMS

- All-out horsepower cam for 124" and larger engines
- Designed specifically for use with monster bores and ported heads (not recommended for stock bore engines)
- Requires adjustable pushrods and heavy-duty valve springs (sold separately)
- Kits include all required bearings, O-rings and hardware

FOR 17-25 M-EIGHT (EXCEPT VVT)			
PART #	DESCRIPTION	PART #	DESCRIPTION
0925-1342	Gear drive	0925-1341	Chain drive

496 CAMS

- Bolt-in design
- Compatible with stock or S&S rocker arms and springs
- Compatible with round or oval port valve springs
- Boosts horsepower and torque
- Racy, aggressive lope at idle
- Kits include all required bearings, gasket and O-rings and hardware

NOTE: 0,496" lift when used with S&S rocker arms.

FOR 17-25 M-EIGHT (EXCEPT VVT)			
PART #	DESCRIPTION	PART #	DESCRIPTION
0925-1630	Gear drive	0925-1629	Chain drive

550 CAMS

- 550 is an ideal horsepower cam for 114" and larger engines
- Cam requires the use of adjustable pushrods and heavy-duty valve springs (sold separately)
- Kits include all required bearings, O-rings and hardware

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT VVT)	
0925-1174[1]	Gear drive

[1] Require the use of adjustable pushrods and heavy-duty valve springs (sold separately).

All part numbers in BLUE are new for 2026.

ANDREWS

CHAIN DRIVE CAMS FOR 17-25 M-EIGHT (EXCEPT 121" VVT ENGINE)

465B

- Bolt-in chain drive cam for 107" to 117" engines
- Use with stock valve springs
- For heavy and middle weight bikes
- Great low to mid rpm torque (1200 to 5600 rpm)

PART #	DESCRIPTION
0925-1509	465B cam

485

- Highest lift bolt-in chain drive cam available for use with stock valve springs
- Bolt-in cam for 107" engines and larger
- Excellent low to mid rpm power (1500 to 5600+ rpm)

PART #	DESCRIPTION
0925-1510	485 cam

M450

- Bolt-in cam for stock compression 107" and 114" engines
- For touring-style riding
- Excellent low-rpm torque (1600 to 4800 rpm)

PART #	DESCRIPTION
0925-1165	M450 cam

M460

- Bolt-in cam for stock compression 107" and 114" engines
- Also for 117" big bore kits with higher compression
- Great low- to mid-rpm power (1700 to 5500 rpm)

PART #	DESCRIPTION
0925-1166	M460 cam

M462

- Bolt-in cam 107" to 114" engines
- Big power; 127 ft. lbs. torque and 109 hp (1200 to 5500 rpm)

PART #	DESCRIPTION
0925-1205	M462 cam

M464

- Great mid-range torque and power with free-flow exhaust pipes and injector tuning

PART #	DESCRIPTION
0925-1206	M464 cam

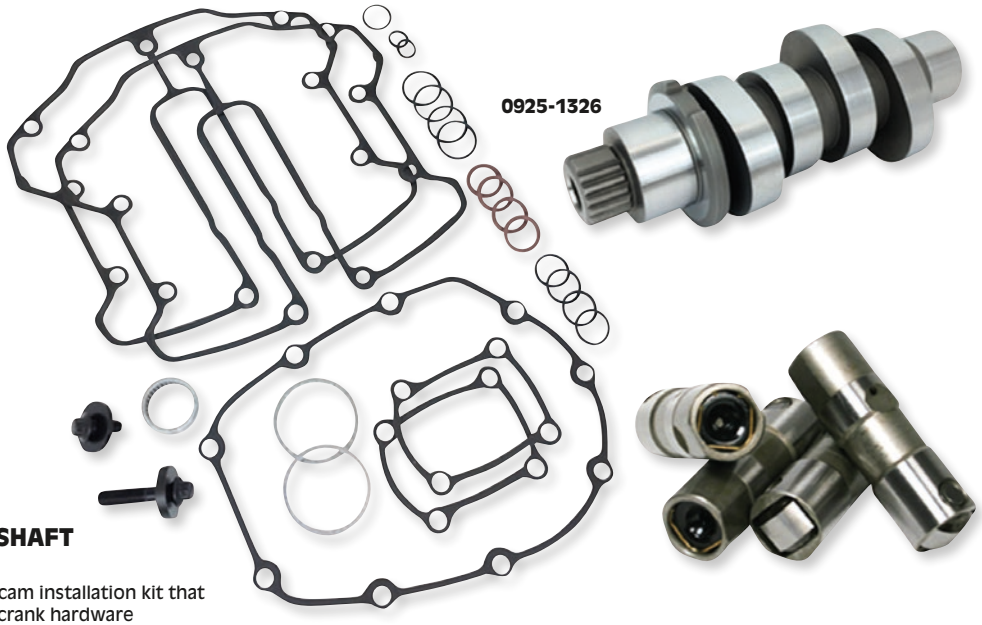
M520

- Greater flow efficiency shortens timing durations while boosting performance
- More torque and power for modified engines
- Wide powerband range (1600 to 5500 rpm)
- Requires hi-lift valve springs

PART #	DESCRIPTION
0925-1365	M520 cam

M554

- For 124" and 128" big-bore motors with head work
- Also works well with 117" engines in lighter bikes
- Requires high-lift valve springs



PART #	DESCRIPTION
0925-1319	M554 cam

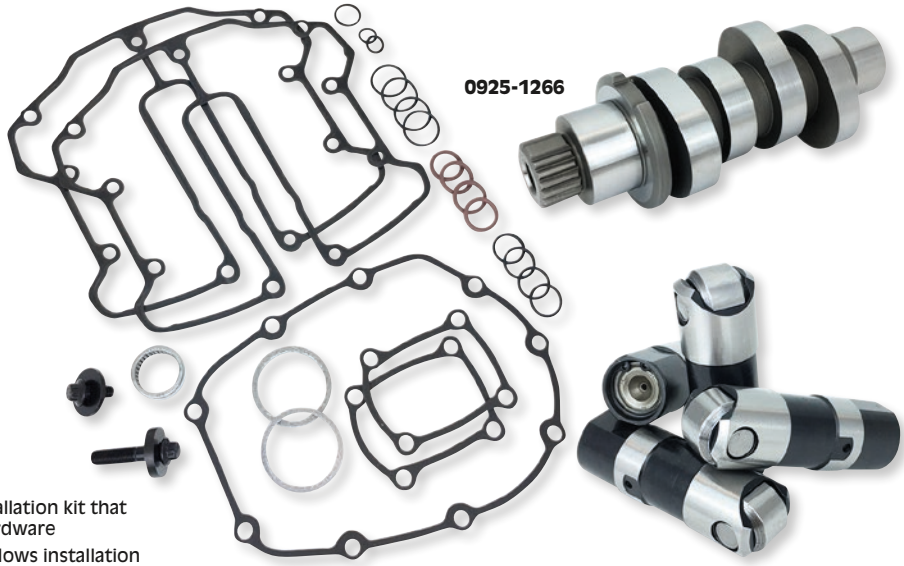
FEULING

FEULING HORSEPOWER PLUS

HP+® CHAIN DRIVE CAMSHAFT KITS FOR M-EIGHT

- Include camshafts, lifters and a cam installation kit that includes the cam bearing, cam/crank hardware
- Kit also includes gasket/O-ring kit that allows installation of Feuling® Heavy-Duty HP+® 0.0165" wall one-piece pushrods or factory one-piece pushrods
- Include HP+ lifters,
- For M-Eight Reaper® cam description and specs see page 603



NOTE: Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling® highly recommends running one-piece pushrods (see PART #0928-0091) over quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1176	465 camshaft kit

NOTE: Feuling fastener kit PART #2401-0994 also highly recommended to help prevent cylinder head cracking; kit replaces the rocker shaft bolts with studs and nuts to help reduce the stress of the rocker shaft standoffs.

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS) (CONT)	
0925-1326	472 camshaft kit

FEULING RACE SERIES

RACE SERIES® CHAIN DRIVE CAMSHAFT KITS FOR M-EIGHT

- Include camshafts, lifters and a cam installation kit that includes the cam bearing, cam/crank hardware
- Kit also includes gasket/O-ring kit that allows installation of Feuling® Heavy-Duty HP+® 0.0165" wall one-piece pushrods or factory one-piece pushrods
- Includes Race Series® lifters
- For M-Eight Reaper® cam description and specs see page 603

NOTE: Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling® highly recommends running one-piece pushrods (see PART #0928-0091) over quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1177	465 camshaft kit
0925-1619	487 camshaft kit
0929-0084	508 camshaft kit

NOTE: Feuling fastener kit PART #2401-0994 also highly recommended to help prevent cylinder head cracking; kit replaces the rocker shaft bolts with studs and nuts to help reduce the stress of the rocker shaft standoffs.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS) (CONT)	
0925-1374	538 camshaft kit
0925-1266	592 camshaft kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING Reaper CAMSHAFTS

0925-1163

REAPER® CAMS FOR M-EIGHT

- Produce more power and torque in the riding rpm range, improving throttle response, acceleration and fuel mileage
- Smooth camshaft lobe ramps are easier on valvetrain components and eliminate excessive valvetrain noise and wear
- Dyno proven and track tested

NOTE: Not for 23-25 models with 121" VVT motors.

NOTE: 24 models with Center Cooled heads will accommodate up to the 508 cam as a bolt-in.

NOTE: Screamin' Eagle cylinder heads have high-lift valve springs and do accept the 538 grind cam.

405 CAM

- Produces a wide powerband that increases torque and horsepower throughout the entire rpm range
- Direct bolt-in replacement for M-Eight engines; can be used with stock valve springs, pushrods, lifters and exhaust
- Will respond well when used with slip-on mufflers or full exhaust system and a high-flow air cleaner
- Feuling® recommends mufflers with smaller cores for the best low-rpm power
- 1700 to 5700 rpm range

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1163	405 chain drive cam

472 CAM

- Great all-around camshaft and Feuling's® go-to for 4½" stroke 114" and 117" engines looking for a little more than the 465 grind and wanting a bolt-in
- Has a great bottom end with substantial gains above 2800 rpm when compared to stock
- Use of performance valve springs is not required but may result in a quieter, smoother-running valve train; see PART #0926-2973 or 0926-2974 on page 574

508 CAM

- The Grim Reaper® aggressive pulling power with a nasty sound
- This camshaft revs up faster than the 521 grind, sounds nastier and pulls harder, but is more difficult to tune
- The Reaper 508 grind will shine in 114" and larger cubic inch engines with added compression ratio
- Ported cylinder heads are not required, but will complement the cam and add even more pulling power throughout the range
- The stock throttle body produces an excellent powerband and use of a high-flow throttle body will increase peak power numbers
- A high-flow exhaust system and air cleaner is highly recommended for optimal performance

521 CAM

- Aggressive pulling power with a "nasty" sound, the Reaper® 521 grind will shine in 114" and larger cubic inch engines with added compression ratio
- Ported cylinder heads are not required, but will complement the cam and add even more pulling power throughout the range
- Stock throttle body produces an excellent powerband; use of a high-flow throttle body may increase peak power numbers
- A high-flow exhaust system and air cleaner is highly recommended for optimal performance
- Feuling® recommends matching 521 cam with Race Series oiling system PART #0932-0199

NOTE: Due to the unstable nature of this 4-valve engine design with one rocker arm activating two valve springs, Feuling® highly recommends running one-piece pushrods over quick-install adjustable pushrods to maintain maximum cam/valve lift and reduce valvetrain harmonics and associated hydraulic lifter issues.

NOTE: Feuling fastener kit PART #2401-0994 also highly recommended to help prevent cylinder head cracking; kit replaces the rocker shaft bolts with studs and nuts to help reduce the stress of the rocker shaft standoffs.

465 CAM

- Produces solid bottom-end performance and substantial gains above 2800 rpm compared to the stock cams
- Direct bolt-in replacement for M-Eight engines; can be used with stock valve springs, pushrods, lifters and exhaust
- Will respond well when used with slip-on mufflers or a full exhaust system and a high-flow air cleaner
- Use of performance valve springs is not required but may result in a quieter, smoother-running valve train; see PART #0926-2973 on page 574
- Responds well when combined with increased engine bore and/or engine compression
- 1850 to 5950 rpm range

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1164	465 chain drive cam

- Responds very well to increased bore and or compression, exhaust system and air cleaner

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1325	472 chain drive cam

- Feuling® recommends matching 508 cam with Race Series® oiling system PART #0932-0199
- Requires high lift valve springs; see PART #0926-2973 or 0926-2974 on page 574
- Heavy-duty pushrods are highly recommended; see PART #0928-0091
- 2250 to 5900 rpm range

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1283	508 chain drive cam

- Requires high lift valve springs; see PART #s 0926-2973 or 0926-2974 on page 574
- Heavy-duty one-piece pushrods are also highly recommended; see PART #0928-0091 on page 583
- 2250 to 6250 rpm range

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1210	521 chain drive cam

REAPER® CAMS FOR M-EIGHT continued on next page.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

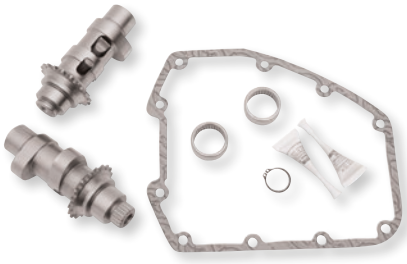
All part numbers in BLUE are new for 2026.

FEULING REAPER® CAMS FOR M-EIGHT (CONT)

538 CAM

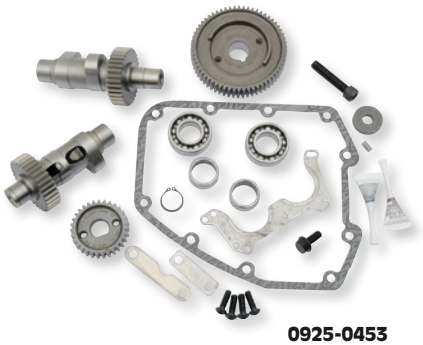
- Aggressive camshaft with a nasty sound
- Revs up fast and pulls hard in engines with big bore cylinders, modified cylinder heads, intake, compression and exhaust
- The Reaper® 538 grind will shine in 124" and larger cubic inch engines with added compression ratio
- Ported cylinder heads are not required, but will complement the cam and add even more pulling power throughout the range
- The stock throttle body produces an excellent powerband and use of a high-flow throttle body will increase peak power numbers
- A high-flow exhaust system and air cleaner is highly recommended for optimal performance
- Feuling® recommends matching this cam with Race Series oiling system
- High lift valve springs are required on stock cylinder heads; see Feuling BeeHive valve spring kit PART #s 0926-2973 or 0926-2974 on page 574
- SE cylinder heads have high lift valve springs, but will need to be verified
- Heavy-duty one piece pushrods are also highly recommended; see PART #0928-0091 on page 583
- 2250 to 6250 rpm range

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1372	538 chain drive cam



592 CAM

- Get serious with bore size, ported cylinder heads and throttle body
- Aggressive camshaft requiring high lift and higher load valve springs, performance pushrods and lifters
- High-flow air cleaner and triple-stepped exhaust pipe highly recommended
- Feuling® also recommends matching this cam with Race Series oiling system PART #s 0932-0199 or 0932-0218
- Requires High lift/high load valve springs; see PART #0926-3138 on page 574
- Heavy-duty pushrods are highly recommended; see PART #0928-0091 on page 583
- High lift valve springs, performance pushrods and lifters required
- 2350 to 5975 rpm range



PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 121" VVT MOTORS)	
0925-1265	592 chain drive cam

0925-0443

0925-0453

EASY START CAM KITS FOR TWIN CAM

- Start any engine regardless of displacement or compression ratio with a stock starter
- Saves your starter and battery; tested for 10.000 starts without running battery down
- Allow for easy start by initially reducing crank compression, but once the engine starts and rpm increases, the compression release lobe is centrifugally retracted and the engine runs normally, with full compression, and without any loss in performance
- Available in chain drive and gear drive versions
- All chain-drive cams include installation kit
- All gear-drive cams include 4-gear set and installation kit
- Gear-drive cams also available with inner gears only; intended for cam replacement for motors that have already been converted to an S&S gear-drive system

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: Due to the inherent characteristics of gear drives, you may experience more valve train noise.

NOTE: Not for models with OEM compression releases.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

EASY START CAM KITS FOR TWIN CAM (CONT)

HP103 EZ CAMS

- Bolt-in cam for 103" and 106" Big Bore Twin Cam motors
- Use with stock heads (up to 10,2 compression) and low-restriction intake and exhaust
- Great for lighter bikes with strong power from 3500 to 6000 rpm

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0830	Chain drive cam kit

MR103 EZ CAMS

- Bolt-in cam for 103" Twin Cam motors
- Use with stock heads and low restriction intake and exhaust
- Broad torque curve improves output over stock over the entire rpm range

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0832	Gear drive cam kit
0925-0829	Chain drive cam kit
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-1046	Gear drive cam kit

551 EZ CAMS

- Optimized for 88"/96"/103" to 106" Touring bikes with slip-on mufflers and 9 to 10:1 compression
- Best bolt-in cam available for most 05-16 Dressers
- Can be used with stock pushrods, springs and lifters
- Pulls hard from idle to 4000 rpm

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0443	Chain drive cam kit
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0453	Gear drive cam kit
0925-0521	Chain drive cam kit

557 EZ CAMS

- Designed for Tri-Glides and other heavy bikes needing good bottom and mid-range performance
- Bolt-in design

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0613	Chain drive cam kit

570 EZ CAMS

- For 88/95/96/103 cubic-inch engines
- Compression ratios below 10:1
- 99-04 models require high-lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0444	Chain drive cam kit

583 EZ CAMS

- Optimized for use as a great overall cam for Softail and Dyna, but can be used in any Big Twin
- Provides strong low-end torque and horsepower you can really feel

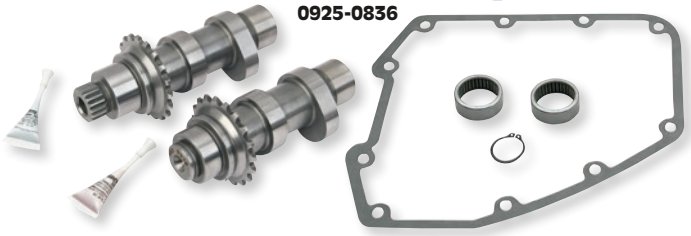
PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0450	Gear drive cam kit
0925-0445	Chain drive cam kit

- Strongest from 1500 to 5000 rpm in a Softail and Dyna application
- 99-04 models require high-lift springs

PART #	DESCRIPTION
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0523	Chain drive cam kit

585 EZ CAMS

- Optimized for 95" to 106" with slip-on mufflers, high-flow air filter and 9 to 10,5:1 compression
- Great results from 3000 to 6000 rpm
- 99-04 models require high-lift springs and adjustable pushrods



PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0451	Gear drive cam kit
0925-0446	Chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 BIG TWIN (EXCEPT 06 DYNA)	
0925-0455	Gear drive cam kit

GEAR DRIVE/CHAIN DRIVE CAM KITS FOR TWIN CAM

- Camshaft gear drive kits increase valve timing accuracy by eliminating timing chain lash and loosely fit stock chain drive
- Reverses the rear cam's direction of rotation, providing additional operating clearance between cam lobes; as a result, higher cam lifts are possible with the gear drive kit
- Kits include cams, inner gears, outer drive gears, inner and outer bearings, gasket and instructions
- Material must be removed from the inner surface of the stock gear cover to install S&S gear drive cams
- A hydraulic press and other professional-level tools are required to install these kits
- S&S recommends that adjustable pushrod/ cover kit PART #0928-0017 be used
- Cam bearings and gaskets must be replaced when installing new cams
- Cams are also available with inner gears only; intended for cam replacement for motors that have already been converted to an S&S gear-drive system

NOTE: Kits require high-performance valve springs (except 509G and 510G) when installed in 99-04 models.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: Due to the inherent characteristics of gear drives, you may experience more valve train noise.

HP103 SERIES GRIND CAMS

- Bolt-in cam for 103" and 106" Big Bore Twin Cam motors
- Use with stock heads (up to 10,2 compression) and low-restriction intake and exhaust
- Great for lighter bikes with strong power from 3500 to 6000 rpm

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1044	HP103 chain drive cam kit
0925-1050	HP103 gear drive cam kit

474 SERIES GRING CAMS

- Original equipment specifications
- Bolt-in cam with stock cam timing
- Does not require tuning

PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA	
0925-1615	474 chain drive cam kit

509 SERIES GRIND CAMS

- Bolt-in cams for 88 CID engines with stock compression ration
- Great low and mid-range torque
- Lower lift allows them to be bolted into stock 96" to 106" 06 engines with stock valve springs
- Strongest from 1000 to 4500 rpm
- 180 psi cranking compression; no need for compression releases

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0540	509G gear drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) (CONT)	
0925-0539	509C chain drive cam kit

Exhaust	50°	22°	252°	0,585"

CHAIN DRIVE CAM KITS FOR TWIN CAM

- Cams for 00-06 Twin Cam are for use with stock splined drive gears; for installation on 99 Twin Cam motors you must purchase splined outer drive sprocket; S&S recommends that Andrews 4340 steel drive sprocket PART #DS-199175 be used
- Cams for 06 Dyna and 07-17 Twin Cam are for use with models with hydraulic tensioner chain-drive system; cams 510C and 551C are bolt-in applications, all others require high-lift valve springs

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

MR103 CAMS

- Bolt-in cam for 103" Twin Cam motors
- Use with stock heads and low-restriction intake and exhaust
- Broad torque curve improves output over stock over the entire rpm range

PART #	DESCRIPTION

GEAR DRIVE/CHAIN DRIVE CAM KITS FOR TWIN CAM (CONT)

510 SERIES GRIND CAMS

- 510G/510C cams are designed as bolt-in cam for 88", 95", 96" and 103" engines with compression ratios below 9,7:1
- Strongest from 3000 to 5500 rpm
- Stock pushrods and valve springs acceptable

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0156	510G gear drive cam kit
0925-0346	510C chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
2007-2510	510G gear drive cam kit
0925-0532	510C chain drive cam kit

551 SERIES GRIND CAMS

- Designed as bolt-in cam for touring bikes with compression ratio between 9:1 and 9:9
- More power across the rpm range, with improved low and midrange torque
- Strongest from 1000 to 4000 rpm
- Can be used with stock pushrods, springs and lifters (except 99-04)
- 99-04 models require high lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0743	551C chain drive cam kit
0925-0959	551G gear drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0526	551C chain drive cam kit
0925-0742	551G gear drive cam kit

557 SERIES GRIND CAMS

- Designed for Tri-Glides and other heavy bikes needing good bottom and mid-range performance
- Bolt-in design

PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA	
0925-1158	557C chain drive cam kit

570 SERIES GRIND CAMS

- 570G/570C chain drive cams are for 88/96/103 cubic-inch engines with compression ratios between 9:1 and 10:1
- Strongest from 3200 to 3700 rpm
- 99-04 models require high-lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0157	570G gear drive cam kit
0925-0348	570C chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0527	570C chain drive cam kit
2007-2570	570G gear drive cam kit

583 SERIES GRIND CAMS

- Great overall cam for Softail and Dyna
- Provides strong low-end torque and horsepower
- Strongest from 1500 to 5000 rpm
- 99-04 models require high lift springs

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0745	583C chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0744	583G gear drive cam kit

585 SERIES GRIND CAMS

- 585G gear drive cams are for 88/96/103/110 cubic-inch engines with compression ratios from 10:1 to 10,5:1
- 585C chain drive cams are designed for 88" to 107" engines with compression ratios from 10 to 10,5:1 and 100" and 107" engines with ratios 9,7:1 to 10,5:1
- Strongest from 3500 to 6000 rpm
- 99-04 models require high-lift springs and adjustable pushrods

PART #	DESCRIPTION
FOR 07-17 TWIN CAM AND 06 DYNA	
0925-0158	585G gear drive cam kit
0925-0349	585C chain drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
2007-2585	585G gear drive cam kit

635 H.O. SERIES GRIND CAMS

- High-power cam for modified engines, increase compression, high-lift springs, adjustable pushrods and large-bore throttle body required
- For best results requires ported heads, low-restriction intake/exhaust
- Rpm range 4000 to 6500
- High-lift springs and adjustable pushrods required

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0836	635 H.O. chain drive cam kit

FEULING

REAPER® CAMS FOR TWIN CAM

- Produce more power and torque in the riding rpm range increasing throttle response, acceleration and fuel mileage
- Wide lobe separations produce wide power bands
- Smooth camshaft lobe ramps are easier on valve-train components and eliminate excessive valve-train noise and wear
- Dyno proven and track tested

525 CAMS

- Designed to increase torque band width and increase fuel economy
- Great bolt-in camshaft upgrade for stock 88" and 96" engines; also performs very well in 103" strokers and will respond well to increased compression and cylinder head work
- Produces strong low- and mid-range power with linear horsepower and torque curve
- Can be used with factory valve springs, pushrods and lifters
- Increases throttle response and eases starting
- 1750 to 5500 rpm power range

525 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0427	525C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0425	525G gear drive cam kit
0925-0513	525C chain drive cam kit

574 CAMS

- Wicked power band for modified engines and an excellent bolt-in for stock 96", 103" and 110" engines; a great all-around camshaft with solid low end performance and mind-blowing mid and top end power
- Responds well to modified cylinder heads, increased compression ratio, performance exhaust and intake systems
- Extremely smooth cam lobe design creates a smooth and quiet valve train
- Performance valve springs required on 99-04 engines and performance pushrods and lifters recommended
- 2100 to 6500 rpm power range

574 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0429	574G gear drive cam kit
0925-0430	574C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0428	574G gear drive cam kit
0925-0514	574C chain drive cam kit

- Feuling® camshaft installation kits recommended; see page 615
- Optimized cam timing provides easy starting without the need for mechanical devices or compression releases

NOTE: Installation of gear drive cams will require the separate purchase of a S&S 4-gear gear drive kit; see page 616.

543 CAMS

- The 'Freeway Flyer', great camshafts for those who want more top end power than the 525 cams without sacrificing low end torque
- Extremely smooth cam lobe layout maintains quiet valve train and produces the smoothest cruise power band available
- Excellent bolt-in camshaft for stock to mild 96" and 103" engines and works well in 88" and 95" engines
- Cam is easy starting, increases throttle response and fuel mileage. Responds well to increased compression ratio, performance exhaust and a high-flow air cleaner
- Performance valve springs are required on 99-04 engines and performance pushrods and lifters are recommended but not required
- 1900 to 6000 rpm power range

543 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0727	543G gear drive cam kit
0925-0673	543C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0674	543G gear drive cam kit
0925-0670	543C chain drive cam kit

594 CAMS

- Fierce performing camshaft for an array of engine sizes, large displacement 103", 110" and 124" engines looking for a superior torque band with excellent horsepower gains in heavy bikes (2200 to 6250 rpm)
- Smaller high-revving displacement 95" style engines in lighter bikes looking to twist the throttle and tap into some horsepower (2500 to 6800 rpm)
- Large displacements respond well to increased compression ratio and smaller displacements will require it

NOTE: 594 cams require high-performance valve springs, pushrods, lifters, carburetor and or throttle body work, performance exhaust, intake and clutch.

594 CAMS	
PART #	**DESCRIPTION**
FOR ALL 07-17 TWIN CAM, 06 DYNA	
0925-0728	594G gear drive cam kit
0925-0677	594C chain drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0676	594G gear drive cam kit
0925-0675	594C chain drive cam kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

REAPER® CAMS FOR TWIN CAM (CONT)

630 CAMS

- Vicious power gains, wide streetable power band from high-lift-profile camshaft for high-performance engines with highly modified cylinder heads and compression ratio
- Carburetor and or throttle body work required along with a performance exhaust and intake system
- Maintains low end performance with eye-blurring mid and top end power
- High-performance valve springs, pushrods and lifters required
- 2500 to 6900+ rpm power range

630 CAMS	
PART #	**DESCRIPTION**

REAPER® CONVERSION CHAIN-DRIVEN CAMS FOR TWIN CAM

- Update old mechanical-style cams and tensioners to new-style hydraulic tensioner system
- Produce more power and torque increasing cranking compression, improving throttle response, acceleration and fuel mileage
- Conversion cams are a hybrid, with early 99-06 inner cam journals and late 07-17 outer cam journals. These cams use the 07-17 camplate and oil pump with 07-17 style hydraulic tensioners, chains, sprockets and spacers - purchased separately (options include PART #s 0925-1060, 0925-1061)

525CC CAMS

- Designed to increase torque band width and increase fuel economy
- Great bolt-in camshaft upgrade for stock 88" and 96" engines also performs very well in 103" strokers, will also respond well to increased compression and cylinder head work
- Produce strong low- and mid-range power with linear horsepower and torque curve
- Can be used with factory valve springs, pushrods and lifters
- Increase throttle response and ease starting
- 1750 to 5500 rpm power range

ANDREWS

CAMS FOR TWIN CAM

- Andrews Products grinds its cams with the help of a computer with cam design capabilities
- Superior technology gives the utmost in both performance and reliability
- Only the best alloy steel billets and heat-treating processes are utilized
- H-D Twin Cam engine power can be made even more convincing when superior Andrews computer-designed high-performance cams are installed

NOTE: All Andrews gear-driven cams require four-gear set for installation (PART #DS-199532 for 99-06 applications; PART #s 0925-0166 or 0925-0152 for 07-17 Twin Cam and 06 Dyna applications).

NOTE: Chain-driven cams: 00-06 model cams use a splined cam drive sprocket. These cams will fit in the 1999 Twin Cam motor, but the splined cam drive sprocket OEM #25716-99 or PART #DS-199175 must be used.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

0925-0597

TW9 SERIES GRIND CAMS

- Bolt-in cam with more power through the entire rpm range (1000 to 5400 rpm)
- Use stock springs

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0597	TW9 chain-drive cam kit

21 SERIES GRIND CAMS

- Bolt-in cam for more torque with stock compression
- Run best with low-restriction exhausts (1700 to 5200 rpm)
- Similar to the EV-23 cam
- Cams work well with fuel injection or carburetor models
- Can be used with stock valve springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0168	21HG gear-drive cam kit
0925-0112	21H chain-drive cam kit

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
DS199250	21G gear-drive cam kit
DS-199176	TW21 chain-drive cam kit

ANDREWS

CAMS FOR TWIN CAM (CONT)

26 SERIES GRIND CAMS

- Bolt-in cam for lower rpm torque on heavier bikes
- For two-up touring
- Good power from 1800 to 5500 rpm
- Can be used with stock springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0169	26HG gear-drive cam kit
0925-0113	26H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
DS-199179	TW26A chain-drive cam kit

31 SERIES GRIND CAMS

- Great cam for motors with 95+ inches and 10:1 compression ratio
- Lower TDC lift means easy installation
- Similar to 37G but different timing (2000 to 5800 rpm power range)
- Can be used with stock springs and tappets

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0114	31H chain-drive cam kit

37 SERIES GRIND CAMS

- Bolt-in cams
- Smooth idle with broad torque band
- Run best with low-restriction exhausts (2200 to 5800 rpm)
- Can be used with stock valve springs and tappets
- Works well with carbs or fuel injection

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0115	37H chain-drive cam kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
DS-199180	TW37 chain-drive cam kit

TW48 SERIES GRIND CAMS

- Broad tip cams for baggers with stock motors; max torque at low- and mid-rpm ranges
- Use stock springs

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0598	TW48 chain-drive cam kit
FOR ALL 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1274	TW48 chain-drive cam kit

55 SERIES GRIND CAMS

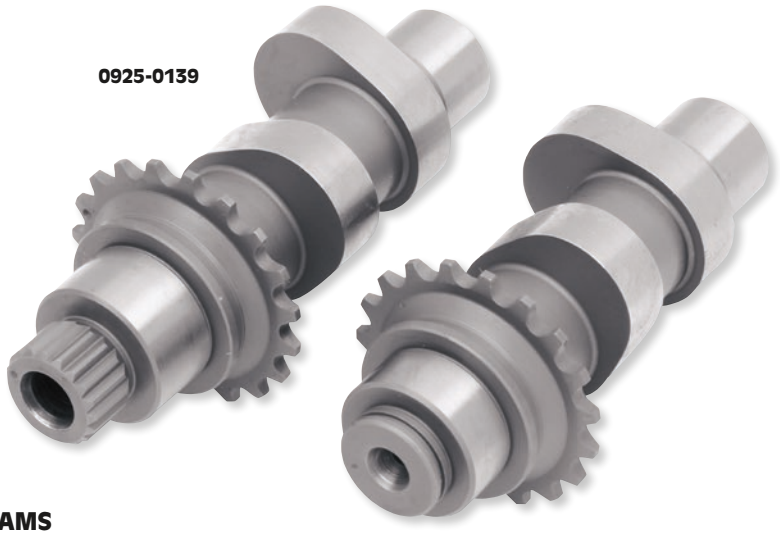
- Cams for maximum torque and horsepower at higher rpm ranges (2600 to 6000+ rpm)
- Designed for engines with 9,5:1 compression ratio or higher with 88"-95"
- Coil bind must be checked, but stock tappets can be used

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0175	55HG gear-drive cam kit
0925-0118	55H chain-drive cam kit

57 SERIES GRIND CAMS

- Bolt-in broad tip cams; 96", 103" Limited and 110" CVO engines
- Cams work best at rpm range of 2200 to 5600

PART #	DESCRIPTION
FOR ALL 07-17 TWIN CAM AND 06 DYNA	
0925-0668	57H chain-drive cam kit



PART #	DESCRIPTION
FOR ALL 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-1275	57H chain-drive cam kit

ANDREWS

TWIN CAM CONVERSION CHAIN DRIVEN CAMS

- Allow you to upgrade your 99-06 Twin Cam (except 06 Dyna) to the newer roller-style cam chains and replaces the spring tension cam chain adjusters with the later-style hydraulic adjusters for longer life
- Cam grinds listed are designed to be used with stock lifters; they require the installation of a 07-17 cam plate, oil pump, cam sprockets and chains, and both hydraulic chain adjusters (these parts are not included and must be purchased separately)
- A list of required components is supplied with each set of cams
- Performance should be similar to earlier bikes with the same cam grinds

NOTE: 99-06 Twin Cam motors (except 06 Dyna) cannot use the 07-17 cams, as the bearing journal on the earlier motors is 0,875" in diameter and the 07-17 cams are 1,000" in diameter. The "N" series of cams feature the 0,875" bearing journal, yet still accept the new-style cam support plate.

NOTE: 99-01 model motors must use the Andrews rear cam sprocket Drag PART #0925-0147. 02-06 models must use the stock rear cam sprocket, OEM #25728-06.

NOTE: Installer must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)

"12N" GRIND CAMS

- Bolt-in cams with the same output as the stock cams
- Slight power increase when compared to stock
- No retuning of the stock system is necessary
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0139	"12N" grind cams

"21N" GRIND CAMS

- Bolt-in cams with more torque at low and middle rpm range (1700 to 4800 rpm)
- Similar to EV23 for heavy bikes
- Ideal for heavy bikes with stock compression ratios and stock pistons
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0140	"21N" grind cams

"26N" GRIND CAMS

- Bolt-in cams for low rpm torque and two-up touring
- Add more torque and horsepower at low and middle rpm range (1800 to 5200 rpm)
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0141	"26N" grind cams

"37N" GRIND CAMS

- Bolt-in cams for 88" or 95" motors
- Smooth idle, broad torque band
- Run best with low-restriction exhausts (2200 to 5800 rpm)
- Can be used with stock valve springs and tappets

PART #	DESCRIPTION
0925-0143	"37N" grind cams

FEULING

REAPER® CAMS FOR XL

505/515 CAMS

- Produce a wide powerband in stock engines
- Split lift camshaft produces a solid powerband with top fuel sound
- Can be used with stock pushrods and valve springs
- Feuling® recommends new camshafts with new lifters (not required)

580 HIGH LIFT CAMS

- Designed for riders who want more horsepower and the powerband higher in the rpm range
- Requires high-lift valve springs (Feuling® Beehive® Endurance or High Load valve springs recommended)
- Higher compression also recommended, along with performance pushrods and lifters
- High-flow intake and performance exhaust required

NOTE: Most cam compartments will need to be machined to make clearance for 580 High Lift cams.

NOTE: Does not fit XR models.

0925-0748

DS-199076

DS-199295

XL AND BUELL CAMS

- Cams run to 6500 rpm with stock hydraulic lifters; recommend solids not be installed
- Stock base circle sizes allow the use of stock pushrods
- V2 and N2 are bolt-in cams for stock applications designed for up to 6000 rpm
- N3 cams are bolt-in for 05-17 883/1200 engines with stock springs and heads (cams for 04-06 models with more than 0,465" lift may need different valves, springs and collars)
- V4 and N4 are for stock or modified applications and have a slightly higher idle speed, but can be used with stock hydraulic lifters and springs; rpm range of 2500 to 6500

S&S CAMS FOR SPORTSTER ENGINES

- S&S Cams are tested on the dyno, street and track before being offered to the public
- With hundreds of hours of testing on each cam, you know you are getting the best cam S&S can produce

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

482 CAMS

- Bolt-in cam for 00-19 models only
- Recommended for S&S 883 cc to 1250 cc conversion kits
- Best performance gains 3500 to 6500 rpm
- Compatible with stock valve springs and stock non-adjustable pushrods

500 CAMS

- Bolt-in cams that provide excellent torque with stock or ported heads
- Recommended for modified engines up to 89" displacement and 9:1 to 10,5:1 compression ratio
- Will work in 89" to 100" engines with less than 9:1 compression
- Normal clearancing checks recommended
- 2000 to 6000 rpm
- Works with stock valve springs and stock non-adjustable pushrods

NOTE: 00-22 XL (except RH Sportster) and 00-02 Buell models with stock flywheels require use of 91-99 style pinion gears.

GEARS FOR M-EIGHT GEAR DRIVEN CAMS

- A two-gear set is required for gear-driven cams that do not come with secondary cam gears
- Due to the inherent characteristics of gear drives, you may experience more valve train noise with gear-driven cams; oversized and undersized pinion gears are available to help achieve correct gear lash (sold separately)
- Drive gear kit and pinion gears must be purchased separately

NOTE: It is the installer's responsibility to check all clearances and follow all procedures in the S&S instructions and Harley-Davidson manual.

0950-0866

0950-0864

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0950-0866[1]	Drive gear kit
0950-0863	Pinion gear, undersized
0950-0864	Pinion gear, standard

[1] Drive gear only.

GEAR SETS FOR TWIN CAM GEAR-DRIVEN CAMS

- A four-gear set is required for gear-driven cams that do not come with secondary cam gears; includes two secondary cam gears, outer cam drive gear, outer pinion drive gear and mounting hardware
- Due to the inherent characteristics of gear drives, you may experience more valve train noise with gear driven cams; oversized and undersized gears are available to help achieve correct gear lash

NOTE: It is the installer's responsibility to check all clearances and follow all procedures in the S&S instructions and Harley-Davidson manual.

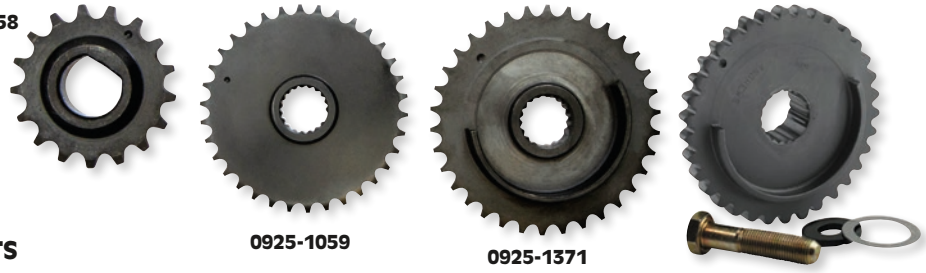
CAM CHAIN DRIVE SPROCKETS

- Manufactured from 4340 steel
- Cam drive sprockets replace the stock 34-tooth cam drive sprocket and include shims
- Crankshaft cam drive is a 17-tooth sprocket that can be used with OEM cam drive sprocket
- Sold each

PART #	DESCRIPTION
CAM DRIVE SPROCKETS	
DS-199175	For 00-06 Twin Cam motors (except 06 Dyna), splined; repl. OEM #25716-99
CRANKSHAFT CAM DRIVE SPROCKETS	
0925-1204	For 07-17 Twin Cam motors, 17-23 M-Eight; repl. OEM #25673-06



ROLLER CONVERSION CAM SPROCKET

- 34 teeth with ignition trigger ring
- Must use with 99-01 engines with stock ignition and cam position sensor
- 02-06 engines can use stock rear cam drive sprocket
- Trigger ring required for 99-01 engines with rear cam drive sprockets to permit engine control system to function correctly
- For use with Andrews Twin Cam Conversion Chain Driven Cams; see page 612

PART #	DESCRIPTION
0925-0147	Roller conversion cam sprocket

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FEULING

CAM CHAIN DRIVE SPROCKETS

- Machined steel, stock replacement roller chain drive sprockets fit 17-25 M-Eight and 07-17 Twin Cam engines as direct replacements and work on early 99-06 engines when upgrading to the hydraulic cam chain tensioners using the roller chain

PART #	DESCRIPTION
FOR 17-25 M-EIGHT, 07-17 TWIN CAM MOTORS	
0925-1058	Crankshaft cam drive sprocket, 17-tooth; repl. OEM #25673-06
FOR 07-17 TWIN CAM MOTORS	
0925-1059	Cam drive sprocket (Twin Cam only), 34-tooth; repl. OEM #25728-06
FOR 99-01 TWIN CAM MOTORS	
0925-1371	Rear cam outer chain sprocket for engines with Magneti Marelli ignition using updated hydraulic chain drive system with 07-17 style outer chain, 34-tooth
0925-1370	Rear cam outer chain sprocket for engines with Magneti Marelli ignition using factory 99-06 style outer chain, 34-tooth

FEULING

CAMSHAFT SPROCKET SPACING ALIGNMENT/THRUST WASHER KIT

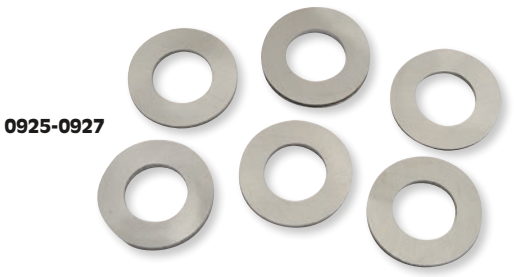
- Fits stock and stock replacement camshafts and conversion camshaft upgrades on 99-06 engines to the hydraulic chain tensioner system
- Conversion camshafts use the late 07-17 style camplate and oil pump
- Alignment washers are used to align the rear camshaft sprocket with the crank sprocket to achieve correct chain alignment
- Kit includes front cam thrust washer 0,100", rear cam sprocket alignment washers 0,110", 0,120", 0,130", 0,140" and 0,150"

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
0925-0951	For 17-25 M-Eight (except 121" VVT motors), 07-17 Twin Cam, 06 Dyna; repl. OEM #25729-06

FEULING

CAMSHAFT SPROCKET ALIGNMENT SPACER KIT



- Spacers fit stock and stock replacement early style camshafts and conversion camplates which update the early style camshafts to the late style hydraulic tension system
- Conversion camplates use the original style 99-06 camshafts with the original style silent chain in the rear
- Spacers are used to align the rear camshaft sprocket with the crank sprocket to achieve correct chain alignment
- Kit includes one each of the following thickness spacers: 0,297"; 0,307"; 0,317"; 0,327"; 0,337"; 0,347" and 0,357"

PART #	DESCRIPTION
0925-0950	For all 99-06 Twin Cam motors (except 06 Dyna); repl. OEM #25285-08

Eastern M C Parts

CAM DRIVE SPROCKET SPACERS

- Available in sizes from 0,100" to 0,150" in a six-piece assorted set
- Individual sizes sold in 5-pack

FEULING

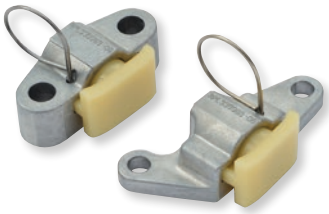
HYDRAULIC CAM CHAIN TENSIONER ASSEMBLIES

- Tensioner housings are precision machined from billet 6061 aluminum, pads are injection-molded nylon with PTFE added to increase wear and friction resistance
- Single piston duplicating the output pressure of stock units
- Include ARP® 12-point hardware
- Tensioners fit Feuling®, factory and SE 07-17 camplates and conversion camplates designed to run the early 99-06 camshafts

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0925-1607	Hydraulic tensioner assembly (ea.); repl. OEM #25500013
FOR 07-17 TWIN CAM, 06 DYNA, CHAIN DRIVE AND CONVERSION CAMPLATE	
0925-1066[1]	Inner/outer hydraulic tensioner kit; repl. OEM #s 39968-06, 39969-06
0925-1065[1]	Inner hydraulic tensioner (ea.); repl. OEM #39969-06
0925-1064[1]	Outer hydraulic tensioner (ea.); repl. OEM #39968-06

[1] Fit Feuling®, factory and SE 07-17 camplates and conversion camplates designed to run early 99-06 camshafts.

FEULING



HYDRAULIC CAM CHAIN TENSIONER PADS

- Tensioner pads are a direct drop-in replacement for the factory cast tensioner housings as well as the billet Feuling® tensioner housings
- Pads are injection molded nylon with PTFE added to increase wear and friction resistance
- Tensioners are single piston, duplicating the output pressure of stock units
- Replacement pads include new hydraulic lash units
- Fit inner and outer factory H-D cast housings and Feuling billet housings
- Sold in pairs

PART #	DESCRIPTION
0925-1067	For 07-17 Twin Cam, 06 Dyna

DRAG Specialties

CAM CHAIN TENSIONER KIT

- Stock replacement hydraulic cam chain tensioners
- Sold as a primary/secondary 2-piece kit

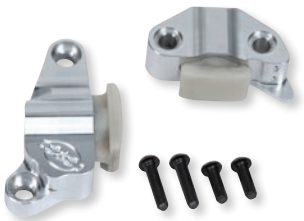
PART #	DESCRIPTION
0925-1162	For 07-17 Twin Cam, 06 Dyna; repl. OEM #s 39968-06 and 39969-06

DRAG Specialties

CAM CHAIN TENSIONERS

0950-0960

0950-0961



- High quality replacement components
- Sold each

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0950-0960	Primary chain tensioner; repl. OEM #39954-99/39954-99A
0950-0961	Secondary chain tensioner; repl. OEM #39964-99/39964-99A

S&S PERFORMANCE

CAM CHAIN TENSIONERS

- For use in stock 07-17 Twin Cam engines with a hydraulic upgrade cam plate like the S&S TC3 bodies machined from 6061 aluminum
- Larger diameter piston and tighter tolerance fit of the shoe in the body provide improved stability, no more rocking shoes
- Thicker pad for longer wear between service
- Replaceable shoes fit S&S tensioners only
- Chain oiling feature; provides oil to the chain rails right before crossing the tensioner for increased lubrication and greater cooling

0925-1073

0925-1076

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-1073	Tensioner kit
0925-1076	Repl. tensioner shoe

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

CAM CHAIN TENSIONER FOR M-EIGHT

- Precision-machined from 6061 billet aluminum
- Larger diameter piston and tighter tolerance fit for more consistent pressure
- Thicker pad for longer wear between service
- Direct chain oiling

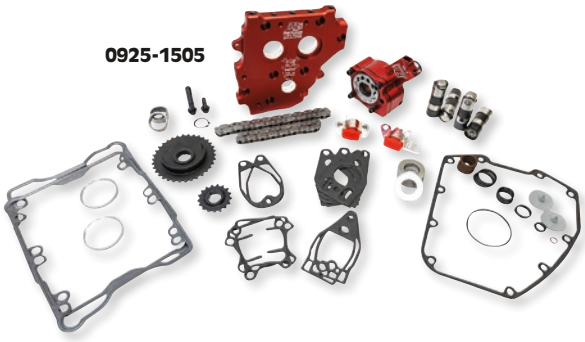
PART #	DESCRIPTION
0950-0962	For 17-25 M-Eight

FEULING

HP+® CONVERSION CAMSHAFT HYDRAULIC CAM CHAIN TENSIONER KITS

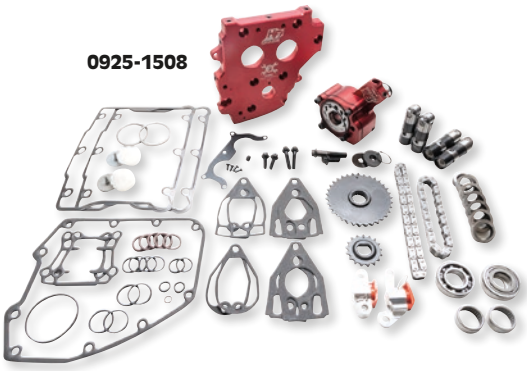
0925-1501

- Kits includes the needed components to upgrade early 99-06 style mechanical spring tensioner cam chain drive systems to the late 07-17 hydraulic cam chain drive system
- Includes a Feuling® HP+® billet oil pump, High Flow camplate, HP+ lifters, Feuling's billet hydraulic tensioner housings, tensioner pads, cam chains, sprockets, sprocket alignment spacers, Timken®/Feuling bearings, needed gaskets, O-rings, ARP® cam, crank hardware, Loctite® and moly lube



NOTE: Rocker box gasket kit included so the factory one-piece pushrods can be reused.

PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1501[1]	Conversion Camshaft Hydraulic Tensioner Kit for 99-00 Twin Cam and 01 EFI Touring engines w/ cam position sensor requiring the timing tab on the rear camshaft sprocket for the cam sensor
0925-1502[1]	Conversion Camshaft Hydraulic Tensioner Kit for 01-06 Twin Cam engines w/o cam sensor
FOR 99-06 STYLE CAMSHAFTS	
0925-1503[2]	Conversion camplate Hydraulic Tensioner Kit for 99-00 Twin Cam and 01 EFI Touring engines w/ cam position sensor requiring the timing tab on the rear camshaft sprocket for the cam sensor w/ factory 00-06 style splined chain drive camshafts
0925-1504[2]	Conversion camplate Hydraulic Tensioner Kit for 01-06 Twin Cam engines w/o cam sensor and factory style 00-06 splined chain drive camshafts



[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0672.

[2] Will NOT work on keyway camshafts.

0925-1505

0925-1508

RACE SERIES® HYDRAULIC CAM CHAIN TENSIONER CONVERSION KITS

- Kits include the needed components to upgrade early 99-06 style mechanical spring tensioner cam chain drive systems to the late 07-17 hydraulic cam chain drive system
- Includes a Feuling® Race Series® billet oil pump, High Flow camplate, Race Series full-travel lifters, Feuling's billet hydraulic tensioner housings, tensioner pads, cam chains, sprockets, sprocket alignment spacers, Timken®/Feuling bearings, needed gaskets, O-rings, ARP® cam, crank hardware, Loctite® and moly lube

NOTE: Rocker box gasket kit included so the factory one-piece pushrods can be reused.

PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1505[1]	Conversion Camshaft Hydraulic Tensioner Kit for 99-00 Twin Cam and 01 EFI Touring engines w/ cam position sensor requiring the timing tab on the rear camshaft sprocket for the cam sensor
0925-1506[1]	Conversion Camshaft Hydraulic Tensioner Kit for 01-06 Twin Cam engines w/o cam sensor
FOR 99-06 STYLE CAMSHAFTS	
0925-1507[2]	Conversion camplate Hydraulic Tensioner Kit for 99-00 Twin Cam and 01 EFI Touring engines w/ cam position sensor requiring the timing tab on the rear camshaft sprocket for the cam sensor and factory 00-06 style splined chain drive camshafts
0925-1508[2]	Conversion camplate Hydraulic Tensioner Kit for 01-06 Twin Cam engines w/o cam sensor and factory style 00-06 splined chain drive camshafts

[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0672.

[2] Will NOT work on keyway camshafts.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

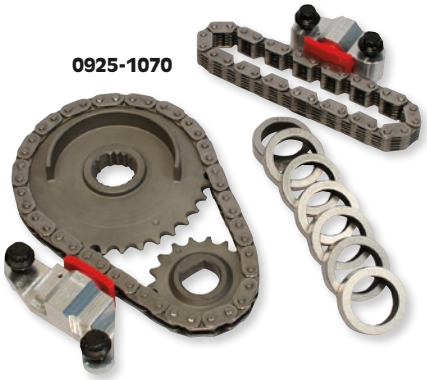
All part numbers in BLUE are new for 2026.

FEULING

0925-1063

OE+ HYDRAULIC CAM CHAIN TENSIONER CONVERSION KITS

- Cam chain tensioner conversion kits include the needed components to upgrade early 99-06 style mechanical cam chain drive systems to the late 07-16 hydraulic cam chain drive systems
- Kits include a Feuling® OE+ billet oil pump and camplate, Feuling's billet hydraulic tensioners, cam chains, sprockets, sprocket alignment spacers, Timken®/Feuling bearings, needed gaskets, O-rings, ARP® cam, crank and tensioner hardware, Loctite® and moly lube



NOTE: Rocker box gasket kit included so the factory one-piece pushrods can be reused.

PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1060[1]	Conversion Camshaft Hydraulic Tensioner Kit for 99-00 Twin Cam, 01 EFI Touring engines w/ cam position sensor
0925-1061[1]	Conversion Camshaft Hydraulic Tensioner Kit for 01-06 Twin Cam engines (except 01 EFI Touring, 06 Dyna) w/o cam position sensor
FOR 99-06 STYLE CAMSHAFTS	
0925-1062[2]	Conversion camplate Hydraulic Tensioner Kit for 99-00 Twin Cam, 01 EFI Touring engines w/ cam position sensor
0925-1063[2]	Conversion camplate Hydraulic Tensioner Kit for Twin Cam engines (except 01 EFI Touring, 06 Dyna) w/o cam sensor with factory style 00-06 splined chain drive camshafts

[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0672.
[2] Will NOT work on keyway camshafts.

0925-1068

0925-1070

OE+ HYDRAULIC CAM CHAIN TENSIONER CONVERSION KITS

- Kits allow engine builders to update early-style mechanical cam chain tensioner Twin Cam engines to the late style hydraulic cam chain tensioner systems while mixing and matching components
- Whether using a Feuling® camchest kit with conversion camshafts, Feuling conversion camplate oiling system with stock style 99-06 camshafts and/or conversion camshafts with a combination of factory, SE, Delkron® or S&S oiling systems, these kits offer endless combinations
- Kits include: Cam and crank sprockets, sprocket alignment spacers, inner and outer cam chains, inner and outer hydraulic tensioner assemblies

NOTE: PART #s 0925-1068/0925-1071 are designed to work with camchest kits: PART #s 0925-1289, 0925-1393, 0925-1293, 0925-1399, 0925-1290, 0925-1394, 0925-1291, 0925-1395, 0925-1396, 0925-1294, 0925-1400, 0925-1401, 0925-1397. Conversion camshafts: PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0672. Oiling systems: PART #s 0932-0093, 0932-0029, 0932-0030.

NOTE: PART #s 0925-1069/0925-1070 are designed to work with OE+ Conversion camplate oiling systems: PART #0932-0094, HP+® PART #0932-0071, RS PART #0932-0072. Screamin' Eagle conversion camplate oiling system: OEM #25284-11.

PART #	DESCRIPTION
FOR CONVERSION STYLE CAMSHAFTS	
0925-1068[1, 2]	For use with conversion camshafts when updating 01-06 Twin Cam engines (except 01 EFI Touring, 06 Dyna) w/o cam position sensor to the hydraulic cam chain tensioner system; requires an 07-17 style oiling system
0925-1071[1]	For use with conversion camshafts when updating 99-00 Twin Cam, 01 EFI Touring engines w/ cam position sensor to the hydraulic cam chain tensioner system
FOR 99-06 STYLE CAMSHAFTS	
0925-1069[3]	For use on 01-06 Twin Cam engines (except 01 EFI Touring, 06 Dyna) w/o cam position sensor; stock style splined drive camshafts and conversion camplate, which allows use of hydraulic tensioner system PART #0925-1063
0925-1070[3]	For use on 99-00 Twin Cam, 01 EFI Touring engines w/ cam position sensor; stock style splined camshafts and Conversion camplate, which allows use of hydraulic tensioner system PART #0925-1063

[1] Requires separate purchase of conversion camshafts PART #s 0925-0671, 0925-0606, 0925-0607, 0925-0672.
[2] Will also fit 07-17 Twin Cam and 06 Dyna models as an upgrade to the stock cam chain/sprockets and tensioners.
[3] Will NOT work on keyway camshafts.

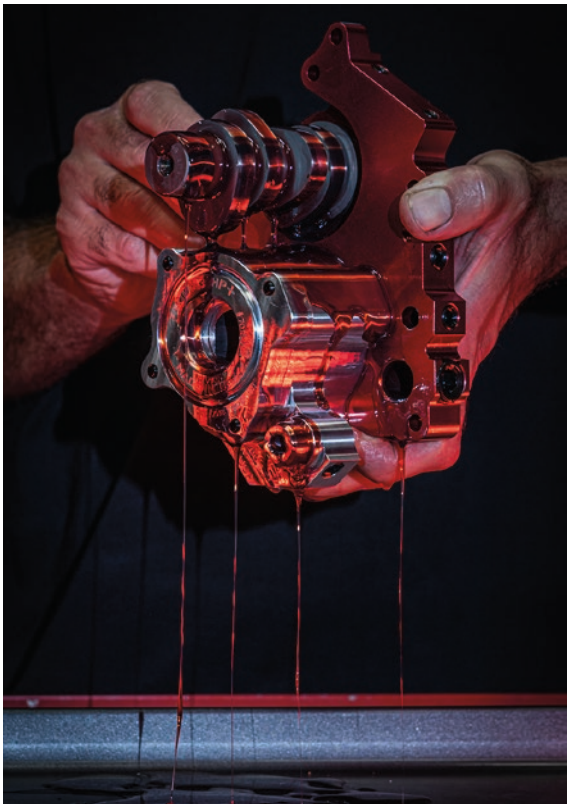
DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

OIL PUMP AND CAMPLATE FOR M-EIGHT

- Precision-machined from billet aluminum
- Independent scavenge sections for the flywheel cavity and the cam chest
- Debris screens in both scavenge pickups
- Magnet in the cam chest to help prevent debris from entering the oil pump
- Increased oil flow capacity on both the feed and scavenge side
- Adjustable pressure relief valve can be adjusted with the unit still in the engine
- Passage plugs are removable for servicing
- Blue anodized finish

0932-0250



PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0932-0250	W/ Twin Cooled engines

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (CONT)	
0932-0251	W/ oil-cooled engines

0932-0230

HP+® OIL PUMP/CAMPLATE KITS FOR M-EIGHT

- Increase oil pressure, oil volume, engine oil flow and return oil scavenging
- Quieter and smoother engine operation
- 15 to 25 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 10 to 30 more psi of oil pressure
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 hp gain and 2 ft lbs of torque gain to the rear wheel on M-Eight
- Feuling test results show as much as 50% reduction of engine sump oil level
- Includes a billet 6061 aluminum high volume oil pump and Feulings® High Flow billet camplate made from 7075 aluminum; which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function

PART #	DESCRIPTION
0925-1255	For 17-25 M-Eight Oil-Cooled motors

- Feuling oil pump and camplate combination eliminates common pressure and scavenge issues associated with the factory oiling systems
- Feuling M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Optional Camplate/oil pump fastener kit PART #2401-0993 available separately; see page 630
- PART #0925-1255 has 27% more pressure and scavenge gear volume over stock, 42% more scavenge volume through port sizing, matched passages and holes to the engine case and 68% more oil volume to the crankshaft and connecting rod bearing
- PART #0932-0230 has 30% more pressure gear volume over stock, 53% more scavenge gear volume over stock and 42% more scavenge volume with port sizing, matched passages and holes to the engine case

NOTE: The M-Eight oil pickup port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.

PART #	DESCRIPTION
0932-0230	For 17-25 M-Eight Liquid-Cooled motors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

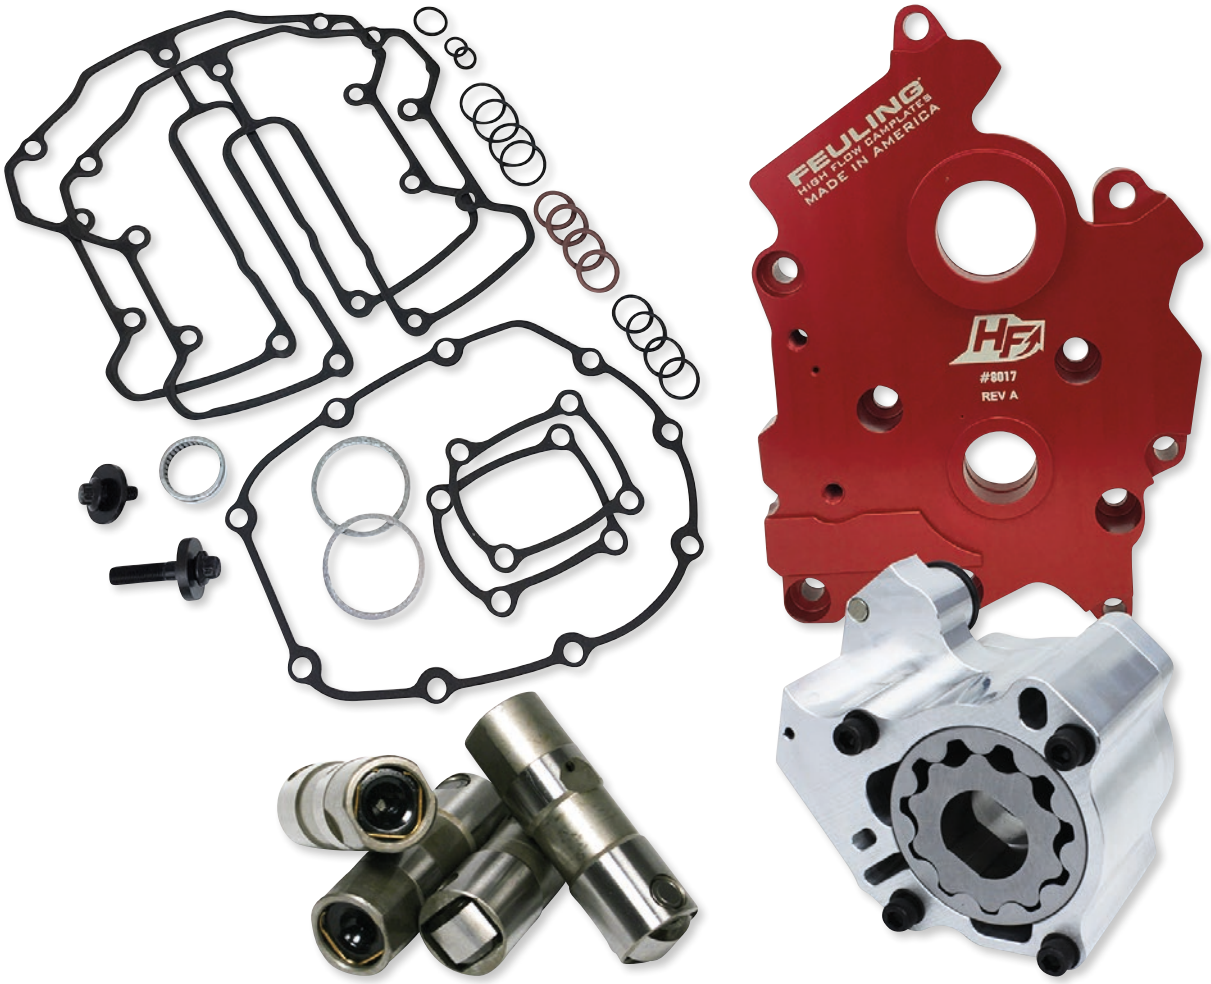
0925-1256

FEULING RACE SERIES

RACE SERIES® OIL PUMP/ CAMPLATE KITS FOR M-EIGHT

- Increase oil pressure, oil volume, engine oil flow and return oil scavenging
- Quieter and smoother engine operation
- 15 to 25 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 10 to 30 more psi of oil pressure
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 hp gain and 2 ft lbs of torque gain to the rear wheel on M-Eight
- Feuling® test results show as much as 50% reduction of engine sump oil level
- Includes a billet 7075 hard anodized oil pump which is 50% harder and stronger than the factory pump holding tighter tolerances under temperature (Race Series® M-Eight oil pumps have deeper scavenge kidneys when compared to the HP+® kidneys for increased scavenge volume)
- Also, includes Feuling High Flow billet camplate made from 7075 aluminum; which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Feuling oil pump and camplate combination eliminates common pressure and scavenge issues associated with the factory oiling systems
- Feuling M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Optional Camplate/oil pump fastener kit PART #2401-0993 available separately; see page 630
- PART #0925-1256 has 27% more pressure and scavenge gear volume over stock, 42% more scavenge volume through port sizing, matched passages and holes to the engine case and 68% more oil volume to the crankshaft and connecting rod bearing
- PART #0932-0231 has 30% more pressure gear volume over stock, 53% more scavenge gear volume over stock and 42% more scavenge volume with port sizing, matched passages and holes to the engine case

NOTE: The M-Eight oil pickup port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.



PART #	DESCRIPTION
0925-1256	For 17-25 M-Eight Oil-Cooled motors

PART #	DESCRIPTION
0932-0231	For 17-25 M-Eight Liquid-Cooled motors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FEULING

FEULING HORSEPOWER PLUS

HP+® OIL SYSTEM PACKS FOR M-EIGHT

- Includes Fueling® High Flow billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Feuling oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Fueling oil pump and camplate combination eliminate common pressure and scavenge issues associated with the factory oiling systems
- Feuling M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case
- 46% more oil volume to the crankshaft and connecting rod bearing
- 15 to 25 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures

PART #	DESCRIPTION
0932-0198	For 17-25 M-Eight Oil-Cooled motors w/ gear or chain drive

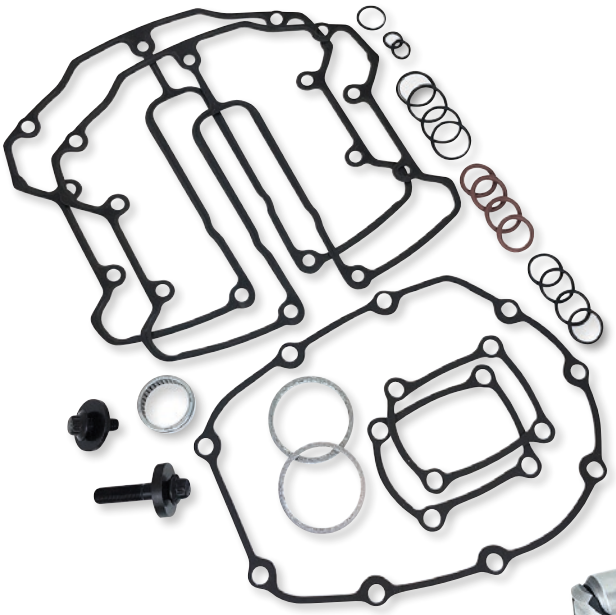
- 10 to 30 more psi of oil pressure
- M-Eight Liquid-Cooled motor oil pump specs: 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motor pump specs: 27% more pressure and scavenge gear volume over stock
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 hp gain and 2 ft lbs of torque gain to the rear wheel on M-Eight
- Includes billet 6061 aluminum high volume oil pump, High Flow camplate, HP+® Hydraulic roller lifters, cam installation kit, cam bearing, cam/crank bolts and washers, engine and fastener assembly lube

NOTE: Optional Feuling® X ARP bolt kit available for the High Flow camplate PART #0932-0192 and HP+® or Race Series® oil pump combo. See PART #2401-0993, optional ARP oil pump bolts do not use washers.

NOTE: Optional Feuling X ARP oil pump/camplate bolt kit available PART #2401-0993.

NOTE: Feuling test results show as much as 50% reduction of engine sump oil level.

NOTE: M-Eight engines must check clearance on front exhaust lifter to camshaft flange fit.



NOTE: Block-off plate PART #0932-0036 required when using gear drive cams.

PART #	DESCRIPTION
0932-0217	For 17-25 M-Eight Liquid-Cooled motors w/ gear or chain drive

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

0932-0218

FEULING RACE SERIES

RACE SERIES® OIL SYSTEM PACKS FOR M-EIGHT

- Includes Fueling® High Flow billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory or Feuling OE+ camplates
- Increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil portholes throughout the camplate to the portholes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings
- Feuling oil pumps are bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Fueling oil pump and camplate combination eliminate common pressure and scavenge issues associated with the factory oiling systems
- Feuling M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 42% more scavenge volume with port sizing, matched passages and holes to the engine case
- 46% more oil volume to the crankshaft and connecting rod bearing
- 15 to 25 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 10 to 30 more psi of oil pressure
- M-Eight Liquid-Cooled motor oil pump specs: 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motor pump specs: 27% more pressure and scavenge gear volume over stock
- Reduces wet sumping, blowby and oily air cleaners
- Test results show 2 hp gain and 2 ft lbs of torque gain to the rear wheel on M-Eight
- Includes a Race Series® oil pump, Race Series full-travel or short-travel hydraulic roller lifters, High Flow camplate and cam installation kit, cam bearing, cam/crank bolts and washers, engine and fastener assembly lube
- Billet 7075 aluminum oil pump which is 50% harder and stronger than the factory pump holding tighter tolerances under temperature
- Race Series oil pumps feature increased scavenge side kidney port volume over HP+ oil pumps
- Race Series full-travel hydraulic lifters have a full 0,200" of total travel designed with a slower bleed-down rate to handle heavy valve spring pressures, increase engine rpm before valve float and feature increased roller clearance for steep ramped camshafts and clearance for the M-Eight front exhaust camshaft lobe flange
- Race Series short-travel hydraulic lifters have 0,115" of total travel and will increase rpm by decreasing valve float and valve-train harmonics while maintaining a quiet engine
- The travel reduction reduces the amount of oil that is required to fill the inside of the lifter which reduces oil aeration inside the lifter on steep, fast action high lift camshaft lobes

NOTE: Optional Fueling® X ARP bolt kit available for the High Flow camplate PART #0932-0192 and HP+® or RS® oil pump combo. See PART #2401-0993, optional ARP® oil pump bolts do not use washers.

NOTE: Feuling test results show as much as 50% reduction of engine sump oil level.

NOTE: M-Eight engines must check clearance on front exhaust lifter to camshaft flange fit.

NOTE: Block-off plate PART #0932-0036 required when using gear drive cams.

PART #	DESCRIPTION
FOR 17-25 M-EIGHT OIL-COOLED MOTORS W/ GEAR OR CHAIN DRIVE	
0932-0199	Race Series® oil system pack (includes full-travel hydraulic lifters)
0932-0293[1]	Race Series oil system pack (includes short-travel hydraulic lifters)

PART #	DESCRIPTION
FOR 17-25 M-EIGHT LIQUID-COOLED MOTORS W/ GEAR OR CHAIN DRIVE	
0932-0218	Race Series oil system pack (includes full-travel hydraulic lifters)
0932-0294[1]	Race Series oil system pack (includes short-travel hydraulic lifters)

[1] Use w/ short-travel pushrods PART #0928-0114 on stock base circle camshafts w/ Feuling® short-travel lifters (includes Feuling grinds 405, 465, 472, 508, 521 and 592).

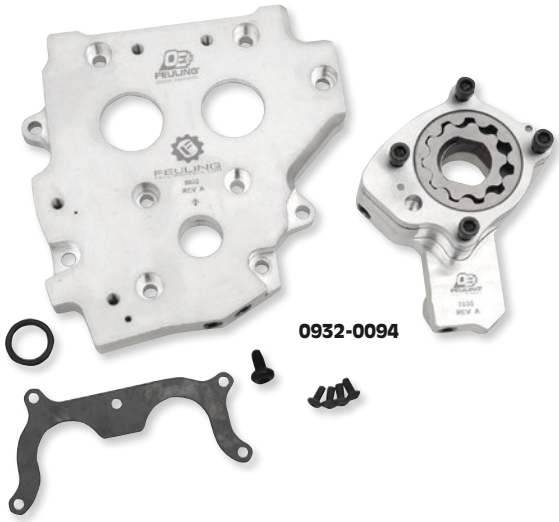
All part numbers in BLUE are new for 2026.

0932-0111

0932-0110

TC3 OIL PUMP AND CAMPLATE FOR TWIN CAM

- Precision CNC-machined forged aluminum
- Increased structural strength
- Dimensional stability
- Freedom for internal porosity
- Separate scavenge sections for flywheel cavity and cam chest scavenge each area more efficiently with no interference
- Gerotors are designed to tolerate more pinion shaft runout without damage
- Cam chest pickup features a magnetic trap to protect scavenge rotors from metal debris
- Both scavenge rotors are protected from debris, the most common cause of stock oil pump failure
- Passage plugs are removable for service
- Bronze pinion shaft bushing in all models and bronze cam bushings in 07-17 style can be replaced
- Adjustable oil pressure regulator – adjust without removing plate from engine
- 99-06 cam support plate is designed to use late-style hydraulic cam chain tensioners



PART #	DESCRIPTION
0932-0111	For 07-17 Twin Cam and 06 Dyna

PART #	DESCRIPTION
0932-0110	For 99-06 Twin Cam models (except 06 Dyna)

0932-0093

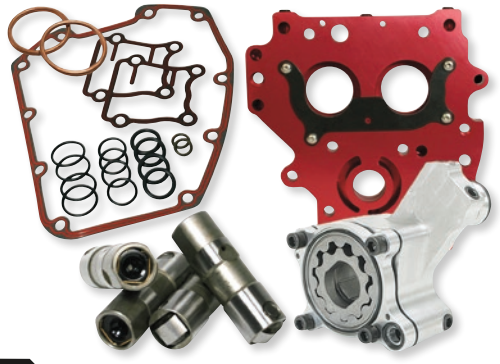
0932-0094

OE+ OIL PUMP/CAMPLATE KITS FOR TWIN CAM

- Upgrade to the stock oiling system, delivering increased oil pressure and return scavenging volumes from billet oil pump and matched camplate
- Increased rigidity; machined to tighter tolerances compared to stock
- Camplate pressure relief valve and spring are seated, sealed and pre-set with 50 to 60 psi pop-off
- Kits for 07-17 Twin Cam and 06 Dyna feature tighter cam journal bore tolerance for improve cam fitment
- Kits for 99-06 Twin Cam (except 06 Dyna) feature tighter cam bearing bore tolerance for improved press fit
- Bearing retainer plate and hardware included
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0932-0093[1]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0932-0091	For gear drive cams
0932-0092[2]	For chain drive cams w/ OEM mechanical tensioner

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) (CONT)	
0932-0094[3]	Hydraulic tensioner conversion camplate for stock chain drive cams



[1] Block-off plate PART #0932-0036 required when using gear drive cams.
[2] Includes tensioner pins and guide hardware.
[3] Requires hydraulic cam chain drive system (tensioners, chains, sprockets and hardware), see Feuling® tensioner kit PART #s 0925-1069 or 0925-1070.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

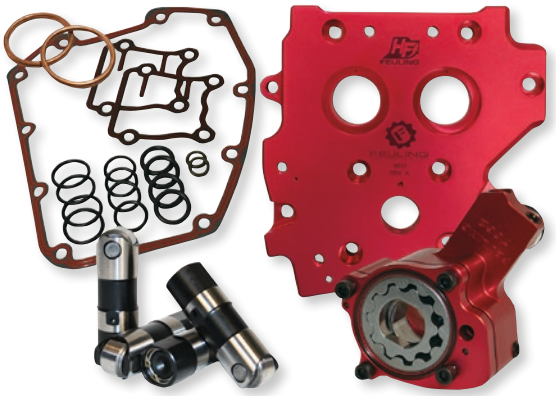
0932-0035

FEULING HORSEPOWER PLUS

HP+® OIL SYSTEM PACKS FOR TWIN CAM

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 25 to 35 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 15 to 30 more psi of oil pressure
- Eliminate wet sumping, blowby and oily air cleaners
- Test results show 3 hp gain and 4 ft lbs of torque gain to the rear wheel
- Includes billet 6061 aluminum high volume oil pump, high flow camplate, HP+® hydraulic roller lifters and cam installation kit
- Billet 7075 aluminum oil pump is 50% harder and stronger than the factory pump; holds tighter tolerances under temperature



PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA W/ GEAR OR CHAIN DRIVE	
0932-0029[1]	HP+® Performance oil system pack
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ GEAR DRIVEN CAMS	
0932-0027[2]	HP+ Performance oil system pack
0932-0035[3]	Chain drive conversion kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ CHAIN DRIVE STOCK REPLACEMENT	
0932-0069[2]	HP+ Performance oil system pack
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ CHAIN DRIVE (CONVERSION CAMPLATES UPGRADE TO 07-17 HYDRAULIC TENSIONERS)	
0932-0071[4]	HP+ conversion camplate

[1] Gear Drive cam systems require block-off plate kit PART #0932-0036.
[2] Includes bearing retainer plate and hardware.
[3] For use with PART #0932-0027 when using 99-06 chain drive system.
[4] Conversion camplates use 99-06 style camshafts; oil system pack requires separate purchase of hydraulic chain drive tensioners, chains, sprockets and spacers.

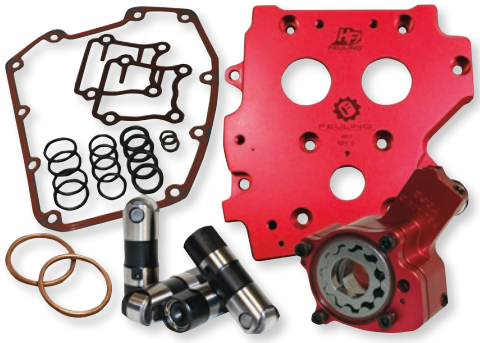
FEULING RACE SERIES

RACE SERIES® OIL SYSTEM PACKS FOR TWIN CAM

0932-0030

- Quieter and smoother engine operation
- Increase oil pressure, scavenge volume and engine oil flow
- 25 to 35 degree cooler engine temperatures
- 15 to 30 degree cooler oil temperatures
- 15 to 30 more psi of oil pressure
- Eliminate wet sumping, blowby and oily air cleaners
- Test results show 3 hp gain and 4 ft lbs of torque gain to the rear wheel
- Billet 7075 aluminum oil pump is 50% harder and stronger than the factory pump; holds tighter tolerances under temperature
- Includes Race Series® oil pump, Race Series full-travel or short-travel hydraulic roller lifters, high flow camplate and cam installation kit
- Race Series full-travel hydraulic lifters have a full 0,200" of total travel designed with a slower bleed-down rate to handle very heavy valve spring pressures, increase engine rpm before valve float and have increased roller clearance for steep ramped camshafts
- Race Series short-travel hydraulic lifters have 0,115" of total travel and will increase rpm by decreasing valve float and valve-train harmonics while maintaining a quiet engine
- The travel reduction reduces the amount of oil that is required to fill the inside of the lifter which reduces oil aeration inside the lifter on steep, fast action high lift camshaft lobes

NOTE: Optional Feuling® x ARP oil pump/camplate bolt kit available PART #2401-0993.



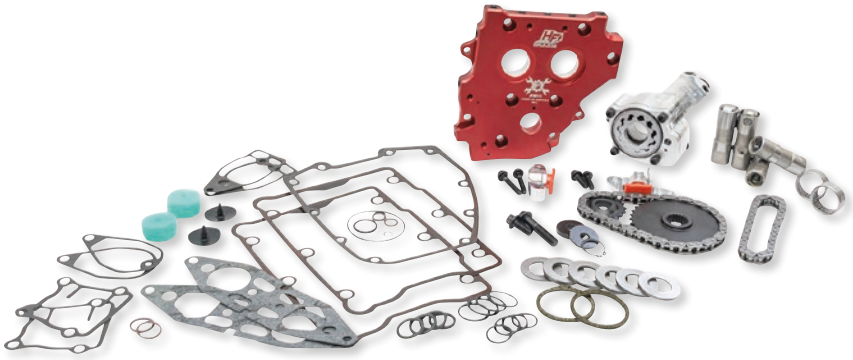
PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA W/ GEAR OR CHAIN DRIVE	
0932-0030[1]	Race Series® oil system pack (includes full-travel hydraulic lifters)
0932-0291[1, 2]	Race Series oil system pack (includes short-travel hydraulic lifters)

[1] Gear Drive cam systems require block-off plate kit PART #0932-0036.
[2] Use with short-travel pushrods PART #0928-0116 on stock base circle camshafts (Feuling® 525, 543 and 574 grinds) and PART #0928-0117 on small base circle camshafts (Feuling 594 and 630 grinds).

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING



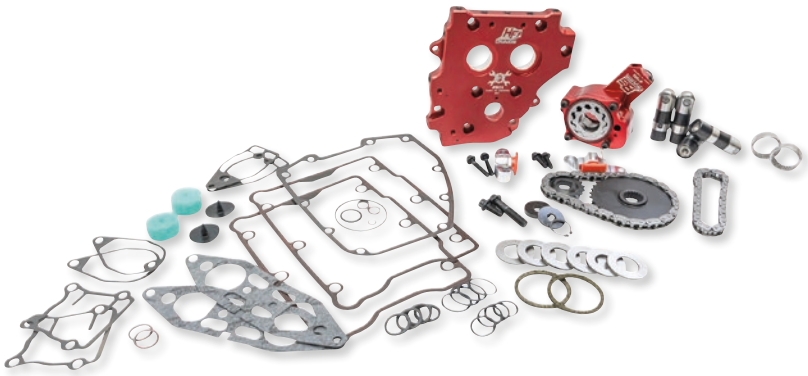
RACE SERIES® OIL SYSTEM PACKS FOR TWIN CAM (CONT)

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ GEAR DRIVEN CAMS	
0932-0028	Race Series oil system pack (includes full-travel hydraulic lifters)
0932-0289	Race Series oil system pack (includes short-travel hydraulic lifters)
0932-0035[3]	Chain drive conversion kit
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ CHAIN DRIVEN CAMS	
0932-0290[2]	Race Series oil system pack (includes short-travel hydraulic lifters)
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) W/ CHAIN DRIVE (CONVERSION CAMPLATES UPGRADE TO 07-17 HYDRAULIC TENSIONERS)	
0932-0072[4]	Race series conversion camplate oil system pack (includes full-travel hydraulic lifters)
0932-0292[2, 4]	Race series conversion camplate oil system pack (includes short-travel hydraulic lifters)

[2] Use with short-travel pushrods PART #0928-0116 on stock base circle camshafts (Feuling® 525, 543 and 574 grinds) and PART #0928-0117 on small base circle camshafts (Feuling 594 and 630 grinds).

[3] For use with PART #0932-0028 when using 99-06 chain drive system.

[4] Conversion camplates use 99-06 style camshafts; oil system pack requires separate purchase of hydraulic chain drive tensioners, chains, sprockets and spacers.



HP+ PLUS FEULING HORSEPOWER PLUS

HP+® OILING SYSTEM/CAMCHEST FRESHEN UP KIT FOR TWIN CAM

- Freshen up camchest and oiling system on late model Twin Cam engines
- Kit uses existing camshafts or allows purchase of preferred cam selection while upgrading camchest with a new HP+® high volume oil pump, High Flow camplate, HP+ lifters, billet tensioner housings, tensioner pads, cam/crank sprockets, sprocket alignment spacers, cam chains, cam bearings, hardware, gaskets and O-rings

NOTE: Designed for use with 07-17 chain drive camshafts. See Feuling® camshaft selection: PART #0925-0427 (525 Grind), PART #0925-0673 (543 Grind), PART #0925-0430 (574 Grind), PART #0925-0677 (594 Grind) and PART #0925-0433 (630 Grind).

PART #	DESCRIPTION
0932-0295	For all 07-17 Twin Cam, 06 Dyna

RS FEULING RACE SERIES

RACE SERIES OILING SYSTEM/CAMCHEST FRESHEN UP KIT FOR TWIN CAM

- Freshen up camchest and oiling system on late model Twin Cam engines
- Kit uses existing camshafts or allows purchase of preferred cam selection while upgrading camchest with a new Race Series high volume oil pump, High Flow camplate, Race Series full travel lifters, billet tensioner housings, tensioner pads, cam/crank sprockets, sprocket alignment spacers, cam chains, cam bearings, hardware, gaskets and O-rings

NOTE: Designed for use with 07-17 chain drive camshafts. See Feuling camshaft selection: PART #0925-0427 (525 Grind), PART #0925-0673 (543 Grind), PART #0925-0430 (574 Grind), PART #0925-0677 (594 Grind) and PART #0925-0433 (630 Grind).

PART #	DESCRIPTION
0932-0296	For all 07-17 Twin Cam, 06 Dyna

FEULING

OE+ OILING SYSTEM/CAMCHEST FRESHEN UP KIT FOR TWIN CAM

- Freshen up camchest and oiling system on late model Twin Cam engines
- Kit uses existing camshafts or allows purchase of preferred cam selection while upgrading camchest with a new OE+ high volume oil pump, OE+ camplate, HP+® lifters, billet tensioner housings, tensioner pads, cam/crank sprockets, sprocket alignment spacers, cam chains, cam bearings, hardware, gaskets and O-rings

NOTE: Designed for use with 07-17 chain drive camshafts. See Feuling® camshaft selection: PART #0925-0427 (525 Grind), PART #0925-0673 (543 Grind), PART #0925-0430 (574 Grind), PART #0925-0677 (594 Grind) and PART #0925-0433 (630 Grind).

PART #	DESCRIPTION
0932-0300	For all 07-17 Twin Cam, 06 Dyna

FEULING HIGH FLOW CAMPLATES

HIGH FLOW CAMPLATE FOR M-EIGHT

- Increases engine oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including the scavenging return holes from the pump to the camplate and into the engine case
- Camplate matches the oil portholes on the camplate to the oil holes in the engine case to increase oil flow throughout the engine
- Lowers engine temperatures by 15 to 25 degrees and oil running temperature by 15 to 25 degrees when matched with a Feuling® HP+® or Race Series® oil pump
- 7075 billet aluminum construction, which is 50% harder and stronger than the factory cast and Feuling OE+ camplates
- Increases the strength and hardness of the camplate, holding tighter tolerances under temperature and eliminating flexing and the need for bronze bushings
- When matched with the Feuling Race Series Oil Pump, rear wheel power gains of 2 hp and 2 ft lbs of torque can be achieved

- For gear or chain drive cams (block-off plate PART #0932-0036 required when using gear drive cams)

NOTE: For use ONLY with Feuling® HP+® and Race Series® M-Eight oil pumps.

PART #	DESCRIPTION
0932-0192	For 17-25 M-Eight

FEULING ORIGINAL EQUIPMENT+

OE+ CAMPLATE FOR M-EIGHT

- Feuling® OE+ stock replacement billet camplate is manufactured from 6061 aluminum, providing increased rigidity and machined to Feuling's high tolerance standards
- Direct bolt-in replacement and accept the factory OEM oil pump only
- Blueprinted and matched oil passages to the engine case passages, kidney shapes are designed to maximize flow
- Optimizes oil flow to and from the oil pump and in and out of the engine, aiding in reducing oil and engine temps
- Tighter cam journal bore tolerance for improved cam fitment
- Added cam journal oil groove for cold start up protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journal to prevent excessive thrusting wear

- For gear or chain drive cams (block-off plate PART #0932-0036 required when using gear drive cams)

NOTE: Not for 23-25 models with 121" VVT motors.

PART #	DESCRIPTION
0932-0193	For 17-25 M-Eight

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

CAMPLATE FOR M-EIGHT

- Precision-machined from billet aluminum
- Blue anodized finish
- For use with S&S or OEM oil pumps
- Passage plugs are removable for servicing

PART #	DESCRIPTION
0932-0268	For 17-25 M-Eight

0925-0915

TC3 CAMPLATE FOR TWIN CAM

- Precision CNC-machined forged aluminum
- Adjustable oil pressure regulator; adjust without removing plate from the engine
- Passage plugs are removable for service
- Rebuildable bronze pinion shaft bushing in all models and bronze cam bushings in 07-later style

NOTE: S&S oil pumps for 99-06 are not compatible with S&S cam support plates for 99-06 engines. All S&S cam support plates are machined for 07 and later-style oil pumps.

PART #	DESCRIPTION
0925-0914	For 07-17 Twin Cam and 06 Dyna
0925-0915[1]	For 99-06 Twin Cam models (except 06 Dyna) w/ gear drive cams

[1] Accepts 07-16 style oil pumps only.

0925-0110

0925-0440

HIGH FLOW CAMPLATES FOR TWIN CAM

- Increase engine oil flow and volume by enlarging the oil pump reservoirs and critical oil passages
- Camplate matches the oil portholes throughout the camplate to the port holes in the engine case increasing engine oil flow throughout the engine
- 25 to 35 degree cooler engine temperatures and 20 to 30 degree cooler oil temperatures
- Made from 7075 billet aluminum which is 50% harder and stronger than the factory, SE and other aftermarket camplates
- The 7075 increases the strength and hardness of the camplate, holding tighter tolerances under temperature eliminating flexing and the need for bronze bushings
- Camplates are pressure tested and pressure relief valve is seated, sealed and set to pop off at 55 to 60 psi
- When matched with the Feuling® Race Series® oil pump rear wheel power gains of 3 hp and 4 ft lbs of torque can be achieved
- For use ONLY with the Feuling oil pumps
- Camplates for 99-06 Twin Cam (except 06 Dyna) have tighter cam bearing bore tolerances for improved press fit
- Bearing and retainer plate hardware is included
- Camplates for 07-17 Twin Cam (and 06 Dyna) have tighter cam journal tolerance for improved cam fitment
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

PART #	DESCRIPTION
FOR 07-17 TWIN CAM (AND 06 DYNA)	
0925-0110[1, 2]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0920-0006[3]	For gear drive cams
0925-0109[3, 4]	For chain drive cams w/ OEM spring tensioners
0925-0440[5]	Hydraulic tensioner conversion camplate for stock chain drive cams

[1] Block-off plate PART #0932-0036 required when using gear drive cams.
[2] Requires the use of 07-17 style Feuling® HP+® or Race Series® oil pump PART #s 0932-0023 or 0932-0026.
[3] Requires the use of 99-06 style Feuling HP+ or Race Series oil pump PART #s 0932-0018 or 0932-0020.
[4] Includes tensioner pins and guide hardware.
[5] Requires 07-17 hydraulic chain drive system (tensioners, chains, sprockets and hardware), see Feuling tensioner kit PART #s 0925-1069 or 0925-1070.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

FEULING

FEULING ORIGINAL EQUIPMENT+

OE+ CAMPLATES FOR TWIN CAM

- Billet camplates are manufactured from 6061 aluminum providing increased rigidity and machined to Feuling® high tolerance standards
- Designed and manufactured to the highest standard of quality with proven Feuling performance
- The pressure relief valve and spring are pre-set, matched and seated by Feuling with a full pop-off pressure of 50 to 60 psi
- Camplates for 99-06 Twin Cam (except 06 Dyna) have tighter cam bearing bore tolerance for improved press fit
- Bearing retainer plate and hardware included
- Camplate for 07-17 Twin Cam and 06 Dyna have tighter cam journal bore tolerance for improved cam fitment
- Added cam journal oil groove for cold startup protection and increased cam journal lubrication
- Added oil pressure feed holes to front and back of cam journals to prevent excessive thrusting wear

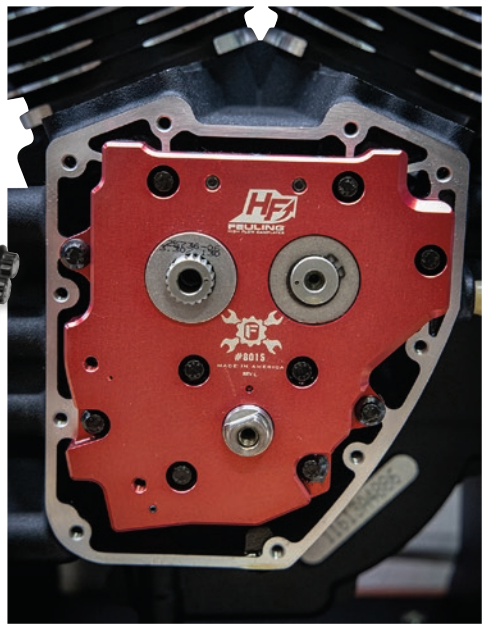
PART #	DESCRIPTION
FOR 07-17 TWIN CAM, 06 DYNA	
0925-0842[1, 2]	For chain or gear drive cams
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0925-0839[3]	For gear drive cams
0925-0840[3, 4]	For chain drive cams w/ spring tensioners
0925-0841[5]	Hydraulic tensioner conversion camplate for stock chain drive cams

[1] Block-off plate PART #0932-0036 required when using gear drive cams.

[2] For use with factory and or any Twin Cam oil pump with 07-17 bolt pattern; compatible with Feuling® oil pump PART #s 0932-0090, 0932-0023, 0932-0026.

[3] For use with factory or any Twin Cam oil pump with the 99-06 bolt pattern. Compatible with Feuling oil pump PART #s 0932-0018, 0932-0089, 0932-0020.

[4] Includes tensioner pins and hardware guide.



[5] Requires 07-17 style oil pump, hydraulic chain drive system (tensioners, chains, sprockets and hardware), see Feuling tensioner kits PART #s 0925-1069 or 0925-1070. Compatible with Feuling oil pump PART #s 0932-0090, 0932-0023, 0932-0026.

2401-1047

2401-0127

ARP automotive Racing products

CAMPLATE/OIL PUMP FASTENER KITS

- Optional kit for Feuling® camplates/oil pumps only
- Quality 12-point, heat-treated 8740 chromoly steel bolts with black oxide finish manufactured by ARP® to Feuling's exact specifications
- Precision-rolled threads provide optimum engagement, prevent galling and promote consistent torque loading
- Wide, underhead flange design provides even load distribution for optimum sealing of surfaces to prevent leaks
- Tensile strength rated at 170.000 psi; superior and stronger than OEM and stronger than grade 8 fasteners
- Includes moly assembly lubricant for installation

PART #	DESCRIPTION
2401-0993[1]	For 17-25 M-Eight engines w/ Feuling® high flow camplate and HP+® or Race Series® oil pumps (do not use washers w/ ARP® oil pump bolts)
2401-1047	For 17-25 M-Eight engines w/ Feuling OE+ camplate and factory H-D oil pump (requires use of washers w/ ARP oil pump bolts)
2401-0127	For 99-17 Twin Cam engines w/ Feuling HP+, Race Series or OE+ camplates and oil pumps

[1] Not for use with OE+ camplates/oil pumps.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING RACE SERIES

RACE SERIES® OIL PUMPS FOR M-EIGHT

- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Eliminate common pressure and scavenge issues associated with the factory oiling system
- Precision-machined pressure relief valve and bore
- Each oil pump is bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Feuling® M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Requires use of the Feuling High Flow camplate, the combo increases oil flow in and out of the engine with corrected tolerances, oil passages and larger geroter gears
- Reduces engine and oil temperatures, increase oil pressure volume and scavenge volume on the return side to reduce build-up of oil in the crankcase
- High flow 2,250" Chrome Moly gerotor gears
- Increased and optimized passages, portholes and galleys requiring them to be matched up to a Feuling High Flow camplate PART #0932-0192
- 42% more scavenge volume with matched passages, port sizing and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing

PART #	DESCRIPTION
0932-0196	For 17-25 M-Eight Oil-Cooled motors

0932-0216

- Magnets to help protect gears and pressure relief valve
- Testing shows increased hp and torque to the rear wheel
- M-Eight Liquid-Cooled motors have 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motors have 27% more pressure and scavenge gear volume over stock
- Billet 7075 aluminum with red anodize; this material holds tighter tolerance under temperature, is 50% harder and stronger than 6061 aluminum
- Feature increased scavenge side kidney port volume over HP+® oil pumps
- Increases oil pressure and scavenge volume
- Cooler oil and engine temperatures

NOTE: Must be matched to a Feuling® High Flow camplate PART #0932-0192.

PART #	DESCRIPTION
0932-0216	For 17-25 M-Eight Liquid-Cooled motors

FEULING HORSEPOWER PLUS

HP+® HIGH VOLUME OIL PUMPS FOR M-EIGHT

- Increased oil volume from the larger gears and properly sized passages along with the pressure relief valve seat and seal from these oil pumps is essential for proper oiling system function
- Eliminate common pressure and scavenge issues associated with the factory oiling system
- Precision-machined pressure relief valve and bore
- Each oil pump is bench tested, the relief valve is seated and sealed to a minimum of 30 psi with full pop-off at 55 to 60 psi
- Feuling® M-Eight oil pumps have the groove machined on the back cover to accept the factory crank bearing seal
- Requires use of the Feuling High Flow camplate, the combo increases oil flow in and out of the engine with corrected tolerances, oil passages and larger geroter gears
- Reduces engine and oil temperatures, increase oil pressure volume and scavenge volume on the return side to reduce build-up of oil in the crankcase
- High flow 2,250" Chrome Moly gerotor gears
- Increased and optimized passages, portholes and galleys requiring them to be matched up to a Feuling High Flow camplate PART #0932-0192

PART #	DESCRIPTION
0932-0195	For 17-25 M-Eight Oil-Cooled motors

0932-0195

- 42% more scavenge volume with matched passages, port sizing and holes to the engine case
- 68% more oil volume to the crankshaft and connecting rod bearing
- Magnets to help protect gears and pressure relief valve
- Testing shows increased hp and torque to the rear wheel
- M-Eight Liquid-Cooled motors have 30% more pressure gear volume over stock and 53% more scavenge gear volume over stock
- M-Eight Oil-Cooled motors have 27% more pressure and scavenge gear volume over stock
- Billet 6061 aluminum with natural finish
- Increases oil pressure and scavenge volume
- Cooler oil and engine temperatures

NOTE: Must be matched to a Feuling® High Flow camplate PART #0932-0192.

PART #	DESCRIPTION
0932-0215	For 17-25 M-Eight Liquid-Cooled motors

S&S PROVEN PERFORMANCE

OIL PUMPS FOR M-EIGHT

- PART # 0932-0267 features 20% flow increase on supply side and 52% flow increase on scavenge
- PART # 0932-0266 features 44% increase on the supply side and 58% flow increase on scavenge
- Pumps are made from precision-machined billet aluminum
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screen in both scavenge pickups
- Magnet in the cam chest helps prevent debris from entering the pump
- Increased flow capacity on both feed and scavenge side

PART #	DESCRIPTION
0932-0266	For 17-25 M-Eight water-cooled Touring

0932-0266

- Adjustable pressure relief valve can be adjusted with unit in engine
- Blue anodized finish
- Optional S&S camplate PART #0932-0268 available separately

PART #	DESCRIPTION
0932-0267	For 17-25 M-Eight oil-cooled

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

DRAG Specialties

HIGH-PERFORMANCE M-EIGHT OIL PUMP

- 126% feed and 131% scavenge volume compared to OEM (stock) M8 fourth generation oil pumps at 1000 rpm
- 123% feed and 146% scavenge volume compared to OEM (stock) M8 fourth generation oil pumps at 2500 rpm
- Scavenge side discharge was improved by modifying the suction ratio to help eliminate sumping from excess oil in the crankcase
- Improved oil flow by inserting an oil passage correction spacer between the large-capacity oil pump body and the cam support plate

0932-0236

PART #	DESCRIPTION
0932-0236	For 17-25 M-Eight air/oil-cooled motors (includes an oil pump-to-case seal)

FEULING

FEULING RACE SERIES

RACE SERIES® OIL PUMPS FOR TWIN CAM

- 7075 billet aluminum with military spec hard anodized, blueprinted and designed for the racer
- The 7075 alloy is 50% harder and stronger than 6061 aluminum and holds tighter tolerance under temperature
- More pressure volume and more oil pressure
- More scavenge volume eliminating power robbing wet sumping, blowby and oily air cleaners
- PART #0932-0026 has 20%+ more pressure and 30%+ more return volume
- PART #0932-0020 has 40% more pressure and 60% more return volume
- Cooler oil and engine temperatures
- More horsepower, more torque, more oil pressure, more return volume
- High Flow 2" Chrome Moly gerotor gears
- When combined with the Feuling® High Flow camplate, test results show 3 hp gain and 4 ft lbs of torque gain to the rear wheel
- Stock replacement for Twin Cam engines, recommended for both strip and performance street engines

NOTE: Must be matched with a Feuling® High Flow camplate.

0932-0026

PART #	DESCRIPTION
0932-0026	For 07-17 Twin Cam, 06 Dyna

PART #	DESCRIPTION
0932-0020	For 99-06 Twin Cam (except 06 Dyna)

FEULING ORIGINAL EQUIPMENT+

OE+ OIL PUMPS FOR TWIN CAM

- OE+ stock replacement billet oil pumps deliver increased oil pressure and return scavenge volumes over the factory oil pumps
- PART #0932-0090: offers 10% more pressure volume over stock, 16% more scavenge volume over stock
- PART #0932-0089: offers 18% more pressure volume over stock, 38% more scavenge volume over stock
- Upgraded alternative to stock components
- Designed and manufactured to the highest standard of quality with proven Feuling® performance
- Billet 6061 aluminum construction
- Increases oil pressure
- 2" Chrome Moly gerotor gears

0932-0090

PART #	DESCRIPTION
0932-0090	For 07-17 Twin Cam, 06 Dyna

PART #	DESCRIPTION
0932-0089	For 99-06 Twin Cam (except 06 Dyna)

FEULING HORSEPOWER PLUS

HP+® HIGH VOLUME OIL PUMPS FOR TWIN CAM

- Eliminates blowby and wet sumping
- No more oily air cleaners
- High Flow 2" Chrome Moly gerotor gears
- PART #0932-0023 generates 32% more pressure volume over stock, 16%+ more than SE, 38% more scavenge volume over stock and 9%+ more than SE
- PART #0932-0018 generates 40% more pressure volume over stock, 60% more scavenge volume over stock
- Cooler oil and engine temperatures
- More horsepower and torque to the rear wheel
- Stock replacement
- Feuling© design, tolerances and materials
- Billet 6061 aluminum

NOTE: Recommended for use with Feuling® cam support plate; see pages 629-630.

0932-0023

PART #	DESCRIPTION
0932-0023	For all 07-17 Twin Cam, 06 Dyna

PART #	DESCRIPTION
0932-0018	For 99-06 Twin Cam (except 06 Dyna)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

HIGH-PERFORMANCE TWIN CAM OIL PUMPS

- Helps to reduce oil carryover during high-rpm operation; higher volume helps reduce engine and oil temperatures
- 53 mm diameter rotors for maximum performance
- Gain of 20% oil pressure, 125% pressure volume and 135% scavenge volume over OEM stock TC88 oil pumps
- Gain of 16% oil pressure, 66% pressure volume and 100% scavenge volume over OEM stock TC96/103 oil pumps
- High-quality die-cast aluminum body construction, high-strength steel gear construction
- Fits both stock and aftermarket cam support plates for seamless installation

NOTE: Does not fit Screamin' Eagle cam plate.

PART #	DESCRIPTION
0932-0088	For 07-17 Twin Cam and 06 Dyna
0932-0087	For all 99-06 Twin Cam (except 06 Dyna)
REPLACEMENT COMPONENTS	
0932-0219	Gerotor scavenge for Twin Cam 88" and 96" applications
REPLACEMENT COMPONENTS (CONT)	
0932-0220	Gerotor feed for Twin Cam 88" and 96" applications
0932-0221	Partition plate and O-ring set for 88" Twin Cam applications
0932-0222	Partition plate and O-ring set for 96" Twin Cam applications

TC3 OIL PUMP

- Three stages for consistent pressure and reliable scavenging
- Separate scavenge sections for flywheel cavity and cam chest (no interface)
- Screens and magnetic traps help protect the scavenge rotors from debris
- Special design allows S&S pumps to tolerate more pinion shaft run-out without damage

NOTE: S&S oil pumps for 99-06 are not compatible with S&S cam support plates for 99-06 engines. All S&S cam support plates are machined for 07 and later-style oil pumps.

OIL PUMP	
PART #	**DESCRIPTION**
0932-0106[1]	For 07-17 Twin Cam and 06 Dyna

[1] Will not fit 00-02 Softails when used with a TC3 cam plate.

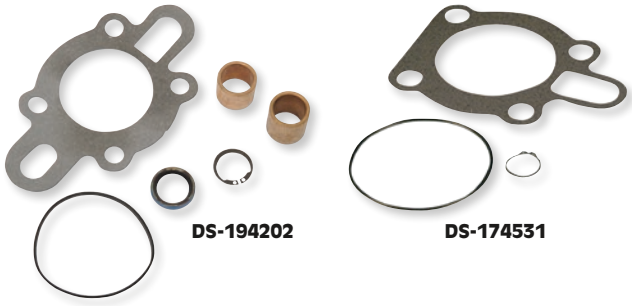
0935-1015	O-ring kit		

OIL PUMP ASSEMBLY

- High-quality replacement cast-aluminum pump body with steel gears and shaft
- Raw cast-aluminum finish
- Gaskets and seals included



PART #	DESCRIPTION
0932-0189	For 91-22 XL (except RH Sportster)

OIL PUMP REBUILD KITS

- Include everything needed to rebuild Feuling® HP+® and Race Series® oil pumps
- Kits come with new O-rings, separator plate and installation instructions

PART #	DESCRIPTION
0932-0019	For Feuling® oil pump PART #s 0932-0018 and 0932-0020
0932-0024	For Feuling oil pump PART #s 0932-0023 and 0932-0026

OIL PUMP REPAIR KITS

- Comes with new components that allow you to totally rebuild/rebush most Big Twin and XL oil pumps
- Gasket/seal kits are available to complete the job

PART #	DESCRIPTION	MFG.
DS-194202	Gasket/bushing kit for 86-90 XL	Eastern MC Parts
DS-174531	Gasket/seal kit for 91-03 XL	James Gasket

CAM NEEDLE BEARING ASSEMBLY

- OE-quality replacement part
- Sold in 2-pack

PART #	DESCRIPTION
0924-0395	For 07-17 Twin Cam (2 pk.); repl. OEM #9215

0925-1156

0924-0239

INNER CAM BEARINGS

- Bearings are single-row deep groove bearings manufactured by Timken® Fafnir® and are a necessity where tough applications and conditions apply
- Heavy-duty full-complement style designed to accept the higher loads and demands of performance engines
- Manufactured by Koyo® Torrington®

PART #	DESCRIPTION
FOR 17-25 M-EIGHT	
0925-1156	Inner needle bearing (ea.); repl. OEM #9215
FOR 07-17 TWIN CAM, 06 DYNA	
0924-0240	Inner needle bearings (pr); repl. OEM #9215
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0924-0239	Inner needle bearings (pr.); repl. OEM #9198

INNER CAM BEARING

- OEM-quality replacement component
- Sold each

PART #	DESCRIPTION
0924-0262	For 86-90 XL; repl. OEM #9057

CAM BEARING PLATE

- Heavy-duty steel cam bearing plate is recommended for use with all gear-drive cams and is included in S&S complete gear drive cam kits

PART #	DESCRIPTION
0925-0046	For 99-06 Twin Cam (except 06 Dyna)

0924-0389

0950-0902

CAM BEARINGS

- Superior-quality replacement bearings
- Sold each

PART #	DESCRIPTION
FOR 17-23 M-EIGHT, 07-17 TWIN CAM, 06 DYNA	
0924-0389	Inner needle bearing; repl. OEM# 9215
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0924-0387	Inner needle bearing; repl. OEM# 9198
0950-0902	Outer ball bearing; repl. OEM #8990A

0924-0277

0924-0238

OUTER CAM BEARING KIT

- Chain drive bearing kit includes one ball bearing front cam bearing and one roller bearing rear cam bearing with race (replaces OEM #s 8983 and 8990A)
- Gear drive bearing kit includes two ball bearings
- Ball bearing style bearings are Timken®

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
0924-0277	Outer cam bearing kit for models w/ chain drive
0924-0238	Outer cam ball bearings only (gear drive cams only)(pr.); repl. OEM #8990A

CAM BEARING

- Left side bearing with inner race
- Sold individually

PART #	DESCRIPTION
0924-0588	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #8990A

BEARING RETAINER PLATE

- Cam bearing retainer plate and hardware
- Recommended for use with all Twin Cam model camplates

PART #	DESCRIPTION
0925-0437	For all 00-06 Twin Cam motors (except 06 Dyna and Screamin' Eagle support plates); repl. OEM #35060-00

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

FEULING

BLOCK-OFF PLATE KIT

- Block-off hydraulic chain tensioner holes when using gear-driven cams

PART #	DESCRIPTION
0932-0036	For 17-25 M-Eight, 07-17 Twin Cam, 06 Dyna camplates

FEULING

CAMPLATE CHAIN TENSIONER PINS

- Made from heat-treated chromoly steel
- Ensure proper press fit when changing Twin Cam chain drive camplates or replacing chain drive tensioners
- Use with retaining ring PART #DS-188016; sold separately

PART #	DESCRIPTION
0925-0439	For all 99-06 Twin Cam chain drive camplates (except 06 Dyna)

S&S PROVEN PERFORMANCE

HYDRAULIC TENSIONER BLOCK-OFF PLATE KIT

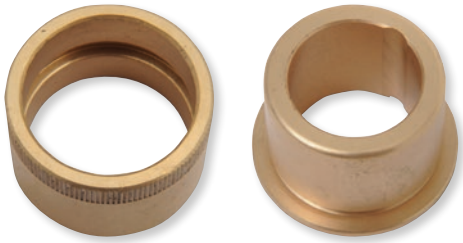
- Block off the hydraulic cam chain tensioner holes when using gear-driven cams

PART #	DESCRIPTION
0950-0891	For 17-25 M-Eight, 07-17 Twin Cam and 06 Dyna

JIMS Performance Parts for Harley-Davidson Motorcycles

CAM COVER BUSHING

- Bushing is made from solid bronze bar stock
- Machined in one operation with a tolerance of 0,0002"
- Features a lead-in for ease of installation
- Sold each



PART #	DESCRIPTION
DS-197070	For 86-09 XL (0,9405" OD); repl. OEM #25586-37

Eastern MC Parts

CAM SUPPORT PLATE/COVER BUSHINGS

- High-quality OEM components
- Sold each

PART #	DESCRIPTION
0921-0528	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #25344-99
DS-194171	For 86-06 XL (#s 1, 3, 4); 45" (#4); repl. OEM #25586-37

0921-0528 DS-194171

PART #	DESCRIPTION
DS-194174	For 86-90 XL (#2); repl. OEM #25588-57

Eastern MC Parts

CAM CHEST BUSHING KIT

- Properly re-bush cam cover
- Includes OEM part numbers: (9) 275, (6) 6769 (0,007" thick), (1) 6773 (0,005" thick), (1) 6775 (0,010" thick), (3) 25586-37, (1) 25588-91, (1) 25593-74, (4) 25598-91

PART #	DESCRIPTION
0925-1168	For 91-22 XL (except RH Sportster)

Eastern MC Parts

DOWEL PINS

- Used in crankcase and motor for transmission case applications
- Sold in 10-pack

PART #	DESCRIPTION
0920-0067	For 99-17 Twin Cam; repl. OEM #16574-99A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for 2026.

CRANKCASE VENT FILTERS

- Features a steel or rubber base, one-piece design and chrome top (unless noted)
- 2" dia. and 1 1/2" H; comes with or without a mounting stud

1011-1523

STEEL BASE	RUBBER BASE	DESCRIPTION
-	1011-1521	3/8" vent filter, chrome w/ stud
62-1000	-	3/8" vent filter, chrome w/o stud (K&N® embossed black rubber top)
-	1011-1522	1/2" vent filter, chrome w/ stud
0920-0159	-	1/2" vent filter, chrome w/o stud (K&N embossed black rubber top)

STEEL BASE	RUBBER BASE	DESCRIPTION
-	1011-1523	5/8" vent filter, chrome w/ stud
-	1011-1524	3/4" vent filter, chrome w/ stud
-	1011-1529	5/16" vent filter, chrome w/ stud
-	1011-1530	9/16" vent filter, chrome w/ stud
-	1011-1525	1" vent filter, chrome w/ stud

CRANKCASE VENT FILTER

- One-piece crankcase filter assembly comes complete with filter clamp and a chrome, die-cast mounting base and accepts a 3/8" ID hose
- Replacement filters available; all sold each

DS-289515

DS-289516

DS-289517

DS289519

PART #	DESCRIPTION
DS-289515	Chrome crankcase vent filter assembly
DS-289516	Repl. filter w/ chrome top

PART #	DESCRIPTION
DS289519	Button head bolt filter
DS-289517	Rubber top filter

MINI CRANKCASE VENT FILTER

- Features chrome end caps with washable filter
- Measures 1,5" in diameter and 1,6" H
- Has a 1/4" mounting tab and accepts a 3/8" ID hose

PART #	DESCRIPTION
2110-0322	Chrome mini vent filter

CRANKCASE VENT FILTERS

- High-quality crankcase breathers and filters from Emgo
- Crankcase breather filter kit PART #14-20900 features one-piece, chrome-top filter, hose clamp and die-cast mounting base; accepts 3/8" ID hose
- Replacement filter with chrome die-cast cap PART #14-20905 is for use only with PART #14-20900 (crankcase breather filter kit)
- Black rubber-top crankcase breather PART #14-20910 can be clamped directly to 3/8" ID hose

14-20900

14-20905

14-20910

PART #	DESCRIPTION
14-20900	Chrome crankcase vent filter assembly
14-20905	Repl. chrome-top filter for use w/ PART #14-20900 only

PART #	DESCRIPTION
14-20910	Rubber-top crankcase vent filter

TWIN CAM OIL PUMP SCREENS

- Designed to protect the oil pump and cam plate from debris off the chain tensioners or other particles that may come loose in a Twin Cam engine
- Great to put in when doing a cam bearing job
- Keeps cam bearing rollers from dropping into the center section of your engine, which could ruin the oil pump and cam plate
- Does not restrict oil flow – in testing the engine returned the same amount of oil back to the oil tank in an allotted amount of time; the screens de-aerate the oil more, which drops oil temperature 5 to 10 degrees
- Use with OEM oil pump
- Easy to install and clean

PART #	DESCRIPTION
0932-0073	For 99-17 Twin Cam

OIL SCREENS

- Sold in 5-pack

PART #	DESCRIPTION
0950-0224	For 01-17 Twin Cam; repl. OEM #24983-00

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

OIL PUMP PRESSURE RELIEF VALVE

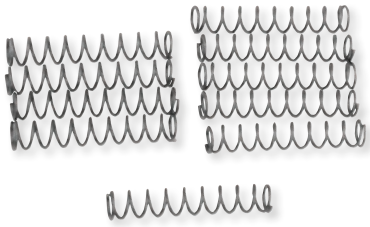
- Standard relief valve for S&S billet oil pumps
- Sold each

PART #	DESCRIPTION
0932-0265	Relief valve; repl OEM #s 26400-82, 26400-82B

PRESSURE RELIEF KITS, SPRINGS AND PLUNGERS

- Increases pressure relief valve pop-off psi
- Kit includes valve plunger, spring and roll pin
- Spring alone provides proper spring rate to control pop-off pressure and oil flow in bypass port
- Pressure relief valve plunger fits all Twin Cam camplates including factory, Screamin' Eagle, Feuling® and others (will also work with M-Eight oil pumps)

0932-0086



0925-0438

- Bench testing recommended with camplate pressure test tool PART #3801-0071 to ensure proper valve seal and valve operation
- PART #0925-0300 is sold to consumer as each

PART #	DESCRIPTION
FOR 17-25 M-EIGHT ENGINE USING FACTORY OR FUELING® OIL PUMPS	
0932-0232	Pressure relief spring only (ea.); repl. OEM #26210-99
0932-0233	Pressure relief spring only (6 pk.); repl. OEM #26210-99
0932-0086	Pressure relief valve plunger

PART #	DESCRIPTION
FOR 99-17 TWIN CAM ENGINE CAMPLATES	
0925-0438	Pressure relief kit; repl. OEM #s 26400-82B, 26210-99
0925-0300	Pressure relief spring only (6 pk.) (ea.); repl. OEM #26210-99
0932-0086	Pressure relief valve plunger

OIL PUMP RELIEF VALVE SPRING

- Sold in 10-pack

PART #	DESCRIPTION
0950-0232	For 17-24 M-Eight, 99-17 Twin Cam; repl. OEM #26210-99

SHORT SUMP PLUGS

- A common issue with both Twin Cam and M-Eight engines (more common with M-Eight) is the sump plug can block off the internal scavenge (return) pickup port
- By using a shorter plug, we eliminate the possibility of the plug blocking off this cross port
- The further the bottom plug installs into the case, the more of the scavenge cross port is blocked off
- Fuel plug is 0,265" tall vs. OEM 0,465"
- PART #0950-0991 sold to dealer as a 6 pk.; sold to consumer each

0950-0990

PART #	DESCRIPTION
FOR 17-25 M-EIGHT, 99-17 TWIN CAM MOTORS	
0950-0990	Short sump plug (ea.)
0950-0991	Short sump plugs (6 pk.)

7-SPEED TRANSMISSION GEAR SET

- Direct replacement of the Cruise Drive Harley-Davidson factory 6-speed
- The 7th gear enables the motorcycle to make full use, by way of gear ratio management, of the torque and power put out by the 96 ci, 103 ci and 110 ci motors
- Unlike the stock mainshaft which includes 1st through 4th gears, the DD7 is lightweight and only includes the small 1st gear, minimizing the shift clunk
- Features a shortened 1st gear and tightened all other gears for a smooth and powerful riding experience with continuous acceleration from 1st to 4th gear
- Shift smoothness is achieved by use of a new linear roller ball detent which is part of the supplied billet top cover
- Comes ready to slide in the bike; no case modifications, shimming of the gear set or adjustments required
- 7th main drive gear, main drive gear bearing, main drive seal are all included to replace 6th main
- ARP 12pt bolts for door, top cover, stock side cover, Baker re-cal box and leads all included
- Reuses stock shifter pawl
- Includes new main drive gear bearing and seal, chrome door, door gasket, side cover gasket, top cover gasket and self-adhesive DD7 side cover emblem
- Utilizes F6F door bearing retainer plate
- DD7 door bearings are 28% wider than stock

2nd	2,30	2,75	5th	1,18	1,27			
3rd	1,71	2,06	6th	1,00	1,10			

DIRECT DRIVE 6-SPEED GEAR SET KITS

- Fits into existing 5-speed cases; lower the rpm at cruising speeds
- Includes a polished or black trap door, 6-speed gear set (3,24:1 1st gear/0,86:1 6th gear), 28-tooth motor sprocket, longer primary chain, adjusting shoe, fixed spindle-shift drum and anti-overshift ratchet shift pawl assembly
- All gears are full-width Baker ground gears; 4th, 5th and 6th gears are helical for silent operation
- Includes easy-to-follow instructions
- Replacement primary shoe available separately, designed for use with tensioner bracket OEM #39990-01

NOTE: Models with electronic speedometers will require recalibration, recommend PART #2210-0391, sold separately, see DASHES & GAUGES section.

80	3625	3118	507	3112	513

All part numbers in BLUE are new for 2026.

OVERDRIVE 6-SPEED GEAR SET KITS

- Includes a polished or black trap door, all gears, mainshaft, countershaft, shifter drum, detent components, bearings, snap rings, gaskets and hardware
- Significantly smoother shifting than stock due to a roller detent shift drum with reduced inertia and gear dog teeth with lead-in ramping
- Gear ratio of 2,94 1st gear and 0,86 6th gear available
- Fits into stock and most aftermarket 5-speed transmission cases

NOTE: Exhaust bracket may require modification when using these kits.

NOTE: Models with electronic speedometers will require recalibration, recommend PART #2210-0391, sold separately, see DASHES & GAUGES section.

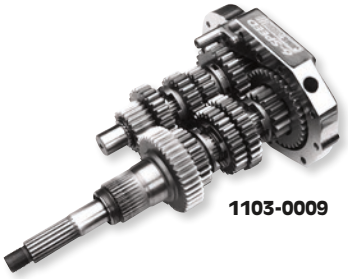
FAT 6 SUPER GEAR KITS

- Strongest and toughest 6-speed gear box made
- Aerospace grade 9310 steel
- Gears feature straight cut teeth with up to 53% increased width compared to stock
- Quick shift ring technology to minimize the "clunk" when shifting
- Lightened 1-piece steel shift drum
- Gear ratios similar to stock, with 1:1 final drive ratio
- Assembled into 6061 billet aluminum big bearing trap door for reduced flex in high performance applications
- Compatible with stock gear selector
- No modifications to case or exhaust mount required
- All parts are assembled in JIMS technologically advanced facility



PART #	DESCRIPTION
FOR 17-23 TOURING (EXCEPT 23 FLHXSE/FLTRXSE) , 18-24 SOFTAIL

JIMS Performance Parts for Harley-Davidson Motorcycles

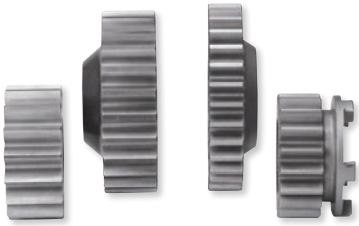
6-SPEED OVERDRIVE SUPER KITS

- Designed to turn stock 5-speed transmission into a 6-speed
- Reduces vibration that creates wear
- Creates a more relaxing cruising speed
- All gear sets use 2,94:1 close-ratio 1st gear that widens bike's speed range in 1st gear and lessens the rpm drop when shifting into second
- Overdrive 6th gear (0,86:1 ratio) lowers engine rpm by almost 475 at 75 mph

NOTE: Requires speedometer sensor block-off plate kit (PART #2404-0114; see DASHES & GAUGES section); if speedometer is not driven from transmission, then two block-off plates kits are required.

PART #	DESCRIPTION
1103-0009	For 01-06 FLHT/FLHR/FLTR/FLHX, 02-06 FXST/FLST, 01-05 FXD/FXDWG

NOTE: Requires speedometer be recalibrated.



NOTE: Trap door extends 3/8" farther to right than stock part. Alteration to some parts that attach to or around the trap door may be required.

NOTE: When installing in 02-06 FLHT/FLHR/FLTR/FLHX transmission case, you will need an oil filler spout spacer (PART #DS-196233; see ELECTRICAL section) for clearance transmission to motor vent line.

PART #	DESCRIPTION
1103-0008	For 00 FLHT/FLHR/FLTR, 00 FXST/FLST, 99-00 FXD/FXDWG

1103-0011

Fat 5™ gears

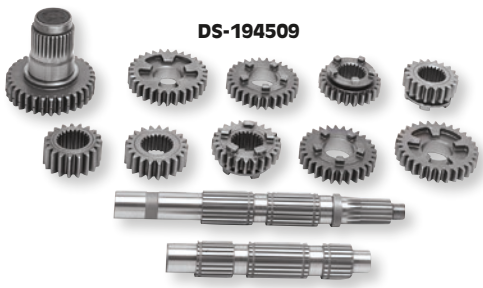
Standard gears

JIMS Performance Parts for Harley-Davidson Motorcycles

FAT 5™ 5-SPEED OVERDRIVE SUPER GEAR KITS

- Gear cluster is installed into a unique chrome trap door
- Designed to slip into stock transmission case
- 0,886:1 "overdrive" fifth gear
- Compact shifter technology increases width and strength of every gear
- Width increase varies from 18% to 53% depending upon the loads each gear set must carry

NOTE: Modifications to exhaust bracket may be necessary.



NOTE: Oil filler spout spacer (PART #DS-196233; see ELECTRICAL section) may be required on 02-06 FL models.

PART #	DESCRIPTION

DS-194509

ANDREWS

5-SPEED GEAR SETS

- Gears are made from high-nickel alloy steel that is heat-treated and shot-peened for maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear

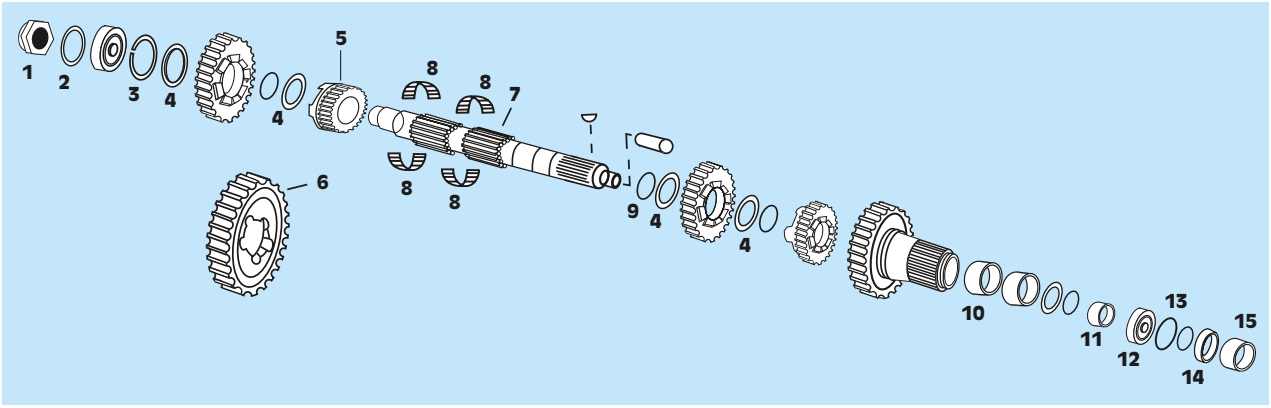
PART #	DESCRIPTION
STOCK RATIO SET (3,24:1 FIRST RATIO)	
DS-194508	For 99-06 Twin Cam (except 06 Dyna)
CLOSE RATIO SET (2,94:1 FIRST RATIO)	
DS-194507	For 99-06 Twin Cam (except 06 Dyna)

- Sets include gears, mainshaft and countershaft
- For ease of installation, use transmission rebuild kits (see pages 659-660)
- Available in stock or close ratio

PART #	DESCRIPTION
STOCK RATIO SET (3,24:1 FIRST RATIO)	
DS-194509	For 91-03 XL, 94-02 Buell

All part numbers in BLUE are new for 2026.

1103-0023



MECHANICAL REVERSE KITS WITH ELECTRONIC CUT-OFF SWITCH

- Makes parking anywhere possible
- Constructed from lightweight aluminum, chromed and zinc-plated
- Equipped with an electronic cut-off switch to protect transmission from operator error
- No exhaust modification needed when used with OEM exhaust
- Do not affect forward gear operations
- Clutch-operated, eliminating any strain on the electrical system
- Plug-and-play harness, all installation tools and instructions included

PART #	DESCRIPTION
1103-0029	For 21-24 FLHR/FLHTK/FLTRK/FLHTCUTG/FLRT/FLTRT (except 23 FLHXSE/FLTRXSE) w/ mechanical clutch, 14 FLHT/FLHX w/ hydraulic clutch
1103-0031	For 15-20 FLHT/FLHX/FLTR/FLTRU/FLHTCUTG/FLRT/FLTRT w/ hydraulic clutch
1103-0023	For 09-13 FLHT/FLHR/FLHX/FLTR and Screamin' Eagle 6-speed OE transmission (hydraulic clutch)
1103-0025	For 09-13 FLHT/FLHR/FLHX/FLTR/FLHTCUTG and Screamin' Eagle 6-speed OE transmission (standard clutch)
1103-0028[1]	For 07-08 FLHT/FLHR/FLHX/FLTR and Screamin' Eagle 6-speed OE transmission, 07-13 FXST/FLST, 06-13 Dyna (standard clutch)
1103-0026[1]	For 99-06 FLHT/FLHR/FLHX/FLTR, 99-06 FXST/FLST, 99-05 FXD/FXDWG 5-speed (standard clutch)

[1] Softail models may require steel-braided oil lines to route around reverse component.

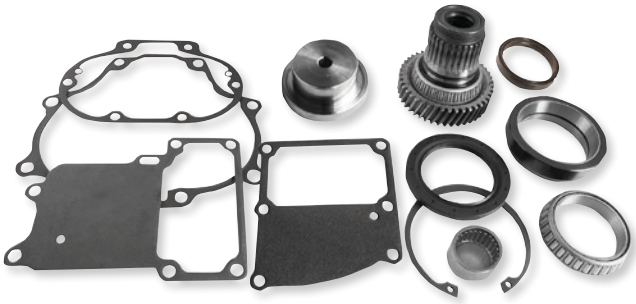
1110-0116

BAKER DRIVETRAIN Since 1998 Delivering American power to the pavement

CRUISE DRIVE SMOOTH SHIFT KITS

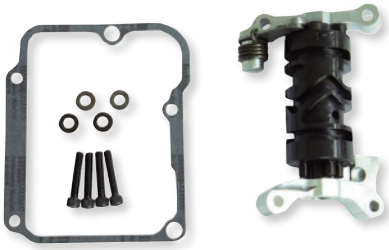


- Applied the design principles that made our six-speed overdrive shift so smooth, to create a shift drum/pillow block kit that will bolt onto any cruise drive 6-speed and give super smooth and precise shifting
- Included pillow block is machined from our 6061-T6 extrusion stock for a significant increase in strength over stock
- Redundant neutral feature and improved ratchet pawl geometry assist the rider in finding neutral the first time
- Smoother, positive shifting is achieved with advanced geometry in the fork pin groves, and the integration of a linear detent bearing on the right side mounting plate
- Fixed spindle drum design offers lower friction as the drum rotates, reducing the effort required by the rider to complete a shift
- Available in standard or N1 shift pattern (as noted)
- N1 shift pattern has a 0-down all-up shift pattern and eliminates any possibility of catching neutral on aggressive 1-2 shifts - neutral is below 1st gear
- Easy Installation – no need to disassemble the stock gearset from the bearing door; just pull out the stock gearset, and swap out the stock shift drum for the Baker smooth shift kit drum
- No adjustments are needed for the shift drum; direct bolt in design
- Reuses stock shifter pawl, stock pawl centering pin, shift forks and fork rods
- Precision-machined spindle and drum for durability
- Gaskets and fasteners included

PART #	DESCRIPTION
1110-0117	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 07-23 FLHT/FLHX/FLHR/FLTR (except 23 FLHXSE/FLTRXSE),18-24 Softail
1110-0119[1]	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 07-23 FLHT/FLHX/FLHR/FLTR (except 23 FLHXSE/FLTRXSE),18-24 Softail
1110-0116	For 07-16 Touring, 07-17 Softail, 06-17 Dyna
1110-0118[1]	For 07-16 Touring, 07-17 Softail, 06-17 Dyna

[1] N1 shift pattern.

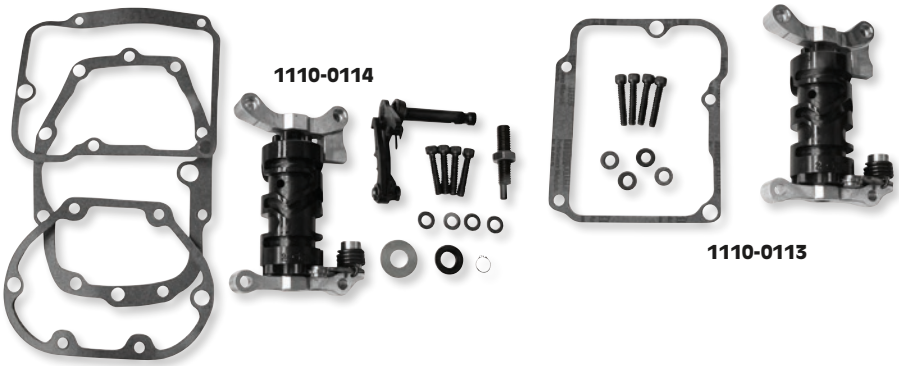
All part numbers in **BLUE** are new for 2026.



BAKER DRIVETRAIN
Delivering American power to the pavement

CRUISE DRIVE MAIN DRIVE GEAR TAPERED ROLLER BEARING KIT

- Kit provides everything you need to eliminate the all too common stock maindrive gear bearing failures
- Includes our exclusive Baker double tapered roller bearing assembly, a replacement cruise drive main drive gear and our new main drive gear/countershaft bearing installation and removal tool

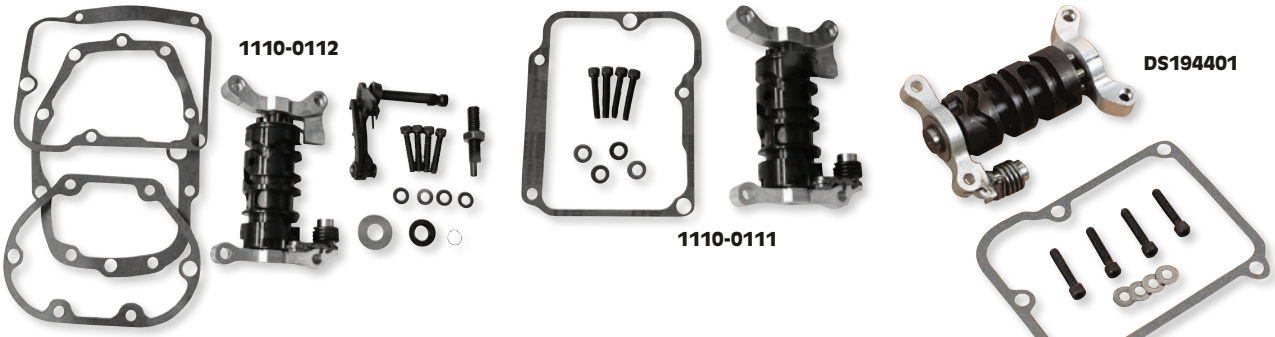


PART #	DESCRIPTION
1110-0100	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 07-23 FLHT/FLHR/FLHX/FLTRX (except 23 FLHXSE/FLTRXSE), 07-24 Softail and 06-17 Dyna w/ stock cruise drive transmission

5-SPEED N1 SHIFT KIT

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions
- Includes drum, pillow blocks, top cover gasket and fasteners

PART #	DESCRIPTION
1110-0101	For 00 FLT/FLHT/FLHR/FLTR



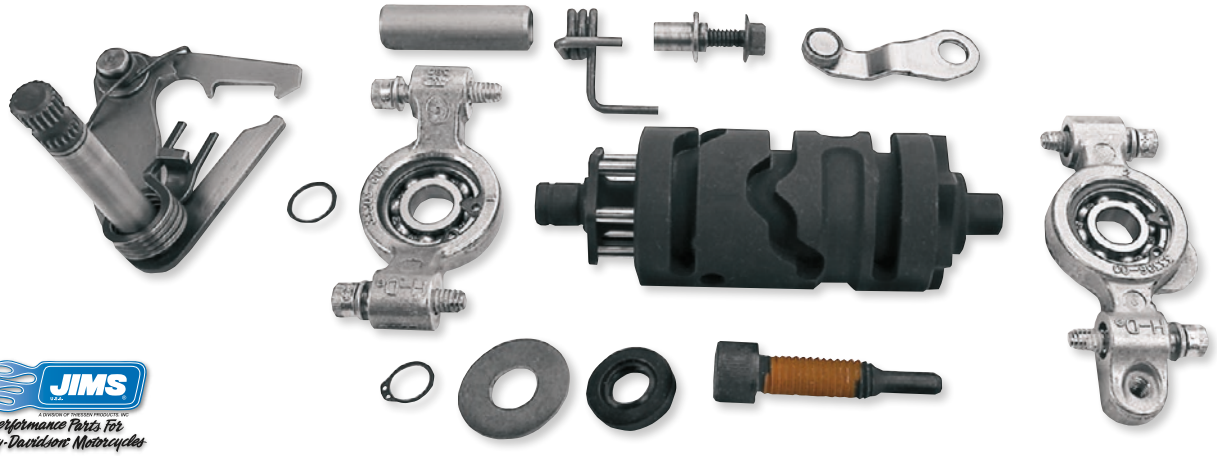
N1 SHIFTER DRUM KITS

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions

PART #	DESCRIPTION
1110-0114	For 01-06 FLHT/FLHX/FLHR/FLTR, 00-06 Softail, 01-05 Dyna

PART #	DESCRIPTION
1110-0113	For 99-00 FLHT/FLHR/FLTR/FXD/FXDWG

SHIFTER DRUM KITS



- Shifter drum grooves have been designed for smoother shifting and unneeded material has been removed from the barrel of the drum (less inertia translates to lower shift effort)
- Pillow blocks are machined from 6061-T6 extrusion stock for superior strength

PART #	DESCRIPTION
1110-0112	For 01-06 FLHT/FLHX/FLHR/FLTR, 00-06 Softail, 01-05 Dyna
1110-0111[1]	For 99-00 FLHT/FLHR/FLTR/FXD/FXDWG

PART #	DESCRIPTION
DS194401	For all 99-00 Twin Cam (except 00 FXST/FLST)

[1] Kit includes a neutral switch.

All part numbers in BLUE are new for 2026.

JIMS Performance Parts for Harley-Davidson Motorcycles

5-SPEED SHIFTER UPGRADE KIT

- Upgrades early-model 5-speed Big Twin with the latest technology
- Includes newly designed shift drum and lever assembly with built-in anti-overshift, late-model pillow blocks, case shifter shaft sleeve bushing, hardware and instructions
- To install shifter sleeve, use PART #3802-0008

PART #	DESCRIPTION
1110-0043	For 99-00 FLHT/FLHR/FLTR, Dyna

JIMS Performance Parts for Harley-Davidson Motorcycles

5-SPEED SHIFTING ASSEMBLY

- Reduces shifter free play
- Assembly includes plate (replaces OEM #35068-79), spring (#34087-79), pawl plate (#34086-79), shifter shaft (#34084-86), spring (#34083-79), pin (#34082-79), washer (#6016) and retaining ring (#11016)

PART #	DESCRIPTION
DS194066	For 99-00 Twin Cam 5-speed (except 00 Softail)

BAKER DRIVETRAIN Delivering American power to the pavement

ANTI-OVERSHIFT RATCHET SHIFT PAWL ASSEMBLY

- Features a rectangular cross-section shifter-shaft spring
- Shift-shaft lever splines are hobbed on gear cutter just like Baker gears
- With this setup there will be smoother shifts and no more broken shifter-shaft springs

PART #	DESCRIPTION
1110-0015	For 99-00 Twin Cam (except 00 Softail)

Eastern M C Parts

SHIFTER LEVER SHAFT

- Meets or exceeds OEM standards
- Sold each

PART #	DESCRIPTION
1110-0050	For 86-90 XL; repl. OEM #34628-86

Eastern M C Parts

1106-0050

SHIFTER SHAFT ASSEMBLY PINS AND SPRINGS

- Top-quality OEM replacement components
- Sold in 10-pack to dealers

PART #	DESCRIPTION
1106-0047	Detent arm spring for 99-06 Twin Cam (except 06 Dyna); repl OEM #33374-00
1106-0050	Pawl spring for 99-01 Twin Cam; repl OEM #34977-00A

All part numbers in BLUE are new for 2026.

BIG TWIN 5-SPEED SHIFTER FORKS

- Machined from billet steel and then hard chromed
- Cross section is three times thicker than stock forks
- Sold as a set (three shifter forks)

PART #	DESCRIPTION
DS-194173	For 99-06 Big Twin (except 06 Dyna); repl. OEM #s 34191-79E, 34193-79E and 34195-79E

SHIFT FORK SHAFT

- Available as shaft only

PART #	DESCRIPTION
DS-194250	For 99-06 Twin Cam 5-speed; repl. OEM #34088-87

SHIFTER ARM ADJUSTING SCREW

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1110-0044	For 99-00 Twin Cam; repl. OEM #33119-79A/B

SHIFTER SHAFT BUSHINGS

- High-quality replacements
- Sold in packs of two

PART #	DESCRIPTION
DS-194253	For 86-05 XL (inner/outer); repl. OEM #40520-63

SHIFTER CAM THRUST WASHER SET FOR 5-SPEED

- Set includes one of each of these eight sizes:
- 0,017" thick; repl. OEM #33205-80
- 0,020" thick; repl. OEM #33206-80
- 0,022" thick; repl. OEM #33207-80
- 0,025" thick; repl. OEM #33208-80
- 0,028" thick; repl. OEM #33209-80
- 0,031" thick; repl. OEM #33210-80
- 0,035" thick; repl. OEM #33211-80
- 0,040" thick; repl. OEM #33212-80

XL SHIFT FORK

- Available in standard dimensions
- Sold individually

PART #	DESCRIPTION
7808-1001	For 86-90 XL; repl. OEM #34291-52B

SHIFTER CAM FOLLOWER

- Quality steel, stronger than the aluminum OEM follower

PART #	DESCRIPTION
DS-194225	For 86-90 XL; repl. OEM #34063-84B

SHIFTER SHAFT BUSHINGS

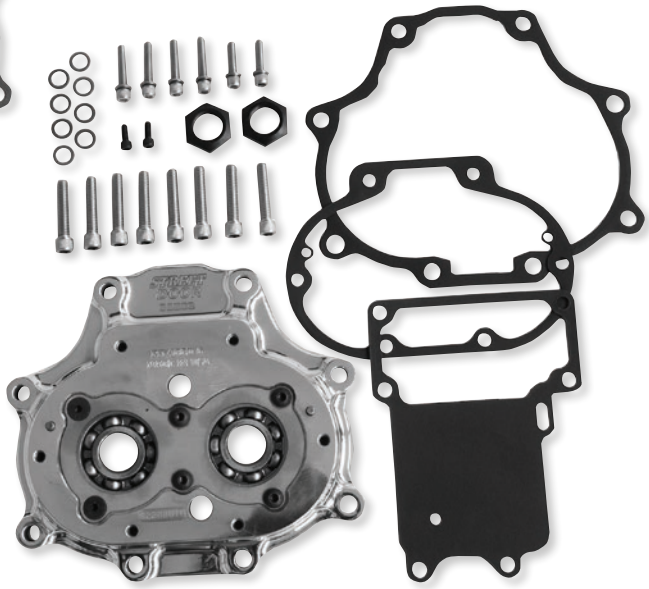
- Replace worn or damaged bushings
- Identical to the OEM bushing
- Sold in pairs

PART #	DESCRIPTION
1602-1226	For 01-16 FLT/FLHT/FLHR/FLHX/FLTR repl. OEM #42642-00/42642-00A

SHIFTER ROLLER FINGERS FOR 4-SPEED TRANSMISSIONS

- Manufactured from high-quality steel material for durability and strength
- Sold in 10-pack

PART #	DESCRIPTION
DS-193145	For 86-90 XL; repl. OEM #34168-52



PART #	DESCRIPTION
1106-0035	For 99-08 Twin Cam

All part numbers in BLUE are new for 2026.

1107-0719

BAKER DRIVETRAIN
Delivering American power to the pavement

6-SPEED TRANSMISSION DOOR ASSEMBLIES

- Manufactured with 6061-T6 Aluminum
- 28% wider bearings when compared to stock
- The bearings are retained with a 6-bolt steel 1/8" plate, phantom clutch lever movement reduced by 90%
- Installs with no modifications and includes mainshaft and countershaft nuts
- A must have for any serious motor upgrade

FOR 24-25 FLHRXS, 24 FLHTK/FLTRK, 07-23 FLHT/FLHX/FLHR/FLTR (EXCEPT 23 FLHXSE/FLTRXSE), 07-24 SOFTAIL, 06-17 DYNA

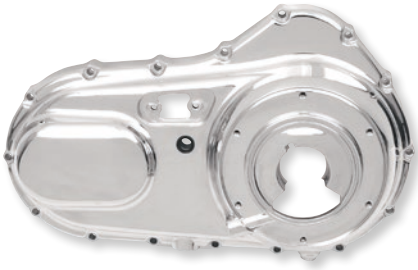
[1] Must use 16-23 Dresser style derby cover.
[2] Starter shaft bushing must be purchased separately.

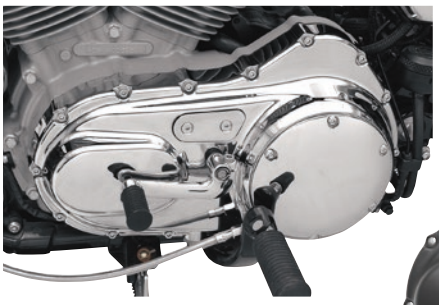
1107-0325

1107-0359



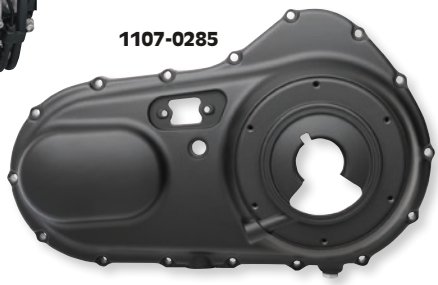
OUTER PRIMARY COVERS

- Rugged, die-cast aluminum construction
- Starter shaft bushings included; gaskets, seals and other components must be ordered separately to complete installation



PART #	DESCRIPTION
CHROME	
1107-0324	For 07-17 Softail, 06-17 FXDWG; repl. OEM #60782-06
1107-0325	For 06-17 Dyna w/ mid controls; repl. OEM #60764-06
1107-0036[1]	For 00-06 Softail and 99-05 Dyna

PART #	DESCRIPTION
SATIN BLACK	
1107-0359[1]	For 00-06 Softail and 99-05 Dyna



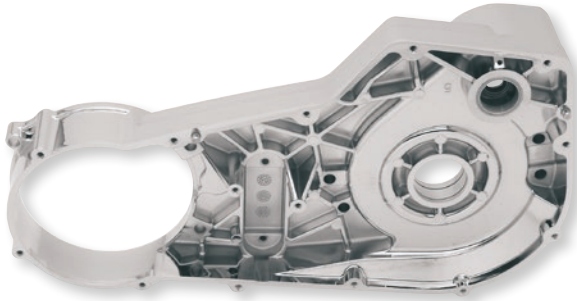
[1] Accepts drain plug (PART #1107-0326).

1107-0105

1107-0285

XL PRIMARY COVERS

- Die-cast aluminum construction
- Inspection covers and derby covers are available separately



PART #	DESCRIPTION
CHROME	
1107-0284	For 06-22 XL (except RH Sportster); repl. OEM #25460-06
1107-0105	For 04-05 XL; repl. OEM #25460-04
1107-0538	For 94-03 XL; repl. OEM #25460-94

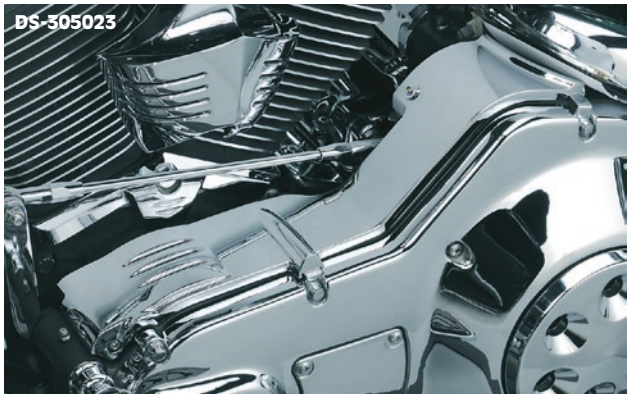
PART #	DESCRIPTION
SATIN BLACK	
1107-0285	For 06-22 XL (except RH Sportster)
1107-0539	For 94-03 XL

INNER PRIMARY

- Rugged, die-cast aluminum construction with a chrome-plated finish
- Starter shaft bushing included; seals and other components must be ordered separately to complete installation
- Accepts all OEM components

PART #	DESCRIPTION
1107-0045	For 00-06 Softail

All part numbers in BLUE are new for 2026.



KURYAKYN

INNER PRIMARY FRONT COVER EXTENSION

- Puts the finishing touch on your primary
- Covers the shift pivot area and grease fitting
- Easily installed

PART #	DESCRIPTION
0950-0198	For 99-06 FLT/FLHT/FLHR/FLTR

KURYAKYN

DELUXE CHROME INNER PRIMARY COVER ACCENTS

- High-quality, chrome-plated, die-cast
- Precise fit and finished edges enhance the primary area
- Four mounting points for secure, quiet operation

PART #	DESCRIPTION
CHROME	
1120-0401	For 17-25 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK and H-D FL Trike

PART #	DESCRIPTION
1107-0390	For 99-06 FLT/FLHT/FLHR/FLTR/FLHX; repl. OEM #60670-85A

All part numbers in BLUE are new for 2026.

2 3/4" OPEN BELT DRIVE KIT

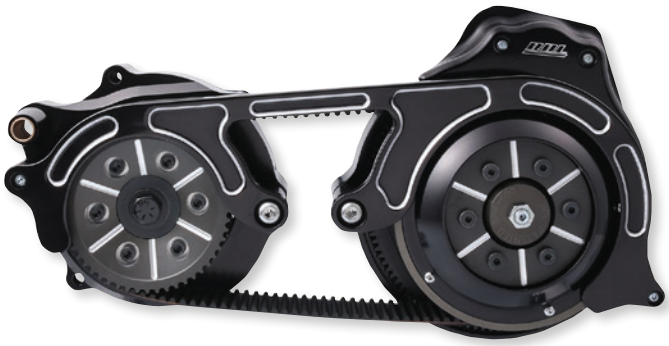
- Features BDL's ball-bearing lockup clutch with ring gear
- Kit includes motor plate, 52-tooth front pulley, 142T-belt, starter housing and guard, stand-offs, side guard and rear pulley cover with hardware
- Black anodized finish

PART #	DESCRIPTION
1120-0295	For 07-17 FXST/FLST/FXS/FLS w/ mechanical clutch (except FXSB/SE, FXCW/C) and 06-17 Dyna w/ forward controls

1120-0226

1120-0227

2" OPEN BELT DRIVE KITS



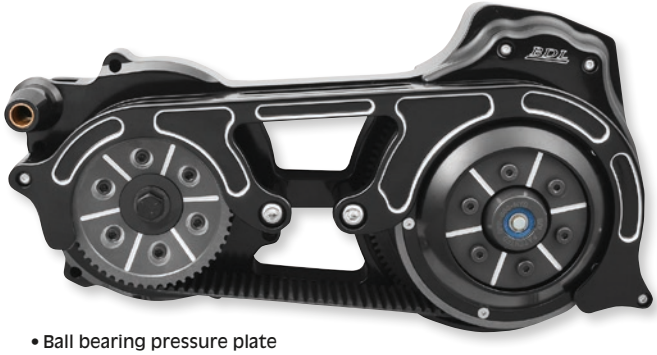
- BDL's ball-bearing lockup clutch with ring gear provides ease of shifting and positive clutch engagement
- New streamlined baseplate provides a unique look
- Kits include a 142-tooth drive belt, motor plate, starter housing and guard, standoffs, side guard and rear pulley cover with hardware

PART #	DESCRIPTION
FOR 00-06 FXST/FLST	
1120-0226	Polished

PART #	DESCRIPTION
FOR 00-06 FXST/FLST (CONT)	
1120-0227	Black

2" OPEN BELT DRIVE KITS WITH 2-PIECE MOTOR PLATE

- Features a two-piece motor plate design and 2" primary belt
- 52/69 pulley combination for a 1,32:1 final drive ratio
- Belt profiles are unique to each kit, requiring matched pulleys for each belt; pulleys may not be interchanged
- Front pulley face and spring collar have a matching pattern to the rear pulley
- Front pulley cover is counterbored for a super-clean appearance
- 6-bolt configuration diaphragm clutch for a more firm feel and improved appearance
- Kits include side and top guard for an aggressive, open dome look
- Springs and spring collar are enhanced for more positive lock-up engagement, great for big-inch/high-horsepower motors



- Ball bearing pressure plate
- Available in black

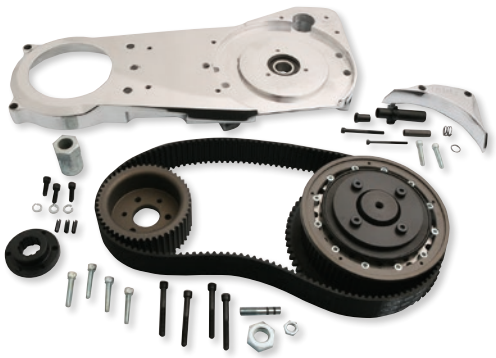
PART #	DESCRIPTION
1120-0434	For 18-25 Softail (except FLFB/FXFB/FXBR/FXDRS)

2" OPEN BELT DRIVE KIT WITH 1-PIECE MOTOR PLATE

- Features a one-piece motor plate design and 2" primary belt
- 52/69 pulley combination for a 1,32:1 final drive ratio
- Front pulley face and spring collar have a matching pattern to the rear pulley
- Front pulley cover is counterbored for a super-clean appearance
- Diaphragm clutch is a 6-bolt configuration for a more firm feel and improved appearance
- Kit includes side and top guard for an aggressive, open dome look
- Springs and spring collar are enhanced for more positive lock-up engagement, great for big-inch/high-horsepower motors

- Ball bearing pressure plate
- Black anodized finish

PART #	DESCRIPTION
1120-0399	For 17-20 FLHT/FLHR/FLHX/FLTRX/ FLTRU/FLTRK w/ hydraulic clutch



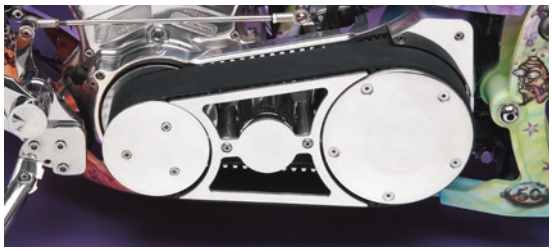
All part numbers in BLUE are new for 2026.

2" BELT DRIVE KIT

- Includes BDL's ball-bearing lockup clutch, new full-coverage side guard and top mesh belt guard
- Kit also includes motor plate and a 132-tooth belt
- 2" drive width allows for the use of stock floorboards
- Black anodized finish

PART #	DESCRIPTION
1120-0232	For 99-06 FLHT/FLHR/FLTR/FLHX

SS-2 2" BELT DRIVE KIT



- Beautiful styling and awesome performance
- 2" drive features a one-piece billet motor plate
- Clutch design eliminates clutch dogs and features an internal mill-cut basket to drive the clutch
- Ball-bearing lockup clutch offers 30% more contact surface than our 3" drives

PART #	DESCRIPTION
1120-0082	For 00-06 FXST/FLST

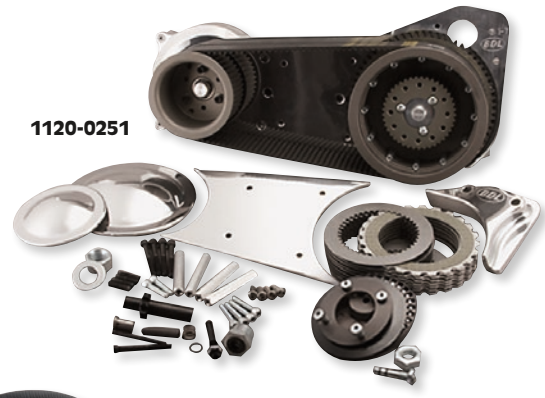
14 MM X 85 MM (3 3/8") MONSTER TOP FUEL BELT DRIVE KIT WITH CLUTCH

- Kit includes front and rear pulley, 3 3/8" belt, nine friction plates and 11 steel clutch plates; use up to nine springs for varying pressure to accommodate any motor size
- Includes oil filter mount between the pulleys
- Polished outboard bearing support; outboard support is reversible and the back side is channeled for another distinct look, but only the flat side is polished

- Replacement components available separately; see pages 680

NOTE: System is not designed for use with floorboards.

PART #	DESCRIPTION
FOR 00-06 FXST/FLST	
DS360190	W/ side guard



1120-0247

8 MM BELT DRIVES WITH LOCKUP CLUTCH

- 1 5/8" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kits include front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems come with the Quiet Clutch and ball-bearing lockup design pressure plate
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort

PART #	DESCRIPTION
1 5/8" SYSTEMS	
1120-0247	For 00-06 FXST/FLST and 99-05 Dyna

1120-0251

1120-0245

- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch
- Replacement components available separately; see page 680

NOTE: 3" systems are not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
3" ELECTRIC START SYSTEMS	
1120-0251	For 00-06 FXST/FLST
1120-0245	For 99-05 Dyna

All part numbers in BLUE are new for 2026.

8 MM BELT DRIVE KIT WITH OUTBOARD SUPPORT PLATE

- 3" belt drive kit includes outboard bearing support for rear shaft
- Similar design to BDL's "Top Fuel"-style belt kits
- Includes clutch assembly
- Includes ball-bearing lockup design clutch pressure plate
- Outer support plate is polished 6061 aluminum
- Accepts any 90-06 Big Twin-style starter
- Replacement components available separately; see pages 680

NOTE: System is not designed for use with floorboards.

PART #	DESCRIPTION
1120-0255	For 00-06 FXST/FLST

REPLACEMENT BDL PULLEYS, CLUTCH BASKETS/HUBS

- Precision-machined out of aluminum and then hard anodized
- Motor shaft pulleys come with nut and washer (unless noted)

Motor shaft

Clutch basket

Clutch hub

[1] Does not include nut and washer.

OFFSET FRONT PULLEY AND SPACER INSERTS

- Used to offset motor pulley for belt alignment
- Spacer inserts are available in eight widths from 1/4" to 2" and include a motor sprocket nut and mounting screws
- Pulleys are for 3" systems and accept any of the spacer inserts listed
- Pulleys and spacer inserts sold separately

DS360422

DS360428	1 1/4" insert

MOTOR PULLEY LOCKING PLATE

- For use with BDL's standard, 3/4", 1", 1 1/4" or 1 1/2" offset insert kits
- Kit contains three 5/16"-18 x 1 1/2" sockethead cap screws, three 5/16" lock washers, three 5/8" OD spacers and locking plate

PART #	DESCRIPTION
1120-0235	Motor pulley locking plate

All part numbers in BLUE are new for 2026.

PRIMARY BELT COVER

- Billet aluminum construction with a chrome-plated finish
- Styled to match Belt Drives' popular Top Fuel belt drive cover
- Fits 3" open BDL belt drive systems with 3 1/2" x 4" motor plate bolt pattern

PART #	DESCRIPTION
1120-0049	Cover for BDL 3" primary

POLISHED DOMED PULLEY COVER KIT

- Includes clutch basket cover, motor pulley cover, special tape and button-head bolts with template for permanent installation

PART #	DESCRIPTION
DS-191026	For 47-tooth motor shaft pulley and 72-tooth clutch basket (Evolution)

All part numbers in BLUE are new for 2026.

DRAG Specialties

PRIMARY DRIVE KIT

- Kit includes compensating sprocket assembly, chain adjuster assembly and complete clutch assembly with aramid friction plates
- Primary chain sold separately

PART #	DESCRIPTION
1120-0076	For 99-06 Big Twin (except 06 Dyna), 25/36-tooth

BAKER DRIVETRAIN

34-TOOTH COMPENSATOR SPROCKET

- Engineered with an annular oil distribution system that channels lubricant directly to common wear points
- Delivers quieter operation and extended durability over stock
- Provides refined function with increased cam lobe geometry width and ramp angles and adding a circular oil skirt that channels primary lubricant into the cam lobe region

NOTE: Does not fit FLFB/FLFBS/FXBR/FXBRS or CVO Softail with wide 240 rear tires.

PART #	DESCRIPTION
1120-0458	For 17-25 Touring and 18-25 Softail

COMPENSATOR SPROCKET KITS

- Three-piece patented design with no spring
- Weighs less than the stock sprocket

U.S. Patent #6,234,909B1.

NOTE: 07-14 models must use the supplied steel spacers and $^{9}/_{16}$-12 x 3,250 long hex head bolt for correct primary chain alignment.

PART #	DESCRIPTION
FOR 07-21 BIG TWIN (EXCEPT 08-11 FXCW/ FXCWC, 13-17 FXSB, 18-21 FLFB/FLFBS, 18-21 FXBR/FXBRS/FXDRS, 17-21 FLHTCUTG/FLRT)	
1120-0292	34-tooth compensator sprocket

1120-0292

PART #	DESCRIPTION
FOR 99-06 BIG TWIN	
1101-5002	24-tooth compensator sprocket
1101-5001	25-tooth compensator sprocket

SOLID PRIMARY SPROCKET KIT

- Eliminates the need for a complete compensator assembly
- Includes 24-tooth sprocket, flat washer and front pulley/sprocket nut

NOTE: Minor shimming may be required for proper alignment.

PART #	DESCRIPTION
1120-0412	For 99-06 Big Twin

MAN O-WAR MOTOR SPROCKET

DARK HORSE MOTOR COMPANY

- The first performance engineered primary motor sprocket that replaces the OEM compensator on 17-25 M-Eight models and provides instant torque response combined with an "engine pulse absorbing cushion drive" primary drive system for H-D M-Eight platforms
- Engineered for longevity compared to OEM compensating sprockets without sacrificing rider comfort
- Patented system puts an emphasis on rider comfort compared to the noise and harsh feeling under loads associated with one-piece solid motor sprockets
- These premium features include the ability to rebuild and service the unit in place versus expensive compensators that need to be replaced as an entire unit
- The Man O-War motor sprocket will be the last motorsprocket you will need to buy for your Harley-Davidson M-Eight

U.S. Patent # 10927939.

NOTE: Due to "Factory starting phase assignment" you may experience starting issues combining the Man O-War Motor Sprocket with "easy start cams". The ECM looks for crankshaft "deceleration" to determine phase for F & R cylinder timing assignments. Please be aware that we do not recommend using both of these products together as it may very well lead to starting issues.

PART #	DESCRIPTION
1120-0460	For 17-25 Touring, 18-25 Softail (except FXBR/FXBRS/FXDR/FLFB/FLFBS)

DARK HORSE MOTOR COMPANY

MAN O-WAR MOTOR SPROCKET CUSHION REPLACEMENT KITS

- Kits include all eight cushions to rebuild motor sprocket cushions when needed
- PART #1120-0462 includes compression tool necessary to replace cushions

PART #	DESCRIPTION
1120-0462	W/ compression tool

PART #	DESCRIPTION
1120-0461	W/o compression tool

All part numbers in BLUE are new for 2026.

DRAG Specialties

SOLID PRIMARY SPROCKET KITS

- Solid steel one-piece design
- 34-tooth sprocket
- Spring-less and much quieter than the stock or diaphragm spring-style compensators
- Eliminate the need for a complete compensator assembly
- Kits include sprocket, washer, spacer and instructions
- Retain and use stock installation bolt

1120-0413

1120-0390

PART #	DESCRIPTION
1120-0413	For 17-25 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK, 18-25 FXBB/FXFB/FXLR/FLDE/FLHC/FLSB/FLSL

PART #	DESCRIPTION
1120-0390	For 07-16 FLHT/FLHR/FLTR/FLHX, 07-17 Softail, 06-17 Dyna

HIGH PERFORMANCE COMPENSATOR SPROCKET KIT

- Designed to handle high torque and horsepower in high-performance engine applications
- Increased travel helps protect the motor and drivetrain from the harsh shock of full-throttle launches
- Kit features a 34-tooth compensator sprocket, heavy-duty spring pak, shaft extension, needle bearing thrust washers, sprocket retainer, bolt and oil deflectors

NOTE: Will fit 07-10 Dresser, 07-11 Softail and 07-11 Dyna if used in conjunction with rotor assembly OEM #30041-08 (sold separately).

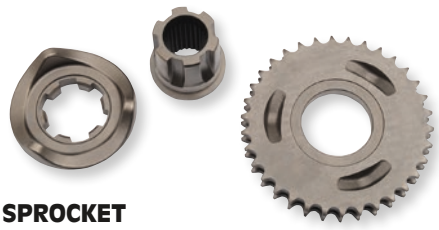
NOTE: Will fit 06 Dyna if used in conjunction with rotor assembly OEM #30041-08 and stator assembly OEM #30017-07 (sold separately).

NOTE: Requires the separate purchase of adhesive kit OEM #11100088.

NOTE: Some models may require shims, OEM #10300021 (sold separately).

PART #	DESCRIPTION
1120-0404	For 11-16 FLHT/FLHR/FLHX/FLTR/FLTRU, 12-17 FLS/FLST (except FXSB/SE/FXCW/C) 12-17 FXD/FXDWG, 09-13 H-D FL Trike; repl. OEM #42200064A

1120-0435



DS195196

COMPENSATING SPROCKET KITS

- Complete kits contain a high-quality sprocket, sprocket shaft extension, sliding cam, sprocket nut and cover with spring plate

PART #	DESCRIPTION
1120-0435	For all 17-25 M-Eight (except FXBR/FXBRS/FXFB/FXFBS/FXDR/FXDRS) (34-tooth); repl. OEM #40100076
DS195197	For 99-01 FLHT/FLTR/FLHR w/ EFI (24-tooth); repl. OEM #40269-85

PART #	DESCRIPTION
DS195196	For 99-06 Big Twin (except 99-01 FLHT/FLTR/FLHR w/ EFI, 06 Dyna) (25-tooth); repl. OEM #40308-94

COMPENSATOR SPROCKET

- 34-tooth
- High-quality steel construction

PART #	DESCRIPTION
1120-0304	For 07-10 Dresser, 06-11 FXS/FXST/FLST, 06-11 Dyna; repl. OEM #40296-06A

COMPENSATOR SPRING PACK

- High-quality OEM replacement component
- Can also be used as a replacement for the spring pack found in Drag Specialties High Performance compensator sprocket kit PART #1120-0404

PART #	DESCRIPTION
1120-0444	For 11-25 Touring, 09-25 H-D FL Trike, 12-25 Softail, 12-17 FXD/FXDWG/FLD; repl. OEM #83936-09A

FEULING

COMPENSATOR SPRING

- Performance compensator replacement spring
- Thicker, stronger and an increased bevel over stock
- Features a steeper bevel that provides more preload and pressure on the spring pack and compensator
- This helps diminish excessive compensator travel in turn reducing harmonics, eases start up and gives a more responsive feel at lower engine rpm's
- Replaces the first, outer most spring in compensator spring pack OEM #83936-09A

NOTE: Feuling® spring is not a fix for excessively worn and/or damaged compensators.

PART #	DESCRIPTION
1120-0463	For 11-25 Touring, 09-25 H-D FL Trike, 12-25 Softail, 12-17 FXD/FXDWG/FLD, 07-12 Twin Cam w/ updated Screamin' Eagle compensator

All part numbers in BLUE are new for 2026.

COMPENSATOR RAMP

- Direct replacement for the OEM compensator ramp
- CNC machined from 9000 series steel to handle upgraded horsepower and torque

PART #	DESCRIPTION
1120-0459	For 17-25 M-Eight

COMPENSATING SPROCKET SHAFT EXTENSIONS

- Hardened alloy steel extension has been precision ground
- For use with OEM or most aftermarket compensating sprockets
- Used when offsetting transmission in wide tire applications

1120-0001

PART #	DESCRIPTION
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA)	
1120-0001	+1" extension (1 3/8" overall)
1120-0002	+1 3/8" extension (1 3/4" overall)

COMPENSATING SPROCKET NUT

- For use on 99-06 Big Twin models
- Sold each

PART #	DESCRIPTION
2017-3461	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #40392-91

PRIMARY CHAINS

- Improved fatigue resistance
- Pre-loaded to reduce initial elongation
- Endless construction using high-quality raw materials for long life

1120-0283

1120-0286

PART #	SIZE	DESCRIPTION
1120-0284	#428-2 x 86	For 07-24 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK and H-D FL Trike; repl. OEM #40037-07
1120-0282	#428-2 x 76	For 99-06 FLHT/FLHX/FLHR/FLTR; repl. OEM #40037-79A
1120-0285	#428-2 x 92	For 07-25 Softail, 06-17 Dyna; repl. OEM #40036-06

PART #	SIZE	DESCRIPTION
1120-0283	#428-2 x 82	For 00-06 FXST/FLST and 99-05 Dyna; repl. OEM #40007-36A/B
1120-0287	#35-3 x 96	For 04-22 XL1200; repl. OEM #40147-04
1120-0286	#35-3 x 94	For 86-03 XL, 04-21 XL883; repl. OEM #40005-57A/B

MANUAL PRIMARY CHAIN TENSIONERS

- Helps with over tightening; easy to adjust
- Heavy-duty manual tensioner
- Precision machined from billet aluminum
- Mounts with OEM hardware
- Available in black

1120-0424

PART #	DESCRIPTION
1120-0424	For 17-23 M-Eight
1120-0409	For 07-16 FLHT/FLHR/FLHX/FLTR/ FLTRX/FLTRU, 09-16 FLHTCUTG/FLHXXX

PART #	DESCRIPTION
1120-0408	For 07-17 FXST/FLST, 06-17 FXD/FXDWG

ARMORED ATTITUDE PRIMARY CHAIN ADJUSTER ASSEMBLY AND REPLACEMENT SHOE

- Prevents damage to your motorcycle's left side motor case bearings, inner primary bearings, clutch hub bearings and transmission output gear bearings
- Manual chain tensioner allows you to set the chain to the proper 5/8"-7/8" (cold) freeplay and never have to worry about it being too tight
- Increases torque by 3,42 ft. lbs.
- Reduces primary noise
- Helps prevent damage to the primary

1120-0437

1120-0452

- Improves motor bottom end and inner primary race bearing durability
- Replacement shoe machined from Nylon 6, sold separately

PART #	DESCRIPTION
1120-0437	For 17-24 M-Eight, 07-16 FLHT/FLHR/FLHX/FLTR, 09-16 H-D FL Trike, 07-17 Softail and 06-17 Dyna

PART #	DESCRIPTION
1120-0452	Replacement shoe adjuster

All part numbers in BLUE are new for 2026.

PRIMARY CHAIN ADJUSTER KITS

- Used for updating an old adjuster system or when building a new bike from the ground up
- Complete kit includes adjuster plate, bolts, shoe, brackets and hardware

PART #	DESCRIPTION
1120-0445[1]	For 17-24 M-Eight; repl. OEM #36500075A
1120-0449[1]	For 07-17 Twin Cam, 06 FXD/FXDWG; repl. OEM #39929-06C
1120-0160	For 01-06 Twin Cam (except 06 Dyna); repl. OEM #s 39976-01, 39990-01 and 39998-65A
1120-0447[1]	For 01-06 FLHT/FLHR/FLHX/FLTR/FXST/FLST, 01-05 FXD/FXDWG
1120-0448	For 89-00 FLHT/FLHR/FLTR, 84-00 FXST/FLST, 91-00 FXD/FXDWG
DS-181201[1]	For 99-00 Twin Cam; repl. OEM #s 39998-65, 39996-65, 39993-65, 39990-65, 39976-65B, 7778, 6703, 6400BH, 5444, 2614 and 1783

[1] Auto-adjust style kits.

1120-0393

7805-0022

DRAG Specialties

MANUAL PRIMARY CHAIN ADJUSTER

- Stops overtightening of the primary chain that can occur with the stock automatic adjuster
- Reduces the stress on the motor sprocket bearings and transmission drive bearings
- Allows correct adjustment of the primary chain to the factory specifications of $^{5}/_{8}$" to $^{7}/_{8}$"
- Requires removal of the primary cover for installation or adjustment
- Uses the OEM mounting hardware
- Instructions included

PART #	DESCRIPTION
FOR 07-16 FLHT/FLHR/FLHX/FLTR, 09-16 H-D FL TRIKE, 07-17 SOFTAIL AND 06-17 DYNA	
1120-0393	Manual primary chain adjuster; repl. OEM #36500020
1120-0394	Repl. chain adjuster shoe

DRAG Specialties

PRIMARY CHAIN ADJUSTERS

- Includes bracket shoe and all required hardware
- Zinc-plated
- Replaces OEM adjuster
- Sold each

PART #	DESCRIPTION
1120-0352	For 04-22 XL (except RH Sportster); repl. OEM #s 40039-02C, 7804
7805-0022	For 91-03 XL (ea.); repl. OEM #s 39970-91, 3242
1120-0353	Replacement sealing nut for 04-22 XL (except RH Sportster); repl. OEM # 7804

SCORPION BILLET CLUTCHES

- CNC-machined billet aluminum design features over twice the friction area of the stock clutch
- Provides positive engagement and release
- Incorporates six heavy-duty coil springs instead of the diaphragm spring; includes an extra heavy-duty set of springs for higher horsepower applications
- Friction plates are compatible with most primary oil
- Simple bolt-on installation; requires the original clutch shell; no machining is necessary
- Kits include clutch hub, drive plates, driven plates, two sets of clutch springs, pressure plate and necessary hardware
- Sets of replacement fiber and steel clutch plates available separately
- Optional clutch lock plates are specifically designed to be used to lock outer clutch basket to inner hub for removal and installation
- Optional clutch hub puller PART #1605-1270 fits all applications

DESCRIPTION	SCORPION CLUTCH	REPL. CLUTCH PLATE SET
BIG TWIN APPLICATIONS		
For 21-25 FLHT/FLHX/FLHR/FLTRX and 18-25 Softail w/ mechanical clutch	**1130-0436**	**1131-3903**

SCORPION COMPLETE CLUTCHES

- CNC-machined billet aluminum design features over twice the friction area of the stock clutch
- Provides positive engagement and release
- Incorporates six heavy-duty coil springs instead of the diaphragm spring; includes an extra heavy-duty set of springs for higher horsepower applications
- Friction plates are compatible with most primary oil
- Simple bolt-on installation
- Comes assembled with bearing included
- Kit includes clutch basket, clutch hub, drive plates, driven plates, two sets of clutch springs, pressure plate and necessary hardware

DESCRIPTION	SCORPION CLUTCH PART #	REPL. CLUTCH PLATE SET PART #
For 21-25 FLHT/FLHX/FLHR/FLTRX and 18-25 Softail w/ mechanical clutch	**1130-0834**	-
For 17-20 FLHT/FLHX/FLHR/FLTRX w/ hydraulic clutch	**1130-0835**	**1131-3903**

SCORPION LOW-PROFILE LOCK-UP CLUTCH

- Features an all-new, redesigned billet aluminum lock-up pressure plate designed to fit under the stock primary cover
- No need to change or modify your cover
- Surface area is greatly increased and lever effort is kept to a minimum
- Three different coil spring sets included to provide a wide variety of spring pressure options allowing you to tune the clutch for stock to 200+ HP applications
- A steel inner hub is also included to complete the unit
- Designed to fit into the stock-type basket
- Billet aluminum pressure plate
- Adjustable pressure arms increase spring pressure as rpm increase
- Can be run wet or dry
- Smooth, precise shifting
- Sets of replacement fiber and steel clutch plates available separately

PART #	DESCRIPTION
1130-0843[1]	For 21-25 FLHT/FLHR/FLHX/FLTR w/ mechanical clutch
1130-0299[1]	For 17-20 FLHT/FLHR/FLHX/FLHR/FLTRX w/ hydraulic clutch

[1] Derby cover spacer PART #1107-0632 is required when using an OEM-style derby cover. Spacer is not required when using Barnett derby cover PART #s 1107-0540 or 1107-0541 (sold separately).

PART #	DESCRIPTION
DERBY SPACER PLATE	
1107-0632	For PART #s 1130-0299, 1130-0843

SCORPION LOW-PROFILE LOCK-UP CLUTCH ASSEMBLIES

- Features an all-new, redesigned billet aluminum lock-up pressure plate designed to fit under the stock primary cover
- No need to change or modify your cover
- Surface area is greatly increased and lever effort is kept to a minimum
- Three different coil spring sets included to provide a wide variety of spring pressure options, allowing you to tune the clutch for stock to 200+ HP applications
- Scorpion clutch basket with bearing and a steel inner hub is also included to complete the unit
- Billet aluminum pressure plate
- Adjustable pressure arms increase spring pressure as rpm increase
- Can be run wet or dry
- Smooth, precise shifting

PART #	DESCRIPTION
1130-0836	For 21-25 FLHT/FLHR/FLHX/FLTR w/ mechanical clutch
1130-0837	For 17-20 FLHT/FLHR/FLHX/FLTR w/ hydraulic clutch

All part numbers in **BLUE** are new for 2026.

REKLUSE clutch rEvolution

- All Rekluse clutch products are precision-engineered and made of high-quality materials to provide the best in performance and durability. Their components are stronger, lighter, longer-lasting and built for maximum performance. Rekluse's industry-leading auto clutches are optimized for each bike model as it comes from the factory and they've designed each clutch to be fine-tuned for every rider. Rekluse's manual clutches deliver unprecedented performance, tuning and durability with a design that provides more disks in less space, allowing up to four additional friction disks over stock.

1132-1972

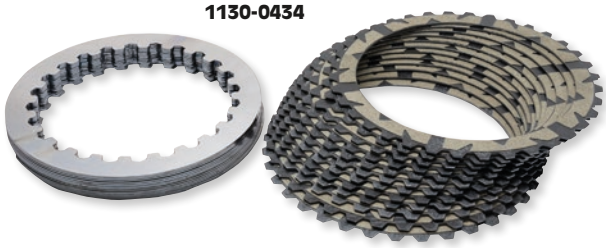
1132-1974

APEX CLUTCH AND CLUTCH WITH BASKET KITS

- Designed to reduce lever pull effort while increasing lever feel consistency
- 60% increase in torque capacity and clutch engagement, resulting in improved power transfer to rear wheel
- Improved clutch modulation and control
- Reduce clutch operating temperatures with improved oil for longevity and consistent performance
- Tunable to power needs and rider preference with interchangeable spring combinations to match engine build while minimizing lever force
- Designed for usable power delivery with a wide range of horsepower levels, no need for overly aggressive alternatives like lock-up systems
- Kits include: Fixed-Pin design billet hub, billet pressure plate, complete clutch pack featuring TorqDrive® friction disks, two sets of varied stiffness clutch springs, basket sleeves and hardware

APEX CLUTCH

PART #	DESCRIPTION
1132-1971	For 11-24 Big Twin
1132-1972	For 07-10 Twin Cam



APEX CLUTCH WITH BASKET

PART #	DESCRIPTION
1132-1973	For 17-25 M-Eight
1132-1974	For 11-17 Twin Cam
1132-1975	For 07-10 Twin Cam

1130-0307

1130-0434

V-TWIN TORQDRIVE® CLUTCH KITS

- TorqDrive® provides more disks in less space, allowing us to add up to six additional friction disks to the clutch pack over stock
- More friction plates = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device
- TorqDrive provides smoother shifting and improved lever feel
- Rekluse basket sleeves eliminate basket wear and notching

NOTE: Designed for use with OEM or Rekluse clutch baskets/shells only.

PART #	DESCRIPTION
1130-0307	For 13-25 Big Twin w/ slipper/assist clutch
1130-0306	For 99-17 Twin Cam (except models w/ slipper/assist clutch)
1130-0891	Repl. basket sleeves for PART #1130-0306

PART #	DESCRIPTION
1130-0860	For 21-25 RH1250S, 22-24 RH975/S
1130-0434	For 03-22 XL (except RH Sportster)
1130-0860	For 21-25 RA1250S/ST Pan America

All part numbers in BLUE are new for 2026.

REKLUSE clutch rEvolution

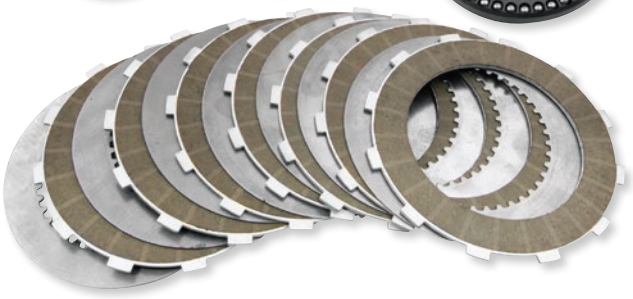
1130-0308

1130-0312

V-TWIN RADIUSX CLUTCH KITS

- RadiusX is a high-performance centrifugal auto clutch combining Rekluse's TorqDrive® and EXP technologies
- TorqDrive® provides more clutch disks in less space, allowing for maximum performance within the bike's existing clutch footprint
- Full clutch control and use of the lever is retained for a no-compromise riding experience
- RadiusX offers dead-on clutch engagement every time and allows riders to take off and stop in gear without using the clutch lever
- Riders will experience maximum power delivery
- Rekluse TorqDrive friction disks deliver higher torque capacity and increased power transfer
- With RadiusX, you'll confidently navigate traffic and slow-speed conditions
- Rekluse sleeves eliminate basket wear and notching
- Installing RadiusX does not require modification to stock components
- Shifting the transmission remains unchanged (clutch lever use is recommended for shifting)

NOTE: Designed for use with OEM or Rekluse clutch baskets/shells only.



PART #	DESCRIPTION
1130-0314	For 21-25 FLHT/FLHX/FLHR/FLTRX, 18-25 Softail w/ cable actuated clutch
1130-0308	For 99-17 Twin Cam w/ cable actuated clutch (except models with slipper/assist clutch)
1130-0312	Fits 13-20 Big Twin w/ slipper/assist hydraulic clutch (3-coil clutch springs)
1130-0309	Fits 07-16 Twin Cam w/ hydraulic clutch (except models w/ slipper/assist clutch) (diaphragm clutch spring)
1130-0316	For 15-20 XG500/750/750A w/ cable actuated clutch

Shown assembled

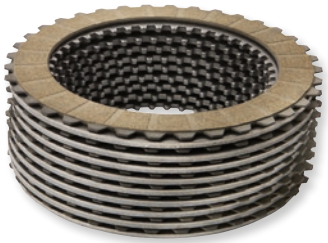
1130-0112

COMPETITOR CLUTCHES

- Clutch pack plates have 60% more surface area than stock plates for strong, positive clutch engagement
- PART #1130-0112, 1130-0255 feature a ball-bearing lockup pressure plate that will handle any application including big-inch motors
- Kit also includes inner clutch hub and diaphragm spring
- Replacement plates available

COMPETITOR CLUTCHES

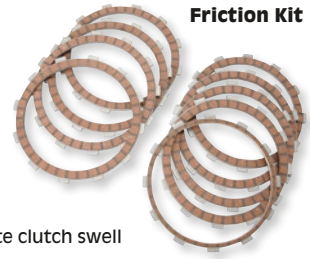
PART #	DESCRIPTION
W/ BALL BEARING PRESSURE PLATE	
1130-0255	For 07-20 Big Twin with cable clutch
1130-0112	For 99-06 Twin Cam w/ stock clutch basket (except 06 Dyna)



PART #	DESCRIPTION
REPLACEMENT COMPONENTS FOR PART #1130-0112	
1131-0861	0,120" steel plate (ea.)
1131-0862	Friction plates (7 pc.)
1131-0863	0,059" steel plate (6 pc.)

BAKER DRIVETRAIN
Delivering American power to the pavement

BIG DOG CLUTCH KIT



- Replaces friction and steel plates on Big Dog OEM 9-plate clutches

PART #	DESCRIPTION
1131-1800	For 08-11 Big Dog w/ 9-plate clutch

All part numbers in BLUE are new for 2026.

HIGH-PERFORMANCE CLUTCH KITS

Friction Kit

Steel kit

- Specifically designed to provide extended clutch life, fade- and slip-free operation and superior shifting
- Friction plates have our exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel clutch plates won't expand; do not fade or promote clutch swell
- Long lasting – up to 300% more life than stock plates
- Will not muddy or contaminate oil

DESCRIPTION	OEM #	FRICTION KIT PART #	QTY. INCLUDED	OEM #	STEEL KIT PART #	QTY. INCLUDED

HEAVY-DUTY CLUTCH KITS

1131-3373

1131-3374

- Designed to outperform any OEM or aftermarket clutch
- HD clutch kit comes in a foam-lined, hard plastic case that protects clutch components from being damaged prior to installation
- Case can be used to store and transport parts, tools or other items after clutch is installed
- HD kit includes friction plates and steel drive plates; does not include springs
- Friction plates come ready to race – no need to presoak plates in oil
- Exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel drive plates won't expand, do not fade or promote clutch swell like stock aluminum plates
- Long lasting – up to 300% more life than stock plates
- Increased weight over stock plates adds flywheel effect for aiding starting and traction
- Will not muddy or contaminate oil

HEAVY-DUTY EXTRA PLATE CLUTCH KIT FOR M-EIGHT

- Designed to outperform any OEM or aftermarket clutch
- HD clutch kit comes in a foam-lined, hard plastic case that protects clutch components from being damaged prior to installation
- Case can be used to store and transport parts, tools or other items after clutch is installed
- Kit includes clutch springs with 11 friction plates and 10 steel plates
- Friction plates come ready to race – no need to presoak plates in oil
- Exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel drive plates won't expand, do not fade or promote clutch swell like stock aluminum plates
- Long lasting – up to 300% more life than stock plates
- Increased weight over stock plates adds flywheel effect for aiding starting and traction
- Will not muddy or contaminate oil

PART #	DESCRIPTION
1131-3611	For 17-25 M-Eight

HEAVY-DUTY EXTRA PLATE CLUTCH KIT

- Approximately 10% more surface area than clutch kit
- Kit contains nine friction plates and eight steel plates

PART #	DESCRIPTION
1131-3490	For 91-22 XL (except RH Sportster)

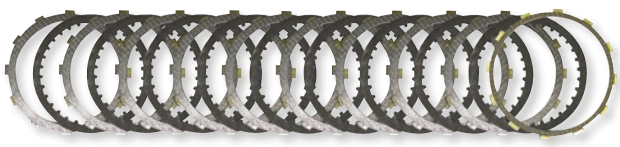
Friction Plate Kit

COMPETITION SERIES CLUTCH PLATE KITS

- Clutch friction plate kits are supplied as a separate kit from springs and drive plates
- Different friction materials are used to match original specifications
- Friction plates should be allowed to bed in to avoid glazing friction surface
- Clutch steel plates are made from corrosion-free steel
- Check old plates for color and wear and preferably replace at the same time as friction plates
- Increase in clutch spring strength is achieved either through the extra length or by tighter winding

Clutch Steel Plates



NOTE: Some synthetic oils increase the danger of clutch slip with friction plates.

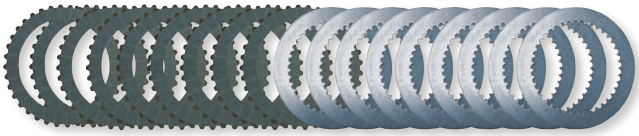
CARBONITE HIGH-PERFORMANCE POWERPAK KITS

- Made from 3M™ carbon-based friction-based material to withstand higher coefficients of friction and higher temperatures than any other product available
- Kolene® Melonite® treated steels for enhanced performance, engagement, longer life and cooler running
- 10% more surface area for greater holding power

1131-0463



PART #	DESCRIPTION
1131-0463	For 91-17 Big Twin (except models w/ slipper assist clutch); includes ten carbonite frictions and nine Kolene® steels
1131-0460[1]	For 91-22 XL (except RH Sportster) and 94-02 Buell; includes ten carbonite frictions and nine Kolene steels
1131-0752	For 05-22 XL (except RH Sportster) and 94-02 Buell; includes eight carbonite frictions and eight Kolene steels

[1] Improves reliability by eliminating the use of OEM copper rivet clutch spring plate; OEM #37977-90

All part numbers in BLUE are new for 2026.

RIVERA PRO CLUTCH PLATE KITS

- Provide a large increase in clutch plate surface for getting horsepower to the rear wheel
- Optional extreme-duty bronze plates available to replace fiber plates
- Meet or exceed OEM specifications
- Include the required number of fiber and steel plates for each application

CLUTCH PLATES AND KITS

- Available with G3, Red Eagle® organic, or high-performance friction plates
- High-performance plates are for high-performance applications; Red Eagle organic plates are for OEM replacement
- G3 material provides higher torque capacity, improved shift and reduced clutch burnout
- Increased surface area for decreased slipping
- Increase holding while decreasing heat generation
- Precision-made steel plates
- Can be run wet or dry
- Meet or exceeds OEM specifications

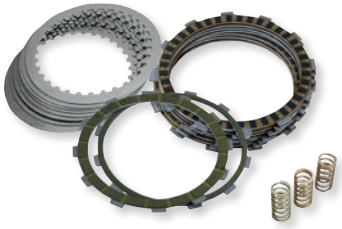
CLUTCH PLATE KIT

- Includes of carbon fiber friction plates, steel plates and heavy-duty springs

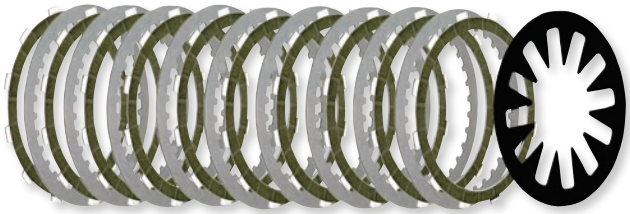


PART #	DESCRIPTION
1131-3845	For 21-25 RH1250S Sportster S, RH975/S Nightster, RA1250/S/ST Pan America

All part numbers in BLUE are new for 2026.

1131-3325

1131-2445

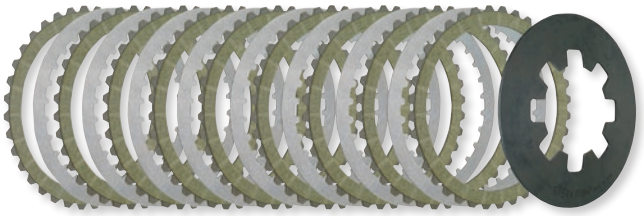


1131-4007

CLUTCH PLATE KITS

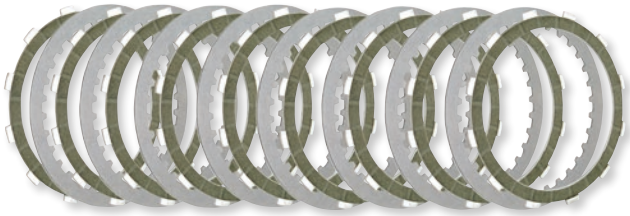
- PART #1131-3325 consists of 10 aramid fiber friction plates, nine steel plates and a set of three heavy-duty springs
- PART #1131-2445 consists of nine aramid fiber friction plates, eight steel plates and a set of three heavy-duty springs
- PART #1131-4007 consists of nine carbon fiber friction plates and eight steel plates

PART #	DESCRIPTION
1131-3325	For 17-25 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/FLHTCUTG/FLRT and 18-25 Softail
1131-2445	For 15-16 FLHTCUL/FLHTKL,14-16 FLHTCUTG/FLRT, 16-17 FLSS/FLSTFBS, 13-15 Twin Cam CVO/SE models w/ slipper/assist clutch
1131-4007	For 99-17 Twin Cam (except models w/ slipper/assist clutch)



HIGH-PERFORMANCE CLUTCH KIT WITH EXTRA PLATE

- Includes 10 friction plates on 6061-T6 aluminum cores, nine tempered steel drive plates and a 10% stronger than stock diaphragm spring
- Plates have 11% more surface area for more positive clutch engagement – ideal for big-bore models
- Pre-measured stack height for easy installation



PART #	DESCRIPTION
1131-1806	For 99-17 Twin Cam (except models w/ slipper/assist clutch)

HIGH-PERFORMANCE CLUTCH KIT WITH EXTRA PLATE

- Kit includes nine friction plates on tempered steel cores and eight tempered steel drive plates
- Plates feature a starburst groove pattern for maximum heat dissipation and oil circulation
- 15% larger than stock surface area for stronger, more positive clutch engagement – ideal for high-performance stroker motors
- Includes 15% stronger diaphragm spring
- Pre-set stack height for easy installation

PART #	DESCRIPTION
1131-1804	For 91-20 XL

CLUTCH PLATE KIT

- Includes nine friction plates on 6061-T6 aluminum cores and eight tempered steel drive plates
- Stack height is pre-set for easy installation

PLATE KITS FOR PRIMO RIVERA BELT DRIVE CLUTCHES/PRO CLUTCH KITS

- Complete replacement clutch plate kits for Primo Rivera belt drives listed
- Include all friction plates, drive plates and backing plates needed

PART #	DESCRIPTION
1131-3172	Clutch pack w/ friction plates for Brute III/IV w/ new-style hub
1131-3169	Clutch pack for PART #1120-0224; fits Brute III Extreme 07-17 Touring models w/ mechanical clutch
1131-3175	Clutch pack for Pro Clutch PART #DS-223264; fits 98 Big Twin
1131-3180	Clutch pack for Brute IV
1131-3181	Clutch pack for 11-17 Pro Clutch

All part numbers in BLUE are new for 2026.

EBC BRAKES

CK series

SRC series

SRK series

CLUTCH KITS AND SPRINGS

CK STANDARD SERIES

- Cork-based material impregnated with aluminum particles to increase wear life and heat resistance
- Highly compressed construction avoids swell and clutch drag
- Ideal for general-purpose street/sport/touring bikes
- Kit includes complete set of friction plates only

NOTE: Not for use with semi-synthetic or full synthetic oil.

SRC SERIES CLUTCH KITS

- Aramid fiber paper-lined plate set, complete with heavy-duty clutch springs
- SRC kits have longer plate life and higher heat resistance
- SRC kits have a more aggressive/faster clutch takeup than the CK Standard series clutch kits

SRK SERIES CLUTCH KITS

- Include aramid fiber-lined friction plates, steel separator plates and springs
- All kits designed to withstand the rigors of hard street use

CLUTCH SPRING CONVERSION KITS

- Converts your diaphragm spring clutch system to six coil springs
- CNC-machined billet pressure plate
- Ideal for stock to high-performance motors
- Allows for more precise adjustment and smoother operation
- Increases the holding capacity of the clutch
- Includes two sets of coil springs to provide three different pressure options
- Utilizes the stock clutch hub, shell and clutch plates

PART #	DESCRIPTION
1131-2051	For 99-17 Twin Cam w/ hydraulic clutch (except models w/ slipper/assist clutch)
DS-199219	For 99-17 Twin Cam w/ mechanical clutch

DS-199218

1131-3912	For 98-17 Twin Cam (mechanical clutch only); repl. OEM #37871-98

Eastern M C Parts

CLUTCH SPRING SEATS

- Replacement center spring seats
- Sold in 5-pack

PART #	DESCRIPTION
1132-0701	For 86-90 XL; repl. OEM #36793-84

All part numbers in BLUE are new for 2026.

1131-3902

1131-2404

Barnett Performance Products

SCORPION LOW-PROFILE LOCK-UP PRESSURE PLATES

- Low-profile design fits under stock primary cover
- Direct bolt-on design retro-fits to existing Scorpion billet clutches
- Progressively increases pressure as rpm increases
- CNC-machined, 6061-T6 billet aluminum
- Perfect for large-displacement, high-horsepower motors

PART #	DESCRIPTION
1131-3902	For 13-25 FLHT/FLHR/FLHX/FLTR w/ cable-actuated slipper/assist clutch
1131-3901	For 13-20 FLHT/FLHR/FLHX/FLTR w/ hydraulic slipper/assist clutch

Barnett Performance Products

BILLET PRESSURE PLATE

- Strong billet aluminum design, works with stock or heavy-duty diaphragm spring

PART #	DESCRIPTION
2012-1270	For 91-22 XL (except RH Sportster) and 94-02 Buell (except Blast); repl. OEM #37912-91

Barnett Performance Products

LOW PROFILE LOCK-UP PRESSURE PLATE CONVERSION KITS

- Specifically designed to fit under the stock or aftermarket primary/derby covers and increase the capacity of your stock clutch by using stainless steel weighted arms that progressively increase pressure to the clutch as rpm increases
- This also allows lever effort to be kept to a minimum – even with big-inch motors
- Three different sets of six coil springs (light, medium, heavy) are included for a variety of spring pressure options
- Coil spring design provides much smoother shifting and a more progressive, linear engagement compared to a diaphragm-type spring
- Simple bolt-on installation is all that is required with no modifications needed
- Cable-actuated and hydraulic versions are available

PART #	DESCRIPTION
1131-2404	For 99-17 Twin Cam w/ cable-operated clutch
1131-2405	For 99-20 Twin Cam w/ hydraulic-operated clutch

1131-3941

1131-3911

1131-3944

TRASK PERFORMANCE

POWER PLATE KIT

- Designed for high-output M-Eight engines
- Race engineered and race track proven
- Precision machined billet gold aluminum power plate with high performance black springs and chrome 12-point hardware
- Eliminates clutch slippage
- Cost effective solution when upgrading the clutch
- Increases clutch holding pressure by 50 percent
- Easy ten minute install
- Proven to hold 220 hp
- Pairs with Trask Assault Derby cover for a complete look (see page 674; sold separately)

NOTE: Must removed stock OEM spring plate and springs.

1132-0944	For 11-17 Twin Cam w/ mechanical clutch (except models w/ slip-assist clutch); repl. OEM #37554-11

PART #	DESCRIPTION
1132-0698	For 07-10 Twin Cam, 06 Dyna; repl. OEM #37554-06
DS-195000	For 99-06 Big Twin (except 06 Dyna); repl. OEM #37550-98
1132-1119	For 91-22 XL (except RH Sportster); repl. OEM #36785-91
1132-1120	For 86-90 XL; repl. OEM #36785-84

DRAG Specialties

1132-1828 | 1132-0697 | 1132-1121

CLUTCH SHELLS

- High-quality replacement clutch shell with starter ring gear
- Include center bearing and snap rings

PART #	DESCRIPTION
1132-1828	For 17-25 M-Eight
1132-1583	For 11-17 Twin Cam
1132-0697	For 07-10 Twin Cam, 06 Dyna; repl. OEM #37813-06
DS195190	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #37707-98A
1132-1301	For 04-22 XL (except RH Sportster); repl. OEM #36790-04
1132-1121	For 91-03 XL; repl. OEM #36790-91

Barnett Performance Products

SCORPION CLUTCH BASKET

- High-quality, durable replacement for stock basket
- Precision-machined from 2014-T3 billet aluminum
- Hardware and instructions included; bearing not included

PART #	DESCRIPTION
1132-1000	For 17-25 M-Eight

1132-1478

REKLUSE clutch rEvolution

CLUTCH BASKETS

- Constructed from billet aluminum and hard anodized to deliver enhanced clutch modulation
- Extreme durability resists notching and extends clutch life
- Tightly controlled tolerances ensure smooth operation, less drag and reduced clutch noise
- Think of a clutch basket as the backbone of your entire clutch system
- Precision CNC-machining combined with innovative world-class engineering allow the Rekluse clutch basket to safeguard your vital internal components, keeping you on the on the road for the long haul

PART #	DESCRIPTION
1132-1478	For 17-25 M-Eight and 17 FLSTFBS/FLSS

PART #	DESCRIPTION
1132-1827	For 07-17 Twin Cam

1132-1220 | 1132-1005

TRASK PERFORMANCE

BILLET ALUMINUM CLUTCH BASKETS

- Can handle engine builds making in excess of 300 hp; strongly recommended for engines producing 100 hp or more
- Includes mounting bolts and lock tabs
- Direct bolt-on replacement for the stock clutch basket
- Hard-anodized finish for added durability

PART #	DESCRIPTION
1132-1220	For 17-25 FL Touring, 18-25 Softail; gold finish
1132-1005	For 07-17 Twin Cam; red finish

TRASK PERFORMANCE

BILLET CLUTCH BASKET

- Machined 6061-T6 billet aluminum with a hard-anodized black finish
- Reduces weight from the factory setup by 9 ounces, resulting in more power and quicker throttle response
- Hard-anodized coating for minimal wear

PART #	DESCRIPTION
1132-0883	For 02-17 V-Rod; repl. OEM #36699-01K

All part numbers in BLUE are new for 2026.

CHAIN-DRIVE CLUTCH BASKET

- Stronger than OEM
- Hard-anodized finish
- Primary chain sprocket and 106T starter ring gear included
- Dual retaining ring design allows the use of 07-17 Twin Cam or 17-21 M-Eight style clutch hub bearing (sold separately)

NOTE: Twin Cam bearing OEM #37906-11, M-Eight bearing OEM #3700168.

PART #	DESCRIPTION
1120-0430	For 17-21 M-Eight and 07-17 Twin Cam

CLUTCH RELEASE KIT

- Complete kit

PART #	DESCRIPTION
1132-1580	For 00-16 FLT, 00-17 FXD and 00-17 Softail

CLUTCH RELEASE KIT

- Includes one inner ramp (OEM #25453-87A), one outer ramp (OEM #25409-94), one cable coupling (OEM #34920-86) and three ball bearings (OEM #8873)

PART #	DESCRIPTION
1132-1476	For 94-22 XL (except RH Sportster)

CLUTCH ADJUSTER RELEASE PLATE

- Sold each

PART #	DESCRIPTION
DS-194977	For 99-25 Big Twin w/ mechanical clutch; repl. OEM #37903-90

CLUTCH ADJUSTING SCREW LOCK NUTS

- Sold in 10-pack

PART #	DESCRIPTION
DS-195159	For 99-25 Big Twin; repl. OEM #7848W

CLUTCH RELEASE BEARING

- High-quality replacement component
- Sold each

PART #	DESCRIPTION
1132-0653	For 02-20 CVO and Big Twin w/ hydraulic clutch, 02-17 V-Rod and 86-22 XL (except RH Sportster); repl. OEM #8885

CLUTCH HUB BEARINGS

- High-quality replacement component
- Sold each

1132-1628

1132-0285

1132-0917

1132-0652

PART #	DESCRIPTION
1132-1628	For 17-25 M-Eight; repl. OEM #37000168
1132-0919	For 11-17 Twin Cam; repl. OEM #37906-11
1132-0285	For 99-10 Twin Cam; repl. OEM #37906-90

PART #	DESCRIPTION
1132-0917	For 91-22 XL; repl. OEM #36799-91
1132-0652	For 86-90 XL; repl. OEM #36799-84

CLUTCH HUB NUTS

- High-quality steel construction
- Sold individually

DS-193156

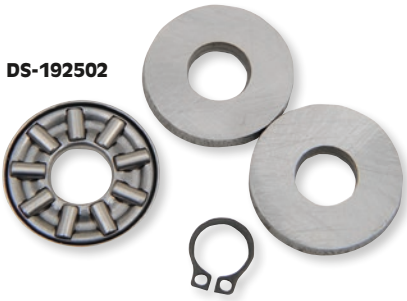
1106-0091

PART #	DESCRIPTION
DS-193156	For 99-25 Big Twin; repl. OEM #37496-90/A
1106-0091	For 91-03 XL ; repl. OEM #37495-91

All part numbers in BLUE are new for 2026.

Eastern MC Parts

CLUTCH PUSHROD KITS AND COMPONENTS FOR BIG TWIN



- Available as complete kits or as individual components
- Kits include center pushrod, left pushrod, right pushrod, bearing, thrust washer and snap ring

PART #	DESCRIPTION
COMPLETE KITS	
DS-192510	For 99-06 FLT/FLHT/FLHX/FLTR/FXST/FLST and Dyna (except 06 Dyna)
1132-0570	For 06 Dyna, 07-25 Big Twin w/ mechanical clutch
RIGHT PUSHROD END	
DS-192520	For 99-16 FLT/FLHT/FLHX/FLHR/FLTR, 99-25 Softail and 99-17 Dyna w/ mechanical clutch (2.6580"); repl. OEM #37069-90
PUSHROD CENTERS	
DS-192515	For 99-06 FLT/FLHT/FLHX/FLHR/FLTR/FXST/FLST and Dyna (except 06 Dyna Glide) (10.870"); repl. OEM #37088-90
1132-0569	For 06 Dyna, 07-25 Big Twin w/ mechanical clutch (11.700"); repl. OEM #37092-06
LEFT PUSHROD END	
DS-192525	For 99-16 FLT/FLHT/FLHX/FLHR/FLTR, 99-25 Softail and 99-17 Dyna w/ mechanical clutch (2.255"); repl. OEM #37090-98

DRAG Specialties

Eastern MC Parts

RIGHT CLUTCH PUSHROD END

- Stamped steel construction
- Includes oil slinger

PART #	DESCRIPTION
7805-0015	For 99-25 Big Twin w/ mechanical clutch; repl. OEM #37069-90/90A

CLUTCH PUSHROD BEARING KIT

- Includes two thrust washers, one retaining clip and roller bearing

PART #	DESCRIPTION
DS-192502	For 99-25 Big Twin w/ mechanical clutch; repl. OEM #s 37313-80, 11096 and 37312-75
1132-0568	Repl. bearing; repl. OEM #37312-75

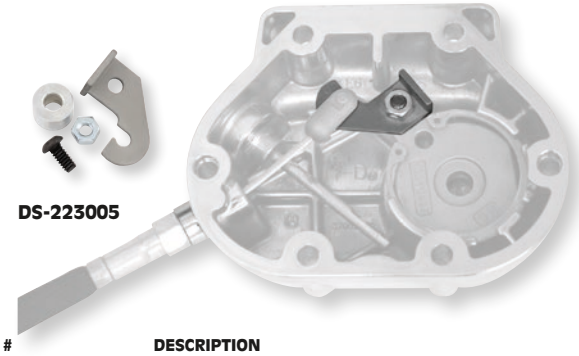
Eastern MC Parts

SNAP RINGS FOR CLUTCH PUSHRODS

- Each part number is sold in 10-pack

PART #	DESCRIPTION
FOR 99-25 BIG TWIN	
DS-188029	3/4 ring; repl. OEM #11096
FOR 99-25 BIG TWIN (CONT)	
DS-188030	Full ring; repl. OEM #11096A

BAKER DRIVETRAIN — Since 1998 — Delivering American power to the pavement



HEAVY-DUTY THROWOUT BEARING KIT

- Developed to address the failures of the stock clutch throwout bearing
- Features a 97% greater surface area and a 77% great static load capacity than the stock bearing
- Includes throwout bearing ball ramp actuator with balls, snap rings and gaskets
- Built for abusive and high performance applications

PART #	DESCRIPTION
1106-0245	For 24-25 FLHRXS, 24 FLHTK/FLTRK, 99-23 FLHT/FLHR/FLHX/FLTRX (except 23 FLHXSE/FLTRXSE), 00-24 Softail, 99-17 Dyna w/ mechanical cable clutches

BURLY BRAND MOTORCYCLE ACCESSORIES

EASYBOY LITE CLUTCHES

- 40% easier clutch pull; less fatigue with smooth clutch action
- Simple installation

NOTE: Will not fit FXR/FXRS/FXRS-SP/FXRT or FXLR.

PART #	DESCRIPTION
1130-0183	For 00-24 Big Twin w/ mechanical clutch (except 23-24 FLHXSE/FLTRXSE, 24 FLHX/FLTRX/FLTRXSTSE)
DS-223005	For 99 FLHT/FLHR/FLTR, 99 Dyna
1130-0862	For 04-22 XL (except RH Sportster)
DS-223006	For 86-93 XL

All part numbers in BLUE are new for 2026.

1132-1394

1132-1477

REKLUSE clutch rEvolution

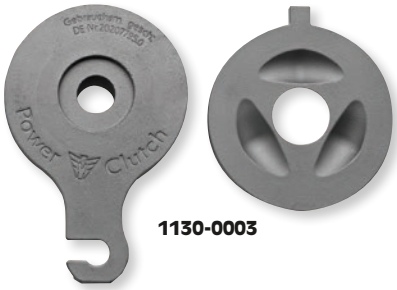
HYDRAULIC CLUTCH SLAVE CYLINDERS

- Direct bolt-on OEM replacement
- Compatible with OEM and aftermarket clutches, including the Rekluse RadiusX and TorqDrive
- Billet CNC precision-machined piston and housing
- Reduces clutch lever pull strength for less hand fatigue
- Expanded friction zone for increased control and smoother takeoffs
- Precise design for lighter lever pull without compromising clutch control or shifting
- Durable hard anodized finish for enhanced sealing and maximum durability

PART #	DESCRIPTION
1132-1394	For 17-20 M-Eight, 17 FLSS/FLSTFBS w/ hydraulic clutch
1132-1477	For 14-16 FLHT/FLHR/FLHX/FLTRX/FLTRU/HD FL Trike, 16 FLSS/FLSTFBS and all 13-16 CVO models w/ hydraulic clutch

1130-0416

1130-0415



MÜLLER MOTORCYCLE AG

HYDRO CLUTCHES

- "Easy Clutch" specifically designed for Twin Cam and M-Eight models with hydraulic clutches
- 45% less pull effort on M-Eight models and 35% less pull effort on Twin Cam models
- Better clutch response
- Zero maintenance
- Easy and invisible mounting

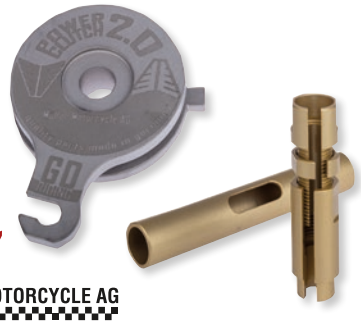
NOTE: Registered Design #202018107185.

PART #	DESCRIPTION
1130-0416	For 17-20 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK/H-D FL Trike, 17 FLSS/FLSTFBS and all 17-20 CVO w/ clutch actuator OEM #37200131A
1130-0415	For 14-16 FLHT/FLHR/FLHX/FLTRX/FLTRU/H-D FL Trike, 16 FLSS/FLSTFBS and all 13-16 CVO w/ clutch actuator OEM #37200023

1130-0003

1130-0004

MÜLLER MOTORCYCLE AG



POWER CLUTCHES

- The original Müller Power Clutch
- Replaces OEM inner and outer ramp assemblies
- Reuses existing pivot balls, unless noted
- 45% easier clutch lever operation
- Easy to install; no drilling or spacers needed
- Available for Big Twin, Sportster and Buell with mechanical clutch

PART #	DESCRIPTION
1130-0003	For 99-20 Big Twin (w/ mechanical clutch)

PART #	DESCRIPTION
1130-0004[1]	For 94-20 XL and Buell

[1] Includes pivot balls.

MÜLLER MOTORCYCLE AG

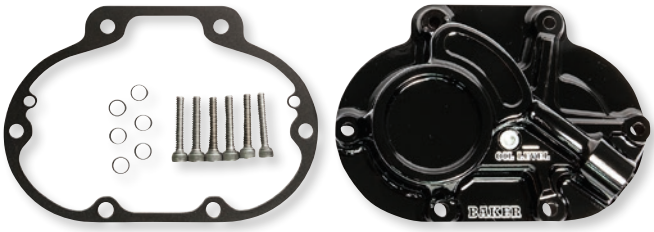
POWER CLUTCH 2.0

- On average 40% less manual force when clutching
- Quick, easy installation
- 45% relief
- Better performance
- Easier to adjust
- Better pressure point
- Made in Germany

Note: Does not fit Revolution® Max or hydraulic clutch models.

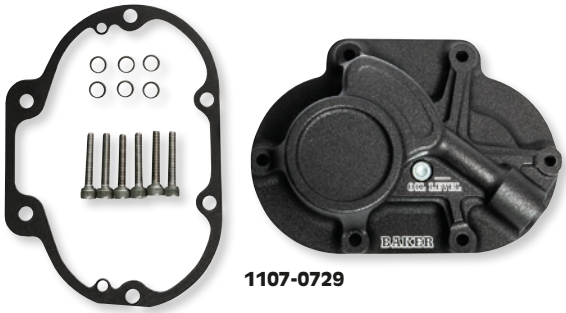
PART #	DESCRIPTION
1130-0871	For 21-24 FLHT/FLHX/FLTRX, 17-24 Softail w/ cable clutch

CLUTCH CABLE CONTROL



- Makes adjusting the clutch cable easier and more precise than with the original cable adjuster
- Compatible with all M-Eight clutch cables
- Can also be used with the Muller Motorcycle Power Clutch 2.0; sold separately
- Brass finish

MÜLLER MOTORCYCLE AG



PART #	DESCRIPTION
0660-0016	For all M-Eight clutch cables

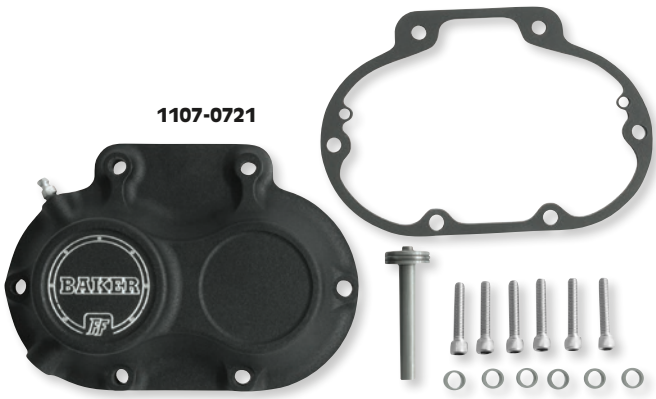
All part numbers in BLUE are new for 2026.

1107-0730

1107-0729

FUNCTION-FORMED™ CABLE TYPE TRANSMISSION SIDE COVERS

- Function-Formed™ style milled from 6061-T6 aluminum
- Minimalistic design with maximum exhaust pipe clearance
- Compatible with OEM or aftermarket transmissions
- 12-point stainless steel ARP bolts and gasket included
- Convenient side transmission fill port
- Utilizes the stock clutch cable, ball, and ramp
- Available in wrinkle black or gloss black finish



FOR 07-23 BIG TWIN (EXCEPT 23 FLHXSE/FLTRXSE) AND 06-17 DYNA TRANSMISSIONS (W/ MECHANICAL CLUTCH)

PART #	DESCRIPTION
1107-0730	Gloss black

PART #	DESCRIPTION
1107-0729	Wrinkle black

1107-0727

1107-0721

FUNCTION-FORMED™ TRANSMISSION SIDE COVERS/ACTUATORS

- Function-Formed™ style milled from 6061-T6 aluminum
- Low-profile external features allow maximum exhaust clearance
- 12-point stainless steel ARP bolts and gasket included
- All side covers have hydraulic feed and include 1,5" diameter piston; compatible with OEM or $^{11}/_{16}$" hydraulic master cylinders
- Available with polished or black finish

PART #	DESCRIPTION
FOR 17-25 M-EIGHT (EXCEPT 23-25 FLHXSE/FLTRXSE, 24-25 FLHX/FLTRX, 25 SOFTAIL) STOCK 6-SPEED/BAKER DD7/BAKER GRUDGEBOX TRANSMISSIONS	
1107-0728	Black
1107-0727	Polished

PART #	DESCRIPTION
FOR 06 FXD/FXDWG, 07-17 TWIN CAM STOCK 6-SPEED/BAKER DD7/BAKER GRUDGEBOX TRANSMISSIONS	
1107-0721	Black
1107-0687	Polished

1107-0675

1107-0674

1107-0162

HYDRAULIC CLUTCH ACTUATORS

- The perfect match for Performance Machine's Contour master cylinder for optimal clutch action
- Fluted style has an aluminum construction with a chrome finish
- Vision style features a polycarbonate lens allowing for a view inside the machine
- Black Ops™ features a gloss-black finish over a contrasting texture black finish for outstanding durability and looks
- Contrast Cut™ starts with a polished surface that is black anodized then re-cut to open the design
- Requires a master cylinder with an $^{11}/_{16}$" bore

NOTE: Require custom hydraulic lines (not included).

PART #	DESCRIPTION
FOR 14-20 FLHT/FLHR/FLHX/FLTRX	
1107-0675	Vision, Black Ops™
1107-0674	Vision, Contrast Cut™

PART #	DESCRIPTION
FOR 07-13 FLT/FLHT/FLHR/FLHX/FLTR , 07-20 SOFTAIL (EXCEPT 16-17 FLSS/FLSTFBS) AND 06-17 DYNA	
1107-0162	Fluted, chrome

All part numbers in BLUE are new for 2026.

1107-0406

1107-0407

TRASK PERFORMANCE

HYDRAULIC CLUTCH ACTUATORS

- Machined 6061-T6 billet aluminum
- Billet cover is used when converting from a cable clutch to hydraulic clutch
- Includes an upgraded throw-out bearing; a must for big motors with a heavier clutch pull
- Requires the use of $^{11}/_{16}$" bore master cylinder
- Hydraulic clutch line must be purchased separately

FOR 07-13 FL TOURING, 07-22 SOFTAIL (EXCEPT 16-17 FLSS, FLSTFBS AND 22 FXLRST), 06-17 DYNA W/ H-D SIX-SPEED TRANSMISSIONS

PART #	DESCRIPTION
1107-0406	Chrome

PART #	DESCRIPTION
1107-0407	Black powdercoated

ARLEN NESS

10-GAUGE HYDRAULIC CLUTCH ACTUATOR COVERS

- Machined from 6061-T6 billet aluminum
- Includes necessary gaskets and hardware
- Matching transmission top covers sold separately

NOTE: Covers only. Does not include actuators.

1105-0109

1105-0244

FOR 14-16 FLHT/FLHX/FLTR, 16-17 FLSS/FLSTFBS

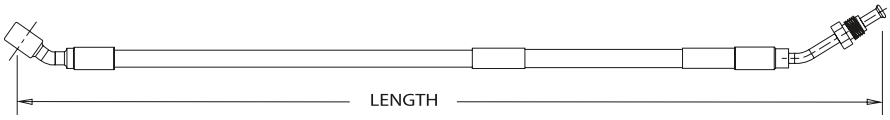
MAGNUM STERLING CHROMITE BLACK PEARL KARBONFIBR



Sterling Chromite

Black Pearl

KarbonFibr

KarbonFibr

BRAIDED DOT HYDRAULIC CLUTCH LINES

- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket
- Three unique stainless steel transmission fittings eliminate the use of adapters
- Three color choices of the Industry's highest quality braid available to complement your bike: Sterling Chromite® with chrome banjo, Black Pearl with black chrome banjo or KarbonFibr with black chrome banjo
- Braid color and weave match all other Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing the bike's paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Choice of 90°, 35° or 180° banjos with rotating EZ-Align feature for perfect no-kink fitments
- Highly polished banjos are chrome or black chrome-plated
- Transmission fittings for all hydraulic clutch lines have a natural stainless steel finish

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and company.

NOTE: 99-12 OE H-D, CVO, P&A and 02-17 V-Rod hydraulic clutch line fittings require taking a measurement to determine ordering length.

MAGNUM

BYO® BUILD-YOUR-OWN UNIVERSAL HYDRAULIC CLUTCH LINES

- Assembles in five minutes with only side cutters and $^{7}/_{16}$" wrench
- All components and hoses are available separately to build your own clutch line – choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Hydraulic hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vice wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos and inverted flair fittings are polished and chrome-plated with polished stainless steel fittings
- -3 braided black stainless line is coated with an opaque black outer jacket – banjos are black chrome-plated and include black heat shrink to cover the stainless fittings once assembled

NOTE: Compatible Magnum Shielding BYO® hydraulic hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, or liability claims.

NOTE: Please see BRAKES & BRAKE LINES section for compatible Drag Specialties and Magnum banjo bolts and crush washers.

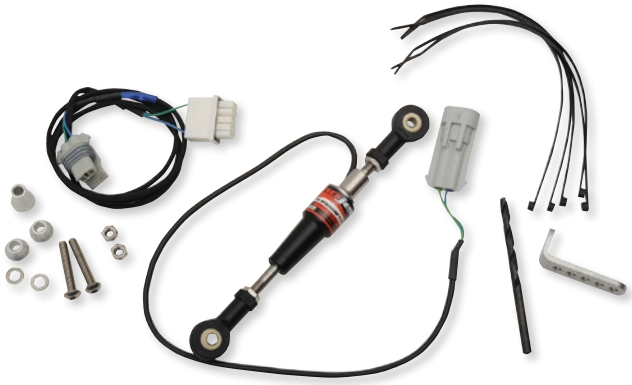
IGNITION QUICK SHIFTERS

- Allows any vehicle with up to four coils to have quick shifter functionality
- Features the latest Intellishift™ technology and provides the smoothest shifts of any stand-alone unit on the market
- Kill times per rpm band and shift sensor activation point are adjustable
- Includes Denso coil cap connectors for easy installation on many late-model motorcycles; connectors can be removed for applications without this style of coil
- 4-channel variation has control box only; requires Power Commander shifter sensor
- Kits include sensor and module

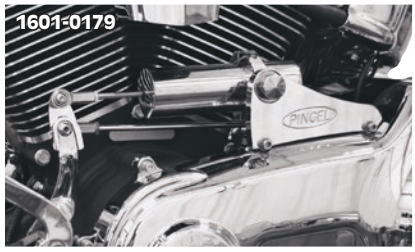


PART #	DESCRIPTION
1601-0523	Ignition quick shifter kit for 06-25 Big Twin w/ EV-6 connectors
1601-0586	Ignition quick shifter stand alone kit for 17-24 H-D CVO w/ EV-6 connectors
1601-0587	Ignition quick shifter kit for 17-24 H-D CVO w/ use of Power Commander and w/ EV-6 connectors

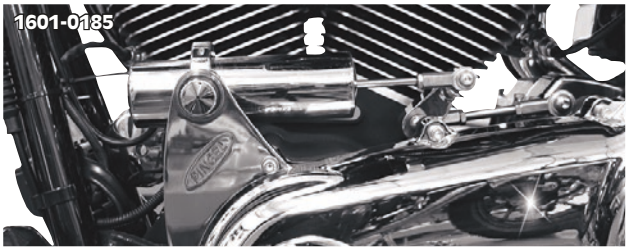
All part numbers in BLUE are new for 2026.

DYNOJET

DYNOJET QUICK SHIFTER (DQS) SENSOR PCV



- Dynojet's Quick Shifter (DQS) kit allows full-throttle, clutchless upshifts in racing and performance riding applications
- The shift rod pressure/tension sensor kit is a universal sensor that mounts to the shift rod in either a push or pull configuration
- Requires modification of gear-linkage tierod
- The linear travel sensor kit works with bikes that have no shift rod, or on those the shift rod sensor will not fit
- Mount one end to the shift lever and the other to a fixed point on the chassis
- Push-type available with universal mounting kit
- Plugs directly into the Power Commander expansion port with no rewiring required
- Power Commander Control Center software lets you set engine dead time during upshifts and minimum rpm for system operation



NOTE: All models must have a Power Commander III USB module installed in order to use a Dynojet Quick Shifter kit. Power Commander PCII, PCIII and PCIIIr modules are not compatible with the DQS.

PINGEL Since 1967

ELECTRIC EASY SHIFT™ SPEED SHIFTER KITS

- For speed, comfort and fun
- Electronically suspends the ignition system, allowing the transmission to smoothly shift up or down with just the push of a button
- Shift up at partial or full throttle and back down at the touch of a button
- There is no need to use the foot shifter, and the clutch is used only when starting or stopping
- Works for normal street riding or full-throttle shifting
- Also a perfect match for male and female riders who own bikes that require a lot of hand strength to pull in the clutch lever
- OEM shifting ability is retained after installation
- Includes a dual-button handlebar control, a shift cylinder plated with a lustrous chrome finish, bolt-on shift cylinder support bracket and a state-of-the-art control module that sends a quick signal from the handlebar control to the shift cylinder
- Also included is the electronic ignition kill module and step-by-step instructions with photos for easy installation
- PART #s 1601-0524 and 1601-0525 for models with 1 1/2" heated grips
- Universal kits also available with dual-button handlebar control to fit 7/8" or 1" diameter handlebars/clip-ons; installation may require purchase of frame tube brackets for shift cylinder mounting (sold separately)
- Not suitable for 4-speed transmissions

PART #	DESCRIPTION
BOLT-ON KITS	
1601-0524	For 07-16 FLHT/FLHX/FLTR/FLHR, 09-16 FLHTCUTG, 15-16 FLRT w/ heated grips

FOLDING SHIFT LEVER

- Folding tip retracts in the event of a fall
- Adjustable reach fore and aft
- Mounting tab for quickshifter
- Main shift lever made of 2024 aluminum that can be bent back into place
- Hard anodized black finish
- Sold each

PART #	DESCRIPTION
1602-1446	For 21-25 Pan America RA1250/S

MOOSE OFFROAD

FOLDING SHIFT LEVER

- Replace the vulnerable stock shifter with this improved folding shifter
- CNC machined from 6061 aluminum for strength and light weight
- Folding shifter toe piece is knurled for precise shifter-to-boot feel
- Pressed-in copper bushing maintains smooth shifter action

PART #	DESCRIPTION
1602-1471	For 21-25 Pan America RA1250/S/ST

BURLY BRAND MOTORCYCLE ACCESSORIES

MX SHIFT LEVER

- Features "speed holes" for a lightweight, performance-inspired design
- Serrated MX-style toe peg and rubber pad for boot protection
- Black powdercoated finish
- Sold each

PART #	DESCRIPTION
1602-1291	For 99-24 FLS/FLST/FLHT/FLHR/FLTR/ FLTRU/FLTRK/FLHX and 09-24 H-D FL Trike

SW-MOTECH

GEAR LEVER

- CNC-machined HART-COAT® aluminum construction
- Spring-loaded mechanism enables the lever to be folded down to prevent breakage in case of a tip-over
- Tread can be mounted at a 180° angle
- Adjustable range from the switch shaft to the gear lever is 78 to 134 mm
- Gear lever extension available separately

PART #	DESCRIPTION
1602-1514	For 21-24 Pan America RA1250/1250S

KURYAKYN

EXTENDED LENGTH GIRDER SHIFT LEVER

- Unique design offers increased leverage and more comfort
- Styling matches the Magnum mirrors and stirrups
- 1¾" longer than stock
- Chrome finish

NOTE: Use of PART #1603-0002 on FLST or FLT models requires Kuryakyn heel shift eliminator (sold separately).

PART #	DESCRIPTION
1603-0002	For 99-25 FLHT/FLHR/FLHX/FLTRX/FLTRU/ FLTRK/H-D FL Trike and 00-17 FLST

PINGEL Since 1967

SHIFT PEG EXTENDER

- Wide gas tanks create a problem especially for short-inseam riders; this shift peg extender is just what is needed
- Extends the shift peg out 38,1 mm (1,5")
- Manufactured from billet stainless steel and highly polished

PART #	DESCRIPTION
1603-0146	For 99-25 Big Twin, 86-20 XL

All part numbers in BLUE are new for 2026.

REAR DRIVE BELTS

- Carbon fiber-reinforced Goodyear engineered Falcon SPC™ belts offer up to 33 percent more tensile strength than conventional aramid reinforced belts
- High-temperature rubber compound offers excellent flex and long service life
- Fabric reinforced belt tooth surfaces improve wear resistance
- Durable material construction is designed to withstand belt-penetrating debris without breaking

NOTE: No warranty claims are made or implied.

PANTHER REAR DRIVE BELTS

PANTHER MOTORCYCLE DRIVE BELTS

- Improved RPP™ Panther® Design
- Features ULTRA-CORD™ tensile members and the Able™ compound
- ULTRA-CORD doesn't stretch or shrink, thus reducing the strain on bearings, shafts and other drive components
- ULTRA-CORD resists degradation and moisture to give you longer belt life
- The Able compound, an advanced polymer, resists tooth shear, adding to the belt's stability
- The rugged parabolic tooth profile reduces noise and offers drive efficiency up to 98%

NOTE: No warranty claims are made or implied.

MBR-139	139-tooth belt for 99-03 FL; repl. OEM #40024-97

REAR DRIVE BELTS

- BDL now offers Gates carbon X3N material for its rear belts
- The same brand used by Harley-Davidson since 1980 due to its reliability
- Teeth on the belts have a slick surface that is easy on pulleys
- Outer surface of the Gates belt is ribbed to help with flexibility
- Higher reliability due to increased length stability and better pitch
- Higher resistance to humidity
- Higher tensile strength and robust construction

NOTE: No warranty claims are made or implied.

PART #	# OF TEETH	DESCRIPTION
24 MM BELTS		
1204-0114	140	For 09-23 FLHT/FLHR/FLHX/FLTRX/FLTRU/FLTRK; repl. OEM #40024-09A
1120-0407	137	For 07-08 Dresser and 07-21 XL (except RH Sportster); repl. OEM #s 40024-07/40591-07
1 1/2" BELTS		
1204-0124	139	For 99-03 FLT/FLTC/FLHTC/FLHR and FLTR; repl. OEM #40024-97
1204-0128	133.	For 99 Dyna w/ 70-tooth pulley; repl. OEM #40015-90
1204-0116	127	For custom applications
1 1/8" BELTS FOR CUSTOM 1 1/8" PULLEYS ONLY		
1204-0132	139	For 09-22 H-D FL Trike, 04-05 FLHTCSE/FLHTCUSE, 99-03 FLT/FLTC/FLHTC/FLHR and FHTR w/ 70-tooth pulley; repl. OEM #40040-05
1204-0121	130	For 00-06 Softail w/ 65-tooth pulleys
1204-0122	133	For 99-06 Dyna w/ 70-tooth pulley
1" BELTS		
1204-0245	139	For 09-23 custom Dresser applications, 10-23 FLTRX/FLTRXSE/FLTRXSE2 and 05-06 FLHTCSE/FLHTCUSE (except H-D Trike)

HIGH STRENGTH FINAL DRIVE BELTS

1204-0251

- Available with 14 mm pitch and 1 1/2" and 1 1/8" , 20 mm and 24 mm widths
- Made of super-strong Gates Carbon X3N material

530 SERIES O-RING CHAIN

- Features quad-pin riveting, tough O-ring seals, and solid bushings and rollers
- Improved wear resistance and strength
- Average tensile strength 9.500 lbs
- Weight saving with high tensile strength
- Pre-stretched at the factory
- Rivet-style and clip-style master links included
- Chrome chain features tough chrome plating on side plates

REGINA CHAIN
PERFORMANCE IN MOTION

ZRT SERIES

- Z-ring chains feature Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring and Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/bushing area provides long life
- High-carbon allow pins to minimize wear and increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Original equipment on Aprilia RSV4, BMW S 1000 RR, Ducati Panigale 1199, KTM RC8 and many others
- Ideal for street bikes and superbikes up to 1300 cc
- Gold color

DRIVE PULLEY INSTALLATION KIT

- Kit includes a main shaft pulley nut, lock plate, bolts and quad seal

PART #	DESCRIPTION
1203-0009	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #s 11165 (quad seal), 35211-91 (mainshaft nut) and 40251-92 (lock plate)

TRANSMISSION BELT PULLEY LOCK PLATE KIT

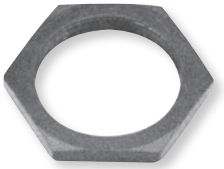
- Comes with locking plate mounting screws

PART #	DESCRIPTION
DS-360182	For 99-06 Twin Cam (except 06 Dyna); repl. OEM #s 40251-92A and 3594

DS-194003

MEGA NUT

- The cure for a loose transmission pulley
- Includes machined clamping face tolerance, along with additional locking holes for a more precise and secure way to secure pulley nut



PART #	DESCRIPTION
1203-0012	For 07-20 Big Twin, 06-17 Dyna
DS-194003	For 99-06 Big Twin (except 06 Dyna Glide), 91-15 XL, 94-09 Buell (except 1125R)

MAINSHAFT PULLEY/SPROCKET NUT

- High-quality OEM replacement part
- Sold each

PART #	DESCRIPTION
1106-0083	For 99-06 Twin Cam, 92-22 XL (except RH Sportster); repl. OEM #35211-91

TRANSMISSION MAINSHAFT LOCK NUT

- 1 1/2" left-hand threads
- Sold each

PART #	DESCRIPTION
2401-0435	For 99-06 Twin Cam, 92-22 XL (except RH Sportster); repl. OEM #35211-91A/B

TRANSMISSION SPROCKET SPACER

- Case-hardened steel with a Rockwell "C" hardness of 55 and a polished finish
- 1,7" ID; 0,600" thick
- Sold each

PART #	DESCRIPTION
1106-0001	For 99-06 Twin Cam (except 06 FXD/FXDWG); repl. OEM #33344-94

TRANSMISSION SPROCKET SPACER

- Smooth finish for a longer seal life
- 1,7" ID
- Sold each

PART #	DESCRIPTION
DS197062	For 99-06 Twin Cam (except 06 Dyna) (0,600"); repl. OEM #33344-94

All part numbers in BLUE are new for 2026.

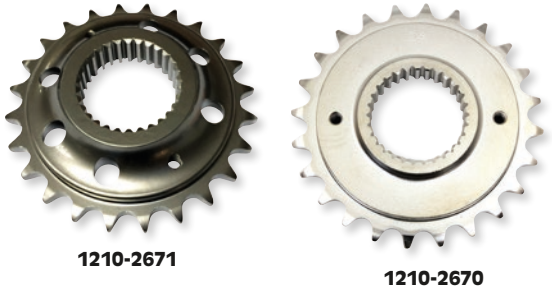
CUSH DRIVE 530 CHAIN CONVERSION KITS



- Convert Touring models to chain drive for aggressive riding and big horsepower engines
- Feature specially designed 27-tooth front and 57-tooth rear sprocket sizes that prevent chain from grinding on the swingarm
- Retain factory gear ratio
- Each sprocket features a Jagged design style that is heat treated and coated for long-term durability
- Cush drive assembly is CNC machined from billet aluminum with a black anodized finish
- Designed to work with factory and aftermarket wheels
- Require 530 chain with 130 links (sold separately)

"THE CORRECT" REAR WHEEL PULLEY SPACERS/ADAPTERS

- Made from 6061-T6 aluminum and feature a machined finish
- Made to work with stock H-D aluminum hubs
- All spacers/adapters are flanged for perfect alignment
- PART #1201-0055 adapter allows you to use a late-model 1 1/8" pulley on early-style wheel
- PART #1201-0057 spacer/adapter allows the use of any combination of early- or late-style wheel, pulley or sprocket

PART #	DESCRIPTION
FOR 00-21 WHEELS	
1201-0053	Pulley/sprocket spacer (0,250" thick)
1201-0057	Pulley/sprocket spacer/adapter (0,500" thick)

NOTE: All spacers are flanged for perfect alignment.
NOTE: May require longer bolts.
NOTE: Will not work with cush drive pulley.

PART #	DESCRIPTION
FOR 99 WHEELS	
1201-0055	Pulley/sprocket adapter (0,075" thick)

REAR PULLEY SPACER

- Allows installation of tires up to 142 mm wide without any other modification
- CNC machined from billet aluminum

PART #	DESCRIPTION
1201-0098	For 00-03 FLHT/FLHR/FLTR (0,200")

1201-0100

REAR PULLEY SPACERS

- Used when installing a wide rear tire
- Polished billet aluminum construction
- Available in six varying thicknesses; 0,500" to 1,375"
- For use with 00-25 style pulleys and hubs except cush drive

NOTE: Installation of OEM bearing 9267 is recommended with spacer PART #1201-0105 (available separately) (machining required).

Genuine JAMES GASKETS®

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN

- Selection of high-quality Genuine James gaskets, seals and O-rings
- Our deep inventory, wide selection, fast shipping and friendly service makes stocking easy

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to insure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 260 °C (500 °F).

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention, structural strength and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gases and provides a positive seal at the combustion chamber.

Genuine JAMES GASKETS®

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR XL/XR/XG/BUELL MODELS

- Drag Specialties has all your gasket needs covered
- All are top-quality Genuine James gaskets, seals and O-rings

Rubber-Covered Metal (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

Foamet® Expanded Rubber Gaskets

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to insure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MicroPore® Paper Gaskets

The James Gaskets flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 260 °C (500 °F).

Expanded Metal Core Head Gaskets

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention, structural strength and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gases and provides a positive seal at the combustion chamber.

Genuine JAMES GASKETS®

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN TRANSMISSIONS

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gaskets flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 260 °C (500 °F).

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention, and structural strength and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gases and provides a positive seal at the combustion chamber.

REPLACEMENT GASKETS/SEALS/O-RINGS

- High-quality products for long-term reliability
- Manufactured from premium fuel-resistant materials that will not creep, crack or become brittle
- Gaskets available in multiple types to best suit the intended application
- Multi-Layer Steel (MLS) gaskets feature two outer Viton®-coated embossed spring steel layers with an inner steel layer to provide additional support
- Aluminum Foamette Material (AFM) gaskets feature an aluminum core and a chemically blown, compounded nitrile synthetic rubber coating that is bonded to the outside layer; do not require gasket sealer
- Viton gaskets feature a stainless steel core with a 0,001" thick coating of Viton rubber on both sides

OEM #	DESCRIPTION	MATERIAL/THICKNESS	PART #	QTY.
FOR M-EIGHT				
ROCKERBOX				
25700372	Upper rocker box cover gasket for 17-24 M-Eight	Viton®, 0,020"	**0934-5942**	2 pk.
25700372	Upper rocker box cover gasket for 17-24 M-Eight	Viton, 0,020"	**0934-5941**	10 pk.
25700425	Lower rocker box cover gasket for 17-24 M-Eight	Vulcanized rubber	**0934-5950**	2 pk.
CYLINDER HEAD & CYLINDER				
-	Head gasket for 23-25 FLHXSE/FLTRXSE, 24-25 FLHX/FLTRX/FLTRXSE 4,250" bore	MLS, 0,030"	**0934-8044**	2 pk.
-	Head gasket for 23-25 FLHXSE/FLTRXSE, 24-25 FLHX/FLTRX/FLTRXSE 4,250" bore	MLS, 0,040"	**0934-8043**	2 pk.
-	Head gasket for 23-25 FLHXSE/FLTRXSE, 24-25 FLHX/FLTRX/FLTRXSE 4,310" bore	MLS, 0,030"	**0934-8046**	2 pk.
-	Head gasket for 23-25 FLHXSE/FLTRXSE, 24-25 FLHX/FLTRX/FLTRXSE 4,310" bore	MLS, 0,040"	**0934-8045**	2 pk.
16500305	Head gasket for 17-24 M-Eight 4,00" bore	MLS, 0,040"	**0934-5918**	2 pk.
-	Head gasket for 17-24 M-Eight 4,250" bore	MLS, 0,030"	**0934-5944**	2 pk.
-	Head gasket for 17-24 M-Eight 4,320" bore (oil-cooled heads)	MLS, 0,030"	**0934-5949**	2 pk.
-	Head gasket for 17-24 M-Eight 4,320" bore (oil-cooled heads)	MLS, 0,040"	**0934-5948**	2 pk.
-	Head gasket for 17-24 M-Eight Touring 4,500" bore (liquid-cooled heads)	MLS, 0,040"	**0934-5955**	2 pk.
11900090	Coolant system O-rings for 17-24 M-Eight	Viton	**0935-0990**	10 pk.
LOWER END CAM OIL PUMP PUSHROD				
25700370	Cam cover gasket for 17-24 M-Eight	0,032", AFM	**0934-5934**	5 pk.
-	Oil fill spout seal for 18-24 M-Eight Softail	-	**0934-7186**	ea,
62400205	Oil pump seal for 17-24 M-Eight	Viton	**0935-1181**	10 pk.
25700362	Tappet cover gasket for 17-24 M-Eight	0,032", AFM	**0934-5933**	10 pk.
AIR/FUEL INTAKE				
29000149	Airbox to throttle body gasket for 17-24 M-Eight	0,031", AFM	**0934-5936**	ea.
91800058-B	Fuel injector O-ring seal (replaces black O-ring) for 17-24 M-Eight	Viton	**0935-0994**	10 pk.
27300087	Manifold to cylinder head seal for 17-24 M-Eight	-	**0935-0992**	4 pk.
-	Map sensor intake O-ring seal for 17-24 M-Eight	Viton	**0935-0976**	10 pk.
PRIMARY/STARTER				
25700378	Primary cover gasket for 17-24 M-Eight	0,060", AFM	**0934-5961**	ea.
25700378	Primary cover gasket for 17-24 M-Eight	0,060", AFM	**0934-5962**	5 pk.
25700564	Primary cover gasket for 18-24 M-Eight Softail models	0,032", AFM	**0934-6321**	5 pk.
25700455	Primary to engine gasket for 17-24 M-Eight	-	**0934-5980**	ea.
25701080	Derby cover gasket for 18-24 M-Eight Softail	Silicone	**0934-7177**	5 pk.
TRANSMISSION				
24400215	Engine to transmission gasket for 17-24 M-Eight	-	**0934-5981**	ea.
11000101	Shifter shaft seal for 17-24 M-Eight	Viton	**0935-1001**	5 pk.
25700593	Oil pan gasket for 18-24 M-Eight Softail	0,032"	**0934-6335**	ea.
34800044	Transmission top cover gasket for 18-24 M-Eight Softail, 20 M-Eight Touring	-	**0934-6336**	ea.

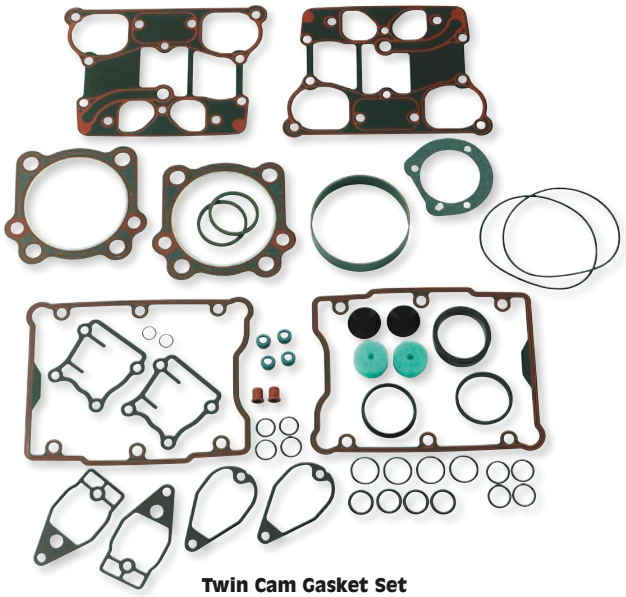
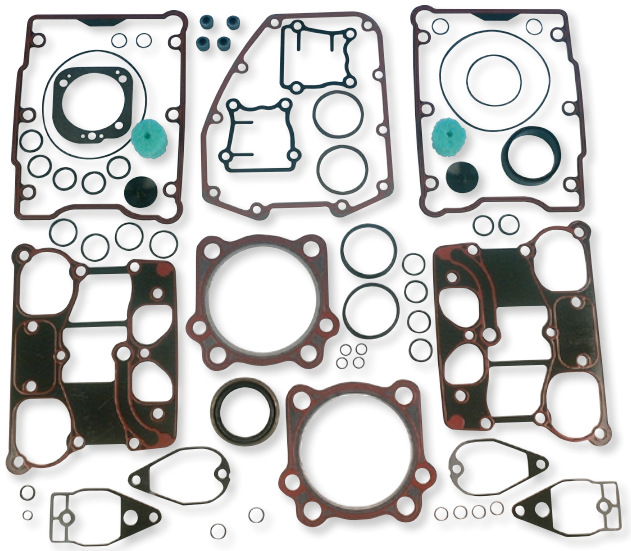
COMETIC GASKET — REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)

OEM #	DESCRIPTION	MATERIAL/THICKNESS	PART #	QTY.
EXHAUST				
65324-83A	Exhaust port gasket for 17-24 M-Eight, tapered	Stainless graphite mesh	**0934-1337**	10 pk.
-	Exhaust port gasket for 17-24 M-Eight, race style	Stainless graphite mesh	**0934-1336**	10 pk.
65900017	Muffler to head pipe gasket for 17-24 M-Eight	Stainless graphite mesh	**0934-6405**	ea.
65900017	Left muffler/cross-over gasket for 17-24 M-Eight Touring (HDI)	Stainless graphite mesh	**0934-7810**	2 pk.
65900056	Right muffler gasket for 17-24 M-Eight Touring (HDI)	GraFoil®	**0934-7811**	ea.
FOR TWIN CAM				
ROCKERBOX				
11270	Rocker arm support O-rings for 99-17 Twin Cam	Rubber-coated steel, 0,020"	**0935-0147**	10 pk.
16719-99	Rocker housing gasket for 99-17 Twin Cam	Viton coated steel, 0,020"	**0934-0750**	10 pk.
17386-99A	Rocker box cover gasket for 99-11 Twin Cam	Viton coated steel, 0,020"	**DS-172031**	10 pk.
17591-99	Breather cover gasket for 99-10 Twin Cam	Fiber, 0,031"	**0934-1332**	10 pk.
17592-99	Breather baffle gasket for 99-10 Twin Cam	Fiber, 0,031"	**0934-1334**	10 pk.
25244-99A	Cam cover gasket for 99-17 Twin Cam	AFM	**2011-1500**	5 pk.
26858-99	Rocker cover umbrella valve seal for 99-17 Twin Cam	Viton	**0935-0146**	10 pk.
-	Breather filter element gasket for 99-17 Twin Cam	AFM, 0,032"	**0934-4735**	10 pk.
CYLINDER HEAD & CYLINDER				
16500168	Head gasket for 14-16 Twin-Cooled/Air-Cooled Twin Cam 3,875" bore	MLS, 0,030"	**0934-3143**	2 pk.
16500168	Head gasket for 14-16 Twin-Cooled/Air-Cooled Twin Cam 3,937" bore	MLS, 0,040"	**0934-3146**	2 pk.
16500168	Head gasket for 14-16 Twin-Cooled/Air-Cooled Twin Cam 4,000" bore	MLS, 0,030"	**0934-3147**	2 pk.
16775-99	Head gasket for 99-13 Twin Cam 88"/96" std. bore	MLS, 0,030"	**DS-172106**	2 pk.
16775-99	Head gasket for 99-13 Twin Cam 4,00" bore	MLS, 0,030"	**0934-0002**	2 pk.
16775-99	Head gasket for 99-13 Twin Cam 4,00" bore	MLS, 0,040"	**0934-0003**	2 pk.
16775-99	Head gasket for 99-13 Twin Cam 4,125" bore	MLS, 0,030"	**0934-0789**	2 pk.
16775-99	Head gasket for 99-13 Twin Cam 4,125" bore	MLS, 0,040"	**0934-0790**	2 pk.
16775-99	Head gasket for 95" and 103" Twin Cam 3,875" bore	MLS, 0,030"	**DS-172104**	2 pk.
16775-99	Head gasket for 95" and 103" Twin Cam 3,875" bore	MLS, 0,040"	**DS-172105**	2 pk.
18046-98	Valve stem seals for Screamin' Eagle heads	Viton MLS	**0935-0138**	10 pk.
11907	Base gasket O-ring kit (cylinder base gasket w/ dowel O-ring) for 09-17 110" Twin Cam	Orange Viton	**0934-5049**	ea.
-	Base gasket for 99-17 Twin Cam 4,125" bore	Viton coated steel, 0,020"	**0934-0779**	2 pk.
11256	Cylinder base O-ring for 99-17 Twin Cam (except 110" motor)	Nitrile	**DS-172027**	10 pk.
LOWER END CAM/OIL PUMP/PUSHROD				
11273	Engine case locating dowel O-ring for 99-17 Twin Cam	Viton	**0935-0151**	10 pk.
11286	Oil pump outer O-ring for 99-06 Twin Cam (except 06 Dyna)	Viton	**0935-0158**	10 pk.
11293	Upper pushrod cover O-ring for 99-17 Twin Cam	Viton	**0935-0148**	10 pk.
11298	Cam support plate plug O-ring for 99-06 Twin Cam (except 06 Dyna)	Viton	**0935-0165**	10 pk.
11301	Oil pump inner small O-ring for 99-17 Twin Cam	Viton	**0935-0159**	10 pk.
12068	Motor sprocket shaft oil seal for 99-17 Twin Cam	Viton	**0935-0154**	5 pk.
12068	Motor sprocket shaft oil seal for 99-17 Twin Cam	Viton	**0935-0374**	10 pk.
18635-99	Tappet cover gasket for 99-17 Twin Cam	Fiber	**DS-172047**	10 pk.
18635-99	Tappet cover gasket for 99-17 Twin Cam	AFM	**0934-1335**	10 pk.
26072-99	Oil pan gasket for 99-17 Dyna	AFM, 0,060"	**0934-4810**	ea.
PRIMARY				
11147	Inner primary-to-case O-ring for 99-06 Twin Cam (except 06 Dyna)	Nitrile	**0935-0161**	10 pk.
12066	Starter shaft seal for 99-06 Twin Cam	Viton	**0935-0163**	5 pk.
17369-06	Derby cover gasket for 06 Dyna, 07-17 Twin Cam	Silicone	**0934-1240**	ea.
17369-06	Derby cover gasket for 06 Dyna, 07-17 Twin Cam	Silicone	**0934-6979**	5 pk.
25416-16	Derby cover gasket for 16 FL (except CVO, Low)	-	**0934-5057**	ea.
25416-16	Derby cover gasket for 16 FL (except CVO, Low)	-	**0934-5060**	5 pk.
25416-99	Derby cover O-ring for 99-06 Twin Cam (except 06 Dyna)	Nitrile	**0935-0160**	5 pk.
27444-00	Starter-to-primary case O-ring for 99-17 Twin Cam	Nitrile	**0935-0155**	5 pk.
34901-07	Primary gasket for 07-16 FLHT/FLHR/FLTR/FLHX	AFM, 0,060"	**0934-1226**	ea.
34901-07	Primary gasket for 07-16 FLHT/FLHR/FLTR/FLHX	AFM, 0,060"	**0934-1340**	5 pk.
34906-85A	Inspection cover gasket for 99-06 FLT/FXR	AFM, 0,060"	**2011-1494**	5 pk.
34934-06	Inner primary gasket for 06-17 Dyna, 07-17 FXST/FLST, 07-16 Touring	Aluminum, silicone	**0935-0241**	5 pk.
60539-89	Primary gasket for 00-06 FXST, 99-05 Dyna	MLS, 0,060"	**2011-1488**	5 pk.
60547-06	Primary gasket for 06-17 Dyna, 07-17 FXST/FLST/FXS/FLS	MLS, 0,060"	**0934-1205**	ea.
60547-06	Primary gasket for 06-17 Dyna, 07-17 FXST/FLST/FXS/FLS	MLS, 0,060"	**0934-1341**	5 pk.
60539-99	Primary gasket for 00-06 FXST, 99-05 Dyna	MLS, 0,060"	**0934-4808**	ea.
60567-65B	Inspection cover gasket for 99-06 FXST/FLST (except 06 Dyna)	MLS, 0,060"	**2011-1495**	5 pk.
63869-06	Shift shaft tube gasket for 06-17 Dyna	MLS, 0,060"	**0934-2020**	10 pk.
25416-99C	Derby cover gasket for 99-17 Twin Cam (replaces O-ring)	AFM, 0,060"	**0934-0788**	5 pk.
25416-99C	Derby cover gasket for 99-17 Twin Cam (replaces O-ring)	AFM, 0,060"	**0934-6980**	ea.
TRANSMISSION				
12074	Main drive gear seal for 06 Dyna, 07-17 Big Twin	Viton	**0935-0375**	ea.
12077	Output gear oil seal for 06 Dyna, 07-17 Twin Cam	Viton	**0934-1392**	10 pk.
12077	Output gear oil seal for 06 Dyna, 07-17 Twin Cam	Viton	**0934-6322**	ea.
34904-86C	Transmission top cover gasket for 99-06 Twin Cam (except 06 Dyna) (wide)	AFM, 0,060"	**0935-0220**	10 pk.
34917-06	Transmission top cover gasket for 06-17 Dyna, 07-17 Twin Cam	AFM, 0,060"	**0934-1234**	10 pk.
34917-99	Transmission top cover gasket for 99-06 Dyna	AFM, 0,060"	**0934-1391**	10 pk.
35607-06	Transmission-to-engine case gasket for 07-16 FLHT/FLHR/FLHX/FLTR, 06-17 Dyna	Aluminum w/ molded rubber	**0934-1235**	ea.
35653-98	Transmission bearing housing gasket for 99-06 Twin Cam (except 06 Dyna)	AFM, 0,032"	**0934-1390**	10 pk.
35654-06	Transmission bearing housing gasket for 06-16 Dyna, 07-17 Twin Cam	AFM, 0,032"	**0934-1232**	10 pk.
36801-87B	Transmission end cover gasket for 99-06 Twin Cam	AFM, 0,032"	**0934-1385**	10 pk.
36805-06	Transmission end cover gasket for 06-16 Dyna, 07-17 Twin Cam	AFM, 0,060"	**0934-1233**	10 pk.
37101-84B	Transmission shift shaft seal for 06 Dyna, 07-13 Twin Cam	Viton w/ metal jacket	**0935-0376**	5 pk.



All part numbers in BLUE are new for 2026.

COMETIC GASKET — REPLACEMENT GASKETS/SEALS/O-RINGS (CONT)



OEM #	DESCRIPTION	MATERIAL/THICKNESS	PART #	QTY.
AIR/FUEL/INTAKE				
11291	EFI sensor map seal for 99-06 Twin Cam	Silicone	**0935-0166**	10 pk.
11292	Carburetor backing plate O-ring for 99-06 Twin Cam	Nitrile	**0935-0373**	10 pk.
26995-86B	Intake manifold seal for carbureted 99-06 Twin Cam	Nitrile rubber	**0935-0156**	10 pk.
27002-89	Carburetor to intake manifold seal for 99-06 Twin Cam	Nitrile rubber	**0935-0157**	5 pk.
29062-95	Carburetor-to-backing plate gasket for 99-06 Twin Cam	AFM, 0,060"	**0934-1342**	10 pk.
29313-95	Air filter backplate gasket for 99-07 Twin Cam	AFM	**0934-1343**	10 pk.
63815-99	Breather filter element for 99-17 Twin Cam	Foam	**0934-1333**	10 pk.
2763501B	Induction module O-ring kit for 01-05 Twin Cam	Viton	**0935-1302**	kit
6103004A	Fuel cap seal for 04-10 Dyna	Viton	**0935-1303**	4 pk.
EXHAUST				
65324-83A	Exhaust port gasket for 99-17 Twin Cam, tapered	Stainless graphite mesh	**0934-1337**	10 pk.
-	Exhaust port gasket for 99-17 Twin Cam, race style	Stainless graphite mesh	**0934-1336**	10 pk.
FOR V-ROD				
MOTOR GASKETS				
17625-01	Head gasket for 02-07 V-Rod (except VRSCX) w/ std. bore	MLS, 0,030"	**0934-0796**	2 pk.
65109-01	Exhaust port gasket for 02-08 V-Rod	Stainless graphite mesh	**0934-1239**	2 pk.
FOR XL/RA				
ROCKERBOX				
17353-89	Lower rocker cover gasket for 91-03 XL	Viton	**0935-0224**	5 pk.
17353-89B	Outer rocker gasket for 04-06 XL	Viton	**0934-1398**	2 pk.
17354-89	Upper rocker cover gasket for 91-03 XL	Viton	**0934-1401**	5 pk.
17362-07	Outer rocker gasket for 07-22 XL (except RH Sportster)	Silicone	**0934-1395**	2 pk.
17362-07	Outer rocker box gasket for 07-22 XL (except RH Sportster)	Silicone	**0934-3175**	5 pk.
17695-07	Inner rocker gasket for 07-22 XL (except RH Sportster)	Silicone	**0934-1396**	2 pk.
17695-07	Inner rocker box gasket for 07-22 XL (except RH Sportster)	Silicone	**0934-3176**	5 pk.
17393-07	Rocker breather seal for 07-22 XL (except RH Sportster)	Silicone	**0934-1397**	2 pk.
CYLINDER HEAD/CYLINDER				
16500668	Head gasket for 21-24 RA1250/S and RH1250S	MLS, 0,024"	**0934-7886**	2 pk.
-	Base gasket for 86-22 XL (except RH Sportster)	Viton coated steel, 0,010"	**0934-0772**	2 pk.
-	Base gasket for 86-22 XL (except RH Sportster)	Viton coated steel, 0,020"	**DS-172053**	2 pk.
1650067	Base gasket for 21-24 RA1250/S, RH975/S and RH1250S	Viton coated steel, 0,010"	**0934-7885**	2 pk.
LOWER END/CAM/PUSHROD				
11105	Drain plug O-ring for 90-99 XL	Viton	**0935-0186**	10 pk.
11120	Oil dipstick O-ring for 04-22 XL (except RH Sportster)	Buna	**0934-0740**	5 pk.
11900045	Oil drain plug O-ring for 21-25 RA1250/S, RH975/S and RH1250S	Rev Max	**0935-1304**	10 pk.
11900160	Oil dipstick O-ring for 21-25 RA1250/S, RH975/S and RH1250S	Rev Max	**0935-1305**	10 pk.
11124-DL	Double-lip points seal for 86-03 XL	Viton	**0935-0230**	5 pk.
17944-89	Pushrod tube lower O-ring for 91-99 XL	Nitrile	**0935-0228**	10 pk.
17976-04	Tappet block gasket for 04-22 XL (except RH Sportster)	AFM, 0,032"	**0934-0754**	2 pk.
25263-90D	Cam cover gasket for 04-22 XL (except RH Sportster)	AFM, 0,032"	**0934-0785**	5 pk.
26495-89B	Oil pump gasket for 91-22 XL (except RH Sportster)	AFM, 0,032"	**0935-0237**	10 pk.
25700981	Coolant manifold cover for 21-24 RA1250/S, RH975/S and RH1250S	Rubber coated and embossed steel 0.012" RC	**0934-7887**	ea.
PRIMARY/STARTER				
11101	Starter oil deflector O-ring for 86-03 XL	AFM, 0,060"	**0935-0178**	10 pk.
31488-81B	Starter gasket for 86-22 XL (except RH Sportster)	AFM, 0,032"	**0935-0238**	10 pk.
34955-04	Primary cover gasket for 04-22 XL (except RH Sportster)	AFM, 0,060"	**0934-0747**	5 pk.
34955-75	Primary gasket for 86-90 XL	AFM, 0,060"	**2011-1491**	5 pk.
34955-89A	Primary gasket for 91-03 XL	AFM, 0,060"	**2011-1492**	5 pk.
34986-04	Chain inspection cover gasket for 04-22 XL (except RH Sportster)	AFM, 0,060"	**0934-0787**	5 pk.
TRANSMISSION/CLUTCH				
12074	Transmission mainshaft oil seal for 06-14 XL	Viton	**0935-0375**	ea.
11188	Clutch inspection cover O-ring for 91-99 XL	Buna	**0935-0232**	10 pk.
25463-94	Clutch cover O-ring gasket for 94-00 XL	Viton	**0935-0263**	5 pk.
FUEL/AIR/INTAKE				
29059-88	Keihin CV air cleaner gasket for 88-03 XL	-	**0934-1394**	5 pk.
SEALS				
17393-07	Rocker breather seal for 07-22 XL (except RH Sportster)	-	**0934-1397**	2 pk.
EXHAUST				
65324-83A	Exhaust port gasket, tapered, for 86-22 XL (except RH Sportster)	Stainless graphite mesh	**0934-1337**	10 pk.
-	Exhaust port gasket, race style, for 86-22 XL (except RH Sportster)	Stainless graphite mesh	**0934-1336**	10 pk.
65900051	Exhaust header gasket for 21-24 RA1250/S, RH975/S and RH1250S	Stainless steel	**0934-7812**	2 pk.
BUELL				
LOWER END CAM/OIL PUMP/PUSHROD				
25353-00Y	Cam cover gasket for 00-06 XB9, XB12, Blast	AFM, 0,060"	**0934-5063**	5 pk.
-	Oil pump gasket kit for 00-06 XB9, XB12, Blast	-	**0934-5067**	Kit
PRIMARY				
25378-02	Primary cover gasket for 02-06 XB9/XB12	AFM, 0,060"	**0934-5059**	ea.
25378-02	Primary cover gasket for 02-06 XB9/XB12	AFM, 0,060"	**0934-5061**	5 pk.
34955-89A	Primary gasket for 94-02 Buell	AFM, 0,060"	**2011-1492**	5 pk.
34763-02	Inspection cover gasket for 03-06 XB9/XB12/Blast	AFM, 0,060"	**0934-5070**	ea.
TRANSMISSION				
25377-03A	Clutch cover gasket for 00-06 XB9/XB12	AFM, 0,060"	**0934-5064**	ea.
25377-03A	Clutch cover gasket for 00-06 XB9/XB12	AFM, 0,060"	**0934-5065**	5 pk.

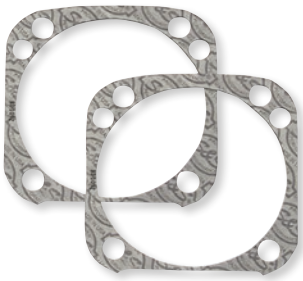
0934-4803

COMETIC GASKET

TOP END GASKET KITS



- EST (Extreme Sealing Technology) gasket kits include embossed stainless steel head, base and rocker gaskets covered with a proprietary rubber material
- Head gasket material allows heat to be drawn away from the combustion ring and dissipate evenly across the gasket surface to eliminate hot spots and gasket failure
- Sets contain all the necessary gaskets, seals and O-rings to rebuild the top end from the cylinder base upward

PART #	DESCRIPTION
M-EIGHT

PROVEN S&S PERFORMANCE

HEAD AND BASE GASKETS

- Head gaskets are made from aramid fiber-reinforced premium graphite material with a steel core, stainless steel fire ring and anti-stick coating (unless noted)
- Base gaskets feature S&S Pro-Formance Micropore compound proven to resist failure due to extrusion or blowout
- All gaskets sold in pairs

HEAD GASKETS

PART #	DESCRIPTION
FOR 17-23 M-EIGHT	
0934-6435	4,250" bore, 0,030" thick layered steel, stock bolt pattern
FOR 99-17 TWIN CAM	
0934-5025	3,875"/3,937" bore, 0,045" thick layered steel, stock bolt pattern (includes Twin Cooled), 99-06 Twin Cam; repl. OEM #900-0862
0934-5031	3,937" bore, 0,030" thick layered steel, stock bolt pattern w/ Twin Cooled heads, 07-17 Twin Cam; repl. OEM #900-0605

PART #	DESCRIPTION
FOR 99-17 TWIN CAM (CONT)	
0934-5013	4,0" bore, 0,043" thick graphite, 304 SS, 99-17 Twin Cam (pr.)
0934-6418	4,0" bore, 0,045" thick layered steel, stock bolt pattern
0934-5015	4,125" bore, 0,043" thick graphite, S&S bolt pattern

BASE GASKETS (FRONT OR REAR)

PART #	DESCRIPTION
FOR 17-22 M-EIGHT	
0934-6436	4,250" bore, 0,014" thick layered steel, stock bolt pattern

PART #	DESCRIPTION
FOR 99-17 TWIN CAM	
0934-5020	4,125" bore, 0,018" Micropore™ stock bolt pattern
0934-5021	4,125" bore, 0,018" thick graphite, S&S bolt pattern

All part numbers in BLUE are new for 2026.

0934-7815

COMETIC GASKET

REPLACEMENT MLX HEAD GASKETS

- MLX Gasket (Multi-Layer-Xtreme) features an extra "stopper" fold-over layer providing a torque limiting surface that prevents yielding of the combustion seal
- Proprietary high-temperature coatings along with embossments provide a micro seal for fluids against the head and block surface
- MLX head gaskets are essential for all M-Eight and Twin Cam applications using a Turbo, high compression, nitrous or any power adding modifications
- Require no special machining and are installed like a regular MLS head gasket
- Sold in pairs for popular bores and thicknesses

PART #	DESCRIPTION	MATERIAL/ THICKNESS
FOR 17-23 M-EIGHT		
0934-7528	3,937" bore	MLX, 0,036"
