ICON HELMETS

ICON HELMETS ARE THE CULMINATION OF OUR UNIQUE RIDER DRIVEN DESIGN

An aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D.

Powers customer satisfaction award, and accolades from riders the world over.

Whether your riding includes blasting high-speed circuits, storming the dirt of Baja, or strafing pockmarked highways; there's an ICON helmet for you.

AIRFRAME PRO

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON designed the AIRFRAME PRO™.

VARIANT PRO

The VARIANT PRO™ showcases composite shells. Featuring a 3D molded shield and an aerodynamically optimized visor, it has a style all its own. From streetfighters to sportbikes to cruisers to ADV bikes, the VARIANT PRO™ is for those who ride outside the boundaries of convention. The VARIANT PRO™ is our premier all-terrain option.

AIRFLITE

A neo-retro glimpse into one possible future, the AIRFLITE™ is the vessel of your dreams. The visually-defining shield makes a statement on the streets while the helmet's versatility and customizable ability speak to the development and design. Remove the shield, replace it with the AIRFLITE™ visor, and the helmet goes from street to dirt in a matter of moments. Combine that with a recessed twin-channel cooling system, HydraDry™ comfort liner, inner DROPSHIELD, sculpted neck-roll, and internal speaker pockets, and you get the ultimate street-style helmet.

AIRFORM

For almost two decades, ICON Motosports has come to define moto-street style. Proven design, comfortable fit, and superb quality for the maximum value, the AIRFORM™ helmet is an excellent entry point into the ICON family. Includes world-renowned HydraDry™ comfort liner, ventilation, and an inner DROPSHIELD for those rides that start before sunrise and end well after the sunset. Highly customizable for those who like to dial it in.

VARIANT PRO GHOST CARBON™ HELMET

INCLUDES CLEAR & DARK SMOKE VARIANT PRO™ SHIELD

Reworked and redesigned, the Variant Pro™ Carbon is lighter and more compact than its predecessor. Through ICON's proprietary molding technology, the hand-laid 4Tress™ carbon is strategically placed throughout the shell to ensure structural integrity without adding weight. The fog-free 3D-molded shield provides optical clarity across its oversized eye-port. It increases peripheral vision, and the visor has been designed to block the sun while reducing lift at speed. To improve comfort, the 5-piece sweat-wicking HydraDry™ liner works in conjunction with the vents to help reduce heat build-up. Innovative design and timeless styling, the Variant Pro™ Carbon is the ultimate crossover helmet.

CUSTOMIZE YOUR AIRFORM

Now you can dial in your helmet even more with the AIRFORM™ Rear Spoilers. Available in all the same RST colors as the shields. You can mix and match colors, giving you 616 different custom options.

When choosing a face shield, drop shield or face shield/dropshield combination check to confirm that it does not reduce your ability to recognize street signals. Any face shield, drop shield or face shield/dropshield combination that reduces riders ability to recognize street signals should not be used.

NEW STORMHAWK WP™ JACKET

ICON MOTOSPORTS

D3O[®]

WATERPROOF

*AVAILABLE OCTOBER 2020

The Stormhawk™ jacket is our latest foray into the weatherproof riding category. The low-key exterior is a durable 4-way stretch textile, backed with a waterproof/breathable Hycor membrane - perfect for three-season riding. Internally the jacket is reinforced with 600d polyester fabric for improved abrasion resistance. The Stormhawk™ comes standard with D3O® CE-Certified LP1 shoulder and elbow impact protectors. The LP1 protectors are more breathable and flexible than previous generations of impact protectors, improving the jacket's overall comfort. The jacket also includes a D3O® Viper back impact protector and full-length insulated liner for colder weather riding. Should your ride include more temperate locations, the large exterior front & back vents, sealed with YKK® Aquagard™ zippers, provide significant airflow. The Stormhawk™ Jacket can be worn individually or zipped directly to the Stormhawk™ Pant.

RAIDEN™ JACKET

ICON MOTOSPORTS

D3O[®]

The Raiden™ jacket is purpose-built to withstand the punishment of ADV riding. Rain, dirt, or nasty get-offs, it's ready for anything the pavement or dirt can deliver. The Raiden™ jacket is comprised of a Dupont™ 3-layer nylon shell with 10k/10k Waterproof breathability as well as durable Cordura® overlays in the impact zones. The stretch-cord expansion intake ventilation system and exhaust provides on-demand comfort, prevents moisture build-up, and inhibits overheating. Seven pockets add to the on-the-trail carrying capability while the full D30® impact protector package does the dirty work. The removable insulated liner keeps you comfortable when riding conditions are less than ideal. The waterproof YKK® Vislon® and AquaGuard® zippers are a must when Mother Nature opens up the skies, and the dual Hook & Loop side adjustment allows you to tailor your fit. A generous amount of retro-reflectivity adds to visual conspicuity.

A stylish blend of 1.1-1.3mm TracSpec™ leather and textile, coupled with ICON's Attack Fit, creates a jacket built for velocity. A full D30® impact protector package (elbow, shoulder, back) and the accordion leather flex zones allow for a jacket that contours to your body straight off the rack. Deep chest pockets that double as chest vents, reinforced perforation zones, retro-reflective hits, and a padded microfleece comfort liner collar are just a few of the rider-centric details you'll find. For the throttle jockey, we've added an internal waist zipper that connects to the Hypersport Prime™ pant, perfect for track use.

NEW CHAMONIX™ VEST

ICON MOTOSPORTS

All business, no BS - the denim vest is synonymous with motorcycling, so we've added our ICON flavor to a classic piece. The Chamonix™ vest is built for the ride. Regular denim is no match for get-offs at speed, that's why we use abrasion-resistant Cordura® denim for the chassis and reinforce it with 1.2-1.4mm full-grain leather on the shoulders. Like all ICON vests, the Chamonix™ comes with a D30® Viper back CE-certified impact protector. Additional features include adjustable waist straps, chest pockets, and zippered internal and side pockets for secure storage. For those who want more from a denim vest, the Chamonix™ is ready to get to work.

NEW FIELD ARMOR 3™ VEST

ICON MOTOSPORTS

When we first designed the Stryker™ vest, we didn't know it would become the de facto uniform of sportbike riders worldwide. We were designing gear for the most at-risk riders, you and us. After years in the ICON lineup, the time had come to update, so we went back to the drawing board and reworked a classic to bring you the rider developed Field Armor Vest™. Vented bio-foam and air mesh chassis are paired to an articulating injection molded shell with airflow channels, keeping you cool and comfortable when it's hot and not. The D30® chest and back impact protectors provide industry-leading impact absorption. Elastic and hook & loop straps help ensure a snug fit over multiple body sizes, while the low-profile form factor fits easily under most jackets. We're paying homage to our past by looking to our future. The future is ICON.

SUPERDUTY 5™ BOOT

ICON MOTOSPORTS

D3O[®]

The 5th generation of the iconic Superduty street boot leads the way for urban riding gear. We revamped our most popular boot into a sleek, athletic silhouette. The upper is comprised of TECTUFF® coated leather with incredible abrasion-resistant properties. Internally we've revamped the structure, forgoing the steel shank for an engineered lasting board, which provides full-foot reinforcement while still remaining comfortable. The SD5 come equipped with D30® ankle insert. The visually-defining rubber nub interface, hidden ghillie laces, and midfoot support strap—all staples of the Superduty legacy—provide a sure and secure fit. Five generations in, we continue to step up the moto footwear game.

HELMET FITMENT

CHOOSING THE CORRECT HELMET SIZE

Helmet fit is critical to helmet protective performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you.

HEAD MEASUREMENT INSTRUCTIONS

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size.

HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the best fit. Ask your dealer or visit www.rideicon.com for more information.

When sizing your helmet please refer to the size charts that are unique to each helmet shell:

GLOVE FITMENT

HOW TO DETERMINE YOUR GLOVE SIZE

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the "V" intersection of the two dotted lines and on top of the Men's and Women's measuring bars.

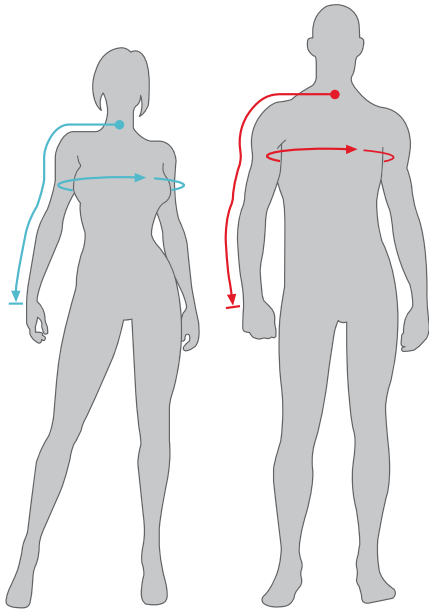

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE ACTUAL PRODUCT.
