ICON HELMETS

ICON HELMETS ARE THE CULMINATION OF OUR UNIQUE RIDER DRIVEN DESIGN

An aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D. Powers customer satisfaction award, and accolades from riders the world over. Whether your riding includes blasting high-speed circuits, storming the dirt of Baja, or strafing pockmarked highways; there's an ICON helmet for you.

ULTRAFLITE

The modern motorcyclist knows every ride is a test of awareness and response. The ICON Ultraflite™ is our answer to these riders who demand the adapting versatility to survive the street. The sleek, sharper design is showcased by our Speedwing Supervent, new Ultrashield™, Dropshield Ultra™ as well as the Mips® brain protection system. The Ultraflite is a relentless response to the evolution of the modern rider.

DOMAIN

After a decade-long absence, the Domain™ returns to the ICON Helmet lineup with a decidedly neo-retro twist. The Domain features a hand-crafted FRP shell for maximum integrity with minimal weight. In addition, a prominent dorsal ridge, large brow-mounted intake vents, and channeled EPS provide increased ventilation. This increased ventilation greatly enhances rider comfort when paired with the removable Hydradry™ liner. Finally, we've enabled the digital aspect of the Domain with the optional HelmLink Bluetooth® communication system.

AIRFRAME PRO

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON designed the AIRFRAME PRO™.

AIRFLITE

A neo-retro glimpse into one possible future, the AIRFLITE™ is the vessel of your dreams. The visually-defining shield makes a statement on the streets while the helmet's versatility and customizable ability speak to the development and design. Remove the shield, replace it with the AIRFLITE™ visor, and the helmet goes from street to dirt in a matter of moments. Combine that with a recessed twin-channel cooling system, Hydradry™ comfort liner, inner DROP SHIELD, sculpted neck-roll, and internal speaker pockets, and you get the ultimate street-style helmet.

AIRFORM

For almost two decades, ICON Motorsports has come to define moto-street style. Proven design, comfortable fit, and superb quality for the maximum value, the AIRFORM™ helmet is an excellent entry point into the ICON family. Includes world-renowned Hydradry™ comfort liner, ventilation, and an inner DROP SHIELD for those rides that start before sunrise and end well after the sunset. Highly customizable for those who like to dial it in.

SAFETY WARNING: Riding a motorcycle is a dangerous activity. No helmet can protect a wearer against all possible impacts. When riding, always wear a helmet, eye protection, protective clothing, gloves and boots. There is no assurance that serious injury or death can be avoided even if you wear a helmet. Take all precautions to avoid every risk when riding a motorcycle. This helmet is not meant for use as a fire retardant product and does not contain any fire retardant materials. Please ensure that your ICON® products fit properly. Improperly fitting products can impair your ability to control your motorcycle.

Engineered to survive the street. Elevated to lead it.

The ULTRAFLITE™ Carbon is built for riders who demand top-tier performance without compromise. Its handcrafted carbon composite shell delivers maximum strength with minimal weight, while the revised intermediate oval headform ensures a dialed-in fit for more riders.

Inside, a Hydradry™ comfort liner with Ax® Suede provides a custom feel built for long days in the saddle. Street-focused features include a quick-change ULTRASHIELD™, Fog-Free Dropshield Ultra™, and a recessed twin-channel Speedwing™ Supervent system for adjustable cooling. Oversized intake and exhaust ports, plus a removable breath deflector and chin curtain, give riders full control over airflow and comfort.

Fully certified to DOT FMVSS 218 and ECE R22.06. The ULTRAFLITE™ Carbon is where street survival meets dynamic performance.

WHAT IS MIPS?

When a helmet with Mips® Brain Protection System is subjected to an angled impact, the low friction layer allows the helmet to slide relative to the head. See mipsprotection.com.

You know we love our skulls. We also love having artists put their creativity to work on our shells. The Ultraflite Doodle3™ Helmet brings the two together with a design that leaves no doubt this is an ICON® lid. Bonus: the skull glows in the dark, so the design gets the appreciation it deserves around the clock. Mips® technology guards your own skull's contents, and the Fog-Free Ultrashield™ has zero distortion.

DOMAIN RUBATONE™ HELMET

ECE R22.06

INCLUDES CLEAR DOMAIN™ SHIELD

The Domain™ features a hand-crafted FRP shell for maximum integrity with minimal weight. In addition, a prominent dorsal ridge, large brow-mounted intake vents, and channeled EPS provide increased ventilation. This increased ventilation greatly enhances rider comfort when paired with the removable Hydradry liner and removable chin curtain. In addition, the Domain is also compatible with ICON's HelmLink Bluetooth® communications system, which seamlessly integrates with the helmet (sold separately).

AIRFRAME PRO CARBON 4TRESS™ HELMET

ECE R22.06

INCLUDES CLEAR TRACSHIELD™
INCLUDES DARK SMOKE TRACSHIELD™

Who needs graphics when the helmet itself is a work of art? The handmade composite 4Tress Carbon Fiber shell of the AFP Carbon 4Tress™ Helmet does more than look good: it also saves weight and adds strength. The shell shape of this ECE R22.06-certified lid is optimized for speed, and the zero-distortion, Fog-Free TracShield™ makes sure you can see the next corner, no matter how quickly you're approaching it.

You've earned your stripes, so go ahead and wear them. The Airflite Tigers Blood™ Helmet goes for a subtle gray and black stripe, so you can stay camouflaged out there in the urban jungle. A Dark Smoke Fog-Free Forceshield™ gives you a distortion-free view of your prey, and the ECE R22.06 certification lets you stalk the streets with confidence. The injection-molded polycarbonate shell is as strong as a tiger's bite.

AIRFLITE TRICK OR STREET 4™ HELMET

ECE R22.06

INCLUDES CLEAR FLITESHIELD™ & DARK SMOKE FORCESHIELD™
INCLUDES DARK SMOKE DROPSHIELD™

Nothing makes the dead rise like the sick sounds of a guitar solo. The Airflite Trick or Street 4™ The Grim Shredder Helmet is the latest homage to Halloween in this annual tradition, and this year, we're making a little noise. The Grim Shredder plays a dirge on top of an injection-molded polycarbonate shell, which is strong and durable. The Dark Smoke Fog-Free Optics™ shield keeps all that fresh-turned earth from getting in your eyes.

Roses are red, this skull is pale blue, beware of the sword that pierces it through. Equipped with a dark smoke Fliteshield™ and slathered from tip to tail in our exclusive matte Rubatone finish, the Airflite Omnicrux™ is gothic incarnate. If the exterior wasn't dark enough, the Omnicrux™ features an internal dark-smoke Dropshield™ to double down on your eternal night. The Airflite Mips® Omnicrux™ also ensures compliance with ECE 22-06. In addition, the removable Hydradry™ liner wicks excess sweat away from your fevered brow, while the dual safety standards ensure almost global compatibility.

NEW AIRFORM MIPS® CRESTFALLEN™ HELMET

ECE R22.06

INCLUDES CLEAR & RST DARK SMOKE OPTICS SHIELD™
INCLUDES DARK SMOKE DROPSHIELD™

The Crestfallen has risen, and only the road dares speak its name. Passed from one wrath-bound soul to the next, it is more than a helmet—it is a legacy carved in ash and speed. Forged in polycarbonate and sanctioned by the laws of men—DOT, ECE, and beyond—it was never meant for peace. It was born for retribution. Across its surface, the largest glow-in-the-dark skull we've ever summoned burns eternal—an unholy beacon that stalks the living and marks the rider as a harbinger of reckoning. Within, the Hydradry™ liner pulls the sweat of pursuit, while the Optics™ shield locks down like a vault. Behind it, the Dropshield™ waits in silence, a second sight for those who ride into the horizon. The Crestfallen chooses its rider—and rides until the debt is paid.

NEW **FALLBLOCK FLANNEL™ JACKET**
ICON MOTOSPORTS (WOMEN'S)

Flannel never goes out of style, but every now and then, it does get reinvented. The Womens Fallblock Flannel Jacket has a relaxed fit for casual, comfortable riding. The textile chassis is tough, and internal 300D polyester reinforcements back it up in key areas. The D30® impact protectors are so low-profile that they're hard to spot. There's a Viper back impact protector plus Ghost impact protectors in the elbows and shoulders.

NEW MIDHAWK™ JACKET

ICON MOTOSPORTS

REINFORCED ELBOW OVERLAYS

Meticulously engineered for those who move fast and ride hard, the Midhawk™ Jacket is built to meet whatever the road brings. It pairs the rugged resilience of Ax® Laredo with the tactical flexibility of Softshell, reinforced internally at the elbows and shoulders. The result is a garment that's equal parts refined and ready. Inside, the Midhawk™ is equipped with a full suite of low-profile D30® impact protectors: Ghost™ at the shoulders and elbows, and Viper at the back. The AirFly™ center mesh panel provides smart, adaptable airflow for warmer rides, while the removable insulated vest liner delivers warmth when the temperature drops. Premium without pretense, functional without compromise—built not to chase cool, but to define it.

D30®

ULTIMATE GHOST

VENTED

The Basehawk2™ is the next generation of this avant-garde hooded gear design mentality. It features our sport-fit with leather sleeve overlays, specifically tuned for the aggressive riding posture of performance street bikes. A mesh AirFly™ and zippered vents keep things cool, while waist adjusters keep things secure. In addition, a full complement of the newest D30® Ghost impact protectors ensures coverage on the road yet are low-profile enough that they remain unnoticed when the jacket is worn casually. Finally, the entire garment is tested & certified to standard (EN 17092-4:2020 Class A) for optimum performance.

FIELD ARMOR 3 VEST™

ICON MOTOSPORTS

D30®

When we first designed the Stryker Vest™, we didn't know it would become the de facto uniform of sportbike riders worldwide. We were designing gear for the most at-risk riders, you and us. After years in the ICON lineup, the time had come to update, so we went back to the drawing board and reworked a classic to bring you the rider developed Field Armor Vest™. Vented bio-foam and air mesh chassis are paired to an articulating injection molded shell with airflow channels, keeping you cool and comfortable when it's hot and not. The D30® chest and back impact protectors provide industry-leading impact absorption. Elastic and hook & loop straps help ensure a snug fit over multiple body sizes, while the low-profile form factor fits easily under most jackets.

HELMET FITMENT

CHOOSING THE CORRECT HELMET SIZE

Helmet fit is critical to helmet protective performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you.

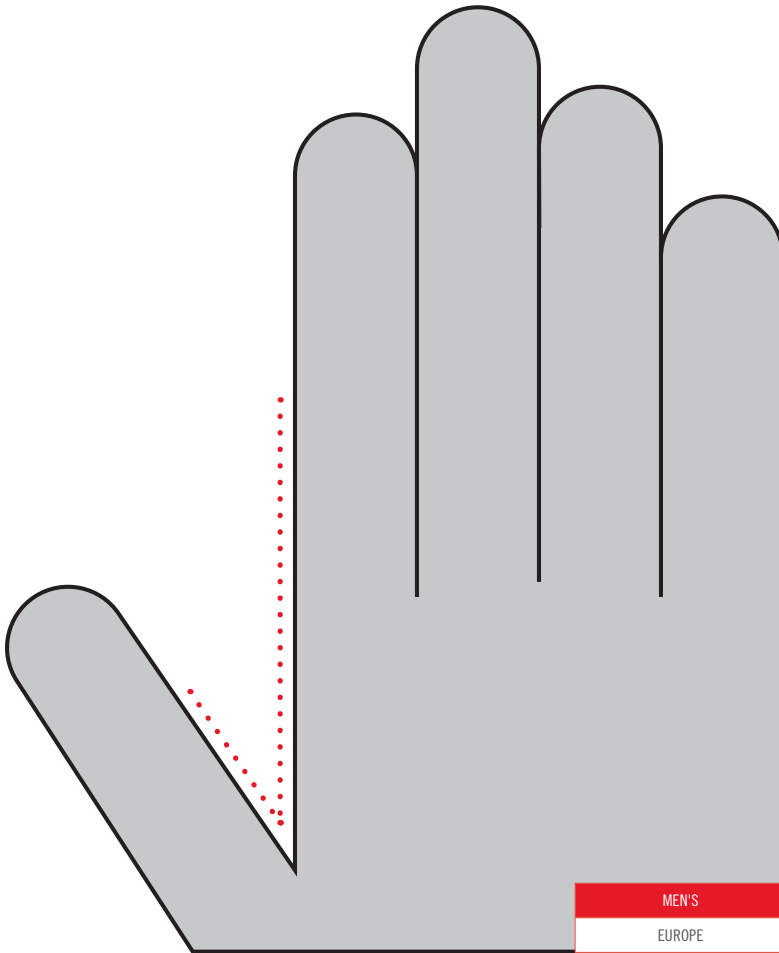

HEAD MEASUREMENT INSTRUCTIONS

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size.

HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the best fit. Ask your dealer or visit www.rideicon.com for more information.

When sizing your helmet please refer to the size charts that are unique to each helmet shell.

GLOVE FITMENT

HOW TO DETERMINE YOUR GLOVE SIZE

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the "V" intersection of the two dotted lines and on top of the Men's and Women's measuring bars.

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE ACTUAL PRODUCT.

JACKET FITMENT

JACKET SIZING INFORMATION

There are three variables to consider when sizing an ICON jacket. The first two are the chest and sleeve measurements, which are what your jacket size is based on. The third is the jacket fit type, which defines the “cut” of the jacket (Attack, Sport, or Relaxed). Instructions, sizing charts and jacket fit details can be found below. The fit type of every ICON jacket can be found in the first bullet point of the copy block for that individual product.

ATTACK
» TAILORED BODY
» PRECURVED ARMS

SPORT
» STRAIGHT BODY
» ARTICULATED ARMS

RELAXED
» STRAIGHT BODY
» STRAIGHT ARMS

CHEST MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, wrap a flexible tape measure around your chest at its largest point. The tape measure should go through your armpit and stay parallel with the floor while taking the measurement.

SLEEVE MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, place one end of a flexible tape measure on your spine at the base of your neck. Measure over the top of your shoulder, down over the point of your elbow, and finish at the wrist bone.

PANT FITMENT

PANT SIZING INFORMATION

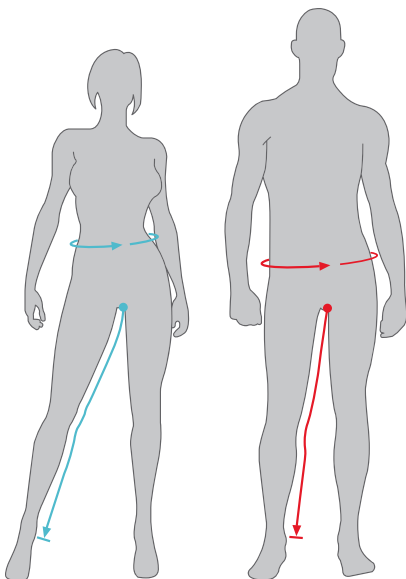

There are three variables to consider when sizing ICON pants. The first two are the waist and inseam measurements, which are what your pant size is based on. The third is the fit type of the pant. Measurement instructions and sizing charts can be found below. The fit type of every ICON® pant can be found in the first bullet point of the copy block for that individual product.

WAIST MEASUREMENT INFORMATION

While standing in a relaxed position, measure around your natural waistline, while keeping the tape measure parallel to the floor.

INSEAM MEASUREMENT INFORMATION

While standing in a relaxed position, measure the total length of the inside of your leg, from crotch to ankle.
