ICON HELMETS

ICON HELMETS ARE THE CULMINATION OF OUR UNIQUE RIDER DRIVEN DESIGN

An aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D. Powers customer satisfaction award, and accolades from riders the world over. Whether your riding includes blasting high-speed circuits, storming the dirt of Baja, or strafing pockmarked highways; there's an ICON helmet for you.

AIRFRAME PRO

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON designed the AIRFRAME PRO™.

VARIANT PRO

The VARIANT PRO™ showcases composite shells. Featuring a 3D molded shield and an aerodynamically optimized visor, it has a style all its own. From streetfighters to sportbikes to cruisers to ADV bikes, the VARIANT PRO™ is for those who ride outside the boundaries of convention. The VARIANT PRO™ is our premier all-terrain option.

AIRFLITE

A neo-retro glimpse into one possible future, the AIRFLITE™ is the vessel of your dreams. The visually-defining shield makes a statement on the streets while the helmet's versatility and customizable ability speak to the development and design. Remove the shield, replace it with the AIRFLITE™ peak, and the helmet goes from street to dirt in a matter of moments. Combine that with a recessed twin-channel cooling system, HydraDry™ comfort liner, sculpted neck-roll, and internal speaker pockets, and you get the ultimate street-style helmet.

AIRFORM

For almost two decades, ICON Motosports has come to define moto-street style. Proven design, comfortable fit, and superb quality for the maximum value, the AIRFORM™ helmet is an excellent entry point into the ICON family. Includes world-renowned HydraDry comfort liner, ventilation, and an inner DROPSHIELD for those rides that start before sunrise and end well after the sunset. Highly customizable for those who like to dial it in.

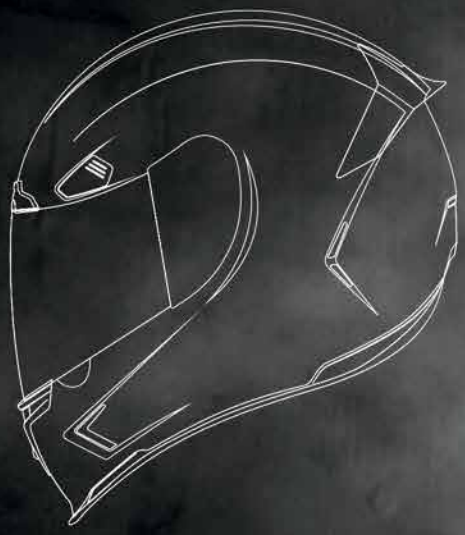

AIRMADA

The AIRMADA™ brings track level specs to the mid-price helmet category. Unique manufacturing processes allow for a significantly reduced shell size, thereby reducing both weight and drag. Its long-oval headform, a first in this category, offers a race fit while eliminating pressure points. The AIRMADA™ is an optimal choice for those wanting maximum performance at an attainable price.

SAFETY WARNING: Riding a motorcycle is a dangerous activity. No helmet can protect a wearer against all possible impacts. When riding, always wear a helmet, eye protection, protective clothing, gloves and boots. There is no assurance that serious injury or death can be avoided even if you wear a helmet. Take all precautions to avoid every risk when riding a motorcycle. This helmet is not meant for use as a fire retardant product and does not contain any fire retardant materials. Please ensure that your Icon® products fit properly. Improperly fitting products can impair your ability to control your motorcycle.

NEW VARIANT PRO GHOST CARBON™ HELMET

INCLUDES CLEAR & DARK SMOKE VARIANT PRO™ SHIELD

Reworked and redesigned, the Variant Pro™ Carbon is lighter and more compact than its predecessor. Through ICON's proprietary molding technology, the hand-laid 4Tress™ carbon is strategically placed throughout the shell to ensure structural integrity without adding weight. The fog-free 3D-molded shield provides optical clarity across its oversized eye-port. It increases peripheral vision, and the visor has been designed to block the sun while reducing lift at speed. To improve comfort, the 5-piece sweat-wicking HydraDry™ liner works in conjunction with the vents to help reduce heat build-up. Innovative design and timeless styling, the Variant Pro™ Carbon is the ultimate crossover helmet.

No two are the same, but each one is rad, guaranteed.

NEW AIRFORM PARAHUMAN™ HELMET

First launched in 2013, the Parahuman was met with critical disdain by all the major motorcycle publications. Thankfully the ICON team only reads French moto publications and never took the bitter writings of the deceased Bonnier group to heart. And as such, we bring back to you the pinnacle of wretched skull excess, the Parahuman. So many skulls, so few domestic moto publications.

AIRMADA MECHANICA™ HELMET

INCLUDES CLEAR & RST SILVER ICON OPTICS™ SHIELD

From the treasure trove of ICON graphics of yesteryear we resurrect our forgotten anthropoid shebot. Half metal, half cyborg, all thigh, she cut a swath through the ranks of Busas and Gixxers in a time when fat tires still roamed the earth. We've brought her back for the next generation, astride mosquito bikes filled with dreams of liter-class dominance. Ride the Mechanica and feel how it was before, and hopefully will be again.

RAIDEN™ JACKET

ICON MOTOSPORTS

The Raiden™ jacket is purpose-built to withstand the punishment of ADV riding. Rain, dirt, or nasty get-offs, it's ready for anything the pavement or dirt can deliver. The Raiden™ jacket is comprised of a Dupont™ 3-layer nylon shell with 10k/10k Waterproof breathability as well as durable Cordura® overlays in the impact zones. The stretch-cord expansion intake ventilation system and exhaust provides on-demand comfort, prevents moisture build-up, and inhibits overheating. Seven pockets add to the on-the-trail carrying capability while the full D30® impact protector package does the dirty work. The removable insulated liner keeps you comfortable when riding conditions are less than ideal. The waterproof YKK® Vislon® and AquaGuard® zippers are a must when Mother Nature opens up the skies, and the dual Hook & Loop side adjustment allows you to tailor your fit. A generous amount of retro-reflectivity adds to visual conspicuity.

HELMET FITMENT

CHOOSING THE CORRECT HELMET SIZE

Helmet fit is critical to helmet protective performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you.

HEAD MEASUREMENT INSTRUCTIONS

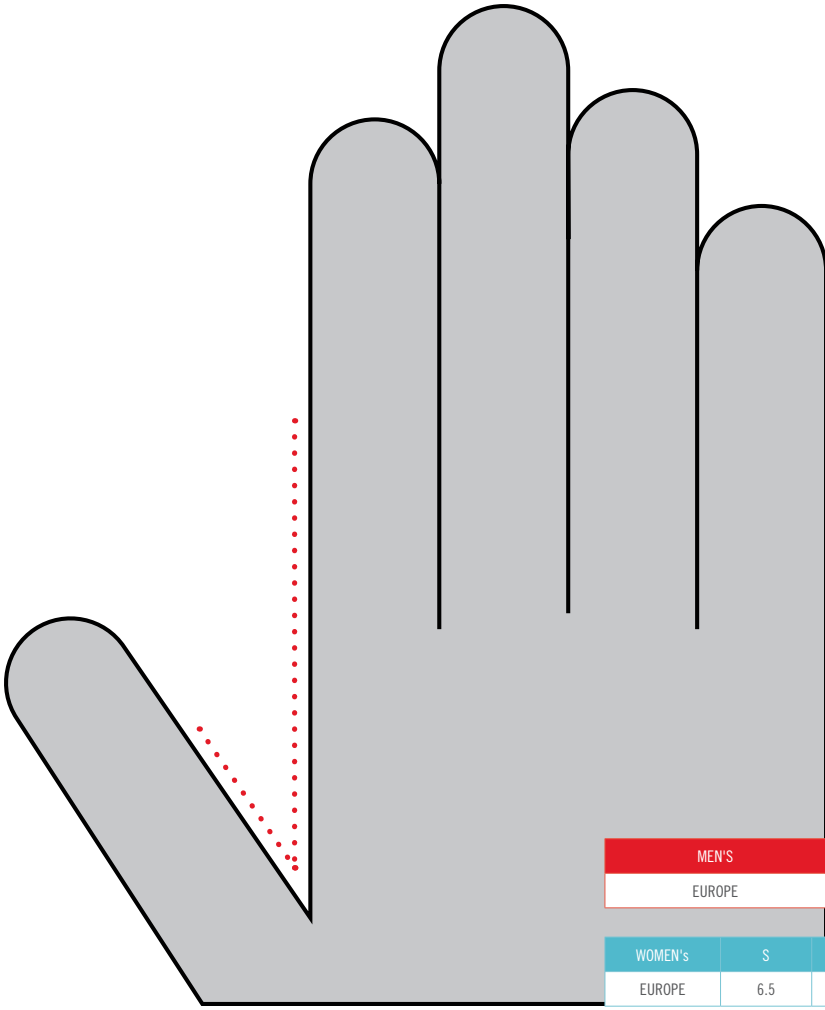

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size.

HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described below. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the best fit. Ask your dealer or visit www.rideicon.com for more information.

When sizing your helmet please refer to the size charts that are unique to each helmet shell:

GLOVE FITMENT

HOW TO DETERMINE YOUR GLOVE SIZE

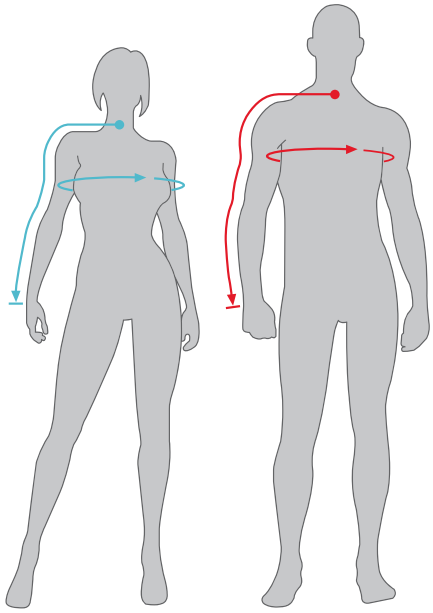

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the “V” intersection of the two dotted lines and on top of the Men’s and Women’s measuring bars.

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE ACTUAL PRODUCT.
