Engineered. Lighting. Solutions.

LED HEADLIGHT ADAPTIVE 2 8790 7"

- LED headlight calculates bank angles on a real-time basis using proprietary technology and on-board sensors, automatically directing the light array up or down as the motorcycle leans
- Improved to feature adaptive technology with the high beam, in addition to the low beam
- On-board intelligence senses leaning angles when cornering to control light
- Dynamically fills in dark areas while turning
- Breakthrough improvement in visibility and safety
- Plug & play solution for 7" round (also known as PAR56) motorcycle headlight buckets
- DOT & ECE dual-compliant headlight
- Dual Burn high & beam optics for extra punch of light
