ON THE COVER

A 1999 FLSTF Fat Boy transformed from stock to stunning is the 2024-2025 Drag Specialties OldBook cover bike. It was designed and built by Shannon Reinhart of EDZ Motorcycle Service & Repair, a one-man motorcycle repair and customizing shop.

"The idea behind this bike is 'less is more,'" said Reinhart. "I looked at the overall bike design and tried to keep it simple – if it didn't need something, I took it off. I wanted that classic bobber style, a lean, muscular look."

Reinhart stressed that this build really is something you can put together using the Drag Specialties OldBook. "The focus when working with Drag Specialties is using what is available in the catalog," Reinhart said. "After the initial discussion I had about undertaking the build, I opened up the book, and just started to make a list of what I thought would result in a neat final bike."

Reinhart said it is typical the Drag team will give some direction or suggest certain parts get used in a build. "But when I submitted my initial parts list suggestion, they said 'Hey, this should turn out great! You made our job a lot easier,'" laughed Reinhart. "They really didn't change anything I suggested as far as vendor or product choices."

Parts list approved, the work began. "It really only took a couple of months to complete it," Reinhart said. "The original deadline was for September, and that got moved back to August, so there was a little added pressure. But it worked out OK."

The front end is raked out using a set of Arlen Ness triple trees, with a Drag Specialties headlight nacelle kit to keep it clean and simple. "I put the headlight nacelle on as way to incorporate the front turn signals into the design for a strong, simple-looking front end."

The rear of the bike features a Russ Wernimont custom fender for an abbreviated, hot-rod look. "The rear has a custom-mount license plate frame with all the lighting incorporated into it – again, to

keep it simple and tidy," Reinhart said.

The motor is an 80" Evolution Big Twin with the stock bore/stroke, enhanced with classic upgrades from S&S Cycle: a new intake manifold, a Super E carburetor, and a complete air cleaner kit. The bike's soundtrack comes from a 2-into-1 exhaust system from Bassani.

The seat was the one area that required a mid-build change of plan. "I originally was going to go with a frame-mounted seat," Reinhart said. "But the rear fender kit eliminated the stock fender struts for a tighter look. That moved the fender in closer on the frame so a stock-style seat wouldn't fit any more. I switched the design to use a spring-style solo seat. And it turned out pretty good!"

A small but important detail some builders overlook is the engine hardware. Reinhart swapped out all the stock fasteners for quality 12-point hardware from the OldBook. "So many people put a lot of effort into the motor finishes and nice paint, then keep the stock fasteners. They often start to corrode pretty quickly. Quality hardware – like the Feuling 12-point bolt kits - are a great upgrade to any build."

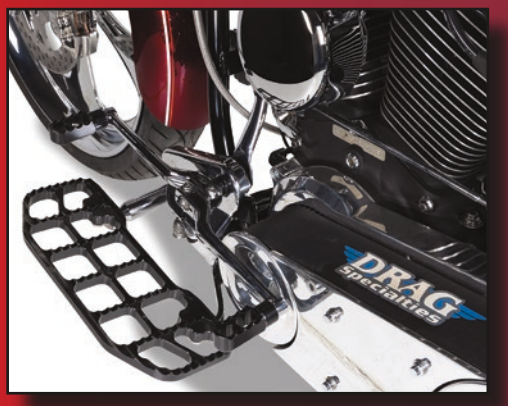

The paint is a beautiful silver leaf PPG Brandywine over black and clearcoat and the Drag Specialties logo is silver leaf with orange pinstripe. And the 3" primary drive belt has a hand-painted Drag Specialties logo. All this cool custom paint work was laid down at Nathan Bowers Paint Studio in Decatur, Indiana.

And it is a runner. "I rode the bike from Sturgis to Rapid City for the final delivery," Reinhart said. "It ran a steady 75 mph down the interstate no problem."

"This build was a lot of fun," Reinhart said. "I wanted to design and build a bike that anybody, with time and effort, could make."

Memphis SHADES
MOTORCYCLE FAIRINGS & WINDSHIELDS

SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact – Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade – a neutral tint with 85% light transmission barely noticeable, with just enough tint to make the edges disappear
- Fit Road King, Fat Boy, Heritage and Memphis Fats windshield using injection-molded glass-filled nylon clamps in place of the billet aluminum clamps (can be mounted along with Hot Wing)

PART #	DESCRIPTION
2350-0200	Side Wings

HOT WING

- Boost airstream upward – Venturi action speeds up the airstream while smoothing the flow – without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Uses lightweight, economical injection-molded glass-filled nylon clamps
- Fits Memphis Fats windshields or similar windshields that measure 3 mm or 4,5 mm thick (includes inserts for both sizes)

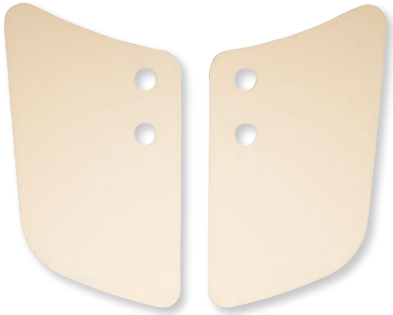

PART #	DESCRIPTION
2350-0199	Memphis Hot Wing

Clear

Black

Solar

CUSTOM LOWERS

- Provide additional protection by extending your coverage downward
- Shield rider from rain, wind and noise coming up from the road
- Made of the same high-quality materials as Memphis Shades windshields with matching tints
- Available in black, clear and solar (a light tint with 72% visible light transmission)
- Must purchase Lowers mounting kits; see pages 12-13
- May require turn signal relocation
- Measure 20,5 cm H x 14 cm W (8" H x 5 – 5 ½" W)
- Sold in pairs

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES FATS/SLIM AND SPORTSHIELDS

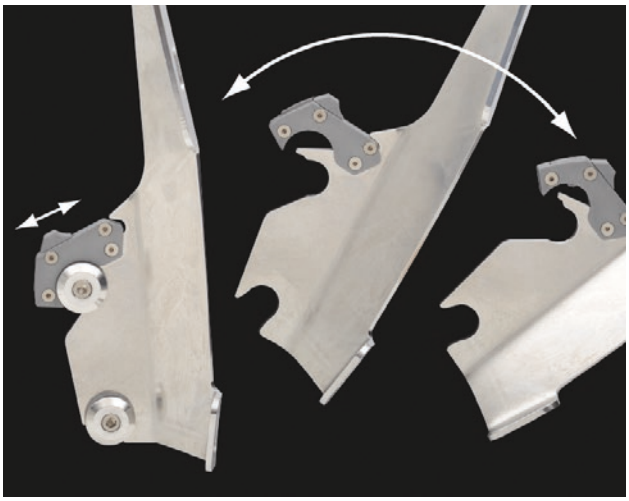

- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately

Whether your bike has conventional forks (tins) or a Springer front end, once installed, Trigger-Lock mounts let you remove or change Memphis Shades Fats/Slims/Sportshield windshields in a moment's time.

All part numbers in BLUE are new for the OldBook.

ABE

HELL CAT

- Sculpted full-body shape
- Measures 51 cm W (20") x approximately 45,5 cm H (18") above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamp that fits 25 mm (1") and 22 mm (7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

Memphis SHADES — MOTORCYCLE FAIRINGS & WINDSHIELDS

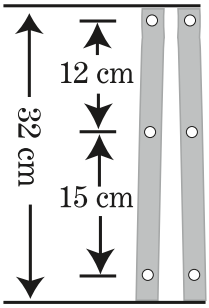

ABE

REPLACEMENT PLASTIC FOR HARLEY-DAVIDSON® WINDSHIELDS

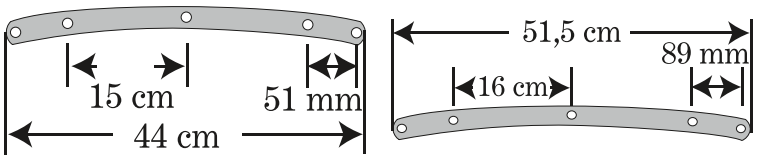

- Now riders can replace their OEM windshield with the size and color of their choice
- Available in clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for six models in up to four different heights – pick a size that's right for you
- Perfect fit with OEM hardware
- Holes are not drilled but rather machined to accept snap-in nylon inserts that prevent stress fractures and star cracks commonly seen around holes – an exclusive feature of Memphis Shades replacement plastic

Due to variations in OEM mounting hardware, these windshields may not fit all models; be sure to check measurements before ordering.

VERTICAL STRAPS

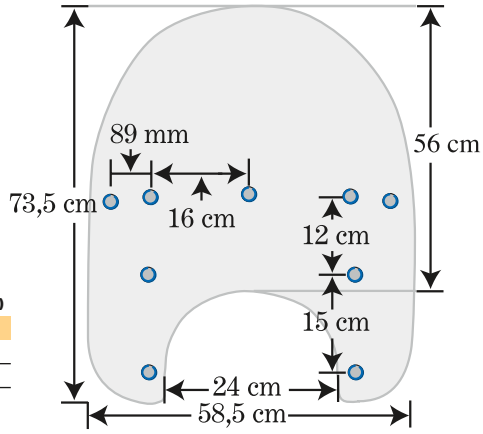

There is a right and left strap, although they measure the same.

HORIZONTAL STRAPS

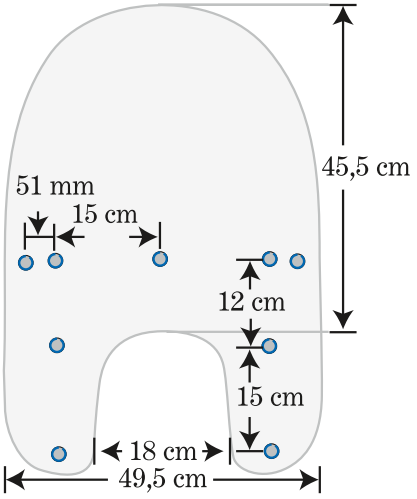

The windshield should have one of the two straps illustrated. Straps shown for reference only.

NOTE: Measurements are approximate and measured center to center of holes on the outside of windshield.

KLOCK Werks FLARE™ WINDSHIELD ABE

FLARE™ WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce while the flip at the tip directs air over the rider to help eliminate the swirl of air found in front of the rider on standard windshields
- Lexan® polycarbonate with FMR hard coating is used to create these custom-molded designs with unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

KLOCK Werks FLARE™ WINDSHIELD

2310-0748

2310-0749

30,5 CM (12") FLARE™ WINDSHIELDS

- Pro Touring style available
- The Pro Touring Flare™ is a wider, more full-coverage option for riders and passengers looking for greater wind protection during long-haul touring, yet is stylish enough for use around town
- The patented design features "hips" at the sides that re-route air away from the rider while adding downforce to the front end to improve stability and handling compared to the stock windshield design (the stock design creates lift)
- The "flip" at the top of the Flare™ kicks air up and over the rider creating cleaner, less turbulent air for the rider and passenger
- Wind tunnel tested and designed for maximum performance and air management
- Made of Lexan® polycarbonate with FMR hard coating on both sides of the shield for unmatched durability
- All are predrilled for easy mounting using stock windshield hardware
- Made in the U.S.A.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S. And also under International Patents: 324093, 324094, 325192.

KLOCK Werks FLARE™ WINDSHIELD

2310-0389

2310-0388

2310-0708

FLARE™ BILLBOARD WINDSHIELDS

- Modeled after the original Flare™ windshield for Baggers, now almost every rider can get all of the same performance and style with bolt-on ease
- With patented Klock Werks "hips" on the side and a flip at the top, shields have been wind tunnel designed and tested to produce the same amount of additional down force as original
- Real world testing and computer simulation also produced multiple heights that will work for most riders; heights listed are measured from headlight opening to top of shield
- All are predrilled for easy mounting using stock windshield mounting kits
- For the following applications "Detachable" refers to the old-style H-D grommet/hinge style mechanism

NOTE: All measurements given are approximate.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

MEMPHIS SHADES BATWING FAIRING

- The clean aerodynamic shape and innovative mounting system easily enhances the style and comfort of your ride
- The fairing body of PART #2330-0017 measures 93 cm (36 1/2") wide and 43 cm (17") tall; fairing body of PART #2330-0075 measures 85 cm (33 1/2") wide and 43 cm (17") tall (excluding windshield and wind deflectors)
- Inner fairing structure is black textured ABS
- Fairing outer shell is opaque black Lucite® with a class A finish that looks great as is or can easily be painted
- No-Tool Trigger-Lock mount kits are CNC-machined and are available with E-coated polished or black aluminum and stainless steel hardware for a clean appearance that's built to last
- Trigger-Lock kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairing is predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four heights and two translucent colors and clear and solar (a light tint with 72% visible light transmission); see page 29
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trims for style are also available; see page 30
- Optional sound system can be added to the Batwing Fairing with Hogtunes' speaker systems

Trigger-lock mounts let you remove your Batwing Fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike

NOTE: Batwing Fairing is not compatible with any other fairing windshields, wind deflectors or accessories.

NOTE: Softail models listed that already have a Memphis Fats or Slims windshield installed can use their existing Trigger-Lock mount kit to install a Batwing Fairing, or purchase a plate-only kit (black or polished aluminum) and switch back-and-forth from Fats, Slim or Sportshield windshield to Batwing Fairing.

WHAT TO ORDER

1. BATWING FAIRING
2. TRIGGER-LOCK MOUNT KIT SPECIFIC TO BIKE MODEL; SOME SOFTAIL MODELS MAY REQUIRE A TURN SIGNAL RELOCATION KIT

KURYAKYN

DRAGON WING VARIABLE AIR DEFLECTOR

- Replace the stock wind deflectors found on Ultra Classic models
- Easy upgrade for the rest of the FLHT family as well
- Large surface area directs airflow better than other designs
- Close the wing vane to direct air around the fairing for reduced turbulence, or open it for a cool blast of air on hot days
- Four adjustable positions; adjustment is made by hand using a spring-loaded mechanism
- Shatter-resistant polycarbonate construction
- Sold in pairs

PART #	DESCRIPTION
2350-0019	For 96-98 FLHT

PERFORMANCE OUTFITTER

CRUIS'N™ DELUXE 3-POCKET WINDSHIELD BAG

- Distinctively styled windshield bag features large opening flaps for easy access to contents – keep your sunglasses or camera at your fingertips
- Leather-grained UV- and weather-resistant SaddleHyde™ bag has over 7,37 liters (450 cubic inches) of total cargo capacity in three independent pockets
- Superbly constructed bag fits snugly with the contours of the inner dash of the classic Harley-Davidson® Batwing fairing
- Rigid construction holds bag shape even when empty; quarter-turn flap releases accept mini-padlocks so you secure your belongings in the bag
- Left pocket easily snaps off to permit the mounting of a Harley-Davidson accessory or similar-brand GPS mount
- Easy installation can be completed in minutes with basic hand tools and no modification to your motorcycle

PART #	DESCRIPTION
3508-0015	For 96-98 FLHT w/ 10 cm (4") and taller windshield

KURYAKYN

FAIRING BAG

- Keep the small essential items at your fingertips with this structurally formed fairing bag that hugs the contours of the Batwing fairing and windscreen
- Specifically designed for maximum storage
- Premium formed vinyl construction retains its shape and is UV-tested
- Heavy-duty magnetic closures ensure secure storage and easy access
- Internal zippered storage in the main compartment for added convenience securing loose items
- Clean lines and a compact design to maximize storage for cell phones, wallets, sunglasses and more

PART #	DESCRIPTION
3508-0055	For 96-98 FLHT models

WILLIE & MAX

DUAL POUCH WINDSHIELD BAG

- Designed to fit a 89 mm (3 1/2") or taller fairing windshield
- Easy to install by loosening the screws that hold the windshield between the inner and outer fairing
- The windshield bag is supported by a plastic back with alignment notches designed to fit around the windshield retaining screws
- Hook-and-loop closure with an electronics port integrated into the bag
- Constructed out of durable synthetic leather
- 54 cm L x 57 mm W x 16,5 cm (21 1/4" L x 2 1/4" W x 6 1/2" H)

PART #	DESCRIPTION
3508-0027	For 96-98 FLHT

TOUR-PAK® LID ORGANIZER

- Trim, functional organizer fits snugly to the inner lid of a classic 93-98 Harley-Davidson Tour-Pak
- Organize your trip packing and maximize your cargo space using the organizer's nine separate storage pockets
- A variety of elastic bands keep your flashlight, tire gauge and other gear in place, but easily accessible
- Easily installs to the lid by attaching to the rack fasteners or with the included self-adhesive hook-and-loop fastener tape strips
- Installation can be completed in minutes with no modification to your motorcycle
- Removes in seconds so you can use the convenient carrying handle to take your belongings into the hotel or your home at the ride's end
- Rugged construction will last a lifetime with its 600D and 150D polyester materials
- Measures 51,5 cm x 35,5 cm x 25 mm (20¼" x 14" x 1")

PART #	DESCRIPTION
3516-0123	For 93-98 FLHT/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak®

TOUR-PAK® LUGGAGE BAG

- Handsome and rugged luggage bag is designed to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's other bagger accessories
- Multiple storage and organizer sections with a full-side main compartment opening so you have easy access to your stuff even when the luggage bag is in the Tour-Pak
- Special shape accommodates Tour-Pak with molded liners, light housings and radio antennas
- Sturdy grip handle for convenient carrying – included shoulder strap allows you to carry with ease
- Fully lined with full-circumference, sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift your luggage bag out of the Tour-Pak to move your cargo easily into the hotel, campground or to unload fast once you're home
- Measures 57 cm x 19 cm x 38 cm (22½" x 7½" x 15")

SADDLEMEN PERFORMANCE OUTFITTER

SADDLEBAG PACKING CUBE LINER SET

- Four-piece liner set includes one full-size liner bag matched perfectly to the shape of FLD-style hard saddlebag plus one vertically oriented half-size liner used in conjunction with two quarter-sized horizontally oriented liner bags that stack neatly together in your other saddlebag
- Unique design permits efficient organization of your belongings – separate your laundry or keep rider and passenger gear divided while maximizing the capacity of your saddlebags
- Top sections of the quarter-sized liner bags are transparent with double-pull zippers so you can see the contents and get to them quickly – perfect for items you need to grab when you're on the road
- Made from light, but durable PVC-lined 150D polyester with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters, organizing your tools or cleaning supplies; simply lift your liners out of the saddlebags to move your cargo easily into the hotel, campground or to unload fast once home
- Complete set measurements: large liner measures 40,5 cm x 13,5 cm x 24 cm (16" x 5 1/4" x 9 1/2"), medium liner measures 19 cm x 14 cm x 26,5 cm (7 1/2" x 5 1/2" x 10 1/2"), smaller liner measures 19 cm x 14 cm x 11,5 cm (7 1/2" x 5 1/2" x 4 1/2")

DRAG Specialties seats

SADDLEBAG LINERS

- No need for saddlebag organizers; liners feature three storage compartments on top with zipper closures
- Constructed of heavyweight polyester fabric with a PVC internal coating
- Center compartment is made of a see-through mesh for locating items quickly
- Zippers on the outer compartments wrap around two sides for easy access
- The zipper on the main liners wraps around three sides; the lid will "flip up" creating an open access for EZ loading and locating items
- Each liner has two handles that can be joined together with hook-and-loop material for easy carrying
- Sold in pairs

KURYAKYN

PET PALACE TITAN

- Perfect for the passenger seat of most touring motorcycles, ATVs, UTVs or automobiles, and it comes loaded with creature comforts to keep pets weighing up to 16 kg (35 lbs.) pampered in the wind
- Made from durable UV-rated, weather-resistant 1200-denier textile material
- Rigid internal support structure for safety, durability and longevity
- Front zippered opening folds down completely for easy pup loading/unloading on the bike, or halfway to allow maximum airflow for pets
- Internal adjustable leash system keeps dog/pet secure while in the bag
- Metal D-rings and a variety of adjustable straps offer safe and secure mounting
- Large integrated top vent with zippered mesh sun shade provides airflow and reduces heat without jeopardizing stability
- All-new light gray interior reduces heat and improves interior visibility in low light
- Includes collapsible travel bowl for food/water
- Two integrated external rider-facing bottle pockets
- Multiple MOLLE modular attachment points for pet supplies, tools or our Removable Backrest Pad (PART #0822-0362, sold separately)
- Dimensions: 56 cm W x 30,5 cm D x 47 cm T (22" x 12" x 18,5")
- 78 liter internal capacity (4752 cubic inches); 16 kg (35 lbs.) recommended weight capacity

PART #	DESCRIPTION
3515-0224	Pet Palace Titan

GRAND PET PALACE

- Updated styling and amenities: 40% more ventilation and 20% more internal space
- UV-rated weather-resistant 1200 denier textile material with removable rain cover
- New sissy bar strap, multiple D-rings and adjustable straps for easy, secure mounting options
- New easy-clean removable foam cushion provides a comfortable ride
- Pet amenities include internal adjustable leash, two dishes and removable stash pouch
- New side-mount handles and removable carry strap for easy portability
- Redesigned bottle pocket with MOLLE modular attachment points
- Internal frame and rigid bottom provide support
- Top window opens so your pet can pop its head out
- Four mesh windows for viewing and optimal ventilation
- Dimensions: 47 cm W x 33 cm D x 35,5 cm T (18,5" x 13" x 14")
- 44,3 liter internal capacity (2700 cubic inches); 9,1 kg (20 lb) recommended weight capacity

NOTE: For sanitary reasons we will not accept returns on Grand Pet Palace.

ADJUSTABLE SISSY BAR MOUNTING SYSTEM

- Fully adjustable sissy bar mounting system goes on in seconds over any size and style sissy bar pad; once adjusted for your size pad, you never need to adjust it again
- This mounting system is available on the following bags: BR1800EX/S, BR3400EX/S, BR1800, BR3400, BR3400 tactical, BR4200, EX2200, EX2200S, FTB1000/FTB1500, FTB2500/FTB3600, S2200E, SDP2500D, SDP2500DS, S2600, SDP2600, S3200DE, S3500 and S3500S

3515-0141

FTB2500/FTB3600 SPORT SISSY BAR AND COMBO BAGS

- A sharp collection of motorcycle luggage from Saddlemen; the FTB line features a bold, yet sporty look with an array of vital features bundled with superb construction and class-leading value pricing
- Sissy bar bag mounting is simple and quick, using Saddlemen's adjustable backrest sleeve that conforms to the width of your sissy bar or pad, and its shape or taper
- The four hold-down straps included with each bag ensure secure mounting
- FTB2500 and FTB3600 have the same knife-sharp styling and organizing features as the smaller bags, but with more capacity
- Mid-size side compartments easily hold extra cargo
- Each bag includes a specialized top storage bag that clips on and off in seconds
- Equipped with the same highly functional gull-wing style access flaps as our Sport Trunk and Rack Bag, these top bags expand your cargo capacity by a huge margin
- If the weather gets wet, use the supplied high-visibility, light-reflective rain cover to protect the bag and its contents
- FTB2500 dimensions: Main bag measures 35,5 cm W x 28 cm H x 24 cm D (14" x 11" x 9 1/2") excluding pockets; 47 cm W x 28 cm H x 24 cm D (18 1/2" x 11" x 9 1/2") including pockets; top bag measures 45,5 cm W x 20,5 cm H x 20,5 cm D (18" x 8" x 8"); capacity 9,1 kg (20 lb)

- Remove saddlebags easily by releasing two QTL (Quarter Turn Locking) pins found inside each bag
- Lockable, quick-release hidden buckles under each strap are easy to use; protect contents and prevent unauthorized removal of bags from bike
- Include a chromed metal support that fits behind each bag for extra strength and security (also easily removed when bags are not to be used for an extended period)
- Inner stiffeners and rigid back maintain bag shape, even when empty
- This Drifter styled bag features smooth, clean and uncluttered aesthetics with three leather straps and buckles
- All necessary hardware, including turn signal relocators if needed, and instructions are included
- Made of water-resistant materials; clean easily with a damp cloth, or for best results use Saddlemen's saddlebag cleaner and conditioner, available separately
- Custom-designed to fit exact models; bolt directly to motorcycle using saddlebag quick-disconnect mounting system

NOTE: Turn signal relocation required on some Harley applications; universal relocation kit included as required.

NOTE: Matching seats available; see SEATS & SISSY BARS section.

PART #	DESCRIPTION
3501-0232	For 96-98 Dyna Glide; 45,5 cm L x 18 cm W x 33 cm H (18" x 7" x 13")

RIGID-MOUNT SPECIFIC FIT TEARDROP SADDLEBAGS

- Pre-fitted and sized correctly for rigid mounting to specific bikes
- Streamlined shape allows stock turn signal locations to be used; turn signal relocator bracket included for harder-to-fit bikes
- Drifter style features smooth, clean and uncluttered styling with straps and buckles
- Measurements: 52 cm L X 18 cm W X 30,5 cm H (20 1/2" X 7" X 12")
- All hardware and chrome saddlebag supports included for rigid mounting; can upgrade to Saddlemen S4 Quick Disconnect Docking Post Kit (sold separately; see page 114)

PART #	DESCRIPTION
3501-0463	For 96-98 Dyna Glide

SADDLEMEN™
PERFORMANCE OUTFITTER

SADDLEMEN EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle.

Custom fit

Throw-over

Throw-over

The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets are strongly recommended (sold separately).

Zip-off yoke

Shock Cutaway

CRUIS'N™ SADDLEBAGS WITH SHOCK CUTAWAY

- Contoured backside allows fitment directly over most shock absorbers, allowing saddlebag options on bikes that were previously limited due to shock and turn signal placement
- Smooth, clean-styled saddlebags feature easy-open lid with supplemental hook-and-loop and rigid construction
- Install using zippered yoke for over-the-fender mounting, or hard-mount bags using saddlebag supports (sold separately)
- Zip-off yoke mounting allows bag to be disconnected without removing the yoke
- S4 saddlebag support brackets recommended (sold separately, see page 114)
- Measure 49 cm L x 17 cm W x 30,5 cm H (19 1/4" x 6 3/4" x 12")

PART #	DESCRIPTION
3501-0575	Cruis'n saddlebags w/ shock cutaway

3501-0718

CRUIS'N™ DELUXE SADDLEBAGS

- Distinctively-styled saddlebags look great on any style motorcycle, with a layered lid and spacious zippered side pouches that flow together to create truly handsome luggage
- Rugged SaddleHyde™ construction bags with strong internal reinforcement to hold their shape, with lids that pivot forward when opening to provide excellent cargo access
- Contents stay clean and dry with zippered openings covered by weather flaps fitted with 1/4-turn hasps that accept mini padlocks for security
- Detachable and fully adjustable yoke system allows easy installation and combines perfectly with Saddlemen's saddlebag supports
- You can add a Saddlemen quick-release kit with supports to change from a throw-over saddlebag set to a rigidly mounted set that can be removed from your bike in seconds
- Include installation instructions plus all yoke attachment and adjustment hardware
- Throw-Over style fits most motorcycles
- Also available with a pair of chrome universal saddlebag supports
- Measure 51,5 cm L x 23 cm W x 32,5 cm H (20 1/4" x 9" x 12 3/4")

PART #	DESCRIPTION

Biltwell Inc. "QUALITY COUNTS"

EXFIL-11 TANK BAG

- Biltwell's answer to the ubiquitous motorcycle tank bag
- Padded main compartment holds up to 11 355 ml (12 ounce) cans
- Attaches with magnets that are strong enough to hold the bag in any condition and at high speeds, regardless of if the bag was loaded or empty
- Multiple attachment points if you'd like to use your own "dummy cord" or otherwise strap it to the bike
- Front dimensions: 15 cm (6") tall x 28 cm (11") long x 23 cm (9")
- Rear dimensions: 10 cm (4") tall x 18 cm (7") wide

WARNING: Friction between the bag and the gas tank can cause paint scuffing. It is recommended to keep both the bag and tank clean from debris to minimize risk of damage.

PART #	DESCRIPTION
3515-0188	Exfil-11 tank bag

EXFIL-2 MINI TANK BAG

- Compact size preserves your bike's aesthetic but has enough room to hold all the essentials
- UV-treated 1680D denier ballistic nylon exterior
- High-powered magnets attach the bag securely to metal tanks
- Lid features fleece-lined phone slot with touch-friendly clear panel for smart phone operation
- Hi-vis orange nylon interior makes spotting contents easier
- Hidden seam in front for routing charging cables
- Attached carrying handle for easy portage
- Main compartment holds two 355 ml (12 ounce) cans
- Front dimensions: 20,3 cm (8") long x 14 cm (5.5") wide x 10,2 cm (4") tall

- Rear dimensions: 11.43 cm (4.5") wide x 5 cm (2") tall

WARNING: Friction between the bag and the gas tank can cause paint scuffing. It is recommended to keep both the bag and tank clean from debris to minimize risk of damage.

LOW PROFILE TOURING SEATS WITH EZ GLIDE II™ BACKREST OPTIONS

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); patented process reduces surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- 5 mm (3/16") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- Improved shape with molded flexible urethane foam interior for added comfort
- The driver area is cut narrow in the front to help eliminate pressure on the inner thighs
- Seat has the EZ Glide II backrest mounting system for driver only and accepts backrest pad assemblies (sold separately)
- Includes all mounting hardware

PART #	DESCRIPTION
FOR 97-98 FLHR MODELS	
81 CM L OVERALL (40,5 CM L X 34,5 CM W FRONT) (30,5 CM L X 28 CM W REAR) (32" L OVERALL (16" L X 13 1/2" W FRONT) (12" L X 11" W REAR))

KNUCKLE SOLO SEAT

- Audacious new custom seat family from Saddlemen, with a brash refinement that instantly transforms your bike
- Deep, aggressive ribs are carefully stitched into the brushed SaddleHyde™ weather-resistant cover while hand-crafted progressive density foam and GelCore™ foundations serve up comfort not normally present in a low-profile seat
- Strong fiberglass pans with plated hardware ensure a perfect fit for a trouble-free install

NOTE: See page 187 for matching Saddlemen Knuckle detachable pillion pads.

PART #	DESCRIPTION
0803-0523	For 96-98 FXD models (Except FXDWG)

DOMINATOR SOLO SEAT

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and modern style
- Saddlemen's Gel Channel (GC) technology has a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle longer
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, this GC-style seat offers the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install

SADDLEMEN PERFORMANCE OUTFITTER

MATCHING SEATS AND TAIL SECTIONS

SEATS

- Designed to mount seamlessly with matching tail section
- Carbon fiber or lattice stitch (LS) seat options available
- LS seats infuse old-school lattice stitch retro styling with a modern twist
- Carbon fiber seat features that legendary carbon fiber look while providing comfort and stability
- Seat fastens to the tail section using integrated DZUS® fittings
- Seat base is durable marine-grade fiberglass construction

TAIL SECTIONS

- Taillights, license plate and turn signals require relocating
- Installing tail section will require the removal of the seat, fender and fender struts
- Weldable steel frame mounting hoop creates a solid foundation for the tail section
- Black gel-coat finish, ready to prep, prime and paint
- DZUS® seat fasteners cleanly mount the seat for a pro-built look

NOTE: Seats and tail sections sold separately.

EZ GLIDE II™ BACKRESTS

- Features solar-reflective leather on contact area (unless noted); pouch and pad sides are high-quality automotive-grade vinyl
- Driver and passenger backrest capabilities
- Fits in seats' internal EZ Glide II system that features no metal-to-metal contact with the backrest detent bars; bars are securely suspended in place using synthetic composites that virtually eliminate corrosion and wear
- Features a detent bar with multiple detents on lower portion for adjustability up and down within the seat
- Chrome-plated hardware that allows up to 2" of forward-rearward adjustment

THE CONVERTIBLE EZ GLIDE II™ BACKREST WITH BUILT-IN RAIN COVER

- Features solar-reflective leather on contact area; pouch and pad sides are high-quality automotive-grade vinyl
- "The Convertible" EZ Glide II backrest includes a built-in rain cover that pulls out of the pouch on the backside of the pad and covers the entire seat

- Rain cover is secured in the pouch by two snaps and can be removed for cleaning or to use the oversized pouch for additional storage
- Rain-resistant black cover is 600 x 600 denier polyester fabric with a urethane coating and WRMR (water-resistant, mildew-resistant) finish
- All exposed hardware is polished with a chrome finish; internal base is 14 gauge steel
- Pad pivots to the angle of your back and adjusts fore and aft up to 2"

PART #	DESCRIPTION
EZ GLIDE II™ WITHOUT RAIN COVER	
0822-0133	Small, smooth backrest (w/o pouch, w/o rain cover) (23 cm W x 12,5 cm H) (9" W x 5" H)
0822-0154	Large, smooth backrest (w/ pouch, w/o rain cover) (25,5 cm W x 19 cm H) (10" W x 7 1/2" H)
0822-0537[1, 2]	EZ Glide II™ small, smooth backrest (w/o pouch, w/o rain cover) (23 cm W x 14 cm H) (9" W x 5 1/2" H)
CONVERTIBLE EZ GLIDE II™ WITH RAIN COVER	
0822-0460	Large, smooth backrest (w/ pouch and rain cover) (25,5 cm W x 19 cm H) (10" x 7 1/2")

[1] Not solar-reflective leather.
[2] Made of high-quality automotive grade vinyl.

DRIVER BACKREST KIT FOR OEM DRESSER/TOURING SEATS

- Specially designed to work with 88-98 Dresser/ Touring models with OEM slotted one-piece seat
- EZ Glide receiver mechanism allows you to easily mount your choice of pad assembly (receiver mechanism and pads sold separately)
- Pad assembly includes high-quality polished and chrome-plated 184 mm (short) or 248 mm (tall) (7,25" or 9,75") detent bar with a design that provides 51 mm (2") of fore and aft adjustment
- All pads fold forward for ease of getting on and off bike
- Pad assembly options include a vinyl pillow-style to match tall pillow-style seats and solar-reflective leather styles that match both lower-profile and tall seats; solar-reflective reduces surface temperature by as much as 14 °C (25 °F) for a cooler contact, higher durability and longer life over conventional leather or vinyl

- All large pad assemblies also include a pouch
- Receiver mechanism includes all mounting hardware

NOTE: Short bar is Road King and Road Glide-style low-profile OEM seats. Tall bar is for H-D Ultra-style tall-profile seats and Drag Specialties large touring seats.

SADDLEMEN
PERFORMANCE OUTFITTER

GEL CORE TECHNOLOGY

TECH MEMORY FOAM GEL PADS

- Viscoelastic GelCore™ pads for the ultimate in strap-on seat pad comfort
- 3D-molded process conforms quickly and comfortably to rider's anatomy, while the GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Includes exclusive air canals for increased cooling and breathability
- Center ergo channel eliminates pressure to prevent numbness and discomfort
- Comfort foam breathable top layer maximizes GelCore efficiency
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom

PART #	DESCRIPTION
0810-0522	Medium; 24 cm L x 20,5 cm rear width x 15 cm front width (9,5" x 8" x 6")
0810-0521	Large; 26,5 cm L x 35,5 cm rear width x 20,5 cm front width (10,5" x 14" x 8")
0810-0520	Extra large; 32 cm L x 39,5 cm rear width x 21,5 cm front width (12,5" x 15,5" x 8,5")

GEL CORE TECHNOLOGY

3D-MOLDED GEL PAD

- 3D-molded surface for additional comfort and air channel cooling
- GelCore™ evenly distributes weight to absorb and relieve hip and tailbone pressure
- Features Gel Channel™ technology that increases blood flow and keeps the rider in the saddle longer
- Fits many larger cruisers and most touring bikes, including Harley-Davidson® Baggers, as well as larger adventure bikes

PART #	DESCRIPTION
0810-2072	3D-molded gel pad

GEL CORE TECHNOLOGY

GELCORE™ GEL SEAT PADS

- Viscoelastic GelCore pads add riding comfort to any seat on any model
- Pads can be separately heated or cooled for added comfort, depending upon temperature conditions
- Two cover choices: synthetic sheepskin cover softens your ride, prevents heat buildup and perspiration; or choose original soft-stretch cover
- Quick-disconnect harness system mounts onto or over the seat and remains in place when pad is removed (instructions included), or use the optional side-seat hooks
- Raw gel pads also available for custom installation inside an existing saddle
- Four sizes available to fit any seat

AIRHAWK™ 2 COMFORT SEATING SYSTEM

AIRHAWK 2 SEAT PADS

- Unique inflatable, multiple-cell design for the ultimate in comfortable seating and vibration absorption
- Made from polyurethane and features a breathable, stretchable outer cover and a nonskid urethane base to protect your seat
- Features open-mesh side panel to allow air circulation through individual air cells, creating extra ventilation to reduce heat buildup
- Shape Fitting Technology eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride
- Automatically adjusts to the shape of the rider
- Raises ride-height only slightly
- Securely fastens via double strap system running under seat or pillion
- Will not scratch or disfigure existing seat or pillion
- Valve for inflation, adjustment and deflation

PART #	DESCRIPTION
0807-0095	Medium; 35,5 cm L x 35,5 cm W (14" x 14")
0807-0096	Small; 45,5 cm L x 30,5 cm W (18" x 12")

PART #	DESCRIPTION
0807-0097	Small pillion; 28 cm L x 23 cm W (11" x 9")

AIRHAWK™ COMFORT SEATING SYSTEM

AIRHAWK R SEAT PADS

- Center cut-out area runs from the front to the back of the cushion, creating strategic points of no contact
- Back cutaway allows for tailbone and prostate relief and has a tapered transition for increased comfort
- Redesigned cell geometry improves airflow under the rider to keep pad and rider cool
- Includes a nonskid cover and straps for securing it to the bike's seat
- Cover is constructed from a breathable space mesh with red vinyl accents
- Automatically adjusts to the shape of the rider

DETACHABLE PILLIONS

- One of the most comfortable, lowest profile and best looking pillions on the market
- The unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- The rugged but compliant cover works to keep riders and passengers comfortable for long stretches of highway time
- Each pad attaches easily and securely with its limited-lifetime warranted, unique dry-installation, dual-cavity suction cup and can be removed just as easily using the built-in quick-release pull tab
- Non-abrasive liner ensures your expensive rear fender paint job is protected during attachment or removal
- 15 cm (6") pads measure 44 mm H x 15 cm W x 25,5 cm L (1 3/4" x 6" x 10")
- 18 cm (7") pads measure 44 mm H x 18 cm W x 25,5 cm L (1 3/4" x 7" x 10")
- 23 cm (9") Contoured pads measure 44 mm H x 23 cm W x 25,5 cm L (1 3/4" x 9" x 10")
- Dominator combines leading-edge styling with comfort enhancing Gel Channel™ technology for a truly unique seat that looks and feels great
- Knuckle is engineered to brashly transform your bike with its deep, aggressive ribs that are carefully stitched into element-resistant distressed SaddleHyde cover
- Lariat is covered in genuine distressed brown leather; it's as close to having a true western horse saddle as you can get
- Renegade LS is the finest, most comfortable low profile removable passenger pad in the world; available in black, brown or black with studs
- The S3's fit and finish matches its street-smart looks with two cover options to choose from: standard SaddleHyde and element-resistant distressed SaddleHyde cover

NOTE: Not for passenger use; for cosmetic use only.

NOTE: Pads should be installed dry; do not wet either fender or suction cups during installation.

NOTE: Not for use in hot, wet or rough conditions.

All part numbers in BLUE are new for the OldBook.

HINGED MOUNTING BRACKET

- Heavy-duty steel construction
- Black finish

PART #	DESCRIPTION
0820-0080	For Drag Specialties spring solo seats or custom applications

SOLO SEAT MOUNTING BRACKET

- Chromed bracket for Harley® rigid frame Big Twin models

PART #	DESCRIPTION
DS-902016	For 57-78 XL (except XLCR)

UNIVERSAL SEAT HINGE BRACKETS

- Chromed brackets permit seat to flip over gas tank for easy access to engine components
- Fits most custom rigid Shovelhead applications
- Sold individually

PART #	DESCRIPTION
DS-902012	Round end
DS-902013	Square end

SEAT MOUNTING BRACKET

- Lets you convert any FXR model's hinged seat to a one-piece seat that does not hinge (same as the FXR Super Glide models)
- A beautiful reproduction of the OEM bracket found on Super Glide models
- Can also be used on Softail and various XL models for custom seat mounting

PART #	DESCRIPTION
DS-490017	Tank/front seat bracket for FXR Super Glide (ea.); repl. OEM #52107-86

SEAT REAR MOUNTING BRACKET

- Bracket can be used with new- and old-style fender nuts
- Can be used on all motorcycles with the mount-nut and E-clip-style (OEM #59768-97 and PART #DS-490045) on 97 and later H-D models
- Comes with a plastic step washer that reduces the hole to a 6,4 mm (1/4") ID for early models with factory weld-in fender nuts
- Bracket replaces OEM #s 51651-79 early and 51652-83B later style
- Includes all mounting hardware

PART #	DESCRIPTION
0820-0027	Seat rear mount bracket

REAR SEAT BRACKETS WITH RETAINED SCREW

- Chrome-plated steel bracket features a retained mounting screw that stays attached with the bracket
- Mounting screw has a knurled edge for finger tightening and a hex socket for wrench tightening
- Brackets measure 10 cm L (4") by 25 mm W (1") with 19,1 mm L x 6,4 mm W (3/4" x 1/4") slots
- Sold each

PART #	DESCRIPTION
0820-0109	Bracket w/ 1/4"-28 screw
0820-0110	Bracket w/ 1/4"-20 screw

SEAT HINGE

- Stainless steel solo seat hinge
- Includes steel weld-on tab

PART #	DESCRIPTION
0820-0043	Solo seat hinge w/ weld-on tab

CAST STAINLESS STEEL SEAT HINGE

- Investment-cast stainless steel seat hinge is rugged and beautiful
- Raw cast chromoly bung welds to the backbone of the bike's frame to create a hinge for mounting solo seats on custom choppers
- Stainless steel seat bracket bolts securely to the weld-on bung with a recessed shoulder bolt to form a hinge on finished assembly
- Hand-polished finish

PART #	DESCRIPTION
0820-0046	Cast stainless steel solo seat hinge

MACHO SEAT HINGE

- Cast chromoly hinge head
- Laser-cut 4130 chromoly steel strap
- Seat bracket is black electroplated finish for durability
- Pivot bracket is raw steel and features bronze pivot bushings
- Retrofits to both the original welded and newer cast hinge bung so upgrades are easy
- Chrome shoulder bolt

PART #	DESCRIPTION
0820-0045	Steel solo seat hinge

CHROME SEAT HINGE REPLACEMENT BOLT

- Replacement shoulder bolt for Biltwell seat hinges is chrome-plated for added protection against the elements, and a more finished, less industrial look
- Mates to all Macho and cast stainless steel Biltwell seat hinges

PART #	DESCRIPTION
0820-0086	Repl. seat hinge bolt

All part numbers in BLUE are new for the OldBook.

LA Choppers

SOLO SEAT SPRING KIT

- Solid steel construction for rugged looks and years of performance
- Welds or bolts to the frame and seat pan
- Stout springs prevent bottoming and provide a smoother ride

0822-0447	Double diamond, silver stitch
0822-0448	Double diamond, red stitch

[1] Has 25 mm (1") lighter density foam for added comfort.

All part numbers in BLUE are new for the OldBook.

OVAL BACKREST PADS

- PART #0822-0118 features solar-reflective leather on face of pad so pad stays cool even in direct sunlight, and automotive-quality vinyl on sides and back; matches Drag Specialties seats
- PART #0822-0431 features automotive-grade vinyl construction; matches OEM seats
- Measure 19 cm tall x 25,5 cm wide (7 1/2" tall x 10" wide)
- Includes all mounting hardware

NOTE: Pads mount with OEM hardware.

NOTE: The short bar and pad may not work with the OEM tall passenger pillion seats.

PART #	DESCRIPTION
FOR H-D DETACHABLE SISSY BARS ON 97-98 FLHR/FLHT/ FLTR MODELS (EXCEPT AIR WING SISSY BAR)	
0822-0118	Smooth, solar-reflective leather

PART #	DESCRIPTION
FOR H-D DETACHABLE SISSY BARS ON 97-98 FLHR/FLHT/ FLTR MODELS (EXCEPT AIR WING SISSY BAR) (CONT)	
0822-0431	Smooth, vinyl

SISSY BAR PAD

- Complements Le Pera's seats perfectly
- Top-grade smooth black vinyl covering
- Base plate is powdercoated steel
- Pad measures 14 cm W x 20,5 cm H (5 1/2" x 8")

PART #	DESCRIPTION
DS-265452	Sissy bar pad

BRACKET-STYLE SISSY BAR PADS

- Pads fit all Harley-Davidson® and aftermarket bars with welded insert plates or with no center insert
- 23 cm (9") pads have an additional threaded center hole for custom mounting
- Premium expanded vinyl construction
- Studded or Vintage styles

NOTE: Does not fit touring model sissy bars or bars with die-cast, bolt-in inserts.

PART #	DESCRIPTION
STUDDED WITH CONCHOS PADS	
DS-265511	24 cm W x 23 cm H (9,5" x 9")
0807-0009	30,5 cm W x 23 cm H (12" x 9")
DS-265510	16,5 cm W x 28 cm H (6,5" x 11")

PART #	DESCRIPTION
VINTAGE PADS	
0822-0044	19 cm W x 23 cm H (7,5" x 9")
0807-0012	24 cm W x 23 cm H (9,5" x 9")

STUDDED SETBACK SISSY BAR PAD

- Setback design gives 25,4 mm (1") more room for passenger with same back support and comfort as standard pad
- Recessed to lock right around the OEM medallion-style sissy bar
- Premium expanded vinyl construction
- No lower bracket required
- Secures with one center screw
- Each measures 19 cm W x 23 cm H (7,5" x 9")

PART #	DESCRIPTION
FOR H-D MEDALLION-STYLE BARS ONLY	
0822-0108	Studded style

PASSENGER PADS WITH ARMRESTS

- Original-style wraparound backrests with armrests that are 51 mm (2") longer than OEM-match Mustang or later-model stock seats
- Covering made of highest quality expanded vinyl
- Complete kit includes rubber mounts to fit models with King Tour Paks

NOTE: Requires some drilling.

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT W/ KING TOUR-PAKS	
0822-0106	Smooth style w/ no studs

FOR DRESSER/TOURING
2-INTO-1

LONG ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped, 1 3/4" to 1 7/8", equal-length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding
- Tapered, megaphone-style 4 1/8" muffler body or 4" straight can muffler body; systems mount off of traditional saddlebag location
- O_2 ports with sensors, adapters, and plugs included
- Include removable baffle and end cap

PART #	DESCRIPTION
FOR 95-98 FLT/FLHT/FLHR/FLTR	
1800-2173	Long, 4 1/8" megaphone
1800-2174	Long, 4" straight can

ROAD RAGE II 2-INTO-1 WITH HOT ROD TURNOUT MUFFLER SYSTEMS

- Stepped headers merge into a 3 1/2" short straight muffler body with Hod Rod turnout end cap
- 1 3/4" headpipe steps up to 1 7/8" into the collector to increase flow and improve performance
- Removable spiral-core louvered baffle included
- Hand MIG welding
- 18 mm and 12 mm O_2 ports with adapters and plugs
- Includes mounting hardware
- Full heat shields included

PART #	DESCRIPTION
FOR 95-98 FLHT/FLHR/FLHX/FLTR MODELS	
1800-2535	Chrome
1800-2536	Black

FOR DRESSER/TOURING TRUE-DUALS

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES

- True-Dual crossover header pipes perform as good as they look
- Feature proper port angle and matched-length rear headpipe design that produces even performance from each cylinder
- Offer improved low-end torque and appearance
- Fabricated from 16-gauge steel, finished in chrome and supplied with three custom-fit heat shields
- Can be used with Bassani mufflers or most 96-16 OEM-style aftermarket mufflers (mufflers sold separately)

PART #	DESCRIPTION
1802-0125	For 95-98 FLT/FLHT/FLHR/FLTR

BAGGER TRUE DUAL HEADER PIPES

- Made of 16-gauge steel and finished with show-quality chrome
- Supplied with three custom-fit heat shields
- Right-side pipe follows same clean lines as frame
- Can be used with Bassani mufflers or most 95-16 OEM-style aftermarket mufflers (sold separately)
- O_2 sensor port plugs included
- Mounting instructions and hardware included

PART #	DESCRIPTION
1802-0132	For 95-98 FLT/FLHT/FLHR/FLTR

POWER TUNE DUAL HEADER SYSTEM

- Independent dual-look with "under the bike" cross-over
- Hidden crossover passage between front and rear pipes for maximum performance
- Updated styling to give the motorcycle a more modern look
- Stainless steel construction for superior corrosion reisistance
- High-temperature Guardian Black finish full heat shields with 220° coverage
- Has 18 mm sensor ports and plugs
- Compatible with 95-16 style slip-on Dresser mufflers

PART #	DESCRIPTION
1802-0389	For 95-98 FLT/FLHT/FLHR/FLTR models

KHROME WERKS

2-INTO-2 DUAL HEADER SYSTEMS

- Reduces heat transmission to the rider and passenger by routing the exhaust under the frame instead of under the seat
- Lighter system that offers more flow and makes more top-end power than the factory system
- Feature 1 3/4" 16-gauge mandrel bent, interconnected headers and 220° full-coverage heat shields
- Front pipe crosses over to the left side and is securely mounted to the transmission oil pan
- Crossover pipe is formed from the 1 7/8" tubing for increased ground clearance and no cross-sectional area loss
- Hidden interconnect for maximum top-end horsepower, improved low-end torque and sound dampening
- Headers systems are available in a high-gloss chrome finish and full-coverage heat shields are finished in black Jet-Hot® high-performance coating with chrome-plated headers

1802-0121
w/ 1801-0414 mufflers

1802-0252

- PART #s 1802-0121 and 1802-0252 include two 18 mm O_2 sensor ports, plugs and all mounting hardware
- Header systems accept any 95-16 OEM-style Dresser mufflers (sold separately)
- O_2 sensor ports and plugs, gaskets and all mounting hardware included
- Use any Khrome Werks™ or other bagger muffler set

FOR DRESSER/TOURING MUFFLERS

POWR-FLO 4 1/2" SLIP-ON MUFFLERS

- 4,5" bodies tapers to 4-inch round at the front
- 4,5" machined aluminum, thin-line tips
- 3" cores for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid-frequencies, which helps to enhance the low-frequency tones
- Chrome finish
- Sold in pairs

PART #	DESCRIPTION
1801-0639	For 95-98 FLT/FLHT/FLHR/FLTR

4,5" RACE-PRO SLIP-ON MUFFLERS

- Bodies taper to 4" round at the front
- 4,5" machined aluminum thin line black tips are held in place with seven stainless steel, 12-point bolts
- Feature satin black laser-cut steel straps that tightly encircle the mufflers with built-in mounting straps
- 3" cores for superior performance
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low-frequency tones
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- Chrome finish

FOR SOFTAIL
2-INTO-2

SPEEDSTER LONG EXHAUST

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

PART #	DESCRIPTION
1800-1826	For all 86-99 FXST/FLST models

SPEEDSTER SLASHDOWN EXHAUST SYSTEM

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

1800-0087	For all 86-99 FXST/FLST models

1800-1378

1861-0534

SPEEDSTER SHORT SWEPT EXHAUST SYSTEM

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Swept system is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

BUILD YOUR OWN PIPE ("BYOP") 1 3/4" EXHAUST PIPE KIT

- Everything you need to fabricate a 1 3/4"-diameter custom exhaust system
- Kit includes two 24" straight pipes, two 15" 30° bend pipes, two 15" 45° bend pipes, two 15" 75° bend pipes, two 30" 160° bend pipes, two 3" sliders, six 1 5/8" OD sleeves and two 12" straight sections with two sleeves for ports; mounting brackets and flanges sold separately

PART #	DESCRIPTION
1802-0108	For Evolution Big Twin and Sportster engines

MUFFLER ADAPTER

- Allows the use of most 95-98 bagger mufflers with standard 1 3/4" inlet to be used with 2-in-1 H-D headpipe
- Includes the swedged pipe, heat shield and mounting hardware
- Heavy-duty 16-gauge steel
- Pipe is chrome, heat shield is polished and chrome-plated

PART #	DESCRIPTION
1802-0119	Muffler adapter

SHORT ROAD RAGE III STAINLESS 2-INTO-1 SYSTEM ACCESSORIES

1860-1998

1861-1581

1861-1653

- Optional Quiet Baffle and megaphone or slash-cut end caps available; sold each
- Slash-cut end caps can be rotated to change direction of the slash end

PART #	DESCRIPTION
1860-1998	Opt. quiet baffle
1861-1581	Opt. 4" Megaphone end cap
1861-1653	Opt. end cap for Bassani short Road Rage megaphone mufflers

EXHAUST END CAPS

1812-0162

- Polished end cap for SuperTrapp mufflers
- Allows you to open up your exhaust for straight-through flow by simply turning a screw
- Slight power gains when used on modified motors
- Sold each

PART #	DESCRIPTION
1812-0162	For 3" dia. SuperTrapp external disc systems
1812-0150	For 4" dia. SuperTrapp external disc systems

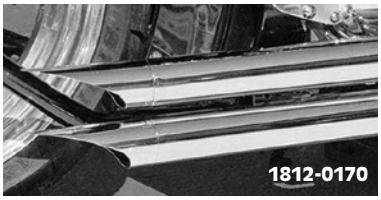

10-GAUGE EXHAUST TIP

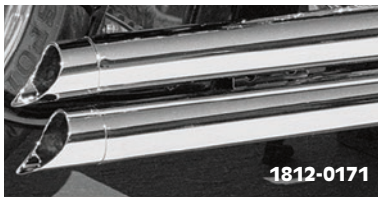

- Fits Vance and Hines 4,5" round mufflers
- CNC-machined from billet aluminum
- Black
- Sold each

PART #	DESCRIPTION
1802-0367	10-Gauge exhaust tip

FAMILY JEWEL EXHAUST TIPS

1812-0200

- Each tip can be rotated into almost limitless positions
- Tips are sold individually so you can mix and match them to create a unique look for your motorcycle
- Adaptable to almost any straight-cut, 2 1/4" exhaust tube, such as those offered by Baron, LA Choppers, Samson, D&D, Cobra, BUB and Hardkrome
- All tips come with a seamless mounting system for that smooth look
- Sold each

PART #	DESCRIPTION
1812-0170	Scalloped, chrome
1812-0171	Mini Scalloped, chrome
1812-0200	Mini Scalloped, black

REPLACEMENT COMPONENTS FOR VANCE & HINES EXHAUST SYSTEMS

V22533

1860-0547

- Replacement Allen cap screws for the "Supersport" and "SS2-R" exhaust systems
- Use these screws to reattach the can to the nose tip and end cap; sold as a set of 12
- Dog Bone includes two nut plates and four 5/16" -18 x 5/8" bolts
- Fits all Vance & Hines systems and slip-on mufflers that use the dog bone style attachment system

PART #	DESCRIPTION
V22533	Allen cap screw kit

PART #	DESCRIPTION
1860-0547	Dog Bone kit

EXHAUST DEALER SERVICE KIT FOR S&S EURO 4 MUFFLERS

- Everything needed to perform a required exhaust system service or end cap replacement
- Kit includes tamper-proof screws and S&S proprietary tamper-proof screw bit

KHROME WERKS

SOUND REDUCTION KIT

- Easy, bolt-in sound reduction for 3" HP-Plus® mufflers
- Takes off 4dB at idle and improves low-end torque – minimal loss of top-end horsepower
- The machined discs with tapered bosses fit into each end of the patented resonator near the exit end of the mufflers and are retained by the supplied bolts and nuts
- This kit is designed to use with three-ball style resonators that are 6,50" long
- Will also fit most other mufflers (four-ball style resonators) if 1/4"-20 x 11,00" threaded rods are substituted for the supplied bolts
- Installation requires removal of the mufflers
- Kit includes machined discs and two 7,50" 1/4"-20 bolts and two prevailing torque nuts

PART #	DESCRIPTION
1861-0806	Sound reduction kit

DRAG Specialties

MUFFLER CLAMPS FOR DRESSERS

- Chrome-plated clamps meet or exceed OEM specifications
- Sold in pairs

PART #	DESCRIPTION
DS-203018	For all L85-94 FLT models; repl. OEM #65722-85

DS-203205

DRAG Specialties

SUPER EXHAUST PORT CLAMPS

- Heavy-duty, chrome steel exhaust port clamps
- Sold in pairs

PART #	DESCRIPTION
DS-203210	For 48-65 Panhead
DS-203205	For XL

DRAG Specialties

MIDWAY EXHAUST MOUNTING KIT

- Relocates rear midway support clamp off rear pipe bend for improved mounting and appearance
- Chrome kit includes two 4,5 cm (1¾") pipe clamps (one each for the rear and the front) and one mounting hanger bracket
- Fits Drag Specialties and other exhaust pipes

PART #	DESCRIPTION
DS-209970	For 82-94, 99-00 FXR, 91-98 Dyna Glide

DRAG Specialties

MIDWAY DRAG PIPE CHROME MOUNT CLAMP

- Heavy-gauge steel construction
- Sold each

PART #	DESCRIPTION
DS-203017	1¾", FXR only

MUFFLER SUPPORT

- Heavy-duty, heli-arc constructed supports
- Chrome right side support is direct replacement for stock bracket

PART #	DESCRIPTION
DS-209923	For 58-84 FL/FLH models; repl. OEM #65318-58A

1861-1109

1861-1244

REAR EXHAUST PIPE BRACKETS

- High-quality replacement component
- Zinc-plated steel construction

PART #	DESCRIPTION
FOR 85-98 FLT/FLHT/FLHR/FLTR; REPL. OEM #65678-85D	
1861-1109	Chrome
1861-1244	Black

EXHAUST BRACKET TAB

- High-quality steel construction with a zinc-plated finish
- Used to attach the rear header pipe to the starter bracket exhaust mount
- Sold each

PART #	DESCRIPTION
1861-0998	For 98 FLHT/FLHR/FLTR models; repl. OEM #65619-98

DS-203060

DS-203070

EXHAUST HANGER BRACKETS

- Chromed 3,1 mm (1/8") thick steel exhaust hangers
- Sold each

PART #	LENGTH
DS-203060	76,2 mm (3") L
DS-203070	12 cm (4 3/4") L

DS-209933

DS-209940

REPLACEMENT MUFFLER SUPPORTS

- 1" OD steel tubing

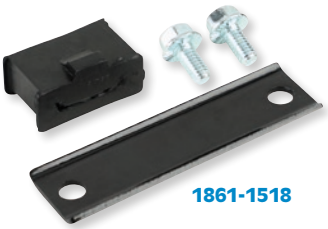

PART #	DESCRIPTION
FOR 95-99 FXST, FLST (EXCEPT FLSTF, FLSTN/FLSTS)	
DS-209933	Black; repl. OEM #65459-95
FOR 80-E84 XL	
DS-209940	Chrome; repl. OEM #65599-80A

FXR EXHAUST MOUNT FRONT BRACKET

- Front exhaust bracket
- Steel construction with a chrome finish
- Will work for custom frame application models

PART #	DESCRIPTION
1861-1208	For 82-94, 99-00 FXR; repl. OEM #65670-82B

1861-1518

1861-1517

EXHAUST SUPPORT KIT

- Kit includes bracket, rubber mount and bolts needed to support one side of the exhaust system

PART #	DESCRIPTION
FOR 85-98 FLT/FLHT/FLHR/FLTR MODELS	
1861-1518	Support kit; repl. OEM #s 65723-85, 65724-85 and 3929
1861-1517	Replacement bracket only; repl. OEM #65723-85

RUBBER MUFFLER MOUNTS

- High-quality replacement component
- Sold in pairs

PART #	DESCRIPTION
1861-0808	For 85-98 FLT/FLHT/FLHR/FLTR; repl. OEM #65724-85

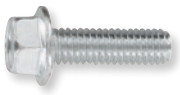

OPTIONAL LEFT PASSENGER PEG RELOCATION KIT

- Optional left passenger peg relocation kit for 86-99 Softail models matches left peg to right peg's position

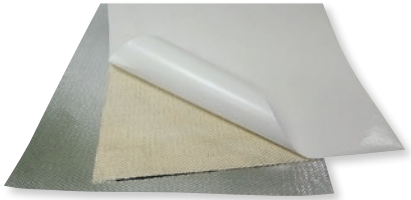

NOTE: Not for Softail models with Heritage-style saddlebags.

PART #	DESCRIPTION
1620-0509	For 86-99 FXST/FLST

All part numbers in BLUE are new for the OldBook.

MINI FLEX-BLANKET™

- Radiant and conductive heat shield
- Measures 12" x 40" and constructed woven fiberglass laminated to an aluminum reflective surface
- Ideal for use on areas that require reflective shielding
- Reflects 95% of infrared heat, and offers an efficient high-temperature barrier material with superior durability

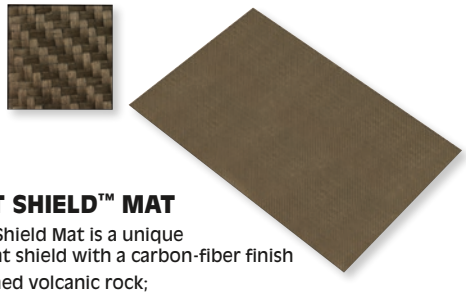

PART #	DESCRIPTION
0710-0236	Mini Flex-Blanket™ w/ adhesive

BLACK HEAT GUARD MAT

- Ideally suited for use on firewalls, under vehicles and exhaust paths
- Temperature resistance: 426 °C (800 °F) with ½" air gap

PART #	DESCRIPTION
1861-1412	10" x 10"

MATRIX HEAT SHIELD™ MAT

- The Matrix Heat Shield Mat is a unique self-adhesive heat shield with a carbon-fiber finish
- Made from crushed volcanic rock; 25% stronger than a typical fiberglass mat
- Weather and chemical resistant
- Measures 30,5 cm x 61 cm (12" x 24")

PART #	DESCRIPTION
1861-0816	Mat, 30,5 cm (12") x 61 cm (24")

MUFFLER PACKING

- Heavy-duty 649 °C (1200 °F) muffler packing
- Can be split in half to allow for double use

PART #	DESCRIPTION
1861-0696	28 cm x 40,5 cm x 25 mm (11" x 16" x 1") thick

1860-0198

UNIVERSAL CORE REPACK KITS

- High-grade fiberglass matting
- Kit PART #1860-0198 includes 9" x 16" fiberglass matting; enough material to repack two baffle cores
- Kit PART #1860-0510 includes two 14 1/2" x 12 1/2" x 1/2" thick fiberglass mats and two 14" x 8 1/2" woven thin mats

PART #	DESCRIPTION
1860-0198	Repack kit (9" x 16")
1860-0510	Repack kit (14 1/2" x 12 1/2" and 14" x 8 1/2")

V16106

FIBERGLASS REPACKING KITS

- Available in two sizes

PART #	DESCRIPTION
V16106	20" x 12 1/2" x 3/8"
V16108	13" x 9 1/2" x 3/8"

COMPETITION MUFFLER PACKING

- Made from crushed volcanic fiber
- Temperature resistance: 982 °C (1800 °F)

PART #	DESCRIPTION
1860-1822	11" x 16" x 1" thick

BAFFLE PACK

- Silencer repacking material
- Material is labeled and conforms to BSAU 193T2
- Pack contains 250 g of silencer wool

PART #	DESCRIPTION
1860-0436	Baffle pack

All part numbers in BLUE are new for the OldBook.

HEADER WRAP KIT

- Features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape helps lock in the heat and reduces the radiant heat by 50%
- Kit will wrap two motorcycle headers thoroughly
- Includes 2" x 25' roll of black wrap tape, two Vance & Hines Wrap Clamps and six locking stainless steel ties

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this Kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the headpipe, thereby raising the headpipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the headpipe material, and may ultimately lead to cracks in the headpipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

PART #	DESCRIPTION
1861-0622	Black exhaust wrap kit

WOVEN BASALT EXHAUST WRAP KITS

- Made of basalt lava rock material for extreme heat applications
- Temperature rating of 982 °C (1800 °F) continuous/ 1371 °C (2500 °F) intermittent
- Includes four 35,5 cm (14") ball bearing and barb-locking stainless steel ties; replacement ties also available (PART #1861-0670)
- Glossy bronze color

PART #	DESCRIPTION
1861-1111	25 mm W X 7,6 m L (1" W x 25' L)

1861-1112

PART #	DESCRIPTION
1861-1112	51 mm W X 7,6 m L (2" W x 25' L)

1861-0666

1861-0669

EXHAUST HEAT WRAP KITS

- Fiberglass cloth temperature rating of 693 °C (1200 °F) continuous/ 1093 °C (2000 °F) intermittent
- Perfect for wrapping pipes or mufflers
- Keeps the heat inside
- Includes four 35,5 cm (14") ball bearing and barb locking stainless steel ties; replacement ties sold separately (PART #1861-0670)

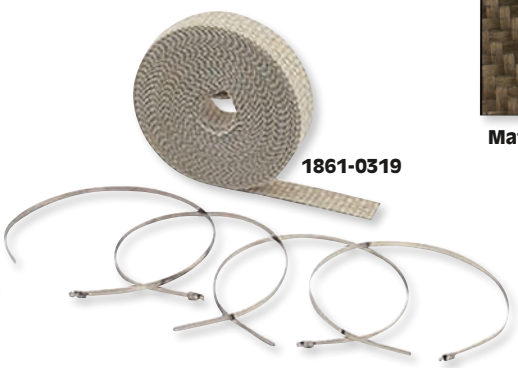

PART #	DESCRIPTION
1861-0666	25 mm W x 7,5 m L (1" x 25'), tan
1861-0667	25 mm W x 7,5 m L (1" x 25'), black

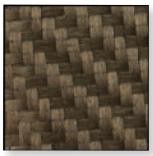

PART #	DESCRIPTION
1861-0668	51 mm W x 7,5 m L (2" x 25'), tan
1861-0669	51 mm W x 7,5 m L (2" x 25'), black

SUPER E AND G CARBURETOR KITS

- Carb kit includes a natural finish S&S Super E or Super G gas carburetor (unless noted) with updated fuel delivery pots and idle screw, S&S teardrop air cleaner assembly, manifold (unless noted), mounting hardware, fuel line, clamps, overflow line, one extra intermediate jet and two main jets, VOES tubing (when applicable), installation and jetting instructions
- Super E has a 1,875" throat at the butterfly and a 1,5625" venturi and is recommended for use on Big Twin or Sportster engines up to 100-cubic-inch
- Super G has a 2,0625" throat at the butterfly and a 1,75" venturi and is recommended for use on 90-cubic-inch and larger high-performance and modified engines
- Super G is not recommended for smaller, lower compression engines
- If there is a doubt as to which carburetor to use, we suggest the 1,875" Super E

NOTE: S&S Super E & G carburetors require the use of a two-cable, pull open/pull close throttle assembly; S&S kits are compatible with stock cables, except as noted.

KITS WITH MANIFOLD (CONT)		
For 57-78 XL (O-ring intake) (except models w/ magneto ignition)	**DS-0404**	-
KITS WITHOUT MANIFOLD		
For 93-99 Evolution Big Twin	**DS-0442**	-
For 84-92 Evolution Big Twin	**DS-0440**	-
For 36-84 Big Twin (w/ standard tank)	**1001-0045**	-

SUPER E AND G CARBURETORS

- Four fuel delivery ports for better fuel flow
- O-ring sealed idle mixture screw
- Increased airflow for more horsepower
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the OEM dual-cable throttle system for smooth, reliable operation
- Variable position enrichment starting system
- High-quality fit and finish
- Super E carburetors have 1 7/8" throat at the butterfly and a 1,5625" venturi; recommended for use on Big Twin or XL engines up to 100 cubic inches in displacement
- Super G carburetors have a 2 1/16" throat at the butterfly and a 1,75" venturi; recommended for use on high-performance and modified engines 90 cubic inches or larger in displacement
- Super G carburetors are not recommended for smaller-displacement, low-compression engines

1002-0025

1001-0044

- Big bore carburetors also available (see chart); feature a larger venturi for more airflow
- Sold each

FOR 55-99 BIG TWIN AND 57-85 XL

PART #	DESCRIPTION	BORE
SUPER E		
1002-0025	Natural finish	Standard
1002-0059	Black finish	Standard
1001-0043	Black finish	Big bore

PART #	DESCRIPTION	BORE
SUPER G		
1002-0026	Natural finish	Standard
1001-0044	Black finish	Big bore

All part numbers in **BLUE** are new for the OldBook.

42-18

45-2X

HSR42 AND HSR45 SMOOTHBORE CARBURETOR KITS

- Kits include the 42 mm/45 mm smoothbore carb in a natural finish
- Easier, faster installation using stock CV throttle cables
- Excellent throttle response and control; with more power, improved acceleration and better gas mileage
- Order fewer part numbers to cover more applications

42 MM/45 MM EASY KIT

- Accepts the original H-D intake manifold, choke cable, air cleaner and throttle cables
- Keeps the stock look of your bike
- Recommend the use of a high-flow air filter designed for the stock CV carb
- Well-made for years of dependable service
- See pages 260-261 for additional main and pilot jets
- Installation instructions and hardware included

NOTE: Kits are not for use on models with cruise controls.

42 MM/45 MM TOTAL KIT

- Includes performance intake manifold, rubber flange, 42 mm or 45 mm carb, high-flow K&N filter, air cleaner cover, breather kit and hardware
- 84-89 models require the use of 90-95 Big Twin-style cables

EASY KITS	
PART #	**DESCRIPTION**
42 MM	
42-18	For 90-99 Evolution Big Twin (not for use with stock air cleaner; requires a hi-perf air cleaner; use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)
42-7	For 90-99 Evolution Big Twin (includes chrome air cleaner cover)
45 MM	
1002-0030	For 90-99 Evolution Big Twin; requires use of Screamin' Eagle manifold (use stock air cleaner cover; may be used with a Screamin' Eagle air filter kit

TOTAL KITS

PART #	DESCRIPTION
42 MM CARB KITS	
42-8[1]	For 84-99 Evolution Big Twin (except 84-88 FLT)

PART #	DESCRIPTION
45 MM CARB KITS	
45-2X[1]	For 84-99 Evolution Big Twin (except 84-88 FLT)

[1] 84-89 models will require 90-95 Big Twin intake manifold flanges and seals (sold separately).

TM42-6

TM42-6P

HSR42 AND HSR45 SMOOTHBORE CARBURETORS

- For the high-performance engine builder who needs a carb for specific custom applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 260-261 for additional main and pilot jets

NOTE: Choke cable included, except for the TM42-6, which uses stock choke cable from CV-type carb.

NOTE: Airbox adapter HS42/001-K must be ordered separately.

NOTE: Kits are not for use on models with cruise controls.

PART #	DESCRIPTION
TM42-6	42 mm carb, standard finish
TM42-6P	42 mm carb, polished finish

PART #	DESCRIPTION
TM45-2	45 mm carb, standard finish
TM45-2P	45 mm carb, polished finish

All part numbers in **BLUE** are new for the OldBook.

HSR48 SMOOTHBORE CARBURETORS

- These high-performance carbs are ideal for realizing the maximum potential from custom and race engines
- Recommended for engines over 1200ci or larger
- Includes rubber mounting flange with 78 mm bolt hole centers, choke cable and four different main jets
- Uses stock H-D throttle cables
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 260-261 for additional main and pilot jets
- For race and custom applications only

PART #	DESCRIPTION
482X	48 mm carb, standard finish

HS42/012-300

REPLACEMENT FILTER ELEMENTS

- Replacement 2 1/2" or 3" filter elements for HSR42/45/48 carburetor

PART #	DESCRIPTION
HS42012-250	2 1/2" filter element

PART #	DESCRIPTION
HS42/012-300	3" filter element

1001-0085

1001-0088

SUPER E OR G CARBURETOR/ STEALTH AIR CLEANER KITS

- Combines a Super E or G carburetor with the S&S Stealth air cleaner
- Increases fuel and airflow for added performance
- Variable position enrichment starting system
- O-ring sealed idle mixture screw
- Washable, reusable air filter element
- Teardrop style air cleaner cover
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the factory dual-cable throttle system for smooth, reliable operation
- Easy to install and tune

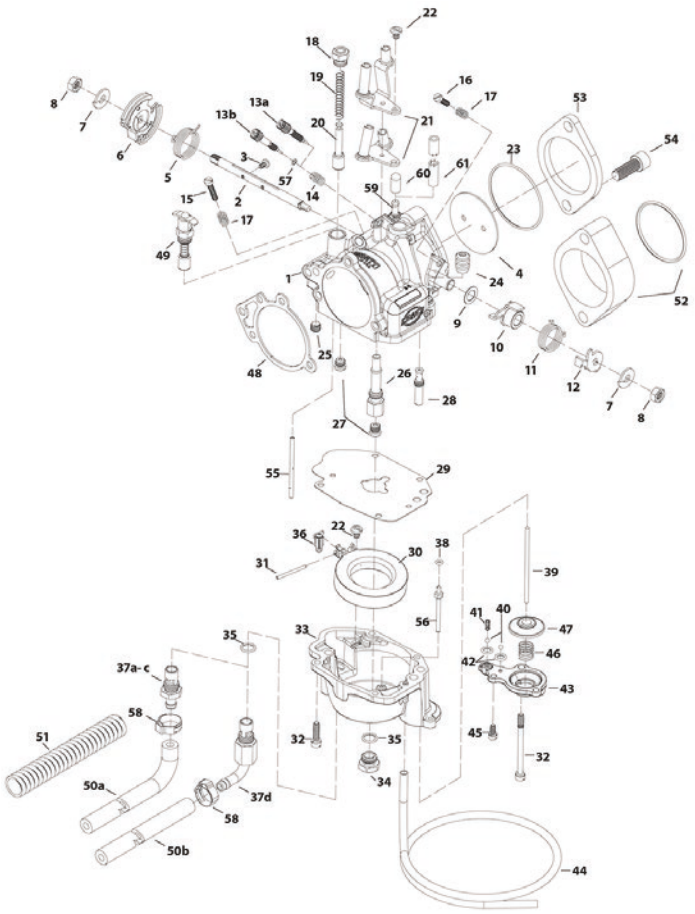

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
1001-0085	W/ Super E carburetor and Stealth air cleaner kit w/ chrome teardrop air cleaner cover
1001-0086	W/ Super E carburetor and Stealth air cleaner kit w/ gloss black teardrop air cleaner cover

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
1001-0087	W/ Super G carburetor and Slasher Stealth air cleaner kit w/ chrome slasher teardrop air cleaner cover
1001-0088	W/ Super G carburetor and Slasher Stealth air cleaner kit w/ gloss black slasher teardrop air cleaner cover

S&S CARBURETOR REBUILD KITS AND REPLACEMENT COMPONENTS

- Rebuild kits are available in master kits, body-only kits and accelerator pump kits
- Replacement gaskets, O-rings and components are made from the highest quality materials available

REPLACEMENT COMPONENTS

PART #	ID #	DESCRIPTION
112923		Master rebuild kit Super E (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
112924		Master rebuild kit Super G (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
1003-0453		Master rebuild kit Super A, B (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
DS-289111		Rebuild kit for Super E (body rebuild kit)
1003-0312		Rebuild kit for Super E & G basic
112903		Rebuild kit for Super B (body rebuild kit)
1003-0056		Breather conversion kit for E, G carburetor
1003-0085	13A	Idle mixture screw (5-pk.)
1003-0040	14	Idle mixture screw spring (10-pk.)
1003-0047	20	Fast idle plunger/enrichener (ea.)
1003-0459		Enrichener lever, Super E or G carburetor
1003-0196	21	Throttle cable guide/bracket for use w/ butterfly cables (ea.)
1003-0195	21	Throttle cable guide/bracket for use w/ CV (constant velocity) cables (ea.)
DS289935	23	Manifold to carburetor O-ring, Super E (10-pk.)
DS289934	23	Manifold to carburetor O-ring, Super G (10-pk.)
112091	29	Bowl gasket, Super B and D (10-pk.)
1003-0455	24	Seal, bellows, Super E/G, 2T, Nitrile
1003-0043	24	Bellows seal, accelerator pump (5-pk.)
-		Main Jets, see page 261
-		Intermediate Jets, see page 261
0934-5028	29	Bowl gasket, Super E & G (ea.)
DS289933	29	Bowl gasket, Super E & G (10-pk.)
1003-0460	32	Screw, S&S float bowl (10-24 x 3/4") (10-pk.)
1003-0966	33	Screw, S&S float bowl, long (ea.)
1003-0452	33	Float bowl for Super E & G
1003-0041	34	Float bowl plug (5-pk.)
0935-0864	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8009) (ea.)
0935-0870	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8095) (ea.)
1003-0042	36	Needle for S&S E & G carb (1,875" E & 2,0625" G) (ea.)
1003-0052	37	Fuel inlet/seat for S&S E & G carb (1,875" E & 2,625" G) (uses needle 1003-0042) (ea.)
1007-0410	37D	Fuel inlet/seat for S&S Super B and D carb (wire or forked-type float) (uses needle 1004-0017) (ea.)
1003-0237	38	Inlet carb fuel swivel, 90°

PART #	ID #	DESCRIPTION
0935-0865	38	O-Ring, (-006), 0,125" ID x 0,250" OD, Silicone (50-8011) (ea.)
1003-0192	38	O-ring, accelerator pump tube E & G carburetor (10-pk.)
1003-0194	40	Accelerator pump check ball only (10-pk.)
1003-0050	41	Check ball spring (5-pk.)
0935-0866	42	O-ring, (-009), 7/32" ID x 1/32" OD x 1/16" CS, Silicone (50-8012) (ea.)
0935-0867	42	O-ring, (-136), 2" ID x 2,187" OD, Nitrile (50-8013)
1003-0193	42	Accelerator pump cap O-ring (two required) (10-pk.)
1003-0188	44	Fuel bowl overflow hose; 24" long (5-pk.)
1003-0044	45	Diaphragm spring, accelerator pump (10-pk.)
1003-0045	47	Accelerator pump diaphragm (ea.)
112084	49	Enrichment device for B series carb (will work on Super E & G carbs when changing air cleaners) (ea.)
0706-0203	50B	Straight gas hose for use with the new S&S carbs with 90° fuel inlet
DS-289183		Gas line insulator
160057	52	1" Spacer block Super E
160491	52	0,25" Insulator block w/ O-ring Super E
1050-0360	53	1 7/8" x 3/8" Super E and G manifold insulator blocks w/ O-ring
160492	53	0,25" Insulator block w/ O-ring Super G
1050-0361	53	2 1/16" x 3/8" Super E and G manifold insulator blocks w/ O-ring
1003-0454	56	Tube, ejector nozzle, Super E/G, flared, brass
1050-0359	60	Hose VOES/oil (19-0395) (ea.)
DS-289113		Accelerator pump rebuild kit for E & G (diaphragm, spring, check balls and springs, pushrod and required hardware)
1050-0445		Plunger nut (ea.)
1050-0438	57	Idle mixture needle O-ring (ea.)
1003-0353	30	Float for Super E or G carburetor (ea.)
1050-0442		Throttle return spring for Super E or G carburetor (ea.)
1050-0302		Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1050-0302		Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1003-1874		Enrichment plunger spring for Super E and G carburetors (ea.)
0935-0862		O-ring (-160), 5,250" ID x 5.437" OD, Viton®
0935-0863		O-ring (-013) 0,437" ID x .565 OD, Viton®
0935-0869		O-ring (-233), 1,625" ID x 1.875" OD, Viton®

DRAG Specialties

FUEL INLET FITTING

- Solid brass fitting
- Accepts 6,3 mm (1/4") fuel line
- Sold each

PART #	DESCRIPTION
1003-0257	For 76-99 Keihin butterfly and CV carburetors; repl. OEM #27371-76A

PINGEL Since 1967 POWER-FLO™ Pass More Gas®

-6AN FUEL LINE FITTING FOR S&S CARBS

- Allows the use of -6AN fittings and fuel line for fuel supply
- For all S&S Super E and G series carbs
- Used with Pingel fuel valves PART #DS-390285 (22 mm inlet) and PART #0705-0058 (3/8" NPT inlet); and The Guzzler® fuel valves PART #0705-0029 (22 mm inlet) and PART #s 0705-0028/0705-0056 (3/8" NPT inlet)
- Sold each

PART #	DESCRIPTION
DS-289141	-6AN fuel fitting

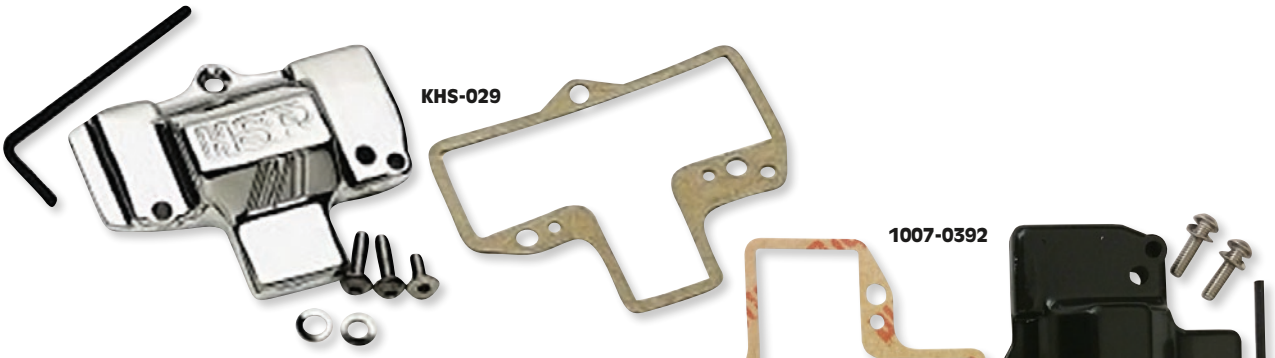

DRAG Specialties

SMOOTH CHROME CV CARB TOP COVER

- Smooth die-cast chrome cover replaces the OEM black plastic top cover
- Installation is a snap; just remove the four OEM screws and bolt on the new cover with them

PART #	DESCRIPTION
DS-288801	For 88-99 CV carb models; repl. OEM #27040-88

MIKUNI

MIKUNI CARB TOP COVERS

- Gives your bike a unique custom look

PART #	DESCRIPTION
FOR MIKUNI HSR CARBURETORS	
KHS-029	Chrome cover w/ Mikuni logo

PART #	DESCRIPTION
FOR MIKUNI HSR CARBURETORS (CONT)	
KHS-028	Chrome cover w/o Mikuni logo
1007-0392	Black cover w/o Mikuni logo

GARDNER WESTCOTT

CARBURETOR SOCKET-HEAD BOLT KIT

- Replace the stock screws with strong chrome socket-head bolts
- For use on CV carburetors

PART #	DESCRIPTION
DS-190695	For CV carburetor top cover only on 88-99 Evolution Big Twin models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

HS42/001-K

990-605-065

990-662-002

REPLACEMENT PARTS FOR HSR 42/45 CARB KITS

PART #	DESCRIPTION
HS42/001-K	Mikuni-to-CV carb air box adapter w/ three mounting screws
990-605-065	Short idle screw adjuster
990-662-002	Choke cable, for use with Mikuni plastic nut, spring and brass plunger

HSR4 MAIN JET EXTENSION KIT

- Increases amount of fuel to float bowl
- Completely submerges main jet within extender, eliminating chance of air bubbles getting through

PART #	DESCRIPTION
1006-0248	HSR4 main jet extension kit

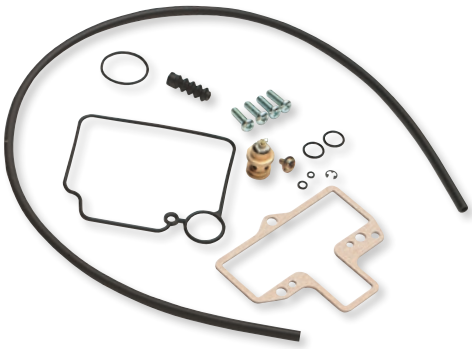

REPLACEMENT NEEDLE AND SEAT ASSEMBLY FOR MIKUNI HSR42/45 CARBURETORS

- Includes needle, seat and O-ring

PART #	DESCRIPTION
1050-0390	Repl. needle and seat assembly for Mikuni HSR42/45 carburetors

KHS-016

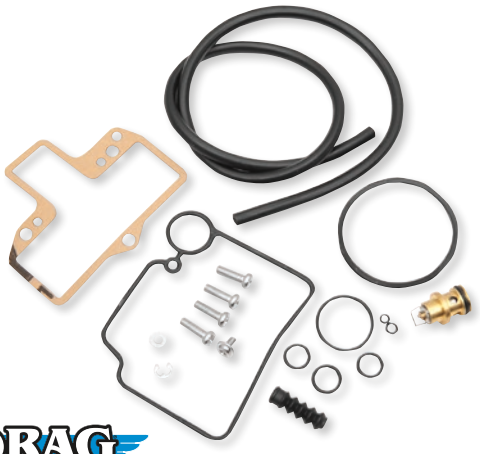

KHS-031

GENUINE MIKUNI HS CARBURETOR REBUILD KITS

- Genuine Mikuni parts properly replace worn or mistreated components for HSR42/45/48 carburetors
- Includes top cover gasket, jet needle E-ring and washer, throttle valve seal, pilot air O-ring, fuel joint O-ring, accelerator pump O-ring, needle valve O-ring, needle valve retainer screw, needle valve assembly, float bowl O-ring/gasket, overflow hose, float bowl screws, and accelerator pump rod boot

PART #	DESCRIPTION
KHS-016	HSR42/45 Carb rebuild kit

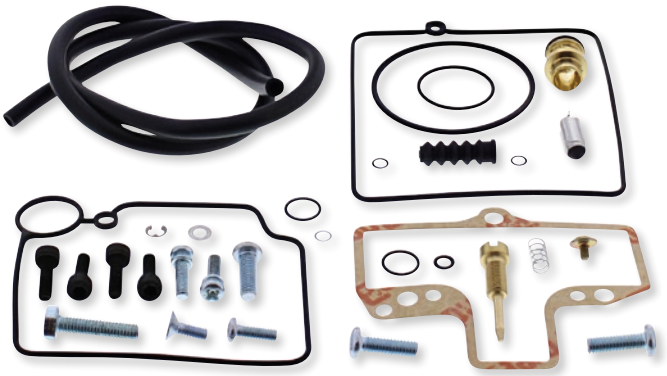

PART #	DESCRIPTION
KHS-031	HSR48 Carb rebuild kit

CARB REBUILD KIT FOR MIKUNI

- Includes all required parts to completely rebuild a carb
- For HSR42/45 mm carburetors

PART #	DESCRIPTION
1003-0293	Rebuild kit for HSR42/45 mm carbs

CARBURETOR KIT FOR MIKUNI

- NBR rubber material is used on all O-rings and rubber gaskets – NBR has excellent resistance to the ethanol used in today's fuels
- Kit is intended for closed-course racing only
- Includes: all gaskets and O-rings including spigot body gasket; float bowl, carburetor cap and spigot body screws; fuel mixture screw with spring, washer, and O-ring; float needle valve with FMK tip; and accelerator pump boot

PART #	DESCRIPTION
1003-1948	For HSR 42/45

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

Genuine JAMES GASKETS

REBUILD KIT FOR LINKERT CARB

- Includes all necessary gaskets, seals and O-rings

PART #	DESCRIPTION
DS-289108	36-65 Linkert carb rebuild kit

DRAG Specialties

REBUILD KIT FOR LINKERT CARB

- Kit includes foam float, needle and seat, gaskets, springs and bushings

PART #	DESCRIPTION
1003-0294	36-65 Linkert carb rebuild kit

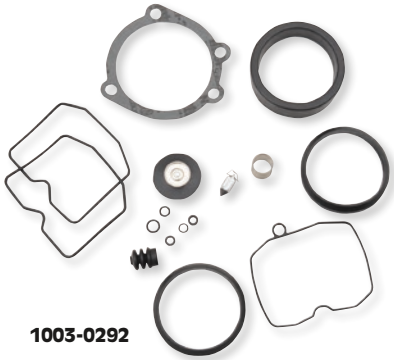

DRAG Specialties

REBUILD KIT FOR KEIHIN CARB

- Kit includes the parts necessary for rebuilding a Keihin butterfly carb

PART #	DESCRIPTION
DS-289099	For 76-78 Shovelhead and 76-78 XL (Japan); repl. OEM #27006-76

1003-0292

CARB REBUILD KITS FOR KEIHIN

- Kits include all necessary parts to rebuild a butterfly-style or CV-style Keihin carb

PART #	DESCRIPTION
1003-0292	For 88-99 Keihin CV carbs

1003-0291

DRAG Specialties

PART #	DESCRIPTION
1003-0291	For 76-89 Keihin butterfly carbs

Genuine JAMES GASKETS

CARB REBUILD KIT FOR KEIHIN CV

- For use with all Big Twin or XL models using the CV carb
- Includes all the necessary needles, O-rings, seals and gaskets etc. for a complete rebuild

PART #	DESCRIPTION
DS-289109	For all 88-99 CV carbs

1003-0166

DS-289097

DS-173528

DRAG Specialties

Genuine JAMES GASKETS

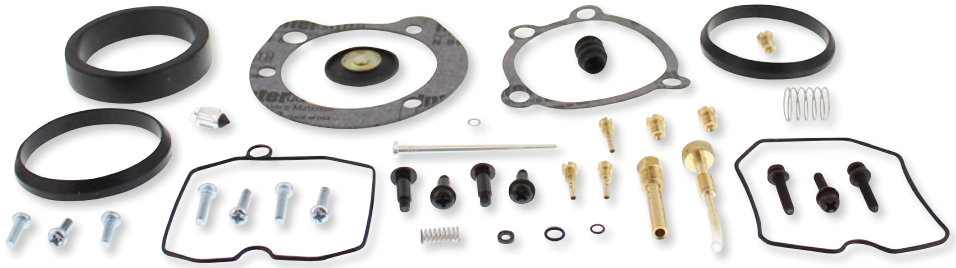

REPAIR KITS FOR BENDIX CARBS

- Come complete with all the necessary gaskets and seals, as well as an accelerator pump (except PART #DS-173528 includes gaskets only)

PART #	DESCRIPTION
1003-0166	Bendix carb repair kit for 71-75 FX, FL and 72-E76 XL (import)
DS-289097	Accelerator pump only for 72-E76 FX, FL and 71-75 XL (import)
DS-173528	Bendix gasket kit for 71-75 FX/FL and 72-E76 XL (Genuine James)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

CV CARBURETOR REBUILD KIT

- NBR rubber material is used on all O-rings and rubber gaskets; NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kit are based on U.S. models and discretion must be used when attempting to install the kit on a non-U.S. model
- All gaskets and O-rings, including intake gaskets before and after the carburetor
- Kit includes float bowl, carburetor cap and accelerator pump screws
- Extended fuel mixture screw with spring, washer and O-ring
- Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- Three main jets and three pilot jets that can be used to tune a stock machine or a modified one
- Kit is intended for closed-course racing only

PART #	DESCRIPTION
1003-1273	For 90-99 Evolution Big Twin w/ CV carb (includes: 42, 45, 48 pilot jets; 175, 180, 185 main jets; N0KG needle)

DS-289104

0935-0100

CARBURETOR INSULATOR BLOCK KITS

- Kit includes 3/8" fiber insulator block and gaskets
- Designed to reduce the risk of boiling fuel in the carb

PART #	DESCRIPTION
DS-289104	For 76-80 FX and 79-84 FL models; will also fit any Bendix or Keihin carb when longer studs/bolts are used (1 3/4" ID)
0935-0100	For 44-65, carb to intake (Linkert); repl. OEM #29250-55

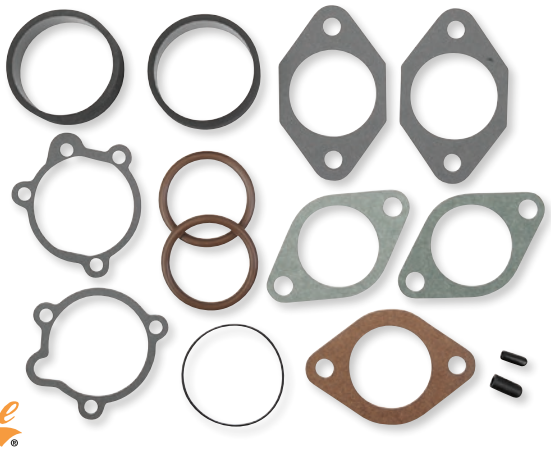

DS-174381

CARBURETOR AND INTAKE MANIFOLD SEAL KITS

- Kits contain carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
DS-174381	40 mm seal kit for 90-99 80" Evolution w/ Original Equipment carbs
DS173537	44 mm seal kit for 90-99 80" Evolution w/ Screamin' Eagle carbs

CARBURETOR INTAKE MANIFOLD GASKET KIT

- Kit contains carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
0934-1610	For 66-84 Shovelhead, 79-85 XL w/ Bendix/Keihin/Tillotson (butterfly style)

ACCELERATOR PUMP DIAPHRAGM

- Sold each

PART #	DESCRIPTION
DS-174445	For 76-89 w/ OEM Keihin carb; repl. OEM #27361-76

INTAKE MANIFOLD AND CARB SEAL KIT

- Kit contains one carburetor-to-intake seal (27002-89) and two intake-to-cylinder head seals (26995-86B)

PART #	DESCRIPTION
0935-0172	40 mm seal kit for 90-99 Evolution Big Twin w/ OEM carb

Boyesen

POWER X-WING

- Patented air vane requires no modifications to install
- Acceleration gains from idle to wide-open throttle
- Dyno tests show 2-5 horsepower gains and 4-6 ft./lbs. max torque increases on OEM H-D engines
- Complements popular air filter system upgrades

PART #	DESCRIPTION
1050-0180	For 88-99 models w/ OEM CV carb

DYNOJET

DS-290352

DS-290350

STAGE 7 THUNDERSLIDE WITH JET KITS

- Stage 7 kits are for 80 plus horsepower engines and include a taller carburetor top for more slide movement
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kits include jets, needles, clips, carburetor top and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290352	For 90-99 Evolution Big Twin

PART #	DESCRIPTION
DS-290350	For Screamin' Eagle 44 mm Keihin CV Evolution

DYNOJET

THUNDERSLIDE JET KIT

- Designed for engines with stock or aftermarket air filter and exhaust system
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit also includes jets, needles, clips and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-289307	For 90-99 Evolution Big Twin

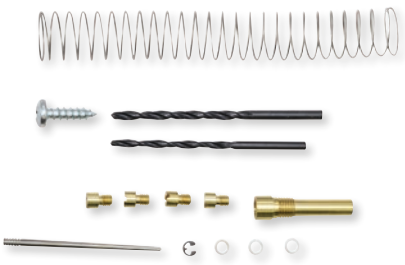

DYNOJET

RECALIBRATION KITS

- Recalibrate your stock Keihin CV carb to make full use of the performance potential
- Include the jets, needles, instructions, etc., necessary to recalibrate stock engines with CV carbs
- Kits provide broad-range performance gains and maintain stock driveability

DS-289306

DS-289303

WISECO Performance Products

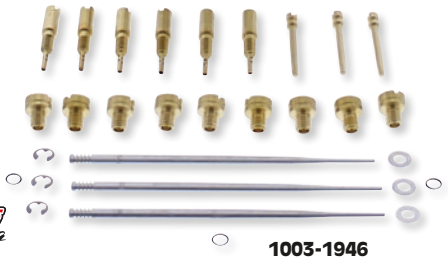

JET KIT

- Wiseco jet kits for Keihin carburetors allow tuning after an exhaust or other type of engine modification
- This tuning kit will help improve midrange throttle response and add additional fuel to wide-open throttle running conditions
- Sold with five jets per size, giving endless tuning capabilities for your machine

PART #	DESCRIPTION
1006-0315	Pilot jets for Keihin FCR MX Carbs, PJ, PWK, PWM and some smoothbore Carbs, N424-21 series

1003-1946

ALL BALLS Racing

CARBURETOR JET KITS

- Kit includes all parts necessary for tuning a Mikuni HSR carburetor
- Includes a range of main, pilot and accelerator pump jets
- Includes a range of slide needles

PART #	DESCRIPTION	PART #	DESCRIPTION
1003-1945	For Mikuni HSR 42	1003-1946	For Mikuni HSR 45

ALL BALLS Racing

EXTENDED FUEL MIXTURE SCREW

- Kit includes all necessary parts to replace OEM-style fuel mixture screw with an extended screw for easy tuning
- Kit includes extended mixture screw O-ring, spring and washer

PART #	DESCRIPTION
1050-0451	For Keihin 40mm CV carbs

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

MANIFOLD

- Natural finish
- Includes MAP sensor port, requires MAP sensor machining, for S&S IST ignition

PART #	BORE SIZE	CYLINDER LENGTH	SIZE NUMBER	DESCRIPTION
FOR 84-06 124" S&S EVO-STYLE ENGINES				
1050-0357	-	5,013"	417	For Super G carb

MANIFOLD CONVERSION KIT FOR 80" EVOLUTION

- Kit converts stock 80" Evolution manifold to a more rigid-mount system
- Eliminates cracking and leaking problems associated with the stock rubber compliance fittings
- Includes an S&S Performance manifold, mounting flanges, two specially molded O-rings and two 0.350" spacers for spacing out the stock air cleaner or carb mount bracket
- Fits 84-99 80" models if flange-type carburetor or adapter is used
- Replacement flange seals also available

NOTE: Not for use with an S&S G series carb.

PART #	DESCRIPTION
1050-0296	Manifold conversion kit

1050-0046

FLANGE MOUNT INTAKE MANIFOLDS

- For mounting an S&S E and G series carburetor or flange mount carburetor on any model that requires a manifold with a MAP sensor port
- Comes with a MAP sensor port and match OEM intake ports

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
1050-0291	For S&S E-series carbs
1050-0046	For S&S G-series carbs

FLANGE MOUNT INTAKE MANIFOLDS

- Can be used to replace stock "compliance fitting" manifold on 84-89 and stock rigid-mount manifold from 90-99
- Use with stock or S&S cylinder heads
- For use with stock 5,550" length cylinders
- Requires the use of S&S intake seals and flanges (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION-STYLE BIG TWIN	
1050-0110	For Super G carbs (no MAP sensor port)
1050-0293	For Super E carbs (no MAP sensor port)

1050-0295

SPIGOT-MOUNT INTAKE MANIFOLD FOR S&S HEADS

- Used to install a stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors
- Will also fit S&S Hot Setup and Super Stock™ head kits

NOTE: Not for use with OEM-style O-rings, requires the use of S&S manifold O-rings and U-rings, sold separately.

PART #	DESCRIPTION
1050-0292	For 88"/95"/96" S&S Twin Cam style motors and head kits (4.9365" cylinder length)
1050-0295	For 88"/95"/96" S&S Twin Cam style motors and head kits (4.9365" cylinder length)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

STANDARD INTAKE MANIFOLDS

- Available for stock length cylinders
- Compatible with S&S Super E and B carbs
- L78-84 Shovelheads use rubber-band-type intake seals
- 66-E78 Shovelheads use O-ring-type intake seals

FOR L78-84 SHOVELHEAD (W/O VOES) (BAND TYPE)			
PART #	S&S OR STOCK ENGINE SIZE	CYLINDER LENGTH	SIZE
FOR S&S ES, LS, SUPER A, B, E, TILLOTSON®, BENDIX©, KEIHIN®			
DS-289232	74", 80", 84", 88"	5,330"	220

FOR 66-E78 SHOVELHEAD AND 57-78 XL (O-RING TYPE)			
PART #	S&S OR STOCK ENGINE SIZE	CYLINDER LENGTH	SIZE
FOR S&S ES, LS, SUPER A, B, E, TILLOTSON®, BENDIX©, KEIHIN®			
DS-289231	74", 80", 84" 88"	5,330"	220
1050-0338	93"	5,363"	225

T-STYLE O-RING MANIFOLD

- Cylinder length: Stock 5,330"
- Manifold length: 2,975"

PART #	DESCRIPTION
1050-0337	For 55-65 Big Twin

INTAKE MANIFOLD O-RINGS AND U-RINGS

- For use with all current S&S intake manifolds
- O-rings sold in 10-pack
- U-rings sold each

FOR 84-99 EVOLUTION BIG TWIN	
PART #	DESCRIPTION
O-RINGS (MANIFOLD TO CYLINDER HEADS)	
1003-0060	For stock heads w/ S&S manifold (10-pk.)
1003-0313	For stock heads (OEM #26995-86A) (10-pk.)
1003-0457	For stock heads; repl. OEM #s. 26992-99, 26995-86A, 26995-86B (ea.)
O-RINGS (MANIFOLD TO S&S CARBURETOR)	
0935-0868	O-ring (1 7/8" for Super E carburetor (ea.)
1003-0456	For Super B or E carburetor (ea.)
U-RINGS (CV CARB TO MANIFOLD)	
0934-0666	40-42 mm
0934-0665	44-45 mm
REPLACEMENT PARTS	
1050-0347	Straight hose fitting (0,200" x 0,098")

INTAKE MANIFOLD RUBBER BANDS

- Replace OEM #27062-78
- Sold each or in packs of 10

PART #	DESCRIPTION
FOR 79-84 BIG TWIN, 79-85 XL MODELS	
1003-0458	10-pk.
1050-0336	ea.

AIR HORN VELOCITY STACK KIT

- Fully machined from lightweight alloy aluminum castings
- Kit includes: air horn velocity stack, three mounting screws, carb support bracket (bracket connects the center crankcase bolt to the bottom manifold carburetor mounting bolt), two longer bottom carb-to-manifold mounting bolts and an enrichment device
- Replacement air horns available in short 6,25 cm (2 1/2") or long 10 cm (4") lengths; include mounting screws
- Air horn cover sold separately
- Fits Super E & G carbs

PART #	DESCRIPTION
1011-3843	For S&S Super E & G carburetors
1010-2702	Air horn 6,5 cm (2,5") L
1010-2704	Air horn 10 cm (4,0") L

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

INTAKE MANIFOLD

- Intake manifold for HSR42/45/48 carbs
- Rubber flange adapters sold separately

PART #	DESCRIPTION
1050-0466	For all 84-99 Evolution Big Twin motors

HS42/062-48

BLACK FLANGE ADAPTERS

- Rubber flange adapters fit 42 mm, 45 mm and 48 mm spigot-type carburetors
- PART #HS42/018-42 has mounting holes that are 70 mm on center; ID of 45 mm
- PART #HS42/018-45 has mounting holes that are 70 mm on center; ID of 48 mm
- PART #HS42/062-48 has mounting holes that are 70 mm on center; ID of 71 mm
- PART #1013-0166 has slotted mounting holes that are 70-75 mm on center; ID of 45 mm
- PART #1013-0167 has slotted mounting holes that are 70-75 mm on center; ID of 45 mm
- Includes clamp
- Original straight-through design
- Sold individually

PART #	DESCRIPTION
HS42/018-42	42 mm
1013-0166	42 mm
HS42/018-45	45 mm

PART #	DESCRIPTION
1013-0167	45 mm
HS42/062-48	48 mm

CHROME INTAKE MANIFOLD FLANGES

- Chrome flanges replace the stock flanges
- Sold in pairs
- Replacement intake manifold seals also available; see GASKETS & SEALS section

PART #	DESCRIPTION
DS-289212	For 90-99 Evolution Big Twin models

1013-0043

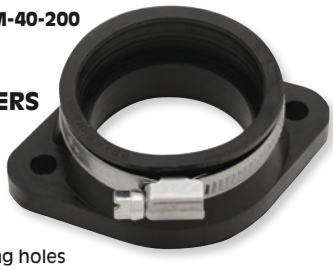

INTAKE MANIFOLD CLAMPS

- Clamp is 3/4" wide and constructed of 0,020" thick stainless steel and use a curved 10-24 threaded "T"-bolt with plated steel aircraft-style hex locknut
- Sold each

PART #	DESCRIPTION
1013-0044	For 79-84 Shovelhead and L78-85 XL with rubber band-style cylinder heads; repl. OEM #27063-80
1013-0043	For 55-78 Big Twin and 55-E78 XL with O-ring-style cylinder heads; repl. OEM #27063-57

M-VM-40-200

RUBBER FLANGE ADAPTERS FOR SPIGOT-TYPE CARBURETORS

- Adapters fit 38 mm and 40 mm spigot-type carburetors
- Includes clamp
- PART #M-VM-36-200 has mounting holes that are 70 mm on center; ID of 39,5 mm
- PART #M-VM-38-200 has mounting holes that are 74,6 mm on center; ID of 38 mm
- PART #M-VM-40-200 has mounting holes that are 74,6 mm on center; ID of 47 mm
- Sold individually

PART #	DESCRIPTION
M-VM-36-200	36 mm-38 mm rubber flange adapter
M-VM-38-200	40 mm rubber flange adapter – 43 mm carb spigot OD (fits RS40, RS42)
M-VM-40-200	40 mm rubber flange adapter – 52 mm carb spigot OD

BILLET FLANGE ADAPTER FOR SPIGOT-TYPE CARBS

- Allows you to mount OEM late-model CV or Mikuni HSR42 carbs on Evolution, Shovelhead, Panhead or Sportster models with two-bolt flange manifolds
- CNC-machined from 6061 billet aluminum
- Mounting holes are 2,75" on center
- Carb-to-manifold seal also available; see GASKETS & SEALS section
- Sold each

PART #	DESCRIPTION
DS-289219	Billet flange adapter

1050-0232

INTAKE MANIFOLD FLANGES

- Flanges sold in pairs (one front and one rear) or each (one front or one rear)
- Replace H-D #s 27009-86B and #27010-86B
- Replacement seals sold separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN W/ S&S INTAKE MANIFOLD	
1050-0232	Front and rear flange (set)
1050-0394	Front flange only
1050-0395	Rear flange only

MANIFOLD TO CYLINDER HEAD O-RING KIT

- Meets or exceeds OEM quality

PART #	DESCRIPTION
0934-4705	For 55-78 Big Twin and 57-E78 XL models with O-ring style cylinder heads; repl. OEM # 27060-55

INTAKE PIPE SEAL

- Precision machined duplicate of the original brass intake manifold seal
- Sold each

PART #	DESCRIPTION
2401-0431	For 40-54 O.H.V. 61"/74" engines; repl. OEM #27059-40

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

MIKUNI

HSR CARBURETOR HEAD-BREATHER KIT

- For use with Mikuni air filter PART #HS42012250 and HS42012300
- For the installation of HSR carburetor kits using the K&N high-flow filter on Evo Big Twins

PART #	DESCRIPTION
KHS-020	For HSR42/45 carb on Evolution Big Twin

KURYAKYN

BLUEGRASS BREATHER KITS

- Kit routes the vented gases upward so gravity can keep any expelled oil droplets back into the engine instead of down the sides of the bike
- Vent line can be run up or out, into an optional catch tank (available separately, PART #1012-0217)
- Includes vent hose and fittings

PART #	DESCRIPTION
1012-0218	Short leg breather kit for 93-99 Evolution Big Twin (most carbs except Mikuni HSR)
1012-0216	Long leg breather kit for 93-99 Evolution Big Twin with Mikuni HSR series carb
1012-0217	Optional catch tank for breather kits

DRAG Specialties

CRANKCASE BREATHER KIT

- One-piece chrome tube design
- Includes breather bolts, washers and hardware
- Works with most aftermarket air cleaners

PART #	DESCRIPTION
DS-289620	For 93-99 Evolution Big Twin

DRAG Specialties

CRANKCASE BREATHER/SUPPORT BRACKET KITS

- Allows the installation of aftermarket air cleaner assemblies on late model bikes equipped with OEM CV carb
- Includes bracket, filter, hose and all mounting hardware necessary for installation except where noted

DS-289082

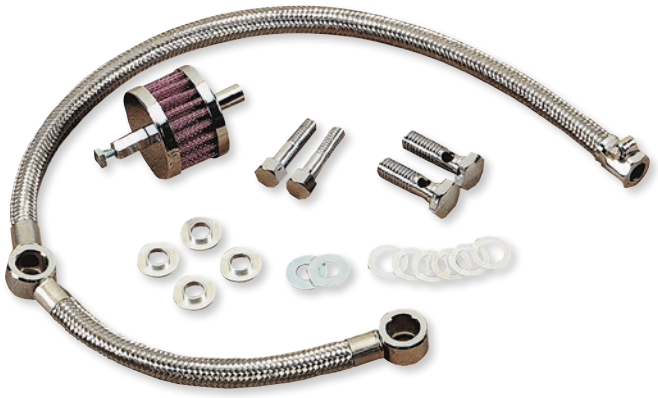

PART #	DESCRIPTION
DS-289082	For all 93-99 Evolution Big Twin models
DS-289060	For 93-99 Evolution Big Twin models (no hose or filter)
DS-289073	Repl. filter

DRAG Specialties

BRAIDED HOSE CRANKCASE BREATHER KIT

- This kit provides the best looking alternative to black rubber hoses when mounting a crankcase breather system
- Features a 3/8" ID stainless steel braided hose crimped onto chrome banjo fittings
- Outlet side of assembly is long enough to custom-route the hose and mount the breather filter in an inconspicuous location
- Includes breather filter (with mounting stud), hardware and instructions
- Air cleaner and carb support bracket must be purchased separately

NOTE: Not recommended for stock applications. Make sure the braided line does not contact anything (i.e.; the gas tank, carb or wiring) as damage may result.

PART #	DESCRIPTION
DS289118	For 93-99 Evolution Big Twin custom applications only

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

AIR CLEANER BREATHER KIT

- Enables the mounting of most aftermarket air cleaners to late-style engines that breathe through the cylinder heads
- Fittings can be rotated 360° so that hoses can be routed as necessary
- Hose sold separately

PART #	DESCRIPTION
DS-289055	For 93-99 Evolution Big Twin

Eastern M C Parts

BREATHER TUBES

- For use with OEM backing plates and air filters
- Sold in pairs

PART #	DESCRIPTION
1010-2029	For 93-99 Evolution Big Twin; repl. OEM #24922-93

DRAG Specialties

EVOLUTION BREATHER BOLT KIT

- Chrome-plated hex-head breather bolts
- Fits most supports and breather brackets
- Includes sealing washers

PART #	DESCRIPTION
1012-0162	For 93-99 Evolution Big Twin (1/2"-13)

DRAG Specialties

BREATHER BOLT WASHER KIT

- Features four 7/16" and four 5/16" aluminum centering washers
- Also includes four 1/2" nylon sealing washers

PART #	DESCRIPTION
1012-0005	For 91-99 breather systems

S&S PROVEN PERFORMANCE

THREAD REDUCER

- Used on 93-99 H-D cylinder heads when installing a carburetor support bracket that requires 5/16"-18 mounting bolts
- Reduces a 1/2"-13 threaded hole to 5/16"-18
- Sold each; two required per motor

PART #	DESCRIPTION
7806-2940	1/2"-13 to 5/16"-18 thread reducer

DRAG Specialties

SUPPORT BRACKETS

- Chrome air cleaner braces provide additional support for the Dragtron™ II air cleaners or any flat-backed air cleaners
- Mount to the cylinder heads
- Can be used in conjunction with most breather kits (where applicable)
- Breather kits/bolts sold separately
- All gaskets and mounting hardware included
- For replacement gaskets, see Gaskets & Seals section

PART #	DESCRIPTION
DS289190	For 90-99 Evolution Big Twin (CV carb)

PART #	DESCRIPTION
DS-289053	For 84-89 Evolution Big Twin (butterfly carb)

DRAG Specialties

CARB SUPPORT BRACKET WITH CHOKE CABLE MOUNT

- Chrome-plated stamped steel
- Provides support for carb and air cleaner
- Offers mounting of choke control under the carb for easy access

PART #	DESCRIPTION
2110-1212	For 92-99 Evolution Big Twin w/ Mikuni HSR 42/45 carb

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

2401-0503

2401-0504

CARBURETOR SUPPORT BRACKETS

- Exact reproduction of the original H-D support brackets
- Used to support the Linkert carburetor

PART #	DESCRIPTION	OEM #
2401-0503	For 39-48 Big Twin	1110-39

PART #	DESCRIPTION	OEM #
2401-0504	For 36-52 45 Solo	27432-36

1001-0031

1001-0047

FIXED-LENGTH CARBURETOR/AIR CLEANER SUPPORT BRACKETS

- All-steel construction with chrome plating
- Include hardware

PART #	DESCRIPTION
1001-0031	For 66-82 Shovelhead w/ Super E/G carb
1001-0047	For 66-84 Shovelhead w/ Super A/B/D carb

ADJUSTABLE CARBURETOR SUPPORT BRACKET

- Adjusts from 5,25" to 6,375"
- Mounts from the center-case bolt between cylinders to the lower flange mount of the manifold

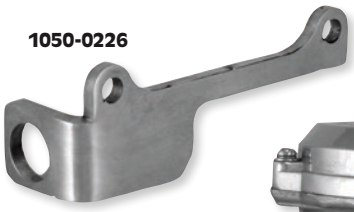

PART #	DESCRIPTION
160471	Support bracket

AIR CLEANER BRACE

- Use with our Dragtron™ air cleaners to eliminate carb vibration, which can lead to air leaks
- Includes hardware and template
- Must use either PART #DS-289104 block or OEM insulator
- Chromed steel support brace fits models equipped with Bendix or Keihin carbs

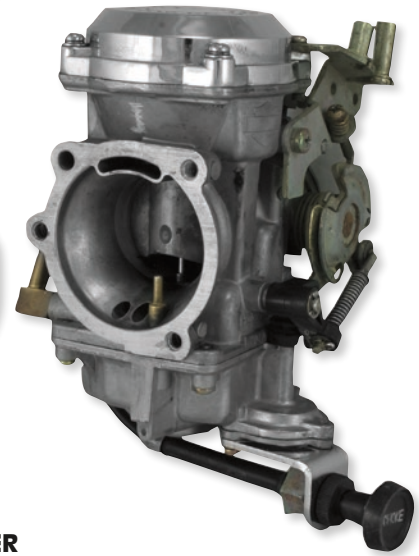

PART #	DESCRIPTION
DS-289094	For 57-85 XL models

1050-0226

1050-0227

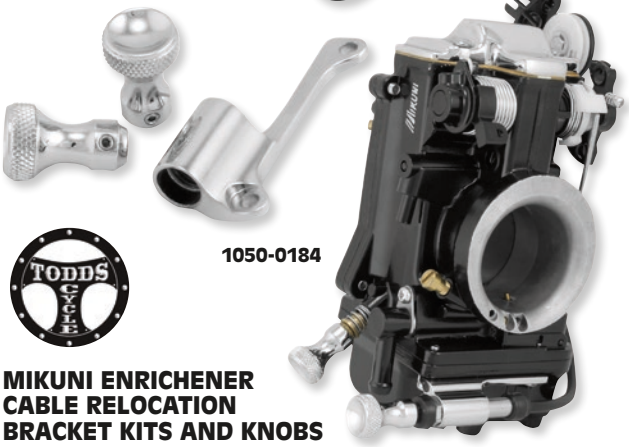

ECON ENRICHENER CABLE RELOCATION BRACKETS

- Relocates enrichener cable and knob out of the way
- For use with stock enrichener cables and knobs
- Made from stainless steel with ball-burnished finish

PART #	DESCRIPTION
1050-0226	For all Mikuni HSR carbs
1050-0227	For all Keihin CV carbs

1050-0262

1050-0184

MIKUNI ENRICHENER CABLE RELOCATION BRACKET KITS AND KNOBS

- Kit includes bracket, idle mixture screw knob and enrichener cable knob
- CNC-machined billet aluminum components
- Available in chrome, black or raw finish

NOTE: Must be used with Mikuni enrichener cable, Drag Specialties PART #990-662-002.

PART #	DESCRIPTION
1050-0183	Bracket kit w/ enrichener and idle knobs, chrome
1050-0262	Bracket kit w/ enrichener and idle knobs, black
1050-0184	Bracket kit w/ enrichener and idle knobs, raw
990-662-002	Choke cable

DS-288880

1010-1761

1010-1762

BIG SUCKER™ STAGE I AIR FILTER KITS

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is o-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in natural, black powdercoat, or chrome finish
- Filters are available in standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four-layers of surgical grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water resistant and never needs to be oiled; just wash and re-use
- Accepts OEM outer cover or custom Ness outer cover
- All necessary hardware and instructions are included with each kit

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN MODELS W/ CV CARB	
DS-288880	Kit w/ standard filter (natural)

BIG SUCKER™ STAGE II AIR FILTER KIT WITH COVER

- Features a one-piece aluminum backing plate/carb support bracket with patented hidden breather technology and radius air inlet
- Eliminates the need for banjo fittings, hoses and filter
- Breather passages exit at the mouth of the carburetor/throttle body, creating a virtually closed-loop system
- Kit includes a 20% larger high-performance filter and steel outer cover
- Includes Standard pre-oiled filters
- All necessary hardware and instructions are included

PART #	DESCRIPTION
1010-0430	For 93-99 Evolution Big Twin models w/ CV carb (chrome)

ARLEN NESS

REPLACEMENT AIR FILTER ELEMENT FOR STAGE 1 SCREAMIN' EAGLE® AIR CLEANER

- Premium pre-oiled direct replacement element for Screamin' Eagle® kits
- Each is handmade one at a time in a urethane body that won't crack; four layers of surgical-grade cotton provide optimum airflow and protection
- 100% re-usable and washable
- Available in red cotton; fit with original Screamin' Eagle covers
- Can also be used with Ness Stage I top cover for an exposed filter high-performance look; no other hardware necessary

PART #	DESCRIPTION
2110-9494	For 99 FXST, 97-98 FXD/FXDWG

1010-0984

Performance Machine.com BRAKES · WHEELS · ACCESSORIES

FAST AIR INTAKE SOLUTION

- The most innovative and aggressive-looking forward-facing air intake on the market
- Features an internal crankcase breather system
- K&N Filter element allows for a significant horsepower increase over stock air cleaner
- Available in chrome or Contrast Cut™ finishes
- Contrast Cut™ features a polished surface that is black anodized then re-cut to open the design
- Includes rain sock

JET AIR CLEANERS

- Low-profile and lightweight air cleaners are CNC-machined from billet aluminum
- Innovative and versatile design allows unit to be mounted in the vertical or horizontal position
- Compact design for improved knee clearance
- Features PM's proven internal crankcase venting system
- Features a high-flow reusable air filter
- Available in Contrast Cut™, chrome and Black Ops™ finishes
- Contrast Cut™ finish starts with a polished air cleaner that has been black anodized, then recut to open the design
- Black Ops™ finish features gloss black on top of a contrasting textured black finish for outstanding durability and looks

SUPER GAS AIR CLEANERS AND UNIVERSAL FACEPLATES

- Versatile design accepts interchangeable faceplates that are designed to match Performance Machine wheels
- Air cleaner includes a K&N filter behind a stainless steel wire mesh screen to allow high-volume air flow, resulting in increased horsepower
- Air cleaners and universal faceplates are sold separately and are available in chrome, Contrast Cut™ and Platinum Cut finishes
- Contrast Cut™ finish starts with a polished faceplate that has been black anodized, then recut to open up the design
- Platinum Cut™ uses the same process as the Contrast Cut™, only the recut areas are then hand polished to a brilliant finish
- Gold Ops™ features a gloss gold finish over a contrasting texture gold finish for outstanding durability and looks

1011-3186

- Screamin' Eagle/Ness upgrade kit adapts a Performance Machine designed faceplate to fit the Screamin' Eagle/Arlen Ness air cleaners
- Screamin' Eagle/Ness upgrade kit includes mesh insert, spacer, hardware and PM Logo badge

SUPER STOCK™ STEALTH AIR CLEANER KITS

- For stock and S&S fuel system applications
- Kits include backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Optional high-flow (1" taller) filter and pre-filter/rain sock also available

NOTE: Kits that do not include a cover must use a stock Twin Cam 88, 96, or 103 "football-style" air cleaner cover, or a S&S Stealth air cleaner cover (sold separately).

PART #	DESCRIPTION
SUPER STOCK™ STEALTH AIR CLEANER KITS W/O COVER	
1010-1075	For 93-99 Evolution Big Twin w/ stock CV carburetor
1010-1077	For 93-99 Evolution Big Twin w/ S&S E/G series carbs or 52mm throttle body
1010-1313	For 36-92 Big Twin, 57-85 XL models w/ S&S E/G series carbs

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS	
1011-2765	Repl. Stealth filter
1011-2766	Opt. Stealth hi-flo filter kit (1" taller)
1011-3620	Repl. Stealth filter for standard or hi-flo air cleaners
1011-3119	Pre-filter/rain sock for standard Stealth air filter
1011-3120	Pre-filter/rain sock for 1" tall Stealth air filter

AIR CLEANERS AND COMPONENTS

- Original S&S teardrop air cleaner assemblies
- Include an S&S cover, backing plate and high-quality filter element and hardware kit
- Increase horsepower with no other changes
- Available for most OEM carburetors and S&S performance intake systems

NOTE: Installation of an S&S air cleaner may require re-jetting or engine re-tuning, however tuning within the OEM emissions standards is required to maintain E.O. validity.

NOTE: Covers may need to be notched when used with custom or 5-gallon or larger fuel tanks.

NOSTALGIC AIR CLEANER COVER

- Teardrop air cleaner kits for stock carbs

PART #	DESCRIPTION
1014-0230	For Super E & G carbs

HIGH-FLOW AIR FILTER AND ADAPTER KIT

- High-flow filter designed especially for Super E and G carburetors
- Filter is 1" taller than standard filter and features a low-restriction, pre-oiled filter element
- Allows for a 37% increase in airflow
- Filter and adapters extend the teardrop housing out 1" for better exposure and a high-performance street racer look
- Kit installs in minutes; no permanent modifications required

NOTE: Not for use with S&S Super B or Super D carburetors, or Super E and G Kits for Buells.

CLARION AIR CLEANERS

Contrast Cut

- CNC-machined from billet aluminum and polycarbonate
- High volume and best in filtration
- Allows for viewing of internal intake components
- Revolutionary backing plate that promotes smooth airflow into the carb/throttle body
- Hidden built-in crank case breathers
- Comes in Contrast Cut™ finish; Contrast Cut™ features a polished surface that is black anodized then re-cut to open the design
- Includes mounting hardware, slotted breather bolts and oil tubes

PART #	DESCRIPTION
1010-2310	For 93-99 Evolution Big Twin Models w/ CV carb

1010-1039

BLACK OPS Contrast Cut

CLARITY AIR CLEANERS

- CNC-machined from billet aluminum
- Allows for viewing of the internal moving intake components
- Backing plate promotes smooth airflow into the carb/throttle body
- Includes high-volume K&N air filter
- Contrast Cut™ features a polished surface that is black anodized then re-cut to open the design
- Black Ops™ features a gloss black finish over a contrasting texture black finish for outstanding durability and looks
- All mounting hardware included

ROLAND SANDS DESIGN

AIR CLEANER SCRUB BAG

- Stretches over complete air cleaner to prevent water from entering engine while washing bike
- Helps to keep water or other debris from entering when bike is parked
- Made from waterproof denier material with an elastic enclosure

NOTE: Cannot be used while engine is running. For washing and storage purposes only.

PART #	DESCRIPTION
1011-2051	For all RSD Venturi and Turbine air cleaners

ROLAND SANDS DESIGN

RAIN SOCK

- Stretches over complete air cleaner for quick and easy roadside installation (no tools required)
- Helps to prevent water from entering your engine when riding in wet conditions
- Compatible with all RSD Venturi and Turbine air cleaner assemblies
- Hydrophobic manufacturing process repels water
- Filters out larger particles of debris down to 0,005"
- Uniform micron openings allow air in while keeping debris and water out

PART #	DESCRIPTION
1011-2050	For all RSD Venturi and Turbine air cleaners

1010-0710

1010-0711

PAUGHCO

TEARDROP AIR CLEANER ASSEMBLIES

- Chrome-plated cast aluminum construction
- Ribbed design
- Measures 8" L x 4 1/2" H x 2" D
- Include mini air filter and all necessary fittings and hardware

PART #	DESCRIPTION
1010-0710	For S&S Super E and Super G carbs

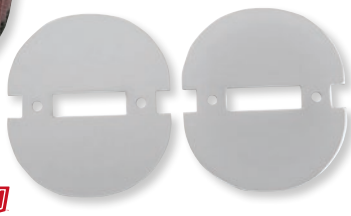

PART #	DESCRIPTION
1010-0711	For 99-93 Evolution Big Twin w/ Keihin CV carb

KURYAKYN

HYPERCHARGER™ AIR CLEANER ACCESORIES

- Sold each (unless noted)

PART #	DESCRIPTION
1013-0098	Carburetor support bracket for 93-99 Evo Big Twin with stock CV, Mikuni or Screamin' Eagle carburetor
DS-288827	Adapter to mount Hypercharger on S&S E and G carburetors for 93-99 Big Twin models (requires PART #DS-288826 adjustable enrichener and 1/2"-13 x 1 1/2" breather bolts)
DS-288826	Adjustable enrichener for S&S E and G carbs on 93-99 Big Twin models
1010-0146	Chrome blood groove trap door
1010-0332	Chrome butterflies (pr.)
1010-1540	Repl. butterfly shaft
DS-288825	Repl. K&N filter element for Hypercharger
1012-0170	Repl. rubber boots and hoses for Evolution crankcase breather kit
1010-1583	Repl. 1" breather bolts (pr.)
1012-0198	Repl. rubber boots for PART #1012-0170
1010-2740	Vacuum Pod Rebuild Kit for Hypercharger™

KURYAKYN

STINGER TRAP DOOR FOR HYPERCHARGER™

- If you have a need for more performance, look no further
- Stinger trap door maximizes airflow into the carburetor or throttle body through a high-flow filter element
- Highly cost-effective way to boost airflow to any standard Hypercharger™
- Easy four-bolt replacement for standard trap door
- Chrome finish

PART #	DESCRIPTION
1010-0145	Stinger trap door

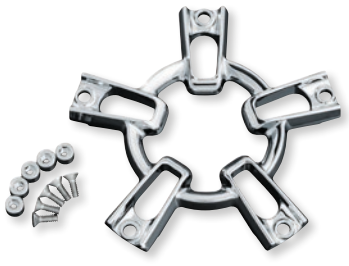

KURYAKYN

CLEAR TRAP DOOR FOR HYPERCHARGER™

- Direct replacement for the trap door on Kuryakyn's standard and Blood Groove Hyperchargers™
- Gives you an inside look at the inner workings of the air cleaner and throttle body
- Trim ring is cast aluminum construction
- Clear window is made from durable, shatterproof polycarbonate
- Gasket included

PART #	DESCRIPTION
1014-0242	Clear trap door for Hypercharger™

KURYAKYN

MACH 2™ CO-AX UPDATE KIT

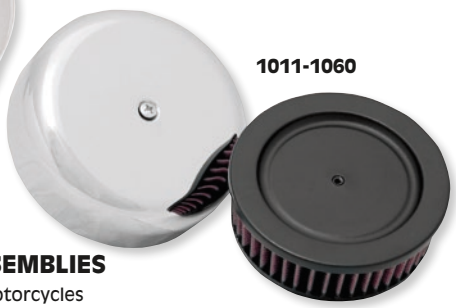

- Co-Ax Update Kit fits Mach 2 air cleaners only
- Sold each

NOTE: Not recommended for use on engine cases.

PART #	DESCRIPTION
1010-1552	Mach 2™ Co-Ax update kit

1011-1058

1011-1060

K&N

CUSTOM AIR CLEANER ASSEMBLIES

- Designed to fit Harley-Davidson motorcycles equipped with various carburetors
- Increase horsepower with proper carburetor calibration
- These air cleaners mount directly to the carburetor flange

PART #	DESCRIPTION
1011-1058	36-38 mm Mikuni air filter; 5" dia. open round style
1011-1060	40-45 mm Mikuni air filter; 6" dia. chrome bonnet style

1013-0059

1013-0060

AIR CLEANER ADAPTERS

- Allows installation of an LA Choppers xXx air cleaner or Baron Big Air Kit to a Mikuni or S&S carburetor
- Will also work for mounting other air cleaner kits designed to mount stock CV carburetors; not for use with Arlen Ness Big Sucker air cleaners
- Constructed from 6061-T6 billet aluminum

PART #	DESCRIPTION
1013-0059	For Mikuni HSR42/45 carburetors
1013-0060	For S&S carburetors

MIKUNI AIR CLEANER ADAPTER

- Machined 6061-T6 billet aluminum construction
- Use to mount either an S&S E/G or Keihin CV style air cleaners to a Mikuni HSR 42/45 carb

PART #	DESCRIPTION
1013-0099	Mikuni adapter

1011-4200

1011-4207

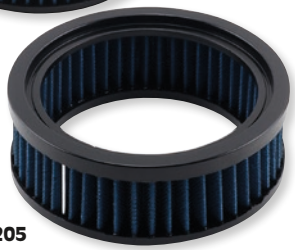

1011-4204

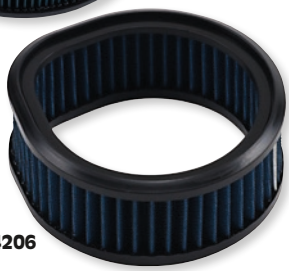

PREMIUM WASHABLE AIR FILTER ELEMENTS

- Durable epoxy-coated wire mesh designed to maximize airflow and provide peak filtration
- 100% reusable and washable
- Pre-oiled for quick, easy installation
- High-flow four-layer surgical-grade cotton filtration
- Urethane body will not crack or curl like rubber

1011-4205

1011-4206

PART #	DESCRIPTION
FOR BIG TWIN OEM AIR CLEANERS	
1011-4200	For 90-99 80" Evolution Big Twin (carb); K&N ref. # HD-1390; repl. OEM #29259-91A/29330-96
1011-4207	For 90-99 Screamin' Eagle Evolution Big Twin; K&N ref. # HD-0600; repl. OEM #29055-89

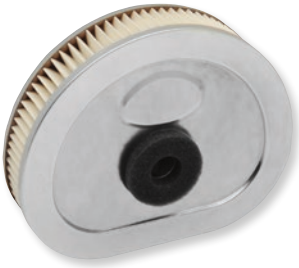

PART #	DESCRIPTION
FOR AFTERMARKET AIR CLEANERS	
1011-4204	For S&S "D" teardrop air cleaner; 6" x $2\frac{1}{16}$" (K&N ref. #E-3224)
1011-4205	For S&S teardrop air cleaner; 6" x $2\frac{3}{16}$" (K&N ref. #E3225)
1011-4206	For S&S Super E and G teardrop air cleaner; 6" x 2½" (K&N ref. #E3226)

1011-3247

1011-2960

1011-4218

OEM-STYLE REPLACEMENT AIR FILTER ELEMENTS

- High-quality paper filter medium
- Meets or exceeds OEM specifications
- For use with OEM stock air filter housings

NOTE: Not for use with Screamin' Eagle air cleaners.

1011-4215

1011-4216

1011-4217

REPLACEMENT AIR FILTERS

1011-2053

- Replacement larger-profile red air filter elements for original-style LA Choppers Air Cleaner Assembly kits and Affliction Air Cleaners and for current air cleaners using the new-style low-profile black air filter element

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN W/ CV CARB	
1011-2053	Repl. red air filter element (8" diameter)
1011-3628	Repl. black air filter element

UNIVERSAL CLAMP-ON AIR FILTER

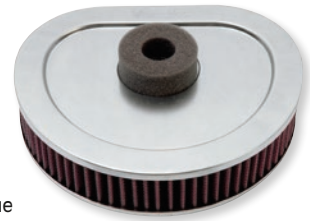

- Round tapered universal air filter
- Rubber end cap
- Pleated design increases surface area air flow
- Match the outer diameter (OD) of your carb throat with the inner diameter (ID) of the filter (given in inches and millimeters)
- Filter length: 5,219"
- Base OD: 4,483"
- Top OD: 3 1/2"
- Flange ID: 3"
- Flange length: 0,719"
- Flange type: centered

PART #	DESCRIPTION
1011-3969	Universal clamp-on air filter

HIGH-FLOW REPLACEMENT AIR FILTERS™

HD-1390

HD-2076

E-3224

- Designed to increase horsepower and torque
- Pleated media provides a large filtration area offering long service intervals
- Application-specific sealing bead ensures an airtight fit
- Multi-layers of woven cotton gauze media offer excellent filtration
- Washable, reusable, pre-oiled and ready to ride

0901-0188

V80 LONG BLOCK ENGINES

- Stock-height basic engine is direct bolt-in replacement for aging 80" H-D Evolution engines
- Compatible with EFI
- Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- 508 cam
- Forged rocker arms
- 585 valve springs
- Flat top cast pistons
- S&S standard oil pump
- S&S performance replacement heads
- 3 1/2" x 4 1/4" bore and stroke
- 8,4:1 compression ratio

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN OR 70-99 CUSTOM CHASSIS W/ ALTERNATOR-STYLE PRIMARY

V80 COMPLETE ENGINE

- Same displacement and dimensions as the 84-99 H-D Evolution engine
- Wrinkle black finish
- S&S Super E carburetor
- S&S 508 cams
- High-flow S&S cylinder heads
- S&S Super Stock™ single-fire ignition

PART #	DESCRIPTION
0901-0230	For 84-99 Evolution Big Twin or 70-99 custom frame w/ alternator-style primary

0901-0208

V111 LONG BLOCK ENGINES

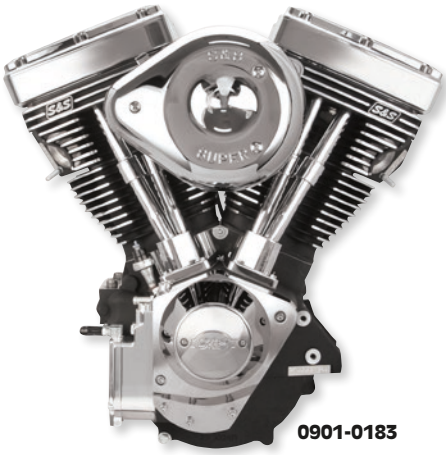

- +30% increase in HP and torque over stock
- Compatible with EFI
- Short stroke for less vibration and longer engine life
- Shorter than stock engine height for easy installation
- Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- High-volume, high-pressure (HVHP) oil pump
- Durable S&S three-piece flywheels
- Performance 585 cam and valve springs
- 4 1/8" x 4 1/8" bore and stroke
- 9,8:1 compression ratio

0901-0229

V111 COMPLETE ENGINES

- Short stroke produces less vibration and longer engine life
- Includes piston cooling jets and large cooling fins to increase cooling efficiency
- HVHP (High Volume High Pressure) oil pump
- S&S 585 cam and lightweight single coil valve springs minimize valve train noise
- S&S forged rocker arms
- Shorter than stock height engine makes installation easy
- Natural finish engine includes chrome-plated rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes
- Gloss black finish engine includes gloss black rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes
- Wrinkle black finish engine includes chrome rocker covers, air cleaner cover, oil pump, gear cover, tappet blocks and pushrod tubes

V124 LONG BLOCK ENGINES

- 124 cubic inch displacement
- Does not include carburetor, air cleaner or ignition, use stock or aftermarket EFI, carburetor or air cleaner
- 4 1/8" bore, 4 5/8" stroke
- 640 cam
- Three-piece flywheel assembly
- 1.671" diameter crankpin
- .927" wristpins
- 10.8:1 compression forged pistons
- High-volume, high-pressure (HVHP) oil pump
- Electric compression releases
- Chrome/wrinkle black engine includes chrome billet timing covers
- Chrome/natural finish engine includes chrome-plated engine and timing covers
- Black Edition engine includes gloss black engine covers in place of the standard chrome covers

P-93 SERIES COMPLETE ENGINE

- Natural crankcases and stock-looking silver powdercoated cylinders
- S&S hydraulic valve train with roller rocker arms
- S&S billet timer and S&S Super Stock single-fire ignition system protects engine with a three-step break-in rev-limiter for first 24-hours of operation
- Has correct length sprocket shaft for 1970-up primary and transmission
- Includes oil filter mount at generator location
- 66-84 exhaust systems
- 66-84 intake ports with O-ring inlets
- 93" displacement, 8,5:1 compression, 4 1/2" stroke, 3 5/8" bore

PART #	DESCRIPTION
0901-0180	For 70-84 custom chassis w/ alternator-style primary

KN-93 SERIES COMPLETE ENGINE

- Natural crankcases and black powdercoated cylinders and heads
- S&S Super Stock™ single fire ignition system and polished billet timer protects engine with a three-step break-in rev-limiter for first 24-hours of operation
- S&S Super E carburetor
- Correct length sprocket shaft for 1970-up primary and transmission
- Allows the use of modern primary, transmission, clutch components and electrical system
- Includes oil filter mount at generator location
- 93" displacement, 8.2:1 compression ratio, 4 1/2" stroke, 3 5/8" bore

PART #	DESCRIPTION
0901-0255	For 70-99 custom chassis, with alternator-style primary

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

74" AND 80" TOP END KITS

- Includes a set of S&S Shovelhead-style cylinder heads, a pair of S&S stock bore cylinders (3 7/16" for 74" engines or 3 1/2" for 80"), forged 8:1 compression pistons complete with rings and wrist pins, manifold clamps, manifold seals, all required hardware, and gaskets
- Pistons are pre-fit to the cylinders, so there is no machine work to be done and very little downtime

PART #	DESCRIPTION
0903-1269	For 66-78 Big Twin (74")

PART #	DESCRIPTION
0903-1270	For 79-84 Big Twin (80")

SIDEWINDER® BIG BORE STROKER KIT

- Contains nearly everything needed to take a stock 74" or 80" Shovelhead engine up to 93"
- Includes 3,625" bore high-tensile, cast iron Sidewinder® cylinders and forged pistons with wristpin and rings, a 4,5" stroke, dynamically balanced S&S flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts, S&S stainless steel head bolts, base nut, S&S adjustable chromoly steel pushrods, head gaskets, base gaskets, exhaust gaskets, and an S&S heavy-duty top motor mount

PART #	DESCRIPTION
FOR 70-84 SHOVELHEAD	
0904-0004	93", approximate compression ratio of 8,5:1

96" SIDEWINDER KIT

- Kit includes standard flywheel assembly, 3 5/8" bore cylinders, 9,75:1 pistons, rings and gaskets
- Wrinkle black powdercoat cylinder finish

NOTE: Cases must be bored to accept 3 5/8" bore cylinders, and a minor crankcase clearancing operation for the crankpin nut must be performed.

NOTE: 77-89 style pinion gear and oil pump drive gears must be used when installing S&S flywheels in 90-99 engines.

PART #	DESCRIPTION
0903-1258	For 84-99 Evolution Big Twin w/ stock heads

STOCK BORE 80" CYLINDER AND STANDARD COMPRESSION PISTON KIT

- Intended to replace the cylinders and pistons of a 80" Shovelhead engine and maintain the stock compression ratio of 8:1
- Compatible with stock or S&S cylinder heads
- Includes S&S 3,5" bore high tensile-cast iron cylinders, 3,5" bore forged standard compression pistons for 80" (4,25" stroke) engines with rings and wristpins, head gaskets, S&S stainless steel bolts with washers, base nuts and base gaskets

PART #	DESCRIPTION
0931-0688	For 79-84 Shovelhead

3 5/8" BIG BORE CYLINDER AND BIG BORE PISTON KIT

- Cylinder and piston kit can be used to build an 88" engine, or to replace the cylinders and piston in an engine with an existing S&S® stock bore stroker kit
- Includes 3 5/8" bore high-tensile cast iron cylinders, forged pistons with rings and wristpins, head gaskets, stainless steel head bolts with washers, base nuts and base gaskets
- 88", 10,8:1 compression
- Can be used in engines with 4 1/4" flywheels

PART #	DESCRIPTION
0931-0690	For 66-84 Shovelhead

EVOLUTION-STYLE ALUMINUM CYLINDERS

- Cylinder sets without pistons are bored slightly under normal size and are not honed
- Finishes match OEM components
- Includes dowel pins
- Sold in pairs

NOTE: Stock crankcases must be machined to accommodate the large spigot diameter of 3 5/8" bore cylinders.

PART #	DISPLACEMENT	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN		
0931-0673	96" (3 5/8" bore)	Black powdercoat finish w/ machined fin edges

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

REPLACEMENT CYLINDERS FOR EVOLUTION-STYLE MOTORS

- Replacement cylinders feature ductile cast-iron sleeves in aluminum castings
- Sleeve has external ribs that "lock" the sleeve to the aluminum casting so it cannot move
- Excellent for stock replacement
- Cylinders are finished slightly undersized so they may be finish-honed to fit your pistons
- Sold each

DS-750507

0931-0017

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN; REPL. OEM #S 16510-83A, 16512-86A (1340CC)	
DS-750507	Natural

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN; REPL. OEM #S 16510-83A, 16512-86A (1340CC) (CONT)	
0931-0017	Black w/ highlight fins

CYLINDERS

- Cast-iron cylinders meet or exceed OEM tolerance specifications
- Withstand greater pressure and heat than stock
- Available in front and rear versions
- Sold each

NOTE: All Shovelhead cylinders require the use of 12-point head bolts DS-190796.

NOTE: Panhead cylinders are limited to 0,040" overbore.

NOTE: Due to the many different brands of pistons that are available, all cylinders listed below will need to be sized and clearanced to the type of piston being used.

SUPER STOCK™ CYLINDER HEADS AND PISTON KITS

- S&S heads give great performance, and work with additional upgrades
- Kits are fully assembled, and include stainless steel valves and high-lift springs (up to 0,640 lift)
- Intake manifold, pistons and gasket kits are sold separately; gasket kits contain head gaskets, base gaskets and exhaust pipe gaskets (rocker box gaskets are not included due to the variety of available rocker box styles)
- Must reuse stock headbolts
- S&S Super Stock piston kits are required and include 10:1 ratio pistons, rings, piston pins and clips (sold separately in pairs)
- Sold in pairs

PERFORMANCE REPLACEMENT HEADS

- Now S&S heads are available to be used with stock-style flat-top pistons
- Kits are fully assembled, and include stainless steel valves and high-lift (0,585") springs
- Intake manifold and gasket kits are sold separately; gasket kits contain head gaskets, base gaskets and exhaust pipe gaskets (rocker box gaskets are not included due to the variety of available rocker box styles)
- Optimized for smaller displacement engines
- High compression is 76cc, low compression is 82cc in chamber
- Port design increases flow, while maintaining velocity
- Set up for 0,585" maximum lift
- EFI compatible
- Sold in pairs

0934-0325

SUPER STOCK™ CYLINDER HEAD KITS

- Heads come completely assembled with valve seats, valves, guides, seals, 0,590" lift valve springs, collars and valve keepers
- Complete kits also include rocker cover gaskets, head gaskets and miscellaneous hardware with instructions
- Use OEM manifolds and exhaust
- 79-84 design uses band-style intake (not included)
- PART #0930-0013 comes machined for dual plugs and internal oil drains
- Sold in pairs

PART #	DESCRIPTION
FOR 3 5/8" BORE CYLINDERS	
0930-0133	79-84 style heads, dual spark plugs (rubber band intake)
0930-0134	79-84 style heads, single spark plug (rubber band intake)
0930-0017	66-78 style heads, (O-ring intake)
0930-0013	66-78 high-compression style heads, (O-ring intake), dual plugs/internal oil drains

PART #	DESCRIPTION
FOR STOCK BORE CYLINDERS	
0930-0015	66-78 style heads, O-ring intake
0930-0009	79-84 style heads, rubber band intake

RETRO TOP-END CONVERSION KITS

- Give your Shovelhead engine that nostalgic look of a Panhead
- Kit consists of a set of S&S P-series cylinder heads with rocker cradles, S&S roller rocker arms, S&S hydraulic tappets, billet tappet guides, Quickee pushrods, pushrod cover clips and all required gaskets and hardware for assembly
- Heads have a Shovelhead bolt pattern, making them compatible with any stock or aftermarket cylinders for 66-84 Big Twins; heads come complete with valves and 0,590" lift valve springs
- Accept stock or S&S O-ring-style manifolds for Shovelheads and any exhaust system made to fit a Shovelhead engine

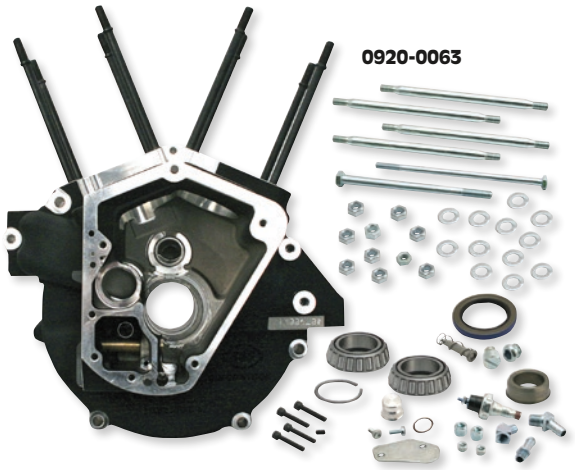

NOTE: Kits do not include pan covers.

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD	
0930-0089	For stock bore cylinders

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD (CONT)	
0930-0090	For 3,625" bore cylinders

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

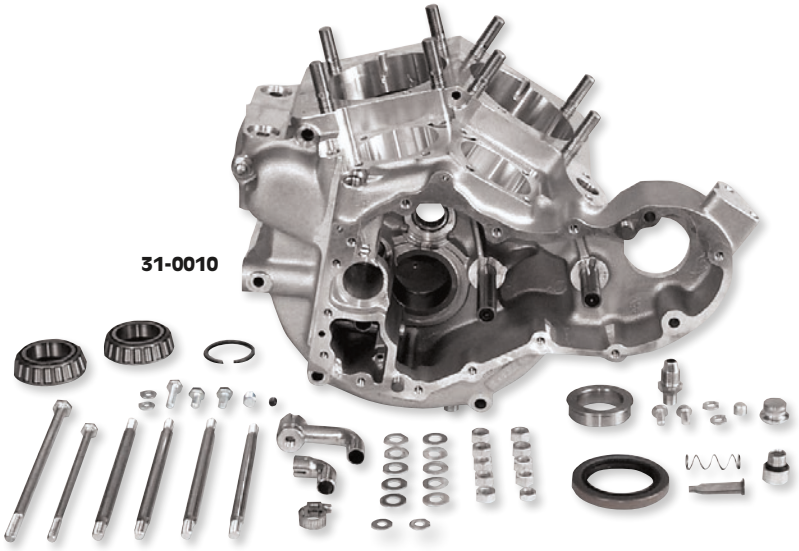

SUPER STOCK™ ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Cases are available for 3,5" stock and 3,625" big bore motors for any stroke up to and including 5" and most stock length connecting rods
- Machined to accept an oil filter assembly that mounts on the front of stock motor cases
- All races are line-honed and breather cavity is precision-machined to optimize breather timing for maximum oil scavenging
- Additional parts include; crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, oil pressure switch, oil screen, spring and plug, sprocket shaft Timken® bearing assembly and oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump drive shaft bushing and installation instructions
- Machined for EFI fitment

PART #	DESCRIPTION
STANDARD BORE CASES	
0920-0063	For 92-99 Evolution Big Twin, black powdercoat finish
DS-194301	For 92-99 Evolution Big Twin, natural finish
DS-194303	For 84-91 Evolution Big Twin, natural finish
0920-0132	For 84-91 Evolution Big Twin, black powdercoat finish
DS-194305	For 70-84 Big Twin

PART #	DESCRIPTION
BIG BORE (3,625" CYLINDER BORE) CASES	
DS-194306	For 70-84 Big Twin
REPLACEMENT PARTS	
0920-0203	Crankcase oil screen for 48-99 Big Twin (except Twin Cam) (5-pk.); repl. OEM #24981-66, 24981-70

SUPER STOCK GENERATOR ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Includes crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, top end oil screen spring and plug, sprocket shaft Timken® bearing assembly, oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump shaft bushings and installation instructions
- Uses Timken style sprocket shaft bearings and 1958 and later pinion bearings (will not accept 1957 and earlier flywheels)
- Bearing races are all line honed and breather cavity is precision machined to optimize breather timing for maximum oil scavenging
- Machined for 3,4375" cylinders and tapped 1/4"-20 for gear covers, oil pump, tappet guides, timer and timer advance
- 65 models use 65 alloy inner primary
- 63-65 models with outside oil lines must use oil port to the rear of the tappet block or oil port in gear cover and use custom oil lines
- 66-69 models use 66-69 alloy inner primary
- Drilled for 5/16" generator mounting bolts
- Generator crankcase gear kit (includes circuit breaker drive gear, idler gear, circuit breaker gear and shims) and shafts must be purchased separately
- 70-84 models are for a 3 5/8" bore and machined for 70-84 alloy primary

PART #	DESCRIPTION
31-0010	65-69 Big Twin generator engine cases
0920-0124	48-64 Big Twin generator engine cases

PART #	DESCRIPTION
33-4226	Generator crankcase gear kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

84" STOCK BORE STROKER FLYWHEEL KIT

- Upgrades 74" and 80" Shovelhead engines to 84" displacement at approximately 8,4:1 or 7,3:1 compression (depending on pistons used)
- Includes a dynamically balanced 4 1/2" stroke flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts
- Reuse the stock cylinders, saving cost and retaining stock appearance of the engine
- Minor crankcase and cylinder modifications are required that can easily be done with hand tools
- Kit requires special pistons, which must be ordered separately (contact S&S for required pistons)

PART #	DESCRIPTION
0922-0161	For 70-84 Shovelhead

FLYWHEEL ASSEMBLIES FOR EVOLUTION MOTORS

- Made of high-strength forged steel and designed for stock and high-performance custom applications
- Special keyed 6° large diameter tapered sprocket shaft that provides more contact area for increased strength
- Standard S&S tapered crankpin and pinion shaft are used for ease-of-service
- 8 1/2" diameter with 4 1/4" or 4 5/8" stroke
- Kits come fully assembled, trued and balanced to stock H-D 80" or 96" pistons
- Include flywheel, crankpin and connecting rods

NOTE: 90-99 applications will require pinion shaft conversion kit PART #33-4148.

0921-0250

PART #	DESCRIPTION
FOR 95-98 EVOLUTION BIG TWIN (W/ EFI)	
0922-0146	4 1/4" stroke

PART #	DESCRIPTION
FOR 84-98 EVOLUTION BIG TWIN (W/ CARB)	
0921-0250	4 1/4" stroke
0922-0147	4 5/8" stroke

HEAVY-DUTY CONNECTING ROD SETS

- High-quality, heavy-duty rod sets come complete and ready-to-install
- Set includes front and rear rods, crankpin and nuts, steel cages and roller bearings
- Rods are deep-forged and heat-treated, 0,120" wider than stock in the I-beam section and feature rod-to-rod clearance to accommodate strokes up to and including 5"
- Crankpin has two oil holes and rod has four slots ground on each side of the throw ends to help maintain the oil film on thrust faces

NOTE: Installation of rod sets may require additional clearancing of flywheels and cases.

DS194027

PART #	DESCRIPTION
DS194027	For 84-99 Evolution Big Twin (0,792" wrist pin)
DS-194653	For L81-84 Big Twin (0,791" wrist pin)

PART #	DESCRIPTION
DS-194652	For 41-E81 Big Twin
DS194028	For 57-E81 XL (0,791" wrist pin)

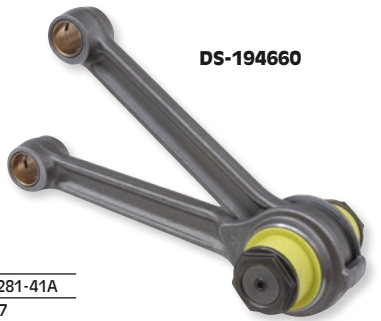

DRAG Specialties

ROD SETS

- Heavy-duty replacements, perfect for stock motors
- Meet or exceed OEM specifications
- Come completely fitted and ready to install
- Complete set includes a two-hole crankpin, aluminum retainers, bearings, nuts and forged heat-treated steel rods

DS-194662

DS-194660

PART #	DESCRIPTION
DS-194662	For L83-99 Big Twin; repl. OEM #24281-83
DS-194661	For 74-E81 Big Twin; repl. OEM #24281-74A

PART #	DESCRIPTION
DS-194660	For 41-73 Big Twin; repl. OEM #24281-41A
DS-194665	For 57-E81 XL; repl. OEM #24275-57

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

CRANKPIN ASSEMBLIES

0921-0161

- For use in stock and S&S flywheels
- Include crankpin, nuts and key

PART #	DESCRIPTION
0921-0161	For L81-99 Big Twin (except 99 Twin Cam)
0921-0162	For L81-99 Big Twin (except 99 Twin Cam) (+0,001")
0922-0162	For L81-99 Big Twin (except 99 Twin Cam) (+0,002")
0921-0159	For 41-E81 Big Twin

0921-0164

PART #	DESCRIPTION
0921-0160	For 41-E81 Big Twin (+0,001")
0921-0164	For L81-85 XL
0921-0163	For 57-E81 XL

CRANKPINS

DS-194002

- Quality replacements that equal or exceed OEM specifications
- Sold individually

PART #	DESCRIPTION
DS-194005	For L81-99 Big Twin (three-hole); repl. OEM #23961-80A
DS-194004	For 41-E81 74" Big Twin; repl. OEM #23961-41
DS-194006	For L81-85 XL (three-hole); repl. OEM #23960-81
DS-194002	For 54-E81 XL; repl. OEM #23960-54

CRANKPIN NUT/LOCK KIT

- Includes nuts, locks and screws, OEM #s 23966-54A, 23971-78, 2660

PART #	DESCRIPTION
DS-194010	For 41-E81 Big Twin; repl. OEM #23966-78

CRANKPIN NUT FOR S&S FLYWHEELS

- Sold each

PART #	DESCRIPTION
0920-0148	For L81-99 S&S flywheels

ROD RACE AND BUSHING SET

- Used to rebuild S&S and stock connecting rods
- Includes hardened steel rod bearing races and bronze wrist pin bushings
- Requires finish sizing after installation

PART #	DESCRIPTION
0923-0207	For 84-99 Big Twin (except Twin Cam)

ROD RACE SET

- Made from 52100 aerospace-quality Timken® bearing stock
- Sold as a set

PART #	DESCRIPTION
DS-194014	For 41-99 Big Twin; repl. OEM #s 24345-36A/24356-36A

WRIST PIN BUSHINGS

- Meets or exceeds fitment and wearability of OEM bushings
- Sold each

PART #	DESCRIPTION
0923-0378	For 41-99 Big Twin and S&S V96, V107 and V113 engines (0,767" x 0,895" x 1,077"); repl. OEM #24334-36

WRIST PIN BUSHINGS

DS-197065

- Machined from solid bronze bar stock
- Hold concentricity to less than 0,0002"
- Sold in pairs

PART #	DESCRIPTION
FOR 36-99 BIG TWIN	
DS-197065	Std.; repl. OEM #24334-36
DS-197066	+0,005"
FOR 54-85 XL	
DS-198825	Repl. OEM #24331-36

WRIST PIN BUSHINGS

0922-0104

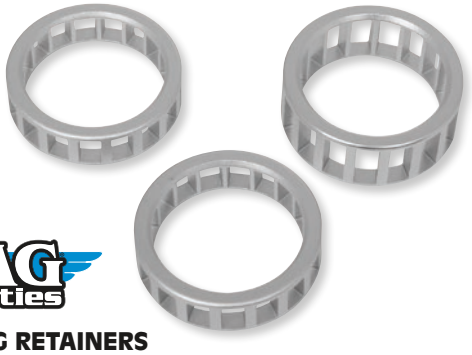

- All are constructed of SAE660 bearing bronze (except PART #0923-0468)
- Made to exact tolerances and will meet or exceed fitment and wearability of all other OE style replacement bushings available
- Sold each

NOTE: Does not include oil holes. These must be drilled after installation.

PART #	DESCRIPTION
FOR 36-99 BIG TWIN	
0922-0104	Std.; repl. OEM #24334-36
0923-0468	Std. (nickel bronze alloy)
0922-0105	+0,002"
FOR 57-85 XL	
0923-0367	Std.
0923-0368	+0,002"

DRAG Specialties

ROD BEARING RETAINERS

- Replacement roller-type for Harley connecting rods
- Quality equal to OEM
- Sold in sets of three

PART #	DESCRIPTION
DS-194018	For 41-86 Big Twin; repl. OEM #s 24366-71, 24367-71
DS-194017	For 57-85 XL; repl. OEM #s 24362-54A, 24364-54A

PROVEN S&S PERFORMANCE

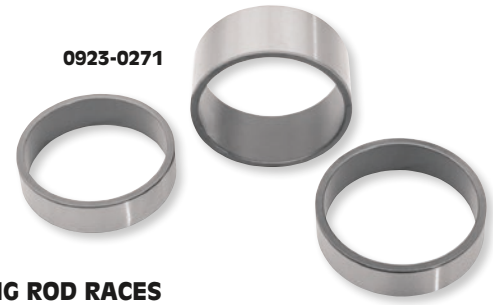

LOWER ROD BEARINGS WITH CAGES

- High-quality OE replacement components

PART #	DESCRIPTION
0924-0390	For 84-99 Evolution Big Twin

Eastern MC Parts

0923-0271

CONNECTING ROD RACES

- Set of three

PART #	DESCRIPTION
0923-0271	For 41-84 Big Twin (except Evo); repl. OEM #24345-36A, 24356-36A
0923-0270	For 57-85 XL; repl. OEM #24352-52A, 24341-52A

Eastern MC Parts

ROD ROLLER BEARING KIT WITH RETAINERS

- Includes bearings and bearing retainers

PART #	DESCRIPTION
0924-0170	For 87-99 Evolution Big Twin; repl. OEM #24346-87A

Eastern MC Parts

0924-0474

0924-0193

CONNECTING ROD ROLLER SETS

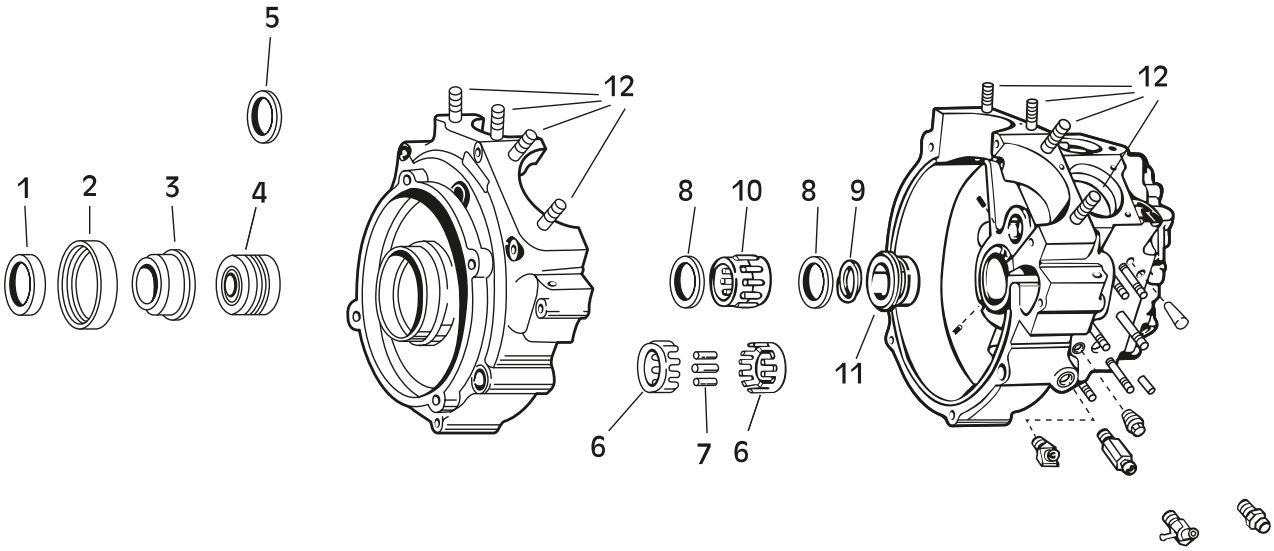

- Quality roller bearing sets meet or exceed OEM specs

PINION GEAR SHAFTS (CONT)		
DS-194087	For 73-E81 Shovelhead	24006-73
DS-194086	For 58-72 Big Twin	24006-58
DS-194141	For 54-57 Panhead	24006-54A
DS-194143	For 36-53 Big Twin	24007-39

MOTOR SPROCKET SHAFT

- High-quality precision-manufactured shaft

PART #	DESCRIPTION
0922-0133	For 72-E81 Big Twin; repl. OEM #24001-72

0921-0221

0921-0168

MOTOR SPROCKET AND PINION SHAFT ASSEMBLIES

- Includes tapered shaft, nut and keys
- For use with standard diameter bearing

PART #	DESCRIPTION
SPROCKET SHAFT ASSEMBLIES	
0921-0221	For 70-99 Big Twin models (except 99 Twin Cam)
PINION SHAFT ASSEMBLIES	
0921-0168	For L81-99 Big Twin w/ OEM flywheels/ 84-99 Evolution Big Twin w/ S&S flywheels

PART #	DESCRIPTION
PINION SHAFT ASSEMBLIES (CONT)	
0921-0167	For 58-E81 Big Twin
0921-0166	For 36-53 Big Twin
REPLACEMENT PARTS	
0932-0129	Pinion and oil pump drive kit for 58-81 and 84 Big Twin

PINION PARALLEL KEY

- 0,188" x 0,469"
- Steel construction

PART #	DESCRIPTION
0920-0129	Pinion parallel key

MOTOR SPROCKET SHAFT SPACER

- Sold each

PART #	DESCRIPTION
0950-0885	For 65-99 S&S Big Twin, 70-99 OEM Big Twin cases (except Twin Cam); repl. OEM #24002-70

MOTOR SPROCKET SHAFT SPACER

- Machined to a 32-micron, burr-free finish for extended seal life
- Sold each

PART #	DESCRIPTION
DS-197034	For 70-99 Big Twin (except Twin Cam); repl. OEM #24002-70

MOTOR SPROCKET SHAFT SPACER KIT

- Spacers are machined to a 32-micron, burr-free finish for extended seal life
- Made to fit the sprocket shaft oil seal
- Eight-piece kit contains one of each of the following sizes: 0,336; 0,621; 0,516; 0,546; 0,574; 0,606; 0,636; 0,666

PART #	DESCRIPTION
DS-197035	For 55-69 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

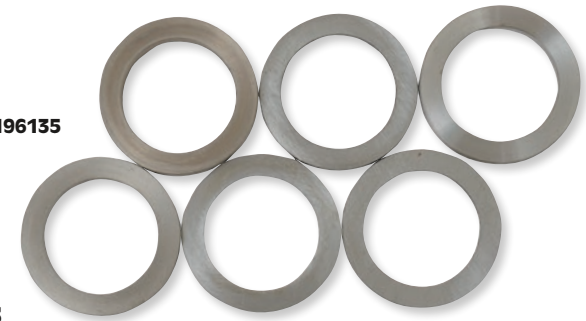

All part numbers in **BLUE** are new for the OldBook.

MOTOR SPROCKET SHAFT SPACER

- Sold each

PART #	DESCRIPTION
DS-195172	For 70-99 Big Twin (except Twin Cam); repl. OEM #24002-70

DS-196135

SPROCKET SHAFT SPACERS

- The only way to properly space/align the front motor sprocket or belt drive pulley
- Various thicknesses available in individual packs of five or as a set that includes one each of 0,060"; 0,090"; 0,120"; 0,150"; 0,180" and 0,210"

PART #	DESCRIPTION
FOR 70-99 BIG TWIN	
DS-196135	Set; 0,060-0,210"
DS-196151	0,010"; repl. OEM #35850-84
DS-196152	0,020"; repl. OEM #35851-84
FOR 70-99 BIG TWIN (CONT)	
DS-196153	0,030"; repl. OEM #35852-84
DS-196138	0,120"; repl. OEM #24034-70

DS-193410

MOTOR SPROCKET SHAFT BEARING RETAINERS

- Easy solution to the problem of oil seeping around the motor sprocket shaft
- Available in stock, oversized and undersized applications
- Retainer features a high-quality lip seal
- Sold each

PART #	DESCRIPTION
FOR 55-68 BIG TWIN	
DS-193410	Standard
FOR 48-54 BIG TWIN	
DS-193411	Standard w/ snap ring

PINION SHAFT GEAR NUT

- OEM or better quality
- Sold each

PART #	DESCRIPTION
0950-0808	For 54-89 Big Twin models; repl. OEM #26349-54

GEAR-SIDE PINION SHAFT NUTS

- 5/8"-24 left-hand threads
- Sold each

PART #	DESCRIPTION
DS-198838	For 90-92 Big Twin; repl. OEM #24022-90
DS-198839	For 54-89 Big Twin; repl. OEM #24023-54

GEAR-SIDE PINION SHAFT NUTS

- Sold in packs of five

PART #	DESCRIPTION
0950-0225	For 93-99 Evolution Big Twin; repl. OEM #7916A

FLYWHEEL-SIDE PINION SHAFT NUT

- Heavy-duty nut fits flywheel-side of pinion shaft
- 3/4"-20 thread
- Sold each

NOTE: Check rod clearance.

PART #	DESCRIPTION
DS-198835	For L81-99 Big Twin; repl. OEM #24016-80

FLYWHEEL-SIDE MOTOR SPROCKET SHAFT NUT

- Heavy-duty nut fits flywheel-side of sprocket shaft
- 1 1/8"-16 threads

PART #	DESCRIPTION
DS-198836	For 72-E85 Big Twin (rod clearance must be checked on 72-E81 models) and JIMS big tapered motor sprocket shafts (ea.)

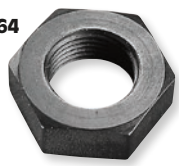

MOTOR SPROCKET NUT

- OE replacement
- Sold each

PART #	DESCRIPTION
DS-194074	For 55-99 Big Twin (except Twin Cam); repl. OEM #24003-55

DS-189864

MOTOR SPROCKET NUTS

- OEM replacement style
- Sold each

PART #	DESCRIPTION
DS-189864	For 55-99 Big Twin (except Twin Cam); repl. OEM #24003-55
DS-189865	For 30-54 Big Twin; repl. OEM #24003-30

ACORN FRONT BELT DRIVE PULLEY NUT

- Chrome front pulley nut for open primary belt drive applications
- Sold individually

PART #	DESCRIPTION
DS-193813	For 55-99 Big Twin (except Twin Cam)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

WISECO Performance Products

HIGH-PERFORMANCE PISTONS

- Forged from a high-silicon aluminum alloy to deliver long life and consistent dimensions
- Wiseco's high-tech manufacturing ensures greater operating strength and lower expansion at high temperatures
- Sold in kits that include two pistons, rings, piston pins and circlips
- Include forged pistons with coated skirts, rings, retainer clips and chrome piston pins
- Piston kits are available with Hastings-style X-Ring package (0,062 top ring, 0,062 compression ring and 0,158 oil ring)
- X- and XC-rings are identified by PART # in the application chart; X-Ring PART #s end with an "X" and XC-Ring PART #s end with an "XC"

NOTE: Replacement rings include rings for one piston only.

TRACKER™ SERIES 106" PISTON KIT

- Forged piston crown with generous valve pockets for big valves and cams
- Precision-fit rings selected for each application for ultimate sealing
- Force-fed pin oiling provides enhanced lubrication of the piston pin
- Pressure seal groove reduces ring lifting and power loss
- ArmorGlide® skirt coating reduces friction, providing quieter operation and improving scuff resistance
- Value-packaged with two pistons, rings, piston pins and circlips

All part numbers in **BLUE** are new for the OldBook.

PISTON KITS

- Replacement pistons available for stock and big-bore applications
- All piston kits come with two pistons, rings, wrist pins, and wrist pin keepers
- Compression ratios listed are approximate and are calculated using the correct length cylinders as specified by S&S
- Require the use of connecting rods with a rod length of 7,440" (standard length OEM #24281-74A connecting rods); use of earlier connecting rods with a rod length of 7,470" (OEM #24281-41A) will result in a slight increase in the compression ratio of about one-half point, and may also result in clearance problems (check all piston to cylinder head clearances carefully when using the early style rods)

REPLACEMENT PISTONS

- OEM-quality cast aluminum alloy construction
- Pistons come complete with wrist pins and keepers (sold in pairs)
- Available in various compression ratios
- Kit includes two pistons, wrist pins and clips
- Rings are not included (suggest using Hastings rings, sold separately)

HASTINGS Piston Rings®

REPLACEMENT PISTON RINGS

- Available in standard and oversize versions
- Features a cast or moly top ring
- Reverse torsional taper face second ring and easy "spiral on" three-piece oil rings

NOTE: Each PART # includes enough rings for two pistons, except where noted.

COMPRESSION RELEASE KIT

- Available in electric style for S&S heads that accept compression releases
- Electric compression releases open when you press the start button and close when the button is released
- Kit includes the required parts for installation
- For ease of installation and removal, a special socket can be purchased separately
- Not for use on OEM heads

PART #	DESCRIPTION
2009-9080	Electric compression release kit
0930-0135	Repl. electronic compression release unit for 84-99 Evolution Big Twin

PART #	DESCRIPTION
2009-9082	Compression release hole plugs (ea.)
0930-0041	Repl. silicone solenoid caps (pr.)
0930-0137	Repl. silicone solenoid caps (ea.)

COMPRESSION RELEASE VALVES

- State-of-the-art design to help reduce hot start issues and starter/battery loads
- Have 5-7 Newtons of closing force resistance
- Custom molded knobs ensure they stay cool to the touch and are easy to operate
- Require an M10 x 1,00 threaded hole for installation
- Sold in pairs

PART #	DESCRIPTION
0950-0887	M10 x 1,00 threads, 1,400" overall length

MANUAL COMPRESSION RELEASE VALVES

- Give your starter a hand by installing these in your high-compression, big-inch motor
- Simply drill and tap (10 mm x 1,0 mm) each cylinder head and thread in the self-sealing release valves (thread tap PART #DS-196409 available separately)
- Sold in pairs

PART #	DESCRIPTION
DS-196400	Compression release valves for all Big Twin

COMPRESSION RELEASE CAPS

- Chrome cap covers the plain plastic end on many aftermarket compression releases
- Billet aluminum construction
- Install with silicone adhesive (not included)
- Sold in pairs

PART #	DESCRIPTION
0950-0101	Compression release caps

COMPRESSION RELEASE ADAPTERS

- Designed to be used in twin plug heads
- Accept 0,650"/10 mm x 1,0 compression release valves
- Sold each

PART #	DESCRIPTION
0950-0082	12 mm x 3/4" reach
0950-0080	14 mm x 3/4" reach

MANGANESE BRONZE VALVE GUIDES

- Precision-machined guides
- Excellent heat conductivity which promotes long valve life
- Guides can be easily reamed with a battery-operated or electric drill and finished with a high-quality ball hone
- Eliminates the need for expensive honing equipment that would be required for nickel bronze valve guides
- Machined to accept OEM and aftermarket seals

C630 NICKEL-ALUMINUM BRONZE VALVE GUIDES

- 5% nickel content provides superior resistance to wear and the 80% copper content delivers outstanding heat conductivity
- Designed to have minimal effect on air stream while maintaining critical cross sectional thickness in high-temperature areas
- Precision-machined from C630 nickel-aluminum bronze
- Compatible with no-lead fuel and accept any type of valve-stem material

EVOLUTION OEM-STYLE GUIDES

- Overall length is 2,40"
- OEM style
- Machined for standard 0,420" seal
- Can be used as an intake or exhaust valve guide

XL OEM-STYLE GUIDES

- Overall length is 1,77"

- High-quality replacement valve guide seals

PART #	DESCRIPTION
0935-1009	For 84-99 Evolution Big Twin (8-pk.); repl. OEM #18001-83B

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

0926-1166 0926-1168

FEULING

VALVE GUIDE SEALS

- High-quality Viton® valve seals
- Designed to handle high engine temperatures with a built-in spring-loaded wiper to clean excess oil from valve stem with minimal friction
- Include four seals

PART #	DESCRIPTION
0926-1166	For 84-99 Evolution Big Twin; repl. OEM #18061-83B
0926-1168	For 0,530" guide, 5/16" valve for most Screamin' Eagle heads

Genuine JAMES GASKETS

VITON® VALVE GUIDE SEAL KIT

- Kit includes four valve guide seals

PART #	DESCRIPTION
DS-199107	For 84-99 Evolution Big Twin; repl. OEM #18001-83B

Kibblewhite Precision Machining Inc. Manufacturer of Valvetrain Components

PREMIUM VALVE SEALS

- Solid Viton® and solid PTFE seals utilize choker spring and lower tension spring to maintain optimal seal under high heat/stress conditions
- For use with stock intake and exhaust valve guides, except where noted
- Sold in packages of four

0926-3204

0926-0327

PART #	DESCRIPTION
VITON® SEALS	
0926-3204	For 84-99 Evolution Big Twin (use with 0,420" guides)
0926-3205	For 66-84 Shovelhead, 48-65 Panhead (0,562" x 3/8" seal cutter may be required for installation)
0926-3327	For 57-83 XL (use with 0,530" guides)

PART #	DESCRIPTION
PTFE SEALS	
0926-0327	For 84-99 Evolution Big Twin; repl. OEM #18001-83B
0926-0792	For 66-84 Shovelhead (use with 0,565" guides), 48-65 Panhead
0926-0794	For L79-84 Shovelhead w/ thin stem valves (0,3090" intake) (use with 0,565" guides)
0926-0795	For L79-84 Shovelhead w/ thin stem valves (0,3384" exhaust) (use with 0,565" guides)

VALVE GUIDE SEALS

- Seals sold in 4-packs

0926-2050

FITS MODEL	PART #	STEM OD	GUIDE OD

HIGH CHROME VALVE SEATS

- Seats contain 18-22% Chromium for resistance to abrasion, corrosion and deformation
- Nickel content of 1-2% for added corrosion resistance and toughness
- Machined from solid bar stock and ground to exact tolerances
- Machines as a continuous chip
- Ideal alternative to powder metal valve seats
- Sold each
- Made in the U.S.A.

0926-3308

BLACK DIAMOND™ ENGINE VALVE KITS

- Kits include KPMI® or equivalent valve spring kit, a full set of Black Diamond™ stainless steel standard size valves, H.T. Steel valve keepers and valve stem seals (where applicable) for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kit for one engine

PART #	DESCRIPTION
0926-3210	For 84-99 Evolution Big Twin
0926-3316	For 78-84 Shovelhead (80")
0926-3314	For 66-77 Shovelhead (74")

PART #	DESCRIPTION
0926-3212	For 84-85 883 XL
0926-3308	For 36-47 Knucklehead
0926-3208	For 70-83 XL

0926-3209

0926-3315

BLACK DIAMOND™ VALVE KITS

- Full set of Black Diamond™ stainless steel standard size valves for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kits for one engine

PART #	DESCRIPTION
0926-3209	For 84-99 Evolution Big Twin
0926-3315	For 78-84 Shovelhead (80")
0926-3313	For 66-77 Shovelhead (74")
0926-3309	For 48-65 Panhead
0926-3207	For 70-83 Sportster

0926-2943

NITRIDED VALVES

- One-piece stainless-steel, stellite-tipped valves impregnated by a special nitrided process with 0,002" depth and 0,0002" surface buildup to improve wear properties and reduce friction
- This process provides resistance to corrosion; wears superior to hard chromium and electrolysis nickel-plating
- Lightweight with profiles that provide excellent flow characteristics
- Compatible with leaded and unleaded fuels and can be run in cast iron- and bronze-type guides at close tolerances for maximum oil control and heat dissipation
- Sold each

2008-2910

REPLACEMENT STAINLESS STEEL VALVES FOR S&S HEADS

- Available for 89cc/91cc cylinder heads
- 89cc/91cc heads are found on S&S Evolution-style motors and use 2,000" intake valves and 1,605" exhaust valves

PART #	DESCRIPTION
FOR 89 CC/91 CC HEADS	
2008-2910	Intake valve 2,000"
2008-2911	Exhaust valve 1,605"

0926-0128

REPLACEMENT VALVES

- Intake valve has the stock 1,950" head dia.
- Exhaust valve has 1,720" head, 0,030" smaller than stock; the smaller exhaust valve head allows higher TDC lifts without valve-to-valve interference as well as improved flow
- Sold each

PART #	DESCRIPTION
FOR 66-84 BIG TWIN	
0926-0128	1,950" intake valve; repl OEM #s 18075-80/81 and 18078-80/81
0926-0129	1,720" exhaust valve; repl OEM #s 18086-80/81 and 18089-80/81

HYDRAULIC VALVE TRAIN CONVERSION KIT FOR SHOVELHEAD ENGINES

- Quiet, dependable hydraulic valve train
- Easy pushrod installation and removal
- Wide selection of late style cams to choose from (sold separately)
- For use with stock style rocker arms for oiling through external oil line
- Polished billet tappet guides
- Includes four 84-99 style tappets w/ HL2T kit, set of Quickee Adjustable pushrods, pushrod cover keepers, required hardware and gaskets

PART #	DESCRIPTION
0929-0060	For 66-84 Big Twin models

HIGH-PERFORMANCE VALVE SPRING KIT

- Includes four steel top collars, four bottom collars, four each outer, middle, and inner springs, shims, and eight keepers
- Use with stock valve guides, stock valves with $^{3}/_{8}$" stem, and stock keepers
- Compatible with thin-stem valves if thicker keepers (that maintain correct valve stem-top collar engagement) are used
- Lift, 0,590"; Installed height,1,480"; seat force, 157 lb.; force @ max lift 356 lb.

PART #	DESCRIPTION
0926-2802	For L81-84 Big Twin and all S&S cylinder heads

HIGH-LIFT VALVE SPRING KIT

- To be used with cams with up to 0,550" lift
- Includes springs and aluminum top retainers
- 140 lb. seat pressure

PART #	DESCRIPTION
DS-199729	For 48-84 Big Twin

SIDEWINDER® 0,650" VALVE SPRING KIT

- Includes springs, upper and lower collars and keys
- For valve lift to 0,650" with 1,860"/178 lbs. installed height, 376 lbs. at max lift
- Max 6500 rpm

PART #	DESCRIPTION
0926-2056	For 84-99 Evolution Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

0926-2927

0926-2926

0926-1443

COMPLETE VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- All PART #s except those listed below include new design HT steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall drive train mass
- PART #s 0926-0800, 0926-2929 includes 7057 T6 aluminum retainers

NOTE: XL applications may require machining of valve guides for special seals. May require "R"-style valves to achieve correct install height.

PART #	DESCRIPTION
FOR L79-84 SHOVELHEAD	
0926-2930[1]	0,600" lift (seat pressure 155-165 lb.)
0926-2927[1]	0,415" lift (seat pressure 125-135 lb.) (OEM style)
FOR 66-E79 SHOVELHEAD	
0926-0800[2]	0,600" lift (seat pressure 155-165 lb.)
0926-2926[2]	0,600" lift (seat pressure 155-165 lb.)
FOR 66-E79 SHOVELHEAD (CONT)	
0926-1443[2]	0,415" lift (seat pressure 125-135 lb.) (OEM style)
FOR 70-83 XL	
0926-0799	0,480" lift (seat pressure 155-165 lb.)

[1] Spring base: fits 0,625" guide.
[2] Spring base: fits 0,565" guide.

HIGH-PERFORMANCE OVATE WIRE BEEHIVE VALVE SPRING KITS

- Progressively wound springs using Kobe super-clean, chrome silicon-based wire that is heat treated and shot peened
- Tight-tolerance, FEA-designed hardened steel Posi-Loc™ style upper retainers to ensure correct assembly height and resist keeper "pull through"
- Hardened steel basewashers control lateral movement
- Kits use OEM-style valve keys (sold separately)
- Accept 84-99 Evolution Big Twin style valve guide seals (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-3001	0,660" lift (seat pressure 178 lb.)

0926-0802

RACING VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- Include new design H.T. steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall valve train mass
- PART #0926-2935 includes titanium springs

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0802	0,600" lift (seat pressure 170-180 lb.)
0926-3167	0,650" lift (seat pressure 185 lb.)
0926-2935	0,655" lift (seat pressure 190 lb.) (titanium springs)
0926-2936	0,655" lift (seat pressure 185 lb.)

VALVE SPRING KIT

- Dual super-clean, chrome silicon OEM-style stock replacement springs
- Accepts OEM-style spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0807	For 57-83 XL

VALVE SPRING KIT

- Dual super clean chrome silicon springs; 0,600" lift with a 155-165 lb. seat pressure
- Accepts stock and aftermarket spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0806	For 48-84 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

COMP CAMS

DUAL VALVE SPRING KIT

- Springs are made from super-clean, stress-relieved chrome silicon wire
- Provides excellent durability and resistance to load loss when using aggressive camshaft profiles
- Includes unique 10° super keys and retainers
- Wider key angle ensures a stronger assembly vs. the OEM 7° keeper angle
- High-strength chromoly retainers
- 0,685" lift capable spring assembly
- Kit fits $^{5}/_{16}$" valve stems
- 184 lb @ 1,850", 443 lb @ 1,230", 1,510" OD, 0,745" ID

PART #	DESCRIPTION
0926-2901	For 84-99 Evolution Big Twin

COMP CAMS

BEEHIVE™ VALVE SPRING KIT

- Beehive™ Valve Spring Kit designed as a drop-in performance valve train upgrade
- Beehive valve springs deliver a host of well-documented benefits over conventional cylindrical valve springs
- Increased rpm capability with no rocker box clearance problems
- Designed to work with the limited valve spring installed height of the Harley V-Twin engine, small spring pocket and high-lift cams

PART #	DESCRIPTION
0926-0691	For 84-99 Evolution Big Twin; 0,650" lift, for $^{5}/_{16}$" dia. valve stem

VALVE SPRING KIT

COMP CAMS

- Chromoly retainers
- Features interference-wound double springs with a damper
- Includes 10° super keys and lower seats
- For use with cam lifts up to 0,600"
- Seat pressure 160 lb.

PART #	DESCRIPTION
DS-199501	For 84-99 Evolution Big Twin

JIMS Performance Parts for Harley-Davidson Motorcycles

VALVE SPRING KITS

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring kits are 1,460" OD and have a pressure of 160 lb. when closed and 440 lb at 0,500" lift; installed height should be 1,850"; coil bind is at 1,200"
- Kits include locks, retainers and spring seats

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-199523	0,600" spring kit w/ chromoly retainers

VALVE SPRING SET

JIMS Performance Parts for Harley-Davidson Motorcycles

- Incorporates an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring sets are 1,460" OD and have a pressure of 125 lb. when closed and 275 lb at 0,500" lift; installed height should be 1,800"; coil bind occurs at 1,150"
- Sold in a set of four springs (enough for one engine)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-199547	0,600" spring set

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

FEULING

FEULING BEEHIVE VALVE SPRINGS

ENDURANCE BEEHIVE® VALVE SPRING KIT WITH TITANIUM RETAINERS

- Machined from premium-grade high-tensile chrome silicon single-conical ovate wire
- Shot-peened with specially processed thermal heat treat and super NexTex® finish for fatigue life needed to exceed high demands of V-Twin engines
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Direct bolt-in replacement up to 0,650" cam lift; no machining or rocker box clearancing required
- Available for 5/16" valves
- 7°, standard 5/16" valve stem and keeper groove
- Kit includes: Endurance BeeHive® valve springs, lightweight 7° super Titanium heat-treated retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 198 lb. at 1,685" (0,535" lift), 194 lb. at 1,703" (0,553" lift), 190 lb. at 1,724" (0,574" lift), 187 lb. at 1,754" (0,604" lift), 185 lb. at 1,780" (0,630" lift), 160 lb. at 1,800" (0,650" lift), 375 lb. at 1,150" (open height) coil bind at 1,100"
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
0926-0851	For 84-99 Evolution Big Twin

0926-1467

0926-3322

ECONO BEEHIVE® VALVE SPRING KITS

- Made from premium stress-relieved conical ovate wire
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the demands of performance engines with 0,585" and smaller lift camshafts
- Available for 5/16" valves
- PART #0926-1467 includes Econo BeeHive® valve springs, lightweight 7° steel retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- PART #0926-3322 includes Econo BeeHive® valve springs, lightweight 7° Ti retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lb./installed height; 183 lb. at 1,760" (0,510" lift), 175 lb. at 1,785" (0,535" lift), 172 lb. at 1,803" (0,553" lift), 165 lb. at 1,825" (0,574" lift), 163 lb. at 1,835" (0,585" lift), 380 lb. at 1,250" OPEN HEIGHT coil bind at 1,180"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Econo BeeHive® kit is direct replacement with no machining or rocker box clearance required for cams up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-1467	7°,5/16" valve stem w/ stock keeper groove (includes steel retainers)
0926-3322	7°,5/16" valve stem w/ stock keeper groove (includes titanium retainers)

ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Provide correct spring force for any of our performance cams when used in 74" and 80" motors
- Max lift; installation does not require complicated machining but does require proper valvetrain setup

PART #	DESCRIPTION
DS-199736	For 66-84 Shovelhead

HIGH-LIFT VALVE SPRING KIT

- Accommodates cam lifts of 0,550"+
- Installation does not require machining of heads
- Kit includes four inner and four outer springs
- For use with titanium upper spring collars
- Collars sold separately

PART #	DESCRIPTION
DS-199739	For 84-99 Evolution Big Twin

HIGH-LIFT UPPER SPRING COLLARS

- Cams with 0,600" lift can easily be accommodated when used with high-lift springs
- Made from T6 aluminum, collars are lightweight, hard-coated and very strong
- Sold as a set of four

PART #	DESCRIPTION
DS-199735	For 66-84 Shovelhead

MEDIUM-LIFT UPPER SPRING COLLAR SET

- Intended to work with stock springs and add approximately 0,060" spring travel with no other modifications on 66-84 74" and 80" motors
- The easy way to install B or #2 cams in stock heads
- Sold as a set of four

PART #	DESCRIPTION
DS-199737	For 66-84 Shovelhead

DS-199738

0926-1439

LOW-PROFILE SPRING COLLAR SETS

- Similar to stock 80-style parts, but lower profile for easier installation of higher lift cams
- Required parts if you use 80-style valve guides that utilize "K" line stem seals
- Heat-treated steel
- Sold as a set of four

PART #	DESCRIPTION
DS-199738	For 66-84 Shovelhead (lower)
0926-1439	For 84-99 Evolution Big Twin (upper)

LOW-PROFILE LOWER SPRING COLLARS

- Similar to the late H-D collars
- Will provide 0,060" more spring travel than stock collars
- Sold as a set of four

PART #	DESCRIPTION
DS-199727	For 57-85 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

LOWER COLLARS

- Made of heat-treated steel
- PART #0926-1445 is machined to fit 0,725" OD seal and 0,565" valve guide
- PART #0926-2928 is machined to fit 0,725" OD seal and 0,625" valve guide
- Lower collar is counter-bored to allow for greater retainer-to-seal clearance
- Sold in a set of four

0926-2928

PART #	DESCRIPTION
0926-2928	For L79-84 Shovelhead; work with 0,625" valve guides (OE style)
0926-1445	For 66-E79 Shovelhead; work with 0,565" valve guides (OE style)

VALVE SPRING SEAT SHIMS

- Set valve spring open height to match camshaft lifts for optimum valve-train stability and performance
- Include four 0,060" thick shims, four 0,030" thick shims and four 0,015" thick shims with 1,500" OD (outside diameter) and 0,645" ID (inside diameter)

PART #	DESCRIPTION
0930-0237	For 84-99 Big Twin

VALVE SPRING SHIM

- 0,574" x 1,450" x 0,030"
- Black, steel construction
- Sold each

PART #	DESCRIPTION
0930-0138	0,030" valve spring shim

VALVE SPRING KEEPERS

- Steel construction

PART #	DESCRIPTION
0926-3329	For 36-84 Big Twin (8-pack); repl. OEM #18228-36

VALVE LOCK KEYS

- Made from the highest-grade materials and heat-treated to JIMS strict standards
- Feature a 10° lock angle
- Work well with JIMS titanium valve spring retainers
- Sold in 8-pack

PART #	DESCRIPTION
DS-199555	For all 84-99 Evolution Big Twin that use a 10° lock angle and 5/16" valve stems

0926-1170

VALVE LOCK KEYS

- High-quality machined steel valve locks
- Sold in 8-pack

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-3368	Standard height groove 5/16" valve stems, 7° with square groove; repl. OEM #18229-83
0926-1170	Offset 10° for 5/16" valve stems; raise valve spring retainer to gain 0,050" of valve spring installed height (also fits Feuling High Load Beehive valve springs)

VALVE KEYS

- Made of H.T. steel
- Sold in 8-pack

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0777	7° standard; repl. OEM #18229-83
FOR 57-85 XL	
0926-0775	15° replacement (OE style)

0927-0015

0927-0001

FORGED ROLLER ROCKER ARMS

- Forged from 8620 steel, heat-treated then shot-peened for additional strength and durability
- Rocker arms have 0,75" long bushings instead of the 0,50" long bushings found on most other rocker arms
- Feature a modified lubrication system with unrestricted roller oiling
- 1,625:1 ratio
- Must be used with adjustable pushrods; sold separately
- Recommended that new rocker shafts be used when installing roller rocker arms; available separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0015	Roller rocker arms (set of 4)
0927-0001	Roller rocker rebuild kit

0927-0014

FORGED STANDARD ROCKER ARMS

- An economical solution for stock rebuilds, and mild performance upgrades
- Forged from 8620 steel for greater strength than stock or cast steel
- Features the same 0,750" long rocker shaft bushings as S&S Roller Rockers: longer bushing provides 50% more load bearing area; eliminates the risk of engine damage associated with failed needle bearings
- Valve contact tips are induction hardened for extended durability
- Recommended for cams of 0,585" lift or less
- Sold in set containing two each of front and rear arms or individually

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0014	Set of 4
0927-0032	Front exhaust/rear intake (ea.)
0927-0033	Rear exhaust/front intake (ea.)

ROLLER ROCKER ARMS

- Cast from 4340 heat-treated chromoly steel
- Reduce friction in the valve train, providing more horsepower and less heat in the top end
- Include 660 bronze bushing fit to 0,0007" - 0,0012" for the best wear resistance and oil control
- Roller tip made from bearing-grade material to reduce valve guide wear and valve tip galling
- Segmented parabolic pushrod cup reduces friction at pushrod ends, while putting the load on the outer perimeter of pushrod ends, with full oil pressure at pushrod tip
- Designed to work in conjunction with other JIMS valve train components; use JIMS Rocker Arm Shafts PART #DS-193819
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0021	For 66-84 Big Twin

FORGED ROLLER ROCKER ARMS

- Machined from 4140 forged steel and heat treated for maximum strength
- Features the exclusive 0,750" long S&S rocker arm bushing, which provides 50% more load bearing surface than stock 0,500" bushings
- Can be oiled through pushrods when used with S&S Shovelhead-style tappet guides and pushrods
- Nominal rocker ratio of 1,5:1
- Compatible with stock and S&S billet Shovelhead-style rocker boxes
- Some clearancing may be required when using stock rocker boxes
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0016	For 66-84 Shovelhead

ROLLER ROCKER ARMS

- The lightest rocker arm available, but still has superior strength characteristics due to its design
- The strength of 660 bronze bushings and bearing-grade steel for the roller tip
- Extensively tested under extreme conditions to ensure durability in your engine
- Will accept cams with up to 0,700" lift at a ratio of 1,625 (stock)
- Sold as a set of four

NOTE: Twin Cam rocker boxes may need to be clearanced.

PART #	DESCRIPTION
DS-193850	For 84-99 Evolution Big Twin; repl. OEM #s 17360-83/17375-83

DS-193833

DS-193834

REPLACEMENT ROCKER ARMS WITH BUSHINGS

- OEM style rocker arms
- Sold each

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-193833	Front intake/rear exhaust; repl. OEM #17360-83A
DS-193834	Front exhaust/rear intake; repl. OEM #17375-83A
FOR 66-84 SHOVELHEAD	
DS-193800	Front intake/rear exhaust; repl. OEM #17360-66A
DS-193801	Front exhaust/rear intake; repl. OEM #17375-66A
FOR 57-85 XL	
DS-193420	Front exhaust; repl. OEM #17394-57A
DS-193421	Rear exhaust; repl. OEM #17395-57A
DS-193422	Front intake; repl. OEM #17396-57A
DS-193423	Rear intake; repl. OEM #17397-57A

90-4036

ROCKER ARM SHAFTS

- Available as listed

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN; REPL. OEM #17611-83	
0927-0029	Each
90-4036	Set of 4

ROCKER ARM SHAFT

- Sold each

PART #	DESCRIPTION
0927-0023	For 66-84 Shovelhead; repl. OEM #17611-66B

ROCKER ARM BUSHING

- Replacement bushing for S&S roller rocker arms
- Sold each

PART #	DESCRIPTION
0927-0030	For S&S standard and roller rocker arms

ROCKER ARM BUSHINGS

- Constructed of SAE660 bearing bronze
- Sold as a set of eight

PART #	DESCRIPTION
0927-0024	For 66-84 Shovelhead, 57-E84 XL

SOCKET-HEAD ROCKER ARM SHAFT END PLUGS

- Available in chrome
- Sold in a set of four

PART #	DESCRIPTION
DS-190779	For 71-85 XL (1½"-20); repl. OEM #17448-71A

DS-193820

DS-193819

ROCKER ARM SHAFTS

- Sold each

PART #	DESCRIPTION
DS-193820	For 84-99 Evolution Big Twin; repl. OEM #17611-83
DS-193819	For 66-84 Shovelhead; repl. OEM #17611-66B

ROCKER ARM SHAFT

- Sold each

PART #	DESCRIPTION
0950-0355	For 57-85 XL; repl. OEM #17435-57B

ROCKER ARM BUSHINGS

- Manufactured from solid billet bearing bronze bar stock
- ID #0,547"
- Sold in packs of eight
- Ream to fit

PART #	DESCRIPTION
DS-193821	For 66-84 Big Twin, 57-85 Sportster models; repl. OEM #17428-57

0927-0004

ROCKER SHAFT ADJUSTER KIT

- Contains shims, spacers and seals to rebuild all four rocker arm shafts found in 66-84 Shovelhead engines
- Rocker arm will not come out of adjustment or need re-shimming
- Only needs to be replaced with each valve job
- Replacement seals sold in 4-pack

PART #	DESCRIPTION
0927-0004	For 66-84 Shovelhead
0927-0005	Repl. seals (4-pk.)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

DS-190773

CHROME REPLACEMENT ROCKER SHAFT END PLUGS AND NUTS

- Complete sets of beautifully chrome-plated stock-style replacement rocker shaft end plugs, nuts and washers

PART #	DESCRIPTION
DS-190773	For 71-84 Shovelhead, 71-85 XL
DS-190774	For 66-70 Shovelhead, 57-70 XL

DS-189931

CHROME-PLATED ROCKER SHAFT END PLUGS

- Hex-head design makes installation or removal easier than stock slotted style
- Sold in a set of four

PART #	DESCRIPTION
DS-189930	For 66-70 Shovelhead, 57-70 XL; 5/16"-24
DS-189931	For 71-84 Shovelhead, 71-85 XL; 1/2"-20

Eastern M C Parts

0927-0031

0950-0972

ROCKER SHAFT NUTS

- 7/16"-20 nuts are available with red or black seals
- PART #0927-0031 has a chrome finish
- Sold in 10-pack unless noted

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD, 57-85 XL	
0927-0031	Chrome nuts w/ red seals (4-pk.); repl. OEM #s 7825/7275
0950-0972	Cad-plated nuts w/ black ends and black seals (10-pk.); repl. OEM #7872B

ROCKER ARM BLOCK NUTS

- 5/16"-24 x 1/2" hex style
- Sold in 10-pack

PART #	DESCRIPTION
0927-0020	For 48-65 Big Twin; repl. OEM #7727

ROCKER ARM SHAFT SPACERS

- Sold in a 4-pack

PART #	DESCRIPTION
0927-0009	For 66-84 Shovelhead; repl. OEM #17452-66

ROCKER ARM WASHERS

- Replace the washers found under the rocker shaft nuts
- Steel construction with a zinc finish
- Sold in 25-pk.

PART #	DESCRIPTION
0927-0025	For 66-84 Shovelhead, 54-85 XL; repl. OEM #6466W

ROCKER ARM SHAFT WASHERS

- Sold in 10-pack

PART #	DESCRIPTION
0927-0013	For 73-81 Big Twin; repl. OEM #17450-73

0927-0006

ROCKER ARM SHIMS

- Sold in 10-pack

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD, 57-85 XL	
0927-0007	0,005" thick
0927-0006	0,007" thick
0927-0008	0,015" thick

SOLID LIFTER CONVERSION KIT

- Converts stock hydraulic lifters to adjustable solids
- Kit includes four nonadjustable steel pushrods, four adjustable inserts and instructions

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD	
0928-0062	Adjustable

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD (CONT)	
2008-5003	Non-adjustable

SOLID LIFTER CONVERSION KIT

- Hardened steel adapters
- Fit in place of the stock hydraulic units
- Use with stock adjustable pushrods
- Sold as a set of four

PART #	DESCRIPTION
0929-0059	For 53-84 Big Twin (except Evolution Big Twin)

HYDRAULIC LIFTER/TAPPET BLOCK KIT

- Fully engineered to utilize Evolution lifters and cams in Shovelhead engines
- Includes polished billet lifter blocks, 84-99 style lifter set, gaskets, pushrod clips, mounting hardware and a set of Quickee pushrods
- Evolution cams are sold separately
- Allows for top end oiling through the pushrods when used with S&S billet Shovelhead rocker covers (sold separately)

NOTE: Kit requires the use of S&S roller rocker arms (sold separately).

PART #	DESCRIPTION
0929-0002	For 66-84 Shovelhead

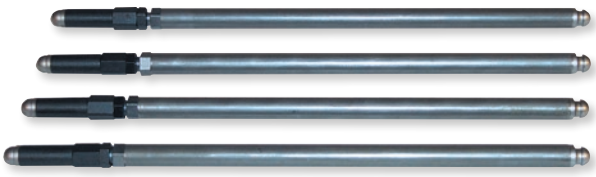

"TIME SAVER" CHROMOLY ADJUSTABLE PUSHRODS

- Pushrods adjust from 9,500" to 11,500"
- 9 mm diameter provides superior strength and durability
- Speed up the installation of performance cams, rockers or other maintenance
- Removal of rocker boxes is not required for installation
- Adjusting end is a huge 0,354" – 40% larger than 0,250" ends
- Chromoly construction
- Sold in sets of four

NOTE: Not for use on 66-84 Shovelhead with OEM style tappets.

PART #	DESCRIPTION
0928-0050	For 84-99 Evolution Big Twin and 66-84 Shovelhead models

ADJUSTABLE PUSHRODS

- 0,4375" diameter chromoly steel for maximum strength
- Rocker boxes must be removed for installation or removal
- Sold in sets of four

PART #	DESCRIPTION
93-5076	For 84-99 Evolution Big Twin

PART #	DESCRIPTION
0928-0049	For 66-84 Shovelhead; repl. OEM #17904-66

All part numbers in **BLUE** are new for the OldBook.

0928-0003

QUICKEE PUSHRODS

- Feature revolutionary design – allows quicker, easier installation without the removal of the rocker covers
- 0,4375" diameter Chromoly steel
- Threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod, making installation or removal a snap
- Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving
- The ball ends of the pushrods are drilled so that oil can flow through the pushrod

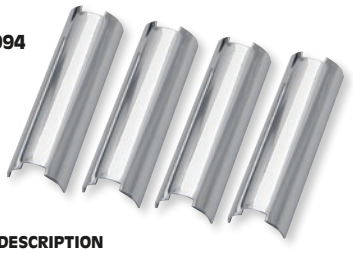

PART #	DESCRIPTION
0928-0003	For 84-99 Evolution Big Twin
0928-0066	For 66-84 Shovelhead (stock rocker arms)

NON-ADJUSTABLE PUSHRODS

- Replace stock pushrods perfectly
- 7/16" high strength Chromoly steel tubing for increased strength
- Pushrods are marked with stock color code and valve position for easy installation
- Sold as a set of 4

PART #	DESCRIPTION
0928-0074	For 84-99 Evolution Big Twin models

0928-0094

PUSHROD COVER KEEPER SETS

- Chromed steel finish
- Multiple lengths available
- Sold in sets of four

PART #	DESCRIPTION
FOR 36-99 BIG TWIN (EXCEPT TWIN CAM)	
0928-0094	2,400" long; repl. OEM #17950-48

PART #	DESCRIPTION
FOR 36-99 BIG TWIN (EXCEPT TWIN CAM) (CONT)	
0928-0058	3,330" long; repl. OEM #s 17949-40, 17950-66

RACE SERIES® ADJUSTABLE PUSHRODS

- Maintain maximum valve lift
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- Tapered 3/8" 4130 chromoly adjustable pushrods, use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods
- Individual length intake and exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear
- Race Series® pushrods have 24 threads per inch with 0,145" wall thickness - recommended when extreme valve-spring pressures are used
- Designed for use with hydraulic or solid lifters and street or race engines
- Can be used with the factory pushrod tubes

NOTE: Pushrods can be adjusted 0,225" longer than stock to accommodate longer cylinder and smaller base circle camshafts.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
0928-0103	For 84-99 Evolution Big Twin

FAST INSTALL® ADJUSTABLE PUSHRODS

- Made from 7/16" diameter 4130 Chromoly steel with the same great design as the regular install Feuling® adjustable pushrods, but feature a slightly shorter tapered tube
- Come disassembled, allowing the engine builder to install the pushrods without removing the top rocker box
- Feature a dual-jam nut locking system and include Pushrod Tube Holder tool PART #3801-0159 to hold the pushrod tubes up and out of the way while adjusting
- Can be used with the factory pushrod tubes and are the longest fast-install pushrods available
- Use separate lengths for intake and exhaust which keeps the adjustment area to a minimum, creating a fast-install pushrod with maximum rigidity promoting maximum valve lift
- Standard 0,095" wall thickness

PART #	DESCRIPTION
0928-0025	For 84-99 Evolution Big Twin

BIG AXLE™ POWERGLIDE™ TAPPET

- Micro-finish bore allows a running fit of 0,0002"
- Big Axle™ rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotate around the axle instead of an inner race, eliminating all possible movement in and around the axle

- Std. (0,8425") size
- Sold each

POWERGLIDE™ TAPPETS

- These tappets will run in cast iron or aluminum tappet blocks
- Recommend fitting the tappets to the blocks with a clearance of 0,0007" to 0,0012"
- Produced from billet bearing steel
- A true center-line for roller life and exact cam timing
- State of the art pushrod seat, machined with the same segmented parabolic cup as the JIMS roller rockers
- Hand fit hydraulic unit to a running fit of 0,0002", with ultra-precision air-gauging system

[1] Hydraulic lifter not included.
[2] Adjuster screws and nut sold separately.

POWERGLIDE™ STEADY ROLL TAPPET

- The same Powerglide™ advantage (oil-fed axle, billet steel body, precision fit hydraulics), but now incorporates a Steady Roll bronze bushing in place of the needle bearing roller
- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%

- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
0929-0043	For 84-99 Evolution Big Twin; standard

HYDROSOLID TAPPET

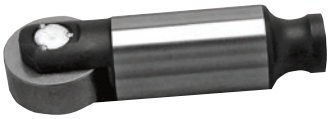

- Performs like a hydraulic tappet up to 5500 rpm, then turn into a solid tappet
- When it turns into a solid tappet, it adds approximately three to six more usable horsepower
- Prevents hydraulic pump at high rpms
- Sold each

NOTE: Requires the use of adjustable pushrods.

PART #	DESCRIPTION
DS-194342	For 84-99 Evolution Big Twin (0,8425" OD); repl. OEM #18523-86

TAPPETS

- Standard solid rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotates around the axle instead of an inner race, eliminating all possible movement in and around the axle
- Sold each

PART #	SIZE
FOR 57-85 XL; REPL. OEM #18509-52B	
DS-194276	Std. (0,730")
DS-194277	+0,005"

V-THUNDER™ RACE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Race/slow bleed upgrade design for high-performance use
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0078	Race forged tappet (ea.)
0929-0079	Race forged tappets (set of 4)

V-THUNDER™ PERFORMANCE FORGED TAPPETS

- Forged design is stronger than commonly available cast or billet designs
- Performance replacement for the stock hydraulic roller lifter
- Each unit is 100% tested for proper function
- Black oxide finish
- Available individually or in a set of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0076	Performance forged tappet (ea.)
0929-0077	Performance forged tappets (set of 4)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

0929-0004

HYDRAULIC TAPPETS

- Rollers have a larger-than-stock inner bearing race that reduces stress and increases axle life
- Each lifter body and plunger assembly is hand-fit and pressure-tested to ensure correct operation
- Redesigned plunger assembly withstands forces associated with heavy-duty valve springs and pushrods typically used in high-performance applications
- Revised metering device precisely controls oil delivery to top end, ensuring rapid lifter pump-up and reducing possibility of oil starvation to bottom end
- Tappets that include the HL2T Limited Travel Kit improve cold starts and high rpm valve timing accuracy
- Sold in sets of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0061	W/ HL²T kit
0929-0004	W/o HL²T kit

FEULING

HP+® HYDRAULIC LIFTERS

- Performance hydraulic roller lifters dyno developed and track tested
- CNC-machined and precision ground
- When used with Feuling® oil pump, they will increase critical oil flow to valves, springs, rockers, shafts and valve guides
- Extend life of top end valve gear
- Can also be used for OEM replacements
- Sold in a set of four

PART #	DESCRIPTION
0929-0018	For 84-99 Evolution Big Twin

TAPPETS

- Sold each

0929-0019

PART #	DESCRIPTION
FOR 48-57 BIG TWIN	
0929-0019	Standard, repl. OEM #18492-48
0929-0020	+0,005", repl. OEM #18492-78
FOR 57-85 XL	
0929-0021	Standard; repl. OEM #18508-52B

TAPPET ROLLER KIT

- Made from 52100 bearing material
- Includes 4340 chromoly axle
- Sold each

PART #	DESCRIPTION
DS-197020	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A

0929-0051

HYDRAULIC TAPPET ASSEMBLIES

- Precision-machined and heat-treated bodies
- Premium-quality anti-pump-up hydraulic inserts
- Eliminate noise from the mechanical valve train

PART #	DESCRIPTION
FOR 53-84 BIG TWIN	
0929-0051	Standard-hydraulic tappet assembly (4-pk.); repl. OEM #18522-53A
0929-0052	+0,003" hydraulic tappet assembly (4-pk.)

FEULING RACE SERIES

RACE SERIES® FULL-TRAVEL HYDRAULIC LIFTERS

- Full-travel hydraulic lifters made from machined steel designed with 0,200" of travel
- Exceed the needs of large-lift camshafts and higher spring pressures with a slower bleed-down rate
- Maintain proper and critical oil flow to valves, springs, rockers, shafts and valve guides
- Increase engine rpm and valvetrain stability; decreases valve float for maximum valve lift
- Recommended for both strip and performance street engines
- Sold in a set of four

NOTE: High-volume oil pump recommended.

NOTE: Recommended for engines running higher than 185 lb. valve spring seat pressure.

PART #	DESCRIPTION
0929-0022	For 84-99 Evolution Big Twin

0929-0053

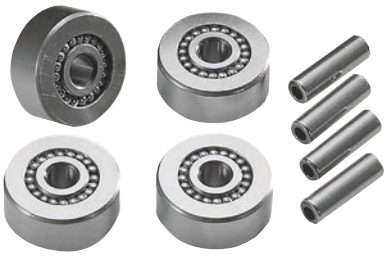

HIGH-QUALITY TAPPET ROLLER KITS

- Made from 52100 bearing material
- Include 4340 chromoly axles
- Sold in a 4-pack

PART #	DESCRIPTION
0929-0053	For 84-99 80" Evolution Big Twin
0929-0049	For 29-84 Big Twin, 57-85 XL; repl. OEM #18534-29A

TAPPET ROLLERS

- 4-pack of tappet rollers

PART #	DESCRIPTION
DS-194029	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

HYDRAULIC LIFTER UNIT

- Quality hydraulic lifter unit
- Sold each

PART #	DESCRIPTION
0929-0050	For 53-84 Big Twin; repl. OEM #17920-53A

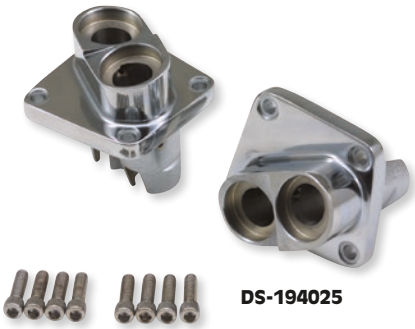

HYDRAULIC LIFTER UNIT

- Sold individually

PART #	DESCRIPTION
DS-194051	For 53-84 Big Twin; repl. OEM #17920-53A

DS-194024

DS-194025

LIFTER BLOCKS

- Come complete with two sets of Allen cap screws (1/4"-24 for 66-E76 and 1/4"-20 for L76-84), completely machined and ready for installation
- Made from durable cast iron and finished in either black or chrome
- Will also fit Panhead motors
- Sold in pairs

PART #	DESCRIPTION
FOR 66-84 BIG TWIN MODELS; REPL. OEM #S 18600-66B AND 18610-66A	
DS-194024	Black
DS-194025	Chrome

LIFTER BLOCKS

- Each pair is precision-machined and comes with a set of chrome-plated socket-head screws
- Made from cast aluminum, polished and chrome-plated
- Sold in pairs

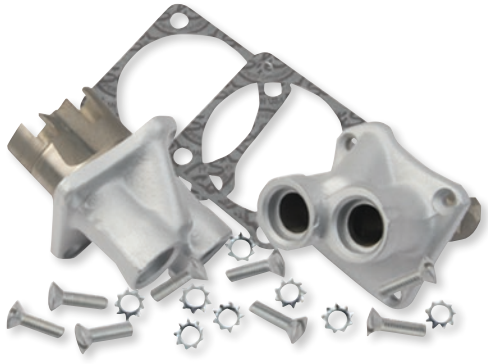

PART #	DESCRIPTION
DS-194054	For 84-99 Evolution Big Twin; repl. OEM #s 18542-83A and 18540-83A

ALUMINUM LIFTER BLOCKS

- Made from 7075-T651 aluminum, with a polished finish
- Kit includes front lifter block, rear lifter block and gaskets
- Mounting screws must be purchased separately; 77-84 models use 1/4"-20 screws, 53-76 models use 1/4" -24 screws
- Sold in pairs

PART #	DESCRIPTION
DS-194030	For 53-84 Big Twin

TAPPET GUIDE KIT

- Cast iron
- Mounting hardware and gaskets included

PART #	DESCRIPTION
0928-0054	For 36-47 Big Twin and S&S KN engines

CAST TAPPET GUIDES

- For V-Series Stock and Super Stock® crankcases
- Fit engines and crankcases with 0,250" offset cam chests
- Black finish
- Sold in pairs

PART #	DESCRIPTION
0928-0070	Black

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

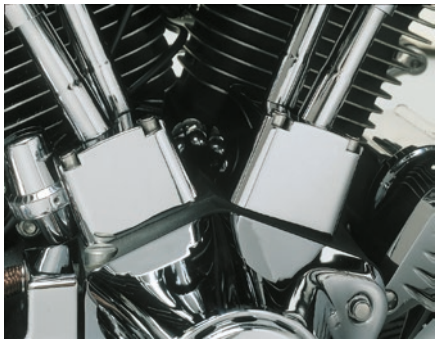

BILLET TAPPET GUIDES

- Machined from solid billet aluminum with chrome finish
- Part of S&S's top-of-the-line engine kits
- Available for engines with stock-style crankcases
- Sold in pairs

PART #	DESCRIPTION
0940-0953	For 84-99 Evolution Big Twin w/ stock crankcase

TAPPET BLOCK COVERS

- Show-chromed die-cast covers
- Install in minutes
- Include chrome hardware

PART #	DESCRIPTION
DS-376493	For 84-99 Evolution Big Twin

TAPPET ADJUSTING SCREWS

- $^{9}/_{32}$"-32 threads
- Sold in 4-pack

PART #	DESCRIPTION
DS-193141	For 36-84 Big Twin (except Evolution); repl. OEM #18555-36
DS-193142	For 57-85 XL; repl. OEM #18555-57

TAPPET ADJUSTING SCREW LOCK NUTS

- High-quality steel construction
- $^{9}/_{32}$" -32 threads
- Sold in 10-pack

PART #	DESCRIPTION
DS-193143	For 38-84 Big Twin (except Evolution) and 57-85 XL; repl. OEM #18570-38

BILLET TAPPET GUIDE

- Made from 7075-T651 aluminum
- Precision machined with helical-style grooves for better lubrication
- Available in polished finish
- Sold each

PART #	DESCRIPTION
DS-194034	For 57-85 XL; repl. OEM #18607-57

GARDNER WESTCOTT

LIFTER BASE SCREW KIT

- Includes eight chrome socket-head screws

PART #	DESCRIPTION
DS-190699	For L76-99 Big Twin ($^{1}/_{4}$"-20)

DS-189998

12-POINT LIFTER BASE SCREWS

- Chrome-plated finish
- Sold in sets of eight

PART #	DESCRIPTION
DS-189998	For L76-99 Big Twin ($^{1}/_{4}$"-20)
DS-189997[1]	For 48-E77 Big Twin ($^{1}/_{4}$"-24)

[1] Not for use with tapered hole lifter blocks.

TAPPET ADJUSTER LOCKNUTS

- Split locknuts with $^{9}/_{32}$"-32 thread
- Sold in four-pack

PART #	DESCRIPTION
DS-189844	For 38-84 Big Twin (except Evolution) and 57-85 XL; repl. OEM #18570-38

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

DS-193764

0928-0044

DS-194493

PUSHROD TUBE KITS

- Kits include upper and lower tubes, clips, cups, springs and washers (O-rings/corks sold separately)
- One kit will do a complete engine

PART #	DESCRIPTION
PUSHROD TUBE KITS	
CHROME	
DS-193764	For 84-99 Evolution Big Twin models
DS-193761	For L79-84 Shovelhead models
DS-193760	For 66-E79 Shovelhead models
SATIN BLACK	
0928-0044	For 84-99 Evolution Big Twin models

PART #	DESCRIPTION
PUSHROD TUBE SEAL KITS	
DS194458	O-ring seal kit for 84-99 Evolution Big Twin models
DS-194486	O-ring seal kit for 82-84 Shovelhead models
DS-194491	O-ring seal kit for L79-84 Shovelhead models
DS-194493	Cork seal kit for 66-E79 Shovelhead models

DS-193787

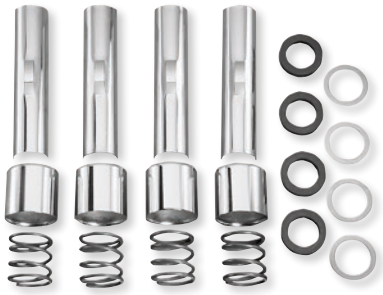

CHROME PUSHROD TUBE ASSEMBLIES

- Original-style replacement; includes everything needed
- Replacement pushrod corks sold in 10-pk. to dealer and sold each to consumer

NOTE: Each motor requires four tube assemblies.

PART #	DESCRIPTION
FOR 48-65 PANHEAD MODELS	
DS-193788	Chrome pushrod tube assembly (ea.)
FOR 57-E79 XL MODELS	
DS-193787	Chrome pushrod tube assembly (ea.)

PART #	DESCRIPTION
REPLACEMENT PUSHROD CORKS	
DS-174190	Corks for pushrod tubes, small (10-pk.); repl. OEM #17955-36
DS-174390	Corks for pushrod tubes, large (10-pk.); repl. OEM #17955-48

DS-193766

DS-193767

DS-193768

PUSHROD TUBE KITS

- These kits contain exact OEM duplicate parts for proper fitment
- Upper cover kit contains chrome clips, chrome cups, springs, rubber seals and steel washers for four pushrod tubes
- Lower cover kit contains four chrome tubes, steel washers and O-rings
- Inner cover kit contains four aluminum inner covers
- Kits sold separately

PART #	DESCRIPTION
DS-193766	For 40-99 Big Twin models; upper cover kit
DS-193767	For 84-99 Evolution Big Twin; lower cover kit; (repl. OEM #17938-83)

PART #	DESCRIPTION
DS-193768	For 79-84 Big Twin models; inner cover kit; (repl. OEM #17935-79)

PUSHROD COVER SPRINGS

- OEM-quality replacements
- Sold in a 10-pack to dealers and sold individually to the customer

PART #	DESCRIPTION
0928-0115	For 36-99 Big Twin and 57-85 XL (10-pk); repl. OEM #17947-36

PUSHROD TUBE WASHERS

- Sold in 10-packs

PART #	DESCRIPTION
0950-0369	For 36-99 Big Twin, 57-85 XL; repl. OEM #6762B

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

0925-0076

S&S CAMS

- S&S Cams are tested on the dyno, street and track before being offered to the public
- With hundreds of hours of testing on each cam, you know you are getting the best cam S&S can produce

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

450S CAM

- For lower compression motors up to 88" with compression up to 8,5:1
- Good low and mid-range torque
- Recommend hydraulic lifters

450S CAM	
PART #	**DESCRIPTION**
0925-0418	For L77-84 Big Twin
0925-0416	For 48-69 Big Twin

508 CAM

- S&S' best bolt-in cam
- Works well in all size motors up to 10:1 compression
- Quiet valve train
- Provides best power in low to mid-range

508 CAM	
PART #	**DESCRIPTION**
0925-1017	For 84-99 Evolution Big Twin

510 CAM

- S&S' best bolt-in cam
- Ideal for engines to 96" up to 10:1 compression
- No spring spacing required
- Works with stock pushrods, springs and hydraulic tappets

510 CAM	
PART #	**DESCRIPTION**
0925-0076	For 84-99 Evolution Big Twin

514 CAM

- For lower compression 84" to 93" motors, not more than 9:1
- Best response from 2500 to 5000 rpm
- Recommend solid or performance aftermarket hydraulic lifters

514 CAM	
PART #	**DESCRIPTION**
DS199188	For L77-84 Big Twin
DS199186	For 48-69 Big Twin

520 CAM

- Works well in all size motors up to 10:1 compression
- Provides best power in low to mid-range
- Works with hydraulic tappets
- Requires high-lift springs

PART #	**DESCRIPTION**
DS199224	For 84-99 Evolution Big Twin

561 CAM

- For motors with up to 10:1 compression
- Very good midrange performance
- Work with hydraulic tappets
- Requires high-lift springs

561 CAM	
PART #	**DESCRIPTION**
DS199225	For 84-99 Evolution Big Twin

585V CAM

- Versatile for 80" to 96" engines with 10:1 to 10,5:1 compression, also works well in larger engines with 9,5:1 to 10:1 compression ratios
- 3500 to 6000 rpm

585V CAM	
PART #	**DESCRIPTION**
0925-0937	For 84-99 Evolution Big Twin

640 CAM

- For large displacement engines (110"+) with 10,5:1 to 11,5:1 compression and smaller engines (96-107") with 11:1 to 12:1 compression
- Less overlap and fast ramps build higher cylinder pressure
- Lower TDC lift makes installation easier
- Designed for use with hydraulic tappets
- Requires high-lift springs

640 CAM	
PART #	**DESCRIPTION**
0925-0044	For 84-99 Evolution Big Twin

0925-0739

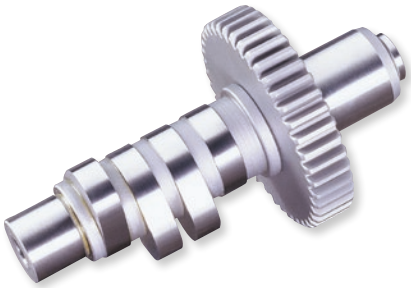

S&S H-GRIND CAMSHAFTS

- OEM specification replacement hydraulic cam with unique front and rear timing specifications
- Dead-on reproduction of the stock cams used in 1966 to 1984 Big Twins
- Perfect for repair and restoration of 74" and 80" engines
- Available for generator engines with inner cam bushings or inner cam bearings

PART #	DESCRIPTION
0925-0741	For 78-84 Big Twin engines w/ alternator-style crankcases
0925-0740	For 70-77 Big Twin engines w/ alternator-style crankcases

PART #	DESCRIPTION
0925-0739	For 58-69 Big Twin engines w/ generator-style crankcases
0925-0738	For 48-57 Big Twin engines w/ generator-style crankcases

XTREME ENERGY™ CAMS FOR 84-99 EVOLUTION BIG TWIN

- Cam lobe designs allow maximum performance for Evolution engines
- Give great throttle response and mid-range with excellent high-rpm power
- Fast opening and closing gives better airflow with the lift and duration used
- Xtreme Energy cams require valve springs designed for high-lift cams
- All cams made from SAE 6150 bearing-quality steel for durability and include the cam gear

NOTE: Always check valve spring coil bind, valve guide-to-collar, valve-to-valve and valve-to-piston clearance when installing a new cam.

- Low-end and mid-range power for heavy bikes; 1500-5500 rpm

PART #	DESCRIPTION
0925-0038	EVL-5005 cam

EVL-5015 CAM

- Mid-range to top-end for modified 80- to 88-cu.-in. engines, 9,5:1+ compression and low-restriction pipes and intake

PART #	DESCRIPTION
0925-0040	EVL-5015 cam

V-THUNDER™ CAMS FOR 84-99 EVOLUTION BIG TWIN

- Provides the ultimate in arm-stretching power on the street or in competition
- Power proven and backed by hundreds of exhaustive hours on V-Thunder's dyno and in on-bike testing, these cams provide added punch at all levels of performance for Evolution motors while maintaining the longevity and integrity of valvetrain parts
- V-Thunder cams are made with SAE6150 bearing-quality steel and induction-hardened for optimum surface longevity
- Tolerances are extremely precise with the aid of computer-controlled machining centers

NOTE: Always check valve spring coil bind, valve guide-to-collar, valve-to-valve and valve-to-piston clearance when installing a new cam.

All part numbers in BLUE are new for the OldBook.

REAPER® CAMS

FEULING

- Produce more power and torque in the riding rpm range increasing throttle response, acceleration and fuel mileage
- Wide lobe separations produce wide power bands
- Smooth camshaft lobe ramps are easier on valve-train components and eliminate excessive valve-train noise and wear
- Dyno proven and track tested

518 CAM

- Direct bolt-in replacement for EVO engines
- Can be used with stock valve springs, pushrods and lifters
- Will respond well with performance exhaust and air cleaner
- Will also respond well with increased compression and cylinder head work
- 1650 - 5500 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1037	518 cam

543 CAM

- Requires performance valve springs
- Performance lifters recommended but not required
- Will work with factory pushrods on engines with factory stack up; if deck height, cylinders or rocker boxes have been modified from stock then adjustable pushrods are required
- Increased compression, cylinder head work and performance exhaust recommended but not required; increased compression is required for bottom end performance
- 2200 - 5950 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1038	543 cam

574 CAM

- Requires performance valve springs; see PART #s 0926-1467 or 0926-0851 on page 314
- Performance lifters recommended but not required
- Will work with factory pushrods on engines with factory stack up, if deck height, cylinders or rocker boxes have been modified from stock then adjustable pushrods are required; see PART #s 0928-0025, 0928-0012 or 0928-0013 on page 321
- Increased compression, cylinder head work and performance exhaust recommended but not required
- Increased compression is required for bottom end performance
- 2700 - 6200 rpm range

ANDREWS

ANDREWS CAMS BIG TWIN

Andrews Products grinds its cams with the help of a computer with cam design capabilities. This superior technology gives the utmost in both performance and reliability. Only the best alloy steel billets and heat-treating processes are utilized. Furthermore, the power in Harley's Evolution engines can be made even more convincing when a superior Andrews computer-designed high-performance cam is installed. These hydraulic lifter cams are capable of 6000-plus rpm with stock springs and no valve float.

NOTE: Must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and the breather valve gear was changed. These components are not interchangeable with earlier-style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

EV3 GRIND CAM

- Bolt-in cam for light bikes (FXRS, etc.) adds significant mid-range power without affecting idle
- A 6000+ rpm cam for stock heads and springs with hydraulic lifters

PART #	DESCRIPTION
DS-199320	For 84-99 Evolution Big Twin

ANDREWS CAMS BIG TWIN (CONT)

EV7 GRIND CAM

- Designed for big-inch stroker motors with head work
- Works with stock hydraulics, with stock spring travel set to 0,560" minimum
- Excellent in the 2800-6500 rpm range
- Uses stock springs

PART #	DESCRIPTION
DS-199445	For 84-99 Evolution Big Twin

EV13 GRIND CAM

- Bolt-in cam for street or touring use with more mid-range and upper-end power than the stock 88 EV cams
- Especially effective in reducing oil temperature
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199323	For 84-99 Evolution Big Twin

EV23 GRIND CAM

- Bolt-in cam for heavier touring bikes and high-geared bikes with 65-tooth rear pulleys
- Crisp throttle response and strong pulling power from 1500 to 6000 rpm
- Works well in higher altitudes
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199097	For 84-99 Evolution Big Twin

EV27 GRIND CAM

- Bolt-in street cam with fast open and close ramps
- Similar timing to EV3, but designed to produce a very broad torque band
- Pulls from 1500 to 6000 rpm
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199344	For 84-99 Evolution Big Twin

EV31 GRIND CAM

- Super power for supercharged engines
- Basically an EV27 cam with timing set for superchargers or big-inch motors with 10,5+ compression ratio

PART #	DESCRIPTION
0925-0071	For 84-99 Evolution Big Twin

EV38 GRIND CAM

- Lower lift exhaust for easy installation
- Bolt-in for lighter bikes (FXLR, etc.)
- Great mid-range and high-end power
- Longer exhaust cam lowers oil temperature

PART #	DESCRIPTION
DS-199446	For 84-99 Evolution Big Twin

EV46 GRIND CAM

- Bolt-in performance cam with fast open and close ramps
- Similar to "EV3" but higher static compression pressure for 4000+ rpm with stock heads and hydraulic lifters

PART #	DESCRIPTION
DS-199327	For 84-99 Evolution Big Twin

EV51 GRIND CAM

- Long duration for modified street motors
- Works with stock hydraulics
- Easy installation
- Power range from 3000-6500 rpm

PART #	DESCRIPTION
DS-199447	For 84-99 Evolution Big Twin

EV59 GRIND CAM

- Designed for modified 80" to 88" motors
- For use with high lift springs and collars
- Very broad powerband to 6000 rpm

PART #	DESCRIPTION
DS-199444	For 84-99 Evolution Big Twin

"A2" GRIND CAM

- Cams bolt into 66-84 (except 80-81) Big Twin engines with no head work; on 80-81 engines the height of the stock H-D valve guides restricts spring travel (and cam lift) to 0,430" or less
- More mid-range and high-end power; idle unaffected
- Spring travel and clearance, plus clearance at main bearing boss must be checked on 80 and later models

PART #	DESCRIPTION
0925-0292	For 70-E77 Shovelhead

ANDREWS CAMS BIG TWIN (CONT)

"AB" GRIND CAMS

- Bolt-in street cams have an "A" intake and a long duration exhaust for cooler running and high-end power
- Suitable for hydraulic lifters

PART #	DESCRIPTION
DS-199328	For L77-84 Shovelhead (except for 80-81)
DS-199347	For 70-E77 Shovelhead
DS-199317	For 48-69 Big Twin

"BH" GRIND CAMS

- A hydraulic version of Andrews "B" grind cams, for 48-84 Big Twin models
- Most are bolt-in, but spring spacing may be required

PART #	DESCRIPTION
DS-199299	For L77-84 Shovelhead
DS-199298	For 70-E77 Shovelhead

"N" GRIND CAM

- Stock Knuckle replacement cam
- For stock motors and restoring an older classic engine, this is the cam to use

PART #	DESCRIPTION
0925-0584	For 37-47 Knucklehead

#1 CAMS FOR LOW-COMPRESSION 66-84 BIG TWIN

- Designed with a combination of shorter durations and higher lifts to offer the advantages of a broad torque output through the entire rpm range
- Designed for hydraulics, but could be run with solids
- Grind #1 is the low-compression version of an "A" grind cam for 74" and 80" models

PART #	DESCRIPTION
#1 GRIND CAMS FOR LOW-COMPRESSION	
DS-199324	For L77-84 Shovelhead
DS-199282	For 70-E77 Shovelhead

GRIND	OPEN	CLOSE	DURATION @ 0,053"	VALVE LIFT
AB				
Intake	21"	50"	244°	0,450"
Exhaust	43"	26"	256°	0,450"
B2

Exhaust	53"	25"	258°	0,485"
BH				
Intake	24"	52"	256°	0,450"
Exhaust	52"	24"	256°	0,450"

"B2" GRIND CAMS

- More mid-range and high-end power for street/strip with smooth idle; best cam for 74/80 inches and small strokers
- Spring spacing required, and clearance at main bearing boss must be checked

PART #	DESCRIPTION
0925-0296	For L77-84 Shovelhead
0925-0294	For 48-69 Big Twin

"J" GRIND CAMS

- For mild street applications
- Add more power throughout rpm range and maintain a smooth idle
- Bolt-in with no head work

PART #	DESCRIPTION
DS-199303	For L77-84 Shovelhead
DS-199302	For 70-E77 Shovelhead
DS-199301	For 48-69 Big Twin

"7" GRIND CAM

- Upgraded version of the original #6 grind
- Great street cam, especially for 84/88-inch strokers with maximum torque from 2200 to 6500 rpm

PART #	DESCRIPTION
0925-0299	For L77-84 Shovelhead

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and breather valve gear was changed. These components are not interchangeable with earlier style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

PART #	DESCRIPTION
#1 GRIND CAMS FOR LOW-COMPRESSION (CONT)	
DS-199283	For 48-69 Big Twin

GRIND	OPEN	CLOSE	DURATION @ 0,053"	VALVE LIFT

AMDREWS "#1"				
Intake	16"	36"	232°	0,427"
Exhaust	36"	16"	232°	0,427"

"PB+" CAM

- Bolt-in four-cam set
- More horsepower and torque
- Stock springs OK to 7000 rpm, require no headwork

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

PART #	DESCRIPTION
0925-0591	For 71-80 XL

CAM DRIVE GEARS

- High-quality heat-treated gears
- Available in undersized, standard and oversize

NOTE: Measured using 0,105 gauge pins. Measuring the same gear with 0,108 pins will show a 0,012 larger measurement.

FEULING

INNER CAM BEARINGS

- Bearings are heavy-duty full-complement style designed to accept the higher loads and demands of performance engines
- Manufactured by Koyo® Torrington®
- Sold each

PART #	DESCRIPTION
0925-1155	For 58-99 Big Twin (except Twin Cam); repl. OEM #9058
0925-1267	For 57-85 XL; repl. OEM #9057

PROVEN S&S PERFORMANCE

INNER CAM BEARING

- Superior quality OE replacement bearings
- Sold each

PART #	DESCRIPTION
0924-0386	For 58-99 Big Twin (except Twin Cam); repl. OEM #9058

Eastern M C Parts

sonnax

CAM BEARINGS/BUSHINGS

0924-0263

0924-0590

DS-194198

- High-quality, better than OE replacement bearings and bushings
- Sold each

PART #	DESCRIPTION
INNER CAM NEEDLE BEARINGS	
0924-0263	For 59-99 Big Twin (except Twin Cam); repl. OEM #9058
0924-0590	For 58-99 Big Twin (except Twin Cam) (Torrington); repl. OEM #9058
0924-0262	For L58-85 XL (ea.); repl. OEM #9057

PART #	DESCRIPTION
CAM COVER BUSHINGS	
DS-194198	For 70-99 Big Twin (except Twin Cam) (ea.); repl. OEM #25581-70
0924-0272	For 70-99 Big Twin (except Twin Cam) +0,005" (ea.)
DS-194171	For 57-85 XL (#s 1, 3, 4), 45" (#4) (ea.); repl. OEM #25586-37

PINION GEAR

- Meets or exceeds OEM specifications

PART #	DESCRIPTION
1106-0189	For 74-85 XL; repl. OEM #24061-74

PINION SHAFT BUSHINGS

DS-194123

- Quality pinion shaft bushings; sold individually

PART #	DESCRIPTION
DS-194123	For 93-99 Evolution Big Twin; repl. OEM #25582-93
DS-194180	For 54-92 Big Twin; repl. OEM #25582-54, 73
DS-194177	For 36-53 Big Twin; repl. OEM #25582-36
DS-194231	For 57-76 XL; repl. OEM #25593-57

PINION SHAFT BUSHINGS

0924-0273

- Made from solid brass bar stock
- Available in stock and oversize
- Sold each

PART #	DESCRIPTION
FOR 73-92 BIG TWIN	
0924-0273	Std.; repl. OEM #25582-73
0924-0274	+0,005"

PINION GEAR SPACER

- Sold each

PART #	DESCRIPTION
DS-194341	For 54-89 Big Twin; repl. OEM #24703-54B

STAKING DOWEL PINS

- Pins hold bushings in place
- Sold in 10-packs

PART #	DESCRIPTION
DS196313	For 36-99 Big Twin, 52-85 XL; repl. OEM #275

PINION/GEAR COVER DOWEL PINS

- 0,125" x 0,250" long
- Sold in 25-pack

PART #	DESCRIPTION
0925-0531	For 36-99 Big Twin, 52-85 XL; repl. OEM #275

CIRCUIT BREAKER SHAFT KIT

- Circuit breaker shaft kit consists of a shaft and two replacement bushings

PART #	DESCRIPTION
DS-194234	For 36-69 Big Twin; repl. OEM #s 25856-36/25785-30A

IDLER GEAR SHAFT AND BUSHING KIT

- Includes shaft and bushing

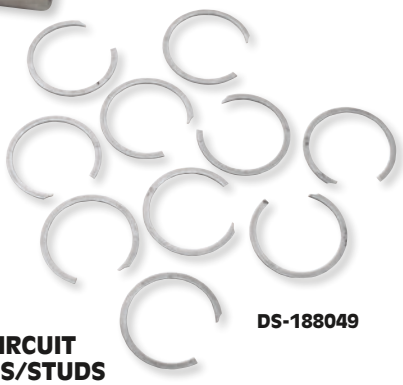

PART #	DESCRIPTION
0925-1202	For 36-69 Big Twin; repl. OEM #s 25791-36, 25785-30A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

DS-195007

DS-188049

IDLER GEAR AND CIRCUIT BREAKER BUSHINGS/STUDS

- Idler gear bushings/studs
- Also work for circuit breakers as noted below

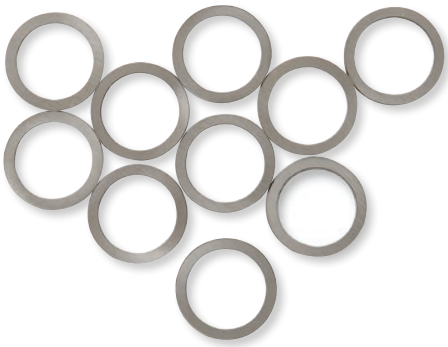

PART #	DESCRIPTION
DS-195007	Idler gear stud kit with bushing kit for 36-69 Big Twin OHV; repl. OEM #s 25791-36, 25785-30A
DS-195008	Idler gear stud and bushing kit for 57-85 XL; repl. OEM #s 25787-57, 25597-57
DS-188049	Idler and circuit breaker stud snap rings for 36-69 Big Twin (10-pk.); repl. OEM #25810-15

CAM LOCK WASHER

- For Big Twin engines with 4", 4 1/8" or 4 3/8" cylinder bore
- Sold each

PART #	DESCRIPTION
0925-1333	Cam lock washer; repl. OEM #25550-57A

CAM SHIMS

- Available in a set of 10, or in individual sizes in 5-pack

CAM GEAR THRUST PLATES

- Sold in pairs

PART #	DESCRIPTION
0925-0290	For 58-85 XL; repl. OEM #25551-58

CAM LOCK WASHERS

- Sold in 5-packs

PART #	DESCRIPTION
DS-193144	For 58-99 Big Twin models; repl. OEM #25550-57

0920-0008

CRANKCASE BREATHER REED VALVES

- New-style breather is not dependent on the rotation of the crankshaft to make it open and close; instead, reeds open when pressure in the crankcase becomes greater than pressure in the cam chest, and close when pressure in the cam chest is equal to or greater than pressure in the crankcase
- By opening and closing "on demand," the reed valves automatically compensate for lag time associated with accelerating the mass of air as it is forced out of the crankcase, increasing performance and stopping high-rpm oil carryover in engines with marginal piston ring seal
- Installation is fast and simple; no aligning timing marks, and no rotating parts

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN STYLE ENGINE	
0920-0008	Standard
0920-0009	+0,030" oversize

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

STEEL ROTARY BREATHER GEARS AND KITS

- All-steel construction
- Welded-in screen
- Higher flow than stock
- Elongated breather pocket scavenge hole for increased suction
- Available in standard or +0,030" diameter
- Kits include gear and spacer

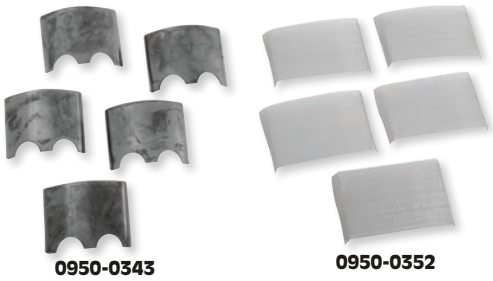

DS-194242

DS194471

PART #	DESCRIPTION
STANDARD KITS	
DS-194242	For L77-99 Big Twin; repl. OEM #25313-88B

+0,030" OVERSIZE KITS	
DS194471	For L77-99 Big Twin
DS194469	For 48-E77 Big Twin

PART #	DESCRIPTION
BREATHER GEAR ONLY	
0932-0124	For 84-99 Evolution Big Twin (std.)
0932-0125	For 84-99 Evolution Big Twin (+0,030")
0932-0126	For 48-77 Big Twin (std.)
0932-0127	For 48-77 Big Twin (+0,030")
0932-0115	For 36-E47 Big Twin (std.)

0950-0343

0950-0352

BREATHER SEPARATOR PLATE AND SCREEN

- Exact OEM replicas
- Screen and plates are sold separately

PART #	DESCRIPTION
FOR 36-69 BIG TWIN	
0950-0343	Separator plate (5-pk.); repl. OEM #25279-36
0950-0352	Breather screen (5-pk.); repl. OEM #25275-36

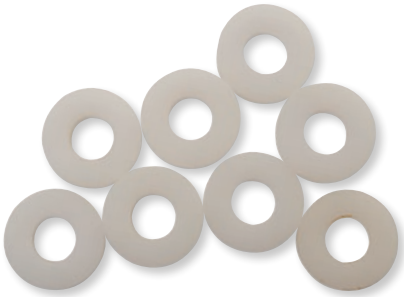

0932-0128

BREATHER GEAR SPACING SHIM KIT

- Shim kit includes one of each thickness: 0,100", 0,110", 0,120", 0,130", 0,140", 0,150", 0,160" and 0,170"
- Individual breather gear spacing +0,150" shims available separately

NOTE: These shims must be used with steel breather gears only.

PART #	DESCRIPTION
FOR 84-99 BIG TWIN W/ S&S STEEL BREATHER GEARS	
0932-0128	Shim kit
0932-0144	+0,150" shim

PLASTIC BREATHER VALVE WASHER SET

- Sold in set of eight in sizes: 0,130"; 0,135"; 0,140"; 0,145"; 0,150"; 0,155"; 0,160" and 0,165"

NOTE: Use only plastic washers with plastic breather valves. Do not intermix plastic and steel parts.

PART #	DESCRIPTION
DS-194160	For 82-99 Big Twin; repl. OEM #25320-82

0950-0364

STEEL BREATHER VALVE WASHER KIT

- PART #DS-194159 includes one each of the following size washers: 0,110"; 0,115"; 0,120"; 0,125"; 0,130"; 0,135"; 0,140" and 0,145" (0,313" ID hole)
- PART #0950-0364 includes one each of the following size washers: 0,110"; 0,115"; 0,120" and 0,125" (0,195" ID hole)

NOTE: Use only steel washers with steel breather valves. Do not intermix steel and plastic parts.

PART #	DESCRIPTION
DS-194159	For L79-82 Big Twin
0950-0364	For 50-E79 Big Twin

CAM COVER BREATHER PIPE

- High-quality OEM replacement
- Chrome finish

PART #	DESCRIPTION
1012-0215	For 52-78 XL; repl. OEM #24912-52A

CRANKCASE TO PRIMARY BREATHER PIPE

- Sold each

PART #	DESCRIPTION
1012-0104	For 48-57 Big Twin; repl. OEM #24912-48A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

JIMS Performance Parts For Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP COMPLETE ASSEMBLIES

- CNC-machined feed and return gears increase pump flow and return volume
- Pumps include cover, gears, drive shaft, seals, gaskets, woodruff keys, snap-rings and mounting bolts
- Oil pumps do not have provisions for primary chain or drive chain oiling

NOTE: Must check the thread size in the motor cases before mounting oil pump.

NOTE: 73-80 models may require drilling; use drilling jig PART #DS-179009 (sold separately).

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG TWIN (OEM-STYLE FITTINGS)	
DS-197093	Polished w/ bottom feed/return oil lines

0932-0007

JIMS Performance Parts For Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP BODIES

- Oil pump increases horsepower by decreasing drag on the flywheels and other rotating parts
- CNC-machined to exact tolerances for the most durable, strong and wear-resistant performance
- Feed and return gears are individually matched to each body
- Increases oil return volume over stock pumps
- OEM-type black wrinkle finish
- Cover not included

PART #	DESCRIPTION
0932-0007	For 92-99 Evolution Big Twin w/ 80" -140" motors

PART #	DESCRIPTION
0932-0006	For 73-91 Evolution Big Twin w/ 74" -140" motors

31-6209

31-6208

HIGH VOLUME/HIGH PRESSURE (HVHP) POLISHED BILLET OIL PUMPS

- HVHP oil pumps have a new gear tooth profile with fewer but larger teeth that provides an increased oil volume for both supply and return-side of the pump
- Supply-side gears are 9% wider than stock
- Return gears are 28% wider than stock to ensure that the additional volume of oil supplied to the engine is scavenged and returned to the oil tank, reducing the amount of oil in the crankcase breather
- Pumps are available in universal and standard styles; universal style has a number of oil feed and return options allowing maximum flexibility for custom installations, while standard has 92-99 style oil line hookups

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG TWIN	
31-6209	W/ 92-99 style cover
31-6208	W/ universal cover

OIL PUMP KITS

0932-0173	-	Check valve ball, 0,375", stainless steel

OIL PUMP GEARS

- Made from solid billet steel

DS-197039

PART #	DESCRIPTION
FOR 66-84 BIG TWIN	
DS-197039	Return drive gear; repl. OEM #26315-68A
DS-197040	Return idler gear; repl. OEM #26317-68A

PART #	DESCRIPTION
FOR 66-84 BIG TWIN (CONT)	
DS-197050	Feed idler gear; repl. OEM #26326-62A
DS-197051	Feed drive gear; repl. OEM #26328-74

0932-0034

OIL PUMP DRIVE GEARS

- Sold each

PART #	DESCRIPTION
0932-0034	For L85-89 Big Twin; repl. OEM #26349-84
DS-194007	For 73-E85 Big Twin; repl. OEM #26349-73

OIL STRAINER KIT

- Kit includes oil strainer; gasket and dowel pin

PART #	DESCRIPTION
0950-0362	For 52-76 XL; repl. OEM #s 24975-37, 24978-57, 333

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

OIL PUMP PRESSURE RELIEF VALVE

- Standard relief valve for S&S billet oil pumps
- Sold each

PART #	DESCRIPTION
0932-0265	Relief valve; repl. OEM #s 26400-82, 26400-82B

OIL PUMP RELIEF VALVE PLUNGER

- Sold each

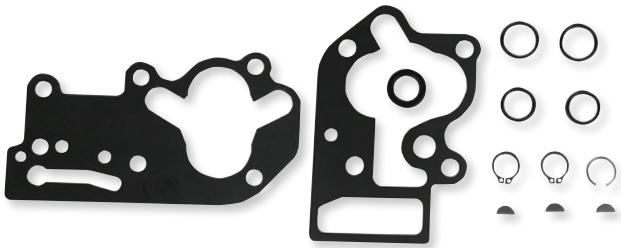

PART #	DESCRIPTION
0932-0075	For L82-99 Big Twin (except Twin Cam); repl. OEM #26400-82

OIL PUMP RELIEF VALVE SPRING

- This premium-quality, steel-alloy oil pump pressure relief spring increases engine oil pressure by 2-3 psi, and does not interfere with critical bearing lubrication needs

PART #	DESCRIPTION
0932-0104	For 36-99 Big Twin (except Twin Cam); repl. OEM #26207-83

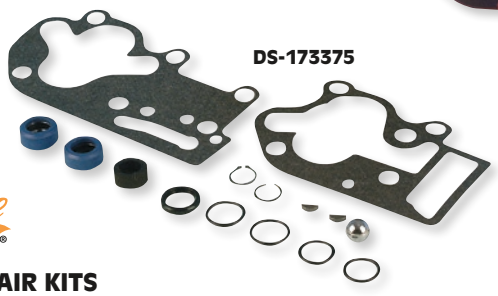

OIL PUMP REBUILD KIT

- Includes correct amount of gaskets, seal, O-rings, retaining rings and keys for one application
- Meets or exceeds OEM quality
- Premium vulcanized rubber impregnated fiber for long, leak-free usage

PART #	DESCRIPTION
0934-1218	For 92-99 Evolution Big Twin

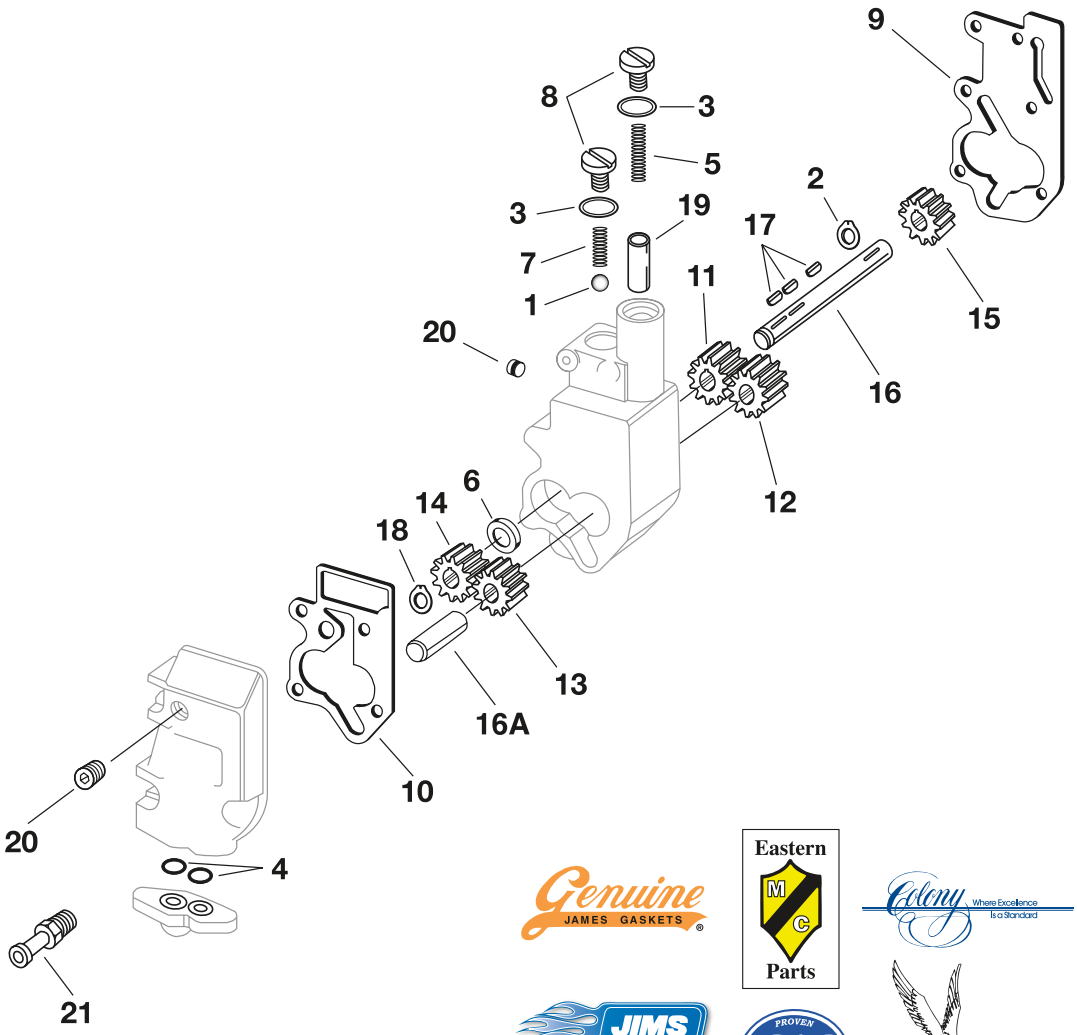

OIL PUMP REPAIR KITS

- Comes with new components that allow you to totally rebuild/rebush most Big Twin and XL oil pumps
- Gasket/seal kits are available to complete the job

PART #	DESCRIPTION	FITS MODEL	MFG.
DS-194205	Shaft/bushing kit	For 84-99 Evolution Big Twin, 70-84 Shovelhead	Eastern MC Parts
DS173382	Gasket/seal kit w/ metal gaskets	For 92-99 Evolution Big Twin	James Gasket
DS-173375	Gasket/seal kit w/ paper gaskets	For 92-99 Evolution Big Twin	James Gasket
DS-173374	Gasket/seal kit w/ Mylar® gaskets	For 84-91 Evolution Big Twin, 81-84 Shovelhead	James Gasket
DS-173408	Gasket/seal kit	For 84-91 Evolution Big Twin, 81-84 Shovelhead	James Gasket
DS-173409	Gasket/seal kit w/ Mylar® gaskets	For 68-80 Shovelhead	James Gasket
DS-173373	Gasket/seal kit w/ paper gaskets	For 68-80 Shovelhead	James Gasket
DS-173410	Gasket kit	For 66-67 Shovelhead, 48-65 Panhead	James Gasket
DS-194202	Gasket/bushing kit; repl. OEM #s 12036A, 26431-76, 26434-76A, 26489-75, 26495-75, 26797-75	For 83-85 XL	Eastern MC Parts
DS-194201	Gasket/bushing kit; repl. OEM #s 12036, 26431-76, 26434-76A, 46489-75, 26497-75	For 77-82 XL	Eastern MC Parts
DS-173406	Gasket/seal kit	For 77-85 XL	James Gasket
DS-173407	Gasket/seal kit	For 54-76 XL	James Gasket

All part numbers in **BLUE** are new for the OldBook.

DYNA MOTOR MOUNTS

- Motor mount system replaces the inadequate stock mounts
- Front mount utilizes an adjustable stabilizing link that attaches to the frame
- Rear mount has two separate aligned damper bushings that are clamped in an aluminum housing to increase control of the lateral and torsional movement of the swingarm

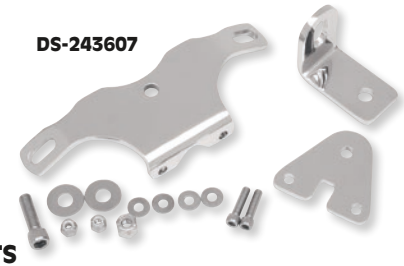

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG MODELS	
0933-0123	Front
0933-0125	Rear

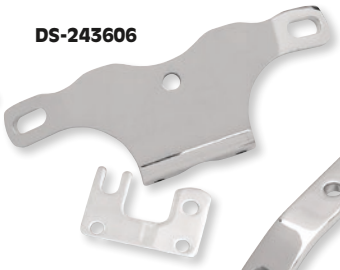

ISOLATOR MOTOR MOUNTS

- High-quality replacement motor mounts
- Meet or exceed OEM specifications
- Install using OEM hardware
- Sold each

PART #	DESCRIPTION
FOR 91-98 FXD/FXDWG	
0933-0101	Front; repl OEM #47583-90/B
0933-0102	Rear; repl. OEM #47564-90

HEAVY-DUTY TOP MOTOR MOUNTS

- Chrome-plated heavy-duty mounts are 30% thicker than stock
- Mounts include chrome choke/horn brackets
- PART #s DS-243607, DS273619 come with sockethead hardware

PART #	DESCRIPTION
DS-243607	For 84-99 Softail models

PART #	DESCRIPTION
DS-243606	For 84-94 FXR models

PART #	DESCRIPTION
DS-273619	For 48-84 FL/FX models

TOP MOTOR MOUNTS

- High-quality, chrome motor mounts
- Bolts not included

PART #	DESCRIPTION
DS-243602	For 91-98 FLT, FXDB and 91-99 Softail models; repl. OEM #s 16247-91/16242-90

PART #	DESCRIPTION
DS-243615	For 77-84 FXB/FXS/FXSB models; repl. OEM #69013-77A

XL ENGINE MOUNT PLATES

- Steel mount plates with a polished chrome finish
- Sold in pairs

PART #	DESCRIPTION
DS-243516	For L84-85 XL; repl. OEM #s 16210-84A and 16212-84A

FRONT MOTOR MOUNT PLATE

- Made of heavy-duty chromed steel to OEM specifications

PART #	DESCRIPTION
DS-243601	For 82-94, 99-00 FXR and 80-98 FLT 5-speed models; repl. OEM #47159-79T

FRONT MOTOR PLATE

- Lighter and stronger than stock
- CNC-machined aluminum construction
- Available in black anodized finish
- Hardware included

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHR/FLTR, AND 84-00 FXR; REPL OEM #47159-79A/47159-07BHP	
0933-0138	Black anodized finish

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

TOP MOTOR MOUNT

- High-quality top motor mount
- Bolts not included

NOTE: Also works with Paughco frames.

PART #	DESCRIPTION
0933-0029	For 84-89 FXST/FLST; repl. OEM #16852-83A

0933-0019

2106-0034

MOTOR MOUNT/BRACKET

- Machined from 6061-T6 billet aluminum
- Triple show-chrome-plated
- All components sold individually, allows for mixing and matching finishes to create a custom look
- Include necessary mounting hardware
- Ignition/starter switch sold separately

PART #	DESCRIPTION
FOR 84-99 FXST/FLST	
0933-0019	Motor mount

PART #	DESCRIPTION
FOR 84-99 FXST/FLST (CONT)	
2106-0034	Key switch bracket

TOP MOTOR MOUNT

- High-quality steel construction with a chrome finish
- Set includes both motor support brackets
- No mounting hardware included

PART #	DESCRIPTION
0933-0079	For 57-76 XL; repl. OEM #s 16250-57/16251-58

0933-0106

0933-0107

GOODEN-TITE ISO FRONT MOTOR MOUNTS

- CNC-machined aluminum base plate with cast high-performance polyurethane isolator bushings

PART #	DESCRIPTION
FOR 80-99 FLT/FLHT AND FXR MODELS; REPL. OEM #16207-79B	
0933-0106	Machined finish
0933-0107	Black anodized finish

DS-243610

VELVA-RIDE™ FRONT MOTOR MOUNTS

- Available in a black or polished finish
- Reduces engine vibration by 20% to 50%
- Sold each

PART #	DESCRIPTION
FOR 80-98 FLT AND 82-94, 99-00 FXR MODELS	
DS-243609	Black
DS-243610	Polished

0933-0135

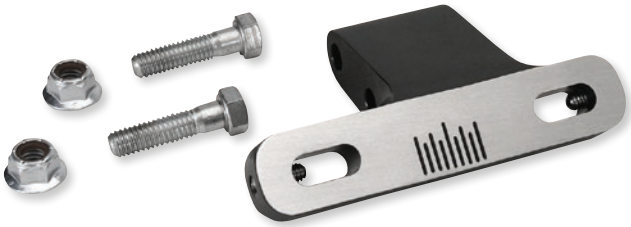

DS-243515

FRONT ISO-MOUNT™ MOTOR MOUNTS

- Urethane motor mount specially designed to outlast and out-dampen the OEM part
- Sold individually

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHR/FLTR, 82-94, 99-00 FXR/FXRS/FXRT MODELS	
0933-0135	Heavy-duty style motor mount; repl. OEM #16207-79D
DS-243515	Motor mount; repl. OEM #16207-79B

ADJUSTABLE FRONT ENGINE BRACKET

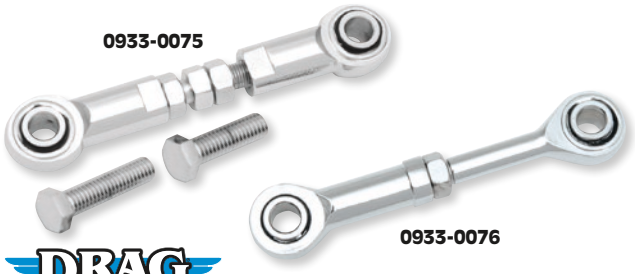

- Replaces stock front engine bracket with custom slotted bracket with alignment lines
- Allows the rider to dial in the engine to perfect alignment
- Slides the engine left or right using the same alignment principles as FXR or early FLT models
- Hash marks at 0,05" intervals
- Includes black anodized aluminum bracket, two 3/8"-16 x 2 1/4" hex bolts and two 3/8"-16 nyloc nuts

PART #	DESCRIPTION
0933-0105	For 91-98 Dyna Glide; repl. OEM #s 47226-90A, 47226-93, 47226-99

FRONT UPPER AND LOWER MOTOR MOUNT HARDWARE

Colony Where Excellence Is a Standard

- Chrome-plated
- Two $^{3}/_{8}$"-24 x 6 $^{13}/_{16}$" bolts, OEM #16237-57
- One $^{3}/_{8}$"-24 x 5 $^{7}/_{16}$" bolt, OEM #16236-52
- One $^{3}/_{8}$"-24 x 5 $^{3}/_{16}$" bolt, OEM #16235-52
- Three $^{3}/_{8}$"-24 nylock nuts, OEM #7775
- Four $^{3}/_{8}$" serrated washers
- Seven $^{23}/_{32}$" OD x $^{3}/_{8}$" ID thick flat washers, OEM #6388HB
- Two $^{7}/_{16}$"-20 x $^{7}/_{8}$" bolts, OEM #4618W
- Two $^{5}/_{16}$" OD x $^{1}/_{7}$" thick flat washers

PART #	DESCRIPTION
2401-0631	For 57-85 XL

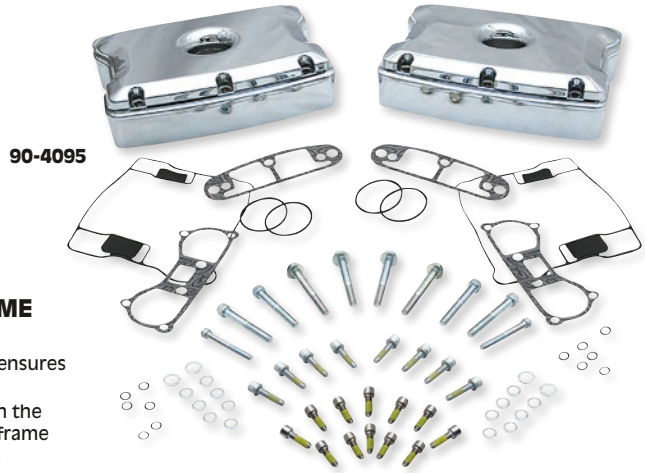

UPPER AND LOWER MOTOR MOUNT HARDWARE

Colony Where Excellence Is a Standard

- Cadmium-plated
- One $^{7}/_{16}$"-20 x 1 $^{1}/_{2}$" bolt
- One $^{7}/_{16}$"-20 nylock nut
- Three $^{5}/_{16}$" OD x $^{7}/_{16}$" ID x $^{1}/_{8}$" thick flat washers
- Two $^{3}/_{8}$"-24 x 3 $^{1}/_{2}$" bolts
- Two $^{3}/_{8}$"-24 x 2 $^{3}/_{8}$" bolts
- Four $^{3}/_{16}$" OD x $^{3}/_{8}$" ID flat washers and $^{3}/_{8}$"-24 nylock nuts

PART #	DESCRIPTION
2401-0630	For 70-84 Shovelhead

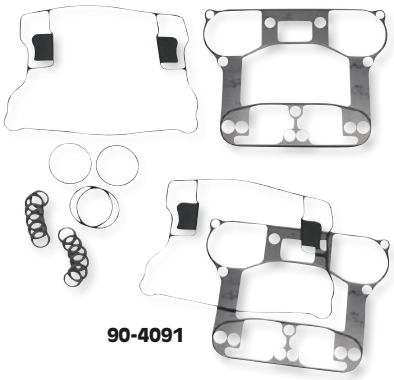

PROVEN S&S PERFORMANCE

DIE-CAST CHROME ROCKER BOXES

- Positive O-ring seal ensures leak-free operation
- Can be installed with the stock engine in the frame in most applications
- Include rocker boxes, gaskets and mounting bolts
- Assembler must supply rocker shafts and rocker arms for all rocker boxes

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
90-4095	Die-cast chrome rocker boxes

- Rocker arm supports included

NOTE: It is the engine builder's responsibility to confirm all operating clearances.

CAST GEARCOVER

- Flangeless
- Machined from tough 356 T6 aluminum castings, the same material used to make S&S crankcases
- Features an inner cast aluminum cover and a decorative bolt-on outer cover
- Includes an internal breather passage that is used to vent crankcase
- Will accept either points or electronic ignition systems
- Kit includes gearcover, gaskets and all necessary mounting hardware
- Natural finish

PART #	DESCRIPTION
0940-1423	For 73-84 Big Twin

0940-0784

JIMS
Performance Parts for Harley-Davidson Motorcycles

6-SPEED OVERDRIVE TRANSMISSIONS

- Comes with close-ratio 1st gear, stock 2nd through 5th gears and 0,86:1 "overdrive" 6th gear
- Made of 8620 steel
- Polished aluminum case
- Gears are CNC-machined; shifter dogs are machined with lead-in ramps for better and quicker shifting
- For use with 91-99 Evolution motors, but will fit earlier years if used with 91-or-later starter motor, clutch and inner- and outer-primary drive systems
- Requires a clutch-release rod and bearing, final drive sprocket and transmission lube (JIMS recommends Bel-Ray 85-140 gear lube); all sold separately

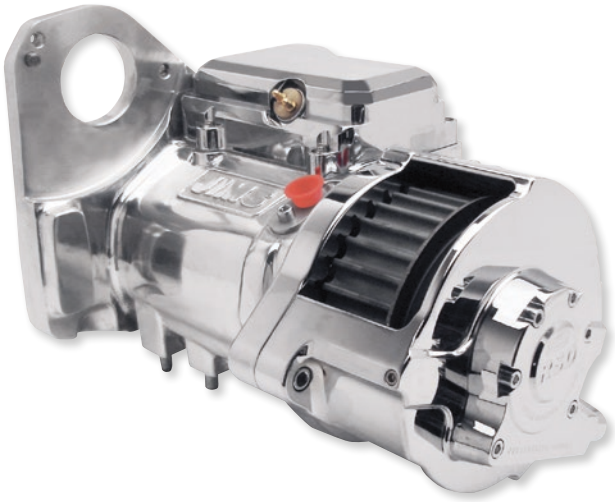

PART #	DESCRIPTION
1101-0030	For 91-99 Softail models (JIMS case)

6-SPEED RIGHT-SIDE-DRIVE TRANSMISSION

- Innovative design is both durable and very strong
- Shipped with CNC-machined billet aluminum top cover
- Output main shaft support bearing that minimizes flexing of the main shaft
- Built-in oil pump for lubrication of the output main shaft bearing
- Polished case
- Includes hydraulic clutch

NOTE: Transmission is not compatible with stock chassis and modifications will be necessary.

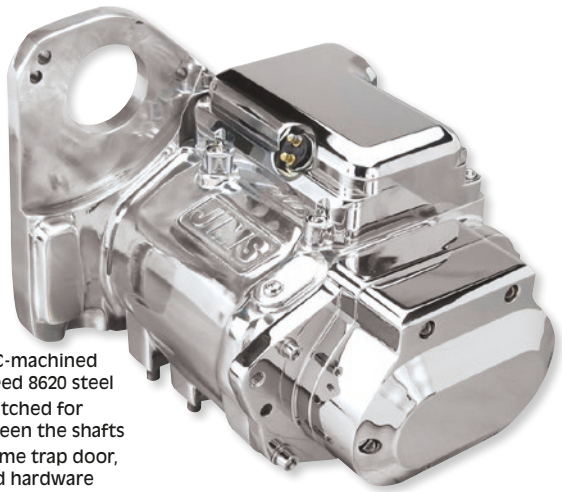

PART #	DESCRIPTION
1101-0034	For 90-99 RSD Evolution-style Softail applications

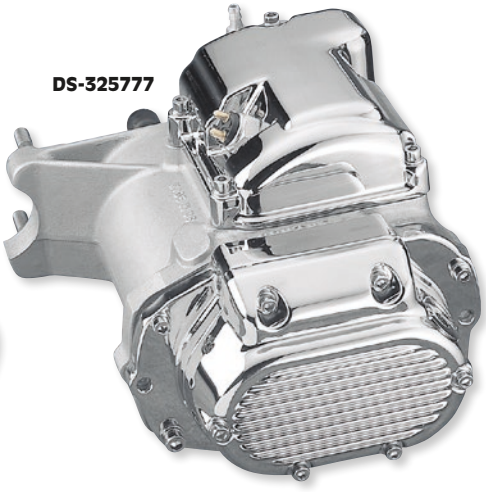

GEAR RATIOS

GEAR	RATIO	GEAR	RATIO	GEAR	RATIO
1	2,94	3	1,57	5	1,00
2	2,21	4	1,23	6	0,86:1 (overdrive)

1101-0029

DS-325777

5-SPEED TRANSMISSION ASSEMBLIES

- Gears and shafts are CNC-machined from materials that exceed 8620 steel
- Hand-assembled and matched for a 0,0002" tolerance between the shafts
- Assemblies include chrome trap door, side cover, top cover and hardware
- Available with standard or close-ratio first-gear sets

DS-325778	Plain aluminum case	Close ratio

All part numbers in BLUE are new for the OldBook.

JIMS Performance Parts for Harley-Davidson Motorcycles

6-SPEED OVERDRIVE SUPER KIT

- Designed to turn stock 5-speed transmission into a 6-speed
- Reduces vibration that creates wear
- Creates a more relaxing cruising speed
- All gear sets use 2,94:1 close-ratio 1st gear that widens bike's speed range in 1st gear and lessens the rpm drop when shifting into second
- Overdrive 6th gear (0,86:1 ratio) lowers engine rpm by almost 475 at 75 mph

NOTE: Requires speedometer sensor block-off plate kit (PART #2404-0114; see ELECTRICAL section); if speedometer is not driven from transmission then two block-off plates kits are required.

NOTE: Requires speedometer be recalibrated.

NOTE: Trap door extends 3/8" farther to the right than stock part. Alteration to some parts that attach to or around the trap door may be required.

PART #	DESCRIPTION
1103-0008	For 99 FXST/FLST/FXR, 91-98 FXD/FXDWG

Baker Drivetrain — Delivering American power to the pavement

DD6 Direct Drive 6-Speed

DIRECT DRIVE 6-SPEED GEAR SET KITS

- Fits into existing 5-speed cases; lower the rpm at cruising speeds
- Includes a 6-speed gear set (3,24:1 1st gear/0,86:1 6th gear), 28-tooth motor sprocket, longer primary chain, fixed spindle-shift drum and anti-overshift ratchet shift pawl assembly
- All gears are full-width Baker ground gears; 4th, 5th and 6th gears are helical for silent operation
- Includes easy-to-follow instructions
- Replacement primary shoe available separately; designed for use with tensioner bracket OEM #39990-01

PART #	DESCRIPTION
FOR 99-00 FLT/FLHT/FLHR/FLTR AND 99-00 FXR MODELS

OD6 Over Drive Six Speed

OVERDRIVE 6-SPEED GEAR SET KITS

- Includes a black trap door (unless noted), all gears, mainshaft, countershaft, shifter drum, detent components, bearings, snap rings, gaskets and hardware
- Significantly smoother shifting than stock due to a roller detent shift drum with reduced inertia and gear dogteeth with lead-in ramping
- Gear ratio of 2.94 and .86 6th gear available
- Available in black or polished
- Fits into stock and most aftermarket 5-speed transmission cases
- Made in the U.S.A.

NOTE: Exhaust bracket may require modification when using these kits.

1104-0028

1104-0029

TRANSMISSION REBUILD KITS

- All-inclusive kit to allow a full transmission rebuild
- Includes seals, gaskets and all necessary hardware

PART #	DESCRIPTION
1104-0001	For 94-98 FLHR/FLHT/FLTR, 94-99 FXST/FLST, 91-99 FXR and Baker Drivetrain OD6/DD6/DD5
1104-0002	For 91-98 FXD/FXDWG and Baker Drivetrain OD6/DD6/DD5
1104-0025	For Baker Drivetrain OD6R only
1104-0026	For Baker Drivetrain OD6 only
1104-0027	For Baker Drivetrain DD6 only
1104-0028	For 91-93 Dyna models
1104-0029	For 87-93 FLT/FLHT/Softail/FXR models

All part numbers in BLUE are new for the OldBook.

REPLACEMENT BEARINGS AND COMPONENTS FOR 5-SPEED BIG TWIN

- Sold individually

PART #	DESCRIPTION
1106-0238	Countershaft bearing (closed end) for 80-99 Big Twin
1106-0239	Mainshaft/countershaft split-cage needle bearing (open end) for 80-99 Big Twin
1106-0240	Main drive gear needle bearing (open end) for 91-99 Big Twin
1106-0241	Main drive gear roller ball bearing for 85-99 Big Twin
1106-0242	Pulley/sprocket spacer seal for 94-99 Big Twin and XL
1106-0243	Transmission door bearing for 99 Big Twin

ANTI-OVERSHIFT RATCHET SHIFT PAWL ASSEMBLY

- Features a rectangular cross-section shifter-shaft spring
- Shift-shaft lever splines are hobbed on gear cutter just like Baker gears
- With this setup, there will be smoother shifts and no more broken shifter-shaft springs

PART #	DESCRIPTION
1110-0015	For 80-99 Evolution Big Twin 5-speed transmissions

5-SPEED SHIFTING ASSEMBLY

- Reduces shifter free play
- Assembly includes plate (replaces OEM #35068-79), spring (#34087-79), pawl plate (#34086-79), shifter shaft (#34084-86), spring (#34083-79), pin (#34082-79), washer (#6016) and retaining ring (#11016)

PART #	DESCRIPTION
DS194066	For 84-99 Evolution Big Twin 5-speed

SHIFTER LEVER SHAFT

- Meets or exceeds OEM standards
- Includes the ball
- Sold each

PART #	DESCRIPTION
1106-0087	For 77-85 XL; repl. OEM #34628-75

PART #	DESCRIPTION
1106-0086	For 54-74 XL; repl. OEM #34628-54A

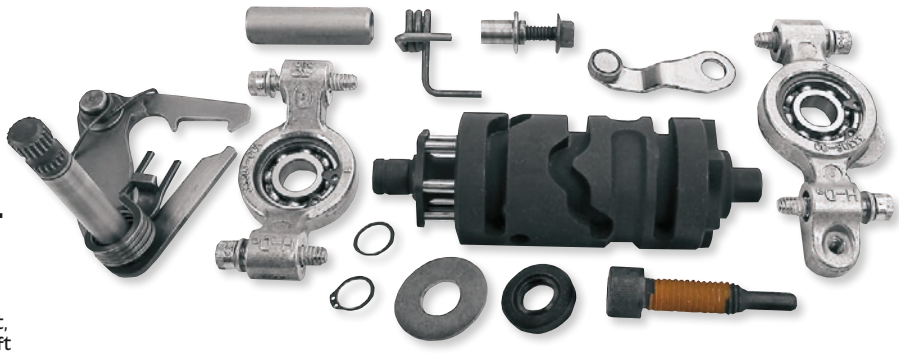

SHIFTER SHAFT ASSEMBLY SPRINGS/PINS

- Top-quality OEM replacement parts
- Sold in 5-packs or 10-packs to dealers, as noted

PART #	DESCRIPTION
1106-0048	Shifter shaft spring (5-pk.) for 80-99 Big Twin 5-speed (except Twin Cam); repl. OEM #34087-79A
1106-0049	Pawl spring (10-pk.) for 80-99 Big Twin 5-speed (except Twin Cam); repl. OEM #34083-79

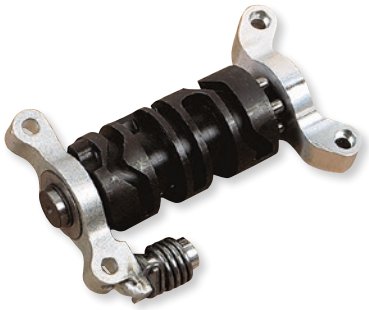

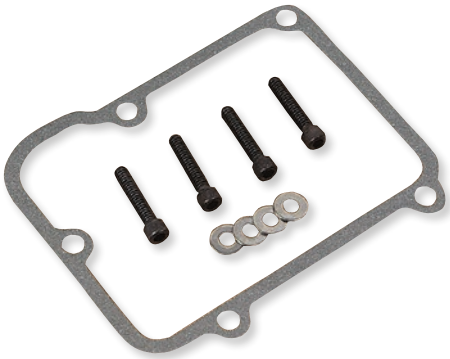

5-SPEED SHIFTER UPGRADE KIT

- Upgrades early-model 5-speed Big Twin with the latest technology
- Includes newly designed shift drum and lever assembly with built-in anti-overshift, late-model pillow blocks, case shifter shaft sleeve bushing, hardware and instructions
- To install shifter sleeve, use PART #3802-0008

PART #	DESCRIPTION
1110-0043	For 86-99 FXST, 91-98 Dyna, 84-98 FLT/FLHT/FLHR/FLTR

All part numbers in BLUE are new for the OldBook.

SHIFTER DRUM KIT

- Shifter drum grooves have been designed for smoother shifting and unneeded material has been removed from the barrel of the drum (less inertia translates to lower shift effort)
- Pillow blocks are machined from 6061-T6 extrusion stock for superior strength

PART #	DESCRIPTION
DS194401	For all 98-00 Evolution Big Twin models (except 00 FXST, FLST)

5-SPEED N1 SHIFT KIT

- N1 shift pattern was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions
- Includes drum, pillow blocks, top cover gasket and fasteners

PART #	DESCRIPTION
1110-0101	For 80-97 FLH/FLT/FLHT/FLHR, Dyna, Softail and 00 FLT/FLHT/FLHR/FLTR

N1 SHIFTER DRUM

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions

PART #	DESCRIPTION
1110-0041	Double pole for 80-99 Big Twin

5-SPEED SHIFTER FORKS

- Machined from billet steel and then hard chromed
- Cross section is three times thicker than stock forks
- Sold as a set (three shifter forks)

PART #	DESCRIPTION
DS-194173	For 80-99 Big Twin; repl. OEM #s 34191-79E, 34193-79E and 34195-79E

SHIFTER FORKS

- Sold each

INNER PRIMARY MAINSHAFT BEARING/SEAL KIT

- Includes pinion seal, main shaft seal, bearing snap rings, inner bearing race and bearing
- Fits OEM and most aftermarket inner primaries
- Includes OEM #s 12066, 12053, 12052, 60678-85 (2) and 34091-06, 9135

PART #	DESCRIPTION
1120-0162	For 89-99 Evolution Big Twin

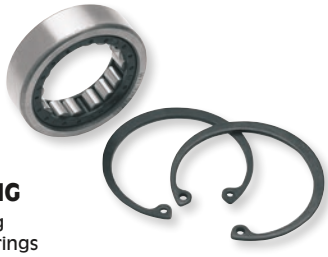

INNER PRIMARY MAINSHAFT BEARING/SEAL KIT

- Kit includes sealed ball bearing, seal and snap ring
- Designed for use on straight splined shafts only
- Designed for stock style-clutches only

PART #	DESCRIPTION
1120-0217	For 91-99 Evolution Big Twin

INNER PRIMARY MAINSHAFT BEARING

- High-quality roller bearing comes with two retainer rings
- Fits OEM and most aftermarket aluminum inner primaries

PART #	DESCRIPTION
1132-0005	For 85-99 Evolution Big Twin models; repl. OEM #s 9135/60678-85

PRIMARY BEARING UPGRADE KIT

- Double-row ball bearing with seal and retaining ring kit
- Perfect for an open primary system or for added durability in a high-output system

1120-0242

PART #	DESCRIPTION
1120-0242	For 90-99 FXST, 90-98 FLHT/FLHR/FLHX/FLTR, 91-98 Dyna and any 5-speed that uses OEM bearing # 9135
1120-0414	Repl. inner primary bearing seal

HIGH TORQUE BEARING/SEAL KIT

- Replaces the two-piece bearing and seal in the inner primary
- A must for large-horsepower motors that have the problem of the race moving in or out
- Great for belt drive primary conversions
- Replacement seal available separately

1110-0018

PART #	DESCRIPTION
1110-0018	For 85-99 Evolution Big Twin; repl. OEM #34091-85 inner race, 9135 bearing and 12052 seal
1104-0003	Repl. seal

INNER PRIMARY COVER MAINSHAFT BEARING

- Sealed ball bearing fits into aluminum inner primary covers to support transmission mainshaft
- Sold individually

PART #	DESCRIPTION
1120-0177	For 65-86 Big Twin; repl. OEM #s 9061 and 9040

INNER PRIMARY MAINSHAFT BEARING

- High-quality replacement component
- Fits OEM and most aftermarket inner primaries
- Sold each

PART #	DESCRIPTION
1120-0344	For L84-85 FLHT/FXR; repl. OEM #8980

PRIMARY BUSHINGS

2110-0035 2110-0036 2110-0037 2110-0038

3" SHORTY BELT DRIVE KITS

- Designed for electric start applications
- Available with or without a 90-06-style starter
- Kit includes 141-tooth drive belt, motor plate, clutch hub, starter pinion gear assembly, compete set of clutch plates, ball-bearing pressure plate and hardware
- Rear 72/front 47 pulley combination

NOTE: Not for rotary top transmissions.

PART #	DESCRIPTION
FOR 70-78 BIG TWIN WITH ELECTRIC STARTER	
1120-0417	W/o starter

2" BELT DRIVE KITS WITH TOP BELT GUARD

- Use BDL's ball-bearing lockup clutch for positive clutch engagement and ease of shifting
- Kits also include a 142-tooth drive belt, motor plate, starter housing with guard, top belt guard, stand offs, side guard and rear pulley cover with hardware

PART #	DESCRIPTION
FOR 90-99 FXST/FLST	
1120-0256	Polished

2" OPEN BELT DRIVE KITS

- Ball-bearing lockup clutch provides approximately 60% more surface contact area than the stock clutch for smooth, sure power transfer
- Kits include motor plate, starter standoff, ring gear guard, pinion gear kit, 52T front pulley, rear pulley with 69-tooth 2" clutch basket, ring gear, lockup clutch and 132T drive belt

NOTE: Requires the use of a 90-06 style starter motor.

1120-0212

PART #	DESCRIPTION
FOR 70-78 BIG TWIN	
1120-0212	Polished

1120-0228

PART #	DESCRIPTION
FOR 70-78 BIG TWIN (CONT)	
1120-0228	Black

2" BELT DRIVE KITS

- Include BDL's ball-bearing lockup clutch, new full-coverage side guard and top mesh belt guard
- Kits also include motor plate and a 132-tooth belt
- 2" drive width allows for the use of stock floorboards

PART #	DESCRIPTION
FOR 90-98 FLHT/FLHR/FLTR, 90-94 FXR	
1120-0232	Black

1120-0226

2" OPEN BELT DRIVE KITS

- BDL's ball-bearing lockup clutch with ring gear provides ease of shifting and positive clutch engagement
- New streamlined baseplate provides a unique look

PART #	DESCRIPTION
FOR 90-99 FXST/FLST	
1120-0226	Polished

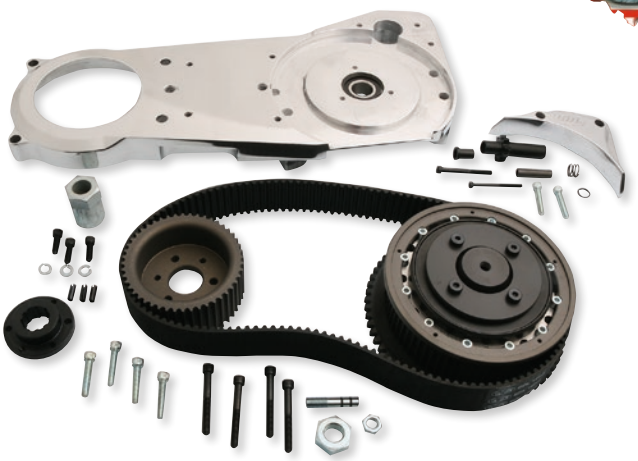

1120-0227

- Kits include a 142-tooth drive belt, motor plate, starter housing and guard, standoffs, side guard and rear pulley cover with hardware

PART #	DESCRIPTION
FOR 90-99 FXST/FLST (CONT)	
1120-0227	Black

All part numbers in **BLUE** are new for the OldBook.

SS-2 2" BELT DRIVE KIT

- Beautiful styling and awesome performance
- 2" drive features a one-piece billet motor plate
- Clutch design eliminates clutch dogs and features an internal mill-cut basket to drive the clutch
- Ball-bearing lockup clutch (patent pending) offers 30% more contact surface than our 3" drives

PART #	DESCRIPTION
1120-0082	For 90-99 FXST/FLST

2" "SHORTY" BELT DRIVE

- Designed for electric start applications (use 90-06 style starter)
- Kit includes starter housing, BDL ball-bearing lockup clutch assembly with ring gear, starter gear cover, rear pulley cover, front pulley and belt

PART #	DESCRIPTION
1120-0213	For 70-78 Big Twin

8 MM BELT DRIVE KIT WITH OUTBOARD SUPPORT PLATE

- 3" belt drive kit includes outboard bearing support for rear shaft
- Similar design to BDL's "Top Fuel"-style belt kits
- Includes clutch assembly
- Includes ball-bearing lockup design clutch pressure plate
- Outer support plate is polished 6061 aluminum
- Accepts any 90-06 Big Twin-style starter
- Replacement components available separately; see pages 385-387

NOTE: System is not designed for use with floorboards.

PART #	DESCRIPTION
1120-0255	For 90-99 FXST/FLST models

1120-0248

1120-0254

8 MM BELT DRIVES WITH QUIET CLUTCH SYSTEM

- $1\frac{1}{2}$" and $1\frac{5}{8}$" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kit includes front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems now come with the Quiet Clutch system
- Precision-machined, polished aluminum pressure plate uses nine springs and shoulder bolts to ensure even spring pressure (included in kit)
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch

NOTE: 3" system is not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
$1\frac{5}{8}$" SYSTEMS	
1120-0253	For 79-83 Big Twin w/ rear chain drive (5-speed)
$1\frac{1}{2}$" SYSTEM	
1120-0248	For 70-83 Big Twin w/ rear chain drive (4-speed)

PART #	DESCRIPTION
3" ELECTRIC START SYSTEM WITH NEW-STYLE STARTER MOTOR	
1120-0254	For 70-78 Big Twin w/ ratchet transmission lid
3" KICK START SYSTEM	
2302-1263	For 55-E84 custom Big Twin

All part numbers in BLUE are new for the OldBook.

8 MM AND 11 MM BELT DRIVES

- All 8 mm and 11 mm kits come with belt, clutch basket, front pulley, nut and washer
- 3" kit comes with a 52-piece roller bearing kit
- Pulley and clutch basket are hard anodized aluminum; front pulley is drilled and tapped for easy removal
- Inner clutch hub and plates are not included; must be purchased separately

NOTE: Not for use with offset primaries.

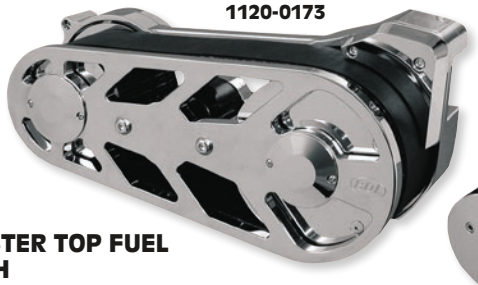

DS-360098

PART #	DESCRIPTION
8 MM 1 1/2" KITS	
DS-360098	For 79-E84 Big Twin electric start, except rear belt models (4-speed)
DS-360100	For 79-E84 Big Twin electric start w/ rear belt (4-speed)
DS-360101	For 79-E84 Big Twin kick start (4-speed)
DS-360099	For 65-78 Big Twin electric start (4-speed)
DS-360102	For 65-78 Big Twin kick start
DS-360103	For 55-64 Big Twin kick start
1120-0423	For 55-64 Big Twin kick start, splined (61/39)
DS-360104	For 36-54 Big Twin kick start, taper shaft
1120-0422	For 36-54 Big Twin kick start, taper shaft (61/39)

PART #	DESCRIPTION
11 MM 1 1/2" KITS	
DS-360105	For 80-83 Big Twin electric start, 5-speed, w/ idler gear
2302-5001	For 79-E84 Big Twin electric start 4-speed w/ rear belt drive
DS-360106	For 65-E84 Big Twin electric start, 4-speed, w/ idler gear (except rear belt models)
DS-360107	For 65-E84 Big Twin kick start, spline shaft 4-speed w/ idler gear
DS-360108	For 48-64 Big Twin kick start, splined
DS-360109	For 36-54 Big Twin kick start, taper shaft
8 MM 2" AND 3" KITS	
DS-360115	For 55-E84 Big Twin 2" kick start, spline shaft (4-speed)
DS-360113	For 55-E84 Big Twin 3" kick start, spline shaft (4-speed)

14 MM x 85 MM (3 3/8") MONSTER TOP FUEL BELT DRIVE KITS WITH CLUTCH

1120-0173

DS360190

- Kits include front and rear pulley, 3 3/8" belt, nine friction plates and 11 steel clutch plates; use up to nine springs for varying pressure to accommodate any motor size
- Include oil filter mount between the pulleys
- Polished outboard bearing support; outboard support is reversible and the back side is channeled for another distinct look, but only the flat side is polished
- Replacement components available separately; see pages 385-387

NOTE: Systems are not designed for use with floorboards.

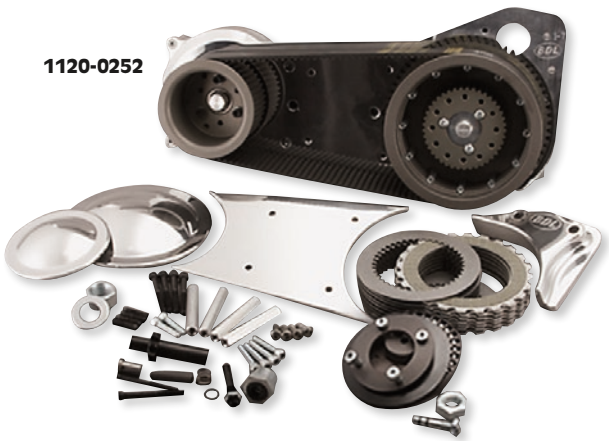

PART #	DESCRIPTION

DS360190	W/ side guard

PART #	DESCRIPTION
FOR 90-99 FXST/FLST (CONT)	
1120-0173	W/ outboard support bearing

1120-0247

1120-0252

8 MM BELT DRIVES WITH LOCKUP CLUTCH

- 1 5/8" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kits include front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems come with the Quiet Clutch and ball-bearing lockup design pressure plate
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch
- Replacement components available separately; see pages 385-387

NOTE: 3" systems are not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
1 5/8" SYSTEMS	
1120-0247	For 90-99 FXST/FLST and 94-98 Dyna models
3" ELECTRIC START SYSTEMS	
1120-0251	For 90-99 FXST/FLST models

PART #	DESCRIPTION
3" ELECTRIC START SYSTEMS (CONT)	
1120-0252[1]	For 86-89 FXST/FLST models
1120-0245	For 91-98 Dyna Glide models

[1] Requires the use of a 90-06 style starter (sold separately).

All part numbers in **BLUE** are new for the OldBook.

Motor shaft pulley | Clutch basket | Clutch hub

REPLACEMENT BDL PULLEYS, CLUTCH BASKETS/HUBS

- Precision machined out of aluminum and then hard anodized
- Motor shaft pulleys come with nut and washer (unless noted)

[1] Does not include nut and washer.

1120-0425

REPLACEMENT 1 1/2" FRONT PULLEYS FOR BDL BELT DRIVE KITS

- Tough, high-quality billet construction
- Pulley features bolt-in splined or tapered insert
- Includes belt guides and mounting hardware
- Hard anodized finish

PART #	DESCRIPTION
FOR 55-E84 BIG TWIN (SPLINED INSERT)	
1120-0432	8 mm, 39-tooth pulley
1120-0425	8 mm, 40-tooth pulley
1120-0429	8 mm, 41-tooth pulley
1120-0433	11 mm, 31-tooth pulley

PART #	DESCRIPTION
FOR 41-54 BIG TWIN (TAPERED INSERT)	
1120-0426	8 mm, 40-tooth pulley
1120-0427	8 mm, 39-tooth pulley
FOR 36-54 BIG TWIN (TAPERED INSERT)	
1120-0428	11 mm, 31-tooth pulley

All part numbers in **BLUE** are new for the OldBook.

1120-0322	MPB-9	Motor plate bearing
1120-0321	CDAS-100A	Clutch adjusting screw w/ jam nut (ea.)

OFFSET FRONT PULLEYS AND SPACER INSERTS

- Used to offset motor pulley for belt alignment
- Spacer inserts are available in eight widths from 1/4" to 2" and include a motor sprocket nut and mounting screws
- Pulleys are for 3" systems and accept any of the spacer inserts listed
- Pulleys and spacer inserts sold separately

MOTOR PULLEY LOCKING PLATE

- For use with BDL's standard, 3/4", 1", 1 1/4" or 1 1/2" offset insert kits
- Kit contains three 5/16"-18 x 1 1/2" sockethead cap screws, three 5/16" lock washers, three 5/8" OD spacers and locking plate

PART #	DESCRIPTION
1120-0235	Motor pulley locking plate

PRIMARY BELT COVER

- Billet aluminum construction with a chrome-plated finish
- Styled to match Belt Drives' popular Top Fuel belt drive cover
- Fits 3" open BDL belt drive systems with 3 1/2" x 4" motor plate bolt pattern

PART #	DESCRIPTION
1120-0049	Cover for BDL 3" primary

POLISHED DOMED PULLEY COVER KITS

- Include clutch basket cover, motor pulley cover, special tape and button-head bolts with template for permanent installation

PART #	DESCRIPTION
DS-191026	For 47-tooth motor shaft pulley and 72-tooth clutch basket (Evolution)

All part numbers in **BLUE** are new for the OldBook.

PRIMARY CHAIN DRIVE SYSTEMS WITH CLUTCH

- Kits include primary chain, front sprocket and nut, chain adjuster, clutch basket and clutch assembly with clutch plates
- Feature new-style clutch that eliminates grabbing and dragging

NOTE: PART #DS-191014 will not work with rear belt drive.

NOTE: PART #DS-191018 comes with a new starter pinion gear that must be used on the 94-98 applications.

PART #	DESCRIPTION
DS-191018	For 90-98 Softail, 91-98 Dyna models
REPLACEMENT PARTS	
DS-191019	Repl. friction clutch plates (7-pk.)
DS-191020	Steel clutch plates (8-pk.)

PART #	DESCRIPTION
REPLACEMENT PARTS (CONT)	
DS-191021	Shoulder bolts (9-pk.)
1120-0321	Clutch adjusting screw w/ jam nut (ea.)

PRIMARY DRIVE KITS

- Kits include compensating sprocket assembly, chain adjuster assembly and complete clutch assembly with aramid friction plates
- Primary chains sold separately

PART #	DESCRIPTION
1120-0076	For 98-99 Evolution Big Twin, 25/26T

PART #	DESCRIPTION
1120-0077	For 94-97 Evolution Big Twin, 25/36T

PART #	DESCRIPTION
1120-0078	For 90-93 Evolution Big Twin, 24/37T

COMPENSATOR SPROCKET KITS

- Three-piece patented design with no spring
- Weigh less than the stock sprocket

U.S. Patent #6,234,909B1.

PART #	DESCRIPTION
FOR 70-89 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR)	
1101-5002	24-tooth compensator sprocket

PART #	DESCRIPTION
FOR 90-99 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR, 99 FXD/FXDWG)	
1101-5001	25-tooth compensator sprocket

SOLID PRIMARY SPROCKET KIT

- Eliminates the need for a complete compensator assembly
- Includes 25-tooth sprocket, flat washer and front pulley/sprocket nut

PART #	DESCRIPTION
1120-0412	For 94-98 Big Twin w splined shaft

COMPENSATING SPROCKET KITS

- Complete kits contain a high-quality sprocket, sprocket shaft extension, sliding cam, sprocket nut and cover with spring plate

PART #	DESCRIPTION
DS195196	For 94-99 Evolution Big Twin (25-tooth); repl. OEM #40308-94
DS195197	For 91-93 Big Twin (24-tooth); repl. OEM #40269-85

PART #	DESCRIPTION
DS195198	For 84-90 Big Twin (24-tooth); repl. OEM #40275-83

COMPENSATING SPROCKET

- Replacement steel compensating sprockets
- Available 24-tooth style; both fit variable primary gear ratios

PART #	DESCRIPTION
DS-191011	For 70-86 Big Twin models with primary chain drive (24-tooth); repl. OEM #40275-70

All part numbers in **BLUE** are new for the OldBook.

SPROCKET SHAFT EXTENSIONS

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1120-0269	For L70-85 Big Twin 4-Speed; repl. OEM #40375-70

COMPENSATING SPROCKET SHAFT EXTENSION

- Hardened alloy steel extension has been precision ground
- For use with OEM or most aftermarket compensating sprockets
- Used when offsetting transmission in wide tire applications
- +1" extension (1 3/8" overall)

PART #	DESCRIPTION
1120-0001	For 91-99 Big Twin

COMPENSATING SPROCKET NUTS

- For use on L70-99 Big Twin models
- Sold each

2017-3461

2017-3462

PART #	DESCRIPTION
2017-3461	For 91-99 Big Twin; repl. OEM #40392-91

1120-0283

1120-0286

PRIMARY CHAINS

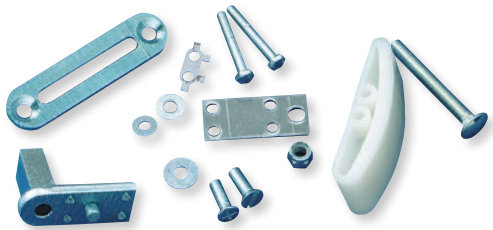

- Improved fatigue resistance
- Pre-loaded to reduce initial elongation
- Endless construction using high-quality raw materials for long life

PART #	SIZE	DESCRIPTION
1120-0282	428-2 x 76	For 80-98 FLT/FXR/FXRS/FXRT (5-speed); repl. OEM #40037-79A
1120-0283	428-2 x 82	For 84-99 FXST/FLST, 91-98 Dyna and 36-86 Big Twin (4-speed); repl. OEM #40007-36A/B

PART #	SIZE	DESCRIPTION
1120-0286	35-3 x 94	For 57-85 XL; repl. OEM #40005-57A/B

PRIMARY CHAIN ADJUSTER KIT

- Used for updating an old adjuster system or when building a new bike from the ground up
- Complete kit includes washers, adjuster plate, bolts, shoe, adjuster and nut

PART #	DESCRIPTION
DS-181201	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39998-65, 39996-65, 39993-65, 39990-65, 39976-65B, 7778, 6703, 6400BH, 5444, 2614 and 1783

PRIMARY CHAIN ADJUSTING SHOES

- Replaces stock nylon shoe

DS-192003

DS-192001

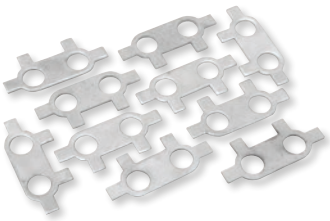

PART #	DESCRIPTION
DS-192002	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39976-65 and 39976-65B
DS-192003	For L80-85 XL; repl. OEM #39966-80

PART #	DESCRIPTION
DS-192001	For L58-E80 XL; repl. OEM #39978-58
DS-192004	For 54-76 K, XL (ea.); repl. OEM #39975-52B

Eastern M C Parts

PRIMARY CHAIN ADJUSTER PLATE LOCK TAB

- Sold in 10-pack

PART #	DESCRIPTION
1120-0189	For 65-99 Big Twin; repl. OEM #39996-65

All part numbers in BLUE are new for the OldBook.

DS223723

SCORPION BILLET CLUTCHES

- CNC-machined billet aluminum design features over twice the friction area of the stock clutch
- Provides positive engagement and release
- Incorporates six heavy-duty coil springs instead of the diaphragm spring; includes an extra heavy-duty set of springs for higher horsepower applications
- Friction plates are compatible with most primary oil (48-E84 Big Twin and 71-E84 XL can run wet or dry)
- Simple bolt-on installation; requires the original clutch shell; no machining is necessary
- Kit includes clutch hub, drive plates, driven plates, (two) sets of clutch springs, pressure plate and necessary hardware
- Replacement fiber and steel clutch plates available separately

1130-0231

SCORPION LOW-PROFILE LOCK-UP CLUTCHES

- Features an all-new, redesigned billet aluminum lock-up pressure plate designed to fit under the stock primary cover
- No need to change or modify your cover
- Surface area is greatly increased and lever effort is kept to a minimum
- Three different coil spring sets included to provide a wide variety of spring pressure options allowing you to tune the clutch for stock to 200+ HP applications
- A steel inner hub is also included to complete the unit
- Designed to fit into the stock-type basket
- Billet aluminum pressure plate
- Adjustable pressure arms increase spring pressure as rpm increase
- Can be run wet or dry
- Smooth, precise shifting
- Sets of replacement fiber and steel clutch plates available separately

DESCRIPTION	SCORPION CLUTCH	REPL. CLUTCH PLATE SET

REPLACEMENT CLUTCH PLATES FOR SCORPION LOCK-UP CLUTCH

- Can be run wet or dry
- Designed to fit in stock-type basket

PART #	DESCRIPTION
1131-0159	Repl. clutch plate set for 90-97 Big Twin

All part numbers in **BLUE** are new for the OldBook.

Assembled

COMPETITOR CLUTCHES

- Feature nine springs and shoulder bolts for simple clutch spring adjustment
- Eliminate the outdated three-stud clutch hub along with shifting problems
- Large, 40 mm double-row hub bearing provides maximum strength and performance
- Polished pressure plate adds a custom touch when using an open belt drive

PART #	DESCRIPTION

BALL-BEARING LOCKUP CLUTCH KIT

1130-0101

DS-191019

DS-191020

- Complete 36T clutch basket assembly with BDL's ball-bearing lockup clutch
- Provides approximately 60% more surface contact area than stock clutch for smooth, sure power transfer
- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Includes 66T ring gear and 9T starter pinion gear

NOTE: Use of a 25T compensating sprocket recommended.

PART #	DESCRIPTION

HIGH-PERFORMANCE CLUTCH KITS

- Specifically designed to provide extended clutch life, fade- and slip-free operation and superior shifting
- Friction plates have our exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel clutch plates won't expand; do not fade or promote clutch swell
- Long lasting – up to 300% more life than stock plates
- Will not muddy or contaminate oil

REKLUSE clutch rEvolution

TORQDRIVE® CLUTCH KIT

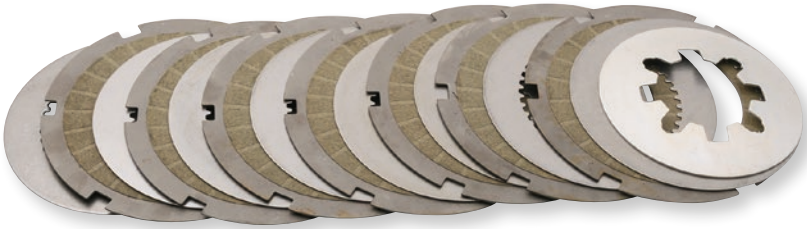

- TorqDrive provides more disks in less space, allowing us to add up to six additional friction disks to the clutch pack over stock
- More frictions = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device
- TorqDrive provides smoother shifting and improved lever feel
- Rekluse basket sleeves eliminate basket wear and notching

NOTE: Designed for use with OEM or Rekluse clutch baskets/shells only.

PART #	DESCRIPTION
1130-0579	For 90-97 Big Twin models

1131-3172

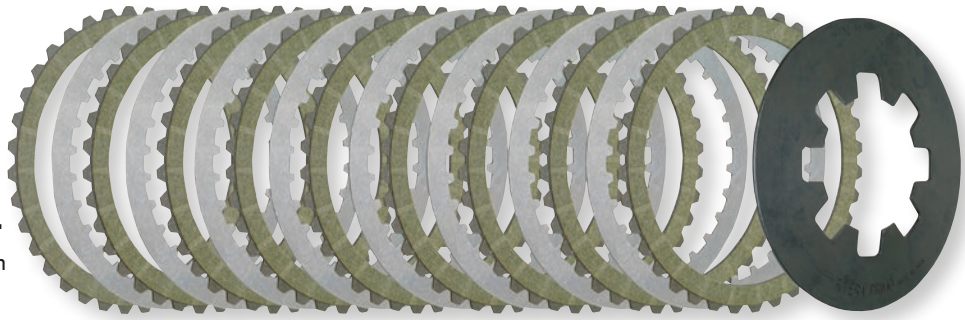

1131-3177

PLATE KITS FOR PRIMO RIVERA BELT DRIVE CLUTCHES/PRO CLUTCH KITS

- Complete replacement clutch plate kits for Primo Rivera belt drives listed
- Include all friction plates, drive plates and backing plates needed

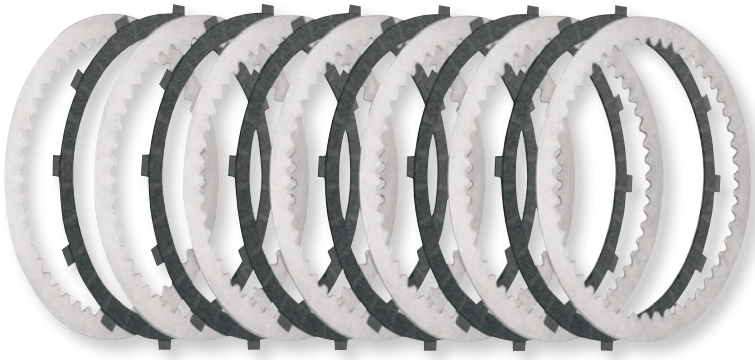

PART #	DESCRIPTION
1131-3172	Clutch pack w/ friction plates for Brute III/IV w/ new-style hub
1131-3171	Clutch pack for Pro Clutch PART #DS-223263; fits 90-97 Evolution Big Twin models

HIGH-PERFORMANCE EXTRA CLUTCH PLATE KIT

- Kit includes nine friction plates on empered steel cores and eight tempered steel drive plates
- Plates feature a starburst groove pattern for maximum heat dissipation and oil circulation
- 15% larger than stock surface area for stronger, more positive clutch engagement – ideal for high-performance stroker motors
- Includes 15% stronger diaphragm spring
- Pre-set stack height for easy installation

PART #	DESCRIPTION
1131-1804	For 90-97 Evolution Big Twin

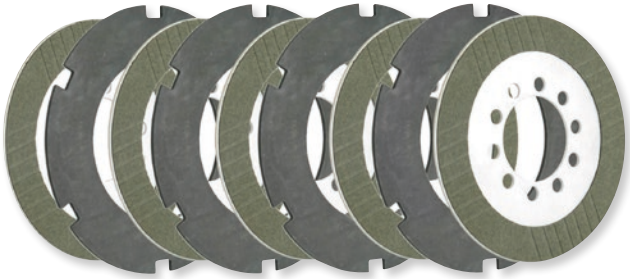

CLUTCH PLATE KIT

- Includes six friction plates with tempered steel cores and seven tempered steel drive plates
- Plates measure 25% wider than the OEM plates for a significant increase in the clutch area
- Stack height is preset for easy installation
- Can be used in wet or dry clutches

PART #	DESCRIPTION
1131-1803	For L84-89 Evolution Big Twin

CK series

SRC series

SRK series

EBC BRAKES

CLUTCH KITS AND SPRINGS

CK STANDARD SERIES

- Cork-based material impregnated with aluminum particles to increase wear life and heat resistance
- Highly compressed construction avoids swell and clutch drag
- Ideal for general-purpose street/sport/touring bikes
- Kit includes complete set of friction plates only
- Not for use with semi-synthetic or full synthetic oil

SRC SERIES CLUTCH KITS

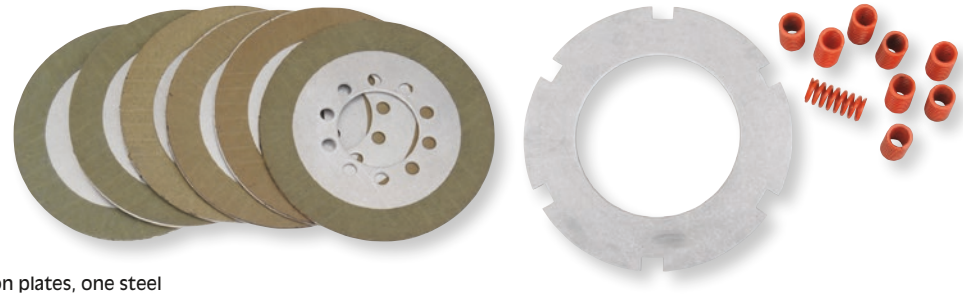

- Aramid fiber paper-lined plate set, complete with heavy-duty clutch springs
- SRC kits have longer plate life and higher heat resistance
- SRC kits have a more aggressive/faster clutch takeup than the CK Standard series clutch kits

SRK SERIES CLUTCH KITS

- Include aramid fiber-lined friction plates, steel separator plates and springs
- Diaphragm-style spring used in kits for bikes with OEM diaphragm clutch springs
- All kits designed to withstand the rigors of hard street use

EXTRA PLATE CLUTCH KIT

- Kit includes six aramid fiber friction plates, one steel plate and a set of heavy-duty clutch springs
- Pre-68 models require an extra steel drive plate (PART #DS-223745)
- Kit adds approximately 20% more surface area
- Can be run wet or dry

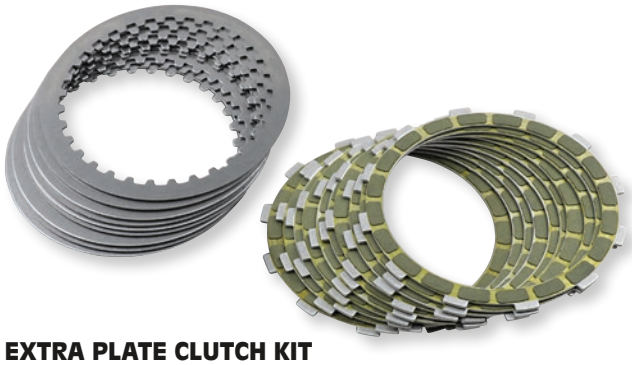

PART #	DESCRIPTION
DS-223727	For 41-E84 Big Twin

EXTRA PLATE ARAMID FIBER CLUTCH KIT

- Eight bonded aramid fiber plates, one steel driven plate and a set of heavy-duty clutch springs
- Aramid fiber friction material for maximum performance without swell, fading or creeping problems
- Adds approximately 14% more clutch surface area
- Can be used wet or dry

PART #	DESCRIPTION
DS-223761	For 54-70 XL

EXTRA PLATE CLUTCH KIT

- Aramid fiber plates have high static and dynamic coefficient of friction
- The aramid fiber friction plates provide smooth, positive engagement and release
- Adds 11% more surface area to clutch pack
- Consists of 10 friction plates and nine steel plates

PART #	DESCRIPTION
DS-223472	For 98-99 Evolution Big Twin

DS-223739

EXTRA PLATE CLUTCH KITS

- Aramid fiber plates have a high-density compound and increased durability
- Carbon fiber plates have high static and dynamic coefficient of friction for smooth positive engagement and release
- Adds 12% more surface area to clutch pack
- Contains nine friction plates and eight steel drive plates

NOTE: Double steel drive plate not used with this kit.

HEAVY-DUTY CLUTCH SPRINGS

- Heavy-duty springs approximately 20% stronger than OEM
- Recommended for competition use

PART #	DESCRIPTION
DS-223742	For 90-97 Big Twin

PART #	DESCRIPTION
DS-199218	For 98-99 Evolution Big Twin

PART #	DESCRIPTION
DS-223743	For L84-85 XL

DS-199219

CLUTCH SPRING CONVERSION KITS

- Convert your diaphragm spring clutch system to six coil springs
- CNC-machined billet pressure plate
- Ideal for stock to high-performance motors
- Allows for more precise adjustment and smoother operation
- Increases the holding capacity of the clutch
- Includes two sets of coil springs to provide three different pressure options
- Utilizes the stock clutch hub, shell and clutch plates

PART #	DESCRIPTION
DS-199219	For 98-99 Evolution Big Twin w/ mechanical clutch

PART #	DESCRIPTION
1131-2051	For 98-99 Evolution Big Twin w/ hydraulic clutch

- Includes inner and outer spring

PART #	DESCRIPTION
1131-1809	For 71-E84 XL; repl. OEM #s 38079-72, 38080-71

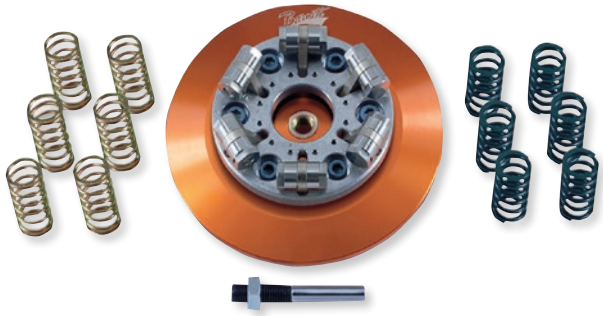

CLUTCH SPRING SEATS

- Replacement center spring seats
- Sold in 5-packs

PART #	DESCRIPTION
1132-0701	For L84-85 XL; repl. OEM #36793-84

All part numbers in BLUE are new for the OldBook.

SCORPION LOW-PROFILE LOCK-UP PRESSURE PLATE

- Low-profile design fits under stock primary cover
- Direct bolt-on design retrofits to existing Scorpion billet clutches
- Progressively increases pressure as rpm increases
- CNC-machined, 6061-T6 billet aluminum
- Perfect for large-displacement, high-horsepower motors

PART #	DESCRIPTION
1131-2447	For 98-99 Evolution Big Twin w/ existing mechanical Scorpion clutch

LOW PROFILE LOCK-UP PRESSURE PLATE CONVERSION KITS

1131-2404

- Specifically designed to fit under the stock or aftermarket primary/derby covers and increase the capacity of your stock clutch by using stainless steel weighted arms that progressively increase pressure to the clutch as rpm increases
- This also allows lever effort to be kept to a minimum – even with big-inch motors
- Three different sets of six coil springs (light, medium, heavy) are included for a variety of spring pressure options
- Coil spring design provides much smoother shifting and a more progressive, linear engagement compared to a diaphragm-type spring
- Simple bolt-on installation is all that is required with no modifications needed
- Cable-actuated and hydraulic versions are available

PART #	DESCRIPTION
1131-2404	For 98-99 Evolution Big Twin w/ cable-operated clutches
1131-2405	For 98-99 Evolution Big Twin CVO models w/ hydraulic-operated clutches

BILLET PRESSURE PLATE

- Strong billet aluminum design, works with stock or heavy-duty diaphragm spring

PART #	DESCRIPTION
2012-1270	For 91-97 Big Twin models; repl. OEM #37912-91

HIGH-PERFORMANCE PRESSURE PLATE

- Highly polished aluminum pressure plate will not warp or flex
- Allows smooth, positive clutch action

PART #	DESCRIPTION
DS-243375	For 41-E84 Big Twin models

CLUTCH PRESSURE PLATE

- Tough die-cast construction

PART #	DESCRIPTION
1132-0269	For 91-97 Big Twin; repl. OEM #37912-91

COMPETITION SERIES CLUTCH PLATE KITS

- Clutch friction plate kits are supplied as a separate kit from springs and drive plates
- Different friction materials are used to match original specification
- Friction plates should be allowed to bed in to avoid glazing friction surface
- Clutch steel plates are made from corrosion-free steel
- Check old plates for color and wear and preferably replace at the same time as friction plates
- Increase in clutch spring strength is achieved either through the extra length or by tighter winding

NOTE: Some synthetic oils increase the danger of clutch slip with friction plates.

MAGNUM

BRAIDED HYDRAULIC CLUTCH LINES

- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braid and an outer PVC jacket
- Unique stainless steel transmission fitting eliminates the use of adapters
- Available in Sterling Chromite® with highly polished chrome plated banjos
- Braid color and weave match all other Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing the bike's paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Choice of 90°, 35° or 180° banjos with rotating feature for perfect no-kink fitments
- Transmission fittings have a natural stainless steel finish

NOTE: 87-99 OE Harley, CVO, P&A hydraulic clutch line fittings require taking a measurement to determine ordering length.

GOODRIDGE
FLUID TRANSFER SYSTEMS

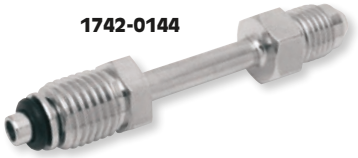

STAINLESS STEEL BRAIDED HYDRAULIC CLUTCH LINE KITS

- -3 hydraulic clutch lines feature clear PVC coated, PTFE lined, premium stainless steel braided hose
- PVC hose coating is extruded to the stainless braiding, adding great looks and abrasion protection to expensive parts, while offering resistance to damaging UV rays
- PTFE liner is an inert material, which is compatible with all hydraulic and brake fluids; has a heat range of -105 °C to -295 °C (-158 °F to 500 °F)
- Stainless steel braid is superior in pressure rating, flame resistance and volumetric expansion to all other materials

BYO® BUILD-YOUR-OWN HYDRAULIC CLUTCH LINE KIT

- Design meets all FMVSS-106 standards once assembled for safe and reliable on-road use (see compatibility note below)
- Assembles in five minutes with only side cutters and 7/16" wrench
- Hydraulic hose and fittings are labeled, pressure tested and 100% inspected
- Hydraulic clutch kit contains all components to build one complete stock or custom hydraulic line which includes 7' of BYO non-yellowing clear-coated braided stainless hose, chrome-plated banjos, polished stainless hardware, copper crush washers, a vise wrench and a natural finish, stainless steel transmission fitting
- All components and hoses are available separately to build your own hydraulic clutch line; choose banjo fittings and then cut bulk line to the exact length needed to eliminate ordering guesswork and a perfect fit every time

NOTE: Compatible Magnum Shielding BYO® brand hydraulic hose and BYO® components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, or liability claims.

PINGEL® Since 1967

ELECTRIC EASY SHIFT™ SPEED SHIFTER KITS

1601-0203

- For speed, comfort and fun
- Electronically suspends the ignition system, allowing the transmission to smoothly shift up or down with just the push of a button
- Shift up at partial or full throttle and back down at the touch of a button
- There is no need to use the foot shifter, and the clutch is used only when starting or stopping
- Works for normal street riding or full-throttle shifting
- Also a perfect match for male and female riders who own bikes that require a lot of hand strength to pull in the clutch lever
- OEM shifting ability is retained after installation
- Includes a dual-button handlebar control, a shift cylinder plated with a lustrous chrome finish, bolt-on shift cylinder support bracket and a state-of-the-art control module that sends a quick signal from the handlebar control to the shift cylinder
- Also included is the electronic ignition kill module and step-by-step instructions with photos for easy installation
- Universal kits also available with dual-button handlebar control to fit 7/8" or 1" diameter handlebars/clip-ons; installation may require purchase of frame tube brackets for shift cylinder mounting (sold separately)
- Not suitable for 4-speed transmissions

PART #	DESCRIPTION
BOLT-ON KITS	
1601-0183	For 94-98 Dyna models w/ mid-mount controls

PART #	DESCRIPTION
UNIVERSAL KITS	
1601-0203	For models w/ 7/8" handlebars
1601-0204	For models w/ 1" handlebars

TRASK

CARBON FIBER SHIFTER LINKAGE

- Carbon-fiber race-inspired look that weighs half the weight of the stock linkage
- Teflon®-coated heim joints for longer life
- Aids in smoother shifts and makes it easier to select neutral
- Custom stainless steel installation hardware included
- Measures 30,5 cm (12") L

PART #	DESCRIPTION
1601-0527	For 84-98 FLT/FLHT/FLHR/FLTR and 86-99 FXST/FLST models

Alloy Art

SHIFT LINKAGES

- Fits most forward-controls on Dyna, Softail, and Touring models
- Simple and clean; measures 12" - 13 7/8" eye to eye
- Super-strong, adjustable, superior raw materials with a superior design
- Available in black anodized

PART #	DESCRIPTION
1601-0479	Black anodized

All part numbers in **BLUE** are new for the OldBook.

ROLAND SANDS DESIGN | BLACK OPS | Contrast Cut

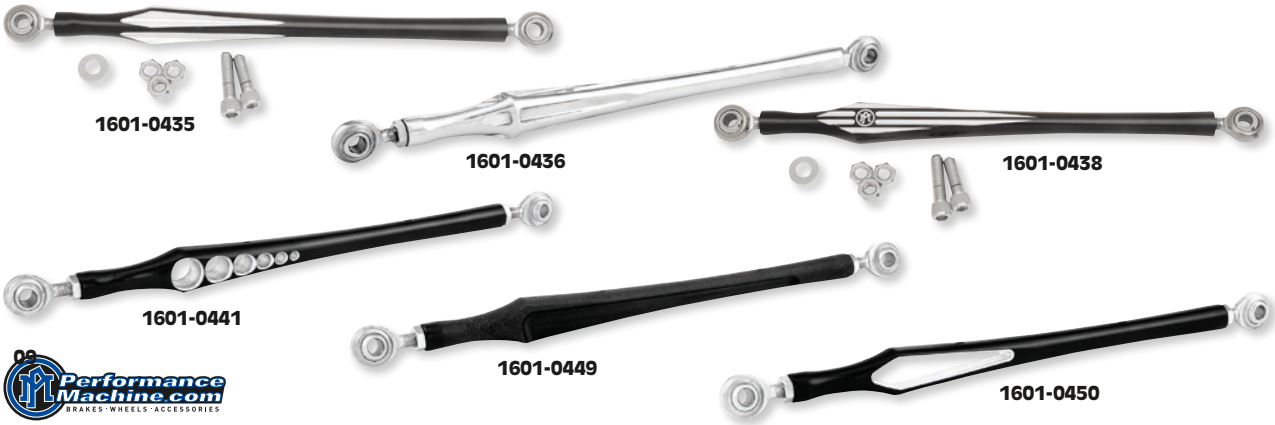

SHIFT RODS

- CNC-machined billet aluminum

TRANSMISSION SHIFTER ROD LEVERS

- Drop-forged steel
- Fit Big Twin OEM and aftermarket 5- or 6-speed transmissions

PART #	DESCRIPTION
FOR 97-99 EVOLUTION BIG TWIN	
1811-2124	Chrome; repl. OEM #33849-97
1602-1047	Gloss black

PART #	DESCRIPTION
FOR 85-96 BIG TWIN	
1811-2122	Chrome; repl. OEM #33715-85
1602-1046	Gloss black

All part numbers in BLUE are new for the OldBook.

CHROME SHIFTER ROD LEVER

- Steel construction

PART #	DESCRIPTION
DS273130	For 84-96 Big Twin w/ 5-speed or 6-speed transmissions; repl. OEM #33715-85

GREASABLE SHIFTER SHAFT

- Manufactured from stainless steel with the exposed end polished so it will match the chrome shift lever
- Designed to prevent shift linkage drag and lockup for OEM models without grease fitting on primary case
- Will accept any stock or aftermarket shift lever that fits the stock shaft

PART #	DESCRIPTION
1601-0225	For 82-98 FL models w/ grease fitting; repl. OEM #33709-82

SHIFTER SHAFT

- Ideal replacement for a worn shifter shaft
- Accepts all OEM shift levers
- Sold each

PART #	DESCRIPTION
1602-0873	For 82-98 FLT/FLHT/FLHR/FLTR; repl. OEM #33709-82/A

DS-530610

DS-273920

SHIFTER SHAFTS

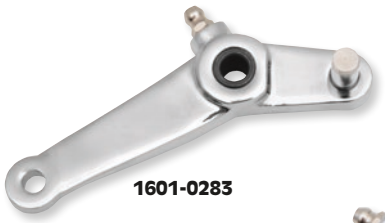

- Hardened steel with splines; exact replacements for OEM parts

PART #	DESCRIPTION
CHROME	
DS-530610	For 90-99 FLST (includes two O-rings); repl. OEM #33668-90B
DS-273920	For 74-84 FL; repl. OEM #33660-74A

1602-0869

PART #	DESCRIPTION
ZINC-PLATED	
1602-0869	For 91-98 FXD (w/ mid controls); repl. OEM #34621-90

1601-0283

1601-0290

SHIFTER LEVER ASSEMBLIES

- Chrome-plated cast lever
- Includes bushing and grease fittings

PART #	DESCRIPTION
1601-0283	For L79-84 FLH, 84-85 FXST and 80-86 FXWG; repl. OEM #33177-79
1601-0290	For 85 FXSB, 79-84 FX, FXE, FXS, FXEF and FXB models; repl. OEM #34655-79

HEAVY-DUTY SHIFTER LEVER BRACKET

- Heavy-duty/reinforced chrome-plated shifter lever bracket comes with lever bushing and a grease zerk
- Sold each

PART #	DESCRIPTION
DS-373592	For 70-84 FL, FLH models; repl. OEM #33630-70

HEAVY-DUTY SHIFTER LEVER BRACKET

- Heavy-duty/reinforced chrome-plated shifter lever bracket comes with lever bushing
- Sold each

PART #	DESCRIPTION
DS-530609	For 86-99 FLST; repl. OEM #33630-90A

SHIFT LEVER SHAFT BUSHINGS

- Also used in brake pedal applications on several models listed
- Sold in 10-pack to dealer

PART #	DESCRIPTION
DS-530611	For 86-99 FXST/FLST, 95-98 FXD/FXDWG; repl. OEM #33708-94

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

CHROME SHIFTER LEVER COVER

- One-piece shifter lever cover fits over the existing transmission shifter rod lever
- Looks as good from the front as it does from the rear

PART #	DESCRIPTION
DS-373626	For 85-99 Big Twin

KURYAKYN

FRONT SHIFT ARM ACCENT

- Brighten up the stock shifter arm with this easily installed cover
- Sold each

PART #	DESCRIPTION
1601-0226	For 84-98 FLHT/FLHR/FLTR

EK CHAINS

DRZ2 530 SERIES CHAINS

- Designed in conjunction with Pierre Elliott of Diamond Powersports
- Features Zero Stretch Technology that eliminates measurable chain stretch during the first 600 miles of use
- Chains and connecting links are chrome-plated
- Includes semi-press fit clip connecting link

ZVX3 530 SERIES CHAINS

- For competition and OEM replacement
- Super/ultra strong; 530 series tensile strength of 11,100 lb.
- NX ring lasts 15% longer than previous ZVX series chains
- Minimize clearance between plates
- Improved stiffness and weight
- Includes rivet-style master link
- Replacement rivet connecting links are available

ZRT SERIES

- Z-ring chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/bushing area provides long life
- High-carbon allow pins to minimize wear and increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Original equipment on Aprilia RSV4, BMW S100RR, Ducati Panigale 1199, KTM RC8 and many others

- Ideal for street bikes and superbikes up to 1300cc
- Gold color

PANTHER MOTORCYCLE DRIVE BELTS

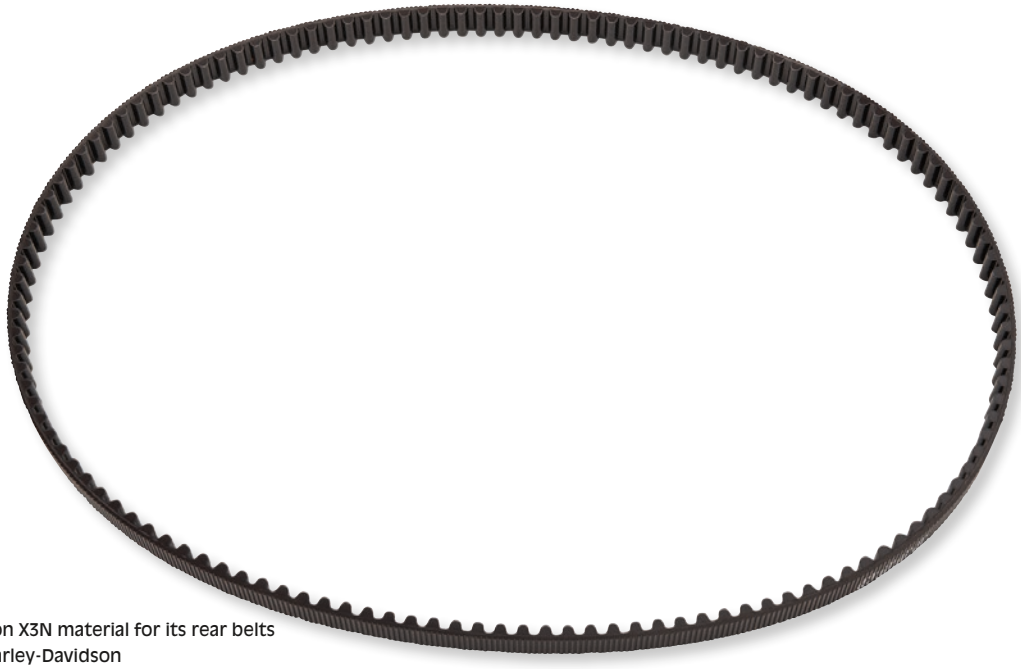

PANTHER REAR DRIVE BELTS

- Improved RPP™ Panther® Design
- Features ULTRA-CORD™ tensile members and the Able™ compound
- ULTRA-CORD doesn't stretch or shrink, thus reducing the strain on bearings, shafts and other drive components
- ULTRA-CORD resists degradation and moisture to give you longer belt life
- The Able compound, an advanced polymer, resists tooth shear, adding to the belt's stability
- The rugged parabolic tooth profile reduces noise and offers drive efficiency up to 98%

NOTE: No warranty claims are made or implied.

REAR DRIVE BELTS

- BDL now offers Gates carbon X3N material for its rear belts
- The same brand used by Harley-Davidson since 1980 due to its reliability
- Teeth on the belts have a slick surface that is easy on pulleys
- Outer surface of the Gates belt is ribbed to help with flexibility
- Higher reliability due to increased length stability and better pitch
- Higher resistance to humidity
- Higher tensile strength and robust construction

NOTE: No warranty claims are made or implied.

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps ensure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

Genuine JAMES GASKETS

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN TRANSMISSIONS

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gaskets flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

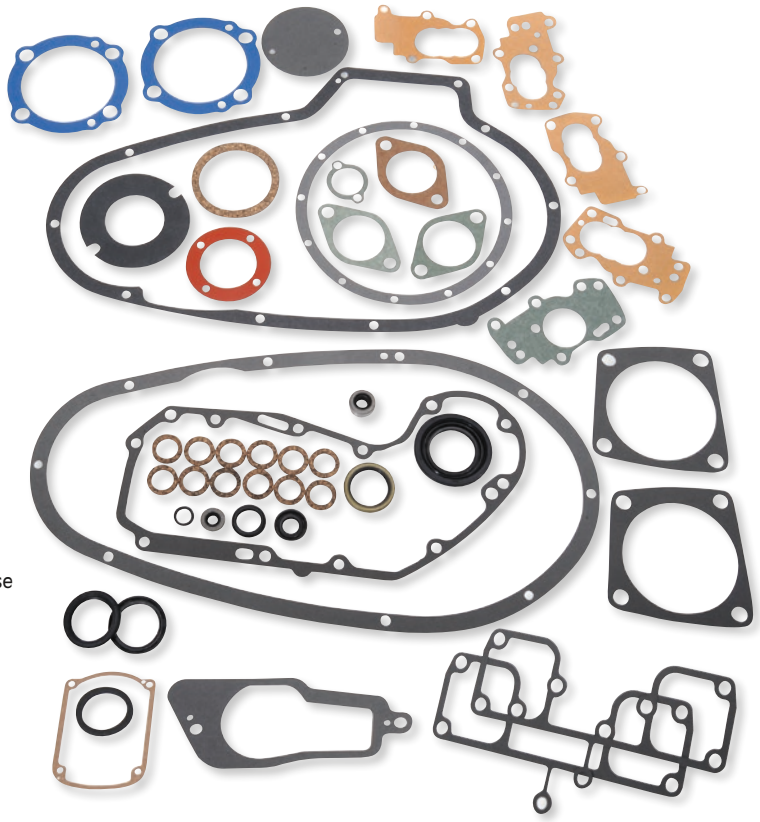

OEM #	DESCRIPTION	PART #	QTY.

With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

Genuine JAMES GASKETS

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR IRONHEAD XL (CONT)

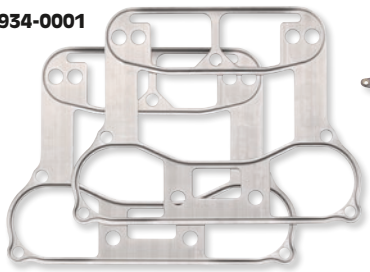

OEM #	DESCRIPTION	PART #	QTY.
CYLINDER BASE GASKETS			
16774-57	57-71 Front and rear, 900cc (paper)	**DS-174120**	10-pk.
16774-72	72-84 Front and rear, 1000cc (paper)	**DS-174110**	10-pk.
CAM COVER GASKETS			
25224-52X	57-E81 Cam cover (0,030" paper w/ bead)	**0934-1606**	5-pk.
POINT/IGNITION COVER GASKETS			
32591-80	80-85 Point cover (4-hole) (paper)	**DS-174435**	10-pk.
MANIFOLD/CARB/AIR CLEANER GASKETS			
27023-71	72-E76 Bendix carb to intake (paper)	**DS-174710**	10-pk.
27077-78	78 Keihin intake to carb (paper)	**DS-174492**	10-pk.
STARTER/GENERATOR GASKETS			
30143-58	58-E84 Generator mounting (paper)	**DS-174040**	10-pk.
31461-70	70-E79 XLCH Starter housing to primary mount (cork)	**DS-174072**	10-pk.
31488-77	67-80 Starter body to housing mount (paper)	**DS-174071**	10-pk.
31488-81	81-85 Starter mounting (paper)	**DS-174338**	10-pk.
60645-65	67-80 Solenoid (adhesive peel-apart backing)	**DS-174230**	10-pk.
PRIMARY/CLUTCH/INSPECTION COVER GASKETS			
34952-52A	52-69 XL 60"	**DS-174963**	ea.
34955-75X	77-85 XR1000 primary cover w/ silicone (0,030" paper)	**DS-174961**	5-pk.
34955-75	77-85 Primary cover (0,030" paper)	**DS-174015**	10-pk.
34955-75F	77-85 Primary cover, Foamet®	**0934-2115**	ea.
34955-67A	67-76 XL Primary cover (0,030" paper)	**DS-174962**	10-pk.
34955-67	67-76 XLH; 70-76 XLCH Primary cover	**DS-174010**	10-pk.
34952-52A	57-69 XL Primary cover (0,062" paper)	**DS-174963**	10-pk.
34952-52	58-69 XLCH Primary cover (0,030" paper)	**DS-174130**	10-pk.
37762-52	57-70 Clutch cover (paper)	**DS-174020**	10-pk.
60567-36	58-69 Inspection cover (cork)	**DS-174380**	10-pk.
60629-55	55-64 Inner primary to crankcase (paper)	**DS-174324**	10-pk.
MISCELLANEOUS GASKETS			
61111-77	77-82 Gas cap gasket (thick) (paper)	**DS-174516**	10-pk.
61114-48	57-82 Gas cap gasket (thin) (paper)	**DS-174517**	10-pk.
61116-65	65-82 Gas cap gasket (thin) (left) (paper)	**DS-174518**	10-pk.
63858-49	71-85 Oil level screw gasket (black paper)	**DS-174332**	5-pk.
65781-82	82-85 Crossover exhaust gasket (metal)	**DS-174741**	ea.
REPLACEMENT SEALS			
11124	71-85 Ignition (single lip)	**DS-194420**	5-pk.
11124DL	71-85 Ignition (double lip)	**DS-194421**	5-pk.
12049A	L84-85 trans. sprocket seal	**DS-194417**	5-pk.
26227-58	L58-76 Oil pump	**DS-194425**	5-pk.
27311-76A	76-84 Accelerator pump boot	**DS-289105**	10-pk.
30145-46A	58-81 Generator seal (gear end)	**DS-194490**	5-pk.
35150-52	54-E84 Mainshaft w/ retainer and gasket	**7808-1032**	ea.
35151-52A	54-76 Motor sprocket shaft seal	**DS-194415**	5-pk.
35151-74	77-84 Motor sprocket shaft and L84-85 trans sprocket seal	**DS-194461**	5-pk.
35169-52	57-E84 Mainshaft retainer gasket	**7808-1033**	10-pk.
37741-67A	67-70 Main drive gear/clutch hub (double lip, metal OD)	**DS-194450**	ea.
63529-50	59-65 XL, FL Oil tank line sleeve seal	**DS-174525**	10-pk.
83162-51	70-84 Point (single lip/metal OD)	**DS-194464**	5-pk.
PUSHROD TUBE/TAPPET BLOCK O-RINGS AND GASKETS			
11132	86-90 Middle pushrod O-ring	**DS-174830**	25-pk.
11100	57-85 Tappet guide block O-ring	**DS-174270**	25-pk.
11157	84-85 Upper pushrod O-ring	**DS-174289**	25-pk.
17955-36	57-E79 Small cork	**DS-174190**	ea.
17955-36A	57-E79 Small rubber seal	**DS-173383**	100-pk.
CARB/INTAKE MANIFOLD SEALS/O-RINGS			
27002-66SS	S&S carb to manifold seals	**0935-0088**	kit
27060-55	57-78 Intake manifold O-rings	**DS-174220**	10-pk.
27062-78	L78-85 Intake manifold seals	**DS-174822**	10-pk.
27062-78-2	L78-85 Intake manifold seal kit	**0935-0082**	kit
27324-83	83-85 Float bowl O-ring (Viton®)	**DS-174337**	5-pk.
27360-76	L76-85 Accelerator pump housing O-ring	**DS-193626**	20-pk.
27892-78	79, 81-82 Low speed adjustment screw O-ring	**DS-193628**	10-pk.
MISCELLANEOUS O-RINGS			
11101	57-85 Rocker arm shaft	**DS-174290**	25-pk.
11105	L66-85 Drain plug/oil pump cap	**DS-174334**	25-pk.
11105X	L66-85 Drain plug/oil pump cap O-ring (oversize)	**DS-173430**	25-pk.
11116	81-85 Starter O-ring	**DS-174341**	25-pk.
11139	L75-85 Primary filler plug	**DS-174364**	25-pk.
17955-36A	57-E79 Small rubber seal	**DS-173383**	100-pk.
26432-76	77-78 Oil pump check valve	**DS-173507**	10-pk.
26432-76A	79-85 Oil pump check valve upper	**DS-174330**	10-pk.
26433-77	77-85 Oil pump check valve lower	**DS-174323**	10-pk.
26434-76A	77-85 Oil pump cover	**DS-174820**	10-pk.
61109-85C/D	82-85 Gas cap O-ring	**DS-174515**	10-pk.
63529-57	57-85 Oil line sleeve	**DS-174310**	25-pk.
11179	88-99 Clutch cable	**DS-174369**	25-pk.
MISCELLANEOUS WASHERS			
45406-75	75-85 Damper tube bolt washer	**DS-193634**	10-pk.
6410	Universal nylon seat mounting	**DS-174355**	20-pk.

All part numbers in **BLUE** are new for the OldBook.

REPLACEMENT GASKETS/SEALS/O-RINGS

- High-quality products for long-term reliability
- Manufactured from premium fuel-resistant materials that will not creep, crack or become brittle
- Gaskets available in multiple types to best suit the intended application
- Extreme Sealing Technology (EST) gaskets feature embossed steel gaskets covered with a proprietary rubber material or solid copper, depending on the application
- Multi-Layer Steel (MLS) gaskets feature two outer Viton®-coated embossed spring steel layers with an inner steel layer to provide additional support
- CFM is a composite material with a steel tang center laminated to provide excellent heat tolerance without delaminating while providing a long-lasting seal
- Single-Layer Steel (SLS) gaskets feature a stainless steel core and embossed outer surfaces that create a heavy-duty seal between the center steel layer and the gasket mating surfaces
- Aluminum Foamette Material (AFM) gaskets feature an aluminum core and a chemically blown, compounded nitrile synthetic rubber coating that is bonded to the outside layer; do not require gasket sealer
- Viton® gaskets feature a stainless steel core with a 0,001" thick coating of Viton rubber on both sides

FOR BIG TWIN

ROCKER BOX				
6114	Washers for rocker box gaskets for 84-99 Evolution	Copper	**0935-0168**	10-pk. (ea.)
16778-97	Lower right rocker gasket for 84-99 Evolution	Viton coated steel/0,010"	**DS-172004**	5-pk. (ea.)
16778-97	Lower right rocker gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0749**	5-pk. (ea.)
16778-97	Lower left rocker gasket for 84-99 Evolution	Viton coated steel/0,010"	**DS-172048**	5-pk. (ea.)
16778-97	Lower left rocker gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0748**	5-pk. (ea.)
17355-84A	Lower rocker box cover gasket for 84-91 Evolution	Viton	**0934-1349**	5-pk. (ea.)
17355-92	Lower rocker box cover gasket for 92-99 Evolution	Viton	**0934-1350**	5-pk. (ea.)
17356-84A	Upper rocker box cover gasket for 84-91 Evolution	Viton	**0934-1346**	5-pk. (ea.)
17356-92	Upper rocker box cover gasket for 92-99 Evolution	Viton	**0934-1347**	5-pk. (ea.)
17358-84A	Inner rocker box cover gasket for 84-99 Evolution	Viton	**0934-1348**	5-pk. (ea.)
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	Viton coated steel/0,020"	**0934-0753**	2-pk.
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	CFM20/0,043"	**0934-4647**	10-pk. (ea.)
17540-69	One-piece rocker base gasket for 66-84 Shovelhead	Fiber/0,031"	**0934-4684**	2-pk.
63858-49	Washers for rocker box gaskets for 94-99 Evolultion	Vulcanized rubber	**0935-0169**	10-pk. (ea.)
-	One-piece rocker base gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0751**	10-pk. (ea.)
-	One-piece rocker base gasket for 84-99 Evolution	Viton coated steel/0,020"	**0934-0001**	2-pk.
CYLINDER HEAD/CYLINDERS				
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,030"	**0934-0032**	2-pk.
93-1073	Head gasket for 4,125" bore S&S Super Sidewinder Plus	MLS/0,040"	**0934-0034**	2-pk.
16770-66B	Head gasket for 66-84 Shovelhead w/ stock bore	MLS/0,040"	**0934-0794**	2-pk.
16773-85	Head gasket for 84-99 Evolution 3 5/8" bore	MLS/0,030"	**DS172088**	2-pk.
16773-85	Head gasket for 84-99 Evolution 3 5/8" bore	MLS/0,040"	**DS172089**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,060"	**0934-1227**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,030"	**DS172086**	2-pk.
16773-85	Head gasket for 84-99 Evolution std. bore	MLS/0,040"	**DS172087**	2-pk.
16776-48	Front cylinder base gasket for 66-84 Shovelhead (standard bore)	Fiber/0,031"	**0934-4711**	ea.
16777-83A	Base gasket for 84-99 Evolution	Viton coated steel/0,020"	**DS-172051**	2-pk.
17507-48	Rocker box gaskets for 48-65 Panhead	Felt/0,125"	**0934-4687**	10-pk. (ea.)
18000-81	Valve Guide Seal w/ garter 0,625" OD for L79-84 Shovelhead	Viton Rubber	**0934-4726**	ea.
18000-81	Valve guide seals for L81-84 Shovelhead	Viton	**0935-0835**	ea.
26856-89	Umbrella valve seal for 93-99 Evolution	Viton	**0935-0167**	10-pk. (ea.)
-	Head gasket for 84-99 Evolution 3 3/4" bore	MLS/0,030"	**0934-1353**	2-pk.

18634-48-A/B/C	Front tappet block gasket for 66-99 Big Twin	AFM/0,032"	**0934-1352**	10-pk. (ea.)
18634-48-C	Front tappet block gasket for 48-99 Big Twin	Fiber/0,020"	**0934-1645**	10-pk. (ea.)
25225-36C	Cam cover gasket for 48-69 Big Twin	AFM/0,060"	**2011-1499**	5-pk. (ea.)
25225-70	Cam cover gasket for 70-92 Big Twin	AFM/0,032"	**0934-1648**	5-pk. (ea.)
25225-70B	Cam cover gasket for 70-92 Big Twin	AFM/0,060"	**2011-1497**	5-pk. (ea.)
25225-70XM	Cam cover gasket for 70-84 Shovelhead	AFM/0,060"	**2011-1497**	5-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,031"	**0934-1647**	10-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,032"	**0934-1646**	5-pk. (ea.)
25225-93	Cam cover gasket for 93-99 Evolution	AFM/0,060"	**2011-1498**	5-pk. (ea.)
26077-93	Oil pan gasket for 93-98 FLT	AFM/0,060"	**0935-0218**	5-pk. (ea.)
26227-58	Oil pump drive gear seal for 84-99 Evolution	Viton	**0935-0175**	5-pk. (ea.)
26244-37	Oil pump body gasket for 37-59 Big Twin	Fiber/0,020"	**0934-4697**	10-pk. (ea.)
26273-80B	Oil pump body gasket for 84-91 Evolution	Vulcanized fiber, paper/0,010"	**0934-1362**	10-pk. (ea.)
26273-80B	Oil pump body gasket for 84-91 Evolution	Metal/Viton coated, paper/0,010"	**0934-1650**	10-pk. (ea.)
26273-92	Oil pump body gasket for 92-99 Evolution	Vulcanized fiber, paper/0,010"	**0934-1361**	10-pk. (ea.)
26273-92	Oil pump body gasket for 92-99 Evolution	Metal/Viton coated, paper/0,010"	**0934-1651**	10-pk. (ea.)
26276-80A	Oil pump cover gasket for 84-91 Evolution	Vulcanized fiber, paper/0,010"	**0934-1363**	10-pk. (ea.)
26276-80A	Oil pump cover gasket for 84-91 Evolution	Metal/Viton coated, paper/0,010"	**0934-1652**	10-pk. (ea.)
26276-92	Oil pump cover gasket for 92-99 Evolution	Vulcanized fiber, paper/0,010"	**0934-1364**	10-pk. (ea.)
27062-78	Intake manifold to cylinder head O-ring for L78-84 Shovelhead	Nitrile Rubber	**0934-4717**	2-pk. (ea.)
27060-55	Intake manifold O-ring kit for 66-E78 Shovelhead	-	**0934-4705**	kit
27077-78	Keihin manifold gasket for 78-84 Shovelhead	Fiber/0,031"	**0935-0222**	10-pk. (ea.)
30143-58	Generator mount gasket for 66-69 Shovelhead	Fiber/0,020"	**0934-4675**	5-pk. (ea.)
32591-80	Points cover gasket for 70-99 Big Twin	AFM/0,032"	**0934-1359**	5-pk. (ea.)
32591-80	Points cover gasket for 84-99 Evolution	Fiber/0,031"	**0934-4666**	10-pk. (ea.)
63529-57	Oil line sleeve seal for 63-84 Big Twin	Viton Rubber	**0935-0828**	10-pk. (ea.)
83162-51	Points seal (double lip) for cam housing for 70-99 Big Twin	Viton	**0935-0171**	5-pk. (ea.)
32591-80	Points cover gasket for 80-84 Shovelhead	-	**0934-4666**	10-pk. (ea.)
PRIMARY/STARTER/CLUTCH				
11101	Starter oil deflector O-ring for L66-82 Shovelhead	Buna Rubber	**0935-0178**	10-pk. (ea.)
11116	Starter housing O-ring for 91-99 Evolution	Nitrile	**0935-0179**	25-pk. (ea.)
11125	Inner primary-to-case O-ring for 70-E82 Shovelhead	Buna Rubber	**0935-0261**	10-pk. (ea.)
11171	Starter bolt O-ring for 89-90 Evolution	Nitrile	**0934-1367**	10-pk. (ea.)
12014	Clutch hub nut seal for 65-E84 Big Twin	Dual lip Viton	**0935-0196**	5-pk. (ea.)
12018	Inner primary bearing seal for 70-E84 Shovelhead	Dual lip Viton	**0935-0262**	5-pk. (ea.)
12051	Starter shaft seal for L84-88 Evolution	Viton	**0935-0180**	5-pk. (ea.)
12053	Starter shaft seal for 89-93 Evolution	Viton	**0935-0181**	5-pk. (ea.)
12066	Starter shaft seal for 94-99 Evolution	Viton	**0935-0163**	5-pk. (ea.)
25416-84	Derby cover O-ring for 84-98 Evolution	Buna	**DS-172019**	10-pk. (ea.)
25416-84	3-hole derby cover gasket for 70-84 Shovelhead	AFM/0,060"	**0934-1228**	5-pk. (ea.)

All part numbers in BLUE are new for the OldBook.

33295-36	End cover gasket for 36-76 Big Twin	AFM/0,032"	**0934-1375**	10-pk. (ea.)
34552-52	Ratchet cover gasket for 52-E79 Big Twin	AFM/0,032"	**0934-1376**	10-pk. (ea.)
34824-36	Top cover gasket for 36-E79 Big Twin	AFM/0,060"	**0934-1378**	10-pk. (ea.)
34824-79	Top cover gasket for L79-86 Big Twin	AFM/0,032"	**0934-1379**	10-pk. (ea.)
34904-79	Top cover gasket for 80-86 Big Twin	AFM/0,032"	**0934-1380**	10-pk. (ea.)
34904-86B	Top cover gasket for 87-99 Evolution (thin version)	AFM/0,032"	**0934-1381**	10-pk. (ea.)
34917-90A	Top cover gasket for 90-98 Dyna	AFM/0,032"	**0934-1382**	10-pk. (ea.)
35230-39DL	Main shaft seal for 36-79 Big Twin	Dual lip Viton	**0935-0208**	5-pk. (ea.)
35652-79A	Bearing housing gasket for 80-98 Big Twin	AFM/0,032"	**0934-1383**	10-pk. (ea.)
36801-79	Clutch release cover gasket for 80-86 Big Twin	AFM/0,032"	**0934-1384**	10-pk. (ea.)
36801-87B	Transmission end cover gasket for 87-99 Evolution	AFM/0,032"	**0934-1385**	10-pk. (ea.)
37101-84	Clutch release lever O-ring for 84-86 Evolution	Viton	**0935-0211**	ea.
37741-82	Double-lip main drive gear seal for 82-86 Big Twin	Dual lip Viton	**0935-0213**	5-pk. (ea.)
62423-90	Oil filler spout gasket for 91-98 Dyna	AFM/0,032"	**0934-1386**	10-pk. (ea.)
62432-93	Oil filler spout gasket for 93-98 FLT	AFM/0,032"	**0934-1387**	10-pk. (ea.)
62702-52	Drain plug washer for 66-86 Big Twin	Vulcanized Fiber/0,015"	**0935-0216**	10-pk. (ea.)
AIR/FUEL/INTAKE				
27002-89	Carb-to-manifold seal for 89-99 Evolution	High-density fiber/0,031"	**0935-0173**	ea.
27077-78	Keihin manifold gasket for 84-89 Evolution	High-density fiber/0,031"	**0935-0222**	10-pk. (ea.)
29059-88	Keihin CV air cleaner gasket for 90-99 Evolution	Buna	**0934-1394**	20-pk. (ea.)
29242-83	Intake to head compliance fitting seal for 84-89 Evolution	Viton	**0934-1360**	10-pk. (ea.)
EXHAUST				
65324-83A	Exhaust port gasket, tapered, for 84-99 Evolution	Stainless graphite mesh	**0934-1337**	10-pk. (ea.)
-	Exhaust port gasket for 84-99 Evolution	Stainless spiral wound	**0934-1237**	10-pk. (ea.)
-	Exhaust port gasket, race style, for 84-99 Evolution	Stainless graphite mesh	**0934-1336**	10-pk. (ea.)
FOR XL				
TOP END				
11101	Rocker arm O-ring for 57-85 XL	Viton	**0935-0178**	10-pk.
16769-73	Head gaskets for L73-85 XL	Copper/0,032"	**0934-4709**	2-pk.
16769-82	Head gaskets for L73-85 XL	Copper/0,043"	**0934-4710**	2-pk.
16774-72	Cylinder base gaskets for 72-85 XL	High-density fiber/0,031"	**0934-4715**	2-pk.
17536-70	Rocker box cover gasket for 57-85 XL	High-density fiber/0,020"	**0934-4714**	2-pk. (ea.)
25263-81	Cam cover gasket for 82-85 XL	AFM/0,060"	**0934-4682**	ea.
LOWER END/CAM/PUSHROD				
6007	Drain plug washer for 80-85 XL	Nylon	**0935-0185**	10-pk. (ea.)
11124	Points shaft seal for 71-85 XL	Dual Lip Viton	**0935-0230**	5-pk. (ea.)

Genuine JAMES GASKETS

GASKET SETS FOR BIG TWIN MODELS

- Top-quality gaskets available as complete sets, motor sets or top end sets
- Contain gaskets, oil seals and O-rings necessary to completely rebuild an Evolution, Shovelhead, Panhead or Knucklehead/Flathead engine

PART #	DESCRIPTION
COMPLETE GASKET SETS	
DS-173323	For 70-84 Shovelhead 4-speed (Fire-Ring™ head gaskets); repl. OEM #17029-70A
DS-173239	For 66-84 Shovelhead 4-speed; repl. OEM #s 17029-70/17029-66
DS-174965	For 36-47 EL/FL; repl. OEM #17028-36
0934-0546	For 36-48 UL/ULH; repl. OEM #17027-36

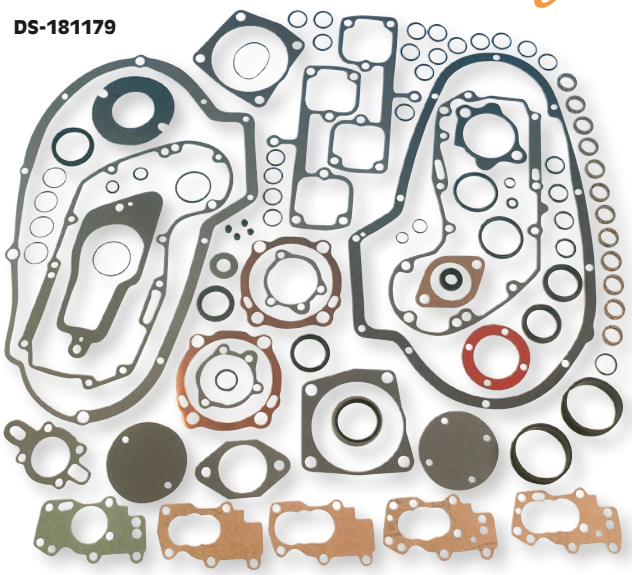

PART #	DESCRIPTION
TOP END GASKET SETS	
2011-2097	For 92-99 80" Evolution w/ S&S/Landmark billet rocker boxes (0,045" head gaskets, 0,020" metal base and metal rocker gaskets)
0934-1590	For 92-99 4" bore Evolution w/ S&S/Landmark billet rocker boxes (0,045" head gaskets, 0,020" metal base and metal rocker gaskets)
0934-1717	For 92-99 4" bore Evolution (metal base and metal rocker gaskets); repl. OEM #17033-92-4
0934-0947	For 92-99 80" Evolution (multi-layered steel head gaskets, RCM base gaskets, metal rocker gaskets); repl. OEM #17040-92A
DS-173250	For 92-99 80" Evolution (metal rocker gasket/0,045" head gaskets); repl. OEM #17040-92A
DS-173275	For 92-99 80" Evolution (3 5/8" big bore) (rubber rocker gaskets/0,045" head gaskets); repl. OEM #17033-92
0934-0946	For 84-91 Big Twin (multi-layered steel head gaskets, rubber rocker gaskets); repl. OEM #17033-83-MLS
DS-173251	For 84-91 Big Twin (rubber rocker gaskets/0,045" head gaskets); repl. OEM #17033-83A
DS-173342	For 84-91 Big Twin (cork rocker gaskets); repl. OEM #17033-83
DS-174982	For 78-84 Shovelhead (3 5/8" big bore) (steel base gaskets)
DS-173242	For 66-84 Shovelhead (0,045" head gaskets/0,030" base gasket); repl. OEM #17034-66
DS-174973	For 66-84 Shovelhead (Fire-Ring™ head gaskets); repl. OEM #17034-66X
0934-3127	For 48-65 FL/FLH (Fire-Ring™ head gaskets, Foamet base gaskets, 1/16" thick and 1/32" thin pan cover gaskets); repl. OEM #17034-48FX
DS-173405	For 48-65 Panhead (0,045" head gaskets, 0,030" base gaskets, 1/16" thick and 1/32" thin pan cover gaskets); repl. OEM #17034-48
DS-173367	For 40-73 45" Flathead (copper head gaskets); repl. OEM #17031-40

PART #	DESCRIPTION
MOTOR GASKET SETS (NO PRIMARY GASKET OR SEALS)	
DS-174532	For 92-99 80" Evolution (metal base/rocker gaskets); repl. OEM #17041-92A
0934-1591	For 92-99 80" Evolution (w/ MLS head gaskets); repl. OEM #17041-92MLS
DS-173245	For 84-91 80" Evolution (metal base and rocker cover gaskets); repl. OEM #17035-83B
0934-1589	For 84-91 80" Evolution (w/ MLS head gaskets); repl. OEM #17035-83MLS

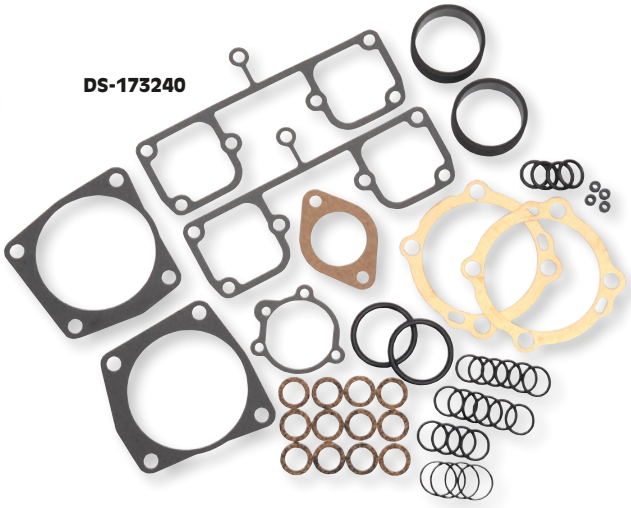

All part numbers in BLUE are new for the OldBook.

DS-181179

DS-173240

GASKET SETS FOR XL

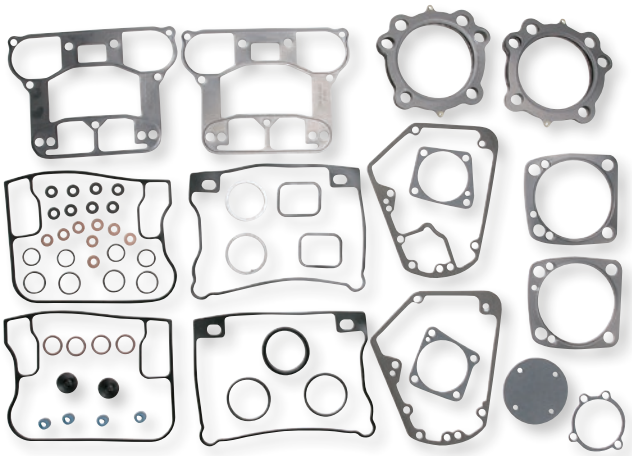

- Top-quality gaskets, oil seals and O-rings necessary to rebuild an XL engine
- Available as complete sets or top end sets only

COMPLETE GASKET SETS	
PART #	**DESCRIPTION**
DS-181179[1]	For 72-85 XL 1000 (copper head gaskets 0,032"); repl. OEM #17026-73
DS-173365	For 83-84 XR-1000; repl. OEM #17026-83

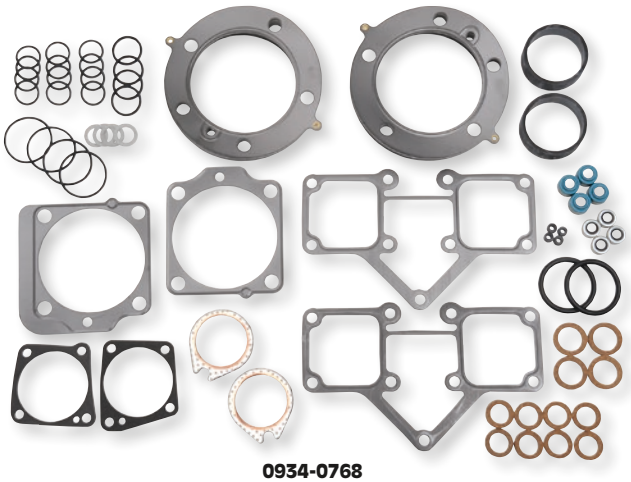

[1] 72-E73 must order head gaskets separately.

TOP-END GASKET SETS	
PART #	**DESCRIPTION**
DS-173240[1]	For L73-85 XL; repl. OEM #17030-72A
DS-173335	For 57-71 XL; repl. OEM #17030-57

[1] 72-E73 must order head gaskets separately; PART #DS-174080.

0934-0819

0934-0768

TOP-END GASKET KITS

- EST (Extreme Sealing Technology) gasket kits include embossed stainless steel head, base and rocker gaskets covered with a proprietary rubber material
- Head gasket material allows heat to be drawn away from the combustion ring and dissipated evenly across the gasket surface to eliminate hot spots and gasket failure

- Sets contain all the necessary gaskets, seals and O-rings to rebuild the top end from the cylinder base upward

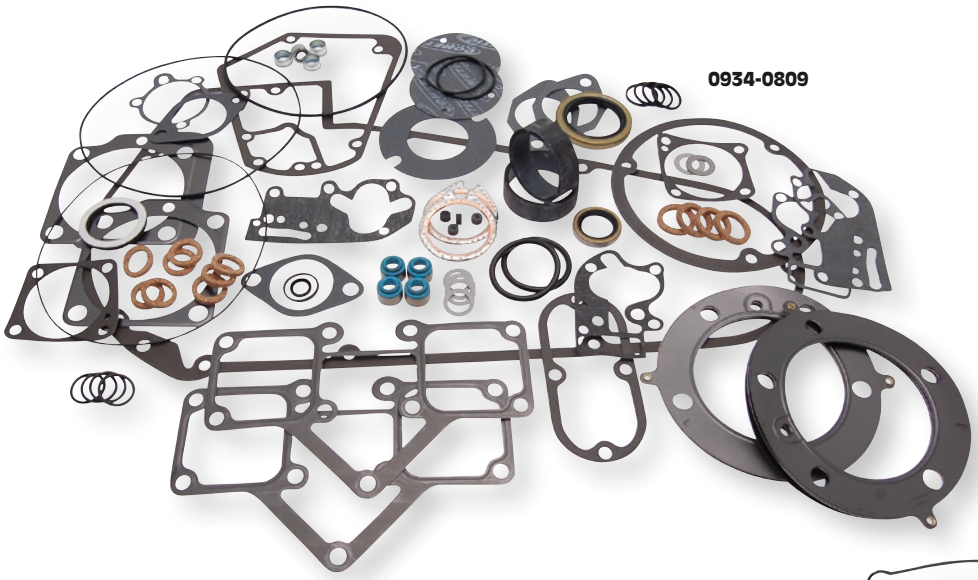

PART #	DESCRIPTION
FOR BIG TWIN	
0934-0819	For 92-99 Evolution Big Twin, std. bore 0,030" head gaskets
0934-1203	For 92-99 Evolution Big Twin, std. bore (kit has no rubber rocker box gaskets)
DS172080	For 92-99 Evolution Big Twin; repl. OEM #17040-92
DS172078	For 92-99 Evolution Big Twin w/ 3 5/8" Big Bore; repl. OEM #17040-92S
0934-0756	For 84-91 Evolution Big Twin w/ 3 3/4" bore
0934-0763	For 84-91 Evolution Big Twin w/ 3 3/16" bore
0934-0818	For 84-91 Evolution Big Twin, std. bore; 0,030" head gaskets
DS172081	For 84-91 Evolution Big Twin, std. bore; repl. OEM #17033-83
DS172079	For 84-91 Evolution Big Twin w/ 3 5/8" Big Bore; repl. OEM #17033-83S

PART #	DESCRIPTION
FOR BIG TWIN (CONT)	
0934-0767	For S&S Big Twin w/ 4,00" bore, S&S rocker box gaskets
0934-0768	For 66-84 Shovelhead
0934-0766	For 66-84 Shovelhead, 3 5/8" bore
0934-0820	For 66-84 Shovelhead, 3 3/16" bore (no oil drains in head gaskets)
0934-0770	For 48-65 Panhead
FOR IRONHEAD XL	
0934-4660	For 82-85 XL (Low compression)
0934-4656	For 77-85 XL (Hi compression)
0934-4658	For 72-E73 XL

EXTREME SEALING TECHNOLOGY (EST) COMPLETE GASKET KITS

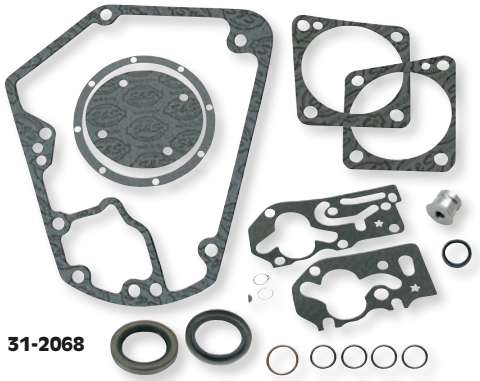

- Every gasket in these kits uses the best materials possible for its intended application
- Multi-Layer Steel (MLS) head gaskets
- Steel Viton®-coated base gaskets
- Blue Viton valve stem seals
- Aluminum Foam Material (AFM) race-style exhaust gaskets
- Complete kits include motor gasket kit plus primary, derby and inspection cover gaskets

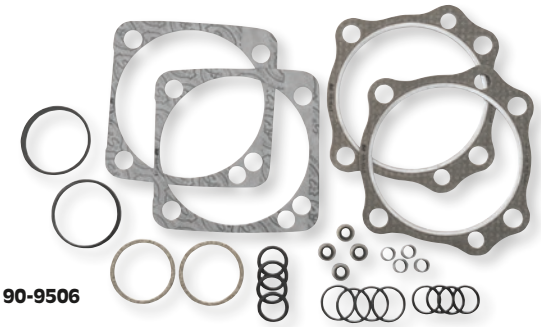

PART #	DESCRIPTION
COMPLETE KITS FOR BIG TWIN	
0934-0815	For 92-99 Evolution Big Twin, 0,040" head gaskets
0934-0799	For 92-99 Evolution Big Twin, 0,030" head gaskets
0934-0729	For 84-91 FLT/FXR 5-spd., 0,040" head gaskets
0934-0802	For 84-91 FLT/FXR 5-spd., 0,030" head gaskets
0934-1216	For 84-91 Big Twin 3 5/8" bore
0934-0730	For 89-91 FXST/FLST, Dyna, 0,040" head gaskets
0934-0801	For 84-88 Big Twin 4- and 5-spd., 0,030" head gasket
0934-0809	For 70-84 Shovelhead 4-spd.
0934-4663	For 70-84 Shovelhead 4-spd. (3 5/8" bore)
0934-0812	For 66-69 Shovelhead
0934-0816	For 48-65 Panhead FL, FLH

0407-0345

FORK SEAL AND DUST WIPER KITS

- Seal profile is engineered to create equal pressure in each seal lip; equalized seal pressure creates less drag and longer seal life
- MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily
- Kits include fork seals and dust wipers

PART #	DESCRIPTION
0407-0343	For 84-98 FLT/FLHT/FLHR/FLTR, 84-99 FXST/FLST, 93-98 FXDWG, 84-86 FXWG (41 mm)
0407-0677	For 84-99 FXST, 93-98 FXDWG, 84-86 FXWG (41 mm)

PART #	DESCRIPTION
0407-0674	For 91-98 FXD, L87-00 FXR (39 mm)
0407-0673	For 83-85 FXEF/SB, 84-E87 FXR, 83-85 XL (35 mm)
0407-0345	For 83-85 XR1000 (43 mm)

0407-0672

0407-0057

0407-0671

FORK SEAL KITS

- Seal design and special elastomer has 1/3 of the stiction and up to four times the life of an OEM seal
- Dual-lip design balances the drag forces across both sealing lips resulting in less lip distortion, which extends seal life and reduces seal operating temperature
- Sold in pairs or 10-pk. as noted

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT/FLHX/FLTR, 84-99 FXST/FLST MODELS, 93-98 FXDWG MODELS, 84-86 FXWG MODELS W/ 41 MM SHOWA FORKS	
0407-0058	Fork oil seals (pr.); repl. OEM #45875-84
0407-0668	Fork oil seals (10-pk) ; repl. OEM #45875-84

HELIX RACING PRODUCTS

PREMIUM GASKET MATERIAL

- One sheet 1/32" (0,032") thick x 14,5" wide x 30" long
- Made from aramid and other synthetic fibers compressed with nitrile butadiene rubber (NBR) binder
- Resists oils, solvents, mild acids, alkalis, gasses, water and low-pressure steam
- Multi-purpose seal for all powersports applications including oil, fuel, water, coolant and exhaust mounts
- Service conditions up to 363 °C (750 °F)

DRAG Specialties

BRAIDED SPARK PLUG WIRES

- Intended for use with electronic ignitions
- 93,5 cm (37") wire length to reach anywhere it needs to go
- Tin-plated copper wire with silicon insulation jacket and fiberglass coating along with silicon boot combine to make these wires flame retardant and high temperature resistant
- Insulation diameter is 6-6,5 mm with 0,5mm fiberglass outer cover
- External braided cover is made of fiberglass and comes in attractive colors to add to the customization of your bike

MAGNUM POLISHED STAINLESS STERLING CHROMITE BLACK PEARL

BRAIDED SPARK PLUG WIRES

- The industry's best braid is available in Sterling Chromite®, polished stainless, candy apple blue, candy apple red and black pearl
- Braid perfectly matches all other Magnum cables and brake lines
- High-voltage, high-temperature 8 mm silicone ignition wire with an OE style high-performance suppression conductor core for guaranteed compatibility with all H-D ignition systems
- Heavy-walled, extreme-duty, crystal-clear FEP Fluoropolymer outer insulation eliminates the need for grounding wires and ensures no interference with late model computer modules
- Posi-lock spring clip terminals and silicone boots ensure maximum performance and clean spark delivery
- OE direct fitments for ease of installation

Sumax TAYLOR

8 MM CUSTOM-COLORED PLUG WIRES

- Precut plug wires have the plug/coil boots and terminals already installed
- Boots and wires are made from extra-high-temperature silicone, which gives protection up to 316 °C (600 °F)
- Spiro-Pro core provides up to 10 times the conductivity of a standard carbon-core wire
- Low resistance means they run cooler and last three to four times longer than carbon-core wires
- Designed for electronic ignitions, but also work great on point types
- Universal wire kits feature 61 cm (24") wire leads (not for Twin Cam)
- Sold in pairs

PART #	DESCRIPTION
FOR FOR L84-98 FLT/FLHT/FLHR/FLTR (54,5 CM (21,5") LEAD W/ 180° PLUG BOOT, 180° COIL BOOT, 23 CM (9") LEAD W/ 180° PLUG BOOT, 90° COIL BOOT)

DYNATEK dyna performance electronics

UNIVERSAL 8 MM SUPPRESSION PLUG WIRE SET

- Dyna suppression core spark plug wires use the highest grade graphite suppression core to reduce electrical noise and increase engine performance
- Two wires, each 122 cm L (48"); cut to length; can be used for up to four cylinders

PART #	DESCRIPTION
DW800	8 mm suppression plug wire set

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

UNIVERSAL 8,8 MM PLUG WIRE KITS

- Graphite suppression core wires for street or strip
- Available for single- or dual-plug head applications
- Single-plug kits contain one 107 cm wire; dual-plug kits contain two 107 cm wires
- Kits come with brass locking terminals and boots for male- or female-type coil ends

DESCRIPTION	BLACK
Single-plug 90° ends	DS-242652

DESCRIPTION	BLACK
Single-plug straight ends	DS-242656

CUSTOM 8,8 MM WIRE SETS

- These yellow or black heavy-duty silicone 8,8 mm wire sets are cut to size and available with suppressor core wire

NOTE: L78-present H-D ignition systems require the use of suppression core wire; copper wire may damage the ignition system.

PERFORMANCE SPARK PLUGS

2103-0203

2103-0199

- Conventional-style spark plugs, available in OEM heat ranges
- Plugs have a unique look with a black ceramic body and bold red logo/script
- Insulator is made of 95% pure alumina, features strong resistance to heat shock and superior insulation
- Multi-rib design of the insulator eliminates flashover
- Nickel-plated housing prevents oxidation and corrosion
- Multi-layer gaskets and heat crimping process ensure a leak-free, gas-tight seal
- Copper core electrode prevents oxidation and corrosion, has good electrical and heat conductivity and creates long spark plug service life
- Sold in pairs in blister pack

PART #	DESCRIPTION	NGK REFERENCE #	REFERENCE #

"CYCLELITE" PLATINUM SPARK PLUGS

- Accel's platinum plugs are made from state-of-the-art components
- Platinum tipped for longer life and durability that holds a precise gap even longer
- Knurled chromium-nickel alloy side wire for greater durability and greater spark with reduced voltage
- Pure copper core decreases fouling
- Sold in pairs

PART #	DESCRIPTION	GAP
Y2410P	For 80-81 Shovelhead	0,040"

U-GROOVE SPARK PLUGS

- Accel's state-of-the-art, U-Groove spark plugs with ground electrodes, copper glass inner seal and an electric heat seal to prevent leakage in high-compression engines
- Permit the spark to develop a larger, fuller flash for a more complete burn
- Extra-wide heat range
- Sold in pairs unless noted in chart

PART #	DESCRIPTION	ACCEL #	GAP

[1] 24-pk. of PART #RN-12-YC.

IRIDIUM SPARK PLUGS

IW16

- Six times harder than platinum, iridium doesn't melt in temperatures up to 2.204 °C (4.000 °F)
- Because the plug's iridium electrode can shrink to only 0,4 mm, voltage requirements decrease while firing performance improves
- 360° laser welding of electrode provides a seal that resists wear even in the worst conditions
- Ground electrode features a tapered cut and U-groove that form a large volume area for the flame's center
- Sold each

IRIDIUM PART #	NGK REFERENCE #	DESCRIPTION
IW16	BPR5ES-11	For 78-84 Big Twin
IW20	BPR6ES-11	For 83-85 XR 1000
IW22[1]	BPR7EIX-11	For 83-85 XR 1000

[1] Cooler plug.

All part numbers in BLUE are new for the OldBook.

NGK

IGNITION PARTS

SPARK PLUGS

- Superior construction for serious power
- NGK makes plugs for almost every application and riding style
- Versatile plugs with wide operating heat ranges prevent fouling from running too cool and pre-ignition from running too hot
- Features include high alumina ceramics for improved heat dissipation and electrical insulation, deep-seated copper core for a wider heat range and a nickel alloy tip for longer life
- Sold each

PART #	DESCRIPTION
BPR5ES-11	For 84-99 80" Evolution Big Twin (Cooler plug)
BPR5ES-11	For 75-81 Shovelhead
BPR6HS-10	For 79-85 XL
BPR6HS	For 79-85 XL
B6L	For 57-78 XL

NGK

IGNITION PARTS

IRIDIUM IX

IRIDIUM IX SPARK PLUGS

- The ultimate in spark plug technology and performance from the industry leader
- The iridium electrode is 25% smaller than a platinum electrode, and it's just 1/4 the size of a conventional nickel electrode
- Ultra-small-diameter center electrode reduces voltage requirement and extends ignition system life
- Metal shell plating has enhanced anticorrosion qualities
- Sold each

PART #	DESCRIPTION
BPR5EIX-11	For 84-00 80" Evolution Big Twin
BPR5EIX-11	For 82-84 Shovelhead
BPR6EIX-11	For 83-85 XR1000
BPR6HIX	For 79-85 XL

POWERMADD

E3 RESISTOR SPARK PLUG

- Unique electrode shape maximizes the power created by the spark plug – Diamond Fire technology
- Electrode is a combination of performance and technology that results in an improved flame kernel shape
- This flame front ignites the bulk air/fuel mixture faster, moves heat into the combustion chamber faster and creates a more localized pressure front for faster pressure rise during the cylinder power stroke
- The result is more complete combustion and an improvement in engine performance
- A truly premium performance plug
- Sold each

PART #	DESCRIPTION	NGK REF	H-D REF
2103-0083	For 78-84 Big Twin and 83-85 XR1000 models	BPR5EIX, BPR5ES, BPR6EIX, BPR6ES, BPR7EIX, BPR7ES, BUR4EB11, BUR5EB11, BUR6EA, BUR7EA11, GR45, GR4GP, GR4IX, GR55, GR5IX, IGR7AG, PGR5C11, PGR6A, PGR7A, ZGR5C	HD56, HD5A6, HD5A6A, HD5R6, HD5R6A, HD5RL, HD6RL

DRAG Specialties

SPARK PLUG HOLDER

- A replica of the spark plug holder found on early Panheads, updated to accept even late-model Shovelhead deep-reach plugs
- Metal holder clamps onto the rear frame tube behind the oil tank on all Big Twin models and holds two extra spark plugs (not supplied)
- Held in place by a thumbscrew

PART #	DESCRIPTION
DS-196091	Chrome-plated

PARTS UNLIMITED

SPARK PLUG CADDY

- Dual-plug caddy holds two 14 mm spark plugs securely in place

PART #	DESCRIPTION
2870368	Spark plug caddy

SINGLE-AND DUAL-FIRE IGNITION COILS

- Improves overall performance including starting, stops and high-speed misfires; and increases mileage
- 30.000V output for all 70-99 ignitions
- Peak spark voltage increases by at least 20%

2102-0226

2102-0221

PART #	DESCRIPTION
BLACK	
2102-0332	For 95-98 FLHTC/I, FLHTCU/I, FLTC, FLTCU, FLHR/I EFI models; repl. OEM #31639-95
2102-0212	1.3 ohm/6V application/dual-fire
2102-0226	2.4 ohm/electronic ignition/single-fire
2102-0228	3 ohm/electronic ignition/dual-fire; repl. OEM #31614-83A
2102-0213	4 ohm/electronic ignition/dual fire
2102-0227	5 ohm/points ignition/dual-fire

PART #	DESCRIPTION
CHROME	
2102-0221	3 ohm/electronic ignition/dual-fire
2102-0415	3 ohm/electronic ignition/single-fire
2102-0219	4 ohm/electronic ignition/dual fire
2102-0220	5 ohm/points ignition/dual-fire

12 VOLT IGNITION COILS

- Performance, quality and value
- 35.000V-40.000V output

2102-0215

2102-0217

PART #	COLOR	DESCRIPTION
2102-0215	Black	5 ohm/points ignition/dual-fire; repl. OEM #31609-65
2102-0216	Black	4 ohm/electronic ignition/dual-fire
2102-0217	Red	3 ohm/electronic ignition/dual-fire; repl. OEM #31609-80
2102-0308	Black	3 ohm/electronic ignition/dual-fire; repl. OEM #31609-80

12V END MOUNT COILS

- 30,000V output
- Available in single-fire or dual-fire applications
- Requires custom mounting
- Comes in a black casing

2102-0417

2102-0420

PART #	DESCRIPTION
2102-0417	3 ohm/electronic ignition/single fire/single output
2102-0418	3 ohm/electronic ignition/single fire/dual output

PART #	DESCRIPTION
2102-0419	5 ohm/electronic ignition/single fire/single output
2102-0420	5 ohm/points ignition/single fire/dual output

2102-0275

12V MINI DUAL-FIRE IGNITION COILS

- Improves overall performance including starting, stops, high-speed misfires, and increases mileage
- 30.000V output for all 84-06 ignitions
- Peak spark voltage increases by at least 20%
- Smaller case for easier concealment (approximately 73 mm W x 70 mm T x 83 mm D (2 7/8" x 2 3/4" x 3 1/4"))
- Available with black body

PART #	DESCRIPTION
2102-0275	3 ohm/electronic ignition/dual-fire; repl. OEM #31614-83A
2102-0276	4 ohm/electronic ignition/dual-fire
2102-0277	5 ohm/points ignition/dual-fire

MAGNETO COIL

- For use with 12-volt Magneto-style ignitions and Joe Hunt Magneto
- Comes in orange

PART #	DESCRIPTION
2102-0365	For 58-69 XL w/ magneto; repl. OEM #29524-55A

2102-0191

6-VOLT COIL

- Available in black
- Includes spark plug wires
- Replaces OEM #31604-48
- Spark plug wire also available separately

PART #	DESCRIPTION
2102-0191	For 36-64 Big Twin

PART #	DESCRIPTION
2104-0220	Repl. spark plug wires (set)

All part numbers in BLUE are new for the OldBook.

ACCEL

HEI "SUPER COILS"

- 12V "Super Coils" feature a unique look to match their high-tech performance and state-of-the-art reliability
- Eye-catching chrome, bright yellow and black colors
- Available for electronic ignitions
- Will not fit F.I. models or Twin Cam applications

7805-1041

2102-0106

PART #	COLOR	DESCRIPTION
2102-0133	Chrome	Single-fire w/ electronic ignition (3,0 ohm), except XL, 1200S
7805-1041	Yellow	Single-fire w/ electronic ignition (3,0 ohm), except XL, 1200S
140407	Yellow	Dual-fire w/ electronic ignition (2,3 ohm)
2102-0106	Black	Dual-fire w/ electronic ignition (2,3 ohm)

COMP CAMS

FAST SINGLE- AND DUAL-FIRE IGNITION COILS

2102-0367

2102-0369

2102-0368

2102-0370

- Smaller and lighter than stock
- Bolt directly to stock mounts
- Greater spark energy than stock for improved fuel mileage and better starts
- Overmolded poly case is epoxy sealed
- PART #s 2102-0368 and 2102-0369 provide 30.000 volts of spark energy to eliminate lean surge

PART #	RESISTANCE	FITMENT	DIMENSIONS	OEM #
DUAL-FIRE COILS				
2102-0367	3 ohm	For 80-99 Big Twin models	70 mm L x 70 mm W x 83 mm H	31643-83
2102-0369	3 ohm	For 80-99 Big Twin	83 mm L x 70 mm W x 79 mm H	31614-83F
2102-0368	5 ohm	For 66-84 Big Twin models	83 mm L x 70 mm W x 79 mm H	31609-65A
SINGLE-FIRE COILS FOR MOST AFTERMARKET IGNITIONS				
2102-0370	3 ohm	For 80-99 Big Twin	83 mm L x 70 mm W x 83 mm H	-

PROVEN S&S PERFORMANCE

3-OHM HIGH-OUTPUT SINGLE-FIRE IGNITION COIL

- This single-fire coil is actually two separate coils in a single package
- Works well with any single-fire ignition system

NOTE: Not compatible with the S&S® variable fuel injection system.

PART #	DESCRIPTION
2102-0021	3-ohm single-fire coil for electronic ignition

ANDREWS

SUPERVOLT 12V IGNITION COILS

2102-0204

2102-0205

- The original Andrews ignition coil adds great performance with a classic look
- Replacement coils deliver 30.000+ volts
- 2,8 ohm coil fits electronic ignition/dual-fire
- 4.8 ohm coil fits points ignition/dual-fire
- Produce more voltage than a stock coil
- PART #2102-0204 replaces OEM #31609-65A
- Sold each

PART #	DESCRIPTION
2102-0204	4,8 ohm coil, black

PART #	DESCRIPTION
2102-0205	2,8 ohm coil, red

DAYTONA TWIN TEC

SINGLE-FIRE MINI IGNITION COIL KIT

2102-0079

2102-0080

- Miniature coil intended for custom motorcycles where space is at a premium and a single-fire coil is required for maximum performance
- 3-ohm primary is compatible with Twin Tec ignitions and most newer aftermarket single-fire ignitions
- Kit includes two coils, universal spark plug wire set, 90° and 135° spark plug boots and all required electrical terminals
- Coils also available separately (two coils required per application)
- Coil measures 61 mm L x 58,4 mm H x 40,6 mm W (2,4" x 2,3" x 1,6"); weight is 198 g (7 oz.)

PART #	DESCRIPTION
FOR 70-99 BIG TWIN SINGLE-FIRE APPLICATIONS	
2102-0079	Mini-coil kit

PART #	DESCRIPTION
FOR 70-99 BIG TWIN SINGLE-FIRE APPLICATIONS (CONT)	
2102-0080	Mini-coil (ea.)

DYNATEK
dyna performance electronics

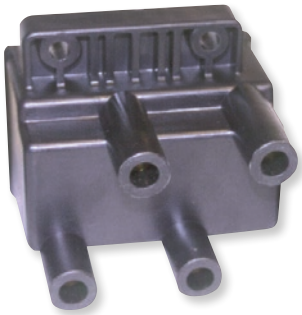

TWIN FIRE II COIL

- Single-fire just got easier
- High-technology materials now make it possible to put two coils in the same space as the stock coil with greater output
- No exposed laminations to rust and degrade performance
- High voltage and primary terminals machined from brass
- High-impact thermoplastic housing is ultrasonically welded and sealed against moisture
- Compact size fits easily under stock covers
- Peak gap current in excess of 50mA
- Over 40.000V per output
- Rated at 3 ohms; accepts 7 to 8 mm wires

NOTE: Not for use with DS6-2 ignition system.

PART #	DESCRIPTION
DC6-5	Twin Fire II Miniature, dual output towers

TWIN FIRE COIL

- Design incorporates two individual performance ignition coils into a single, easy-to-mount package that is only slightly larger than the stock coil and uses the stock mounting bracket
- Delivers spark voltage in excess of 30.000V with fast rise times and high energy
- For all single-fire, dual-plug head applications
- Can be used with any electronic advance ignition system that incorporates dwell control but cannot be used with the DS6-2 Dyna S or similar ignitions
- All coils are rated at 3 ohms

PART #	DESCRIPTION
DC6-4	Twin Fire, four output towers

DC10-1

DC3-1

DC2-1

DC1-1

DC6-1

12V COILS

- The "industry standard" with 35.000V spark energies second to none
- Designed to work with any Dyna ignition system
- Can be used for single- or dual-plug applications

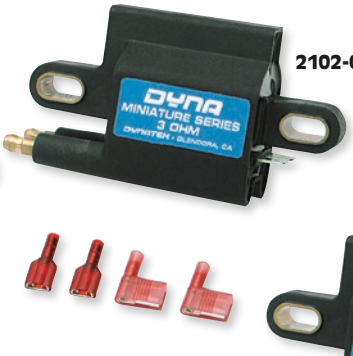

PART #	DESCRIPTION
DC10-1	5 ohm (black), angled single output street application (pr.)
DC3-1	3 ohm (green), angled single output, for use with DS-62 single-fire ignition only race application (pr.)
DC2-1	1,5 ohm (brown), angled dual output (pr.)

PART #	DESCRIPTION
DC1-1	3 ohm (green), angled dual output (pr.)
DC6-1	3 ohm (green), straight dual output, Std. H-D style (85-up electronic ignition) (ea.)

2102-0001

2102-0003

2102-0004

MINIATURE SERIES COILS

- One of the smallest packages delivers high output with advanced magnetic core technology
- Designed for use with Dyna 2000 and 3000 series ignitions, factory-installed electronics or with aftermarket ignitions that employ dwell control
- Secondary resistance is 11,5 ohms
- Great for customs where coils need to be hidden

NOTE: Not for use with the Dyna "S," DYNA III or earlier generation ignitions.

PART #	DESCRIPTION
2102-0001	3 ohm, dual tower coil, single-fire, dual-plug (pr.)
2102-0003	3 ohm, dual tower coil, single-fire, dual-plug (ea.)

PART #	DESCRIPTION
2102-0002	3 ohm, single tower coil, single-fire, single-plug (pr.)
2102-0004	3 ohm, single tower coil, single-fire, single-plug (ea.)

EMGO

IGNITION COIL

- 12V dual lead spark plug leads with solid core wires
- Chrome body

PART #	DESCRIPTION
2102-0303	3,9 ohms

DRAG Specialties

HEAVY-DUTY COIL BRACKET

- Exclusive replacement-type coil bracket made of solid steel for exceptional strength
- Features a chrome finish

PART #	DESCRIPTION
DS-325469	For 65-E82 Big Twin; repl. OEM #s 31724-65 and 31728-78

DRAG Specialties

SMOOTH COIL COVER

- Clean chrome style
- Covers coil when mounted in stock location

PART #	DESCRIPTION
DS-376601	For 84-99 FXST/FLST and 65-84 Big Twin

DRAG Specialties

LOUVERED COIL COVER

- Chrome-plated and accented with five louvers for a truly custom appearance

PART #	DESCRIPTION
DS-376610	For 84-99 FXST/FLST, 65-84 Big Twin models

DRAG Specialties

CHROME COIL COVER

- Covers OEM and most aftermarket OEM-style coils in highly visible stock locations
- Mounts with OEM hardware
- Includes cover for the top and back side of coil on XL model

PART #	DESCRIPTION
2102-0065	For 84-98 FLT/FLHT and 83-85 XL

DRAG Specialties

CHROME OLD-STYLE COIL COVER

- An old-style look for bikes using OEM-style coils
- Sold each

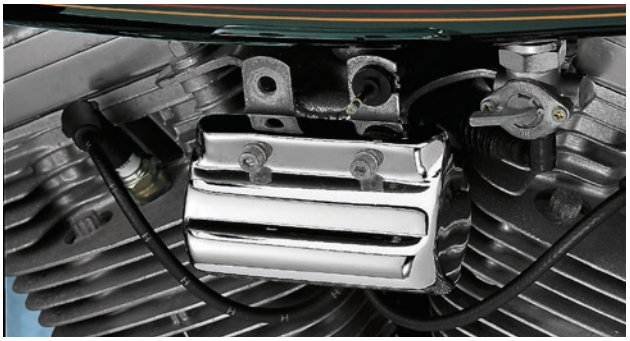

PART #	DESCRIPTION
DS-376609	For 84-99 FXST/FLST

DRAG Specialties

COIL COVER

- Brilliant chrome finish

PART #	DESCRIPTION
DS-373605	For 82-94, 99-00 FXR

DYNATEK dyna performance electronics DYNA2000

2101-0045

2101-0043

2000-HDE PC-PROGRAMMABLE DIGITAL IGNITION MODULES

- A plug-in upgrade to the electronic advance ignition found on late model Harleys, these ignitions are micro-computer controlled, generating extremely accurate control over the entire ignition process
- Allow riders to tailor the advance curve and rev limiter to the specific needs of their particular engine; four built-in advance curves cover the needs of stock to highly modified engines over a variety of operating conditions; four independent rev limiter choices from 6000 to 7500 rpm set the exact protection level needed
- PC programmability allows you to define a wide-open and part-throttle curve, rev limits, dead-cranking revs and rear cylinder offset
- PART #2101-0045 comes with 8-pin connectors; operates in single-fire or dual-fire modes
- PART #2101-0046 comes with 8-pin connectors; operates in dual-fire mode only
- PART #2101-0045 and 2101-0046 offer a quick curve which simulates a mechanical advancer for hot rod motors; option to use vacuum advance compensation via a VOES switch and retard mode, which allows selection of ignition retard of 5°, 7° or 10° upon activation of a retard input
- PART #2101-0044 is for use with a dual-fire ignition only; it simply plugs right into your 7-pin stock harness and mounts right in the original ignition mounting area
- PART #2101-0043 comes with a 7-pin connector; can be used with either one ignition coil firing both cylinders (dual fire), or with two ignition coils, one firing each cylinder (single-fire); no other ignition offers this flexibility
- A separate tach output wire allows clean tach operation during rev limiting and when in single-fire mode
- A diagnostic LED indicator is included on the back of the control module to assist trouble shooting and static timing

IMPORTANT NOTE: On any electronic advance ignition such as the Dyna 2000-HD1 or the stock Harley ignition, you must use carbon fiber-type suppression spark plug wires to reduce radio frequency interference. Use of copper wires may cause malfunction of the ignition due to severe electrical noise generated at the spark plugs. The original wire supplied by Harley-Davidson should be okay.

NOTE: Not for fuel-injected models.

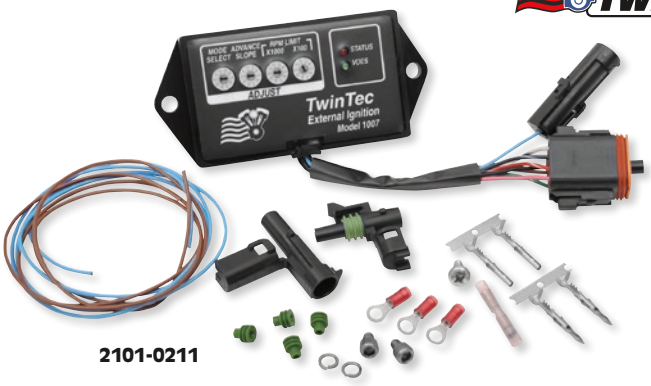

NOTE: HDE systems are not compatible with Dyna "S" systems. Use HD1/HD2 systems only.

PART #	DESCRIPTION
2101-0045	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG single- or dual-fire system (w/ 8-pin)
2101-0046	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG dual-fire system (w/ 8-pin)
2101-0043	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG single- or dual-fire digital system (w/ 7-pin)
2101-0044	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG dual-fire digital system (w/ 7-pin)

DAYTONA TWIN TEC

2101-0211

2101-0075

EXTERNAL PLUG-IN IGNITION MODULE

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Unit has four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low-resistance spiral-core-type plug wires
- Uses the tachometer wire for the PC-link and come with a connector
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0211	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG w/ 8-pin Deutsch plug
2101-0075	USB interface

EXTERNAL IGNITION KITS

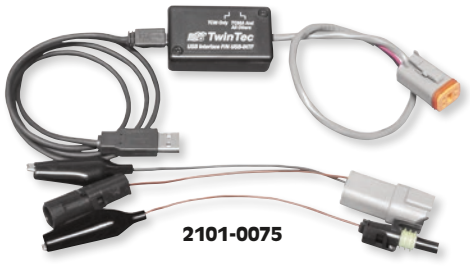

- Allows the use of an external ignition, which helps prevent heat-related ignition failures by replacing heat-sensitive internal nose-cone style ignitions
- Includes the 1007EX ignition module, an OEM-style cam position sensor with highly sensitive Hall effect sensor and rotor cup
- Kits also include adapter harness, mounting standoffs with screws, and a parts bag with a 4-pin male/female connector/pins/sockets along with Packard Weather Pack connectors for single-fire coil and tachometer hookup
- PART #1020-2749 also includes a Daytona Twin Tec single-fire coil and universal spark plug wire kit
- Includes detailed easy-to-follow directions

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM) AND 71-85 XL MODELS WITH NOSE CONE CAPABLE OF ACCEPTING AN IGNITION PICK-UP ASSEMBLY (CARBURETED MODELS ONLY)	
1020-2749	External ignition conversion kit with single-fire coil and spark plug wire kit

2101-0214

2101-0075

EXTERNAL MODULE IGNITION KITS

- Includes ignition module, single-fire coil, 8,5 mm spark plug wires and instructions
- Two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Unit has four rotary switches for adjusting timing, single/dual fire, rpm limit and two LED indicator lights
- Digitally set rpm limit (in 100 rpm steps); selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com/index.html)
- Kit uses the tachometer wire for the PC-link and comes with a connector

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0214	For L94-98 FLT/FLHT, 96-99 FXST/FLST and 96-98 FXD/FXDWG w/ 8-pin Deutsch plug
2101-0213	For 91-E94 FLT/FLHT, 91-95 FXST/FLST and 91-95 FXD/FXDWG w/ 7-pin Cannon plug
2101-0075	USB interface kit

DYNATEK
dyna performance electronics

2101-0029

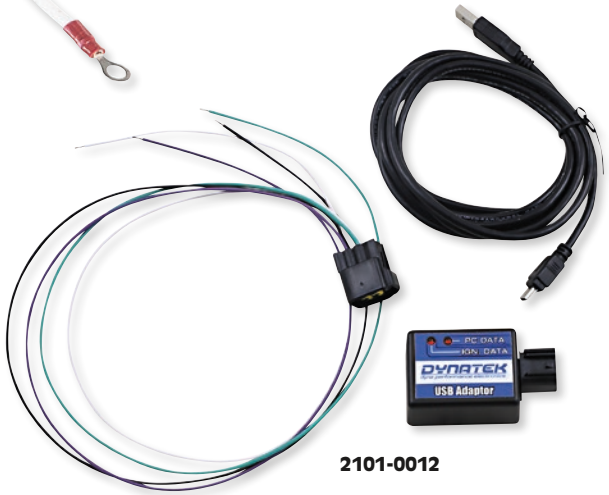

2101-0027

2000I PC PROGRAMMABLE ELECTRONIC IGNITION KITS

- Completely self-contained so entire unit hides under the cam cover for a clean look on custom bikes
- Single-fire operation down to zero rpm for easier cranking and kicking
- Will operate in all combinations of single-fire or dual-fire with single-plug or dual-plug heads
- Ten advance curves cover a broad range of engine builds and riding styles
- Engine over-rev protection, adjustable from 6000 to 7500 rpm
- Adjustable timing retard for nitrous and turbo applications
- VOES indicator lets you monitor VOES switch at a glance
- Built-in tach driver can be used to activate shift lights, auto-shifters and other accessories
- Easy static timing with built-in timing indicator
- Intelligent over-current/short-circuit protection
- Active dwell control
- Over-voltage protected against momentary spikes
- Data recording includes total engine hours, time wide-open throttle, longest time operating at wide-open throttle, max rpm, seconds near rev limit and number of engine starts
- PC programmability makes possible an eight-point, fully definable, wide-open throttle curve and a fully definable part-throttle curve, rev limit programmable in 50 rpm steps, programmable dead-cranking revs 0-5, rear cylinder offset, total of +/- 10°, programmable rev limiter, security lock-out (pin # activated), single- or dual-fire

2101-0012

- Programming and downloading data and graphs from module requires proper programming kit (includes cables and instructions)
- Pigtail connector enables the user to connect the ignition to a PC to either download recorded info from the ignition or program their own power curves, rev limits, dead revs or rear cylinder off-set timing; connector remains on bike

NOTE: Not for fuel-injected models.

NOTE: Programming kit is not necessary to use all selectable functions of the current ignition.

PART #	DESCRIPTION
FOR 70-99 BIG TWIN AND 71-85 XL MODELS; 82 AND EARLIER WILL REQUIRE A SENSOR CUP ADDITION, OEM #32402-83 (PART #2101-0234)	
2101-0029	Dual-plug/single-fire kit (includes module and pair of DC1-1 coils)
2101-0031	Single-plug/single-fire kit (includes module and DC6-5 Twin Fire II miniature coil)
2101-0027	Module only
2101-0012	Programming kit for 2101-0027, 2101-0028, 2101-0029, 2101-0030 and 2101-0031

IGNITION AND COIL KITS

- Complete electronic ignition systems built with the latest state-of-the-art engineering
- The same ignition used by top drag and road racers to set records and bring home victories over the past decade
- The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original advance unit, so the factory advance curve is maintained
- Coils provide spark voltages in excess of 30.000V and spark energies second to none
- The DSK61 Dyna S and coil system includes a DC7-1 high energy coil
- The DSK62 Dyna S and coil system is designed for single-fire applications; includes two DC10-1 Dyna coils

NOTE: Not for fuel-injected models.

NOTE: Later models will require the use of a mechanical advance unit.

dyna performance electronics

DUAL-FIRE ELECTRONIC IGNITION SYSTEM

- Perfect ignition timing once and for all
- Self-contained ignition system features Hall Effect magnetic sensors, which are not sensitive to rpm changes or affected by dirt and oil
- Improves overall performance by changing the timing less than three degrees, extends plug life, eliminates the use of points and condensers; can be easily installed
- Used and endorsed by many championship racers

NOTE: On 84-up Harley-Davidsons, an advance weight mechanism is required.

NOTE: Not recommended for use with OEM coils.

W/ dual-plug heads	Race/Street, 1.5 ohm (brown), pair	DC2-1

DYNATEK
dyna performance electronics

SINGLE-FIRE ELECTRONIC IGNITION SYSTEM

- All the features of the famous Dyna "S", plus the special feature of firing the front and rear cylinders independent of each other, allowing a much more accurate timing of each cylinder
- The stock ignition system fires both cylinders at the same time, which works fine for the front cylinder but the rear receives the "wasted" spark when the cylinder has started its intake stroke; this can result in harder starting, increased engine vibration, backfire and raw fuel being spit back into the carb, all creating a power loss
- Dyno and top-speed testing have shown a dramatic improvement in power in all areas; bikes with hotter cams show the greatest improvement
- If you truly want to get the most out of your stock, slightly modified or all-out customized Harley-Davidson, you need a Dyna "S" single-fire ignition system

NOTE: Not recommended for use with OEM coils.

NOTE: On later models, an advance weight mechanism is required.

NOTE: This unit must be used with special Dyna coils; see coil chart for correct coils.

NOTE: Tach adapter is required when using an electric tach.

NOTE: Not for fuel-injected models.

DS6-2

DC10-1

DC6-1

DC1-1

PART #	DESCRIPTION
DS6-2	For 70-99 Big Twin, 71-85 XL using a mechanical advance unit

PART #	DESCRIPTION

APPLICATION CHART FOR DYNA COILS WHEN USING DYNA "S" IGNITION SYSTEMS

FITMENT	APPLICATION	PART #
W/ single-plug heads	Street, 5 ohm (black), pair	DC10-1
W/ single-plug heads	Race only, 3 ohm (green), pair	DC3-1
W/ dual-plug heads	Race only, 3 ohm (green), pair	DC1-1
W/ dual-plug heads	Race only, requires two coils, 3 ohm (green), each	DC6-1

PROVEN S&S PERFORMANCE

HI-4N IGNITION MODULE KIT

- More power than the stock ignition
- Single-fire and dual-fire function built into a single module
- All-metal housing provides improved heat dissipation
- Ignition advance and timing degree markings are on the metal flange
- Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- Electronics are fully enclosed to resist vibration, moisture and dirt
- All electronics are mounted directly to the metal housing, which acts as a heat sink
- Four rotary switches for ignition mode selection, advance rate, and rev limit
- Switches provide accurate, repeatable settings
- PART #2101-0346 includes ignition module, S&S ignition coil and correct-length spark plug wires; PART #2101-0345 includes HI-4N ignition module only

NOTE: Not for fuel-injected models.

2101-0346

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM), 71-85 XL	
2101-0346	HI-4N ignition module, ignition coil and plug wires

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM), 71-85 XL (CONT)	
2101-0345	HI-4N ignition module only

DAYTONA TWIN TEC

2101-0242

2101-0075

INTERNAL IGNITION KIT

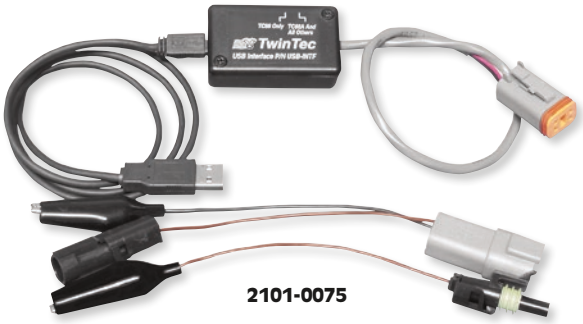

- Includes ignition system, 8,5 mm spark plug wires, single-fire coil and instructions
- Ignition system has two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Four rotary switches for adjusting timing and single/dual fire rpm limit
- Digitally set rpm limit (in 100 rpm steps), selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface kit and software available for programming custom curves (programs available on website www.daytona-twintec.com)
- Requires the use of an OEM timing rotor (OEM #32402-83 or PART #2101-0234)
- Uses the tachometer wire for the USB interface and includes a connector

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0242	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o use of the USB interface)
2101-0075	USB interface kit

2101-0209

2101-0075

INTERNAL IGNITION SYSTEMS

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low resistance spiral-core-type plug wires
- Require timing rotor OEM #32402-83 or PART #2101-0234
- Uses the tachometer wire for the PC link and comes with a connector
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0241	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o using the USB interface)
2101-0209	For 70-99 Big Twin, 71-85 XL (two-stage rev limiter)
2101-0075	USB interface kit

V-TWIN ELECTRONIC IGNITION SYSTEM

- Dual-fire electronic ignition system features fully encapsulated construction
- Includes special trigger rotor for use with traditional mechanical advance mechanism
- Precise digitally set rpm limiter (200 rpm steps from 5200 to 7000 rpm)
- Status LED for easy static timing
- Electronic dwell control for maximum ignition energy at high rpm and reduced current draw at low rpm
- Compatible with most OE and aftermarket dual-fire ignition coils
- Hall effect sensor detects teeth on trigger rotor and provides stable spark timing
- Operates down to below 6 volts
- Easy installation; two-wire hookup to coil
- Waterproof and highly resistant to vibration and shock
- Over-temperature protection; rated to operate at 125 °C (260 °F)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0267	For 70-99 Big Twin, 71-85 XL carb models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

ACCEL

SINGLE-FIRE "SUPER SYSTEM"

- Kit features a programmable ignition module with adjustable rev limiter
- Single-fire coil (3,0 ohms)
- Accel U-groove spark plugs with black 8,8 mm plug wires

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
7805-1039	For 70-99 Big Twin, 71-85 XL; use w/ OE rotor #32402-83 (PART #2101-0025)

ACCEL

BREAKERLESS DUAL-FIRE IGNITION KIT MODULE

- Eliminates the need for points and condenser
- Unilite module has no moving parts and consists of an integrated photo coupler, a signal processor and a power switch
- Recommended coils are 2,0 - 3,0 ohms for racing or 3,0 - 4,0 ohms for street

NOTE: Not for fuel-injected models.

NOTE: Requires the use of an advance unit and spiral-core or carbon core plug wires.

PART #	DESCRIPTION
2130-0271	For 70-99 Big Twin, 71-85 XL

DYNATEK
dyna performance electronics

SINGLE POINTS IGNITION BOOSTER MODULE

- Boost ignition power in points-equipped motorcycle
- Improves performance by transferring inconsistent electrical surges into precisely controlled bursts of energy to the coil for more thorough and efficient combustion
- No more burned points; current reduced to 0,1 amp
- Unaffected by dirt, moisture, oil or vibration
- Ultra-fast spark voltage rise time; 50% faster than points
- Extends spark plug life

PART #	DESCRIPTION
2101-0323	For single points ignition

0807-0118

STANDARD MOTORCYCLE PRODUCTS

IGNITION SENSOR ASSEMBLIES

- Assembly includes pickup, mounting plate and wires with connectors

PART #	DESCRIPTION
0807-0116	For 80-84 Shovelhead, 84-93 FLT, 84-95 FXST/FLST, 84-94 FXR and 80-85 XL; repl. OEM #32400-80A

DRAG Specialties

ADVANCE UNIT ASSEMBLY

- Includes all the items shown; breaker plate assembly and the advance unit with bolt can be purchased separately

PART #	DESCRIPTION
FOR 70-99 BIG TWIN, 71-85 XL (EXCEPT SINGLE-FIRE IGNITION)	
DS-242299	Advance unit assembly, complete
DS-242298	Advance unit and bolt only
DS-242301	Breaker plate assembly w/ points, condenser; repl. OEM #32577-70

DRAG Specialties

ADVANCE UNIT ASSEMBLY FOR DISTRIBUTOR IGNITIONS

- Complete advance unit assembly includes all items shown

NOTE: Not for 70-99 model applications.

PART #	DESCRIPTION
DS-242291	For 29-65 Big Twin models w/ aftermarket distributor ignition

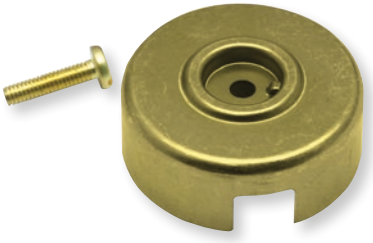

DRAG Specialties

ADVANCE UNIT

- Features a stainless steel base with steel cam, fly weights and springs
- Mounting bolt included

PART #	DESCRIPTION
2105-0124	For 70-99 Big Twin (except Twin Cam) and 71-85 XL

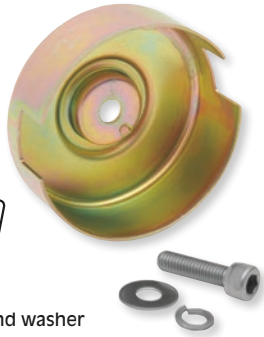

S&S PROVEN PERFORMANCE

IGNITION ROTOR

- High-quality OEM replacement component
- Comes with bolt and washer

NOTE: Must be ordered when converting points ignition to S&S HI-4 electronic ignition.

PART #	DESCRIPTION
2101-0332	For 84-99 Evolution Big Twin and 83-85 XL; repl. OEM #32402-83

DAYTONA TWIN TEC

TIMING ROTOR

- Includes mounting screw and washer

PART #	DESCRIPTION
2101-0234	For 84-99 Big Twin and 83-85 XL; repl. OEM #32402-83

DRAG Specialties

POINTS STYLE DISTRIBUTORS

- Features points, condenser and mechanical advance assemblies pre-installed
- Uses 70-E78 style points
- Chrome finish
- Sold each

2130-0055

PART #	DESCRIPTION
2130-0055	For 65-69 Big Twin models w/ single hold down
2130-0054	For 48-64 Panhead models w/ dual hold down

ACCEL

ELECTRONIC IGNITION DISTRIBUTORS

- Lightweight billet aluminum construction
- 12V dual-fire unilite ignition with fully adjustable advance allows faster and easier starting
- No head removal when using stock heads

PART #	DESCRIPTION
DS243087	For 57-70 XL

PAUGHCO

DISTRIBUTOR HOLD DOWN

- Single-bolt style with a chrome finish
- Also works with most aftermarket distributors

PART #	DESCRIPTION
0807-2610	For 66-69 Shovelhead

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

IGNITION CIRCUIT BREAKER STUDS

- Replacement studs with screws and washers
- Sold in a 10-pack

PART #	DESCRIPTION
2130-0047	For 80-99 FX, FL (except Twin Cam), 80-85 XL; repl. OEM #s 32601-80, 32606-82

REPLACEMENT TIMING BOLT

- Replacement mechanical advance unit timing bolt

PART #	DESCRIPTION
DS-196035	For all 70-99 Big Twin, 71-85 XL; repl. OEM #3570

CHROME IGNITION MODULE COVER

- Smooth stamped steel construction
- Sold each

PART #	DESCRIPTION
DS-373680	For 82-85 XL models; repl. OEM #66325-82

2401-0464

IGNITION COVER TIMER STUD KITS

- Reproduction of original ignition timer cover studs
- Zinc-plated
- Sold in pairs

PART #	DESCRIPTION
2401-0464	For 80-99 Big Twin, 80-85 XL; repl. OEM #s 32606-82 and 32601-80
2401-0463	For 70-79 Big Twin as, 70-79 XL; repl. OEM #32601-78

2105-0058

2105-0059

TUNE-UP KITS

- Contact sets include a metal spring to reduce metal fatigue and long-life follower
- Sealed condenser helps prevent water damage
- Meets or exceeds OEM specs

PART #	DESCRIPTION
2105-0058	For 70-E78 Shovelhead (L78-84 Big Twin models if converted to points), 71-E78 XL
2105-0059	For 66-69 Shovelhead, 57-70 XL
2105-0060	For 58-69 XL w/ magneto

DS-242026

DS-242407

POINTS AND CONDENSERS

- Contact sets feature a metal spring designed to resist metal fatigue and a follower of space-age material to ensure longer life
- Condenser is sealed to help prevent breakdown due to moisture
- Meet or exceed OEM specs
- Sold in kits or as individual components

PART #	DESCRIPTION
KITS	
DS-242026	For 70-E78 Shovelhead (L78-84 models if converted to points), 71-E78 XL

80-1005

DRAG Specialties

HIGH-PERFORMANCE STARTER MOTORS

- 100% new – not remanufactured!
- Starters feature oversize clutch rollers, cold-headed steel idler gears and armature hairpins that are resistance-fused to the armature
- All 90-99 starters are supplied with 10/32 threaded output shafts
- 1,4kW is a new replacement unit for stock and slightly modified engines; generates more power than the OEM stock starter
- 1,7kW is a new replacement unit for highly modified engines in touring bikes, featuring a permanent magnet motor coupled to the OEM-style offset gear reduction case, making a drop-in solution to hard-starting touring bikes (due to the high in rush current of a permanent-magnet motor a minimum 300 CCA battery is recommended with 4-gauge battery cables)
- Starter motor design is more compact than the original and does not require the rear bracket; because of the higher output, 4-gauge cables are recommended for this starter
- Available in black or chrome finish

NOTE: OEM Hitachi starters measure 133 mm (5 1/4"). OEM Prestolite starters measure 152 mm (6").

NOTE: For optimum performance, use with Drag Specialties battery and battery cables.

PART #	DESCRIPTION
FOR 90-99 BIG TWIN (REPL. OEM #S 31553-90 AND 31553-94)	
80-1001	1,4kW black
80-1002	1,4kW chrome
2110-0445	1,7kW black
2110-0446	1,7kW chrome
FOR PRE-89 BIG TWIN	
80-1005[1]	1,4kW Hitachi black
80-1007[1]	1,4kW Prestolite black
80-1008[1]	1,4kW Prestolite chrome

PART #	DESCRIPTION
FOR 81-85 XL	
80-1009	1,4kW black
80-1010	1,4kW chrome
FOR 67-80 XL	
80-1007[1]	1,4kW Prestolite black
80-1008[1]	1,4kW Prestolite chrome
FOR 74-E76 XLH	
80-1005[1]	1,4kW Hitachi black

[1] Starter motor design is more compact than the original and does not require the rear bracket. Because of the higher output, 4-gauge cables are recommended for this starter.

DRAG Specialties

HIGH TORQUE STARTERS

- Starters feature 15% more power and torque than OEM units
- Manufactured using heavy-duty armature commutators, large drive-end bearings and needle bearings in the com-end caps

2110-0224

2110-0225

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

2110-0580

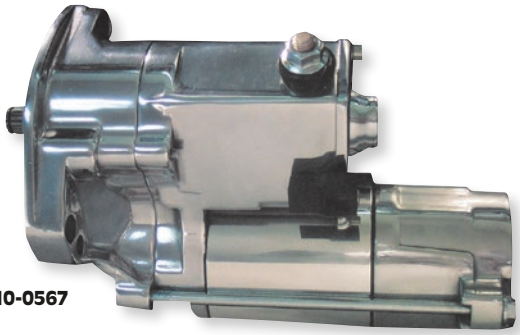

2110-0057

SLUGGER 1,8 kW HIGH-TORQUE STARTER MOTORS

- Starters are assembled using with heavy-duty components and tested with state-of-the-art equipment
- Starter offers superior windings, high-tolerance heavy-duty clutch and a thicker commutator that resists flying shorts
- 1,8 kW output has the torque to start any monster motor with the least amount of amperage drain
- Static balanced for smoother operation
- Low-profile design will clear the electronic speedometer sensor for easy installation

NOTE: Starters on 90-98 FLT models will require use of spacer block PART #DS-196233. On FXST/FLST, Dyna and FXR models you must relocate oil lines and some wiring.

Polished Chrome

STARTER MOTORS

- Nippondenso starters are assembled using heavy-duty components and tested with state-of-the-art equipment
- Solenoid plunger, return damper and springs are replaced with stronger components
- Clutch shaft and rollers are replaced with precision-ground and hardened parts for longer service life
- All components are assembled with a special lube that has been formulated for starter roller clutch applications
- CNC-machined billet mounting noses are held together with aerospace fasteners
- After assembly, all starters go to a dyno test including hi-low voltage, stall torque, solenoid engagement, amperage draw, load test, maximum rpm and motor impulse wave form
- Starters have a 4,4:1 gear reduction and produce 46% more cranking torque than the stock starter
- Starters available in four kilowatt ratings (1,2; 1,4; 1,6 and 2,0)
- The 1,6 kW starter is designed for 96" or larger motors with limited size batteries such as the FXR, FXST or FXD models
- The 1,2/1,4/1,5 kW starters are designed for OEM applications; use Terry battery cables and a batter with 300+ cranking amps like the Drag Specialties battery for best results
- The 2,0 kW starter will start any monster motor (for best results, use with Terry battery cables and a battery with 300+ cold-cranking amps like the Drag Specialties battery)

NOTE: 1,6 kW and 2,0 kW starters will require the use of starter spacer block PART #DS-196233 when used on 90-98 FLT models (sold separately). On Softail, Dyna or FXR models, you must relocate oil lines and some wiring.

NOTE: PART #DS-196182 has a raw finish starter nose.

2110-0240

PART #	DESCRIPTION
2110-0240	For 85-88 FX, 65-88 Big Twin, 67-80 XL; repl. OEM #31443-65A

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

STARTER DRIVE CLUTCH

- Comes complete with bearings and drive clutch
- Available for high-performance or OEM starters
- Sold each

DS-196231

DS-196232

PART #	DESCRIPTION
FOR 91-99 EVOLUTION BIG TWIN	
DS-196231	For 1,2 kW or 1,4 kW or 1,6 kW Terry Components or 1,8 kW Slugger starters, repl. OEM #31663-90
DS-196232	For 2,0 kW starters

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

BIG DOG SUPER GRAND SLAM STARTER CLUTCH

- Specially designed for 05-up Big Dog motorcycles on a 2.0 kW starter motor
- Clutch comes with a heavy-duty oil-preventative seal on the inner clutch sleeve and double-lip bearing seals; a must for when pressure builds up in the primary case if the vent becomes clogged
- This design helps prevent primary fluid from passing through the front of the starter motor that could damage the solenoid, armature, fields or brush holder

PART #	DESCRIPTION
2110-0883	For 05-up Big Dog motorcycles

DRAG Specialties

STARTER DRIVE

- Heavy-duty, weatherproof five-roller clutch
- Sold each

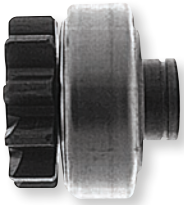

PART #	DESCRIPTION
DS-242117	For 65-88 Big Twin, 67-80 XL; repl. OEM #31443-65A

STANDARD MOTORCYCLE PRODUCTS

STARTER DRIVE

- Heavy-duty, five-roller clutch
- Weatherproof
- Sold each

PART #	DESCRIPTION
2110-0369	For 65-88 Big Twin, 67-80 XL; repl. OEM #31443-65A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

STARTER SHAFT HOUSING BEARING

- Needle bearing fits starter housings as listed below

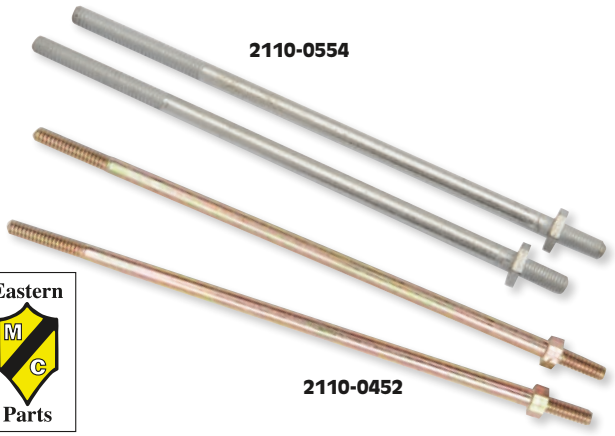

PART #	DESCRIPTION
BAM-810	For 66-88 Big Twin chain drive models, 67-80 XL; repl. OEM #9062

OUTER PRIMARY HOUSING STARTER SHAFT BEARING

- OEM or better quality
- Sold individually

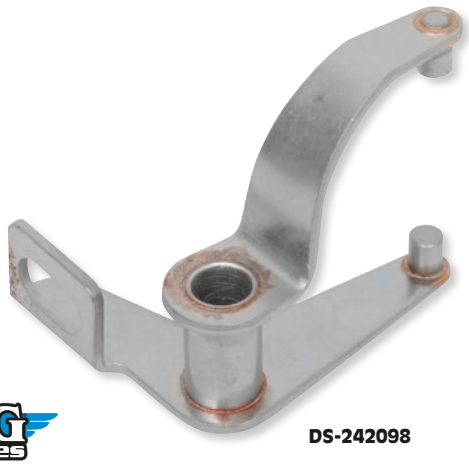

PART #	DESCRIPTION
0924-0591	For 84-88 FX/FXWG/FXST, 71-84 Shovelhead and 67-85 XL; repl. OEM #9063

STARTER THRU BOLTS

- Available for Prestolite and Hitachi starter motors
- Sold in pairs

PART #	DESCRIPTION
FOR 65-88 BIG TWIN, 67-80 XL MODELS	
2110-0554	For Prestolite starter (7" L); repl. OEM #31535-66
2110-0452	For Hitachi starter (6 7/16" L); repl. OEM #31576-73

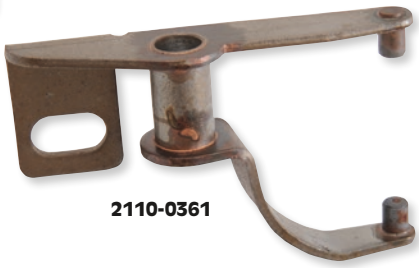

STARTER GEAR ENGAGEMENT LEVERS

- Replaces OEM-style engagement lever

PART #	DESCRIPTION
DS-242098	For all 65-84 Big Twin w/ 4-speed transmissions and rear chain drives; repl. OEM #31445-65A
DS-242097	For 67-80 XL, XLH; repl. OEM #31424-67

STARTER GEAR ENGAGEMENT LEVER

- Sold each

PART #	DESCRIPTION
2110-0234	For 65-85 chain drive FX/FL, 84-85 FXST; repl. OEM #31445-65A
2110-0361	For 67-80 XL; repl. OEM #31424-67

BOLT AND O-RING FOR STARTER GEAR ENGAGEMENT LEVERS

- High-strength bolt with O-ring for Shovelhead

PART #	DESCRIPTION
2401-0425	For 66-84 FL/FLH (ea.); repl. OEM #31478-65-X

STARTER SHAFT COMPONENTS

- High-quality replacement components
- Sold individually unless noted
- Nut and spacer kit PART #2210-0237 includes left-hand thread starter shaft nut, replaces OEM #31493-67 and starter shaft to primary spacer, replaces OEM #31531-69

PART #	DESCRIPTION
2110-0235	Starter shaft shifter collar for 65-69 Big Twin, 67-80 XL; repl. OEM #31503-65
2110-0236	Starter shaft shifter collar for 70-84 FX/FL, 84-85 FXST; repl. OEM #31503-70
2110-0317	Starter shaft nut for 65-84 Big Twin (except Evo), 67-80 XL; repl. OEM #31493-67

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in BLUE are new for the OldBook.

STARTER BRUSHES

- Replacement brushes for early and late-model starters

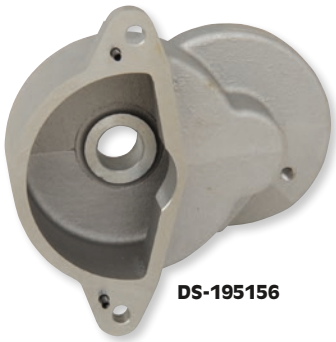

PART #	DESCRIPTION
DS-195147	For 89-90 Big Twin, 81-85 XL (set); repl. OEM #31596-85
DS-194144	For 74-88 Big Twin, 74-E76 XL (Hitachi) (set); repl. OEM #31582-73

STARTER BRUSH HOLDER

- High-quality OEM replacement starter brush holder

PART #	DESCRIPTION
2110-0561	Fits 1,2 kW OEM or 1,4 kW aftermarket High Torque Nippondenso starter motors including brushes

DS-195156

DS-195157

STARTER SHAFT HOUSINGS

- Available for Hitachi or Prestolite starter motors
- Fits chain drives
- Oil deflector and needle bearing (OEM #9062) PART #BAM-810 must be purchased separately

PART #	DESCRIPTION
DS-195156	For 65-72 Big Twin (Prestolite); repl. OEM #31465-65

PART #	DESCRIPTION
DS-195157	Oil deflector plate for Prestolite or Hitachi; repl. OEM #60516-65A

STARTER SHAFT OUTER THRUST WASHERS

- Direct OEM replacements
- Sold in pairs

PART #	DESCRIPTION
1132-0092	For 66-88 Big Twin, 67-80 XL; repl. OEM #31502-65

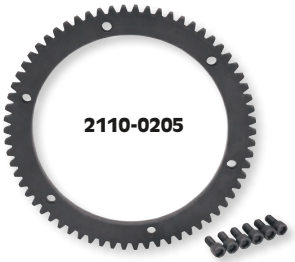

STARTER SHAFT LOCK WASHERS

- Sold in 10-packs

PART #	DESCRIPTION
2110-0229	For 94-99 Evolution Big Twin; repl. OEM #33126-94
2110-0232	For 93 Big Twin; repl. OEM #33126-93
2110-0231	For L90-92 Big Twin; repl. OEM #33126-90
2110-0230	For 89-E90 Big Twin; repl. OEM #33125-89

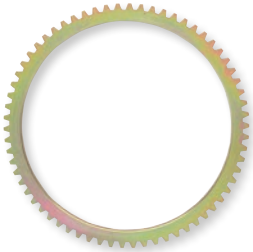

OEM-REPLACEMENT STARTER RING GEARS

- High-quality steel construction

PART #	DESCRIPTION
2110-0204	102-tooth ring for 98-99 Evolution Big Twin
DS242074	102-tooth ring for 94-97 Big Twin

PART #	DESCRIPTION
2110-0205	66-tooth ring for 90-93 Big Twin

STARTER RING GEAR

- Replacement tooth weld-on style
- Sold each

PART #	DESCRIPTION
1112-0039	For 65-E84 Big Twin (66-tooth, 181 mm ID (7 1/8")); repl. OEM #33163-65B

STARTER END COVER

- Chromed, die-cast starter end cover adds a finishing touch
- Smooth finish

PART #	DESCRIPTION
DS-325517	For 65-88 Big Twin, 65 Panhead, 67-80 XL

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

DRAG Specialties

HIGH-PERFORMANCE STARTER SOLENOID

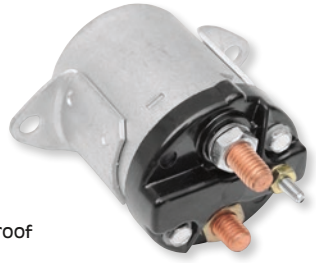

- Designed with extra current capacity for starting high-compression motors
- Recommended for use with Drag Specialties High-Performance Starters
- Features zinc-plated case
- Copper terminals and hardened plunger
- Sealed cover for long life

PART #	DESCRIPTION
2110-0327	For 84-88 FXST/FLST, 85-86 FXWG/FXSB, 65-84 Big Twin 4-speed, 67-80 XL; repl. OEM #71469-65

DRAG Specialties

STARTER SOLENOID

DS242281

- Features zinc-finished moisture-proof case, hardened steel plunger and long-life contact disc

PART #	DESCRIPTION
DS-242116	For 84-88 FXST, 85-86 FXWG, 65-84 4-speed models, 67-80 XL; repl. OEM #71469-65
DS242281	For 80-88 FLT/FLHT and 82-88 FXR; repl. OEM #31489-79A

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

LOADED STARTER SOLENOID BODIES

2110-0563

2110-0564

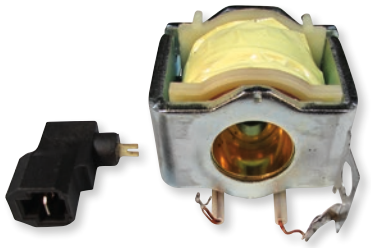

- Sold complete with solenoid, contacts, plunger with spring, solenoid cover and switch terminal all loaded in starter solenoid housing

PART #	DESCRIPTION
FITS 1,2; 1,4; 1,6 AND 1,8 KW 90-99 HIGH TORQUE AFTERMARKET STARTER MOTORS	
2110-0563	Chrome

DAYTONA TWIN TEC

IGNITION POWER RELAY KIT

- Kit is designed to correct starting problems in motorcycles with high compression ratios or large displacement engines that use Twin Tec PART #s DS-242373 and 2101-0241 single-fire installations
- The combined draw of the starter motor, single-fire coil and the long length of wire between the battery, engine stop-run switch and the coil may leave too little energy at the coil to provide enough spark to fire the engine – the power relay kit solves the problem by supplying full battery voltage to the coil
- Kit includes a high-quality relay, wire and all required terminals

PART #	DESCRIPTION
2101-0078	For single-fire ignition power conversions

KURYAKYN

UNIVERSAL WIRING AND RELAY KIT

- Recommended for use with halogen Silver Bullets when they are used as additional running/driving lights
- Relay lets you wire the lights separately to avoid overloading the headlight circuit
- Kit provides switch, relay, universal wiring harness and general instructions for installation
- For custom applications

PART #	DESCRIPTION
2050-0131	Universal wiring/relay kit

DRAG Specialties

RELAY

- For the starter, brake light and fuel pump

PART #	DESCRIPTION
DS-325866	For 91-99 Evolution Big Twin models (w/ a diode); repl. OEM #31504-91A

COMP CAMS

FAST START BOOST RELAY

- Provides full battery voltage to single fire coil during cranking
- Eliminates hard starting due to voltage drop
- 30 amp sealed relay with complete installation hardware
- High-temperature rated sealed housing
- Measures 38 mm x 25 mm x 1 mm (1,5" x 1" x 1") with mounting flange hole

PART #	DESCRIPTION
2110-0830	For single-fire ignition applications

STANDARD MOTORCYCLE PRODUCTS

RELAY

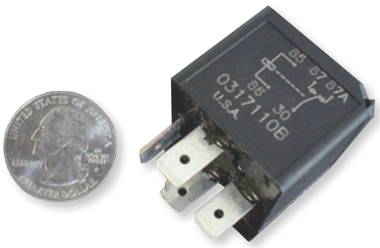

- For use with starter, fuel pump and brake light

PART #	DESCRIPTION
2110-0374	For 91-99 Evolution Big Twin models w/ a diode; repl. OEM #31504-91A

RIVCO

WATERPROOF 30 AMP ELECTRIC RELAY

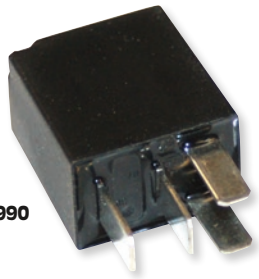

- Protects light-duty OEM wiring and switches (horn button) from damage when adding accessories that draw high amounts of current
- Strongly recommended for use with all dual electrical horn systems
- Also works well with driving lights; waterproof and vibration-proof

PART #	DESCRIPTION
2050-0094	Waterproof 30A electric relay

MICRO STARTER RELAY AND TERMINAL KIT

NAMZ Custom Cycle Products

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

3-PHASE 50A CHARGING KIT

- Produces 32A at 1000 rpm and 50A at 2500 rpm
- Yield more charging power when upgrading from 32A or 38A
- Improved durability and dependability than stock 48A system

PART #	DESCRIPTION
2112-0712	Repl. regulator

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

3-PHASE 38A CHARGING KITS

- Get more power out of a smaller stator
- Kits deliver 17A at 1000 rpm and 38A at 2500 rpm

PART #	DESCRIPTION
CHARGING KITS	
2112-1749	For 84-98 FLT, FLHT, FLHR, 84-00 FXR
2112-1750	For 84-99 FXST, FLST, 91-98 FXD/FXDWG

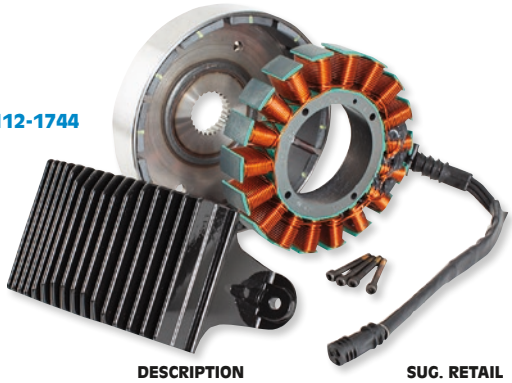

PART #	DESCRIPTION
REPLACEMENT REGULATORS	
2112-0145	For kit PART #2112-1750

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

CYCLE ELECTRIC ALTERNATOR KIT

- Kit includes stator, rotor, voltage regulator and mounting hardware
- Available with a black Cycle Electric rectifying regulator

NOTE: Adding electrical accessories increases amperage usage. When doing so, it is important to consider amperage ratings of switches and wires. If you draw too many amps through a switch or wire, it will heat up and may burn. Fuses and breakers are sized to protect wiring and switches. DO NOT CHANGE 30A MAIN BREAKER TO A 50A BREAKER. THE SWITCHES AND WIRING WILL NOT BE PROTECTED.

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-90 XL		
2112-1125	19A

DS-195206

PART #	DESCRIPTION
2112-0093	For 95-96 FLHTCUI/FLHTCI/FLHRI (38 amp); repl. OEM #29981-95
2112-0092	For 97-98 FLHTCU/FLHTCUI/FLHTCI/FLTRI/FLHRCI (45 amp); repl. OEM #29999-97
DS-195206	For 84-96 FLT/FLHT/FLHR (except FLHTCUI/FLHTCI/FLHRI), 84-96 FXST/FLST, 91-96 FXD/FXDWG, 85-86 FXWG, 88-94 FXR (32 amp), L81-84 Shovelhead 22A and 32A (heavy duty); repl. OEM #29957-81B
DS-195208	For 70-E81 Shovelhead 15- and 17,8A; repl. OEM #29957-70, 29965-75

DS-195092

DS-195036

ALTERNATOR STATORS

- Each meets or exceeds OEM specifications and features precise construction

PART #	DESCRIPTION
UNCOATED	
DS-195092	For 88-96 FLT/FLHT/FLHR (except fuel-injected models), 89-99 FXST/FLST, 91-98 FXD/FXDWG, 88-94 FXR; repl. OEM #29970-88/C
DS-195098	For 84-87 FLT/FLHT, 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 81-84 Shovelhead; repl. OEM #29965-81/A
DS-195097	For 76-80 Shovelhead; repl. OEM #29965-75
DS-195096	For 70-75 Shovelhead; repl. OEM #29965-70
DS-195093	For L84-85 XL; repl. OEM #29967-84A
COATED	
DS-195035	For 84-87 FLT/FLHT 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 81-84 Shovelhead; repl. OEM #29965-81/A
DS-195036	For 76-80 Shovelhead; repl. OEM #29965-75

ALTERNATOR STATORS

- Made from the finest components available
- Each is individually wrapped and packaged in an attractive four-color display box

152110

152103

PART #	DESCRIPTION
UNMOLDED	
152110	For 97-98 FLT/FLHT/FLHR/FLTR; repl. OEM #29987-97
152107	For 88-96 FLT/FLHT/FLHR (except fuel injected models), 89-99 FXST/FLST, 91-98 FXD/FXDWG, 88-94, 99-00 FXR; repl. OEM #29970-88/C
MOLDED	
152103	For 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 84-87 FLT/FLHT, 81-84 Shovelhead (22A); repl. OEM #29965-81/A

2112-0155

Cycle Electric Inc.
Charging Systems for American V-twins
MADE IN U.S.A.

CYCLE ELECTRIC STATORS

- Designed for 18A, 22A or 38A applications

PART #	DESCRIPTION
DS-195228	For 97-98 FLT, 38A; repl. OEM #29987-97
2112-0155	For 84-88 FXST/FLST, 85-86 FXWG, 84-87 FXR, 84-87 FLT/FLHT (22A); repl. OEM #29965-81A
2112-0158	For L84-85 XL 18A; repl. OEM #29967-84A
2112-0156	For 84-99 FX, FXR, FXD, FXDWG

STATOR LOCK AND MOUNTING KIT

- Kit includes two locking plates (OEM #29988-73), alternator plug retainer (OEM #29954-71), two retainer screws (OEM #2216W), four stator mounting screws (OEM #2653) and four No. 10 internal tooth lockwashers (OEM #7118)

PART #	DESCRIPTION
DS-195103	For 70-84 Shovelhead, 84-86 FX

RICK'S MOTORSPORT ELECTRICS

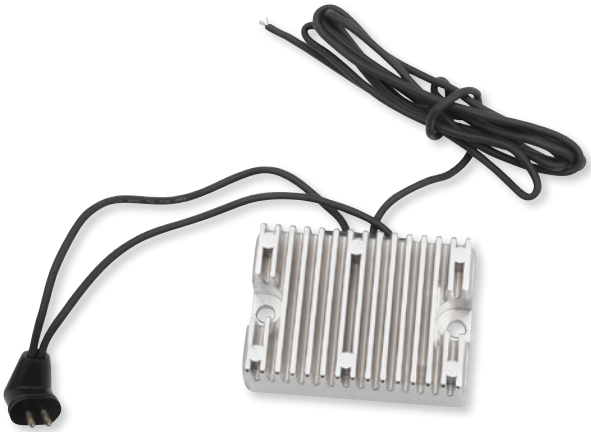

HOT SHOT SERIES UNIVERSAL LITHIUM-ION BATTERY-COMPATIBLE RECTIFIER/REGULATOR

- Designed as a universal piece, comes with wire leads only
- Connect your OE plug to the regulator harness via soldering
- The voltage set point is 14V +/- .2
- 50 amp unit made with Mosfet technology and designed for single phase systems with the correct voltage set point for lithium batteries

NOTE: Not for use with standard lead acid batteries.

NOTE: Some harness fabrication will be needed.

PART #	DESCRIPTION
2112-1631	For 81-99 Big Twin

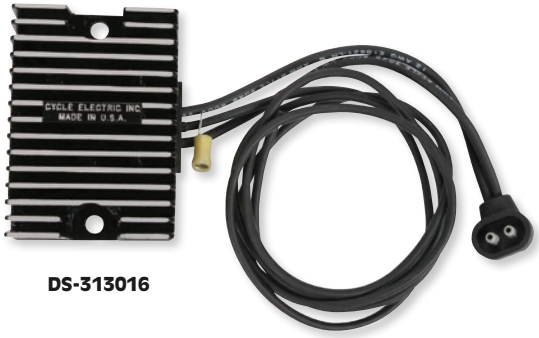

RICK'S MOTORSPORT ELECTRICS

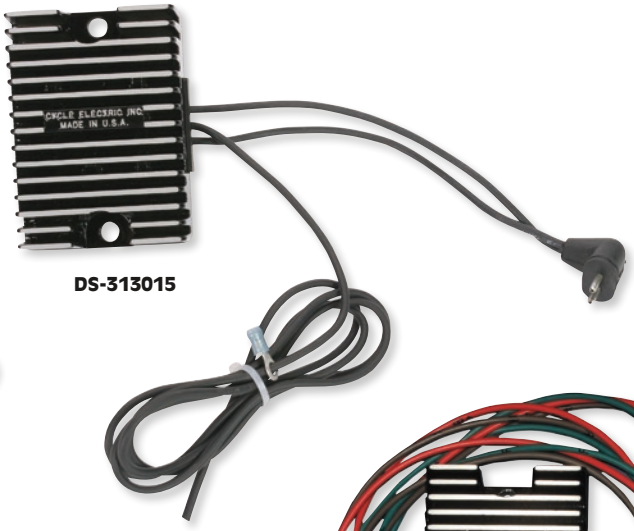

REGULATOR/RECTIFIER

- Regulator/rectifier is built to OEM specifications for a high-quality cost-effective replacement
- This direct replacement piece comes with the factory plug ends for an easy install; just unplug OE part and plug Rick's in

PART #	DESCRIPTION
2112-1115	For 84-88 Evolution Big Twin; repl. OEM #74516-86

DS-313016

DS-313015

2112-0837

Cycle Electric Inc. Charging Systems for American V-twins MADE IN U.S.A.

CYCLE ELECTRIC RECTIFYING REGULATORS

- Control voltage on Harley-Davidson alternators, unlike other rectifiers or regulators that dump to ground and cause maximum stator current and higher temperatures
- Cycle Electric rectifying regulators block current to control voltage; this reduces stator current, resulting in low temperature and less drag on the motor, which means more efficient operation
- A lower-voltage style is available to lower the heat level in the battery where battery is enclosed in center of oil tank

PART #	DESCRIPTION
STANDARD	
2112-0296	For 95-96 FLHT models w/ EFI; repl. OEM #74505-95

Charging Systems for American V-twins MADE IN U.S.A.

GENERATOR-MOUNTED REGULATORS

- Available for 12V applications in a black finish
- Updated end plate has an extra set of mounting holes to align the fins on the regulator with the fins on the engine
- If you have purchased a Cycle Electric generator since 1984, it may have the four-hole end plate
- Updated end plate is available separately if your current generator is not equipped with one (comes complete with bearing and seal)
- 12V regulators are available in a standard or low output style (for use with small batteries in wraparound oil tanks)

CUSTOM REGULATOR MOUNT

- Allows the regulator to be mounted down and back out of sight
- Requires two 1/4"-20 x 1/2" bolts for installing regulator mount and two 3/8"-16 x 2 3/4" bolts for installing mount to the frame
- Optional 10-24 holes on back of mount for ground wire
- Gloss black

NOTE: May require removal of the oil filter for installation.

PART #	DESCRIPTION
2112-0927	For 36-99 Big Twin

CHROME REGULATOR MOUNT FOR RUBBER-MOUNTED MOTORS

- Chrome regulator mount made of heavy-duty steel
- Dual holes for custom applications

PART #	DESCRIPTION
DS-330006	For 84-95 FLT and 84-94, 99 FXR models; repl. OEM #74529-79T

VOLTAGE REGULATOR MOUNTING KIT

- Kit includes three rubber insulators with nuts and lock washers

PART #	DESCRIPTION
2401-0607	For 65-69 Big Twin and 67-77 XL

CYCLE ELECTRIC 12V VARIABLE AMPERAGE GENERATORS WITH BUILT-IN REGULATOR

- Features the unique concept of a built-in regulator and a simple two-wire hookup
- Regulators have variable amperage output, producing more amps when cold for faster charging after using the electric start
- All parts are interchangeable with OEM (except end cap/regulator)
- Available in black with a standard voltage or low voltage regulator (for bikes that are running a battery in a wraparound oil tank)

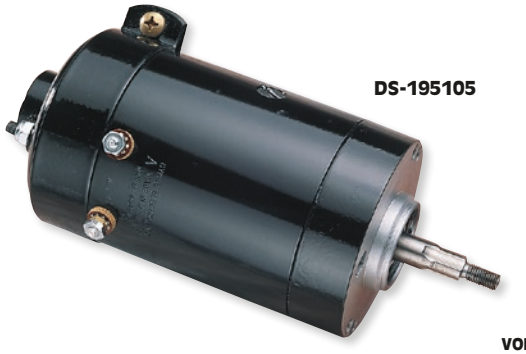

DS-195110

PARTS EUROPE

HEAVY-DUTY BATTERY KIT

- Parts Europe Heavy-Duty battery is built to the same exacting specifications and quality-control standards as OEM
- Rugged and provide more cranking power over standard batteries
- Lead calcium alloy reduces water loss and service by 66% compared to standard batteries
- Includes anti-sulfation chemical formulated to reduce sulfate crystal buildup on the battery plates
- Reduces self-discharge for longer time between charges
- Fiberglass separators improve acid flow
- Includes battery, pre-measured acid pack, red filler tube, hardware kit and clear vent tube

PART #	YUASA REF #	DESCRIPTION
2113-0408	Y50-N18L-A	For 80-96 FLT/FLHT

2113-0428

2113-0425

HIGH PERFORMANCE AGM MAINTENANCE-FREE BATTERIES

- Parts Europe is proud to offer a premium-quality, high performance maintenance-free battery
- Deliver additional cranking amps for vehicles that require extra starting power
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries

PART #	YUASA REF. #	DESCRIPTION
2113-0428	YTX24HL-BS	For 84-96 FLT/FLHT/FLHR
2113-0428	YTX24HL-BS	For 80-83 FLT/FLHT

PREMIUM PERFORMANCE BATTERIES

- AGM (Absorbed Glass Mat) separators with superior grid and component designs allow Drag Specialties to offer one of the most powerful batteries in the industry
- Improved charge recovery capability from a deeply discharged condition
- Longer shelf life
- Improved life cycle performance
- Extreme vibration resistance
- Factory-activated, spill-proof design
- Upgrade for customized motorcycles requiring the best performance

PART #	DESCRIPTION
2113-0455	For 97-98 FLT/FLHT/FLHR/FLTR
2113-0454	For 91-99 FXST/FLST, 91-98 Dyna Glide
2113-0453	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0453	For 82-94, 99-00 FXR, 73-84 FXE
2113-0453	For 79-85 XL/XLH

DRAG SPECIALTIES FACTORY-ACTIVATED HIGH PERFORMANCE AGM BATTERIES

- Specifically designed for high-performance engines that need extra cranking power
- Superior engineering features include an AGM (Absorbed Glass Mat) radial grid design for maximum cranking amps
- High vibration resistance
- Spill-proof, pre-filled, pre-charged, maintenance-free sealed design
- Batteries include brass spacers, stainless steel nuts, bolts and star washers

NOTE: Factory-activated batteries should be charged once a month when not in service.

DRAG SPECIALTIES HIGH PERFORMANCE AGM BATTERY

- Specifically designed for high-performance engines that need extra cranking power
- Superior engineering features include an AGM (Absorbed Glass Mat) radial grid design for maximum cranking amps
- High vibration resistance
- Not spill-proof design; acid not included
- includes brass spacers, stainless steel nuts, bolts and star washers

PART #	DESCRIPTION
2113-0007	For 71-78 FX (kick start)

PART #	DESCRIPTION
2113-0007	For 70-78 XLCH

DRAG SPECIALTIES AGM MAINTENANCE-FREE BATTERIES

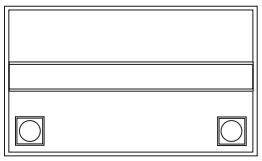

2113-0463

- Specifically designed for hard-starting, high-performance engines that need extra cranking power
- Radial grid technology delivers higher cranking amps and superior performance
- Special AGM (Absorbed Glass Mat) battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid; Acid Pack included
- Superior vibration-resistance and durability provide a long service life
- PART #s 2113-0714, 2113-0715 and 2113-0716 feature flush-mount terminals

PART #	DESCRIPTION
2113-0716	For 97-98 FLT/FLHT/FLHR/FLTR
2113-0463	For 84-96 FLT/FLHT/FLHR
2113-0715	For 91-99 FXST/FLST, 91-98 Dyna Glide

CONVENTIONAL BATTERY KITS

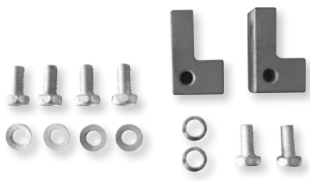

2113-0466

- Drag Specialties Conventional batteries are built to the same exacting specifications and quality-control standards as OEM batteries
- Rugged and provide more cranking power over standard batteries
- Lead calcium alloy reduces water loss and service by 66% compared to standard batteries
- Include anti-sulfation chemical formulated to reduce sulfate crystal buildup on the battery plates
- Reduce self-discharge for longer time between charges
- Fiberglass separators improve acid flow
- Kit includes battery, pre-measured acid pack, red filler tube, hardware kit and clear vent tube

PART #	DESCRIPTION	YUASA REFERENCE #	HARLEY-DAVIDSON OEM #
2113-0466	For 65-84 FL/FLH	YHD-12	66007-84
2113-0465	For 48-64 FL/FLH	-	66006-29F
2113-0465	For 36-47 Knucklehead, 32-63 Servi-Car	-	66006-29F

REPLACEMENT ADAPTER HARDWARE KIT

- Kit includes two "L" shape brass adapter nuts, four 6 x 13 mm bolts, four flat washers and an extra two 6 x 13 mm bolts, plus two flat washers which are used to fix "L" shape brass adapter nuts on battery

PART #	DESCRIPTION
2113-0307	Repl. adapter hardware kit

YUASA BATTERY

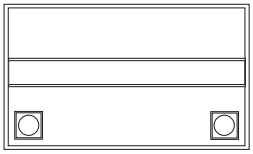

YTX24HL-BS

HIGH-PERFORMANCE AGM MAINTENANCE-FREE BATTERIES

- This new generation of maintenance-free batteries delivers higher cranking amps for vehicles that require extra starting power
- Additional cranking amps make these one of the most powerful batteries on the market
- Acid pack included, except where noted as Factory-Activated

NOTE: Factory-Activated batteries should be charged once a month when not in service.

PART #	DESCRIPTION
YTX24HL-BS	For 84-96 FLT/FLHT/FLHR
YTX24HL-BS	For 80-83 FLT/FLHT
YTX20HL-BS	For 91-99 FXST/FLST, 91-98 Dyna Glide

YTX-20BS

AGM MAINTENANCE-FREE BATTERIES

- Special AGM (Absorbed Glass Mat) battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Truly the world's finest "install it and forget it" motorcycle battery
- Acid pack included, except where noted as Factory-Activated

NOTE: Factory-activated batteries should be charged once a month when not in service.

PART #	DESCRIPTION
YTX20L-BS	For 91-99 FXST/FLST, 91-98 Dyna Glide
YTX-20BS	For 86-90 FLST, 84-90 FXST, 85 FXE
YTX-20BS	For 82-94, 99-00 FXR, 73-84 FXE

CUSTOM BATTERY CABLE KITS

- Build custom-length cables for an exact fit
- Each kit contains the following: 7,6 m (25') cable (1), 6,3 mm (1/4") terminals (20), 7,9 mm (5/8") terminals (8), 9,5 mm (5/16") terminals (12), black heat shrink (40) and red heat shrink (12)
- Using 30,5 cm (12") cables as an example, this 7,6 m (25') custom cable kit will make 27 cables (a 30,5 cm [12"] cable uses 28 cm [11"] of cable and two terminal ends), for a substantial savings over precut lengths

NOTE: See Parts Europe Tire & Service catalog for crimping tool.

BATTERY CABLE KITS

- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and superior flexibility
- Increase starter performance by supplying maximum battery current to the starter motor
- Contain all battery cables to replace OEM cables

2113-0667 2113-0669

PART #	DESCRIPTION
2113-0661	For 93-98 FLT/FLHT; cable lengths 203 mm, 33 cm and 33 cm (8", 13", 13")
2113-0662	For 89-99 FXST/FLST; cable lengths 254 mm and 30,5 cm (10", 12")
2113-0664	For 91-93 FXD; cable lengths 203 mm, 203 mm and 38 cm (8", 8", 15")
2113-0667	For 84-88 FXST/FLST; cable lengths 203 mm, 38 cm and 43 cm (8", 15", 17")
2113-0668	For 82-88 FXR; cable lengths 30,5 cm, 40,5 cm and 40,5 cm (12", 16", 16")
2113-0669	For 65-84 FLH/FL; cable lengths 299 mm, 40,5 cm and 40,5 cm (9", 16", 16")
2113-0670	For 89-92 FLHT/FLT; cable lengths 84 cm and 84 cm (33", 33")

BATTERY CABLES

- Increases starter performance by supplying maximum battery current to the starter motor
- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and flexibility
- Specially rated 125 °C (257 °F), oil- and grease-resistant, ultra-flexible black jacket guarantees excellent performance
- All cables manufactured with 6,3 mm (1/4") terminal and 7,9 mm (5/16") terminal
- Sold each

NOTE: Cables do not have auxiliary wires.

BATTERY CABLES

TERRY COMPONENTS
FUEL / STARTING SYSTEMS
FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

- Manufactured from 4-gauge, 1650-strand tinned copper wire with a super flexible silicone jacket
- Unique lug design (99,9% pure electrolytic copper) provides a positive connection with greater conductivity and dependable service
- These cables will deliver more cranking power with less voltage drop than any cable on the market today
- Available in black
- Cables are available in kits or individually
- Kits include cables for required stock applications
- Individual cables can be used for universal/custom positive or negative applications

NOTE: Cables do not have auxiliary wire unless noted.

BATTERY CABLE WITH AUXILIARY WIRE

- The perfect choice when doing custom wiring
- Positive battery cable with auxiliary wire eliminates stacking cables on the battery
- Perfect for wiring directly to the terminal block, regulator or any accessory
- Positive cable is 18K gold-plated and tinned copper 1666 strand Mega Cable
- Auxiliary wire is 12-gauge tinned copper 259 strand Mega Cable
- Negative battery cable is the perfect solution for the ground wire on custom bikes
- Eliminates poor electrical ground
- Install the 4-gauge wire to the transmission and the 12-gauge wire to any accessory for the ground
- Auxiliary wire measures 30,5 cm (12") L on both positive and negative battery cable wires

RIVCO

MAGNUM ELECTRIC HORN SET AND HARDWARE KIT

- Featuring an output of 118 dB, these are the loudest electric horns you can buy
- Direct replacement for most 12V electric horns
- Horn set includes two chrome-finish horns (one high and one low tone), mounting brackets and installation instructions
- Each horn measures 76 mm x 76 mm x 76 mm (3" x 3" x 3")
- Uses the stock horn button; bolt-on, plug-in installation
- Hardware kits (sold separately from the horn set) include 30 amp relay and fuse, all model-specific, pre-cut 14-gauge wiring, mounting hardware and detailed instructions

NOTE: The use of a 30A relay is recommended with Horn Set (not included with the horn set, but included in each wiring/mounting kit) to achieve maximum volume and protect the stock electrical system.

PART #	DESCRIPTION
2107-0067	Horn set, chrome
2107-0065	Hardware kit for 84-98 FLT/FLHR/FLHT/FLTR (mounts one horn in original location and one near left footpeg)
2107-0322	Horn set, black

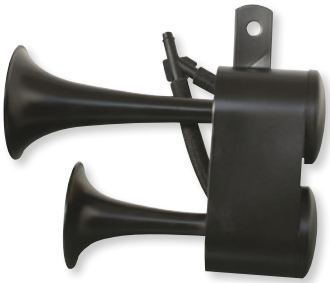

RIVCO

AIR HORNS

- Waterproof dual-trumpet air horns replace stock horn and give a loud warning blast of 128 dB
- Includes horn assembly, air compressor, relay, simple wiring, cone-shaped dust/bug covers and complete installation instructions
- Air compressor creates instant air pressure to the horns and mounts either under the seat, behind right-side cover or down tube of frame (mounting position varies per model)
- Will fit with Harley-Davidson® lowers
- Uses the stock horn button; bolt-on, plug-in installation

H-D HANDLEBAR TOP CLAMPS

- Milled aluminum billet handlebar top clamp for all H-D models with 25,4 mm (1") handlebars
- Replaces the upper OEM part of the original handlebar clamp to incorporate the Motoscope Mini, sold separately; see DASHES & GAUGES section
- Features five LED indicator lights
- Includes four matching bolts in stainless steel for the clamp, two diodes if only one flasher indicator is used, two bolts to attach the instrument and installation instructions

2201-0108

mo.LOCK NFC DIGITAL IGNITION LOCK AND ACCESSORIES

- Contactless digital ignition lock
- No more fumbling with keys or mechanical wear on lock cylinders
- The ignition and power supply of the bike is switched on when within 30 mm-50 mm of the digital key/transponder
- Uses the most recent NFC technology (Near-Field-Communication)
- Each key is singular by its digital code and cannot be spoofed
- Includes one master key and one user key that are the size of a key tag
- Keys do not require batteries
- Optional wiring harness kit ensures seamless installation process
- NFC connection cable is a high quality, 2m long, 3-wire cable for connecting the mo.lock NFC and fits the included cable cover

2105-0133

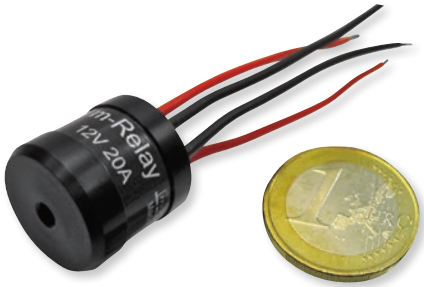

PART #	DESCRIPTION
2105-0135	mo.lock NFC connect cable

mo.RELAY

- Small, compact relay
- Designed to control almost any kind of device including high-beam light, driving light, horn, ignition, etc.
- Moves high loads and currents directly to the switched devices
- Enhances the electrical reliability of your bike
- Reduces voltage drops in power supply
- Load and current at the handlebar switch gear and ignition lock is reduced to a minimum, allowing small diameter wiring at the switch gear for easier wiring
- CNC-machined and black anodized
- Molded internally, waterproof and vibration-resistant
- Two red cables allow the connection of devices for 12V power supply and up to 20A load current
- Two black cables allow the connection of the switch gear

- Not intended as a control unit for push-buttons
- Easy to install

motogadget

mo.FLASH DIGITAL FLASHER

- Replaces all conventional flasher relays; only uses two cables
- Perfect for custom bikes and modifications with limited space
- Route through the handlebar, frame tubing or in the cable harness
- Constant and correct flashing rate; suitable for almost all LED blinkers and all micro-blinkers
- Works with four signal lights or two handlebar end blinkers and has an immediate, lossless flasher response
- Features an automatic overload protection; does not generate heat during operation
- Takes 5V to 18V to operate; suitable for 6V flashers
- Water- and short circuit-proof

PART #	DESCRIPTION
2020-0463	mo.flash digital relay

2020-0464

- Does not require load resistors or similar accessories
- PART #2020-0463 is suitable for all LED blinkers, micro blinkers, halogen blinkers and bulb blinkers from 1W-100W
- mo.wave PART #2020-0464 is the first flasher relay to allow a smooth fade in/fade out with your flash lights

PART #	DESCRIPTION
2020-0464	mo.wave digital relay

motogadget

HANDLEBAR CLIP KITS

- CNC-milled billet clips
- Mounts the Motoscope Mini or Motosign Mini to a standard 25,4 mm (1") handlebar
- Includes two single clips (clamp, counter part and bolt)

THUNDER MAX

PUSH-BUTTON CONVERTER

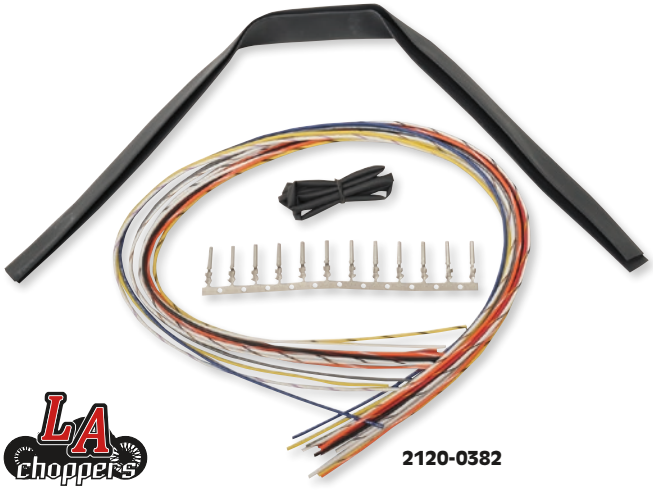

- Convenient way to wire up push-button hand control switches
- Takes momentary signal from a push-button hand control switch and converts it to a standard "latching" signal
- Design is fully circuit-protected and has no relays to wear out
- Compact size; measures just 50,8 mm x 15,2 mm x 12,7 mm (2" x 0,6" x 0,5")
- Simple six-wire hookup; wiring diagram included
- Designed for use with 12V electrical systems such as Thunder Heart's Micro Harness Controller; 1 amp maximum load

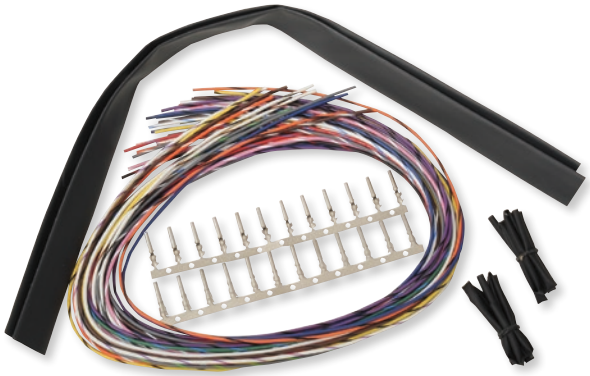

PART #	DESCRIPTION
2120-0085	Push-button converter

2120-0382

2120-0384

HANDLEBAR EXTENSION WIRING KITS

- Saves time by streamlining handlebar wiring jobs
- Kit includes all the materials necessary to extend the wires for hand controls (does not include extensions for Throttle-By-Wire controls if applicable)
- Terminals crimped on one end
- Cut-to-length design will accommodate up to 51 cm (20") Ape Hanger handlebars
- Includes OEM color matching wires and heat shrink

PART #	DESCRIPTION
2120-0382	For 96-99 Evolution Big Twin universal application (except FLHT/FLTR/FLHR models)
2120-0384	For 96-98 FLHT/FLTR/FLHR models

EXTENDED HANDLEBAR WIRING HARNESS

- Replaces stock harness when converting to taller handlebars
- Has 122 cm long (48") L wires and 96,5 cm long (38") L black covering, which allows the installation of almost any height bars; it comes with connectors and tie wraps

PART #	DESCRIPTION
DS-305201	For 82-95 H-D, 122 cm L (48")

HANDLEBAR WIRING HARNESS EXTENSION KIT WITH SWITCHES AND HARDWARE

- Available in a complete 122 cm (48") kit for left and right sides
- Completely soldered together, ready to install; color-coded to match OEM specifications
- Includes switches, wire connectors, buttons, screws, stoplight switch rubber boot and switch retaining plates

PART #	DESCRIPTION
DS-305202	For 73-81 Big Twin, XL models

CUSTOM CHOPPER WIRE HARNESS

- Makes wiring your custom motorcycle a snap
- Includes just the essentials: keyed on-off start switch, three-way toggle switch, in-line fuses (15 and 30 amp), wire ends, shrink tube and wiring diagram
- For custom applications only

PART #	DESCRIPTION
2120-0018	Custom wire harness

EXTENDED HANDLEBAR WIRING HARNESS

- Extended harness simplifies handlebar swaps that require longer wiring
- Color coded to match OEM wiring; measures 91 cm (36") in length

PART #	DESCRIPTION
2120-0022	For 96-98 Big Twin models

NAMZ Custom Cycle Products

COMPLETE BIKE HARNESS

2120-0769

- The perfect start for any project bike or OEM model rewire
- Complete bike harness w/ starter relay, 3-circuits, self-canceling and run, brake and turn signal module
- Works with any stand-alone, Evo or Twin Cam ignition system
- Designed to operate with a two-position key switch
- Key start switches can be used with a simple wiring modification (ignition system and key switch are not included with this harness)
- OEM color-matching harness with 11-second self-canceling turn signal module
- Fuse block holds a full size, commonly available and replaceable starter relay and three ATO fuses
- A 30-amp circuit breaker is installed and is ready for any regulator/charging system
- Oil, neutral, high beam and turn signal indicator wiring
- Color-matching handlebar switch wiring, as found on most 96-13 models (except Dresser models)
- Part #2120-1178, color-matching handlebar switch wiring, as found on most 96-13 non-glide models
- Headlight wiring with headlight socket and terminals
- Front turn signal connectors and terminals
- Rear fender harness with connectors and terminals
- Key switch wiring with ring terminals
- Coil wire with ring terminals, tachometer, horn, oil sending unit, brake switch and neutral switch wiring with terminals
- 4,8 mm (3/16"), 6,4 mm (1/4"), 9,5 mm (3/8"), and 12,7 mm (1/2") heat shrink sections included
- Heavy gauge 12(+) power and (-) ground wires with terminals for battery connection
- PART #2120-0769 has provisions for front and rear turn signals which function as run, brake, turn signal. OEM color matching harness with 11-second self canceling turn signal module
- PART #2120-0973 has no turn signal wiring, only indicator wiring

12V CIGARETTE LIGHTER PLUG

- Charge any electrical device on the bike
- Accepts any cable, easy installation
- Works for both Euro and small-size cigarette lighters
- Comes with 8A fuse included for additional safety
- Sold each

FLOSSER®

PART #	DESCRIPTION
2130-0185	12V cigarette lighter plug

KILL SWITCH HOW TO ORDER

NOTICE TO CUSTOMERS: There are two types of stop switches: (1) Normally Open (NO) or (2) Normally Closed (NC). Switches in this catalog are typically of the Normally Open (NO) type. They work by GROUNDING the primary ignition lead when activated. Note that they will not work on electrical systems requiring a Normally Closed (NC) switch, which works by OPENING the circuit when activated. NC switches are typically used on battery type ignitions, which may have an ignition key as an identifier. NC switches are generally found on newer machines. If in doubt, check your machine's wiring schematic.

13 CM (5,25") FRONT AND REAR SPEAKER

- Gen 4, 13 cm (5,25") 6-ohm speaker fits front and rear locations
- Perfect replacement speaker when using radio's built-in power on 98 bikes
- Vented magnet properly controls heat for added reliability
- Sound is tailored to cut through exhaust and wind noise
- Install using factory grilles or use Hogtunes front speaker metal mesh grilles (PART #4405-0379)
- Compatible with popular plug-and-play aftermarket radios
- Sold in pairs

PART #	DESCRIPTION
4405-0763	For 86-96 FLHTC/FLHTCU w/ factory radio only

REPLACEMENT 11 CM (4,25") SPEAKERS FOR 86-95 DRESSERS

- Direct replacement speakers for 86-95 model bikes equipped with factory radios
- Fit behind factory grilles, includes 10 mm soft rubber gaskets for an improved fit
- 4-ohm, two-way design
- Feature Hogtunes "signature" sound to enhance sound on a bike at any speed
- Install using factory hardware
- Can be used on bikes with a car radio conversion kit
- Sold in pairs

PART #	DESCRIPTION
4405-0263	For 86-95 FLT/FLHT models with factory or car radios

"HOG-POD" FLHT/FLHX DASH TRIM/TWEETER POD

- Complete add-on tweeter kit
- Doubles as a fairing accent piece with decorative chrome trim (included)
- Pod comes "satin black" to match stock inner fairings (as shown)
- Disassembles easily to paint-match custom-painted fairings
- Black "see-through" grilles can also be painted, chromed
- Second set of cloth-covered grilles included
- Works with all Hogtunes speaker systems, 98 stock systems or bikes with aftermarket car radios
- Includes custom-designed 50-watt (RMS) high-efficiency metalized dome tweeters with 3rd order (18 dB) passive crossovers
- Radically improves clarity and performance of your audio system
- All mounting hardware, drilling template and plug-and-play wiring is included in box

PART #	DESCRIPTION
4405-0172	For 98 FLHT models

REAR SPEAKER PODS

- Kit includes vinyl-covered rear speaker pods, grilles, mounting hardware and wire harness for PART #s 4405-0338 and 4405-0341
- Also include wiring for bikes with car radios
- Hold Hogtunes 13,5 cm (5,25") front or rear model speakers

NOTE: Supplied wiring will not plug into radio on FLHT/FLHX and FLTR models. Amplifier, OEM harness or car radio is required. See PART #2120-0771 for more wiring options.

PASSIVE FLEXPOWER™ HIDE-AWAY AM/FM/WB ANTENNA

- Designed specifically for models with the factory Harley® radio
- All three reception bands of AM, FM and WB, to help you altogether eliminate the rear-mounted antenna on your Harley
- Installation is a snap, as there are no wires to cut or splice, and antenna wire lead is secured in the fairing with included double-sided tape clips
- Includes complete and detailed installation instructions

PART #	DESCRIPTION
4401-0167	For 89-98 FLHT/FLTR models

ELECTRONIC HIDDEN ANTENNA

- Finally, a hidden internal antenna that really works
- Mounts inside any fiberglass or plastic fairing
- Plugs into any standard AM/FM antenna jack
- Requires a switched 12V power source

NOTE: Antenna will not receive Weather Band frequencies.

PART #	DESCRIPTION
DS250034	Hidden antenna

KURYAKYN

HIDDEN ANTENNA

- Flexible and discreet design can be tucked away virtually anywhere for a clean look
- 28 cm (11") long with 61 cm (2') of cable
- Requires no power wire; simple plug-in installation
- Offered with universal round antenna connector
- Provides AM/FM and Weatherband signal (no CB radio capabilities)

PART #	DESCRIPTION
4401-0263	Hidden antenna w/ universal connector

HIGH CALIBER FLEXIBLE ANTENNAS

- Bullet-style antenna is a sleek, sturdy upgrade over long whip-style antennas
- AM/FM/WB reception is equivalent to OEM antenna
- Flexible rubber base prevents antenna from breaking
- No need to worry about bike cover
- Comes in 20,5 cm (8") or 30,5 cm L (12") length

4401-0270

NAMZ Custom Cycle Products

AM/FM STUBBY ANTENNAS

- Comes in rubber or aluminum with carbon fiber insert
- Fits any HD models with existing audio antenna
- 100% plug-n-play

PART #	DESCRIPTION
4401-0274	6" rubber
4401-0275	7" aluminum with carbon insert

ARLEN NESS

WHIP ANTENNA

- Direct OEM replacement for H-D® radio antennas
- 35,5 cm L (14") and screws into OEM antenna mounts
- Not intended to replace CB antenna

PART #	DESCRIPTION
4401-0188	Whip antenna

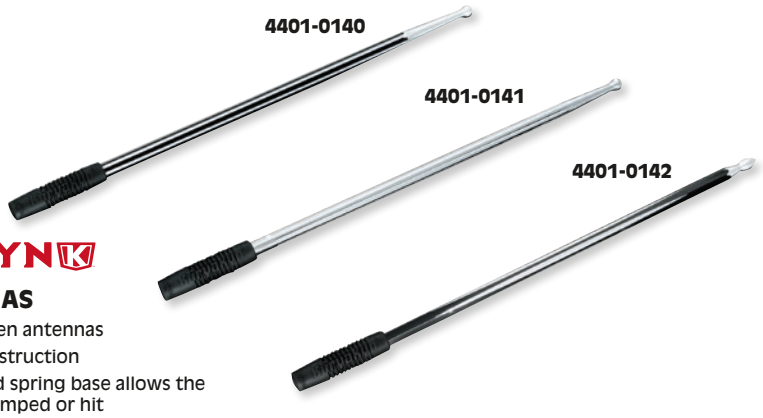

KURYAKYN

DUAL-FUNCTION FLEXIBLE ANTENNA

- Get range and clarity for your AM, FM and CB radio without the mile-high stock antenna
- Compact, flexible antenna measures only 43 cm L (17")
- Tuned for its specific mounting location – no calibration needed

PART #	DESCRIPTION
4401-0070	Tour-Pak® mount antenna for 89-98 FLHT/FLTR w/ AM/FM radio and CB kit

KURYAKYN

BILLET ANTENNAS

- No more bent/broken antennas
- Billet aluminum construction
- Rubber over-molded spring base allows the antenna to flex if bumped or hit
- Measures 30 cm L (12"); direct replacement for the OEM antenna
- Pick up AM/FM signals only (no CB)

PART #	DESCRIPTION
FOR 89-98 FLT/FLHT/FLHR/FLTR MODELS	
4401-0140	Round/grooved w/ two-tone black/raw aluminum finish
4401-0141	Round/grooved w chrome finish
4401-0142	Hex/grooved w/ two-tone black/raw aluminum finish

ALUMINUM ANTENNA STUD CAP

- Covers the stock antenna stud when the stock antenna is relocated

PART #	DESCRIPTION
4401-0204	Antenna cap

PINGEL® Since 1967

LOW MOUNT ANTENNA RELOCATION KIT

- An affordable way to relocate the antenna down low and out of the way of the detachable luggage rack or the tour pack on radio-equipped baggers
- No need to change the location of the antenna every time the tour pack is installed or removed from the bike
- Kit includes all hardware and polished stainless steel bracket
- Mounts to the rear fender support brackets; may fit on some models with saddlebag fillers

NOTE: Not for models with rear fender fascia.

PART #	DESCRIPTION
4402-0058	Radio antenna mount kit for 85-98 FLHT models

KURYAKYN

18 CM (7") ORBIT VISION LED HEADLAMP WITH HALO

- Ultra-high performance 18 cm (7") LED headlamp
- Powerful high-output LEDs have a color rating of 6.000K for optimum brightness
- Integrated outer white LED halo enhances the field of visibility and the rider's field of vision
- Sealed, cast-aluminum housing is IP67-rated
- Non-yellowing, hard-coated, scratch-resistant and UV-protected polycarbonate lens
- Lumen raw output: 2.600 (high beam), 1.350 (low beam)
- Effective lumen output: 1.600 (high beam), 1.000 (low beam)
- Low beam current draw is 1,5 amps, high-beam current draw is 3,0 amps
- Uses standard H4, 3-blade connector
- Includes all necessary mounting hardware

PART #	DESCRIPTION
2001-1523	18 cm (7") Orbit Vision LED headlamp w/ halo

All part numbers in BLUE are new for the OldBook.

PREMIUM 18 CM (7") REFLECTOR STYLE LED HEADLAMP

- Direct replacement for 18 cm (7") headlights
- Easy plug-in installation with H4-style connector
- Superior visibility, safety and durability
- 1400 lumen output (high beam), 706 lumen output (low beam)
- ECE approved

2020-2003	Black w/ amber LEDs

PART #	DESCRIPTION
2020-2005	Chrome w/ amber LEDs

Joker MACHINE

RECTANGLE FORK-MOUNT LED TURN SIGNALS

2020-1997

2020-1452

- CNC-machined from solid blocks of 6061-T6 billet aluminum
- Pitch bolt mounting design for a clean look
- Can be mounted either inward or outward from the fork tubes
- Available with a black anodized or chrome-plated finish
- Super-bright amber LED lights
- 63,5 mm W x 13 mm T (1 $^{1}/_{2}$" x $^{1}/_{2}$"); lights are set a 25° angle for standard HD forks
- 63,5 mm W (2 $^{1}/_{2}$") from center of fork tube to the end of the light
- Sold in pairs

NOTE: If being used as turn signals and marker lights, the use of an LED Intensifier Converter is required. Depending on the year/make/model of your bike a load equalizer, LED turn signal flasher or diode kit may be required. If you are unsure of what is needed, please contact Joker Machine for assistance.

2040-1967	61 cm (24")/30 LED flexible strip

MAGICAL WIZARD™ WHEEL LIGHTZ

- 12 LEDs in an oval disk for 360° coverage
- Features 7-ft. wire leads and a choice of chrome or black case
- Pre-taped with 3M™ die-cut automotive-grade adhesive
- Waterproof construction
- Mounts on inside of brake caliper
- Fits any bike where back side of brake caliper is flat and there is 15,9 mm (5/8") clearance between the caliper and wheel
- Dimensions: 66 mm L x 51 mm W x 13 mm H (2,6" x 2,0" x 0,5")

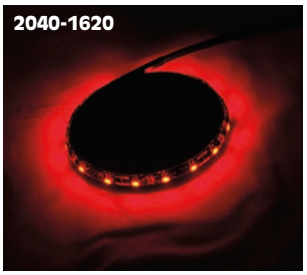

PART #	DESCRIPTION
2040-1020	Black

MAGICFLEX®2 WHEEL LIGHTS

- Contains 15 high-power 5050 LEDs that are pre-wired with 213,5 cm (84") black sheath wire leads that make it easy to install in almost any application
- Available in both chrome and black cases
- Mount using 3M™ double-sided tape that is pre-installed on each MagicFLEX® Wheel Light
- Measures 74 mm x 58 mm x 10 mm (2,9" x 2,3" x 0,4")
- Mounts to most H-D brake calipers (except models with narrow glide front ends and 06-13 V-Rod)
- Sold each

MAGICFLEX® LOW-PROFILE LED ACCENT LIGHTS

- 122 cm (48") color-coded wire in high-temp protective black sheathing
- Pre-taped with 3M™ tape
- Extremely versatile and flexible
- High-output 5050 surface-mounted LEDs
- 120° viewing angle
- Conformal-coated to make them 100% waterproof
- Sold in pairs, except as noted
- Mounting blocks and Mounting Stickz available to make mounting easier

NOTE: Mounting blocks are made to fit MagicFLEX® 6 and can be cut in half to fit MagicFLEX® 3.

NOTE: Mounting Stickz allow MagicFLEX® 18 and 24 to be mounted at right angles and in other positions not possible before.

DUAL INTENSITY SIDE FIRING AUXILIARY LED STRIPS

- Flexible, low-profile auxiliary LED strips designed to mount under the rear fender edge
- 78 dual-intensity red LEDs per strip are placed at a 90° angle to shine towards the rear
- Each strip is 25" long with 5' wire leads to route under the seat for connections for low intensity power (run), high intensity power (brake, turn signal or brake/turn) and ground
- LED strips can be cut every 6 LEDs or 1,95" to customize length for an exact fit to the rear fender
- 0,310" mounting surface; 0,094" thick
- Current draw at 12,8V per 6 LEDs: 14mA rim, 38mA brake; current draw at 14,4V per 6 LEDs: 16mA run, 48mA brake
- Universal design, 3-wire installation
- Sold in pairs; pre-taped for mounting

PART #	DESCRIPTION
2040-3022	Flexible light strips

2050-0097

TruFLEX® FLEXIBLE LED STRIPS

- Dual-intensity; designed to be used as running, turn or brake lights or any combination
- Highly flexible with a unique faceted design to increase the viewing angle
- Available with red or amber LEDs in a choice of UV-stable amber, red, clear or smoke tubing
- Each strip is pre-taped with automotive-grade tape, sealed with military-grade RTV and has 91,5 cm (36") copper wire
- Strips are 9 mm W x 8 mm H (0,34" W x 0,30" H)
- Sold each

NOTE: A dual converter is needed to use as a dual-intensity three-wire system; available separately.

TruFLEX® ALL-IN-ONE INTEGRATED LED LIGHT STRIPS

- Designed to have running lights, brake lights and turn signals all in one strip
- Can be wrapped around a fender or mounted flat on a Tour Pak®
- Offer all the benefits of TruFLEX® LED strips
- Dual converter lets strips be used as dual-intensity and is included with all strips except PART #2040-0928, as it is not needed
- PART #2040-0928 to be used with a RBT controller (Smart Triple Play sold separately)
- Measures 37 cm L x 9 mm W x 8 mm H (14,6" x 0,34" x 0,30")

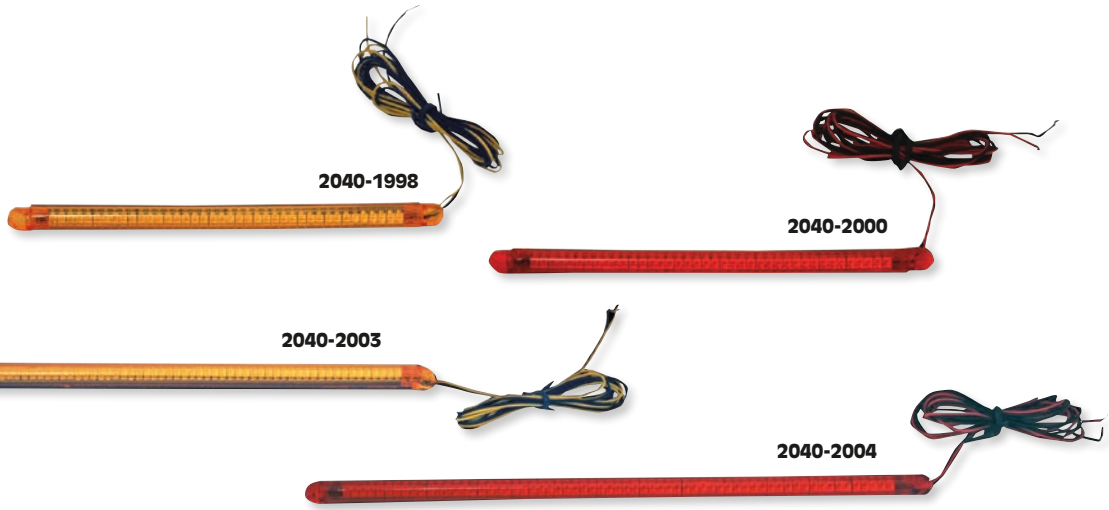

PART #	DESCRIPTION
LED LIGHT STRIPS	
2040-0928	Strip w/ 55 red LEDs/55 red LEDs with red tubing; run/brake/turn; requires a run/brake/turn module 35,5 cm L (14")

DUAL-COLOR PLASMA RODS™

- Plug-and-play with model-specific wiring adapters sold separately
- Can be used just about anywhere and work great between saddlebags and fender
- Pre-taped for easy installation
- Red run/brake LEDs, amber turn signal LEDs
- Smooth light output
- No drilling required
- Sold in pairs

NOTE: Requires use of wiring adapter (PART #2050-0429), sold separately; see page 611.

PART #	LENGTH
2040-2702	20,5 cm (8") red/amber
2040-2703	25,5 cm (10") red/amber

LED ACCENT LIGHT KITS

- Contains high-power LEDs in each unit
- Can be hooked-up to any 12V vehicle, with or without a battery
- Two-piece rectangular module LEDs have 300 lumen output, are 20 times brighter than the previous eight-piece kit and use 3M™ two-way foam adhesive tape for mounting
- Include all wires, fasteners, mounting clips and 3M adhesive mounting
- Install in minutes with minimal tools
- Available in two-piece 57,2 mm (2,25") rectangular modules, single 91 cm (36")" strip, 4 strip kits (2) 32 cm (12,5") and (2) 20,5 cm (8") long
- Remote-controlled multi-colored LED strip using an IR remote to control the light strips; includes (2) 91 cm (36"), (2) 45,5 cm (18") and (2) 23 cm (9") strips
- Remote controls all functions, changes colors, dim and has four pre-programmed auto-sequence functions
- All strips can be cut to length

2010-1421

SLIM FLEXIBLE LED LIGHT STRIPS

- Feature two rows of 50 mm SMD LED chips
- Flexible design that allows for direct application to smooth-finished surfaces; will work on fenders with curvature
- Gloss black glue-drop flexible surface
- 3M® automotive gray trim adhesive on the back of light strip
- Over 1,5 m (5') of cord in a black PVC jacket to protect and conceal wires
- Available in two versions: three-wire or five-wire
- All lights are red in the three-wire version; five-wire version center eight LEDs are red, outer four LEDs on each end are amber (for L/R turn signals)
- Specs: 12 cm x 1,9 cm x 0,3 cm (4 3/4" x 3/4" x 1/8") plus 152 cm (60") of cord

PART #	DESCRIPTION
2010-1420	Three-wire; two-function run/brake
2010-1421	Five-wire; four-function run/brake/left/right

EXPANSION KIT

- Expansion kit includes two LED modules, two extension cables, silicone mount pads and hardware

PART #	DESCRIPTION
2040-2679	Expansion kit

KURYAKYN

PRISM+ LIGHT WIRING COMPONENTS

- Variety of available extension cords and connectors to keep your Prism+ installation or expansion clean and painless
- Y-Connectors are available in short (20,5 cm (8")) or long (30,5 cm (12")) lengths
- Extension wires are available in 23 cm (9"), 30,5 cm (12") or 61 cm (24") lengths to accommodate an array of vehicles and Prism+ layouts
- Sold each

KNIGHT RIDERZ 11,4 CM (4.5") LED LIGHT BARS

- Features 12 super-bright LEDs
- 3M™ double-sided tape for easy mounting
- Works with any 12VDC system with no load equalizer or resistors required
- Non-sequential light bars are dual-intensity and you have a choice of flashing or non-flashing brake alert

PART #	DESCRIPTION
2040-0646	Non-sequential light bar w/ non-flashing brake alert, red
2040-0648	Non-sequential light bar w/ flashing brake alert, red

- Sequential light bar features "Knight Rider" side-to-side sequencing in running light mode and a flashing brake alert
- Dimensions: 11,4 cm L x 1,7 cm W x 1,7 cm H (4.5" L x 0.7" W x 0.7" H)
- Sold each

PART #	DESCRIPTION
2040-0647	Sequential light bar w/ flashing brake alert, red

KNIGHT RIDERZ 19 CM (7.5") LED LIGHT BARS

- Contains 21 high-power dual-intensity red LEDs
- Designed for maximum visibility
- Work with any 12VDC system
- No load equalizer or resistors required
- Dimensions: 19 cm L x 17,8 mm W x 17,8 mm H (7 1/2" L x 7/10" W x 7/10" H)
- Sold each

2040-1296

PART #	DESCRIPTION
2040-1296	Non-sequential light bar w/ non-flashing brake alert

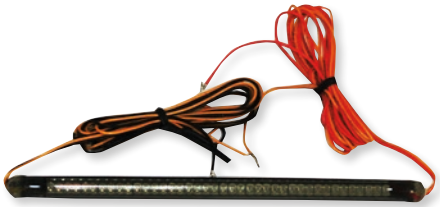

PART #	DESCRIPTION
2040-1297	Sequential light bar w/ flashing brake alert

LUGGAGE RACK LED LIGHT BAR

- Designed to fit H-D Air Wing Tour Pak® luggage rack, Air Wing® luggage rack, Air Foil luggage rack and sissy bar uprights on models listed (sold separately)
- Super-bright red, dual-intensity 5 mm LEDs
- Run and brake functions
- Plug-and-play installation
- All mounting hardware included
- Sold each

PART #	DESCRIPTION
FOR 97-98 FLHR, 98 FLTR MODELS WITH ADD-ON TOUR PAK WITH AIR WING TOUR-PAK® LUGGAGE RACK	
2040-2306	Smoke lens

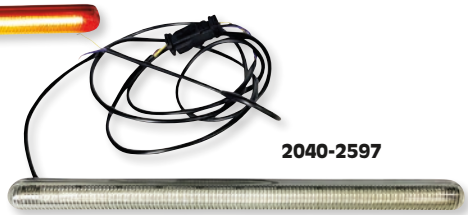

TruFLEX® INTEGRATED LED LIGHT BAR

- Contains 10 amber left and right turn signal LEDs
- Offers enhanced display with 20 red run and brake dual-intensity LEDs
- Includes smoke tube
- Measures 14,5 cm (5,7")

PART #	DESCRIPTION
2040-1837	TruFLEX integrated LED light bar

2040-2596

2040-2597

LOW-PROFILE DUAL-INTENSITY LED LIGHT BARS

- Comes pre-taped for mounting to any flat surface
- Slim design contains 50 dual-intensity red LEDs behind either a red or smoke lens
- Simple 3-wire hookup
- Fits all 12VDC systems with a negative ground
- Measures 18 cm L x (7") x 13 mm W (0,5") x 10 mm H (0,4")

PART #	DESCRIPTION
2040-2596	Red lens

PART #	DESCRIPTION
2040-2597	Smoke lens

LED LIGHT BAR

- 3-function LED light bar that emits red when activated (running light, stop light, right and left turn signals)
- 139,5 cm (55") wire length
- 38 cm x 38 mm x 22 mm (15" x 1,5" x 7/8")
- Polycarbonate base
- Sold each

PART #	DESCRIPTION
2040-1031	Red lens/black base

All part numbers in BLUE are new for the OldBook.

MILLENNIUM TRIPLE TREE MARKER LIGHT BAR

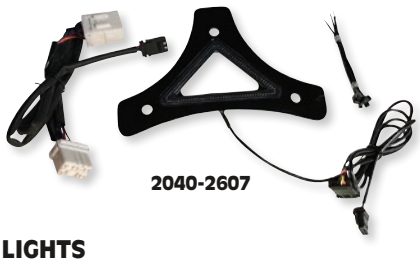

PRO 1 PERFORMANCE PRODUCTS

- Chrome-plated light bar features amber lights
- Fit between the fork tubes on Wide Glide or narrow glide front ends
- Mount to the headlight bolt
- See pages 617-620 for replacement bulbs; sold as pairs

NOTE: May require the use of a load equalizer to function properly.

PART #	DESCRIPTION
DS-280185	For Wide Glide (FXWG/FXST/FXDWG)

2040-2607

2040-2618

RUN/BRAKE BACKREST LED LIGHTS

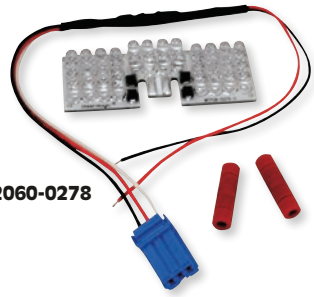

- Contains 100 chip-on-board LEDs
- Available with black or chrome finish
- For use with H-D sissy bars and passenger backrests
- Plug-and-play

PART #	DESCRIPTION
FOR 96-99 SOFTAILS, 97-98 DYNA, 97-98 FLHR/FLHRC/FLTR MODELS	
2040-2607	Black
2040-2608	Chrome

PART #	DESCRIPTION
FOR UNIVERSAL APPLICATIONS W/ 12VDC NEGATIVE GROUND SYSTEMS	
2040-2617	Black
2040-2618	Chrome

2060-0276

2060-0278

LED FENDER TIP BOARDS

- Replaces OEM #194 bulb
- 40 wide-angle super-bright LEDs
- Available in amber or white front LED lights or red running light
- Sold each

PART #	DESCRIPTION
FOR 81-98 FLHT, 81-99 FLST/FLSTC MODELS (FRONT)	
2060-0276	Amber LED light
2040-1289	White LED light
FOR 81-98 FLHT, 81-99 FLST/FLSTC MODELS (REAR)	
2060-0278	Red dual-intensity LED light

NOSTALGIA-STYLE FRONT FENDER LIGHT

- Improved version of Harley-Davidson's old-style front fender light is die-cast and chrome-plated
- Includes mounting gasket, concealed mounting hardware and extra-long wire leads
- Features an amber lens
- Measures 17,5 cm L x 57 mm W x 51 mm H (6⅞" L x 2¼" W x 2" H)
- For replacement bulbs, see pages 617-620

PART #	DESCRIPTION
DS-280180	Front fender light, 12V

DS-719933

DS-719932

2040-0584

FENDER TIP LIGHTS

- These tip lights are a perfect fit on OEM and aftermarket front and rear fenders
- Clear fender light comes with amber and red bulb
- Replacement lenses available separately
- Sold each

PART #	DESCRIPTION
FRONT LIGHTS	
FOR 80-95 FLT/FLHT (EXCEPT FLTR) AND 86-95 FLSTC/N	
DS-719933	Light w/ amber lens; repl. OEM #59180-80
2040-1247	Light w/ smoke lens
REPL. FRONT LENS ONLY	
FOR 84-98 FLT, FLHT/C, 86-99 FLSTC	
2040-0589	Amber lens; repl. OEM #59180-80

PART #	DESCRIPTION
REPL. FRONT LENS ONLY (CONT)	
FOR 84-98 FLT, FLHT/C, 86-99 FLSTC (CONT)	
2040-0592	Smoke lens
2040-0129	Clear lens
REAR LIGHTS	
FOR 80-95 FLT/FLHT, 86-95 FLSTC	
DS-719932	Light w/ red lens; repl. OEM #59658-79

PART #	DESCRIPTION
REPL. REAR LENS ONLY	
FOR 99 FLSTC	
2040-0580	Light w/ red lens; repl. OEM #59672-99
2040-0584	Light w/ smoke lens
FOR 80-08 FLT/FLHT	
2040-0588	Red lens; repl. OEM #68046-79
2040-0591	Smoke lens

KURYAKYN

FENDER TIP LIGHT LENS KITS

- Fender tip smoke lens kit adds style
- Includes a push-in LED bulb and smoke lens
- Sold each

2040-0134

PART #	DESCRIPTION
FOR 80-98 FLHT, L82-84 FLH, 86-99 FLST/FLSTC MODELS (REAR FENDER)	
2040-0133	Kit w/ red LED

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT, 86-99 FLST/FLSTC MODELS (FRONT FENDER)	
2040-0134	Kit w/ amber LED

All part numbers in BLUE are new for the OldBook.

SMART TRIPLE PLAY®

- Converts rear turn signals to run-brake-turn
- Works with LEDs or incandescent bulbs
- Ten user-selectable built-in brake light strobe/flash patterns (user can also select no strobe/flash on brake)
- Ten user-selectable running light intensities allow user to match the running light brightness of turn signals to center taillight
- Ability to apply brake strobe/flash patterns on center taillight only, rear turns only, or rear turns and center taillight
- Built-in short-circuit protection
- Sealed, weathertight case
- Slimline design: 11 cm x 36 mm x 15 mm (4,2" x 1,4" x 0,6")

PART #	DESCRIPTION
2050-0146	For 97-98 Touring, 96-99 Softails and 97-98 Dyna

LOAD BALANCING TRIPLE PLAY MODULE®

- Acts as a no-load, no-heat load equalizer
- Converts rear 1156 turn signals to function as run/brake/turn signals
- 10 user-selectable built-in brake light, or strobe/flash patterns
- Plug-and-play

PART #	DESCRIPTION
2050-0381	For 97-98 Touring, 96-99 Softails and 97-98 Dyna

SMART TRIPLE PLAY® EXTENSION HARNESS

- Plugs into accessory ports on the Smart Triple Play® module
- Allows for a total of two plug-and-play lighting products

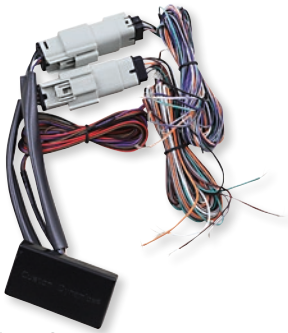

PART #	DESCRIPTION
2120-0976	Smart Triple Play® extension harness

SMART SIGNAL STABILIZERS

- Covers both the front and rear signals
- No RF Noise
- Spread Spectrum Technology
- 100% waterproof
- No load, no heat, recycle 90% of power

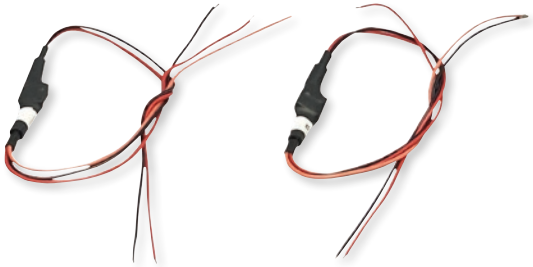

PART #	DESCRIPTION
2050-0222	For all models

SEQUENTIAL TURN SIGNAL CONTROL MODULE

- Allows for up to five separate turn signal segments per side to flash sequentially instead of flashing all at the same time
- 91 cm (36") wire leads
- Built-in quick connectors
- 9-16VDC operating range
- Reverse battery protection
- .25AMP per output

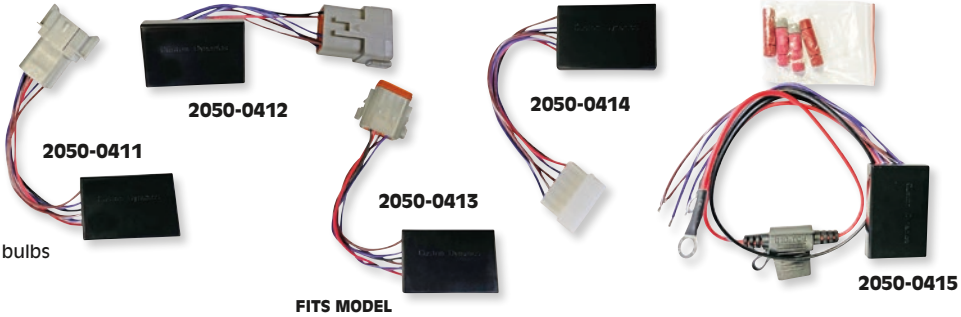

PART #	DESCRIPTION
2050-0426	Sequential turn signal control module

ECLIPZE2® DUAL-INTENSITY MODULE

- Converts single-intensity LEDs to dual intensity with the advantage of 100% ON running lights and a full-contrast turn signal flash
- Works with any size LED up to 300mA per side
- Increases front visibility by changing the running light from 30% brightness to 100% brightness and flashing the LEDs from 0% to 100% to give more contrast to the turn signal
- Eclipze2® LEDs work with emergency hazard flashers and all alarm systems when the vehicle is off or on
- Sold in pairs

PART #	DESCRIPTION
2050-0085	Eclipze2® dual-intensity module

AUTO-CANCEL TURN SIGNAL MODULES

- Plug-and-play OEM flasher replacement
- Converts turn signals to auto-cancelling with the added feature of four-way flashers
- Three different auto-cancel modes (10, 20 and 40 seconds)
- Works with LED or incandescent bulbs
- Plug-and-play

PART #	FITS MODEL
2050-0411	96-98 FLHR/FLHT/Dyna, 96-99 Softail models w/ installed 8 position male connector
2050-0412	For Deutsch style 12-pin male plug for 94-99 models w/o Delphi TSM
2050-0413	For 94-95 FLHR/FLHT/XL models w/ installed 8-position female connector
2050-0414	For 92-93 Sportster, 90-95 FX, 89-93 FL models with 10-position connector
2050-0415	Universal hardwire application

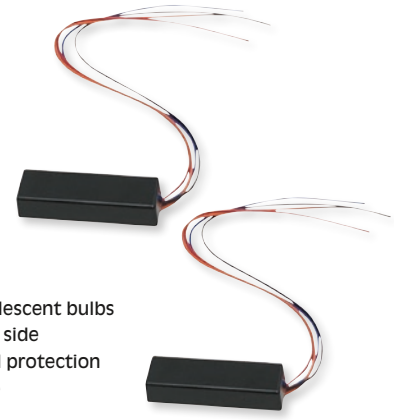

All part numbers in BLUE are new for the OldBook.

AMBER/WHITE CONVERTERS FOR LED BOLTZ

- Allow amber/white LED Boltz to function as white running lights with amber turn signals
- These modules turns the white LED off when the turn signal is engaged, providing a full contrast amber turn signal
- Maximum of three LED Boltz per converter
- Sold in pairs

PART #	DESCRIPTION
2050-0401	Amber/white converters

UNIVERSAL TURN SIGNAL ISOLATORS

- Completely isolates turn signals from motorcycle
- Provides outputs for aftermarket turn signals
- Works with LED or incandescent bulbs
- Max load of 5.0 Amps per side
- Short circuit and thermal protection
- 4-way hazard compatible
- Sold in pairs

PART #	DESCRIPTION
2050-0320	Universal, 4-wire hook up

ALTERNATING BRAKE STROBE MODULE

- Plug-and-play brake strobe module takes alerting traffic behind you to the next level
- Compatible with add-on custom LED lighting (such as Custom Dynamics® LED Boltz™ PART #s 2040-2838 and 2040-2839) when used as left and right side rear brake lights
- Does not affect OEM rear brake lights
- When the brake is applied, the programmed flash or strobe pattern will alternate between left and right side lighting accessories creating an eye-catching pattern

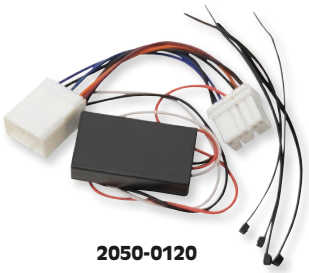

2050-0462

2050-0464

PART #	DESCRIPTION
2050-0462	For 96-99 Softail, 97-98 Touring, Dyna models

PART #	DESCRIPTION
2050-0464	For models 12VDC negative ground systems

2050-0120

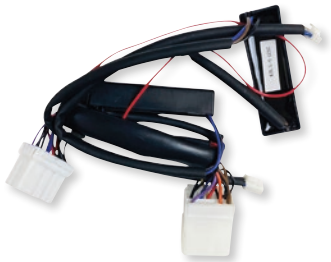

2050-0123

MAGIC STROBES BRAKE LIGHT FLASHERS

- 10-user selectable flash/strobe patterns
- Overcurrent/thermal/short circuit/reverse wiring protection
- 84W, 12V system
- Sealed weathertight case
- Measures 57 mm L x 32 mm W x 13 mm H (2,25" x 1,25" x 0,5")

PART #	DESCRIPTION
2050-0120	For 97-98 Dressers, 96-99 FXST/FLST and 97-98 FXD
2050-0123	Universal

RUN/BRAKE/TURN ACCESSORY ADAPTER

- Converts Custom Dynamics plug-and-play run/brake accessories to run/brake turn functions
- Compatible with non-sequential, single-color red LED accessories
- Separated brake wire lead
- Plug-and-play
- Sold each

PART #	DESCRIPTION
2050-0432	For 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR, 96-99 Softails and 97-98 Dyna models

2120-1151

2120-1152

PLUG-AND-PLAY REAR FENDER ADAPTER

- Adapter harness plugs into OEM motorcycle wire harness under the seat to mate with OEM rear lighting harness on newer model rear fender

PART #	DESCRIPTION
FOR 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR MODELS	
2120-1151	14-current rear fender conversion
2120-1152	10-13 FLHX or FLTRX rear fender conversion

INTEGRATED TAILLIGHT HARNESS

- Provides turn signal power to rear taillight assembly for compatibility of any Custom Dynamics® or ProBEAM® integrated LED taillight
- For all 99 and earlier Harley-Davidson models with integrated taillight assembly
- Plug-and-play
- Sold each

PART #	DESCRIPTION
2120-1074	Integrated taillight

MPR EXTENSION HARNESS

- This extension harness plugs into the 3-pin accessory ports on the MPR adapter harness (typically included with Custom Dynamics plug-and-play lighting)
- Allows for three separate plug-and-play products to run off a single MPR adapter harness
- Sold in pairs

PART #	DESCRIPTION
2120-1026	MPR extension harness

All part numbers in BLUE are new for the OldBook.

QUICK-DISCONNECT FOR TOUR-PAK®

- Provides convenient plug-and-play connection of OEM or add-on Tour-Pak®
- Provides accessible connector for easy removal of Tour-Pak®
- Sold each

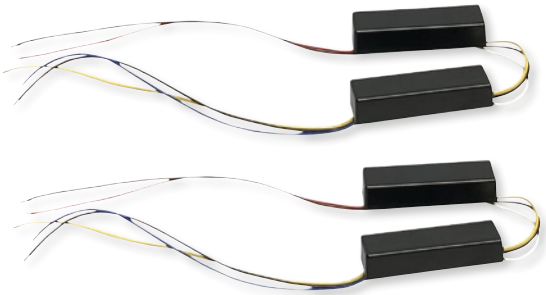

PART #	DESCRIPTION
2130-0268	For 97-98 FLHT/FLHR/FLHRC/FLTR

UNIVERSAL 4-WIRE WEATHERTIGHT QUICK-DISCONNECTS

- Quick-disconnect for any two, three or four wire auxiliary lighting product
- 22 AWG wires
- 15" total wire length
- Four-pin JAE connectors
- Sold in pairs

PART #	DESCRIPTION
2130-0316	Universal 4-wire weathertight quick-disconnects

WRAP-AROUNDS™ WIRE CONVERTERS

- Convert 2-wire Custom Dynamics Wrap-Arounds™ to 3-wire
- Convert wire function to run as both running and turn instead of just turn
- Sold in pairs

PART #	DESCRIPTION
2050-0251	Wrap-Arounds™ wire converters

WIRE ADAPTERS FOR PROBEAM® DYNAMIC STRIPS™

- Wire adapters allow for installation of ProBEAM® Dynamic Strips™ (PART #s 2040-2832, 2040-2833 or 2040-2834 sold separately)
- Plug-and-play

PART #	DESCRIPTION
2050-0418	For all 96-98 FLHR models

PLASMA RODS™ WIRING ADAPTER

- Allows Custom Dynamics Dual Color Plasma Rods (PART #s 2040-2702, 2040-2703, 2040-2704, 2040-2705; sold separately) to be used as run/brake/turn operation
- Install into main wire harness for easy wire hookup
- One unit needed per bike
- Plug-and-play technology

PART #	FITS MODEL
2050-0429	For 97-98 FLHT/FLHTCU/FLHR/FLHRC, 98 FLTR, 96-99 Softails and 97-98 Dynas

WIRING ADAPTER FOR PLASMA RODS

- Allows Custom Dynamics Plasma Rods (PART #s 2040-2688, 2040-2689, 2040-2690, 2040-2691) to be used as running/brake lights
- Install to main wire harness for easy hookup
- One unit needed per bike
- Plug-and-play

PART #	DESCRIPTION
2050-0421	For 97-98 FLHT/FLHTC, 97-98 FLHR/FLHRC, 98 FLTR, 96-99 Softails, and 97-98 Dyna models

2050-0434

2050-0437

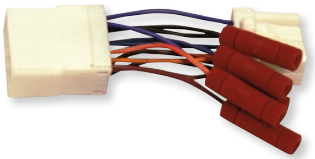

MICRO BULLET WIRING ADAPTERS

- Install in-line with factory wiring to allow for simple plug-in installation of Micro Bullet LED turn signals (sold separately)
- Built-in converters allow the amber turn signal to override the red brake light when braking and turning at the same time
- Plug-and-play technology

97-98 FLHT/FLHTC/FLHR/FLHRC, 98 FLTR, 96-99 SOFTAILS AND 97-98 DYNA GLIDE MODELS

PART #	DESCRIPTION
2050-0434	Amber/white

PART #	DESCRIPTION
2050-0437	Amber/red

UNIVERSAL WIRING ADAPTER

- Provides easy connection to run, brake, left and right turn, and ground wires

PART #	DESCRIPTION
2050-0167	For 97-98 Touring models, 96-99 Softail models and 97-98 Dyna models (except FXDB/FXDLS/FXDWG)

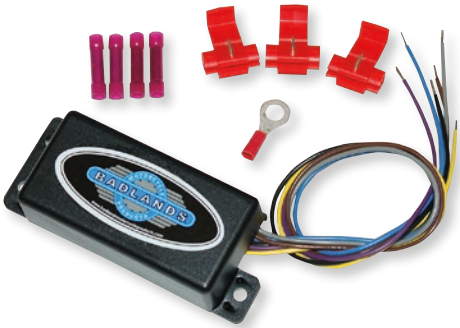

All part numbers in BLUE are new for the OldBook.

ILLUMINATOR PRO III HARLEY

- Built-in flasher, self-canceller and load equalizer
- Controls run, brake and turn lights in rear
- Controls run and turn lights in front
- New turn indicator feeds for dash
- Protected against shorts
- 10A per station
- Works with any LED or incandescent bulbs and any 12V system

PART #	DESCRIPTION
2050-0033	For 73-90 H-D, 73-85 XL and custom applications w/o self-cancelling turn signals

INTENSIFIER HIGH-LOW MODULE II

- Converts single-function LED, halogen or incandescent bulbs into high-low dual-function bulbs; run-stop, run-turn or high-low
- Works with turn signals, marker lights, neon accent lighting or driving lights
- Capable of running up to two 50W driving lights without any heat issues (two inputs, two outputs)

PART #	DESCRIPTION
2050-0090	For custom/universal applications

PLUG-IN STYLE TURN SIGNAL LOAD EQUALIZER™ III

- Designed specifically to work with OEM alarm systems (TSSM) or turn signal module (TSM)
- Eliminates erratic blinking of turn signals
- Compatible with most custom turn signals (including halogen and LED signals)
- Solid-state waterproof module
- Produces absolutely no heat so it is OK for parade use; allows emergency flashers to be used for any amount of time
- For use on models with self-canceling turn signals
- Made in the U.S.A.

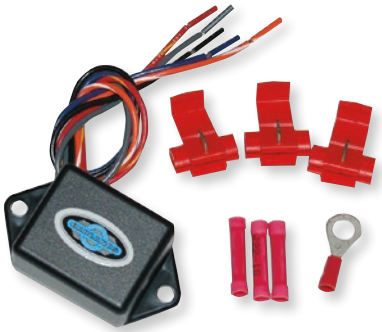

PART #	DESCRIPTION
2050-0049	For 96-98 FLHT/FLHR, 96-99 FXST/FLST and 97-98 Dyna

PLUG-IN ILLUMINATOR WITH RED LENSES

- Our Illuminator run-brake-turn signal module packaged together with red signal lenses
- Lenses fit the rear OEM turn signal assemblies
- Gives you three running/brake lights and maintain turn signal functions
- Greatly increase the visibility of the motorcycle when seen from the rear
- Illuminators plug into OEM wiring harness for a quick installation that does not require cutting and splicing wires (unless noted)

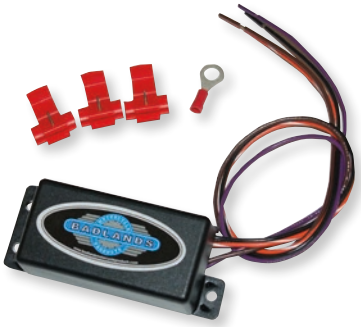

PART #	DESCRIPTION
2050-0023	For 96-98 FLT/FLHT/FLHR and FLTR models, 98-99 FXST/FLST (except FLSTC) and 98 Dyna models that have Deuce-style turn signals
2050-0022	For 97-99 FXST/FLST and 97-98 Dyna models (except FXSTD/FLSTC) that do not have Deuce-style turn signals

INTENSIFIER HIGH-LOW MODULE

- Converts single-function LED, halogen or incandescent bulbs into high-low dual-function bulbs; run-stop, run-turn or high-low
- Works with taillights, turn signals, marker lights, rear fender tip lights, 2-25W driving lights and neon accent lighting
- Capable of running up to 50W total without heat issues

PART #	DESCRIPTION
2050-0046	For custom/universal applications

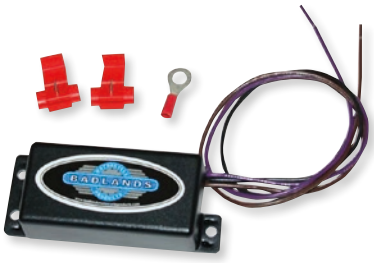

TURN SIGNAL LOAD EQUALIZER™ III

- Designed specifically to work with OEM alarm systems (TSSM) or turn signal module (TSM)
- Eliminates erratic blinking of turn signals
- Compatible with most custom turn signals (including halogen and LED signals)
- Solid-state waterproof module
- Produces absolutely no heat so it is OK for parade use
- Made in the U.S.A.

PART #	DESCRIPTION
0904-0003	For 91-99 Evolution Big Twin models w/ self-canceling turn systems

All part numbers in BLUE are new for the OldBook.

TURN SIGNAL LOAD EQUALIZER™ II

- Improved design with all the features of the original Load Equalizer, plus retains emergency flasher capability
- Returns amperage draw to the correct factory specification when aftermarket marker lights are used to replace stock turn signals
- Made in the U.S.A.

NOTE: Not intended for use in parades or with the turn signals running for an extended time.

PART #	DESCRIPTION
BLLE02	For 91-99 Evolution Big Twin w/ a self-canceling turn signal system

TURN SIGNAL LOAD EQUALIZER™

- Badlands Electronic Unit returns amperage draw to correct factory specifications when aftermarket marker lights are used to replace stock turn signals on bikes with self-canceling systems
- The self-canceling "Brain Box" must have the correct draw in order to function properly
- Made in the U.S.A.

PART #	DESCRIPTION
DS-272236	For 91-99 Evolution Big Twin models

DYNAMIC SEQUENTIAL SIGNAL MODULES

- Allow for the three separate LED turn signals installed on the rear of the bike and flash sequentially
- LEDs will also perform brake and running light functions
- Include color-coded replacement rear fender harness and installation instructions
- Built-in load-equalizer prevents rapid flashing
- Dynamic sequential flashing: When the turn signal button is pressed, the first LED will light up, then power off; followed by the second on/off and third on/off before the sequence starts again

PART #	DESCRIPTION
2050-0307	Dynamic module

2050-0017

2050-0214

2050-0091

7808-1028

RUN, BRAKE AND TURN SIGNAL MODULE

- Turns stock or custom turn signals into running and brake lights; also retains turn signal capabilities
- Increases visibility from the rear of the motorcycle
- Built-in load equalizer will allow running of even the smallest lights or a minimum of two lights only
- Comes complete with wiring, connectors and easy-to-follow instructions

PART #	DESCRIPTION
2050-0017[1]	For 85-90 FLTR/FLHT/FLHR , 86-95 FXST/FLST/FXR and 95-96 Dyna models (connectors require assembly; AMP-style 6-pin square plugs)
2050-0214	For 91-93 FLT/FLHT models
2050-0091	For 94-96 FLT models with 8-pin Deutsch plugs
DS-272235	For 73-84 FX, FL, 91-98 Dyna, 91-98 FLHT/FLHR/ FLHX/FLTR, 84-99 FXST/FLST (hardwire design)

PART #	DESCRIPTION
7808-1028	For 97-98 FLTR/FLHT/FLHR (except FLHX/FLTRX), 97-99 FXST/FLST (except Deuce) and 97-98 Dyna models (8-pin connector)

[1] Motorcycles without AMP 6-pin connectors require hardwiring of this unit.

0904-0002

7808-1029

7808-1030

2050-0215

PLUG-IN AUTOMATIC TURN SIGNAL CANCELERS

- Plug in and replace the OEM signal canceler
- Do not require stock speedometer for proper operation
- Automatically flash for 11 seconds; can be manually canceled at any time
- Built-in emergency flasher mode
- Built-in load equalizer runs LEDs of up to 100W per side
- Measure 73 mm L x 34,9 mm W x 22,2 mm D (2 7/8" x 1 3/8" x 7/8")

NOTE: Be sure to identify which connector is on the bike before purchasing, as the factory was not consistent during 1994-1999.

PART #	DESCRIPTION
0904-0002[1]	Automatic turn signal canceling module, universal fitment
7808-1029	AMP style 6-pin plug for 87-93 FLT, 90-93 Big Twin models
7808-1030	Male Deutsch style 8-pin plug for 94-99 models w/o Delphi TSM

PART #	DESCRIPTION
2050-0215	Female Deutsch style 8-pin plug for 94-99 models w/o Delphi TSM

[1] Not a plug-in style; will require a cut/splice connection.

All part numbers in BLUE are new for the OldBook.

KURYAKYN

RUN/TURN/BRAKE LIGHT CONTROLLER

- Module makes single-filament or single-circuit turn signals on the rear of the bike function as running lights, turn signals, and brake lights
- Can be used with LED or halogen lights, incandescent fender strut lights, stock turn signals, or any single-filament light that may already be installed on the rear of bike
- Kit with Tour-Pak® harness also converts Tour-Pak® lights to run/turn/brake lights
- Complete plug-in for most 96-newer H-D models with single-filament turn signals and a taillight with running and brake functions
- Compatible with 02-later H-D models with factory cruise control

PART #	DESCRIPTION
2050-0139	For 97-98 FLHT/FLHR, 98 FLTR, 96-99 FXST/C/S, 96-99 FLST/C/F/FB/SB/N, 91-98 FXD/B/CL and 97-98 FXDWG (w/o harness)

KURYAKYN

ALUMINUM LOAD EQUALIZERS

- Perfect for any custom application when replacing OEM incandescent turn signals with low-draw LED turn signals
- 100W – 6 Ohm rating
- Black anodized aluminum housings for durability and heat dissipation
- Includes heat shrink butt connectors
- In most instances, this kit will allow all four turn signals to be replaced with LED lights
- Sold in pairs

PART #	DESCRIPTION
2050-0433	For universal 12V applications

KURYAKYN

TOTAL CONTROL PASSING LAMP HARNESS

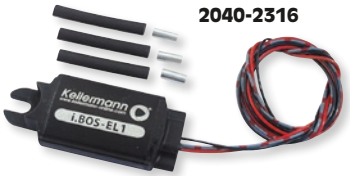

- Allows passing lamps to remain lit when the high beam is in use
- Required when using Kuryakyn Phase 6 or Phase 7 LED headlamp/passing lamps
- Plug-and-play installation
- Sold each

PART #	DESCRIPTION
2050-0185	For 98 FLHT (all models w/ passing lamps)

Kellermann high quality products made in germany

i.BOS

2040-2316

2040-2317

- Fix control lights when functioning inaccurately

PART #	DESCRIPTION
2040-2316	For use with LED rear lights

PART #	DESCRIPTION
2040-2317	For use with warning/control lights

2040-2315

2040-2318

Kellermann high quality products made in germany

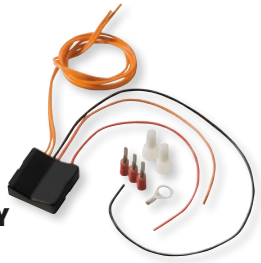

i.LOAD

- When installing new indicators the flashing rate of the indicator or the control light may increase
- i.Load provides correct function for the indicator lights

PART #	DESCRIPTION
2040-2315	For use with indicator control light
2040-2318	For use with 10 watt LED indicators

Kellermann high quality products made in germany

ECE Type Approved

LOAD-INDEPENDENT INDICATOR RELAY

- Ideal for use with LED or halogen indicators
- In addition to regulating the indicating frequency, this relay offers the advantage of cancelling the function of the unused indicator
- Optimally suited for motorcycles with one or two indicator lights and as a replacement for two- or three-poled original relays
- Includes all necessary mounting hardware

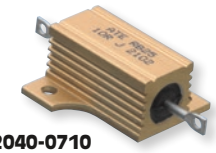

PART #	DESCRIPTION
2040-0709	Load-independent indicator relay

POWER RESISTORS

Kellermann high quality products made in germany

- When changing the original indicators to LED or halogen, the indicating frequency is automatically altered
- The indicating frequency is adjusted for parallel switched power resistors
- See application chart for guidance

NOTE: When using micro 1000 DF and a light control bulb, one additional resistor at 33 ohm (PART #2040-0712) for the rear light and one additional resistor at 7,5 ohm (PART #2040-0711) for the brake light are required.

2040-0710

2040-0711

PART #	DESCRIPTION
2040-0710	10 ohm
2040-0711	7,5 ohm
2040-0712	33 ohm

APPLICATION CHART			
POWER INTAKE OF ORIGINAL INDICATORS	MICRO 1000 HALOGEN	MICRO 1000 LED/RHOMBUS	MICRO BL 1000 LED
REQUIRED RESISTOR WHEN CHANGING TO KELLERMANN INDICATORS (PER INDICATOR)			
21W	2040-0710	2040-0711	2040-0710
REQUIRED RESISTOR WHEN CHANGING TO KELLERMANN INDICATORS (PER SIDE)

All part numbers in BLUE are new for the OldBook.

motogadget

mo.STOP BRAKE LIGHT MODULATOR

- Adjustable digital brake light controller
- Increases road safety
- Allows brake light to pulsate, creating faster reaction time for traffic behind you
- Can also be used as a normal flasher relay or a flasher relay with automatic switch-off
- Route through the handlebars, frame tubing or in the cable harness
- Six different light/blink variants adjustable for brake light: normal mode (no flashing, direct transmission); rise and fall at 3 Hz; flashing at 5 Hz; flashing eight times at 5 Hz, then continuous illumination; flashing two times at 5 Hz, then one second continuous illumination and again repeat; three second transmission, then flashing at 5 Hz
- Works with almost all LED brake lights and all conventional brake light lamps
- Easy to install
- Watertight, vibration-resistant and does not generate heat during operation
- Features an automatic overload protection

PART #	DESCRIPTION
2020-0465	mo.stop digital brake light modulator

www.elektronikbox.de

2120-0963

REAR LIGHT CONVERSION MODULES

- A simple solution for rewiring imported bikes to match local standards
- Convert brake light/indicator signals from US requirements to European requirements, or vice versa
- Cheaper and easier than rewiring manually

NOTE: Module does not differentiate between brake light and emergency flashers; external emergency switch is required for emergency flasher function.

PART #	DESCRIPTION
2120-0962	US to EU conversion module
2120-0963	EU to US conversion module

www.elektronikbox.de

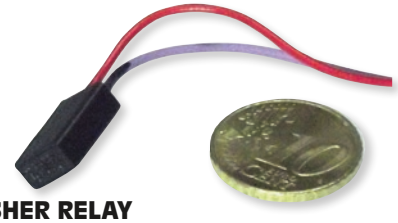

MULTI FLASHER RELAY

- Small flasher for push-button lighting that will fit any handlebars
- Comfort flasher function switches off indicators if no buttons are pushed for a short while
- Measures 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0965	Multi flasher relay

www.elektronikbox.de

NANOFLASH FLASHER RELAY

- Small enough to fit anywhere on a bike
- Measures only 15 mm x 9 mm x 5 mm
- Durable ABS housing

PART #	DESCRIPTION
2120-0967	Nanoflash

CULT-WERK

MINI RESISTOR FOR HARLEY LED INDICATORS

- Required for all Harley models with turn signal relays that are retrofitted with LED turn signals
- Required for new Harley models with a control unit in order to adjust the frequency of the display on the speedometer

PART #	DESCRIPTION
2050-0467	Mini resistor

www.elektronikbox.de

BRAKE 2 FLASHER MODULE

- Add flasher functionality to brake lights
- Makes bike more visible on the road for a safer ride
- 14 different programmable modes

PART #	DESCRIPTION
2120-0964	Brake 2 flasher module

www.elektronikbox.de

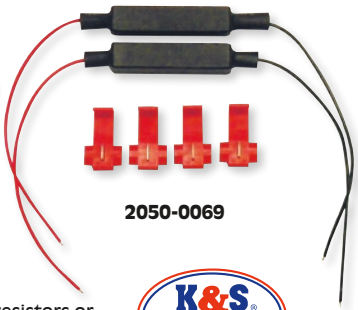

MINI SWITCH RELAY

- Features two 60W power outputs
- Change between outputs with the push of a button
- Measures 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0966	Mini switch relay

IN-LINE RESISTORS

- 10W/3-ohm universal in-line resistors or 20W/8,5-ohm heavy-duty in-line resistors
- Work great with LED lights
- Extra terminals included
- Sold in pairs

PART #	DESCRIPTION
2050-0065	Universal in-line resistors (10W/3-ohm)
2050-0069	Heavy-duty in-line resistors (20W/8,5-ohm)

LED TURN SIGNAL INTENSIFIER

Joker MACHINE

- Converts single-function Joker Machine LED lights into run/turn or run/brake/turn lights
- Converter has been designed to hide in-line on your factory wiring
- Will do high function, which can be turn function or brake function; the low function is for running light to add visibility
- Sold in pairs

NOTE: In-line converter is not for incandescent or halogen bulbs and max rated for 500 mili-amps.

PART #	DESCRIPTION
2050-0270	LED turn signal intensifier

All part numbers in BLUE are new for the OldBook.

KURYAKYN

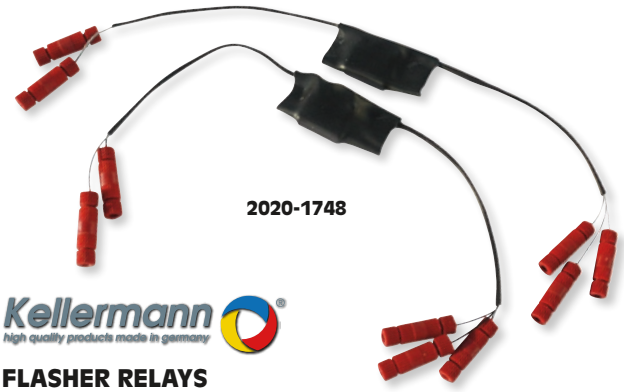

ELECTRONIC LED FLASHER RELAY

- Replace the stock relays and eliminate the need for load resistors with this solid-state design that provides consistent flash rate regardless of load
- Works great with LED replacement bulbs, custom LED turn signals or incandescent bulbs
- Max load is 200 watts
- Available with spade terminal for custom applications on motorcycles, trucks or cars

- Easy alternative to wiring in load equalizers
- For universal 12V applications
- Available with spade terminal for custom applications

PART #	DESCRIPTION
2050-0444	Electronic LED flasher relay w/ male spade terminals

Kellermann high quality products made in germany

FLASHER RELAYS

- Suitable for vehicles with 5-9 volt or 12 volt indicator application
- Higher wattage than stock equipment

PART #	DESCRIPTION
2020-1747	5-9 volt

PART #	DESCRIPTION
2020-1748	12 volt

DRAG Specialties

CUSTOM HEADLIGHT RELAY

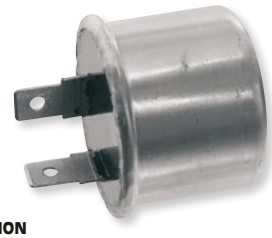

- Controls the high-low beam operation of your headlight with a single wire and a simple push-button switch
- Makes for a cleaner-looking handlebar control
- Can be used with a horn switch or similar push-button switch (sold separately)
- For 12V systems only

PART #	DESCRIPTION
DS-324201	Custom headlight relay

DRAG Specialties

HAZARD FLASHER RELAY

- OEM replacement 12V hazard flasher relay

PART #	DESCRIPTION
2050-0034	For all 65-88 models; repl. OEM #68541-64A

FLÖSSER

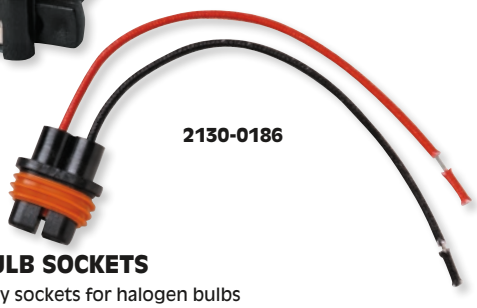

FLASHERS

- Keep your aftermarket turning signals working
- Available for LED and standard bulb turning signals
- Sold each or in a 10-pk.

0901-0577

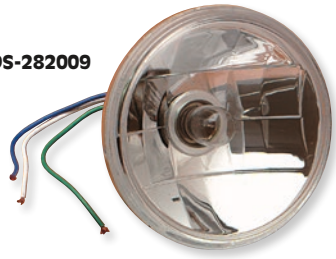

DIAMOND-STYLE LIGHT KITS

- Replace older-style lights with these diamond-style reflector lamps
- Include 12V halogen bulb, wiring and clear lens; fit most housings
- For replacement bulbs, see pages 617-620
- Sold each

PART #	DESCRIPTION
0901-0577	14,5 cm (5¾") clear lens, 55/60W
2001-1130[1]	14,5 cm (5¾") clear lens, 55/60W
2001-1119[1]	11,5 cm (4½") clear lens spotlight, 50W
2001-1129[1]	14,5 cm (5¾") headlight assembly

[1] ECE approved.

DS-282009

11,5 cm (4½") DIAMOND LIGHT

- 12V, dual-element, 30/30W bulb
- Fits most 11,5 cm (4½") spotlight housings
- Replacement bulbs sold each to consumer; sold in 10-pack to dealer

PART #	DESCRIPTION
DS-282009	11,5 cm (4½") diamond light
DS-282010	Repl. bulbs (10-pk.)

18 CM (7") HEADLIGHT WITH RUNNING LIGHT

- 12V headlight features an H4 55/60W bulb
- Additional 5W low-intensity running light is also mounted in the housing
- See pages 617-620 for replacement bulbs

PART #	DESCRIPTION
DS280189	18 cm (7") headlight w/ running light

2001-1187

2001-1185

SEALED BEAM HEADLIGHTS

- Replacement sealed beam headlight units
- Sold each

PART #	DESCRIPTION
2001-1187	14,5 cm (5¾"); 12V 37,5/60W
2001-1185	18 cm (7"); 12V 75/75W

H4-STYLE LED HEADLIGHT BULB

- Replaces all H4-style headlight bulbs
- Uses stock reflector and bulb housing
- 6000K daylight white (not yellow) light beam with no blue tint
- Built-in ballast with active heat-management fan
- Offers a super-bright 3000 lumen LED output (versus standard lumen output of 1450 lumens)
- Draws 3 amps compared to stock bulb at 5 amps
- Easy do-it-yourself plug-and-play installation
- Kit includes four different mounting adapters to fit 90% of all motorcycle models (H4 replacement)
- 30.000 hour bulb life

PART #	DESCRIPTION
2060-0535	H4-style LED headlight bulb

2001-0374 2001-0378 2001-0377 2001-0379

HALOGEN HEADLIGHT BULBS

Get Lit' Up! Brite-Lites!

BRITE LITES

- 12V Brite Lites are the industry leader in Xenon-gas-filled headlights, which produce a super-white HID-type headlight beam
- High-quality replacement headlight bulbs; various exotic gases and coatings have been used to produce superior, super-trick lighting over standard, dull headlight bulbs
- Choose from several wattages, colors and the most popular base types to fit most snowmobiles, motorcycles and ATVs
- All Brite Lites are exact replacements for the stock headlight bulb and are available in standard wattages and in high-power versions
- All twin package Brite Lites are in a reusable "Tuff Pak" storage case with full color graphics
- All individual Brite Lites are blister-packaged on a full color card

- Tube length is 4,5" and is constructed of polished stainless steel
- Tube end caps are sealed with O-rings to ensure a watertight seal
- Brackets are machined from 6061-T6 billet aluminum, then polished and chrome-plated
- All necessary mounting hardware included

PART #	DESCRIPTION
3550-0135	Upright mini registration holder

All part numbers in BLUE are new for the OldBook.

Handlebars & Components 634-674
Risers, Clamps & Components 675-694
Controls, Levers 695-704
Grips, Throttle Assemblies/ Tubes, Handguards 705-726
Mirrors 727-749

HANDLEBARS, CONTROLS & MIRRORS

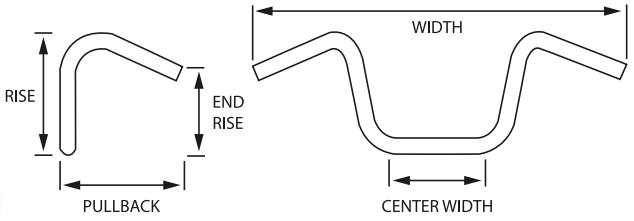

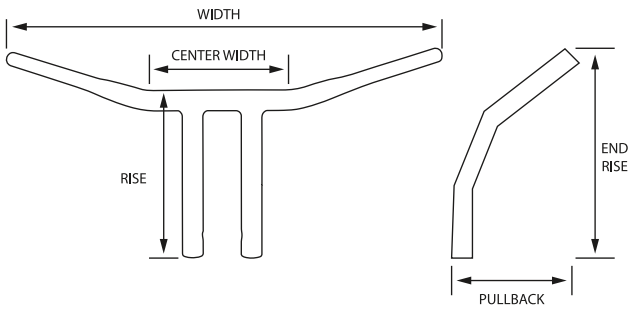

38 MM (1 1/2") "BIG" BUFFALO BARS

- Handlebars for the "biggest fattest" look
- Feature a full 38 mm (1 1/2") diameter in the clamping area (except T-Bars)
- Custom bends for the ultimate in comfort
- Gloss black, chrome-plated or flat black finish available
- Slotted and notched for Throttle-By-Wire applications
- Designed for use with 96 and newer style controls and master cylinders
- Special risers required for all bars (except T-Bars) include upper clamps and feature hidden clamp bolts; see pages 675-694
- Optional gauge mounts are available separately for T-Bars; see DASHES & GAUGES section

NOTE: Accept heated grips and hydraulic clutch.

All part numbers in **BLUE** are new for the OldBook.

38MM (1 1/2") HAMMERHEAD HANDLEBARS

- Aggressive new look
- Pointed tip for a look that stands out in the crowd
- 140 mm (5 1/2") of pullback for an aggressive feel
- 31,75 mm (1 1/4") diameter clamping area with 389 mm (3 1/2") on-center knurling (requires the use of 31,75 mm (1 1/4") risers and clamp)

Note: Accept OEM heated grips.

38 MM (1 1/2") TREE HUGGER HANDLEBARS

- The lowest profile handlebars on the market
- New, innovative adjustable riser design allows you to adjust the handlebars forward or backward
- 12,7 mm (1/2") risers let you hug the top of the triple tree (89 mm (3 1/2") on-center)
- Can be used with cable and TBW (Throttle-By-Wire) applications
- Designed to flow with a Wide Glide triple tree on a Softail or Dyna, and fits under the nacelle on 96-98 Road Kings
- Drilled for internal wiring

NOTE: Accepts H-D OEM heated grips.

FAT BAGGERS
EZ INSTALL HANDLEBARS

38 MM (1 1/2") FLAT TOP EZ INSTALL HANDLEBARS

- Revolutionary interlocking bolt-together two-piece handlebar design that takes up half the shelf space, is economical to ship and even faster to install
- CNC mandrel-bent from 38 mm (1 1/2") diameter x 2,5 mm (0,095") wall heavy tube
- EZ Install - no more need to fight internal wiring; with our handlebars you can install wiring in minutes
- Bars are knurled and notched for TBW applications

NOTE: Accept OEM heated grips.

NOTE: U.S. Patent No. 10,946,926.

CHROME	GLOSS BLACK	END RISE	WIDTH	CENTER WIDTH	PULLBACK

38 MM (1 1/2") EZ INSTALL POINTED TOP HANDLEBARS

- Revolutionary interlocking bolt-together two-piece handlebar design that takes up half the shelf space, is economical to ship and even faster to install
- CNC mandrel-bent from 38 mm (1 1/2") diameter x 2,5 mm (0,095") wall heavy tube
- EZ Install - no more need to fight internal wiring; with our handlebars you can install wiring in minutes
- Feature a billet machined top with a large internal machined radius that allows for EZ pulling of wiring (non-welded top corner)
- Bars with "squared" lower bends also have additional slots to ease wire routing
- Bars are knurled and notched for TBW applications

NOTE: Accept OEM heated grips.

NOTE: U.S. Patent No. 10,946,926.

Conventional

T-Bar

32 MM (1 1/4") BUFFALO BARS

- The ultimate 32 mm (1 1/4") diameter handlebar, designed for maximum comfort
- 25,4 mm (1") diameter in clamping area
- Slotted and notched for Throttle-By-Wire applications unless noted
- Standard bars have 89 mm (3 1/2") on-center knurling to prevent movement (except T-Bars)
- Springer-style bars have 12 cm (4 3/4") center diamond knurling for a smooth finished look; work with the OEM Springer risers and handlebar clamps
- Optional 32 mm (1 1/4") thick Buffalo risers are also available to complete the look
- Optional handlebar clamps cover all of the center area that is sized down to one inch
- Optional gauge mounts for T-Bars sold separately; see DASHES & GAUGES section
- See pages 675-694 for handlebar clamps and risers

NOTE: Compatible with hydraulic clutch controls.

NOTE: Accepts OEM H-D heated grips.

LA Choppers

32 MM (1 1/4") BIG JOHNSON FL HANDLEBARS

- Improves the rider's overall body position
- Provides a more comfortable ride, is easier to steer and makes the bike feel 90 kg (200 lb) lighter
- Will work with all stock cables, lines and controls
- Is a direct replacement for stock bars with a 25,4 mm (1") riser clamp diameter
- Reduced reach and improved back position is provided by the 33 cm (13") pullback
- A lower grip point helps relax the shoulders for added comfort
- An improved bar length helps increase the leverage, which makes the bike easier to steer
- Reduced or eliminated hand numbness comes from the realigned wrist position
- Will not interfere with stock mirrors
- Width 97 cm (38"), rise 12,5 cm (5"), pullback 33 cm (13")

FOR 84-98 FLT/FLHT/FLHR AND 86-99 FLSTC/FLSTN MODELS (W/ 25,4 MM (1") CLAMPING AREA)

PART #	DESCRIPTION	PART #	DESCRIPTION
0601-1254	Chrome	0601-1255	Black

HEFTY 32 MM (1 1/4") HANDLEBARS

- Handlebars have a 32 mm (1 1/4") diameter in the clamping area and will require the use of special risers; sold separately, see page 681
- All bars are dimpled and drilled for internal wiring
- Not notched for Throttle-By-Wire
- Tapered for clearance of master cylinders and hydraulic clutch assemblies
- Non-Ape Hanger-style bars will fit with most stock cables; check before installing

32 MM (1 1/4") HEFTY TWIN PEAKS HANDLEBARS

- Features 32 mm (1 1/4") diameter in the clamping area
- Works with the OEM riser and clamps; has the correct wire exit location
- Bar includes new black control clamps to replace the oversize OEM clamps, unless noted
- Does not need to remove the stock pin in the OEM mount clamps; bar still has more than 35° of adjustment
- 89 mm (3 1/2") on-center knurled clamping area
- Will work with hydraulic clutches

NOTE: Accept H-D OEM heated grips.

32 MM (1 1/4") TWIN PEAKS TOURING HANDLEBARS

- Handlebars with an emphasis on touring comfort
- More parallel wrist angles for a perfect pullback angle and stress-free riding
- Flowing bends on the uprights designed specifically for Batwing fairing bikes
- 89 mm (3 1/2") on-center knurling, 25,4 mm (1") clamping area
- Drilled for internal wiring
- Work with hydraulic clutches
- Can be used on cable and TBW (Throttle-By-Wire) applications

NOTE: Accept H-D OEM heated grips.

MAGNUM

0601-4424

0601-4428

VIKING HANDLEBARS

32 MM (1 1/4") VIKING HANDLEBARS

- Viking handlebar internal design guarantees easy installations of complete wiring harnesses
- Without taking away from the clean look of the peak, the novel design creates enough room to allow the complete wiring harness with factory vinyl covering and the terminal connections along with their respective shrink sleeve to easily pass through without chaffing
- Using a unique flaring process, the burr-free internal radius creates a generous pocket of additional clearance within the troublesome peak of the handlebar
- To make wiring installations even easier, Magnum preloads the bars with E-Z pull-thru plastic woven sleeving
- Insert the wiring harness into the sleeving and pull through, it's that simple
- Manufactured with the highest quality construction, including machined control mounts (not swaged) plus burr-free internal wiring holes and electronic throttle control slots
- All handlebars are 32 mm (1 1/4") diameter, have 25,4 mm (1") diameter center sections, 89 mm (3 1/2") on center knurling and work with standard controls, including hydraulic clutch
- Each handlebar is CNC-mandrel bent for an accurate fit and incorporates an aggressive look with wrist angles engineered for riding comfort
- Bagger style bars are designed for the correct clearance on Batwing models
- Available in Bagger or Ape Hanger styles with high-luster chrome or gloss black finishes for an unsurpassed appearance

NOTE: Not for use with stock risers and handlebar clamp/ gauge mount clamp on 883C/1200C models.

NOTE: Viking Handlebars have a 25,4 mm (1") diameter center section and fit 25,4 mm (1") risers. Models originally equipped with handlebars that have a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

CHUBBY® 32 MM (1 1/4") HANDLEBARS

- Handlebars are 25% thicker than stock
- All bars are precision-machined (not swage-formed) at control mounts, providing perfect fit, form and unsurpassed look
- Designed with fluid bends at precise angles for maximum comfort and control
- Pre-drilled for internal wiring
- Polished welds and diamond knurled
- Work with hydraulic clutch, stock and most custom controls, stock risers and top clamps
- Available in show-chrome finish or Blackout series featuring a satin black finish to match OEM black switch housings
- All handlebars work with Throttle-By-Wire as well as cable applications

NOTE: All bars work with H-D® heated grips.

NOTE: Not for FLHT models (unless noted)

ROLAND SANDS DESIGN BLACK OPS

32 MM (1 1/4") KING APE HANGER HANDLEBARS

- 32 mm (1 1/4") diameter upright tubes, but are stepped down to 25,4 mm (1") diameter to allow use of stock bar mounts and/or hand controls
- Bars are knurled, slotted and drilled for internal wiring
- Stylish, multi-hole, drilled corner gussets offer strength and rigidity
- Hand TIG welded
- Not for throttle-by-wire applications
- Black Ops™ features a gloss black finish over a contrasting texture black finish for outstanding durability and looks

CHROME	BLACK OPS™	RISE	WIDTH	CENTER WIDTH	PULLBACK
0601-1372	0601-1846	48,5 cm (19")	97 cm (38")	25 cm (9,75")	16 cm (6,25")

KHROME WERKS

32 MM (1,25") FAT CENTER BOBBER APE HANDLEBARS

- Made of 14-gauge steel tubing
- Features a 32 mm (1,25") clamping area; requires special risers and top clamp to mount
- Available in three heights: 25,5 cm (10"), 30,5 cm (12") or 35,5 cm (14")
- Notched for electronic throttle control; non-TBW models will require handlebar grip extension PART #0601-2828; see page 674
- Slotted and milled for internal wiring

CHROME	GLOSS BLACK	DESCRIPTION	WIDTH	END RISE	CENTER WIDTH	PULLBACK

KHROME WERKS

32 MM (1,25") HANDLEBARS

- 32 mm (1,25") diameter formed handlebars with 25,4 mm (1") center diameter and 25,4 mm (1") grip/control mounts
- Ape Hangers are offered in Original and Bobber styles
- Original bars have grips that sweep down and back and offer a relaxed position with reduced reach
- Bobber-style bars have grips that are upright and forward for a pure attitude position
- Dresser bars feature a 30,5 cm (12") center straight section for proper clearance in the batwing fairing
- +2 provides 73 mm (2 7/16") additional pullback at the same height and width as factory
- 2+2 provides the same additional pullback and adds 52,5 mm (2 1/16") in height
- Diamond knurled for non-slip clamping with risers on 89 mm (3 1/2") centers
- Dimpled and drilled for late model controls
- Work with standard controls and grips

32 MM (1 1/4") BAGGER APE HANGERS

- Optimum high bar styling custom tailored for baggers
- CNC-bent curves snake around gauges and avoid interfering with speakers or fairing-mounted mirrors
- 25,4 mm (1") clamping area, dimpled and drilled for internal wiring (unless noted)
- Not notched for Throttle-By-Wire applications
- Require longer cables/lines/electrical wiring for installation

25,4 MM (1") HANDLEBARS

- Available in Bagger or Ape Hanger styles with 25,5 cm (10"), 30,5 cm (12"), 35,5 cm (14") and 40,5 cm (16") height options
- Feature a high-luster chrome or gloss black finish
- Manufactured with quality construction, including laser-cut, burr-free holes and slots for internal or external wiring
- All handlebars have 89 mm (3 1/2") on-center knurling and are notched for Throttle-By-Wire applications
- All handlebars are CNC bent for an accurate fit and incorporate comfortable, but aggressive looking wrist angles
- Bagger bars are designed for correct clearance on Batwing models

NOTE: Fits 25,4 mm (1") risers. Models originally equipped with handlebars having a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

25,4 MM (1") CLASSIC "BAGGER APES"

- Paul Yaffe says, "Give instant attitude to your Bagger with a fresh new set of ape hangers!"
- Mandrel-bent from 25,4 mm (1") seamless steel tubing
- Notched for electronic throttle
- Knurled, dimpled and pre-drilled for internal wiring
- 25,5 cm and 30,5 cm heights (10" and 12")

NOTE: When installing any of these bars on 1998 and earlier models, the one-piece top handlebar riser clamp OEM #55918-08 (or PART #0603-0363) MUST be used.

BILLET TOP HANDLEBAR CLAMPS

BLACKOUT SERIES™

0603-0292

0603-0167

- Precision-machined from billet aluminum in either brilliant show-chrome finish or Blackout series featuring a satin black finish
- Works with stock risers and all 25,4 mm (1") handlebars, as well as Wild 1 Chubby Risers, Wild 1 Chubby Bars and other custom bars
- Fits on all models with 89 mm (3,5") center-to-center riser spacing and offset mounting holes
- Mounting hardware included with hidden hardware style
- PART #0603-0167 replaces separate top clamps with full clamp on Deuce risers

PART #	DESCRIPTION
BLACKOUT	
0603-0291	Ball-milled w/ exposed mounting bolts
0603-0292	Smooth w/ hidden mounting bolts

PART #	DESCRIPTION
CHROME	
0603-0165	Smooth w/ hidden mounting bolts
0603-0167	Smooth for Deuce-style risers

UPPER HANDLEBAR CLAMP

- Joker's upper handlebar riser clamp is an easy way to give your bike a racer look
- Fits most Harley-Davidson models 1973 to present with 89 mm (3 1/2") center-to-center risers and offset mounting holes.
- Perfect bar clamp solution when relocating or removing your speedometer.
- Fully CNC-machined racing-styled design is made from solid 6061-T6 bar stock for maximum strength
- Available in hard black anodized finish
- Fits 25,4 mm (1") diameter handlebars

PART #	DESCRIPTION
0603-0364	For 73-99 models w/ 89 mm (3 1/2") on-center rises and offset mounting holes (except Springer)

DUAL HANDLEBAR RISER CLAMP ASSEMBLY

- Replace your heavy "cast" handlebar risers with one of these high-performance all-billet aluminum riser sets
- Fully CNC-machined racing styled design is made from solid 6061-T6 bar stock for maximum strength
- Special alloy gold zinc top clamp mounting bolts are included
- Lightweight "dual" design top clamps give your bike a unique "cafe racer" look
- Available with a black anodized finish
- 10 cm (4") tall risers are tapped for 1/2"-13 bolts (sold separately)
- Designed for 25,4 mm (1") diameter bars

PART #	DESCRIPTION
0602-0379	Dual handlebar riser clamp assembly

0603-0266

0602-0911

BRIDGE HANDLEBAR RISER ASSEMBLIES

- Fully CNC-machined racing styled design
- Made from solid 6061-T6 bar stock for maximum strength
- Fits 25,4 mm (1") diameter bars
- Riser bases are threaded 1/2"-13 for Harley-Davidson upper tree applications
- Lightweight bridge style top clamp
- Top clamp measures 28 mm x 61 mm (1,1" x 2,4")
- Available in hard black anodized and chrome finishes

PART #	DESCRIPTION
51 MM (2") RISE/STRAIGHT	
0603-0266	Black anodized
64 MM (2 1/2") RISE/38 MM (1 1/2") PULLBACK	
0602-0910	Black anodized
0602-0911	Chrome

PULLBACK HANDLEBAR RISER ASSEMBLY

- Fully CNC-machined out of solid 6061-T6 billet aluminum for maximum strength
- Special alloy gold zinc clamp bolts included
- Have a 64 mm (2 1/2") rise with 38 mm (1 1/2") pullback
- Machined cutouts make these risers extremely lightweight without sacrificing strength
- Black anodized finish
- Made for use with 25,4 mm (1") diameter handlebars
- Bases are threaded for 1/2"-13 riser bolts
- Sold in pairs

PART #	DESCRIPTION
0602-0721	Pullback handlebar riser assembly

PATRIOT SERIES PIVOTING RISER KITS

- Risers can be positioned forward, backward or anywhere in between to allow the rider to truly customize the feel of their bike
- Bottom fits 25,4 mm (1") handlebar clamps; 25,4 mm (1") bar clamp on the top side
- Easy installation: remove the current bar, place the stem of the risers where the bar was located previously, then tighten it down; place the handlebar in the top side of the risers and tighten all bolts down securely
- Constructed from aircraft-grade aluminum (6061-T6)
- Available in black, chrome or machined aluminum finish

NOTE: Always check and confirm that your machine has adequate cable and brake line length before installing handlebar risers.

PERFORMANCE RISER KITS

- Beautifully machined risers not only look great but provide strength and comfort for your bike
- Straight risers are available in 15 cm (6"), 20 cm (8") and 25 cm (10") heights
- Pullback risers are available in 15 cm (6"), 20 cm (8") and 25 cm (10") heights and have 5 cm (2") of pullback
- Available with a 25 mm (1") or 31,75 mm (1,25") clamping area for use with 25 mm (1") or 31,75 mm (1,25") handlebars
- Machined pockets not only reduce weight but add a distinct look
- Top clamp accommodates the use of LA Choppers specific gauge mounts

MOTOSCOPE MINI HANDLEBAR BRACKETS

- Bracket frame features five integrated indicator lights
- Two choices to attach bracket frame (bracket frame must be purchased separately for both choices)
- Bolt-on bracket is directly bolted to handlebar; cable is led through handlebar tube (two threaded holes and one hole for cable have to be drilled in handlebar)
- Clip-kit bracket is fixed with two small milled clamps (similar to the handlebar clip-kit) (drilling the handlebar is not necessary)

BILLET HANDLEBAR RISER BUSHING KIT

- Chrome billet aluminum construction
- Solid bushings eliminate that sloppy, spongy feel in your handlebars

PART #	DESCRIPTION
DS290269	Solid riser bushing kit

All part numbers in BLUE are new for the OldBook.

ANGLED RISER BUSHING KITS

- Change the angle of your risers or T-Bars without having to install a different set of triple trees
- Built-in 5° or 10° angle; can be installed to face towards or away from the rider
- Angle the risers toward you for increased pullback and a more comfortable riding position
- Angle the risers away from you for a custom chopper look without the expense of raking out the front end or switching your handlebars
- Machined from 6061-T6 billet aluminum with a chrome or gloss black finish

NOTE: Check handlebar clearance before operating.

FOR MOST 84-99 FXST/FLST AND 91-98 FXD/FXDWG

HANDLEBAR CONTROL KIT WITH SWITCHES

- Die-cast OEM-style metal housing with a chrome finish
- Switches come pre-assembled with 122 cm (48") wire leads
- Kit includes clutch lever assembly, master cylinder assembly, housings with switches and hardware

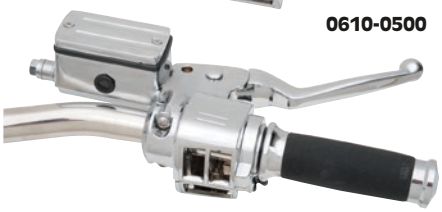

PART #	DESCRIPTION
DS-280354	Kit w/ 3/4" bore master cylinder and black switches for 72-81 Big Twin (single disc)

0610-0500

0610-2148

DS-290723

0616-0353

HANDLEBAR CONTROL KITS WITHOUT SWITCHES

- Customize the most visible area the factory overlooked – the handlebar controls
- Designed to work with all 25,4 mm (1") diameter handlebars
- Chrome die-cast clutch/brake controls with switch housings are sold in complete kits or as individual components
- OEM wires and switches mount directly into these housings, so there is no need for new wires and switches
- Each complete kit includes clutch lever assembly with clamp half, a master cylinder assembly with clamp half, and the right and left switch housings
- Switch housing kit includes right and left housing only with mounting hardware
- Individual components are available to replace specific pieces instead of the complete assembly
- Kits come complete with all hardware for easy installation

NOTE: Lower switch housings will not fit 84-95 models with radio control switches in housings.

NOTE: Use appropriate master cylinder rebuild kit and levers for equivalent OEM model year and bore size.

PART #	DESCRIPTION
CHROME COMPLETE KITS	
0610-0500	Kit w/ 19 mm (3/4") bore single/dual disc master cylinder for 82-84 FLH, 82-83 FXR/FLT

KURYAKYN

CHROME BOSS BLADES WITH ADJUSTABLE CLUTCH LEVER

- Clutch lever design relocates the cable anchor point, so the lever adjuster can be closer to the handlebar and not interfere with lever adjustment or clutch actuation
- Wide, deep-dished design provides the shortest reach possible to the lever
- Sold in pairs

NOTE: Must ensure proper clutch engagement with levers that are installed. Clutch and clutch cable must be correctly adjusted after installation, and you must verify that grip diameter does not affect clutch operation.

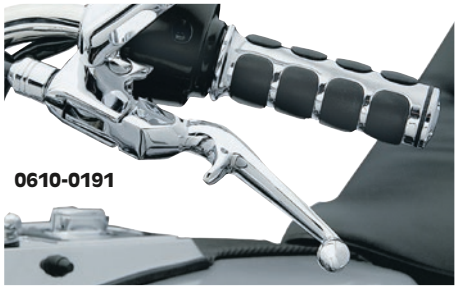

PART #	DESCRIPTION
0610-0666	For 96-99 Big Twin models w/ cable clutch

BOSS BLADES

- Wide, deep-dished levers provide the shortest reach possible
- Still allow full necessary range of lever motion for clutch and brake operation
- Smooth, sculpted finish with chiseled ends for style
- Sold in pairs

PART #	DESCRIPTION
FOR 96-99 BIG TWIN MODELS W/ CABLE CLUTCH

KURYAKYN

MECHANICAL THROTTLE CRUISE ASSIST

- The simplest, cleanest throttle position holder on the market
- Attaches to the end of the handlebar like a bar-end weight
- Open the throttle to the desired position, then roll the throttle back; a spring-loaded tensioner keeps the throttle in place
- Simply roll the throttle forward to disengage
- Matching left side bar-end weight completes the look; sold separately

NOTE: Installation may require cutting or drilling a 16 mm (5/8") hole in the end of grips.

STEALTH I AND II MIRRORS

- The original Stealth mirrors are available in clear or "Blue Sapphire" tinted designs
- "Blue Sapphire" design looks great and helps reduce glare
- The original Stealth I mirror with a 12 cm (4¾") stem; works great on most pullback and Ape Hanger bars
- The Stealth II – same great custom mirror head but has a 15 cm (6") stem – fabulous for drag or custom handlebars
- Stems fit all Stealth mirror heads plus most OEM and aftermarket OEM-style mirror heads that thread at the mirror head
- All feature familiar stud-style mounting common to other mirrors, or we supply chrome socket head Allen bolts for a new style of custom mounting
- Oval head measures 12,5 cm x 64 mm (5" x 2½"); right- or left-side installation
- Mount on clutch or brake lever housings and most custom mounting applications
- Mirror head screws and pivots are stainless steel
- Sold each

STANDARD

0640-0652

TAPERED MIRRORS WITH SLOTTED STEMS

- Die-cast chrome aluminum mirrors with a sleek, tapered design
- Mirror head measures approximately 11 cm W x 89 mm H (4 1/4" W x 3 1/2" H); mirror stem length is 11,5 cm (4 3/4") L
- Mounting hardware included
- Sold in pairs

PART #	DESCRIPTION
0640-1097	Touring mirrors w/ slotted stem

FAIRING MOUNT MIRRORS

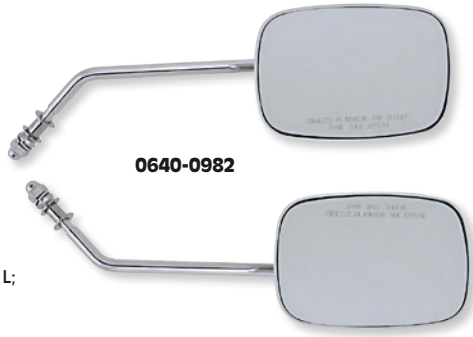

- Designed specifically for H-D batwing fairings; direct replacement for original black mirrors on FLHX models
- Chrome finish
- Glass measures approximately 11 cm x 10 cm (4 1/4" x 4")
- PART #0640-0652 includes additional blind spot mirrors
- Includes mounting hardware
- Sold in pairs

PART #	DESCRIPTION
FOR 96-98 FLHT MODELS	
0640-0651	W/o blind spot mirror
0640-0652	W/ blind spot mirror

All part numbers in BLUE are new for the OldBook.

OEM-STYLE RECTANGULAR MIRRORS

- Die-cast construction
- Mirror heads measure 12 cm W x 89 mm H (5" W x 3½" H) and feature convex glass
- Short stems measure 11,5 cm (4½") L; long stems measure 20,5 cm (8") L
- Sold in pairs

PART #	DESCRIPTION
CHROME	
0640-0980	Short stem; repl. OEM #s 91875-83, 91982-82
0640-0982	Long stem

PART #	DESCRIPTION
BLACK	
0640-0981	Short stem
0640-0983	Long stem

RECTANGULAR MIRROR WITH AIR STEM

- Die-cast construction
- Head measures 10,5 cm x 73 mm (4⅛" x 2⅞") with a 15 cm (6") stem
- Universal 5/16" mounting hole and hardware
- Sold each

PART #	DESCRIPTION
0640-0006	Chrome, left or right

RECTANGULAR MIRROR

- Custom die-cast mirror; includes standard stem to fit stock clutch or brake housings
- Fits left or right
- Sold each

PART #	DESCRIPTION
DS-302083	51 mm x 11 cm (2" x 4¼")

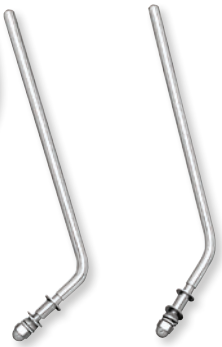

DIE-CAST REPLACEMENT MIRRORS

- Standard, Low Rider or long stem die-cast mirrors
- Fits into stock clutch or brake housing for direct replacement
- Fully adjustable with lightly tinted, 89 mm x 12,5 cm (3½" x 5") glass lenses
- Fits right or left side
- Sold individually

PART #	DESCRIPTION
REPLACEMENT MIRRORS	
DS-302108	W/ standard stem, chrome
0640-0655	W/ standard stem, black
DS-302109	W/ Low Rider stem, chrome

DS-302105	Low Rider stem (ea.)
DS-302106	Long stem (ea.)

VISION SERIES MIRRORS

- Made from forged 6061-T6 aluminum
- Ambidextrous stems can be used in right- and left-side applications
- High-quality, scratch-resistant mirror lens
- Will mount to PM and stock hand controls, as well as most aftermarket controls
- Contrast Cut™ features a polished surface that is black anodized then re-cut to open the design
- Include chrome-plated 5/16"-18 x 1-½" and 5/16" -18 x 1-¼" GRADE 8 bolts
- Include 19 mm (¾") spacer for multiple height options
- Vibration tested
- Sold each

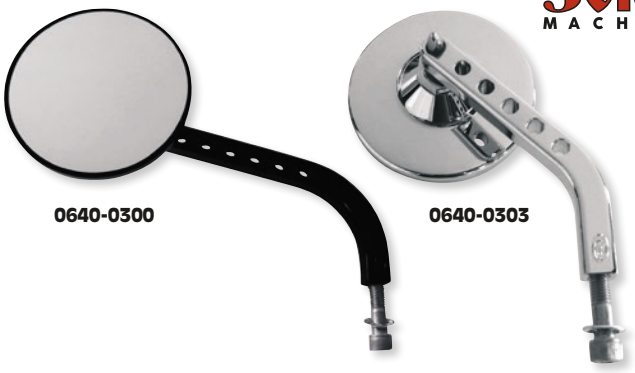

PART #	DESCRIPTION
CHROME	
0640-0732	Arrow XL (12,4 cm x 69 mm ((5" x 2¾"))
0640-0728	Blade (11 cm x 46 mm ((4½" x 1¾"))

VIEW TECH VII BILLET MIRRORS

- Stems and heads are completely CNC-machined from billet aluminum (not cast), with a design that is lightweight, strong and fully adjustable in every direction
- Design provides an old-school look, that includes retro-style holes along the stem for lightness; fully adjustable 83 mm (3 1/4") diameter mirror heads
- All styles provide exceptional rear visibility due to the use of exclusive custom-made convex mirror glass
- Once the mirror is positioned, a simple twist of a wrench keeps them at the desired tension setting, unlike nonadjustable designs that fail with time
- Swivel post assembly is completely serviceable and is machined from stainless steel alloy to ensure corrosion-free operation
- Unique conical teardrop head that makes on-the-road adjustments super easy, while providing exceptional rear visibility due to the use of custom-made convex 57 mm (2 1/4") diameter mirror glass
- Unique "Drilled-Hole & Sculpted" milling design along the stem increases lightness; mirror dimensions: 15,5 cm x 84 mm x 11 cm (6 1/16" x 3 5/16" x 4 5/16")
- A direct bolt-on fit for late-model Harley hand controls (including V-Rod) and most aftermarket hand controls
- Mounting hardware is included

PART #	DESCRIPTION
0640-0300	Left, black
0640-0301	Right, black
0640-0302	Left, chrome (stock mirror position)

PART #	DESCRIPTION

0640-0304	Left, black (stock mirror position)
0640-0305	Right, black (stock mirror position)

NO.2 57 MM (2 1/4") ROUND MIRRORS

- Classic builder-inspired design
- Great for mounting upside down
- Direct bolt-on for Harley-Davidson hand controls
- Mirror's head can be locked in place or adjustable
- 57 mm (2 1/4") convex mirror glass
- Mirror head swivels on a corrosion-free stainless steel ball joint that provides super smooth action and longevity
- CNC-machined from 6061 billet aluminum
- Hard black anodized or chrome plated finishes
- Sold each

0640-1516

0640-1520

Joker MACHINE

BEER SCHOONER MIRRORS

- Unique "Schooner Beer Glass"-shaped head makes on-the-road adjustments super-easy, while providing exceptional rear visibility due to the use of Joker's exclusive custom-made convex 57 mm (2 1/4") diameter mirror glass
- Unique "Drilled-Hole & Sculpted" milling design along the stem increases lightness while giving you that popular "retro" look
- The mirror stems and heads are completely CNC-machined from billet aluminum (not cast) – they're lightweight, strong and fully adjustable in every direction
- Once the mirror is positioned, a simple twist of a wrench keeps them at your desired tension setting right where you want them
- Swivel post assembly is completely serviceable and is machined from stainless-steel alloy to ensure corrosion-free operation
- Mirror dimensions: 15,5 cm x 84 mm x 11 cm (6 1/16" x 3 5/16" x 4 5/16")
- Dual-tone black and silver anodized finish
- A direct bolt-on fit for late model Harley hand controls (including V-Rod) and most aftermarket hand controls

PART #	DESCRIPTION
0640-0539	Right

BAR END MIRRORS

- Mirrors are completely CNC-machined from billet aluminum (not cast), lightweight, strong and fully adjustable in every direction to fit just about everyone
- All mirrors come with a convex mirror glass which provides exceptional rear visibility
- Super-solid units reduce vibration and make for a clearer image in the mirror
- With little modification, these units can be mounted through the ends of most existing grips by drilling the grip end
- Sold individually and available with a chrome-plated finish
- Available with Stem C (curved) and Stem D (straight)
- Mounting is achieved with the use of expanding internal bar mounts (sold separately)

PART #	DESCRIPTION
57 MM (2 1/4") ROUND BAR END MIRROR – STEM C	
0640-0617	Black anodized
83 MM (3 1/4") ROUND BAR END MIRROR – STEM D	
0640-0608	Black anodized

- Internal bar mount for 25,4 mm (1") OD handlebars expands from 19,1 mm to 21,6 mm (0,750" to 0,850"); mount for 22 mm (7/8") OD aluminum handlebars expands from 14 mm to 16,5 mm (0,550" to 0,650")

NOTE: Each assembly is universal and works on either left or right side of handlebars.

PART #	DESCRIPTION
INTERNAL BAR MOUNTS (EA.)	
0641-0099	For 25,4 mm (1") handlebars
0641-0100	For 22 mm (7/8") aluminum handlebars
0641-0098	For 22 mm (7/8") steel handlebars

FOLDING BAR END MIRROR

- Inspired by aircraft structural design combined with unique "cafe racer" styling
- Mirror head and mounting arm is completely CNC-machined from billet aluminum, super-lightweight, strong and fully adjustable in a multitude of directions and settings
- All parts are anodized for durability
- Mirror head swivels (folds) a full 180° frontwards and backwards, a full 360° rotational on the bracket arm, and features a ball bearing detent when they are in the extended position; the bracket arm may be rotated up or down to your desired position on the bar mounting shaft
- All rotational tension of the parts may be set to your preference with an Allen wrench and all hardware is top-quality heat-treated alloy plated with our "gold cad" finish for strength and durability

PART #	DESCRIPTION
BLACK ANODIZED MIRROR HEAD	
0640-0487	Round mirror (83 mm (3 1/4") dia. glass size)
INTERNAL BAR MOUNTS (EA.)	
0641-0099	For 25,4 mm (1") handlebars

- All moving parts feature super-smooth pivoting action due to the use of nylon spacers between the mating parts
- Mirror provides exceptional rear visibility due to the use of our exclusive custom-made convex mirror glass
- Mounting is achieved with the use of expanding internal bar mounts (sold separately)
- Internal bar mount for 25,4 mm (1") OD handlebars expands from 19,1 mm to 21,6 mm (0,750" to 0,850"); mount for 22 mm (7/8") OD aluminum handlebars expands from 14 mm to 16,5 mm (0,550" to 0,650")
- Mirror and mounts sold each

NOTE: Each assembly is universal and works on either left or right side of handlebars.

PART #	DESCRIPTION
INTERNAL BAR MOUNTS (EA.) (CONT)	
0641-0100	For 22 mm (7/8") aluminum handlebars
0641-0098	For 22 mm (7/8") steel handlebars

All part numbers in BLUE are new for the OldBook.

SHOOTER MIRRORS

- CNC-machined aluminum
- Available in black anodized finish
- 64 mm (2 1/2") diameter mirror
- 11,5 cm (4 1/2") total height
- Left or right is determined as sitting on bike with mirror mounted under handlebar
- Sold each

RIVCO

CUSTOM LED ACCENT MIRRORS

- Anti-vibration design for clearer vision
- Feature super-bright LEDs that are easy to see in the brightest sunlight
- Increase visibility to all traffic
- Front amber LEDs accent both turn signals and running lights; bright red LEDs on the outer rim of the mirrored side function as turn indicators
- Mirror face is convex (objects are closer than they appear)
- Long custom stems provide real-world rear viewing (not just a great view of your shoulders)
- Mount arm-length from arm mount to center of mirror is 15 cm (6")
- Fit all motorcycles with bolt-on mirrors (include metric adapters)
- Simple bolt-on, plug-in installation
- Convex mirrored glass measures 76 mm x 14 cm (3" x 5,5")
- Module kit allows for use with CANbus wiring
- Sold in pairs

NOTE: These LED Accent Mirrors are designed to piggyback with stock turn signals.

LA choppers

FAIRING MIRROR HOLE PLUGS

- The perfect plug for covering the unsightly hole left behind in your fairing when relocating the stock mirrors
- Seamlessly blends with your stock fairing, looking like your bike was meant to come that way yet still adds a minor flare to an otherwise dull spot
- Sold in pairs

2202-0206

PART #	DESCRIPTION
FOR 96-98 FLHT/FLHTC/FLHTCU	
2202-0205	Chrome
2202-0206	Black

MIRROR HOLE PLUG

- Tapered top design cleans up the "plain hole" look of Joker Classic or stock H-D hand control mirror area when the stock mirrors are removed
- A must when using bar-end-type mirrors
- Fully CNC-machined from 6061-T6 aluminum, then black anodized
- Easy installation
- Designed for 28 mm (1,10") mirror mount area thickness; all stainless steel mounting hardware is included
- Sold each

Joker MACHINE

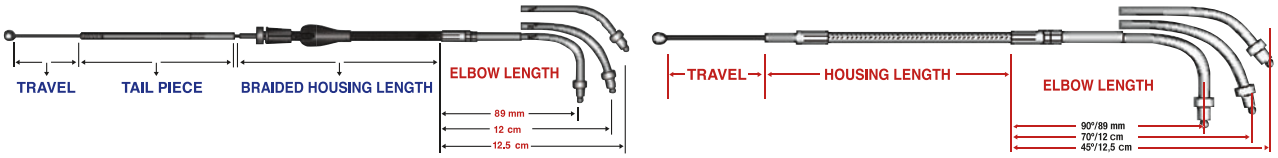

PART #	DESCRIPTION
0641-0113	Black mirror plug

All part numbers in BLUE are new for the OldBook.

Cables – Drag Specialties 751-755
Cables – Magnum 756-761
Cables – Barnett 762-766
Cables – Motion Pro 767-769

Clamps, Covers 778-780

CABLES

BRAIDED AND BLACK VINYL THROTTLE AND IDLE CABLES

- Cables feature polished-chrome fittings, stainless-steel braiding or black vinyl outer casings, tempered-steel inner conduit and an inner nylon liner for smooth operation and long life
- Braided cables feature outer housings coated with a non-yellowing clear covering for abrasion resistance
- Available in undersize/standard/oversize lengths for most single and dual cable applications

NOTE: Length given is the length of the outer housing only, excluding the elbow.

NOTE: Throttle cables for 74-E76 models do not come with the 90° adjuster elbows. These cables fit into OEM throttle adjuster. If you do not have the stock adjuster, order the L76-E81 cable.

NOTE: Cables will also fit late style Mikuni carbs.

Black vinyl

BRAIDED AND BLACK VINYL HIGH EFFICIENCY (H.E.) CLUTCH CABLES

- Low effort, maximum efficiency cable design meets or exceeds all OEM specifications for fitment, construction and endurance requirements
- Cables feature chrome-plated fittings, stainless-steel braided or black vinyl outer casings, tempered-steel inner wire and a nylon inner sleeve for smooth operation
- Braiding is coated with a non-yellowing clear coating for abrasion resistance
- High-performance cables use the latest technology of longitudinally winding the outer housing lengthwise rather than spirally so cable bends in a more natural arc and eliminates spring and compression
- Available in undersize/standard/oversize lengths for most models

HOW TO MEASURE CLUTCH CABLES

NOTE: Late-style cables are measured with the adjuster completely collapsed.

NOTE: Adjuster measured from bottom of cable.

MAGNUM STERLING CHROMITE

Sterling Chromite

BRAIDED THROTTLE AND IDLE/IDLE-CRUISE CABLES

- The Industry's highest quality braid in four color choices to complement your bike; Sterling Chromite®, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Fittings are polished and chrome or black chrome-plated
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- All cables are made with anti-friction inner liners, nylon adjuster inserts, and are factory lubricated for smooth, consistent, long-lasting operation
- Meets or exceeds all OE specifications for fitment, construction and endurance

NOTE: Length given is length of outer housing only, excluding elbows.

NOTE: All pre-96 cables have threaded elbows; 96 and later cables have non-threaded elbows.

BRAIDED HIGH EFFICIENCY CLUTCH CABLES

- The Industry's highest quality braid available in four color choices to complement your bike; Sterling Chromite®, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Coated with a non-yellowing, crystal-clear outer jacket for exceptional protection against scuffing paint or chrome
- Attractive adjuster with integrated water-resistant seals does not require a boot
- Rubber seal in transmission fitting eliminates fluid leaks
- Low-effort, high-efficiency cable design meets or exceeds all OE specifications for fitment, construction and endurance
- All fittings are polished and chrome or black chrome-plated
- Cables are made with anti-friction inner liners and adjuster inserts, plus they are factory lubricated for smooth, consistent, long-lasting operation

NOTE: Check torque spec on transmission fitting when installing.

HOW TO MEASURE CLUTCH CABLES

NOTE: Cables are measured with the adjuster completely collapsed. Travel is measured with cable straight.

STERLING CHROMITE® BRAIDED THROTTLE AND IDLE CABLES FOR S&S CARBS

- The best braid available to complement your bike
- Braid color and weave matches on all MAGNUM control cables and brake lines
- Coated with a non-yellowing, crystal-clear FEP fluoropolymer outer jacket for exceptional protection against scuffing paint or chrome
- All fittings are polished and chrome-plated
- Meets or exceeds all OE specifications for fitment, construction and endurance
- All cables are made with anti-friction inner liners, nylon adjuster inserts and are factory lubricated for smooth, consistent, long-lasting operation

FOR EARLY-STYLE S&S E- AND G-SERIES CARBS (SHORT CABLE GUIDE)

Motion Pro AC ARMOR COAT

ARMOR COAT STAINLESS THROTTLE AND IDLE CABLES

- Cables feature a stainless steel outer housing, tempered-steel inner wire and an inner nylon sleeve for smooth operation and long life
- Outer housings feature a clear, nonabrasive Armor Coat finish
- Available in undersize/standard/oversize lengths for most single- and dual-cable applications

NOTE: Length given is the length of the outer housing only, excluding the elbow.

BYO® BUILD YOUR OWN® CONTROL CABLE KITS

- Available in three styles: stainless steel braid or black vinyl with chrome fittings and black vinyl with black chrome fittings
- Looks and performance like a factory made cable
- BYO cables are extra long to allow you to build the perfect stock or plus length cable every time
- Easy installation – route, cut and assemble in less than 10 minutes
- Throttle and idle cable kits make up to a 132 cm (52") housing length, have a choice of either a 90 degree or 45 degree elbow assembly
- Throttle and Idle kits are sold separately
- Clutch cables are a high-efficiency design and the clutch inner cable fitting has a pull-off strength of 226+ kg (500+ lb)
- Two-piece clutch cable kits fit 1987 and later 5 or 6 speed transmissions and can make up to 203 cm (80") total length
- Black two-piece clutch cables include a black boot to cover the adjuster; adjuster and transmission fittings are chrome
- One-piece clutch cable kits are specific for Big Twin or Sportster models and both types of kits are available in either stainless steel braid or black vinyl with chrome fittings
- One-piece cables make up to 178 cm (70") total length for Sportsters or 188 cm (74") total length for Big Twins
- Use enclosed template to set free length to factory specifications for most applications (throttle, idle and two-piece clutch cables only)

CLUTCH INNER CABLE REPAIR KIT

- Everything you need to replace a broken inner cable on your mechanical clutch
- Long enough to repair most Harley-Davidson clutch cables
- Includes one pre-lubed 254 cm (100") inner cable, two clutch slugs, two clutch pins and one pin holder
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application. A hammer and a hard level surface is needed to correctly install the transmission end of the inner cable.

PART #	DESCRIPTION
0652-1984	Clutch cable repair kit

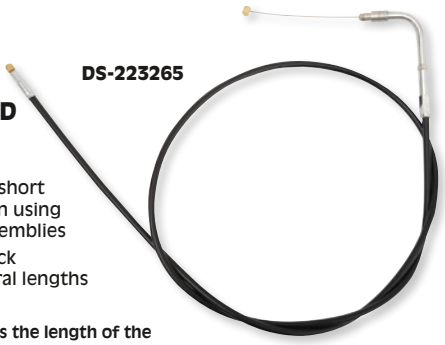

THROTTLE/ IDLE CABLE REPAIR KIT

- Everything you need to replace a broken inner throttle or idle cable
- Long enough to repair most Harley-Davidson throttle, idle or idle-cruise cables
- There is no need to remove the cable housing from the bike to make the repair
- Includes: one pre-lubed 165 cm (65") inner cable, one throttle twist grip barrel, one idle cable spring and one carburetor double setscrew locking barrel with two Allen wrenches
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application.

PART #	DESCRIPTION
0650-1586	Throttle/idle repair kit

DS-223265

THROTTLE AND IDLE CABLES

- Fit early-style S&S carburetors with short cable guides when using stock throttle assemblies
- Available with black housings, in several lengths
- Sold each

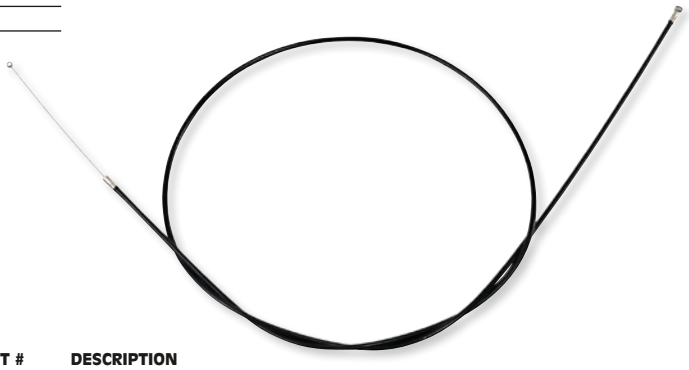

NOTE: Length given is the length of the outer housing only, excluding the elbow.

PART #	DESCRIPTION
FOR 96-99 BIG TWIN	
DS-223261	106,5 cm (42") Throttle
DS-223265	122 cm (48") Throttle
DS-223262	106,5 cm (42") Idle
DS-223266	122 cm (48") Idle

0632-0737

PART #	DESCRIPTION
FOR 84-95 BIG TWIN	
0632-0736	91,4 cm (36") throttle, open side, threaded
0632-0737	91,4 cm (36") idle, close side, threaded

SPECIALTY/UNIVERSAL THROTTLE CABLE

- Black, vinyl-encased throttle cable for a variety of universal or specialty fitments

PART #	DESCRIPTION
DS-243070	Universal type w/ barrel/ball ends; 152,5 cm (60") L, 133 mm (5 1/4") free length

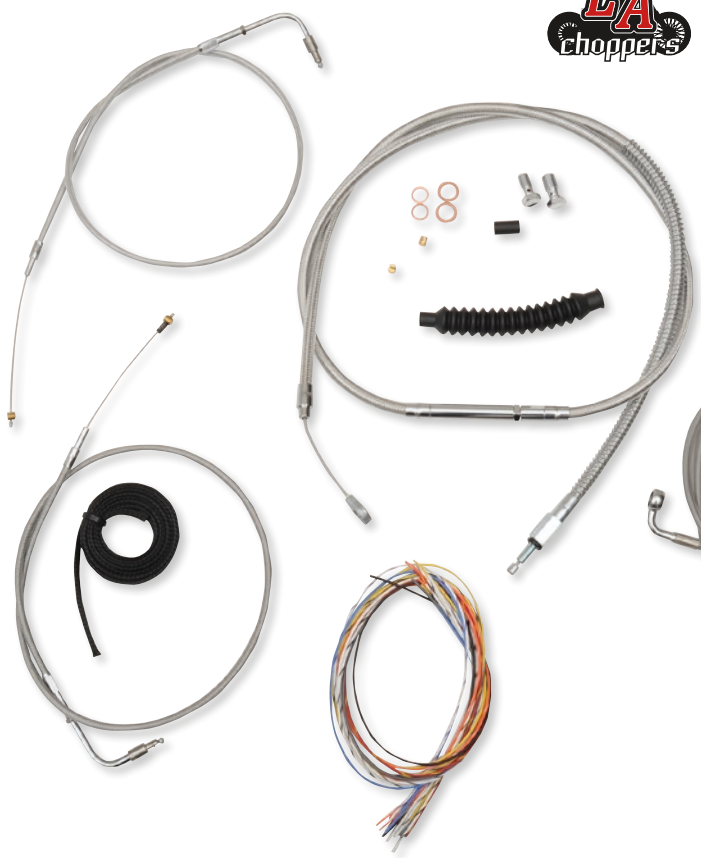

UNIVERSAL THROTTLE CABLE

- Cut to length for use with internal throttle assemblies
- 203 mm (8") over stock length
- 135 cm (53") total length, including adjuster

PART #	DESCRIPTION
0650-1576	Universal black vinyl throttle cable

All part numbers in BLUE are new for the OldBook.

Standard stainless kit

HANDLEBAR CABLE/BRAKE AND CLUTCH LINE/WIRE KITS AND COMPONENTS

- Take "cable calculation" headaches out of swapping handlebars
- Individual components for all kits are available as listed

COMPLETE KITS

- Kit includes the correct length braided brake/clutch lines and wire extensions to complete a handlebar swap
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and brake lines with chrome fittings, banjo bolts and crush washers
- Midnight series kits include clutch line and brake lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra-custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

STANDARD KITS

- Kit includes the correct length brake/clutch lines and wire extensions to complete a handlebar swap; electrical wire extensions not included (available separately)
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and black stainless brake lines with chrome fittings, banjo bolts and crush washers
- The midnight kits include stainless steel brake lines and clutch lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra-custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

MAGNUM

DESIGNER HANDLEBAR INSTALLATION KITS

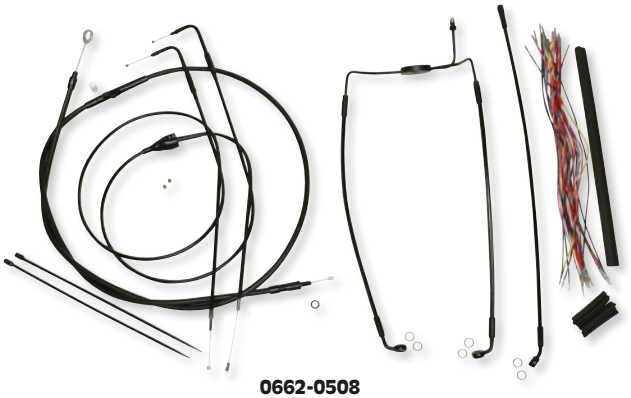

- The only complete kits with matching braided cables and brake lines
- Kits are available for non-ABS Harley-Davidson® models with 25,5 cm (10") to 47 cm (17") ape hanger style handlebars installed
- Kits include throttle and idle cables, clutch cable or hydraulic clutch line, brake lines, copper crush washers, hardware, and any necessary switch wiring or turn signal extensions
- All cable and brake lines feature either Sterling Chromite® or Black Pearl braid with highly polished chrome or black chrome-plated fittings
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket
- All cables are a low-effort, high-efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Kits for dual disc models include an all brazed manifold that eliminates leaks, alignment problems and unattractive threaded connections

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: Kits are based on using ape hanger style handlebars with 51 mm (2") risers (except for Touring models).

XR STAINLESS HANDLEBAR INSTALLATION KITS

- Magnum XR handlebar installation kits offer a great fit and excellent quality at an economical price
- XR handlebar installation kits are available for non-ABS Harley-Davidson® motorcycles with 30,5 cm (12") to 43 cm (17") ape hanger style handlebars
- Three color combinations to complement your bike: OE style black vinyl with chrome plate fittings, clear-coated stainless steel with chrome-plated fittings or black-coated with black chrome-plated fittings
- All cables are a low effort, high efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Magnum XR brake lines use an enhanced construction of heavy gauge stainless steel embedded in tough abrasion-resistant nylon outer jacket for superior durability
- The coating on cables and brake lines offers exceptional protection for paint or chrome
- Kits that include manifolds use an all-brazed construction to ensure optimal OE fitment and appearance
- Manifolds use -3 AN connections for an easy installation
- Kits include throttle and idle cables, clutch cable or XR hydraulic clutch line, XR brake lines, copper crush washers, hardware, turn signal and switch wiring extensions

Note: Kits are based on using ape hanger style handlebars and 51 mm (2") risers (except Touring models).

TACHOMETER CABLE

- Black vinyl, 82,5 cm (32 1/2") long
- Upper nut measures 12 mm with a 1,0 pitch

PART #	DESCRIPTION
0656-0008	For stock 74-80 XL tachometer or for 57-80 XL w/ D.S. mini tachometer; repl. OEM #92065-74

CABLE ADAPTER FOR DRAG SPECIALTIES MINI GAUGES

- Allows speedometers with a 12 mm cable connection to use 5/8"-12 speedometer cable
- Fits all Drag Specialties mini gauges and other speedometers with a 12 mm cable connector
- Sold each

PART #	DESCRIPTION
2210-0062	Cable adapter

All part numbers in **BLUE** are new for the OldBook.

DRAG Specialties

CHOKE CABLES

- Cables feature black vinyl outer casings
- Match the entire stock of Drag Specialties cables
- Available for most applications

PART #	DESCRIPTION
0654-0025	For 90-98 FLT, 90-99 FXST, FLST, 91-98 Dyna, 90-00 FXR models; 203 mm (8") L, includes knob; repl. OEM #s 29229-88, 29236-90, 29229/88C/88D
0654-0028	For 84-89 FLTC, 84-87 FLHT, 84-89 FLHTC, 87-89 FLHS,84-89 FXRS, 84-88 FXRP/FLHTP, 84/87 FXRC, 86 FXRD, 84 FXRDG, 87-89 FXLR, 83/86-89 FXR, 85-89 FXRS-SP, 84-89 FXRT; 233,7 mm (9,2") L; repl. OEM #s 29209-86, 29210-86, 29225-79
0654-0028	For 80-83 FLTC, 83 FLHT, 82-83 FXRS, 80-83 FLT, 82-83 FXR, 83 FXRT; 233,7 mm (9,2") L; repl. OEM # 29225-79
0654-0026	For 86-89 FLST, 87-89 FLSTC, 84-89 FXST; 41,7 cm (16,4") L; repl. OEM #s 29213-79, 29211-86
0654-0027	For 73-78 FX, 73-81 FXE, 77-81 FXS, 80-81 FXB, 79-81 FXEF, 72-E80 XLH/XLS, 72-79 XLCH, 77-78 XLCR, 77 XLT (includes knob; cable is 284 mm (11,2") L: inner wire only); repl. OEM #s 29216-72, 29219-78

LA Choppers

BOTTLE CAP CHOKE CABLE KNOB

- Adds some flair and personality to your bike
- Personalize your choke knob with the bottle cap from your favorite beverage
- Installs in minutes, and can be changed as often as you like
- Bottle cap not included

PART #	DESCRIPTION
0657-0025	For 90-99 Evolution Big Twin w/ stock choke cable

PRO PERFORMANCE PRODUCTS

CHROME BILLET CHOKE CABLE KNOB COVERS

- Fits all plastic choke knobs
- Screw together for a positive fit
- Available in smooth or ball-milled finish

PART #	DESCRIPTION
DS-189140	Smooth

PART #	DESCRIPTION

PART #	DESCRIPTION
0659-0016	Gloss black

CABLE REPAIR CLAMP

- Designed specifically for use on Harley models
- 11,7 mm (0,460") OD
- Sold each

PART #	DESCRIPTION
DS-223014	Cable repair clamp

LINKERT/BENDIX CARBURETOR THROTTLE LEVER WIRE BLOCK KITS

- Kit includes cadmium-plated block, OEM #27450-36, screw, cotter pin and brass washers
- Available standard or +0,005" oversized

PART #	DESCRIPTION
FOR 36-65 BIG TWIN	
2401-0651	Standard

PART #	DESCRIPTION
FOR 36-65 BIG TWIN (CONT)	
2401-0652	+0,005"

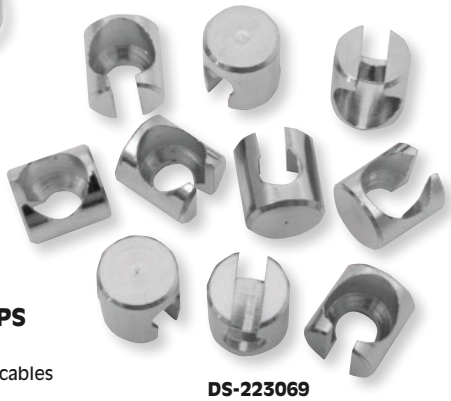

THROTTLE/IDLE CABLE CLAMP

- Billet aluminum construction
- Two-piece clamp separates cables so they don't rub together
- Keeps cables routed where they belong

PART #	DESCRIPTION
DS223350	Oval, chrome

THROTTLE CABLE RETAINING CLIPS AND FERRULES

- Replacement clips and ferrules with clip-in cables
- Sold in packs of 10

PART #	DESCRIPTION
DS-223067	Throttle cable clips, 96-99 models; repl. OEM #11272
DS-223069	Ferrules for throttle/idle cables, 76-99 Big Twin; 57-85 XL; repl. OEM #56508-76

All part numbers in BLUE are new for the OldBook.

CABLE CLAMPS

- Unique two-piece design allows easy installation
- Swivel-head design allows more natural cable routing without excessive bending
- Polished chrome or E-coated black finish
- Innovative single-bolt clamp gives a clean custom look
- Rubber sleeves protect painted surfaces and cable housing
- 25,4 mm (1") clamps fit handlebars and many aftermarket frames
- 28,6 mm ($1^1/_8$") clamps fit XL models through 81 and OEM 4-speed or Softail frames
- 32 mm ($1^1/_4$") clamps fit 82-95 FXR, Dyna and 82-03 XL models
- 38 mm ($1^1/_2$") clamps fit custom frames

CLUTCH CABLE SUPPORT BRACKET

- Chromed steel clutch cable support mounts in the stock location and provides clean routing for trouble-free action
- Sold individually

PART #	DESCRIPTION
DS-223100	Clutch cable bracket

CABLE, HOSE GUIDE/ TIE-DOWN BRACKET

- A chromed steel cable guide for routing clutch or speedo cables
- Can also be used for gas line routing or as a bungee cord tie-down bracket
- Sold to dealer in packs of 10; sold to consumer as each

PART #	DESCRIPTION
DS-110223	Clutch/speedo cable guide/tie-down bracket; repl. OEM #38623-68

CABLE GUIDE/TIE-DOWN BRACKETS

- Provide handy anchor points for securing luggage or other items
- Mounting hole accepts up to a 9,5 mm (⅜") screw (M10 screw)
- Can also be used as a cable guide; replaces H-D OEM #38623-68
- Sold in pairs

PART #	DESCRIPTION
3920-0354	Tie-down/cable guide brackets

WIRE FUEL LINE GUIDE

- Guide is used between cylinders and on back of manifold
- Can also be used for routing cables or wires
- Sold each to consumer; sold in 5-pack to dealer

PART #	DESCRIPTION
DS-110225	Chrome; repl. OEM #45092-66

ADEL CLAMPS

- Stainless steel clamps feature 6,5 mm (¼") mounting holes with rubber guards on the inside of the clamps
- Available in sizes from 4,8 mm (³⁄₁₆") ID through 9,5 mm (⅜") ID
- Work great for custom mounting wiring, hoses and cables
- Sold in 10-pack

GARDNER WESTCOTT

ABE

STAINLESS STEEL DRILLED BRAKE ROTORS WITH ABE

TYPE F DISC

- Stainless steel brake rotors
- Proprietary heat treatment ensures homogeneity and consistency of the rotor design
- Machined surfaces are finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm
- All non-machined surfaces are finished using anti-corrosive paint for durability and protection from the elements
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications
- Available in Type 1 Classic and Type 2 T-Bone styles
- ABE approved

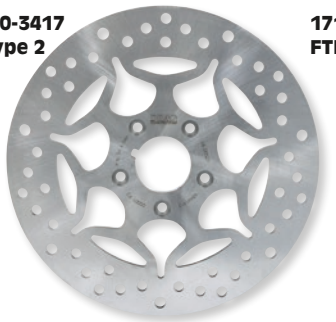

TYPE FTK DISC

- Stainless steel fully floating brake rotors
- Outer brake ring features machined and painted rotor slots
- Innovative design improves brake performance and helps cool the rotor faster during extreme use
- Design gives maximum resistance to fade/ warp from heat and mechanical stresses
- Rotor design allows for better heat exchange
- Rotor bobbins are stainless steel for efficient rotor "float" so the rotor will not warp and distort under extreme stress/heat
- Stainless steel outer rotor rings are machined and the surfaces finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm
- Rotor weight and inertia are not increased compared to other brake rotor disc types; do not impede the motorcycle's steering/handling characteristics
- Very original style, great for customizers or to enhance the look on older stock bikes
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications
- ABE approved

GALFER USA

WAVE® BRAKE ROTORS

- Made from 420 high-carbon stainless Tier-1 steel
- Laser-cut, never stamped
- Each rotor is individually heat-treated and double-disc parallel ground to ensure perfect flatness
- WAVE® design allows for lower operating temperatures at extreme conditions
- WAVE® design is much lighter than a stock rotor

NOTE: Galfer recommends the use of Galfer brake pads with their rotors.

Sintered metal

Organic Aramid Fiber

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics while still providing excellent reduction in noise and dust
- Organic aramid fiber pads are OEM type replacement brake pads for 1970s and earlier models
- Organic aramid fiber pads are the perfect choice for polished or chromed rotors and billet steel rotors
- Semi–metallic brake pads offer a pad in between both the sintered and organic brake pads
- All three compounds of Drag Specialties brake pads are asbestos, nickel and lead free

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our organic aramid fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

FRONT BRAKE PADS

DP Sintered

SDP Sport HH+

RDP Race

DP BRAKES SINTERED METAL BRAKE PADS

- Give your bike peak braking performance with DP Brakes brake pads
- Pads have a quick break-in period so you get peak braking performance fast
- DP Brakes design and materials ensure consistent, hard stops and fade-free performance
- Pads give long pad life – sintered metal compounds outlast conventional organic or aramid pads
- Made with DP Brakes' proven sintered metal pad material
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Excellent initial bite and feel in both wet and dry conditions
- GG friction rated
- Quiet and non-abusive to most rotors; no brake dust or brake fade
- OEM pads for Performance Machine calipers
- ABE approved

SDP SPORT HH+ SINTERED METAL BRAKE PADS

- Feature the industry-high, HH+ friction rating
- Provide superior stopping power with no mileage penalty
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Quick pad break-in time so you get maximum stopping power fast
- Quiet and dust-free
- ABE approved

RDP RACING SINTERED METAL BRAKE PADS

- Developed with the aid of top works teams to give your bike maximum stopping power
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Designed to give maximum initial power, with fingertip control throughout the stop
- Quiet and dust-free

NOTE: DP Brakes brake pads are not for use with polished rotors.

⚠ WARNING RDP Race pads are for Race/Track use only; not for street use. These pads are for Race/Track use only. Any other use could result in death or serious injury.

Organic Pads

Double-H pads

Semi-Sintered V pad

Extreme Performance pad

BRAKE PADS

ORGANIC PADS

- Organic brake pads feature aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating, the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace aramid fibers or sintered metal compound pads

EXTREME PERFORMANCE SINTERED METAL

- The newest sintered metal brake pad fusion technology
- Has the highest friction rating available in a pad - 0,6 - for strong, fade-free stopping power
- No lead, iron or steel additives; no more rotor outline etching or rotor stiction
- Super-fast bed-in; full friction after 10 to 15 race stop uses
- Great heat cycle ability; pads cool after extreme use and perform just as strong the next day

NOTE: Brake pads include abutment shims where required.

EBC BRAKES

BRAKE PAD SHIMS

- Anti-squeal shim kits reduce brake pad vibration and noise while protecting the caliper piston
- Can be trimmed with scissors to required shape; apply these shims to the reverse side of the brake pads to prevent brake noise
- Sold in a 4-pk.

PART #	DESCRIPTION
1702-0250	Brake pad shims (4-pk.)

All part numbers in BLUE are new for the OldBook.

TRW Lucas ABE

See chart for details

NRS Technology

BRAKE PADS

STANDARD PADS

- Organic material
- Long pad service life
- Suitable for use with all brake discs
- Solid performance, even in wet conditions
- Features NRS Technology, precluding loss of lining material under extreme thermal conditions
- All parts are ABE approved unless noted

RQ SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- Friction rate is matched to our SV sintered metal pads
- Recommended only for use when replacing sintered metal pads
- No bedding is required

SV SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- No bedding is required

SRQ SINTERED METAL ROAD RACING PADS

- Completely metallic sintered brake pads
- Extremely high friction rate
- Very effective performance with low pressure at the lever
- Suitable for high-performance use

CRQ CARBON RACING PADS

- Carbon-based racing pad
- Greater durability than the SRQ pad
- High friction levels; requires low effort at the lever
- Suitable for high-performance use

FRONT BRAKE PADS

BRAKE PAD SHIMS

- Reduce brake pad vibration and noise and protect the caliper piston
- Self-adhesive rubber/fiberglass shims can be trimmed (if necessary) to fit any caliper/pad combination
- Sold in a package of four

PART #	DESCRIPTION
1702-0132	Brake pad shims (4-pk.)

DS-325342

DRAG Specialties

BRAKE SHOES

- High-quality brake shoes
- Sold in pairs

PART #	DESCRIPTION
DS-325342	Front, for 49-71 Big Twin; repl. OEM #44401-49B
DS-325386	Rear, for 63-72 Big Twin; repl. OEM #41801-63
1723-0424	Rear, for 58-62 Big Twin; repl. OEM #41801-58A
DS-325328	Rear, for 36-57 Big Twin; repl. OEM #41805-38
DS-325342	Rear, for 54-78 XL/K, front for 54-63 XL/K; repl. OEM #44401-49B

DRAG Specialties

BRAKE LININGS AND RIVETS

- Sold in a complete set

PART #	DESCRIPTION
DS-325396	Linings/rivets for 54-71 Big Twin (front); 54-63 XL, K (front); 54-78 XL, K (rear); repl. OEM #44432-54A

Eastern M C Parts

BRAKE PAD DOWEL PINS

- Durable, long-wearing steel
- Sold in 10-packs

PART #	DESCRIPTION
DS-324613	For 73 FX, 72-84 FL and 73 XL (front); 73-80 FX, FL (rear); repl. OEM #44124-72

DRAG Specialties

BRAKE DRUM/SPROCKET SET

- Chrome rear drum and sprocket set

PART #	DESCRIPTION
DS-325344	For 52-78 XL and K models; repl. OEM #41401-52 (51T)

DRAG Specialties

REAR WHEEL BRAKE CYLINDERS AND CYLINDER REBUILD KITS

- High-quality OEM replacement components
- Brake cylinders and rebuild kits sold separately

1730-0013

1730-0025

PART #	DESCRIPTION
1730-0013	For 63-73 Big Twin models; repl. OEM #41740-63
1730-0012	For 58-62 Big Twin models; repl. OEM #41740-58

PART #	DESCRIPTION
1730-0025	Rebuild kit for PART #1730-0012
1730-0026	Rebuild kit for PART #1730-0013

Colony Where Excellence Is a Standard

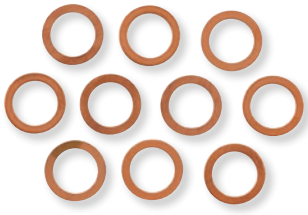

BRAKE DRUM WHEEL MOUNTING SOCKET SCREW SET

- Reproduction of hardened 3/8"-20 bolts
- Complete with chip curls at bottom of the socket hole
- Parkerized and hardened

PART #	DESCRIPTION
2401-0527	For 36-72 Big Twin; repl. OEM #4026-35

Eastern M C Parts

COPPER CRUSH WASHERS FOR WHEEL CYLINDER BOLT

- Sold in 10-pack

PART #	DESCRIPTION
DS-324618	For 58-72 FX/FL models w/ hydraulic brakes; repl. OEM #41744-58

All part numbers in BLUE are new for the OldBook.

FRONT BRAKE MASTER CYLINDER ASSEMBLY

- Chrome-plated assembly includes brake lever, reservoir cover, brake line fitting and all internal components

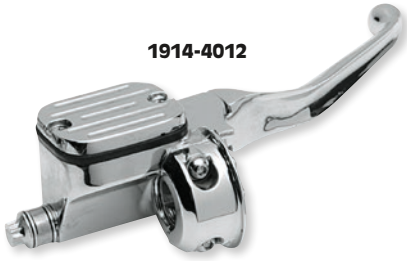

PART #	DESCRIPTION
DS-290708	For 72-81 FL, FLT and 73-81 FX/XL; repl. OEM #45010-73

FRONT BRAKE MASTER CYLINDERS

- Include lever and clamp half
- Compatible with DOT 4 or 5 brake fluid
- 5/8" bore master cylinders have a 7/16"-24 banjo bolt
- 11/16" bore master cylinders have a 3/8" -24 banjo bolt
- Not for use with 32 mm (1 1/4") or 38 mm (1 1/2") handlebars that do not have clearance for a master cylinder

PART #	DESCRIPTION
FOR 96-99 EVOLUTION BIG TWIN	
0610-0689	Black, 9/16" bore single disc
0610-0250	Chrome, 9/16" bore single disc
0610-0690	Black, 11/16" bore dual disc
0610-0251	Chrome, 11/16" bore dual disc
FOR 82-95 BIG TWIN, 82-85 XL	
0610-0687	Black, 5/8" bore single disc
0610-0504	Chrome, 5/8" bore single disc
0610-0688	Black, 11/16" bore dual disc
0610-0505	Chrome, 11/16" bore dual disc

CUT-DOWN FRONT BRAKE MASTER CYLINDERS

- Chrome die-cast aluminum construction
- Cut down by 0,256" for a lower profile
- Include chrome mounting clamp with brake lever
- Not for use with 32 mm (1 1/4") or 38 mm (1 1/2") handlebars that are not clearanced for master cylinder

PART #	DESCRIPTION
FOR 96-99 EVOLUTION BIG TWIN MODELS	
1914-4011	1/16" bore, dual disc (3/8"-24)
1914-4012	9/16" bore, single disc (7/16"-24)
1914-4013	5/8" bore, single disc (7/16"-24)

REAR BRAKE MASTER CYLINDERS

- Complete rear master cylinder assemblies
- Polished and chrome-plated

PART #	DESCRIPTION
1731-0206	For 97-98 FLHT/FLHR/FLTR; repl. OEM #41755-97
1731-0205	For 95-96 FLHT/FLHR; repl. OEM #41755-95
DS-530632	For L87-99 FLST, 3/4" bore; repl. OEM #42467-87C, 42468-87D
1731-0121	For L87-99 FXST, 3/4" bore; repl. OEM #42446-87A
DS-530626	For 73-E79 FX/FL, 3/4" bore; repl. OEM #41761-78
DS-530625[1]	For 58-72 FX/FL; 3/4" bore; repl. OEM #41761-58
DS-530624	Repl. cap for DS-530625/DS-530626
DS-530627	Rear Kelsey-style master cylinder for 79-82 FX, 83 FXE, 80-81 XL, 3/4" bore; repl. OEM #42453-80A, 42454-80A

[1] Drum brake/use DOT-5 fluid only.

SOLO CUSTOM MINI REAR MASTER CYLINDERS

- Machined from billet aluminum and features a sleek custom design with a 14 mm bore size
- Perfect for tight spaces or custom rear brake projects that need that clean look
- Rebuild kit for PART #s 1731-0609 and 1731-0610 available separately; see chart
- Sold each

PART #	DESCRIPTION
1731-0609	Solo rear master cylinder kit, chrome
1731-0610	Solo rear master cylinder kit, black anodized

PART #	DESCRIPTION
1731-0611	Solo rear master cylinder 14 mm rebuild kit

CUSTOM REAR MASTER CYLINDER ASSEMBLIES

- Chrome-plated CNC-machined billet aluminum with 5/8" bore
- Side exit 3/8"-24 thread for 35° 10 mm banjo for a straight-back line approach
- Smooth, outward-facing side with back-side mounting holes; 2 1/4" bolt pattern

NOTE: Use rebuild kit PART #DS-195042.

MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS KARBONFIBR

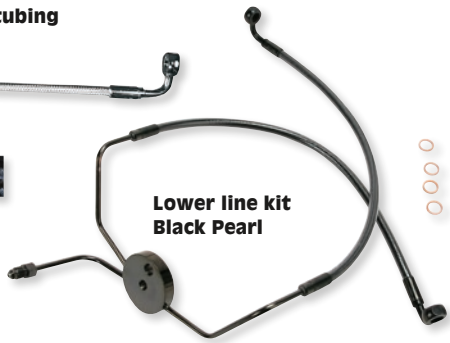

DESIGNER SERIES DOT BRAIDED NON-ABS FRONT BRAKE LINE KITS

- Brake kits utilize a superior two-piece design consisting of a direct fit lower assembly used in conjunction with alternative length upper lines
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- Choice of 35°, 90° or 180° upper brake line banjo angles ensure a great fit
- AN-3 connections for easy installations
- All fittings are highly polished and chrome or black chrome-plated
- The Industry's highest quality braid in four color choices to complement your bike: Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Aramid Fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

NOTE: Upper and lower brake line kits are sold separately to allow for a perfect fitment.

NOTE: Non-stock applications require taking a measurement for the upper brake line length and banjo angle to ensure correct fitment (see How to Order).

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

IMPORTANT - HOW TO ORDER

Stock fitments: Use the stock fitment chart to determine the upper and lower kits needed for your application. The stock upper line length and banjo angle is also listed for each application. This information may be helpful when choosing alternative length lines.

Lower lines are model specific. Use the stock fitment chart to determine which kit is required.

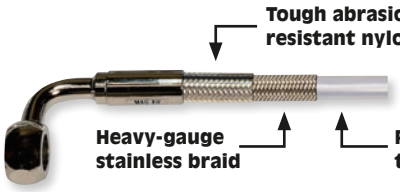

Alternative fitments: Due to handlebar changes, fitment options are accommodated with the UPPER line only. You may prefer to use a different length or banjo angle based your specific routing. See the alternative length chart for available lengths and banjo angles.

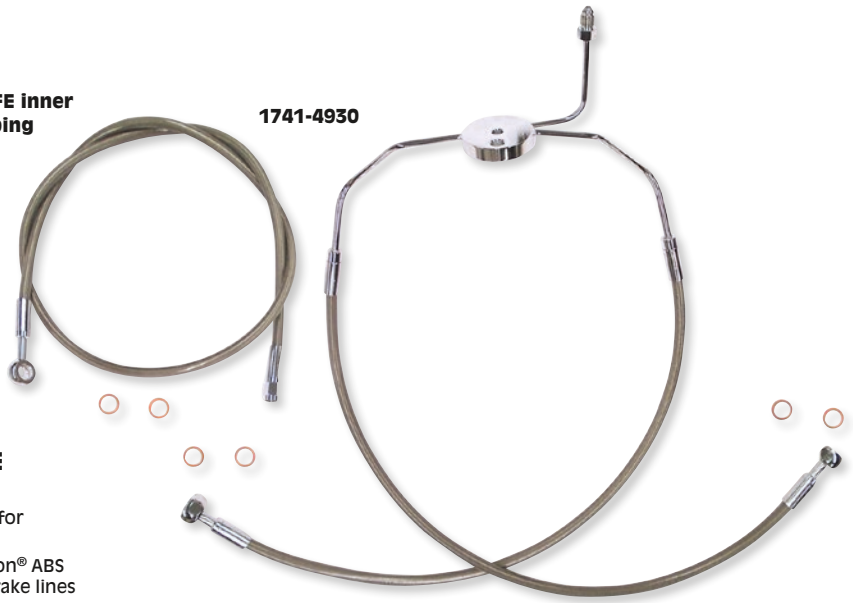

Upper line length is determined by measuring the routing path from the top of the lower triple tree to the master cylinder. The upper and lower connection is made at this point – see diagram.

XR STAINLESS EXTREME RESPONSE FRONT DOT BRAKE LINE KITS

- Manufactured with an enhanced construction for extreme braking response and durability
- Designed to be compatible with Harley-Davidson® ABS requirements for stock and alternate length brake lines
- Inner PTFE tubing braided with XR stainless steel reinforcement embedded in a tough nylon outer jacket offers exceptional protection for paint or chrome
- Three color choices: Clear-coated with chrome fittings, OE-style black stainless steel with chrome fittings or black-coated stainless steel with black chrome fittings
- Available in stock and plus lengths with clear or black coated XR stainless brake line
- All fittings are highly polished and chrome or black chrome-plated
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- -3AN connections for easy installations

NOTE: Complete kits contain brake line assemblies to connect the caliper(s) to the master cylinder.

MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS KARBONFIBR

E-Z ALIGN DOT BRAIDED SINGLE DISC FRONT BRAKE LINES

- E-Z Align rotating caliper banjo feature for perfect no-kink fitments
- Choice of 35°, 90° or 180° upper brake line banjo angles
- Brake lines are available with either a $^{7}/_{16}$" or $^{3}/_{8}$"/10 mm master cylinder banjo fitting
- All fittings are polished and chrome or black chrome-plated
- The industry's highest quality braid available in four color choices to complement your bike: Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Karbonfibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and company.

BRAIDED BRAKE LINE KITS

- Braided brake lines exceed OEM pressure specifications, reduce brake line expansion and look good
- Feature PTFE inner liner and stainless steel outer braid for smooth fluid transfer and high strength
- Factory-assembled for correct fit and reliability

NOTE: All measurements are approximate.

NOTE: Russell reference numbers ending in SS and B are clear-coated.

NOTE: Numbers ending in S are for off-road or show use only.

PRO SWIVEL

PRO SWIVEL™ BRAKE HOSES

- Features Russell's exclusive 360° swivel banjo system (patent pending)
- The banjo is incorporated at the caliper end of the hose assembly
- Makes the rotation alignment hassle-free
- Engineered using two O-rings for a positive seal
- Supported by a 305 stainless steel retention pin for permanent attachment
- Uses all stock mounting locations and hardware; simply route your hose and attach the banjo at the master cylinder

UNIVERSAL BRAKE LINE AND FITTINGS

- Universal, black $^{3}/_{16}$" OD nylon brake lines; ideal for custom fabrication
- Semi-rigid nylon construction offers unparalleled flexibility, allowing the builder ultimate control
- Compression-type chrome fittings with unique concave design
- Line and fittings also work great for custom hydraulic clutch applications
- For off-road and show use only
- Fittings made from steel, not brass
- Line and fittings sold separately

NOTE: All Big Twin and XL models use standard $^{3}/_{8}$" and $^{7}/_{16}$" banjo bolts, washers and fittings. Fittings and washers listed as $^{3}/_{8}$"/10 mm can be used in either application.

PART #	DESCRIPTION
UNIVERSAL $^{3}/_{16}$" OD NYLON BRAKE LINES	
1740-0002	15 m (50') bulk nylon line
1740-0001	7,5 m (25') bulk nylon line
FITTINGS	
1742-0061	$^{1}/_{8}$" male NPT straight master cylinder/caliper
1742-0062	$^{1}/_{8}$" male NPT 90° master cylinder/caliper
1742-0063	$^{3}/_{8}$"-24 male straight master cylinder/caliper
1742-0064	$^{7}/_{16}$"-24 male straight master cylinder/single
1742-0065	AN #3 adapter (allows use of any #3 male fitting)

PART #	DESCRIPTION
FITTINGS (CONT)	
1742-0066	$^{3}/_{16}$"-$^{3}/_{16}$" union
1742-0067	Repl. ferrules (10-pk.)
1742-0104	$^{3}/_{8}$"/10 mm, straight banjo fitting
1742-0105	$^{3}/_{8}$"/10 mm, 35° banjo fitting
1742-0106	$^{3}/_{8}$"/10 mm, 90° banjo fitting
1742-0107	$^{7}/_{16}$", straight banjo fitting
1742-0108	$^{7}/_{16}$", 35° banjo fitting
1742-0109	$^{7}/_{16}$", 90° banjo fitting

UNIVERSAL BRAKE LINES AND CHROME STEEL FITTINGS

- Top-quality clear-coated stainless steel-braided or black vinyl-coated stainless steel/braided brake lines, banjo bolts, brake line fittings and crush washers provide consistent reliable performance
- Lines are available in 229 mm (9") through 203 cm (80") lengths
- Features chrome-plated AN-3 ends
- Banjo bolts and fittings are chrome-plated steel and sold separately

BYO® BUILD-YOUR-OWN DOT BRAKE LINE BUILDER KITS

- Assemble lines in only five minutes with side cutters and a $^{7}/_{16}$" wrench for a perfect fit and alignment every time
- Three different kits are available in two colors to solve your brake line assembly challenges
- Basic Builder Single Disc Kits contain $^{7}/_{16}$" and 10 mm banjos and fittings to build multiple front single disc brake lines
- Deluxe Builder Kits contain banjos and fittings to build multiple front single disc brake lines, hydraulic clutch lines and most rear brake lines
- Master Builder Kits include everything in the Deluxe Kits, plus additional banjos along with four brazed and plated manifolds to build most dual front disc brake lines
- All kits are organized in a labeled, compartmental carrying case and include 7,6 m (25') of non-yellowing clear or black coated braided stainless steel hose, chrome or black chrome plated banjos, polished stainless hardware, copper crush washers plus a set of durable Aluminum BYO® Vise Jaws. Kit contents are listed below
- Brake hose and fittings are compliance labeled, pressure tested and 100% inspected
- NOT for use with Anti-lock Brake Systems

NOTE: BYO® brand brake hose and components have been specifically designed to work ONLY in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void all warranty, performance, and liability claims.

NOTE: Black and Basic BYO® Single Disc builder kits do NOT contain rear brake line T-blocks or inverted flare fittings.

NOTE: Black and Basic BYO® Single Disc Builder Kits Hydraulic Clutch Fittings are a natural stainless steel finish.

BYO® BUILD-YOUR-OWN UNIVERSAL BRAKE LINES

- Assembles in five minutes with only side cutters and 7/16" wrench
- All components and hoses are available separately to build your own brake line – choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Brake hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vise wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos and inverted flare fittings are polished and chrome plated with polished stainless steel fittings
- -3 braided black stainless brake line is coated with an opaque black outer jacket – banjos are black chrome plated and include black heat shrink to cover the stainless fittings once assembled

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance and liability compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: Please see page 813 for compatible Drag Specialties and Magnum banjo bolts and crush washers.

- Assembles in 5 minutes with only side cutters and $^{7}/_{16}$" wrench
- Brake hose and fittings are labeled, pressure tested and 100% inspected
- Single disc kits contain 183 cm (6') of non-yellowing clear-coated braided stainless or black-coated stainless line, chrome or black chrome-plated banjos, polished stainless hardware, copper crush washers and vice wrench
- Kits contain all components needed to build one complete stock or custom brake line
- Select by model and year or by banjo size and angle for custom applications

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO® components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance or liability claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: All Big Twin and Ironhead XL use $^{3}/_{8}$" and $^{7}/_{16}$" banjo bolts.

PART #	DESCRIPTION
BRAIDED BLACK STAINLESS SINGLE DISC BRAKE LINE KITS WITH 183 CM (6') BRAKE LINE	
1741-3227	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 35° banjo)
1741-3228	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 90° banjo)
1741-3226	For 84-99 Softail models, 91-98 Dyna models ($^{7}/_{16}$" 180° banjo)

BRAIDED UNIVERSAL BRAKE LINES AND FITTINGS

- Brake lines available in Universal DOT or ABS Universal DOT
- ABS Universal DOT brake lines are manufactured with an enhanced construction designed to be compatible with Harley-Davidson® ABS requirements for alternate length brake lines
- The industry's highest quality braid in four color choices to complement your bike; Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all MAGNUM control cables and brake lines
- Inner PTFE tubing braided with aramid fiber reinforcement greatly reduces line expansion to provide the ultimate in high performance
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Universal AN-3 fittings, banjos, and manifolds are chrome or black chrome-plated
- Banjos are offered in most popular sizes and bend angles
- AN-3 Male Mini Tee with bracket and Rear Brake Switch block are available to complete custom builds
- Brake lines constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: For banjo bolts, see page 813 and for crush washers, see page 813.

RENEGADE UNIVERSAL BRAKE LINES AND FITTINGS

- Preassembled with Russell high-performance #3 stainless steel braided hose that features a rugged PTFE inner liner and crimp-on female swivel hose ends
- Ready for adapter fittings, these build-it-yourself brake lines are the newest innovation from Russell
- Features Twilight Black finish; abrasion-resistant against painted surfaces
- Black hose appearance is perfect for retros and late-model customs
- Provides superior braking performance with braided Powerflex
- Minimize line expansion
- Works with all brake fluids as well as stock, custom and racing applications
- Matching Renegade reusable adapter fittings feature a Twilight Black finish and are sold separately

NOTE: All Big Twin and XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10 mm can be used in either application.

PRO SYSTEM II NYLON LINES AND FITTINGS

- Universal line is manufactured from a semi-rigid nylon material; allows maximum flexibility
- Compression-type chrome or black fittings are easily attached
- Lines and fittings are sold separately
- Replacement olives allow reuse of existing fittings

NOTE: For show and off-road use only.

NOTE: All Big Twin and XL models use standard 10 mm x 1,25 and 12 mm x 1,50 (3/8" and 7/16") banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10 mm will work in either application.

49008	Repl. olives (10-pk.)

All part numbers in **BLUE** are new for the OldBook.

GOODRIDGE
FLUID TRANSFER SYSTEMS

UNIVERSAL BRAKE LINES

- Available in uncoated, clear-coated, ebony and platinum-finished stainless steel lines
- The combination of the PTFE inner and stainless steel outer braid eliminates the spongy feeling under heavy braking conditions
- Great looks combined with reliability and safety
- Thread of 3/8-24 female to go with adapters on pages 821-822

STEEL BRAIDED HYDRAULIC BRAKE LINES

- Inner core is made from PTFE
- Steel fabric has four wires
- Available in black or clear styles in custom lengths from 13 cm L to 200 cm L
- Hose ends have screw-in connectors; must order hose ends and banjo bolts separately for a complete brake line assembly (see page 824)
- Sold each
- Brake lines comply with international DIN standard FMVSS106

BRAKE LIGHT BANJO BOLTS WITH BUILT-IN PRESSURE SWITCH

- Constructed of chrome-plated steel, this brake light switch banjo bolt replaces the OEM part and allows changing of the master cylinder or using rear set conversions
- Single bleed is for motorcycles with one line coming to brake master cylinder

PART #	DESCRIPTION
BL775-03CH	3/8"-24 BL banjo bolt
BL775-44CH	7/16"-24 BL banjo bolt

BRAKE LIGHT BANJO BOLT BOOT

- Clean up the looks of your brake light bolts with this handy 90° black rubber boot
- Fits brake light banjo bolts with built-in pressure switch; switch not included

PART #	DESCRIPTION
1742-0098	Brake light bolt boot

BANJO BOLT WITH BRAKE LIGHT SWITCH MOUNT

- Allows brake light switch to be threaded directly into banjo bolt head
- Screws directly into master cylinder
- Replaces standard 3/8"-24 banjo bolt
- Eliminates junction block
- Great for custom applications
- Sold each

PART #	DESCRIPTION
DS-272185	Banjo bolt w/ brake light switch mount

BANJO BOLT

- 3/8"-24 banjo bolt has a 7/16" shoulder
- Used to attach a 7/16" banjo fitting to caliper or master cylinder that accepts a 3/8"-24 banjo bolt
- Sold each

PART #	DESCRIPTION
1742-0030	3/8"-24 banjo bolt w/ 7/16" shoulder

POLISHED CHROME TAPERED SOCKET-HEAD BANJO BOLT

- Includes washers, features a tapered head

- Extended design of these tanks allows the lines of the tank to flow into the lines of the seat for a great custom look
- 50,8 mm (2") longer than a standard QuickBob tank
- Available in a single- or dual-gas cap style
- Tanks have cutout in rear for seat nose (some seats may need to be shortened)
- Features screw-in bungs (use 82-E96 style caps)
- 14,8 liter (3,9 US gal.) capacity
- Utilizes a 22 mm petcock
- Each tank comes with necessary mounting brackets

LEGACY GAS TANK

- Precision-made tank is TIG-welded construction using deep-drawn steel
- Unique, functional styling gives the bike a great custom look
- All styles hold approximately 12 liter (3 US gal.) and are pressure-tested
- Includes stock screw-in gas cap bung (gas cap sold separately); use 96-up style vented gas cap
- Installs using stock mounts
- Has left- and right-hand 22 mm threaded petcock bungs and includes a steel block-off cap

PART #	DESCRIPTION
0701-0762	For 82-85 XL; repl. OEM #s 61023-93, 61348-96A

GAS TANK WITH CHROME AERO-STYLE GAS CAP

- Rubber-mounted bolt-on style flat-bottom tank is made from heavy-gauge steel
- Reinforced seams and extra-strong mounting tabs
- Tank has a 12,5 liter (3,3 US gal.) "high-tunnel" design to add fuel capacity without looking tall
- Features a chrome aero-style locking gas cap with keys
- Accepts a 22 mm petcock (right side)

NOTE: May require seat nose modification and relocation of ignition switch on some models.

PART #	DESCRIPTION
DS-390340	For 82-85 XL

WASP-STYLE GAS TANKS

- Wasp-style narrow gas tanks for custom applications that have a great vintage look
- Made from precision steel stampings and holds 8,3 liter (2,2 US gal.)
- Has a right side 3/8" NPT and left side 1/4" NPT petcock bung
- Universal brackets make it easy to mount tanks to any stock or custom frame
- Available in a single- or dual-cap version
- Left filler is non-functional on dual cap
- Uses 73-81 style cam lock caps
- Tank dimensions: 45 cm L x 23 cm W x 23 cm D (17,75" x 9" x 9"), tunnel measures 64 mm W x 89 mm D (2,5" x 3,5")

LEGACY LYNX GAS TANK

- Precision-made tank is TIG-welded construction using deep-drawn steel
- Unique, functional styling and a great custom look
- Features a custom raised steel bung and a CNC-machined 1 5/16" diameter raw aluminum gas cap with a Viton® seal
- Tank holds approximately 11,4 liter (3 US gal.) and is pressure-tested
- Requires custom mounting; three-piece weld-on steel mount kit included
- Has left- and right-hand threaded petcock bungs; steel block-off cap included

PART #	DESCRIPTION
0701-0763	For custom XL applications

GAS TANKS

- Bolt-on gas tanks for XL models are made of heavy-gauge steel with reinforced seams
- Comes complete with extra-strong mounting tabs
- 11 liter (2,9 US gal.) tanks are 50,8 mm (2") wider than stock tanks
- PART #DS-391220 uses a 3/8" NPT petcock, all others use 22 mm; petcocks sold separately later in this section

NOTE: All tanks have petcocks on the right side.

KURYAKYN

ZOMBIE LED FUEL AND BATTERY GAUGE

- Easy-to-read LED helps keep an eye on fuel and battery voltage levels
- Chrome-plated die-cast aluminum housing
- No-hassle plug-and-play wiring

PART #	DESCRIPTION
2212-0586	For 94-98 FLHR, 91-98 Dyna (except console-mounted gauges) and 88-94 FXR (except console-mounted gauges)

INFORMER LED FUEL/BATTERY GAUGE

- Cap incorporates LED battery and LED fuel gauge
- Daylight sensor adjusts LED brightness level
- Fuel gauge illuminates a single green LED when full, from full to 5/8 tank a string of green LEDs, from 1/2 to 1/4 tank amber LEDs, from 1/4 tank red LEDs, and when near empty, a flashing single red LED
- "Empty" fuel level at which the red LED begins flashing can be set by the rider
- Battery gauge shows green LEDs when the charging system is between 12,5V and 14,5V, amber LEDs if the bike is not charging and flashing red LEDs if charging level exceeds 15V or drops below 10V
- The perfect match for Kuryakyn's flush-mount gas cap

PART #	DESCRIPTION
2212-0433	For 94-98 FLHR, 91-98 Dyna (except console-mounted gauges) and 88-94 FXR (except console-mounted gauges)

ALLEY CAT LED FUEL AND BATTERY GAUGE

- Provides a nod toward retro muscle car styling
- Easily monitor voltage and fuel levels with the illuminated multi-colored LEDs that produce a highly visible display and provide the perfect complement to the Kuryakyn Alley Cat Gas Caps PART #s 0703-0711 and 0703-0710, sold separately
- Die-cast aluminum, measure 3" in diameter

PART #	DESCRIPTION
2212-0629	For 94-98 FLHR, 91-98 Dyna and 88-94 FXR (except console-mounted gauges)

ALLEY CAT GAS CAP

- 3" in diameter, vented, right-hand thread design
- Quality die-cast aluminum construction with a gloss black finish

PART #	DESCRIPTION
0703-0711	For L96-99 H-D models w/ screw-in type vented gas cap

MESH

MESH FUEL/BATTERY GAUGE

- Plug-and-play direct replacement for the stock fuel gauge
- Ultra-bright LED display shows fuel level and battery voltage
- Low-profile, multi-piece design can be easily disassembled for custom finishing and paint
- Matches the Kuryakyn Mesh Gas Cap PART #s 0703-0764 (sold separately)

NOTE: Replaces tank-mounted (not center console mounted) fuel gauge.

PART #	DESCRIPTION
2212-0635	For 94-98 FLHR. 91-98 FXD/FXDWG and 88-94 FXR

MESH

MESH GAS CAP

- Sleek design with indented grooves around the edge for easy removal/installation
- A380 aluminum construction with a stainless steel mesh insert
- Insert can be removed for custom painting
- Vented right-hand threads

VENTED GAS CAPS WITH WELD-ON BUNGS

- Easy weld-in caps for either gas or oil tanks
- 38 mm (1 1/2") diameter bungs are available in steel or aluminum
- Vented gas cap is aluminum with knurled edge
- Cap measures 41,3 mm (1 5/8") diameter

PART #	DESCRIPTION
0703-0479	W/ weld-in steel bung

PART #	DESCRIPTION
0703-0720	W/ weld-in aluminum bung

"LIVE TO RIDE" GAS CAP COVERS

- Gas cap covers are a great way to detail a bike
- Available with a detailed chrome eagle/banner with the "Live to Ride" script recessed into each part
- Covers measure 7,3 cm (2 7/8") in diameter; are held on by special adhesive tape and include one left- and one right-hand eagle emblem
- Sold in pairs

PART #	DESCRIPTION
DS-390126	For most 82-99 models

LOW FUEL LIGHT ELIMINATOR PLUG

- Designed to turn off the low fuel warning light in the speedometer
- For use when removing factory fuel gauge

PART #	DESCRIPTION
2130-0136	For 94-98 FLHR, and 91-98 Dyna

All part numbers in BLUE are new for the OldBook.

Pass More Gas®

IN-LINE CUSTOM FUEL VALVE

- Designed with the bike builder in mind
- Eliminates the need to worry about fuel valve location
- Simple on/off valve without reserve or filter

PART #	DESCRIPTION
0705-0032	In-line fuel valve

Pass More Gas®

CHOPPER VALVE

- Designed for use on bikes with custom fuel tanks that are raised high in front, which doesn't allow proper fuel pickup with a standard reserve fuel valve
- Keeps the bottom of the tank clean from fuel lines, giving universal options for mounting the fuel valve with mounting holes on the back of the valve
- Smooth, clean lines with a compact design that measures 50 mm (2") L x 38 mm (1 1/2") H x 35 mm (1 3/8") D
- Easy-to-operate position selector knob with a ball detent for positive on/off/reserve locating
- Two 5/16" hose inlets with one 5/16" hose outlet
- Requires two hoses to be routed from the tank: one for on and one for reserve
- Provides exceptional fuel flow to feed the thirstiest big-inch motors
- CNC-machined from billet brass, polished and chromed

PART #	DESCRIPTION
0705-0042	Chopper valve

Pass More Gas®

HIGH-FLOW FUEL VALVE WITH CUSTOM ROUND KNOB

- Custom knob features a detent for positive "on" position with ball-milled grooves that gives the valve a nice grip and a custom look
- Substantially higher fuel flow than OEM or aftermarket fuel valves
- Very universal; will work in any tank location
- Valve features a brass body with show-quality chrome plating
- Easy-to-read on, off and reserve positions

PART #	DESCRIPTION
0705-0033	22 mm round; 180° outlet facing inward

Pass More Gas®

VACUUM FUEL VALVES

- Has the highest fuel flow of any vacuum-style fuel valve on the market
- The same feature as OEM vacuum fuel valves – when valve is left in the "on" position with the motor off, fuel flow is shut off automatically
- High-quality, lustrous chrome finish is the same as Pingel's Power-Flo line of fuel valves
- Fits all 94-99 stock applications with 22 mm external thread
- Will also fit 84-93 models if a vacuum source is tapped
- Outlet is a single 5/16" hose barb and will accept the stock vacuum line

NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the Reserve position of the fuel valve lever.

POSITIVE OFF DETENT FUEL VALVES

- Round detent valve with levers with positive stops for the On and Reserve and a detent for the Off in the center position
- Valve features a brass body with show-quality chrome-plating
- Substantially higher fuel flow compared to OEM or aftermarket fuel valve
- 22 mm adapter nut included

NOTE: All descriptions are made from a left-side seated position on the motorcycle with a reference from outlet position to the OFF position of the fuel valve lever.

FUEL VALVE REBUILD KIT

- Designed to rebuild Pingel 3/8" NPT and 22 mm single-outlet valves
- PART #DS-390225 includes all the special tools necessary, photos, instructions and enough components to rebuild three fuel valves
- PART #DS-390226 includes enough components to rebuild five fuel valves; does not include any of the tools
- A bench vise or press with a 6 1/2" or larger opening is necessary for installing a rebuild kit

NOTE: These kits are not designed for hose outlet down, dual or triple outlets, 1/4" NPT or race valves. Pingel recommends these valves be sent directly to them for rebuilding.

PART #	DESCRIPTION
DS-390225	Fuel valve rebuild kit, complete

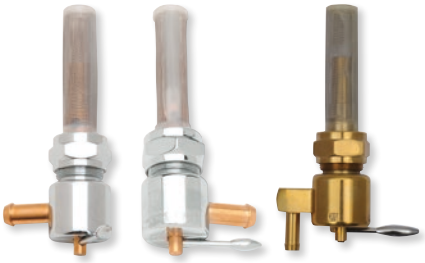

PART #	DESCRIPTION
DS-390226	Fuel valve rebuild components only

PINGEL Since 1967

BIG TWIN VALVE ADAPTER

- Offers better fuel flow and retains the stock crossover connection of your 35-65 style Harley-Davidson® split fuel tanks
- Don't let the stock fuel valve be the main jet — the stock fuel valve setup simply cannot support the fuel demands of today's high-performance engine
- Stainless steel gas tank adapter and any 22 mm threaded Pingel Power-Flo or Guzzler fuel valve (sold separately) will drastically improve your fuel supply

PART #	DESCRIPTION
0705-0053	Valve adapter

DRAG Specialties

GAS VALVE

- Shut-off rod and seat assembly; features a left tank reserve

NOTE: Fits earlier models if Linkert gas line is changed to 48-65 style.

PART #	DESCRIPTION
DS-390205	For 48-65 Panhead; repl. OEM #62033-41

Colony Where Excellence Is a Standard

GAS VALVE FITTING KIT

- Chrome-plated valve fitting kit is designed to use flexible hoses

NOTE: Not for Linkert carb.

PART #	DESCRIPTION
DS-193807	For 36-65 Big Twin

All part numbers in BLUE are new for the OldBook.

FUEL PUMP FOR FUEL-INJECTED CUSTOM BIKES

- Pump can be mounted in nearly any tank
- Hollow mounting bolts secure the pump flange to the bottom of the tank and provide an outlet for wiring and pressurized fuel
- In-tank fiber filter prevents contaminants from damaging the pump or clogging fuel injectors
- Kit contains pump, in-tank filter, inlet hose, mounting hardware and instructions
- Pump specifications: 58 psi, 12,0 gal/hr, 5A draw

PART #	DESCRIPTION
1009-0007	Fuel-injected fuel pump for custom applications

FUEL PUMP MODULE KIT

- Comes ready for plug-and-play installation
- Economical solution for restoring lost performance or non-performing fuel pump
- Includes necessary pump, filter, hose(s), clamp(s) and wiring harness as necessary per model

PART #	DESCRIPTION
1009-0077	For 95-98 FLT/FLHT/FLTR/FLHR

SEAL FOR FUEL PUMP DOOR

- Meets or exceeds OEM specifications
- Replacement screws available separately
- Sold each

PART #	DESCRIPTION
0701-0663	For 95-98 FLT/FLHT/FLTR/FLHR; repl. OEM #61326-95

FUEL TANK OUTLET PLUG

- Use to plug the outlet on fuel tanks that use either the fuel-injection or petcock adapter
- Also for use on aftermarket fuel tanks that have dual fuel outlets, but only one is required for use
- Includes O-ring seal
- Fits OEM and aftermarket fuel tanks that accept petcock adapter OEM #62842-00 (Drag PART #0705-0024)

PART #	DESCRIPTION
0705-0054	Polished chrome

TANK FITTING KIT FOR FUEL-INJECTION TO CARBURETOR CONVERSION

- Use when converting from OEM fuel-injection systems to use a carburetor in order to deliver adequate fuel for large-displacement engines
- Kit replaces the factory tank fittings, allowing the use of a high-quality, high-flow Pingel fuel valve to feed the carburetor
- Made of stainless steel
- Kits include adapter and plug or adapter only with O-rings or gaskets
- See Pingel fuel valves on pages 845-847

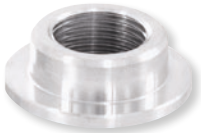

NOTE: Due to tight tolerances in the tank fittings, a Pingel fuel valve is the only one that will fit.

PART #	DESCRIPTION
0705-0030	For 95-98 FLT/FLHT models w/ Magneti Marelli EFI (adapter and plug); for use w/ any Pingel 22 mm valve

PREMIUM FUEL LINES

- Stronger and more durable than vinyl fuel line
- Use with any type of gasoline
- Resist swelling and hardening
- Resistant to direct sunlight, hardening and/or cracking
- Flexible in temperatures from -37°C to 74°C (-35°F to 165°F)
- Fuel line stretches easily over fittings or petcocks
- Sold in 91 cm (3') lengths and 7,6 m (25') rolls

LP (LOW PERMEATION) PREMIUM FUEL LINE

- Certified to meet permeation emission standards of 15g/M2/day
- On emission-controlled vehicles, check with local and state agencies to determine suitability
- Robust multi-layer design and construction
- Fluoropolymer liner compatible with higher ethanol-blend gasoline up to 100%
- Highly flexible, easy to install and offers excellent fitting retention
- Resistant to swelling, hardening and cracking caused by hydrocarbon-based fluids
- Ozone and UV light resistant
- Wide temperature range from -28,9 °C to 73,9 °C (-20 °F to 165 °F)
- Yellow color for easy identification
- Use Stepless® Clamps

WARNING: Not for use with fuel injection systems.

BLUE POLYURETHANE FUEL LINE

- High-quality, kink- and abrasion-resistant, transparent blue polyurethane fuel line with exceptional chemical resistance including gasoline, grease and oil
- Strong, yet flexible, and easily processed in assembly operations
- High tensile strength; withstands temperatures from -53,8 °C to 104,4 °C (-65 °F to 220 °F) without deterioration

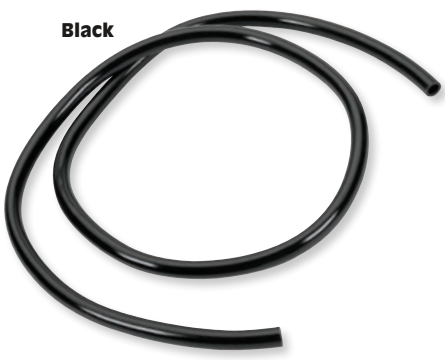

NOTE: Not to be used with fuel over 10% alcohol.

PART #	DESCRIPTION

FUEL AND CARBURETOR VENT LINE

- This quality-made fuel line will not harden or crack
- Fuel line is made of premium polyurethane
- Available in 1/4", 3/16", and 5/16" ID; carburetor vent line available in 1/8" ID
- Fuel line available in 91 cm (3') lengths
- Carb vent line comes in 152 cm (5') lengths

NOTE: Not to be used with fuel over 10% alcohol.

HIGH-PRESSURE FUEL LINES

HELIX RACING PRODUCTS

- Premium transparent polyurethane tubing
- 85 durometer provides superior abrasion, kink, tear, oxidation and chemical resistance
- Include a very strong nylon inner band, yet remain flexible
- Operating temperature -40 °C-68 °C (-40 °F-155 °F); melting temperature 188 °C (370 °F)
- Withstand up to 200 psi

NOTE: Do not use with fuel containing more than 10% alcohol.

Motion Pro

STEPLESS® EAR CLAMP KIT FOR FUEL SYSTEM

2402-0132

2401-0559

- Convenient kit includes 80 pieces of hardware, a Motion Pro Side Jaw Pincer tool, and a convenient fuel line clamp size chart
- Narrow 5 mm wide band provides concentrated seal compression
- 360° Stepless® design with no gaps on inner surface
- Specially formed strip edges reduce the risk of damage to the part being clamped
- Lightweight design
- Tampering is visible
- Kit includes 10 each of the clamps listed below in a convenient storage box
- Individual clamp sizes available separately in 10-pack for restocking

PART #	OEM #	DESCRIPTION
2402-0132	-	Fuel system stepless clamp kit
2401-0557	-	Stepless clamps; 7,8 - 9,5 mm (fit Motion Pro Premium and clear vinyl 3/16" ID fuel line) (10-pk.)
2401-0819	-	Stepless clamps, 8.8 - 10.5 mm (fit Motion Pro Low Permeation yellow fuel line w/ 1/4" ID) (10-pk.)
2401-0716	10222	Stepless clamps; 9,6 - 11,13 mm (fit Motion Pro Premium and clear vinyl 3/16" ID fuel line) (10-pk.)
2401-0558	10304	Stepless clamps; 10,3 - 12,8 mm (fit Motion Pro Premium 1/4" ID fuel line) (10-pk.)
2401-0559	10117	Stepless clamps; 10,8 - 13,3 mm (fit Motion Pro clear vinyl 1/4" ID fuel line) (10-pk.)
2401-0560	-	Stepless clamps; 12,0 - 14,5 mm (fit Motion Pro Premium and clear vinyl 5/16" ID fuel line) (10-pk.)
2401-0717	10038A	Stepless clamps; 13,2 - 15,7 mm (10-pk.)
2401-0561	10080	Stepless clamps; 14,8 - 18,0 mm (fit Motion Pro Premium and clear vinyl 3/8" ID fuel line) (10-pk.)

Motion Pro

STEEL O-CLIPS

- Double-ear O-clips
- Easy to install
- For low-pressure applications
- Snag-free, smooth, polished finish
- Strong, positive clamping strength without damage to the hose
- Simple to remove by clipping an ear
- Sold in packs of 10
- Pincher tool not included; order PART #3801-0034

PART #	DESCRIPTION
2401-0095	7/16" O-clips for 1/4" hose
2401-0096	1/2" O-clips for 5/16" hose
2401-0391	9/16" O-clips for 3/8" hose

DS-350145-PK	1/4"-20 threaded studs and steel side plates; for mounting battery boxes and oil tanks (5-pk.); repl. OEM #62563-65

FEULING

VENTED DIPSTICKS

- Billet dipsticks vent/breathe excessive crank case pressure from the oil tank through a PCV style breather consisting of an oil separator system, perforated disc, replaceable filter element and umbrella flapper valve
- Screws into the factory oil fill spout as a stock replacement part
- These breathing dipsticks remove unwanted build-up of blowby pressure
- Larger cubic inch engines as well as engines with worn and/or loose ring clearances will have increased blowby
- Blowby is pressure that is forced past the rings and cylinders, pushed into the crankcase and then forced back into the oil tank
- Feuling test results show a decrease in engine oil sump levels, more freely/smoother revving engine, increased MPG and decreased blowby
- Dipsticks vent/breath excessive crank case pressure from the oil tank through a breather system consisting of a oil separator system, perforated disc, replaceable filter element and umbrella flapper valve
- Kits includes two venting style options to choose from when installing the dipstick
- Option 1: 1/8" NPT breather vent fitting with internal porous filter element (this option gives a clean look, however it can produce an oil misting/residue out of the element on engines with excessive leakdown/blowby)
- Option 2: Quick-disconnect coupler fitting with rubber hose and filter element (this option will run any excessive oil misting/residue through the line and into the filter element, however this option does requires disconnecting the fitting in order to check the oil
- For Option 2, Feuling recommends routing the line up the frame rail, up under the seat/abs area then back down along the right side frame rail and the filter element can fit cleanly between the engine/trans matting area on the inside of the lower right frame rail

1012-0258

- Checking oil level: There are two ways to read the oil level with this dipstick, with the bike on the jiffy stand (FHS) or the bike upright and level (FHU)
- FHS = FULL HOT STAND
- FHU = FULL HOT UPRIGHT
- Available in polished or fade-resistant black

NOTE: These dipsticks do get hot; use a glove when checking oil level.

NOTE: It is important to get the correct hot oil level in your bike. Feuling recommends running the oil level 90%-99% full when hot.

NOTE: The oil pick up port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHR/FLTR MODELS	
1012-0258	Polished

GOODRIDGE
FLUID TRANSFER SYSTEMS

REUSABLE BUILD YOUR OWN OIL LINES AND -6 COMPONENTS

- Easy-to-assemble high-quality oil lines and fittings
- Feature stainless steel braided hose with PTFE inner liner or black textile braided hose
- PTFE liner is an inert material, compatible with all oils and hydraulic fluids, has a heat range of -106 °C to 260 °C (-158 °F to 500 °F) and shields oil systems from moisture, unlike other materials like nylon
- Fittings meet 96-hour salt spray testing and ship complete with sealing ferrule

RUSSELL

UNIVERSAL BRAIDED HOSE AND FITTINGS

- Proflex hose features traditional stainless steel braided outer jacket with Russell's race-proven CPE synthetic rubber inner liner
- Pro classic hose utilizes a black nylon fabric outer braid over Russell's proven SPE synthetic rubber inner liner
- Superior construction enhances bend radius, yet will not collapse under extreme heat
- Ideal for street use or full competition
- Lightweight and easy to work with
- Simplifies routing, cutting and assembly
- Has a great bend radius with a max pressure rating of 350 psi
- Engineered to work with Russell full-flow hose aluminum hose ends in straight 45- and 90° in AN -6 or -8 sizes

SLIMLINE BILLET OIL FILTER MOUNT

- 1/2"-thick billet aluminum mount with 3/8" external fittings
- Available in chrome
- Provide a low-cost, slim oil filter mount

PART #	DESCRIPTION
0712-0035	For 92-99 Evolution Big Twin

PROVEN S&S PERFORMANCE

OIL FILTER MOUNTING BRACKET KIT

- Polished billet oil filter mounting bracket
- No voids or other casting defects in the material to cause leaks
- Position of the filter has been shifted slightly to give additional clearance between the filter body and the crankcase for easier filter installation and removal
- Also machined to make it easy to install an oil cooler in the pressure-side of the system; if a cooler is not needed, simply install the pipe plugs in the threaded holes in the filter bracket, instead of the hose fittings

OIL FILTERS

- Sturdy steel canister houses the finest filtering media and internal components available
- Canister is slightly smaller in diameter than stock filters to make them easier to remove and install; include O-rings
- Designed with a direct bypass valve that routes bypass oil directly to the filter exit, which minimizes the amount of contaminants carried to the engine in the unfiltered bypass oil
- The nominal particle capture size is smaller than that of stock filters while the resistance to oil flow is nearly the same
- Sold individually or in packs of 12
- Available in black or chrome finish

PERFORMANCE OIL FILTERS

- K&N delivers a premium oil filter which is built with a synthetic media specifically designed to withstand the high concentrates of synthetic racing oils
- A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth
- Uniform pleated synthetic filter media provides high capacity and outstanding filtration
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Protected by a heavy-duty canister and base plate, with a double-rolled seal
- Check-valve/anti-drain back valve prevents drain-back and dry starts (where applicable)
- Pre-lubed base gasket
- 17 mm hex nut (pre-drilled for safety wire security) allows easy-on, wrench-off removal (where applicable)

HF172C

- The original Hiflofiltro factory was founded in 1955 and has been manufacturing filters for the OEM motor industry since 1963
- With more than five decades of constant research and development in a completely modern production facility, Hiflofiltro offers some of the best quality filters in the world
- Production monitored to ensure OEM or better quality
- Constructed using the best materials available
- One of the broadest ranges of aftermarket coverage

PERFORMANCE OIL FILTERS

- Heavy-duty steel casing features a pre-drilled welded hex nut for easy removal and installation
- Performance filters feature premium high-flow tri-fiber filtration media which stops more contaminants from reaching critical engine components
- Racing technology that is engineered for everyday use and standard service intervals
- Fully compatible with all oil types

HYPERFLOW LIFETIME OIL FILTER

- Precision CNC-machined billet aluminum body
- Knurled non-slip grip surface
- 30 micron absolute filtration
- Cleanable/reusable surgical-grade stainless steel woven filter element
- Disassembles without tools for easy inspection and cleaning
- Extreme flow volume greatly exceeds OEM filters
- Built-in rare-earth magnet

PART #	DESCRIPTION
0712-0555	For all H-D models w/ front-mount spin-on oil filters (3/4"-16 thread)
0712-0556	Service kit

FLO® STAINLESS STEEL "DROP-IN" OIL FILTER

- Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases
- Stainless filter catches items down to 35 microns, which is about three times better than most good paper or brass filters
- Unlike glued paper filters, the FLO® Oil Filter pleat seam is welded and able to withstand up to 600 °F
- Filter maintains consistent flow under all conditions including extreme heat, the presence of water, and cold start ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter the engine
- High-tech filter technology is widely used in all types of auto racing including NASCAR, Indy-type cars, Formula 1 and in the aerospace industry where filtration is of the utmost importance

PART #	DESCRIPTION

0713-0272

0713-0275

VERTICAL FRAME-MOUNT OIL COOLER KITS

Installation time measured in minutes

Extra riding time measured in years

- Cooler oil makes engines last longer – simple as that!
- Jagg oil coolers feature cutting-edge technology to keep your engine cool under the most punishing conditions
- And because they're designed to look as good as they perform, they'll perfectly complement your bike's style
- Hoses and clamps are included with oil cooler kits

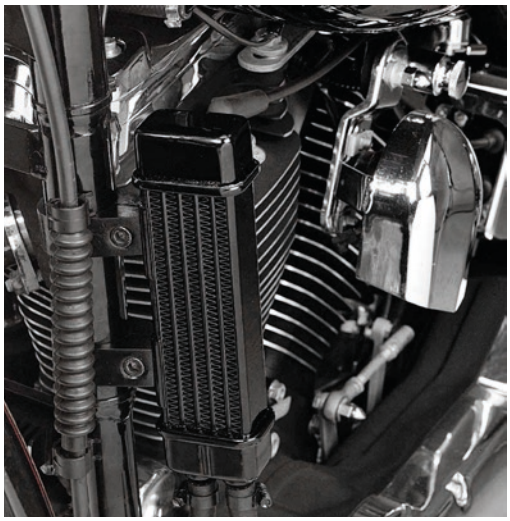

Engineered to perform

- Multipass oil flow configuration ensures the oil's utilization of the entire oil cooler
- Specially designed turbulators in each oil passageway gently stir oil, exposing it to more critical heat dissipation surface area for superior cooling with minimal oil pressure restriction
- Highly concentrated mini-louvered air fins allow maximum heat transfer

NOTE: Vertical oil coolers do not fit touring models with lower fairings.

NOTE: Ten-row coolers are recommended for 95" and larger motors.

0713-0273

VERTICAL FRAME-MOUNT FAN-ASSISTED KIT

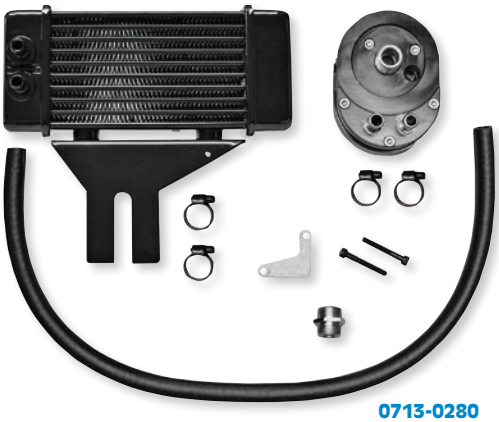

- Features the Jagg high-performance 10-row oil cooler kit with an integrated fan
- Designed to perform as well at low vehicle speeds and stop-and-go traffic as on the open highway
- Kit includes cooler, sealed-motor fan, oil hose, mounting hardware, automatic thermal fan switch wiring harness and Jagg offset oil filter adapter
- Fan turns on automatically at approximately 96 °C (205 °F)
- Fan pulls a full 150 cfm of air across cooler
- HyperFlow technology ensures unsurpassed flow and heat rejection

PART #	DESCRIPTION
0713-0282	For 84-98 Dresser, 84-99 Softail and 91-98 Dyna

All part numbers in BLUE are new for the OldBook.

OIL HOSE UPGRADE KITS

- Sets your bike apart and gives your Jagg oil cooler a racy look with performance braided oil hoses
- Choice of bright stainless-steel braided or black lightweight fiber braided 91 cm (3') or 183 cm (6') hose
- Kits include two aluminum hose separators in matching color and four aluminum hose finishers with integrated worm-drive clamps in matching color
- Installs easily; simply trim hose to required length, slip hose finishers over ends of hose, press hose onto nipple and tighten hose clamp to achieve an easy and beautiful upgrade

OIL FILTER ADAPTERS WITH THERMOSTAT

- Automatic thermostatic oil bypass valve allows oil to bypass the oil cooler until reaching operating temperature for faster vehicle warmup times
- Flows oil through the filter first, for better flow
- Stock-to-Jagg oil filter nipple is required when converting from stock H-D oil filter adapters to Jagg oil filter adapters; available separately
- Required for oil cooler installation on Twin Cam models
- Optional anti-rotation device for PART #0713-0031 bolts to face of offset oil filter adapter to lock in place during future oil filter removals; available separately
- Service kit for PART #0713-0031 includes new thermostat element assembly, AFM gasket and large O-ring
- Service kit for PART #0713-0145 includes two replacement quad-seal O-rings

PART #	DESCRIPTION
FOR 95-98 FUEL-INJECTED EVOLUTION BIG TWIN MODELS	
0713-0271	Oil filter adapter
0712-0557	Anti-rotation device for PART #0713-0031
0713-0216	Thermostat service kit for PART #0713-0031

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG-TWIN (CARB) W/ FRONT-MOUNT SPIN-ON OIL FILTERS	
0713-0145	Oil filter adapter

OIL FILTER ADAPTER

- Installs between the oil filter landing and the oil filter for easy oil supply access for installing an oil cooler (not included)
- Machined from anodized billet aluminum
- Flows oil through oil cooler full-time, with no oil bypass
- Sweeping internal flow passages produce optimal flow characteristics
- ProLine swivel fittings for easy oil plumbing
- HyperFlow technology balances performance and flow
- NPT port and plug for optional installation of sending unit or switch

PART #	DESCRIPTION
0713-0253	For 92-99 Evolution Big Twin (carb), L84-85 XL models w/ front-mount spin-on oil filters

0713-0215

MANUAL OIL BYPASS VALVE

- Acts as a manual thermostat, allowing you to bypass the oil cooling system for cold-weather riding or for faster warm-ups on cool days
- Durable anodized billet aluminum construction
- Knurled grip knob
- Works with all oil coolers
- Compact in-line installation
- Service kit contains replacement O-rings, snap-ring retaining clip for manual bypass knob and spare decal

NOTE: If oil hoses between the oil cooler and the oil source are too short, the oil cooler bypass valve may not fit in the oil lines. Jagg bypass valves require at least 76 mm (3") of straight hose.

0713-0218

PART #	DESCRIPTION
0713-0215	Manual oil bypass valve
0713-0218	Service kit

AUTOMATIC OIL COOLER BYPASS VALVE SERVICE KIT

PART #	DESCRIPTION
FOR TRANSMISSION DRIVE 66-80 FL, 80-83 FXWG AND 71-72 FX MODELS (CONT)	
DS-243806	Repl. socket/bulb for FL-style speedo
DS-293873	Knurled aluminum speedo reset knob for early D.S. FL-style speedos, $2^{3}/_{16}$" long (10-pk.)

2:1 SPEEDOMETERS

- Speedos have 12 mm thread
- To install speed heads on 47-67 FL, use cable adapter PART #2210-0062 (sold separately)

PART #	DESCRIPTION
FOR 81-84 FL, 73-84 FX WITH FRONT-WHEEL DRIVE SPEEDO, 47-61 FL W/ TRANSMISSION DRIVE SPEEDOS	
DS243845	89-95 face
2210-0345	89-95 face (km/h)
DS-243885	68-84 face
2210-0346	68-84 face (km/h)
DS-243866	62-67 face

- Available in mph and kmh where noted
- Version with built-in electronic 12V tach available

NOTE: Mileage cannot be reset on speedometers.

PART #	DESCRIPTION
FOR 81-84 FL, 73-84 FX WITH FRONT-WHEEL DRIVE SPEEDO, 47-61 FL W/ TRANSMISSION DRIVE SPEEDOS (CONT)	
DS-243876	36-40 face
DS-243893	Billet-look face
DS-243806	Repl. socket/bulb for FL-style speedo
DS-293873	Reset knobs for early D.S. FL-style speedos (10-pk.)

2240:60 SPEEDOMETER WITH REED SWITCH

- Comes with an electronic reed switch for self-canceling turn signals
- Features the 68-84 face and has 12 mm threads
- Trip reset knob not included; must be purchased separately

NOTE: Mileage cannot be reset on speedometers.

NOTE: Will only fit with the 91-95 cast dash OEM #71241-91 or PART #DS-373694.

PART #	DESCRIPTION
FOR 91-95 FXST AND FLST W/ FRONT-WHEEL DRIVE SPEEDOS	
DS-243901	68-84 face with reed switch
DS-293872	Trip reset knob and screws (10-pk.)
DS-243806	Repl. socket/bulb for FL-style speedo (ea.)

DS-243901

2210-0421

1 7/8" MINI PROGRAMMABLE ELECTRONIC SPEEDOMETERS WITH INDICATOR LIGHTS

- One of the smallest, cleanest speedometers available
- Programmable with any sending unit that sends 3.000 – 90.000 pulses per mile
- Gauge bezel measures 1 7/8" in diameter
- Overall length is approximately 2" L
- Feature a 12V LED backlit display
- Digital odometer and dual trip meters
- Indicators for high beam, neutral, oil pressure and turn signals
- Remote single-button switch allows easy changing between odometer and trip meter
- Color-coded wires and detailed wiring instructions
- Includes chrome mounting clamp for installation on 7/8" – 1 1/4" diameter tubing

2210-0422

PART #	DESCRIPTION
POLISHED STAINLESS STEEL	
2210-0416	120 mph, black face
2210-0418	220 km/h, black face

3 1/8" DASH MOUNT 150 MPH SPEEDOMETER

- 2:1 replacement-style speedo head comes with trip set, bulb and socket

PART #	DESCRIPTION
DS-243864	For 73-E84 FX models (except 83-E84 FXE); repl. OEM #67020-73B

1 7/8" 140 MPH MINI MECHANICAL SPEEDOMETERS

- Polished, stainless steel housing
- Available with 2240:60 or 2:1 ratio
- Accepts 12 mm cable
- LED illuminated face with black gauge face
- Include mounting clamp for 1" – 1 1/4" tubing
- Matching tachometer (PART #2211-0055) sold separately

PART #	DESCRIPTION
7805-6845	2240:60 ratio

2,4" MINI MECHANICAL SPEEDOMETERS WITH LED INDICATORS

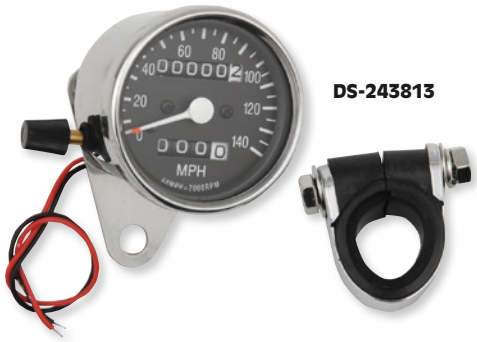

- Features a trip meter and four LEDs built into the face of the speedometer
- Blue for high beam, green for neutral, red for oil pressure and yellow for turn signals
- Accepts a 12 mm cable
- Available with a black face
- Backlit with long-lasting LEDs
- Includes wiring, connector and handlebar clamp
- Matching tachometer PART #2211-0104 sold separately

MVX-8K SERIES ANALOG/DIGITAL PLUG-IN INSTRUMENTATION

- Whether installing a six-gauge set, or building your perfect gauge set from Dakota Digital's optional gauges, you will get all seven gauge readings displayed in the speedometer and tachometer LCD readouts (speed, rpm, volts, fuel, oil pressure, oil temp and air temp), as well as miles-to-empty and performance readouts (0-60 time, and quarter-mile speed and time)
- Personalize the gauge set by programming the pointer, backlight and LCD message center colors independently
- Six-gauge kits include speedometer, tachometer, oil pressure, oil temperature, fuel level and voltmeter
- Two-gauge kits include speedometer and tachometer (will display other gauge readouts in odometer)
- Optional fuel level gauges, oil pressure gauges, oil temperature gauges and voltmeter can only be used with MVX six- and two-gauge kits; they will not work alone
- Seven user-selectable LED lighting colors available for background, message and pointer: red, green, blue, teal, magenta, amber or white
- Chrome or black bezels available

MVX SERIES ANALOG GAUGE SYSTEMS

- Has 140 mph speedometer, tachometer, odometer, dual resettable trip meters and full indicator light complement (turn signal, high beam, neutral, low oil pressure) in one stylish gauge
- Features seven user-selectable colors for pointer, backlight and LCD message center (red, green, blue, teal, magenta, amber or white)
- Two different face options available: black with gray accents and white with gray accents
- 8000 rpm tachometer has adjustable shift point and can display in digital numeric readout
- Resettable miles-to-service with a warning (user settable countdown) and hour meter
- Clock function (12-hour format)
- Voltage readout with low-voltage alert
- Cylinder head temperature sensor (if bike is equipped with factory sender unit)
- Oil pressure warning light (sold separately, PART #2212-0513 or DS-250019)
- Seven-speed gear position indicator, compatible with 3- to 7-speed transmissions
- Security system indicator
- Automatic turn signal cancelling compatible
- Wait to start/check engine light function
- Can perform performance calculations such as 0-60 time, top speed and peak rpm recall, 1/4-mile time and speed
- Wiring installation is cut/splice; not a direct plug-in gauge
- Case diameter measures 4 1/4" and bezel diameter of 4 5/8"

MLX-9000 SERIES GAUGES

- Can be configured to show just what the rider wants to see
- Automatically dims and brightens depending on light levels
- Independently select colors for speed reading, message center information, bar-graph readouts and gauge labels, or choose from 12 preset themes
- 0-199 mph/km/h speedometer, 0-8,000 rpm bar graph tachometer, oil pressure gauge (sensor included), voltmeter and fuel level gauge (requires stock sender, gear position readout, clock, million-mile odometer with dual trip meters)
- Also includes turn signal, high beam, neutral, low fuel/oil/voltage, service engine and wait-to-start indicators
- Performance displays can show 0-60 mph/km/h timer, 1/4-mile time and speed, and high speed/rpm recall
- Features Bluetooth® technology that allows easy setup and customization from a smartphone or tablet
- Black or chrome bezel
- 31 illumination colors available
- Measures 6 1/2" W x 2 1/4" H x 1 3/4" D

3015 MODEL SPEEDOMETER/TACHOMETER

- High-brightness, vacuum fluorescent graphic display technology
- Includes turn signal, high beam, low oil, neutral and engine indicator lights (found on fuel-injected bikes)
- Speedometer is easily recalibrated for any gearing and tire size combination
- Includes an odometer with resettable trip meter
- Selectable displays allow the rider to choose between speedometer only, speedometer with odometer and trip meter, or speedometer with bar/graph tachometer
- Tachometer offers an adjustable shift point warning; calibration adjusts easily for any combination of one to 15 cylinders without using coils
- Features high beam, turn signal, neutral and low oil pressure indicators
- Automatic turn signal canceling compatible
- Displays "check engine" and "wait to start" lights
- Compact 2 1/16" diameter gauge is only 1" deep; machined aluminum housing with chrome front bezel and scratch-resistant, no-glare lens
- Sending units, adapters and mounting brackets available separately for use with either electronic or cable drive systems – OEM electronic speedometer sensor cable plugs directly into the back of gauge if desired
- Order mounting cups and brackets below, available separately

3000 SERIES DIGITAL INSTRUMENTS

- High-quality digital instruments that offer stable, accurate and easy-to-view readings
- Teal display offers high-contrast visibility, even in sunlight
- All gauges have machined aluminum housings, chrome front bezels and non-glare, scratch-resistant lenses

SPEEDOMETERS

- Push-button calibration
- Odometer has resettable trip meter
- 3011 model is an adjustable 199 mph speedometer that calibrates to almost any gearing and tire size combination; easy push-button calibration
- Displays speed in numeric and bar graph form
- Odometer has two resettable trip meters and a miles-to-service meter with warning
- Features turn signal, low oil, high-beam and neutral indicators
- Performs calculations and displays high-speed recall, 0-60 timer and 1/4-mile time and speed
- Automatic turn signal canceling compatible

SPEEDOMETER/TACHOMETER

- Adjustable 255 mph speedometer calibrates easily to almost any gearing and tire size combination; push-button calibration
- Tachometer displays as bar graph and features an adjustable shift point warning
- Tachometer calibration is easily adjusted for combinations of one to 15 cylinders without using coils
- Odometer has two resettable trip meters, an hour meter and miles-to-service meter with warning
- Features turn signal, neutral, low oil pressure, low voltage, high beam and security indicators
- Performs calculations and displays high-speed recall, high-rpm recall, 0-60 timer and 1/4-mile time and speed
- Displays "check engine" and "wait to start" lights
- Gear position indicator works with 3- to 6-speed transmissions
- Automatic turn signal canceling compatible

PART #	DESCRIPTION
ODYSSEY II SPEEDOMETER	
2210-0038	3011 model 3 3/8" speedometer w/ indicators (resolution 1 mph)
2212-0085[1]	Transmission speed sensor for PART #DS-250036
DS-250011	Sending unit for cable drive applications (can be mounted remotely or on speedometer; accepts 5/8"-16 cable nut) for PART #DS-250036
2210-0013	Pickup sensor, repl. Original Equipment electronic transmission sensor for PART #s 2210-0038 and 2212-0101
2210-0014	Rear wheel pickup sensor for Softail and rigid applications (1 1/8" ID) for PART #s 2210-0038 and 2212-0101
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread), for PART #s 2210-0038 and 2212-0101
2210-0015	Universal inductive sender (reads the transmission gear teeth or steel rear sprocket) for PART #s 2210-0038 and 2212-0101
OTHER ODYSSEY II INSTRUMENTS	
2212-0102	2 1/16" fuel level, oil pressure, oil temperature and air pressure gauge

TACHOMETERS

- Both models have 0-18.000 rpm range and easily adjust for combinations of one to fifteen cylinders without using coils; push-button calibration
- Works with single- or dual-fire ignitions
- Displays rpm and high-rpm recall
- 3021 model features an adjustable shift point warning and hour meter; when used with 3011 model speedometer, tachometer displays gear position indicator

NOTE: 3 3/8" speedometer, speedometer/tachometer and tachometer and 2 1/16" engine instruments will fit the 96-98 FLTR, FLHT fairing.

2212-0146	1 1/2" handlebar clamp for 3 3/8" gauge cup

[1] For 96-98 OEM Harley-Davidson and aftermarket Big Twin transmissions.
[2] Uses same speed sensors as PART #2210-0038 above.

2210-0148

2210-0149

BIG DOG DIRECT PLUG-IN SPEEDOMETERS

- Upgrade the analog speedometer to digital while retaining use of the factory tachometer and indicator lights; fits inside factory tach ring and housing and plugs directly into factory wiring harness
- High-brightness readout with automatic nighttime dimmer
- Features LED display
- Adjustable 0-199 mph/km/h speedometer
- Odometer with two resettable trip meters
- Stores and displays high-speed recall, high-rpm recall, 0-60 time, 1/4-mile time and 1/4-mile speed

PART #	DESCRIPTION
FOR BIG DOG MODELS WITH FACTORY TACH RING	
2210-0148	Blue LED

PART #	DESCRIPTION
FOR BIG DOG MODELS WITH FACTORY TACH RING (CONT)	
2210-0149	Red LED

All part numbers in **BLUE** are new for the OldBook.

Dakota Digital

2 3/16" STAND-ALONE LCD GPS COMPASS

- Designed to be used in place of the 96-98 factory air temperature gauge
- Uses the factory gauge cup and plugs directly into the existing gauge wiring
- LCD readout displays compass heading, air temperature and elevation in eight LED backlit color choices

PART #	DESCRIPTION
2212-0536	Silver/chrome

2212-0140

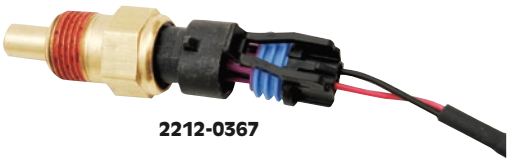

2212-0338

AUTO PROGRAMMING GEAR INDICATORS

- Sunlight-visible blue or red display with automatic nighttime dimming
- Displays one to six gears and a neutral indicator
- Simple programming
- Chrome or black-anodized housing with built-in mount
- Includes display, harness and instructions
- Available with handlebar mount (can be mounted above or below handlebars) or fairing flush-mount (clamps into 1,15" hole)

PART #	DESCRIPTION
FOR 1" HANDLEBARS	
2212-0140	Chrome w/ blue display
2212-0338	Black w/ blue display

PART #	DESCRIPTION
FOR 1 1/4" HANDLEBARS	
2212-0141	Chrome w/ blue display

2210-0015

2212-0088

DS-250019

2000 SERIES "FATBOB" DIGITAL INFORMATION SYSTEM SENSORS AND SENDING UNITS

- Sensors and sending units for 2000 series "FatBob" digital information system gauges

PART #	DESCRIPTION
FOR 96-99 FXST/FLST AND 96-98 FLHR	
2210-0013	Pickup sensor, repl. OEM electronic transmission sensor
2210-0014	Rear wheel sensor for Softail and rigid belt-drive applications
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread)

PART #	DESCRIPTION
FOR 96-99 FXST/FLST AND 96-98 FLHR (CONT)	
2210-0015	Universal inductive sender (reads teeth on transmission gears or steel rear sprocket)
2212-0088	Oil/air pressure sending unit (range 0-75 psi, resolution 1 psi)
DS-250019	Oil temperature sending unit (1/8" NPT threads)

ELECTRONIC SPEEDOMETER RECALIBRATION MODULE

- Allows for the recalibration of most 95-00 OEM electronic speedometers when changing tire size, pulley or final gearing
- Easy installation – simply plugs in between the pickup sensor and the stock wiring harness
- Allows small step corrections of less than 1 mph
- Correction range of 50% to 200%
- No power required to maintain calibration when the bike is parked
- Two sealed buttons allow easy resetting of the speedometer reading while the bike is in motion
- A must for custom builders using electronic speedometers

PART #	DESCRIPTION
2210-0391	For 96-99 FXST/FLST, 96-98 FLT/FLHT/FLHR, 96-98 FXD/FXDWG

All part numbers in BLUE are new for the OldBook.

MOTOSCOPE MINI

- Features multifunctional digital instrument
- Extremely compact and lightweight
- 251 ultra-bright LEDs provide graphic indication of vehicle speed, odometer, trip odometer, trip time and tachometer
- CNC-milled billet aluminum casing
- LED illumination adapts to day/night conditions
- Readings can be displayed vertically or horizontally

PART #	DESCRIPTION
2201-0101	Black

PART #	DESCRIPTION
2201-0103	Polished

MOTOSIGN MINI

- Indicator lamp panel
- Works and fits great with the Motoscope Mini
- CNC-milled billet aluminum casing
- Five super-bright LEDs provide different functions
- Built-in resistors ensure that voltage is correctly adapted to the LEDs
- Combine with the Motoscope Mini using the bracket below

PART #	DESCRIPTION
2201-0104	Black

KOSO® Feel The Speed

ABE

XR-SR MULTI-FUNCTION ELECTRONIC SPEEDOMETER

- Easy-to-read, blue-backlit digital display with eight indicator lights
- Display shows speed (mph/km/h), odometer, two trip meters, tachometer (100 rpm resolution), fuel level (10-bar display) and engine temperature
- Adjusts to any engine or tire size
- Keeps record of top speed, max rpm and max temperature
- Indicator lights for neutral, high beam, low beam, hazard lights, turn signals, oil pressure and water temperature
- Gauge measures 7,25 cm (2,85") H x 11, 6 cm (4,57") W x 3,18 cm (1,25") D
- Includes gauge bracket, speed sensor with bracket, speed sensor magnet and water temperature sensor

PART #	DESCRIPTION
2210-0119	XR-SR multi-function speedometer

ABE

D55 GP-STYLE SPEEDOMETER

- Measures 0-160 km/h
- Also includes an odometer and trip meter
- Tire circumference setting from 0-2999 mm
- Blue backlit with black display

PART #	DESCRIPTION
2210-0375	Black display

TNT TACHOMETER

- Measures 0-10.000 rpm
- Adjustable backlight brightness

SUPER SLIM CLOCK/VOLT METER

- 24-hour clock
- Meter flashes if voltage goes higher than 14,0 or lower than 11,0 volts DC
- Effective temperature range between -10 °C - 60 °C
- Measures 5,64 cm (2,22") W x 2,7 cm (1,06") H x 1,1 cm (0,43") D

PART #	DESCRIPTION
2212-0562	Clock and volt meter

All part numbers in BLUE are new for the OldBook.

KOSO® Feel The Speed

EGT-02 EVO DUAL EXHAUST GAS TEMPERATURE DATA LOGGER

- Dual exhaust gas temperature sensor
- Allows rider to tune engine more precisely and keep a record of your previous runs (up to 50)
- Settable warning for each cylinder allows the opportunity to set a maximum temperature warning of up to 1149 °C (2100 °F)
- Red flashing of the screen makes it very easy to see if something is going wrong with the engine (this tool could save motor)
- Effective temperature range 10 °C - 60 °C (14 °F - 140 °F)

DESCRIPTION	PART #
EGT-02 dual exhaust gas temperature data logger	2212-0883

KOSO® Feel The Speed

DUAL EGT METER

- Designed for bikes with dual pipe systems
- Display range from 100-1.200 °C
- Features an over-temperature warning setting
- Measures 12,4 cm (4,88") W x 5,8 cm (2,30") H x 2,2 cm (0,87") D

PART #	DESCRIPTION
2404-0616	Dual EGT meter

KOSO® Feel The Speed

REPLACEMENT SPEED SENSOR FOR KOSO SPEEDOMETERS

- Replacement speed sensor with 200 cm (79") cable

PART #	DESCRIPTION
2210-0131	Speed sensor w/ 200 cm (79") cable

KOSO® Feel The Speed

SPEED SENSOR MAGNET BOLTS

- Simple and reliable alternative to gluing sensor magnet to a bolt or rotor
- Sold each

2210-0139	M8 x P1,25 x 27,5 mm L

DYNATEK dyna performance electronics

SHIFT MINDER KIT

- Designed to provide optimum shifting to match your style
- Triggering accuracy to better than 1%
- Adjustable to switch at any of 64 different rpm settings; 125 rpm increment between each setting
- Requires no additional parts for rpm switch point selection

PART #	DESCRIPTION
DSMS-2	For non-EFI models

All part numbers in BLUE are new for the OldBook.

2,4" MINI ELECTRONIC 8000 RPM TACHOMETERS

- Smooth function, long-lasting electronics
- Backlit with long lasting LEDs
- Water-resistant housing
- Fits 2,375"/2,4" mini gauge mounts
- Matching speedometer PART #s 2210-0174, -0175, -0257, -0258 sold separately

NOTE: Tach adapter required for single-fire ignitions.

PART #	DESCRIPTION
POLISHED STAINLESS STEEL	
2211-0031	Black face w/ orange needle
2211-0032	White face w/ orange needle

PART #	DESCRIPTION
MATTE BLACK	
2211-0125	Black face w/ orange needle
2211-0126	White face w/ orange needle

2,4" MINI ELECTRONIC 8000 RPM TACHOMETERS

- Features polished stainless steel bezels, non-fluctuating needles, incandescent back-lit translucent faces, chrome "Y" mount and handlebar clamps
- Water- and vibration-resistant construction
- Bezel diameters are 2,64"
- Overall length is 2,7"
- Color-coded wires and wiring instructions
- For replacement bulbs, see pages617-620
- Matching 2,4" mechanical drive speedometers available separately in this section; see page 878

NOTE: Tach adapter required for single-fire ignitions.

PART #	DESCRIPTION

2,4" MINI ELECTRONIC TACHOMETER

- State-of-the-art design
- Smooth function, 12V, 8000 rpm
- Stainless steel water-resistant housing
- Backlit with long-lasting LED lighting
- Matching speedometers sold separately

NOTE: Tach adapter required for single-fire ignitions.

PART #	DESCRIPTION
2211-0104	Black face w/ white needle

1 7/8" ELECTRONIC MINI TACHOMETER

- 12V, 8000 rpm limit
- LED illuminated black gauge face
- Includes mounting clamp for 1" to 1 1/4" tubing
- Matching 1 7/8" mechanical drive speedometer (PART #s 7805-6842, 1705-6845) also available, see page 878

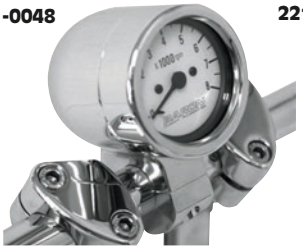

NOTE: Tach adapter required for single-fire ignitions.

PART #	DESCRIPTION
2211-0055	Polished stainless steel housing w/ black face

BARON Custom Accessories

TACHOMETER ADAPTER

- Provides the correct rpm display when using a single-fire ignition
- Will fit most accessory electronic tachometers (except Drag Specialties tachometers)

PART #	DESCRIPTION
2211-0052	Tachometer adapter

DYNATEK dyna performance electronics

TACH ADAPTER

- Allows your electronic tachometer to function accurately when a single-fire ignition system has been installed

PART #	DESCRIPTION
D-101	Tach adapter for single-fire ignition

DRAG Specialties

REPLACEMENT COMPONENTS FOR DRAG SPECIALTIES MINI SPEEDOS AND TACHS

- Clamp assemblies includes clamps, tapered washers and all necessary nuts and bolts
- Clamp is a replacement for the clamp assembly supplied with the Drag Specialties mini gauges
- Enables installation of gauges to any 1" or 1 1/4" tube, such as handlebars or frame members

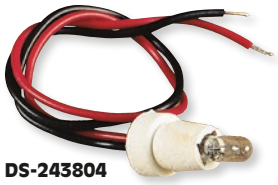

DS-243803

2210-0274

DS-243804

- Replacement Y-bracket fits both speedo and tach
- Replacement socket assemblies, which includes bulb, are available to fit both early- and late-style gauges
- For replacement bulbs, see pages 617-620

PART #	DESCRIPTION
DS-243803	Chrome clamp assembly (ea.)
2210-0273	Gloss black clamp assembly (ea.)

PART #	DESCRIPTION
DS-243805	Chrome Y-bracket (ea.)
2210-0274	Gloss black Y-bracket (ea.)

PART #	DESCRIPTION
DS-243804	Repl. rubber push-in socket/bulb assembly (early or late style) (ea.)

DRAG Specialties

CABLE ADAPTER FOR DRAG SPECIALTIES MINI GAUGES

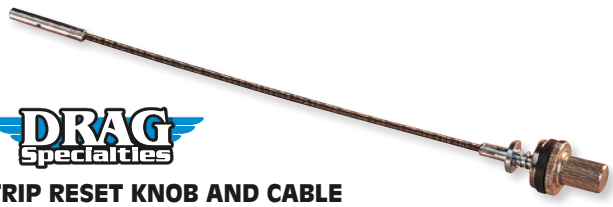

- Allows speedometers with a 12 mm cable connection to use 5/8"-12 speedometer cable
- Fits all Drag Specialties mini gauges and other speedometers with a 12 mm cable connector
- Sold each

PART #	DESCRIPTION
2210-0062	Cable adapter

DRAG Specialties

TRIP RESET KNOB AND CABLE

- Complete reset knob and cable assembly for use on our 150 mph speedo head, PART #DS-243864

PART #	DESCRIPTION
DS-243869	For 73-84 stock FX speedos; repl. OEM #67210-73

DRAG Specialties

RESET KNOBS

- Replacement reset knob for mini speedometers with tripmeter (PART #DS-243813)
- Sold each to consumer; sold in 5-pack to dealer

PART #	DESCRIPTION
DS-243825	For mini speedometer w/ trip meter

DRAG Specialties

REPLACEMENT RESET KNOBS

DS-293874

- Chrome reset knobs fit late-model speedos listed below
- Sold in packs of 10

PART #	DESCRIPTION
DS-293874	For 83-85 XLH 883; repl. OEM #s 67108-83, 67117-85
DS-293870	For 84-89 FXWG, FXST and FLST; repl. OEM #s 67215-68, 67217-68
DS-293872	For 90-95 FXST and FLST; repl. OEM #s 67215-89, 67117-85

- Chrome-plated metal bezels will dress up your stock gauges
- Attach using supplied two-sided tape

PART #	DESCRIPTION
2202-0060	Large bezels for 96-98 FLHT/FLHX, 92,1 mm (3 5/8") dia. gauges (pr.)
2202-0061	Small bezels for 86-98 FLT/FLHT/FLTR, 50,8 (2") dia. gauges (pr.)

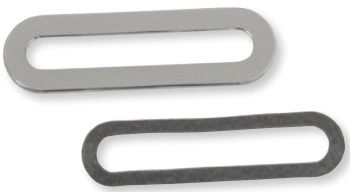

DRAG Specialties

BEZEL/LENS KIT FOR FL-STYLE SPEEDOMETERS

- This kit includes a new bezel ring, rubber sealing gasket and glass lens that allows you to install new parts when reassembling your speedometer
- Fits with Drag Specialties, OEM and most aftermarket FL-style speedometers
- 5" diameter

PART #	DESCRIPTION
DS-243809	Bezel/lens kit

DRAG Specialties

CHROME BILLET INDICATOR LIGHT BEZEL

- Chrome-plated aluminum bezel
- Attach using supplied two-sided tape
- Matches Drag Specialties speaker and instrument bezels
- Sold each

PART #	DESCRIPTION
2202-0062	For 96-98 FLT/FLHT

All part numbers in BLUE are new for the OldBook.

MOUNTING KIT FOR FL-STYLE SPEEDOMETERS

- Used for mounting speedometers found in cast dashes
- Kit includes rubber grommets, pins and clips

PART #	DESCRIPTION
DS-243817	For 37-84 models; repl. OEM #s 67068-76, 67070-76 and 67069-76

REPLACEMENT TRANSMISSION SPEEDO DRIVE UNIT

- Sold each

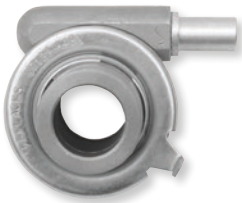

PART #	DESCRIPTION
DS-243853	For 69-80 FL/FLH, 80-83 FXWG, 71-72 FX; repl. OEM #67130-69 (23 teeth)

2210-0202

DS-243848

DS-243856

FRONT WHEEL SPEEDO DRIVE UNITS

- High-quality front wheel speedometer drive units fit a variety of H-D models

PART #	DESCRIPTION
DS-243865	For 73-83 FX/FXR (except FXWG), 73-83 XL; 2:1 ratio (0,300" spacer); repl. OEM #67127-73
2210-0202	For 96-98 FLHT/FLHR (0,427" spacer) 2:1 ratio, repl. OEM #67101-96
DS-243847	For 87-95 FLHT (0,440" spacer) 2:1 ratio; repl. OEM #67073-87A
DS-243848	For 84-94 FXLR (0,330" spacer) 2:1 ratio; repl. OEM #67132-85A
DS-243849	For 86-95 FLSTC, FLSTF/N (0,600" spacer) 2240:60 ratio; repl. OEM #67125-86A
DS-243859	For 81-84 FLH; L81-84 FLT, 84-86 FLT; 2:1 ratio (no spacer); repl. OEM #67073-81
DS-243856	For 80-86 FXWG, 84-95 FXST/FXSTC, 93-94 FXDWG (0,600" spacer); repl. OEM #67120-84A
DS-243846	For 91-94 FXD, 84-94 FX/FXR, 84-94 XL, 2:1 ratio (0,310" spacer); repl. OEM #67127-84A

SPEEDOMETER DRIVE COVER

- Perfect for detailing your front end
- Chrome stamped steel
- For stock and aftermarket speedo drives found on models listed

PART #	DESCRIPTION
DS-243840	For 93-94 FXDWG, 84-86 FXWG, 84-95 Softail, 87-95 FLT/FLHT/FLHS models

THUNDER MAX TRANSMISSION SPEEDOMETER SENSOR

- Chrome billet sensor
- Includes OEM Deutsch connector
- For use with stock-length starter motor on most 96-99 Big Twin models

PART #	DESCRIPTION
DS-243195	Speedometer sensor; repl. OEM #74437-96

THUNDER MAX PROGRAMMABLE TRANSMISSION SPEEDOMETER SENSOR

- Used to correct your speedometer when you change tire size, pulley size, gear ratio or make any other changes affecting the speedometer
- Capable of 0-50% positive or negative correction
- Quick and easy adjustment with a push switch and built-in indicator light
- Includes OEM-style connector for easy installation on 96-99 models with electronic speedometer

PART #	DESCRIPTION
7806-3065	For 96-99 models with electronic speedometer

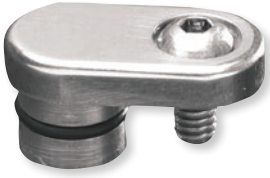

2210-0287

ELECTRONIC SPEEDOMETER SENSORS

- Direct replacement for OEM sensors

PART #	DESCRIPTION
2210-0286	For 95-98 FXD/FXDWG; repl. OEM #74420-94
2210-0287	For 96-99 FXST/FLST; repl. OEM #74437-96

ELECTRONIC SPEEDOMETER SPEED SENSOR HOLE PLUG

- Needed when replacing your OEM electronic speedometer or changing to a mechanical speedometer
- This unique part from Don Hotop is designed to seal the speed sensor hole in all models that use an OEM electronic speedometer
- Manufactured from 6061 billet aluminum and brilliantly chrome-plated
- Comes complete with O-ring and chrome-plated button-head screw

PART #	DESCRIPTION
2210-0029	For 95-98 FLHR, 95-98 FXD and 96-99 FXST/FLST models w/ electronic speedos

All part numbers in BLUE are new for the OldBook.

2404-0113

2404-0114

TRANSMISSION SPEEDO BLOCK-OFF

- Reinforced synthetic rubber
- 4-speed version fits all 4-speed transmissions and includes speedo block-off with a stainless screw and lockwasher
- 5-speed version fits 5-speed transmissions and includes speedo drive block-off with a chrome-plated cap screw and washer

PART #	DESCRIPTION
2404-0113	4-speed block-off; repl. OEM #35607-73X
2404-0114	5-speed block-off; repl. OEM #35607-95

Edelmy Where Excellence Is a Standard

TACHOMETER DRIVE BLOCK-OFF PLUG

- Chrome-plated block-off plug for use when the stock mechanical tachometer is discarded
- Includes a nylon washer
- Sold each

PART #	DESCRIPTION
DS-243851	For 57-80 XL

ARLEN NESS

2212-0423

DS-245154

OIL PRESSURE GAUGE KIT

- Finally a clean way to mount an oil pressure gauge on Big Twin engines
- Gives a great view of the gauge and adds style to your engine
- The finest assemblies available; each is beautifully CNC-machined from aluminum, and each comes with a quality stainless steel hose assembly
- Complete kit includes a 60 lb liquid-filled gauge, bracket, cone assembly, stainless steel hose assembly and hardware
- Bracket and cone assembly accepts most 1 1/2" diameter oil pressure gauges; bracket can also be used without the cone to accept the slightly larger Drag Specialties and Custom Chrome liquid-filled gauges
- Replacement gauge available separately

NOTE: Check clearance between gauge and gas tank.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
2212-0423	Complete kit w/ black anodized finish
DS-245154	Repl. Ness liquid-filled oil gauge 0-60 lb; mounts to any bracket w/ a 1 1/2" opening; fittings sold separately

DS-330031

DRAG Specialties

OIL PLUG TEMP GAUGES

- Sensitive to oil temperatures up to 350 °F
- Chrome gauge bezel

PART #	DESCRIPTION
DS-330033	For 84-99 FXST/FLST; 84-94 FXR; 84-92 FLT (2 3/4" L)
DS-330031	For 66-84 FX, FL, FXWG (3 7/8" L)
DS-330033	For 79-85 XL (2 3/4")

FEULING

2212-0608

2212-0611

OIL PRESSURE GAUGES

- Quality liquid-filled pressure gauge with 0-100 psi range
- 1,5" stainless steel case with white or black dial face
- Brass 1/8" NPT male bottom or back port

PART #	DESCRIPTION
2212-0608	White face, bottom port
2212-0609	Black face, bottom port

PART #	DESCRIPTION
2212-0610	White face, back port
2212-0611	Black face, back port

DRAG Specialties

OIL PRESSURE GAUGE MOUNT

- Chrome mount attaches at the crankcase and rocker box mounting bolt, allowing an unobstructed view of your oil pressure
- Stock oil pressure sending unit must be removed and oil pressure gauge must be ordered separately

PART #	DESCRIPTION
DS-244101	For 80" Evolution engines (except FLT/HT/HS/HR/Ultra)

RUSSELL

OIL PRESSURE GAUGE LINE

- Braided stainless steel construction
- Features a unique one-piece fitting for ease of installation
- Intended for gauges mounted on the rocker box

PART #	DESCRIPTION
1204-8405	For 84-99 Evolution Big Twin

DRAG Specialties

OIL GAUGE FITTINGS

PART #	DESCRIPTION
DS-245200	45° elbow, 1/8" male NPT to 1/8" female NPT, for oil tanks, master cylinder, etc.

SWINGARM RETROFIT KIT WITH PIVOT SHAFT

- Original Custom Cycle Engineering design retrofits the improved swingarm from 02-08 Touring models to 80-98 Touring models
- No need to alter transmission housing
- Will require the purchase of a 02-08 style OEM swingarm with bearings, rear caliper, 1" diameter rear axle and 1" rear wheel bearings

PART #	DESCRIPTION
1302-0258	For 80-98 FLT/FLHT/FLHS

1302-0207

1302-0208

SWINGARM CONVERSION BEARING RETROFIT KITS

- Original Custom Cycle Engineering design replaces stock Cleve Bloc-style swingarm bushings with spherical bearings
- Dramatically changes handling and tracking of Dresser models
- Spherical bearings greatly reduce the stiction at the swingarm pivot, which provides a quicker reaction time to harsh road conditions
- Negates any lateral and torsional movement in the swingarm

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT AND 82-94, 99-00 FXR	
1302-0207	Swingarm conversion retrofit kit

TXR STABILIZERS

- CNC-machined from 6061-T6 aluminum
- Improves handling by triangulating motor and transmission in the chassis to eliminate frame wobble at high speeds and while cornering
- Adjustable intermediate member with integrated Gooden Tite polyurethane and aluminum isolator bushings
- Open plate design with ventilating air scoops to assist in transmission cooling
- Easy bolt-up installation
- Available in black anodized finish
- Includes stainless steel hardware and Heim joints

NOTE: Not for use with cross-under exhaust systems.

PART #	DESCRIPTION
1111-0001	For 93-98 FLT/FLHT/FLHR/FLTR models

PROGRESSIVE suspension

TOURING LINK CHASSIS STABILIZER

TOURING LINK

- The answer to the handling challenges faced by most touring models has arrived
- Helps stabilize the chassis by keeping the motor/swingarm assembly aligned with chassis without causing unnecessary vibration to the rider
- Ground clearance will not be affected
- Easy to install

PART #	DESCRIPTION
1111-0006	For 93-98 FLHT/FLHR/FLTR models (all)

DRAG Specialties

CHIN SPOILERS

- Hand-laid fiberglass construction with a gel-coat finish
- Help fill the gap between the wheel and the front of the frame to add a custom finishing touch to a Bagger
- Stock-rake styles fit FL Touring models with factory oil coolers
- Raked chin spoiler comes out further and is for use on FL models that have been raked to accept a bigger wheel; will fit with most oil coolers including OEM and Jagg
- Includes all necessary hardware and grille insert

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR MODELS	
0504-0272	Raked (19,5" x 11" x 11")

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR MODELS (CONT)	
0504-0256	Non-raked (19,5" x 11" x 6")

KURYAKYN

SADDLE SHIELDS

- Frame-mounted polycarbonate shields with a reflective smoke tint help beat engine heat
- Dissipate and re-direct engine heat away from the rider
- Make riding on those hot summer days bearable
- Sold in pairs

PART #	DESCRIPTION
0502-0110	For 97-98 FLT/FLHT/FLHR/FLTR

KURYAKYN

DELUXE NECK COVER KITS

- Add brilliance to a dull area with these smooth, quickly installed covers that shroud the neck and extend down the frame
- Cover is enlarged enough on the right side to accommodate the in-line cruise control pull-off switch found on all Road King 02-05 models
- Includes two snap-on down tube pieces that add coverage almost all the way down to the floorboard mounts
- Easy to install

RWD
www.russwernimont.com

REAR FENDER EXTENSION AND FILLER PANELS

- Heavy 18-gauge raw steel construction
- Designed to fill in the area between the fender and saddlebags and extend the rear of the fender for a street glide look
- Extends the fender 4" over OEM
- Requires custom mounting; no hardware is included
- Will not work on bikes equipped with detachable backrest

PART #	DESCRIPTION
1405-0091	For 96-98 FLTR/FLHR/FLHT models w/ OE hard bags and OE 7¼" rear fender

Before fillers

Detachable style shock-length/+2 fender stock-length saddlebags

0504-0090

0504-0091

LOWER FILLERS

- Constructed from 16-gauge steel and E-coated for rust and corrosion resistance and are designed to fill the void between the lower fender and saddlebags; a minor detail that makes a major impact!
- The only steel fillers designed to be used with or without detachables
- Detachable style is for use with OEM detachable accessories (available separately)
- Great to use in conjunction with Klock Werks Curvaceous Upper Fillers to smooth out that entire area
- Fillers are available in Standard for stock bags
- All are sold in pairs and include all necessary hardware and instructions to install them

HOW TO SELECT

STEP #1
Fender/Saddlebags fender/style

Determine:
- Length/style of Fender
- Length/style of Saddlebag

STEP #2
Detachable or Not

SMOOTH STYLE (Detachable backrest only)

DETACHABLE STYLE (Trunk or rack)

FOR 93-98 FLT/FLHT/FLHR/FLTR MODELS	
PART #	DESCRIPTION
FOR USE WITH STOCK-LENGTH FENDER OR KLOCK WERKS +2" FENDERS AND STOCK-LENGTH HARD SADDLEBAGS	
0504-0090	Stock, smooth style
0504-0091	Stock, detachable style

CURVACEOUS UPPER FILLERS

- Accent the line of your fender and hide clutter for a custom look
- Steel construction with E-coating, ready to color match paint
- Upper fillers mate up to the stock fender/lower filler on Street Glides
- Requires removal of stock license plate mount bar
- Smooth for models with or without detachable backrests
- Must remove stock license plate mount bar
- Sold in pairs

PART #	DESCRIPTION
0504-0080	For 95-98 FLT, FLHT, FLHR and FLTR models when used in conjunction w/ Klock Werks lower filler panels

All part numbers in BLUE are new for the OldBook.

KHROME WERKS

RECEIVER TRAILER HITCH

- 32 mm (1 1/4") receiver trailer hitch mounts to frame struts and the saddlebag supports
- Does not interfere with accessories such as docking kits for sissy bars, racks and tour boxes
- Made from 3,2 mm (0,125") 1020 steel tubing, robotic-welded and high-gloss black powdercoated
- Includes polished chrome-plated hitch, 47,6 mm (1 7/8")" ball and pin with hitch clip
- Optional chrome-plated 5-pin, die-cast, automotive-style connector set available separately; PART #3902-0069

NOTE: Not for use with accessory saddlebag rail kit.

PART #	DESCRIPTION
3902-0079	For L86-98 FLHT/FLHR/FLTR

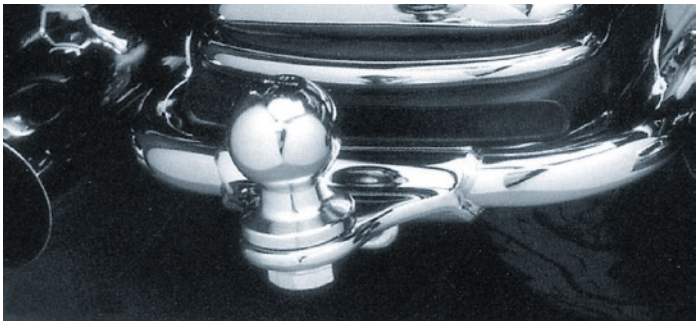

RIVCO

TRAILER HITCH

- Steel construction and chrome-plated
- Includes tow ball and mounting hardware
- Quick installation

PART #	DESCRIPTION
3902-0192	For 80-98 FLH/FLT models

KURYAKYN

TRAILER HITCH

- Permanent mount hitch attaches at six points
- Steel construction for strength
- All visible components are chrome-plated
- All non-visible components are black powdercoated for maximum rust resistance
- Kit includes necessary mounting hardware and 47,6 mm (1 7/8") trailer ball

PART #	DESCRIPTION
3902-0006	For 80-98 FLT/FLHT/FLHR/FLTR

KURYAKYN

LED RECEIVER HITCH COVER

- Features crisp red, white and blue graphics with an extremely high output
- Fits 1 1/4" and 2" receiver hitches (pin not included)
- Plugs directly into standard 4-pin flat connector
- Durable injection-molded ABS construction
- Quick and easy installation and removal when not in use

PART #	DESCRIPTION
2010-1452	LED receiver hitch cover

DRAG Specialties

TRAILER HITCH RECEPTACLE KIT

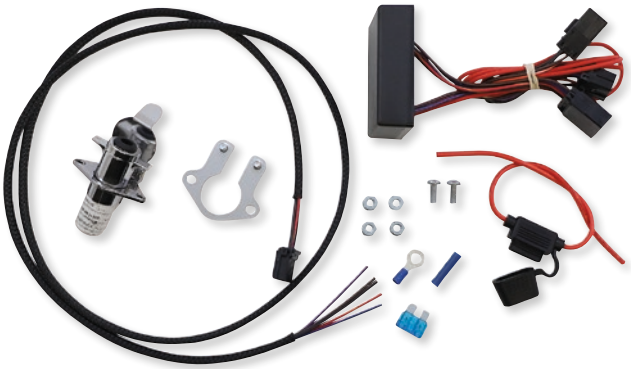

- Mounts easily to underside of hitch plate for a quick, clean way to connect/disconnect trailer light wiring
- Includes a chromed receptacle plate, chrome safety chain hookup, a five-pin male/female plug-in connector and all wiring and hardware

NOTE: Also fits other brands of trailer hitches.

PART #	DESCRIPTION
DS-720558	For 80-98 FLT/FLHT/FLHR and 86-99 FXST/FLST

All part numbers in BLUE are new for the OldBook.

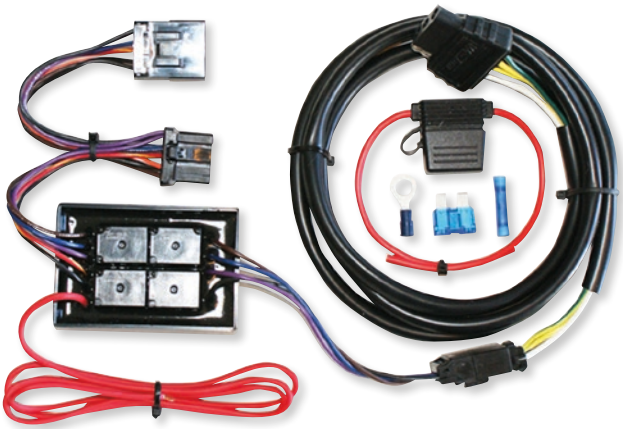

TRAILER WIRING CONNECTOR KIT WITH ISOLATOR

KHROME WERKS

- To be used with trailers using the same number wires as the motorcycle
- Wiring harness features an isolator module with a fused, separate circuit from battery positive to power the trailer lighting; works through built-in relays and prevents overloading of factory-lighting circuit
- 5-pin, die-cast, automotive-style connector
- Mounts using mounting bracket that bolts directly to the safety chain bracket on current production Khrome Werks trailer hitches

PART #	DESCRIPTION
3902-0082	For 97-98 FLT/FLHT/FLHR/FLTR models w/ 8-pin rear light connectors

KHROME WERKS

TRAILER WIRING KIT

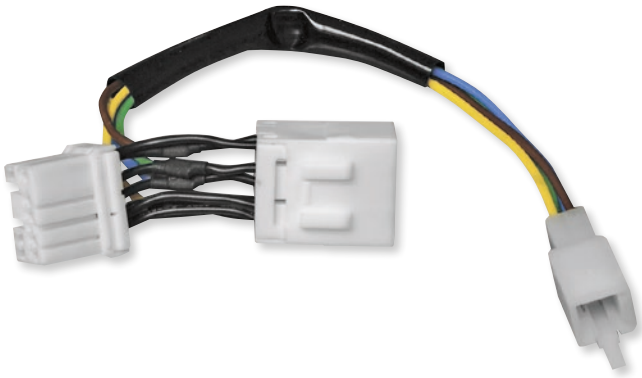

- Includes 6-pin Molex isolator, 15-amp fuse/fuse holder, two butt connectors and ring terminal (no converter needed)
- Has an 8-pin multi-lock plug and also includes 4-wire, 48" harness with a flat 4-position connector

PART #	DESCRIPTION
3902-0168	For 97-98 FLT/FLHT/FLHR, 97-99 FLSTC w/ 8-pin rear light plugs

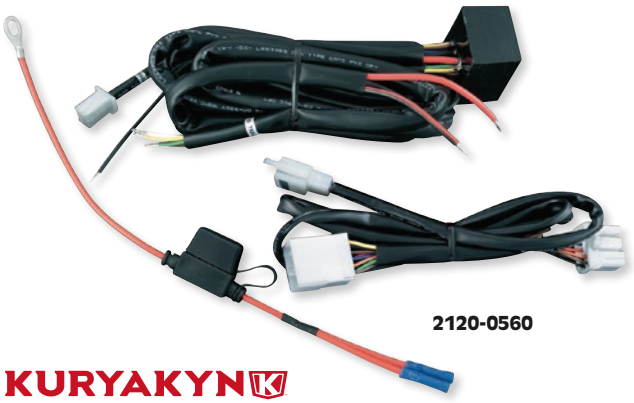

RIVCO

TRAILER WIRING SUB-HARNESS

- Trailer wiring sub-harness plugs into the bike's stock wiring harness on one end, and Rivco's own 5- to 4-wire converter or isolator on the other
- Eliminates the need to cut and splice the stock wiring harness
- Order the sub-harness for your bike based on your bike's plug-in type (see chart)
- Requires two additional parts for a complete trailer wiring harness assembly: Rivco's 5- to 4-wire converter (PART #3902-0134) and Rivco's Universal Trailer Wiring Isolator (PART #3902-0119) (both sold separately)
- Sub-harnesses sold each

PART #	DESCRIPTION
3902-0147	For 97-98 FLHR/FLTR/FLHT, 97-99 FXST/FLST (8-pin AMP multi-lock)

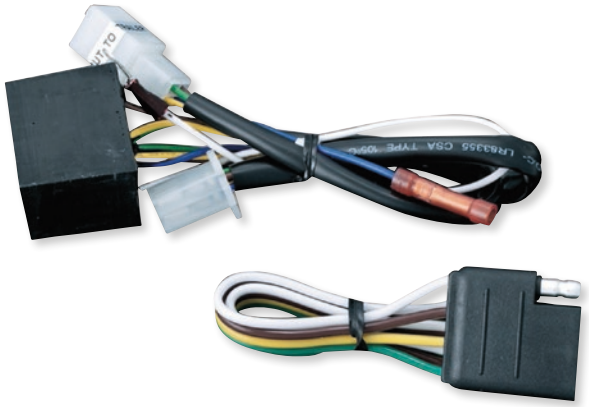

2120-0560

KURYAKYN

TRAILER WIRING HARNESSES AND RELAY

- Eliminates blown fuses caused by overload of the stock lighting or accessory circuits; relay harness utilizes inputs from the motorcycle to direct power from the battery to the appropriate trailer lighting circuit
- Kits provide standard five-wire output (run, brake, left turn, right turn, ground) plus a bonus wire that can be connected to provide 12V fused power to the trailer for compartment lights or keyless entry systems
- Does not include receptacle kits

PART #	DESCRIPTION
2120-0560	For 97-98 FLHT/FLTR/FLHR, 96-99 FXST/FLST, 97-98 FXD/FXDWG
2050-0141	Universal trailer wiring kit

KURYAKYN

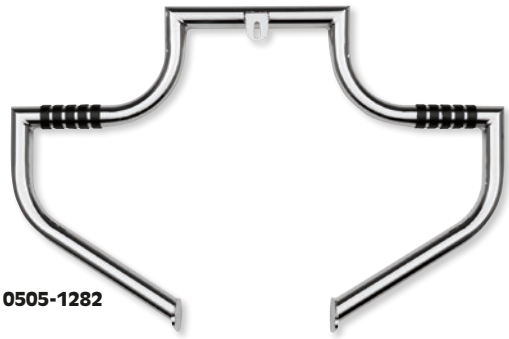

5 TO 4 TRAILER WIRE HARNESS CONVERTER

- Plug-in that allows trailer wiring and relay kits to power trailers with a four-wire harness (run/left turn/brake, right turn/brake and ground)
- Fifth bonus wire is available to provide a fused 12V power supply to the trailer compartment for lights or keyless entry systems that are wired independently of the trailer's essential lighting
- Includes 4-pin flat vehicle connector
- Sold each

PART #	DESCRIPTION
2120-0388	5 to 4 trailer wire harness converter

All part numbers in BLUE are new for the OldBook.

CUSTOM SPRINGER FORKS

- Economical alternative to a shock dampened-type Springer
- Fully assembled with an in-line top bracket without a built-in rake
- The standard length Springer (31" measured from top bearing to the axle) is comparable to a standard-length FXST front end
- 1" OD steering stem designed for Timken® type bearings
- Both rear legs are threaded for right or left brakes
- The 3/4" OD axle kit includes a brake mount pivot with thrust washer and hub spacers (custom spacers may be required depending on the wheel used)
- Measures 9 1/4" between rockers
- Riser mounts are on 4 3/4" centers and threaded 1/2"-20
- Requires 84-99 wheel (compatible with 3/4" OD axle)
- These Springers are measured from the bottom of the top tree to the center of the axle

NOTE: Does not include speedometer adapter.

NOTE: For American models only; will not fit on European models.

NOTE: Do not accept spotlight bars.

NOTE: No fender mounts.

0401-0076

PREMIUM SPRINGER FORKS

- OEM-style replica that exceeds OEM quality
- Measures 95 cm H
- Weighs 21 kg
- Upper triple clamp must be ordered separately; see page 914
- Axle and brake kit sold separately; see page 1020
- Includes documentation in 5 languages

0401-0093

0401-0094

PART #	DESCRIPTION	RAKE ANGLE
FOR 3/4" (19 MM) WHEEL AXLE		
0401-0091	Black body/chrome springs	3°
0401-0092	Chrome body/chrome springs	3°
0401-0093	Black body/black springs	3°
FOR 97-99 SOFTAIL MODELS		
0401-0094[1]	Black body/chrome springs	8°

[1] Includes upper triple clamp.

7 & 7 RAKED TRIPLE TREE

- Offers 7" of rake while maintaining 7" of trail when using a 23" wheel for the ultimate in handling, no frame modifications necessary
- Designed to work with 23" and 21" wheels only (stock diameter wheels will not handle correctly)
- 21" wheels provide 6 1/8" of trail
- Machined from forged 6061-T6 billet aluminum and then finished in black anodize
- Includes top and bottom tree, pressed in steel stem, lower fork bearing and travel limiters
- Batwing style Fairings maintain stock position and do not require angled headlight wedges or special brackets to properly adjust headlights

NOTE: Will not work with factory diameter wheels.

NOTE: The larger the wheel, the less fork travel. Always check lower tree to fender clearance.

NOTE: Raked triple trees change the handling characteristics of the motorcycle. Use caution until familiar with the changes.

PART #	DESCRIPTION
0408-0316	For 97-98 FLT/FLHT/FLTR models, black, 7°

6° RAKED TRIPLE TREE KIT

- Get that longer Bagger look
- Increases frame-to-fender clearance for larger front wheels
- No modifications to OEM frame needed
- Accepts all OEM components
- Maintains stock ride height of the vehicle
- Reduced steering effort on bikes with trike conversions installed without eliminating steering feel – reduced effort leads to reduced rider fatigue, allowing for longer rides

PART #	DESCRIPTION
0408-0309[1]	For 87-98 FLT/FLHT/FLHR/FLTR models

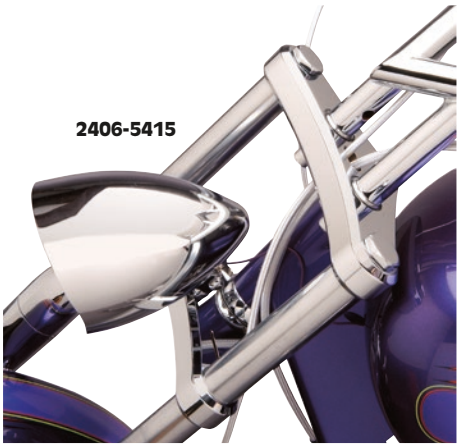

[1] Road King models require PART #0408-0313 to overcome clearance issues.

All part numbers in BLUE are new for the OldBook.

precision crafted billet products

41 MM TRIPLE TREES

- CNC-machined billet aluminum
- Stem threads into underside of top triple tree for cleaner look
- Available in a smooth or radius groove design

PART #	DESCRIPTION
FOR 84-99 FXST, FXWG AND CUSTOM APPLICATIONS	
2406-7417	7° Elite smooth; chrome
2406-5415	5° Elite smooth; chrome

NOTE: Raked triple trees change the handling characteristics of the motorcycle. Steering geometry must be calculated to determine which degree of rake is most suited for your application. Trees with more than 3° of rake should not be used in stock frame applications.

PART #	DESCRIPTION
FOR 84-99 FXST, FXWG AND CUSTOM APPLICATIONS (CONT)	
2401-1523	7° Elite smooth; Night Series
DS-222530	0° Elite radius groove; chrome

Pro Performance Products

41 MM BLIND TOP, WIDE GLIDE TRIPLE TREES

- CNC machined from aircraft-quality billet aluminum
- Accepts 41 mm fork tubes
- Includes fork tube plugs that allow for a clean, finished look on the top of the triple tree
- Available in a stylish chrome or durable black anodized finish
- Triple trees are pre-drilled to mount the Pro-One Hide Away internal fork stop kits
- Include handlebar dampeners with chrome billet caps, a fork stem, and all the necessary mounting hardware
- Models with LED lights include additional smoked lens covers
- Offered in 0 and 3-degree rake options

PART #	DESCRIPTION
FOR 84-99 FXST, FXWG AND CUSTOM APPLICATIONS	
0408-0387	0° rake, black

NOTE: Raked triple trees change the handling characteristics of the motorcycle. Steering geometry must be calculated to determine which degree of rake is most suited for your application. Trees with more than 3° of rake should not be used in stock frame applications.

PART #	DESCRIPTION
FOR 84-99 FXST, FXWG AND CUSTOM APPLICATIONS (CONT)	
0408-0382	3° rake, chrome

41 MM FL-STYLE TRIPLE TREE

Drag Specialties

- Forged steel construction and highly chromed in a smooth style
- A distinctive addition to any Harley Big Twin model with FXST, FXWG and FL fork tubes (41 mm)
- Does not include mounts for stock headlight nacelle

NOTE: Does not allow fork-lock capability.

PART #	DESCRIPTION
DS-222939	Smooth style w/o mounts

SM Speed Merchant

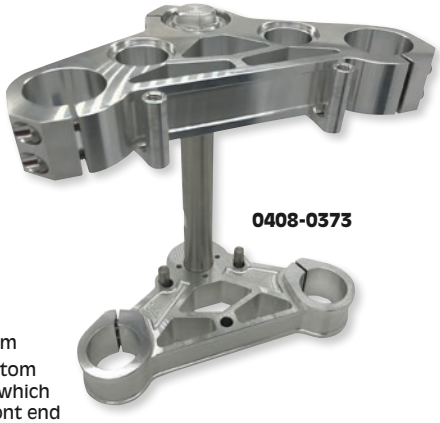

39 MM SPEED TRIPLE TREE

- CNC-machined out of 6061 aluminum
- Available in black anodized finish
- Includes steering stem and external hardware for use with stock XL steering stops
- Pre-drilled for internal fork stops
- These trees have been designed for better stability especially when used with longer-than-stock shocks
- Will provide more stability at high speed, with a modified offset to increase the trail

PART #	DESCRIPTION
0408-0298	For 91-98 FXD and 88-99 FXR

All part numbers in BLUE are new for the OldBook.

0408-0373

0408-0374

PRO PERFORMANCE PRODUCTS

39 MM TRIPLE TREES

- CNC-machined out of solid 6061-T6 aluminum
- Increased clamping area of 0,25" on the bottom tree reduces lateral and torsional fork flex, which increases the rigidity and stability of the front end
- Machined cut-out in top tree for clean cable and wire routing
- No fork lock capabilities
- Works with optional internal fork stop; PART# DS-221926 (sold separately)
- Will fit most 39 mm front ends with 7" O.C. forks
- Designed to accept standard risers (3 1/2" O.C.)
- Available in black anodized or raw aluminum finishes

NOTE: Models with risers cast into the upper triple tree will require separate purchase of risers, bushings and mounting hardware.

PART #	DESCRIPTION
FOR 91-98 FXD, 88-94, 99-00 FXR MODELS	
0408-0373	Raw aluminum

PART #	DESCRIPTION
FOR 91-98 FXD, 88-94, 99-00 FXR MODELS (CONT)	
0408-0374	Black anodized

Classic Bike

SPRINGER TRIPLE CLAMPS FOR STANDARD HANDLEBARS

0408-0398

- Allows you to mount non-Springer handlebars to Springer models
- 3° rake angle triple clamp made from durable aluminum
- Measures 3 1/2" between risers
- Includes screws for riser and for rigid fork leg

AXEO HIGH PERFORMANCE FRONT SUSPENSION SYSTEMS FOR FL TOURING MODELS

- Designed to be used with stock diameter front wheels
- Easy installation
- Includes two mono-tube, dual chambered damper cartridges and two top out springs
- Performance spring rate
- Machined 303 Stainless threaded pre-load adjuster
- Increased pre-load range allows the tuning for various riding styles and weights
- Ride quality is smooth and controlled
- Improves stability, cornering and traction
- Eliminates front-end dive during aggressive braking and maneuvering
- Firm feel for high-speed sweeping turns
- Eliminates bottoming out on large bumps or potholes
- Reduces dragging floorboards and pegs
- Designed for optimum performance with Legend rear suspensions
- Available in standard height, 1" lower than stock or 2" taller than stock

NOTE: These products are not designed for use with 21" and 23" wheels.

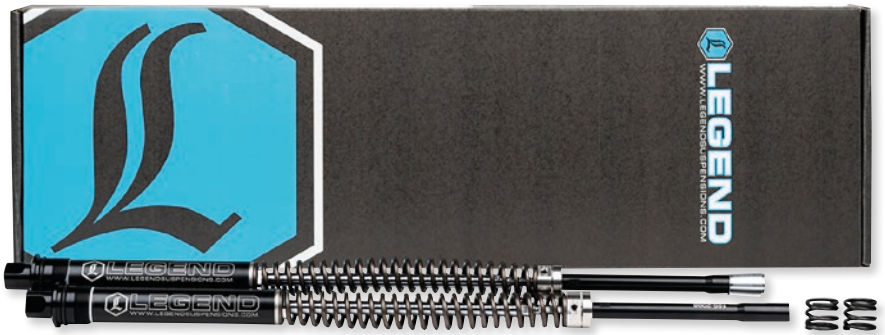

NOTE: PART #414-0597 requires the use of Harley-Davidson fork tubes OEM #83804-09 (22.25" L).

NOTE: 97-98 models equipped with stock air forks will require the additional purchase of Harley Davidson OEM part nos. 45419-80 (two) and 45733-48 (two) for installation.

PART #	DESCRIPTION
FOR 97-98 FLT/FLHT/FLHR/FLTR/FLHX (41MM FORKS)	
0414-0496[1]	Standard
0414-0497[1]	1" lowered
0414-0597[1, 2]	+2 Raised

[1] 97-98 models equipped with stock air forks will require additional purchase of Harley Davidson OEM #s 45419-80 (two) and 45733-48 (two) to install.

[2] PART #0414-0597 (41mm) Axeo requires the use of Harley Davidson upper fork tubes OEM #83804-09 (22.55" L).

AXEO COMFORT FRONT SUSPENSION

- Legend's comfort touring spring rate provides improved small bump compliance, superior ride quality, as well as increased resistance to bottoming for all-day comfort
- Threaded pre-load adjuster allows tuning for various rider weights and increased pre-load range
- Ride quality is smooth and controlled with improved stability, cornering, and traction
- Reduces front-end dive during aggressive braking and maneuvering
- Minimizes dragging floorboards and pegs
- Designed for optimum performance with Legend rear suspension
- Designed to be used with stock diameter front wheels
- Includes two matched mono-tube, dual-chambered damper cartridges, and two top-out springs
- Available only in standard length to maintain factory ride height
- Easy installation

NOTE: This product is NOT designed for use with 21" and 23" wheels.

NOTE: 1997-1998 models equipped with stock air forks will require additional purchase of Harley Davidson OEM P/N's 45419-80 (2) and 45733-48 (2) to install.

PART #	DESCRIPTION
0414-0741	For 97-98 FLT/FLHT/FLHR/FLTR/FLHX (41 mm forks)

All part numbers in BLUE are new for the OldBook.

RACE TECH

COMPLETE FRONT END SUSPENSION KITS

- Race Tech complete front-end suspension kits improve comfort and performance of damping rod forks
- More than just fork lowering kits, these come with Race Tech Gold Valve cartridge fork emulators and high-performance springs
- Also include hardware to lower bike 1" or 2"

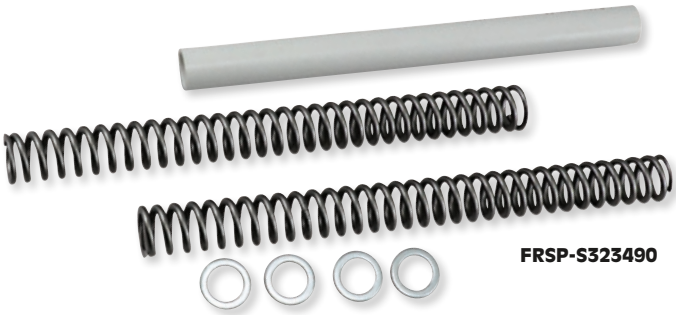

PART #	DESCRIPTION
FOR 84-99 FLST/FXST, 93-98 FXDWG, 80-86 FXWG, 80-98 FLT/FLHT, 94-98 FLHR (41 MM)

FRSPS293880	0,80 kg/mm spring
FRSPS293885	0,85 kg/mm spring
FRSPS293890	0,90 kg/mm spring
0405-0492	0,95 kg/mm spring

PART #	DESCRIPTION
FOR 82-86 FXR, 79-85 XL (35 MM)	
0405-0489	0,85 kg/mm spring
0405-0490	0,90 kg/mm spring
0405-0491	1,00 kg/mm spring

HYPERPRO Suspension Technology

ABE

See chart for details

FRONT FORK SPRINGS

- Offer shorter braking distance, easy cornering and more confidence
- Better balance on the bike; more comfortable riding (even with a passenger)
- Dramatically improve tire life
- More grip in dry or wet weather
- Front fork springs include front fork oil
- ABE approved

PART #	DESCRIPTION
0405-0351	For 95-98 Dyna (except FXDWG)
0405-0362	For 88-98 FLHTCU
0405-0364	For 89-99 FLST/C
0405-0365	For 90-99 FLST/F

PART #	DESCRIPTION
0405-0374	For 95-98 FXDL
0405-0382	For FXRP (Police)
0405-0384	For 89-93 FXRS CONV
0405-0385	For 88-92 FXRS SP

All part numbers in BLUE are new for the OldBook.

PROGRESSIVE suspension

MONOTUBE FORK CARTRIDGE KITS

- Converts dual damper rod forks to high-performance cartridge forks
- Contains a pair of high-performance, gas-charged mono-tube fork cartridges and custom-tuned fork springs
- Improves resistance to front brake dive, front-end stability, cornering and bottoming control
- No modification for forks required
- Lowering kits lower the front end up to 2"

0414-0380

PART #	DESCRIPTION
STANDARD KITS	
0405-0308	For 84-96 FLT/FLHT/FLHR models
0414-0370	For 97-98 FLT/FLHT/FLHR/FLTR models

PART #	DESCRIPTION
LOWERING KITS	
0414-0380	For 97-98 FLT/FLHT/FLHR/FLTR models

PROGRESSIVE suspension

HEAVY-DUTY FORK SPRING KITS

- Heavy-duty version of the Progressive Suspension fork springs
- The cost-effective go-to for a substantial increase in front-end ride quality
- Includes Progressive Suspension rate springs combined with pre-load spacers
- Can improve front end stability and brake dive control as well as increase comfort for heavier riders or those looking for a firm high-performance feel out of their forks

0405-0296

PART #	DESCRIPTION
0405-0296	For 84-98 FLT/FLHT/FLTR/FLHR
0405-0296	For 84-99 FXST/FLST (except 92 FXST)
0405-0296	For 85-86 FXWG

PART #	DESCRIPTION
0405-0296	For 93-98 FXDWG
0405-0315	For 91-92 FXD/B/C/L/X
0405-0315	For 88-99 FXRT

PROGRESSIVE suspension

FORK SPRINGS

- High-quality, high-performance replacement fork springs
- A Progressive Suspension rate spring has the advantage of a rising rate resistance to compression
- The benefit is the spring can be soft enough at the start of the travel to offer a "plush" ride, yet firm enough at the end of the travel to soak up the big bumps
- Spring rates have been chosen to reduce front-end dive during braking, yet still provide excellent ride comfort
- Sold in pairs

DS-222048

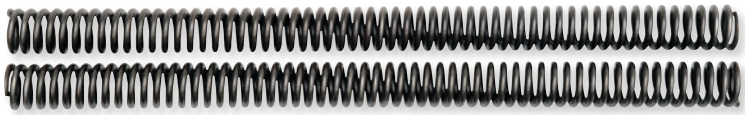

PART #	DESCRIPTION
DS-222048	For 84-99 FXST/FXSTD/FLST/FLSTF; 93-98 FXDWG; 84-98 FLT/FLHT/FLTR; 94-98 FLHR (41 mm)
DS-222040	For 84-87 FXRT; 84-87 FXR/FXRS; 85-86 FXRD; 85-86 FX/FXE/FXS/FXSB; 86-87 XR (35 mm)

PART #	DESCRIPTION
DS-222056	For 87-94 FXLR; 88-94 FXR/FXRS; 88-03 XL (39 mm)
DS-222045	For 95-98 FXD
DS-222057	For 87-94 FXRSP/RT

REPLACEMENT FORK SPRINGS

- Great low-cost solution for those who want OEM-spec fork springs
- Made to exact OEM specifications
- Sold in pairs

Eastern MC Parts

0405-0326

PART #	DESCRIPTION
0405-0485	For 85-96 FLT/FLHT models (41 mm Showa); repl. OEM #45853-83
0405-0326	For 49-E77 FL models (41 mm H.D.); repl. OEM #46051-49A
0405-0487	For 87-99 FLST/C, FLSTF/FLSTN models (41 mm Showa); repl. OEM #45931-86
0405-0331	For L87-94 FXR (39 mm Showa); repl. OEM #45375-87
0405-0332	For 84-E87 FXR, 83 FXRT (35 mm Showa); repl. OEM #45385-83
0405-0329	For 76-82 FX, 75-79 XL models (35 mm Showa); repl. OEM #45408-75

All part numbers in BLUE are new for the OldBook.

LA Choppers

FRONT FORK LOWERING KITS

- Everything you need to lower the front end of your motorcycle
- Kit includes all necessary installation hardware and instructions
- Lowers front forks 31,75 mm (1 1/4") – 51 mm (2") (kit only lowers FLT/FLHT model front forks 25,4 mm (1"))

0416-0026

PART #	DESCRIPTION
0416-0026	For 84-99 FXST, 86-99 FLST; 93-98 FXDWG; 80-86 FXWG; 80-98 FLT/FLHT/FLHR/FLTR (41 mm forks)
0416-0027	For 87-94 FXRS-SP/FXLR, 88-94 FXR/FXRS/FXRT, 91-98 FXD w/ 39 mm forks

DROP IN Fork Lowering System PROGRESSIVE suspension

DROP-IN FRONT FORK LOWERING SYSTEM

- Transforms a time-consuming installation process into a quick and simple job
- Lowers front end of your bike up to 2" without disassembling the forks
- Entire procedure can be accomplished with basic tools

0416-0035

PART #	DESCRIPTION
0416-0037	For 84-99 FXST/FLST, 80-98 FLHT/FLT, 93-98 FXDWG (non-cartridge forks)

PART #	DESCRIPTION
0416-0035	For 91-98 FXD (except FXDWG)

PROGRESSIVE suspension

FORK LOWERING KITS

- Kits utilize Progressive Suspension's experience and knowledge to provide exact model applications
- Progressively wound for more comfort and control over a variety of road surfaces
- Lower forks up to 1"
- Kits come complete with springs, spacers and installation instructions

PS01561

PART #	DESCRIPTION
PS01561	For 84-01 FLHT/FLT/FLHR/FLTR; 85-86 FXWG; 84-99 FXST/FLST; 93-98 FXDWG (41 mm)
PS01560	For 87-94 FXLR; 88-94 FXR/FXRS; 87-94 FXR-SP/CONV.; 88-92 FXRT; 91-92 FXDB/C; 93-98 FXDL; 94-98 FXDS-CONV) (39 mm)
PS01559	For 82-87 FXR/FXRS; 84-87 FXRT and 85-86 FX (35 mm)

BURLY BRAND MOTORCYCLE ACCESSORIES

LOWBOY FORK LOWERING KITS

- This is how you get the look many people want
- Lower the forks up to 2"
- Come with two rebound springs and two 30,5 mm OD progressively wound fork springs plus instructions

DS-221440

PART #	DESCRIPTION
DS-221440	For 84-98 FLT/FLHT/FLHR/FLTR, 84-99 FXST, 93-98 FXDWG, 86-99 FLST, 84-86 FXWG (41mm tubes)

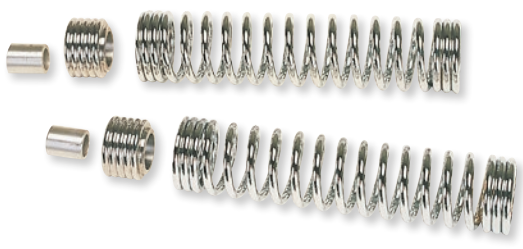

PART #	DESCRIPTION
DS-221441	For 87-94 FXRS-SP/FXLR, 88-94 FXR/FXRS/FXRT, 91-98 FXD (except FXDX) (39 mm tubes)
DS-221442	For 85-87 FXSB/FXR/FXRS, 84-86 FXRT/FXRD (35 mm tubes)

BURLY BRAND MOTORCYCLE ACCESSORIES

FORK LOWERING KIT

- The quickest and easiest way to lower front forks by 1 1/2"
- Comes with two chrome compression springs, spring spacers and bushings

NOTE: Requires a springer fork disassembly tool, such as PART #3805-0075.

PART #	DESCRIPTION
DS-221458	For 89-99 FXSTS models

All part numbers in BLUE are new for the OldBook.

RACE TECH

GOLD VALVE CARTRIDGE FORK EMULATORS

- Make damping rod forks perform like well-tuned cartridge forks
- Tunable valves sit on top of damping rods; held in place by the main springs
- Simple to install and tunable for all conditions and rider preferences

NOTE: Lowering the motorcycle will reduce ground and cornering clearance.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact, as well as chain/belt guard or tire contact.

NOTE: OEM upper shock mount covers will not fit with these shocks.

NOTE: Not for use with rear lowering kits.

LEGEND REVO

LEGEND REVO DYNA COIL SUSPENSION

- Available only in Black Type III hard coat anodize
- Legend's touring-specific coil spring rates provide superior ride comfort, improved performance, and increased resistance to bottoming for all-day comfort
- Adjusts by hand, no tools needed
- Available in 30,5 cm (12"), 33 cm (13"), and 35,5 cm (14"), standard or heavy-duty applications
- Easy installation and alignment, provided by spherical bearings on both top and bottom mounting points
- High-flow piston reacts quickly for improved fluid flow management
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Low friction sealing system and sliding bearings for improved performance and feel
- Sold in pairs

NOTE: Heavy Duty application is recommended for 113 kg (250lb.)+ rider and passenger total weight

NOTE: Harley Davidson OEM Part Numbers 54666-08 (2), 7880 (2) and 8185 (2) are required for 91-98 models

NOTE: 35,5 cm (14") shocks require short exhaust

REVO ARC PIGGYBACK

LEGEND REVO-ARC PIGGYBACK FXR COIL SUSPENSION

- Legend's touring specific spring rates produce superior ride quality and performance
- Coils provide improved plush ride quality, control, and resistance to bottoming out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Allow minimal pre-load adjustments by hand when changing between riders' weights or loads
- Adjusts by hand, no tools needed
- Easy installation and alignment, provided by spherical bearings on both top and bottom
- 35 mm monotube construction
- Deflective disc valve stacks
- Balanced/Matched piston and base-valve design specific for these motorcycle applications
- Low friction sealing system and sliding bearings for improved performance and feel
- Seven external knob adjustments allow fine-tuning of rebound
- Seven external knob adjustments allow fine-tuning of compression
- Provide optimum rebound and compression performance for any given rider weight, personal ride quality preference, or personal riding style
- Nitrogen gas bladder design allows ultra-fast response and stiction-free movement
- Light to heavy riders can fine-tune ride preference
- Aggressive to casual riding styles can tune to desired quality or personal preference
- Sold in pairs

FOR 84-00 FXR MODELS	
1310-1900	Black; 33 cm L (13")

REVO

LEGEND REVO FXR COIL SUSPENSION

- Available only in Black Type III hard-coat anodize
- Legend's touring specific spring rates produce superior ride quality and performance
- Coils provide improved plush ride quality, control, and resistance to bottoming-out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Unique spring rate offers ability to soften preload and/or reduce ride height while maintaining a smooth ride
- Allows minimal pre-load adjustments by hand when changing between riders' weights or loads
- Adjusts by hand, no tools needed
- Easy installation and alignment, provided by spherical bearings on both top and bottom mounting points
- High-flow piston reacts quickly for improved fluid flow management
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Low friction sealing system and sliding bearings for improved performance and feel
- Sold in pairs

PART #	DESCRIPTION
FOR 84-94/99-00 FXR MODELS	
1310-1100	305 mm (12") L

LEGEND REVO-A

1310-1106

1310-1746

LEGEND REVO-A ADJUSTABLE FXR COIL SUSPENSION

- All the benefits of the new REVO shocks above plus six external knob adjustments allow fine-tuning of rebound
- Provides optimum rebound performance for any given rider weight, personal ride quality preference or personal riding style
- Light to heavy riders can fine-tune ride preference
- Aggressive to casual riding styles can tune to desired quality or personal preference
- Sold in pairs

NOTE: Heavy-duty applications are recommended for 226 kg (500 lb+) rider and passenger total weight.

NOTE: Heavy-duty not available in clear anodized or gold.

NOTE: 35,5 cm (14") shocks require short exhaust.

FAIRING-MOUNTED LED BACKLIT PSI GAUGES

- Fairing mounted, illuminated PSI gauge
- 0-150 PSI full sweep air gauges by Auto Meter
- Colors and designs match factory gauges
- Easy, direct installation replaces ambient air temperature gauges in 97-98 fairings
- Plug-in wiring and color-matched LED bulbs so these look OEM
- Kit includes gauge, 2,4 m (8') of air line, tubing cutter, Y-fitting and straight female fitting
- Black gauge accepts chrome bezel from stock gauge if desired

NOTE: Does not fit rocker box style gauge mounts.

NOTE: Not intended for use with Softail AIR ride systems.

FREQUENCY SENSING TECHNOLOGY

444 SERIES SHOCKS

- Features the all new Frequency Sensing Technology (FST) which allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Deflective disc valving
- Adjust spring pre-load by hand, no special tool needed
- Include a progressive rate-spring and is high-pressure gas charged for consistent performance
- Standard or heavy-duty spring rate with black or chrome finish

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may slightly alter the head angle and provide somewhat slower steering.

NOTE: For OEM shock lengths, see the Quick Reference Guide in the back of this catalog.

NOTE: Heavy Duty Applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

Chrome w/ covers

Black w/ covers

412 SERIES SHOCKS

- Manufactured from the finest materials available
- Designed specifically for Harley models
- The 412s' simple, durable design makes them a cost-effective improvement to your motorcycle's suspension performance
- A five-position cam-style spring-load pre-load adjuster lets you easily dial in your ride
- Available with either a standard or heavy-duty progressive spring rate
- Multiple style options available
- Sold in pairs

NOTE: All shocks are measured center-of-eyelet to center-of-eyelet.

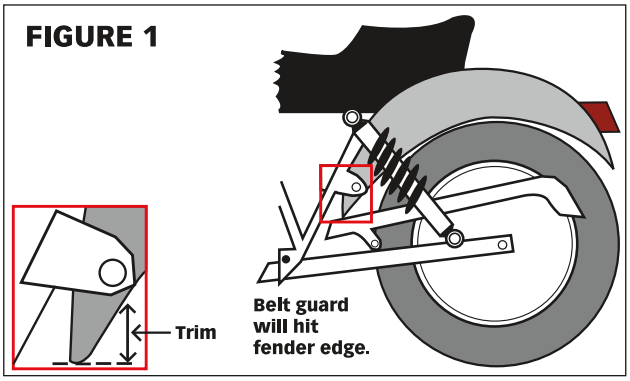

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may alter the head angle slightly and provide somewhat slower steering.

NOTE: Heavy Duty Applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

FIGURE 1

To use the 279 mm or 292 mm (11" or 11,5") shocks on FXDWG models, the fender must be modified as follows: When the shock is compressed, the belt guard will hit the fender edge (see Figure 1). Trim the fender as shown in Figure 1 inset. After the fender is trimmed, install one shock with springs removed and compress shock to verify that belt guard clearance is sufficient.

430 SERIES SHOCKS

- Get the best-in-class dampening performance with this high-pressure gas mono tube shock
- Fade-free in any type of conditions
- Feature disk valves for quick and consistent damping
- Threaded pre-load adjuster allows for fine tuning with a simple twist of the cap
- Can be mounted with the pre-load adjuster at the top or bottom
- Available in a chrome or black finish
- Sold in pairs

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may alter the head angle slightly and provide somewhat slower steering.

NOTE: Heavy duty applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

FREQUENCY SENSING TECHNOLOGY

944 FST ULTRA TOURING/LOW SHOCKS

- Unique Ultra spring configuration provides the superb ride quality and suspension travel of a 330 mm (13") shock but the custom lowered look of a 305 mm (12") shock
- Low Series shocks are designed to sit even lower; 50,8 mm (2") lower than a stock Touring model
- Built around Progressive Suspension's Frequency Sensing Technology (FST)
- Allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Unique spring combination delivers a dropped ride height while being ridden, but also while the bike is on a side stand
- This allows you to better manage your bike at intersections and when parking
- Adjust spring pre-load by hand, no special tool needed
- Progressive rate main springs specifically designed for touring models
- High-pressure gas charged for consistent performance

NOTE: Heavy Duty Applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

HYPERPRO Suspension Technology

SHOCKS

- High-performance, 7075-T6 aircraft aluminum construction; a wet born piston rod and self-adjusting bearing
- Radial piston with straight flow and preload through a pre-combustion oil chamber offers optimum response
- Anti-block system features a separate overpressure valve that prevents the shock from hydraulic lock
- Anti-fading damping system
- Rebound/compression adjuster; 50/30 clicks
- Feature progressive spring and threaded spring preload adjuster
- Adjusted for a solo rider and occasional two-up riding; spring load can be adjusted to personal preference

NOTE: When rear fender clearance allows, the low shocks also fit on other H-D motorcycles not listed in the charts.

- Tune suspension to match riding style
- Shocks feature a show chrome cover
- Pair of progressive-rate coil springs and purpose-designed monotube dampers provide superior suspension performance
- Dampers feature a nitrogen charge that eliminates internal oil cavitation and helps create a consistent ride while resisting heat-induced fade
- RAP (Remote Adjustable Pre-load) system allows for easy tuning of shocks to account for changing loads or the addition of a passenger with a remote pre-load adjuster
- Sold in pairs

PROGRESSIVE suspension

422 SERIES SHOCKS WITH RAP

- The Softail chassis has long been a challenge as the shocks are hidden under the frame, which makes common adjustments difficult
- The RAP (Remote Adjustable Pre-load) system allows for easy tuning of the shocks to account for changing loads or the addition of a passenger; conveniently located behind the left passenger peg
- Simply turn the knob in either direction to set the spring pre-load

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

NOTE: Heavy Duty Applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

LEGEND AIR SOFTAIL AIR SUSPENSION

- Legend AIR Suspensions Systems set the high mark in ultimate ride quality
- Exclusive Aramid Fiber air spring technology provides spring rate adjustability
- Air springs maximize wheel travel and adjust to any desired ride height
- Type III hard-coat anodized CNC-machined aluminum bodies
- Low friction sealing system and sliding bearings for improved performance and feel
- High-flow piston reacts quickly for improved fluid flow management
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Air compressor included, pre-wired, and model specific mounting
- Complete wire harness installed with three easy Deutsch connections
- System includes OEM-looking black handlebar-mounted control for easy "on-the-go" adjustability
- Optional chrome handlebar-mounted control sold separately (PART #0616-0207)

TIRE HUGGER SERIES FRONT FENDERS

- Steel fenders are thick enough to add rigidity to the front end by acting like a fork brace, but can still be cut or shaped enough for an even more Kustom appearance
- All fenders come predrilled and are stamped, not spun, to ensure a consistent finish and minimize body work
- E-coated to prevent rust and corrosion
- 16", 17", 18" and 19" fenders measure 6,25" outside width and will accommodate up to a 130 series tire
- 21" styles measure 5,875" outside width and will fit the current 120/70-21 series tires on 3,5" wide rims
- 21" Narrow measure 4,5" outside width and will fit models listed with the stock narrow rim and a tire up to 100/100-21
- Installation requires the use of Klockwerks Tire Hugger mounting blocks (sold separately)

FOR 84-99 FXST/FXSTB/FXSTC, 93-98 FXDWG AND CUSTOM APPLICATIONS

WFB™ BENCHMARK FRONT FENDERS

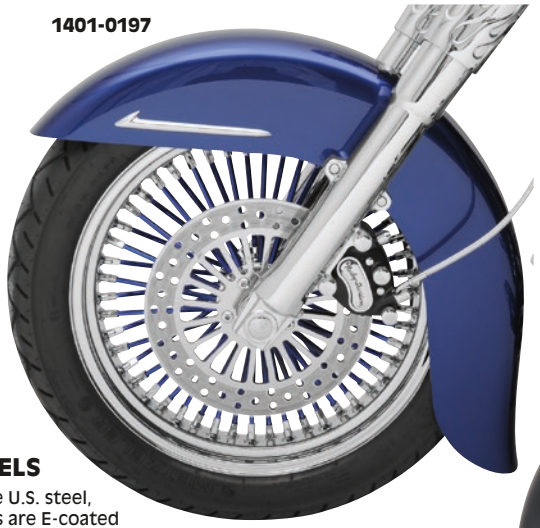

- Stamped from 14-gauge U.S. steel, these 6½" wide fenders are E-coated to prevent rust and corrosion with the lowest paint prep in the industry
- Fenders are predrilled to fit 16", 17" or 18", or for a very radically Kustom look, 21", 23" or 26" front wheels
- Rivetless smooth sides and an extended 1,5" rear tail; fenders are a great match for any rear fender and add a clean yet dramatic flow to your stock FL
- The use of precision deep-draw stamping technology ensures a consistent flawless finish while minimizing bodywork
- Installation requires use of Klock Blocks front fender mounting blocks available separately, PART #s 1410-0022 and 1410-0023
- The Benchmark fenders can be paired with the WFB™ rear fender to complete the Klock Werks Kustom look

PRO PERFORMANCE PRODUCTS

12" BILLET DRIVER FLOORBOARDS

- Sleek and modern design with comfort and performance
- CNC-machined from billet 6061 aluminum
- Lightweight, thin tapered design
- Set screw traction pins for maximum grip
- Sold in pairs

PART #	DESCRIPTION
FOR 80-98 FLT/ FLHT/ FLHR/ FLTR AND 86-99 FLST/F/N	
1621-1054	Chrome
1621-1055	Black anodized

PART #	DESCRIPTION
FOR 80-98 FLT/ FLHT/ FLHR/ FLTR AND 86-99 FLST/F/N (CONT)	
1621-1056	Gold (titanium nitride coated)

Joker MACHINE

SERRATED DRIVER FLOORBOARDS

- CNC-machined from solid 6061-T6 aluminum with a black anodized finish
- Super-strong yet very lightweight design
- Comfortable serrated foot surface area gives good "bite" to the bottom of the boot
- Exclusive pitch adjustment allows you to change the angle of the floorboard so it sits in a "level" riding position
- Installs with stock mounting hardware
- Measure 13,5" L x 4,75" W
- Sold in pairs

PART #	DESCRIPTION
1621-0631	For 80-98 FLT/FLHT/FLHR/FLTR and 86-99 FLST/F/N

Joker MACHINE

SERRATED PASSENGER FLOORBOARDS

- CNC-machined from billet aluminum for a strong, lightweight design
- Serrated for exceptional grip
- Black anodized finish
- Install easily to models equipped with H-D passenger footboard supports
- Sold in pairs

NOTE: Models with passenger footpegs will require the use of OEM accessory floorboard mounts.

PART #	DESCRIPTION
1621-0808	For 86-98 FLT/FLHT/FLHR/FLTR and 86-99 FLST/F/N

CUSTOM ADJUSTABLE FLOORBOARDS

SHOW CHROME®

- Made from forged aluminum, these boards are CNC milled for unparalleled strength and durability
- Each board utilizes Big Bike Parts® anti-rotation mount system to allow full adjustability and ensure the boards will not pivot once secured
- Generous board size allows for a comfortable footrest for passengers
- Boards are designed to fit all models with 11 mm (7/16") female foot peg supports

PART #	DESCRIPTION
1621-0728	Cruise

All part numbers in BLUE are new for the OldBook.

KURYAKYN

ISO®-BOARDS AND ISO®-PASSENGER BOARDS

- Feature super-comfortable ISO®-Ribs that run the full length of the board
- ISO®-Boards measure 15" overall length and offer several different foot positions for the driver
- ISO® Passenger Boards were designed specifically to match the ISO®-Boards
- Sold in pairs

PART #	DESCRIPTION
1904-0016	ISO Driver Boards for 80-98 FLT/FLHT/FLHR/FLTR and 86-99 FLST/F/N models
1904-0017	ISO Passenger Boards for 86-98 FLT/FLHT/FLHR/FLTR and 86-99 FLST/F/N models w/ H-D accessory floorboard kits

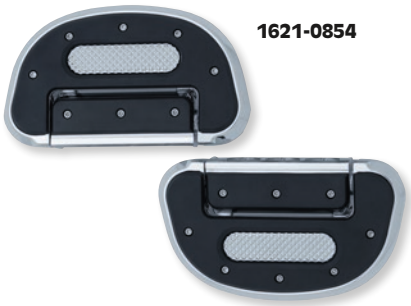

UNIVERSAL ISO®-BOARD KITS

- Kit includes a pair of ISO® passenger floorboards and a cast bracket to connect the board to a Kuryakyn splined adapter mount (sold separately)
- Designed for use on models with passenger pegs
- Not recommended for use on passenger peg mounts that attach to the motorcycle with only a single fastener
- PART #1621-0088 recommended for driver or passenger use; check operation of shift lever and brake pedal after installation
- PART #1621-0144 elevates the floorboard approximately 1 1/4" higher than the stock position; recommended for passenger use only
- Sold in pairs

DRIVER FLOORBOARD MOUNTING BRACKETS

- Chrome reproductions of the OEM mounting brackets
- Utilize OEM mounting hardware
- Floorboards are not included; must be purchased separately

PART #	DESCRIPTION
DS-530620	For 83-98 FLT, FLHT (4-pc.)

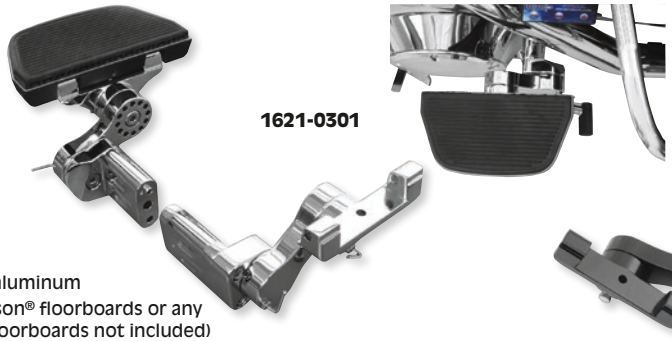

PASSENGER FLOORBOARD MOUNTS FOR DRESSERS

- Steel construction
- Come complete with mounting bolts, hinge pins and ball/spring stop
- Accept most OEM-style floorboards
- Standard mounts are direct OEM replacements
- Raised mounts raise the floorboards approximately 2 1/2" higher for increased comfort over the standard version
- Sold in pairs

PART #	DESCRIPTION
STANDARD MOUNTS FOR 93-98 FLHT/FLHR/FLTR MODELS	
1621-0392	Chrome; repl. OEM #53070-00A
1621-0393	Black; repl. OEM #50500042

PART #	DESCRIPTION
RAISED MOUNTS FOR 93-98 FLHT/FLHR/FLTR MODELS	
1621-0394	Chrome
1621-0395	Black; repl. OEM #50789-99B

ADJUSTABLE PASSENGER FLOORBOARD MOUNTS

- Made from CNC-machined billet aluminum
- Accept either stock Harley-Davidson® floorboards or any direct-fit accessory floorboard (floorboards not included)
- The ultimate in passenger comfort; movement of the boards forward eliminates the problem of passenger's calves pressing against the saddlebag/guard rail and greatly increase foot and leg support over stock boards
- Adjust in seconds to 12 different positions through a 9" range of motion; simply pull out spring-loaded lock pins, then move the board up or down until pin clicks into next position; no tools required

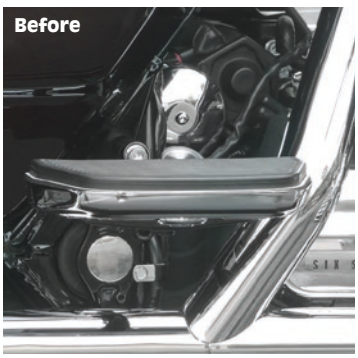

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHS/FLTR/FLHR	
1621-0301	Chrome, for bikes w/ Original Equipment exhaust

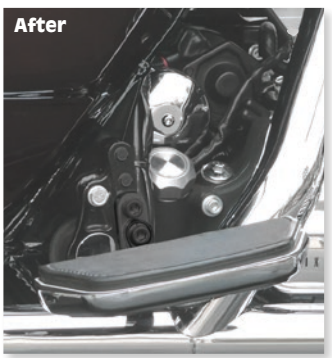

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHS/FLTR/FLHR (CONT)	
1621-0671	Black anodized, for bikes w/ Original Equipment exhaust

PASSENGER FLOORBOARD TALL COMFORT KIT

- Utilizes your stock floorboards
- Choose from six "comfort" positions of height and tilt
- Provides up to 2 1/2" of additional legroom and widens the floorboards 1 1/2" to help ease hip stress
- Relieves calf stress by tilting the rear of the floorboards
- Relaxes your knees to reduce joint stress
- Install and adjust in minutes

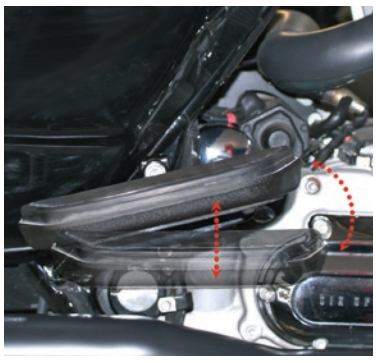

PART #	DESCRIPTION
1622-0243	For 93-98 FLT/FLHT/FLHR/FLTR models

PASSENGER FLOORBOARD SHORT COMFORT KIT

- Provides two additional floorboard positions with blocks and three positions for the floorboards, five positions total both up and down
- Approximately 1 1/4" to 2" higher than the highest stock setting
- The tilted position places the floorboards at an ergonomic plane relieving stress in the legs and calves
- This tilted position also allows the passenger to push into the boards when cornering, which provides a more secure feeling
- Provides two additional spacing widths to add additional comfort by placing the floorboards wider apart
- The wider position allows passengers to relax their lower body, which takes pressure off of the inner thighs, knees and lower back

PART #	DESCRIPTION
1621-0245	For 93-98 FLT/FLHT/FLHR/FLTR models

All part numbers in BLUE are new for the OldBook.

KURYAKYN

CHROME DRIVER FLOORBOARD RELOCATION BRACKETS

- Reposition the driver floorboards 1" forward and 1" further out than the stock location
- Compatible with Kuryakyn ISO® Boards and H-D Traditional or Swept Wing floorboards
- Not for use with Cruise Arm Mk III or standard length Cruiser Arm Mk IV

PART #	DESCRIPTION
1621-0170	For 97-98 FLHT/FLHR/FLTR

KURYAKYN

DRIVER FLOORBOARD SPACERS

- Move the stock driver's floorboards out 3/4"
- Help alleviate hot air buildup by moving the thighs/lower legs slightly away from the bike to improve airflow
- Mounts are powdercoated black
- Mounting bolts are stainless steel
- Will work with OEM fairing lowers

PART #	DESCRIPTION
1621-0466	For 83-98 FLT/FLHT/FLHR/FLTR (not for use w/ display stand OEM #99002-97)

PINGEL Since 1967

DRIVER FLOORBOARD EXTENDER KIT

- Moves the floorboards outward 1 1/4"
- Provides greater comfort by moving the legs away from the gas tank and engine heat
- Works well with oversized primary covers
- Kit is easy-to-install using included hardware
- Billet aluminum with a black finish
- Compatible with fairing lowers, but not with centerstand

PART #	DESCRIPTION
1621-0098	For 83-98 FLT/FLHR/FLHT/FLTR models

ARLEN NESS

"RAIL" FOOT AND SHIFTER PEGS

- Another unique design from Drag and Arlen Ness
- Protective rubber rails run completely around diameter for great looks no matter how pegs rotate or pivot
- Each is precisely die-cast, chrome-plated aluminum
- End cap is super-clean and uses a Grade 8 countersunk flat-head socket screw
- Very tight tolerances ensure a great-quality, superstrong footpeg assembly
- Carbon-steel pivot ends are stronger than other die-cast pivots
- Peg diameter is 1 1/2" (between a standard large-size driver and the smaller passenger-style pegs); length is 4" without pivot end
- Shifter peg matches footpegs
- Sold in pairs with pivot ends installed

PART #	DESCRIPTION
DS-253696	"Rail" pegs w/ male mount
DS-253700	Small dia. (1 1/4") "Rail" footpegs w/ male-mount

PART #	DESCRIPTION

ADJUSTABLE SERRATED BILLET FOOTPEGS AND SHIFTER PEGS

- Give your bike a unique design twist with these all-billet aluminum serrated footpegs
- Fully CNC-machined from solid 6061-T6 bar
- Superstrong, yet lightweight two-piece construction
- The comfortable serrated foot surface area provides a good "bite" onto the bottom of your shoe
- Footpegs available in original or heel style with Joker's exclusive pitch adjustment screw that enables you to adjust the pegs to a "level" riding position (if necessary) so the pegs don't appear to "lay down" with time, vibration, etc.
- Feature full 360° footpeg rotation making them perfect for any application
- Serrated shift pegs have serrations on the top surface only, and the bottom side is smooth to provide non-shoe-damaging upshifts – install easily to most stock H-D shift arms with a threaded $^{5}/_{16}$"-24 mounting hole
- Available in your choice of natural clear anodized, hard black anodized or raw aluminum finish
- Male-mount footpegs are available in three different lengths and fit most models with standard Harley female footpeg mounts
- Footpegs sold in pairs; shifter pegs sold each

FOR ALL MODELS WITH STANDARD FEMALE FOOTPEG MOUNTS

ROAD RACING FOOTPEGS AND SHIFT PEG

- Footrests feature an intricately CNC-machined tread pattern in the top surface for optimal footing
- Much lighter than stock and have an angled design for better road clearance when cornering
- Replace stock rubber or cast iron units
- Machined from solid blocks of 6061-T6 billet aluminum
- Full 360° footpeg rotation makes these footpegs perfect for any application
- Male-mount footpegs have Joker's exclusive pitch adjustment screw to maintain the proper upward angle of the peg
- Dimensions 3 1/4" L x 1 1/4" W

1620-1059

1603-0197

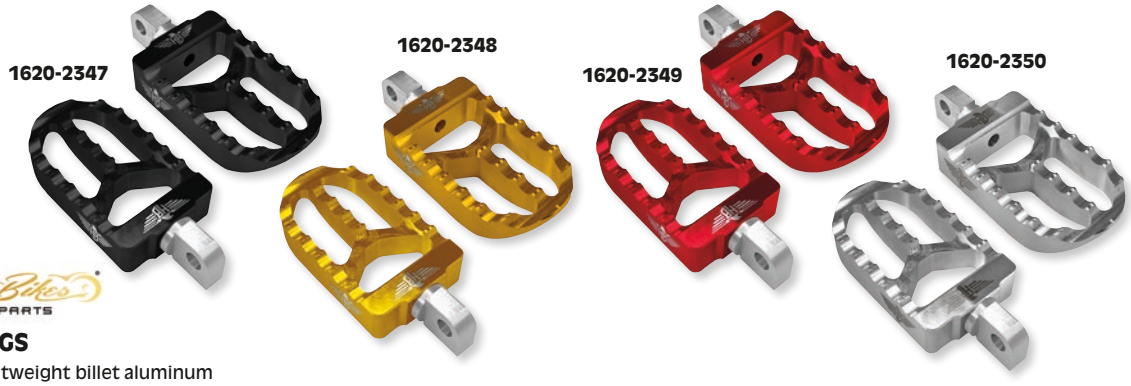

- Shifter peg is fully CNC-machined from 6061-T6 aluminum
- Super-strong, yet lightweight one-piece construction
- Installs easily to most stock H-D shift arms with a threaded $^{5}/_{16}$"-24 mounting hole (replaces the stock rubber unit)
- Both footpegs and shifter peg are available in hard black or clear anodized finish

FRONT AXLE CAPS

- CNC-machined billet aluminum construction
- Chrome finish available
- Sold in pairs

PART #	DESCRIPTION
0214-0242	Chrome

CHROME AXLE CAPS FOR 3/4" AXLES

- Styled after the FL accessory cap set, OEM #43895-56
- Each set includes caps for both the axle nut and axle head (where required), setscrews and hex key wrench
- Each cap has an internal hex to allow more thickness for the setscrew's thread, eliminating thread-stripping
- See the chart for fitment applications

NOTE: Will not work on late-model rear axles with cotter key locking devices.

REPLACEMENT CYLINDER STUDS

- High-quality replacement cylinder studs provide increased strength and extended durability
- Meet or exceed OE standards
- Sold in 8-packs

PART #	DESCRIPTION
2401-0885[1]	For 84-99 Evolution Big Twin models
2401-0888[2]	For 84-99 S&S special application cases

[1] For Big Twin engines with less than 4" bore cylinders only.
[2] For Big Twin engines with 4", 4 1/8" or 4 3/8" cylinder bores only.

CYLINDER STUDS

Kibblewhite Precision Machining

- Made of U.S. milled-and-certified aircraft-quality materials
- Stud body is the same size as the major diameter of the stud thread, allowing for a stronger stud and stronger body
- The complete surface has been ground to remove all the imperfections of standard rough-milled material, which also removes notch sensitivity
- Threads are rolled under hydraulic force, creating the strongest possible thread
- A radius is ground on the last thread to reduce the potential of the stud failing at that point
- Sold in a matched set of eight

PART #	DESCRIPTION
DS-199771	For 84-99 Evolution Big Twin

Colony Where Excellence is a Standard

REPLACEMENT STUD SETS

Compression bag

TRK-350 TRIKE COVERS

- Made of medium-weight Tri-Max® polyester, this is the only trike cover guaranteed to be 100% waterproof
- All seams are electronically heat sealed and have silver heat-resistant lower panels
- Exclusive Perma-Venting® system prevents condensation buildup by allowing constant air circulation
- 50" rear zipper gives access to trunk without cover removal
- Snug-fitting, elasticized bottom has 25 mm (1") grommets in center and at front wheel
- Packed in included compression bag for the ultimate in compact storage
- Available in black with rear silver heat-resistant panel
- Two sizes available to fit most models

PART #	DESCRIPTION
TRK-350	TRK-350 trike cover (fits models w/ rear width up to 147 cm W (58"))
4001-0164	Extra-large trike cover (fits models w/ rear width up to 165 cm W (65"))

TRIKE DUST COVER

- Protect your trike from dust and spills when garaged
- Made from a breathable, soft, non-scratch brushed poly/cotton
- For indoor use only

PART #	DESCRIPTION
4001-0165	Extra-large trike dust cover (fits models w/ rear width up to 165 cm W (65"))

UV2000 1/2 COVERS

- Specially treated UV protector nylon
- Blocks out over 99% of sun's harmful rays
- 100% waterproof and protects against all natural elements
- All seams are electronically heat sealed
- Sewn-in elastic bungees for universal mounting
- Comes in its own fanny pack
- When folded, fits into almost any storage compartment
- Not intended for trailering
- Sizes Medium, Large and X-Large to fit most models

SPC+ UNIVERSAL PHONE CLAMP

- Easy and secure smartphone mounting on all SPC+ mounting heads
- Adjustable universal mount for almost all cell phone models
- Suitable for oversized smartphone models and rugged cases
- Durable and 100% waterproof

PART #	DESCRIPTION
0636-0316	Universal Max, fits all smartphone models with a width between approx. 65 mm-89,5 mm
0636-0317	Universal, fits smartphone models with a width between approx. 58 mm-85 mm

SPC+ UNIVERSAL CLAMP KIT

- Easy and secure smartphone mounting on all SPC+ mounting heads
- Fits almost all smartphone models
- Suitable for smartphones with a maximum thickness of 12 mm and a width between 58 mm and 85 mm
- Will work with 22 mm; 25,4 mm and 31,8 mm handlebars
- Simple and bombproof locking system
- Sold each

PART #	DESCRIPTION
0636-0319	SPC+ universal clamp kit

0636-0325

0636-0326

SPC+ VENT PHONE MOUNTS

- Provides quick and secure magnetic mounting of your SPC+ Phone Case on the car air vent
- With the SPC+ vent phone mount, your navigation is always in view and you can use the hands-free function of your smartphone while driving
- Flexible and compact design
- Charging vent mount allows for easy inductive charging in the car

PART #	DESCRIPTION
0636-0325	Black
0636-0326	Black, charging

SPC+ ADHESIVE PHONE MOUNT

- Secure, flat and sturdy adhesive pad
- For bicycles, motorbikes, cars, golf carts and more
- SP Connect™ 3M adhesive film for flexible use
- Compatible with all SPC+ mounts

PART #	DESCRIPTION
0636-0313	SPC+ adhesive phone mount

SPC+ UNIVERSAL MOUNT

- Universal phone mount with hook-and-loop fastener (two hook-and-loop lengths)
- For bicycles, motorbikes, golf carts, baby carriages and more
- Mounting and alignment without tools

PART #	DESCRIPTION
0636-0328	SPC+ universal mount

SPC+ SUCTION MOUNT WITH CHARGING

- Vibration-free suction cup mount quickly and securely attaches your SPC+ Phone Case to your windshield
- Super-stable 360° adjustment
- Inductive charging function

PART #	DESCRIPTION
0636-0327	SPC+ suction mount with inductive charging function

0636-0321

0636-0322

SPC+ ANTI-VIBRATION MODULES

- Reduces up to 60% of persistent engine vibrations thanks to the specially developed elastomer inlay
- Simply replace the compatible mounting head with the SPC+ Anti-Vibration Module and mount your smartphone directly to the vibration dampening module with a 90° clockwise rotation
- Offers additional protection for sensitive smartphone parts
- CNC-machined from aircraft grade aluminum
- Diameter measures 60 mm

PART #	DESCRIPTION
0636-0321	Black

PART #	DESCRIPTION
0636-0322	Chrome

SPC+ UNIVERSAL ADHESIVE KIT

- Attach your smartphone quickly and securely to almost any smooth, flat and non-porous surface
- Use in combination with the SPC+ Phone Case
- Flexible adhesive mounts for many applications
- Can be used as a spare part if required
- Easy to stick on surfaces
- Includes five practical adhesive mounts, which stick to the surface thanks to the strong 3M VHBTM adhesive

PART #	DESCRIPTION
0636-0320	SPC+ universal adhesive kit

0636-0278	Chrome

BRAKE MOUNT PRO

- Securely mounts your smartphone to your motorcycle with the SP Connect™ Phone Case or Universal Interface
- Glass fiber reinforced polyamide
- Easily attaches to most brake fluid reservoirs (Fits brake fluid reservoir with M4 x 16/18 screws)
- Portrait/landscape orientation option
- 360° rotation
- Stainless steel hardware

PART #	DESCRIPTION
0636-0281	Brake mount pro

All part numbers in BLUE are new for the OldBook.

SP™ CONNECT

MIRROR MOUNT PRO

- CNC-machined parts from aluminum
- Swiveling/rotating head for easy alignment
- Portrait/landscape orientation option
- Measures 34 mm x 60 mm x 55 mm
- Adjustable diameter: 16 mm, 14 mm, 12 mm or 10 mm

PART #	DESCRIPTION
0636-0280	Mirror mount pro

ADHESIVE MOUNT PRO

- Securely mounts your smartphone to your motorbike or car so it's positioned in your field of vision
- Easy mounting with 3M adhesive
- 360° ball head adjustment
- Measures 46 mm x 36 mm x 45 mm

PART #	DESCRIPTION
0636-0275	Adhesive mount pro

MOTO MOUNT LT

- Attaches your smartphone to your motorbike with an SP Connect™ Phone Case or other SP Connect-compatible device
- Durable, lightweight construction; made from fiberglass-reinforced polyamide
- Super-stable 360° adjustment in 6° steps
- Fits standard and oversized handlebars (2,22/2,54/2,86/3,17 cm)

PART #	DESCRIPTION
0636-0401	Moto mount LT

MOTO STEM MOUNT

- Securely mounts your smartphone to your motorbike with an SP Connect™ Phone Case or Universal Interface
- For sports motorcycles (clip-on handlebars)
- Portrait/landscape orientation option
- CNC-machined from aircraft-grade aluminum
- Stainless steel hardware
- For diameters 12-14,9 mm; 15-17,9 mm; 18-20,9 mm; 21-23,9 mm; 27-29,9 mm
- Does not replace stem nut

PART #	DESCRIPTION
0636-0276	Moto stem mount

MIRROR MOUNT

- Easily mount your smartphone to your motorcycle's mirror or crossbar (also works on scooters and mopeds)
- Securely positions your smartphone in your field of vision for simple navigation; mobile phone can be fixed in portrait or landscape format
- 360° rotation
- Fits most motorcycle mirrors
- Measures 34 mm x 32 mm x 32 mm

PART #	DESCRIPTION
0636-0270	Mirror mount

VENT MOUNT

- Easily mount your smartphone to your dashboard
- Attaches to car's air vents

PART #	DESCRIPTION
0636-0271	Vent mount

SPC+ BALL HEAD MOUNT

- Attaches your SPC+ Phone Case to any RAM® mount on your bike
- Diameter measures approx. 25 mm
- GoPro®-compatible

PART #	DESCRIPTION
0636-0345	SPC+ ball head mount

All part numbers in BLUE are new for the OldBook.

SADDLEMEN PERFORMANCE OUTFITTER

LARGE E-PAK PERSONAL ELECTRONICS MAGNETIC POUCH

- Sized to be used with modern smartphones, such as the Samsung Note® or iPhone Plus®, but can also be used with a variety of GPS units
- Can be oriented to match the screen format of the device
- Strong magnets keep the weather-resistant pouch secured to the metal fuel tank
- Each magnet is shielded to prevent interference with the device's electronics
- Compartment includes a removable plush pad and foam mat you can trim to custom fit the device
- Large plastic window transfers electrostatic energy, allowing for touchscreen operation with bare fingers or electrostatic-transmitting gloves
- Rubberized pouch back protects the motorcycle's paint finish while the perimeter zipper allows for easy stowage and removal

- Audio plug access port can be accessed through adjustable zipper opening
- Dimensions: 11,43 cm (4,5") W x 17,78 cm (7") L x 2 cm (3/4") tall

PART #	DESCRIPTION
3502-0312	Large E-pak

SADDLEMEN PERFORMANCE OUTFITTER

TANK BAG E-PAK

- Bring your smartphone, GPS or other electronics on your motorcycle
- Strong magnets keep the weather-resistant pouch secured to your metal fuel tank (magnets are shielded to reduce interference with all electronic devices)
- Large plastic window transfers electrostatic energy so you can operate the touch screen of your device
- Rubberized material protects bike's finish
- Long perimeter zippers for easy access to device
- 12,7 cm (5") W x 8,9 cm (3 1/2") L x 2 cm (3/4") T compartment includes a removable plush pad and foam mat that can be trimmed for a custom fit of your device

Typical Harley-Davidson VIN

VEHICLE IDENTIFICATION NUMBER 1936-1969 MODELS

- Typical Harley-Davidson VIN engine serial number breakdown 1936-1969

YEAR OF MANUFACTURE

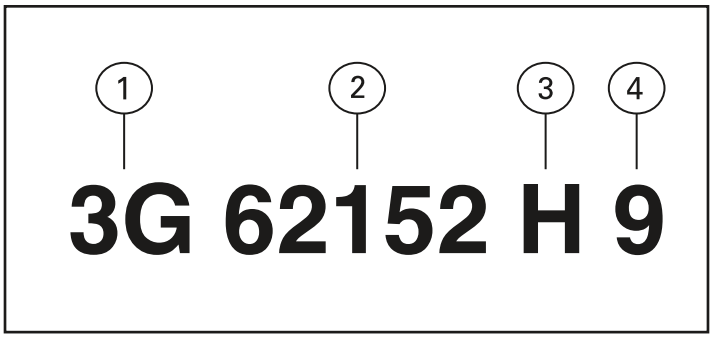

REFERENCE #	DESCRIPTION
1	Year of manufacture (two digits)

MODEL IDENTIFICATION

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	WLA	45" Army
	WL	45" Solo
	G	45" Servi-Car
	GE	45" Servi-Car (electric start)
	EL	61" OHV
	ELH	61" OHV (high compression)
	FL	74" OHV
	FLH	74" OHV (high compression)
	UL	80" Side Valve
	ULH	80" Side Valve (high compression)

SEQUENTIAL NUMBER

REFERENCE #	DESCRIPTION
3	Sequential number (four digits)

Typical Harley-Davidson VIN

VEHICLE IDENTIFICATION NUMBER 1970 TO 1980 MODELS

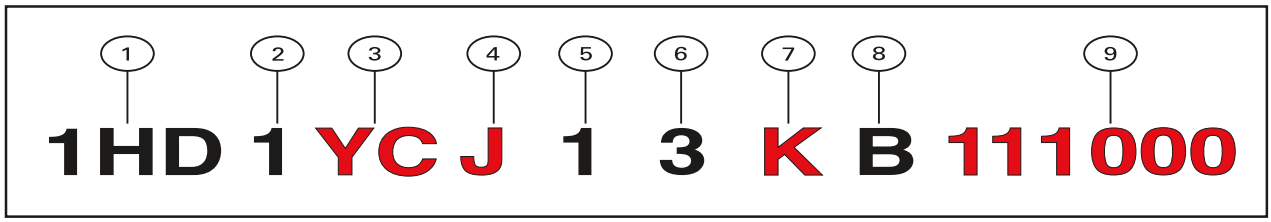

- Serial number identification for Harley-Davidson models
- Serial number located on engine case as well as the frame neck area

REFERERENCE #	DESCRIPTION	WHAT THIS MEANS
1	First two digits	1A FL-1200
		1H FXB-80
		1K FLH-80 (Shrine)
		2A FL-1200
		2C FX-1200
		2F FXS-1200
		2G XLT
		2H CLE (Side Car)
		3A XLH (Sportster)
		3G FLH-80
		3G FLH Classic (1979)
		3H FLH Classic (1980)
		4A XLCH (Sportster)
		4E XLS
		5E FXFE-1200
		5H FLHS-80
		6E FXEF-80
		6H FL-80
		7G FXS-80
		7H FLH-1200 (Police)
		8H FLH-1200 (Shrine)
		9G FXWG-80
		9H FLH-80 (Police)

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Next five digits (sequential numbers)	1970 through 1977 #10000 and up
		1978 through 1980 #60000 and up
		Side Cars #80000 and up

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
3	Second to last digit (decade)	H = 1970 through 1979
		J = 1980

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
4	Last digit (year)	0 = 1970 OR 1980 (depending on item #3)
		1 = 1971
		2 = 1972
		3 = 1973
		4 = 1974
		5 = 1975
		6 = 1976
		7 = 1977
		8 = 1978
		9 = 1979

VEHICLE IDENTIFICATION NUMBER
1981 AND LATER MODELS

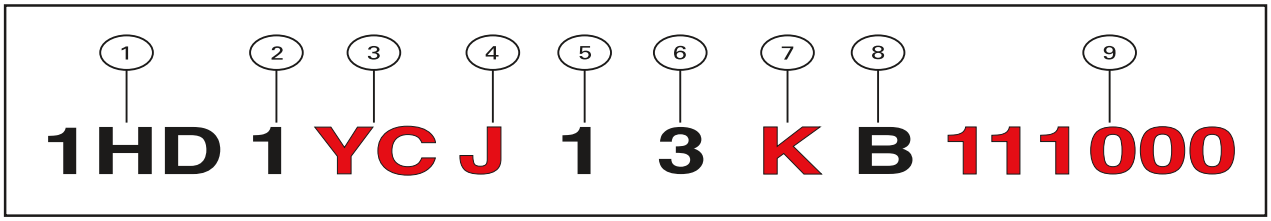

- Engine Identification Number consists of an abbreviation of the VIN. Numbers/letters above in RED are used in the Engine Identification Number

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
1	Origin of manufacture	1HD - manufactured in the USA
		5HD - manufactured in the USA for sale in other countries
		932 - manufactured in Brazil
		MEG - manufactured in India
		MLY - manufactured in Thailand

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Type of motorcycle	1 - Heavyweight - (over 900cc)
		4 - Middleweight - (351cc to 900cc)

A

Accel
- Alternator stators 490
- Battery eliminator 505
- Charging system kits 489
- Distributors 476
- Exhaust wrap/kits 245, 247
- Generator components 495
- Heat shield mat 245
- High-temperature sleeving kits 1046
- Ignition coils/kits 467
- Ignition systems/module 475
- Petcocks 848
- Spark plug wires 463
- Spark plugs 464
- Starter solenoids/kit 484
- Voltage regulators 493

Accelerator pump diaphragms 258
Accent lights/light kits, LED 597, 599-600, 602-603, 605-606
Accent rings 706
Accessory cases, water/weather resistant 1064
Accessory mounts 1060-1061

Accutronix
- Axle caps 1024
- Brake master cylinder, rear 799
- Brake toe pegs 991
- Cable clamps 778
- Fender spacers 956
- Floorboards 973
- Footpeg mounts/adapters 1008-1009
- Footpegs/shift pegs 991
- Forward control adapter plate kit 968
- Forward control extension kits 968
- Forward controls 967
- Gauge mount adapters 891
- Grips 707
- Heel shift lever eliminator 420
- LED bag lights 595
- LED light strip 630
- License plate frames 626
- Oil filter mounts 862
- Rigid foot pegs 991
- Risers 684
- Saddlebag latch covers 49
- Shift linkages 413
- Shifter levers 418
- Swingarm pivot blocks 899
- Triple trees 913

Acorn sets, license plate 631
Adapter mounts 534
Adapter plate kit, forward control 968
Adapter plates, kick-back 968
Adel clamps 780
Adjustable shocks 931
Advance unit assemblies 476
Air cleaner 280
Air cleaner adapters 281
Air cleaner braces 270
Air cleaner breather filters 339
Air cleaner breather kits 269
Air cleaner covers 275-276
Air cleaner inserts 279
Air cleaner parts and accessories 272, 274
Air cleaner rain socks 278
Air cleaner scrub bags 278
Air cleaner support brackets 269
Air cleaners/kits 253, 271-280
Air compressor assemblies 942
Air deflectors, fairing 37
Air filters 271-272, 276, 278-279, 281-282
Air horns 506-507
Air intake assemblies emission control regulatory information 5
Air intakes 272
Air pressure sending units 885
Air pressure sensors 885
Air shocks 942
Air/wind deflectors for forks/frames/triple trees 904

Airhawk
- Seat pads 184

All Balls
- Carburetor jet kits 264
- Carburetor rebuild kits 256, 258
- Fuel mixture screw 264
- Fuel pump module rebuild kit 849

Allen cap screw kits 238
Allen-head bolt end plugs/plug kits 1044-1045

Alloy Art
- Axles 1020
- Compression release adapters 306
- Drive cush conversion systems 431
- Extended handlebar wiring harness 520
- Fairing support brackets 38
- Foot/shifter pegs 990
- Front motor plates 348
- Fuel tank mounting bushings 838
- Handlebar riser bushings 693
- LED front turn signal kits 581
- License plate mounts 623
- Marker lights 581
- Motor mounts 349
- Quick detach EZ bag mounts 116
- Shift linkages 412, 415
- Shifter shaft primary plug 421
- Stabilizers/kits 900

Alternator stators/rotors 489-490

Alto
- Clutch hub lining 403
- Clutch plates 396-398
- Diaphragm clutch springs 399

Aluminum valve dust caps 1027
Amplifier adapter kits for FLTR 534
Amplifier kits 530
Amplifier mount kits 534
Amplifier/speaker kits 531
Amplifiers 530, 533
AN washers 1041
Analog gauge packages 879-880

Andrews
- Belt drive transmission pulley 428
- Cam drive gears 332
- Cams 330-332
- Coils 467
- Countershafts/components 362-363
- Gear sets 359
- Mainshafts/components 360-361, 363
- Pushrods 322
- Shifter forks 367
- Valve spring lower collars 315
- Valve spring upper collars 315
- Valve springs 315

Angle plates, kickstand 901
Antenna caps 537
Antenna relocation kits 537
Antennas 536-537
Antennas, radio/stereo 536-537
Anti-rattle clip 704

Arlen Ness/Drag Specialties
- Mirrors 728

Arlen Ness
- Air cleaner parts and accessories 272
- Air cleaners/kits 271-272
- Air filters 271-272
- Antennas 537
- Brake arms 827
- End caps/tips 238
- Exhaust clamps 242
- Extended headlight mount block 550
- Fairings 34
- Floorboards 972-973
- Footpegs/shift pegs 992-994
- Fork boot covers 918
- Fork braces 929
- Fork dampers for lowered applications 926
- Grips 709-710
- Handlebar riser bushing kits 693
- Handlebars 650, 672
- Heel/toe shift levers 422

Arlen Ness (CONT)
- Horn covers 509
- Horn kits 507
- Kickstand tab extensions 902
- Lowered kickstands 901
- Mirrors 729-731
- Oil filters 865
- Oil pressure gauges 896
- Raked triple tree fairing mount kits 912
- Shift levers 422
- Shift linkages 414
- Shift rod levers 418
- Side covers 903
- Triple trees 912
- Turn signal mounts 591
- Turn signals/marker lights 566
- Windshields 34

Armrests 199
Armrests, Tour-Pak 44
Audio anti-vibration modules 1053
Audio cables 1054, 1058
Audio cables, MP3/satellite/GPS 534
Audio kits 530
Automatic turn signal cancelling modules 613

Avon Performance
- Footpegs 1002-1003
- Grips 711-713
- Headbolt covers 355
- Heated grips 721
- Shift pegs 1002-1003
- Throttle boss 724
- Throttle locks 724
- Valve stem caps 1026

Axel Joost
- Flasher module 615
- Flashers 615
- Rear light conversion modules 615
- RFID control module 510
- Switch relay 615
- Wiring harness controllers 519

Axle adjuster assemblies 1025
Axle adjuster bolts 1025
Axle adjuster plates 1025
Axle adjuster spacers 1025
Axle adjusters 1024-1025
Axle caps/covers 1023-1024
Axle kits 1020
Axle lockdown kits 1021
Axle nut covers 1023-1024
Axle nut lock plates 1021
Axle nut spring clip 1022
Axle nuts 1021
Axle nuts/washer kits 1022
Axle sleeve nuts 1021
Axle spacer bar stock 1021
Axle spacer/nut kits 1022
Axle/wheel spacers 1022, 1025
Axles 1020

B

Back seat bags 56-57, 60-62, 64-71, 73-80, 84-86, 89
Backpacks 81
Backrest bars 123, 181-182
Backrest luggage/bags 60-71, 73-77, 79-80, 84, 89
Backrest mount kits 196
Backrest mounting hardware 123, 181-182
Backrest pad covers 132-134
Backrests 122-123, 131-134, 139, 144-146, 153, 181-182, 196, 199
Backrests, driver's 130, 134, 181
Backrests/sissy bars and side plates 197
Badges 1067

Badlands
- Automatic turn signal cancelling module 613
- Headlight intensifier high/low modules 612
- Run/turn/brake light control modules 612
- Turn signal load equalizers 612-613

Baffles, exhaust 211, 218, 220, 240-241
Bag, swingarm 104
Bagger-Tail filler panels 48
Bagger-Tail saddlebag mounts 48
Bags, windshield 39-40

Baker
- 5-speed N1 shifter kit 367
- Bearings/components 366
- Clutch rebuild kits 454
- Gear sets/kits 358
- Kick arm 374
- Kicker kit 372
- Primary bearings/seals 378
- Shift drums/kits 367
- Shift pawl assembly 366
- Shifter drums 367
- Shifter forks 367
- Transmission rebuild kits 365
- Transmission sprocket spacer 429

Ball mounts/wiring receptacles, trailer 906
Banjo adapter washers 826
Banjo bolt cover kits 777, 789
Banjo bolt sealing washers 825-826
Banjo bolt w/ brake light switch mount 825
Banjo bolts 812-813, 824-825
Banners 1069
Bar clamps 1061
Bar end mirrors 740-741
Bar end mirrors/systems 739-741
Bar stool 1069
BareBacks saddlebag removal kits 116

Barnett
- Cable repair clamps 778
- Clutch backing plate 403
- Clutch kits 395
- Clutch plates 390, 395-396, 398
- Clutch spacers 405
- Clutch spring conversion kit 399
- Clutch springs 399-400
- Clutches 390
- Control cables 766
- Derby covers 379
- Idle cables 762-765
- License backing plate 628
- Low profile lock-up pressure plate conversion kit 401
- Low profile lock-up pressure plates 401
- Pressure plates 401
- Scorpion clutches 390
- Throttle cables 762-765, 771
- Valve stem caps 1027

Baron
- Chrome cable/hose dress-up kits 1046
- Exhaust tips 238
- Grip ends 723
- Risers 687
- Tachometer adapters 890
- Tachometers 890

Bassani
- Exhaust 203-205, 207, 209-211, 220-222, 225-226, 228-230, 233, 238
- Heat shields 228
- Muffler adapter 238
- Muffler repacking kits 245
- Mufflers 210

Batteries 496-501
Battery adapter hardware kit 499
Battery bracket 504
Battery cables 502-503
Battery covers 503
Battery display racks 1068
Battery eliminator 505
Battery gauge 842
Battery gauge gas caps 842
Battery gauge, LED 505
Battery pads 504-505
Battery straps 504
Batwing fairing storage bags 18
Batwing fairings 28-30
Bearing cups 915
Bearing guides 364

Bearing pushrods 408
Bearings 378
Bearings, clutch hub 404
Bearings, main 299

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

EC TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425. (non-motorcycle articles, e.g. Watercraft articles)

ECE 22.06

This logo symbolizes that a helmet has been tested and certified to ECE 22.06 Regulation.

SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure(UK's testing and certification house for security products) standards for theft prevention.

CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES, France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventive value and the better it protects against theft.

ELECTRICAL WIRING

WIRE GAUGE CONVERTER

GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø
22	0,33	0,65	16	1,0	1,3	10	5,0	2,6	4	19,0	5,2
20	0,5	0,8	14	2,0	1,7	8	8,0	3,3	2	32,0	6,5
18	0,8	1,0	12	3,0	2,1	6	13,0	4,1	0	52,0	8,3

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
5A	30W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
6A	36W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
7A	42W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
8A	48W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
10A	60W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
11A	66W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
12A	72W	18 AWG	18 AWG	18 AWG	18 AWG	16 AWG
15A	90W	18 AWG	18 AWG	18 AWG	18 AWG	14 AWG
18A	108W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
20A	120W	18 AWG	18 AWG	16 AWG	16 AWG	12 AWG

FORMULAS

DISPLACEMENT

Bore x bore x stroke x 1,5708 = Displacement in Cubic Inches

Bore x bore x stroke x 25,744019 = Displacement in Cubic Centimeters

Example: A stock 96" Twin Cam has a bore of 3,750" and a stroke of 4,375".

Formula: 3,750" x 3,750" x 4,375" x 1,5708 = 96,64 cubic inch

3,750" x 3,750" x 4,375" x 25,744019 = 1583,86cc

COMPRESSION RATIO

Ratio = Cylinder displacement plus combustion chamber volume divided by combustion chamber volume.

Example: A 96" cubic inch Twin Cam has 794cc per cylinder. Combustion chamber volume is approximately 86cc.

Formula: 794 + 86 = 880 : 86 = 10,2:1 Compression Ratio (CR)

Note: When calculating compression ratio, do not forget to include gasket thickness, valve pockets and ringlands in the piston. CC-ing the heads, filling them with fluid after heads have been installed, will give you accurate numbers.

HEAD/BASE GASKET VOLUME

Bore x bore x 12,87 x compressed gasket thickness = Gasket volume in cubic centimeters

Example: A head gasket has a thickness of 0,045"; bore is 3,750".

Formula: 3,750" x 3,750" x 12,87 x 0,045" = 8,144cc

AREA OF CIRCLE

The radius is the diameter of a circle divided in half.

Radius x radius x 3,1416 = Area of a circle

Example : A stock 96" Twin Cam has a bore of 3,750".

Formula: 1,875" x 1,875" x 3,1416 = 11,05 Inch^2

47,63 mm x 47,63 mm x 3,1416 = 7127,09 mm^2 (71,271 cm^2)

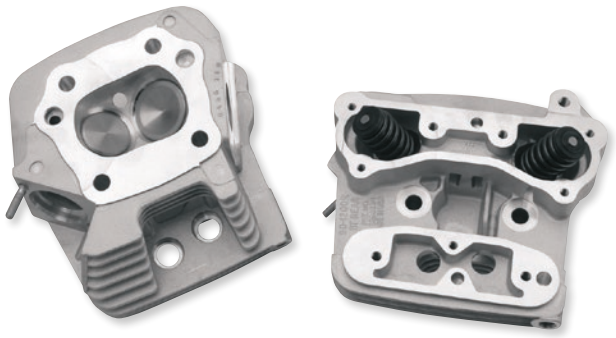

ELECTRICAL: AMPERAGE, WATT AND VOLTS

Understanding electrical current is important to prevent a meltdown within the electrical wiring of a motorcycle. It is useful to calculate what fuse you will need for a certain application.

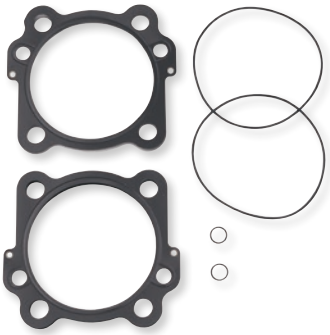

Watt divided by Volt = Amp

Amp multiplied by Volt = Watt

Watt divided by Amp = Volt

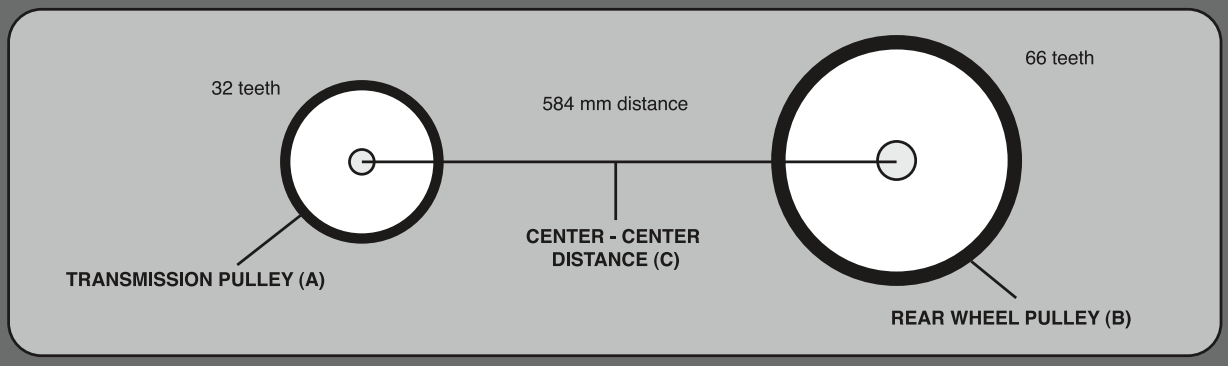

- THE 3-STEP BELT FORMULA -

How to find the correct belt

Formula

A = number of tooth transmission pulley
B = number of tooth rear wheel pulley
C = center to center distance between both pulleys

THE 3-STEP BELT FORMULA

Step 1) $\frac{(C \times 2)}{13,8} = D$

Step 2) $\frac{A + B}{2} = E$

Step 3) D + E = Number of teeth

Example

Transmission pulley has 32 tooth
Rear wheel pulley has 66 tooth
Center to center distance is 584 mm

Step 1) $\frac{584 \times 2 = 1168}{13,8 \text{ (belt pitch)}} = 84,6$

Step 2) $\frac{32 + 66}{2} = 49$

Step 3) 84,6 + 49 = 133,6 teeth
This means you must use a 133 tooth belt, because 137 tooth is not manufactured

From Our Garage To Yours

We are the #1 resource for powersports products. We support our dealers, vendors and fans at races, rallies, special events and showcases.
