

POWER VISION 3

- Flash ECU via vehicle diagnostic connector; no need to open or remove ECU from vehicle
- Read original tune via diagnostic connector - allows you to restore ECU at anytime
- Display and/or log vehicle data channels in real-time
- Hindsight feature captures the last two minutes of data with the touch of a button
- Weather resistant for use in all conditions
- Support for popular aftermarket performance parts
- Fueling revised for maximum power and torque
- Spark timing optimized for pump or race gas
- Rev and speed limits raised
- Torque limiting functions reduced or eliminated
- Revised drive-by-wire throttle profiles

POWER COMMANDER V FOR HONDA

- Reduced size from PCIII USB (less than half the size of PCIII)
- USB powered from computer (9V adapter is no longer needed for programming)
- Two-position map-switching function built in (map switch not included)
- Gear/speed input (allows for map adjustment based on gear and speed)
- Analog input (allows user to install any 0-5V sensor and build an adjustment table based on its input such as boost or temperature)
- With gear-position input connected, the PCV is capable of allowing each cylinder to be mapped individually and for each gear
- Unit has a -100/+250% fuel change range (up from -100/+100%), which allows more adjustment
- Ten throttle position columns (up from nine on PCIII USB)
- Enhanced "accel pump" utility (increased adjustment and ranges)

¹ Fuel and ignition.
² Fuel only.

CFT PODIUM MX HANDLEBARS

- Utilizing our patent pending Controlled Flex Technology, the CFT crossbar allows the handlebar to naturally flex at a controlled rate
- The results provide reduced vibration and rider fatigue
- Controlled Flex Technology crossbar with built-in elastomer for lower vibration
- Constructed of high-strength seamless double-buttet 2014-T6 alloy
- Each handlebar shot-peened and hard anodized for improved durability
- Oversized 28,6 mm (1¹/₈") clamp diameter improves bar/clamp grip (requires "oversized" bar mounts)
- Ti-colored clamps, crossbar connector and matching ODI graphics
- Lightly knurled left slide helps grip bar adhesion, without interfering with Lock-On Grips
- Includes injection-molded high-density ODI crossbar pad
- Other color options available separately

0601-2534

MAGURA

HYMEC HYDRAULIC CLUTCH SYSTEM FOR HONDA CRF1000L AFRICA TWIN 16-18

- 167 Black Master cylinder
- Up to 25% less clutch pull
- No maintenance and self adjusting
- Smooth hydraulic feel with clear and consistent pressure point
- Operates on mineral oil which doesn't draw moisture and won't harm paint or finish
- Forged break-away lever blade with reach adjust is ready to mount
- Clutch safety switch included

DESCRIPTION	PART #
Hymec hydraulic clutch system	0612-0460

UTV LED LIGHTED MIRRORS

- 6063 die-cast billet aluminum housing with a fully adjustable glass mirror
- Fully adjustable 44,5 mm-51 mm (1,75"-2,00") tube mount included
- Integrated LEDs for use as running lights
- Complete with plug-n-play wiring harness and lighted rocker switch
- Sold as a pair

DESCRIPTION	PART #
LED lighted mirrors	0640-1381

CARRIER BEARING FOR POLARIS

- Factory Polaris carrier bearing is notorious for premature wear, leaving you with vibration that will lead to other drivetrain parts failures down the road

PISTON KITS

- In-house designed and manufactured; all forgings are produced in Wössner's company-owned forging operation
- 4-stroke pistons are made using a double-bridged forging design
- Lightweight pistons with the tightest piston-wall clearances in the industry give you a quieter-running engine
- Standard and oversize pistons for most models, with high compression ratios available for 4-stroke applications
- All piston kits include piston, ring, wrist pin and pin locks
- Wössner piston kits are used by leading Supercross, Arenacross and MX GP teams

CORE MANUAL TORQDRIVE® CLUTCHES

- The Core Manual TorqDrive clutch delivers unprecedented performance, tuning and durability
- TorqDrive provides more disks in less space, allowing up to four additional friction disks over stock
- More frictions = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs
- Provides more consistent clutch lever feel and behavior
- Can be set up to maintain a stock, or lighter than stock, lever pull depending on engine tuning
- Rekluse sleeves eliminate basket wear and notching
- Proven in racing at the highest levels

CORE MANUAL CLUTCH KITS

- Reduces clutch fade
- Consistent and improved lever modulation
- Components are lighter, stronger and perform better than stock clutches
- Strategic engineering increases oil flow, decreases operating temperatures and extends clutch life
- Installation does not require modification of stock parts
- Includes proprietary anti-drag steel drive plates

EXP 3.0 CLUTCH KIT FOR YAMAHA YXZ1000R/SS 16/17

- New coil spring pressure plate offers added tunability to add additional spring pressure over stock
- This system allows you to operate the manual transmission with ease, with smoother clutch engagement which comes in handy when maneuvering at low speeds in technical terrain
- No more stalling and better acceleration due to the centrifugal action of the clutch
- Core EXP 3.0 is a centrifugal auto clutch featuring Rekluse's EXP (auto clutch) technology
- Fully tunable to handle the demands of varying conditions and terrain
- Cooler operating temperatures and more efficient clutching provide extended clutch life
- Includes billet coil spring pressure plate and adjustable slave cylinder (provides external adjustment)

DESCRIPTION

EXP 3.0 clutch kit

PART

1130-0418

TORQDRIVE® CLUTCH KIT FOR YAMAHA YXZ1000R/SE/SS 16-17

- Innovative clutch disk technology allows Rekluse to put more disks into the clutch pack, which means you get more torque transferred to the rear wheels
- TorqDrive provides a friction disk pack for both R and SS (five additional friction disks over stock); more frictions = more torque capacity, thus unlocking the full power of your engine
- For added tuning and performance, a coil spring pressure plate is included along with two sets of springs to upgrade the clutch from the stock diaphragm spring
- The TorqDrive clutch pack, coupled with the coil spring conversion pressure plate, provides a significant step up in performance delivering improved throttle control and more positive clutch engagement and drive
- Two sets of springs included
- Improved pedal modulation range for R models
- Designed to withstand highly modified motors
- Rekluse sleeves eliminate basket wear and notching

DESCRIPTION

TorqDrive clutch kit

PART

1130-0417

TORQDRIVE® CLUTCH PACKS

- A high-performance manual clutch is now more accessible than ever with the TorqDrive Clutch Pack
- It's as easy as changing your clutch plates into your OEM components
- Proven at the highest levels of racing, TorqDrive thin friction disk technology allows more disks to fit in your OEM clutch's footprint, decreasing slip and unlocking the full power of your engine
- TorqDrive Technology also provides increased clutch life and decreased clutch fade
- The additional friction disks provide an average of a 25% gain in torque capacity over stock, while reducing lever pull by an average of 10% (figures vary by model)
- TorqDrive delivers stronger drive throughout the powerband, unlocking the bike's power without any expensive motor mods
- Rekluse basket sleeves eliminate basket wear and notching

NOTE: Not a replacement clutch pack for RadiusX, RadiusCX, or Core Manual TorqDrive.
