LINK PIPE KITS AND HEADPIPES

- Includes a resonator to reduce offensive exhaust tones and a plate for the exhaust valve to eliminate CEL on the dash (where applicable)
- Made of stainless steel AISI 304, TIG-welded
- Rig-tested and manually manufactured
- Can be fitted with the stock exhaust and the Leo Vince slip-on

NOTE: When fitting this exhaust system it is advisable to optimize the carburetion by remapping the stock ECU unit or adopting an additional ECU unit.

TORQDRIVE® CLUTCH PACK FOR HONDA TRX250R 86-89

- A high-performance manual clutch is now more accessible than ever with the TorqDrive Clutch Pack
- It's as easy as changing your clutch plates into your OEM components
- Proven at the highest levels of racing, TorqDrive thin friction disk technology allows more disks to fit in your OEM clutch's footprint, decreasing slip and unlocking the full power of your engine
- TorqDrive Technology also provides increased clutch life and decreased clutch fade
- The additional friction disks provide an average of a 25% gain in torque capacity over stock, while reducing lever pull by an average of 10% (figures vary by model)

- TorqDrive delivers stronger drive throughout the powerband, unlocking the bike's power without any expensive motor mods
- Rekluse basket sleeves eliminate basket wear and notching

NOTE: Not a replacement clutch pack for RadiusX, RadiusCX, or Core Manual TorqDrive.

DESCRIPTION

TorqDrive clutch pack

PART

1131-3612

CLUTCH COVERS

- Specifically engineered to provide unparalleled durability and performance in a single, stylish component
- Ready to ride whenever you are, standing up against rocks, logs, boots and whatever else you may encounter in your adventures
- Billet aluminum construction provides incredible strength
- Double hard anodized to further enhance durability and wear resistance
- Has a greater depth than OEM design, allowing increased oil capacity

MANUAL SLAVE CYLINDERS

- A direct bolt-on OE replacement product designed to improve the hydraulic system's durability and increase the rider's connection to the engine
- Developed in partnership with elite racers and teams, it has been proven in the toughest riding environments and at the highest levels of racing
- Rekluse Manual Slave Cylinders feature a hard-anodized billet aluminum housing with a durable piston and seal design
- Designed for use with OE or aftermarket manual clutch systems
- This product complements Rekluse manual clutch systems – Core Manual TorqDrive®, Core Manual and TorqDrive® Clutch Pack

NOTE: Not compatible with Rekluse auto clutches.

LEFT-HAND REAR BRAKE KITS

- The perfect complement to an auto clutch, the Rekluse Left-Hand Rear Brake allows riders to operate the rear brake using their left hand
- The new system features a Rekluse-engineered and -manufactured full-size billet master cylinder featuring Rekluse Rail Adjuster (RAD) Mount Technology
- This provides high-performance braking power with expanded mounting options to better position the lever without disrupting other controls, or hand guards
- The Left-Hand Rear Brake by Rekluse maintains the function of the existing foot pedal – adding the ability to actuate the rear bike with the left hand helps riders navigate challenging terrain including steep declines and narrow ridges with ease
- In addition, it provides riders the ability to use their left hand to drag the rear brake in cornering situations for better line setup and control

PISTON KITS

- In-house designed and manufactured; all forgings are produced in Wössner's company-owned forging operation
- 4-stroke pistons are made using a double-bridged forging design
- Lightweight pistons with the tightest piston-wall clearances in the industry give you a quieter running engine
- Standard and oversize pistons for most models, with high compression ratios available for 4-stroke applications
- All piston kits include piston, ring, wrist pin and pin locks
- Wössner piston kits are used by leading Supercross, Arenacross and MX GP teams
- Additional replacement ring sets available, please see charts for more information

RACE PISTON KITS

- All pistons are heat-treated with a T-5 hardening and tempering cycle
- All piston skirts are coated with a high-tech molybdenum disulphite coating for faster break-in time and increased piston life
- Cast piston kits are gravity-cast aluminum alloy (not forged) with 18% silicone content, which produces an extremely light but very strong piston
- Kits include piston, rings, wrist pin and circlips

SHOCK ABSORBERS**DOUBLE TUBE HYDRAULIC SHOCK**

- OEM features
- Preload adjustment (step spring)
- All are rear applications

EMULSION GAS SHOCK

- Preload adjustment (threaded spring)
- Compression adjustment; on some applications, the shock has an adjustable length
- The ECOLINE version offers only the preload adjustment
- All are rear applications

FUEL PUMP MODULES

- Includes all necessary parts to replace the fuel pump module
- Economical solution for restoring lost performance or non-performing fuel pump
- Pump draws less current than OEM pump while maintaining the same flow rate and working pressure, reducing working temperatures and increasing unit life
- Includes complete module, retaining nut, and gasket

Notes for Utility models:

- 1) Six wheel vehicles middle drive shaft use the same u-joints as rear drive shaft (locations 4&5)
- 2) Middle axle use the same u joints as rear axle (location 6&7)
- 3) Utility vehicles with middle u joint on front drive shaft use same u-joint as front (location 2)

U-JOINT KIT FOR POLARIS

- Cold forged from SCM-415 steel, precision ground journals are case hardened to HRC58-61
- Pre-greased with hi-temp Lithium Complex 3 grease, zerk and grease channels in bearing cup evenly distribute grease
- Kit includes cap plug to eliminate grease zerk for low-clearance applications

FORK SEALS, DUST SEALS AND BUSHINGS

- Seal profile is engineered to create equal pressure in each seal lip; equalized seal pressure creates less drag and longer seal life
- Patented MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily
- Kits include fork oil seals and dust seals; fork oil seals and dust seals also available separately
- Fork bushing kit is dyno-tested to 500.000 strokes with less wear than OEM bushings; includes two slider bushings and two leg bushings along with all copper washers, O-rings and fork seal snap rings

STANDARD FILTER

- The choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Slightly smaller than stock, making it easier to change while increasing dead air space around the filter for better performance

POWERFLOW KIT

- Includes a Twin Air filter and a rigid, lightweight, billet aluminum cage that replaces the flimsy plastic stock cage and provides a tight seal to the airbox
- Backfire replacement filter includes a laminated layer of backfire-retardant foam

SHIM CONVERSION KIT

- Adjusts engine valve clearance using commonly available 9,48 mm shims rather than Polaris shim buckets
- Diamond-Like Carbon (DLC)-coated for durability and performance
- Includes eight buckets and eight retainers
- For use with OEM valves, springs, camshafts and aftermarket high-performance camshafts
- Requires use of 9,48 mm valve shims (not included)

SP-2 v3 GLOVES

- A superbly styled and anatomically profiled glove for sports or naked bike enthusiasts
- Constructed from a supple and highly durable full-grain leather chassis to provide core abrasion resistance and durability
- Palm and finger sidewalls are reinforced with supple goat's leather for feel and performance fit
- Main shell reinforcement is provided by leather coverage over first and second fingers and cuff
- Synthetic suede reinforcements on palm and landing zones for maximum abrasion resistance
- Ergonomic, advanced compound and MotoGP-derived TPU slider on palm is backed with EVA foam for impact performance
- Alpinestars robust yet flexible compound knuckle guard provides exceptional impact and abrasion protection
- Strategically positioned impact absorbing EVA foam for additional impact performance
- Alpinestars patented finger-bridge prevents excessive finger roll and separation during impacts
- Extensive sport knuckle gusset opening on thumb allows flex and freedom of movement
- Perforated cuff, leather top panel and ventilated finger sidewalls to help keep the hands cool
- Cuff side leather padded patches to enhance protection
- Pre-curved finger construction reduces rider fatigue
- Wide hook-and-loop wrist closure for easy entry and secure fastening
- Touchscreen compatible fingertip area on index and thumb for use with smartphones and GPS systems
- CE-certified to EN 13594 2015, Level 1 KP

RIDGE v2 DRYSTAR® TOURING BOOTS

- Technical synthetic material main upper construction incorporating punched microfiber on front and rear accordion for high levels of performance and comfort
- Medial zipper closure covered with a flap hook-and-loop closure for a better and more secure ride
- High modulus TPU injected shift pad for shock protection and durability
- Drystar® membrane for proven performance in difficult weather conditions
- Boot shape provides long-lasting comfort and incorporates ergonomic toe box construction for greater compatibility with bike's controls
- Double layer hot-melt reinforcement on shin plate for weight-saving and protection against impacts
- Dual-density ankle protectors on medial and lateral sides are reinforced with polyfoam padding for protection and comfort
- Removable anatomic footbed features EVA foam and textile for memory and comfort
- Exclusive vulcanized compound rubber sole with unique side wrapping design
- Built to withstand the demands of life on the road
- CE-certified to EN-13634.2017
- Available in men's European sizes 40-47; see Alpinestars size chart on page 28 before ordering

TECH 3S KIDS/YOUTH BOOTS

- Designed for junior riders
- Upper construction is made from innovative, lightweight microfiber material that is flexible and abrasion-resistant
- Light microfiber on the front and rear bellows for added comfort in the flex areas
- Toe box is made of synthetic material for high abrasion resistance
- Extended PU synthetic gaiter helps seal out water and dirt
- Contoured TPU calf guard, TPU higher medial guard, TPU outer lateral ankle guard and TPU heel counter for support and impact resistance
- Rear TPU gaiter patch applied on top of the TPU guard for added impact resistance and comfort on the rear flex zone
- Injected TPU shin plate is connected with the TPU medial guard panel
- Hook-and-loop upper boot closure with a TPR flap to fit a wide range of calf sizes while providing comfort and support
- TPU higher medial guard is designed with a technical texture for improved grip
- Biomechanical medial blade system allows good front/rear flex of the boot and provides support and impact resistance to the ankle
- Ergonomic TPU triple buckle straps wrap smoothly around the front flex area from the medial guard to the lateral side of the boot without compromising boot flex
- Boot closure system includes ratchet closure with memory system and a quick-release/locking system with a self-aligning design for easy, precise closure
- All buckles are replaceable
- Innovative one-piece TPU injected dual-compound foot shell is reinforced by a metal shank inside a co-injected toe reinforcement
- Soft foam surrounds the ankle and boot collar for comfort and shock-absorbing performance
- Boot has a textile lining for added comfort
- Replaceable anatomical EVA footbed
- Specially modified smaller footbed to accommodate growth and extended longevity of the product (only available in kid's boot sizes 10-13 and youth boot sizes 2-4)
- High-grip rubber compound sole
- CE-certified to EN 13634:2017
- Available in kids' U.S. sizes 10-1 and U.S. youth sizes 2-8; check Alpinestars size charts on page 28 before ordering

TECH 7S BOOTS

- Specifically designed and sized for junior and/or smaller-framed riders
- PU-reinforced microfiber upper for flexibility, abrasion-resistance, water resistance and weight saving
- Material ensures consistent fit and is easy to maintain and clean
- Contoured shin plate is injected with high-modulus TPU for excellent levels of impact and abrasion resistance
- Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat and abrasion resistance
- One-piece injected dual compound foot shell with coinjected hard toe protector and integrated steel shank
- Shell is highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining
- Excellent flexion provided by low-profile medial and lateral pivot system to offer movement and support
- Instep and Achilles accordion flex zones constructed for superior control and support
- Extended microfiber gaiter helps seal out excessive water and dirt entry
- Compound sole is seamlessly integrated into the base structure for superior durability, high-performing rubber grip patterning, and feel
- Sole is replaceable
- Soft poly foam reinforcement on ankles and collar for long-lasting comfort and shock absorption
- Removable anatomic footbed for comfort and support ensures even weight distribution
- 3D mesh textile with open cell foam for improved air circulation and comfort
- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving
- Buckle system features memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security
- All buckles are easily replaceable
- CE-certified to EN 13634:2017

B

**EL CENTRO AIRFLITE™**

- Injection-molded polycarbonate shell for strength
- Multiple oversized intake and exhaust ports are strategically placed to keep you cool and comfortable, including four intake vents, MX-inspired chinbar vent and two exhaust ports that channel air between the comfort liner and the protective, energy-absorbing EPS foam liner
- Quick-change, fog-free outer FliteShield™ keeps debris away, while the internal, interchangeable DropShield™ keeps the sun in check with a flip of a switch
- Removable molded breath deflector and chin curtain
- Moisture-wicking Hydradry™ interior is fully removable and washable
- Both wind drag and weight are decreased by sculpting the traditional neckline of the Airflite™ to avoid jacket or suit interference
- See helmet size guide before ordering
- Meets ECE 22-05 (Europe) safety and testing standards

NOTE: Does not ship with SAI, PSC OR MFJ certification stickers unless purchased from an authorized dealer in that country.
