6-RIB GRIPPER SEAT COVERS

- SDG six-rib Gripper covers offer superior grip and traction for all riding conditions with six additional colored ribs
- A three piece design and six 20 mm rib sections give the rider maximum control and feel in any seated position
- High-grip six-rib center seat pattern offers a tacky confident feel that will inspire you to twist that throttle while the high-grip dot pattern sides allow for better rider control
- All seams are double-stitched for added durability and water resistance
- The ultimate Gripper cover, offering riders maximum control

MIRROR MOUNTING ADAPTERS

- Fit Custom Dynamics mirror side M8 x 1,25" mounting stem
- Sold in pairs

PART #	DESCRIPTION
0641-0256	Fits all Kawasaki/Suzuki and Honda models (M8 x 1,25 to M10 - 1,25 right-hand thread)
0641-0258	Fits all Yamaha and Ducati scrambler models (M8 x 1,25 to M10 - 1,25 right-hand thread and M8 x 1,25 to M10 - 1,25 left-hand thread)

UNIVERSAL PHONE AND MAP HOLDER

- Designed to work with any dual sport or off-road bike application
- Can be attached by removing bike seat and attaching the holder around seat, below the tank mount that holds the seat to the gas tank on the motorcycle
- Designed to fit up to an iPhone® 11 size to fit inside compartment
- Uses hook-and-loop closure with clear vinyl face so you can view phone or map inside the compartment

DESCRIPTION	PART #
Tank/seat phone and map holder	3502-0488

HANDLEBAR AND MOUNT KIT SYSTEM FOR YAMAHA PW50 (ALL)

- Constructed from the highest quality aerospace aluminum for maximum strength, the PW series handlebar is a unique design that fits all years of PW 50 motorcycles only
- Replace the OEM non-adjustable handlebar with a four-post clamp system that allows you to adjust handlebar position and includes a brake mount so you can swap your OEM lever to the handlebars
- The bars are designed to fit smaller child's hands with a smaller diameter bar than adult-size 22 mm (7/₈") handlebar to reduce arm fatigue compared to the stock handlebars
- Must use smaller-diameter OEM grips with handlebars

DESCRIPTION	PART #
PW50 handlebar and mount kit system	0601-5561

- Outer anodized plates made of CNC-machined 6061 aluminum
- 3D designed inner slider to help in not allowing buildup of debris around chain that may cause chain to derail
- TPU inner guide material provides perfect wear resistance for chain to ride on along with minimizing wear to the chain block
- TPU compound helps reducing load on swingarm and mounting brackets of chain guide due to impacts
- High-quality anodizing helps prevent fading in high UV climates

SPORT UTILITY CLUTCH KITS

- The best all-around use kit; if you do a bit of everything with an ATV/UTV, this is the kit for you
- Great for trail riding, occasional mud and sand riding, plowing and hauling
- Makes up for power loss and slow response of adding oversized tires
- Better low-end and mid-range acceleration
- Helps decrease belt slippage, which will decrease clutch heat
- Quicker backshift, which results in crisp throttle response
- Field tested to assure satisfaction
- Designed for stock motor and exhaust
- Kit components vary by model and style of kit
- All kits are Sport Utility for 0-3000' elevation, unless otherwise noted in chart

SAND DUNE KIT

- Designed and tested specifically for sand dune applications
- Different kits for stock and paddle tires
- Helps hold peak power rpm when dune riding and climbing hills
- Helps restore power loss due to addition of paddle tires
- Better low end power and torque
- Quicker backshift, which results in crisp throttle response
- Reduces belt slip and clutch heat

KIT FOR OVERSIZED/PADDLE TIRES

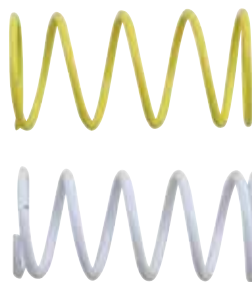

- Designed to work with aggressive (taller, wider, heavier) 27-28" tires or 27-28" paddle tires
- Pulls easier in tough conditions or in the mud
- May affect top-end speed

MUDDER KITS

- Designed for machines with 28" or larger tires
- Helps restore power loss due to addition of larger tires
- Allows for easier turning of larger tires in the mud
- Better low end power and torque
- Quicker backshift, which results in crisp throttle response
- Reduces belt slip and clutch heat

PRO SERIES KITS

- Combination of the Sport Utility, Mudder, Sand Dune and Rock Crawler Kits
- Allows you to fine-tune for any tire size and any elevation
- Works great if you ride in different areas or change tire sizes
- Allows you to adjust for motor mods and tire changes in the future
- Include adjustable weights with 2 different sizes of magnets, 2 primary springs, 2 secondary springs and a custom cut helix (unless noted)

LOWERING SPRING KIT

- Lowering springs for original shocks
- Spring rate is designed to perform better than the original
- Available in rear placement position
- Made of lightweight aluminum
- CNC-machined
- Easy mounting and perfect fitment
- Springs are black

FITS MODEL	LOWERING DISTANCE	POSITION	PART #
KTM			
790 Duke 18-20	20 mm	Rear	1304-1040

REAR SHOCK SPRINGS

- Progressive rear spring is designed to smoothly transfer engine power to the road while controlling your bike, ensuring more stability and will significantly reduce tire wear
- Shorter braking distance
- Better balance in the bike, more comfortable riding, even with passenger
- Easy cornering
- More grip in dry and wet weather
- More confidence; it makes you feel more comfortable and/or faster
- Overall sense of confidence in the bike
- Available in black

XM AND XM PRO MOUNTAIN SKIS

- Features technology that allows you to explore further into the backcountry and perform the most technical off trail maneuvers
- UHMW polyethylene construction provides unmatched durability
- 19,3 cm (7,6") wide
- 40,6 mm (1,6") keel width and 40,6 mm (1,6") keel depth
- Variable geometry, exclusive edge design and flat shelf platform
- X brace structure
- Bracing for strength
- Traction grips
- Tapered rear
- Available in XM or XM Pro
- XM models feature ultimate flexibility, predictable handling and light weight (under 1,8 kg (4 lb))
- XM Pro models have the same profile and features as the XM models
- XM Pro models are for riders who require superior durability and rigidity
- Sold each

NOTE: Required XS/XSM/XM/XM PRO mount kits not included (sold separately; see the 2020 Parts Europe Snow catalog).

NOTE: Does not include loops, loop hardware or a carbide (sold separately; see the 2020 Parts Europe Snow catalog).

RAIDER DRYSTAR® PANTS v2

- An excellent tailored all-weather textile pant with class-leading internal protection incorporated into its multi-panel chassis
- Features Drystar® membrane for 100% waterproofing and high levels of breathability
- Removable thermal liner allows these pants to adapt to all weather conditions and are fully compatible with Alpinestars touring jackets
- Multi-fabric poly-shell construction for optimal combination of durability, protection and weight
- Strategically positioned abrasion and tear resistant reinforcements offer additional durability
- Class-leading impact protection provided by removable Alpinestars Nucleon Flex Plus knee protectors
- Protectors are housed within internal mesh pockets, allowing them to be adjusted according to rider's leg length
- Hip compartments with Alpinestars Bio-Flex hip protector compatibility for protection in a key area
- Removable thermal lining means pants can be worn in a variety of climatic conditions, adding to their overall versatility
- Pre-curved legs and an articulated knee construction provide high level of comfort while accordion stretch panels on knee provide enhanced freedom of movement
- Elongated rear for greater coverage in the riding position with comfort edges for enhanced rider comfort
- Optimized for use with range of textile jackets, thanks to a full circumference waist zipper
- Dynamic Flow Control (DFC) zippered thigh direct vents allow for personalized and adjustable levels of airflow
- Extended zippered boot gussets with double adjusters ensure a tight seal around the ankle and facilitate fitting and removal
- Integrated high-visibility reflective details for increased visibility
- Hook-and-loop waist and leg adjustments for precision fit in various riding positions
- Premium YKK® zippers used throughout garment
- Hand pockets for safe and secure storage of valuables
- CE Category II PPE Regulation prEN17092 – A class
- Available in men's U.S. sizes S-4X; see Alpinestars size chart on page 40 before ordering

- Heavy poly-fabric reinforcement on the seat area provides high levels of abrasion resistance
- Include perforated foam hip pads for fit, comfort and breathability
- Lightweight and ventilated mesh lining with stretch panel insert for better fit in riding position
- Leather inner-leg panels provide heat resistance, grip and comfort
- 3D injection molded rubber logos and details for additional durability
- Silicone webbing in inner waist helps keep garment in position
- Durable waist-adjustment pull tabs with hook-and-loop closure for a personalized fit
- Inner hip pocket for safe key/coin storage
- Available in men's U.S. even waist sizes 28-40; check Alpinestars size chart on page 40 before ordering

ROOST BASE LAYERS

- Protective base layer with strategically placed padded zones on the shoulder, biceps and chest area, to provide additional protection against tire roost, gravel and small stones
- Compatible with all Alpinestars roost guards and chest protectors
- Knitted construction chassis is lightweight, breathable and provides a comfortable tight fit while being stretchable enough so as not to limit any rider movements
- Knitted construction requires less stitching which increases rider comfort

A-1 PLUS CHEST PROTECTOR

- Extended padding to offer more protection against tire roost without obstructing arm movement
- Removable shoulder pads and back protector for customizable use
- Stone shield and back protectors are constructed from a high-performance polymetric blend for optimized flexibility and excellent weight saving
- The protector's plastic shells are perforated for maximum breathability and cooling ventilation
- Adjustable elastic closure system features quick and easy-to-use buckles that fit a broad range of rider body types
- Thermoformed padded chassis for optimized levels of comfort and close-to-body fit
- Adjustable shoulder straps for optimal fit
- BNS neck support compatibility
- Silicone BNS pull tabs for easy and safe engagement of the BNS system
- Integrated Y-strap system modular use of the back protector with fast and convenient mounting
- Back protector - EN 1621-2:2014 Level 2
- Stone shield - EN 14021:2003

CR-6 DRYSTAR® RIDING SHOES

- Advanced construction consisting of fine mesh plus seamless technology to improve the structure, with specific breathable windows
- Vamp in mesh for enhanced comfort and breathability; higher tongue in Nubuck microfiber for more resistance
- Hook-and-loop strap combined with a traditional lacing system, ensures a customizable fit
- Toebox and heel counter internal reinforcements give structure, support and impact resistance
- Technical rubber rand provides abrasion protection on toe area
- Alpinestars anatomical double-density TPU ankle disks layered under the upper plus external lateral ankle protector TPR provide strategic protection
- Replaceable anatomical EVA footbed with Lycra® lining on top for comfort

- New Alpinestars exclusive vulcanized rubber designed for optimal combination of comfort and grip
- CE EN13634:2017
- Available in men's sizes listed; see Alpinestars size chart on page below before ordering

TECH 10 BOOTS

- Combines dual front and rear blade connectors
- Provides a complete and seamless flexion control system, from the foot shell all the way up to the shin plate
- Engineered to 'float' freely between the lower and upper boot construction
- Asymmetrical, dual pivot arms on boot frame
- A unique feature is the ankle control system developed in the outer shell construction, allowing natural ankle movement, vertical compression control and improved impact protection
- Asymmetrical medial and lateral double pivot system for improved levels of flexibility and precision for both independent and synchronized movement
- Redesigned dual-density TPU rear blade system engineered to prevent hyperextension while offering improved flex control and impact resistance
- Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded poly-foam to absorb high impact energies during a crash
- Features lighter, anatomically redesigned medial and lateral torsion arms
- Double pivot system allows the Tech 10 to retain its integrity while flexing
- Low-profile, pull-on design for reduce material build, less weight and to facilitate easier and quicker wearing
- Innovative flexion inserts work seamlessly with new flex support system for ultimate in performance
- TPU protection and shock absorbing padding on the heel and ankles
- Constructed from a dual density compound and combined with the rear blade system
- Energy dissipating shin plate features a new anatomic design for reduced surface area and weight-saving

- Completely redesigned sole with proprietary grip sculpturing to improve footpeg performance, grip and mud and water runoff
- Exclusive dual-compound sole is seamlessly integrated to the multi-density foot base structure with built-in support
- Slim-line buckles include high-impact bridge closures which are cold forged for precision and strength
- Closure system features contra-closure, doubling closure security and a quick release/locking system with self-aligning, memory, design for easy, precise closure and improved riding performance and security
- Soles and buckles are easily replaceable
- Chassis combines advanced lightweight microfiber and impact and abrasion resistant TPU shell
- Foot shell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity
- Soft microfiber gaiter helps seal out excessive water and dirt entry
- Poly-fabric lining with 3D open cell foam incorporates anti-slip suede in heel area, keeping the foot located inside the boot
- CE EN13634:2017
- Available in men's full U.S. sizes 7-13; check Alpinestars size chart on page below before ordering

ECE 22.05

S-M8 SUPERTech HELMET

- Lightweight outer shell is constructed from technologically advanced composite materials in four sizes for best fit
- Multiple density inner liner
- Fitted with E-2, latest generation of MIPS, integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head
- Visor attached to helmet shell with system that will allow easy release in case of crash
- Adjustable top pad height (Alpinestars's A-Head system)
- Maximized ventilation with 19 intakes and 5 exhaust ports
- Side shell shape coupled with soft EPP foam prevents damage to collarbone in event of crash
- Emergency release and removable cheek pads, 3D contoured foam

- Removable comfort liner, anti-moisture and antibacterial fabrics
- Hydration prepared
- For MIPS protection information, see the Parts Europe Offroad catalog
- Available in sizes listed; see Alpinestars size chart below before ordering
- ECE 22.05 certified

G

COROZAL v2 DRYSTAR® GLOVES

- Durable softshell stretch poly-textile upper with goat leather palm and back hand panels for optimized levels of abrasion-resistance and comfort
- Uses Alpinestars' Drystar® performance material technology
- Over-molded polymer hard knuckle protector offers class-leading protection against impact and abrasion
- Rubber thumb and palm reinforcement gives extra grip on the controls while offering great seam reinforcement
- EVA padding reinforcements on outer hand, fingers and palm provides strategic abrasion-resistance and improved fit
