DRAG PIPES

- Constant-diameter system flows in one unfettered line

CLASSIC DELUXE

- 88,9 mm (3,5") Classic Deluxe muffler bodies are larger and longer with improved looks, sound and performance
- Each system is built and fitted by hand to each specific bike, ensuring hassle-free customer installation
- Available in slash-cut style only

1811-2575

6-INTO-6 SLIP-ON MUFFLERS

FOR HONDA GL1800 GOLD WING 12-17 AND F6B 13-18

- Emphasize the six cylinders that power the classic Gold Wing engine
- Six-into-two-into-six slip-on mufflers each have three separate bodies on each side giving the bike six pipes total; each of the three muffler bodies measures 57,2 mm (2 1/4") in diameter
- Each of the three pipes on each muffler ties into a three-into-one collector
- The gigantic, clover-leaf shaped collector locks each tube into perfect position, while a system of unseen brackets ties the pipes together at the rear
- Designed so each pipe's arched bend matches the bike's bags, creating perfect visual symmetry
- Ends also feature a radical slash cut for an even sportier look
- While louder than stock, they are still well within acceptable sound levels
- Chromed steel construction
- Use stock heat shields

SLAMMER KIT

FOR HONDA CMX1100 REBEL 21-22

- Complete lowering kit includes 267 mm (10,5") shocks with springs and covers, and fork springs
- Easy-to-install fork springs that do not require the removal of forks
- Drop-in fork springs lower front end up to 50,8 mm (2")
- Shocks lower rear up to 64 mm (2 1/2")

DESCRIPTION	PART #
Slammer kit	1310-2290

SLAMMER SHOCKS

FOR HONDA CMX1100 REBEL 21-22

- Made famous by the Burly Slammer Suspension Kit, but now available on their own
- Stubby 267 mm (10,5") eye-to-eye measurement
- Pre-load adjustable to rider weight
- Sold in pairs

DESCRIPTION	PART #
Slammer shocks	1310-2291

330 MM (13") STILETTO SHOCKS

FOR HONDA CMX1100 REBEL 21-22

- High-performance damper with dual springs
- Main spring coil absorbs big hits and prevents bottoming while the secondary coil smooths out minor road imperfections
- Provide a plush ride that's not afraid to play rough
- May require modification to exhaust brackets to open up clearance for belt
- Sold in pairs

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

DESCRIPTION	PART #
Stiletto shocks	1310-2292

FORK LOWERING KIT

FOR HONDA CMX1100 REBEL 21-22

- Springs soak up small road bumps but are firm enough to absorb the big ones
- Reduce front end dive during braking and improve overall ride performance
- Kit includes components to lower bike 25,4 mm (1") or 50,8 mm (2")

NOTE: Requires disassembly of forks.

DESCRIPTION	PART #
Fork lowering kit	0416-0112

FORK SPRING KIT

FOR HONDA CMX1100 REBEL 21-22

- Direct replacement for existing fork springs
- Multi-rate fork springs eat small road bumps and are burly enough to handle big ones
- Springs setup the bike for optimal cornering control and are tuned to prevent bike drive, unlocking the potential of your machine

DESCRIPTION	PART #
Fork spring kit	0405-1196

GT SHIELD BRAKE LEVER GUARD

- CNC-machined high-end billet aluminum body
- Resistant plastic protecting piece
- Due to that mixture of materials, the protector achieves best performance in stability and flexibility where it is needed
- Thanks to offset spacers, it can be adapted to various brake lever lengths
- Downward sloped design leaves enough space to place the hand at the outside of the handlebar
- Compatible to most Super Sport bikes' original handlebars and Gilles Tooling GP Light Clip-ons
- Available in black
- Sold each
- For the full line of Gilles GT Shield Lever Guards see page 624 of the 2022 Parts Europe Street catalog

MUE2 REARSET

- Futuristic design combines high quality with simplified footpeg adjustability
- Footpeg positions as well as brake and gear levers can be adjusted to rider preference
- Fast and easily selectable footpeg positioning is done by a combination of a push and rotatable setting at only one point (five positions through pushing and four positions by rotating)
- Conversion to reverse GP shifting style works through the simple swapping of the shift rod position
- Brake and shift levers come with double ball bearings for perfect free of play function of the levers
- Carbon heel guards on both sides
- Aluminum construction
- For the full line of Gilles MUE2 Rearsets see page 737 of the 2022 Parts Europe Street catalog

SHIFTHOLDER KIT

- Helps to eliminate gear shift problems
- If the gearshaft stands too far out of the gear box, it bends elastically when shifting hard or quick, which is the reason for imprecise gear shifting
- Stabilizes the gear shaft and eliminates vague shifting
- Brass bushing and needle bearing
- Hard anodized titanium color
- Sold each
- For the full line of Gilles Shiftholder Kits see page 739 of the 2022 Parts Europe Street catalog

AXB CHAIN ADJUSTER AXLE BLOCKS

- Unique, innovative axle blocks
- Special bolt enables axle adjustment in both directions
- High-precision chain adjustment
- Precise positioning by graded-scale
- By applying the scale, you can compensate serial tolerances
- AXB stays in the swingarm during rear wheel installation
- Braces the axle against compressive and tensile load
- Easier rear wheel installation
- Available in red
- Fits with the OEM axle nut
- For the full line of Gilles AXB Chain Adjuster Axle Blocks see page 1215 of the 2022 Parts Europe Street catalog
