

VANCE HINES

ADVENTURE HI-OUTPUT 450 SLIP-ON MUFFLER

- Designed specifically for the Revolution Max 1250 motor, the Vance & Hines Adventure Hi-Output 450 delivers a strong increase in horsepower and torque versus the bike's stock Revolution Max exhaust system while reducing overall weight of exhaust by approximately 6 lb
- Cutting-edge baffle design delivers bold rumble while meeting J2825 decibel levels
- 4 1/2" dia. slip-on delivers over 5 hp and 5' lb torque
- CNC-machined billet end cap; 304 stainless steel finish
- Compatible with Harley-Davidson® factory saddlebags and centerstand
- All necessary instructions and hardware included

PART

1801-1492

DESCRIPTION

For 2021 Pan America

QUIET BAFFLES FOR TORQUER 450 SLIP-ON MUFFLERS

- Designed to work with the 17-21 Touring or 99-16 Twin Cam models
- Baffles reduce sound by approximately 2-3 decibels compared to standard baffles; offer a deeper rumble
- PART #1861-1603 has two different sized baffles in kit: works with 2 5/8" (right) and 1 3/4" (left) slip-on inlets for the M-Eight designed Touring slip-ons
- Mounting hardware and installation instructions included

¹ Requires special radio flashing.

DYNOJET**Power Vision****POWER VISION**

- The quickest, most powerful flash tuner on the market
- The sophisticated, yet easy-to-use, 3,5" full-color touchscreen display mounts to handlebars with integrated AMPS 4-hole threaded inserts; also mounts to most aftermarket accessory mounts that feature AMPS 4-mounting options
- The display's interface cable plugs directly to the bike's diagnostic connector (sold separately)
- **NO COMPUTER REQUIRED**; simply select the tune and follow the on-screen prompts to flash the bike; tunes can also be edited directly from the Power Vision
- Utilizes WinPV (Windows PC-based tuning application)
- Stores up to six different tunes that can be flashed to the bike
- Downloads and stores the stock calibration in case OEM restoration is needed; stock calibration can also be saved as an editable copy and used as a starting point
- Dynojet preconfigured tunes are preloaded on the unit; Power Vision will identify the bike's information and automatically sort hundreds of applicable, dyno-proven tunes

- Custom tunes can be loaded by a tuning shop or received via email and loaded onto the device
- Displays all J1850 H-D vehicle data, wide-band air fuel ratio and various calculated channels (including MPG instant and trip MPG)
- AutoTune Basic and Pro calculate and store fuel trims to optimize fuel curve
- Checks and clears diagnostic codes
- Features adaptive trims and idle offset (with bike running)
- Black series features a flat black outer case
- See Dynojet website <http://www.dynojet.com/power-vision-tune-license-programs.aspx> for information about purchasing additional Power Vision tune licenses

MANUFACTURER'S NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
1020-3472	For 21 M-Eight models

PART #	DESCRIPTION
1020-3473	Interface cable for 21 M-Eight models

**KURYAKYN****CARBON FIBER LICENSE PLATE MOUNT**

- Eliminates the bulky rear "floating" turn signal, mudflap and license plate assembly for significant weight savings and a clean, race-inspired appearance
- Lightweight, strong and incredibly durable carbon fiber construction
- Accepts any aftermarket turn signals that mount via M8 stud
- Accepts stock turn signals if properly drilled (template provided)
- If using/mounting Kuryakyn by Kellermann Atto, micro S or Rhombus S turn signals, separate purchase of Kuryakyn M8 x 20mm adapters is required
- Add the Kuryakyn by Kellermann KL1 License Plate Light, PART #2030-1958, to complete the look (sold separately)

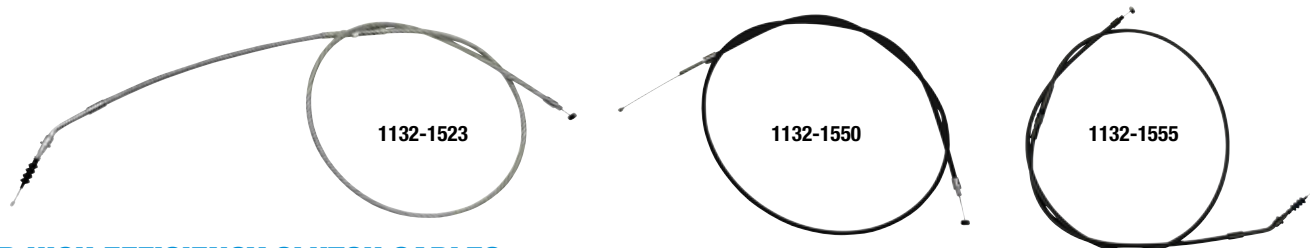

PART #	DESCRIPTION
2030-2068	For 19-20 FTR, FTR S and FTR Rally models

MAGNUM SHIELDING

Quality matters! Magnum Shielding is recognized worldwide as the premier manufacturer of braided brake lines and control cables. Their line of high-efficiency XR clutch cables are now available for Indian model applications! Choose from three different finishes to complement the style of your bike and get smooth, low-effort and improved, consistent feel from your bike's clutch on your next ride.

XR HIGH EFFICIENCY CLUTCH CABLES

- Magnum XR clutch cables offer a great fit and excellent quality at an economical price
- Fitments for Scout, Chief and Challenger models
- Available in stock and plus lengths
- Three color choices; clear-coated stainless with chrome fittings or OE style black vinyl with either chrome or black chrome-plated fittings
- Fittings are polished and chrome or black chrome-plated
- Braided Stainless Steel Cables are coated with a non-yellowing, crystal-clear PVC outer jacket for exceptional protection against scuffing paint or chrome
- Low-effort, high-efficiency cable design for OE type fitment, construction and endurance
- All clutch cables are factory lubricated for smooth, consistent, long lasting operation

EZ INSTALL CLUTCH CABLE EXTENSIONS

- No more need to replace the clutch cable on your motorcycle when installing taller handlebars
- Kit installs in minutes without the need to remove the exhaust system or drain the transmission oil
- Kits do not replace the existing lines; it extends them

0652-2399

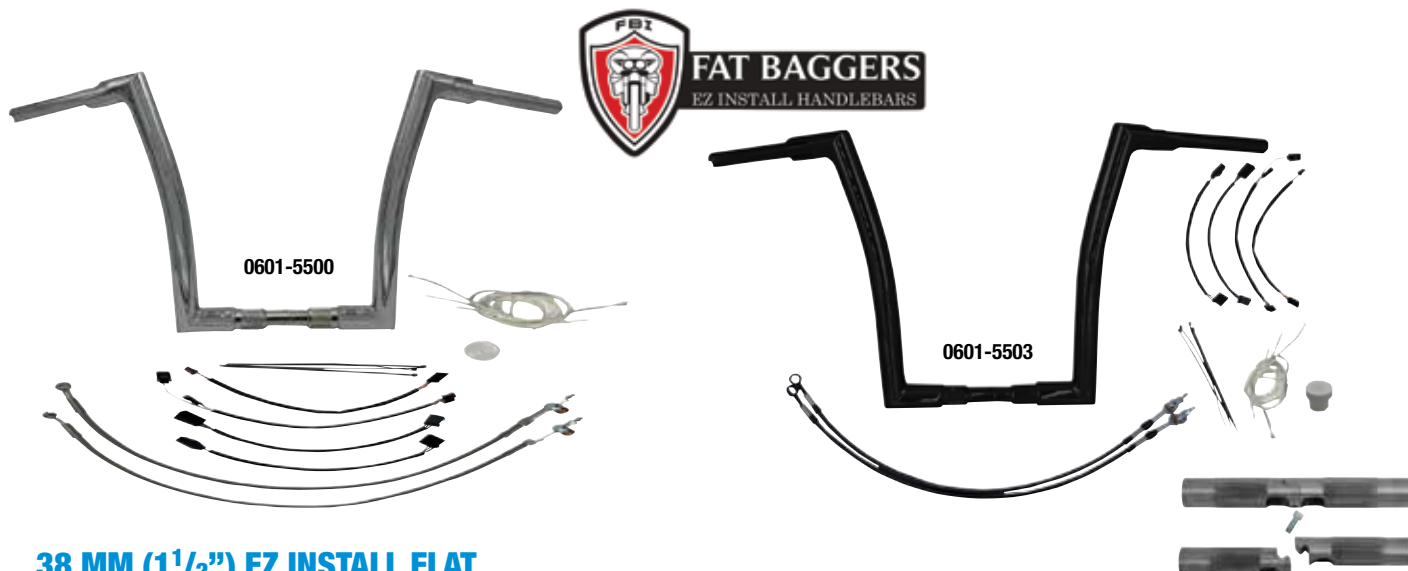

PART

DESCRIPTION

FOR 21 FLHT/FLHTK/FLHXS/FLHXS/FLHXSE/FLHTKSE/FLTRK/FLTRX/FLTRXSE/FLHR/FLHRS AND FLHTCUTG/SE (CABLE CLUTCH MODELS)

0652-2398	10 cm (4") cable clutch extension kit
0652-2399	15 cm (6") cable clutch extension kit
0652-2400	20,5 cm (8") cable clutch extension kit

38 MM (1 1/2") EZ INSTALL FLAT TOP HANDLEBAR KITS

- Revolutionary interlocking, bolt-together, two-piece handlebar design that takes up half the shelf space, is economical to ship and even faster to install
- New adjustable 38 mm (1 1/2") collar next to the handlebar controls for a custom-finished look
- CNC mandrel-bent from 38 mm (1 1/2") diameter x 2,5 mm (0,095") wall heavy tube
- EZ Install - no more need to fight internal wiring; with our handlebars you can install wiring in minutes
- Bars feature billet machined top with a large internal machined radius that allows for EZ pulling of wiring (non-welded top corner)

- Install kit includes everything to install the handlebars in half the time of other kits due to our design that only extends the existing clutch cable/clutch line and brake lines; no need to waste time and money replacing the existing cables and lines
- Black bars come with wire extensions and smooth black braided lines/vinyl cable extensions as required; chrome bars come with wire extensions and braided stainless lines/cable extensions as required (**see note**)
- Gloss black powdercoat finish
- Designed to work with ABS and non-ABS models
- Knurled and notched for TBW applications

NOTE: Kits include only the necessary components needed to install handlebars, based on the model and the height of the handlebar. Certain models and heights of handlebar kits will include brake line extension, clutch line/cable extension and wiring harness. Some of the shorter handlebar kits have only a wiring harness or only a clutch line/cable extension.

NOTE: Some 25,5 cm (10") and 30,5 cm (12") kits are not available for certain models, as these models require only a handlebar change and reuse the existing brake and clutch lines.

NOTE: Accept OEM heated grips.
