FUELPAK FP3

- The Fuelpak FP3 has revolutionized fuel management for all new Harley-Davidson models using the HDLAN system
- Connecting wirelessly by Bluetooth® to any iPhone® or Android Smartphone, Fuelpak FP3 uses Flash technology to recalibrate engine parameters and mapping for exhaust systems and other performance upgrades downloaded from the expansive library of calibrations developed by Vance & Hines
- Also standard for the Fuelpak FP3 is an AutoTune feature, making use of all factory sensors to add another layer of precision tuning for specific requirements, whether tuning for unique components or different grades of fuel
- With the Fuelpak FP3 module plugged in, Live Sensor Data can be viewed through the smartphone to display speed, rpm, cylinder head temperature, voltage, gear selection and other vital information
- Features smartphone app user interface
- Displays live sensor data; PART #1020-2538 excludes fuel economy, average fuel economy, gear and odometer

PART #	DESCRIPTION

FUELPAK

- Throttle position sensor-based system simplifies the process of fuel-injection tuning
- Enables you to fine-tune the fuel mixture throughout the entire rpm range with the touch of a button
- Increases power and improves throttle response
- Very user friendly; plugs into the existing harness on the bike
- No computer or software is required; simply punch in the values provided on the Vance & Hines website
- Values provided are for use with Vance & Hines exhaust systems
- Fuelpak will also work with other exhaust systems (contact V&H tech support for tuning information)
- All necessary mounting hardware included

NOTE: Requires the use of a high-performance air filter.

CUSTOM BATTERY CABLE KITS

- Build custom-length cables for an exact fit
- Each kit contains the following: 7,6 m (25') cable (1), 1/4" terminals (20), 3/8" terminals (8), 5/16" terminals (12), black heat shrink (40) and red heat shrink (12)
- Using 30,5 cm (12") cables as an example, this 7,6 m (25') custom cable kit will make 27 cables (a 30,5 cm (12") cable uses 28 cm (11") of cable and two terminal ends), for a substantial savings over precut lengths

NOTE: See of the Parts Europe Tire & Service catalog for Drag Specialties crimping tool.
