

SPEEDSTER SHORT SWEEP EXHAUST SYSTEMS

- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Swept system is a shortened version of Cobra's successful Swept Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility

NOTE: Swept exhaust requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

PART

1800-1378

DESCRIPTION

For 00-06 FXST/FLST models

SPEEDSTER SHORT 909 2-INTO-2 SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Shotgun-styled pipes
- Large 2,5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome or black finished heat shields
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- O₂ bungs installed

EL DIABLO 2-INTO-1 EXHAUST

- Uses equal-length exhaust headers mated to a cone megaphone muffler
- Collector is one-of-a-kind that is placed in front of the footpeg
- This design is the most efficient mating of exhaust gases to help generate more power
- Rear cylinder header pipe runs forward and wraps around the timing cover for a sleek look
- Improves oil dipstick clearance
- Machined aluminum exhaust tip is powdercoated black and has an etched Cobra logo
- Exhaust tip's reverse cone shape complements the upswept cone muffler
- Have 4" megaphone muffler bodies
- Full-length heat shields

NIGHT ROD-STYLE HEADLIGHT KITS FOR SPORTSTER S

- Kit includes an LED headlight, headlight mask and mounting bracket that provide a V-Rod/Night Rod look
- Replaces the original narrow LED headlight
- Headlight mask is made of high-quality ABS plastic (no GRP)
- CNC-lasered headlight bracket carries the LED headlight and the mask
- Provides a more aggressive look - the bike looks deeper and longer
- The LED headlight must be soldered to the original wiring harness of the headlight
- All the holes needed to attach the mask are already there
- All changes are mounted on the original breakpoints, thus ensuring a firm and secure hold
- The headlight can be adjusted, just like the original
- Available with a gloss black finish or a surface ready for painting

2001-2534
